**PRESTONSBURG--IN 1900 WHEN BOATS STEAMED UP THE BIG SANDY**

There is the old dormitory behind the schoolhouse in the upper left corner of the picture where the students boarded when Professor Byington taught readin' and writin'.

The steamboats tied up at the landing, center, in front of the old Hollifield place, while many of today's prominent business men, as "the barefoot boys," scooted down the bank to see what-all was a-comin'.

The Methodist Church was located on Court street, and the railroad was just being built, and in the winter the mules couldn't go dry-shod down Front street.

The old-timers will recall shopping days then—the M's. made her selections of calicos and gingham in one corner of the store while the men folks bargained for hardware and flour across the aisle.

**More Power, per Gallon**

WHEN BETTER AUTOMOBILES ARE BUILT BUICK WILL BUILD THEM

**YOU'LL** like the size of this trim new Buick SPECIAL for '41—its room, its softer ride, its Permi-firm steering, its fresh smart style and all that.

But what you'll go for is what happens under that broad bonnet—the thrill and the thrift you get from that husky, big, 115-hp. Buick FIREBALL\* Eight.

For in each flame-packed cylinder of that silk-smooth power plant a flaring ball of fire is set off with each spark-leap.

Packed to higher compression than ever before, fuel gives up more power and more mileage — power when you need it, economy throughout the whole driving range.

Indeed, so great is the power at your command that at 30 you use only one-eighth of the energy at your dis-

posal. All the rest is there waiting for pick-up, hill-climb and sudden getaway.

Even at 50 you use less than one-quarter of your available power, and at 75 still have nearly half "on call" for emergency use.

More than that, to this engine you can likewise add Compound Carburetion—and step up both power output and your mileage. At 30 you'll get nearly one and one-half more miles per gallon, at 50 almost two, and at 70 an extra mile and one-fifth.

But that's just one side of the story—the facts side. Only one thing will give you the stirring feel of Buick's thrill-packed behavior on the road.

That's a demonstration — and it's yours for the asking. When will you be in to ask for it?

**God's Love and His Wrath**

**REV. CAMPBELL JEFFRIES**  
How can God love the human race, and send a soul to eternal hell? is the outstanding question in the religious world today. The other question that men debate is the assurance of salvation, or "How Do I Know I Am Saved?" These two are ably answered in one verse in the Bible, John 3:16,

"For God so loved the world, that he gave his only begotten Son, that whosoever believeth on him should not perish, but have everlasting life." This is called the little gospel, because it has the entire plan of salvation.

We see in this verse that God's love is revealed in the gift of his own Son. God has shown his love in many realms, but this is the crowning achievement when he gives an escape for sin to the human race. The divine Son of God, dying on Calvary, is the gift of God, and brings salvation, which is unmerited by man. We cannot do anything worthy of the gift through love, and so salvation is not within man but from God. Christ on the cross reached up and touched God, he reached down and touched man, bringing them together.

This gift must be accepted by man, and the method is to say in your heart, "Lord, I do;" just as a condemned man would reach through the bars to receive a pardon from the governor. "Whosoever believeth" are the most encouraging words, for that means me along with any other man who wants to be saved. The faith in God through Christ is a requirement for this gift. "Believe" here is in the present tense, which bears the idea of continuing in that state; for we cannot believe today, and not believe tomorrow, as we do or don't believe in something. This is not the idea of living up to salvation or holding out, for our job is to trust in Jesus Christ and he does the holding out or holding on to us. When a man accepts this gift he is saved, and the life he lives in the future is in gratitude to God for his great love.

If we do not accept this plan of God's for salvation, we will perish. The idea of perishing is what man deserves from sin, and is not God sending him to hell, any more than a judge pronouncing a sentence upon a criminal, sending the person to prison. We send ourselves to hell, and God's wrath is not anger but the justice he shows toward sin. He could not be just and ignore sin, or save the sinner without punishment. The love is shown above as he has given a means of escape. If you are living in sin without God, and

think that God won't send you to hell if you do not accept his plan, my friend I fear for you, because God will have no other choice. You are on the road to hell if you do not have Christ as saviour, or something just as good. Are you as good as Christ?

