Deepening of Lake Expected

MAY INCREASE DEWEY'S POOL BY FIVE FEET

Engineers Meet Here With Court; Say Ten Feet More Feasible

WAR'S SNORES—Unmindful of his talkative buddies, an American G.I. sleeps peacefully in a straw-filled foxhole...

Although no definite promise that such action would be taken was made...

Three representatives of the Huntington, W. Va., office of the Corps of Engineers conferred with the court to ascertain the extent of responsibility...

Petitions from Floyd and Pike counties bearing hundreds of names have within recent weeks asked that the lake be deepened to provide greater shore line...

The engineers Tuesday pointed out that 10 feet greater depth would require the county to change highways to greater elevation...

They did indicate, however, that five feet more added to the impoundment would require no road changes...

On the additional five feet officials felt three existed agreement...

JUSTICE NOT AVAILABLE

Pike-co. Man Convicted Of Obstructing Probe Is in Jail Elsewhere

Leo Justice, the Pike county man who was convicted in circuit court here of obstructing justice...

He's already doing time in another jail. Jailer Guy Horn of this county was notified last week by Williamson, W. Va., authorities that Justice...

Justice was fined \$300 and given the jail sentence when he failed to appear here for trial, Sept. 29. West Virginia authorities said Justice had been arrested by state police while walking along a road last month...

Horn said he had requested Mingo county Jailer Elmer Cubine to hold Justice for Floyd county authorities...

Justice dropped a bombshell into the murder probe here when he told authorities he had a hand in the murder of Miss Baldrige. Later, however, he repudiated the confession, telling authorities he had thought it up while intoxicated...

FUNDS ARE APPROPRIATED

For Completion of Dewey, Wolf Cr. Dams Excepting Recreational Facilities

Final allotment of funds granted by Congress under the "blanket" Civil Functions appropriation measure gave the Dewey reservoir...

The amount allotted the Floyd project was only \$76,200 shy of the \$600,000 requested by the Corps of Engineers.

The one other flood control project in Kentucky near completion, the huge Wolf Creek reservoir, was allotted almost the full amount sought.

Major Gen. Lewis A. Pick, chief of engineers, said the program had been screened to include projects which directly contribute to national defense...

SAYS WATER IS POLLUTED

UK Lab Director Urges That Water Be Boiled; Impurity Source Unknown

Reported contamination of the water supply of the town of Martin is nothing new, Dr. Marvin Ransdell, director of the Floyd County Health Department, told The Times this week.

There's been trouble from time to time, ever since the plant has been in use here, he commented. Dr. Ransdell's statement followed a report given Mrs. Woodrow Allen, of Martin, by Linwood A. Brown, director of laboratories at the University of Kentucky...

The army called Tuesday for 40,000 more draftees in December and resorted for the first time to the new doctors' draft. (See Story No. 1, Page 5)

LABOR SCENE IN FLOYD-CO. IS UNSETTLED

Strike Idles 600 Men At David Operations; Gas Firm Parleys On

The Floyd county labor picture was clouded this week, with two mines idled by strike, one gas company's employees set to hold a strike vote Sunday and another's employees were making demands which had not been met.

A strike which began last Thursday at Mine No. 2 of the Princess Elkhorn Coal Company at David continues this week and has spread to the company's Mine No. 1, idling approximately 600 men. To vote Sunday at Allen on the question of a strike—unless wage increase demands are met before that date—are members of the OI Workers Union who are employees of the United Fuel Gas Company in this immediate area.

The Revenue Department has filed 47 suits in Franklin circuit court seeking \$17,935.26 claimed due in unpaid state revenue taxes, penalties and interest on the claims amount to an additional \$6,000. Included among the defendants are several from Floyd and Pike counties.

A tax attorney explained that when the department files suit for unpaid income taxes, indications are that all administrative attempts (letter writing, telephone calls, personal contact by field agents) have failed to collect the money.

NEW SCHOOL IS DEDICATED

Gathering of 500 Views \$140,000 Melvin Plant; Old Building Supplanted

The Left Beaver town of Melvin, which at the beginning of the current school term abandoned its old frame schoolhouse for a new one of brick saw its new \$140,000 school structure dedicated with proper ceremony Friday night.

A gathering of 500, a number of whom were visitors who were seeing the school for the first time, attended the dedicatory exercises. What they saw was a two-story building of eight classrooms and a gymnasium which also serves as a cafeteria. The school, which has an enrollment of 312, is heated by steam, is floored with asbestos tile, has indoor drinking fountains and toilet facilities and its own kitchen from which pupils are served hot lunches.

