

THURSDAY

DEMOCRATIC CITY TICKET FILES HERE

July 8th Deadline For Filing Passes; Few Developments

Deadline for filing of candidates for office passed at midnight last Thursday almost without incident except for the entrance for the first time in Prestonsburg history of a Democratic ticket for City Council here.

Four candidates from Ward 1, two from Ward 2 and two from Ward 3 (Depot) quietly filed for Council on the Democratic ticket, shortly before the midnight deadline, and since then the status of their opposition has been a matter of wide conjecture.

This conjecture, all of which is a matter for argument, includes the following claims from both sides of the municipal political fence:

1. The opposition cannot offer a ticket because the new 1942 statutes do not provide for independent tickets, the time for filing under the Republican emblem passed at Thursday midnight and the Republican party cannot nominate Council candidates by convention.
2. Election under partisan emblems is provided under the law for Councilmen of cities of the fourth class in which Prestonsburg belongs.
3. The opposition to the ticket filed under the Democratic emblem can present a ticket in November by petition under an independent device.

MEAT FAMINE CAUSE GIVEN

'Black Market' Buying Is Causing Scarcity, OPA Director Says

The present scarcity of meat in many markets of Eastern Kentucky is largely due to improper slaughtering operations, and these operations have upset normal channels of supply, E. Reed Wilson, district director of the OPA office at Lexington, said last week.

Public buying of meat from black market sources is hampering the war effort, is upsetting legitimate supply sources and is endangering public health, Mr. Wilson said. "If not diseased at time of slaughter, such meat is usually exposed to many forms of contamination due to unsanitary conditions of such unlicensed killing establishments. Nearly all meat so slaughtered is unfit for human consumption," he declared.

To protect public health and the war rationing meats program, an investigation will be launched soon to unearth all unlawful slaughtering operations. Violations of regulations covering registration, selling and point accounting are punishable by law, and unregistered slaughterers will be prosecuted, it was said.

Mr. Wilson explained that all slaughtering of livestock for sale, gift or transfer of meats must be done under permits issued by the Department of Agriculture and OPA regulations. Small home or country slaughterers who sell give or transfer meat, butter or rationed cheeses must qualify by registering with their county War Production Board and the U.S. Department of Agriculture. They must also qualify and register with their local War Price and Rationing Board before they can lawfully sell any of their production. Any person who has or is now slaughtering, producing and selling meats without being registered is subject to punishment as a violator.

Farm home producers may consume what they produce at home, point free, without registration, and meat slaughtered and butter or cheese produced must not be sold, given away or transferred for profit in any form. If they dispose of any part of such production for commercial gain, they must register as small home or country slaughterers or processors.

Any civilian or industrialist can obtain full knowledge of his privileges and of restrictions governing slaughtering through the local War Price and Rationing Board.

SUFFERS MINOR HURTS

George, young son of Mr. and Mrs. Ike Lockwood, of Third street, suffered minor injuries Sunday morning when struck by a car at the Pure Oil Station here.

August Call of 407 to Service From Floyd, Heaviest of War

NEW LEGISLATION MAY BE ENACTED IN SEPTEMBER

Washington, July 13—New draft legislation, including a proposal to require all adult men and women to register for service in the war effort, will be the subject of extensive hearings by the House Military Affairs Committee when the Congressional recess ends in September.

By that time, Chairman May (D., Ky.) said today, the committee hopes to have available more data bearing on the proposed induction of fathers.

"Whether we shall expedite legislation already passed by the Senate, to boost the government payments to dependents of drafted men will depend in a large measure on the outlook two months from now," May said.

May said he shared a general belief among committee members that the induction of fathers would be put off for some time, perhaps indefinitely. In that event, he explained, the need for boosting federal payments already provided would be lessened.

However, he added, should the outlook in September indicate the early induction of fathers, additional financial provisions for them would have to be made speedily by Congress.

Also on the committee's docket for early consideration is the Austin-Wadsworth national service bill under which all men and women would be required to register for assignment to services where there was a need for them—in the armed forces, industry or agriculture.

Baker Killed, Patton Wounded, Casualty Lists of Week Show

Last week's casualty lists include the names of two Floyd countians, one killed and one wounded in distant theaters of action.

Pvt. Lee Baker was killed in action in the Pacific while engaged in an army offensive against the Japanese, his mother, Mrs. Ella Baker, of Johns Creek, has been notified. His death occurred July 2.

In the North African area Pfc. William Patton, a son of Mr. and Mrs. Monroe Patton, formerly of Bonanza but now of Ohio, was wounded, the War Department's official casualty list stated.

'9 O'clock Scholar' In Rural Schools To Be On Time

The 9 o'clock scholar will be on time in Floyd county's rural schools this year, Mrs. Forrest D. Short, acting rural school supervisor in Floyd county, announced at the rural teacher meeting held at Allen Saturday morning.

Thirty-two teachers, a number of whom are having their first teaching experience, attended to see teaching demonstrations by veteran instructors. Mrs. May Hatcher Green, of the Allen grade school, presented a practical lesson on chart work, pointing out various methods and games to use in starting children to read. Miss Kelsa Gayheart, of the Betsy Layne school, demonstrated the teaching of spelling and writing for beginners. An open discussion of teacher-problems followed.

The opening of school at 9 instead of the traditional 8 in rural schools was made official because of Eastern wartime and other possible difficulties students may have in reaching school.

R. C. Delong Succumbs After Long Illness At Edgar Home

R. C. Delong, of Edgar, died Thursday night, last week, at his home on Johns Creek after being ill for several months. Mr. Delong was 83 years of age and was one of Floyd county's best citizens.

