FLOYD SCRAP QUOTA MAY BE REACHED

Industrial Firms Ship Near Million Pounds; Other Scrap in Store

"All the 'scrap' was not by any means taken out of Floyd county earlier in this war," County Attorney W. W. Burchett, Floyd county salvage chairman, declared Tuesday. "There's a lot left, and the schools, business firms and citizens over the county are getting it out."

Mr. Burchett said he believes the county will reach its new scrap quota of 5,300,000 pounds—a pound of scrap per person in the county. Already, he reported, slightly less than a million pounds of salvaged materials have been shipped and the returns reported to Mr. Burchett. These shipments are from only eight Floyd coal and gas firms, do not include the work of the schools in every part of the county.

Mr. Burchett said Grant Walters, who has been handling scrap accumulations as a dealer, will be assisted by Lackey Salisbury and Bill Smith, and he asked the various schools and companies to dispose of their scrap through these dealers.

POST CALLS FOR MEMBERS

Hobson Says Veterans Still Have Services To Render U. S.

W. G. Africa, adjutant of Floyd Post No. 129, American Legion, called on Floyd county veterans to renew their Legion memberships and at the same time asked new memberships from those who did not join in the Legion's work last year.

His membership call was made in response to a call from District Commander Peyton C. Hobson, Pikeville, who is asking every Post in his district to renew its efforts to enlist a 100 per cent membership.

While our boys are still fighting and dying to keep America free and safe, we are being presented with the thought that everything is safe now and it will never happen again," Mr. Hobson is warning Post officials in urging full memberships, adding that this is an old story which in the past has lulled the veterans into a state of false security.

Floyd Post's membership quota is 91 and is less than 25 per cent of being filled, Mr. Africa said.

Former Merchant Here Writes for 'Buddy Bag'

Sgt. Walter Mullins, who was manager of the J. B. Dick store here when he was called into military service a year ago, wrote Mrs. Everett Sowards recently from England wanting to know if the Red Cross is sending "Buddy Bags" this year.

If it is, Sgt. Mullins asked Mrs. Sowards to send him one.

Sgt. Mullins filled many "Buddy Bags" last year when the call came from the Red Cross for this cause. The Red Cross chairman has mailed him the "Buddy Bag" requested. Shipments are moving each week and contributions to this cause are urgently needed to fill the required quota of 812.

Mrs. Everett Sowards, Floyd county chairman, asks further contributions for the "Buddy Bags" effort.

Dyer Returns to Floyd As Inland Supt.

Romeyn C. Dyer returned to Floyd county this week from Bradford, Pa., to assume the superintendency of compressor stations of the Inland Gas Corporation in this section.

Mr. Dyer left the county more than six years ago, at which time he was in charge of Inland's Hillsdale station on Middle Creek, near here, to become field engineer for the Oil Well Supply Company at Owensboro, later going to Allegan, Mich., and more recently to Bradford, Pennsylvania.

Mr. Dyer will be in charge of the Hillsdale, Midas and Brushy (Magoffin county) stations of the company. He and his family are moving to Prestonsburg within the next few days.

That Young Blood Live, An Aged Woman Works

The aged Prestonsburg woman who, a few weeks ago, initiated the sale of "Penny-a-bunch" pipe lighters made the old-fashioned way from paper reported this week sales had amounted to \$5. Unable otherwise to join in the war effort, she sent the 500 pennies to the Red Cross for the blood plasma fund.

The following young girls and boys here helped her in the sale of the lighters: Vivian Combs, Abigail Allen, Betty Archer, Marybelle Layne, Joan Hill, Tommy Meade, Robert Drton, members of Carlos Hale's Sunday School class.

BLOOD PLASMA DRIVE BEGUN

Would-Be Donors Of Blood Find Way To Help

Unable to get a blood plasma mobile unit to come here to take Floyd county blood for the benefit of America's fighting men when wounded, John Graham Chapter, Daughters of the American Revolution, Saturday opened a drive for funds which will buy blood elsewhere and enable more mobile units to operate in their restricted areas over the country to the end that no wounded service man may be without the life-saving qualities of plasma.

With the co-operation of management of the Abigail theater, and with Mayor E. P. Arnold and Joe P. Tackett, World War I veteran, making appeals to theater patrons to contribute, the women by Sunday night had raised approximately \$200. Other contributions raised the total to around \$220.

The DAR chapter's goal is \$1 sub-

FLOYD RED-HEAD'S INSISTENCE ON FITNESS WINS FOR AIR FORCES OUTSTANDING FIGHTER

But for a Floyd county red-head's insistence, back in August, '42, that he was physically fit for service in the armed forces, the United States would have been denied services of a man who recently was awarded the Air Medal for exceptional achievement in the European theater of operations, friends of the airman who has distinguished himself recalled this week.

The fier, Sgt. Eulan C. Mills, 22, son of Mr. and Mrs. Henry Mills, of Wayland, was recently decorated by Lt. Gen. Ira C. Eaker along with three other Kentuckians for distinguished service in bombing raids on Germany and other parts of occupied Europe.

When Sgt. Mills, apparently a

Patton's Chance To Deliver Famed Charges To Grand Juries Depended on Floyd Precinct

On the returns from one Right Beaver precinct, this county—Allen precinct, which at that time extended down the Beaver valley to around Northern—depended the election, back in the '90's, of the late Judge John S. Patton and his opportunity to give his classic charges to grand juries of the district as recently reprinted from THE FLOYD COUNTY TIMES by Allan M. Trout in his "Greetings" column of The Courier-Journal.

Lee P. May, a former Floyd county Sheriff and for half a century connected in various capacities with law enforcement agencies of the county, recently supplied this newspaper with information relative to the late and renowned jurist's public career.

"Patton had his close race with Judge York, of Pikeville, in the primary," Mr. May said. "He was probably defeated until he made a speech at the mouth of Beaver, but after that things turned his way. I later was told that if he had made another speech, as we tried to get him to do, Judge York's friends would have tried to get him to withdraw from the race. That should give you an idea of the appeal this man made to those who listened to him."

Mr. May, as a deputy under the late Sheriff Taylor Allen, "waited on" Judge Patton's court terms here, heard his famous instructions to the Floyd court's grand juries. The huge proportions of the man, his evident commonsense and his flow of words particularly effective during his day, was enough to make

Floyd Soldier Finds Part Of Old 'Friend' in Sicily

A Floyd county soldier walking along a Sicilian street a few weeks ago found a newspaper which took him thousands of miles nearer home.

The soldier, Pfc. Harris A. Stancil, formerly of Wheelwright, is quoted by Mrs. Stancil as writing:

"As I was walking down a street in Sicily one evening, I picked up a paper lying on the street. I picked it up and to my surprise and joy I discovered that it was a section of a very familiar newspaper—The Floyd County Times! As I looked the paper over, I wondered if the

people back home have realized how wide The Floyd County Times circulation has become."

Pfc. Stancil did not say if he learned to whom the paper had been sent. Mrs. Stancil, in reporting this incident, wrote:

"The Floyd County Times has, within recent years, become a symbol to every native Floyd countian . . . It always contains the news of most interest to every one. It has proved especially interesting to Floyd county's boys who are now serving all over the world."

Cats Rest for Auxier Here Next Tuesday; Win Two, Lose One

Prestonsburg's coachless Black Cats are resting till next Tuesday night when they play a return engagement here with the Auxier team, their first opponent of the season and from whom they won their first victory.

The Cats have won two games while losing one. At Martin Thursday night, last week, they dropped their first game, 28 to 20. Saturday night here, they copped a thriller from Clive Akers' McDowell team, 21 to 20, barely staving off the visitors' scoring rush in the final period.

Maxon Strike Is Made By Floyd Countians

A strong gas flow was struck recently in the Maxon sand on the headwaters of Licking river, Magoffin county, by a local independent group composed of J. T. Hughes, J. J. Hatcher, G. C. Spradlin and others. The drilling rig was immediately moved to another nearby location, it was said.

Is Second Lieutenant In Army Nurse Corps

Miss Frieda Madalane Hornsby, daughter of Mr. and Mrs. Walter Hornsby, of Martin, was recently commissioned a second lieutenant in the army nurse corps. She reported to Billings General hospital, Fort Benjamin Harrison, Ind., November 15.

Graduated from Saint Mary's School of Nursing Sept. 28, she has been residing at the home of her parents in Martin while awaiting her call to active duty.

Youth Given Term In Reform School In Station Robbery

Approximately \$16 of the \$32 stolen Monday night from Smith's Gulf Service here was recovered by Prestonsburg police, C. H. Smith, owner of the burglarized service station, said Tuesday afternoon.

Of four youths arrested, one, Junior Brummett, was given a reform school sentence by County Judge Hill. The other three, under 10 years of age, were placed under probation.

Entrance to the station was effected beneath a grease-room door that had not been securely fastened.

any jury or courtroom crowd sit up and take notice, Mr. May said. The Judge weighed 300 pounds "or better." He was of common clay, nothing haughty about him, yet he maintained perfect order in his courtroom, Mr. May reminisces.

