DEWEY DAM, POST-WAR PROJECT

But Its Construction on 'Must List' Planned For After-War Period

Although the existing federal policy to forego all public works save those which are of importance to the war effort precludes any possibility of the Johns Creek dam being constructed while the war continues, work on the project is almost certain to begin shortly after the conclusion of hostilities, Maj. Gen. E. Reybold, chief of engineers, War Department, recently wrote Congressman A. J. May.

At the same time it was said an investigation of the Big Sandy river for flood control, navigation and allied purposes is being made.

Maj. Gen. Reybold's letter follows, in part:

The Dewey reservoir has been selected for construction within the present money authorization available to the Department, and the plans and specifications for the construction work are nearing completion. As designed, the Dewey dam is located on Johns Creek, a tributary of Levisa Fork of the Big Sandy, about seven miles southeast

James Meadows Dies At Age 31, Victim Of Tuberculosis

Funeral rites for James Meadows, 31 years old, who died Thursday, last week, at his home on Bull Creek of tuberculosis, were conducted Saturday afternoon at the graveside in the Langley cemetery on the Spurlock fork of Middle Creek, the Revs. Isaac Stratton and Andrew Shortridge officiating. Burial was made under direction of the Arnold Funeral Home.

A son of the late Matthew Meadows, he was born and reared in this county. He was married Jan. 2, 1934 to Miss Lucy McGuire and to this union were born four children, three of whom, Bill, Walter and Anna Ruth, survive. He also is survived by his widow, his mother and the following brothers and sisters: Henry Meadows, South Point, O.; Willie Meadows, West Prestonsburg; Alex Meadows, Lancer, Mrs. Lizzie Burchfield, Ironton, O., and Mrs. Linda Hunt, of Lancer. One daughter, Ruby Jean, preceded him in death.

Death of Mr. Meadows, who had many relatives and friends in this county, followed an illness of a year.

16-Year-Old Wife Of Pvt. Garrison, Victim at Manton

Mrs. Cressie Adkins Garrison, 16-year-old wife of Pvt. Dewey Garrison, of the U. S. army, Nashville, Tenn., died Monday at the home in Manton of her father, Grover Adkins, of tuberculosis.

Her five-months-old babe died a few weeks ago.

Surviving are her husband, her parents, four brothers and one sister: Lib, Henry, Rufus, Grover and Tennessee, all of Manton. The funeral was conducted Tuesday by the Rev. Albert Stephens and burial was made in the Stephens cemetery at Owsley, Pike county, under direction of the Ryan Funeral Home.

IS VISITOR HERE

Mrs. James Wesley Howard, of Newport News, Va., has been the guest here of relatives and of her parents, Mr. and Mrs. Milt Conley, at Lackey.

Floyd Countian, 100 Years Old, Dies July 22nd at Banner

Four months and 10 days after observing his 100th birth anniversary, Loranzo D. Estep, probably Eastern Kentucky's oldest man, died Thursday, last week, at Banner, victim of a stomach ailment.

A native of West Virginia, Mr. Estep was born March 12, 1843. He had resided in the vicinity of Banner almost all his life. He was married 61 years ago to Miss Allie Sturgill, of Banner, who died a few years ago.

Mr. Estep, because of his longevity and memories of early Floyd county,

was an interesting figure and had many friends in this section. Two of his four children survive. They are Vaney Evans and John Estep, both of Ludlow, Ky. He also leaves nine grandchildren, four great-grandchildren and two sisters, Mrs. Liza Estep and Mrs. Elvin Petty, of West Virginia.

Funeral rites were conducted Saturday at the graveside in the Jones cemetery at Banner, the Rev. Isaac Stratton officiating, and burial was under direction of the Arnold Funeral Home.

TO THE U.M.W.

Due to the fact that a great many members of our Local Union No. 7788 live and vote in Johnson and Magoffin counties, we have deemed it to the best interests of our organization not to officially endorse any candidate for any county or sub-county office.

But to other U.M.W. Locals throughout the county, we would like to convey this message:

Elson Kendrick, now a candidate for Sheriff of Floyd county, has lived at David, Ky., and has been Special Officer here for the past twenty-seven months, during which time he has been strictly sober at all times, and has enforced the law impartially, and in so doing has been fair and considerate. During this time he has shown an interest in the coal miners and has tried to help them in every way possible. He is accommodating and has left his bed many times in the night to drive the sick or injured to the hospital in his own car, willingly and without charge. The residents of David now feel

safe to go to sleep at night with the doors open, and without fear of being disturbed with drunken yelling or high-powered rifle slugs tearing through the walls over the beds of sleeping women and children.

Elson Kendrick has done a splendid job here. He is a good neighbor, a good man, and he will make us a good Sheriff. We heartily urge and recommend him to the other Local Unions of the county, and to all miners and working men.

SIGNED:

Albert Burchett, outgoing President; Hansford Honeycutt, Recording Secretary; Frank Waugh, Arthur Ramey, Cecil Sammons, mine committee; Langley Patton, Ray Stambaugh, W. C. Ratliff, Gene Hamilton, Grover Johnson, W. H. Younce, A. C. Wilson, Frank Wolfe, Orville Dotson, Buck Baldrige, Goble Puckett, W. H. 'WE'RE PUSHIN' JAPS AROUND'

22-Year-Old Veteran Of Navy Declares On Visit Home

Home after nine months in the Guadalcanal area, Preston Hicks, a navy veteran of more than five years at the age of 22, declared this week that "we're pushing the Japs around out there."

"We were short on food for about a month through a part of November and December, but everything is under control now. We have the place cleaned up."

Hicks, one of five brothers in the armed forces, and a son of Mrs. Julia Hicks Bailey, of Hippo, has been on a seaplane tender since outbreak of the war which found him in the wreckage of Pearl Harbor. He left the United States in February, 1941, went to Pearl Harbor and after outbreak of the war was on duty in the Bering Sea. "Our ship hasn't seen so much actual fighting, since it is a plane tender," Hicks said. "But, day before I left Guadalcanal, July 6, we were attacked by five Jap bombers. We were at sea and had no planes near to intercept them. But our flak kept them so high they were ineffective. Their bombs fell no nearer than 200 yards away."

After his leave is over, Hicks will go to Philadelphia for training in a boiler and turbine school.

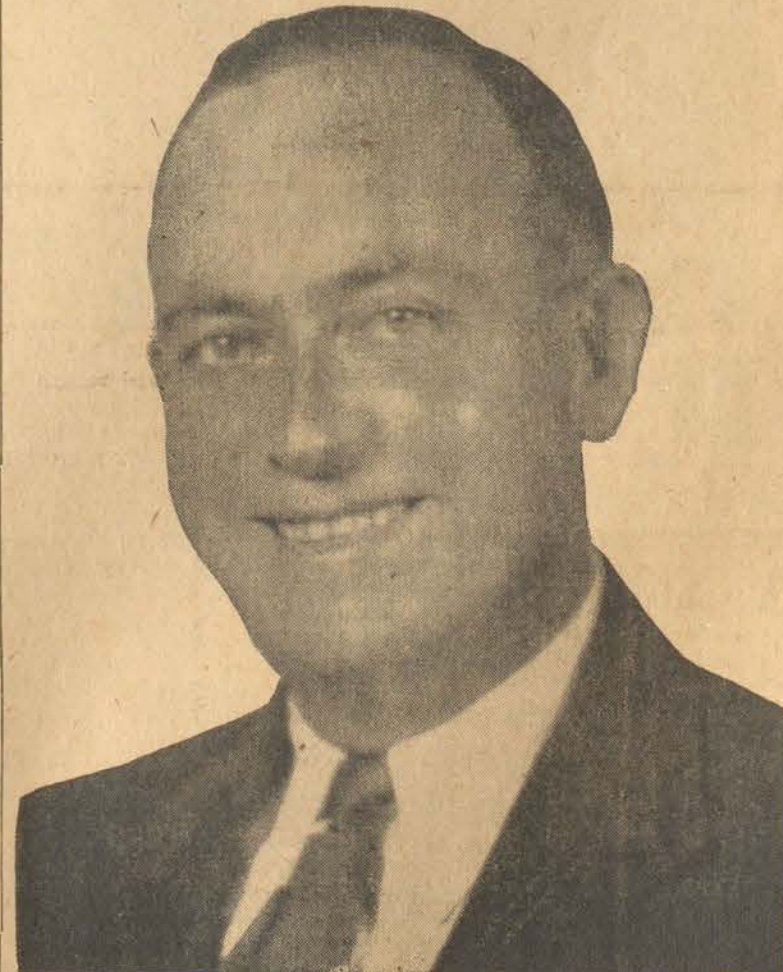

NOTICE

Non-resident taxpayers are hereby requested to file their tax assessments with the undersigned on or before August 31, 1943, as required by law. This notice applies only to incorporated business firms and taxpayers residing outside Floyd county.

