THE DIGEST AND I AGREE

For several months now I have been reading GUIDEPPOSTS, a small pamphlet distributed by the Rev. J. E. Durham, of D. ...

All this while I have been thinking how favorably these articles by nationally known men and women compare with the more inspirational features found in READER'S DIGEST.

Next time I miss my weekly number of this publication, I think I will indulge myself in a bit of satisfaction I have long denied myself.

NO. 1

First of the gas companies of this section reported as having contributed to the Floyd County Playground is the United Fuel Gas Company.

ALL IS DARK—FOR ME

I look upon the new autumn and toward a long, hard winter, a sadly disillusioned man. If there is any justice in this world, it is around the corner.

Here I have been fishing, for years on end, I have flipped hula dancers till I wiggled in my sleep; I have tossed crazy crawlers till I was—well, crawling.

And Milt makes Page 1 of the Elk City News with the story. It's enough to make one wonder, isn't it?

SCHOOL BOARD RACES LOOM

4 Here for City Board; Races on in Two Floyd Educational Divisions

There is more to this November election than the mere election of a President, Vice-President, Senators and Congressmen—in this county, that is.

The issue which can be depended upon to get the vote out over a large part of the county is who will be members of the County Board of Education from the three Educational divisions and who will be two of the Prestonsburg Board of Education members.

Here, Len S. Moles and Dr. O. T. Stephens are opposed for re-election to the City Board of Education by Ray Stephens and Harry Ranier.

Division 3 in the County Board system has three candidates for the member post now held by T. N. Newsome, of Grethel. These are Alonzo Stratton, of Ivel, Andy Lee Tackett, of Beaver, and Glen H. Blackburn, of Beysy Layne.

In Division 5 Dr. W. D. Osborne, of Bypro, is opposed for re-election by Homer Tackett, of Melvin. Ray Fraley is unopposed for re-election in Division 4.

DRAFT SIGN-UP NEAR FINISH

3,375 Floyd Men Register For Selective Service; New Call Asks 15,000

Registration of Floyd county men between the ages of 18 and 25 for the county's second peacetime draft is nearing completion, Miss Imogene Allen, clerk of the Floyd county draft board, said this morning.

A total of 3,375 men have been registered and the rush is over, Miss Allen said.

The county's draft board, The Times finally learned this week, is composed of B. L. Sturgill and Bert T. Combs, both of Prestonsburg, and Lawrence Keathley, of Martin.

The draft board clerk said Floyd county's quota in either last month's or in the new call for 15,000 men has not been learned. Pre-induction physical examinations for the first 10,000 men ordered inducted will begin within two weeks, it was said in Washington Wednesday.

Fifteen thousand more men were ordered drafted into the army Wednesday. They will be in uniform before Christmas.

The men in the initial draft call, mostly 24 and 25-year-olds, are expected to be in uniform in November. The second call, 5,000 larger than the first, will dip down into lower age groups, it is believed.

After the first of the year the monthly draft calls are expected to average about 30,000, depending upon voluntary enlistments. This week's call was given Selective Service by the defense department. All men in both calls will go into the army.

Pre-induction examinations will begin by Oct. 4, and men who pass will be in uniform in November.

Russell Game May Be Last Hi School Play for Branham

Unless new and satisfactory evidence is produced showing that he is younger than records indicate, "Set" Branham, star Prestonsburg high school athlete, will play his last high school football game Friday night at Russell, it was learned here today (Thursday).

Although birth records supplied before opening of the football season by his mother, Mrs. Fanny Branham, with the supporting statement of the attending physician, satisfied Ted Sanford, state high school athletic commissioner, that he is eligible, Mr. Sanford this week notified Chalmers H. Frazier, superintendent of Prestonsburg schools, that records he later has examined indicate that Branham will be 20 years old Saturday, Sept. 25.

GAME RESERVE FOR JOHNS CR?

Sportsmen, Officials To Talk Sale of Area In Pike, New Location

A strong possibility exists, it was said here this week, that the Flatwoods game preserve in Pike county will be sold soon and that the proceeds of the sale will be applied on the purchase of land in the Johns Creek valley.

The Flatwoods area is no longer considered suitable for game preservation purposes, since the coal there is owned by private interests which plan to start strip mining. Disposal of the 3,000-acre tract will be discussed Sunday at the Pike County Fish & Game Club's fish fry at the Pikeville Country Club, with state and federal representatives taking part.

Hall Denied Bond in Aged Man's Death

THIRD TRIAL OF OFFICER NEARS END

Jury To Get Conn Case Today; Other Hearings In Last Week Are Minor

Third trial of Deputy Sheriff Harold Conn for the slaying at Boldman of Arthur Hall held the spotlight in the Floyd circuit court this week, with completion of the case not expected before tonight. The trial, Conn's second here, began Monday with the empanelling of a jury.

Assisting Commonwealth's Attorney John Chris Cornett in the prosecution are Edward L. Allen, Prestonsburg, and W. A. Daugherty, Pikeville. Defense attorneys are Grover C. Allen, Jackson, and John Young Brown, Lexington.

Otherwise, few important cases reached the trial stage during the period beginning with last Thursday. One per term of a year was imposed during this time and that on Milford Blackburn upon his conviction of grand larceny.

Willard Burchett's appeal from a county court sentence on a liquor-selling charge resulted in a fine of \$100 and 30 days in jail. He filed notice of intention to take the case to the Court of Appeals and, in addition to his appeal bond, was required to execute a peace bond. Circuit Judge E. P. Hill announced this will be standard procedure in his court in such cases. Russell Viers was given 90 days in jail and a \$20 fine, also on a liquor case appeal.

Other trials resulted in fines. Defendants' names, charges and their fines: Ella Baker, keeping disorderly (See Story No. 4, Page 4)

First Polio Case Here Reported This Week

Prestonsburg's first infantile paralysis case in this year of widespread polio is five-year-old Frank Derossett, Jr., son of Mr. and Mrs. Frank Derossett. The child has been ill 14 days but early diagnosis was incorrect. When Dr. George P. Archer and Dr. Hall examined the boy, they diagnosed the case as polio and he was taken Monday to Good Samaritan hospital, Lexington, for treatment.

NAME LAYNE FIRE CHIEF

Council Takes Action At Monday's Meeting; Let Street Cleaner Go

Roe Layne, former traffic officer here and a former member of the City Council, was named chief of the fire department Monday night by the City Council to succeed Arthur Blackburn, veteran fire chief, who was discharged, and at the same time the Council discharged Ance Goble as street cleaner.

Shake-up in the fire department resulted in a threat by one or more members of the volunteer fire department to quit. This action, Troy Shepherd, one of the group, said, followed failure of the Council to employ Adrian Blackburn, assistant fire chief, to his father's former post. Adrian Blackburn resigned as assistant chief after the meeting.

Full authority was given by the Council to Police Chief Bill Blackburn to supervise activities of policemen on duty and to appoint special police when needed. The Council decided that, although it will continue to hire and dismiss policemen, such action will be taken on recommendation of Blackburn.

City Attorney Joe Hobson and Police Judge J. D. Harkins, Jr., asked permission to prosecute the charges filed against three men in the recent altercation at the City Hall and the Council directed that this be done.

Corbin Joseph was relieved of duty as night policeman and was re-assigned to work as garbage collector. Applications of Jack Poe for the job of street cleaner and of George Harris as night policeman were not acted upon.

David School Pupils To See Freedom Train At Huntington, W. Va.

Fifty children of the fifth, sixth, seventh and eighth grades and their teachers at David school will travel to Huntington, W. Va., Sunday by chartered bus to visit the Freedom Train, it was announced this week by Billy Paris Conley, principal of the school.

The Princess Elkhorn Coal Company chartered the bus to make it possible for the children to see the many things that are the foundation of American democracy. The bus will leave David at 6 a. m., and will arrive in Huntington about 9 a. m. The children will take a picnic lunch with them and after the visit through the train, will enjoy an outing at Municipal Park.

Draft Does Not Slow Up Recruiting Work of Army; 45 Enlist Locally

The U. S. army will continue to put heavy emphasis on the recruiting of volunteers, despite Selective Service, Opl. Charles J. James, of the army's Prestonsburg recruiting office, announced this week. The army is making a special drive to increase its three-year enlistments.

"A great many people," Opl. James explained, "misunderstand the purpose of the draft law. It is designed solely to fill up the ranks with men who cannot be obtained by the volunteer recruiting method."

"The fact is, a larger army means a need for additional leaders. We would like to draw those leaders from among men who have decided to make the army their life work."

James said that it was his opinion that many draftees would sign up for the full three-year enlistment, once they had discovered the benefits of an army career.

"Many young men who will be drafted," he said, "are uncertain what sort of profession they want to follow. The army is going to make a real effort to sell them on a military career. We are going to try to show them, for one thing, that few professions offer the educational opportunities that the military does."

