

# SHIKE'S POKES

(Views expressed in this column are those of the writer and not necessarily those of The Times.)

I guess everyone is aware of the fact that the United Mine Workers will have a new president after Nov. 5. He staked his future on Wilkie and attempted to bestow the kiss of Judas on the brow of our organization but we had more sense than to be sold down the river to satisfy the Weirs, the Girdlers, the Fords, the Lindberghs and the John L. Lewises. John L. Lewis has turned out to be the Judas Isacriot of the CIO. District 30 of the United Mine Workers has bolted from his leadership. We intend to ride on Main Street with FDR, not walk on Wall Street with Wilkie—and, just to go a little farther, "We will not be loafing with Lewis."

You know, it's hard for us miners to believe that John L. has deserted us for Wall Street and Big Business and we had to hear him to believe it. The only people in this section that J. L. Lewis' speech appealed to were the "Ex-Hoover soup kitchen operators" and they had cussed him for the past 10 years.

That Mr. Dawson who is running for Governor of West Virginia is always in a hell of a fix. First, he said that 75 per cent of the people of his state wanted Taft and that the other 25 per cent didn't want Wilkie. Then Wilkie got the nomination—Dawson got off that one somehow—and I have heard Mr. Dawson make two speeches in the past two weeks and all he could yell about was that if the Democratic ticket was elected John L. Lewis would take over the state of West Virginia. Now, what in the hell will he talk about?—John L. is in HIS bed now.

We fought John L. Lewis' battles in Harlan county and ELEVEN of our Union brothers lost their lives because

we believed in his leadership. We finally succeeded in organizing that county through the help of the federal government and right now in Harlan county every miner makes it known that he will support FDR—his card is removed from the poll books so that he will be unable to vote. John L. Lewis by his endorsement wants us to condone this and the men responsible for it—we will not follow Lewis into the camp of our worst enemies.

Boy, if a miracle should happen it would be one h— of a parade down Pennsylvania Avenue—Wilkie, Lindbergh, Sheriff Middleton, Girdler, John L. Lewis, Ford, Weir, Holt and other enemies of organized labor. Now I'm asking you—would that be a place for a coal miner? Any one with half sense knows that it wouldn't.

John L. Lewis' signing up with his and our enemies reminds me of a story I heard a while back about two brothers—one real brilliant and one not so smart. The one not so smart owned a pet goat with shaggy eyebrows and a bull neck and a roaring "bawl." The goat was named John and the boy loved it with an almost undying devotion. The father died and left the two boys 99 sheep to be divided equally among them. The smart boy hit upon a plan to get the best sheep—he picked out 50 of the best ones and put them in a pen, then he put the 49 scrubs and the pet goat in another pen. Then he told his not so smart brother to take his pick of the two lots. The boy noticed his pet among the scrubs and culls and then, eyeing the 50 good sheep, he busted out crying and, pointing his finger at "Johnny," he said, "I loved you like a brother, there was nothing a wouldn't do for you, but now you have got in bad company and oh-oh-Johnny—now you can go to hell!"

John L. Lewis cannot give one reason why a coal miner should vote for a utilities executive. The United Mine Workers, a great organization whose officers in District 30 are commendable, did not go out on a limb, so when the limb breaks on Nov. 5, it will not be the UMW of A that will fall but—John L. Lewis.

Since John L. Lewis' speech, the mining camp of Drift will turn out the largest majority in its history for FDR—wanna bet?

In the UMW of A meeting in Ashland, on Saturday, October 26, of District 30, the delegates and officers in this district left no doubt of where John L. Lewis stood with them. I heard a reporter for the Ashland Daily remark in the lobby of the Henry Clay Hotel that "Boy, I wouldn't have believed it if I hadn't seen and heard it, but 90 per cent of that crowd upstairs is for FDR against JLL."

Hedge Daniels is now known as the "Silk Stocking Boy" and I just wonder where he got the name.

The recent Floyd County Fair in my estimation was a huge success and the best ever. More power, next year.

Well, the "Better Half" finally fig-

ured out a name for the Twin Shike-pokes. Their handles will be Charles Dale and Jenny Gall.

Time for the lottery for the draft—and those dumb dictators feel bad, they have missed the boat again—the hawk will light, even if they even act like they want to be tough with us.

One thing about the present campaign—it has helped get rid of all the "Ancient Eggs" and "Stale Fruit."

If John L. Lewis should come to Beaver Creek to speak now—no miner would have any eggs for breakfast.

## Maytown School News

The most successful Hallowe'en carnival ever conducted by the Maytown school was held here Friday night under the management of Miss Harriet Allen and Oliver Ratliff, and sponsored by the P.-T. A.

