

This Town-- That World

WORSE THAN THE 'FUNNY BOOKS'

These folks who have a "funny-book" phobia, blaming all juvenile delinquency on the comics, many of which admittedly are trash, should get het up about the movies, too.

I am not fit to be tied about the matter and I don't expect to reform the world, or even the movie world, but some of this picture stuff is sickening. Particularly those scenes showing the lovely heroine or that handsome leading man hitting the booze.

Now, I know that a semblance of realism in any art requires touches, here and there, of the grosser things. All cannot be kindness and light, laughing cherubs and shining knights. But the movies have so persistently shown Him and Her and everybody else downing a drink that the impressionable may get the idea you can't be polite or genteel or well-dressed or easy to look at or anything else unless you have a highball inside you and another coming up.

Whatever my faults, I have never blamed either anything I have read or any film I have seen for them, but this stock drinking scene appears so often on the screen that one can't help wondering if the liquor industry doesn't have Hollywood subsidized.

THE WINNAHS!

Well, Scott Harkins and Joe Cooley "won" the Lions Club ducks--plastic ribbons, natural quacks and all. These two gentlemen were voted the most deserving at Tuesday evening's meeting, and the Club presented the "awards" with proper ceremony.

Two weeks hence, these ducks will be weighed and for every ounce they've gained or lost in weight their present keepers will be assessed 10 cents. If, perchance they should become hungry and dispose of the ducks, that will be \$10, please.

The only miscue about this ducky matter was by some Lion who professed to know his ducks. Something seems to be wrong about his bold declaration that Joe Cooley had on his hands a drake. This became evident next day when Sir Drake laid an egg.

CONSULT THE FISH

Must see Arthur Goble before I start fishing again. He assures me his goldfish is as infallible as Popeye's jeep. If this imprisoned member of the finny tribe mounts toward the surface, greedily looking for food, hit for the river in a long lope, says Arthur. If he sulks and hangs around the bottom, barely moving a fin, stay away. It's as simple as all that, all other theories th's and all other columns have expressed to the contrary.

WAY BACK THEN

Today I saw at the Circuit Clerk's office a copy of the Dec. 23, 1909 edition of The Prestonsburg Herald--all four pages of that time-yellowed predecessor of The Times. Looking it over, I decided the editor, Warren Meek, had an easy job of it; but, if he were alive, he probably would call me a liar and prove it.

Page One was filled, except for three or four inches, with Sheriff's sales. W. M. (Bill) Buck) Stumbo was Sheriff then, and the sales were signed by J. B. Jones, deputy sheriff. One news-story told of the recent wedding in Mt. Sterling of Miss Valentine Pieratt and John C. Hopkins, of Prestonsburg. A big coal operation, The Herald said, was about to begin at Auxier.

The ads told of A. J. Brumberg, Tronton, O., having suits, raincoats and overcoats for as low as \$5 and never more than \$25. Silk suspenders were pretty high, though. The First National Bank had resources the ad said, of more than \$130,000. That was 39 years ago, come December 23, the good year 1948.

FIVE START PRISON TERMS

Mother and Daughter Among Those Taken In Floyd Slayings

Five persons, four of whom were convicted at the September-October court terms, began serving pen sentences last week upon their transfer to LaGrange from the Floyd county jail.

One of the five, Mrs. Ritter Hall, elderly Jack's Creek woman, was under five-year sentence from a previous court term verdict in the slaying of her neighbor, Polly Johnson, but had deferred actual beginning of her term by filing notice of an appeal. With her went her daughter, Mrs. Beatrice Johnson, who entered a plea of guilty recently and drew a two-year term. They were taken to prison by Deputy Sheriff Epp Lafayette.

Others taken by Sheriff Troy B. Sturgill and Deputy Sheriff Harold Conn:

Isaac Smothers, Wheelwright negro, 15 years in the slaying of John Johnson; Jarvey Hamilton, 21 years for the killing of Monroe Bryant, and Sylvester Blackman, two years, for cutting and wounding.

Returned to LaGrange last week after having been brought here as witnesses in trials were Charles Bates, Charlie Compton and Dewey Gibson.

TANK BURSTS, TWO INJURED

Father and Son Caught As Water Spills Downhill

Sam Rector and son, of Garrett, now know what things were like when the dam broke.

For they were a short distance below the water tank of the Diamond Elkhorn Coal Company at Bosco when it suddenly collapsed last Thursday afternoon, spilling out a torrent of thousands of gallons of water and a heavy volume of mud.

The two were engulfed temporarily by the flood and required treatment at the Stumbo Memorial hospital, Laekey, Ted Stapleton, mine manager, was near the two men who were gathering scrap metal and he barely escaped injury.

Capacity of the tank was 75,000 gallons. The water was used in the washing of coal. The water was drawn from Beaver Creek and a heavy load of mud was said to have accumulated in the tank. It had been used for coal-cleaning purposes for a few months, and was located on the hillside above the mine tipple. It was said this week the tank will be replaced.

SLATE KILLS PARIS PENIX

Weeksbury Foreman Is Victim Thursday; Burial in Johnson

Paris Penix, 61 years old, mine foreman, died instantly when his neck was broken by a slatefall in the Koppers Coal Company mine at Weeksbury last Thursday.

Mr. Penix was a native of Johnson county and was well-known in both Johnson and Floyd. He is survived by his widow, three sons, Paris Penix, Jr., Orville and Estill Penix, and six daughters, Pauline, Lillian, Eunice, Bessie, Vaneta and Bobby Penix, all of Weeksbury.

The funeral was conducted Sunday from the home of Shade Wells, brother-in-law of the victim, and burial was made in the Wells cemetery under direction of the Ryan Funeral Home. Officiating at the funeral was the Rev. Kenneth Fleming.

Habeas Corpus Seeks Custody of Child For Its Mother

Alleging that her husband, Will Reynolds, has taken their 13-month-old daughter, Eva Joyce, is holding her at the home of his father, Kay Reynolds, on Frasure's Creek against her will and is threatening to take the babe out of the state, Mrs. Maudie Reynolds this week filed suit in the Floyd circuit court for a writ of habeas corpus to recover custody of the child.

The suit, filed for Mrs. Reynolds by Atty. H. R. Burke, pointed out that the child was still nursing when taken from the mother on Oct. 17 and that since that time she had not been permitted to see the baby.

BIRTH OF SON

Announcement is made of the birth on Monday, Oct. 11, at the Paintsville hospital of a son, their first child, to Mr. and Mrs. Eugene P. Brown, Prestonsburg. The youngster has been named Eugene Peck Brown, Jr. Birth was by Caesarian section, and Mrs. Brown and son returned to their home here Tuesday of this week.

THURSDAY

SLACK RUN TEMPORARY, SAYS HOMAN

More Orders for Coal Expected with Winter; 40 Truck Mines Close

Floyd county and Eastern Kentucky coal production which this week apparently was crawling toward a new post-war low is not doomed to a state of permanent doldrums, was the opinion expressed Wednesday by H. S. Homan, secretary of the Big Sandy Coal Operators Association, Pikeville.