TRUCK KILLS MELVIN MAN

Younce Fall from Truck Is Unnoticed by Driver; Funeral Is Held Today

John Younce, 23 years old, of Melvin, was dead Monday on arrival at the Beaver Valley hospital, an hour after he had fallen from a coal truck on Abner Fork, near his home, and wheels of the truck had passed over his body. He was crushed internally.

It was said that driver of the truck did not stop when the young man fell onto the highway and was apparently unaware of the tragedy. Name of the driver was unavailable.

The victim was a son of Mr. and Mrs. Albert Younce, of Melvin. Besides his parents, he is survived by five brothers and two sisters, Henry, Jim, Joe, William and Albert Younce, Jr., all of Melvin and vicinity, Mrs. Luther Keene, of Ligon, and Mrs. George Tucker, of Melvin.

Funeral rites were conducted today (Thursday) from the parents' residence and burial in the Jones cemetery at Melvin was directed by the Ryan Funeral Home.

C. & O. STARTS RAIL PROJECT

Spur to Breathitt-Co. To Cost \$2,500,000; Will Open Coal Field

Construction work has been started on a Chesapeake & Ohio Railway spur track which will permit the Pond Creek Pocahontas Coal Company to open two new mines on a 25,000-acre tract in Breathitt county, a Pond Creek Pocahontas spokesman announced this week. The Interstate Commerce Commission granted the C. & O. certificate of necessity last week.

A strip mine and a deep mine will employ 400 to 500 men when production begins in the summer of 1949. It has been estimated the mines will have an ultimate capacity of 2,000,000 tons of No. 3 seam Elkhorn coal annually.

The 14-mile spur will run from Carver to the site of the mines. The Cordell Construction Company, of Winchester, Ky., has the contract for the line, which will cost the C. & O. approximately \$2,500,000, it was reported. Pond Creek Pocahontas leased the land from E. J. Evans and associates.

Tuesday, the group visited the Princess Elkhorn Coal Company tippie at David, the Elk Horn Coal Corporation tippie at Wayland, the Consolidation Coal Company tippie at Jenkins, and the Utilities Elkhorn Coal Company tippie at Esco, all in Kentucky. The Big Sandy-Elkhorn Coal Operators Association arranged for the group to travel by auto from Martin through Wheelwright to a number of mines in that area.

At Jenkins, members of the association were guests of the Consolidation Coal Company at lunch and, in the evening, they were entertained at the Pikeville Country Club by the Big Sandy-Elkhorn Coal Operators.

After motoring to Millard, Tuesday night, the group left by train to Skelton, where they visited the New River and Winding Gulf mining districts as guests of the coal operators' associations of these districts. They were scheduled to arrive at White Sulphur Springs late Wednesday afternoon.

MARTIN SPAN WORK ASSURED

By Road Dept. Head; Advance Is Promised Against Gasoline Tax

Following a conference in Frankfort last Friday with Highway Commissioner Withers, County Judge Alex L. Davidson announced here that a new bridge at Martin replacing the span now condemned as dangerous for traffic, will be built without jeopardizing rural highway funds needed by the county to maintain rural roads and bridges.

Judge Davidson said Mr. Withers had assured him that a part of next year's fund from the state gasoline tax will be advanced the county for the Martin job and that engineering work preliminary to letting of a contract will be done at once.

The gasoline tax, it was pointed out, will accrue to rural roads an amount far in excess of what was originally estimated and Floyd county's allotment will be such that it not only will permit the building of the Martin bridge but also will assure construction of two roads already planned as beneficiaries of the gasoline tax fund—the Caney Fork of Middle Creek road to Manton and the Mud Creek-Left Beaver road.

Thus, Judge Davidson explained, the county's part of the original \$5,000,000 rural road fund divided among the state's 120 counties will remain unnumbered and available for the usual rural highway construction and maintenance.

The fiscal court is to meet next week in Huntington with U. S. district engineers to attempt to reach an agreement on relocation of highways in the Dewey reservoir area. The court recently authorized District Highway Engineer Parker to consult with U. S. engineers on the work to be done, and it is believed an agreement will be reached, with the federal government paying to the county a lump sum for the work.

War Victim's Body Returned to County

Funeral of Amos Robinson, who was killed in the U. S. army's Italian campaign, was conducted today (Thursday) from the home at McTowell of his parents, Sol and Mindy Robinson. The Revs. Sam Newsome, Daniel Roberts and William Newsome officiated at the rites and burial in the family cemetery was under direction of the Ryan Funeral Home.

Surviving, besides the parents, are two brothers and six sisters: John H. Robinson, of Martin, Earl Robinson, of McDowell, Mrs. Ollie Kiser and Mrs. Blaine Hopkins, both of McDowell, Mrs. Avie Hall, of Minnie, Ivaene, Nora and Charlotte Robinson, all at home.

COAL BUYERS VISIT FIELD

100 Chicagoans Inspect Floyd Mining Operations During Tour This Week

More than 100 members of the Chicago Coal Merchants Association this week will tour the coal fields of West Virginia and Kentucky served by the Chesapeake & Ohio Railway Company for four days. The excursion will take the group into the West Virginia smokeless-coal mining area and the Big Sandy mining territory of Eastern Kentucky, ending with a visit to The Greenbrier, famous resort at White Sulphur Springs, W. Va.

Tuesday, the group visited the Princess Elkhorn Coal Company tippie at David, the Elk Horn Coal Corporation tippie at Wayland, the Consolidation Coal Company tippie at Jenkins, and the Utilities Elkhorn Coal Company tippie at Esco, all in Kentucky. The Big Sandy-Elkhorn Coal Operators Association arranged for the group to travel by auto from Martin through Wheelwright to a number of mines in that area.

JOHN FRASURE DIES SEPT. 16TH AFTER BEATING

Children Say Hall Held Them Prisoner After Hitting Father

After he had heard the children of John Frasure, 79-year-old Craynor man, tell in detail how he was fatally beaten and kicked, Tuesday morning of last week, by Bertee Hall, County Judge Alex L. Davidson quickly directed Monday that Hall be held in jail here on a charge of murder, without bail.

The death of Frasure, testimony at the examining trial showed, followed a series of altercations between Frasure, a former postmaster and merchant at Craynor, and Hall, an ex-convict, over Hall's attentions to Frasure's 16-year-old daughter, Rosina. Hall's defense hinged on a slight wound in his back which, it was indicated, was inflicted by Frasure with a case knife, but the defendant himself did not testify nor did he offer testimony of any other witness in his behalf.

Frasure died at the Beaver Valley hospital, Martin, last Thursday of chest and head injuries. Chest injuries he suffered would have produced death, testified G. D. Ryan, Martin funeral director who assisted in preparing the body for burial.

The aged man, described as very feeble, was taken to the hospital late Thursday, after it was testified Hall had kept Frasure's children prisoners inside the home through the day, allegedly fearing they would tell of his attack on Frasure.

Deputy Sheriffs Harold Conn, Hilgard Mitchell, Epp Laferty and Levy Rice arrested Hall at the Frasure home Friday. Deputy Sheriff Mitchell said that when he first saw Hall inside the home the alleged slayer had opened an old trunk and had in his hand a stack of deeds and old papers belonging to the victim. These were brought here.

Relatives described feeling against Hall as "high," and said possible violence was prevented by their pleas to "let the law take its course."

Testifying at the preliminary hearing here Monday, 16-year-old Rosina Frasure, a pretty brunette, was in tears as she told the story of the "fight" between the two men.

"Dad didn't want Bertee to go with me," she said. "We, Bertee and me and the children, were at the stove in the kitchen and Dad got out of bed and came in. He had a case knife in his hand. The handle was broken off it. He punched Bertee on time. Bertee raised and grabbed him by the hair. I saw Bertee hit him with a chair and kick him twice."

The girl said she did not see all that happened because she fled the room. After the altercation, she

WITHERS 'FOR' KY. ROUTE 80

Plan Would Give Road One Number Across Kentucky

Indorsement of a proposed east-west highway through southern Kentucky with a single route number was given by Highway Commissioner Garrett L. Withers, Wednesday.

There already is a route from the Mississippi river to the Virginia border. But it is designated Ky-98 on its western leg, U.S.-68 in the middle and Ky-80 on its eastern section. It runs from Columbus, on the Mississippi river to the banks of the Big Sandy on the Virginia border in Pike county.

Russell Dyeche, editor of the London, Ky., Sentinel-Echo, and former state parks director, made the proposal.

"I think this would be a good thing to do," Withers said. Dyeche, in an article in the Sentinel-Echo, pointed out the route goes through six county seats or their suburbs. Four of Kentucky's state parks are on or near the route.

