SPEAKING OF AND FOR FLOYD COUNTY

SCHOOL BOND QUOTA IS \$300,000

SCHOOLS JOIN IN BOND SALES DURING SEPT.

Farmers To Assist In Sale of Bonds; Purchases, Slow

Floyd county's schools have set themselves the patriotic task of buying and selling \$300,000 worth of War Bonds during the Third War Bond drive now under way. County Superintendent Towns Hall announced after meeting Saturday at Allen with teachers and school employees.

The school quota is more than one-third the county's quota of \$893,100 for the entire drive.

"When we called on the teachers to back the scrap drive last year, they were enthusiastic, but enthusiasm of those attending Saturday's meeting was greater than at any other meeting of the kind we have ever held," Superintendent Hall said. Through organization of teachers and other school workers and committeemen named by County Agent S. L. Isbell from the ranks of farmers it is expected that every community in the county will have its chance to contribute toward over-subscribing the county's quota.

Partial reports received by W. P. Mayo, county War Bond chairman, indicated, however, that Bond sales are lagging to date in Floyd. "Only \$75,000 worth of Bonds have been bought during the drive, according to available reports," Mr. Mayo said. "If we are to uphold our reputation of never having failed to meet our Bond quota, we will have to buy more heavily and work harder than we have thus far."

County Superintendent Hall set a quota of \$500 per teacher for each of the county's rural schools. These, ranging up to five-teacher schools, will thus contribute to the total \$81,000 worth of Bonds if they meet their quotas.

Quotas of the larger schools follow, their Bond sales to be made to individuals, not to coal companies:

Harold, \$5,000; Betsy Layne, \$15,000; Allen, \$10,000; Prestonburg high school, \$15,000; Auxier, \$10,000; Martin, \$25,000; Maytown, Garrett and Weeksbury, \$15,000 each; Lackey, \$10,000; Wayland, \$25,000; Drift, \$10,000; McDowell, \$20,000; Wheelwright, \$25,000.

The Superintendent's office set for itself and its employes a quota of \$10,000, approximately half of which has already been subscribed or sold.

Shoe Report Is Due October 10, Board Says

The Floyd County War Price and Rationing Board said this week a shoe inventory report on all stock as of September 30 must be filed before October 10 with the Central Inventory Unit, Empire State Bldg., New York City.

Any dealer who failed to file a report on April 10 must still file a report on Form R-1701 and must attach that report to the report due October 10, which is R-1701A.

More rigid enforcement is promised in connection with shoe rationing and severe penalties can be imposed on those violating regulations, the rationing board spokesman said.

Sulphuric Acid Causes Death of Fish, Probe This Week Reveals

Fish found dead or dying in the river at the mouth of Middle Creek here are victims of sulphuric acid, Montaine V. Clarke, Floyd county sanitary inspector, and State Sanitary Engineer Reed said Wednesday after making tests of the water.

A wagon mine operation breakthrough into the old Beaver Pond mine has resulted in water poisoning to fish running into Middle Creek.

Middle Creek below the coal operation tested five points below the neutral standard of 7, and even four points below is poisonous to fish. Water in the river tested seven points on the alkaline side, the sulphuric acid from Middle Creek quickly dissipating its strength, once it has reached the Big Sandy.

Mrs. Parker Succumbs At Martin, Victim At 71 of Cancer

Mrs. Ida Ann Parker, well-known Martin woman, died at her home Thursday, last week, a victim at the age of 71 of cancer.

Widow of A. P. Parker, former C. & O. yardmaster and drug store owner at Martin, she came first to this county in 1921 with her husband. She was a member of the Christian Church. She was a native of Tennessee. Her husband died in 1934.

Surviving is one sister, Mrs. C. H. Carver, of Johnson City, Tenn. She also leaves one nephew and three nieces.

The funeral was conducted Saturday afternoon from the auditorium of Martin high school, the Rev. J. B. Hahn officiating, and burial was made under direction of the Ryan Funeral Home in the family cemetery near the Parker home.