Mr. Homan was queried for an over-all picture of the industry in this section after reports had been received here that approximately 40 more truck mines on Right and Left Beaver Creeks have ceased to operate within the last few days, or will be idle by week's end. These reports also pictured the rail mine industry as suffering from a scarcity of orders.

One Left Beaver Creek merchant said this week's was the dullist in 21 years' experience.

"The market is very soft on domestic coal," Mr. Homan commented, "but this condition is more or less seasonal. There hasn't been enough cold weather to increase the demand, and, strange as it may seem, people will not buy coal, though they know they will need it, until weather conditions make coal purchases urgently necessary. The dealers' yards are full but basements remain empty."

"Everybody produced and loaded up on coal, expecting a lengthy shut-down, July 1," Mr. Homan continued in explaining the over-supply of coal. "This, with the reduced foreign demand, creates the current situation."

Although he admitted truck mines with no facilities for cleaning coal, or those unable to load their product over tipples equipped for cleaning, will under ordinary conditions be unable to operate, Mr. Homan expressed the belief producers of good quality coal will find market conditions better with colder weather.

VICTIM'S KIN JAILED HERE

Widow Says Justice Slaying Unprovoked; Tells of Struggle

Frank Justice, 29-year-old Tram negro, is in jail here, charged with the shotgun slaying of his cousin, James Nelson Justice, 32, of Tram, mine motorman and well-known colored baseball player in this section.

Justice was arrested at Tram by State Highway Patrolmen Chester D. Potter and Ed Craft Sunday afternoon, shortly after he had allegedly fired the charge of a shotgun into his cousin's side. The wounded man died at the Beaver Valley hospital, Martin, at 6 a.m., Monday.

Examining trial for Justice has been set by County Judge Alex L. Davidson for Friday.

Widow of the victim told authorities here that Frank Justice had stayed at their home for the last two years and had come to the James Justice home Sunday, intoxicated, and on the pretense of wanting to remove his clothing. She said he fired on her husband at close range without provocation, snapped the weapon at her, then wrenched it and fired at her, missing at a distance of a few feet. She added that she then grasped the other about his legs and contrived to gain a hold on the shotgun after which another shot was fired. While she tussled with the drunken man Andrew Justice came to her rescue, it was said.

Wash Justice, father of the slayer, was quoted as saying "they all were drunk," but the widow of the slain man denied her husband was drinking, officials said.

The victim, a son of the late Clay Justice, formerly was employed at the Auxier hotel here. He is survived by his widow and the following brothers and sisters: Andrew and Howard, of Tram, William, Huntington, W. Va., Carl, of Stone, Mrs. Macey Hill, Knoxville, Tenn., Mrs. Edith Jones, Chicago, Mrs. Mabel Milton, Philadelphia, and Mrs. Nettie Rowland, of Tram.

Funeral rites were conducted at Tram today (Thursday), the Rev. Isaac Stratton and the Reverend Mosley officiating. Burial there was directed by the Arnold Funeral Home.

60 Sunday Schools Invited to County Convention, Oct. 31

Floyd county's 60 Sunday Schools have been invited to send representatives to the annual county Sunday School convention which will be held Sunday afternoon, Oct. 31 at the Laynesville Methodist Church. It was announced this week by Jesse Elliott, president of the Floyd County Sunday School Association.

Theme of the meeting will be, "Increasing and Holding Sunday School Attendance."

A Sunday School map of the county will be made available at the meeting to interested workers, Mr. Elliott said. Election of officers will appear in brief talks and a round-table discussion also will be held.

DOUBLE CALL IN NOVEMBER

Possible for Floyd, Draft Board Hears After Drawing Bye

Although Floyd county escaped the October draft call, a strong possibility exists, it was said at draft headquarters here this week, that the November call will be twice as heavy as it otherwise would have been.

The draft board still was unable to explain why this county had no call while neighboring Johnson and Knott had calls for 15 men each this month.

Draftees from 17 counties, it was said this week, will report to Ashland for processing and examination in the army recruiting office, Kitchen building. These counties are Floyd, Johnson, Pike, Martin, Magoffin, Morgan, Rowan, Boyd, Carter, Bracken, Elliott, Fleming, Lawrence, Lewis, Mason and Robertson.

The first contingent of 28 draftees, these from Rowan and Carter, was examined there Wednesday.

Capt. John Crowder, officer in charge of the Ashland office, said he expects 200 men to be examined there for military service within the next month.

Shaw Starts Classes For Mine Officials

Russell Shaw, federal mine inspector, is conducting a series of accident prevention courses at mines over this section for mine officials. The courses are sponsored by the U.S. Bureau of Mines, and currently Mr. Shaw is working in the Hazard field.

The courses cover statistics, roof fall hazards, haulage, mine fires and explosions, ventilation and electricity.

David Scouts Marker Memorializing Historic Landmark Unveiled Friday

Site of the salt lick at David where Daniel Boone and a companion camped through the winter of 1767-68 on the famed explorer's first venturesome trip into Kentucky officially became a historic shrine Friday with the dedication of a Boone memorial marker.

Thus the David Boy Scout troop which bears the explorer's name further perpetuated the memory of Boone who, historians say, was probably spared for further Kentucky ventures by the fact that at the spring he found an ample supply of wild game to sustain him through the rigors of this first winter he spent in the Dark and Bloody Ground.

The cairn-like marker, built by the Boy Scouts with the assistance of the Princess Elkhorn Coal Company, is located a few yards from the David Community Church. Location of the spring, with surroundings vastly changed by the development of the community as a modern mining town, was fixed by the unearthing at the spot of fire-blackened stones which are believed to have been used by early settlers as they boiled down the water from the spring into salt, in that day one of the most precious items in pioneer life.

A bronze tablet inset briefly retells the historical record of Boone's encampment at the salt lick and the

Wayland-- a Town and a Half And It Really Reaches Out!

Master Ripley! Aren't you missing something?

Heard yet of the incorporated town that's a town and a half, with three miles and three other towns between its nether city limits?

Well, Floyd county has it.

The corporate town of Wayland includes not only Wayland proper but also all of Garrett owned by the Elk Horn Coal Corporation, three miles away, and a few other scattered pieces of property en route.

Along the highway and railroad between Wayland at the southern end of the town and Garrett at the northern are the towns of Laekey, Estill and Gio. The portion of Garrett lying on the east side of the C. & O. Railway Company tracks is, officially, Wayland. On the other side of the tracks a few houses are in-

cluded in the town's corporate borders.

Despite the intervening miles and towns, Wayland is one continuous corporation. How so? Simply because a narrow strip of land extending up the ridge from Garrett connects with Wayland. Along the way, the town's boundaries dip down a spur ridge between Martin Branch and Wicker Branch to include the homes on Estill Heights of Thomas Hatcher, Wayland's postmaster, and J. C. Wells, member of the town council, and farther down the home of Joe Terry, also a member of the council.