The route goes through Mayfield, Hopkinsville, Bowling Green, Columbia, London, Hazard, Hindman, thence to Allen and Pikeville.

KENTUCKY ON THE MARCH

By EWING GALLOWAY
Down our way farmers are hiring truckmen to put water in wells, cisterns and stock-watering troughs. Expensive? I ought to know. I did it for five years. And it taught me a lesson that tens of thousands of Kentucky farmers haven't learned as yet.

No, I'm not exactly right about that. Practically all farmers have actually felt the need of an abundant all-year supply of livestock water, but always their worries cease with the first big rains in late fall or early winter and they promptly forget all about it. And next year they run short of water again, letting their cattle drink vile, stagnant pond water or their hogs try to keep alive on puddle water they wallow in. Then if cattle do badly or the hogs die, the farmer wonders why and pities himself as a victim of bad luck.

Good water is just as essential to the health of an animal as it is to the health of a human being, and every time I see animals drinking foul water I think their owners ought to have to take a few swigs of it themselves.

Having worked on 12 ponds for a period of 10 years, I may be able to pass along some simple suggestions as to methods. Our first job was deepening an old pond. This we did with dump scrapers. We broke the ground with a two-horse plow. With three dump scrapers working, one of them pulled by a light tractor, the other two by horses, we went down three plow depths a day in a pond 120 feet by 40 feet. The pond was on level ground, and we used a metal barn roof as a water-shed. At that time farm labor was \$1.25 a day. Deepening the pond to a total of 10 feet cost around \$75. At the present time a dragline is the best method of doing over old ponds. Small ponds can be deepened with dump scrapers pulled by horses or fesos drawn by tractors if there is not much soft mud and water to contend with. Three men with two single dump scrapers and a plow can make a good water hole in two weeks. No matter how small, a pond should hold eight feet of water in wet months, a minimum of four feet in severe drouths. The deeper, the better.

We deepened and widened other ponds with a dragline. One reason for this was that the ponds had water in them and no other kind of machinery could be used. On three big jobs a bulldozer knocked down and packed piles of loose dirt left by the dragline.

The neatest and cheapest new pond job was done with a hydraulic dump pulled by a 45-h.p. caterpillar tractor.

Before throwing up a dam the ground for the full length of it should be cored to remove all top soil and possible roots. The trench should be 2 by 3-feet deep and wide. A small pond requires from one to two acres of watershed. A large pond 3 to 4 acres of shed. A large-size metal barn roof will put as much water in a pond as two acres of sloping ground.

When hiring contractors to do pond work a farmer should have a written understanding — a letter from the contractor—that the farmer shall pay for actual hours put in, the farmer checking work time by his watch, with no pay during breakdowns or for expense of moving the machinery.

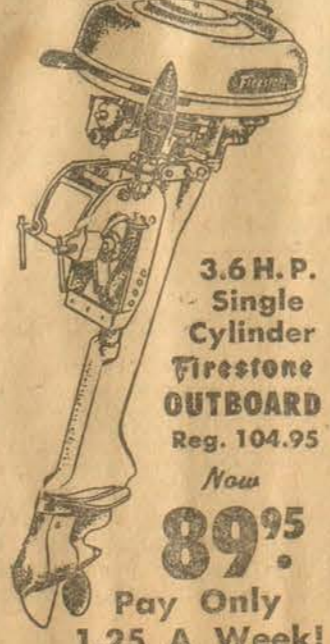

Autumn is pond-digging time.

Farm Pond Survey Shows Good Results

A preliminary survey of farm ponds stocked during the 1947-48 fiscal year shows good results. J. T. Cox, superintendent of Farm Ponds for the Division of Game and Fish, reports. Although the survey is far from complete enough tests have been made to reveal that good results were obtained in most cases.

Tests have been made in ponds in nine counties and will be continued to reach every section of the state, it was revealed. In a majority of the ponds bass up to two pounds and bream as large as seven ounces were found, while in some the efforts of the Division's stocking program have been largely nullified by tampering by pond owners. It was found that some ponds have been seined since stocking, and in others additional fish had been added by the owners. This tended to offset the balance as worked out by the Division and these ponds were far inferior to those not tampered with, it was pointed out.

The Division has worked out a ratio of stocking that is paying dividends, and interference with this system by the farm owner is detrimental to the fish, Cox stated. He declared that inferior ponds after stocking were the result of four factors. These are: (1) ponds illegally seined; (2) additional fish placed in ponds; (3) winter kill of fish due to freezes in ponds too shallow, and (4) death of fish in dry weather by water becoming too low.

The survey showed that growth of fish was doubled in ponds where fertilizers had been added. For rapid growth of fish, the Division has found that fertilizer is a decisive factor. Proof of this was found in the recent surveys, it was pointed out.

The tests were made by actual fishing and by using a 30-foot minnow seine to determine the results of the stocking. After the fish were captured scale samples were taken to determine the age and the rate of growth. The minnow seine was used to determine the rate of reproduction in the ponds.

In the ponds that had not been tampered with, it was found that reproduction of both the bass and bream was excellent and the rate of growth above par. The Division recommends stocking 100 bass fry or fingerlings and 30 adult bream to each acre of water. This ratio has proved to be the right balance as evidenced by the rapid growth and reproduction in these ponds.

The Division urged pond owners who have had their ponds stocked to refrain from adding additional fish and to keep seines out of these bodies of water. If there is any problem confronting the pond owner, the Division is ready to offer its advice, so that the balance as established by the Division and found to be the best, will not be upset. During the fiscal year 1947-48 2,473 ponds were stocked, totaling 2,072 acres of land. Since July 1 of this year more than 600 additional ponds have been stocked.

Lexington—Earl Jones, Jr., charged with starting a \$100,000 fire here last June, was adjudged sane by physicians who have had him under observation.

OF INTEREST TO VETERANS

Colleges and universities have attracted nearly 60 per cent of the World War II veterans who are enrolled in educational institutions under the G.I. Bill and Public Law 16. Veterans Administration reported this week.

The remaining 40 per cent are taking courses in high schools, trade schools and other educational institutions below the college level.

Recent statistics show a total of 1,632,780 veterans were training in educational institutions under the G. I. Bill. Of these, 962,297, or 59 per cent were in colleges and universities. At the same time, 121,071 disabled veterans were in school under Public Law 16. College students numbered 82,623, or 68 per cent of the Public Law 16 trainees.

The number of living veterans on Veterans Administration disability compensation and pension rolls has decreased steadily during the past year. VA announced recently. The total dropped from a peak of 2,328,000 in May, 1947, to 2,289,000 on June 1, 1948.

Many U.S. government life insurance policies held by World War I veterans list the names of deceased beneficiaries and should be revised to include new or contingent beneficiaries. Veterans Administration Branch Office officials in Columbus, Ohio, advised this week. World War I veterans desiring information concerning their government insurance policies should consult their nearest VA office.

QUESTIONS AND ANSWERS

Q. I want to obtain a G.I. farm loan to buy some farming equipment. However, I don't live on my farm. Am I eligible for such a loan?
A. Yes, if you actually conduct farming operations.

Q. I received a pension as a Spanish-American War veteran's widow. I remarried and my second husband is now dead. Am I eligible for a pension again as a widow of the Spanish-American War veteran?
A. Yes, if you meet the other requirements of the law and regulations.

Q. I applied at a bank for a G.I. business loan, but I was turned down. What should I do?
A. First consider whether your proposition is a sound one. If so, try another lender. The fact that one lender is not interested does not indicate that another may not be.

Princess Affiliate Opens Auxier Store, Walker Announces

Mallory Stores, Inc., an affiliate of the Princess Elkhorn Coal Company at David, opened a new store at Auxier last Thursday. It was announced by R. S. Walker, general manager of stores. The store has five employees including Darwin C. Wells, who has been appointed manager. Mr. Wells was formerly owner and operator of the Darwin C. Wells general merchandise store at Auxier.

The store will handle a complete line of furniture, clothing, appliances, groceries and meats. New fixtures have been installed, including a walk-in refrigerator, refrigerated meat display cases, counters, lighting system, etc., in addition to complete renovation of the interior of the building. The store will operate on a cash, credit and installment basis and will provide delivery service in the community.

Virgil Warrick, manager of the Mallory Store at David, has been made assistant supervisor of stores. Mr. Warrick will assist Mr. Wells and also continue in the capacity of store manager at David.

