

THURSDAY

When an interested kibitzer remarked, the other day, that I grind out copy on this rather decrepit typewriter with two fingers, I immediately joined argument. I insisted that I type with forefingers.

QUESTION: If Lo the poor Indian is so addicted to firewater, why don't they call him HIGH?

NOT SO RELIABLE

Because Bee's Old Reliable Shows, a carnival outfit engaged for the occasion, cancelled its contract, the Lawrence county fair has been postponed, says The Big Sandy News. If a fair cannot be held without a carnival with all its gang of low-lifers, misfits, freaks and crooks, the agricultural and other farm products must be of a pretty poor type. And if a county can't finance a fair without having to employ the services of a carnival to bolster the receipts, it shouldn't undertake such herculean tasks.

KINDLY PROVIDENCE

Quoting from Robert L. Riggs' article from Washington, in last Sunday's Courier-Journal of the hopes of Ex-Governor Keen Johnson to occupy "Happy" Chandler's Senate seat: "However, Johnson's friends insist that Chandler's political judgment has been warped by the animosity he has felt toward Johnson because Johnson helped instruct the Kentucky delegation to the last national convention to support Senator Alben W. Barkley for the vice-presidency. Chandler wanted the vice-presidential nomination himself and insists he would be in the White House today if Johnson, Mayor Wilson W. Wyatt and others had stood with him instead of Barkley."

The emphasis on the last several words in that paragraph is ours. And we also emphasize this: GOD MOVES IN MYSTERIOUS WAYS HIS WONDERS TO PERFORM.

ANNOUNCEMENT

This column has been asked to announce that the first Parent-Teacher Association meeting of the year will be held in the auditorium of the grade school Thursday, Sept. 20, at 8 p.m. The teachers are very enthusiastic but we are reminded that it takes parents, too, to make a Parent-Teacher Association.

SUCH THINGS HELP

This column has neglected to mention the fact that a convenience has been installed here that the public has long needed. James Morell, Jr., has installed at the Morell Supply Company scales which will weigh up to 15 tons. To prove to you that this is not free advertising and that it's merely mention of something worthwhile to farmers and others needing a bit of weighing done without having to drive to some other town, we point to the fact that a nominal fee of only 25 cents is charged for use of the scales—and you can figure for yourself how long it will take to pay for them at this rate, not to mention the value of any time the store employees will lose in helping make weight.

SUCH MEN HELP

While we're discussing public service, we would remind all and sundry that if everybody had given the time and effort and spent their own money as freely in following up every trace of that will-o'-the-wisp, a new industry for Prestonsburg and Floyd county, as has Dr. Earl T. Arnett, we might, ere now, have had opportunity not knocking but actually inside the door. Dr. Arnett has the thanks of folks who know of his work.

3RD MURDER BILL FILED LAST WEEK

Huff Is Accused In Fatal Injury Of Maytown Man

A third murder indictment was returned last week by the Floyd circuit court grand jury, along with 34 other true bills, before its adjournment Saturday.

This last murder bill was against John W. Huff, of Langley, charged with the fatal injury of Rube Amberg at Langley, several weeks ago. The other two murder indictments, previously reported, named Luke Kidd and William Caudill.

The grand jury will re-convene for an extra three-day session September 29. Mrs. Viola Stewart's testimony before the grand jury told of seeing Amberg and "some one" fighting near the window of her store at Langley. She added that she later learned the "other man" was John W. Huff.

The one murder case to be called for trial at the present court term resulted Friday in Sol Johnson receiving a five-year pen term by agreement between the Commonwealth and the defense for the slaying of Frank Bush. Sterling Johnson

POST-SEASON PLAY PLANNED

Top Teams of Loop To Meet in Series; Harold Trips Drift

With only three games remaining in the Big Sandy League's regular schedule, Drift and Prestonsburg appeared fairly certain opponents in the post-season play-offs, although Drift lost to Harold Sunday, 5 to 1, and Prestonsburg won over Emma only by dint of some lusty slugging on the Emma field.

Prestonsburg had a bad day afield and the usually reliable Charlie Patton was far off form against the Emma sluggers. The result was Prestonsburg won, 16 to 9. Louisa defeated David, 10 to 5. Despite its loss, David is in third place, barely ahead of Harold.

The two teams finishing the season with the best records will meet in a three-out-of-five post-season series.

A feature of Sunday's game at Emma was the clouting of "Little Prod" Clifton, Prestonsburg catcher, whose five hits in six trips to the plate included a home run, two triples and two doubles. Leslie started for Emma but shifted to the outfield after two innings and was succeeded by Mosley. Off the two of them Prestonsburg made an even ten hits. Patton, going all the way for Prestonsburg, was touched for 13 safeties.

Next Sunday's schedule: Prestonsburg at Louisa, David at Drift, Emma at Auxier, Harold at Prestonsburg vs. the Colored All-Stars.

WICKER HEADS CONFERENCE

Big Sandy Athletic Group Names Floyd Men Loop Officials

Monroe Wicker, superintendent of Prestonsburg schools, was elected president of the Big Sandy Conference at the athletic association's annual meeting in Pikeville Sunday, and one of the two other elective officers of the conference went to a Floyd county school man. D. W. Howard, principal of the Betsy Layne consolidated school, was named secretary-treasurer, and Orville A. Hamilton, of Oil Springs, was elected vice-president.

Mr. Wicker succeeds W. L. Perkins, of Paintsville, as conference president. A team must play at least four other conference teams to be eligible for the football championship, with the Dickinson rating system to be used, it was decided. The football loop is to be enlarged next year and a minimum of five conference games was set.

With Prestonsburg resuming football after a wartime lay-off, seven member-schools of the conference are engaging in the sport this year. Other schools engaging in the sport are Pikeville, Hazard, Whitesburg, Jenkins, Fleming and Paintsville.

Wheelwright and Beiry are expected to resume football next year. Football practice here is being supervised by Leo Carter while "Eck" Branham, who is slated for the coaching post, remains in the army. Branham said a few days ago he will learn this week if he is to be given a discharge and enabled to resume his teaching and coaching here.

