

Annual Thanksgiving Service To Be Held At Methodist Church

Prestonsburg's annual Thanksgiving community service will be conducted from the Methodist Church at 10:30 a. m., Thursday, Nov. 25, it is announced by the pastor of the church, the Rev. W. B. Garriott.

The Rev. Robert Smith, pastor of Irene Cole Memorial Baptist Church, will occupy the pulpit.

Complete program for the service was being planned this week. All churches of the community have been asked to participate in the service.

ADVERSITIES ARE SHARED

By 2 Local Churches,
One Without Building;
Other Sans a Pastor

A Prestonsburg church without a place to worship found happy complement last week in a church without a pastor--so the two joined Sunday in worshipping together, the churchless congregation taking its pastor to the pastorless congregation's church.

And so both the Baptist and Presbyterian congregations here joined in common services at the Presbyterian Church. The Baptist congregation, rendered homeless by fire in January, 1942, took with them their pastor, the Rev. Robert Smith.

"We think this is the spirit of Christianity," said Mrs. Ruth Sowards, of the Presbyterian congregation. "We are all working together, for the common cause. Sunday's church congregation and our Sunday School attendance and improved organization are very much encouraging to us all."

The Baptist Church, until two weeks ago, had conducted services in the Prestonsburg grade school since the church building burned. Its efforts to dispose of the lot at the corner of Broadway and Court street and from the proceeds to rebuild failing, use of the school property was necessary. When rental on the grade school auditorium for past services was demanded and a rental rate on the auditorium for future services set, the Baptist congregation found a change of location necessary.

LACK COACH, YET THEY WIN

P'burg Team Starts
Net Season, Minus
Mentor, This Week

Without a coach, and with the services of only a student-manager, Prestonsburg's Black Cats determined to have at least a part in half of the school year's athletic program, played their first basketball game Tuesday evening at Auxier--and won, 40-18.

Denied a part of the football season, while neighboring county seat schools offered competition, the Prestonsburg athletes had been promised a coach from outside the school for the net season. But this aid failed to materialize. So with Milford "Toodles" Wells, a student, their only non-playing assistant, they began their net schedule Tuesday night.

With some splendid material, even if their plays were in some instances "ad libbed," the Cats jumped into an early lead against Auxier and were never headed. The Auxier team had held Martin's Purple Flash to a smaller score, earlier in the season.

The Black Cats play Martin there tonight (Thursday), entertain Auxier here in a return engagement, Tuesday night, next week. The team's schedule has not been completed for the season.

He will resume the practice of medicine in the county, but his location was not announced. Dr. Gearheart was critically ill for some time after suffering a leg infection during maneuvers at an army post.

Major Sutton Honored By State of Texas

Major William E. Sutton, son of Mr. and Mrs. Ed Sutton, of Langley, this county, has been claimed by the state of Texas as "a Texan decorated for conspicuous service in the present war."

The record does not disclose the rights of Texas' claims on the Floyd countyman, yet the following has been issued by the Dallas Historical Society:

"The trustees of the Dallas Historical Society have the honor to request that data regarding Major William E. Sutton, A Texas decorated for conspicuous service in the present war. Be placed in the archives of The Hall of State, Dallas"

Major Sutton is now stationed in Texas as inspector over airfields located in Texas and several neighboring states. New Sheriff To Collect This Year's Taxes

Floyd county's new Sheriff, Troy B. Sturgill, will be the county's collector of 1943 taxes and thus wins practically three-fourths of the four-year term of office to which the late Dr. W. L. Stumbo was elected in 1941.

Tax books were surrendered to Sheriff Sturgill by Ex-Sheriff Annie Stumbo Wednesday after legal rights of the outgoing Sheriff and her successor in the matter were determined without court litigation.

HALL ELECTED KIWANIS HEAD

Club Elects Officers, Directors; Attendance Is Tops for District

Town Hall, Superintendent of Floyd county schools, was elected president of the Prestonsburg Kiwanis Club at the club's annual election of officers Thursday, last week. Other officers named are: W. A. Rose, vice-president, Jo M. Davidson, treasurer; Joe Berry, secretary; W. H. Coffman, sergeant-at-arms; directors--W. W. Burchett, C. L. Hutsiniller, R. D. Francis, Dr. Marvin Ransdell, Charles Chumley, Rev. W. B. Garriott.