John Graham Chapter Has First Meeting

Miss Frances Jones, regent of John Graham Chapter, Daughters of the American Revolution, held the first meeting of her tenure of office Tuesday evening at her home on Maple avenue. The chaplain, Mrs. Herbert Salisbury, conducted the ritualistic service. Due to the building extension of Constitution Hall in Washington and advancement of assessments, the dues were increased to \$4. An invitation to attend Dedication Day at Kate Duncan Smith School at Gunter Mountain, Grant, Alabama, on Oct. 26 was read. Miss Jones, the regent, presented the past regent's pin to Mrs. Herbert Salisbury for her two years' service as regent. The October meeting will be held in the home of Mrs. O. T. Stephens. Members present were Mesdames H. D. Fitzpatrick, E. P. Arnold, O. T. Stephens, Lida D. Spradlin, Everett Sowards, Lon S. Moles, Grace D. Ford, Osa F. Ligon, Gwynn Ford, W. H. Jones, Miss Frances Jones, Mrs. Herbert Salisbury.

Nobody To Be Asked To 'Kick In,' Road Employees Are Told

Frankfort, Ky., Sept. 16 (Spl.)—Assessment of employees for political purposes will not be permitted within the Department of Highways, according to a memorandum bearing the signature of Commissioner Garrett L. Withers and distributed throughout the department today. The memorandum, dated Sept. 16 and directed to "all division heads and district engineers," read in full as follows:

"You are hereby notified that Governor Earle C. Clements has made a public statement that no member of any department of the state government will be assessed for political purposes nor will any one be discharged who fails to make a contribution."

Commenting on the case as it affects highway department employees, the Commissioner said, "It is certainly not within our province to prevent contributions if offered on a voluntary basis, but no one will be permitted to make assessments, and no one will be discharged for failure to contribute."

HONORED ON 87th BIRTHDAY

Mrs. Elizabeth Goble enjoyed her 87th birth anniversary Sept. 7 with a family dinner given by her daughter, Mrs. W. H. Jones, on Maple avenue. Family greetings were extended by Mr. and Mrs. L. S. Moles, Mrs. Belva Quisenberry, Mr. and Mrs. W. H. Jones, Jr., Bill Jones, Jr., Miss Frances Jones, Mr. and Mrs. W. H. Jones, Mrs. B. P. Friend and Mrs. Mary D. Allen. Gifts were presented Mrs. Goble.

Hi-Ho, Mister!

A lady came to see me the other day. I didn't know her from Adam's off ox. But when she started telling me how good Silver Mist Flour is, I figured I'd get a testimonial. (That's what a man who doesn't smoke cigarettes says about a brand of soap he never washed in.) She says: "I sure bake good rolls with Silver Mist." And I says: "Maybe that's because you're a good cook." And she says: "It's because Silver Mist Rolls taste good." And I says: "Lady, that's what I been trying to tell the folks." All this talk didn't get us no place, because it turned out she buys two pounds at a time, which is what we call the gravy trade, and she doesn't know whether Silver Mist is good for biscuits or poured over bananas. I know, though, and so will you soon as you bake Pa and the kids a batch of good-tasting Silver Mist cookies. Not quite as easy as rolling off a log, but you don't have to be no domestic science teacher.

Now... Your Family Funeral Costs Can Be Paid By Insurance!

Avoid the extra burden of financial strain and funeral details when inevitable death strikes in your family. Ease your mind! Learn the simple facts now, about this sensible plan whereby funeral expenses may be met in advance... at a real low cost!

Here are some provisions of a Kentucky Funeral Directors Burial Association Policy:

You meet funeral expenses in advance.
Payments can be made on several easy plans.
All details are handled by your own local Funeral Director, leaving you free of these added worries.
The funeral your plan calls for will be provided by any of the 301 members of Kentucky Funeral Directors Burial Association throughout Kentucky.
Age limits are day of birth to age 90. The entire family is eligible. No medical examination required.
A \$200 funeral for a baby can be purchased for as little as a nickel a week!
Should the insured move to another State after taking out one of these policies, it automatically becomes a conventional life insurance policy... for the face amount and at the same low rate!
Cash values and extended insurance values also protect you.

DOUBLE INDEMNITY... In the event of accidental death, (between the ages of 5 and 65) the face amount of policy in cash will be paid the beneficiary, in addition to the funeral benefits.

Kentucky Harvest Festival Starts
 Quicksand, Ky., Sept. 23—The 19th annual Robinson Harvest Festival will be held here today and Friday under auspices of the University of Kentucky Agricultural Experiment Station.

The usual exhibitions and judging of farm products are scheduled in addition to funfests that will include rolling-pin throwing contests for women, horseshoe pitching contests for men, singing and folk games. Friday will be 4-H club day.

The first harvest festival was held at Quicksand in 1926 and has been held each year since except in 1942, 1943 and 1944, when the war caused an interruption.

Teaching Students Increase Foreseen
 Louisville, Ky., Sept. 23—John W. Brooker, executive secretary of the Kentucky Education Association, predicted today a much heavier enrollment this year in the state's four teachers colleges.

He said enrollments have been boosted by the extensive teacher recruiting program. Brooker said approximately 18,500 teachers will be employed in the state this year, an increase of 1,088 over last year's total. This figure includes elementary and secondary school teachers, principals and supervisors.

\$500 Scholarships For Engr. Students
 Eighteen scholarships will be offered selected first-year engineering students at the University of Kentucky by the Kentucky Department of Highways, Commissioner Garrett L. Withers announced last week. The scholarships, valued at \$500 each, will be supplemented by summer employment within the department for the entire period of the student's education.

"The plan is being advanced for the purpose of encouraging young engineers to become interested in the department," Mr. Withers said. "In the past we have been unable to attract enough graduates to enter our field of engineering. The department's engineering problems are increasing every day, and we are rapidly approaching the time when additional engineers will be a necessity."

"The scholarship committee of the University will be asked to select two students each from the nine highway districts. The selections will be made upon a competitive basis, and students will be classed as employees of the department. The program has been declared consistent with the laws of the state by Assistant Attorney General Carl D. Perkins.

"Dean D. V. Terrell, of the College of Engineering at the University, and State Highway Engineer Dwight H. Bray have been principals in working out the details of the scholarships."

Interested graduates of accredited high schools may obtain application forms by writing the personnel department of the University of Kentucky or through any district office of the Department of Highways.

The student engineering employees will be regularly enrolled in the freshman year in the College of Engineering, University of Kentucky, and will be associated with the state highway research laboratory which is located on the university campus.

The student engineering employees will be selected from among accredited high school graduates in each district by competitive examination (time and place to be announced at an early date). The personnel department of the University of Kentucky will conduct the examinations and recommend those best qualified for employment.

Student engineers will receive pay at the rate of \$60 a month during the freshman year and will pay his own expenses at the University. At the end of the first school year, or about June 1, he will be transferred to field office or laboratory work on a full-time basis at which time he will receive the regular rate paid other highway employees for similar positions. This will continue until the beginning of the winter semester or about Feb. 1 when he will return to the University on leave without pay.

He will spend four years working in the summer and fall semester and going to school during the winter semester, which will bring him to the end of the Junior year. He will then work in the summer and return to school for the fall and winter semesters to complete his Senior year.

During the six-year period he will have completed the requirements for the degree of Bachelor of Science in Civil Engineering and have three years of diversified highway engineering experience to his credit.

The Caravan Turned Too Soon
THIS Kentucky Conservation Caravan, venturing as far into Eastern Kentucky only as Morgan county, is turning back too soon.

Although the Big Sandy section is classified, primarily, as a mining area, it has many farmers and many farm resources which will mean much to its people and Kentucky if preserved.

No section in Kentucky more sorely needs education in soil and water conservation, reforestation and similar measures than the Big Sandy.

The Big Sandy and its creeks and hollows have much good bottom land left. Its hills were created for more than the gutting process that is mining; these could become beautiful forest and pasture-land. But, unless something is done to halt the waste of the soil and the timber and grasses, this section, one day, will become a mountain barrens.

The water table in Floyd county, for instance, is dangerously low. Streams which once flowed, the year round, dry up now within a matter of a few days of drouth. The theory has been ventured that the hills, honeycombed by mines and gas wells, are drained of their water. Hunters from Floyd county could not believe their eyes when, on a recent trip to Lawrence county, less than fifty miles away, they found tiny branches with water and lively minnows in cool woodland pools.

At that very time in Floyd county, only the larger streams had water and along the smaller water courses farmers were digging deep into the sand of their creek beds for water or were drawing from drilled wells for their livestock.

And when the rains do come and there is water again in this county, the streams run a turbid yellow as the section's best soil washes downriver—lost forever. Thus we stand and watch the farms float by.

No, that conservation caravan should not have turned its back on Floyd county and the Big Sandy. Our need to be made to know things, our need to be shown things, is too great.

HELPS IN HEART TROUBLE
 (From The Reader's Digest)
 "No drug will enable you to carry on as you did before," Dr. Charles Miner Cooper, well-known San Francisco physician, wrote a heart patient some years ago. "But let me outline a regime which will help immensely if, after complete physical, mental and emotional rest, it is followed conscientiously."