Three in Jail Here Are Booked as AWOL

Three soldiers have within the last week been jailed here and booked as a.w.o.l. from their army posts. They are:

Albert Hicks, Finney General hospital, Thomasville, Ga., arrested by Policeman Troy Mullins, Wayland, and claimed by military police last Friday; John Holbrook, Maxwell Field, Ala., jailed by A. B. Moore, and Carl L. Hughes, jailed by Deputy Sheriffs Harold Conn and Roy Cook, both soldiers still in jail Tuesday.

CLEAR FLOOR OR NO PLAY

Is Net Coaches' Decision Reached In Meeting Here

Floyd county's high school athletic coaches Saturday voted unanimously to refuse to send their teams onto a basketball floor in tournament play if any spectator is on the floor at the time, and to withdraw their teams from play at any time the floor is invaded by spectators.

The decision was reached following a discussion of the Garrett gymnasium, site of the next district tournament. Because of inadequacy of the gym to seat huge tournament crowds and of a tendency of spectators to view games from the floor itself, it was suggested that the tournament be moved to another gym, with the Garrett school sponsoring the meet, but this move was promptly vetoed.

Lengthening of the gym at Garrett is a possibility, it was said.

The nine coaches studied plans for a Floyd county athletic conference but action was postponed till after the Big Sandy Conference meet Sunday. Attending the meeting were Coaches Walter Price, Wheelwright; Wiley Jones, Maytown; "Eck" Branham, Prestonsburg; Lawrence Price, Wayland; "Reb" Hall, Garrett; David B. Leslie, Auxier; Sherrill Frazier, Martin; Estill Hall, McDowell; Columbus Compton, Betsy Layne. School principals present were V. O. Turner, Maytown, and Chalmer Frazier, Prestonsburg.

RAILS GET EXTENSION

Of Time in Which To Prepare Case On Locks, Dams

Despite the protests of Congressman A. J. May, the army engineers' board on rivers and harbors Monday granted railroads opposing the canalization of the Big Sandy river a delay until Nov. 13.

The request for an extension of time for the railroads to prepare their case was made by Congressman Clifton A. Woodrum, Virginia Democrat, who teamed with Mr. May a few years ago in working for a federal game reserve along the Kentucky-Virginia border. Congressman May retorted the railroads already had enjoyed a 60-day continuance until Monday's hearing and that further dalliance was merely a delaying action on the part of rail interests.

The extension is seen in some quarters as an indication that lock-and-damming of the Big Sandy is losing ground. One authentic source said coal interests, originally listed as favoring the river improvement, are backing down in their support of the undertaking.

The army's divisional engineer has already recommended a nine-foot channel for both forks of the Big Sandy. In addition to testimony of Mr. May in favor of the project before the army board, Peyton Hobson, Pikeville attorney and brother of Atty. Joe Hobson, of Prestonsburg, testified.

Mr. and Mrs. Eugene P. Harris and children, June Merl, Jean Carol and James Malcolm, of Columbus, Ohio, visited Mr. and Mrs. Harris' parents, Mr. and Mrs. Malcolm Harris, Rev. and Mrs. James Roark, and other relatives here last week.

Maj. Stephens Helps Free Poles

In the fall of 1939 a bank employe here was listening to a radio broadcast telling of defenders of Poland's capital, Warsaw, being taken prisoner by the German army. The news at that time was as far away as another world to the Prestonsburg man.

Last April 28, that radio broadcast was vividly recalled, for the listener, Capt. James D. Stephens, that day led his outfit in the liberation of 3,800 of those Poles taken prisoner at Warsaw. The liberation took place at Murnaw, Ober-Bayern, where the Poles had been held prisoners of war.

The photograph (above) shows Maj. Gen. Juliusz Rommel, highest ranking officer to be held by the enemy, at Capt. Stephens' left. "Capt. Stephens is the first American officer with whom I have had the pleasure of shaking hands," General Rommel beamingly remarked.

The brigadier general at General Rommel's left was chief of Polish army intelligence. A captain at the time of the liberation of the Polish prisoners, the Prestonsburg man was promoted to the rank of major on May 16. He is a son of Circuit Judge and Mrs. Henry Stephens, Jr., Prestonsburg.

SUES 'DOCTOR' FOR \$5,000

Layne Suit Names Owner of Hospital, Samuel Liebowitz

The name of Samuel Liebowitz, alleged medical fakir, entered the court records here again last week as John L. Layne, of Tram, filed a \$5,000 damage suit against Liebowitz and his former employer, Mrs. Annie Stumbo, claiming an improper and illegal operation to have been performed by Liebowitz on Layne's hand.

Mr. Layne's petition alleged that Liebowitz, while acting as the agent and servant of Mrs. Stumbo at her hospital at Martin last year, operated on his hand, cutting across the palm and severing ligaments and tendons.

Whereabouts of Liebowitz, who was discharged by Mrs. Stumbo immediately after a charge of practicing medicine without license was filed against him here, are unknown, it was said here this week.

Gobles Gain Ground In Fight for Lives

Arthur Goble, 33, and his cousin, E. J. Goble, 23, who were believed to have been in a hopeless condition after suffering knife wounds in their lungs during an affray at Allen, were said Wednesday to be "gaining ground steadily" at the Gearheart hospital, Martin.

28 TO ENTER ARMED FORCES

During September From This County; List Pre-Inductees

An even dozen registrants will be sent for induction next Monday by Draft Board 45 at Martin and Board 44 here will send 16 for induction on Sept. 26. On the same date the draft board here will send 77 men who had previously been rejected for service for another pre-induction examination. Nine others will be sent Sept. 26 for pre-induction for the first time.

To be inducted from Board 45: George Harris, Jr., Wheelwright (transferred from Newport, Ky.); Hershel Johnson, Bevinsville; Alvin Bruce Daniels, Weeksbury; James Isom Frazier, Gearheart; James Miles Gibson, Garrett; Clark Mullins (V), Estill; Bennie Stone, Estill; Brady Henderson, McDowell; Woodrow Hunter, Martin; Edward Earl Johnson (V), Lackey; Charles Edward Gibson (V), Wayland; Bernard Little (V), Orkney.