TO THE VOTERS OF FLOYD COUNTY:

The campaign is nearing its close. There are many of you whom I have not been able to see, but I want to tell you that I appreciate the interest you are taking in my race.

There will be rumors of all kinds in the last days of the campaign in an attempt to defeat me. Do not be misled by these falsehoods. We have this race won. The people of Floyd county have made up their minds to nominate and elect me, and the will of the good people cannot be defeated.

I am not aligned with any clique or group, and I assure you that I am having nothing to do with any other race. You will be told that I am slated with different candidates. The fact is, I am making my own race. You are also being told that certain people have been promised deputyships. This is not the truth. After I am elected Sheriff I will let the good people of each community select their deputy.

Work hard for me from now till the polls close and we will win by an overwhelming majority.

Your friend, TROY B. STURGILL

HIGH SCHOOLS OPEN AUG. 16

Grade School Here To Begin Session On September 6

Although opening of Prestonsburg high school has been tentatively set for August 16, the grade school here will not begin its term till September 6, Ishmael Triplett, superintendent of Prestonsburg schools, said this week.

The August 16 high school opening here was scheduled to coincide with the opening of high schools elsewhere in the county. Grades in the consolidated schools of the county will open on the same date.

The earlier opening date was set this year to permit earlier end of school and thus make available for help on the farm those high school students who reside in rural districts.

Mr. Triplett said that, although at least three of last year's teachers in the high school will not be available this year, the supply of teachers appears to be adequate. The school board here has been given formal notice by Misses Naomi Goble and Margaret Pezzarossi and Mrs. Norcie T. Brown that they will not return to teach this year.

TEACHER SUPPLIES READY

Mrs. Goldia P. Short, acting rural school supervisor, announced this week that pre-primer charts and record books for new teachers are now available at the Superintendent's office. Some of these supplies are being delivered to teachers but may be more quickly procured by calling for them, Mrs. Short said.

RETURN FROM INDIAN LAKE

Mr. and Mrs. Ralph Archer and children have returned home from a two-weeks vacation at Indian Lake, Ohio.

Number of Women Helping Red Cross Steadily Increases

A steady increase in the number of Prestonsburg women assisting in the preparation of surgical dressings has been noted over the last three weeks, Mrs. Lillian Keenon, director of the work said. From the 37 who worked during the first week of the month, the number jumped the following week to 44 and last week to 56.

Mrs. Frances Bowling, mother of the first Floyd countian to lose his life in the present war, and her neighbor, Mrs. Annie Hale, have worked more than 300 hours in the surgical dressing rooms, it was said. Names of those working last week follow:

Mesdames C. D. Hale, Effie Hopkins, Olga Latta, Virginia Taylor, Miranda Hobson, Rebecca Dingus, Vivian Stiles, Myrtle McGuire, Della Herald, Ruth Wills, Fannie Runnels, Annie Hale, Frances Bolling, Sarah Cohen, Maggie Hatcher, Merle Kelly, Bill Hurt, Lillian Rimmer, Anna Mae Mellon, Virginia Arnold, Dona Patton, Kitty Sandige, Virginia Stephens, B. F. Combs, Annie Lowe, Lucy Hobson, John Stephens, Sue Harmon, Maggie Fitzpatrick, Stella Spurlock, Peggy Stratton, Dorothy Marshall, Louise Culbertson, Reba Hale, Edith Kishpaugh, Virginia Wright, Vera Ford, Nancy Caudill, Byrd May, Maude Nunery, Ethel Heinze, Lyda Cottrell, Clabe Bingham, Melissa Francis, Ruth Isbell, Edith Kendrick, Misses Mary Price, Helen Hyden, Jacqueline Crum, Catherine Leake, Emma Jean Herald, Billie Moore, Irene Gilbert, Martha Perry, Ruby Shepherd, Ella Neel White.

WORK SHOP HERE PLANNED, TRIPLETT SAYS

Burden of Sponsorship Only Handicap Seen By School Board

The possibility exists that machinery operated here until recently by the National Youth Administration in the training of youths for war plant work will be operated under the sponsorship of the Prestonsburg Board of Education, it was said here this week.

This hope for retention of the training project here was expressed following a conference of school authorities with J. W. Brooker, Superintendent of Public Instruction, and R. H. Woods, director of vocational training, at Frankfort last week.

The state officials told Ishmael Triplett, principal of Prestonsburg schools, Lon S. Moles, of the school board, and A. C. Carter that intention of the federal government is to permit machinery operated by the now-defunct NYA to remain in original locations if local sponsorship for its use in vocational training under state supervision is provided.

Mr. Triplett and Mr. Moles indicated that the board of education is anxious to keep the training program here if requirements exacted of the sponsor are not too heavy. These requirements, not now known even at Frankfort, are expected to

Letter From Jap Prison Camp Reassures Floyd Mother

Tangible proof that her son, Wyman Walters, signalman 1 c. U. S. navy, was living as late as Dec. 22--almost eight months after he had been reported missing by the Navy Department -- was received Friday by Mrs. T. F. Walters, of Emma.

The proof was a letter, written in her son's own handwriting, from a Jap prison camp. Seven months reaching its destination, the letter, apparently cleared through the Red Cross, read:

"I am well and safe in Japan. My

health is as usual. I have had no news of the family since October, 1941. How are you and the family, especially you and Dad? Remember me to all. Love, Wyman."

The letter, dated Dec. 22, 1942, was sent from Camp Shinagawa, Tokyo, Japan.

Signalman Walters was first reported missing in May, 1942 as a result of action in the vicinity of the Philippines. Later, word came that he was a prisoner. But not till last week was definite proof of his whereabouts received.

3 RECEIVE COMMISSIONS

Floyd County Men In Army and Navy Service are Named

Three Floyd countians have recently been commissioned officers in the armed forces, according to army and navy news releases. They are J. D. Bond, former Prestonsburg attorney, commissioned a lieutenant (j.g.), aviation volunteer specialist, U.S. naval reserve; Henry Davidson Fitzpatrick, Jr., Prestonsburg, recently appointed a second lieutenant, finance department, army of the United States; and Harmon Edward Hale, West Prestonsburg, commissioned a second lieutenant in the quartermaster corps of the army.

Lt. Fitzpatrick received his commission Wednesday upon completion of specialized training in the finance officer candidate school at Duke University, Durham, N.C. A son of Mr. and Mrs. H. D. Fitzpatrick, of Prestonsburg, he was educated at Eastern State Teachers' College, Richmond, and the University of Kentucky at Lexington before entering the army.

Commissioned after an intensive 13-week course for officer candidates at the quartermaster school, Camp Lee, Va., Lt. Hale left with other new officers to assume duties wherever the army fights. He is a son of Mrs. W. B. Howard, West Prestonsburg, and was graduated from Berea College.

Lt. Bond has been an administrative advisor of the Signal Corps Aircraft Maintenance Agency at

SLONE KILLS SELF SUNDAY

Motive of Suicide Unknown, Officials At Wayland Say

Motive for the suicide Sunday at his Wayland home of Melvin Slone, 34-year-old miner is not known, authorities at Wayland said Tuesday.

Slone, a native of Knott county, shot himself through the chest, near the heart, while lying on a bed. He died within a few minutes. He left no note, relatives said.

