SPEAKING OF AND FOR FLOYD COUNTY

PRESTONSBURG, KENTUCKY

AUGUST 13, 1942

THURSDAY

ARMY TO TAKE ILLITERATES IN QUOTAS

Boards To Call June 30 Registrants; No. 45 Lists Draftees For Aug. 24

Both Floyd county draft boards were officially notified Monday of this week to mail questionnaires to June 30 registrants immediately as they become 20 years of age and subject to military service, said Robert Wallace, secretary of local Draft Board No. 45.

He stated that the army is now ready to take illiterates, not to exceed 10 per cent of any one call, to fill out each month's quota. These illiterates, who are classified as such at the induction center after being subject to a previous call, examined and rejected, will be sent to the induction station for acceptance. There are, so far, only 49 such rejections with Draft Board 45, he said. Also, he continued, future calls will take a certain number of registrants who are qualified for only limited military service.

Wallace announced that a notice of delinquency had been mailed to Wayne Salisbury, Langley, who failed to report for examination.

Names of 130 draftees, who will leave August 24 from Board 45, were released this week. Added to the 97 leaving Board 44 on August 18, seven colored selectees from No. 45 and one colored from No. 44 who left on August 4, this brings Floyd county's total for this month to 235. This is an increase of 20 over the call for July.

Statistically speaking, 74 leave Left Beaver while only 56 are called from Right Beaver. Ten are from Weeksbury, with Ligon and Wayland tied at seven each. The list is as follows:

From Board 45—Tracy Crisp (transferred from California), Martin; Frank Wells (transferred from West Virginia), Weeksbury; Henry Gardner Hicks, Hippo; Hillard Burke, Weeksbury; Clark Marshall, Alphoretta; Francis E. Sweet, Canton, O.; Ellis Hall, Lackey; Junior Dale, Weeksbury; Isiah Conn.

Broken Back Is Fatal To Napoleon Jacobs, Knott County Man

A broken back suffered in a slatefall in the By-Products Elkhorn Coal Company's mine at Lackey on August 6 led to the death of Napoleon Jacobs, who succumbed at the Stumbo Memorial hospital at 9:30 p.m., Tuesday.

Jacobs, 42, resided at Pippapas near the Caney Creek Community school and was the son of Alex and Rachel Jacobs. Burial will take place in the cemetery near the home Friday. Funeral arrangements were not complete as we go to press.

He is survived by his widow, Hulda, and other members of the family.

ILL TWO YEARS, MAN PASSES

Well-Known Citizen Here, William H. Herald Dies On Monday Night

High blood pressure and Bright's disease claimed the life, Monday night, Aug. 10, of William H. Herald, after an illness of two years. Mr. Herald, son of Henry Clinton and Deborah Bingham Herald, would have reached his 57th birthday on August 16.

Formerly employed as a field operator by the Kentucky West Virginia Gas Company, and a member of the Masonic order, Mr. Herald was well-known and had gained a host of friends who mourn their loss.

Surviving are his widow, Mrs. Alice Colhoun Herald; one son, Billie Douglas; one daughter, Mrs. Ellen Herald Horn, West Prestonsburg; one sister, Mrs. Hettie Puckett, Carey, Ohio; four brothers, Frank, Greenup, Jeff, Dwayne, Ballard, West Prestonsburg, James, Carey, O., and one grandson Thomas Everett Horn, West Prestonsburg.

The funeral was conducted Wednesday afternoon by the Revs. W. H. Horn, Isaac Stratton and G. R. Fannin, at the home. Burial, under the direction of the Arnold Funeral Home, was made in the cemetery at West Prestonsburg.

NOTICE!

Under an act of the 1942 Kentucky Legislature all counties, incorporated towns, school boards and other governmental agencies, receiving and disbursing public funds, are required to publish their annual financial statement and file, on or before August 31st, with the State Finance Department, a copy of the newspaper in which such statements were published.

A few Floyd county governmental agencies and towns have failed, so far, to comply with this law. Negligence of treasurers, secretaries or others, who are responsible in this capacity will result in heavy penalties as provided by law.

ASKED TO COMPLETE REFUGEE SWEATERS

Women assisting the Red Cross in knitting sweaters for war refugees have been asked to complete this work at once, so that work on sweaters for the armed forces is to be started soon and all available help will be needed.

ISBELL WARNS HOG RAISERS

Garbage Poisoning, Cause Of Alarming Losses At Present Time

Citing the loss of approximately 3,000 pounds of pork in several cases of hogs dying reported within just the past few days, County Agent S. L. Isbell issues a warning to hog raisers feeding garbage and slop. Annually, there has been serious losses but, this year, he stated, the "garbage poisoning" of hogs is greater than ever before due to more canning and, consequently, more spoiled food to be carelessly fed to these meat-producing animals.

"These losses are a menace to the winter food supply," said Isbell in pointing out the magnitude of the situation, "and right now, while this is occurring, it is almost impossible to obtain fresh meats in the stores throughout this section of the county." Considering what might be possible, in the way of a meat shortage in the forthcoming months, he urgently requested that every possible precaution be taken in feeding.

Isbell emphasized, "Feed garbage fresh!" People are inclined to feed more garbage this year due to the higher cost of prepared feed on the market. Hogs could be fed cheaper if they were turned out of confining pens and allowed to graze, he advised.

"A general belief seems to prevail that hogs cannot be poisoned but," he stoutly asserted, "this is not so. We must learn that a hog is as easily poisoned as a man. A spoiled can of beans, corn or kraut is the most common cause, although any beef or mutton into the garbage can will often produce botulism or ptomaine poisoning." An elderly gentleman from Buffalo Creek, a few days ago, informed the county agent he had just discovered that

Dwale Woman Stricken; Mrs. Maggie Bentley Succumbs To Stroke

Mrs. Maggie Bentley, 63, Dwale, wife of Allen Bentley, died August 5 at her home. Mrs. Bentley was stricken as she walked into the dining room to build a fire and lived only a short time.

She was a daughter of Turner and Hettie Mosely Branham and was born on Town Branch, near Prestonsburg. Her first marriage was to Joe Banks, who preceded her in death. Her demise came as a shock to her many friends.