Mr. Hall succeeds N. M. White, Jr., as president. The Prestonsburg club was the only club in the Tennessee-Kentucky district to attain an attendance of 90 per cent during September, and during October its attendance was only 1 per centage point less. The attendance contest between W. H. Coffman's WAVES and the Rev. W. B. Garriott's WACs was won by the latter, who will be entertained tonight (Thursday) with a chicken dinner at the Methodist Church.

Lt. Sarah Pawlows, WAC recruiting officer, was guest-speaker at last Thursday's meeting and told of the urgent need for women in the Woman's Army Corps to assume non-combatant duties, thus releasing for active service soldiers now doing this type of work. Floyd county's quota of WAC recruits in the all-state drive now on is 20, based on the number of casualties reported among Floyd members of the armed forces.

A. V. Faulk, federal mine inspector, was in charge of the preceding Kiwanis program, which was rendered very interesting by a display of various instruments used in mine inspections and an explanation of their uses.

Mrs. Susan Allen Sturgill, 80 years old, widow of John J. Sturgill and mother of Ex-Sheriff B. L. Sturgill, Prestonsburg, died Friday at the home of her daughter, Mrs. Finley Wilburn, of Amba, victim of paralysis. Mrs. Sturgill's death followed the last of several strokes by three days.

THREE FLOYD HOMES BURN

Babe Burned at Garrett, Is Recovering; Cold Snap Brings Losses

Last week's cold snap brought disaster to three Floyd county farm-houses on Right Beaver Creek, all destroyed with few belongings saved, and a baby being severely but not fatally burned in the destruction of one of the homes.

While the residence of Grover Pratt was destroyed last week on Stone Coal Creek, near Garrett, not only most of the household furnishings were lost but the Pratt's infant daughter was burned when flaming paper fell onto her. The child is recovering, it was said this week. The residence was owned by Custer Pratt, brother of Grover.

On Salt Lick Creek two residences burned--Coet Messer's, near the Floyd-Knott line, Wednesday evening; John Hatton's, near Bosco, Saturday. Practically all contents of both homes were lost.

The Hatton home burned when lard being "rendered" inside the home caught fire. A gas connection, it was said, resulted in the Messer home being burned.

No Substitute for U. S. Courage--And Prestonsburg Boy Has It!

"A great many substitutes are used in building modern armies, but nothing has been found as yet to replace the individual courage which crops up unexpectedly on the field of battle" writes Kentucky's Don Whitehead, now a foreign correspondent in the Italian war area.

In a recent dispatch from the Italian front Whitehead furnishes proof that a Prestonsburg soldier is supplying his part of that individual courage. The Floyd county soldier is Pvt. Fred Cottrell, son of Mrs. Joe Hobson, Prestonsburg, who recently was wounded in action. Whitehead's dispatch follows, in part:

"War involves such machines and men that the individual may seem tiny and unimportant until his act of heroism turns the course of battle or inspires others, beyond their normal action.

"Books could be filled with the acts of heroism by American soldiers in the battle for Italy. Sometimes it seems that the success of an entire operation depended on a few brave men. But in each crisis, someone has appeared to do the necessary job, as the citations say, with utter disregard for his own personal safety.

"In an olive orchard on the road to Cape Iaties, blackened shrapnel punctured the shell of an American half-track.

"A sergeant and a corporal leaped onto the half-track to man two 50-caliber machine guns. They poured bullets as the strafing plane roared down on them. Enemy bullets punctured the vehicle's gas tank, and the tank burst, spraying gasoline over the men and the vehicle.

"No one knows why they did not leave their guns. They did not have to stay with them under the cir-

cumstances. But they did. And when the plane came back to dive-bomb they were still firing away, although flames were boiling up around both of them.

"A bomb landed nearby, and made a great gaping crater, blowing the sergeant and the corporal from the half-track. No one will ever know why they stuck to their guns. But courage needs no explanation.

"The first time in combat is enough to shake the stoutest, but Pvt. Fred Cottrell, of Prestonsburg, Ky., acted like a battle veteran when he found himself under a heavy artillery barrage at Limatoda recently.

"Three men were wounded by shrapnel nearby, so Cottrell went to their aid. Shells were falling and shrapnel was buzzing around him, Cottrell tended to the wounded and helped them get to safety.

"At San Giovanni a battalion was pinned under heavy artillery fire and its advance toward an enemy stronghold held up. Lieut-Col. Wendell H. Langdon, of Los Angeles, Calif., saw the necessity for quick action.