Mrs. Winnie B. Johnson, University of Kentucky graduate, who doubles as principal and eighth grade teacher, presided at the dedication. Music was supplied by the bands of McDowell and Wheelwright high schools under the direction of Mrs. Adrian Hall. The principal speaker, C. T. Ward, director of census and attendance, State Department of Education, was introduced by Wayne Ratiff, principal of the Wheelwright school. The dedicatory address was made by Superintendent Palmer L. Hall. Other speakers were J. T. Parker, Wheelwright, Inland Steel Company superintendent, V. A. Hensley, Weeksburg, superintendent of Eastern Gas & Fuel Associates, and Dr. W. D. Osborne, member of the Floyd County Board of Education.

Teachers at the new school, in addition to the principal, are Mella B. Hall, Julia B. Akers, Pearlie B. Adams, Imogene S. Moore, Mabel B. Berger, Sybil Meade, Billie Jean Jones and Erena C. Newman. Clues Still Missing In Wayland Burglary; Dept Safe Is Stolen G. L. Gray, special C. & O. officer, said Wednesday the search still being made for clues to robbery of the Wayland railway depot from which the office safe was stolen on the night of Sept. 26 is as barren as the day it was begun. No trace of fingerprints or of the stolen safe has been found. In the safe was a total of \$26.90 in cash and a check. Nineteen Floyd selectees will

'Get out the Vote,' State Members Told By Jaycee President

The Prestonsburg Junior Chamber of Commerce and all other affiliated chapters of the Kentucky Junior Chamber of Commerce received this week a letter from their state president, Donald E. Buchanan, which opened the statewide "Get Out The Vote Campaign" for all Junior Chambers. In his letter, Buchanan said, "In this election year, with communist cauldrons bubbling all over the world, it is indeed important that honest, loyal and sincere citizens impress upon every eligible voter the necessity for expressing his wishes in the manner granted to only free peoples. We are closely approaching the time when America will be practically the only nation in the world where citizens can enjoy the luxury of a free ballot. Let us not endanger this freedom by failing to exercise that right." Buchanan urges all other civic and church groups in the state to join in this drive to get more voters to the polls on November 7, 1956 in order to help America show the rest of the world that we will utilize this right of ours this year and every other year in which there is no election.

KECK ORDERS '80' MARKED

Route Now Officially Extends from Breaks To the Mississippi

Highway Commissioner John A. Keck authorized, Tuesday, the Division of Traffic to erect new Ky. 80 markers, making the route a through-numbered highway, from the "Breaks of the Big Sandy to the Iron Banks of the Mississippi." Ky. 98 will be changed its entire length to Ky. 80 and Ky. 90 will be an added designation to that part of US 68 from Kentucky State Park to Glasgow.

The establishment of the one-numbered highway across southern Kentucky has been urged by many residents of this scenic and historic east-west route. It will connect the many scenic attractions in the southern section of the state. The motorist traveling along this route will see the Breaks of the Sandy, and pass through the beautiful mountain laurel and rhododendron country. The road leads to the Levi Jackson State Park, the Jefferson Davis Monument, Kentucky Lake state park, and Columbus Belmont state park.

Within 50 miles of the road are many other scenic attractions: Dewey Reservoir, Cumberland Gap, the new national park, Dr. Thomas Walker Memorial, Cumberland Falls state park, Pine Mountain state park, the site of the Wolf Creek reservoir, Dale Hollow reservoir, Mammoth Cave national park, Pennyrile state park, and Kentucky Dam state park.

SEEK RULING IN VOTE CASE

Suit To Force Judge To Set Election Date In District 3 Filed

The matter of a local option election in Magisterial District 3 of this county is well on its way to the Court of Appeals for a final decision this week.

This became possible when Mrs. Lora K. Stephens, of Martin, filed a petition in the Floyd circuit court asking a writ of mandamus to compel County Judge Henry Stumbo to set a date for the election. A demurrer to the petition was sustained Tuesday by Circuit Judge Edward P. Hill, and the suit, filed under the Declaratory Judgement act, will go to the Appellate Court for a final decision.