Palbearers were R. R. Evans, Val Hatten, H. O. Wilson, Clyde Stapleton, E. M. Gillespie, D. P. Dingus, Demra Taylor and Frank Rasnick—all C. & O. employes.

COUNCIL MAY REPEAL ACT

Affecting Election Here as Herdman Doubts Legality

A member of the City Council here indicated this week that the recent ordinance providing for a non-partisan city election will be repealed.

This action, if taken, is an aftermath of Assistant Attorney General Guy H. Herdman's opinion which questioned legality of the ordinance. The ordinance, if upheld, would have voided the candidacy of a City Council ticket under the Democratic device. His opinion was in response to a letter from Alex H. Spradlin, secretary of the Floyd county Democratic executive committee.

Herdman wrote that under the state primary law Prestonsburg and other fourth-class cities are entitled to nominate party candidates for municipal offices in the primary. He added that Prestonsburg is not operating under a commission form of government, which would allow non-partisan primaries and elections.

Apparently the city acted under section 138.175, Kentucky Revised Statutes, which permits the city to adopt by ordinance the arrangement of a ballot for city offices, he said.

"This is a revolutionary statute if given a literal application," Herdman declared, adding that it would put all candidates in one column on the ballot.

"It is very questionable that this statute is constitutional," he continued, "as it destroys the uniformity of elections" provided for in the state constitution and "seems to delegate to councils legislative authority" which would practically annul the primary and Independent ticket laws.

Herdman advised Spradlin to bring suit in the candidates' names for an injunction requiring that their names be placed on the ballot under the Democratic party emblem, and let the courts settle the issue.

Vocational Shop Here To Re-Open Oct. 4

It was announced this week by officials of the Department of Education that the Vocational Shop here (formerly the NYA-Vocational Shop) will open on or about October 4. The shop will operate under the vocational training program for war production workers who are eligible for employment in war plants.

Decision to open the shop was reached at a meeting held in Lexington, Thursday and Friday.

Training will be offered in machine shop, electric welding, and acetylene welding. Fred Martin, local co-ordinator for the Vocational Training program, will be in charge of the shop. All persons who are at least 17 years old are eligible for enrollment. It was pointed out that under the vocational training program there will be no top-age limit. Any person up to approximately 60 years of age, man or woman, who is physically capable of doing anything toward the war effort will be accepted for training.

It was also pointed out by the State Department of Education that this shop is expected to be used in the rehabilitation training program for war veterans, also for the benefit of slightly handicapped persons who have been placed in 4-F. Any other person with a physical defect who can still do acceptable work will be given training.

When Miss Eleanor Harmon, 20, of Lancer, filed preliminary application here Tuesday for entrance into the WAVES, the family of Arch G. Harmon, World War I veteran, became 100 per cent of the war effort—every member either in active service or in a defense industry.

Mr. Harmon himself is a guard at Newport News, Va. His wife is in war work at Ypsilanti. Both of their sons are in the armed forces—Sgt. Woodrow Harmon, who volunteered three years ago, at Ft. Knox; Apprentice Petty Officer Archie Harmon, Jr., in the navy at Great Lakes, Illinois.

Mr. and Mrs. Harmon's son-in-law, Sgt. Bill Ward, is with the U.S. forces in India.

Another Floyd county girl to apply for enlistment in the WAVES while the navy mobile recruiting unit was here Tuesday was Miss Maxine Patton, of Martin.

HONOR ROLL FUND, \$582

Work Is Begun Here On Construction Of Signboards

One hundred four dollars had been contributed during the period, last Wednesday till Tuesday of this week, F. C. Hall, treasurer of the Floyd County Honor Roll fund, announced, and these new contributions brought the total funds available for work now under way to \$582.50.

One of the two big signboards in the courthouse grounds to bear the names of all Floyd service men and women was under construction this week and actual painting of names was begun Monday by E. F. Epling, contractor.

J. D. Martin, father of three sons and one daughter in the country's service, was the heaviest contributor of the week with \$20. Other contributors:

Buddy Bag Shipment Deadline, October 9; Floyd Quota Is 400

Mrs. Ruth Sowards, Floyd chairman of Buddy Bags for service men, announced this week that October 9 is the deadline for supplying this service to those in the armed forces.