The eternal life that is mentioned in this verse comes to the Christian the very moment you accept Jesus Christ, and we do not have to die and go to heaven to have the joy of the Christian life. If you don't have the Christian life in this world, you will never taste of it in the next.

I leave this challenge to all my readers. This very day, why don't you try it? Take God's plan for your life seriously for one month. The way is very simple; just pray this prayer, "Oh, God, come into my life," and you get out of the way so he can get in. It really works.

## 4 ALIENS REGISTER HERE UNDER ACT OF CONGRESS

Only four aliens had registered at the Prestonsburg postoffice, up till Tuesday morning, in compliance with the Alien Registration Act of 1940. The registration began August 27 and will continue till December 26.

Aliens from all parts of Floyd county, except in the Weeksbury-Wheelwright section, will be required to register at the local postoffice. Every person who has not become a full-fledged citizen of the United States must register and be fingerprinted.

The Alien Registration Act, a measure taken as a safeguard against subversive elements, was passed so that the United States could determine exactly how many aliens are in the country, who they are and where they are. Law-abiding aliens will find registration and fingerprinting unobjectionable and unharmed to their status as residents of this country.

After registration, the law requires all aliens or parents or guardians of aliens to report changes of addresses within five days of the change to the Immigration and Naturalization Service Department of Justice, Washington, D. C.

Aliens in the Weeksbury-Wheelwright section of this county may register either here or at the Pikeville postoffice, Mrs. Bess S. May, postmistress here, said.

# Announcing the big NEW FORD 1941 FORD

In some years, some cars take a big jump ahead. *The Ford does that for 1941.*

It has jumped ahead in size. It's the biggest Ford we've ever built, *inside and out. It's wider.* It has a longer wheelbase. Its seating room is wider by as much as 7 inches. It has *new wide doors and semi-concealed running boards.*

You'll notice also a new beauty, achieved by a skilful blending of mass with longer flowing lines. *Larger windshield and windows give better vision all around.*

One of its biggest advantages is the *new soft ride.*

New, slower-action springs give a slow, gentle, gliding movement. *A newly designed stabilizer helps absorb road shocks, and maintains balance on sharp curves and in cross winds.*

*More rapid acceleration* to match its familiar speed and power makes this new Ford an even livelier car to drive.

These are only a few of this new car's outstanding features. It represents all the rich experience gained in building more than 28 million motor cars.

Any Ford dealer can give you many good reasons for making this your 1941 car.

Mrs. J. H. Allen, Mrs. Elizabeth Baker and Ben Baker were in Pres-

tonsburg on business Saturday.

Misses Gradis Flannery and Harriet Allen spent Saturday in Pikeville.

**SHOWER FOR MRS. NEWSOME**

Mrs. C. C. Newsome was the honoree of a canned goods shower in the Methodist Church Sunday night, when

the four churches of the Allen Circuit, under the sponsorship of the Maytown Woman's Club, presented her with a huge shower which contained several hundred jars and cans of fruits and vegetables. Assisting the Maytown Club were the Lackey-Garrett Club, the Martin Married Women's Bible Class, and the women of the Allen Sunday School. At the same time the men of the church presented Rev. Newsome with funds to paper the parsonage. Mrs. Frank May, Arb Hayes and Pat Williams were speakers on this occasion. Rev. and Mrs. Newsome responded very graciously.

**SENIOR DANCE**

The seniors of the high school, with Oliver Ratliff as class sponsor, held a dance in the gymnasium Saturday night, some four hundred persons attending. Mrs. Sid Begley and Miss Osborne were in charge of ticket sales, while Miss Allen, Reid Bingham and Lester Northrup took them up. Miss Helen Salisbury and Claude Webb were in charge of the drinks counter. Local talent supplied the music, which was greatly enhanced by use of an amplifier. Jones Martin was auctioneer for the pie sale, which preceded the dance. Misses Frieda Cassidy's and Marie Fraley's pies brought the highest prices.

The entertainment was delayed, when the school bus bringing the crowd broke down, but this did not prevent a record attendance.

**RADIO SYSTEM INSTALLED**

The two-way radio system for the buildings of the Maytown school was installed Saturday and will be in service shortly, this being the first of its kind to be used in the county schools.