BOARD OKEHS SALARY RATE

For Floyd Teachers; Experience, Credits To Draw More Pay

Although the 1950-51 teacher-salary schedule approved last Friday at the special meeting of the Floyd County Board of Education is \$2 lower on the month basically than that of the preceding year, increased pay for experience and college credits will bring the pay above the 1949-50 level for those having necessary qualifications, it was said this week. The basal salary is \$112 per month instead of the \$114 of last year. College credits, however, will earn 60 cents per college hour up to 128 and up to 30 for graduate work, instead of the 50c allowed last year. Experience will draw additional pay of \$3.50 for each year of experience up to eight, except that experience gained on emergency certificates was limited to six years. The experience pay last year was \$3. The number of hours on which college credits earn supplemental pay also was increased by 10. For credits earned between school terms \$1 per hour will be paid up to 10, and principals will be paid \$5 per teacher supervised up to 20.

Superintendent Palmer L. Hall said this week that approximately \$70,000 more will be spent for instruction this year than last. This figure includes the tuition paid for county students attending Prestonsburg schools. He added that 40 teachers now working cannot be paid, inasmuch as they were put to work since the last regular August meeting and no regular meeting has been held later when they would have been paid. (See Story No. 7, Page 2)

I COVER THE WATER FRONT Circumstances wholly beyond my control have made a landlubber of me for the last two weeks, but I still keep reasonably well posted on activities over on the lake. One of the most inactive activities thus far reported is this:

It was one "Bum" Herald comfortably ensconced on a camp cot set up in his boat, a portable radio playing softly, his line dangling idly over the boat-side into the water. A passerby disturbed the busy fisherman by yelling, "Why don't you stay home in bed and let us bring you some fish?"

WANTED—PUBLIC-SPIRITED CITIZENS

If Floyd county's citizens will take interest enough in the War Memorial hospital for this county to attend the meeting at the courthouse Sunday afternoon at 2, I promise—I will not make a speech.

This meeting is planned solely to organize for election day when the voters will decide if we shall have a bond issue to assure construction of the hospital. Politics has nothing to do with the matter. Regardless of who you are "for" or "against" at the election, you are wanted to join in a fight for a hospital which would be the finest kind of memorial to those of the county who fought the country's wars.

"Lest we forget..." remember those lines which mean so much when the boys are dying in battle?

HO, H-M-M

I didn't say it, and you need not ask me who did. But this was the rather sententious puff uttered here, the other day: "This board of education fight will get so hot the people will be bored of education."

IT'S SAD, MATES

It's a sorry state of affairs when a body's only distinction is a reputation for being as dumb as a giraffe at public gatherings. It's got to that even the ministers when they invite me to attend church hastily assure me they won't call on me to preach.

WHY THE BULL WORKED

And now for the story of the cracker salesman and the—you're wrong, sir—and the farmer. The cracker salesman, driving by, saw the farmer plowing a broad, level bottom, his plow drawn by a bull. "Mighty slow going, isn't it?" he remarked.

To the People of Prestonsburg And of the Surrounding Area:

The situation in regard to the Prestonsburg high school has so long been a topic of conversation and a source of confusion and misunderstanding that I feel it my duty to set out the actual situation and my position in regard thereto.

The Prestonsburg high school has been operated jointly by the County Board of Education and the City Board of Education since 1928, sharing the cost and concurring in the employment of teachers. Employment of teachers by the City Board this spring without reaching a prior agreement had the final result of an opinion issued by the Attorney General's office to the effect that joint operation of the school was without legal basis; that inasmuch as the school was wholly within the Prestonsburg district and they had some equity in the property the privilege of employing the teachers and the responsibility for the operation of the school devolved upon them.

A tuition agreement has been entered into under which county children will attend the school this year. My position is plain and simple. While I would not lay one straw in the way of a pupil in the Prestonsburg district, as Superintendent of the county system, and helping to spend the county taxpayers' money for schools my first duty lies with the county children. No superintendent or board member who did not feel and act thusly would be worthy of his position.

While I have always felt in accord with the educational principle that the school should be under one head and that a new and larger site was needed I was willing to go along with an additional building on the old site as an expediency. But that is out by decision of the State Department and the Attorney General. Foyd county must now have a high school for her pupils in the Prestonsburg area—already numbering more than 325! And in fairness to the county taxpayers the Board must realize its equity out of the old school plant. A site of 4 1/2 level acres next to the old Gasco ball park has been bought and paid for by the County Board. Plans for a mod-

ern, fireproof, high school building are now being drawn. The location is suitable, I believe, for both the county children and the city children if they choose to attend.

I believe that it would be better to have just one high school than two in the Prestonsburg area. I am sure that city pupils would be welcome to attend so long as their portion of the cost is borne by their district. That will be for the City Board to decide.

