Lt. Breeding mourning his brother as dead, wrote his parents an appraisal of the youngster which might be applied to several millions of other American boys in service:

"He wasn't an enthusiastic citizen who had a lot of reasons why we should have war. He was only a kid

with sporting blood and a sense of adventure, yet he did his job. I am sure he did it well."

Two other sons of Mr. and Mrs. Breeding are in the navy—Paul and Almon.

(Continued from Page One)

By this week-end mine operation may be stilled by a paralyzing stoppage, unless an 11th-hour settling of differences of governmental intervention is forthcoming.

Nearly 50,000 Kentucky miners were polled in the U.M.W.A. balloting Wednesday in the Hazard, Big Sandy and Harlan fields, but union spokesmen said the voting procedure hindered production little. Other thousands in Western Kentucky cast their ballots.

Two major results of a walkout in state mines would be:

The daily loss of approximately 160,000 tons of coal production, vital in war and other industry and utilities, and:

To the miner, personally, the loss of pay—at the rate of about \$8.50 daily a man, or, on the basis of an approximate 50,000 miners, an overall \$425,000 daily in Kentucky.

Miners were given an opportunity to vote before each shift at polling places near the mines and, spokesmen asserted, in most cases without loss of time. Balloting places were open in the fields from 6 a.m. to 6 p.m.

The threatened walkout would become effective at midnight Saturday—expiration date of the current U.M.W.A. contract—but, since most mines do not operate on Sunday, production actually will not be affected till Monday.

Should the Washington negotiations break down entirely, or should the government fail to play the acc-in-the-hole—seizure of the mines—the miners will leave the pits, union spokesmen stated, even though a strike call is not issued from national U.M.W.A. headquarters, because: "No contract—no work."

Kentucky miners, together with U. M. W. A. member-workers elsewhere in the soft coal belt, are seeking, among other concessions:

1. A quarter hour more portal pay each day.
2. Vacation pay of \$100 annually instead of \$50.
3. Ten cents an hour wage differential for the second shift, 15 cents an hour for the third shift.
4. Ten cents a ton royalty on all coal mined (to be used for hospitalization, insurance and other benefits for the miners).
5. Elimination of wage differ-

tials for different parts of the country and for different thicknesses of coal veins.

6. Agreement that operators will furnish mine clothing—hats, shoes, gloves, goggles—and all explosives used.

### Is He the UNLUCKY One?

- 1 Do all reading, studying, sewing, or game-playing close to a good light source, preferably a modern reading lamp.
- 2 Avoid glare from bare bulbs. Don't sit facing the light. Glare strains eyes.
- 3 Avoid shadows. Make sure you have good light directly on your book or work. Shadows strain eyes.
- 4 Have eyes examined regularly. If eyes are defective, vision can be greatly helped with proper glasses.

ONE school child out of five on the average has defective eyesight. And the percentage mounts to 4 out of 10 at college age! No parent can afford to neglect eyesight.

Even in these critical, busy days anyone can take these four simple precautions against eyestrain. Read them carefully and teach them to your children. Eyesight is too precious to risk.

When the war is over we are all going to have Better Light for Better Sight. In the meantime, let's conserve both eyesight and light. Take care of your eyes, but don't waste light.

Breathitt Native, Victim of Cancer

Mrs. Martha Combs, 77 years old, wife of Sim Combs, of Garrett, died Tuesday at the home of her daughter, Mrs. Millard Frasure, of Hueysville, following a long illness of cancer.

A daughter of the late Mr. and Mrs. William Strong, of Breathitt county, she had resided in this county for years and had many friends in this section. She was a devout member of the Regular Baptist Church.

Surviving, besides her husband, are three sons and three daughters: Ervin and Dolph Combs, of Garrett, Silas Combs, Wayland, Mrs. Millard Frasure, Hueysville, Mrs. Jeff Frasure and Mrs. Kellis Perry, both of Garrett.

Funeral rites were held today (Thursday), the Revs. M. C. Wright, Marion Chaffin and Alex Coburn officiating. Burial, directed by the Ryan Funeral Home, was made in the Tom Martin cemetery at West Garrett.

To the Voters of the 97th Legislative District:

As your Senator from this district I had the pleasure of serving through one regular session and two special sessions of the Legislature with your Representative, Jerry Fonce Howell. I wish to take this method of commending him publicly. He is now one of the best-experienced and seasoned members of the Kentucky Legislature. He has fought consistently for the interests of the people of his district and has always voted his sentiments regardless of any pressure he was placed under. I have insisted, for some time, that he offer his services again but because it has been a financial sacrifice for him to serve he has hesitated until now. It is with pleasure that I announce his decision to run. His announcement will follow later, and I hope that he will not be challenged by another candidate because his record is a credit to his district.

Respectfully,  
DOUGLAS HAYS,  
Senator, 29th Senatorial District

Warrix' Cruiser, Part Of Veteran Task Force

"We were a part of the first task force to strike Rabaul, the Gilbert Islands, the Marshalls, Truk, the Philippines, Formosa, Okinawa and Ryukyu Islands and the China Coast," William F. Warrix, member of a U. S. cruiser crew, recently wrote his father, Wiley Warrix, of the Auxier road, near here.

"No doubt you have read of the first battle of the Philippine Sea June 19, 1944. We were in the midst of that... we encountered heavy attacks from Jap carrier planes. The skies were black with aerial dog-fights all around us. The American pilots did a great job... nine enemy planes were seen falling in flames at one time..."