Dr. Cooper's letter, now considered a West Coast classic, is reprinted in The Reader's Digest for September. Its advice, held to be sound not only for heart patients but for those in good health, may be summarized in six stipulations:

1. Bring your weight down to normal for your height and age, and do it slowly, not by reducing drugs but by modifying your diet and by graduated exercise.
2. Cut down extent and speed of physical activity. Don't run for trains or hurry upstairs or try to park a car in a tight place. Also refrain from physical effort just after eating.
3. Do mental tasks only when your mind is fresh. Stop them when mentally fatigued.
4. Curb emotional reactions. Blood pressure can jump 60 points almost instantly after an outburst of anger. If a business problem—or any other—starts to make you mad, let yourself go limp all over.
5. Try to be cheerful under all circumstances. Low moods can often be lifted by concentration on a pleasant thought.
6. If you're a smoker, stop smoking.

RUPTURE
 Expert Coming To Paintsville Again
GEO. L. HOWE

Well-known expert of Indianapolis, and ex-U. S. Army Medical Corpsman, will personally demonstrate his method without charge at the Howard Hotel, Paintsville, Thursday, Sept. 30, from 9:30 a. m., to 12:30 p. m.

Mr. Howe says the Howe method contracts the openings in remarkably short time on the average case, regardless of the size or location of the rupture, and no matter how much you lift or strain, and puts you back to work the same day as efficient as before you were ruptured.

The Howe Rupture Shield has no leg straps; waterproof, sanitary, practically indestructible, and can be worn while bathing. Each shield is skillfully molded and fitted to the parts under heat, which gives a perfect fit and satisfaction.

Large and difficult ruptures following operations especially solicited.

Do not overlook this opportunity if you want gratifying results. Mailing address P. O. Box 5233 E. Michigan St. Station, Indianapolis 1, Ind.

Burke and Stephens Rank Second, Third

Floyd county's representatives in the Junior Conservation boys' bait-casting tournament at the state fair in Louisville last week were close around the top.

Edmund Burke, 15, son of District Game and Fish Supervisor E. R. Burke, Prestonsburg, placed second with a score of 90 in the senior division of the tourney, and Stewart Stephens, 11-year-old son of Ray Stephens, also of Prestonsburg, was third in the junior division with a score of 80. Both boys received handsome awards. Their expenses to the fair were paid by the Floyd County Fish & Game Club. Young Burke represented this county in the stead of Beveridge Reffitt, of Maytown, winner of the county's senior division bait-casting competition, who could not make the trip.

said, "Bertee slapped me and said, 'Dry your mouth.' This bit of testimony was elicited when County Attorney W. W. Burchett, asked her how her eye was blackened.

"Dad lay there about 30 minutes," she added. "James and Truman (her brothers) got him up. Bertee kept us in the house all day. He was afraid we would get out and tell the neighbors."

On cross-examination by B. M. James for the defense she denied that she had thrown a jar of mayonnaise at her father. To the defense question if the aged man did not fall against the kitchen safe, she replied that he was knocked against it.

Asked by County Attorney Burchett about a hammer with which the aged man said he was struck, the girl said she did not see it. The hammer, she said, was kept on top of the safe. It was found by officers inside a phonograph. She was asked if she knew who washed blood off the hammer and she denied such knowledge.

Her brother, James, 13, corroborated her story, except that he denied seeing a knife in his father's possession. He said his father and Hall had had "two or three rackets" a week or two before last week's encounter, the two quarrelling over "Bertee coming to see Rosina." He said Hall had told his nine-year-old brother, Truman, to throw rocks at their father. On cross-examination he testified Rosina called to Hall, "Watch—he's got a knife." The cut in Hall's back he described as a "little place." Hall had chased Frasure from the home in previous altercations, he testified.

Truman with his childish lisp attracted the spectators' interest during his testimony. He said he saw no knife. He referred to his father as "John." "John," said he, "started to raise up off the floor and Bertee told him to lay back down and then Bertee kicked him in the face. One time, Bertee threw an apple butter jug at John and bursted it against the wall." He also told of Hall trying to get him to go after a rope. "He said he wanted to tie John up and make him tell where he got the knife," the boy testified.

The six-year-old Robert told of seeing Hall kick his father twice.

Mrs. B. F. Elliott, of Harold, a half-sister of the victim, testified that the injured man while at the Martin hospital told of Hall hitting him with a hammer. She said he had been very feeble for some time and could not enter or leave an auto without help.

Mrs. Elliott said that, although she does not know her half-brother's exact age, she is certain he is older than 79—probably 81 or 82. He had been a lifelong resident of the Mud Creek section and was highly regarded there. His first wife, Sylvania Newsome Frasure, died and his surviving children were born to his second marriage. These children are Mrs. Arizona Newsome, James, Truman, Robert, Rosina and Anna Mae Frasure, all of Craynor. Two half-brothers, Frank Hall, of Whitesburg, and Mack Hall, Charleston, W. Va., and a half-sister, Mrs. Elliott, of Harold, also survive.

Funeral rites were conducted Sunday, the Revs. Bert Newsome, Andy Martin, J. B. Hamilton and Jonah Isacs officiating. Burial in the Roberts cemetery at Craynor was directed by the Ryan Funeral Home.

Sterling Johnson, 34, Victim Last Week

Sterling Johnson, 34 years old, Wheelwright Junction restaurant-owner, died last Thursday at the Beaver Valley hospital after an illness of a year of stomach trouble.

The victim was a son of the late Sheridan Johnson and was a native of this county. He is survived by his widow, Mrs. Dora Johnson, two daughters, Patsy and Peggy Jo, his mother, three brothers, Bill, Sol and Hays Johnson, all of Melvin, and three sisters, Mrs. B. H. Hopper, of Wheelwright, Mrs. James Akers, Wise, Va., and Mrs. Melcher Stricklett, of Melvin.

Funeral rites were conducted Saturday from the residence, the Revs. Joe Jones, Willie Collins and Ellis Moore officiating. Burial in the Jones cemetery at Melvin was directed by the Ryan Funeral Home.

'Happy' Chandler To Dedicate Wayland Park Friday Night

A. B. "Happy" Chandler, high commissioner of baseball, will return Friday evening to this county, once his happy hunting grounds in the days when he was a political power in Kentucky, to make the dedicatory speech and throw out the first ball at the formal exercises and baseball game which will dedicate Lions Park, Wayland's new athletic field.

Commissioner Chandler's appearance, the meeting of Wayland and Wheelwright in a baseball contest and all the colorful proceedings under the lights of the new park are expected to draw a capacity crowd which will include not only sports followers but also old political friends of the onetime Kentucky Governor and Senator.

J. C. "Cris" Wells, chairman of the Lions Club committee in charge of the evening's program, said Monday he had received a letter from Commissioner Chandler confirming his

Friday evening date at Wayland. The new park, lighted and otherwise equipped at a cost of \$20,000, has a seating capacity of 1,500.

Gates to the athletic field will be opened at 6 p. m., with the program beginning at 7. Commissioner Chandler's speech dedicating the field to the youth of Wayland and the Beaver Creek section will be the feature of this program.

The baseball game between Wheelwright, of the Mountaineer League, and Wayland, one of the top-ranking teams of the Big Sandy league, will begin, immediately after Commissioner Chandler's speech.

Wayland high school's Wasps, now in their second season, will play Jenkins at Wayland Saturday night at 8. The Wasps lost last week's grid game to visiting Harlan, 14 to 0, with the Dragons scoring before the half and again in the fourth quarter. The Wasps lost one marker

when Castle, off on a 40-yard jaunt, stepped out of bounds.

Wayland's football team, organized only last year, has caught the fancy of fans in the upper Beaver Creek area, with the result that school officials have decided to place the sport on a permanent basis.

The Wasps were kicked around during their first year of competition, but already this season have earned the healthy respect of their opposition. They provided the first major upset of the 1948 season two weeks ago when they held Paintsville high to a 6-6 tie.

Emmerson Warr, former Eastern State athlete and Wayland's first full-time football coach, is not expecting too much of his young squad this season, but indicates the Wasps should be a contender in 1949.

A dozen boys with game experience make up the nucleus of this year's squad. They include Doug Castle and Will Craft, co-captains, Harry Haywood, Carter Berkeley and Tramble Evans, backs; Wallace Hall and Bill Ridner, tackles; Jack Spradlin and Bob Berkeley, ends; Bruce and Richard Fraley, brothers, guards, and Doug Haywood, center.

Among lads without previous experience who are already seeing a lot of action are Earl Haywood, a back, and Joe Bradley, Mickey Cooper, Orville Watkins and Dennis Crager, linemen.

Other boys who show promise include Freddie Ridner, Tom Meadows and Emmet Ridner, backs; and Linemen Ed Martin, Orllis Brown, Dean Ousley and Grambille Smith.