Surviving him are his widow, Mrs. Missouri Wells Delong, and five sons, Lacy, Sherman, James, Virgil and Willie Delong, all of Edgar.

Funeral rites were held Saturday, Elder W. J. Setser officiating. Burial was in the family cemetery.

CONGRESSMAN MAY, HOME

Congressman A. J. May is spending the Congressional vacation at his home here.

Four Deserters Taken To Fort Knox, Ky.

Four men arrested in this county since last Saturday on charges of army desertion were removed from the county jail here Wednesday by Deputy Constable Rich Hall and taken to Ft. Knox, Ky. The four are:

Ben David Hall, arrested Saturday on Left Beaver Creek by Constable Willie Johnson and Henry Campbell; Elmer Jacobs and Rudolph Hurd, both arrested Sunday by Deputy Constable Rich Hall; Arnold Vance, Ligon, arrested Tuesday by Constable Willie Johnson and Henry Campbell.

PATTON HELD IN SLAYING

Former Floyd Resident Jailed at Logan, W. Va.; Was Carnival Worker

That the man held in Logan, W. Va., for the pistol-slaying of a fellow-worker in a carnival is John L. Patton, formerly of the Right Beaver section of this county, was the opinion expressed here this week by officials and persons who met Patton during the recent visit to Prestonsburg of Scott's Shows. Name of the prisoner was given by the Associated Press, however, as John M. Patton, 47; his address, Prestonsburg.

Eddie McComb, 30, died Wednesday night, last week, of a bullet wound in his head after he and Patton had argued in a Logan suburban restaurant. Deputy Sheriff Andy McNeely quoted Patton as saying he snatched a pistol from beside a cash register in the restaurant, fired one shot into the floor in an attempt to stop McComb advancing upon him. His second shot struck McComb in the temple.

Patton waived examining trial Monday and no bond was set for his release, pending grand jury action. McComb's body was sent to Columbus, O., after Logan authorities had traced his residence through draft papers.

Dr. Francis Burgess On Hospital Staff

Dr. Francis Burgess, who has been connected with the Paintsville Clinic, is now assisting Dr. D. H. Daniel at the Prestonsburg General hospital. Many improvements have been made at the hospital, a new X-ray machine having been installed and a large sun porch added to the east side of the building. Miss Kay Hicks is now superintendent of the hospital and nurses. Dr. Burgess, a native of Lawrence county, is a graduate of the Medical College, University of Louisville.

Floyd Budget Increase Made To Pay on Old Indebtedness

Although Floyd county's planned expenditures for the current fiscal year, as shown by the county budget published in condensed form elsewhere in this edition of THE TIMES, is higher than that of last year or the year before, Floyd county taxpayers will like it better than preceding budgets.

For the heavier expenditure planned is for debt service.

Debt service, the paying of principal and interest on old bonded indebtedness, has increased from the \$31,600 of 1941-42 and the \$33,750 of 1942-43 to the impressive total of \$65,236 for this year.

General government expenditures for the current fiscal year are reduced by the budget from \$35,215 two years ago and \$36,440 last year to \$33,115 for this fiscal year.

Meanwhile, highway expenditures since '41-'42 have been decreasing—\$42,100 two years ago, \$28,500 last year; this fiscal year—\$23,000.

At the same time payments on road and bridge bonds have gradually increased—\$42,801 two years ago, \$52,330 last year. This fiscal year, the budget provides for a payment of \$54,443 on this score.

Protection to person and property,

MONTH'S CALL MAY EXHAUST BOARD 44 SINGLE-MEN POOL

Both Floyd county draft boards face, next month, their heaviest calls since the beginning of the war and the supply of single men listed with one of the boards is expected to be exhausted thereafter as a result.

Draft Board No. 44 with a call for August of 187 white selectees and five colored expects that drain on its present 1A reserve to exhaust the pool of single men and force it to begin, within the next month or two, the drafting of married men without children.

Draft Board No. 45 has a larger pool of single men in 1A but its August call is for 190 whites and 25 colored. Its supply of single men is expected, however, to be large enough to fill normal calls till November or December.

Draft Board 45's call for July will be for only 75 men.

Draft status of married men has long been a moot question and this uncertainty recently led Congressional leaders, including Congressman A. J. May, to call for a definite statement as to the possibility of their military service.

Unless Selective Service regulations are changed soon, it would appear that not only married men without children but also fathers will be off to war within the next few months.

LANCER TOT DIES OF BURNS

Akers' Child Funeral To Be Held Friday From Parents' Home

Claude Edmond, two-year-old son of Mr. and Mrs. Burr Akers, of Lancer, succumbed at the Prestonsburg General hospital Tuesday night at 11:25 o'clock to scald burns suffered at the Akers home early Monday afternoon.

The tot was scalded when it pulled a pan of hot water from the kitchen stove. The burns extended over the child's face, chest and abdomen.

Surviving are the bereaved parents, three sisters and one brother, Katherine, Charlene, Beulavene and Raybon. Funeral rites will be conducted Friday from the Akers residence and burial will be made at Lancer under direction of the Arnold Funeral Home.

MANTON CHILD DIES

Bonnie Sue, three-months-old daughter of Mr. and Mrs. Dewey Garson, of Manton, died Sunday at the Martin General hospital. The father is in the armed forces. Burial was made in Pike county under direction of the Ryan Funeral Home.

Martin Man Succumbs After Year's Illness At Age of 70 Years

Ill for the last year of a stomach ailment, William Spencer Edens, 70 years old, died at his home at Martin Friday.

