That's the response we get from licensed beer retailers after outlining the constructive purposes of the Kentucky brewing industry's Self-Regulation program.

They realize that this program is designed to help them conduct their business in accord with public sentiment and with the high standards of the industry itself.

The great majority of dealers respond eagerly and with genuine purpose. They realize that good business means better business.

Retailers who are slow to respond are rare and becoming rarer. Which means that conditions surrounding the licensed sale of beer in Kentucky are good and becoming still bet-

JACK MAY?

To the Republicans of Floyd County:

On Saturday, August 3, we will go to our voting places to choose our nominees for Congress. Our Congressional District consists of eight counties and Pike countians have honored many of these counties heretofore by actively supporting their favorite sons. Let us go to Victory this time by choosing a fine young man who can and will carry Pike county and the District by a smashing majority. Let's nominate CHARLES F. TRIVETTE, because:

1. He is one of our finest young men and would make a great Congressman. His first loyalty would be to this District, before State or Nation.

2. He has an outstanding record as a State Senator. No Senator has done more for his District and

REPUBLICAN CANDIDATE for

CONGRESS

from the

Seventh District

the State of Kentucky during one term than Charles F. Trivette.

3. He has proven himself a champion of the laboring man. His vote for the Mine Safety and Health Bill is the real reason why certain mine ownc.s and their PAID representatives are spreading false rumors and false claims, but the people who really want Jack May defeated will not be misled by selfish promters.

4. He has proven a friend to the Service Man. Due to age and a defective digestive system Charlie was not permitted to wear a uniform, but his record of sponsoring laws legalizing loans to veterans under 21 years old and his help in reorganizing the Disabled Service Men's Board, and his sponsoring and passage of the War Memorials Act, for Memorial Parks, Libraries, Stadiums or other Public buildings is proof. And no man did more than he as a civilian to help Win the War!

5. He has proven a friend to the teachers and the school children of the state by active support of the entire K.E.A. program. He helped to attain longer school terms and higher salaries for teach-

6. He was an active leader in improving the health conditions of Eastern Kentucky. He took the Senate lead for the Tuberculosis Hospital Bill. The cornerstone has been laid for all six hospitals and in a few months will be ready and working to kill

7. CHARLES F. TRIVETTE has been a loyal Republican. He has given of his time and his means to the success of the Party. He has given full support to the Party's nominees and has managed and assisted at headquarters during the past several campaigns.

8. He has supported the present State Administration except on matters which he deemed against the best interests of Eastern Kentucky. He favored Pikeville over Ashlend for the Highway District Engineer's Headquarters.

The reports from all over the Congressional District are most encouraging for this Legislative Leader who has done so much for our part of Kentucky, and with your active support we will achieve Victory. Eastern Kentucky deserves this Victory! VOTE FOR HIM!

Howes Meade is the only true friend of the Laboring Man, His father was a member of the United Mine Workers of America. Labor knows that it needs friends in Congress. Labor must start now with a friend and follow through in November.

Howes Meade is the only cattle trader and farmer seeking the office. He alone can know the needs of the farmers.

Howes Meade is the only candidate who set foot on foreign soil during war. Future peace can best be assured by having man who knows foreign lands first hand.

President Truman urges national cooperation for food conservation in these words:

"... Food is today the most sought after commodity in the world. Literally millions of human beings in Europe and Asia are dying or are on the verge of starvation from lack of it. Hundreds of millions are suffering beyond our comprehension-suffering from hunger, from malnutrition. We who are well fed cannot conceive the extent of that suffering. . . . Every pound of food eaten fresh from the garden, or preserved for use next winter, will release an equivalent amount of food to be shipped to the starving millions."

We in Southern Bell have been adding telephones at the rate of 350,000 a year. But shortages have been growing worse, and now it's harder and harder for us to get materials for manufacturing and building.

We aren't complaining for we are in the same boat as everyone else. But we thought you might like to know the supply situation on some of the biggest items in the tele-

DR. ELMER E.

GABBARD

The REPUBLICAN CANDIDATE for

CONGRESS

THIS YEAR SHOULD BE

I. A Man of Outstanding Ability

Dr. Gabbard's reputation, through years of service, guarantees that the interests of the people these crucial times will be in capable hands.

II. A Man of Scholarship & Experience

Dr. Gabbard is 55 years of age. He served two important churches in Knoxville and Chattanooga in close relationship with two of the important universities of the South. He has served small mountain communities and, for the last 10 years has carried the responsibility for the school and orphanage at Buckhorn, Ky. In 1932, he led a study-tour of seven European countries. He has served as publican State Convention in 1944 received wide acclaim and his value to the Party throughout the state is recognized by everyone.

III. A Man Close to the People

Dr. Gabbard's parents, John L. Gabbard and Jaley Reynolds Gabbard, of Owsley county, were poor but honorable parents. Elmer, the youngest of six sons, worked his way through high school by building fires, milking cows and running errands. In college he taught part time to pay expenses. Today, he personally manages the school farm, gardens and dairy. Any day at home, he may be seen on the farm or in the gardens with the men or students. He knows and is the friend of the common

IV. A Man Interested in the Responsibilities of Our Government

Some of these responsibilities are:

(1) FOR OUR VETERANS, Dr. Gabbard's only son, a graduate of a Military School, died in 1943. Nothing can be closer to his heart than the proper care of disabled service men. He admires the spirit of the men who have returned and have adopted as their slogan, "Civilians first and vetera second." If elected, Dr. Gabbard will listen to their programs, seek their advice and help in their e forts to widen opportunity for all Americans and improve conditions throughout the nation. He believes that men who fought as our men fought can be trusted to be practical and fight for peace even more valiantly than they fought for war.

(2) FOR EDUCATION. No man today has demonstrated a greater devotion to the cause of education than Dr. Gabbard. In the last ten years he has raised from various sources more than \$300,000 for the help and education of mountain children. For 19 years he has been engaged in school work in Perry county. He taught for two years at Berea and is a member of the Board of Trustees of Berea College. At present, he is the secretary of the Board. He is a director of Maryville College and of the Louisville Theological Seminary. Dr. Gabbard favors the Thomas-Hill Bill for Federal Ald to education and will support it.

(3) FOR LABOR. Dr. Gabbard believes that the people of America can and should make it possible for every citizen who wishes to work at productive labor to have a job that will make possible a decent standard of living. Every individual should be afforded an opportunity to prosper according to his talents, his abilities and his diligence, subject only to the rights of his neighbors. There must be a fair return to both labor and investors if all are to have jobs for the workers, goods for the consumers and revenue for the government.

(4) FOR THOSE UNABLE TO PROVIDE FOR THEMSELVES. Dr. Gabbard approves Federal aid to states and through states wherever necessary to provide subsistence, shelter and medical care for those who cannot provide it for themselves. There must, however, be no socialization of medicine or of any other activity. The Kentucky old-age pension should be brought up to the average for the