I understand that Jimmy Greene has told the people that I was not for the new high school in the Prestonsburg area and that as long as I was Superintendent they would never get it. I KNOW THAT HE KNOWS BETTER. I know that some others who know better have talked likewise. Four of the first five major building projects listed by me four years ago have been finished. The fifth is now under construction. This high school is next and with the help of a cooperative board and the fiscal year it will be a reality within the court, barring circumstances beyond control.

I cannot honestly say whether Jimmy Greene is for the new high school or not. I do not know how he could be against it! But I do know that Jimmy and Dr. Allen delayed and postponed action on it. I do know that it was Alonzo Stratton who made the motion to buy the new site and that Jimmy blushed, hesitated and consulted briefly with Dr. Allen before seconding the motion when he was offered the privilege of so doing by Dr. Osborne. I do know that Chalmers Frazier, city superintendent, had previously expressed himself against the new site when he was "sitting in" on a county board meeting as guest or advisor of Jimmy and Dr. Allen and that Jimmy and Dr. Allen seemed to be in accord with him. I do know that ESTILL HOWELL and BILL MALONE would help build this new high school on the new site!

Sincerely and educationally,
PALMER HALL Supt.,

Letter Acknowledges Work of Girl Scouts In Schoolbag Drive

The work of one Foyd county Girl Scout troop in the overseas schoolbag drive has met with success. Acknowledgement of this was received here in a letter from the Girl Scouts of the Philippines in Manila that stated that 15 school bags, Bibles, and books of St. Mark have reached the organization there and are being distributed to its members. The school bags were made and filled by member of Troop 15; the Bibles were given by Mrs. L. W. Benedict, and the Books of St. Mark were sent by the Intermediate Training Union of the Baptist Church here.

At a recent meeting held in the basement of leader Mrs. Jean Schindler's home, the Brownie Scouts painted the basement in Scout colors, using Scout pictures and charts to carry out the motif. The Scouts spent a pleasant evening recently at the home of Martha Ann and Sally Burchett where they cooked food over an open fire and afterward listened to music.

All parents who can be urged to attend the annual financial dinner to be held at Pikeville, October 23rd. At this meeting one of the members of Troop 15 will explain the plan for the year's work. A Halloween party for all troops will be held at the Beaver Valley Country Club, October 27th.

A large box of used clothing collected by Troop 15 was given to the local Boy Scout organization to be passed on to the needy. All mothers of members of Troop 15 have been registered at National headquarters in one field or another.

Jack Turner, a member of the contract negotiating committee in the United Fuel parleying, said the main beach between the union and United Fuel and affiliated companies lies in the wage increase of 25 cents an hour asked by the workers. Company negotiators offered 5 cents.

Represented in these negotiations are Local 372, Kenova, W. Va., which has jurisdiction in this section, Local 418 at Clendenin, W. Va., Local 573 at Gale, Va., and Local 581 at Beckley, W. Va. The negotiators met for the sixth, and possibly the last time Monday.

The mine dispute arose, it was said, because of the refusal of 10 men to walk around standing cars to the man trip to be transported to the outside.

A company spokesman, who declined to be named said that with the exception of a meeting with the mine committee last Thursday evening, when the committee asked management to give a "yes" or "no" answer concerning the reinstatement of the men involved, adding that if the answer was "no" the mines would not work, no other effort has been made by union to settle the dispute according to the terms outlined in the contract.

The all-important question, the soul-searching question: What is best for the child? Play safe with Estill Howell and Bill Malone.

TO THE EDITOR

SAYS STATEMENT ERRONEOUS

Editor, The Times:

Last week, a statement appearing in a paid advertisement in The Floyd County Times mentioned my name in connection with the current school race.

This statement was erroneous, whether by intent or ignorance of the facts I have no way of knowing. My wife is not a niece of Palmer Hall, the present Superintendent of Schools. She is a cousin of Mr. Hall's wife, and I wish it to be known that my connection with the Floyd County Board of Education ended 26 months ago.

Since that time, I have been working in a private business, trying to make a living like the rest of you folks. I am taking no part in this school fight, and would like to be permitted to go my way as an ordinary citizen with his own individual problems to meet and overcome, not as one interested in politics. And this note is merely to set the record straight as pertains to me and mine.

It's Your Fight To Win

UNLESS the people of Floyd county take an active, not a passive, interest in the bond issue necessary for the construction of the proposed Floyd County War Memorial hospital, the county and its people will lose something of vital importance to this and succeeding generations.