The town's one policeman is stationed at Wayland proper, with a deputy sheriff usually assisting from the Garrett end of the town. The police judge has his office in Wayland--the upper end of town, that is.

TO ORGANIZE FOR SAFETY

With School Troopers; Idea Not New Locally Where Patrol Is Active

The largest school safety program ever to be undertaken in the state is now underway, State Trooper Lee Tucker, director of the Division of Kentucky School Safety of the Department of State Police, said last week.

The program is being sponsored jointly by the State Police and American Legion in Kentucky in co-ordination with interested civic organizations. It is being set up by the State Police and is being financed by the American Legion.

The school patrols will be known as the Kentucky School Troopers. (In Prestonsburg for months already a schoolboy patrol has been functioning, with individual members of the City Council supplying them helmets. Their work, police say, has been markedly successful here.)

"The purpose of the program is to safeguard our children as they come and go from school," said Guthrie Crow, Commissioner of State Police. "Later," he said, "a juvenile crime prevention program will be set up, but first we must get our safety program under way."

Any community which desires to benefit from the program may contact Tucker at State Police headquarters in Frankfort.

The program will consist of safety talks, movies, and uniforms for the school troopers, in addition to the organizational work done by the police. The American Legion, along with interested civic organizations in certain communities, is buying belts, badges, and caps for members of the school troopers.

RAILMAN HURT LAST FRIDAY

Stith Loses Leg, Is Disemboweled In Train Mishap

Despite the fact that he lost a leg and was disemboweled while a train engine dragged him a distance of approximately 40 feet last Friday afternoon at Martin, Jimmy Stith, 25 years old, brakeman, is considered at the Beaver Valley hospital, Martin, to have a "fighting chance" to live.

The young man has received several blood transfusions and was able to take a slight quantity of nourishment Tuesday. Yet his condition remains grave.

Stith was injured after helping switch cars on the Buck's Branch spur line from the Martin yards, and is believed either to have missed his step or to have fallen from the step of the water tank. A wheel, it was explained, severed his leg and his abdomen was caught by a low-hanging piece of metal. His predicament was not observed until the train had moved approximately two rail-lengths and when seen he was signaling with his free hand for the engineer to stop, it was said.

Almost an hour was required to extricate the injured man. While rescuers sawed Stith free, Dr. J. H. Allen administered an opiate and stood by in attendance.

The injured man, a former Ashland high school basketball and football star, is a son of Mr. and Mrs. Jay N. Stith, formerly of Martin, now residents of Ashland.

T. L. Porter is seriously ill at his home in Pikeville. Relatives here who have visited him within the last few days note no improvement in his condition.

Sol Spradlin Dies At Estill Residence

Sol Spradlin, 67 years old, retired miner, died at his home at Estill Saturday, following a long illness.

Mr. Spradlin was a native of Riceville, Johnson county, and was a son of the late Henry Spradlin. He was a member of the Freewill Baptist Church and was highly regarded by his associates. Surviving are his widow, Mrs. Minerva Spradlin, three sons and two daughters, Emmett and Orville Spradlin, both of Franklin Furnace, O., Herbert Spradlin, Mrs. Ira Roberts and Mrs. Raymond Wice, all of Detroit.

Funeral rites were conducted Monday from the Freewill Baptist Church at Martin Branch, the Rev. Charles Rowe officiating. Burial in the Turner Campbell cemetery at Mousie was directed by the Ryan Funeral Home.

U.S. ENGINEERS TO SELL HOMES

To Accept Bids on 12 Johns Creek Residences In Area To Be Flooded

Sealed bids on 12 residences and outbuildings belonging to each, lying in the Johns Creek reservoir, will be opened at the office of the District Engineer, Corps of Engineers, Huntington, W. Va., at 10 a.m., Nov. 8, it was announced this week. Bids must be filed in triplicate with the district engineer's office in Huntington or the Real Estate Project Manager, Corps of Engineers, in the Postoffice building here.

Residences to be sold include: Five-room dwelling, box construction, two miles upstream from the Deway dam, formerly owned by L. F. Goble; seven-room dwelling, frame construction, two miles upstream from dam, formerly owned by L. G. and Virgie Mayo; five-room box construction, 2.4 miles from dam, formerly owned by Kennis S. De-long; four-room frame, 2.5 miles from dam, formerly owned by George Goble; two-room box construction, 8.1 miles from dam, formerly owned by Arson Crider and others; five-room box construction, 8.1 miles from dam, former property of Lacy Delong and others; four-room box structure, 8.6 miles from dam, formerly owned by Malcolm Ward and Fred Burchett; four-room box building, 8.7 miles from dam, formerly owned by Myrtle Collins; one and a half story six-room frame house, 1.4 miles from dam, formerly owned by Harry Hyden; five-room boxed dwelling, 10.6 miles from dam, former owners, Perry and Olga Crider; four-room boxed structure, 12.8 miles from dam, formerly owned by Kennis and Myrtle Spears.

Outbuildings with the various residences include barns, smoke-houses, chicken houses and the like.

FIGURES SAY GOP BEHIND

In Voter Registration; Partial Count on 7th District Is Supplied

Kentucky may be figured safely in the Democratic column--unless figures lie.

For registration statistics released this week from Democratic headquarters in Louisville show that there are 740,451 voters in the state registered as Democratic to 484,485 registered as Republican.

Only in the Ninth Congressional district is the GOP ahead on the basis of these registration figures.

The reported registration from the Seventh Congressional district, with Letcher and Magoffin unreported:

	Dem.	Rep.
Knott	9,800	700
Perry	11,392	12,081
Johnson	4,535	9,119
Martin	954	4,287
Floyd	14,000	8,000
Pike	20,947	15,149
Totals	61,423	49,326

The strongest Democratic bid for votes in this Congressional district was being made this week, with U.S. Senator Alben W. Barkley, President Truman's running-mate, to speak at Pikeville and Hazard Saturday.

In this county Democratic community rallies have been scheduled this week and next, with Carl D. Perkins, Democratic Congressional candidate, and local speakers addressing the voters.

EARTHEN FILL REACHES TOP OCTOBER 2

Entire Project Now 85 Per Cent Finished; Spillway, Major Item

July 11, next year, has definitely been set as completion date of the Deway dam and the official birth of the Johns Creek reservoir.

The date was set after the huge earthen fill across Johns Creek reached its peak grade October 2 and work on the barrier itself was virtually completed. As of Wednesday, this week, the overall project stood at 85 per cent of completion, it was said.

Work to be done on the fill itself includes rock protection of the upstream slope, seeding of the downstream side of the dam and the building of an access road across top of the dam. Grading of the road to the top of the barrier is now under way.