**DANA**

Mrs. T. B. Akers, of Dana, entertained at her home Sunday with an old-fashioned chicken dinner, honoring her husband's birth anniversary. The guests included Mr. and Mrs. T. J. Howell and children, Alberta and Curly Lou, of Clear Creek; Mr. and Mrs. Benjamin Akers, Miss Toda Akers, Misses Eleanor and Gwin Howell; Messrs. David R. Akers, Bill Layne, O. C. Howell and Miss Agnes Ann Tackett.

The pun of the week goes to Atty. Claude Caudill for this: "The people aren't going to McNary (make nary) President out of Willkie."

**MORE CONSIDERATE HERE**

It's no wonder the mountain women are so devoted to their husbands—the men are more considerate here.

I know one couple who have been married thirty-odd years and the husband will still leave his rocking-chair and climb half-way up the hillside, to the new ground, just to hold the mule while she goes off the hill for a bucket of water.

Women appreciate little things like that!

**"THERE'S POWER IN NUMBERS"**

As further proof that Floyd county's Fish and Game Club cuts a wide swath, please note the fact that they brought pressure enough to bear on the Frankfort politicians to get a game warden appointed. And even Lyter Donaldson, the fellow who was "unhatched" by the Hatch Act, can't delay the appointment any longer!

**A NEW VACCINATION**

A rather talkative fellow who had had a couple of drinks was enumerating his various escapades and experiences to a small clump of unwilling listeners last week when Dick Davis arrived on the scene.

Dick listened for several minutes to the monologue which seemed to have no end. Then he voiced the sentiments of the whole crowd when he interrupted: "Son, somebody must have vaccinated you with one of those Edison talking-machine needles!"

**COAL COMPANY INDICTED**

A Perry county grand jury last week indicted a coal company for "polluting a stream of water by releasing mine water into the Kentucky river and causing the death of large quantities of fish."

The same laws apply here.

**"BILL" MAY FOR GOVERNOR**

This is not a prediction, it's an I'm-a-hoping: That W. H. "Bill" May will be the next successful candidate for Governor of Kentucky.

He's young, energetic, able, colorful and from the heart of the world. Let's boost him!

**Entertain Mrs. Bevins On 82nd Birthday Anniversary**

Mrs. Tom Harris and Mrs. William Cartnell, daughters, and Mrs. Graham Burchett, granddaughter of Mrs. Mary Bevins, entertained at a birthday dinner at the home of Mrs. Harris, honoring Mrs. Bevins on her 82nd birthday, Sunday, September 15.

Mrs. Bevins is well-known in Floyd county. All her years she has spent on the old family farm where she was born, just above Emma. She is the daughter of the late Mr. and Mrs. David Banner, who were among the early Virginians who settled Floyd county.

Dinner was served to fifty guests. Among those present were: Mr. and Mrs. John Hall and sons, Glenn, Harold and John Green, all of Wayland; M. E. Martin, Estill; Mr. and Mrs. Ben Webb and Mr. and Mrs. Theop Sammons, Allen; Mrs. J. O. Harris,

Emma; Mrs. John Owens and daughters, Ann and Jill, Pikeville; Mr. and Mrs. J. P. Lavin and daughter, Lady May, John May and sons, Charles and Davey, Mr. and Mrs. Carl Comstock and children, Leslie, Bobby, Jean and Mary Sue, Miss Florence May, Mr. and Mrs. Banner May and sons, Billy and Delano, Mr. and Mrs. Ballard Hunter and sons, Jimmy and Danny, Mrs. T. (Views expressed in this column are those of the writer and not necessarily those of The Times.)

Seems as though a recent week-end was a bad one for Coal Dumpers—they tried to quarantine both "Chub" and "Beef-Head."

The "Green Hornets" must have purchased the Sammy Hughes mule.

Joe H. reports that Guy Taylor is going in the dairy business.

And while we are talking about Joe—C.L. reports that Joe learned to drive over on Bull Creek. Now he has purchased a car. I just wonder what Sammy and Jimmy carry a Bible around for.