A son of Joe and Bess Slone, of Leburn, Knott county, Mr. Slone had resided at Wayland for some time and had many friends there. He is survived by his widow, Anna Slone, and six daughters.

The body was taken to Leburn by the Ryan Funeral Home and funeral rites were conducted there Tuesday.

TO THE VOTERS OF FLOYD COUNTY:

Some of my opponents have been telling the voters that I have quit the race for Sheriff. This is absolutely false. I have not, and will not, quit.

Such rumors are born of the wishes of candidates who fear defeat. With the support of the good citizens of Floyd county, I will be nominated and elected Sheriff. I wish at this time to thank my many loyal supporters who are working for my nomination and ask them and all others to work with me till the last vote is cast and counted.

WIDOW AND WILLING

Floyd county folk and former Floyd countians now living elsewhere are rallying to this idea of an "Honor Roll" bearing the names of Floyd countians in the armed services. They are ready with the cash and contributions are being made to THE TIMES, though no appeal for funds from the public has yet been made. Fact is, they have declined some offers of contributions made in person, since it is almost certain the Floyd fiscal court will make an appropriation of this tribute to those who are fighting, or will do, our fighting for

WOMEN AT WAR

Betsy

The little girl tugged gently at her mother's sleeve.

"Now, Mother?" she asked.

"Now can't we write my letter?"

"Why of course, Betsy," Mrs. Carson grinned. "Are you going to write it or am I?"

"Well," Betsy said. "Maybe you'd better kind of write it to me. Only I'd love to write it."

"All right, then, Miss Carson," take a letter," her mother said, walking slowly up and down the room. "Ready?"

"Dear Mr. Morgenthau: The way I save money for War Stamp buying is to steer all the small household jobs toward my daughter, who is eight years old. She is so keen about buying War Stamps that I know all the money I might have paid to someone else for doing the jobs will go toward Victory when paid to her."

"Now make a list, Betsy. Windows washed, 60 cents. Apples picked from under the tree, 25 cents. Emptied trash cans, 4 cents. Sold string beans from the garden, 15 cents. Sold strips of spoiled film to children for sun-gazing, at one cent a yard, 20 cents. Total, \$1.24. Yours helpfully, I hope,—and then I'll sign it at the bottom."

Betsy was puffing like a grampus from her labors. The tall, painstaking letters tottered bravely across the sheet of paper. Gravely Mrs. Carson took the pen to sign.

"Mother, would it be the proper etiquette if I signed it too?"

"Perfectly proper, I think," Mrs. Carson said without a smile, and handed the pen back to Betsy.

Vacant Lot Gardeners HAVE NOTHING ON US

We "Dug Up" 345,500 pounds of Scrap

THE call to the Nation for scrap was taken seriously by your Electric Company... every nook and cranny was explored to uncover every last ounce of the scarce metals that are needed to supply munitions to our men at the front. We "dug up" all sorts of scrap—iron, copper, aluminum and rubber—ranging all the way from large pieces of electrical equipment that had served their usefulness down to office keys.

For the year ending February, 1943, we had turned in over 345,500 pounds.

In addition, we have made every effort to conserve scarce materials while still maintaining the best service to our customers... this was done by using substitutes and by various makeshifts; by conserving tires, gasoline and equipment.

Many of these wartime expediences would not have been possible but for the helpful cooperation of our customers who have taken every situation with typical American spirit.

BIG JOKE VIRGIL

Virgil Warris, store employe, had to deliver some merchandise on Caney the other day. He stopped at Claude Allen's house on the way up and told Mrs. Allen that Claude said to give him a fryer which he would pick up on the way back. The chickens were small, so Mrs. Allen just gave him two.

Virgil had a merry time of it when he got back to David, telling what a good joke he had pulled on Claude. But Claude, who is payroll clerk, thought that it was such a good joke that it ought to be worth something to him—so he just issued himself \$3 and charged it to Virgil's account.

The joke should have ended there, but it didn't. When Virgil started to go home he went into the back of the store to get his chickens and they were gone—and he hasn't found bone nor feather of them yet. And if he doesn't stop threatening to send the guilty party or parties to jail for stealing, he probably never will learn who ate them.

Among the recent good news items is that of another government official dying in Argentina.

That was a pretty good picture in J. Lyter Donaldson's advertisement in THE TIMES a few weeks back. The road is hard-surfaced with a nice white strip of paint down the middle. The background shows a beautiful mass of sky and clouds over the rolling, eye-filling Bluegrass countryside—where Donaldson's roadbuilding program has been centered for three years and will be (if elected) for four more years!

It's a bad picture to display on Johns Creek, Left Beaver and on many other smaller creeks in Floyd county.

STOP, LOOK & LISTEN!

Last week's editorial in THE TIMES was about the best piece of horse sense I've seen on the Courier-Journal's inconsistency in supporting Donaldson.

I would like to add that Rodes K. Myers has been with the same crowd so long that he has the same odor; that Ben Kilgore is the only one who has promised to clean out that Frankfort political machine, and not to build another; and that there are many Democrats who even prefer an Old Guard Republican to a machine-picked Bluegrass politician as Kentucky's next governor.

War Bonds should mean something more to you than just "a good sound investment." Figure it out yourself.

AMERICA SHOULD KEEP ITS LIFELINES STRONG

1 WHEN YOU READ of the enormous amount of troops and materials of war that the railroads are so successfully transporting today, it is not surprising that many people have assumed those figures represent big profits for the railroads. Actually, this is not true, even though the Class I railroads carried 80% more passengers in 1942 than in 1941, and 33% more freight.