During four months of the past summer the Ryan Construction Company worked 20 hours a day, six days a week, moving a mountainous mass of earth for the dam across the Johns Creek valley. Four months work on the fill was done in 1946, and altogether 660,000 cubic yards of earth were moved to form the barrier.

Major items of work remaining are on the intake structure, a service bridge 180 feet long leading from the dam to the intake structure, spillway concreting, construction of a dam tender's quarters and cemetery relocation. Concrete lining of the spillway channel, the major item, is now under way.

Two crews are clearing the reservoir area of timber, one now working in a range of two miles of the dam, the other in the vicinity of German.

Date of letting contracts on the dam tender's cottage and for relocation of graves remains indefinite.

MARTIN MAN AUTO VICTIM

Gregory Dies Instantly In Wreck Sunday Night; 11 Wrecks Reported

One of 11 automobile wrecks reported to state police within 24 hours of last week-end resulted in the instant death at Garth, near Martin, early Sunday night of David Clinton Gregory, 23 years old, Martin carpenter.

Gregory, who was employed at Price on Left Beaver Creek, was driving up the Left Beaver highway when his car left the road at a curve at Garth and plunged approximately 60 feet into the creek. His neck was broken. Seven others were reported to have been in the auto at the time and all of these, escaped with minor hurts.

Jake Salisbury is in the Beaver Valley hospital, Martin, suffering a broken arm and head lacerations received in a collision Sunday of his car with a truck near Warfo. It was said.

Ernest Owens, of Johns Creek, was jailed here on a drunk driving charge after his auto had struck a car driven by Bill Ratliff, of Langley, Sunday night in the "Narrows" near Knotley Hollow, a few miles from here. Before Owens' car was moved from the scene of the wreck another auto, driven by a Booth youth from Ligon, struck Owens' car and plunked over the embankment. From these two wrecks at emerged little injured.

Victim of Sunday night's wreck was a son of Elbert Gregory, of Martin, and the late Artie Dingo Gregory. He was a veteran of World War II and had many relatives and friends in the county. Surviving, besides his father, is one brother, Harry Gregory, of Alphaetta.

Funeral rites were conducted Tuesday afternoon from the Iohnness Church at Martin, the Reverend Martin officiating. Burial was made in the Dingo cemetery at Alphaetta, the Ryan Funeral Home directing.

**FLOYD COUNTY VETERANS**

**OF World War I and World War II**

**THE DUTY:**

**WORLD WAR I VETERANS:** We, the veterans of World War II are back of you 100% in your fight for your just and over-due pensions. We believe all veterans of all Wars should be treated alike. We realize you have been long neglected and long forgotten. We know that you have been recognized for the first time in the "Meade Bill" to provide monthly pensions up to \$115.00 per month beginning at age 50. We will fight for the "Meade Bill." We will continue our fight to re-elect Meade "The Veterans' Best Friend in Congress."

**THE RIGHT:**

**WORLD WAR II VETERANS:** Under the G. I. Bill of Rights it is provided that the benefits received under the G. I. Bill shall be deducted from our bonus. Now over one-third (1-3) of the veterans of World War II have drawn all or part of their bonus. But most of those 1-3 who have drawn theirs are in the big cities. Many World War II Veterans have already received over \$5,000.00 from the Federal Government under the G. I. Bill. 2 1-2 million have drawn all or part of theirs for their college training. Three million more have drawn all or part of theirs in other parts of the Bill.

**THE TIME:**

We believe that now is the time to equalize these benefits. We want our just dues now. We deserve this adjustment in loss of pay while we were in the service. World War I veterans had to wait until their later years for their bonus from the Federal Government. We need ours now. Most of the "Big City" veterans have had theirs. Now is the time for the small town and rural veterans to get their just dues. The Federal Government can easily finance this obligation at this time, and now is the time when we need it most.

**THE PLAN:**

Every veteran can easily figure his own bonus at the rate of \$5.00 per day for overseas and \$4.00 per day for Stateside duty. The limit will have to be \$4,450.00 for any one of us, except the disabled. Benefits already received (not pensions) will have to be deducted.

**THE EXAMPLES:**

Veteran A: S-Sgt. 8 months in States 13 months Pacific ..... \$2,910.00	Veteran B: Sgt. 15 months in States Limit 21 months Jap prisoner ..... \$4,450.00	Veteran C: S 1-c 13 months States ..... \$1,560.00	Veteran D: P.f.c. 6 months in States 15 months Europe ..... \$2,970.00	Veteran E: P.f.c. 7½ months in States 14½ months South Pacific \$3,075.00. Less \$1,281.50 received under G. I. Bill in College Due ..... \$1,793.50

We have seen that Howes Meade can get things done. He has earned the title "The Veterans' Best Friend in Congress." In 1948 the Meade Sub-Committee alone was responsible for \$289,500,000.00 per year additional benefits for us and our families.

- For the first time in history allowances have been made for the dependents of disabled veterans.
- For the first time a fight has been started for World War I Veterans' pensions.
- Our older veterans of the Spanish American War have received 20% increases.
- Howes Meade has earned the title "The Veterans' Best Friend in Congress."

**THE FIGHT:**

# Is the Big Sandy Valley to Remain A "Stand-by For War?"

TO THE TRUCKERS, MERCHANTS AND ALL CONCERNED IN THE BIG SANDY VALLEY:

Because business is bad, many people are asking, "Is this the end of the Truck Mining Industry?" Stores have lost trade, many men are out of work and the outlook is not bright for the Big Sandy area.

No railroad men have been laid off in the Kanawha River Valley. In West Virginia miners are not having to live on one or two days work per week. Trade is booming there, and it may boom even more after the last peal of the funeral knell has been sounded for the Big Sandy Valley.

WHY IS THIS? Why should prosperity abound in one area while economic poverty lurks in a neighboring community?

The rail freight rate in the Kanawha River Valley is barely more than half the rail rate per mile in the Big Sandy Valley. The Kanawha River has been canalized and river barges haul part of the huge coal production, and railroads operating in that Valley have not dared increase their freight rates all the traffic will bear.

THE BIG SANDY RIVER MUST BE CANALIZED! I urge you to take action—Howes Meade, in Congress, has done much in such short time to resurrect the Big Sandy Canalization Bill which the 79th Congress defeated. Let's get in line for him; work for him; vote for him and send him back to Congress to present the new Canalization Bill next January! Let's put our truck mines to running full blast.

Howes Meade has brought the men to our Valley who will be in position to get this job done. He brought us Congressman Frederick A. Muhlenberg, Chairman of the House sub-committee on Rivers and Harbors; Howes Meade presented us with Senator George W. Malone, Chairman of the Senate sub-committee on Rivers and Harbors; he brought us Dr. W. C. Schroeder, Chief of Synthetic Fuels Division of the Bureau of Mines; and he has brought to us Minnesota's able former Governor Harold E. Stassen. Congressman Muhlenberg and Senator Malone are both Engineers and their opinions will stand.