After his close call with Judge York in the primary, he defeated his Republican opponent, the late Andrew Auxier, of Pikeville, Pike, Floyd, Martin, Johnson and Knott counties at that time composed the judicial district. "And you had to be interested in an election to vote then," Mr. May said. "Think of going all the way from Wayland five miles down Beaver to the voting place for the old Allen precinct, over muddy roads, with no automobiles, no railroad, only your foot, a horse or a mule."

Judge Patton, a Democrat from rockribbed Republican Martin county, was in Prestonsburg while returns were awaited on his race with Judge York, also a popular man in the district. "Several of us who supported him waited with him," Mr. May recalls. "We were standing on the river bank when Joel O. Martin, later Floyd county Jailer, put his horse into the river with the returns. When Joel got near he yelled to us that Patton had carried his precinct—they counted the vote at the precinct then, you know—and that it was all over. The news was good but we thought a shooting would take place before we could get away to tell Patton of his victory. John Lee White disputed Martin's report, Martin's hand dropped to

his hip and he dared anybody to say he was a liar. Though White's courage was unquestioned, he said no more."

"An hour after my brother, Tom, had told Judge of his victory, describing his hold on his opponent in eloquent if unprintable terms," said Mr. May, "Judge Patton was laughing. 'I was just thinking,' he explained, 'what a foul hold that is you said I have on Judge York.'"

The legendary Judge's conduct of court and his decisions were based on commonsense, Mr. May says, and few of his decisions were ever reversed. "One thing about him on the bench impressed me," Mr. May said, "and that was how he treated the poor. If a poor man or woman came into court on some charge for the first time, Judge would call them around, tell them they were needed at home more than in jail, and that they could go. But he always gave them the stern warning that another visit to the courtroom as a defendant would bring full prosecution of the law."

"I knew Judge Patton drank, and not many didn't know it," Mr. May said, "but in all his court terms in Prestonsburg I never saw him 'out of the way' till his last term here. I felt like he got that way then because he hated to leave us."

The Judge did not seek re-election. Ill health, Mr. May believes, prevented him from submitting his name again to the voters who learned to love him so well.

Chief on Day Off Does 'Good Neighbor' Bit

The answer to what a fireman does on his day off is supplied this week by Fire Chief Arthur Blackburn, of Prestonsburg.

Fire Chief Blackburn had a part of his crew of firefighters with him in the pre-dawn hours Wednesday on his return from Ashland with his son, Adrian, who had completed "boot" training at the Great Lakes Naval Training Station, Great Lakes, Illinois.

As the Prestonsburg party was passing Cox's Chevrolet Sales Fire Chief Blackburn saw that a burning car was near the building, threatening a blaze of major proportions. Soon afterward, the night watchman arrived from upstairs to say he had called the Paintsville fire department.

But he was able to find a hose and the Prestonsburg firefighters went into action, had the fire out when the Paintsville fire department arrived. "We had to come down from Prestonsburg to fight your fire," Mr. Blackburn told Paintsville Fire Chief Heber Ward.

SAVES TOTS FROM FLAMES

Soldier's Wife Rescues Babe, Brother Here From Burning Home

While her husband, John Bascom Kendrick, was soldiering in Uncle Sam's army, his wife, Mrs. Tennessee Gibson Kendrick, had her own "baptism of fire" last Thursday afternoon here when she forced her way through flame and smoke of her father's burning residence to rescue her baby and her four-year-old brother, John.

Her 16-month-old baby daughter, Brenda Joyce, suffered burns about her hands and her baby brother was burned about his ear, but neither was burned as badly as Mrs. Kendrick. Although her clothing did not ignite, her skin was seared by the intense heat.

Mrs. Kendrick was outside the home when she saw smoke billowing from the residence on Trimble street. Her father, Mont Gibson, was working at the Prestonsburg grade school building, her mother was attending the funeral in Huntington of her grandfather, Albert Fielder, who died here last week.

Although the Prestonsburg fire department quickly brought the flames under control, the interior of the home and all its contents were ruined by flame, smoke and water. Fire Marshal Arthur Blackburn estimated Mr. Gibson's loss at \$3,500, \$1,000 of which was covered by insurance.

He said the fire apparently had its origin in defective wiring in an unused bedroom.

Mr. and Mrs. J. O. Webb were in Huntington the latter part of the week, buying merchandise for the I. Richmond Company.

\$10,000 BOND IS DEMANDED

For Release of Two Held Here, Charged With Auto Theft

In jail here this week were Melvin Osborne and Freddie Newsom for whose release a total bond of \$10,000 each—\$5,000 appearance and \$5,000 peace—in connection with the theft of an automobile here is asked by County Judge E. P. Hill.

Osborne is said to have been given a "push" by Newsom in getting the automobile of Ballard Haywood, of Dock, started after the car had been stolen and wrecked at the Cliff bridge, near here, early this month. Chief of Police Epp Laferty said Angie and Millie Webb, local women, have admitted accompanying the two in the Haywood car. Last week, they returned to Prestonsburg with a Williamson, N.Y., car which they are said to have bought, using the Haywood car as a down payment.

Chief of Police Laferty said Newsom disclaimed any connection with disappearance of the Haywood car other than giving Osborne a "shove." The New York auto dealer to whom the Floyd county car was traded is expected here this week to claim his automobile.

RANEY SAYS NO STRIKES IN SECTION

Some Truck Mines Idle; New Wage Scale Studied

Tom Raney, Pikeville, international representative, United Mine Workers of America, said Wednesday that reports of scattered strikes in this section's coal industry are false rumors insofar as he has learned.

Questioned about the report of a work-stoppage at Wheelwright last week, Mr. Raney said he knew nothing of it. He added that all mines of the section are working with the exception of 18 organized truck mines, eight of which are in Floyd county. "Operators of these truck mines claim they can't operate under the existing wage scale and at prevailing coal prices."

John L. Lewis and coal operators representing about 50 per cent of the nation's soft coal tonnage have agreed on the essential outline of a wage contract, but Southern Appalachian operators are holding out for a different basis of computing miners' wages.

Lewis was reported unwilling to sign until a substantial majority of the nation's tonnage is represented. The miners agreed with Northern and Western operators to accept basically the arrangement between Interior Secretary Ickes and Lewis under which the mines now are being worked under government possession. This, as interpreted by the War Labor Board, would give the miners \$57.06 a week in base pay.

Edward R. Burke, representing the Southern Coal Producers Association, told reporters that his group is willing to pay the same weekly wage, but only if miners actually work eight full hours a day, none of which would be travel time.

The Ickes-Lewis agreement assumed 45 minutes of underground travel time a day, and pays for it at the rate of 66 and 2-3 cents an hour before 40 hours are worked and \$1 an hour after the 40-hour period. Burke indicated belief a Presidential committee now studying travel time will find that it actually averages more than 45 minutes, thus throwing the Ickes-Lewis plan into confusion.

Lewis met the operators again today.

The "captive" mines owned by the steel companies were still not represented in the negotiations.

The Solid Fuels Administration ordered all shippers of anthracite to ship coal on hand at once and to bill customers under new emergency price ceilings to be announced.

The fuels administration said some producers and wholesalers of hard coals had refused to ship their product under present ceilings because costs had risen since the wage agreement between Ickes and Lewis went into effect.

10 GRANTED DEFERMENT

In Draft Status After Appeals; Nine in 1-A

Nine of the 19 draft status appeals filed by Floyd county selective service registrants have resulted in the appeal board affirming 1A classifications in which the registrants were placed by the local boards. The other ten were given deferred classifications.

All five of the 1A classifications appealed from Board 45 were affirmed. Ten of the 14 appeals from Board 44's classifications resulted in deferred classifications, all on occupational grounds.

Affirmed by the board of appeals for Board 45 were the following cases:

Virgil Combs, appeal filed by Elk Horn Coal Corporation; Oscar Lee Hamilton, appeal by the Electro Metallurgical Co.; Foster Meade, McDowell, appealed by Wright Coal Co., Pikeville; Jobie Martin, Hunt, appeal; dependency; Claird Caudill,

P'burg Man's Brother Dies in Michigan

Funeral rites for W. F. "Bill" Wiechers, 53 years old, brother of Charles Wiechers, Prestonsburg, were conducted Thursday, last week, at Huntington, W. Va. Mr. Wiechers died at his home in Saginaw, Mich., Nov. 15. Burial was made in Woodmere cemetery, Huntington, under auspices of the Masonic lodge.

From 1918 to 1924 Mr. Wiechers resided at Louisa as land agent for the Pure Oil Company, from there was transferred to Huntington and later to Saginaw. He leaves his widow, Mrs. Nova Plybon Wiechers, his brother here, a sister, Miss Louisa Wiechers, and a second brother, Henry Wiechers.