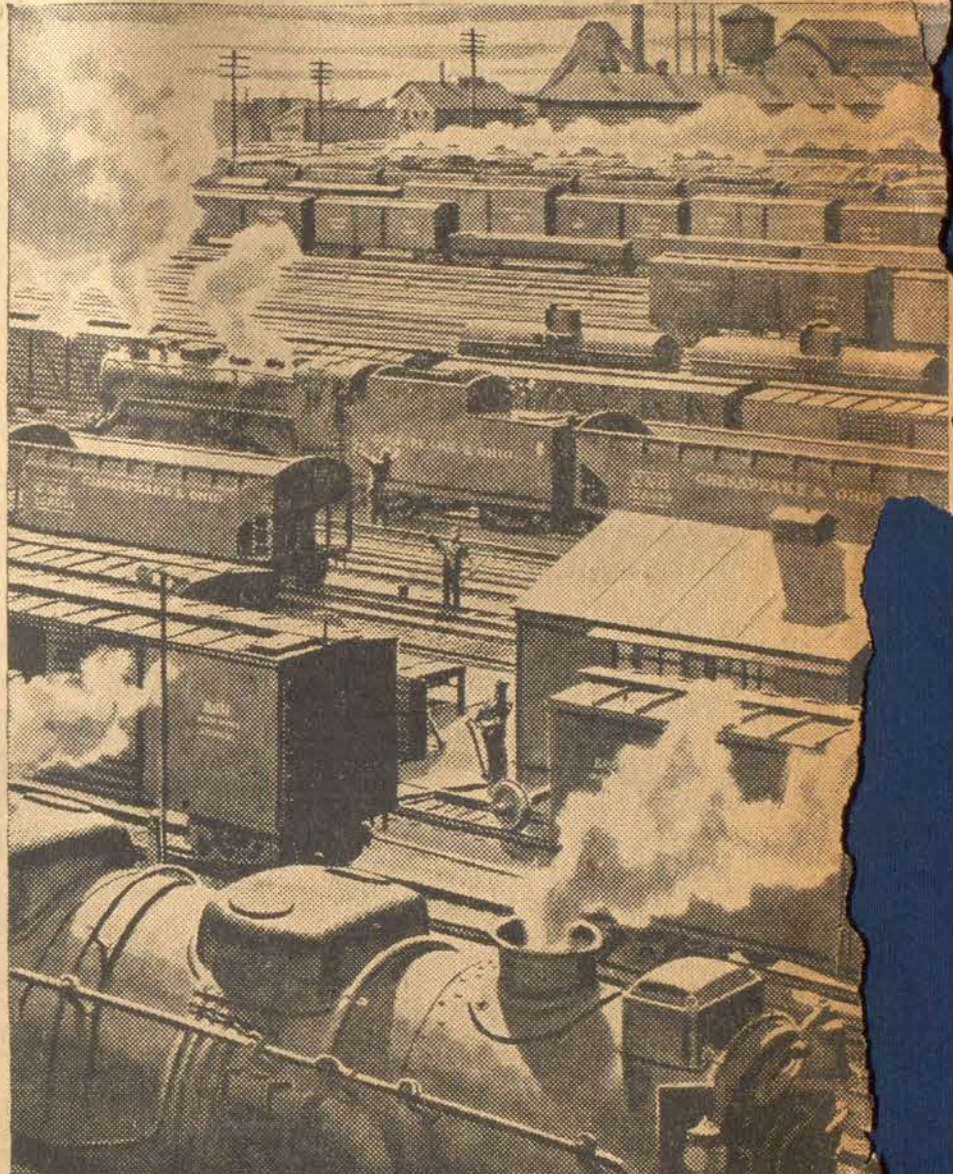

2 IT IS TRUE the railroads are earning more money today than they have in recent years, but for many years past they have been making far less than other businesses. Even in 1942, a peak year, earnings were only 5.56% on investment. And in the ten years ending with 1941, the average earnings were only a fraction over 2%. Many small businesses like the little retailer pictured above have, over the years, made much more money per dollar invested.

3 IN THE FIRST WORLD WAR the standard return fixed by the government for the railroads amounted to 5.21% on investment. Today the railroads are earning about 6%—a little more than they did in 1918. But they are carrying 24% more passengers and 55% more freight.

4 MAJOR FINANCIAL PROBLEMS now faced by the railroads include heavy taxes and greater cost of materials. Equipment now in service bears extra strain. The wheels pictured above travel more track in a week than they used to cover in a month. And rails and cars and engines are being used up at a rapid rate. Normal repairs cannot be made because of shortage of materials and man-power. Funds which should be put aside out of current earnings for making these repairs in the future are now taxed as "profits."

5 WEAKENING OF THE RAILROADS would be a national calamity. They are our lifelines, the vital arteries of our industrial and commercial system. America must keep its railroads strong. Too much depends on them today, and will depend on them tomorrow, to risk the effect of any policy that would endanger what we now enjoy—the finest railroad service in the world.

Chesapeake and Ohio Railway

CLEVELAND, OHIO

A GOOD WORD

By the REV. W. B. GARRIOTT
Pastor, Prestonsburg Methodist Church

(Continued from last week)

I am quoting here a statement from the pen of the Rev. Chas. W. McCaskill who was writing on this subject and here is what he said: "I cannot be true to you parents or to you young people without saying, I think we ministers and public school teachers and physicians have been silent on these things too long. Do you know that the most tremendous punishment God has ever visited upon anything or anybody in this world is the terrible judgment upon this sin of immorality in the leprosy diseases that accompany it? The greatest scourge that is sweeping this country—greater and more alarming than tuberculosis or cancer or both of them combined—is the scourge of venereal diseases. We have been prudish and silent too long, and I believe that God's judgment will be upon the ministers and professors and teachers of our schools and upon the physicians and the statesmen if we do not lift up our voices and warn the people of the awful scourge and pestilence that is stalking through our land, striking down thousands upon thou-

sands of our fine young men, sending thousands of innocent women and children, to say nothing of the guilty ones, to their graves or to years of suffering and invalidism, murdering thousands upon thousands of babies before they are born or bringing them into the world to be blind or idiotic or insane."

Some will say, "Well, you have left your subject." No, these are all a part of what the dance will lead to.

Here is what a reputable physician has to say upon the awfulness of these things. (Mind you, these figures were given before the outbreak of the present war and I am sure the figures would be far greater now.) "There are in the U.S.A. not less than 300,000 public fallen women and associated with them are not less than 2,000,000 fallen men. If you add the number of fallen women not registered and their men associated with them, you could double that number and then not nearly tell all the truth." Any well-informed person will agree that this is easily true now. This same doctor goes on to say that "every prostitute, public or private, acquires venereal diseases sooner or later; hence, all of them are diseased part of the time and many of them practically all of the time. The man who patronizes them will soon join the ranks of the diseased. Venereal diseases are the most contagious known. Many persons escape tuber-

culosis, bubonic diseases and cholera when they are directly exposed to them; but when exposed to venereal diseases, the reverse is true and few persons escape. Venereal diseases are transmittable not only through sexual intercourse but also by means of discharge from sores on the body, the lips, through the kiss, by means of clothing, and by use of the public drinking cup, towels and combs. Think of millions of persons spreading the most contagious of diseases around our fair country! The Medical Society of New York estimates that there are not less than 200,000 persons so infected in that city."

Let me say something more about what this doctor says. He says: "We agitate and educate against the great white plague, tuberculosis; we quarantine against the great yellow plague, bubonic disease; but against the great black plague, venereal disease, there are almost no restrictions. We are all susceptible. The virtuous wife and the unborn child have no protection except the personal purity of the husband and father. Thousands of innocent women and children are infected by him either before or after marriage in his visits to the scarlet woman. From 40 to 60 per cent of all operations upon women for women's diseases is caused by venereal diseases. Of the 60,000 blind people in the U.S.A., at least two-thirds lost their sight by venereal infection contracted from their parents.

About 50 per cent of all involuntary childless marriages are due to gonorrhoea."

Syphilis is a constitutional disease which, when once acquired, is exceedingly difficult to eradicate, if indeed it can ever be entirely eradicated. Every organ and every tissue in the body may be affected. A syphilitic parent may transmit this disease to his or her child before birth, and of all children affected with hereditary syphilis from 60 to 80 per cent are either born dead or die shortly after birth, and the remainder either die during childhood or grow up diseased in mind and body. Such diseases make of marriage an abomination and of child-bearing a social peril. They are the cause of one-third of the cases of insanity and nearly all of idiocy, 90 per cent of locomotor ataxia, and a

large percentage of cases of failure are traceable to such causes.

In the United States 60,000 slaves die every year, 500 a month, 170 every day in the and one every eight minutes. A thousand innocent girls are seduced, or procured to take places of those who have These are the statements of a reputable physician.

ASKS MOTHERS TO SUPPORT

J. Lyter Donaldson At August Primary For Governor

Louisville, Ky., July 23—Calling on all mothers of Kentucky who have boys in the service to support the candidacy of J. Lyter Donaldson for Governor in the Democratic primary, August 7, Mrs. T. C. Carroll, state Woman's Chairman for Mr. Donaldson, said in a speech last night, broadcast by Radio Station WGRC here, "Let us as mothers of those boys determine that we shall neglect nothing to insure to them on their return a better way of living. Let us remember that those boys on distant fighting fronts are looking to us to take their places in electing the best possible candidate."

Mrs. Carroll, a former president of the Kentucky State Federation of Women's Clubs, said, in espousing the candidacy of Mr. Donaldson, that she did so "without any thought of criticism for the opposition, but with the sincere conviction that in Mr. Donaldson the women of Kentucky have a candidate whose ability is admitted by his most severe critics, and whose record of service to his state assures us that he will continue to advance and carry out those things for which we have so patiently striven."

Mrs. Carroll discussed at length Mr. Donaldson's platform, which he announced in his opening campaign speech in Carrollton on June 1, particularly that part of the platform in which mothers and women generally are interested. Concerning his promise of thirteen million dollars per year for the common school fund which, according to present school population, would increase the per capita appropriation to \$16.20, Mrs. Carroll said: "It is not natural that we should be more deeply interested in those

things which more closely affect our homes, and one of the most important of these is the education of our children. In education their physical, intellectual and moral welfare are deeply involved, and upon that training depends not only the future welfare of the individual, but, by it are affected the very principles of our government."