Floyd county's quota is 450 bags. Wheelwright has accepted 200 of these as its quota, but the number to be filled by remainder of the county is far from being reached.

Buddy Bags, it was emphasized, are the only baggage permitted to members of the armed forces upon embarking for foreign service. The Red Cross supplies the bags; friends and relatives of the boys are asked to fill them, either by purchasing the items suggested or by sending the money to Mrs. Sowards here so that she can fill them.

The list of approved items for Buddy Bags include tan shoe polish, shoe strings, tooth brush, toothpaste or powder, Life Savers, soap rag, cigarettes, soap and soap boxes, writing paper, pencil, comb.

GAS FUTURE IN SECTION UNDIMMED

Despite Competition Seen from Texas, Van Gilst Says

Long-range effect on the Eastern Kentucky gas field of competition to be supplied as a result of the proposed 1,200-mile pipe line from Texas to the Appalachian area will be negligible, Peter C. Van Gilst, general manager, Kentucky West Virginia Gas Company, Ashland, predicted Wednesday.

Mr. Van Gilst's views of the future of Eastern Kentucky gas was sought by THE TIMES after off-the-record predictions here widely concurred in seeing the product of the huge Texas wells as invading this area to the destruction of the industry from a local standpoint.

"During the war the Texas gas will have no effect on this field," Mr. Van Gilst said, "for that gas will be making up for the shortage of gas over the Appalachian industrial area. Moreover, the Oriskany field in West Virginia is being depleted and will be unable to maintain former volume supplied the same area, unless the unpredictable happens."

Mr. Van Gilst admitted that the huge volume of Texas gas might, after the war, curtail development in this field, but described the curtailment as temporary. "There always will be a demand for the product of this field," he added.

Asked if there exists a possibility that the Texas gas, produced in huge volume, may not force prices downward, the Kentucky West Virginia executive admitted that this "might" result in prices being lowered but added that there is little worry on that score. "The gas will be sold to companies already in business and at prevailing prices," he said. "Moreover, it should be remembered that, though Texas gas in huge volume may be produced more cheaply than we can in this section, 1,200 miles of pipeline and

BODY FOUND IN BIG SANDY

Death of Mrs. Stanley Probed by Officials On Murder Theory

Authorities here are investigating the death of Mrs. Effie Jones Stanley, 40 years old, wife of J. E. Stanley, well-known Prestonsburg man, whose body was found floating in the Big Sandy river here early Tuesday morning.

Absence of any marks or violence and of water in the lungs were pointed to as indicative that she was neither murdered nor drowned. A coroner's jury held that she died of causes "unknown to us but we are of the opinion she was not drowned."

A man's hat found on the west side of the river, near where the body was discovered, led Chief of Police Ep Laferty and other local officers to investigate the case from the murder angle, however.

The body was found by Clarence Craft and Walter Wallen after they had "run" a trotline in the river, a short distance above the mouth of Town Branch. Mrs. Stanley had been dead only a few hours, it was said at the Arnold Funeral Home.

Dr. J. G. Archer expressed the opinion that she may have been the victim of a heart attack.

Mrs. Stanley is survived by her husband, who is employed at Newport News, Va.; her parents, Mr. and Mrs. Boss Jones, of Tram; two sons and three daughters; Robert H. Stanley, of the navy; Joe H., Ruth V., Velma and Doris Mae Stanley, all of Prestonsburg. She also leaves three brothers and two sisters: Howard Jones, of Tram; Bert Jones, Hardy, Ky.; Leonard Jones, Benton, Ky.; Mrs. Eva Miller, Betsy Layne; Mrs. Nell Epling, Tram.

The funeral will probably be held Friday afternoon at 2 o'clock at the P. M. Layne cemetery at Mare Creek, with burial under direction of the Arnold Funeral Home.

Floyd County Gunner Awarded Air Medal, War Dept. States

Just when his mother, Mrs. Helen Ring, of Wayland, had begun to fear the worst after not hearing in two months from her son, John W. Ring, a War Department release to the newspapers last week brought her the best kind of news.