John Davis Lewis, of Wheelwright, colored registrant, was notified to report Sept. 19 for induction. Draft Board 44's group to leave for induction Sept. 26 follows: John Bud Turner, Jr., Prestonsburg; Densil Lee Lester, Prestonsburg.

ONE CONTEST SUIT REMAINS

Tackett-Cornett Action Dismissed In Knott County

Only one contest suit growing out of the August primary election remained undecided this week after the suit of Joe P. Tackett, Prestonsburg, against John Chris Cornett, Hindman, Democratic nominee for Commonwealth's Attorney, was dismissed.

The remaining suit is that of D. H. Hatcher against W. W. Burchett, Democratic nominee for County Attorney. The case is up for decision in the Court of Appeals, Sept. 17, first day of the court's session. Hatcher lost in circuit court here on demurrer, later filed an appeal.

Morell To Open Store In Third St. Building

James Morell, Jr., this week began work on the part of the Spurlin building adjacent to The Times office, preparing to open an appliance store.

Besides a new floor, improvements will modernize the entrance to the store and furnish adequate window display space. J. R. Worland will be in charge of the store.

GIRL HURTLES FROM BRIDGE

Miss Osborne Falls 50 Feet; Goodman Held Under Bond

Miss Myrtle Osborne, 22 years old, West Prestonsburg, was knocked from a bridge here Saturday afternoon and hurled a distance of approximately 50 feet to the ground below when hit by a truck, and was in a serious condition at the Prestonsburg General hospital. Her pelvis was badly crushed.

Dewey Goodman, driver for Burl Spurlin, West Prestonsburg wholesale grocer, was arrested by Deputy Sheriff Harold Conn and jailed on charges of drunken driving, assault and battery with an automobile and failing to stop and render aid. He was released from jail Monday under bonds totaling \$1,400.

Miss Osborne was standing on the bridge across the Big Sandy connecting Prestonsburg and Town Branch, it was said, when hit by the truck. Her body missed the railway tracks beneath the bridge by only a few feet. The injured girl is a daughter of Cal Osborne, who is a soldier, Elton Ousley, also hit by the truck, was cut about the head and is in the hospital here. His condition is not serious.

Deputy Sheriff Conn said he found Goodman asleep in the truck which was wrecked on Bull Creek. He quoted Goodman as saying he did not hit Miss Osborne.

VETS NAME COMMITTEES

For War Memorial, Legion Structure; Delegates Named

With veterans of both World Wars I and II attending the meeting of the American Legion here Saturday afternoon, committees were appointed to work toward erection of a monument to the honor of War II veterans and the construction of a Legion building.

Named to the memorial committee were Dr. Earl T. Arnett, David B. Leslie, W. H. Risner and Clyde Hale.

Contributions totaling \$57 were made at the meeting to the building fund. The building committee is composed of David B. Leslie, Dr. Earl T. Arnett and Earl Burchett.

Delegates named to represent Floyd Post at the state Legion convention in Lexington, Sept. 17-19, are Dr. Earl T. Arnett, David B. Leslie, W. S. Wallen, Edgar R. Miller, Denver Calhoun and Clyde Hale. Alternates are George T. Roberts, J. E. Burchett, Joe Hobson, W. G. Africa, J. B. Williamson, T. J. Fitzpatrick.

Next meeting of Floyd Post will be held at 6 p.m., Sept. 15, at the courthouse here.

Work Begins Here On Packard Agency Building for Leete

Construction of a 48x90-foot garage building to house the Packard automobile agency of M. J. Leete, Jr., has been begun on Seventh street by J. L. Meade, contractor.

Mr. Leete said he expects the building to be completed within the next month to six weeks and placed the cost at "around \$10,000."

The structure will be of cinder block, steel re-inforced, with the exterior stuccoed and the interior plastered.

Other, came up running. He lit a cigarette, puffed it a few times and put it in Edward's mouth. They talked about simple things, about "Mom and Dixie and Edward's wife."

"Tell the fellows to be a little more careful," Edward said. "It's pretty bad up there." His voice became husky. Then Edward died in the arms of his twin, Edgar. He had killed 17 Japs that day, Edgar had gotten 19 and Fred 18. A simple cross marks Edward's grave on Luzon.

GAS STRIKE TRUCE ENDS IN FAILURE

Big Warco Station Idle, Some Field Men in Walk-Out

Negotiations toward settlement of the strike of United Fuel Gas Company (in this section, the Warfield Natural Gas Company) employes have broken down and the temporary truce declared while workers' representatives and company officials parleyed was ended Tuesday night.

More than 1,000 C.I.O. employes of the gas company and its subsidiaries quit work last Thursday night in a recurring dispute over wages. In this county the big Warco compressor station was idle and the strike extended into the field where it was said 15 or 20 workers had gone on strike.

No disorder accompanied the strike, although West Virginia state troopers guarded the gates at the Kenova and Lewis, W. Va., compressor stations.

John R. "Cal" Hardwick, president of the Kenova local of the C.I.O. affiliate, said the strike was called because of the "inactivity or paralysis" of the regional War Labor Board in acting on the report of a trial panel which heard the union's demands for an over-all wage raise of 10 cents an hour.

Although Hardwick said the union was not entirely satisfied with the panel's recommendations, he explained the regional board had taken no action whatever even though labor representatives were given assurances of prompt disposition of the case in ending the strike last July.

Jack Turner represented the Warco local in the meeting at which the strike decision was reached. This marked the third shutdown of operations of United Fuel and its affiliates. Two compressor stations were closed briefly in May. There was a general strike in July which was followed by W.L.B. hearings in Charleston on the dispute.

United Fuel operates in Kentucky, Ohio, West Virginia, Pennsylvania, New York, Virginia, and has one or two industrial customers in Maryland.

Easton, who said his first intimation of the walkout came in a call from a company attorney at 2 a.m., went into the field during the day, while company officials began a conference in the offices of President Harry A. Wallace, Jr.

Earlier, United Fuel had issued a statement describing the strike as "wholly unauthorized and without notice of any kind to the company." Easton said he was informed by the union that United Fuel "had laid off or discharged 18 men in the last few days" and that this action had hastened the strike, called primarily because of W.L.B. delay.