I also wonder why Ward Reed, Squire Stumbo and Bill Hall were calling Wayne "Andy."

Someone reported that Baz was wearing his button under his coat lapel.

"The Chunk" reports a bad week-end. He says that after quitting Will Halbert's boarding house a wheel ran off his car on the way up Left Beaver.

**Flashy Backfield Will Feature U.K. Team**

Lexington, Ky., Sept. 9 (Spl.)—Fine flashy backs are expected to contribute plenty of dazzling runs and game-winning touchdowns when the University of Kentucky Wildcats get under way in the coming football season that is almost at hand.

The Wildcats of Coach Ab Kirwan used a sparkling, wide-open offensive to win six, tie one and lose only two games last fall, and most of the backfield men who gained fame in 1939 are back in the fold this year.

Only two of the 1939 backs were lost by graduation. These were Capt. Joe Shepherd, quarterback, and Wilce Carnes, reserve fullback, but there are enough promising sophomores coming up from the undefeated freshman team of last year to fill these gaps.

Junior Jones, a second team quarterback last season, is expected to replace Shepherd at the signal calling post. As a sophomore last year, this former Louisville Manual captain starred in Kentucky's victories over Vanderbilt and Georgia, especially in his ability to convert passes into touchdowns.

When Kentucky meets Alabama here November 2, the Tide will concentrate its efforts on Noah Mullins, speedy junior right halfback. At Birmingham last year it was Mullins, playing fullback, who ran the Crimson's ragged scoring the touchdown that tied 'Bama.

In Ermal Allen, passing, punting and dodging wizard, Kentucky will present one of the South's most dangerous threats at left halfback where he will alternate with husky Dave Zoeller. Although the senior bone crusher, Charlie Ishmael, will have first call on the fullback job, he will be pushed by a sophomore sensation, Bob Herbert, 190-pound sophomore.

**Clear Creek Loses To Drift, 1-0, Sunday**

Drift, Ky. (Spl.)—In one of the best games unfolded this season on Beaver Creek the Turner Elkhorn baseball team of the Beaver Valley League continued to "jinx" the Big Sandy League teams by nosing out a strong Clear Creek team, 1-0, in a red-hot pitchers' battle between Price of Drift, and Newman of Clear Creek, Sunday afternoon, Sept. 15.

Drift's batteries with Russell Price tossing them up and Buck Stumbo receiving, were really in top form—the Clear Creekers being set down scoreless and with only six hits. George Newman, pitching and Squire Stumbo catching, almost matched the Drift battery, with the exception of the second inning, when the only run of the game was scored. Rudolph led off with a single and Lacy Blackburn clouted a rousing triple into deep right-center—and that was all as far as scoring was concerned.

The Drift batters could garner only eight hits off the delivery of Big George—the Clear Creekers garnered two doubles, one by Newman and the other by Childers, but both doubles came after two were out and the next hitters were easy.

Price struck out nine men while Newman struck out six.

**PERRY COUNTY IN BANKRUPTCY**

**TAXES CAN'T PAY ITS OBLIGATIONS, IS CLAIM**

Lexington, Ky., Sept. 13—Perry county Friday became Kentucky's—and Federal Court Clerk A. B. Rouse said probably the nation's—first county to file a petition in bankruptcy.

The petition, filed in United States District Court here, said the county owed a total of \$543,559 in bonds, warrants and interest, and that it was unable to levy or collect sufficient taxes to meet its obligations.

Signed by Perry County Judge Billie Baker, the petition was filed under an amendment to the Federal Bankruptcy Act effective June 28 which allows counties to file in bankruptcy the same as individuals and corporations.

The petition stated \$111,125 in county obligations had been defaulted since 1933, "because of the decrease in property valuations and because of the inability in some cases of the taxpayers . . . to pay said taxes as a result of the financial condition created by the national depression."

It added that "it is impossible under the Constitution and laws of . . . Kentucky for the county to levy sufficient taxes to make up such delinquencies in principal and interest and to pay the principal and interest maturing in the future."

The petition suggested a plan of re-financing involving \$434,000 in road and bridge bonds and \$35,123 in interest accrued to June 30, 1940.