Coach Warr has indicated Wayland will apply for admission as a football member of the Big Sandy Conference next year.

IT'S HAROLD W'KSURY

For Big Sandy Title Playoffs; Mountaineer Series Near Decision

It will be Harold vs. Weeksury in the Big Sandy Baseball League championship play-offs.

Harold won its place in the final series Tuesday night by defeating Wayland, 10 to 6, in the third game of their play-off competition. Wayland won the first game, 10 to 8, and Harold took the second in 10 innings, 11 to 8. All games were played under the lights of Lions Field, Wayland.

Weeksury won a finals berth by defeating Elkhorn City two straight, 5 to 1 and 6-5. Elkhorn City, not up to full strength, was no match for the Floyd team.

Date for beginning of the final series had not been announced Wednesday.

In the Mountaineer League Pikeville and Stone play tonight (Thursday) at Pikeville for the right to meet Omar, W. Va., in the title series. Pikeville won the first game, 14 to 3, and dropped the second, 3 to 5. Omar eliminated Wheelwright by taking two straight, 26 to 0 and 7-2.

Unless the champions of the two leagues meet later, the two championship play-offs will end Eastern Kentucky baseball for the year.

Asks Disabled Vets To Submit Proof Of Dependency

Veterans with disability ratings of 60 per cent or more who have dependents are advised by Veterans Administration to submit promptly to VA documentary evidence of dependency so that they may qualify for increased compensation under Public Law 877 of the Eightieth Congress.

The new law provides additional allowances for such disabled veterans who have a wife, children or dependent parents. The married veteran may receive up to \$21 extra, with added amounts for additional dependents.

Veterans whose dependents are recorded in their VA claims folders as of Sept. 1, 1948, will have until Dec. 1 to file the evidence. These awards will be retroactive to Sept. 1, the effective date of the law, otherwise the effective date of the increase will be the date of receipt of the evidence.

As to the veteran's wife and children, certified copies of public or church records usually are the best and most easily obtained evidence. If for any reason the veteran cannot get these, he should submit the best evidence available, such as sworn statements of responsible persons. For parents, proof of dependency in the form of sworn statements as to income and property ownership are required.

Veterans may obtain assistance in connection with the filing of their claims at any VA office, or from service organizations and state agencies.

On the farm of Willie Lucas, in Letcher county, 24-D applied to sumac bushes gave excellent results.

3 Tie for Medalist Honors; Fraley 'Hot' For Playoff Round

Play for medalist honors at the Beaver Valley Golf and Country Club, Allen, preparatory to the club tournament which starts Saturday afternoon, resulted last week-end in a three-way tie at 72 for 18 holes between Ray Fraley, Willard Adkins and John S. Hampton, all of Wayland and Glo, and the subsequent play-off has developed golf of high calibre.

With an 18-hole playoff agreed to, Fraley burned up the course Sunday afternoon with a 32 for the first nine. Adkins scored a 35 and Hampton 36. The final nine holes will probably be played today (Thursday).

Qualifying rounds end Friday. The tournament will be composed of three flights, with prizes for winners in each flight, it was announced.

DAVID

Charley Wallen, who was seriously injured in a wreck in the No. 2 David mine Thursday of last week, is recovering in the Prestonsburg General hospital.

Mrs. Willard Debord, who underwent an operation in the Prestonsburg General hospital last week, is getting along nicely.

Frank McGuire, who has been working in Ohio, has returned here.

Mr. and Mrs. Langley Patton and Charles McGuire were visiting in Ivyton last week.

Mr. and Mrs. Howard Hamilton and children were visiting Mr. and Mrs. Marcus Patton last week.

Mr. and Mrs. Hansford Honeycutt and children and Miss Eloise Johnson were visiting in Auxier Sunday afternoon.

Mr. and Mrs. Tandy Bartley and children were visiting Mrs. Bartley's parents at Wheelwright last Sunday.

Mr. and Mrs. Jesse Estep, of Paintsville, visited Mr. and Mrs. Bill Moore here last week-end.

Mr. and Mrs. Russell Harman and children, Roslyn and Billy, spent last week-end on their farm on Johns Creek.

Mr. and Mrs. Arnold Clark and daughter attended an all-day meeting at Emma last Sunday.

Bill Hammond is back in school after being absent a few days following a bicycle accident.

Mr. and Mrs. Ernest Wells and son were visiting relatives at Lancer last week-end.

Mr. and Mrs. Wayne Griffith were visiting relatives in Garrett last week.

Last Sunday was a good day at the David Community Church, with 160 in Sunday School and a great service Sunday night, with singing by the Tom's Creek quartette and a sermon by the Rev. Vanhoose, of Paintsville.

The chapel program of last week was very interesting. All seats in the Community Church were filled.

The children of Charley Wallen, who was hurt in the mines last week, are spending this week with their grandparents on Bull Creek.

Prestonsburg Falls to Evarts, 46-19, for Season's First Loss

Too much Evarts and not enough effort Saturday night brought Prestonsburg high school's Black Cats a 47 to 19 defeat in their second football game of the young season.

The Cats met Evarts, a possible state championship outfit, in the Harlan countians' own backyard and, except for early minutes of play, were never a threat.

Prestonsburg took the kickoff and tore the huge Evarts line to shreds with a drive which did not stop till "Set" Branham was across for a touchdown.

Evarts came back to tie the game up at 6-6 on the second play after getting the ball. Glenn Steele went around Prestonsburg's right end for 62 yards to score. A blocked Black Cat punt resulted in Evarts' second marker, with "Banty" Bryant scoring the first of his five touchdowns for the evening.

Evarts made it 20-6 in the second quarter and in this period the Black Cats were stopped on a goalward surge when the ball was fumbled on the Harlan team's 15. A 50-yard run by Steele, with Bryant going over from the 20, netted another touchdown for the winners in that quarter.

Soon thereafter Branham's pass was taken in a sensational fashion by Gene Boyd, Prestonsburg full-back, who snatched the ball from three Evarts defense men for a gain of 40 yards and a touchdown. The half ended, 26-13.

Branham scored, midway the third period, after a 47-yard drive. But the Prestonsburg line, sadly outplayed, could not contain the Evarts offensive and lightning thrusts of Bryant and Steele.

Inexperience and lack of the will to win were blamed for the Cats' setback. The boys came out of the tussle in fair physical condition but they have far to go to be "up" for their game at Russell Friday.

The only laugh Prestonsburg fans got out of this Evarts massacre was

the published statement of an Evarts scout to the effect that Prestonsburg averages 190 pounds to the man and that poor, little Evarts would face a team of behemoths. The elephants were in the other corral, say fans who saw the two teams lined up against each other.

Elsewhere on the Big Sandy, Paintsville lost to Whitesburg, a team Prestonsburg licked, 13-0, by a 34 to 0 score, and Pikeville lost to Williamson, 21-0. Louisa eked out a 7-6 decision over Raceland which one sports writer called a gift, since Cox, Raceland backfield ace, deliberately stepped out of bounds when he saw he would crash into a small girl as he raced down the sidelines with a pass interception and a clear field ahead. Hazard defeated Jemteam Prestonsburg licked, 13-0, by a

Club Leader Asks Members To Vote

Wheelwright, Ky., Sept. 16 (Sp.)—The new year for the Wheelwright Woman's Club began September 13 in the club's new rooms in the Municipal building.

The president, Mrs. Stephen W. Clark, opened the first meeting of the year with the reminder that vacations are over, children are going back to school, the long summer months are past and many months of interesting activity are just ahead. She called upon club members to study the resolutions adopted at the national convention last May in Portland, Oregon, to get out November 2 and vote their convictions and to support the programs planned for the year by the Wheelwright Woman's Club. In this way a deeper appreciation of the finer things our clubs are working for may be had, she explained. The program for the evening was in charge of the department of Fine Arts, and Mrs. Wayne Ratliff introduced Mrs. Pace who gave a review of the book, "In His Steps," by Dr. Charles M. Sheldon. Mrs. Stephen Clark read Oliver Wendell Holmes' poem, "The Chambered Nautilus."

Three new members were welcomed into the club: Mesdames R. B. Anderson, G. B. Hall and E. E. Hopkins.

Mrs. Anna B. Smathers gave an interesting report of her trip to the state convention of the Kentucky Federation of Women's Clubs which was held in Covington and Cincinnati in June. She presented the club an Honor Certificate for 1948.

Plans were made for the entertainment of the Lackey-Garrett Woman's Club in October, when they will be guests of the Wheelwright women for a dinner and evening of entertainment. Prof. Thomas Young, of the Morehead Art department, will be present at the time to give a puppet show. Committees were appointed to assist with the casting and production of "Fun for You," a four-star production of the Empire Producing Company of Kansas City, Mo., which will be given in Wheelwright, Sept. 27 and 28.