A native of Big Stone Gap, Va., Mr. Edens had resided at Martin for the last 11 years. He is survived by his widow, Mrs. Maggie Jordan Edens, and seven sons and three daughters: Mrs. Winnie Burton, Edd, Willie and Ira Edens, all of Martin; Burt Edens, of the army at Camp Beale, Calif.; Willard Edens and Mrs. Laura Halloway, Pomona, N. C.; one brother, Morgan Edens, Big Stone Gap, Va., and one sister, Mrs. Millie Blaicher, Big Four, Va.

Funeral was from the residence Saturday, the Rev. Isaac Stratton officiating. Burial in the family cemetery at Martin was under direction of the Ryan Funeral Home.

OLD SHOES TO BE SOLD

And No Ration Stamp Necessary, Ruling Of OPA Provides

Shoe retailers all over the country are preparing to get rid of their odds and ends of broken stock and obsolete odd-lot shoes under OPA's so-called "Grab Bag Amendment" between July 19-31.

A limited amount of dealers' shoe stocks thus to be disposed of will be sold to the public at a reduced price without payment of a ration stamp. Dealers are required to use the words, "OPA Odd Lot Release," in all announcements and advertising in connection with these sales.

The maximum percentage allowed retailers for the number of shoes released from rationing during the period must be based on the number of rationable shoes in stock as of April 10, minus certain types such as baseball shoes, evening slippers and such which were released from rationing July 7.

Dealers selling odd-lot shoes, ration-free, will not be entitled to any additional shoe ration currency to compensate them for these sales. This amendment does not affect the sale of new, modern, regular-line shoes which will continue to be sold only upon the surrender of the current stamp No. 18.

REA SYSTEM IN 3RD YEAR

Toney Cites Progress On 3rd Anniversary Of Co-operative

The Big Sandy Rural Electric Co-operative Corporation, Prestonsburg, this week enters its third year of supplying electric service to farmers and other rural consumers in this area.

Oiting the progress of the Co-operative since its lines were first energized July 23, 1941, Acting Manager W. A. Toney recalled that the system had only 423 consumers at the end of its first month of operation. Today the Co-operative furnishes electric service to 735 consumers along 206 miles of distribution lines in Floyd, Johnson, Martin and Knott counties.

"Farm members of the Co-operative have come to depend more and more on electric equipment to save labor and increase production of such vital foods as milk, eggs, poultry and meats," Mr. Toney said.

Rites for Mrs. Scott Held at McCombs Home

Funeral rites for Mrs. Chatlie Workman Scott, wife of C. C. Scott, were held Friday at her home at McCombs, on Johns Creek, Pike county. She was a victim at the age of 66 of cancer.

Mrs. Scott was born and reared on Bear Creek, Boyd county. She had been a devout member of the Methodist Church for many years. Surviving, besides her husband, are her three step-sons, one step-daughter, one brother, Harve Workman, Catlettsburg, and two sisters, Mrs. L. B. Riddle, Kenova, W. Va., and Mrs. Daniel Michael, Cerreto, W. Va.

Funeral rites were conducted by the Revs. Charles Elswick and Isaac Stratton. Burial in the family cemetery was directed by the Call Funeral Home.

DRAFT BOARD ISSUES CALL FOR 107 MEN

Call Is 40th Made By Draft Board 45; 22 Are Volunteers

Fortieth call of Local Board No. 44 for selectees from Floyd county to augment the armed forces of the United States is for 107 men and they have been notified to report here Wednesday, July 21, for the usual early-morning departure for Huntington, W. Va., where they will receive final examination.

Twenty-two of the 107 men are volunteers.

Included in the call are two men whose 1A classification by Board 44 was affirmed by the Appeal Board. Names, addresses and final classification by Appeal Board of six recent appellees from this county, all of whom were recommended for deferment by the Floyd County Agricultural War Board as essential farmers follow:

George Samuel Calhoun and Dennis Johnson Stephens, both of Water Gap, 1A; Calvin Derosselt, Sloan, and Bill Claude Spears, Edgar, both classified in II-C; Merlin Derosselt, Sloan, and Robert Lee Rose, West Prestonsburg, both classified 1-A.

Names of selectees notified to report for induction follow (V indicates volunteer):

Willis Craft (V), Prestonsburg; Leland C. Wright, Auxler (now of Aberdeen Proving Ground, Md.); Earl Frazier, Bonanza; Graham McGuire, Lancer; Woodrow Wilson Smith, Prestonsburg (now of Hotel George Washington, New York City); Everett Hampton (V), Prestonsburg; London Collins (V), Allen; Henry Clay Hale, Prestonsburg; McKinley Hunter (V), Woods; Jerry Hackworth (V), Bonanza; Russell Dave Spradlin, Bonanza (transferred to Local Board No. 1, Portsmouth, O.); George Hamilton, Teaberry; Albert Lloyd (now of Prestonsburg (now of Baltimore, Md.); Vergil Miller, West Prestonsburg (now of New Britain, Conn.); Thurman Clark, Prestonsburg; Dewey Laferty, German; Chester Ounsley, Risner; George Samuel Calhoun, Water Gap; Ervin Akers, Dana (now of Wellington, O.).

SOLDIER RITES HELD SUNDAY

Collins' Body Returned From Ft. Lewis, Wash., To Home at Lackey

Funeral rites for Pvt. James Kelly Collins, 19 years old, who died July 4 at Fort Lewis, Washington, were conducted Sunday from the home at Lackey of his parents, Mr. and Mrs. Jonas Collins, with a large gathering of friends and relatives attending. The services were conducted by the Revs. Isaac Stratton and Roy L. Bellomy.