"Langdon crossed some open terrain under direct rifle, machine gun and artillery fire to reach his assaulting companies.

"He re-organized the battalion and then led it up a steep ridge. Near the top the troops again were pinned down. Langdon re-organized his men for the second time and led them forward, this time to capture the enemy position."

Funeral rites were conducted from the school at Eureka, near here, and burial was made in the Mayo cemetery there under direction of the Arnold Funeral Home.

CHURCH CASE IS REVERSED

Appellate Court Holds Original Congregation Entitled to Building

The fine distinction between variance of doctrinal ideas in the Christian Church and the Church of Christ was drawn last week by the Kentucky Court of Appeals in reversing a Floyd circuit court decision affecting two congregations seeking occupation of one church at Martin, this county.

Three years ago, said the court opinion, written by Commissioner Osso W. Stanley and considered by the whole court without dissent, membership roll of the church organized at Martin by two young ministers, Bennie and Julian Hunt, was destroyed by A. E. Harper, an evangelist, who effected a new organization. Church doors were locked to the Hunts and their congregation. The Hunt congregation contended they built the church, outfitted it, that theirs was the right to occupy it.

TIPPLE WORK ON MIDDLE CR. TO BE BEGUN

Princess Elkhorn To Tap 2,000-Acre Lease by Jan. 1st

The Princess Elkhorn Coal Company next week will begin construction of a second tippie on Middle Creek which will permit a flow of coal from a new 2,000-acre lease, to increase the company's coal production 50 per cent, or 1,200 tons a day. G. C. Stallings, Mallory, W. Va., executive vice-president of the company, said Wednesday.

The new three-track tippie will be built on the south side of Middle Creek, approximately a mile below the town of David, and will tap a lease between the Caney and Left forks of Middle Creek. The coal acreage to be worked over the tippie extends toward Stephens Branch and other areas already in production.

The Chesapeake & Ohio Railway Company already has been issued a permit for construction of side-tracks, and a contractor for the coal company is expected to begin work Monday. Cost of the new enterprise was not estimated. The company hopes to begin operation of the tippie by January 1.

Although the new operation will provide employment for approximately 125 miners, Mr. Stallings said no new additions to the present mining town are planned at this time because of building restrictions and difficulty of procuring materials.

The Princess Elkhorn, now operating over one tippie of approximately 2,400 tons capacity, is employing 265 men and its original operation is working a lease of around 4,000 acres in the headwaters of Middle Creek. Coal already under lease will permit the company to continue work on Middle Creek for 30 years, it is estimated.

The company installed its David mine in 1941 and the Chesapeake & Ohio Railway Company built a 10-mile branch line from West Prestonsburg to the new coal field.

THE OLD GUARD REPORTS

IT IS reported to be a "long way to Tipperary." Also, it is a long way from Walter Camp's first All-America football team. That selection was made in 1889, which is a matter of 53 years back in football history or any history. In sport this is something you can call faraway and long ago.

Naturally one gets a thrill when he runs across one of the few left from that old-time outfit, such as Pudge Heffelfinger of Yale, still my top football player. I mean a star in 1889 at the age of 20, and still a star (ask Bo McMillin) in 1922, 33 years later. And I mean a 60-minute star.

Grantland Rice

So there was something of a thrill in meeting Channing of Princeton, and in looking back into the past. Channing of Princeton was also on Mr. Camp's first team—a running mate of Snake Ames, one of the star college athletes of all time, a slender back who had to take the physical beating of mass play for 60 minutes every game.

Then and Now

"There isn't any question at all," Mr. Channing told me, "that modern football is far superior to the game we played. It is faster, smarter, more interesting. It has greater action."

"In those days we never had to bother with forward passes, reverses, spinners, mousetrapping, changing defenses, wing backs, T- formations and a dozen things I might mention that the modern player has to face.

"We had only three factors to consider then—power, speed and durability. We never had to figure in advance all the complex things that might happen to an offense or a defense. Actually, we never had to think much. It was largely a matter of overpowering the other team by power and speed. The modern game is a far better game for everybody—players and spectators.

We Were Tougher

"We had just one advantage over this present bunch," 1889 All-America Channing said. "Undoubtedly we were tougher. We could take more. In those days we had no automobiles, no night clubs, no motion pictures, no radios, no distractions. We had only football.