Hardwick said the panel board which met in July had recommended shift differential pay of 4 and 8 cents, but had failed to advocate the 10-cent general raise sought by the union.

He said the panel had recommended that the base labor pay of 45 cents hourly in Kentucky and 50 cents in West Virginia be raised to a uniform scale of 55 cents in both states.

Mrs. Effie Kilgore Victim at Garrett

Mrs. Effie Estelle Kilgore, 50 years old, died at midnight Tuesday at her home at Garrett, a victim of cancer.

She was a daughter of Mr. and Mrs. Tom Crisp and was a native of Tennessee. Mrs. Kilgore was a member of the Holiness Church and was one of her community's best women. Surviving are three sons and three daughters: Graham and Sylvester, of the armed forces; Vernon Kilgore, at home; Mrs. Frank Garrett, Dublin, Va.; Mrs. Hezekiah Harrison, of Garrett, and Mrs. Everett Humaker, McRoberts. Four sisters and three brothers also survive: Mrs. Amanda Sturgill, of Ohio; Mrs. Mattie Anderson, of Alabama; Mrs. Betty Layne, Garrett; Green and Tom Crisp, Tracey City, Tenn., and John Crisp, whose residence is unavailable.

Funeral arrangements are incomplete, it was said at the Ryan Funeral Home.

Mrs. Olga M. Latta left Sunday for Louisville to enter her son C. B. Latta, Jr., in K.M.I. for the second year. Cadets Andrew May and Woodford Howard accompanied her to Lyndon to begin football practice with Clifford, Jr. Miss Barbara Jean May is shopping in Louisville with Mrs. Latta.

Story of Maynard Brothers and Their Toll Of 95 Japs Told--One Dies in Twin's Arms

The dramatic story of three Pike county mountain lads—the Maynard brothers—who fought with the 38th division on the way back to Bataan, and how one of them died in the arms of his twin, was released this week by the army.

The lanky boys from Pinson Fork, Ky., who could "shoot the eyes out of squirrels," have left their mark in the Philippines and have been described by the army as "men of courage and faith" with a total of 95 dead Japs to their credit, killed in a few weeks of fighting. Edgar and Edward, twins, and

Fred Maynard, the sons of Mr. and Mrs. Rudolph Maynard, enlisted in 1941 and after their training were shipped off with the 38th division to the Pacific.

When they finally reached Luzon, their outfit had the hard task of blasting through the Jap defenses to cut off the escape route to Bataan. This accomplished, they moved on to Zigzag Pass—a pure hell with heavy casualties. With that bloody business over the outfit moved thru Balanga, then down to Pilar and across to Bagac. After Bataan the regiment moved

to the Zambales mountains in Luzon. After weeks of steady fighting—it was foot by foot stuff—they attacked a strong Jap position.

Edward was a little ahead of Edgar when a machine gun opened up on them from a bamboo thicket. Edward was running that way when suddenly he moaned, spun around and fell to the ground. Edgar's gun moved quickly, spurted a stream of lead. He killed all the Japs and silenced their machine gun. Then he picked up his twin and walked blindly to the sparse shade of a bare rock. Fred, the third bro-

ther, came up running. He lit a cigarette, puffed it a few times and put it in Edward's mouth.

They talked about simple things, about "Mom and Dixie and Edward's wife."

THEIR 'GOOD BEHAVIOR'

RETURNING veterans are "on their good behavior" in the full meaning of the colloquialism, whether they know it or not. In other words, folks expect the worst of them and they will not be given a "clean bill of health" till they have proved themselves.

That is the unpleasant truth, whether the vets like it or not.

Somehow, the folks back home are expecting only the worst of the "boys." As in the case of the minister's son, they are being watched, their every mis-step being noted. They will be blamed wherever and whenever possible.

Not that the folks have anything against them. In fact, appreciation of those who served in the armed forces is as sincere and as high in this section as in any other part of the nation. But the folks have concluded that they've been taught to fight, been taught to hate, to be unconventional, permitted to drink; that they can't return to peaceful ways.

Recent violations in this county do not prove these conclusions. Check them over and you will find civilians as deep in crime as the boys who have returned from the business of killing men in "defense of civilization."

That nine-year-old boy who beat to death a three-year-old baby in Pennsylvania wasn't a veteran.

True, the "boys" are doing their part of the drinking. So are the civilians. A certain percentage of those returned from war will be on the "outer fringe" and so will be a certain percentage of those who never shouldered a gun or wore a uniform.

So it would seem the better part of commonsense if we would try to treat the returned service man as a civilian who has done his duty and who deserves credit for so doing, but who now is just another civilian.

WE LIVE AND LEARN

THE TIMES admits to a bit of ignorance that we would prefer that you call by the more euphemistic word, "naivete."

Until recently, in our blissful ignorance, we did not know that heads of the state colleges are dependent upon the party in power for continuance at work in their present capacities. In our new state of erudition we know that these

men, once their terms expire, may be summarily ousted if their politics are "wrong" or if individuals more politically powerful want their jobs.

Howard Henderson, Courier-Journal editorial columnist, points out that State Superintendent John Fred Williams may, at his pleasure, oust either W. H. Vaughan, president of Morehead State Teachers College, or President W. F. O'Donnell at Eastern. He indicates that, whether Mr. Williams wants Mr. O'Donnell's place or not, a Republican may be named to succeed the present head of Eastern.

Then it is little wonder that Kentucky is forty-seventh among the states in education. Any system which permits politics to shunt aside an educator of proven ability merely to satisfy the ambitions of another, whether able or mediocre, cannot, even if given all the financial resources belonging to the state, lift itself higher than the muck of politics.

The field of education offers little enough for the future to the teacher or administrator without a Democratic or a Republican administration having the final word in their professional destinies.

WHAT ABOUT THAT MISSING LINK?

(Ashland Daily Independent)

ABOUT six weeks ago, on July 22 to be exact, the people of Ashland and the Big Sandy valley were cheered by a statement from the State Highway Department. It declared upon completion of the surfacing of the 10.9-mile section on U.S. Route 23, between Paintsville and Louisa on August 1, the Middle West Roads Company of Noblesville, Ind., would begin to apply a bituminous surface, class 1, high-grade blacktop. The statement said these contractors were expected to begin this surfacing within 15 days.