Pneumonia, which developed following an ear operation was given as direct cause of the soldier's death. He became ill June 6 and his mother, his wife, the former Miss Beulah Pittman, and his sister, Mrs. George E. Evans, Jr., had been at Fort Lewis for several days prior to his passing.

Member of a well-known Lackey family, young Collins was a splendid young man. He was a graduate of Wayland high school, where he was prominent in athletics, and enlisted for army service April 1, this year. During his illness he was baptized by the post chaplain at Fort Lewis. Surviving are his widow, his parents, three brothers, Lt. Gorman Collins, Fort Lewis, Wash., Pvt. Gordon Collins, in North Africa; Charles Collins, Lackey; Mrs. George E. Evans, Jr., Estill; Miss Georgia Collins, Lackey.

Burial was made in the family cemetery at Lackey under direction of the Ryan Funeral Home.

DEAFENING SILENCE

The silence after last week's suggestion in this column that Floyd county should erect in the courthouse grounds here a huge sign-board on which the names of every Floyd countian in the armed forces should be inscribed is deafening. One-count 'em—man called to express his willingness to help. Scott Harkins, who called the matter to our attention, makes two for this job needed to be done by the folks back home.

What say the rest of you? Are there as many as 500 men and women in Floyd county willing to contribute as much as a dollar each to this wartime memorial to both the living and the dead of our armed forces? Paintsville's "honor roll" was nearing completion last week.

WE GET A "MARKED COPY"

This week, a marked copy of The County News reached this week. The item marked was a story telling how Pike's women had met a quota for surgical dressings which the Red Cross sends to army hospitals. June's quota of 15,000 was completed in eight days. Now going ahead on the same there.

Do not make pretty readings of Prestonsburg, but it's true—working here on the February 1st 'Nuf sed.

U-GO

Do not pay for a "dead" of a defeated candidate printing bill isn't settled boss' debt, it's for equally defunct animal. Do not have to pay for losses or lost causes, and do not state that some of 'em acted as if they think declare a moratorium on.

Do not insist on the Payment system.

NG DONE

County News last week editorially about what happened to the Chloe Creek had been graded but on promised surfacing has realized.

Do not, they're not doing that during these days, on new they tell us here in Floyd.

Do not are not famous last words—the heat, it's the humidity—they're the last for this week's

BURIAL BABE, VICTIM

One-year-old Daphne, daughter of Wayne and Charlotte Hunter, died at the Valley hospital, Martin, a victim of dysentery. Surviving are the bereaved parents, four brothers and one sister, Richard, Orris, Ransom, Emmett and Wanda Sue. Burial was conducted Tuesday at the Ryan Funeral Home.

HONEST, ABLE AND WORTHY
AND TIED TO NO FACTION

10 YEARS EXPERIENCE AS A LAW-ENFORCEMENT OFFICER

The Real Check Back

SINCE the final day of the last
World Series you could hear
them asking what had happened to
the Yankees—and to Joe McCarthy.
Here is proof again how short man's
memory is in the whirl of busy
events.

They had overlooked the fact that
Joe McCarthy and his Yankees had
the greatest World Series record of all
time—above John McGraw and his Gi-
ants, above Frank Chance and his
Cubs, above Connie Mack and his fa-
mous Athletics.

Grantland Rice

All Joe McCarthy had done was to
make it six out of seven in the World
Series count—25 victories against eight
defeats. How much more can they ask
of a manager and a team?

What other manager or what other
team has turned in such a job? They
forget the check back.

About Connie Mack

It was something more than a
pleasure to have a visit with 80-
year-old Connie Mack during this
last series. We turned the clock
back 40 years and I found Connie
as keen and alert as ever, looking
forward to whatever next year
might bring.

During the last series game I
turned the clock back even further.
I ran into Arlie Latham, now work-
ing at the Yankee Stadium. Arlie
was one of the star ball players of
an era that goes back some 55 or
60 years. He was the crack third
baseman of Chris Von der Ahe's old
St. Louis Browns.

"I remember Connie Mack around
1885," Arlie said. "He was then
catching for Pittsburgh as I remem-
ber it. What kind of a catcher was
Connie? He was something on the
Bill Dickey type. He knew how to
handle pitchers. He saw everything
that was going on. He was never in
a hurry. Connie couldn't hit with
Dickey, but as I remember it he
was a great bat tipper. He knew
how to bother you at the plate. He
was smart even then. Things were
different in those days. Anything
you could get by with was legal and
okay. But what a great fellow that
Connie Mack has been for 60 years.
You've got to have something extra
to be better than good for 60 years."

Another 80-Year Old

This brought to mind another ac-
tive sporting star who goes back 60
years. His name is Amos Alonzo
Stagg, now coaching the College of
the Pacific.

Lonnie Stagg was a member of
Walter Camp's first All-America
team, picked in 1889. Lonnie was no
kid then. After all, that was only
53 years ago.

"You ought to see this kid Stagg,"
a friend writes me from California.
"He is up early in the morning for a
set of tennis. And don't think he
coaches this team from the bench.
He leads the squad in the field at a
gallop. He works as hard as any

The Iron Horse

Much has been said and written
about Whirlaway's famous long tail,
his speed and his stout heart. But
his most remarkable assets are iron
legs and an iron constitution.

Where most thoroughbreds are
about as brittle as a pretzel, here is
a horse which has been ready to
run fast, far and often for the great-
est part of three years. And in all
that time he always has been ready
to run his race.

He gets beaten, but in spite of all
the racing he handles, he never runs
a bad race and inevitably he is in
there driving at the finish.

"He's never seen the day when
he wasn't ready to run," Trainer
Ben Jones says. "They say I over-
work him. I don't. He likes to run.
He has never shown any sign of
staleness, which is the main an-
swer. And I don't care how hard the
race is, he is always fresh on his
way back to the barn."