She is survived by her husband, Allen Bentley; one daughter, Mrs. Georgia Frazier, and two grandchildren, Dwale; four sisters, Mrs. Mousie Moore, Catlettsburg; Mrs. Pearl Robinette, Catlettsburg; Mrs. Zella Baisden, Williamson, W. Va.; Mrs. Lou Banks, Prestonsburg; and two brothers, John Branham, of West Virginia, and Frank Branham, Catlettsburg.

Funeral rites were conducted Thursday at 2 p.m., from the United Baptist Church in Dwale by the Revs. Isaac Stratton and B. W. Craft. Interment was made in the Dwale cemetery under direction of the Arnold Funeral Home.

Floyd Soldiers' Promotions, Assignments Announced

An announcement has been received stating that Corporal Lawton E. Clark, who volunteered early in 1941 and entered the service of Uncle Sam as a buck private and, since then, has been stationed in the Panama Canal Zone, has been selected as an aviation cadet and is now in training for his commission as a Second Lieutenant in the U. S. Army Air Corps.

This is an honor that seldom comes to a soldier of the ranks and in recognition of Clark's merit and qualifications, through his growing years, young Clark has nurtured the ambition to fly and is now within sight of his goal after coming over, what is known in the army, as "the hard road."

Corporal Clark's home is at Alphoretta and he attended Prestonsburg high school and Caney Creek Community School. While here he made a number of friends.

Port Chaffee, Ark. (Spl.)—Tech. Sergeant Frank Derossett, son of Mr. and Mrs. John Derossett, Stone, Ky., has been promoted to the rank of Staff Sergeant. Sgt. Derossett, 20, has been in the armed service for more than two years and has shown an excellent aptitude in training.

He is in the 6th Division and is attached to the Medical Corps.

Camp Claiborne, La., Aug. 11—Promotion of Harry Vaughn, Prestonsburg, Ky., from the grade of Tech. 5th grade to that of Staff Sergeant has been announced by Brigadier General Matthew B.

Ridgway, commanding general of the 82nd Infantry Division.

The promotion of Tech. Vaughn came as a reward for ability shown during the past months of training with the 82nd's 15,000 men, now being welded into a tough fighting team.

The 82nd division won distinction during the Argonne and St. Mihiel campaigns of the first World War. With officers and men drawn from every state in the union, the 82nd is best known as the "All American" division.

Godman Field, Fort Knox, Ky.—Roe M. Crabtree, son of Mr. and Mrs. Denver Crabtree, Prestonsburg, has been promoted to Technical Sergeant in the Air Force, having served a three-year enlistment with the U. S. army in the "thirties," also two years with the CCC. He was employed by the Elk Horn Coal Corporation, Wayland, before enlisting with the air force in August, 1940, and is stationed at Godman Field, Fort Knox, Ky., where he is crew chief of a twin engine transport.

Delbert "Red" Ison, Drift, who entered training at the Great Lakes Naval Training Station only three months ago, has just received a citation for excellence in gunnery.

"I sure will do my part, Dad," says John Clifton, Jr., in a letter received here yesterday by his father. Jr. is located in Ireland with the American forces. "The scenery is

Eight-Year-Old Braves Currents To Rescue Drowning Brother

Four-year-old Johnny Murphy would have drowned last Friday when he clambered onto the guard rail of the railway bridge at Glo and jumped 20 feet into swollen Beaver Creek—if Big Brother hadn't been near.

Big Brother Don is eight years old and weighs 50 pounds. But what's a man to do when he sees his kid brother in 12 feet of water, going under water for the second time while being swept downstream by a swift current—and no help in sight.

Just what Don did—not scream for help or stand spellbound by impending tragedy—but jump in after the drowning child.

The eight-year-old boy plunged into the water and swam approxi-

mately 40 yards before reaching his brother. First attempting a hold around Johnny's neck and falling, Don seized him by the arm and fought his way to shore.

Johnny was badly strangled but quickly recovered.

Asked to describe the rescue, the eight-year-old hero was noncommittal. "I just got him out," he laconically explained.

The children, sons of Mr. and Mrs. Charles Murphy, of Wayland were visiting their grandfather, Anderson Rupp, at nearby Glo when the near-drowning occurred.

The record does not disclose where young Don learned to swim or if he had ever seen a rescue from drowning effected.

Rev. Campbell B. Jeffries Resigns Pastorate Here

REV. CAMPBELL B. JEFFRIES

The Reverend Campbell Jeffries, pastor of Irene Cole Memorial Baptist Church here, tendered his resignation at the regular business meeting of the church last night (Wednesday). The resignation was accepted. He plans to accept a call to the North State Baptist Church in Martinsville, Va., and begin his work in this new field on the first Sunday in September.

He assumed the pastorate of the Baptist Church here on the first Sunday in April, 1939 and has been here for three years and five months, during which time he has cultivated a wide circle of friends and admirers for his direct and pleasing man-

ner in presenting and living his beliefs. On Aug. 11, 1940, he and Miss Virginia Murrill, librarian at Prestonsburg high school, were united in marriage.

For approximately nine months he has been conducting regular services in the Allen Baptist Church and has been acting pastor of the Community Church at David for the past two months. Last year, he conducted a special Bible instruction course in the Floyd county high school.

He will preach his farewell sermon on the fifth Sunday in August in the graded school auditorium here.

Dr. Orris Gearheart Enlists In Army

DR. ORRIS GEARHEART

Dr. Orris Gearheart, first Floyd county doctor to become part of actual military service, was sworn into the U. S. army at Louisville on August 3 and was given the rank of captain, it was announced here Wednesday. He is at home now, on leave, awaiting orders to report for active duty.

Captain Gearheart is a graduate of the Medical College of Virginia, at Richmond, having finished the prescribed course there in 1930. He is prominently known throughout this section, a Mason and Shriner for several years, and is the founder of the Martin General hospital at Martin.

Mrs. Gearheart plans to remain at home near Martin and take care of business affairs.

FLOYD YIELDS SCRAP IRON

Eighty-Five Tons Gleaned In Lighter Two-Fifths Of Floyd County

"Eighty-five tons of scrap iron has been gathered in two-fifths, the lightest portion, of Floyd county," estimated Bud Toney, county WPA superintendent in charge of the collection of salvage by WPA trucks, "and the remaining part, the heaviest populated section of the county, should yield a greater percentage of junk per square mile." This remainder cannot be covered completely before the first of the coming year, he said.