The grade and drain project was completed around August 1, as predicted. Since shortly after that, traffic has been attempting to move over the roadbed. But six weeks have passed and nothing has been done toward surfacing as yet. Dust is heavy and the roadbed is rough and dangerous to travel.

Protests over the failure to begin surfacing are heard daily. They come from organizations and individuals who believe the Highway Department's statement that a base of surfacing would be applied over the entire section before bad weather stopped work, permitting traffic in reasonable comfort over the road this winter.

Were these promises merely timed before the primary election to help the state administration and is there no intention now of keeping them?

The home city of Governor Willis and his own section of Eastern Kentucky are the sufferers through the long-continued absence of adequate highway connection caused by this almost impassable section of road. Its completion has been delayed so long and it has been made so often in the past a political football that there is no wonder that patience is worn out and protests contain a bitter note.

The members of the Big Sandy and Elkhorn Coal Operators Association based their recent decision to retain their principal offices in Ashland upon the promise of early completion of this road. Much of the commercial business of this section depends upon it as the principal artery of transportation. All have placed full reliance upon the pledge that it will be put in usable condition this year and completely finished before September 1, 1946.

We feel that the State Highway Department should take steps to have the contractors proceed at once with surfacing, in accordance with the promises of responsible Highway Department officials. We choose to believe that the promises were made in good faith, but if they are going to be kept, a definite start on the work of surfacing will have to come in the very near future. If they are not going to be kept, certainly a detailed explanation of the reasons is in order.

Parolee Stabs Brother Fatally in Magoffin

Salyersville, Ky., Sept. 5—Two brothers who married sisters fought and one was killed today.

County Attorney Walter Prater announced the death of Frank Patrick, 32, in a Paintsville hospital several hours after he was stabbed at his home at Foraker, five miles west of here, last night.

Sheriff Oliver Patrick, a distant relative of the brothers, said that his deputies were seeking Jasper Patrick, identified by Prater as a paroled convict.

Prater, himself, had defended Jasper Patrick, who was accused of the slaying of Bolden Byer some five years ago. Sentenced to 21 years in prison, Patrick was paroled two years ago.

Prater said that the reason for the fight was obscure. He quoted witnesses as saying the parolee drove up to his brother's home, and that after a short while the fight broke out inside.

Livestock Slaughter Limits Lifted; More Meat in Sight

Washington, Sept. 8—All limits on the slaughter of livestock ended today with a sharp upturn in animals going to market.

This action by the OPA permits slaughterers to kill as much livestock as they like.

It means more meat for civilians, and while no fully authoritative official makes such a prediction for quotation, it may be a step preliminary to an early end to rationing. That depends largely on how much the kill increases.

"Now that the period of acute scarcity has been passed and with increased numbers of livestock being sold, we want to be sure there are no obstacles to prevent the slaughter of every animal that is marketed," Price Administrator Chester Bowles said in a statement announcing the action.

The slaughter-control program, in effect since last April, was designed to route more of the limited livestock supply into federally inspected plants, less to non-inspected plants.

The idea behind it was to make more meat available for the armed

forces and other government requirements. Meat produced in non-federally inspected plants could not be shipped across state lines.

Congress later permitted some modification of that ruling so that meat could be diverted to civilian hardship areas.

Bowles said the slaughter controls, coupled with a "fair distribution plan," worked well. The distribution plan, also terminated today, required slaughterers to follow the same geographical distribution pattern they followed in the first quarter of 1944. Its purpose was to aid areas experiencing the most acute meat shortages.

Despite "marked improvement" in the supply of meat available to civilians, Bowles said it still is not sufficient to assure good distribution "without the help of rationing controls."

Bowles did not indicate, in view of the increased marketing of livestock, how long he thought rationing would be necessary. Some predictions place the end of rationing as early as October 1.

Collins a Member Of Famed Battalion

WITH THE 716TH TANK BATTALION, LUZON, Aug. 22—Little publicized during the operations of the Philippine campaign, the record of the 716th tank battalion can now be revealed. T/5 Eljah J. Collins is a member of the battalion and is proud of that record. His mother, Mrs. Mafie Collins, resides at Wayland, Ky. Supporting the doughboys in assault landings on Luzon, Panay, Negros, Cebu, Jolo, Zamboanga Peninsula and on Mindanao, the tankmen met and defeated the best the Japs had. T/5 Collins relates: "Our tanks have fought every kind of warfare in the books. We engaged the tanks of the Nipponese 2nd armored division on the roads and on the spreading rice paddies on Luzon. We took part in the street fighting at Manila and as a part of tank-infantry teams we cleared the son of heaven from the jungles of Mindanao. We had been continuously in combat from the 9th of January until the termination of the Philippine campaign, moving from operation to operation so fast that often after firing the last shot at the retreating Nips at noon, we would find ourselves loading on LST's that evening, off for another Jap-held island."

Reviewing the remarkable record of his outfit, Sgt. Collins added, "In six months of going battles our battalion has killed more than 3,000 Nips, destroyed over 600 pillboxes and much of the armor that the Japanese army used in the defense of the islands. It's no wonder infantry divisions that operated in the Philippines regard the 716th 'Wolf-Pack' so highly."

The Mailed Fist of MARS has Ceased Pounding

Temporarily at least, human flesh and nerves and the human spirit have gained surcease from the ceaseless hammering of Mars the war lord. Restful peace has settled once again on the world.

Now, it is the duty of us all to see the aims of this nation carried forward to gain a lasting peace... to make our country prosperous... to render the entire world a fit place for civilized men and women and their children...

Sound investments, economy, support of the nation which among all others is great—these are our bits of advice to our friends and customers.

SELF-REGULATION

A public service...

Kentucky's legalized brewing industry is determined that beer be sold in compliance with control laws, the demands of society and in a manner consistent with the public interest and welfare. Kentucky brewers are voluntarily supporting the Committee which, through its farsighted program, is offering a public service in support of the industry's determination and, through the Committee, licensed retailers are constantly advised of regulations and rules and the self-adopted standards of the industry.