The county, it said, entered into a contract last January 13 with the Kentucky Counties Bonding Committee and the Bankers Bond Company of Louisville for re-financing the bonds, and holders of \$306,000 of the bonds had accepted the re-financing plan.

The plan calls for issuance of \$434,000 in 4 per cent "road and bridge bonds" to replace 5 per cent bonds, the creation of a sinking fund, and the imposition of the largest levy allowed by law, 20 cents, for bond retirement.

It also fixes a schedule of payments running to January 1, 1970.

The petition said the assessed value of property in Perry county dropped from \$20,400,259 in 1926-27 to \$14,581,918 in 1939-40.

The county debt total of \$543,559 was itemized as follows: Matured road and bridge bonds, \$76,000; unmatured road and bridge bonds, \$358,000; interest accrued to June 20, 1940, \$35,123; jail funding bonds, \$25,600, and outstanding warrants, \$48,834.

After the business session, Mrs. Harkins served refreshments to the Rev. W. B. Garriott, Dr. C. L. Huttsinpieler, Earl Moore, Charles Milby, Charles Oppenheimer, R. G. Francis, S. L. Isbell, W. P. Hatfield-McCoy Feud Ended, Young Tennis Enlists in Army

"I'm a fightin' man from a fightin' clan, but from now on I'll do my battlin' in the U. S. Army," said Tennis Hatfield, Jr., when he enlisted last week at Charleston.

This 19-year-old grandson of the late "Devil Anse" Hatfield, leader of West Virginia's famous feuding clan of the "way back there in the days of long barled rifles and careless killings" is now a soldier en route to service in Panama.

Young Hatfield stated that he is not interested in the old feud between members of his family and the McCoy's. "I just want to do my part now that this country needs men to build up its national defense. The army is great and I recommend it to any boy who is looking for a good job at good pay," he said.

Local Union 5967, Drift, Ky., held an Open Forum meeting Saturday afternoon for all to discuss the presidential election and the theme song seemed to be "Happy Days Are Here Again."

It must be remembered that this local Union pioneered the "Third Term for FDR" in this section—our float, made in conjunction with L. U. 7585, Drift, Ky., in the April 1st celebration at Wheelwright, depicted a third term for FDR and we have been working to that end all this year and, after having viewed the fruits of seven and one-half years of FDR, we feel more than justified in making this fight. It must be remembered that in the 1932 International Convention held at Indianapolis, Ind., District 17—now the largest district in the U. M. W. of A.—had only 512 dues paying members while you could count the dues-paying members from Kentucky on the fingers of one hand. At the recent International Convention held at Columbus, Ohio, District 17 had 850 delegates representing 110,000 men while Kentucky had over 100. Seems as though we have prospered under FDR.

We have the seven-hour day now and good wages—while under the preceding 12 years of Republican rule we worked 12 and 14 hours for as little as \$1.10 a day and loaded coal for 16c a ton and it was "Clean up or bring your tools." We have gotten out from under the Russian Rule during FDR's tenure in office and we don't intend to go back to the dark and bloody days of 1920-1932 when prosperity was just around the corner, two chickens in every pot and two cars in every garage—when Hoover had soup kitchens in every mining camp on the Beaver Creeks. Even if the mines were working, the men couldn't make enough to live. FDR had the courage to step in and start the coal industry toward a healthy recovery and we would be as ungrateful as the sick man that cursed out the doctor just as soon as he was well enough to throw away his crutches—if we didn't support FDR wholeheartedly.

We hear a lot about "Dictatorship" but all of us miners know it is a lot of poppycock, for we all know that in a dictatorship if one word is spoken against the Dictator he is shot at sunrise—and we would like to see a lot of these fellows that are yelling Dictatorship have to spend a while in Germany or Italy—and, as Lee Hinkle puts it, what coal miner wouldn't prefer a FDR dictatorship to Hoover times? We are of the opinion that the only fellows who are yelling about the third term, are fellows hunting for an excuse to support Willkie.

All laboring men everywhere realize that the Wagner Act is our "Magna Carta." It is the law of the land, upheld by the Supreme Court, yet on the very day that Mr. Willkie was nominated in Philadelphia his company was violating the Wagner act—he says publicly that he is in favor of "Free Unions." Then why do his companies violate the Wagner Act?