The first assembled allotment, that of 50 tons, was sold on Monday of this week to an authorized junk dealer, Toney announced, to be placed in the proper channels and go directly into war materials. The funds derived from such sales will go to help defray the expenses of operating the salvage trucks in this collection program.

THE TIMES has been carrying a series of ads, one of which appears in this issue, to inform the public of the importance and necessity of junk metals to the war effort. The current advertisement pictures just how odds and ends of worthless scrap metal will make such a much more worthless Jap feel when he tries to menace the liberty of a free people.

FEDERAL MINE INSPECTIONS UNDERWAY

Inspector Stationed Here For Eight Counties Explains Mission

"Our aim is to aid the miners and officials to have better working conditions and to reduce accidents. We're not here to condemn anyone or any corporation in particular but to conduct a fair and impartial survey with that goal in mind," thus spoke A. V. Faull, Federal Bureau of Mines inspector, in an interview this week. Mr. Faull is the inspector assigned to the local district No. 6 composed of Carter, Elliott, Boyd, Johnson, Lawrence, Morgan, Magoffin and Floyd counties.

Inspector Faull is one of 117 inspectors in the United States who, with their "engineers in charge," go to make the personnel that is conducting this mine inspection subject to the Federal Coal Mine Inspection Act of May 7, 1941. Faull, who is making his home here, stated that the headquarters for this area is at Norton, Va., where the office is under the supervision of W. H. Tomlinson, engineer in charge.

"Although the inspectors have no recourse for violations of the safety regulations, we, nevertheless, are required to inspect each mine and make our recommendations for changes about the mine. The results of these findings stand as a matter of official record in Washington, D. C.," he added. "It is not advisable for mine officials to overlook these recommendations."

A number of mine casualties have been traced directly to negligence in conforming to these suggestions. The standards by which the inspectors work are based on a composite of mining laws of all states and on past accident statistics compiled by the Federal Bureau of Mines. This bureau functions as a part of the Department of the Interior.

Inspectors, more or less, cooperate with each other throughout this immediate section, he said, due to tire and car shortage. The average gen-

EUREKA!

We are told of the Middlesboro draft registrant who had always been considered "slightly off" but who, somehow, was accepted for army service. In camp, his "quarantiness" became more evident than ever. Every spare moment he spent prowling about camp, up and down, picking up scraps of paper. Each of these he would scan carefully, then sadly mutter, "No, that's not it."

This search for "it" and the muttering continued till the poor fellow was given another examination and discharged as insane.

When the discharge papers were handed to the ex-soldier, he looked them over as carefully as he had all those scraps during the preceding weeks. Suddenly his face lit up and he yelled, "Yeah, that's it!"

WANTED

Hook and Ladder Company No. 13 of the Sang Factory Fire Department is looking for a carnival to sponsor. "Our salaries," they write, "depend on the number of fires we make runs to, and business is terrible. We're running short on chawin'." We tried an innocent little game of stud, with our outfit getting a percentage, but four of our biggest plungers got afool of the law. And one of them was the house man. What we need is about half a dozen nice, innocent little diversions like roulette. Even bingo would do—it gets into some mighty nice places and, we are sure, would prove "elevatin'," if not profitable.

SILLY ME

There was a time when I was naive enough to believe that public officials are answerable to public sentiment. But since the re-nomination of men like "Ham" Fish I have become disillusioned. Either he was not answerable, or there is no patriotic sentiment in his district.

This Congressman Fish not only was an isolationist, he was bitter about it, his Congressional mailing frank was used by unsavory elements and a man on his payroll was accused of having been connected

HARRIS GIRL, HEART VICTIM

Dies in Huntington, After Sixty-Six Days Under Oxygen Tent

A victim of heart trouble, Fannie Florence Harris, the twelve-year-old daughter of Mr. and Mrs. J. E. Harris, died in the Saint Mary's hospital, at Huntington, W. Va., on August 6. She had been suffering for over 12 months and passed away after spending 66 days under an oxygen tent at the hospital in an effort to recuperate from her illness.

The parents of the deceased girl, members of two prominent Floyd county families, have a host of friends and relatives who sympathize with them in their bereavement.

The body was returned Thursday night to the home of the parents on U. S. Route 23 four miles north of Prestonsburg.

Funeral services were conducted Sunday at 2 p. m., from the Freewill Baptist church on Cow creek with the Reverend Isaac Stratton in charge and assisted by the Reverends Frank Allen, James Roark and John Laferty. Burial followed in the family cemetery nearby under the direction of the Arnold Funeral Home.

She is survived by her parents and four brothers, Paul, Bobbie, Taylor and John Burris Harris, all at home.

Life-Long Floyd Citizen Dies at Emma Home Last Thursday

Walter Burchett, 70, of Emma, passed away at his home last Thursday. His death was a distinct loss to the community where he was known as a good citizen and a devout Christian.

In 1899 he was married to Martha Hughes, Prestonsburg, and to this union were born seven children, four of whom survive. He is survived by his widow, and the following children: Mrs. Bessie Patton, Rev. Levin Burchett, Jack Burchett and Miss Burnice Burchett, all of Emma; two brothers, Homer P. Burchett, Betsy Layne, and John Burchett, of Grethel; and seven grandchildren.

He was a life-long resident of Floyd county and a member of the Baptist Church.

Funeral services were conducted August 7 from the home of his son Reverend Levin Burchett, at Emma, by the Reverends Isaac Stratton and Frank Allen. The Arnold Funeral Home was in charge of the burial rites and interment took place in the A. O. Burchett cemetery at Sugar Loaf.

WAYLAND HOT-SHOTS
By R. H.

Wayland don't seem like the same place for the past month. We are working five days a week and producing more coal than has been produced in the past two years. Even the Scotchers have quit making their trips to Pikeville 'Honking Tonking' or maybe it's because that our 'fitter bugs have all gone to the army or to David. Anyway, something went wrong when Pete Jacy Lyons and Ted Reaser left.

I can't blame Bob Williams for moving back to Punkin Center. If there had been as much mud around my house as there was around his, I would have moved, too!
Tracy Clifton has to be off every Friday to do the weekly wash.
Arthur Haywood has straightened up and quit dropping nickles in the heating stove at the Fountain. They say he goes to Sunday School every Sunday.