The Kentucky Committee loses no time when infractions are found. Through self-instituted action or through recommendations to law-enforcement authorities, with whom it cooperates, corrections are quickly made.

COOLEY FOR CIRCUIT CLERK

For the last six years I have served you as your Circuit Court Clerk and it has been my aim to serve you efficiently and to be friendly at all times with all persons. At the recent primary I had no opposition from my own party, for which I am naturally grateful. Now, with opposition in the final election, I have nothing to say against my opponent. I merely ask the good people of Floyd county to consider my record as an official and as a citizen, my friendship for people of all classes, and my earnest desire to render you all the right kind of service. These things considered, I feel sure you will be kind enough to give me your support at the November election. If elected, I will continue to work as I have in the past. I have done my best and, therefore, cannot promise any changes except the better service my experience will enable me to render.

Your friend,
BILL COOLEY

Hail Columbia for trying to besmirch our fair name by swallowing, then regurgitating in print, that story about a man named Denks from Rowan county who got as far away as California and didn't know there was a war on.

Has anybody ever inquired how this Denks ever talked to anybody, ever heard a radio or traveled across the country without knowing we were at war? And wonder if anybody asked how he knew to go to California to work in a war plant if he didn't know there was a war on? Or how he knew how to work, if he was that dumb?

Day by day, I grow more firmly convinced that our genus should be termed homo sappens rather than homo sapiens.

THE HEALTH OF YOUR LIVESTOCK

By BEECHER L. SCUTCHFIELD Licensed Veterinarian

FEEDS AND FEEDING It would be impossible for me to try to cover feeds and feeding with much satisfaction in such short space. An attempt is made only to mention some outstanding facts about feeding. However, it must be considered a great factor in keeping your livestock healthy. Foods are necessary for growth, heat and production of energy in all animals. Therefore all the products that man obtains from animals are secondary to actual life functions of

the animal. Of course we feed animals to produce milk, eggs, wool, hides and many other products, but it is not the animal's original intention to produce them for us.

As mentioned in previous work the nutrition elements necessary to sustain animal life include proteins, carbohydrates, fats, minerals and various supplementary food factors. When these nutrition factors are present in feed in a necessary percentage and are balanced to keep the animal growing, we refer to the foods as a balanced ration. A balanced ration for one species of animals is different from that of another species and also different for animals of the same species. A working horse would require a different ration and a larger amount of feed than one allowed to remain in the stall. More and more we have come to realize the value in a complete feed containing calcium, phosphorus, iodine, vitamins and trace elements. If you wish to really go into scientific feeding of animals, I recommend some good book on feeds and feeding or consult your county agricultural agent or Kentucky Agricultural Experiment Station. The 1939 Yearbook of Agriculture on "Food and Life" which can be obtained for \$1.50 from the Superintendent of Documents, Washington, D.C., is a very valuable book on feeding.

Perhaps commercial prepared feeds may not meet every requirement,

Legislative Council at Work Prepping for Fighting Session

The Legislative Council, of which Rep. Jerry Fonce Howell, of Gearheart, is a member, met in Frankfort Monday to pave the way for what promises to be the fightingest session of Kentucky's General Assembly in many years.

Most everybody who gets state money wants more of it. Only recently state departments submitted goals totaling \$45,000,000 to the Governor's Tax Revision Commission as their hopes for future appropriations, compared to this year's \$32,000,000 budget.

Divergent views on the council's procedure already have appeared.

Republican Lieutenant-Governor Kenneth Tuggle said a question was whether or not it was expedient to start hearings next week, or to wait until after the November election because so many of the council members, appointed in 1944, will not return to the Legislature which meets next January.

Democrat Harry Lee Waterfield, Speaker of the House, declared he favored the council meeting the maximum 60 days authorized by law. He explained he wanted to do more than just hear from department heads, that he desired that people all over the state who had facts be given a chance to bring them here.

Tuggle, chairman, and Waterfield, vice-chairman of the council, each stressed he was presenting only his own views and that the council itself would determine what to do. Democrats are in the majority in the council, as they were in the 1944 Legislature.

The coming legislative session may be further complicated by the fact that the Republicans are staging a hard fight to win control of the Senate. Democrats, fighting to hold the line there, have expressed belief they will have a better grip on the House than in 1944.

But regardless of the outcome, all controversies are expected to be affected by a powerful undercurrent—efforts of the politically minded council members to discredit the opposing party and thus gain some strength for the 1946 Congressional and the 1947 Gubernatorial elections.

When the General Assembly convenes there is bound to be a revival of the fight to open Kentucky's highways to bigger truck loads, with railroads vigorously opposing the move.

Whether the Legislative Council will go into this under its power to look into matters affecting the state's general welfare remains to be seen. But taxes and appropriations are its regular bill of fare in preparing to make recommendations to the coming General Assembly.

Hearings before Governor Simeon Willis' Tax Revision Commission and his Postwar Advisory Planning Commission have indicated moves are in sight to revise the state's tax structure. Advocates say they want to do it in such a way as to encourage in-

but in general I would recommend commercial prepared foods as feed for your livestock along with forage crops. In general commercial prepared feeds will fit the specific purpose indicated as well as any one could formulate. Recommended feed formulas will work out satisfactorily where the livestock owner grows and mixes his own feeds and feed supplements. However, for a person with a few animals the commercial prepared feeds will meet the requirements. Actually most commercial feed concerns spend millions of dollars in research in preparing formulated feeds. Some persons say that their animals will not eat certain commercial feeds. Generally this problem has a cause. Specifically, some dog owners have called my attention to the fact that their dog will not eat commercial dog foods. A history of the dogs generally yield the fact that they are feeding the dogs kitchen scraps or garbage. Once a dog has developed a taste for garbage, they will refuse a balanced food. Sometimes cooked beef scraps, milk, eggs or leftover vegetables may be mixed with commercial prepared dog foods to make it palatable and as a variety. I do not recommend garbage feeding of animals as it is an unbalanced ration, and in the majority of cases will produce a malnutrition problem. An animal will eat most of the commercial feeds when they are starved to the extent that they will eat it. Improper feeding habits account for high percentage of losses in livestock. The main improper feeding habits include overfeeding, sudden change in type of food and underfeeding. Overfeeding produces the

most serious disturbance in animals. Generally acute indigestion results from a cow or horse being overfed with green corn, green apples, etc. If possible it is better to keep your animals away from such things. Sudden change of foods will also produce acute indigestion in cattle. When changing to different kinds of food, make the change a gradual one and not a sudden change. Do not use home remedies for indigestion in your animals as indigestion demands the immediate attention of your veterinarian. Underfeeding makes an animal susceptible to infectious diseases. Mineral and vitamin deficiencies may also result from underfeeding or poor quality feed.

dustry and also to benefit the farmer and the laboring man. Such a program is filled with numberless controversies. If it includes a proposal to eliminate the state income tax, and to substitute the once-repudiated sales tax, indications are that the Legislative Council may stage a lengthy warm-up for a roaring controversy in the coming General Assembly.