These men will be working with Howes Meade for this great program.

The Board of United States Army Engineers want the Big Sandy River canalized in the interest of vital national defense. These men want it done. Only one force can stop it, and that is the Congress itself.

That's why I urge you to vote for Howes Meade. We can depend on him. He has made the proper contacts. He will be a tower of strength with our next President, Tom Dewey! Howes Meade is the only one who can get this done!

Howes Meade is from this Valley. He has lived here all his life. He wants the Big Sandy to prosper. He wants an even flow of prosperity for our people. He does not want our great coal industry to be just a "Stand-by for War."

VOTE FOR HOWES MEADE FOR CONGRESS and share in the honor of getting this great job done.

Very Sincerely,  
CHARLES F. TRIVETTE  
Former State Senator

## Hi-Ho, Mister!

Every week I got to write this piece for the paper. If you think that's easy you must never have wrote more than an excuse for Junior. Folks get tired of everything they do that's regular. Except eating. Three times a day we like to eat. Specially when there's Silver Mist biscuits on the table. Eat 'em with molasses. Or fresh country butter. Or jelly, or jam, or gravy. Any way you want to because stone cold or half burned, Silver Mist biscuits still got flavor. Honest-to-goodness flavor you get whenever you or the Missus buys Silver Mist Flour. Must be some reason why Silver Mist's better, but all I know is biscuits and cakes and pies just TASTE better when you tell your grocer you got to have Silver Mist. If you haven't had any in the house lately right now's a mighty good time to go to see your grocer, too. Ask for good-tasting Silver Mist Flour.

### WE PICK PERKINS

(An editorial from the Hindman News, Oct. 15)

Frankly, if the Hindman News, as his home-town newspaper, had nothing good to say of Carl D. Perkins, it would remain silent.

But, inasmuch as Carl Perkins is the type of man and official whom we can, with full obligation to our readers, endorse, we propose to make clear to the people of Knott and surrounding counties why this newspaper gives him its unqualified support.

Carl Perkins is no stranger to you. Many of you have known him from boyhood. Practically all of us have known him, or known of him, as he served Knott county as County Attorney, the Thirty-first Judicial district as Commonwealth's Attorney, the Legislative district of Knott and Magoffin counties as state Representative, and, currently, the state of Kentucky as Assistant Attorney General.

His advance in the esteem of his people and in positions of honor and trust has been steady and sure. Now, he is the Democratic party's nominee for the office of Representative in Congress from the Seventh Congressional district. We are tempted to be guilty of a cliché by saying: "Such popularity must be deserved."

This native Knott countian is the type of man to whom the common man can go for advice, help, sympathy. Carl Perkins is that sort. He naturally likes people. He shares with others their joys and sorrows, he instinctively reacts to their moods.

What we are trying to say is, he is the type of individual folks can't help liking. He belongs to no one class.

More than that, Carl Perkins has a forward-looking program, one which envisions better living and working conditions for all. He knows how to do things and how to get things done. His experience as a lawyer and public official now stands him in good stead.

Labor knows his sincere friendship for the man and woman who earn a livelihood by toil. Labor also knows the record left behind in Congress by his opponent—which, certainly, by no stretch of the imagination could be considered the work of a friend of labor.

As for the veterans, Carl Perkins entered the army in the recent war as a buck private, participating in four battle campaigns, Northern France, Battle of the Bulge, Rhineland and Central Europe.

Carl Perkins, then, knows the thoughts and feelings of the man who saw battle in the mud. His deep feeling for other veterans has led him to condemn Congressman Meade's support of the Wolcott Bill in Congress. This was the bill which the real estate lobbies wanted. And the real estate lobbies did not want legislation providing for low-rent housing for veterans and slum-clearance. This was the bill Senator Tobey of New Hampshire angrily declared "a snare and a delusion. It is not a housing bill. It is a scheme, a circumlocution process. The veterans have been flim-flammed by this legislation."

Carl Perkins has pledged himself to vote and work for legislation which will provide low-cost housing to the veteran and others who are now homeless because Congressman Meade and others bowed to the millionaire real estate dealers and manufacturers; he is pledged to work for low cost of living, to benefit the wage-earner, the "white collar" worker, the teacher and all those others who have suffered from greed.

Is it any wonder then that, even if we did not know this native of Knott county for his fine human qualities, while knowing wherein his opponent has failed, we say:

Those who believe in the humanities and in human progress for the small as well as the great, should vote for Carl D. Perkins for election to the Congress of the United States at the coming election.  
(Pol. adv.)

(Continued from Page One)

search is credited the story which made the community and the section conscious of the historic interest of the town of David, read The Floyd County Times' story of Boone's encampment.

David L. Francis, president of the Princess Elkhorn Coal Company, and H. E. Greer, Hazard, president of Longme Pine Council, Boy Scouts of America, lauded the work of the Scouts and their leader, the Rev. J. E. Durham, of David.

Of the work of Mr. Francis as a sponsor and godfather to civic improvements at David Mr. Greer added: "You are lucky to have with you such a man as Mr. David Francis."

Ex-Congressman A. J. May, Prestonsburg, delivered the principal address of the afternoon, and he established a parallel between the adventurous spirit of Boone and the spirit of progress in the building of the Commonwealth. "Boone," he declared, "started out to replace an era of savagery with an era of civilization."

"Being a man of great commonsense," he loyally added, "he came to Kentucky."

Directing the Scouts in their part of the program was the Reverend Durham who gave the invocation. Music was rendered by the Prestonsburg school band and by the glee club of the David school.

An "unwritten" skit depicting the slaying of a deer by Daniel Boone was also directed by the Rev. Mr. Durham. In this Glenn Dixon enacted the role of the explorer, and was assisted by Sonny Carver and Jack Bartlett.

### Mystery Shot Wounds Auxier in Wrist

A bullet from the revolver of an unseen gunman penetrated the wrist of Knox Auxier, 24, of East Point, Monday as he and four others sat near the entrance of a small mine, a short distance below the Dewey dam.

Auxier said here Tuesday he had raised his hand when the revolver cracked, that the others ran for the cover of a nearby house and that he followed inside before he realized he had been hit.

The shot, he said, came from nearby, but nobody was seen and he could ascribe no reason for the shooting. No investigation had been made, it was said.

The bullet, of 38-calibre, failed to pass completely through the wrist and was removed at the Prestonsburg General hospital.

### The 1949 FRAZER

Trailblazer—of cars to come!

Once in a blue moon the stylists and engineers outdo themselves. They create a car that goes beyond today and sets the pattern for cars of the future.

This is what they have done with the FRAZER for 1949!

Low, sleek and differently handsome it is the trailblazer in style of cars to come. Its exclusive colors and fabrics have made the world's leading fashion designers fall in love with it. They call it "the dream car".

The same car, the FRAZER for 1949, has even won the hard-to-win hearts of the test drivers who must relentlessly punish a car mile after mile for weeks on end. They say the Frazer makes such driving no punishment for them. Its driving ease and riding comfort "make 600 miles a day a breeze," they say.