"I'll give you several examples. Pudge Heffelfinger was on that 1889 All-America. Thirty-three years later he played 60 minutes in a professional game with Bo McMillin in Ohio, and he was still the roughest, toughest man in that game. He played against the best pros of 1921 and 1922 and he turned them into fensins.

"Talk about running guards. Pudge was a great running guard in 1889. And he was 53 and McMillin was 22 when they played together, yet Pudge kept saying to Bo, 'More speed, kid. Don't get in my way.' And McMillin was one of the best and one of the toughest, in a football way, this game ever has known.

"Pudge dislocated his right shoulder in the first play of that game, but still started through the whole distance.

More Evidence

"I'll give you more evidence that we could take it," Mr. Channing said. "Shep Homans was Snake Ames' substitute at fullback for Princeton, but Shep never got to play a second while Snake was around. After Snake had been graduated, Homans was All-America for two years at fullback, and in 18 games his substitute never got into a game—not even for a play.

"We were 60-minute players then. I mean all of us. Heffelfinger, Hare, Ames, Stagg—don't forget Stagg. At 80 he is still just as active, just as alert, just as keen as he was over 50 years ago.

"I'd like to tell you more about such great people as Brinck Thorne and Frank Hinkey. Hinkey weighed a hundred and fifty pounds, and they thought he was too rough. He put 100 per cent of everything he had in every play he made, and so did Ames and Heffelfinger and Thorne and many others.

"At that time the softening influences of modern civilization hadn't come along to help kill off our legs and our stamina. Certainly, the kids today are just as game as we ever were. And they are football smarter.

"Can you pick from this crop today a Stagg who still will be leading his men at the age of 80—or a Heffelfinger who might be playing in a game at 66, as he did for charity in Minneapolis?"

"Yes, they are faster, smarter and more interesting than we ever were. But we were tougher."

FLOYD COUNTY GOES TO WAR

Where Floyd Countians in Armed Forces Are, What They're Doing

Sgt. Virgil L. Oney, son of Mr. and Mrs. W. M. Oney, of Eastern, successfully made his fifth and qualifying parachute jump Friday night at Ft. Benning, Georgia. This tactical night jump completed his parachute jump training which lasted the standard four weeks and which included jumping from the towers 250 feet high and learning completely the technique of safe parachute jumping and landing. He has earned the right to wear the coveted Wings and Boats of the U.S. army's most modern soldier, the Paratrooper.

L. R. Blackburn H. D. Blackburn
Howard Doss Blackburn, son of Tommy Blackburn, Prestonsburg, was promoted last week at Los Angeles, Calif., where he is with the army engineers, from the rating of staff sergeant to technical sergeant. His cousin, Pvt. Lloyd Ronald Blackburn, son of Mr. and Mrs. Joe Blackburn, of East Point, recently completed his "boot" training in the Marine Corps at San Diego, Calif., and was transferred to Mare Island, California. He won a sharpshooter's medal while in training. Sgt. Blackburn has been in the army more than a year.

Pvt. Jack C. Rollins, son of Mr. and Mrs. Buford Rollins, of Wayland, has been assigned to the Technical School, Army Air Forces Training Command, Sioux Falls, S. D., for training as a radio operator-mechanic. Upon completion of a 20-week course, he will be fully trained to take his place as a member of a highly skilled bomber crew of the army air forces. He was graduated from Wayland high school May 26, this year, and entered the army June 30.

Pvt. Winfred Ward, son of Mrs. Lily Ward, Prestonsburg, is a pre-Pearl Harbor volunteer, and has been in the army 29 months. Now overseas, he receives his mail thru Army post-office 862, New York City.

Mr. and Mrs. B. Scutchfield, of West Prestonsburg, are in receipt of a cable from their son, Orville Scutchfield, 8111 whose ship was reported sunk some weeks ago. He said he was well and not to worry. Orville has been overseas for several months. The parents have also received two letters from him since they heard his ship was lost.

Arthur J. Archer, Jr., son of Mr. Mrs. A. J. Archer, Prestonsburg, apprentice seaman with the coast guard, is now stationed at the Manhattan Beach training station, Brooklyn, N. Y.

Sgt. Dewey Conn, of Printer, has successfully completed the flexible aerial gunnery course at the Army Air Forces Flexible Gunnery School, Laredo Army Air Field, Laredo, Texas. Upon graduation, he was promoted to his present rank and received the aerial gunners' wings. He will now assume an important position as a member of an army air forces combat crew.