Refreshments were served by Mesdames J. W. Bailey, Arthur Bradley and Robert Airlie.

BETSY LAYNE

Plans have been completed for a series of revival services to be conducted at the Freewill Baptist Church, beginning this week.

The last meeting of the Woman's Society of Christian Service of the Methodist Church was held at the home of Mrs. Lon Roberts. The program was conducted by Mrs. T. J. Chandler. The business session was led by the president, Mrs. Eliza Blackburn. A social hour followed.

Willie Clark is able to return to his work at Pikeville, after recovering from a recent major operation at the Pikeville hospital.

Gerald Roberts, a student at the U.S. Naval Academy at Annapolis, has been spending several days visiting his parents here.

Lon Edward Roberts left last Wednesday to become a student at the University of Virginia, where he will be a junior.

Mr. and Mrs. James Phillips, Sr., have returned from visiting relatives in Tennessee.

Mr. and Mrs. Earl Hays and members of the Youth Fellowship group attended a sub-district meeting of the Sandy Valley parish at Hardy last Monday evening.

Mrs. Mary Mullett and family recently moved into property they purchased on School street.

Dr. and Mrs. Peter Loar, of Portland, Oregon, are visiting Mrs. Dockie George and James Loar, Jr., for several days. This is Dr. Loar's first return to Kentucky in 23 years.

Dr. and Mrs. T. J. Chandler and Mr. and Mrs. Clyde Blackburn visited friends at Grundy, Va., Sunday.

Patrons are pleased to notice the recent progress on the school building. Its completion will relieve the crowded conditions and will make a beautiful addition to the community.

Several from here attended the lawn supper given last Saturday night by the Laynesville Woman's Society of Christian Service at the home of Mrs. Lee Cecil.

W.M. Fitzpatrick, of Prestonsburg, was the supper guest of Mr. and Mrs. G. H. Blackburn, Friday night of last week.

DRIFT

Born to Mr. and Mrs. Bobby Hall a five-pound son, Mrs. Hall is the former Miss Audrey Turner.

Mrs. Sarah Martin and son, Ralph, were visitors here over the week-end. They recently moved to Lexington.

Mr. and Mrs. H. D. Hewlett have returned from a 10-day vacation spent in Middlesboro, Lexington and Mt. Sterling.

Richard Jones and Lester Martin left Saturday to join the merchant marine.

Miss Nell Jo Porter has been quite ill of a throat infection.

Billy J. Turner left Tuesday to enter Eastern State Teachers College at Richmond.

Miss Betty Fay Jones entered the University of Kentucky last week.

Harold James Stumbo is attending the University of Kentucky this year.

DIES AT BRISTOL
Mr. and Mrs. G. D. Ryan, of Martin, were called last week to Bristol, Va.-Tenn., by the death of Mr. Ryan's brother-in-law, Wiley Wolf, 62, who succumbed to a cerebral hemorrhage.

Young-Wilson Vows Said at Martin Church

William Paul Wilson, son of Mr. and Mrs. H. O. Wilson, of Martin, and Miss Jo Ann Young, daughter of Mrs. Audrey Young, of Allen, were united in marriage Saturday, Sept. 12, in the Christian Church at Martin. Rev. S. C. Honeycutt officiated in the double ring ceremony with Mrs. Mary Ann Robinson, sister of the groom, and Mr. Robinson as best man and matron of honor, with close friends in attendance. Mrs. Wilson was attired in a blue gaberdine suit, with elbow-length gloves, white hat, and other accessories of blue, and a corsage of red roses. They have returned from a honeymoon in Charleston, W. Va., and are now at the home of Mr. and Mrs. Wilson at Martin. Mr. and Mrs. Wilson are graduates of Martin high school. Mr. Wilson is employed by the C. & O. Railway Company. Mrs. Wilson has been pianist of the Methodist Church for the last four years.

ALL THEY ASKED WAS AN EVEN BREAK

Building a new country was not easy. But there were men and women willing to turn their backs on a safe life, and their faces toward new frontiers. *All they asked was an even break.*

Free enterprise is another way of saying "an even break." Free enterprise is the basic American principle of vision and personal initiative. Just give an American an even break—a chance to get ahead—and he'll go on from there.

But when government goes into business, in competition with its own citizens, the American ideal of an even break is destroyed. For government in business grants itself special privileges that are denied to people in business.

Take government-owned power systems, for example. They pay few, if any, taxes; often get money from the U. S. Treasury at little or no interest; make up losses out of the pockets of the taxpayers.

On the other hand, America's business-managed power companies are on their own. They pay their full share of taxes, fair interest on the money they borrow. It's a tribute to American self-reliance that tax-paying, self-supporting companies supply over 4/5 of the enormous amount of electric power this country depends on at the lowest possible cost.

There are still new frontiers in electric living to be opened. *And businessmen can do the job better than bureaucrats.*

Wheelwright Club To Present Play, September 27-28

Wheelwright, Ky., Sept. 21 (Spl.)—The community show using a large cast ranging in age from three to 93 years will open a two-night run September 27 and 28 at Wheelwright high school under sponsorship of the Wheelwright Woman's Club. "Fun For You" is said to be a hilarious hook-up of home town headliners impersonating famous radio, stage and screen stars. It is an impersonation of celebrities who supposedly put on a continuous broadcast. It is as if the audience were attending a broadcast from one of the studios in Radio City or Hollywood. At times they are merely spectators; at other times they are asked to participate as part of the program. This is a new idea in home talent show technique for it brings in audience participation with characters on the stage.

Wayne Ratliff will impersonate Harry Von Zell, the radio announcer who gives the continuity that introduces each scene. The high spot of comedy in the show is an impersonation of the barn dance program. C. R. Tankersley will impersonate Uncle Ezra in this scene; Roger Wells will have the part of Joe Kelly, genial master of ceremonies; Chick Conley is to impersonate the Duke of Paducah, and Miss Ruby Conley will be the gal from Grinder Switch, Minnie Pearl.

In this scene old-time dancing and hillbilly and western music will be featured. The string band which will furnish the music for the square dance will be in charge of Sil Hall. The caller for the square dance will be David Osborne and the dancers are called "The Hay Loft Hoofers." Creed Oney as the singing commercial appears at various times throughout the show to sing such well-known rhyming commercials as "All Purpose Rit" and "Chiquita Banana."

Variety is brought into the show by use of a quiz program in which Arthur Bradbury will impersonate Dr. I.Q. and give silver dollars to those in the audience who answer his questions correctly and award candy bars to those who are not fortunate enough to give the correct answers.

Other big scenes in the production include Tom Brenneman's Breakfast in Hollywood. Heading the cast in this scene will be John Rupe in the role of Tom Brenneman. He will introduce the following men representing Hollywood glamour gals having breakfast in Hollywood: Steve Benedict, impersonating Mae West; Hubert Cantrill as Lana Turner; Harry P. Fields, masquerading as Gravel Gertie, and Junior Horne burlesquing Gypsy Rose Lee.

In this scene John Rupe as Tom Brenneman not only introduces the men dressed as women to impersonate movie stars but he goes into the audience, tries on ladies' hats and awards a prize for the goofiest one present. So the women who plan to attend "Fun For You" are urged to wear the silliest millinery creations possible in order to win nylon hose and other gifts. Following the plan of the original Breakfast in Hollywood show this scene will include awarding a wishing ring, presenting a corsage to the oldest lady present, and giving a gift to the person chosen as the Good Good Neighbor of Wheelwright community. Any resident of this community is eligible to vote for the Good Good Neighbor, who should be some man or woman who has done outstanding charitable or civic work for individuals or the community at large. All letters nominating the Good Good Neighbor should be addressed to John Rupe and mailed Monday, Sept. 27. A committee will judge the letters received and the Good Good Neighbor will be notified so he or she may appear and be presented to the audience the night of the show.

The history of the nation will be portrayed in song in the final scene which is patterned after the "Treasury Star Parade" radio program. In this scene characters will appear in special costumes to form tableau pictures as patriotic hymns and songs are sung by Mrs. H.M. Wilkinson and also the female cast. This scene will feature the "Spirit of '76," the heroes of the north and south representing the Civil War era. World War I will be represented by a soldier and sailor and a Red Cross nurse, also heroes and heroines of World War II. This patriotic number comes to a stirring finish as the Girl Scouts present the parade of flags and the American Legion color guard presents the colors before the national anthem is sung and the bugle blows taps.

Court of Appeals Order Prohibits Trial in Perry

A Court of Appeals order was served Wednesday on Perry Circuit Judge Sam Ward prohibiting him from proceeding further in the case of Buster Fugate, 35, charged with the slaying of Wallace Amburgy, 23, of Hindman.

