BONES ARE FOUND IN PERRY COUNTY

Leads to Discovery of "Lost" Man

countian, last week led to the finding, in Perry county, of the bones of a man, missing from his home for 14 county, died after being brought to years. The confession told of the man's slaying five years ago.

The confession, said to have been made by Slade Smith, of near Hindman, told of the killing of John Combs, who was 28 years of age at the time of his death, with an axe and of the hiding of the body in a worked out section of the former Daniel Boone Mining Company at Hiner. ago. Smith, it is alleged, said the axe, a watch and a pistol would be found by

Troy Couch, of Combs, an employe of the county, was appointed by the Perry fiscal court to investigate the abandoned and water filled mine. Couch has charge of a group of prisoners who are draining out the mine and digging for any remains.

Two ribs, a shoulder bone and some human flesh had been found by workers since they started their investibreast pocket. The others wounded gation one week ago. The bones and flesh have been identified by doctors as having been from a human being, according to Couch. The flesh had been completely covered with water in the mine which was overflowing when workers started and it was the opinion of the doctors that the water and lack of air in the mine would have preserved the flesh for an indeterminate number of years.

> Couch said this morning he expected completion of the draining of the mine would be in the next couple of days and final search for the remains made. Deputies have been guarding the entrance night and day and have been forced to drive prowlers away,

> Lester Jones, implicated in the confession, was arrested and placed in jail in connection with the case.

An Appreciation

Floyd Post, American Legion, did not go "out of town" for its printing of the Legion Catalog which it proposes to distribute in connection with the forthcoming Legion district convention. "We appreciate the publicity THE TIMES has given us, and we want you boys to do the printing," they told us.

It is, of course, any newspaper's duty to print the news; and THE TIMES was glad to publicize the Convention.

YET RECIPROCATION, AS PRACTICED BY THE AMERICAN LEGION, IS CONSIDERED BY US AS AN APPRECIATION OF OUR WILLINGNESS TO HELP—AND WE CANNOT BUT APPRECIATE THIS SPIRIT.

More than that-

It was learned, after all, that our price was CHEAPER than that of an "out-of-town" printer.

If you find that THE TIMES is doing a worthwhile job of it, that the newspaper means something to Floyd County and you, AT LEAST give us the opportunity of figuring with you on that next printing job—any job, large or small.

Flayd County Times

OFFICIAL ORGAN FOR FLOYD COUNTY, KY. Payable In Advance \$1.50 Per Year

NORMAN ALLEN ... JAMES B. GOBLE,

... Associate Editor

Entered as second class matter June 18, 1927, at the postoffice at Prestonsburg, Ky., under the Act of March 3, 1879.

THE TIMES ENDORSES

 Floyd county for Floyd countians.
 Immediate completion of the Left Beaver and Johns Creek road.

3. Completion of all Farm-to-Market roads, by W. P. A. labor if possible, maintenance of these routes by the state rural road fund. 4. A trade-at-home policy followed by mer-

chants and customers alike. 5. Full co-operation with all county and city officials, insisting that lawmakers and enforcement officers themselves obey the law to

6. Continuance of the Floyd county health department and county agricultural agent

OPPORTUNITY SUGGESTED

If Lexington and Louisville and Huntington business men can afford a trip of from a hundred to two hundred miles to towns such as Prestonsburg, Paintsville and Pikeville in the interest of goodwill and business progress, why can't Prestonsburg business men go out into their own county as boosters of Prestonsburg?

Why can't we, for a change, be boosters instead of "boostees?"

An effective boosters' club could easily and quickly be organized, a tour of the county made, accompanied by a band and a few speakers.

Then let the boosters stop in each Floyd community, and while the band plays, distribute their souvenirs to the kiddies. Have the speakers welcome our own people to Prestonsburg---not only for special occasions (the American Legion district convention would be a good time to start) but to come at any time---and promise them service and friendship. Then, when these Floyd countians come here, show them that no idle promises were made.

Much goodwill can be gained by such tours. Much goodwill and BUSI-NESS-business that is now going to other counties simply because Prestonsburg business men have made no concerted effort to receive it.

True, the first such tour may bring no overwhelming results, but it should when coupled with the Legion convention or some similar occasion.

And it will cost very little to make successive tours. Only a small amount of money for gasoline and souvenirs--that will be the total outlay against a return of goodwill and business never before attained by Prestonsburg. Even the tours themselves will be nothing but a grand picnic for the business men and band members.