There's a thrill waiting for you at your dealer's today. With 100 new features, improvements and refinements, the 1949 FRAZER is ahead of its time... out front—trailblazing the way for all the cars to come.

First to break clean and scrap tradition, the cars from Willow Run have done it again. Because unlike other "new" cars built since the war, they've road-proved their dependability—2 billion miles worth! Value-proved to a quarter-million justly proud owners. See and drive the new FRAZER now! It's at your dealer's. Kaiser-Frazer Corporation, Willow Run, Michigan.

**BIRTH ANNOUNCEMENT**

Announcement is made of the birth on Friday, Oct. 15, at the Paintsville hospital of a daughter, Therese Marie, to Mr. and Mrs. Joseph F. Gastright, of Martin.

**TIMES WANT ADS PAY**

**TO THE VETERANS:**

Carl Perkins, an ex-G.I., is the Democratic nominee for Congressman from this district, subject to the election on November 2. Carl went into the army as a private, like the rest of us. He was a private when he landed on Omaha Beach and was discharged as a T/4 after taking part in the "Battle of the Bulge." This is the first time since the last war that the people of our district have nominated a former enlisted man for national office. Carl is a typical "G.I.," and knows our troubles and problems. He has pledged himself to vote for all legislation beneficial to the VETERANS. He is particularly interested in legislation which will enable VETERANS, with government assistance, to purchase homes under a long-term payment plan.

His Republican opponent has shown that when the chips are down he will desert the veterans for the real estate lobby and the moneyed interests. The record shows he did that on the 18th day of June, 1948, when he voted for the pseudo makeshift Wolcott Housing Bill which the real estate lobby rammed through the House of Representatives as a substitute for the Taft-Eilender-Wagner Housing Bill which the veterans' organizations were supporting.

Carl Perkins is fully qualified by education and experience to represent the people of this district in Congress. He is an able lawyer, has served as a member of the State Legislature, and has been County Attorney of Knott county and Commonwealth's Attorney for the Judicial district composed of Knott and Floyd counties. He is now Assistant to the Attorney General of the state of Kentucky.

The laboring man is solidly behind him—and he is going to win. The politicians are watching the veterans' vote. Let's show our loyalty by giving Carl Perkins a record vote on November 2nd. As VETERANS and "G.I.'s" ourselves, we are asking you not only to vote for Carl yourself, but ask your relatives and friends to vote for him.

Sincerely yours,

# Cats in Garrison Finish Win Over Pikeville--Louisa, Next

For one-half of last Friday night's football game here with the Pikeville high school Panthers, the Prestonsburg Black Cats gave an excellent imitation of dead cats.

Then at the halftime intermission something happened. Something which converted a bumbling, inept eleven into a fighting football team, strong defensively and with power in its running attack.

The result was that the Cats came from behind after spotting the visitors to 13 points in that dimly lit first half to win a dramatic victory in the very last seconds of the contest, 15 to 13.

Pikeville, a team which has not won a football game all year, showed the heavier Cats all over the field in the first two quarters. A reverse play had the Prestonsburg defense up in the air, and when this failed the Panthers took to the air with considerable success. The Panthers scored in the first quarter but that didn't appear to be fatal. When they were apparently stalled on the Prestonsburg 35, however, and burst through center on a delayed back for an almost effortless touchdown, then added the extra point, many fans thought it was curtains.

Prestonsburg came back from the halftime recess, however, a different team. Facing almost certain defeat, with their unsullied conference record at stake, the Cats were far from a whipped team. Pikeville attempts at the effective reverse went into reverse; Pikeville backs were thrown for losses; their passes went for naught or were intercepted. The visitors' running attack in the last two quarters was completely stymied.

Meanwhile, Prestonsburg was mounting an offensive of its own. In the third quarter a drive on straight running plays did not stop until Gene Boyd lunged off-tackle for eight yards and the first Cat touchdown. Moments later, he converted with a line smash. In the fourth period it was Joe Stanley again, as on the previous Friday night, with a touchdown off-tackle from the five after contributing an earlier sparkling run. The conversion attempt failed and the score stood at 13-all.

End of the game was near, and Prestonsburg kicked off to Pikeville. The Panthers lost the ball on a fumble deep in their own territory. Prestonsburg drove in for the kill,

but the sturdy Panther defense held within their five. Then came the play that won the game for Prestonsburg.

With seconds remaining in the contest, Pikeville was expected to kick, the punter standing back of his own goal line. Instead, the Panthers chose to run. The runner was barely started when Paul Harmon, big Black Cat end, crashed through to down him for a safety and the winning points.

Featuring the Pikeville attack was the running of Waits May, former Prestonsburg boy.

Friday night of this week, the Cats face their toughest Big Sandy competition of the year in the undefeated Louisa Bulldogs. Louisa comes here with wins over Highlands of Covington and Hazard high school, the latter last Friday night by a 36-14 score at Hazard. The Bulldogs have lost only one game over the last two seasons and that to Prestonsburg last year, 7 to 6.

For the game, unless injuries are suffered during practice this week, Prestonsburg will be at near full strength. Coach Benedett is planning his hopes on the possibility that his team will retain for this game the fight and drive they found in the last half of Friday night's never-say-die effort.

## Cooley's 19 1/2-Inch Smallmouth Biggest Taken on Week-End

Big Sandy fishermen who could take to the section's streams on Saturday again found bass striking, but Sunday's rough weather held the catch to a minimum, reports received here say.

Biggest of Saturday's reported catches was a 19 1/2-inch smallmouth taken by Savage Cooley, of Langley, on an Eagle Claw lure. The big 'un was snared in the Big Sandy near Boldman.

Floyd county anglers returning from Dale Hollow reported the bass catch light after several days at it. Fish yielded to artificial bait last week were nabbed on surface lures, it was said.

## Floyd Competitors Win Half of Prizes In Perry-co. Match

Of 20 prizes awarded in the bait-casting tournament at the Perry County Fish & Game Club's annual fish fry held Sunday at Hazard, exactly half were brought home by Floyd countians.

Floyd county winners and prizes they received:

Junior division—Bill Burke, first, Heddon Pal rod; Stewart Stephens, third, Langley reel; David Allen, fifth, Shakespeare Sportcast reel; Scotty Stephens, eighth, hunting shirt.

Senior division—Donald Workman, fourth, Action rod; Robert Bunting, sixth, Coleman camp cook stove; Ed Stephens, seventh, Shakespeare Sportcast reel; Winston Burke, Bernard Baldrige and Edmund Burke, ninth, tenth and eleventh prizes, respectively, a hunting shirt each.

Ed Reynolds, of Hazard, was the senior division first prize winner with a score of 96, despite a heavy wind.

Of the 11 Floyd competitors—must this be told—only Ray Stephens finished out of the money.