W. Claude Caudill, former Prestonsburg attorney, and son of Mrs. John W. Caudill and the late Judge Caudill, is now Pvt. W. Claude Caudill, of an army engineers battalion at Camp Chaffee, Arkansas. Pvt. Caudill's wife, now with her parents, Mr. and Mrs. H. V. Meyer, of Lexington, expects to join him at Camp Chaffee shortly before Thanksgiving.

Elmer Peters, petty officer 2/c, spent a few hours' leave with his parents, Mr. and Mrs. J. W. Peters, of Cracker, recently. Petty Officer Peters has been in the navy for three years and has seen much action in the Pacific war zone. Mr. and Mrs. Peters have another son serving in the armed forces—Pvt. Calvin Peters, who is stationed at Pittsburg, California.

William C. Blackburn left Oct. 15 for the army. He is a son of Mr. and Mrs. Wade Blackburn, of Lancaster, and is a brother of Jack L. Blackburn, of the navy air corps, now stationed in Pensacola, Fla.

The following newly inducted personnel of the Army have been sent forward from the reception center at Fort Thomas, Ky., to the stations and addresses indicated:
To Infantry RTC, Camp Wheeler, Ga.—Clarence D. Ford, Wayland; John Maynard, Wheelwright; Doffey Vance, Melvin.
To Military Police RTC, Fort Custer, Mich.—Canton Martin, Melvin; Herbert L. Stratton, Betsy Layne.
To Ordnance RTC, Aberdeen Proving Ground, Md.—Charles W. Blackburn, Thomas.
To Field Artillery RTC, Fort Sill, Okla.—Oscar Francis, Allen.

... and tell my old gang down at the Telephone Company that I'm thinking of them. I see tons of telephone materials every day over here—in the form of tanks, shells and field communications equipment. We need a steady stream of these supplies to win—and being a telephone man, I know that telephone lines have to carry many calls affecting production and transportation of fighting equipment. So I hope you homefolks are helping to keep the wires clear, for war calls which MUST go through. Love, BILL"

Fellows like Bill Jones—on the fighting front—know what they're talking about when they say that Victory depends upon an unceasing flow of supplies. And at home, those directing the war effort rely on the telephone to keep munitions and men moving forward.

These urgent calls pass through the same local telephone equipment you use. Yet facilities can't be expanded to meet demands fully, because the necessary materials are being made into planes, tanks and guns.

By avoiding unnecessary local calls—and by speaking briefly whenever you talk—you help relieve crowded lines and switchboards for war duty. In that way you help speed vital war calls.

From where I sit...

by Joe Marsh

Went by Will Dudley's farm a week or so ago and found him stripping his tobacco. It was mighty cold in that stripping room, and Bert looked dog tired. His son's gone in the army and he needed help. But he was whistling at his work and his face lit up when he saw me. "Just be a few minutes," he said, "and I'm through!" Will's a typical Kentuckian. You can't get him down. He's doing the work of three men on that farm of his. But Kentuckians aren't afraid to pitch into a hard job and see it through, whether it's fighting or farming. And after the work's done, they like a bit of sociability for relaxing. To sit with neighbors and argue crops and politics—especially politics! And maybe drink a moderate glass of beer. From where I sit, it looks like most Kentuckians know that moderation in living is pleasant and worth-while.

of the Floyd circuit court, held the new church organization was in its rights in holding possession. The Court of Appeals, last week, declared that control of the church should remain with the original congregation, which opposed the Rev. Harper. The line of distinction drawn was that, though the Rev. Harper and his congregation represented a majority, they were "radically and fundamentally opposed to the doctrine of the church's founders."

A majority of the congregation joined Harper in opposing instrumental music, missionary support, women's participation in church affairs and 39 other issues on which they differed with the Reverends Hunt and their followers, the court opinion recited.

The church was established in 1935 by the Hunts. Differences of opinion arose after the Rev. Harper conducted a series of meetings at Martin.

The opinion declared that in cases of self-governing churches the law upheld the will of the majority, ex-

cept that it provided protection for minorities in cases where the majority was "radically and fundamentally" different, and added:

"We are of the opinion there was such departure from the faith of the founders of the church at Martin as calls for the protection of the property rights of the minority by the courts."

Since the break the church has been known by two names, the Hunt group calling it the "Christian Church," and the Harper faction naming it "the Church of Christ."