In the past all Prestonsburg business has needed to fill the full role of RECEIVER and never that of the

TIDBITS

OF KENTUCKY

FOLKLORE

A CYCLE OF HOUSES

boxed house, then the framed house

-that would summarize many a

family that I have known and at

the same time summarize three

whole periods of American history.

In the very nature of things this or-

der is the one to be expected; our

stage of development could not

When the pioneers came to Ken-

tucky, forests were nearly every-

where. Saws were then unknown,

cross-cut saws, I mean. The axe,

that great tool of civilization, was

the companion of the gun. From the

native forests the trees were cut

and built into a cabin, rude and

small at first, but growing, as eas-

ier times came on, until one might

build a log mansion. Such a one is

the home of the late General Simon

Bliver Buckner, in Hart county.

Between these two extremes are all

the combinations of the simple log

pen, the two rooms in front and a

dog-trot between, the two-story

front with an L. When saws became

more common, and especially saw-

mills, weatherboarding and ceiling

covered over many a log house that

today may be on the fashionable

The boxed house rapidly grew

up, partly because of the accessibil-

ity of sawed lumber and partly be-

cause of the ease with which such a

house could be built. With some cut

nails and a hammer, most any ama-

teur carpenter could build such a

house. The simplest form was

made of undressed lumber and

stripped. There is still something

very gratifying about the sight of

such a house when it is properly

street of a good-sized town.

have decreed otherwise.

First the log house, then the

GIVER was a handorgan and a monkey. But let's make that the dead past. The goodwill that is built upon service and friendliness is necessary for this and any other town that hopes to sur-

As soon as Floyd countians are shown that we, in their county seat, are sincere in our wishes for their welfare,--- are shown that they are wanted here in order that WE MAY SERVE THEM, not that they may serve us,--we will be repaid a hundred fold, creating between Prestonsburg and Floyd county a spirit of friendliness never before attained.

If Prestonsburg merchants will but make a few sacrifices by making these tours, by attempting to serve Floyd countians in any and all needs; by making concessions and showing that they are not wanted here just for a business profit; and by having special attractions for them---we Floyd countians will have gone a long way toward solving our economic problems.

Isn't this worth a trial?

BITTER-SWEET

Now, let's eschew the vitriol, the wormwood and the gall. Let us view Prestonsburg for the nonce through rose-colored glasses-even turn Polly-

If we can't praise some things, our eyes will be closed to them. We're temporarily wearing a big booster badge.

Prestonsburg is named for John Preston, pioneer surveyor and contemporary of Boone. It is the county seat of the mother county of all Eastern Kentucky, a county which originally extended as far north as Maysville on the Ohio river. It was named for an illustrious, Kentucky soldier-governor --- John Floyd.

In its courthouse may be found some of Eastern Kentucky's oldest and most interesting records, though some of these have been thoughtlessly destroyed. Almost every week visitors here peruse these ancient and yellowed documents.

The stranger whose eyes are unsurfeited by the spectacle of towering hills and the natural beauties of the section which are commonplace to us is delighted with the town. And, lest we, who should not, do forget, let us remind you that the town has its

There's the old colonial residence of C. P. Stephens---known as Garfield Place because it was, for a few days in the '60's, headquarters of General James A. Garfield, later President of the United States. Don't stop with a glance at the residence from the street. Stroll around and see what was the front of the house in the days when the river was our only highway; you'll see in it the nearest thing in these parts to the old Southern portico-ed home.

From whatever angle viewed, the home of B. F. Combs is a thing of beauty. On the Mayo Trail side of the residence is living, flowering proof of what industry and planning with an

built, a something that has made it

reappear in many summer cottages

in our own times. More elaborate

boxed houses were weatherhoarded

and ceiled, and even painted. Some

parts of the state today have many

of these houses, ranging from very

small cottages to really elaborate

With increasing ease of life and

desire for comfort, men began to

build frame houses. Local customs

largely determined the size, plan,

and materials. Whole neighborhoors

were regions of the standard

"big" house; two rooms in front

and a hall between, both upstairs

and down, with an L of one story.