4-H Clubbers Invest \$500,000 in Bonds

Setting out to buy enough War Bonds and Stamps to pay for a bomber, Kentucky 4-H club members have bought more than twice their quota. When all of the 120 counties have reported it is expected that over \$500,000 worth of Bonds and Stamps will be owned by the 108,342 club boys and girls of the state.

To have money with which to buy Bonds and Stamps, the 4-Hers hired out as farm hands, worked in homes, raised poultry and livestock, grew vegetables, canned, baked and sewed.

Club members fed 1,800 calves, and raised hundreds of hogs and lambs, engaged in poultry raising and dairying, and otherwise earned money with which to purchase Bonds and Stamps.

A report of the State College of Agriculture and Home Economics clubs in 105 counties contributed over 100,000 days of emergency labor service this season.

Letter to the German-American Bund:

Thanks for betraying yourselves. Some of us have been hollering all along that the Bund was a school for traitors. The FBI just snatched eight saboteurs from Berlin who confirmed it. That was very helpful. It may even shut the mouths of certain distinguished American dopes, but don't bet on it. From the beginning we always argued that you had to be a sneak and a cut-throat to get into the Bund. We figured that a guy hired to sell out a country that sheltered, fed and welcomed him had to be a 100 per cent no-good. The dopes claimed you were nice guys—just misunderstood. So thanks again for coming forward and proving yourselves rats.

All eight of the dynamiters under arrest were Bundists, they admitted. So you see where that leaves you, don't you? It puts the official Nazi stamp on your activities. It comes out that the Nazi consuls in New York, San Francisco, New Orleans, etc., directed you. It doesn't jell with your claim that you ganged up for athletics and to improve German-American relations.

But then I suppose you can get a few laughs out of fooling those distinguished American dopes. Those so-called good citizens who squatted on Bund platforms and orated how wonderful you were. I'll bet you felt good that night in Madison Square Garden, when they came right out for you. Remember the incident? Dorothy Thompson (the canny girl) spotted you for scum—so you threw her out. You must have been proud of the way you tamed those Americans, who roosted on the rostrum and let you get away with it. They even agreed that Miss Thompson was a trouble-maker. That must have killed you: Americans calling Dorothy Thompson—from a Bund platform yet—a trouble-maker!

How do you like that \$170,000 the eight saboteurs carried over here? That's bad. They had to explain it as bribe money, you know, to pay off the subversives for help to blow up war plants, bridges, stores, etc. That looks like something that involves you Bundists. You can bet your dialects that if the saboteurs know any subversive people, they met them at Bund rallies. See where it leaves you? You have no idea of the record Mr. Whiskers has of you chumps. He used to jot down your license number when you came to meeting in your car. Ach! Dot Hoover!

The hell of it is this: You don't know just how much J. Edgar Hoover has on you. He's so wily, that Hoover. He puts out so much to the papers, then holds out quite a lot to work on. That's why you don't know when your front door is going to be kicked in and you'll have to explain how come. It was a bad day for you, wasn't it, when you chummed up with those eight? The minute they're in trouble—boppe—they drag you into it. A fine way for the Master Race to behave.

And don't expect a lift from Hitler. You Bundists are cheap labor. He can buy you in herds. He uses you, but the minute you can't take care of yourself he throws you to the wolves. What makes you think you punks mean anything to him when he butchers his own generals when they fail to deliver the goods? And look how he left Fatzio Fritz Kuhn out on a limb. Fatzio was dumb, but he worked hard. Worked like a dog, but the minute things went wrong what did Der Fuehrer say? He said: "The Reich cannot concern itself with stupid failure." See? He wouldn't even send you a copy of Social Justice to while away the time in jail.

And have you been reading about all the Bundist suicides right here in New York? And can you be sure they were suicides? Lots of the Bundists are better off dead, especially since the FBI's roundup. They had too much to tell, in case the law reached them. So they were found in the river. Or maybe they fell eight stories into Yorkville. How about you, Fritz? And you, too, Hans? Are you too informed? Be very careful. Some bosom pal is going to drop in some night and shoot you right through the square haircut—and blow all the data right out of your head. Working for Hitler is a tough way to make a pennig.

Any way you look at it, it's a pretty stiff price you're going to pay for strutting around in brown shirts and feeling good about being the Master Race. You can't be very proud of your fellow Aryans for the way they wretched. You wouldn't catch the Czechs doing that. Those brave people, unarmed and conquered, told your armed bullies to go hell themselves when they were tortured for a squeal on who sent Heydrich to hell. More than 800 of them died before they'd please a Nazi.

NOT ONLY A FIGHTER, BUT ALSO A DIPLOMAT

Gen. Dwight Eisenhower has a lot of tough jobs in Africa, and one of them, which doesn't get into the headlines, is to be the diplomatic negotiator among high French officials.

Among other things, he has been very adroit in handling General Giraud, who escaped from France dressed as an old woman and who now is in command of French forces in North Africa.

Actually, General Giraud expected to be commander of all forces in North Africa, both French and American. He is one of the highest generals in the French army, and before France fell, would have replaced General Gamelin as chief of staff had he not been taken prisoner. Therefore, since he outranks Eisenhower and has had much more varied experience, it is not unnatural that Giraud should aspire to be commander-in-chief of the entire North African operation, including the U. S. army.

Eisenhower, however, has a charming personality, a broad grin, a smattering of French, and had little trouble in handling General Giraud.

Another complication was the fact that Giraud hates Admiral Darlan. Yet Darlan, as a member of the cabinet, outranks him. In addition, there is General Nogues, another top-ranking officer. So it has been worked out that Nogues commands the French civil population, Giraud the French army, and Darlan the French fleet.

SIDETRACKED PLANES

When Wendell Willkie conferred with Stalin in Moscow, the Russian leader was critical of the British for sidetracking American lend-lease goods in Scotland and substituting for them inferior British war supplies.

The inside story of this can now be told.

Last summer, a shipment of Airacobras was en route to Russia from the United States and the convoy stopped to refuel in the British Isles. At that time, General Eisenhower, preparing for the second front in Africa, asked that these fast fighting planes be given to him instead of being sent on to Russia.

General Eisenhower was so insistent that he finally went to Prime Minister Churchill personally, who finally agreed that the Airacobras be sidetracked for use on the forthcoming African front.

OVERRULING ROOSEVELT

More and more it looks as if Ferdinand Eberstadt, the Wall Street broker, is becoming the most powerful man in the War Production board and one of the most powerful in the government. It hasn't leaked out yet, but recently he managed to overrule the vice president of the United States, the undersecretary of state, and Lend-Lease Administrator Ed Stettinius.

Some time ago, Eberstadt appointed as chief of WPB export priorities, Major Tom Armstrong, of Standard Oil of New Jersey, who had operated in various Latin American countries. Armstrong had been vigorous in bucking the development of Latin American government-owned oil companies, and the Latin Americans don't like him. Therefore, they squawked when they heard he would now sit in their all-important priorities position where he could decide whether they could, or could not, receive oil equipment to develop their government-owned industries in competition with Standard and private companies.

Undersecretary of State Welles agreed with the Latin Americans, and protested to the President. So did Vice President Wallace of the BEW, and also Stettinius, who buys lend-lease oil equipment for Latin American governments.

As a result of these protests, Roosevelt ordered Donald Nelson to dismiss Major Armstrong. However, Eberstadt in effect has overruled the President. He insisted that Armstrong remain. And he is still on the job.

CAPITAL CHAFF

Mrs. Roosevelt, looking from an airplane on the new marble structure known as the Jefferson Memorial, remarked, "I doubt if Jefferson would have liked to see money spent that way."

There are already 225,000 applications on file for commissions from civilian life.

Except for a few rare specialists, the only route to a commission nowadays is to get into the army as a private, then attend an officer candidates school.

Not to be stalled by lack of gasoline, one sightseeing company in Washington has hired and repainted an old two-horse ten-passenger wagon, which drives around the capital as "Victory Sightseeing."

Warning that the war department will dispense no more "cellophane commissions," Secretary Stimson says it does no good for applicants to write appealing letters to him, which open with the catch phrase, "I know what a busy man you are, but—" Some people write to Stimson at his home, expecting personal attention.

War Takes 96¢ Of Each Dollar

Out of every \$18.75 that is invested in a War Bond, \$18 goes into guns, planes, tanks, ships and other military equipment. The 75 cents goes for ordinary governmental expenditures. Out of every dollar 96 cents goes toward the war effort and 4 cents goes for Government "business as usual."

The same ratio applies to all other securities the Government has offered investors in the Second War Loan campaign for 13 billion dollars.

WAYLAND HOT SHOTS

By R. H.
(Views expressed herein are those of the writer and not necessarily those of The Times)

Do you believe that the coal miners received an increase in wages? Well, they did not. I want to explain to some of the readers of THE TIMES where they got a decrease in their weekly wages according to the hours they work. Under the past contract the basic rate of \$7 a day the men would make about \$45 per week for 42 hours. Now the same basic man makes \$55.25 per week for 51 hours. Under the old contract 51 hours a week would have paid him \$59. What do you think about this? If you were on salary and making \$150 per month and your employer raised your wages \$50 per month and added two more hours work each day, would you call that an increase in wages or would you be working for it? I say that we are working for all the extra pay we are receiving. The majority of the miners are not satisfied with it, but they are showing their patriotism to the American flag, and to show the American public that they are not the red-necks, some say they are.