Her son, gunner on a Liberator bomber based in India, had been awarded the Air Medal for meritorious achievement while participating in heavy aerial bombardment missions.

Ring, 30 years old, volunteered June 5, last year, as a paratrooper, later was transferred to a bomber as gunner. Ring also has been awarded another medal. "I'm picking up all kinds of medals," he wrote in his last letter to his mother. "One of them, believe it or not, is the Good Conduct Medal."

Uncle Sam Turns "THUMBS DOWN ON WASTE"

"CONSERVATION OF FUEL, MAN-POWER AND CRITICAL MATERIALS IS A 'MUST' IF WE ARE TO ACHIEVE THE MAXIMUM WAR PRODUCTION EVERY AMERICAN WANTS."

From a joint statement by Messrs. Ickes, Eastman and Nelson

YOUR Government through the War Production Board and other agencies asks for public cooperation in a voluntary program to conserve fuel, manpower and critical materials in order to achieve maximum production for war.

To accomplish this result, we are urged by the Government to ask all citizens to avoid waste of "coal, petroleum products, water, gas, electricity, transportation, and communications."

There is no shortage of electricity as such either for war needs or essential civilian use, but electricity is made largely from fuel and certain critical materials are required in connection with its production and use. As a result, electricity is indirectly involved in the program.

The War Production Board warns that no effort should be made to curtail uses of electricity necessary for public safety and health including eyesight conservation, plant protection, transportation, and production purposes.

The program applies to all electric customers, but more specifically to those who use electricity for commercial purposes. We are listing below the specific steps for voluntary conservation by commercial customers as recommended by the W.P.B.

Kentucky and West Virginia

BUY WAR BONDS!

From where I sit...

by Joe Marsh

One of the best-liked farmers in these parts is Bert Childers! And he has the best way of beatin' the man shortage, too.

Come husking time, Bert invites all of his farmer neighbors over to have a glass of beer. When they ask politely "Where's the beer?" Bert points to a bucket-full of frosty bottles in the middle of the field.

"All you got to do," he says, "is work your way out to it."