In New England the gambrel roof

was common, but in this part of

the world it is rarely seen. This

sort of big house usually had a

chimney at either end, with fire-

places on each story. There is noth-

ing rare about this kind of house,

for the carpenters did their work so

well that hundreds of these

symbols of respectability and rural

The furnishings suited the type

of house. Americans have been for-

ever changing from the older to

the newer. The log cabin had its

crude and meager furniture; the

boxed house added somewhat to

this; the frame house would have

been ashamed of itself if it had

not been furnished in the latest

style. Rather humorously, some of

the best furniture that Kentuckians

ever had was discarded as old-fash-

ioned when the family moved into

the frame house, furniture that was

later found in the store rooms or

smokehouses and valued as an-

Of course the brick and stone

houses came along in the natural

course of events, but they never

have been, until recently, any very

large part of Kentucky rural life.

Hardly a neighborhood exists that

does not have some one or two old

brick mansions, rare in their early

days and quite as rare in some

prosperity are everywhere.

houses.

eye to beauty may do-a flower garden and velvety lawn where once was little more than a swamp.

The grounds of the Lon Moles and late Judge Goble homes are not mere front and back yards---they're panoramas of bloom. Nearby is the old Hopkins residence, now owned---and restored to the beauty which becomes its years---by Judge E. P. Arnold.

Up the street is what is said to be the nation's most singular building--the imposing stone building erected by the late Walter Scott Harkins and used only as a law office, now occupied by his son, J. D. Harkins. Nearby is the Harkins home and others, and their occupants have contributed to the charm of the scene by flower-gar-

Walk along any street in town--you'll find many other such spots.

No, Prestonsburg isn't a bad town. If this is too saccharine for your taste, glance back over this same column in preceding issues of The Times, take the bitter found therein, mix, shake well---and you may get a taste of the real Prestonsburg.

A RIVER VALLEY WITHOUT A ROAD

We may be wrong, but we believe Floyd is the only county in Kentucky which has a river in the valley of which there is no graded or surfaced highway.

The river? Johns River-Johns Creek to most of us-yet a river by all the rules, since a recent survey shows it to be a hundred miles long.

Now that Left Beaver's highway has been let to contract, the rural road fund is being expended on Middle Creek and many farm-to-market roads are being built by the WPA, it would appear that Johns Creek---or River--merits attention.

No thought of the approaching primary should enter into consideration of a road for that section, one of the finest in this section. Floyd county has been refunded the balance due Johns River from the highway commission, and this money should be used now to the valley's greatest benefit.

Our officials owe that not only to Johns River---or Creek---but also to all Floyd county.

A Courier-Journal editorial writer asks, "One of Kentucky's candidates for the United States Senate suffers from indigestion and 'his condition is satisfactory,' but from whose point of view, please?"

In papers throughout the country a search is being launched for the gifted, scintillating, original genius, who can differently write the expression, "Mother and babe are doing well."

The Estill Herald wonders, now that a man is provided for by the C. C. C., and the old-age pension law, what on earth he can do to support himself between these stages?

Pikeville-Memorial Day will be observed here Monday, May 30, by Pikeville Post No. 83, American Legion, with a parade and appropriate services at the grave of a veteran in Pikeville cemetery, Jess Saunders, commander of the post, an-

Harlan Scribe Tells Of Jesse Stuart

Everybody's talking about Jesse Stuart's "Beyond Dark Hills" Jesse days. This young Kentuckian from the hill country just north of us seems to have become something of a celebrity.

I haven't read his latest book, which-of all things-is an autobiography of a man not yet 30 years old. But I did read his "Man With the Bull Tongue Plow" book

of poems when it came out a few years ago, and several of his short stories as they have appeared in magazines. There's an originality in Stuart's work, all right. The originality of the man who is strictly himself and who confines his writings to such things he knows intimately. As for his type of fiction, I can't rave. It leaves me slightly cold as often as it warms me. His poems are often bits of sheer exuberance.

But there's one thing about young Stuart which warms me toward him personally more than anything he has done yet. That is his loyalty to a weekly paper published at Russell, Ky. Stuart has been in Scotland and England several months now, on a literary award he won. And each week he writes an article for The Russell Times.

Stuart doesn't send any dead cats back to this little Kentucky paper, either. He doesn't palm off any weak literary scum. He does a real, honest-to-goodness column in his own style. So far as I know, this is the only paper in the United States getting this column. The Russell Times cannot afford to pay Jesse Stuart the fancy price that his work commands. In fact, I doubt if it pays him anything.