"Once the rider lets him start
running he is hard to hold back. I
suppose that's one reason they
don't want to turn him loose too
soon."

Horse Ages

Tony, the 40-year-old Tom Mix
horse, was scheduled for execution
recently.

Several readers want to know the
oldest horse on record. Tony must
have been close. I asked a few vet-
eran trainers and found none who
knew of any other horse that had
passed 38.

The two greatest, Man O' War and
Exterminator, are still shy of 30.
Exterminator is as frisky as a colt
these nippy autumn days.

Few horses, however, pass 25.

Olive Hill Mob of 100 Wrecks
City Hall There; 15 Arrested

Olive Hill, Ky., July 11—A mob of
more than 100 men and youths who
took exception to police measures
against juvenile delinquency, wrecked
the Olive Hill city building early
today.

Corporal James Scott, of the Ken-
tucky Highway Patrol, said windows
were shattered, furniture in the of-
fice of Police Judge James Carpen-
ter and Magistrate J. E. Rayburn
destroyed, and police records and
mattresses from jail cells burned.

Sergeant Reese Wells, of the pa-
trol at Ashland, said all available
patrol members in the Ashland dis-
trict were rushed to the city and
that 15 arrests were made, among
them several leading citizens.

The situation had quieted tonight,
but Wells reported that patrolmen
from Morehead and Mt. Sterling,
along with members of the Olive
Hill detachment remained here to
guard against another outbreak.

Scott said the reason for the vio-
lence was obscure, but that it ap-
parently stemmed from an order by
Police Judge Carpenter requiring all
minors to be off the streets by mid-
night.

The trouble started late last night
with barrages of firecrackers, dur-
ing which police said several pistol
shots were heard, and climaxed
about 1:30 a. m., when the crowd
moved against the municipal build-
ing.

"After that there was no holding
them," Scott reported.
Other townsmen said several juve-
niles had been called before Judge
Carpenter recently and admonished
for acts of vandalism, but that there
had been no criticism of the con-
duct of the cases, and they said they
could not understand the outbreak.

Ten members of the Ashland di-
vision of the patrol rushed here ve-

County Agents to Handle Farm Labor

In accordance with a law passed by Congress, the Kentucky College of Agriculture and Home Economics, through its county agricultural and home demonstration agents, has assumed full responsibility for the recruitment and placement of agricultural labor within the state.

Under the act passed by Congress, the Extension Service may conduct the following activities:

- 1. Operate placement centers to (a) receive all requests from farmers for farm labor; (b) receive applications for farm work; (c) fill orders for work by referring workers.
2. Carry out a mobilization and recruitment campaign within the state and within each county to supply needs for year-round, summer months, or short-term farm work.
3. The organization and operation, in co-operation with schools and youth organizations, of the Victory Farm Volunteer program to utilize non-farm youth for farm work.
4. The organization and development of a Women's Land Army to utilize non-farm women and farm women for farm work.
5. Train non-farm youth, non-farm women and intrastate workers. The training of non-farm youth will be done in co-operation with the public schools and the U. S. Office of Education. Most of the training is expected to be on-the-job training.
6. Conduct a continuous educational campaign to insure the efficient use of farm labor.

THE GARDEN

By JOHN S. GARDNER Kentucky College of Agriculture and Home Economics

FOOD FOR NEXT WINTER

In other years, at this time, it has been trite to say that now is the time to reassemble faith and strength, to repair a poor start, perhaps, to point to next winter's vegetables. But this year is not a normal year. Gardens were started late and wet, and many, now feeling the slackening of rain, appear to be falling short of their earlier promise.

Manuring, but with well-rotted manure, should be done, and 20 per cent phosphate should be broadcast, one pound to 20 square feet, to give the tomatoes all possible opportunity for quick growing, as "time is of an essence." Even though only green but sizable fruits result by frost time, they will make fresh tomatoes for a long time next winter, ripened indoors, to ease the drain on those that have been canned.

Varieties are Marglobe or Rutgers, or, where there is no likelihood of wilt disease, Greater Baltimore.

You call it Bread... your ancestors would have called it Cake

Your daily bread is nutrition in one of its finest and most appetizing forms—and today it saves ration points. We Americans can be grateful that our country produces an abundance of this perfect 'staff of life'.

We can be grateful, too, to science for the greatly improved quality of our daily bread. It has been tremendously enriched. Its texture is finer, its appearance and flavor more inviting.

Did you ever wonder how many millions of pounds of yeast are required each year to leaven the nation's bread? Did you know that yeast must be absolutely fresh when it reaches the baker? Thanks to a network of specialized delivery services plus modern refrigeration, bakers in even remote parts of America get their yeast fresh and on time.

The Baker's Yeast Division of Anheuser-Busch supplies bakers with yeast for a large part of the nation's bread. Now nearly 15 percent of our entire output goes to the Army. This service to civilian bakers and our armed forces resulted from applying to food the knowledge gained from years of laboratory work in producing the world-famous Budweiser.

Our Kentucky Coal Mines Receive Federal Inspection

Improved ventilating facilities, control of coal dust, and elimination of ignition hazards have been recommended by federal coal inspectors for four Kentucky mines in Floyd, Harlan, Bell and Mingo counties, Dr. R. S. Sayers, director of the Bureau of Mines, informed Secretary of the Interior Harold L. Ickes.

of the Clover Fork Coal Company at Kitts, Harlan county, 1,200 tons and 155 employees, and the Whipple mine of Whipple Coals, Inc., at Balkan, Bell county, 300 tons and 50 employees.