If he isn't a "Wall Street Stooge," then why is he in favor of drafting men but against drafting dollars? He just belongs to the crowd that believes in putting dollars ahead of human welfare.

We have been reliably informed that the Kentucky and West Virginia Power Company sponsored the Willkie loud speaker truck in this neighborhood and we believe that every Local Union should condemn this. After all, we are paying for it.

Mr. Willkie, according to the press, has endorsed everything that FDR is for, except a third term, so why make a change and get an inexperienced man to run it? We are all aware that he has been fighting labor legislation in the House and Senate—certainly not New Dealers. They are trying to be labor's November friends and January enemies. We all know that the U. S. Chamber of Commerce tried to break down the Wagner Law at the recent session of Congress and a few weeks later this same bunch was conferring with WW. It was smeared all

over the front pages about Ford and Girdler, the Hitlers of the U. S., conferring with Willkie—we all know that anyone they are for will certainly be against labor.

It seems that all the wearers of the Hitler Iron Cross are in the Willkie camp, and we don't believe in Lindbergh's appeasement policy—yet who is he supporting? The same bunch that fought labor and Roosevelt in 1932 and 1936 are at it again and are using every conceivable method to confuse labor into not voting for FDR—but they are barking up the wrong tree—we are wise to the "Crowd." Hitler would like to see FDR defeated, just the same as Willkie would.

We feel that we will have to destroy Hitler in a few years and we all know that we would trust FDR as commander-in-chief above anyone else. He has proved his courage already and the Dictators really hate him—but labor loves him for the enemies he has made. We are wholeheartedly in favor of FDR's defense moves and will back him to the limit. We are in favor of the draft bill, for anyone not willing to fight for our way of life in the U. S. A. should be deported.

We miners know that it is not the Republican rank and file that is responsible for its labor-hating but its reactionary leadership. You have to be a reactionary or an Old Guard before you can get the nomination. A lot of the reactionary Democrats do not like Roosevelt for his humanitarian policies and they are fast joining the Old Guard, which we feel is the place for them. Labor holds the balance of power by its voting—which can be demonstrated in the state of West Virginia. Labor made Rush Holt Senator and when he double-crossed us, labor put him among the unemployed.

Mr. Willkie claims he is in favor of parity payments to the farmers, yet the Republican minority in Congress voted, 106-38, against these payments just a few short weeks ago. Labor can put no confidence in their promises, for we are of the opinion that they only make labor promises to get votes. Ford and Girdler would see that they were never enacted into law.

Just why should be Railroad Brotherhoods support FDR? Didn't they take a 10 per cent cut before '33, and FDR had it restored? In '29 to '32, there were hundreds of men "chopped off" by the Hoover Prosperity and most of these men are working regular now. Just a short time ago, the railroads attempted to cut wages 10 per cent again but a commission appointed by President FDR advised against it and the cut wasn't made.

Labor has a champion in the White House and, if we are partisan enough to let him down, we are "d—little."

We are of the opinion that its either: Hearst, Hoover, Hell and Hard Times or Roosevelt, Relief and Recovery, and if the power companies bought a loud speaker truck for every precinct in this neighborhood, we are still 95 per cent for FDR.

We hear a lot of people condemning the Democratic machines of Kelly in Illinois and Hague in New Jersey—but we feel these "machines" are no more crooked than the "electric meters."

We know that most of the press is controlled by reactionaries—that is why most of the press supports WW—but the same thing happened in 1936, yet, they only carried two states—and these columnists are just mouthpieces for "Labor Baiters." We are referring to Frank Kent and "Popgun" Lawrence.

# TIDBITS OF KENTUCKY FOLKLORE

## "BURNING DOWN THE HOUSE I WAS BRUNG UP IN"

During the summer vacation of 1939 I camped in both the Great Smoky Mountains and the Mammoth Cave National Parks. Both areas, as you know, were inhabited in most places for many years before the land was bought up by the government for parks. It was my lot to camp on the exact sites of houses more than once and even to build my fires with parts of the structures that had fairly recently been home to people now scattered. No one enjoys the prospect of great parks more than I, but there was a strange touch of sadness when I thought of the passing of an older order, "yielding place to new," by which cultivated lands return to wild nature. Out in the young woods I came upon signs of an earlier settlement and felt like Goldsmith in his deserted village. In many ways the past is forever melting thus into the present, leaving relics of itself if you and I can interpret their significance.