A large crowd was in attendance and fun for every one, children and adults, was provided for by fish pond, fortune telling, crazy house, etc. Careful planning and practicing of economy resulted in a record return financially. Most money turned in from any one booth was from the one in which bingo was played under the direction of George E. Allen and Roger Stewart. Second largest return was from the fish pond, with Miss Opa May and Carl Ferguson in charge. The dance receipts exceeded those of all others.

Good barn dance and round dance records were loaned the school by Arnold Cooley and Okla Branham. Junior and Clyde Patton operated the phonograph and amplifier of the sound system.

All teachers and many parents donated their services or made contributions of candy, sandwiches, or novelties.

The series is sponsored by the Martin-Beaver Co-Operative Business Association and is conducted by Charles Milby, teacher-coordinator of the Mayo school. Mr. Milby also conducts a class in practical salesmanship at the Garrett high school on Monday evenings. Another class in the same course is proposed for Wayland.

## Squirrel Season Ends Today

An unusually good squirrel hunting season ends today (Thursday).

The 78-day season which opened on August 15 has been proclaimed by many squirrel hunters as the best in many a moon because of the plentiful supply of the bushy-tailed animals that were found in practically every section of the state during the open season. Many hunters were successful in getting the limit (six per day) repeatedly while the great majority of nimrods rarely came back home empty-handed. Floyd county hunting was not so good, however.

The hunter's attention is also called to the fact that the dove hunting season closes also on October 31.

With the squirrel and dove hunting seasons closing on October 31, the wild ducks and geese can still be hunted through the month of November and the open season on these two particular species of the migratory waterfowl family will be augmented on November 24 when the hunting season will open on the Bob White quail and the rabbit.

Reports and indications point to a good quail season, while the outlook for rabbit shooting is the best in years with an abundance of that particular wild animal in practically every rabbit-producing county.

Mr. Briar B. Scratches  
Care Floyd County Times  
Prestonsburg, Kentucky

My Dear Briar Buck:

Your letter of October 16 was a complete shock to me. I had counted on you as one of my main snoopers in your section. The Fatherland could have been very proud of such a child of calamity as you seem to be; and it grieves my whole being to think that you have such a violent attitude towards us.

However, if you fightin' Floyd countians have some queer notion that you would like to make another journey "over here," it is well within reason to expect a warm reception on your arrival. We will treat you as we always treat special guests, even though our accommodations are somewhat crowded.

As for your brazen intentions in regard to the hickory switch I have only this to say: ya, ya—you can't catch me!

I remain,  
Protectively yours,

### BETTER PAPER NOW!

So The Courier-Journal is "stealing" my stuff, eh? Well, S. D. Osborne told me that a subscription salesman once promised to have the C-J made into a better newspaper if he'd take it for a year. Mr. Osborne didn't subscribe, but I see they have improved it, anyway.

### POP & STUFF

Kentucky leads all other states in the breeding and training of purebred fox hounds. "Scrub" Calhoun is worried about this Army business. . . he's afraid they will put the shortest ones up front where they can see better. . . To my mind that makes Mr. Hull 100 per cent right on all questions. . . As badly as "big business" claims to be ailing, it seems odd that they should want to "lend" their professed champion, Wendell Willkie to us for four years! No, thanks, boys. . . ### THE FARM AND HOME

In December, 1920, Kentucky farmers sold eggs for 65 cents a dozen, the highest price paid in the last 30 years. The lowest price in that time was 7 cents, paid farmers in June, 1933. Prices averaged 40 cents a dozen in 1920 and 15 cents in 1939.

Nelson county farmers have observed demonstrations of electric lights in grading tobacco.

In Magoffin county after heavy storms, farmers report that hybrid corn remained upright when "native" corn was blown down.

Good farm butchers keep hogs off feed 24 hours before killing, but give them all the water they want. Avoid chasing or exciting the hog, as this will cause it to become heated, and when killed in this condition it will not bleed well.

# America Needs ROOSEVELT Now More Than Ever!

Under Roosevelt, 20,000,000 depositors benefited by RFC loans to banks. Loans have been made to 1,500,000 farmers; 150,000 stockmen; 20,000 disaster sufferers and to 200,000 families for purchasing electrical appliances. Federal Housing Administration has enabled 600,000 families to build or finance homes.

Under Roosevelt in the last 7 years, public works programs have produced \$18,000,000,000 worth of public properties and services. WPA has built 450,000 miles of roads; 93,000 bridges; 88,000 public buildings; 12,000 miles of water lines. WPA has served 386,000,000 lunches to undernourished children. PWA financed work since 1933 has constituted 70 per cent of all educational instruction. PWA has accounted for more than \$3,200,000,000 in orders for materials.