There are several married men from Wayland who have volunteered for the armed services, which left several of our women singing, "Lay That Pistol Down, Babe" or "Where Has My Little Dog Gone?" I am of the opinion that they are missing something that keeps the home happy—the man around the house. Kindly reminds me of coming up from Prestonsburg the other day on a crowded bus. When I offered a lady my seat, she remarked, "Set still, you old men are all we have left, so we women have to take care of you."

Dorothy said she believed that Arthur would be all right if Joe Hicks would quit begging him off to the Cream Pitcher.

I hate to hear of my old friend Briar Buck losing that \$5 on his election bet. It's a good thing he did not have the wheelbarrow pushing in it.

Floyd Copley and family have come back to Wayland and settled down again. This water sure gets 'em.

E. W. Mcade was visiting in Wayland over the week-end with the man who wrung the chicken wing off—John Fields and family.

Jollie Phillips, a former Waylander, has been given a release from the army. I think he is going to return to the mines.

The Homemakers' Garden Club of Fayette county supplied floral decorations for the Stopover Station in Lexington throughout the summer.

McDowell Net Team Has Season Record Of 3 Wins, 2 Losses

By BERT OSBORNE

McDowell, Ky., Nov. 10 (Spl.)—The McDowell Daredevils, coached by Clive Akers, Floyd Tax Commissioner, opened their basketball season three weeks ago at Garrett where they were defeated, 51-36.

After this defeat they met the Martin squad at McDowell and handed the visitors their first defeat, 36-26. Then, the following week-end the Daredevils traveled to Martin and again kicked Martin by a 22-17 score.

Last Friday night, the Daredevils defeated Auxier, 28 to 34. The following night, they traveled to Virgie and were defeated by 12 points.

Let Us Give Thanks From Our Hearts.

There is befitting humility in the act of a strong man giving thanks for his blessings. Arrogant self-sufficiency is being defeated upon the world's battlefronts by men who look with faith to the One on High for courage and strength. This Thanksgiving Day, let us give thanks with a conviction that we feel away down deep in our hearts.

And, let us pray for Divine comfort for those who, this day, mourn for loved ones who have given their lives that we may stay free.

We serve as we would be served.

Sewing Machines Again Appear in Kentucky Homes

A machine that once stitched miles of seams for the 89-year old mother of Mrs. J. M. Feltner in Laurel county, is one of thousands of sewing machines re-appearing in homes over Kentucky, says the State College of Agriculture and Home Economics. Rusted from lack of use, it was cleaned, oiled and adjusted, and now in stitching trim it is being used by Mrs. Feltner in repairing and re-modeling clothes and in making new garments.

Miss Dorothy Threlkeld, the college's extension clothing specialist, says that sewing machines of all ages and models are coming out of attics, haylofts and woodsheds. Some of them already have served two or three generations.

In Hart county, members of homemakers' clubs found machines of 15 different makes, many of them long ago forgotten. However, it is said that most of them can be re-conditioned and made to do sewing. Miss Threlkeld says sewing machines seldom wear out. They sometimes get too dirty to run—all gummed up—cleaning, oiling and adjusting often are all they need, she says.

In 10 Kentucky counties members of Homemakers' clubs are making a special project of learning how to operate sewing machines. First, they are learning how to clean, oil and adjust them; and finally how to use the attachments.

Farmers Make Fewer Moves, Survey Shows

Moving day is a yearly event for some town families and also for some croppers and tenants, but farmers in the outer Bluegrass counties of Kentucky are tending to "stay put," according to a survey made by the Agricultural Experiment Station of the University of Kentucky.

Moves were more frequent among younger families, those in which the wives were under 30 years old, it was found. There was little moving from farm to farm where the parents were over 50. Farm owners and renters moved oftener in Robertson county than in Johnson county, but in general, farmers with lower incomes moved oftener than farmers with larger incomes. Educational levels tended to be highest in those farm families with fewest changes in residence.

The survey also reports the influence of changes in residence upon family size, or the number of children born. In general the report indicates that fertility rates, like mobility rates, are highest among young farm families, and that they are lowest among families with largest incomes.

It is concluded that strong family life was shown to be more characteristic in the mountain county (Johnson) than in the Bluegrass county (Robertson), and the spread of urban living standards was shown by the mobility and fertility rates for the latter county.

THE WEEK IN WPB

Must Collect Ration Points

While the War Food Administration has ruled that for 90 days farmers may slaughter hogs from their own farms and deliver the meat without license, that does not remove the necessity for collecting ration points. Farmers must collect the correct number of ration points for all meat they sell.

Point Value of Pork Cut

Ration point values of all cuts of pork and 100 pct. pork sausage were reduced Friday for a limited period. Some items were made ration-free. Average reduction in point values is one-third. Canned meats were not reduced.

Rubber Footwear

A worker whose dealer is unable to fill his order for rubber footwear before his purchase certificate expires may leave the certificate and get the footwear at a later period.

Seed Potato Ceiling Cut

Ceiling prices for certified seed potatoes have been reduced by an average of 10 to 20 per cent from the levels at which they were frozen last spring. Basic maximum price is \$1 higher than for potatoes for table use.

If You Sell Rationed Goods

You may obtain charts—to tell you how many points to charge for rationed goods you sell—from either your local War Price and Rationing Board or your county USDA War Board. Your county agent has been furnished a list of top legal prices you may charge for price-controlled goods you sell.

Citrus Fruits Cheaper

Retail ceilings on citrus fruits now coming to market will be 10 to 15 per cent lower than last season's prices. National average prices will be: oranges 9 1/4c per pound (1 1/4c less than last season); lemons, 13 1/4c per pound (1 1/2c less than last season); grapefruit, 8c per pound (1c less than last season).

Ceilings on Tobacco

Ceilings established Nov. 15 on nine varieties of cigar leaf tobacco represent advances of 3.3 cents to 14 cents a pound over 1942 season averages.

Admitting that OPA necessarily places many restrictions on consumers and business men, a spokesman for the Louisville District OPA office declares that no complaint is being made for fair criticism, and that no agency should be made to take the blame for "all that is evil and dissatisfying" in our present life.

The public is allowing itself to be fooled in some instances by individuals and firms who use "It's the OPA" as a general excuse for all inconveniences to consumers. Some specific instances of unjustified blame are cited:

1. A repairman, called in by a housewife to make a minor repair on a vacuum cleaner, told the housewife he would take it into the shop and answered her objection with the statement that "OPA regulations required him to take all repair work to the shop."
2. A laundry, having trouble getting the customer to accept the amount proffered in settlement for lost or damaged goods, stated that "this is the most OPA will allow us to pay you."
3. A shoe dealer, when a customer returned defective merchandise and asked for adjustment, told the customer OPA wouldn't let him replace it.
4. An employe, seeking a wage increase, was told by his employer that "OPA wouldn't allow it."

These statements are too far-fetched to require an answer, the OPA spokesman said, except that they bewilder and mislead the public.

An average of 352 quarts of fruits and vegetables was canned for every rural family in Letcher county, or a total of 89,282 quarts.

SUPPOSE we could put on a baseball carnival that included Cy Young, Ty Cobb, Nap Lajoie, Tris Speaker, Joe Jackson, Ed Walsh, Babe Ruth, George Sisler, Rogers Hornsby and Hans Wagner. It would be something to look at—especially for those who carry memories of other baseball days.

Or suppose you could put on a series of fights that knew such names as Jim Corbett, Bob Fitzsimmons, John Lawrence Sullivan, Jim Jeffries, Jack Dempsey, Gene Tunney and Joe Louis. That, also, would be something to see.

In a way, after this fashion, the Hale America open golf show in Chicago, for war fund purposes, was the closest approach anyone could make along the lines of past and present stardom when it comes to a matter of past color and skill, hooked up with modern ability to wreck par.

Turning Back the Clock

When it comes to turning back the clock in Chicago's golf ensemble we can give you Chick Evans, an ex-caddie from the Edgewater G. C. in Chicago, who was a star golfer 35 years ago—and who is still good.

We could give you Francis Ouimet, another ex-caddie who at the age of 20, turned back Harry Vardon and Ted Ray 29 years ago at Brookline in Massachusetts. And he is still good.

Or we can give you Walter Hagen who threatened at Brookline in 1913, and came along to win the U. S. Open in 1914 at Midlothian, Chicago.

Or Bobby Jones who starred at Merion in 1916, only 28 years ago, at the age of 14.

Or Gene Sarazen, who at the age of 20, won the U. S. Open at Skokie, another Chicago course, in 1922—a mere lapse of 20 years.