For \$400,000 we have the opportunity of getting a hospital which, complete, will cost more than a million dollars. All but the \$400,000 would be supplied by the federal government.

The Times in asking support of the bond issue is mindful of the fact that present hospital facilities are doing a great job, and would not advocate a move which would be detrimental to those physicians and surgeons who have dwelt among us for years and served against terrific odds.

But we maintain that the eighty-five additional hospital beds the project would supply are so badly needed that the business of hospitals now in operation would be little affected. In support of this contention, we point to the hundreds who annually go to Paintsville, Pikeville, Huntington and other places for hospitalization.

With a new and modern hospital, one staffed by specialists in medicine and surgery, these hundreds would be given a chance at life and health without leaving the county of their residence.

A county hospital also would relieve present hospitals of their load of "county" cases—those patients who are unable to pay their bills and who must rely on the county to pay their way. Such cases are a heavy expense to the county, and a county hospital would relieve much of this burden.

This county, industrialized as it is, sorely needs the services of specialists, and without a hospital of the type contemplated, such professional men will not locate in Floyd county.

The taxpayers of this county should remember another thing: The present 20-cent levy to pay the county's old debt will be no more after this year. Therefore, the 20-cent levy necessary to retire the hospital bonds would result in a taxation rate no higher than that at present.

Over and beyond all the practical features of the undertaking, there is this also to consider:

Till this good day Floyd county has provided no memorial to the men who fought the battles of two World Wars. We have talked much and done nothing. Have we forgotten? Can we ever forget those who served—those who died? What could be finer as a memorial to these than a hospital, dedicated to suffering humanity?

It's the people's fight. The people should get busy with their fight.

There's Just One Real Issue!!

What Is Best for the Child?

TALK is CHEAP....

And they say . . .

The "Halls" have been there too long. (Shh! That don't apply to Principals and board members)

They cancelled insurance and lost money. (The Supt. hadn't ought 'a let them do it even if Doc Allen did want it done)

Town Hall got all of the contracts—well two of them anyway. (Maybe his was the lowest bid but it don't look right him being kin to the Supt.)

We want to rid our schools of a political boss.

Palmer Hall won't play politics. He'll get us all beat!

Palmer Hall is a dictator. Palmer Hall hasn't learned to be a servant of the board.

That new building? Yeah, but Hall let the engineer put in the wrong pump and wasted the taxpayers' money.

The Supt. has a lot of relatives working! (Yeah, Doc and the rest of us have kinfolk too but that's not good propaganda)

They've put all the money in buildings and given none to the teachers.

Town Hall tried to sell the Board a lot for parking school buses. (No, they didn't buy it but blah . . . blah . . .)

BUT
It's the FACTS that Count!!

You can see and the records show that . . .

The "Halls" bought the first two Floyd county school buses in 1936. Now 18 regular buses and 5 trucks roll every school day. One child out of four now rides a school bus.

The net worth (actual worth less debts) of Floyd county school property June 30, 1950 was four times as great as June 30, 1936.

In the four years of Palmer Hall's administration more than \$50,000 was put in modern school buildings, plus a lot of repairs and improvements yet the indebtedness was less than \$75,000.

During the four years of Palmer Hall's administration the amount of money budgeted for instruction (teacher's salaries) has increased every year.

Tho far from what we desire our schools generally are now in the best state of repair and the best equipped that they have ever been.

Despite the great emergency our teachers generally are well qualified and their morale and school spirit is much better than average.

Dr. Day
"Miracle Doctor"

I want to thank Dr. W. E. Day for the wonderful results I received through his treatments for a congested right lung and a nervous condition.

A pain developed in July under my right shoulder blade, and I had a swelling about the size of an egg there which hurt to lay on except when I was propped up on pillows at night. It hurt continually to breathe. When I failed to get relief from my doctor, one of my relatives told me about Dr. Day and the complete examination he gives of every organ of the body. On September 30, I started my treatments three times a week and at the end of six weeks I was 50% cured. By January 27, I was completely well.

It is like being in a testimonial meeting to sit in his waiting room and hear all the different people telling of the wonderful results received from Dr. Day and his treatments when other doctors and clinics have failed. Personally, I call him "the little miracle doctor."