Where my neighbor used to cultivate a garden, the earth was black and fertile. As he plowed, he sometimes turned up bits of Indian pottery and an occasional bone. The Mound Builders had once occupied the same place and had made it the burial place for their dead. What a sad change for them in my neighbor's growing beans and potatoes from the soil made fertile by their decaying bodies!

As I have said in another of these articles, every staunch old mansion I have known occupied land that had been wholly or partially occupied by less pretentious buildings. The log cabin that became home for the pioneers gradually lost its sacredness as the center of the family when the big house on the hill away from the life-giving spring was occupied. Reduced to a tenant's home or stable or hay barn, it often lasted on indefinitely, though man forgot.

But mere things, as tangible as a mound or a house, do not illustrate all of this principle. Customs, habits—mores, as the sociologists call them—grow up and become solid and respectable; it would seem almost wicked to question their immortality. An invading army, a change in economic life, a mighty pestilence, or blighting standardization gradually or suddenly overcomes them, except for a few isolated ones. Those who have accepted the new, wonder at the persistence of the old-fashioned people in clinging to their ways, sure that only the new is right. Sometimes the dominant idea lasts so long that the old is literally wiped off the face of the earth. The

last person who spoke Cornish in England was studied and visited much as the bird students watched despairingly the last Passenger Pigeon, in the Cincinnati Zoo, grow old and die.

In language there are small remnants that still resist modernization, in spite of almost universal enmity. "Oxen" is the last of its clan, once an important species of plurals. "Men," "mice," "teeth," and a few others struggle against the leveling process that would make all plurals end in "s." And "this" and "that" still preserve plurals, "theses" and "thoses," when all other adjectives of the language long ago gave up the struggle. It may be that all of them will at some future time disappear as completely as the Cornish language.

Here and there, whether in language, in customs, or in the woods, appear still these mute reminders of things that used to be. Reduced to humbleness—"obsolete" we call the words thus degraded—they live on in the midst of their enemies, probably hoping for a time when they can be stylish or powerful again. Tennyson had his King Arthur regrettably say that thus "God fulfills Himself in many ways, lest one good custom should corrupt the world."

## Two Floyd Countians Are In Break From New Pike Jail

Less than 12 hours after 30 prisoners had been moved into Pike county's brand new jail four men, two of them Floyd countians, sawed their way to freedom Tuesday night. Two were captured later.

Dewey Gibson, 24; under indictment for auto theft, and Curt Hall, 22, indicted by the Pike county grand jury in connection with the theft of a bicycle, were still at liberty this week. Both are from Floyd county. Edmund Mounts, 25, Vulcan, W. Va., awaiting trial on a charge of horse stealing, and Ed Thomas, 22, Pikeville, under sentence of two years for grand larceny, were captured by a deputy sheriff and they offered no resistance.

The fugitives made their way out of the jail by sawing the iron bars at the rear of the building. Jailer Floyd Bevins was told by inmates that it took the men less than 10 minutes to make their escape. They used three hack saw blades which, the jailer said, were given to them by several small boys and which were received through the windows.

## NO MONOPOLY OF MANNERS

Just because the United States is in the beginning of a presidential election campaign there is no use for the people of the nation to fall out with each other because they support different candidates.

In a democracy the individuals are not all expected to think alike. Each has the right to his own opinion and to express it, too.

In advancing the arguments for specific candidates let us recall, always, that there is no monopoly upon patriotism and brains in this country and resolve that no party, or faction, will have a monopoly upon good manners and fair play in all things political.

Some of us may be perfectly sure we are right and the other fellow dead wrong on the issues of the campaign, but nevertheless we can all be good-natured and certainly good-mannered. —Cynthiana Log Cabin.

Reports from Scott county are that recent rains enabled the tobacco crop to grow, despite being retarded by drought.