On the same day the Martin church opinion was delivered the Court of Appeals upheld the majority in the church schism case in the 114-year-old Fountain Run church where the record showed no doctrinal differences.

MEN ARE DYING ON THE BATTLELINES . . .

CAN YOU LIVE WITH YOURSELF ON THE SIDELINES . . .

WHEN YOU CAN SHORTEN THE WAR BY JOINING THE WAC?

An American soldier is going into battle in a foreign land. The sunrise he saw this morning may be the last he'll ever see. What are you doing—for him, for thousands like him, and for the America they're fighting for? The longer this war lasts, the more of our soldiers will have to die. What are you doing—to help shorten this war and save a lot of needless tragedies? By joining the WAC, you—an American woman—can send more strength to our armies abroad by releasing a man for combat. You can hurry the day of victory—and help bring more of our fighting men home alive.

We have just begun to win this war, but already Floyd county has lost at least 16 of its young men. What these men have sacrificed fills you with a deep indignation that never leaves you—day or night. You've wanted to do something about it—and there is something you can do—must do.

The War Department has issued a call to every state, to every county, for more WACs. The need is so urgent—that your state, your county must not fail to meet its quota. And it won't fail—if you, and scores of your patriotic state and county sisters join the WAC.

Right now, your state's own WAC company is being formed. Step into this loyal group of women—and march into the WAC under your state's own gallant flag.

Here is your opportunity to help in a way that's real and vital. Your chance to take over an essential army job—to release a soldier for combat training—and help speed victory.

Go to your nearest U. S. Army Recruiting Station (Pikeville, Ky.) or to your local Civilian Chairman, Mr. N. M. White, Jr., and get full details about your state's own WAC Company. Learn about the jobs WACs do, their training, pay, etc.

DO IT NOW! MAKE YOUR COUNTY, YOUR STATE AND YOUR COUNTRY PROUD OF YOU!

"Here goes the Electric Range that Madge and I planned to buy!"

THE largest electric range manufacturer in the country is now turning stoves into bombs. Conservation of scarce materials requires this—after we have licked the Axis new skills and new machinery acquired in wartime will make better and cheaper electrical equipment available. Conservation in many ways will help bring Victory nearer and that is why the Government now asks seven major industries—coal, petroleum, transportation, gas, water, electricity and communications—to seek the cooperation of the public in avoiding waste of their products.

There is plenty of electricity, but when you save electricity you save coal and manpower and scarce materials.

Continue to use all the electricity you need for health and safety and eyesight conservation, but don't waste it.

SHIKE'S POKES

(The views expressed herein are those of the writer and not necessarily those of this newspaper—Editor.)

Well, I've been worried all week over Hunk's eye trouble and Bob's toothache. I guess the Pike county specialists cured them over the week-end.

There wasn't but one thing wrong in the election. The wrong man was on the ticket for Governor. Doug Hays should have been the candidate—he would have won by 75,000.

Here's a salute to the "Squirrel Knockers" from Floyd county who are stationed in Texas. I hear they're "it" with a capital "I."

We have a report from John Horn's brother Mac that he's coming up to Drift to look after John. Sez he's not getting his vitamins, that with a Republican Governor and all, John's polk soured. Deward and a bunch have ordered a bushel of A, B, C and D vitamin pills. It's going to be hard to get John to take them. If he goes to work for the highway department, he'll want to plant them.

We had company over the week-end. How those birds get together! Yep—the stork visited the Shikepokes and left a 9 1/4-pound boy, another Democrat—James Edward McGlothen. Hope he makes as large a man as his Uncle Jim in the 16th armored division.

1943 NOVEMBER calendar image. Make this month your car inspection month at Studebaker. Take care of your car and it will take care of you. THERE are five simple things you can do to guard your car's mileage. Number one on the list is—frequent inspections. Drive in and have your car examined thoroughly by our capable Studebaker mechanics who have been specially trained in wartime maintenance service. You'll be given a check list of any needed adjustments or repairs. Whatever work you order will be handled promptly, efficiently and at moderate cost. No matter what make you drive, take these precautions: 1. Have your car inspected frequently. 2. Get lubrication on a time basis, not a mileage basis. 3. Check your tire pressure at least once a week. 4. Keep your brakes correctly adjusted. 5. Have your car expertly serviced for wartime driving. GREENWADE'S SERVICE GARAGE Phone 5291 PRESTONSBURG, KY.