Calling upon candidates opposing Mr. Donaldson for the nomination to publicly announce their plans for rehabilitating Kentucky's young men and women now in the service of their country, as well as for the development and improvement of the state, Mrs. Carroll said the voters should require of each candidate a "solemn pledge" as to his post-war plans about our boys, and then "should scrutinize carefully his past record, to determine to their satisfaction that this pledge is not one of lip service only. 'Mr. Donaldson,' she said, 'has advocated an appropriation of two hundred thousand dollars annually to provide scholarships for those boys and young women.'"

"Knowing him as I do," she said, "I can safely assure the mothers of Kentucky that such a program will be considered by him as a sacred pledge to them and their families."

"There is not a county in the state of Kentucky whose women are not busy in their efforts to contribute to the final victory in this war. Long, hot hours are being daily spent in connection with canning food for future use; the Red Cross and other war agencies are demanding and cheerfully receiving much of our time and labor. You have been faithful in your efforts to do everything possible to assist in the carrying on of this war and whatever is necessary for its success. This is as it should be. Willingly, but with saddened hearts, we have seen our boys leave their homes gladly to offer of themselves whatever is necessary in order to keep safe and inviolate to us that right of living, which is the heritage of every American." 60 Pct. of Tests Made Show Rabies Signs, Figures Indicate

Not all heads of animals submitted for rabies analysis are declared to show signs of the disease, as some profess to believe, figures released last week prove.

In the past 11½ years 2,473 dog heads have been analyzed at the Public Service Laboratories, Agricultural Experiment Station, Lexington, and 1,487 found to have rabies. Cat heads numbered 264, of which 102 had rabies. Of five human brains received, three had rabies. One hundred twenty-four cattle had rabies, 16 hogs and six sheep. The heads of five foxes showed rabies. These animals attack persons when they are mad.

Three times as many animals suspected of having rabies were received at the laboratories in the first half of this year as were received in the entire year of 1932. The number of heads showing rabies was four times as many as the number 10 years ago.

Areas from which most heads of mad dogs arrive at the Experiment Station include Fayette and adjoining counties; Boone, Campbell and Kenton counties; Bell county, and Madison county. These areas have been furnishing almost a steady flow of heads this year.

Too many persons are being exposed to rabies, says Dr. Linwood A. Brown, head of the Public Service Laboratories. As a result, they are paying out thousands of dollars for the Pasteur treatment. He advises persons to refrain from handling sick animals, especially pets, until it is certain they do not have rabies. Rabies is often suspected only after all members of a family have handled a dog or cat. If animals must be handled, it is advisable to wear gloves—rubber gloves, if possible.

Only heads of animals should be sent to the Public Service Laboratories, Dr. Brown said. Bodies are of no use, and cannot be handled by the laboratories. Heads should be packed in ice.

LETTERS TO THE EDITOR

Editor, The Times:

I am the mother of three soldier boys in the service of Uncle Sam—Sgt. Richard McGuire, Jr., Sgt. Taulbee McGuire, both now overseas, and Estill McGuire, still in the States. My husband is working on defense, paying income tax and victory tax, trying to back our boys up who are facing the bullets and hardships of all kinds, that we may have our freedom. Back home, I hear some complaining and growling because prices are high and because foods are rationed—not content with enough and don't have one thought of our boys over there who are giving their lives for their country. Our boys have had to leave home, their loved ones and lots of them can never return. But you don't hear them growling. They just ask and beg for more planes, tanks and guns, asking why we can't send them more.

Listen, dear friends, why not wake up and realize that we are in war and a terrible war such as the world has never seen before, and let each and every one do a bit to help win and stop this terrible conflict. And you fathers and mothers, sisters and brothers, wives and sweethearts of these fine American boys! Come down upon your knees and ask God to be with us and help us to win this war and bring our boys back home. And you dear soldier boys who read this letter, let me appeal to you and beg you to give your hearts to God and ask Him to save

your souls and go with you on the battlefields, on land and on sea and in the air. He has all power and He will surely hear. I am praying for you all, as well as for my own sons. I am sure there will never be an earnest prayer lost.

FOR SHERIFF OTTO FANNIN

DEMOCRATIC PRIMARY, AUGUST 7

To the Miners of Floyd County:

This year, as never before in Labor's history, it is absolutely necessary for us miners to stand together. Only through complete unity can our organization continue to exist and afford to the working men the rights and privileges we as free Americans deserve.

I am a member of the United Mine Workers of America, have carried a Union card practically all my life and now am working at a coal mine. Moreover, I am the only miner seeking the Sheriff's office who has a chance to win.

IF WE ALL STAND TOGETHER, I WILL BE NOMINATED AND ELECTED SHERIFF. We never in the past have voted the full strength of the miners for one man and, therefore, have never had the part we should have had in the conduct of our county's government.

THINK THIS OVER—DON'T LET NON-UNION CANDIDATES LEAD YOU ASTRAY. Don't split your voting strength. I am the only man you can ABSOLUTELY depend upon, during the trying days that will surely come, to stand up for your rights and give you the protection of the Sheriff's office as the law provides.

TO THE FARMERS:

I promise you that my office will always be open to you. A welcome will always await you when you come to Prestonsburg. I will be glad at any time to help you in meeting your individual problems. I know what the working man's problems are and sympathize with every man who earns a living by the sweat of his brow.

TO ALL CITIZENS:

I am a member of the American Legion and served overseas in World War I, just as thousands of your own sons, husbands and brothers are now serving. My schooling was cut short when I put my duty to my country first in our first war with Germany. I sacrificed my future then for what I devoutly hoped would be a better future for us all.

NOW I AM ASKING THE OPPORTUNITY TO SERVE MY HOME COUNTY AS AN OFFICIAL. Won't you fight for me as I once did for you?

If elected Sheriff, I will not interfere with your legal rights by overstepping my authority.

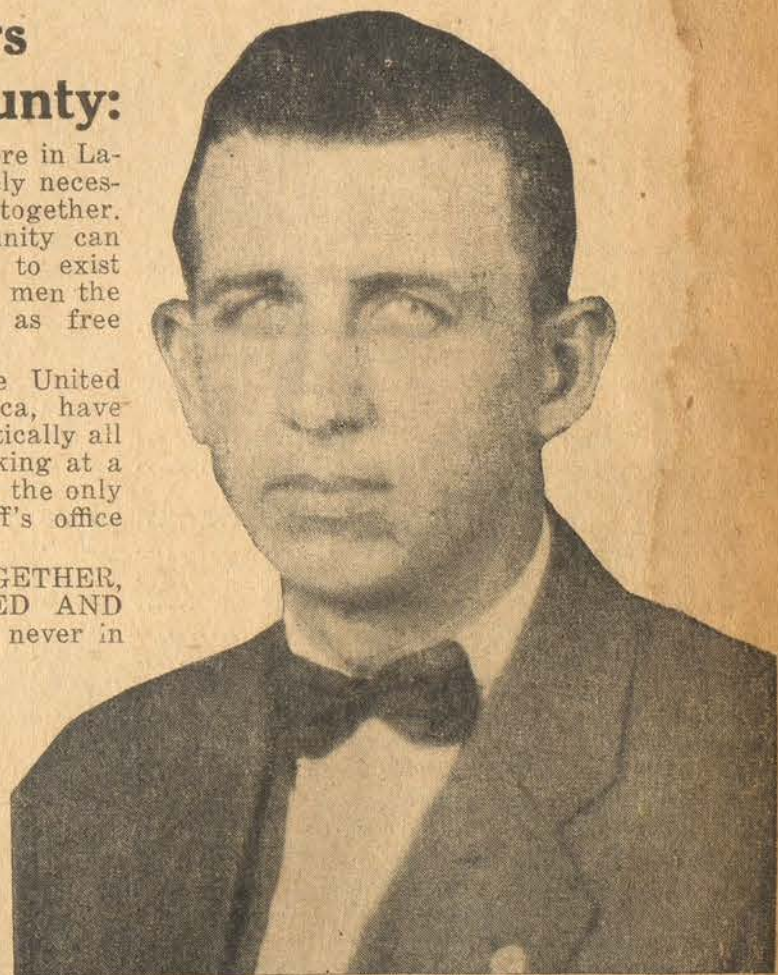

My deputies will work at all times under my personal supervision. Protection will be given the rural sections of the county as well as the towns. I will have only upstanding men selected by good citizens, as deputies.