In running for election, Governor Willis advocated doing away with the income tax. In 1944 and since he has declared he would recommend that as soon as feasible.

Whatever is done about a tax program, the Legislative Council is going to be faced with the task of either recommending something like this year's \$32,000,000 budget for general expenditures, or proposing some way to finance a larger budget, unless it becomes convinced that peace will bring more revenue from liquor taxes and other important sources of state income.

That there is something to the \$45,000,000 annual total indicated by those appearing before the Governor's tax revision group, is shown by desires of the Welfare and Education Departments. They are the state's two biggest spenders aside from the Highway Department which enjoys its own income mostly from the gasoline tax and isn't included in the proposed \$45,000,000 budget.

The Education Department already has set its goal at \$20,000,000 a year to the public schools, compared with its present \$15,000,000. The Welfare Department has indicated it will ask for \$10,000,000 a year to cover all its expenses, with most of that going for old age and other public assistance. It got a total of \$7,000,000 a year from the 1944 Legislature.

Many state agencies that spend comparatively little also have indicated they want more—an example being the soil conservation program calling for \$100,000 a year in place of its present \$22,000. And there'll be numerous and well-backed proposals to spend far more money for returning servicemen.

The Legislative Council is composed of 10 Democrats and six Republicans in addition to Tuggle and Waterfield, who are ex-officio members. The 16 appointed to the council during the 1944 session which extended the time for council hearings are:

Senate Democrats—Charles C. Waggoner, Mayfield; Roy McDonald, Cadiz; J. J. Thomas Owingsville; Strother Melton, Paducah, and Stanley B. Mayer, Louisville; Republicans—Ray B. Moss, Pineville; Cass R. Walden, Edmonton, and L. D. Deters, Louisville.

House Democrats—James E. Quill, South Port; Jerry Fonce Howell, Floyd county; Faust Y. Simpson, Morganfield; Clyde Howard, Elizabethtown, and Leon J. Shaikum, Louisville; Republicans—John D. Gross, London; Vernon Seaton, Ashland, and Egbert V. Taylor, Greenburg.

Three Floyd County Mines Are Reinspected

Safety conditions recently observed at three Floyd county coal mines are described by federal coal mine inspectors in separate Bureau of Mines re-inspection reports made public this week.

Improvements effected since previous inspections were attributed to company initiative, employe co-operation, compliance with orders of state inspectors, and adoption of Bureau recommendations.

Diamond Elkhorn mine, Diamond Elkhorn Coal Company, at Garrett; 31 employes; daily production, about 550 tons.

Liberty No. 2 mine, Floyd Elkhorn Coal Company at Sampson; 45 employes; daily production, about 450 tons. Reinspected by Russell Shaw. No lost-time accidents occurred at the mine in development work since July, 1944, and only three injuries have been reported since the start of coal production.

Turner No. 7 mine, Edgewood Fuel Company, near Drift; 75 employes; daily production, about 500 tons. Reinspected by T. H. Harrison and W. R. Park. In 13 months since the opening of the mine in June, 1944, an outstanding safety record was established with the production of 122,145 tons of coal with only one lost-time accident.

LIFE—FIRE—CASUALTY—BONDS

POISON IVY, mosquitoes, ants, sunburn, rain—

Roughing it on a camping trip is great stuff. For a week or so. Then you begin to long for the comforts of home.

A good light to read by... a hot shower... your electric razor... an electric range... and, of course, your radio.

It's surprising the number of every-day conveniences made possible by electricity. You take them for granted—until you have to get along without 'em.

The big reason why you forget 'em is because electric service is so good and so cheap. Electricity is still available at low pre-war prices. There have been no shortages.

And you can be sure there will be plenty of power for the post-war electric era—thanks to the practical experience and sound business management of America's light and power companies.

Part 2 of a grand homecoming... Part 1 is up to us!

Long before his troubles vanish in her warm embrace... long before he sees home again, he can be there—if you will help him.

The first thought of thousands of weary men, now landing in the South, is to rush to the telephone and call home.

What a disappointment if they find all long distance lines busy and they can't get their calls through.

Your telephone company is doing all that is humanly possible and you can help, too, by skipping all unnecessary calls—and by cutting short the essential ones.

If you find this inconvenient, just remember what that first call home means to returning service men.

and Millard Stanley, indicted as accessories after the fact in Bush's slaying, will be given trial Jan. 16.

Trial of William Caudill, charged with the pistol-slating at Wheelwright Junction of Gardner Johnson, returned war veteran, is slated to begin today (Thursday).

First conviction to be gained at the court term was last Wednesday when Ed Hatfield was fined \$100 for shooting at without wounding. The \$100 fine and 30-day jail sentence given Arthur Hall on an assault and battery charge was later set aside.

As an aftermath to the cutting affray at Allen in which Arthur Goble and his cousin, E. J. Goble, were seriously stabbed, Burley Akers and his son, Elder Akers, of Betsy Layne, were named last week on a charge of alarming and intimidating an officer, W. L. Rice, policeman at Allen, told the grand jury that Elder seized him, threw him to the ground and almost had the officer's pistol in his possession when stopped by George Lee Woods. Rice added that he "learned that Burley was coming at him with a knife."