Separate reports on inspections made in recent months state that all the mines were rated non-gassy by the Kentucky Division of Mines and Minerals. However, the inspectors cautioned the operators to be on the alert for the liberation of methane, an explosive gas. There was methane in air samples from the Clover Fork and Glo No. 1 mines, the inspectors said.

Dr. Sayers noted approvingly that several of the mines recently

have made safety improvements for further protection of life and property.

Listed among the ignition hazards in the Glo mine were underground smoking, use of open-flame cap lamps, and blasting with black powder and dynamite. A federal inspector recommended the adoption of a "no smoking" rule, use of permissible electric cap lamps, and exclusive use of permissible explosives. He said some workers wore permissible electric cap lamps and that some permissible explosives were used.

Other suggestions called for improved ventilating fan installations, removal of fire hazards, tests for gas by foremen, employment of shotfirers to handle blasting, formation of a safety organization, adequate first-aid supplies, improved electrical installations, and guarding of exposed moving parts of machinery.

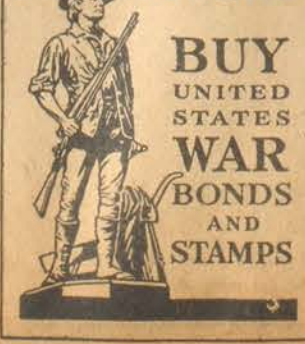

Albion V. Faulk, the inspector, noted approvingly that some employees wore special protective clothing and that the mine had salvaged many tons of scrap material for the war-time scrap campaign. The company later informed the inspector that the new explosive-storage magazine would be moved to a safer location and that permissible explosives had been substituted for pellet powder in one section of the mine.

SERIOUSLY SPEAKING

By E. F. EPLING

They bellow, squeal and squirm. They'll cry and plead for mercy when there is no mercy for the Axis, for they started this thing. Now, it is our side doing the dishing out.

Yet it's hard to understand how some people are unconcerned about what this war's about. Or what it should be about. The rights of others are to be upheld.

Those men are doing the job for me, and I can find no way to be satisfied, for I am not counted when it comes to actual support of them.

The only consolation we can find is the fact, we are ready to put in our little mite when opportunity arrives. And I seem to hear Uncle Sam say, "You're taking pretty good care of some young Americans, and a stamp of approval is hereby given."

Our boys—yes, "boys,"—as well as men, are doing your job. What are you doing to support them? It might not be any of my business, but it certainly is their business. Can we face them (those of them) who will come back?

The victories are grand, but do we think about the precious lives it's taking to gain the victory? American boys, if not your boy, then a neighbor's boy.

Every meal I eat is bought with a terrible price—not the hard-earned dollar but the liberty and privilege that goes with it. All those things, our gallant defenders making it secure. This is the price they, not we, are paying to keep us a free people. Am I thankful?

GOVERNMENT BY WANTON IRRESPONSIBILITY

In lights of events in our national House of Representatives as reported yesterday, it does not seem fantastic to think that if the preceding day's menu of the House restaurant was scanned, we might find as one item "the insane riot that takes the reason prisoner."

The fury of political outcry against "bureaucracy," meaning anything which smacks of technical public service and particularly of service by the present administration, reaches its height in the typical action to require "at least five years' business experience" for all O.P.A. price policy officials.

The day's record of sabotage was accomplished by coalition of almost solid Republican strength generally with rebellious Southern Democrats whose spokesmen held forth with distortion, or with downright ignorance, of facts in the case.

The day's record of sabotage was accomplished by coalition of almost solid Republican strength generally with rebellious Southern Democrats whose spokesmen held forth with distortion, or with downright ignorance, of facts in the case.

addressed to negro workers, was an appeal to them to take pride in their efforts, to take glory in the opportunity to serve their nation in its extremity. That even the most expeditious panderer to inflammable prejudice should cavil at such a word of encouragement for Americans working to help save America is all but incomprehensible at this time.

CONGRESS GOES HOME

BARRING an emergency call, Congress will be home for more than two months—no longer a Congress but something more than 500 individuals.

The New York Times, in an editorial appraising the record of the Seventy-eighth Congress, says that if the body could be marked like a college freshman class on the achievements of its first session, "it would get neither 100 per cent nor a flat failure."

The greatest achievement of the Seventy-eighth Congress was in facing up squarely to the necessities of the armed forces. Notice was served on our allies and our enemies that we intend to see the war through to a decisive end, without compromise, when Congress passed appropriations totaling more than \$110,000,000,000, nearly all for war, continued Lend-Lease, and re-enacted the Reciprocal Trade law.

On the debit side, must be recorded the failure of the Seventy-eighth Congress to come to grips with the problem of inflation, and the failure to adopt a consistent labor and agricultural policy.

In the field of nation-wide domestic strategy, designed to equalize the burdens of war, Congress did a pretty poor job, because, observes the Times, it was "too anxious to spare first one group, then another, in a nervous uncertainty as to where the most votes lay."

But Congress has adjourned and the members will now have the opportunity to learn first hand what the people who send them to Washington think about their performance during the most critical period of our national history.

A Senator's or Congressman's time at home can be and should be one of the most edifying features of our political system. The political grass-roots may be in city streets or in country towns, but they do exist. There is a wisdom in our people that does not always penetrate in letters or telegrams to Capitol Hill.

We think Congress may find that its constituents are more willing to make sacrifices than could be realized in the hectic atmosphere of Washington. They want the sacrifices to be as nearly equal as possible, but they will make them. How can it be otherwise, when most every American town has had its casualties, and almost every home has a relative or dear friend in perilous service.