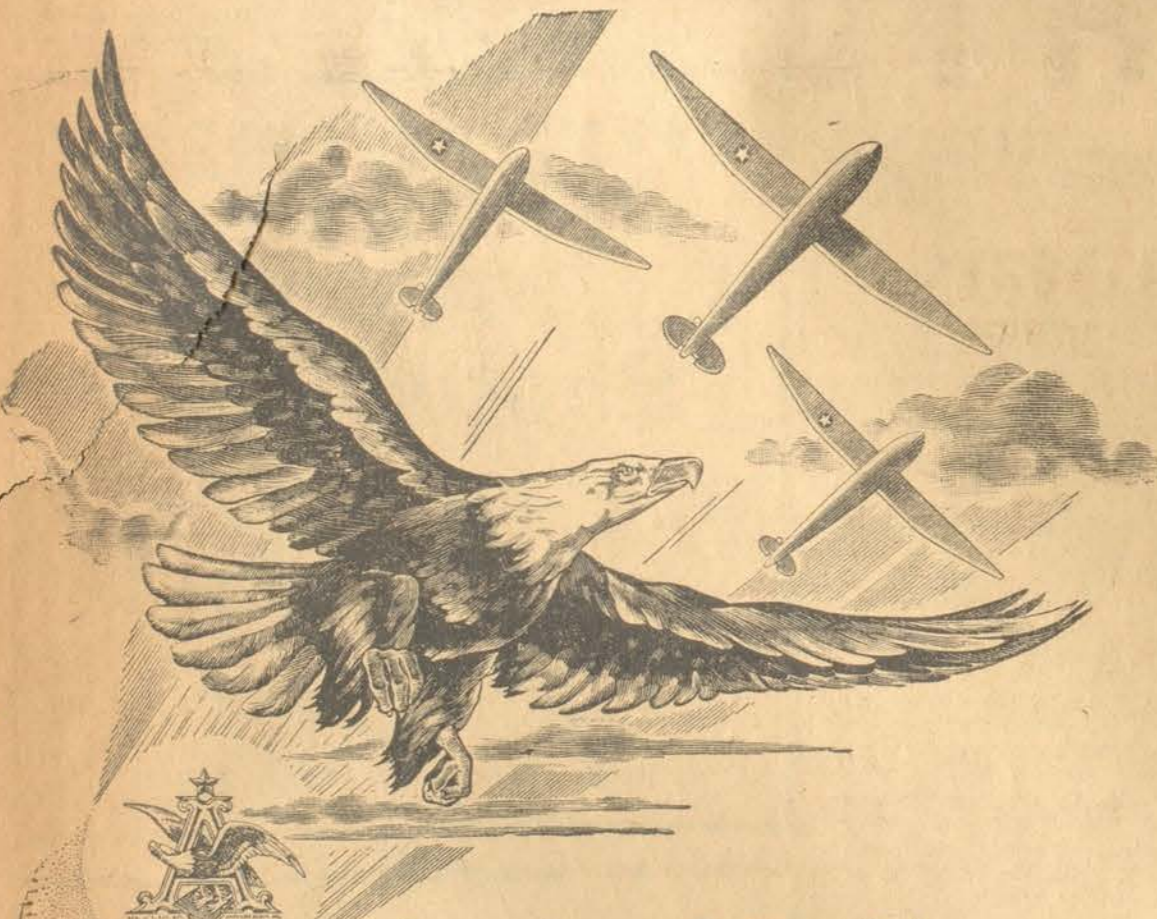

Well, Bert's idea has caught on all over the countryside.

Folks are pitching in to help their neighbors harvest grain, and fruit, and vegetables - and are taking their reward in sociability when the job's done.

And from where I sit, that's a mighty healthy picture of American life - people working together to get in the food this country needs - and afterwards, sittin' around like good friends, over a moderate glass of wholesome beer. I'm for it!

The 'A and Eagle' Has Learned to Fly

Impassable roads? Mountainous territory? An urgent need to move fighting men, supplies and even jeeps by air? Our armed forces have found the answer. It is one of the thrilling new developments of the war—the use of gliders, which are now being produced in imposing numbers.

Can skilled metal workers and cabinet makers turn quickly from manufacturing refrigeration equipment to making glider parts? Yes indeed!

Our Refrigeration Division volunteered long ago to help Uncle Sam build gliders. The shops that once made equipment for ice cream and frozen food dealers the country over were revamped completely and old and new workers trained for this important enterprise.

INCIDENTALLY, our Refrigeration Division was created many years ago as a result of experience gained in making millions of tons of ice to produce the world's most popular beer.

Budweiser

In addition to supplying the armed forces with glider parts, gun turret parts and foodstuffs, Anheuser-Busch produces materials which go into the manufacture of: Rubber • Aluminum Munitions • Medicines • B Complex Vitamins • Hospital Diets • Baby Foods • Bread and other Bakery products • Vitamin-fortified cattle feeds • Batteries • Paper • Soap and textiles—to name a few.

Don't Let His 'Pay Check' Go Astray...

While he's fighting "over there," Uncle Sam is making every effort to care for his family... by mailing them monthly allotment checks! You may expect your checks in the mail between the 1st and 10th of each calendar month, during the war and for 6 months after! Watch for them!

Be on hand when the postman is due! Be sure you endorse checks correctly! Bring them here for safe handling!

NOTICE

Notice is hereby given that I, by order of the board of trustees of the town of Martin, Floyd County, Kentucky, will at the door of the town hall of Martin, Floyd County, Kentucky, between the hours of 9:00 and 11:00 o'clock in the forenoon, on the 6th day of October, 1943, offer for sale to the highest and best bidder and receive bids for the right, privilege, franchise and authority to acquire, maintain, construct and operate in, above, under, across and along the streets, thoroughfares, alleys, bridges and public places (as the same now exist or may hereafter be laid out) of the town of Martin, Floyd County, Kentucky, lines, poles and equipment for the distribution of electric energy, either by means of overhead or underground conductors, with all the necessary or desirable appurtenances, for the purpose of supplying electric energy to said town and the inhabitants thereof, and persons or corporations beyond the limits thereof, for light, heat, power, and any other purpose or purposes for which electric energy is now or may hereafter be used, and for the transmission of the same within, through or across said town, subject to the following conditions, viz:

- (a) Said lines and appurtenances shall be constructed so as to interfere as little as possible with the traveling public in its use of the streets, thoroughfares, alleys, bridges and public places. The location of all poles or conduits shall be made under the supervision of the proper board or committee of the town government.
(b) The right, privilege and franchise shall be in full force and effect for a period of twenty (20) years from the date of the ordinance granting such franchise.
(c) The grantee of such franchise shall save the town harmless from any and all liability arising in any way from negligence in the erection, maintenance or operation of said lines and appurtenances.
(d) Whenever the grantee of this franchise shall begin the erection of any lines or other equipment, it shall promptly and diligently prosecute the work to completion and leave the streets, thoroughfares, alleys, bridges, and public places where such work is done in as good condition or repair as before such work was commenced.

This provision shall not apply to any person or corporation already owning in said municipality a plant and equipment sufficient to render the service required under the terms and provisions thereof. The town reserves the right to reject any and all bids. This 15th day of September, 1943. DENNIS MARTIN, Clerk Town of Martin, Ky.

(f) The grantee of such franchise may make such rules and regulations covering the furnishing of said electric energy as may be fair and reasonable and consistent with the standard practice of the grantee. Said grantee may charge such rates for electric service as shall be fair and reasonable. The said grantee shall render service under said franchise of like quality, that is, adequate, efficient and reasonable, to that now being rendered to said town. Every person or corporation, other than the present holder of the existing electric franchise in the town of Martin, that is to say, Kentucky and West Virginia Power Company, Incorporated, shall first deposit with the treasurer of the town of Martin, cash or certified check drawn on a bank of this Commonwealth, or on a national bank, in the amount of One Thousand Three Hundred Fifteen (\$1,315.00) Dollars, which is five (5 pct.) percentum of the estimated cost of the plant required to render the service, as estimated by the board of trustees from the value certified by the Kentucky State Department of Revenue, which check or cash in the sum of \$1,315.00 shall be forfeited to the town of Martin in case the bid should be accepted and such bidder making such deposit shall fail for thirty (30) days after the confirmation of the sale to pay the price bid, and to give a good and sufficient bond in a sum equal to one fourth of the fair estimated cost of the plant to be erected as aforesaid; and said bond shall be conditioned that it shall be enforceable in case the party giving it should fail within a reasonable time to establish a suitable plant for rendering the service and to begin rendering the service in the manner set forth, according to the terms and conditions thereof.

War Bonds should mean something more to you than just "a good sound investment." Figure it out yourself.

all the compressor stations necessary to get it to market pile up marketing costs which will pretty well even up the score."

Although newspaper reports stated the 1,200 mile pipeline construction proposed by the Tennessee Gas & Transmission Company will extend from Corpus Christi, Texas, to Ashland, it was learned here Wednesday that terminus of the line may not even be in the vicinity of Ashland, North central West Virginia was more exactly described as the eastern terminus, and from there the gas will be sent eastward and possibly northward to industrial plants.

All this discussion of gas futures in this section arose from this week's report to the effect that the War Production Board had approved the Tennessee Gas Company's application for permission to construct such a line. John E. Buckingham, Ashland, former Kentucky state treasurer, is an official of the company. Construction of the line is not expected to be completed till next year.

Although the WPB order of this week apparently had given the Tennessee Gas & Transmission Company the inside track on the market outlet for Texas gas, the Hope Natural Gas Company of West Virginia remained a factor in the \$50,000,000 venture. For the War Production Board Tuesday refused to dismiss Hope's application for permission to build the same line. In any event, Hope stands to participate in whatever is undertaken, the West Virginia terminus of the pipeline connecting with the Hope system serving industrial areas in New York, Ohio and Pennsylvania.