But it just goes to show that this young Kentuckian is the genuine article. He may not be a great literary figure. Time will have to be the judge of that. But he happens to be the rage of the hour; and as such, he commands his price. In the face of this, however, he remembers the weekly newspaper back home which once gave him space and encouragement when he needed both. I like that kind of a guy, even if I can't work up a lot of steam over some of the stuff he writes.—Harlan Enterprise.

CAESAR'S TRAFFIC PROBLEM

One of Caesar's worries along about 50 B. C., gay young charioteers would drink too much wine and cut up on the highways just as some of our reckless young motorists do today. So they made traffic

Camillus in 396 B. C. and Caesar in 50 B. C. were vexed by the same problems as America today, even to women drivers and speeders. Imperial Rome had its one-way streets and prohibited downtown parking.

Yes, Caesar and his Rome had a traffic problem to deal with and they dealt with it in a surprisingly modern way!

The average motorist who goes to his office an hour early to find a parking space may think of traffic as having reached the "problem" state only in the last few years. But he is wrong. Traffic has been a problem throughout the ages. With regard to efforts to solve this probom, there is nothing new the sun. Absolutely nothing! The most "modern" solution had its origin back in the days when Vergil was estimating the tragic cost of civilization's progress.

One might ask: "How about women drivers?" That part of the problem certainly did not exist in those days." But it did. Very much so. In truth, of the historic variety, the very first traffic regulation on record deals with the phenomenon which is so essentially modern. It was back in 396 B. C. when Camilium law at that time gave women drivers unrestricted rights to drive their chariots through the streets of Rome. After about 200 years of agitation against women drivers, there was written into the famous Lex Oppia, passed at the time of the Punic War, a prohibition against women's ownership of chariots. This restriction created a furore and they were incensed over the loss of their chariots and the right to drive them themselves.

Many years after the Lex Oppia was enacted Marcus Porcius Cato, thoroughly perturbed by the threat of violence on the part of the women, mounted the rostrum. In a speech, the text of which is lost to the world, he made a flaming plea for women's rights, and as a result his fellow lawmakers decided to grant them.

So much, for the moment, for the historic origin of the phrase, "It's only a woman."

IS YOUR CARE SAFE TO DRIVE? ARE YOU?

PREYED

The police reporter last night wrote a story concerning the theft of a money box from a negro church in the city and went on to say that police suspected a man who entered the church to "prey," of having ing committed the crime. And, anyway you look at it, the police in all probability are right! - "Good Morning" in Lexington Herald.

ROUND KAINTUCK

WITH SCISSORS 'N' PASTE

DYNAMITERS

Thinking people have no sympahy for the criminal who plans the destruction of fish by the use of dynamite. His nefarious act most closely approaches that of arson; a deliberate and well laid act of destruction, and wherever the crime against decency, law and the fish kingdom is committed, the machinery of the state and government should be set in motion and kept going until the assassin is brought before the courts for trial.

The local fish and game association, backed by the State Fish and Game Commission, has made a determined effort to re-stock Drake's Creek with fish, and if it were possible to have the law obeyed their work would prove highly success-

Drake's Creek rises in Sumner county, Tennessee, and empties into Barren River in Warren county.

Last week, fish weighing around a pound floated past the pumping station, dead from the destructive explosion of dynamite. The deadly explosive was thrown into the stream either in Sumner county, or in Simpson county. If in the former named, it is a problem for solution by the game warden of Tennessee, but on the other hand, if the crime was committed in Simpson county, the course of Charlie Stark is too plain to need a waybill.

Hundreds of dead fish-loot of dynamiters-were to be seen at the dam near the filtration plant Mon-

PUNCTURES OF YESTERYEAR

Do you remember when an at mobile owner considered hims very fortunate if he made a fiftee or twenty-mile trip without a puncture? Such questions as this were asked in a conversation in Campbellsville last Friday.

It has not been long since a puncture-less trip was considered a feat of large proportions, ilttle more than a decade ago. The advances made in the production of better automobile tires in the last 10 years have been notable.

Most all our readers will remember hearing automobile drivers boast of "going to Lebanon and back and only had three punctures."

Greater advancement has probably taken place, however, in the improvements of automobile engines. It has not been long since motorists boasted, "I went to Greensburg yesterday and only had to change gears once." Of course, now one seldom encounters a hill that cannot be taken in high and a puncture now-a-days is consi a stark tragedy by practical motorists. — Campbellsville Journal

AWARDED CHILD

To Grandmother As Mother Loses

A two-year legal battle between Mrs. Margaret Cook Johnson and Mrs. Liza Cook, mother and grandmother, respectively, of five-year-old Ralph Cook, Jr., at least temporarily ended in the Floyd circuit court last week when Special Judge J. B. Hannah awarded the grandmother custody of the child. Counsel for the mother indicated that the case would go to the Court of Appeals.