I am not a rich man; I can only beg for your support. It is yours to give—yours is the power to name your Sheriff. It has been a long time since 1918 but I served my county and country then, and ask you not to let the memory of those days die.

I humbly solicit your vote and influence in my behalf.

Scouring the Scourge

By Don W. Gudakunst, M. D.

Medical Director, National Foundation for Infantile Paralysis.

WALTER WINCHELL has returned from a tour of duty outside the U. S. and will soon resume writing his column as usual.

The outlook in the battle against infantile paralysis, like the outlook in the war against the enemies of democracy, is encouraging. The fight goes on, propelled by the National Foundation for Infantile Paralysis and by the dollars and the dollars of a fighting people who celebrate the birthday of the President by dancing so that others may walk. No cure has been found, but the Sister Kenny treatments, taught to doctors and nurses all over the land by the famous Australian nurse, here since 1940, alleviate suffering and reduce crippling after-effects. It must be emphasized, the Kenny method is NOT a cure, though it restores about 80 per cent to normal life and the other 20 per cent are generally helped.

It takes one nurse and two assistants to treat 10 patients with the Kenny method. The nurse can learn her part in a week, but it takes the physiotherapist months to master the art of teaching paralyzed muscles to work again.

The cotton rats used in polio virus research come from southeastern United States. After trying to breed them in captivity, scientists discovered they would not mate unless they smelled alike. So they were sprayed with creosote-and all raised families.

Poliomyelitis, polio or infantile paralysis-whatever you call it-is an old disease. A picture carved on a tomb in Egypt 4,000 years ago, and mummies from the Land of the Pharaohs prove it.

Many persons have had poliomyelitis, recovered and never knew they had it. They are carriers. It is estimated there are 50 to 1,000 "carriers" to every victim. "Carriers" become nauseated but, fortunately for them, the virus centers in the digestive system instead of in the spinal cord nerves.

Poliomyelitis is taken from the Greek-"polios" meaning "gray," plus "myelos" meaning "marrow," plus "itis." Victims call one another "polios."

Each year there are in the United States an average of 8,000 to 10,000 victims of this disease. Many become cripples beyond cure. The greatest epidemic in this country was in 1916-over 27,000 reported cases.

Many children, badly crippled, were not discovered until later. Many died without the true cause of their death being known. These cases were in the East, near New York, Philadelphia, Boston and New Haven-cities where there are excellent doctors and plenty of hospitals.

Maybe you are one of many people who think all of the dimes and dollars go to the Georgia Warm Springs Foundation. They do not. Half of the money goes to the counties which contributed for local relief; the other half is retained by the National Foundation for Infantile Paralysis. It is used when an epidemic strikes and for research to try to find the cause, the preventive and cure of the disease.

Infantile paralysis strikes the rich and the poor alike. Epidemics are not always near great medical centers. The first cases discovered by Nurse Kenny were children in families who lived 10 miles from any neighbor or telephones, telegraph and improved roads. It was over 200 miles to the nearest doctor and hospital. This was 30 years ago.

In 1942 there were two places in the United States that were hard hit; one was thickly settled, fairly wealthy New Jersey, with plenty of doctors, nurses and hospitals; the other was Arkansas, where there was but one hospital in all the State willing to admit any case of infantile paralysis in its acute stage. This hospital could not begin to care for the 100 children who applied for treatment the first few weeks.

That is where the National Foundation for Infantile Paralysis came into the picture. It had money. It knew where to secure nurses trained in the Kenny method. Of that hundred and more patients almost all have now gone home restored to health. Of the rest, all but a very few will soon be walking, their condition good.

It costs about \$1,800 to keep one child in a hospital for a year, under the Kenny treatment. But that one year may mean freedom to that child for a lifetime. At a dime apiece 18,000 people have contributed to treat that child.

Throughout the country there are now 2,494 local Chapters of the National Foundation for Infantile Paralysis. They cover 2,894 of the nation's 3,050 counties. If you were "taken tomorrow, regardless of creed, age, color, one of these would help you.

Former Athletic Coach Is in Army Service At Internment Camp

BRANHAM

Cpl. Estill (Eck) Branham, last year's athletic coach at Prestonsburg high school, and son of Mr. and Mrs. John Branham, of the Auxier road, is seeing plenty of Germans and Italians, these days.

He's in the supply department at the Clinton, Miss., internment camp where captured enemy troops are taken. Cpl. Branham has also served as a guard escorting prisoners of war, en route to internment camps.

"They can't understand a word I say," he said recently, "but they know what I mean."

More brooder and laying houses have been built or repaired in Oldham county this year than in any other season in years.

Rosebud

Rosebud is eight, and the most beautiful shade of caramel fudge. To her loving Mammy and Pappy she is known, on approximately alternate days, as "Angel" and "You devil child". It was on her devil-child days that Rosebud tied the knots in the shirts that Mammy had taken in for washing, and poured the whole of the vanilla bottle into the lamb stew, just, she said later through bitter tears, to "flavor it up some".

On her angel days Rosebud is equally imaginative even if a more restful occupant of the little shack down on Vinegar Hill. Once when Mammy was out doing day work, Rosebud got a wave of cleaning fever and scoured every pot and pan in the kitchen so that they literally glistened. Another day, left alone, she tidied up Mammy's and Pappy's room to such a point of apple-pie order that it was a week before Pappy could find an undershirt.

Rosebud is a great reader of the newspapers. Mammy and Pappy don't take one, but there are plenty of perfectly good newspapers blowing round Vinegar Hill. It was out of one of them that Rosebud got her idea for spending the ten cents the Bunny had put under her pillow the night her tooth came out. After breakfast Rosebud disappeared down the Hill and reappeared soon after with a beautiful ten-cent War Stamp pasted firmly into a brand-new book with neat little squares for more stamps. She displayed her investment to Mammy. "I declare you're an angel child," Mammy said. Rosebud went on sitting on the kitchen floor staring with large brown eyes at the empty squares in her book. From time to time she took hold of one or another of her teeth and wigged it, gently.

Mammy was engrossed in a particularly big washing. Rosebud was as quiet as a mouse and Mammy forgot about her until, coming in from the yard with her arms full of dry sheets, she encountered her child with a large hammer in her hand. Scenting the devil in her angel child, Mammy shouted at her, "Rosebud! Come yere with that hammer! What you planning on doing?"

But what was done. In Rosebud's other hand was another tooth. Her mouth was stretched in a broad if slightly bloody smile. "I ain't doing nothing, Mammy," she said. "I'm just filling up my stamp book."

FLOYD COUNTY GOES TO WAR

Where Floyd Countians in Armed Forces Are, What They're Doing

HALL

PRATER

FOLEY

Sgt. Luther Hall, son of Mr. and Mrs. Will Hall, of Bevinsville, has been promoted to T-4 and has been assigned to the army's only tank destroyer replacement training center at North Camp Hood, Texas.

Pvt. Johnnie Prater, of Middle Creek, who has been in the army six months, is now stationed at Fort Ord, California. "Take a tip from a hillbilly boy," he writes. "Buy War Bonds and Stamps to keep us supplied with what it takes to lick the Germans and Japs."

After finishing basic training at Camp Wheeler, Ga., Pvt. Dewey Huffman, Jr., has been transferred to the 97th Infantry Division, Camp Swift, Texas.

Pvt. Old Thomas, who is stationed at Camp Pickett, Va., has recently been promoted to private, first class. He is the son of Mrs. Mary F. Thomas, Prestonsburg.

Pvt. William L. Miller returned July 24 to Camp Forrest, Tenn., after spending a 10-day furlough with his parents, Mr. and Mrs. Ray Miller, at Myrtle.

Auxiliary Sylvia M. Branham, daughter of Mr. and Mrs. John Branham, of Martin, was promoted this week to the grade of Auxiliary First Class. She is stationed at Keesler Field, Miss., where the Army Air Forces Training Command is training thousands of future ground crews to serve and maintain B-24 Liberator bombers.