And don't think that Jones and Sarazen can't break 70 today.

Hagen, Jones, and Sarazen together have won something like 30 national and international championships. Jones and Hagen have been the two great golfers of all times and when it comes to the combined check-up of skill and color Sarazen isn't far away. Harry Vardon had his full share of skill, but not the color that goes with the three we have named.

The Modern Group

No one could expect Cobb, Ruth, Speaker, Young, Lajoie, Sisler or Hornsby to compete with the present day crop—Ted Williams, Joe Gordon, Bobby Doerr, Joe DiMaggio, Pete Reiser, Terry Moore, and others.

So no one could expect Jones, Hagen, Sarazen and other old-timers to match scoring swings with Byron Nelson, Ben Hogan, Sammy Snead or Craig Wood.

But this is one outstanding feature of golf. The old-timers, here and there still will play holes and shots as brilliantly as any Nelson, Hogan or Snead can produce.

They no longer have the physical or the concentrative stamina to hook up shot after shot through 72 holes. This means a twelve or a fourteen-hour grind, where there is no let-up on nerve pressure—where only those who have battled from coast to coast, week after week through many months, are well enough seasoned to go the route. But these old-timers still can play all the shots any of the modern crop can produce.

The only trouble is that they can't link them together, stroke after stroke, and hole after hole. It is the linking process that counts. Even 20-handicap golfers have made holes in one, or hammered brassie shots dead against the pin.

So it would be foolish to expect any member from the Old Guard to keep on the heels of a Nelson, Hogan or Snead, to mention only three members from the modern group.

Jones and Sarazen might—in an 18-hole test. But not over the 72-hole route, where concentration and nerves begin to disintegrate and fall apart, and the old urge fades out—not overlooking a little matter known as youth—competitive youth.

For all that, the golfers hang on the longest. They still can stick around when the others are merely records covered with dust.

A Faster Pace

There isn't any debating the fact that modern golfers have set a faster pace than old-timers could offer. Their game is more standardized—a 270-yard drive and then a wallop for the pin.

But I still think they lack the variety of shots old-timers could play—the half and three-quarter iron, for example.

The dynamiter or blaster of the modern crop has made a big difference in bunker play. You also can call it the "wedge."

Dean Cooper Deplores Land Price Inflation

A statement deploring inflation in land prices has been issued by Dean Thomas P. Cooper of the Kentucky Agricultural Experiment Station.

Questions are constantly arising about land prices and whether they are responding to inflation, Dean Cooper said. Land is in strong demand, is selling rather steadily and prices have risen considerably in the past two years, he added.

The two principal classes of buyers listed by Dean Cooper are farmers who purchase adjoining land, and the city and town persons who buy land as a place to invest surplus funds. Many farmers buying land are placing themselves in a position to farm more efficiently, he believed.

"Great inflation in farm land prices is undesirable," Dean Cooper declared. "Persons who remember the last war readily understand the difficulties that inflation brings."

Farmers and others thinking about speculating in land might ponder a report which the Kentucky Agricultural Experiment Station made of the land boom in Central Kentucky after World War I. Approximately 7,000 farm sales were recorded in seven counties, and in 1920 alone nearly a fifth of all farms in these counties changed hands.

Here is what the Experiment Station report says about 167 transactions studied: "For the 167 purchases the average net worth at the time of the purchase during 1918 to 1922 was \$18,179. Their average loss on the farm land during this period was 62.9 per cent of the new worth, or \$11,440."

The report says that many farmers who plunged in land did not have enough money to live on after they paid the interest on the mortgages.

It is also pointed out that losses among farmers during the boom were not confined to land. There were "unsuccessful investments in village and city real estate and in stocks. Some farmers lost money in oil development companies."

MORE AND MORE War reaches for the Telephone -

IN PEACETIME, the more Long Distance calls you make, the better we like it. But today our ambition is to get all essential calls through fast. Yet the war has choked the wires with messages so that often we have busy circuits. When that happens, it will help if you will cancel your call altogether, if it isn't really important. If you can't do that, the operator will say, "Please limit your call to 5 minutes."

1500 "FORTS" FOR TOKYO AND BERLIN!

THE next time you pay your electric bill, remember: A large part of that money goes to blast the Axis!

Yes, over 15c of every dollar you turn over to us, we turn over to the federal government as taxes. In terms of the entire industry, that's over 400 million dollars—enough to buy more than 1500 giant bombers—at a quarter-million each.

And that's not all! Over 8c per dollar in addition goes to local and state governments—for your schools, roads, police and fire protection.

Altogether, from every dollar you pay us, we pass along at least 24c as taxes. And we do it willingly—in the face of higher costs and lower prices. Since no other electric power is federally taxed, we are often asked: "How can you manage?" Well, by business management—which means: efficiency—economy—careful planning!

Trouble for the New Governor?

THE Courier-Journal's Howard Henderson, an honest and able commentator on the Kentucky political scene, predicts that there will be no surcease from politics in the state as a result of the election of Simeon S. Willis, a Republican, to the Governorship.

Mr. Henderson predicts that the new Governor will be quartered and drawn between the Republican and Democratic forces of the state—the Republicans pulling him in the direction which would mean the wholesale firing of every state employe who happens to be a Democrat and the hiring of a Republican in his stead, regardless of merit as a public servant; the Democrats in the General Assembly retaliating with "ripper" measures to divest him of the rightful powers of a Governor.

If THE TIMES could but know that Willis upon entering the Governor's mansion will strive, and be permitted, to keep his pre-election promises, it would look upon the political future in Kentucky with more optimism than does Mr. Henderson.

If Willis, as Governor, tears down only the machine which he inveighed against and which Democrats voted against to the extent of electing him, and does not then turn his hand to building another machine under another banner, surely there will be enough Republicans and Democrats who respect their state and its people enough to go along with him in the honest administration of the state's highest office.

Judge Willis has promised a decentralization of the political power that lies in the State Highway Department by abolishing the office of highway commissioner and the advisory commission-

ers, replacing them with commissioners of equal power, one for each Congressional district, and has also promised that administration of the rural highway fund will be placed in the hands of County Judges and fiscal courts of the state's 120 counties. To that extent, the machine will be weakened.

There should not be a repetition of the Sampson administration when both parties conspired to make Frankfort a political bedlam and the state a political victim.

THE TIMES is told that neither of Floyd county's two Representatives nor the district's Senator plans to join any "ripper" action out of pure political mischief as members of the majority party in the General Assembly. They would be very unwise to do so, unless the Governor reveals himself a rank partisan incapable of treating Kentuckians as such, regardless of party affiliations. They and the Governor and every other elected official have a duty to perform in behalf of their state and their people at a time when politics for politics' sake is far from the trademark of the patriot.

Mr. Henderson predicts that there either will be a hegira from Frankfort—the Democratic appointees to whatever position, great or small, qualified or unqualified, on the move—after Willis takes office; or, else, there will be a mighty hullabaloo from the Republicans. Mr. Henderson may be right. Time will tell. Time will disclose if the Republican party is too greedy for the government of even one state.

Whatever the demands on Willis, his aim should not be to wreak vengeance on women and men who are competent to serve, though Democrats. His task will be to fend off the importunities of those Republicans who see the Governorship in his hands the *deus ex machina* of the Republican party, a machine to destroy all Democrats and all employes of the Democratic administration.

If the Governor-elect, once Governor, can or will remove only those parts of the machine which made it such, and with a firm hand squelch the making of the old machine's prototype under a new name—then, surely, he will have gone a long way toward forestalling all opposition for purely political reasons.

deep, but to find out if most of them are yellow, and that our friend was mostly right, there's only one way to settle the matter, and that's to skin them all. We intend to prove our friend was not lying. Just one other thing there is that the good old Floyd county boys have the upper hand on in the army, navy and marine corps, and that is shooting fast and straight, an art that stands them in good stead on many fields of today's battles. Most of them spend their spare time shooting craps, when there isn't anything else to shoot. Of course, shooting craps is a swell pastime—if you're lucky.

We depend almost entirely on letters from home for our home news, and receive very few magazines and papers on this end, due to the complications war has caused in our mail routes. The few FLOYD COUNTY TIMES I have received in this area, and the ones the other boys have received, tell us more of the things we want to know about than all other magazines and newspapers combined. We really treasure our copies of THE TIMES. We will say, thanks again to all our people for everything, and will do all we can to win the war and return just as quickly as possible.

Theo Ray, of Allen county, cut two tons of soybean hay to the acre from 65 acres and sold it for \$30 a ton.

Accompanied by their advisor, Eugene Stanley, the Chapter Meeting Team of the Betsy Layne Chapter, Future Farmers of America, visited the Betsy F.F.A. chapter November 5 and presented a chapel program for the student body of Betsy high school. Members of the team who made the trip were: Gerald Roberts, Glenn Layne, Ambers Roop, Jr., Morris Newsome, James Clark, Orris Alley, McKinley Hunter, Sammie Thacker, Hershel Martin, Lon Edward Roberts, Ray Calvin Davis, Fred Newsome, Max Akers.