## ORIGIN OF MASCARA

Women's oldest manufactured beauty aid, according to a Hollywood make-up man, is mascara.

This material is known to have been compounded by the Egyptians as far back as 4,000 B.C. Inspection of feminine portraits of that time, as presented by wall paintings in modernly unearthed tombs, leads one to suspect that the glamour gals of ancient Egypt were highly comparable with those of today.

Many of them were inclined to apply their mascara more heavily than is artistically advisable.

Hunters will have eight days in which to stalk a deer in five Kentucky counties this year, the Division of Game and Fish and the state Game and Fish Commission have announced. The season will open on Nov. 27 and continue through Dec. 4, it was announced, with the taking of antlered bucks only being permitted. The hunting area shall consist of Bullitt, Meade, Hardin, Nelson and Breckinridge counties, and only shotguns with 00 buckshot or slugs being permitted. The hunter may not use dogs to chase his quarry, the Commission has ruled. Bow and arrow hunters will have an additional seven days to hunt in these counties, their season exclusively opening on Nov. 20 and continuing through Dec. 3. However, they may continue to hunt during the regular deer hunting season. In addition to the regular statewide hunting license a \$5 deer hunting permit also is required. This permit may be obtained from the offices of the Division of Game and Fish.

# BEWARE OF SOFT WORDS--INDIANS UP TO NO GOOD!

Russ Williamson, the perfectly harmless looking coach of the Inez Indians, never looked less harmless or more sincere when he said it, but his statement made here last week rang the bell in the old memory-box. And so we warn:

"Watch out for them pesky Redskins."

Said Williamson of his team's prospects for the basketball season coming up:

"We'll do well to win half of our games."

Russ Williamson spoke those same words, spoke them as flatly and as sincerely, here in Prestonsburg, back in 1941.

And, lo! all the poor Indians did that year was win the state championship. So have a care there, Kentucky coaches who have big ideas this year.

Williamson admits that he has the largest group of boys out for basketball in the history of the school. Twenty of them! But, says he, there are too many young boys in the bunch. "Good freshman prospects," he grants you. But title contenders, regional or state—no. Says he:

Getting down to cases, he pointed out that he has only three regulars back from last year's team which lost to the Paintsville Tigers in the district tournament. Two of these regulars are little Harmon and Fairchild, six-foot center. Finding two more starters and competent reserves is a task the wily coach solemnly assures one and all he just doesn't expect to do with any great deal of success this year.

The slow-moving, quick-thinking

Williamson should know a basketball team when he sees it. His Indians have played 17 state tournament games for a Kentucky high school record. Out of Inez' eight trips to Lexington and Louisville for shots at the title, the Indians lost only two first-round games, four times reached the quarter-finals, on one occasion lost in the finals and in 1941 copped the championship.

In 1937 when the Indians were runners-up to Midway, they had no gym and were obliged to practise on a dirt court. Williamson, who isn't one of these guys who rattles off sensational statements or seeks the type of publicity that is garnished with fiction, explained: "The boys"

## Floyd and Knott Dogs Rank High at Carlisle; Herald's Hound, Second

Floyd and Knott county dogs ranked high in the bench show of the Central Kentucky Foxhunters Association at Carlisle last week, with Rowdy Haggin, owned by Lonnie Herald, of Woods, leading the Big Sandy pack.

Herald's dog placed second to Joe Gordon, owned by Roy Blount, of Carlisle, as the best derby dog.

Jackie McClure, owned by Roy Cook, of Wayland, ranked third in the derby matrons, and Flying Crow, owned by Reb Martin, of Deima, was third in the all-age matrons group. Blanket Crow, owned by Fred Fairchild, of Inez, was third among the all-age dogs.

## Reap the rewards of a VOLUNTEER!

With the new draft law now in effect, the advantages offered to volunteers who enlist for 3 years in the Regular Army never looked brighter.

feet weren't used to a hardwood floor." They lost to Midway, the champs, by a lone point.

They got their gym, the following year. But it burned to the ground in 1939. The Indians, however, didn't return to dirt courts after that. They practised on the floors of the Paintsville and Kermit high schools and were at home at nearby Warfield to visiting fives during 1940 and 1941.

It was while they used the Warfield gym for home games that they defeated St. Xavier of Louisville eight points in 1941. When the two teams met in Lexington in the finals of the state tournament, the Indians trounced the city slickers by exactly the same score.

Now, Inez has one of the finest basketball floors in Eastern Kentucky. And rival coaches are wondering if the Martin county town won't wind up the year with one of the finest basketball teams.

Carded yarns mean the cotton has gone through one process to straighten out the fibres before they are made into yarn. Combed yarn has gone through two. This means more long fibers, and a smoother and more durable yarn.

Since frankfurters are cooked when manufactured they need only be heated; cover them with boiling water and simmer (do not boil) for about 5 to 10 minutes until they are thoroughly hot.

Ash trays should be emptied and washed each night before closing up the house. This prevents a stale, musty odor the following day.

Here it is! A long look ahead!  
**The modern design for '49**  
**new Hudson**

Come in and see the new Hudson—the lowest-built car on the highway, with beauty, riding qualities, comfort and safety only possible because of a new "step-down" design, offered by no other automobile!

Only once in a blue moon does a car step so far ahead that it is a protected investment in motor-car value! You are invited to see just such a car—the New Hudson with "The modern design for '49"—and for years to come!

Here is truly streamlined beauty—a stunning combination of free-flowing, low-built lines that develop naturally out of a recessed floor which is the key to a basically new and exclusive design principle. The New Hudson is the only car you step down into.

The development of a "step-down" zone in an exclusive, all-steel Monobilt body-and-frame permits Hudson to build the lowest car on the highway—only five feet from ground to top—while maintaining more interior head room than in any mass-produced car built today!

But streamlined beauty isn't the whole story of Hudson's modern design.

Hudson has a hug-the-road way of going on every conceivable kind of highway. The way in which this car takes even the sharpest curves makes it a "stand-out" for roadability in any year!

These remarkable riding qualities are largely due to the fact that the New Hudson provides the lowest center of gravity in any American stock car—yet road clearance is ample! It is a widely recognized fact that the lower to the ground a car can be built, the more stability it will have and the safer it will be.

Such a delightful conformity to the road, coupled with the protection of riding encircled by a sturdy box-section steel frame, gives to everyone who rides in a New Hudson a grand feeling of safe-well-being! This feeling is further enhanced by the ease with which this car is operated, and by the restful quiet with which Hudson glides along—thanks to the superb sound control engineered into this advanced automobile.

See "The modern design for '49" today! Come in and let us show you the many advantages of Hudson's fabulous "step-down" design principle.

Butter Needs Protection

Butter needs protection from air, from light and from evaporation of its moisture in order to keep its fresh taste and texture. The paraffined carton does a fine job of performing these duties.