Pvt. Edison D. Collins, son of Mr. and Mrs. Willard Collins, Bevinsville, has entered the Basic Training Center at Keesler Field, Miss., a unit of the Army Air Forces Training Command for several weeks of recruit training.

First news in two months from Henry Montgomery, navy gunner, reached his mother, Mrs. Dayrus Montgomery, of Blue River, a few days ago, in the form of a cable-gram from "Somewhere in the Pacific." It read, in part: "All is well-don't worry." He volunteered in October, 1942. His brother, Bill Montgomery, also is in the navy.

Pvt. James Foley, 24, was recently transferred from Newport News, Va., to Camp Davis, N. C., where he is in anti-aircraft training. Younger son of Mrs. Maude Foley, of Thomas, he has been in the army 11 months and holds sharpshooter and expert rifleman medals. He recently spent furlough here with his sister, M. J. H. Nunmy, and with his mother at Thomas.

The ancients thought that their Sun God alone was responsible when they enjoyed health and vigor. They made many sacrifices which they hoped would keep him in good humor.

Apollo got the Glory ...the Vitamins did the work

Fortunately, we do not have to depend upon the whims of an Apollo for safeguards for our health. Science has demonstrated over and over again that sensible living and proper nutrition are the first steps toward a robust body and an alert mind.

The entire nation looks eagerly for news about Science's continuous studies of vitamins. One fact that has been determined is that the B Complex vitamins are the least plentiful in the foods that come to your table. Physicians say that your body is quick to feel a B Vitamins deficiency, but unharmed if you get more than enough.

The home of Budweiser is one of the world's biggest sources of B Complex vitamins. They are contained in brewer's yeast, which we supply to leading pharmaceutical manufacturers. From them, our armed forces and our

civilian population obtain millions of B Complex vitamin units to supplement the daily diet when necessary. The perfection of this vitamin-rich yeast is one more result of laboratory and research work that has helped produce the world's most popular beer.

Pfc. Everett Reynolds, of Prestonsburg, was awarded the army's Good Conduct medal a few days ago by Major General E. F. Harding for exemplary service as an enlisted man in the Mobile Force Artillery unit to which he is assigned in the Panama Canal Zone. Reynolds received the award during a review of his troops at which the general, a veteran of the Buna campaign in New Guinea, praised the efficiency of the artillery troops under his command.

Because of a shortage of materials, no Good Conduct medals will be struck until after the war. In the meantime, Reynolds will be entitled to wear a red ribbon with three vertical white stripes at either end, signifying that he has received the medal.

A. E. Quinlan, Jr., formerly of Wayland, has been promoted to rank of captain in the army dental corps and is stationed in Camp Shelby, Miss. Capt. Quinlan was graduated from Wayland high school in 1934, attended the University of Kentucky and was graduated from the University of Louisville School of Dentistry in 1941. Before entering the army Capt. Quinlan practiced his profession at Jackson, Ky.

Now serving in the navy, eight Floyd county men have reported to the U.S. Naval Training Station, Great Lakes, Ill., for a period of "boot" or recruit training.

There they will be given training in the rudiments of seamanship, naval customs and procedures, military drill, and physical hardening. They also will take a series of aptitude tests designed as an aid in placing each in the type of work for which he is best fitted.

Apprentice seamen now, they will be promoted to seaman second class upon graduation and given a ninety-day leave. Then each Bluejacket will be assigned to a service school for specialized training, or be sent directly to duty at sea or at a shore station, depending upon his scores in the aptitude tests. Some who have had sufficient experience in a skill needed by the navy are given petty officer ratings and assigned to active duty also.

The Floyd county navy recruits are: James Adams, 18, son of Mr. and Mrs. J. Adams, Cliff; James E.

Dillon, 18, son of Andy Dillon, Emma; Robert L. Wilcox, 19, son of Mr. and Mrs. L. G. Wilcox, East Point; John T. Elliott, 19, son of Mr. and Mrs. M. B. Elliot, Betsy Layne; Austin W. Mathews, 19, son of Mr. and Mrs. G. Mathews, Beaver; Earl Jason Scalf, 19, son of Mr. and Mrs. B. Scalf, Tram; Harry Brookover, 19, son of Mr. and Mrs. Ira Brookover, West Prestonsburg; Earl V. Leslie, 19, son of Mr. and Mrs. Earl Leslie, Estill.

The following newly inducted personnel of the United States army have been sent forward from the reception center at Ft. Thomas, Ky., to the stations and addresses indicated:

To Field Artillery RTC, Fort Sill, Okla.—Palmer D. Arrowood, Langley; Billy R. Elkins, Wheelwright; Vernon Johnson, Melvin; William Newman, Jr., Melvin; Joe Terry, Jr., Wayland.
To Army Air Forces RTC, BTC No. 9, Miami Beach, Fla.—Jack C. Rollins, Wayland; Gordon L. Williamson, Betsy Layne.

Of Changes in Law Affecting Truckmen, Ullrich Announces

Lew Ullrich, managing director of the Kentucky Motor Truck Association, announced Friday that neither during the 1939 gubernatorial campaign nor since that time did J. Lyter Donaldson or Governor Keen Johnson promise a committee representing Kentucky commercial truck operators that they would modify the then existing truck regulating laws.

The text of Mr. Ullrich's statement follows:
"My records indicate that a meeting of the Legislative Council of the Kentucky Motor Truck Association was held on Tuesday, June 6, 1939, at the Kentucky Hotel in Louisville. Members of the committee were M. J. Parlin, M. R. Buhner, E. W. Krause, C. H. Arnold, C. S. Nahm, W. K. Coleman, L. G. Augustus, D. M. Miles, William Rodes, E. M. Kennedy, A. M. Whitney and William McGee. All members of the committee attended the meeting except Messrs. Whitney and McGee.

"The committee sought to ascertain if Mr. Donaldson would assist the Kentucky Motor Truck Association in the 1940 session of the Kentucky Legislature to repeal the 1939 Kentucky Motor Vehicle Regulatory Act, and in sponsoring a new size-and-weight law specifying 16,000 pounds weight per axle.

"The committee also sought the support of Mr. Donaldson to retain Mr. D. C. Moore as director of the Division of Motor Transportation. "The committee explained in detail to Mr. Donaldson that the 1932 Motor Vehicle Regulatory Act was the most hostile and discriminatory motor truck law in the United States and, therefore, was an interstate barrier to every motor carrier operating into and through Kentucky.

"Mr. Donaldson was a most attentive listener. After we thought we had presented our case thoroughly and effectively, Mr. Donaldson stated that in the event of Mr. Johnson's election, it would be the policy of the Johnson Administration neither to support nor to oppose any amendment to existing laws as they related to motor truck size and weight regulations. He added, however, with emphasis, that the Johnson Administration would not oppose any equitable legislation

approved and recommended by the Public Roads Administration.

"Briefly, my records indicate that Mr. Donaldson did not promise those present at this conference that any relief from the 18,000-pound gross load would be given them in the 1940 session of the Kentucky Legislature.

"The next point concerned our indorsement of Mr. D. C. Moore for director of the Division of Motor Transportation. In this connection Mr. Donaldson stated that he saw no reason why there should be any change in this department, but added he could not make any definite promises in this matter. He assured the committee, however, that he would co-operate with us in our recommendation.

"Before leaving the conference the committee asked Mr. Donaldson if he would arrange for a smaller group to meet with Candidate Johnson. The meeting was arranged for the same afternoon. A sub-committee consisting of Messrs. Parlin, Krause, Nahm and myself conferred with Lieutenant-Governor Johnson about the same matters. The candidate told the committee he would not deviate from any statement made by Donaldson at the morning conference.

"My records also indicate that another meeting was held with Mr. Donaldson in Frankfort, Ky., on the morning of Friday, Dec. 15, 1939. I attended this conference with Messrs. E. J. Buhner and M. J. Parlin. We discussed the same matters and received from Mr. Donaldson the same replies which were given us at the June meeting." (POL. ADV.)