Under Roosevelt, the U. S. Navy, destroyed under Republican administrations, has become the most powerful in the world. The Army, which had been reduced and neglected, is being brought up to an authorized strength of 500,000 officers and men. Air forces already increased can now expand easily to a strength of 50,000 planes. When defense program is complete the United States will have a two-ocean Navy or 733 fighting ships.

FRANKLIN D. ROOSEVELT

Under Roosevelt, Farm Income has nearly doubled. Farm Mortgage interest charges are 40 per cent less than in 1928. Soil Conservation Program has saved 30,000,000 acres. Farm loans have increased the net worth of borrowers 37 per cent. One-fourth of all farms now have access to electricity.

Under Roosevelt, total non-agricultural employment is 9,000,000 greater than 7 years ago. Weekly payrolls are \$113,000,000 greater than they were 7 years ago. Wage earners have benefited by laws enacted granting unemployment compensation, old age insurance and assistance to needy blind and dependent children. Wage and Hour Act has reduced hours and increased pay of millions of workers. Collective bargaining has brought about a decrease of industrial disputes.

Under Roosevelt, National Income increased from \$40,000,000,000 in 1932 to \$69,500,000,000 in 1939. Employment increased from 37.5 million in 1932 to 45.3 million in 1939. Loans totaling \$5,000,000,000 have been made to aid banks. Government purchases of \$6,000,000,000 helped every kind of business.

dents of Berea College, got off to a good start Saturday night with a banquet held at the Auxier hotel here.

Speakers were Charles Morgan, head of the entrance department, and Wilson Evans, secretary of Berea alumni Music was furnished by students of Mrs. Kathryn Frazier. Carl Ford, principal of the Prestonsburg graded school, presided.

Mr. Morgan told of the school's yearly struggle in obtaining funds with which to operate without putting added costs on the students. He said Berea was meeting a great social need by keeping the average cost per pupil at around \$150 annually. At least two hours' work at some college industry is required of all students—some 1,700—enrolled there, thus giving them an opportunity of learning some trade as well as providing the pupils with a means of earning a part of their expenses.

He called upon the alumni who were present to help him in selecting the proper Floyd county students who would be chosen with preference given to character, scholarship and needs, in that order. Only about one out of every four applicants are admitted to the school.

Among those from this county who were present were: Mr. and Mrs. Carl Ford, Prestonsburg; Beecher Scutchfield, Wheelwright; Mr. and Mrs. V. O. Turner, Langley; Mr. and Mrs. Robert D. Francis, County Judge and Mrs. E. P. Hill, Jr., Prestonsburg; Mr. and Mrs. Bob Wallace, Mr. and Mrs. George Pow, daughter, Miss Kitty, Wayland; Menry Martin, Mr. and Mrs. Lon C. ## BILL HENRY SAYS:

(The views herein expressed are those of the writer and not necessarily those of The Times.)

STRANGE BEDFELLOWS are Wendell L. Willkie and John L. Lewis, two men who just a few months ago were at each other's throats. Today, Wendell "L" says John "L" is a fine upright citizen and John "L" says "me, too to you, Wendell 'L'". Added as good measure are Herbert Hoover, Hamilton Fish, Charles McNary, Arthur Vandenberg and Charles Lindbergh, all appeasers of the highest order and all on record against President Roosevelt's program of National Defense.

From the time that Wendell Willkie decided to get even with Franklin D. Roosevelt for daring to move in on what he considered the private preserves of the power industry as represented by the Commonwealth and Southern, he has endeavored to create the impression that he has made a complete about-face. He would have the people believe that he, Wendell Willkie, always a champion of large interests, is now interested in the common man. He asks this same common man to forget that just a few months ago he was responsible for a campaign put on by the power interests against his government making it possible for him to have the benefit of cheap electric power.

John L. Lewis, the man who attained fame and fortune because of the loyalty of millions of workers and because we had a President who was wholeheartedly for the working man, is now ready to take a walk because he, John L., could not have his cake and eat it too. During the last two years he has been invited to visit the White House, time after time. In fact, the door has been open at all times during the Roosevelt administration, for the purpose of improving the living and working conditions of the common people. The way has been open for the man, John L. Lewis, to repay the working man and he has flatly refused to do so. He has grown too big for his breeches. His price for co-operation with the Roosevelt administration to bring peace to the ranks of labor was to give him unlimited power and when he could not get this his interest in labor became secondary to his interest in John L. Lewis.