Of the raids on Formosa, Warrix noted the ridiculous radio broadcasts of "our friend, Tokyo Rose." She reported so many American ships sunk that it became a huge joke with us... We listen to her out here because she does broadcast some good phonograph records... but when she starts talking she... murders the truth."

Mr. and Mrs. Bob Gearheart, of Ashland, were visitors here Saturday and spent the week-end at Betty Layne and guests of his mother, Mrs. Miranda Gearheart.

Fewer "Hands" Make Heavier Work!

SPRING brings a new lamb crop to the western ranges—and a new crop of wartime problems. For instance, experienced lambing crews are increasingly hard to find. But in spite of fewer hands and other difficulties, millions of lambs are being dropped and raised to provide the nation's wool and meat. Beyond the "romance" of sheep ranching lies a great deal of hard work. When early lambs arrive in wintry weather, there's no time to be lost in moving them from the "drop corrals" to the lambing shed. Chilled lambs often must be revived in heated incubators. It's not unusual for a good "night man" to "lamb out" 125 ewes in a night—and that is work. There's the feeding and, later on, trimming, docking, bunch herding, shearing, and finally the trailing of the bands to the summer ranges in the high mountain country. And always herders must be on the alert to

protect their bands from coyotes and other predatory animals. Yanks are the best-fed, best-clothed fighting force in the world. They know the comfort of warm wool uniforms. And nutritious lamb has helped prevent meat shortages at home. Sheep ranchers, like other livestock producers of the nation, deserve the thanks of a grateful America.

Martha Logan's Recipe for BARBECUED SPARERIBS

(Yield: about 6 servings)

- 3 lbs. spareribs 1/4 cup homemade catsup
1 onion 1 tsp. dry mustard
1/4 cup vinegar 1/2 cup water
1 cup tomato juice 1 lbs. paprika
2 lbs. brown sugar 1/4 tsp. chili powder
1 tsp. salt 1/2 tsp. cayenne pepper

Cut spareribs in pieces. Brown lightly about 10 minutes. Dice onion and combine with all other ingredients and simmer 15 minutes. Pour over browned spareribs. Cover. Simmer or bake in a moderate oven (350°F.) 1 1/2 hours. Remove cover. Baste ribs. Cook about 15 minutes uncovered.

WHAT'S HAPPENING TO THE MEAT SUPPLY

WE are faced with a serious shortage of meat for the civilian population. The current meat situation is not peculiar to any local area. The problem is national in scope.

LARGE DECREASE COMPARED WITH LAST YEAR

Government figures indicate a decrease of 38% of civilian meat supplies is expected during this quarter (January to March, inclusive), as compared with a year ago. The decrease will vary on the different types of meats.

It is also estimated that during the second quarter of this year (April to June, inclusive) a decrease of 35% is expected.

GOVERNMENT REQUIREMENTS

Few people realize how much beef, pork, lamb and veal must be set aside by meat packers operating under federal inspection to be purchased by the Government for the Armed Forces and for Lend-Lease. As of February 20, 1945, we are required to set aside:

- BEEF: 60% of choice, good, and commercial steers and heifers, except extremely light weights. 70% of all utility steers, heifers and cows. 80% of all cutters and canners.
PORK: 50%, approximately, of dressed weight.
LARD: 75%, approximately, of production in accordance with recent order.
The Government is also taking a large proportion of Swift & Company's lamb and veal production:
LAMBS: 40 to 50% of choice and good lambs.
VEAL: 50%, approximately, of choice, good and commercial veal produced within specifications.
Whether these percentages will continue at the same level throughout the year cannot be foretold. The above percentages are as of February 20, 1945.
Consumer misunderstanding and dissatisfaction also arises from

HOW THE DOLLAR IS DIVIDED

There's an old proverb, "One picture is worth a thousand words." So I decided to draw this month's column instead of writing it. The picture is below, and it tells this story... 75 cents (on the average) out of every Swift sales dollar goes to agricultural producers for their cattle, lambs, hogs, etc. And 11c out of every dollar goes to the people who work in Swift plants, preparing those farm and ranch products for market. Transporting meat, etc., an average of 1,100 miles from producer to consumer takes another 2c. But, after all, the picture tells the story better than words of mine. Few businesses operate on such a narrow margin—few return such a large slice of their sales dollar to the suppliers of raw materials.

What do you know!

- 1. Which is the "best-fed, best-clothed" fighting force in the world?
2. What share of the average Swift sales dollar did producers get in '44?
3. How are chilled lambs revived on a modern sheep ranch?
Answers to these questions may be found in articles on this page.

TWO MEN OR TWO WOMEN

This agency does not stress volume of life insurance except as volume protects the largest number for the largest amount. What we strive for most is to keep insurance in force for the benefit of those who buy it.

We prefer to submerge our personal records and elevate the welfare of those who trade with us. We feel that a good life insurance agent should conduct his business, without fanfare, on a confidence-inspiring dignified basis as other legitimate professions are operated. We feel that the public is entitled to look upon a life insurance agent as a normal human being who does not spend half of his time running around the country exhibiting a score of personal "achievement records." We do not wish to appear to be high-pressure crack salesmen or supermen. We desire to be one of the ranks doing our part to improve the lot of all of us.

Keeping these things in mind, we modestly submit that this agency has approximately \$4,000,000 life insurance in force. Last year the business of this agency's members renewed from 84 to 96 per cent.

We are looking for two men, or women, in Floyd county who can sell insurance to the right people in the right way. We will train them and show them how and pay them well.