The grandmother, widow of Seland Cook, contended that she had cared for the child since infancy and that proprietor) is applying for license to the mother, widow of her son, Ralph sell beer at retail at his location at the Cook, had married a mere youth. In junction of Routes 23 and 80, near Althe courtroom, the child's displays of len, Ky. affection were for the grandmother instead of the mother.

Both women were widowed by gunfire-Mrs. Ralph Cook when her husband was fatally wounded by a pupil in the Jack's Creek school May 30, a 10-pound son. taught by him and his father. Seland Cook was seriously wounded at the same time, but recovered to be slain

MRS. BYRD WALKER DIES OF CHILDBIRTH. RITES HELD SUNDAY

Funeral services were held Sunday for Mrs. Byrd Walker, 38 years old, who died in childbirth the preceding dat, at her home on Brandy Keg. The Rev. Isaac Stratton officiated.

She was buried, with her unborn babe, in the Mayo cemetery under the direction of the Arnold Funeral

A daughter of the late Dr. John Goble, she was one of Brandy Keg's best citizens. Her mother survives.

In addition to her husband, Byrd Walker, she is also survived by three small children and the following brothers and sisters: Frank, Bill and HALF SOLES, 50c and up

FUNERAL RITES HELD FOR GARRETT MINER KILLED IN SLATEFALL

Crushed by a slatefall in the Elk Horn Coal Corporation's No. 27 = mine at Garrett, Faro Slone was instantly killed last Thursday, the PLAY BALL second son of Joe Slone, Garrett, to be killed by mine slatefalls within 18

A large crowd attended the funeral services held in the Churcr of God under the direction of the Ryan Funeral Home.

In addition to his father, Joe Slone he is survived by his wife and two small children. Names of other relatives are unavailable.

Federal Music Project

song is something that only can be The shadows all fall bias. found in rmeote Appalachian districts, I find I cannot think thoughts where men pin their galluses to their pants with "waller-pegs," is just a

The federal music project has

The project, the record in Washington shows, already has gathered up around 2,500 folk songs and tunes. It gathered them in a hurry, according to Harry Hewes, project supervisor, because radio, movie, motor car and such were theoretically snuffing

But trickling into the offices came a small but definite stream of new songs definitely of the people, often created out of loneliness, to make fun-just as the older folk songs were includes everything from survivals of ley for re-nomination. Stewart is made. This from the Tennessee val-

"My name is Williams Edwards, I live down Cove Creek way; I'm working on the project They call the T. V. A. The government begun it When I was but a child, But now they are in earnest And Tennessee's gone wild!"

There's more, but that will do. It was sung to Miss Jean Thomas, the The home of the bedbug, grasshopper well-known authority on folk arts, by a man whose name wasn't Edwards I'll sing of its praises and tell of its at all, but Jilson Setters.

This sort of think impressed the government researchers, but didn't convince them. After all, the song same out of a section which had a tradition of folk music going back two or three centuries. But California has no folk tradition, barring some shreds brought in by the Mexicans. Yet these excerpts are from a Cali-

'Shorts to the right of us, Shorts to the left of us, Shorts out in front of us-Oodles of them.

"I must sew carefully, Thoughtfully, prayerfully, Never sew swearfully, Each pair a gem.

'For knock-kneed and bony folks, Real, plain and phony folks-Highbrow and tony folks-Through days of strife.

"I'll never have a chance To find a sweet romance

Sewing seems to breed song. The supervisor of a Kentucky project spent much time trying to teach a woman the meaning of "bias." As a reward, the supervisor heard the W. Va., to see her brother-in-law, original version of a song that may survive. This is part of it:

LITTLE CHATS ABOUT YOUR HEALTH

Courtesy of Hughes' Drug Store

PREVENTING WRECKS BETTER THAN CARING FOR WRECKS

Railroad executives pride themselves in the fact that travel is constantly being made safer more than in the fact that they are better than ever equipped to take care of wrecks.