We have a man here in Wayland known as the man with a thousand faces. He has quit scotching and gone on hand loading section gang work. If he stops on that long he will have to drink muddy water before he will make a shadow.
I notice some of the soldier boys'

letters in THE TIMES, I sure do enjoy reading them - hope that the few lines they read by the old Hot Shots, they will enjoy, if they don't, I will go to their home town and stir up something for them. Anything I can do to help Uncle Sam's boys, I sure will do it!

Walter Winchell

Notes of an Innocent Bystander: Haw! Phil Baker tells about the six-year-old who was tugging a suitcase down Central Park West. The corner cop stopped her and asked where she was going.

Forecast for 1942: From Jay Franklin's column in Richmond, Va.: "Walter Winchell will cease to write about Cafe Society because it won't exist. Walter Lippmann will write the best columns of his life and nobody will read them. Mark Sullivan will be drafted into Government service to help administer the nationwide food-stamp plan. Dorothy Thompson will fight it out with Clare Boothe Luce for the role of Julia Ward Howe or Florence Nightingale. David Lawrence will continue to do his stuff so long as he can find papers to print it, after which he will join the USO and work in a canteen. Raymond Clapper will gain in courage and, breaking with Roy Howard, will emerge as a real columnist.

Morning Mail: "Dear Walter: So chorus girls never become famous—just notorious, eh? The Winchell you say! How about Ruby Keeler, Barbara Stanwyck, Virginia Bruce, Gladys Glad, Ina Claire and Joan Crawford? Go stand in a corner, but don't get me wrong. I'm a former Hellzapoppin' chorine, and I have good reason to be nuts about W. H. Margie Young. Banjo Eyes."

SHIKE'S POKES

(The views expressed herein are those of the writer and not necessarily those of this newspaper.—Editor.)

Curt Ratliff, of Martin, sez he is trying to obtain a commission as a trainer of G-women. He sez that his sister and a bunch of ladies are so interested in his conduct that some of them always know his whereabouts. Knowing Curt, I can speak highly of his trainees, for any one who can keep a check on him is plenty good.

That idea of expending \$50,000 to send "Happy" and those other Senators to inspect our Alaskan defenses is about the same as sending a second grade kid to take a college exam. What will they know about it after the inspection. Just about as much as a hog knows about ice cream.

The execution of those six Nazi spies should serve as a lesson to the other "wreckers" in the U. S. Personally, I don't believe in "capturing" them—just blow them down when they are caught in the act of sabotage.

Boy! Our Drift gang in the armed forces are in every part of the world ready and willing and able to give a good account of themselves. Just had a letter from Oral Gibson—said by the time I received the letter he would be half way to the "old country." Just another headache for the Axis.

Seems as though the "Sand Dad" has a tough time with the "crowing roosters." Henry sez that when "Sand Dad" gets in the army they will send him to a camp where the bugler can crow like a rooster—bet he won't oversleep.

I heard a fellow say Saturday (name censored) that he was taking a copy of Senator Jones' instructions to all 3-A men, to work and stay sober or they would be reclassified into 1-A and inducted into the army, home with him and posting them in the kitchen to remind the better half that she'd better not rile him or he'd get drunk and be in the army.

Germany claims the highest rate of literacy in the world. Nearly all the population can read—but what in the hell good does it do them? All they get to read is what Hitler sez. So they are no better off than those who can't read.

Greetings, Mrs. Damron: Mrs. Damron, it seems to me that you jumped on the wrong party about those red foxes being in your neighborhood. They were not placed over in your section or over here in my section by the Game and Fish Club. They were turned loose by the individuals who earned them by selling nine memberships in the club and Jim must have wanted them or he wouldn't have sold the memberships to obtain them. So, as I see it, you should raise your argument with Jim, since he was the cause of them being there, collect off him for the chickens.

Jim Damron—seems as though I've put you on the spot, Jim—I sure hope our coons don't get in my chickens or the secretary of war will start collecting off me.

I see where Hitler sez he hopes the British try to open a second front and that the Americans aid them. Oh, yeah. Well, ole Kaiser Bill made the same boast in 1917 and he got his ears pinned back—we done it once, we'll do it again! I'm just wondering where Hitler will flee.

If it is the truth about the way the Japs are treating American prisoners—why not crack down on the Jap prisoners we have? We should make our internment camps exact replicas of those in Japan.

If our boys keep going to Iceland, it won't be long till it'll be nicknamed "Little Floyd" and I don't know of a worse place for the Axis to try anything.

Hubert Williams was mistaken for Bill Burchett the other day—I don't know which one of them got mad about it.

We learn something new every day. We learned from Orville O'Bryan this week that the George Washington (the C. & O.'s crack train) makes two stops at the Woodland Inn.

And talking about speed—a fellow up here claims he went from Drift to the Walter Reed hospital in Washington, D. C., was examined for the army, falled and back in Drift 36 hours later. And he made the trip by train! P.S. He should have stayed another day and visited England.

Navy Display

(Continued from page one)

The possibility of Prestonsburg and Floyd county witnessing this display of navy might in the air was revealed in an interview with Howard Brown, wing executive officer of the Civilian Air Patrol. It was stated that outlying towns and sections would not be overlooked.

"Since we cannot make a special visit in force to each town in Kentucky we're certainly going to do our best to make courtesy flights in every possible case. There is going to be constant air activity over the territory surrounding Ashland," Mr. Brown said, and concluded: "These additional flights will be part of our official mission comparable to the mopping up operations of a task force engaged in subduing a major objective."

"We're going to give these cities a taste of total war," declared Wing Commander C. W. Ulrich, of the Civil Air Patrol. "We'll blacken the sky with planes and bomb the cities and their surrounding territory with pamphlets as a foretaste of what it's like to face an enemy that can strike from above like a chicken hawk diving for the roost."

The Civil Air Patrol has arranged to make these eight Navy Recruiting Air Cavalcades official CAP missions and will proceed on flight orders under wartime conditions. Flights from different parts of Kentucky will rendezvous over or near the "objectives" and attempt to take it by storm. City and state police will act as spotters for the defenders and report the speed, direction and number of planes to the men charged with the defense of the city.

Wherever, interceptor flights will take the air and attempt to wipe out the Naval Air Cavalcade before it can reach its objective. To do this, the interceptors must identify the attacking planes by the Federal License numbers painted on the undersides of the wings. A plane is then considered shot down if this information can be gotten back to base before the interceptor is in turn destroyed. Once over the objective the Civil Air Patrol planes will "bomb" the town with pamphlets and then circle to the landing field.

with the Bund. Although a member of his party, Fish was condemned by Wendell Willkie, one of the greatest men in America.