## OF INTEREST TO VETERANS

A savings in insurance is available to World War II veterans who still are paying their G. I. insurance premiums on a monthly basis, insurance officials at the Veterans Administration Branch Office in Columbus, O., said this week. Pointing out that approximately 90 per cent of the veterans are currently paying premiums on a monthly basis, officials explained that by paying on a quarterly, semi-annual or annual basis they receive a three per cent discount annually. In addition, the fewer premiums due lessens the chance of a policy lapsing.

Veterans can take advantage of this saving by visiting any office or writing to the VA Branch Office insurance service in Columbus, requesting the type of premium payment desired.

More than half of the World War II veterans holding converted National Life Insurance policies have selected 20-payment life plans, Veterans Administration reported recently. The 20-payment life policies accounted for \$32,190, or 55 per cent of the 1,512,150 permanent NSLI policies in force at the beginning of the current fiscal year.

Veterans who converted to other permanent plans include: 276,900, 30-payment life; 240,130, ordinary life; 95,130, 20-year endowment; 46,650 endowment at age 60; 20,450 endowment at age 65. Permanent NSLI policies amounted to more than \$6.5 billion dollars worth of insurance.

Nearly 5,000,000 veteran-holders of NSLI have not yet converted their policies to permanent forms of insurance. The term policies in force represent more than \$31,000,000,000.

### QUESTIONS AND ANSWERS

Q. I am a World War I veteran and was discharged from the U.S. army in 1938. I would like to know if I am eligible for the education, readjustment allowance and guaranty loan provisions of the G.I. Bill?

A. No. Benefits of the G.I. Bill are available only to World War II veterans.

Q. I signed a statement before my discharge that I had a disability before I enlisted in the armed forces. Will this statement bar me from receiving compensation?

A. No. Under the law, any statement of this nature which you may have made at discharge is considered null and void.

Prestonsburg, Ky.

48 hours pay for 40 hours work  
 Penalty pay for weekends & holidays  
 25¢ an hour increase  
 Total 1½ BILLION DOLLARS

# 1½ Billion Dollar Road Block!

RAILROADS MUST OPERATE around the clock every day and night of the year.

Although they know this, leaders of 16 railroad unions are demanding a five-day, Monday through Friday, week for one million railroad employees.

They want 48 hours pay for 40 hours work—in itself a 20% wage increase.

They also demand a minimum of 12 hours pay for any work performed on Saturdays, and 16 hours pay for any work performed on Sundays and holidays.

On top of all this they want an additional increase of 25¢ an hour for every employee!

### You'd Pay the Bill!

Summing up these demands, they mean that these union leaders seek to force the railroads to give one million employees an annual raise which would average \$1500 per employee!

The total cost of this would be no less than 1½ billion dollars per year, which is more than twice the expected net income of the railroads this year.

You'd pay the bill, because if these increased costs are forced on the railroads,

they must have still further rate and fare increases.

### Demands Unreasonable

These employees have had substantial raises during and since the war. Their average weekly earnings are higher than the average weekly earnings of workers in manufacturing industries. They have more job security than the average worker in American industry. They also enjoy paid vacations, a retirement system and other advantages more generous than the average worker receives.

In contrast with the demands of these 16 unions, which add up to the equivalent of 48¢ an hour, the Conductors and Trainmen recently settled their wage request for an increase of 10¢ an hour.

### Railroads Run for Everybody—Not Employees Alone

The railroad industry must serve not one but many groups—producers, businessmen, shippers, passengers and the general public—night and day, every day of the year. These unions are proceeding in utter disregard of this important difference between railroads and other industries. Industrial plants can be shut down over weekends and holidays, but freight, mail, express and passengers must continue to move. Everybody who enters railroad employment knows this.

### Strike Threat

On September 18, 1948, the leaders of these 16 unions began taking a strike vote. But the threat of a strike will not alter the opposition of the railroads to such unreasonable demands!

We are publishing this and other advertisements to talk with you at first hand about matters which are important to everybody.

**JUDGE EUGENE SILER**  
The people of this county and of the Seventh Appellate District have an unusual interest in the general election of November 2, 1948, because one of our native sons, Eugene Siler, is seeking re-election as Judge of the Court of Appeals of Kentucky.  
Judge Siler has served only three years of the unexpired term of the late Judge Alex Ratliff and during such term has made a splendid record and is held in the highest esteem by the legal profession throughout the district and state. Judge Siler is likewise a man of unimpeachable character, maintains a good standing among his people and is well known for the work he has done for charitable organizations.  
It behooves us who are interested in good government to give him a full term as Appellate Judge. He deserves this consideration and will receive this office if his friends, both Democrats and Republicans, will keep him in mind and give him their support and votes.

"Thirty-five hundred Madison county school children have been given the eye-screening test," writes Maurice D. Bement, executive director of the Committee for Kentucky, who recently visited that county in company with James W. Armstrong, head of the committee's community service department.

"This number has been examined at a total cost of \$31.50. Here is how it has been done. The women voluntary workers come into Richmond, where they are put through a course on how to screen the children, under the supervision of local doctors. After finishing this course, these women go directly to all schools in the county and give the test to all students. If a child is found to have an eye deficiency and needs glasses, the Lions Club of Madison county furnishes glasses to the children if the parents are unable to furnish them. In the event a child is found to have some deficiency that cannot be corrected by glasses, but needs an operation, the child, with the parents' consent, is brought into the hospital at Richmond. A surgeon is secured and the operation and hospital expenses are furnished without charge if the child's parents are unable to finance it.

"Another item of the program is in relation to dental care. This group has purchased tooth brushes in wholesale quantities and furnishes them to the children through the schools at a cost of 5c each. This is not a cheap toothbrush, but a first-rate nylon bristle brush. In the event the students are unable to pay 5c for the purchase, the churches of the county furnish brushes without charge. Rather than have students buy toothpaste—which they know many would not do and could not afford to do—they are demonstrating to the children in the schools, through the teachers, how to mix a preparation of salt and soda, which will do as well as commercial pastes."

The new health program is sponsored primarily by the Ladies' Auxiliary of the Madison County Health Society. This club, headed by Mrs. Shelby Carr, got the cooperation of service clubs in the county, churches, woman's clubs, veterans' organizations, the school authorities, and the county medical society. Hearty press support came from the Daily Register and the Weekly Madison County Post.

This child health report is only one chapter in the story of civic awakening in Madison county. You will get more in the near future.

**LSU, KENTUCKY ARE MATCHED**

Baton Rouge, La., Oct. 20—Football teams of Louisiana State University and the University of Kentucky will meet next fall—and the game was arranged more than two years ago, Louisiana State Athletic Director T. P. "Red" Heard said today.

Heard would make no comment on the termination of football relations between Vanderbilt and Kentucky, which led to reports that L.S.U. might replace Vanderbilt on the Kentucky schedule.

But he said the agreement for the L.S.U.-Kentucky game was reached while athletic officials from the Louisiana school were attending a basketball tournament in Louisville in March, 1946.