Physicians are also better than ever equipped to correct serious ills but their great work lies in life extension-in preventing health "wrecks." Your doctor can help you to live longer and happier if you will give better bred stock and more attention him at least an opportunity each year to make a thorough physical exam-

Consult him oftener. It is a common sense plan which insures dividends out of all proportion to the time and expense involved.

We are prescription druggists and provide the highest type of service whenever prescriptions are to be filled.

HEARS IT'S ILLEGAL TO SPEAK ENGLISH

Chicago-If it is against the law to speak English in Illinois, State view of the driver. Representative Charles H. Weber wants to do something about it.

Weber revealed tonight he had just finished reading a compilation of odd laws, prepared by Lyman E. Cook, St. Louis attorney, which includes the one about spoken English being against the law in this state. He has asked Cook, a personal friend, to prove that such a law exists so he, Weber, can have it repealed.

And there are other laws Weber Tuesday, June 7, is the last day on would like to erase from the books, For all kinds of glasswork, furniture ing application for license to sell which a person can register in order including the Chicago city ordinance whisky at retail by the package at to vote in the primary on August 6. against kissing in public parks, and her location on East Bridge street, This applies only to those who have another one making it a misdemeanor to feed a dog whisky. JAMES L. CLARK OBITUARY

James L. Clark, son of Attison and PRESTONSBURG. KY. Jane Clark, was born in Floyd county, Ky., Nov. 25, 1865.

He was united in marriage to Mary Herald on March 26, 1891, and to them were born seven children, one of whom, Dora, died in infancy. The six now living are: John W., of Williamsburg, R. F. D.; Dallas W., of burg, R. F. D.; Ethel B. Newberry, Mt. Orab, R. F. D.; Murfa L., of Lebanon, O., and Reuben Leon, of Cincinnati.

He leaves to mourn his departure, the widow and children above mentioned, nine grandchildren, one brother, J. C. Clark, of Betsy Layne, Ky. two half-brothers, Thomas Clark, of Wonder, Ky., and Burris Clark, of Lexington, Ky., and two half-sisters, Mrs. William Goble and Mrs. Robert Harvel, both of Gulnare, Ky., and a host of friends who hold him in high

He was preceded in his departure by his parents, two sisters and the little daughter who had gone on before to await his coming and welcome him to his better inheritance.

Brother Clark was converted and united with the Methodist Episcopal Church, South, at Woods, Ky., in the year 1900. Removing to Ohio, he and his wife joined the New Harmony Methodist Protestant Church, in the community in which they settled, the game of politics, suffering from where he was faithful in his duties the appointment of political appeinso long as his health permitted.

It may be said that his greatest field of usefulness was in Sunday School work. He was superintendent uninformed and inefficient. The infor more than a third of a century, and was only released from the office when no longer able to assume its duties. As a teacher, he prepared will save millions of dollars in years his lessons well and earnestly strove to come, because a large number of to impress spiritual truths upon mental patients will be cured and those under his instruction. As a husband, he was a loving, faithful and true companion. As a father, he was elected for the special session, sought to bring up his children in which lasted six days. Serving as master of ceremonies,

Mountain Dew And Bluegrass Poker

Mr. Yellman, completing his speech after telling an anecdote concerning the Eastern Kentuckian's hatred of water for drinking purposes, sat down in the circuit judge's seat-to the accompaniment of poker chips rattling to the floor from his pockets. Mr. Nunn graciously restored the lost articles, allowing them to trickle through his hands that they might be identified by the audience. (Editor's Note: Or did Mr. Nunn, himself, toss the poker chips under Mr. Yellman's seat?)

Arriving here in a special train of air-conditioned coaches, the Lexingtonians were met at the West Prestensburg depot by a transportation delegation of local ritizens, led by Louisa; Martha J. May, of Williams- Kiwanian K. W. Fife, Judge E. P. Arnold, and Chief of Police Lee P.

The delegation led a parade route through town before assembling at the courthouse, where after the program was completed, the visitors were taken back to their special train.

The special session is over and a new era is starting for the mentally ill in Kentucky. The bill, as reported last week in

this column, was passed with but few minor changes. The cost for the rest of this year will be \$300,000, and for each year thereafter \$500,000. The bill was passed unanimously by both the House and Senate, with little debate and no opposition.

The inmates of state institutions have in years passed been pawns in tees, who were usually given their jobs for the number of votes they could swing, and in some cases were mates were confined and did not receive the skilled technical treatment that the new law provides. The State discharged.
