"That, folks, is exactly what we would be doing in this country if we ever voted for prohibition again. Authorities who have made a careful study of the problem, report that only about \$% of those who drink abuse the privilege occasionally ... 95% drink sensibly. Probably doesn't compare with the number of folks who overeat and do other things to excess. Prohibition certainly

isn't the answer. It's not that simple. We had nearly 14 years proof of that, didn't we? "The real answer is education and better

control. In fact, the responsible members of the distilling industry are working con-stantly toward that end. They don't want anybody to abuse the use of their product any more than the three of us do.

"If everybody would take that sensible attitude, Judge, and cooperate as more and more are now doing, we'd be a lot better off a lot quicker."