Fugate had been indicted for murder in both Perry and Jefferson counties in connection with the fatal shooting of Amburgy in Hazard July 15. Amburgy died July 18 at Nichols hospital, Louisville.

The order was issued in a suit signed by Frank A. Ropke, Jefferson county Commonwealth's Attorney, asking the court to prohibit the trial of Fugate in Perry county.

The suit claimed that a warrant from Jefferson county was issued first, but one from Perry county was served instead of it.

Fugate is being held in jail at Hazard. He also has been indicted by the Perry grand jury on a charge of malicious shooting and wounding in connection with the shooting of Bessie Combs. She was wounded at the same time Amburgy was shot fatally.

Promises Enforcement Of School Bus Law

Frankfort, Ky., Sept. 23—Commissioner of State Police Guthrie F. Crowe today announced a policy of vigorous enforcement of the law which requires motorists to stop their vehicles when there is a school bus ahead either receiving or discharging school children.

The law requires motorists to come to a complete stop in such circumstances in residential or business districts, said Crowe, and only permits passage of school buses outside those districts provided the passing motorist drives cautiously and does not exceed 10 miles an hour in speed.

"Safety of our school children is of paramount concern," Crowe added. "We intend to enforce this law vigorously, without fear or favor. Safety of the public, as well as school children, requires it."

He added, too, that his force also intended to be on the lookout for drunken drivers as a menace to safety.

"It is our intention to handle the traffic problem as expeditiously as possible," he continued, "but it is also our function to protect the traveling public against those who would endanger the lives of others."

Father's Favorite ICE BOX ROLLS
Made with **SNOW FLOUR**

For better biscuits, pies, cakes and rolls, bake with Snow Flour. Milled from pure soft winter wheat. Snow Flour has a superior flavor that makes even your best baked goods taste better!

A Product of **LOUDONVILLE MILLING CO.**

Father's Favorite SNOW ICE BOX ROLLS

2 c. milk
4 tsp salt
1/2 c. fat
1/2 c. sugar

2 eggs
2 cakes of yeast dissolved in 1 c. lukewarm water
10 c. Snow Flour

Scald milk, add salt. Cool. Cream together shortening and sugar. Beat eggs. Add to sugar mixture. Add milk to soaked yeast. Blend with flour sifted into mixing bowl. Beat well. Add sugar, egg mixture. Mix. Knead into smooth dough. Place in greased bowl. Cover. Let rise until double its bulk. Knead dough down. Put back into greased bowl. Cover closely with lid. Set in refrigerator. Each day punch dough down to let out gas, returning dough to the refrigerator at once. About two hours before rolls are wanted, shape as desired. Place in greased pan. Cover. Let rise in warm place until very light. Bake in moderately hot oven (400° F.) for 15-20 minutes.

NOTICE

Notice is hereby given that the undersigned will, pursuant to an order and resolution duly adopted by the Board of Trustees of the Town of Wayland, Floyd county, Kentucky, at the door of the Town Hall (in the office building of Elk Horn Coal Corporation), of said town, between the hours of 2:00 and 4:00 in the afternoon on the 29th day of September, 1948, offer for sale to the highest and best bidder, and receive bids for the right, privilege, franchise and authority to acquire, maintain, construct, and operate in, above, under, across, and along the streets, thoroughfares, alleys, bridges

and public places (as the same now exist or may hereafter be laid out) of the town of Wayland, Floyd County, Kentucky, lines, poles and equipment for the distribution of electric energy, either by means of overhead or underground conductors, with all necessary or desirable appurtenances for the purpose of supplying electric energy to said town and the inhabitants thereof, and persons or corporations beyond the limits thereof, for light, heat, power, and any other purpose or purposes for which electric energy is now or may hereafter be used, and for the transmission of the same within, through, or across said town subject to the following conditions, to-wit:

(a.) Said lines and appurtenances shall be constructed so as to interfere as little as possible with the traveling public in its use of the streets, thoroughfares, alleys, bridges and public places. The location of all lines or conduits shall be made under the supervision of the proper Board or Committee of the town government.

(b.) The right, privilege and franchise shall be in full force and effect for a period of twenty (20) years from the date of the ordinance granting such franchise.

(c.) The grantee of such franchise shall save the town harmless from any and all liability arising in any way from negligence in erection, maintenance, or operation of said lines and appurtenances.

(d.) Whenever the grantee of this franchise begins the erection of any lines or other equip-

ment said work shall be prosecuted to completion without any undue delay, and the streets, thoroughfares, alleys, bridges and public places where such work is done shall be left in as good condition of repair as before such work was commenced.

(e.) Wherever in such franchise either the town of Wayland or the grantee of such franchise is referred to, it shall be deemed to include the respective successors or assigns or either and all rights, privileges and obligations contained in such franchise shall be binding upon and inure to the benefit of the respective successors or assigns to said town or said grantee whether so expressed or not.

(f.) The grantee of such franchise may make rules and regulations covering the furnishing of said electric energy as may be fair and reasonable and consistent with the standard practice of the grantee. Said grantee shall render such service under said franchise of like quality that is, adequate, efficient and reasonable, to that customarily rendered to towns of the class in question.

Every person or corporation, desiring to bid for said franchise shall first deposit with the Treasurer of the Town of Wayland, cash or certified check in the amount of Six Hundred (\$600.00) Dollars, which is five per cent (5 pct.) of the estimated cost of the plant required to render the service as estimated by the Board of Trustees, which cash or check shall be forfeited to said town in case the bid shall be accepted and such bidder making such deposit should fail for thirty (30) days after the confirmation of the sale to pay the price bid and give a good and sufficient bond in a sum equal to one-fourth (1/4) of the fair estimated cost of the plant to be erected as aforesaid; and said bond shall be conditioned that it shall be enforceable in case the party giving it should fail within a reasonable time to establish a suitable plant for rendering the services and to begin rendering the services in the manner set forth, according to the terms and conditions thereof, provided, however: (a) that the provision as to deposit and bond shall apply to any bidder owning in said town of Wayland, a plant and equipment sufficient to render the service required under the terms and provisions hereof and the franchise to be granted; and (b) that the provision as to execution of a bond shall not apply and will be waived if the successful bidder shall within the 30-day period specified for the execution of such bond, purchase the existing plant and equipment now in the town of Wayland, and which is considered sufficient to render the services required, or if said successful bidder shall have, before the expiration of said thirty (30) days, obtained from the Public Service Commission of Kentucky, a certificate of approval to purchase the aforesaid plant and shall be in the process of purchasing same and in a position to render the services in the manner set forth, according to the terms and conditions hereof and the franchise to be granted.

The Board of Trustees of said town reserves the right to reject any and all bids.

This the 25th day of August, 1948.

SEES ADVANTAGES IN FALL LITTERS

More pigs usually are saved in fall litters than in spring litters, says Grady Sellards, of the College of Agriculture and Home Economics, University of Kentucky. The weather is more favorable, and there is good pasture for the pigs.

Farmers who have movable farrowing houses should not locate them near woods, says Sellards. That's because foxes and other wild animals are hungry for pork. Locate the houses near other farm buildings, but on clear ground.

Raising pigs on clean ground may save two bushels of corn per hog, Sellards claims. There should have been no hogs on the ground for three years. It may be used sooner if plowed.

The importance of alfalfa, clover and other pasture is stressed by this college authority. Pasture plus corn and simple supplements, such as tankage or skim milk, give pigs a flying start.

DEPENDABILITY

SLOW and plodding though they were, at plough the oxen of the early pioneer proved themselves truly dependable. This patient, hard-working, hard-dying helper helped win the West!

We are always ready to help in time of need. A skilled staff aided by modern, scientific equipment, permits us to render a service of dependability in which no detail is overlooked.

SHEDS DIRT... STAYS WHITE...

DU PONT HOUSE PAINT CLEANS ITSELF!

Outside surfaces stay fresh and clean-looking when finished with Du Pont House Paint. Dirt and grime can't get a grip—rains just wash them away!

SELF-CLEANING Du Pont House Paint is so formulated that, as time goes by, a microscopically fine white powder forms on the surface. Heavy rains wash the powder away, taking dirt and grime with it, and leaving the surface clean and white again. Excessive accumulations of dirt (particularly in sooty industrial communities or in heavily shaded locations) may delay or interfere with this process. Because this "self-cleaning" is gradual, the wearing qualities of the paint film are not abnormally affected.

SELF-CLEANING Du Pont House Paint is as durable as it is beautiful... protects against rust, rot, and decay... gives lasting beauty and protection. Costs no more than ordinary paints—saves repainting bills! Call on a reliable painter for your painting jobs, and ask him to use Du Pont

DU PONT SLIP-RETARDANT SELF-POLISHING WAX
No rubbing or buffing. Dries to a smooth even lustre. Safety tested. **PT. 59¢**