We hope that when Congress returns in September its mood will be that of the home town, not that of the political hot house. We hope that it will be resolved to fight the war single-heartedly and not to be led into forays into the debatable ground between the legislative and the executive. If this happy result is to come about, the White House and the massive array of executive agencies must cooperate. It is too bad, too, that the executive branch cannot go back to the grass roots for a few lessons in patience, tolerance and faith.

A good word should also be said for Judge Hill, who has steadfastly stood in the thick of the fight for better moral conditions in Floyd, even to the extent of refusing to renew liquor licenses for the sale of drink and beer in communities voting dry in the recent campaign.

Dr. Arnett Stresses Higher Teacher Pay And T.B. Hospital

Dr. Earl T. Arnett addressed several hundred voters at Hindman Monday in behalf of his candidacy for the Democratic nomination for State Senator from this district, declaring that "Democracy begins in the schoolroom" and that a living wage for teachers is therefore a necessity to the preservation of Democracy.

Dr. Arnett again stated his ambition to gain for this section of Kentucky a hospital for the free treatment of this disease. One of his opponents stated, in a speech there, that we do not need a new hospital of this type at the expense of the taxpayers, adding that additional funds should be appropriated for the present hospital at Louisville.

The Louisville hospital, the people of this section should know, has only 12 free beds for tuberculosis patients. A new hospital for this section would not be a burden to the taxpayers, for the U.S. Public Health Service, state and federal funds and contributions from private individuals would support it.

Dr. Arnett this week declared that, if he is elected and successful in getting such a hospital for Eastern Kentucky, he will give 1,000 acres of land as his personal contribution to this humanitarian cause.

The 573 farms served by the Cooperative consumed an average of 27 kilowatt hours in April.

The Cooperative encourages its members to make the best possible use of existing electrical equipment and to build home-made devices, Mr. Toney said. The Cooperative has plans for several home-made appliances such as a chick brooder and fruit and vegetable dehydrator which requires few critical materials.

The War Production Board's liberalized service connection order has made it possible for the Cooperative to supply electricity to many new farms engaged in livestock, dairy and poultry production, according to Mr. Toney. Service has been extended to 20 farms under the order so far. Farms eligible for such service are near present lines of the Cooperative.

The Cooperative's program got under way October 4, 1940 when the REA allocated \$150,000 of its first loan to the system. Construction started after a contract had been let on December 13, 1940 for the building of 150 miles of line at a cost of \$102,241. REA has advanced the Cooperative a total of \$259,036 on its construction allotments as of April 30, 1943.

U-K. Summer Enrollment Drop Relatively Small

Despite a drop of approximately 250 from the number of students enrolled for the first term of the 1942 summer quarter, approximately 1,565 students were enrolled for the first term of the 1943 summer quarter at the University of Kentucky, at close of the regular registration period. Of this number, 500 were registered in the bus workshops being conducted.

A total of 26 Kentucky students showed slight increases in enrollment this term, and approximately 135 students from 24 states Kentucky are enrolled. Registration for the first term of the 1943 summer quarter at the University is scheduled for July 20.

A GOOD WORD

By the REV. W. B. GARRIOT, Pastor, Prestonsburg Methodist Church

We are often asked if it is right or wrong to do this thing or the other. And the first thing which arises in our thinking is why the question is being asked, whether it is asked to shift the responsibility of making a decision for one's self, or is it asked for the sake of argument or is it an honest inquiry for new light. Let me say here that if we are not sure about what is right or wrong, then the best thing to do is to give God the benefit of the doubt and not practice it until we have made an honest effort to know.

Let me make a few quotations from an article by John R. McMahon in the Ladies Home Journal, some years ago. In this article he speaks of the modern dance and its accompanying jazz music and animal movements. He quotes Mr. Bott, a leading dancing master of Dayton, Ohio, as saying: "The jazz

dance is worse than the saloon."

When asked why, he replied: "Because it affects our young people especially. It is degrading. It lowers all the normal standards. It leads to undesirable things. The jazz is too often followed by the joy ride. The lower animal nature is stirred up as a prelude to unchaperoned adventure." Again he said: "A nation-wide clean-up of the dance is needed. The music written for jazz is the very foundation and essence of salacious dancing. Its words are often very suggestive, thinly veiling immoral ideas." Mr. McMahon also said that "Don Juan never had such a potent instrument of downfall as the ultradance supplies to every evil purposed male today." A. J. Weber, a member of the Dancing Masters' Association, says: "The jazz is simply rotten. It belongs to the underworld, where it is called a name that would shock a lot of respectable people." Mr. Guyon, proprietor of one of the leading dance halls of Chicago, once said: "Dancing has become a greater menace than liquor, segregated vice, or the brothels from which much of it springs." And again he said: "Modern dancing is creating an army of degenerates. It is breaking down the moral resistance of the younger generation and taking its toll in girls who succumb under its insidious influence during the automobile rides and the parties that follow the evening dance."

One of the social scouts on investigation found that petting parties have now been added to the rites of jazz "necking," is a development of cheek-to-cheek dancing, which harks back to the courtship methods of the ostriches. Mr. McMahon said: "Such familiarities are, to say the least, vulgar. What benighted parents or guardians can permit such parties to be held?" Now listen to this final arraignment and ap-

peal of Mr. McMahon, who said: "America will perhaps heed the practical argument that her civilization, regarded only from the standpoint of material efficiency and welfare, is gravely imperiled and can no longer endure the widely prevalent conditions of rottenness. We are dancing on an inclined platform that slopes into the bottomless pit of impotent and inferior races." Then although only a layman, he cries out like a prophet: "Let's quit! Safety first! Let us find excitement in straight and wholesome activities. Every human being can enroll in the high struggle of momentous consequences now going on."