Accused of stealing a pocketbook containing \$250 from Mrs. May Collins, of Wayland, William Lanfkins was indicted on a grand larceny charge. In a similar case, Bennie Blackburn was accused of robbery, being charged with taking from Henry McKenzie \$57 in cash, his railroad ticket and army furlough papers. Blackburn and Ed Hatfield were named in an assault and battery indictment on testimony produced before the grand jury that, in the robbery of McKenzie, Hatfield kicked McKenzie in the face and that Blackburn kicked and beat him. Frank Chaffins was indicted of malicious shooting into a motor vehicle on the testimony of Mrs. Claude Allen, of Langley, driver of the auto and whom the bullet barely missed.

Other indictments returned during the week: Jake Stanley, child desertion; Robert Osborne, Annie Slone, Goldie Little, Minnie Belle Osborne and "Poor Shoot" Slone, assault and battery (Elisha Little testified they entered his home and beat him up, fracturing his ribs); Jay Hall, child desertion; Denver Martin, selling whiskey without a license; Denver Martin, malicious cutting and wounding of Curt Moore at Drift, July 21; Claude Johnson, carrying a concealed deadly weapon; Ed Hatfield, operating a roadhouse after closing hours; Ed Hatfield, operating a roadhouse without permit; Claude Johnson, striking and wounding Warren Spurgeon; Levi Henson, seduction under promise of marriage; Milt Conley, assault and battery (named by Dr. M. M. Collins, Lackey, as having hit him twice, knocking him down and kicking him); A. F. Vanhoose, detaining a woman against her will; Dora Johnson, selling beer on Sunday; Dora Johnson, selling whiskey without license.

Sam Endicott was given a three-year term Tuesday for the cutting and wounding here recently of Fuller Thompson.

During Monday and Tuesday, six defendants drew fines. They are: Sam Stanley, pointing a deadly weapon at another, \$50; Dewey Gibson, assault and battery, \$50; Earl Johnson, striking and wounding, \$50; Forrester Newsome, assault and battery, \$25; Claude Johnson, carrying a concealed deadly weapon, \$50 and 10 days in jail; Claude Johnson, striking and wounding, \$50.

SHIKE'S POKES

(Views expressed herein are those of the writer and not necessarily those of this newspaper.—Editor.)

Three famous Michigan Republicans—Herb Rapp, Dean (Wash) Funk and "Pop" Funk were Floyd county visitors last week.

I don't know whether there is a trouser shortage or not, but the fact remains that Gordon S. persists in wearing those slacks.

There was one good thing about the two-day holiday for V-J Day. Walter H. got done foddering. Yeah, both rows.

The Labor Day celebration at Wayland was a big success, with Noble Hobbs being tops as master of ceremonies. The only time Noble frowned was during the singing contest when one contestant played and sang "The Herbert Hoover Blues."

Eight or nine dogs of Dinwood died a few weeks ago under mysterious circumstances. Everybody said, "poison." But I think M. D. Isaac has solved the mystery. It seems somebody had a half-pint of "255" brand, couldn't drink it, so threw it in the slop bucket. The dogs ate the garbage and died.

That windmill job blew up for lack of an operator. Henry moved down in Martin and "Oak" and "Grover" plumb left.

I see by the papers that ole Fats Goering's doctor says it would endanger his life if he stood trial now. We don't doubt that the least bit.

Why coddle those yellow Nips? Just get all our prisoners out and let go a few more atomic bombs. After all, how far would they have gone with the "A" bomb? They should not be shown any mercy—they stabbed us in the back—and just want a rest to get ready for another fight. I say keep the army there if it takes it, but make sure they never rise again. The Chinese should help police the country. In my book, all Japs are heathens.

You hear a lot about women yelling about not having anything to wear—and after viewing some of them in public, I'm inclined to believe them.

When is Sim Willis going to wake up to the fact that he is Governor of all Kentucky—not just governor of Bell, Boyd and a few other counties?

Trainmaster Dick Evans doesn't want to hear any more about black-snakes keeping rats away. He caught one and put it in his garage to scare away the mice. Next morning he found the snake's head with a partly swallowed mouse in its mouth, also a small part of the snake's tail. The rats had eaten up the rest of it.

The next time Gardez D. takes his beauty nap on the hardware store counter with all the doors locked, he should pull down the shades. It took about 50 curious people to wake him up. They all thought something was wrong. He was—losing too much sleep.

Knott Woman Dies At Lackey Sunday, Pneumonia Victim

Mrs. Margaret Gibson, 77 years old, wife of Miles M. Gibson, of Raven, Knott county, died Sunday at the Stumbo Memorial hospital, Lackey, a victim of pneumonia.

Mrs. Slone was a native of Knott county and a member of a well-known family of that section. She is survived by her husband and the following sons and daughters: Joseph Gibson, Wayland; Corsey, of Raven; Clawson, of Garrett; Mrs. Ben Franklin, Wayland; Elite, of Raven; Mrs. Sam Noe, of Estill; Mrs. Starling Sammons, Detroit, Mich.; Mrs. Mont Conley, Lackey; Mrs. Robert Morgan, of Indiana; Mrs. Lawrence Triplett, Lackey, Dennis and Willard Gibson, of Raven.

Funeral rites were conducted from the home, the Revs. Green Bradley and Sherman Slone officiating. Burial in the family cemetery was under direction of the Ryan Funeral Home.

Miss Jane Hamilton Clarke has been visiting her brother, Dr. Wm. Francis Clarke, and Mrs. Clarke in Wheeling, W. Va., where he is an interne.

Sherman Collins, 64, Victim at Lackey

Sherman Collins, 64 years old, well-known resident of the Wayland section of the county, who died Sept. 8 at the Stumbo Memorial hospital, Lackey, of kidney complications, was buried Sunday near Wayland, the Arnold Funeral Home directing. Funeral rites were conducted by the Revs. Hawk Moore, Earl Howard and others.

Mr. Collins, one of his community's best men, is survived by several children.

Mr. and Mrs. Bert L. Hammond, Mr. and Mrs. Eugene P. Harris and children, of Columbus, O., spent Friday in Inez, visiting their sister, Mrs. Jack L. Richmond, and Mr. Richmond.