No one really knows just how Mr. Willkie would like to stand. He claims he is destined to be the saviour of the American people. I say he is not. His followers will argue he is because Mr. Willkie says so. The argument will go on for months . . . until November 5 it will be "if he is elected," and after November 5 it will be "had he been elected." We will just have to take Mr. Willkie's word for the moment that he feels friendly to the people and after he is defeated give him about six months to recuperate and return to his first love, the power industry.

Giving Mr. Willkie the benefit of all doubts as to his real feeling, he cannot escape the responsibility of bad company and so long as he accepts the Hoovers, Lindberghs and their like he stands convicted of believing in their policies. The heaviest blow yet to fall on the Willkie shoulders was the headlines in Monday morning's

paper, with a picture of Harry Bridges, West Coast labor agitator, announcing his intention to make a trip East to confer with John L. Lewis on the Presidential campaign.

Herbert Hoover, Charles McNary, Hamilton Fish, Arthur Vandenberg and Charles Lindbergh have all been active in an effort to get America to ship food into all the countries overrun by the Nazis. Public opinion was so strong against the idea they were forced to give up their plans. These same men who yelled "bloody murder" when it was suggested American ships be used to bring English children to safety insisted our ships run the blockade with food that would have helped Germany carry on her war of total destruction.

In the July 11 issue of THE TIMES I stated I thought President Roosevelt would run for a third term and that he would be elected by a vote close to his 1936 total. I haven't changed my opinion. I believe the American people, though they are good gamblers, have too much at stake to take any chance on November 5.

month. The numbers were in order: 158, 192, 8,239, 6,620, 6,685, 4,779, 8,848, 6,262, 8,130, 5,892, 5,837, 5,485, 6,604, 8,946, 5,375, 7,674, 4,880, 4,928, 104, 6,582, 6,729, 7,508, 7,857, 5,995, and 4,861.

(It was pointed out, however, that this statement of the officials was only a rough estimate and that variations from it could be expected in some areas. Among the first 25 numbers were a relatively large proportion of comparatively high numbers. Since some local draft boards do not have such high numbers on their lists, they may have to call on some men whose numbers did not appear among the first 25 drawn.)

After all, it has been pointed out, Kentucky may not supply any men in the first draft call, since each volunteer is credited against the state's quota. The number of volunteers from the state, this section in particular, is high, it is said.

Kentucky—whose sons have enlisted in large numbers—will be called upon to supply only 172 of the 30,000 men to be called into military training in the first quota November 18.

**W. A. Stewart Claimed**

Eastern Kentucky minister, and of Mrs. Nancy Stewart Martin, who survives, he was a member of one of the section's oldest and best-known families. He was formerly a teacher, was elected to the Kentucky Legislature in 1920, and for 11 years was postmaster at Langley. He first entered the mercantile business at Lem, and for several years had owned the Langley Supply Company at Maytown.

An outstanding trait of Mr. Stewart was his generosity. No man of his community did more in behalf of the poor.

Mr. Stewart was married on December 23, 1913 to Miss Viola May, a daughter of the late Felix May and of Mrs. Susan May, of Langley. Seven children of this union survive: Roger Stewart, Maytown; Carl Stewart, Malone, Ky.; Ogden Stewart, Berea College; Miss Erma Stewart, Maytown; Edward Stewart, Morehead State Teachers' College; Joyce and Beryl Stewart, at home. He also leaves two sisters, Mrs. Kennel Martin, Langley, and Mrs. P. P. Hays, Hillsboro, Ohio, one brother, Joseph Stewart, Maytown, and one half-brother, Dewey Martin, Weeksbury.

Funeral rites will be conducted Friday morning from the Maytown Methodist Church, the Rev. A. L. Allen, of the Regular Baptist Church, officiating, assisted by the Rev. C. C. Newsome, of the Methodist Church.

In reply to an inquiry as to whether electrical appliances would be purchased by the co-operative, Mr. Nivison stated that all farm homes in the program would be canvassed and the first orders grouped under one bid to the various local dealers. He said he hoped the majority of the farmers would take advantage of this, since it would mean big savings to them and since it would be impossible for the co-operative to handle future individual orders.

necessary, we feel that we could have brought our fight to a successful conclusion in the face of strong opposition on the platform of "Better Schools for Prestonsburg Boys and Girls."

We have in mind a number of projects that we intend to start on immediately for next year's program. We propose to build an addition to our present high school, such addition taking the form of a new gymnasium and new class rooms. We propose to add a full-time manual training department. We propose to employ a full-time band instructor. These are a few of the projects. It shall be our aim to employ the best teachers obtainable and as far as possible, those living in or near Prestonsburg. We do not propose to keep certain teachers employed indefinitely and we feel safe in saying that some changes may be expected to take place in the near future in our present faculty.

What the present school board desires, most of all, is the friendly help and cooperation of all the parents