"... and tell my old gang down at the Telephone Company that I'm thinking of them. I see tons of telephone materials every day over here—in the form of tanks, shells and field communications equipment. We need a steady stream of these supplies to win—and being a telephone man, I know that telephone lines have to carry many calls affecting production and transportation of fighting equipment. So I hope you homefolks are helping to keep the wires clear, for war calls which MUST go through. Love,
BILL"

Fellows like Bill Jones—on the fighting front—know what they're talking about when they say that Victory depends upon an unceasing flow of supplies. And at home, those directing the war effort rely on the telephone to keep munitions and men moving forward.

These urgent calls pass through the same local telephone equipment you use. Yet facilities can't be expanded to meet demands fully, because the necessary materials are being made into planes, tanks and guns.

By avoiding unnecessary local calls—and by speaking briefly whenever you talk—you help relieve crowded lines and switchboards for war duty. In that way you help speed vital war calls.

"In accordance with the existing federal policy no new public works are being undertaken during the war period, except projects which are determined to have a direct importance to the war effort. Although under this policy it does not appear that it will be possible to undertake construction of the Dewey dam in the near future, the Department is completing the design of the dam and the contract plans and specifications in order that the project may be ready for immediate initiation after the war.

"The Department is also making an investigation of the Big Sandy river for flood control, navigation and allied purposes, under the authority of Congress as contained in Flood Control and River and Harbor acts. This investigation is considering all feasible projects for beneficial development of the water resources of the Big Sandy river and its tributaries, and the report thereon will contain complete data on these proposed improvements. The field and office studies are now in progress and it is expected that the survey report of the Division and District Engineers will be submitted to the Department in about a year.

"I may assure you that the Department recognizes the importance of the proposed projects in the Big Sandy river basin, and that it will proceed with the construction thereof as rapidly as possible within the limits of the authorizations and funds available, and consistent with the necessity for conserving materials, manpower and construction equipment of the war effort."

THE CITY STREETS

Tom James, who keeps me posted on the Baltimore situation, sends a clipping from the Baltimore Sun which proves Herbert Hoover a prophet and Tom Dingus and Brad Boyd followers of one crying out in a wilderness filled with Democrats. The picture shows grass growing in East Montgomery street, Baltimore—because gasoline rationing almost eliminated the once-heavy traffic there.

DONALDSON, JOHNSON CAN'T BE BOUGHT

The trucking interests and their friend, D. C. Moore, of Pikeville, resigned assistant state director of transportation, have rendered Keen Johnson and Lyter Donaldson a distinctive service by their "disclosures" of the last few days. They have proved conclusively that neither the Governor nor Mr. Donaldson can be bought!

Moreover, they have told the people of Kentucky that they can depend on Mr. Donaldson to oppose special privileges for this minority group, and that he presumably can be depended upon to oppose them for others. This strengthens the conviction expressed nearly two weeks ago by the Messenger as to Mr. Donaldson's honesty, integrity, and ability to cope with the problems that will confront the next Governor of Kentucky. Weaker men might have yielded to the importunities of such a rich and obviously generous organization as the truckers of Kentucky in their quest for favors at the hands of the administration. But neither Lyter Donaldson nor Keen Johnson are weak men. The truckers are not the first group seeking special concessions to learn this.

This newspaper wants the truckers to enjoy all of the rights to which they are entitled. We do not want them to receive favors against the public interest—favors that they obviously sought in vain of the Johnson administration. Therefore we will watch with interest to see whom the trucking interests support in this campaign, as every other American interested in the maintenance of good government in general and our highway system in particular will do.

It is improbable that the Moore resignation and attacks on Governor Johnson and Lyter Donaldson by both Moore and M. C. Whitney, of Bowling Green, were coincidental. They smack of well-timed steps in a carefully conceived plan to try to defeat Lyter Donaldson for Governor, ostensibly in an effort to elect someone who would give the trucking interests what they want—that they were unable to get from the present administration. If the Democratic electorate of Kentucky can ascertain who this candidate is, it will know whom to be against in the primary.

It is obvious that Moore took money from the trucking interests four years ago for campaign purposes. It is also probable that they were promised something in return. It is equally clear, too, that someone led the truckers to believe that the Governor and Mr. Donaldson could be "handled" when they patently could not be. In our opinion, it is not difficult to guess who that person was.

However, the people of Kentucky can have no quarrel with Keen Johnson and Lyter Donaldson over this incident. Their records bear careful scrutiny. They took care of people's interests by taking care of their highways. The contentions of Moore and Whitney fall flat in the face of their performance.

The authors of this accusation may find that the charges hurled at the Governor and Mr. Donaldson will be like a boomerang that missed its mark and, returning, hit their vulnerable selves.

least we can do. They also agreed that any appropriation made by the court will be a contribution by us all, since that money was paid by the taxpayers.

From Bristol, Tenn., Mrs. T. P. Carlton, mother of three sons in the service, writes to ask to whom she should send her contribution. A check for \$1 comes from Mrs. John F. Butler, former Prestonsburg woman now residing in Louisville, who writes: "Wish I could send more but am glad to send this. You know, I have a son in this war and he is making a good soldier."

Mrs. Denver Crabtree, of Prestonsburg, and Ed Leslie, of Weeksbury, called in person to contribute but were asked to await the fiscal court's action.

And from Wayland the Independent Order of Odd Fellows, sending in a check for \$10, writes:

"We believe that the erection of a sign bearing all the names of the boys in service of our country to be a worthwhile project and one that will prove to be a fine source of information as to who is who from Floyd county, and also we think it will be a matter of pride to the old folks as well as a source of comfort to them to see that we remember the boys over there.

"We are glad that you have undertaken the sponsorship of this fine work and we are enclosing a check for \$10 to help the matter along.

"We trust that this matter will be taken care of by donations from the good people of Floyd county and we believe it will. Keep us informed through 'This Town—That World' as to how we are progressing."

These contributions and expressions indicate that the heart of Floyd county is right. The folks are ready and willing.

But, till we see what the fiscal court will do, let's hold our money. And then, if we do call for help—come a-runnin'!

B BOOK FOR BEER?

When one dispenser of the stronger beverages kept his place of business closed here last week, several of the boys from his end of town used up considerable shoe leather making it to uptown dispensaries. There was talk among some of applying for additional gasoline rations to get there and back—especially back.

Mr. Triplett said his understanding of the plan of training is that expense of operation would be borne by the state and federal government, with the plant being operated under state vocational supervision. He also quoted Frankfort authorities as saying they understood the federal government plans to retain its ownership of machinery used in NYA plants for the duration of the war and for six months thereafter.

If the plan materializes for Prestonsburg, the training shop here would provide vocational training for residents of this county, as well as for neighboring counties not served by a vocational school.

YOUR VOTE FOR BEN KILGORE

Open Letter from Ben Kilgore to the Voters of Kentucky

Dear Folks:
I am making the race for Governor in order that we may have a greater Kentucky. There can be no doubt but what the great majority of Kentuckians are patriotic and want to overthrow the corrupt political regime at Frankfort. Good government and good morals go hand in hand. No one dares to defend the present regime at Frankfort, because it has continuously violated every moral and constitutional concept of democratic government. The concentration of power in the hands of non-elected political bosses, the arrogant manner in which the Governor and the dictators back of him have debased and controlled the Legislature, the unwholesome and unlawful use of slush funds to influence primaries and elections, the degrading influence of the political hierarchy over the Courts through political patronage, the assessment of state employees, the corruption and waste of the taxpayers money in the Purchasing Department, the collection of bridge tolls contrary to the plain provisions of the law, all are evidences of an immoral leadership, which an outraged and decent citizenship can no longer tolerate or endure.
I am calling upon all good Democrats to actively join in the "battle of ballots" against the corrupt leadership of our party, and I urge all forward looking men and women to assist in redeeming Kentucky from a ruthless political machine.

WILL BUILD KENTUCKY AND NOT A POLITICAL MACHINE!

Sincerely yours,
BEN KILGORE.