Did all that induce the Republicans of President Roosevelt's home district to renounce "Ham" Fish? It did not—for the simple reason that the Fish political machine was well-oiled.

The voter be damned!—throw the machine in high and drive on!

CENSORSHIP

If THE TIMES followed the advice of some folks about how to handle crime news, a Floyd county murder story would read like this: "Two _____ were shot and _____ Saturday night and a third was believed _____ as the result of a _____ over a _____ game.

"Held in _____ at _____ are _____, 24, and _____, 19, both of _____.

"The victims, two of _____ county's finest _____, will be buried at _____.

"This sad affair cannot be considered a blotch on the good name of our fair county, since any resemblance to bloody _____ is purely coincidental."

WHAT'S THE PRICE ON LINIMENT?

Among other inconsequential reports reaching us this week is one to the effect that a merchant has asked the OPA to change Ceiling Prices to Wall Prices. "My customers have cricks in their necks, tryin' to read them prices up there against the loft," he explained.

THESE YOUNG 'UNS!

You can't teach this younger generation anything. L. B. Mullins, Prestonsburg store manager, will attest to that. Monday afternoon, he took his two young daughters out to teach them how to shoot. Papa "aimed" to show them how to aim a rifle, how to pull the trigger, et cetera. But the course of instruction ended abruptly when daughter Eva Lucille, 8, firing at 22 rifle, busted the bullseye, two out of three shots.

hogs really could be poisoned but that the lesson had cost him \$75, indicating that this figure was the value of the hogs he had lost.

In some cases, the losses are occurring where families can ill afford it and may be left destitute of a large share of their source of food. In such pathetic cases, these folks do not have the money to buy feed at any price and must rely on the neighbors for scraps of food. Thus, the responsibility of such hap-

penings rests upon almost everyone's shoulders whether or not he raises hogs. The housewife often says that she "has fed spoiled food to hogs many times with no ill effects, so why should it kill them now?" Isbell replies that sometimes there is sufficient grease or dry corn to act as an antidote but that it takes only one spoiled feeding, when an antidote is not present, to kill hogs. Such an instance is the story of the pitcher that went to the well once too often and a word to the wise should be sufficient."

Bomb 'em with JUNK

JUNK NEEDED FOR WAR Scrap Iron and Steel

Needed for all machines and arms of war. Fifty per cent of every tank, ship and gun is made of scrap iron and steel.

Other Metals—Rubber—Rags—Manila Rope—Burlap Bags

Needed for making bombs, fuses, binoculars; planes; tires for jeeps; gas masks; barrage balloons; wiping rags for guns; parachute flares; insulation for electric wiring.

WASTE COOKING FATS—Strain into a large tin can and NEEDED ONLY IN CERTAIN LOCALITIES—Waste paper and tin cans—wanted only as announced locally. NOT NEEDED (at this time)—Razor blades—glass.

Let's blast Japan—and Germany—and Italy—with the chain lightning of destruction that can be built from the scrap in our cellars, attics and garages, on our farms and in our places of business.

Scrap iron and steel, other metals, rubber and waste materials. It will all be used to make tanks, ships, planes and the fighting weapons our boys must have. It is needed at once.

Sell it to a Junk dealer—give it to a charity or collection agency—take it yourself to the nearest collection point—or consult the Local Salvage Committee... If you live on a farm, and have found no means of disposing of your Junk, get in touch with the County War Board or your farm implement dealer.

See How Hill Farm Is Being Improved

Farmers in Johnson county recently took a day off to see and hear how Trigg McKenzie in Cuba community is building up a 90-acre farm, mostly hill land. They saw fields of orchard grass and lespedeza, and alfalfa that had turned off one good hay crop and was ready to cut again. A herd of cattle is being improved through the use of a registered bull. A part owner of a small trailer threshing machine, Mr. McKenzie is interested in saving orchard grass and other seeds. On his farm is a demonstration of several tobacco varieties, including root-rot resistant kinds. As a special contribution in the war effort, Mr. McKenzie is growing both hemp and castor beans.

Milk production in Mason county is running 15 per cent over a year ago. Many farmers are selling milk for the first time.

TO Shoot More We Must Talk Less

The daily use of long distance and local telephone service throughout the "war busy" Southeast is mounting in such increasing volume that telephone lines and central offices are becoming seriously congested with the burden of calls.

We cannot relieve the congestion by adding to our facilities because the materials needed are now being used in the manufacture of weapons of war (a machine gun in action uses in four minutes enough copper to make a rifle and a half of telephone wire), so in order to keep present telephone facilities available for vital war calls we must all talk less.

With your help, which we are confident you will voluntarily give, we can keep long distance and local telephone lines clear for the urgent messages of war agencies and industries engaged in war work.

How You Can Help

- Long Distance Calls: Make only the most necessary long distance calls. Be brief. Place your calls before 9 a. m., between noon and 2 p. m., 5 and 7 p. m., or after 9 p. m. Stay near your telephone after you have placed your call. Plan what you want to say and so avoid the necessity for another call. Whenever possible, call by number. Local Calls: Use your telephone sparingly - avoid unnecessary calls. Be sure to replace your receiver on the hook. Look up numbers you are not sure of and help avoid the calling of wrong numbers. Make your conversations brief. Teach your children good telephone habits.

TODAY'S ROADS

Prepared By Eastern Kentucky Automobile Club

"MOTORISTS—WAR EFFORT"

Engineers at the war production plants are working long hours just to cut a few minutes from the production time of the parts that go to make up airplanes, tanks and guns. We can do our part if we will just spend a few extra minutes each day to avoid an accident that may keep a war worker away from his job for many long hours.

DON'T DRIVE WHEN SLEEPY.

TODAY'S ROADS—KENTUCKY

U.S. 23—Louisville-Pointsville road, surfacing 1 1/2 miles. Closed. Detour in good condition, but very dusty. Will be open soon.

KY. 22—Under construction between Williamstown and Falmouth. Use marked detour.

U.S. 27—Newport-Falmouth. Detour due to construction of 6 1/2 miles.