These articles are to be continued and I want to ask every praying father and mother to ask God to guide my pen, keep my heart warm and my head clear and to keep in touch with the divine.

ONLY SYNTHETIC TIRE BACKED BY 80,000,000 MILE ROAD TEST

Three years ago car owners started the greatest road test in history, driving thousands of Silvertowns (made with Ameripol). That's why you can have the utmost confidence in our all-synthetic tire of today—the 1943 Ameripol Silvertown

LIMITED STOCKS

Only B & C Book Holders Who Qualify For Tires For Essential Driving Can Get Ameripol Silvertowns.

RUBBER SHORTAGE STILL ACUTE

There still is a critical rubber shortage. Most synthetic rubber is needed for vital war requirements. Every American must continue to conserve rubber! Follow the five basic rules of tire conservation from the Office of the Rubber Director.

1. Drive only when absolutely necessary.
2. Keep under 35 miles an hour.
3. Keep your tires properly inflated.
4. Have them inspected regularly.
5. Share your car with others.

WHEN YOU BUY a synthetic tire—use the same kind of good buying sense you always used. Look for facts and evidence. Here's some—from a U. S. Senate Investigating Committee:

"The only general-purpose tire rubber which had been brought into small commercial production by 1940 was Ameripol, another B. F. Goodrich product. In the summer of 1940 Goodrich placed Ameripol tires on the market, and recent reports on the performance of those tires seemed to indicate that Ameripol was equal or possibly superior in durability and service to the crude rubber product."

Thousands of these Ameripol Silvertowns were driven

in every state, and under every condition of road climate. They were driven the way drivers drive — and not by factory experts.

Results show that these tires were "at least as good as those made with natural rubber."

In these Silvertowns, more than half the natural rubber was replaced by synthetic. In the new Silvertowns offer you today, more than 99% of the natural rubber is replaced by synthetic. And these new Silvertowns ours have been undergoing a severe test, too—the test of battle on a dozen fronts.

If you buy on proof of performance, you'll buy B. F. Goodrich Ameripol Silvertowns. See us today!

SOME OF THE HUNDREDS OF COMPANIES WHO MADE THE GREATEST TIRE TEST IN HISTORY

STANDARD BRANDS bought a number of Silvertowns made with synthetic rubber back in 1940. They were installed on company cars in several regions of the country. Some of these tires went more than 30,000 miles!

AMERICAN AIRLINES was another of the companies who bought made-with-synthetic Silvertowns months before Pearl Harbor. This airfield maintenance truck went 29,519 miles and was good for thousands more.

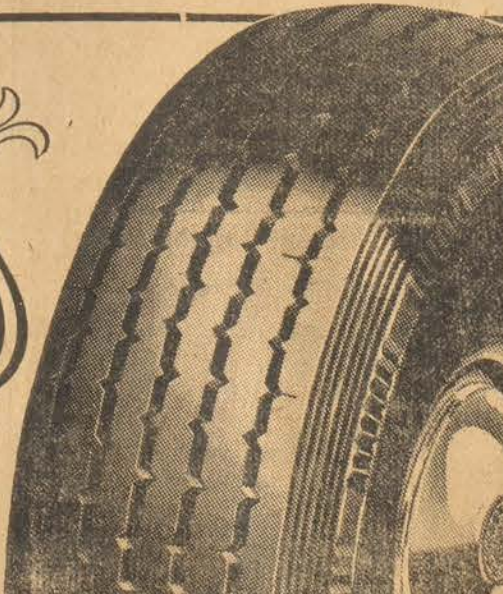

BRINK'S, INC., operators of armored trucks, tried these Ameripol Silvertowns on a convoy car. 26,592 miles were recorded—excellent mileage for this type of driving.

**So you can
"Carry On!"**

Instead of shutting up shop when the manufacture of automobiles was stopped, we decided to "carry on" so that our customers and friends would have a place to get good service! A real interest in their welfare... competent mechanics and genuine parts... honest work at honest prices. We're still on the job—and we look on it as a real

contribution to the war effort, because "you can't build a gun unless you can get to the job." We're here to help you "carry on." Drop in.

5 Points to Remember:

- We still have competent mechanics
- We still use genuine parts
- We still check your car without charge
- We have specially-designed tools to reduce repair time
- We want to be helpful in your transportation problems

★ HOW LONG SINCE YOU'VE READ ★

*The Constitution of
the United States?*

"We, the people of the United States..."

156 years ago, these simple words began America's warranty of freedom.

Today we are deep in war—so that this warranty may endure. Should we win—and win we must—whom will it profit?

Are you a farmer, and do you love your land? Are you a worker, and do you cherish your hard-bought home? It will profit you that no man, without due process, can wrest your home, your field, your plow from you.

Do you worship God in a church, or in a synagogue, or in the secret places of your heart? It will profit you that no heathen hand can desecrate your altars.

Do you impart the truth to the printed page—or do you seek it there? It will profit you that the presses will not be shattered in the night.

Do you talk with your neighbors in the market place—or meet on the steps of the town hall? It will profit you that no bludgeon can drive you into secret cellars.

Our Constitution assures us these things. And these we fight for.

In many ways we fight. Some in small, silent ways—when our sons have gone. Some in large, heroic ways—in the roaring of wings. Farmers fight in the rows of corn; writers under the lamp; ministers from the pulpit's height.

Not the least of these are the men of industry. And proud we are to be among them.

Proud to pledge ourselves still further to the fight—that all people everywhere may continue to find in this Constitution of ours a heartening hope!