The following program was presented: Official opening ceremony; procedure; baritone solo—Lon Edward Roberts; trombone solo—Gerald Roberts; piano solo—Glenn Layne; instrumental duet—Gerald Roberts and Lon Edward Roberts; special music—F.F.A. quartet; official closing ceremony.

Benjamin W. Porter Rites Held Nov. 14 In Martin County

Funeral rites for Benjamin Wells Porter, 73 years old, well-known Paintsville man, and father of Paul and Miss Mabel Porter, both of whom are well known here, were conducted Nov. 14 near Inez, the Rev. Guy Coffman, pastor of the Paintsville Methodist Church, officiating.

Mr. Porter died Nov. 13 at his Paintsville home, three weeks after suffering a heart attack. He was a son of Solomon Porter, of this county, and of Mrs. Sarah Wells Porter, of Johnson county.

Until 1910 he was a teacher, and later was a salesman through this section, a position he held until ill health forced his retirement a few years ago.

Mr. Porter also was well-known for his inventive turn of mind and several of his inventions were patented. He was a member of the Federal Bureau of Inventors, the Chartered Institute of Inventors, the Order of Odd Fellows and the United Commercial Travelers.

An accomplished musician, much of his time during his retirement was spent in the making of musical instruments. He was a devout Christian and was active in the civic affairs of his county and community. He leaves his widow, Mrs. Frances Preston Porter, two sons and one daughter; Paul, James Frank and Mabel Louise; also one step-daughter, Mrs. Virginia Preston Robinson.

Well-Known Woman Succumbs at Emma In Her 86th Year

Mrs. Minerva Weddington, 85 years old, widow of Harry Weddington, Sr., prominent Floyd county man, died Friday evening at her home at Emma, victim of an illness of three weeks. Death was ascribed to illness attendant upon advanced age.

A member of the Methodist Church since the age of 19, Mrs. Weddington was one of the county's best women. She was a daughter of the late James Johnson and Mrs. Catherine Cecil Johnson, pioneer residents of the Prater Creek section of the county.

Surviving are two sons and two daughters: Mrs. Lee Martin, Wayland; Miss Bertha Weddington, Harry Weddington and Jake Weddington, all of Emma. One brother, Willie Johnson, of Banner, also survives.

Funeral rites for Mrs. Weddington were conducted Sunday from the Methodist Church at Emma, the Revs. C. L. Neff, James Roark, Isaac Stratton and J. W. Laferty officiating. Burial, under direction of the Arnold Funeral Home, was made in the family cemetery.

All But One Boy of 14 In Graduating Class In Armed Services

Thirteen of the 14 boys who were graduated from Wayland high school in 1940 are now in the armed forces—and an automobile tragedy prevented the 14th male member of the class from entering the service.

The "missing" classmate is Maurice Cleveland, who was killed in a car-wreck shortly after having been graduated. His classmates in service are:

Clovern Vernon, Jr., Denver Robertson, Freddie Terry, Glenn Fannin, Daniel Hicks, Jr., Herman Harmon, Mervil W. Dixon, Glenn Harold Hall and James Ray Wallace, all of the army; Ernest Adams, Forrest Oney and Carson Caudill, of the navy; Edsall Vanderpool, of the marines.

FLOYD COUNTY GOES TO WAR

Where Floyd Countians in Armed Forces Are, What They're Doing

Two hundred "brand new" ensigns were graduated from the Maritime Service Officers School, Alameda, Calif., this week, prepared to help sail the new merchant ships now sliding down the ways at the rate of five a day.

After passing examinations for their licenses, the new officers received their graduation certificates from Commander A. G. Ford, USNR. In order to qualify for entrance the men had at least fourteen months of sea experience. They will ship out as third mates or third assistant engineers in the merchant marine. Included in the graduating class was Arlie E. Hayes, of Hi-Hat.

Bluejacket Clyde Burton Burchett, 21, son of Mr. and Mrs. Tom W. Burchett, Prestonsburg, won recognition as a "qualified striker" for the rate of electrician's mate, third class, in recent graduation exercises held for the service school at the Naval Training Station, Great Lakes, Illinois.

Selected for this specialized training on the basis of his recruit training aptitude test scores the newly graduated man has undergone several weeks of intensive study preparing for his new navy trade. Still higher promotion in the petty officer ratings awaits the newly graduated man after further experience at his new active duty assignment aboard a navy man-o-war or at a shore station.

A new recruit at the U.S. Naval Training Station, Great Lakes, Ill., is Ernest Gibson, 28, of Drift.

Sgt. Garnis Martin, 21, son of Mrs. Martha Martin, of Melvin, was recently graduated from the Wendover Aerial Gunnery and Fire Control School at Wendover Field, Utah, as radio operator and aerial gunner. During his six-weeks course at Wendover, he received basic training, daily drill, lived under combat conditions, received training in the firing and maintenance of machine guns and all theoretical and practical courses vital to aerial gunnery. He will now be assigned to a tactical unit and receive actual experience in combat.

Sgt. Martin was a basketball star during his four years at Wheelwright high school and played one year of football. After graduating from high school he was a riveter for the Inland Steel Company at Wheelwright.

Pvt. Marvin E. Ghee, son of Mrs. Tom Ghee, of Melvin, has been transferred from Ft. Benjamin Harrison, Ind., to 16th Armored Division, Camp Chaffee, Ark., for basic training.

T Sgt. W. Lee Roberts, 27, brother of Magistrate Dewey Roberts, has been awarded a medal as chief engineer on a B-17 bomber and having covered all territory on the European war front.

Willie Woodrow Allen, 22, fireman 2/c, son of Mrs. R. Allen, Northern, has completed basic training at the submarine school, Submarine Base, New London, Conn.

Fireman Allen will be entitled to wear the twin dolphin insignia of the submarine service after further experience aboard a submarine during which he must demonstrate to his commanding officer that he is fully qualified to carry out the duties of his rate. The insignia is regarded as a mark of distinction throughout the navy. Allen was graduated from Maytown high school, Langley, and has been in the navy a year and received initial training at Great Lakes, Ill.

New recruits at the U.S. Naval Training Station, Great Lakes, Ill., are three Floyd county men.

They are now receiving instruction in seamanship, military drill, and naval procedure. Soon they will be given a series of aptitude tests for determining whether they will be assigned to one of the navy's service schools, or to immediate active sea duty.

Upon completing their recruit training, these men will be home on a nine-day leave. They are: Thomas Lloyd Spradlin, 18, husband of Opal Jeanette Spradlin, Bonanza; Jackie C. Goodman, 17, son of Mr. and Mrs. Garland Goodman, West Prestonsburg; and Palmer Eugene Cole, 17, son of Mr. and Mrs. Noah Cole, Wheelwright.

After graduating at the head of his class from the Camp White (Ore.) Automotive School, April 10, last, and being recommended as an instructor, Cpl. Arvie M. Burchett, former Prestonsburg garage owner, was transferred to service in the southwest Pacific.

Mr. and Mrs. Willie Keathley, of Wellington, O., but formerly of Harold, have been notified by the Navy Department that their son, Clyde Keathley, S 2/c, who has been in navy training as aviation gunner is ill in the Wesley Memorial hospital, Chicago, Illinois.

REFFITT

The following from a newspaper published at the Maxton (N.C.) air base compliments Sgt. W. Elmer Bowe, formerly of Prestonsburg and Wayland:

We would like to pay tribute to Sgt. Wallace E. Bowe, genteel gentleman from "Kaintucky." Sgt. Bowe is barracks chief of Barracks 1508 and all the men under his supervision have only the highest praise for the sergeant.

They say: "Sergeant Bowe is like a mother to us. He looks after us and gives us advice and lectures on wine, women, song and other vices."

Pvt. Collie C. Hudson, husband of Mrs. Ruby Hudson, of Ligon, has been transferred from Ft. Benjamin Harrison, Ind., to Infantry RTC, Camp Wheeler, Ga., for basic training.

Cpl. Clyde Bond Stephens, son of Mr. and Mrs. Grover Stephens, of Hite, is now at Camp Stewart, Ga. where he is connected with an anti-aircraft unit.

In a recent letter to his cousin, Mrs. G. L. Gray, of Allen, Pfc. Leo Laferty writes:

"I am somewhere in Italy well and having a fine time. The people are all right here, I guess, but their customs are different from ours, which makes it rather odd. But I would love to have a big mess of home-made sausage and hot biscuits." Pfc. Laferty is a graduate of Pikeville College and is the son of Mr. and Mrs. Floyd Laferty, of Sloan. He entered the service in February, 1942, received his training in Florida, has been overseas for several months. A veteran of three campaigns in the Mediterranean area—North Africa, Sicily and Italy—he is with the signal corps. His brother, Pfc. Woodrow Laferty, entered the service September 29, 1942 and when last heard from, several weeks ago, was at a port of embarkation in California.