KY. 80—Between Russell Springs and Columbia. Work discontinued. Practically impassible in wet weather. Suggest use KY. 90.

U.S. 60—Cannonsburg to Grayson. Resurfacing. Little interference.

Higher Prices for Eggs are Foreseen

Higher egg prices are in prospect for the remainder of 1942, according to a statement issued by the Department of Markets and Rural Finance of the College of Agriculture and Home Economics at Lexington. The quantity of fresh eggs is expected to decline as usual as the season advances. Stocks of eggs are relatively large but great consumer purchasing power and government purchases of shell and dried eggs are expected to be sufficient to create normally advancing prices for the season.

The government egg buying program includes the purchase of shell eggs for domestic use and the purchase of dried eggs under contract for export purposes. Contract prices on dried eggs are scheduled to advance at the rate of 1 1/2 cents per pound each succeeding two-week period from June to December. The announced government buying price for dried whole eggs at New York range from 95 cents in May to \$1.16 per pound the last two weeks in November.

The influence of government purchases should make prices advance several cents over the season's low. In parts of Kentucky where eggs are most scarce, an advance of 10 cents or more may reasonably be expected between the summer low and winter peak prices. Reports received at the experiment station indicate that that there has already been a sharp advance in prices in some parts of the state.

No occasion has arisen for the application of price ceilings to eggs and poultry. These products were not included in the general price ceiling orders of the OPA issued in April. Prices also will have to rise considerably above present levels before there can be ceiling prices imposed under the provisions of the Emergency Price Control Act of 1942.

This Is the Army!

(A contribution by the all-soldier cast of Irving Berlin's great hit show at the Broadway theater—for the army emergency fund.)

When one of the boys gave his regimental pin to a girl she demanded to know what the motto "Volens et Potens" meant. He explained: "Willing and able." She returned it pronto. The 33rd Armored Regiment at Camp Polk call their tanks "Hitler Hearses." The Yank of 1942 isn't called a doughboy. He's "Red Legs." There's a 50-Year-Old Club at Camp Roberts. The men in it are over 50—all volunteers since Pearl Harbor—going in as buck privates, although many were former officers and non-coms.

Soldiers purchase lots of fingernail polish—but not for their nails. It keeps their buttons shiny and is the perfect remedy for chigger bites. At the Indio Desert training center the lads are often rationed only one gallon of water daily for all purposes, including drinking, washing, bathing. To condition them for the real thing.

Contrary to popular legend, it is against Army regulations to give a soldier K. P. duty as punishment. At Camp Berkeley the chap who instructs in the art of Jiu-jitsu is Harry Morimoto, an American-Japanese. In the Army nurses are known as Snow-whites. Soldiers insist that uniforms come in only two sizes—too large and too small.

Personal checks cannot be cashed in the Army without the company commander's okay. When Paul, the son of the late financier, Andrew Mellon, went to the c. o. at Fort Riley to get approval for a \$100 check, the c. o. said: "This is a pretty big check for a private to write. How do I know it is good?" "It oughta be," said Paul, "I own the controlling interest in the bank."

The Indians have supplied more volunteers to the Army than any other racial group. When they first learned of selective service they came to register with their own weapons. The average soldier drinks four cups of coffee a day. G. W., who fathers the "Our Fighting Men" dept in Collier's, calls the U. S. Armored Division the Anzers. Because they are the answers to Hitler's Panzers. A jeep is also a nickname for a rookie.

Field Marshal Herman Goering's kin is Werner George Goering of the U. S. Army. Can't wait, he says, to drop a bomb on his relative. In our Army a private can prefer charges against a colonel, and if a corporal sees a captain conducting himself in a manner "unbecoming an officer and gentleman" he can have him put in the guardhouse. The name for woolen underwear is "superman drawers."

When a private at Randolph Field comes to a non-com with a complaint he is handed a mourning-bordered card which says: "Your trials and tribulations have broken my heart. They are unique. I have never heard of anything like them before. As proof of my deepest sympathy, I give you this card which entitles you to one hour of condolence."

Fort Riley's newspaper, The Guidon, has an advice-to-the-lovelorn column. "Betty Lou" signs it. Betty Lou is the nom de plume for a pair of privates. For every fighting man in the Army there must be five other soldiers to feed, clothe and supply him. Unless a rookie is smart, he can be trapped into volunteering for unpopular chores. The big gag in the Army concerns the sgt. who approached a bunch of men at play and asked them if any were good at shorthand. A dozen newcomers, angling for soft snaps, eagerly stepped forward. "Fine," said the sarge, "report to the kitchen, we're short of K.P.s!" The phone number of the Negro Enlisted Men's Service Club at Camp Bowie is, oddly enough—711.

Army men always titter derisively when in the movies a sentry says: "Halt! Who Goes There?" The correct challenge is: "Halt! Who's There?" A letter from a girl is called "a sugar report." There's no favoritism in the Army. Even chaplains must undergo five weeks of training at Fort Benjamin Harrison, Indiana.

Soldiers do not rate preferred treatment over civilians. They cannot buy shaving cream or toothpaste at their post exchanges without turning in a used tube. At Camp Davis the mimeographed directive given to men in the 96th Coast Artillery (for handling of the wire cable winch on army trucks) warns that the apparatus is "as temperamental as Greta Garbo, and treating it carelessly is like asking Lana Turner to scrub the kitchen floor." The men treat it with great affection and care.

SHERIFF'S SALE

Fayette Bentley Plaintiff Vs. T. J. Muncy Defendant

Public notice is hereby given, by virtue of an execution, No. 3, which was issued from the Pike Circuit court on the 25th day of July, 1942, on judgment rendered in Pike Circuit Court in favor of Fayette Bentley. To satisfy said judgment, I will offer for sale on Saturday, August 15, 1942, at 1 o'clock p.m., at J. M. Stumbo's Service Station at Harold, Ky., the following described property, to-wit:

One 1939 model Chevrolet 2-door passenger car, License No. 228c7, Pike county. Motor No. 2577359.

Said sale will be made at public auction to the highest and best bidder upon a credit of three months, and the purchaser will be required to execute bond with good and approved surety, bearing interest from date of sale until paid, or purchaser may pay cash.

Given under my hand this the 29 day of July, 1942.

ANNIE STUMBO, Sheriff, Floyd County. By T. S. SALISBURY, D. S. Cost of advertising, \$7.75

Orchard grass seed from approximately 300 acres was saved in Fleming county.