Farm Hog Slaughter Restrictions Removed

Removing all restrictions covering farm slaughter of hogs, effective Nov. 17 and continuing for a 90-day period, was hailed this week as good news for hog producers in Kentucky.

This means, according to D. K. Young, state FDA supervisor, that producers are permitted to kill for their own use or for sale or transfer to others all the hogs they are able to handle during the next three months. No license or permit is required, and the previous 400-pound limitation per producer is also lifted. This, Mr. Young said, applies only to hogs and not to other livestock, and requirements of OPA with respect to observances of meat price ceilings and collection of ration points in exchange for meat delivered will remain unchanged.

As a result of this new ruling, the volume of home slaughter in Kentucky will probably be the largest on record, thus taking some of the pressure off commercial slaughterers. The supply of hogs to be processed this fall is larger than packers can handle without carefully planned marketing, but it is expected that increased farm slaughter will help to relieve the situation.

Floyd Mound Star Suffers Eye Injury, Brother's Foot Broken

Ray Patton, pitching mainstay during the 1943 baseball season of the Roanoke, Va., team of the Piedmont league, suffered eye injuries recently while working in the Elk Horn Coal Corporation's mines at Wayland. He has returned to his home at Estill after receiving treatment at a Hazard hospital. It was not learned if Patton's vision will be impaired to a degree affecting his effectiveness as a pitcher. For Roanoke this year he won 27 games. He is the baseball property of the Louisville Colonels. Saturday, his brother, Morton Patton, sustained a broken foot while working for the same coal company. They are sons of Mr. and Mrs. Oscar Patton, of Estill. One hundred and twelve Martin county farmers went to Maine to pick potatoes or to Massachusetts to pick cranberries. A profit of \$178 on 143 hens in seven months, is reported by Mrs. Owen Cassidy, of Metcalfe county. BONDS BUY BOMBS, BUDDY!

LETTERS TO THE EDITOR

HOW "THE BOYS" FEEL ABOUT IT

We who have been gone over a period of years, months or days all think clearly of old Floyd county and the homes we all love. I'm sure, speaking for all, that there isn't a single place on this universe that could take the place of, or mean the same to any one of us, as our own native state, and never a comparison with our country.

In time of our bitterest hatred, battles, storms and depressions, marching across hot deserts or through dense jungles, intense with heat, dampness, and sometimes contagion, with raging fevers, fighting through mud and blood-filled trenches, or again on the high seas, around the equatorial waters in the combat zone, our boys take a terrific beating from the direct rays of the broiling sun, but never from any other source. Their fighting spirit is second to none, and many, many of their valorous deeds will never be known to the public. They fight with thoughts of home, friends and families uppermost in their minds, always looking forward into the future, when once again they will return to the peoples who are part of themselves, matching future against present in battle, and always future stretches far ahead to conquer time in conquest.

We hope and pray that we can soon see the end of this war and return to help build up something new and better, to put our time and energy into something besides destruction, to help erect grounds for future happiness instead of tearing them down. We want to see Floyd county an example, or a goal, for other surrounding counties to reach for, not only as good, but better. Of course we already think it's far better than most, but it still doesn't have nearly all the things it should have.

We want most of all to see our people happy and contented, not to wear only the smile of their profession, or because the occasion calls for one, but all pure ones from the very bottom of their beings—happy ones that aren't forced.

We also want to take this occasion to thank all the good people of Floyd county for their zealous enthusiasm in buying defense Bonds, their scrap metal drives, and everything they have contributed to help win this war, but we are awfully sorry that they have to give up any of the things they need. We would like very much for them to have their gasoline back, because the whole of the county was always at its best driving around visiting friends, going to motion picture shows, ball games, or just driving for fun. I really can't imagine some of the boys there doing without gasoline. We deeply appreciate the things they are doing for us but we wish it wasn't so much, because we often wonder if we deserve even half so much of the attention you are all giving to us. We wonder if our mortal beings can live up to the positions in which you have placed us, and if we can repay you in the worldwide conflict for democracy. We will try, though, our very hard.

Goodbye, and always love.

NOLAN

This letter was written about one month after the attack on Pearl Harbor, and that day we were transferred, I to my ship and he to the U.S.S. Houston. Just a short time later the Houston was sunk, and I still don't know whether he was among the survivors or went down with his ship. I do know that he was awfully nice, and one of my best friends. I'm sure that his father and all the people of Floyd county and the whole United States must be very proud of him.

Another Floyd county boy once told me that all Japs were yellow. We have come to the old conclusion, since then, that beauty is only skin

ONE-FOURTH MILE FROM MOUTH OF COW CREEK, ON GOOD ROAD

RAY HOWARD, Owner

Say it with DEEDS ...not words

WE IN AMERICA have a lot to be thankful for this year. This is the one great nation that has not been laid waste by war.

Our boys are fighting in the jungles of the South Seas and in the villages of Italy that our own Main Streets may not become battle fields. By their sacrifices they have held the warfront thousands of miles beyond our shoreline. They deserve our deepest gratitude—a gratitude we should express in work rather than in words.

Let's back up these fighting men in a very practical way. Today there is a great shortage of pulpwood. Pulpwood has a thousand-and-one war uses—from explosives to shipping containers.

And since this is a pulpwood-cutting community, we have been asked to cut an extra cord of pulpwood in honor of every local boy in service.

This is a small thing to ask of us—small in comparison with what our boys are doing. One extra cord for every boy who went to war from the pulpwood areas will be enough to meet the present shortage.

So let's resolve to meet our quota—and make sure that no boy dies because we failed.

From where I sit...

by Joe Marsh

Been hearing a lot about the Civil Air Patrol lately. A lot of fellows—and girls, too—helping out in the war here at home, flying the army's errands.

Many of 'em fly their own plane and they all pay their own expenses. What they're doing is mighty important, seems to me.

Saw one bucking a strong headwind in a storm here a while back. Gave me a thrill to watch that little plane scudding through on its war work.

Real patriots, cooperating like that together, is what wins.

Joe Marsh

And talking about cooperation, it looks to me like Kentucky brewers are doing a mighty fine job, through the Army and Navy Cooperation Program of the Brewing Industry Foundation.

They're seeing to it that every licensed retail beer dealer near a military camp maintains the highest standards of operation.

From where I sit, the military authorities have every right to their enthusiasm over the brewers' cooperation program.

PRIVATE PURKEY IN LOVE AND WAR

Dear Ma— There is not much to write about and anyhow even if there was the top sarge wood not give me time enough to write about it. I am well and feel stronger than ever with puzzles me on account of if I did half as much work when I was in civilian life I would be a fizical wreck long ago. I gess it must be that a jeep goes on doing whats asked of him in the army knowing it won't do him no good to kick and he knows he wood get no sympathy if he got run down.

I see where we declared war on the Balkan states Bulgaria, Rumania and Hungaria. When it first come over the radio that we declared war on three states extra it sort of jarred me on account of we was already fighting so many states that I am always one or two states behind. But when I found out it was only Bulgaria, Rumania and Hungaria I felt easier. I got no friends in none of them and the only Hungarian I knew played in a orchestra witch was pretty bad. Everybody is in the war now so a few more do not make no difference I gess.

Well, mom, do not worry about me as from all I hear it is softer being here in the army than being a plain civilian. The situation back home is very heartbreking to me. New York and a lot of other cities is so dark nights it is more lonesome going out after dark than it would be to stay home.

Gas is going to be harder than ever to get, the government is talking about taking tires away from everybody, all parking lots at the beaches have been closed at night and there is talk of forbidding bus travel except on business, so it is just a laugh now when anybody talks about keeping out of the army so he can do as he pleases.

Gosh, mom, I gess you and pop take more orders right now in a day than I get in the army in a week. All people in civilian life have got on me is that they don't have to peel potatoes. The radio keeps talking about ceiling troubles back home and I still hope nothing has happened to your ceiling yet, although you did not answer my last letter about it.

I hope you are all fixed on priorities also whatever they are. Everybody seems to be having them. Sergeant Mooney says I need not worry about having them as I had them when I was a boy.

John Bennett is in my outfit and he is always good for a laugh. He says he just ran across the most cookoo jeep in the army. He says he saw him with a homemade fly trap catching flies. At first he thought he was just nuts but when he seen him doing it four days in a row he demanded a explanation and found the nitwit was catching them to feed a pet frog which he keeps in his tent as a mascot.

It takes all kinds of men to make a army but this is the first time I knew it also took a fly trap and a frog. Well this will have to be all. I get pretty homesick at times of coarse, mom, and I wish I could get back to see you and pop often but on the other hand I don't gess I could stand life back in a city with so many restrictshuns and with everybody giving orders about one thing and another.

Your loving son, Oscar. "Petain Deplores Rising Discontent."—Headline. And how the rising discontent must deplore Petain!

WE CAN'T BELIEVE IT According to reports I'm hearing, The motor car is disappearing. About the change I'm in the dark... Just try to find a place to park! —Merrill Chilcote.