Leonard Bugg, of the Milburn 4-H club in Carlisle county, found 20 old tires on his father's farm.

Henry Cravens of Daviess county won a war bond by collecting 18,900 pounds of salvage in a week.

BUY YOUR COAL—NOW!

The delivery problem may become serious later. Moreover, the government has requested the people to purchase their winter coal supply early. We are in better position to serve you now than we may be later.

In Todd county, Kentucky No. 1 barley stood up well, compared to Missouri Early Beardless, which went down badly. R. M. Hagan, of Daviess county, threshed an average of 92 bushels to the acre from 10 acres of Fulwin oats. From a planting of 85 pounds of Irish Cobblers, Sam Lyndon of Perry county sold 1,200 pounds of U. S. No. 1 potatoes.

An Important Wartime Statement

TO OUR CUSTOMERS:

ELECTRICITY is a vital element in war production. Your Electric Company is proud of the fact that we have met all demands for electric service—we have done and will continue to do everything in our power to assure war industries that they will have sufficient power to keep their production lines humming twenty-four hours a day for the duration. In order to do this, we shall have to utilize every available man and woman in our employ and to use all of our equipment including automotive equipment in the most efficient manner. Rubber is one of the most critical of all materials, and because we too will be unable to secure tire replacements for a large portion of our cars and trucks we must of a necessity ASK YOU TO HELP US TO SCHEDULE NECESSARY SERVICE CALLS IN ORDER TO CONSERVE PERSONNEL AND EQUIPMENT—TIRES, CARS AND GASOLINE.

HOW YOU CAN HELP US!

If you plan on moving to a new location

Be sure and check on the existing electrical facilities at the new location to see whether they are adequate for your requirements. If they are inadequate, it may be impossible under Governmental restrictions, due to acute shortages of copper and other critical materials, for you or this company to make changes. We shall be glad to advise you concerning problems of this kind.

Connecting and disconnecting of your electrical service

If you desire service connected or disconnected, please give us as much advance notice as you can—one or two days, under present conditions, if possible. We will greatly appreciate your cooperation in this respect. It will also be helpful if you will see that our representatives are able to enter your premises on their first trip, thus eliminating unnecessary call-backs.

Customer Service Calls

We will appreciate your being absolutely sure of your need for one of our service men before calling. Please be patient after you have called and bear with us if we are not quite as prompt as we have been in the past. We will endeavor to give you good service and will do so in so far as possible, but it may take longer than in normal times as all service calls must be routed in order to save time, trucks, and tires. Your patience will be most helpful.

If you are without light or some appliance does not work

The trouble may be in your own home. A blown fuse, caused by some defective appliance or lamp cord, can be replaced easily by you. Carry a supply of fuse plugs so that you will not be inconvenienced. Pull the main switch, locate the blown fuse, and screw in one of like size. Have defective appliances or lamp cords repaired by your electrical dealer.

HUEYSVILLE

J. D. Sutton has been visiting his sister, Mrs. B. M. Craft, of this place. Mrs. Craft has been sick for quite a while. She has just recently returned home from the hospital where she was receiving treatment.

Clyde Hale has been home from the U. S. Naval Training Station at Great Lakes, Ill. He joined the Church of Christ at Bosco last week and was baptized at the Smackee Bottom ford. Mr. Hale received a hearty handshake from the whole congregation when he left for camp Friday.

Cas Stanley and Crit Conley have just completed their deal in dividing the land jointly owned by them opposite this place.

Jim Conley, of Handshoe, was in Hueysville last week on business.

Nearly all the boys between 21 and 30 years of age from Bosco and vicinity are now in the U. S. army. Not only the girls but older people, as well, look lonesome.

Chester Burton has left us. He moved last week to some place near Gallipolis, Ohio.

A. J. Coburn was visiting his daughter, Mrs. Charley Wilson, at Wheelwright Saturday and Sunday.

Mrs. Sophia Gearheart made a trip to Prestonsburg in the car she recently purchased. She was accompanied by her son-in-law, E. W. Moore, driver of the vehicle.

A flight of from 20 to 25 big bombing planes went over this section near noon Sunday, traveling directly northwest or nearly straight for Alaska. I imagined I could hear them say, "Look out, yellow-bellies, here we come!"

Mrs. Rondell Hayes and new baby daughter returned Saturday from the hospital. Both mother and babe are doing fine.

McDOWELL

Bobby Hall and Henry Hamilton, Jr., have returned home from Newport News, Va.

Mrs. Walter Wilson and children, of Glenhays, W. Va., are visiting relatives here.

Miss Genevieve Hall who is employed at Newport News, Va., is home on vacation.

Mr. and Mrs. Blaine Hall were visiting his parents, Mr. and Mrs. Andy Hall, Sunday.

Miss Pauline Compton, of Hindman, was the week-end guest of Miss Lillian Hall.

Mrs. Fayette Hopkins, daughter and son, have moved to Denbriest, Virginia.

Joe Shannon, of the U. S. army, has been visiting relatives here.

Cpl. David E. Gallagher, of Ft. Meade, Md., was visiting his wife recently. Mrs. Gallagher was formerly Creta Gearheart.

Mrs. Maggie Hopkins is visiting relatives in Portsmouth, O.

MARTIN

(Last week's correspondence)
Mrs. W. L. Bentley, of Ashland, was a recent visitor here.

Mrs. Blanche Horn, Miss Mabel Crisp and Mrs. Eva Crisp have gone to Dayton, O., where they are employed.

Miss Minnie Patton left Sunday for Dayton, Ohio.

Mr. and Mrs. Harlow Stamper, of Ashland, spent the week-end with friends and relatives here.

Mrs. Mabel Brock was shopping in Williamson, W. Va., last week.

Mr. and Mrs. Archie Elkins are the parents of a 9½-pound son at the home of Mrs. Elkins' parents, Mr. and Mrs. O. C. Hayes. The babe was born Aug. 3 and has been named Robert Paul.

A. B. Osborne, Jr., is visiting his parents, Mr. and Mrs. A. B. Osborne, Sr.

Miss Ted Skaggs spent the week-end with her parents, Mr. and Mrs. Floyd Skaggs.

Some Ohio county farmers who planted hemp on wet land are having difficulty with morning glories.

The number of pullets kept for laying is expected to be the largest in the history of Knott county.

WAR CURTAILS POWER LINES

Scarcity of Critical War Materials Enforces Restrictions

Due to the very acute shortage of copper and other critical materials, especially metals, the War Production Board in Washington has found it necessary to still further curtail the extending of and adding to the distribution lines of the utilities of the country. This tightening of the use of the critical materials required for war production purposes was brought out by the War Production Board's recent revisions and amendments to Preference Rating Order P-46, under which utilities of the country have been operating since several months before the declaration of war. This was brought out in an interview with R. E. Doyle, Jr., local manager of the Kentucky and West Virginia Power Company.

The general effect of the new restrictions is to deny the electric utilities the privilege of making any line extensions or making any additions to existing line facilities for any consumers or establishments which are not directly a part of the war production program of the country. Although leaving the way open for possible approval by local Federal Housing Authority and War Production Board agencies for line extensions or additions to existing lines are prohibited unless the building or dwelling was completely or adequately wired for the service to be rendered, or unless, in case of new construction, the foundations for the new buildings or dwellings were completed and ready for superstructure erection, as of July 1, 1942.

Mr. Doyle stated that these new restrictions affected electric service to not only new buildings and dwellings, but also to existing dwellings where existing or newly purchased electrical equipment was being added. Mr. Doyle stressed the fact that in order to avoid possible misunderstandings it is suggested that the electric company be consulted before any major electric appliances, such as ranges or water heaters, are purchased and before any customers with such major appliances move into another home. He further stated that he hoped that everyone would take an understanding viewpoint of the matter and realize that

these restrictions are not arbitrary rulings on the part of either the utility or the War Production Board, but instead, are absolutely necessary to conserve the nation's supply of copper and other critical materials for war production purposes.

Federal Mine Inspection

(Continued from page one)

eral inspection requires at least a week at the mine itself, following it the recommendations are made and several days are consumed in preparing a final report to headquarters. Mr. Faulk has been assisted by J. J. Fries, inspector for district No. 3 composed of Letcher county. They have completed a survey of the Princess Elkhorn Coal Company at David and The Utilities Elkhorn mine at Martin. Inland Steel Co. mine at Wheelwright had been inspected previous to Mr. Faulk's arrival. He commented on the spirit of cooperation shown by the officials of the mines that had been inspected. No information could be released on where or when they would make their next inspection, he declared, and it is customary to arrive at a mine unexpectedly to begin a survey.

Besides the two districts already named, the mining area of Eastern Kentucky consists of four other districts. They are: Dist. 1—McCreary, Whitley, Laurel, Knox, Bell, Clay and Jackson counties; Dist. 2—Harlan county; Dist. 4—Perry, Knott, Breathitt and Leslie counties; Dist. 5—Pike and Martin counties.

JOBLESS FUND REACHES HIGH

Kentucky Reserves Stand Ready for Stampede Of Withdrawals

Frankfort, Ky., Aug. 13 (Sp.)—There are sufficient funds in Kentucky's jobless insurance account on deposit with the federal treasury at Washington to withstand the impact of five depression years such as 1931 or 10 years' withdrawal at the highest annual disbursement rate since unemployment benefits became payable January 1, 1939, it was estimated today by Richard Cella, Supervisor of Research, Statistics and Planning for the Kentucky Unemployment Compensation Commission.

Cella estimated that if the Kentucky Unemployment Compensation Commission Law had been in operation in 1931, generally considered as the worst of the depression years, approximately \$7,928,000 would have been paid out to eligible unemployed workers. The greatest amount actually disbursed during any one year was \$4,866,619, which was paid to claimants in 1939.

The fund now stands at approximately \$50,000,000 but because employees no longer contribute and many employers have been granted reduced rates or qualified for zero rates, the rise in the fund will not be as great as in the past, Cella said. Liberalization of the benefit provisions of the law, he added, will also tend to halt increase in the size of the fund although receipts will still be greatly in excess of present benefit payments under existing employment conditions.

"While the favorable condition of the state's unemployment reserve fund is reassuring," Cella declared, "there are other factors which must be taken into consideration in appraising the ability of the fund to withstand any prolonged post-war depression. One of the most important of these is the fact that there are now more than 500,000 workers covered by the law as compared with only 380,000 in 1937. This means that there are thousands of individuals now employed in war work who were not previously engaged in covered employment and who, in all probability, will become jobless when the war is over. These workers are accumulating benefit credits and unless they are absorbed in civilian industries at the conclusion of the war, will constitute a heavy drain upon the fund at that time."

THE GARDEN

By JOHN S. GARDNER

LATE GREENS

Late greens sowing time starts August 1 and ends with frost. During that interval, too, many rows of summer vegetables mature, and crabgrass and foxtail and other weeds run rampant. So, an excellent plan would be to clean up on the vegetables finish, and sow these spaces to greens. More greens than the family could use might result, but they could be used as green feed for the poultry, and, in some measure, as a winter cover crop.

The ground should be re-fertilized, preferably with poultry manure, and the seed bed should be made fine and moderately deep.

The seed may be sown in a mixture, or each green by itself. It may

be broadcast, but better to control the pests that almost always come, in drills. An ounce sows 300 square feet broadcast, or a drill 200 feet long.

The greens fall into two groups as to their hardiness. Winter weather kills Seven Top and Siberian kale only to the ground and these two make early greens in the spring to follow. Scotch Curled kale, the "blue" sort, is not winter-hardy and should be started early enough to insure its maturing before heavy frost. In normal season, it needs 12 weeks.

The other greens are Tendergreen, sometimes called "mustard-spinach," Southern Curled mustard, and "smooth kale," whose seed catalogue name is Dwarf Essex rape.

The pests are the flea beetle and the cabbage louse. Fleabeetles sometimes attack as soon as the first heart shaped leaves appear. These, called the "seed leaves," support the seedlings until the "rough" leaves start coming; without them no rough leaves could come. Thus, if these seed leaves are mutilated to any great extent, the planting must proceed only slowly, and may in fact quite "melt away." Rotenone dust is a control; so is calcium arsenate dust or lead arsenate spray. Usually, one application is enough, but it must be made at the first sign or injury, the familiar riddling with small holes. For the lice, usually coming later, tobacco spray, or rotenone in dust or spray, is effective, but so applied that the lice themselves are hit.