IS IT JUST IN FUN? With all the bulletins, warnings, radio talks, etc., being made to save tires and gas by slow driving, one has only to stand on almost any open road in America to see that thousands of drivers are brazenly ignoring the whole matter. This driver should be put well near the top of Fifth Columnists, and, what's more, the police are almost as guilty in their lackadaisical attitude about him.

Allen Baptist Church sent to the state Baptist Sunday School convention at Harrodsburg, Tuesday and Wednesday, as representatives the pastor, Rev. J. S. Rose and Miss Annie Allen, superintendent of Vacation Bible Schools.

Saturday at 2 p. m. in the Allen Baptist Church the G. A. 's will meet with their leader, Mildred Short, and at the same hour the Sunbeams will meet with their leader, Kathryn Grace Porter.

Rev. J. S. Rose, pastor of the Allen Baptist Church, returned Friday from Bowling Green, Ky. He reported a splendid meeting of Kentucky Baptists in the First Baptist Church, Bowling Green, Nov. 16-18.

Thursday afternoon (Thanksgiving Day) at 2 o'clock the two Intermediate classes of the Allen Baptist Church (girls, taught by Mrs. Goldia Short, boys, taught by Clarence Sal-

yers) will meet in the church for a service of prayer, praise and thanksgiving, led by Mrs. Short.

The Woman's Missionary Society of Allen Baptist Church met Friday, Nov. 19, in the pastor's home where they completed the Mission Study class, begun earlier in the week in the study of the book, "More Than Conquerors." Friday evening the closing chapters of this study class were taught by Mrs. J. S. Rose and Mrs. Goldia Short.

The Allen woman's Missionary Society is making preparation for the observance, Nov. 29-Dec. 3, of the Foreign Mission Week of Prayer. The seasons of prayer each evening will be held in the Baptist Church.

Ky. Grand Champion Calf Is an Angus

The grand champion calf at the annual Kentucky fat cattle show was an Angus shown by Tony Coganougher, Washington county 4-H club boy. The Garrard county 4-H club exhibited the grand champion carload.

Prices were among the best ever paid in the 22 years of the Kentucky show. The grand champion calf brought 71 cents a pound and the grand champion carload sold for 22 cents a pound.

The champion Hereford calf at the Kentucky show has been entered in the show to be held in Chicago Nov. 29-Dec. 2. He was exhibited at Louisville by J. W. Seltam, Boyle county 4-H club boy, and sold to the Danville frozen food locker company for 51 cents a pound.

Francis Seltam, brother of J. W. Seltam, owned the best Shorthorn calf in the 4-H club show, and R. L. Rankin, Jr., of Garrard county, won first prize in the ring for calves raised by 4-H club members. Jeanette Warren, of Taylor county, had the best record book.

In the division of the state show for Utopia club members, or older farm boys and girls, Miss Aleta Roberts, of Wayne county, had the best carload and the best calf from a carload. Best single calf from a county carload of Utopia calves belonged to Lewis Mercer of Wayne county. Cumberland county furnished the best five Utopia club calves from a county not showing a carload.

Floyd County's Honor Roll

(Both boards bearing the names of those service men on the Floyd county "Honor Roll" are nearing completion here. The names appearing thereon are taken from the records of the county's two draft boards, but there are many who volunteered from this county whose names have not been listed with the draft boards.

So that parents and other relatives of service men may know the names of those listed by the two draft boards, and so that they may supply missing names, the list of names accredited to the local boards are published. Names of service men not listed here, as they are published weekly in a group from the several communities of the county, should immediately be supplied to Mr. F. C. Hall, Prestonsburg, Ky. Those given dishonorable discharges should not be listed.—Editor.)

scribed by Floyd citizens for every Floyd countian in the armed services.

"We want to give our blood, it belongs in this fight our own boys are waging for us all," a representative of the DAR said. "But, because of the fact that we are isolated from blood plasma centers and are too far from them for mobile units to reach us, we hope to do the next best thing—send our money so that the work of collecting the lifesaving plasma will not halt for one moment."

Not only doctors and surgeons with the armed forces but also every man who has ever suffered the shock of a wound from bullet or bomb fragment or shrapnel attest to the life-giving qualities of blood plasma. Through its use, the death rate from shock and loss of blood has been reduced to less than two per cent.

Joe P. Tackett started off the drive here with a \$1 contribution for each of his three sons in the service. Mine local union heads at every coal operation in the county will be asked to call on their fellow-workers to aid the movement. Every citizen in the county is being called upon for a contribution. "If we all do our part, we can easily reach a total of \$5,000," Mrs. Winnie F. Johns, of the DAR committee, said Tuesday.

Individual contributions from outside Prestonsburg should be sent to Mrs. Evelyn J. Salisbury, treasurer, Daughters of the American Revolution, Prestonsburg. Here in Prestonsburg, contributions may be dropped into containers to be placed in the bus station, Thompson's restaurant, Hutspiller and Hughes drug stores, and the three liquor stores.

The DAR blood plasma committee is composed of Mrs. Johns, Mrs. E. S. Moles, Mrs. O. T. Stephens, Miss Frances Jones, Mrs. H. G. Salisbury, Mrs. E. P. Arnold, Mrs. Osa P. Ligon, Mrs. Joe Hobson, Mrs. C. P. Stephens, Mrs. M. J. Leete, Mrs. Tom James, Mrs. Grace D. Ford, Mrs. Gwynn Ford.

ed, but always with the torturing elements above, tortuous earth underfoot and the diabolic enemy all about giving them, literally, totalitarian hell.

It's "awful" for some folks, ain't it?

THE BOYS ARE BEING GYPED

On the whole, I'm not the sort who craves publicity. But, now in my forties, I do wish I could haul out some newspaper clippings to prove there was a day, "way back when" I could run and throw and field. But our neighborhood correspondent to the "home" newspaper seems to have overlooked me and my gang and so now, when one of my youngsters laps the field on me, I can only puff something about if I could call back fifteen years or so.

Folks who have seen my few latter-day performances on the soft-ball field would never believe the clippings, anyhow, but children, you know, are gullible as well as impressionable.

I shall probably be able to carry on out without my clippings to prove I once was light of foot and could heft a bat as well as the next youngster. But, in all seriousness, I do think the youngster in school who is denied the privilege of participating in athletics, of tasting victory, even defeat, and of having his exploits and those of his team recorded to become a matter of local history is missing a lot.

The 1943 44 crop of youngsters, some of these days, are going to find it increasingly hard to run fast, to throw hard and accurately. When that time comes, they will quite naturally want something more than their own solitary memories of "the days 'way back when."

Prestonsburg high school is failing the present bunch of boys who want to represent their school in athletic competition with other schools. The boys are a determined lot, they love to play, thrill to competition. But they shouldn't have to go along without a coach while other schools have coaches; they shouldn't have to go out and scrape up enough gas rationing for transportation to a neighboring town. They deserve encouragement.

Many of these boys, if the war goes on, will soon leave for the stern school of the Survival of the Fittest. They should have this one last, good, clean "fling" while yet in school.

LEST WE FORGET

Floyd county has a population of more than 50,000 persons. Of Floyd county has been asked a mere \$12,800 as its contribution to the Kentucky War Fund—\$12,800 which will be spent for the aid and comfort of hapless American fighting men

and civilians caught in the prison camps of the enemy, those on foreign fighting fronts, service men far from home. To subscribe that amount, each of us would be required to contribute no more than 25 cents each.

The miners have already voted an assessment per worker of \$1 and they are wanting to know what the rest of us will do. THE TIMES is ashamed to tell the miners what the rest of us have not done. The quota, despite the miners' help of \$1 per miner, is yet only around 50 per cent raised, according to J. D. Harkins, Sr., chairman of the drive in this county.

We are sadly derelict in this duty we all owe to those who have done their utmost to help us and our country. The following tells the story of "The Widow's Mite" in a county not half so rich as Floyd. At the same time, it points the way to greater effort toward raising the money we are expected to, should and must raise:

"The Clay county War Fund auction at Manchester Nov. 6, was in progress. A mother pushed her way through the crowd. She had lost

her son at Pearl Harbor and stood weeping near the truck where the auction for the War Fund was taking place.

"Here, Mr. Chairman, is my \$5. I want you to take it."

"There was a lull, and then spontaneous bidding took place and every product was sold.

"A home-town boy, Robert E. Chel, told the crowd what the USO had done for him in California. Another, who had served six months in Africa, had been wounded and returned home, told what the USO had meant to him. A closed amid cheers and handed the chairman \$25. A man who had bid \$25 on a can of lard shouted 'Fifty!'

"From there on I could not receive the bids fast enough to get them into my pockets," C. P. Ray reports. "There was a demonstration that the people of the county will never forget. No less eyes were to be seen. Thirty business places closed their doors for the sale."

Floyd county contributions should be sent to W. J. May, treasurer, Prestonsburg.