Gratefully yours,

Miss Dorothy Little

**GAME HERE
FRIDAY NIGHT
MAY BE 'IT'**

**P'burg Grid Team to Face
Pikeville High Panthers,
Strong Conference Foe**

Nothing less than the word, "crucial," defines in the minds of Prestonsburg and Pikeville football fans the game which will be played here Friday night between the Prestonsburg Black Cats and Pikeville's prowling Panthers.

This is the game, they say, which will mean the difference between a chance at the Big Sandy conference championship for the two teams and an "also ran" spot in the loop standings.

Pikeville, once defeated, has been coming strong in recent weeks, impetus given the Panthers' victory surge by a resounding spanking they handed the powerful Hazard Bulldogs. The team's followers think the boys have hit their true stride and that they're going to be mean customers from here on out.

Prestonsburg's football team is undefeated on the gridiron for the season, although the records will have them with a defeat. This loss came without playing a game via what the Big Sandy conference has been pleased to term a forfeited game. The Cats have won five in a row, and their offensive power last Friday evening against Jenkins, a team which has been regarded as highly troublesome, marks them as capable of taking care of themselves in highly satisfactory manner. The Cats are the heaviest scoring team in the conference. Only in their victory over Whitesburg in the season-opener have they been held to less than four touchdowns.

That loss marked down against the Cats became official Sunday when the conference voted to uphold the claim of Charles B. Hall, principal of the Fleming-Neon high school, that Prestonsburg forfeited its Sept. 2 engagement which had been scheduled.

Prestonsburg school officials contended the game could not be played because the date scheduled was before the opening of school, and that the Fleming-Neon coach was so advised. The coach, they said, agreed to cancel the game, but later filed claim of forfeit.

We can't afford to gamble with our child at stake! With Estill Howell and Bill Malone we'll make no mistake.

Cats Chalk Up 5th Straight Victory

**SCORE IS 39-13
OVER JENKINS
FRIDAY NIGHT**

**Visitors' Pass Threat
Fails Except Against
Prestonsburg's Subs**

A powerful running play and a pass threat which kept the opposition "loosened up" permitted the Prestonsburg high school Black Cats to chalk up their fifth consecutive grid victory of the season here Friday night with a 39-13 win over the Jenkins Cavaliers.

The ease with which the Cats won was surprising, in view of the fact that the Jenkins passing attack had been considered an upset threat. The Cats stopped this, early in the contest, and turned on the power to score one touchdown in the opening quarter, two in the second, one in the third and two in the closing stanza.

Jenkins scored in the third after taking the ball on downs when a series of Prestonsburg passes failed. A pass, Howerton to Anderson, for 18 yards netted the second marker for the visitors.

The game was eight minutes old when Caudill drove 15 yards for a touchdown and Ball converted. A touchdown march was featured by a 40-yard pass from Mayo to Patton and ripping lineage plunges by Mayo and Ball. Prestonsburg kept control of the ball through most of the quarter, which ended with the Cats in possession on the Jenkins 26.

In the second quarter, with 25 yards to go for a first down after sustaining a 15-yard penalty, Mayo raced from his own 46 to the Jenkins two-yard stripe. From that point Ball plunged over in two tries. The conversion attempt failed.

As the second quarter ended Prestonsburg scored again, this time on an end run by Hughes, who had completed passes to Patton and Ball during the drive down to the Jenkins 8. Caudill converted and the half ended: Prestonsburg 20, Jenkins 0.

Prestonsburg took the kickoff to start the second half, with Ball returning to the 42. Then, on the second play of the half, Mayo broke loose on a 55-yard jaunt for a touchdown. Ball converted. Prestonsburg 27, Jenkins 0.

Howerton undertook to pull his team up a notch with passes, but his tosses went awry, Mayo and Hughes intercepting. The first interception was nullified by a Prestonsburg holding penalty, and the second also came at a time when the Cats were offside. A third interception, this one by Everly on the Prestonsburg 21, stuck, however, and the Cats took over. Here the Cats failed on passes, too, and Jenkins got its first touchdown when Howerton hit the line from seven yards out. Litton converted. Prestonsburg 27, Jenkins 7.

Dixon and Ball came roaring back for the Cats with deep thrusts into the Jenkins line of 11 and 15 yards, respectively, and Everly added seven. Then Ball went over for Prestonsburg's fifth touchdown. The attempt or extra point was n. g. Prestonsburg 33, Jenkins 7.

Hughes, Prestonsburg quarterback, fumbled on the 35 after intercepting a Jenkins aerial. Howerton went back to pass but ran instead, picking up 30 yards. He then passed to Collier on the Prestonsburg 18, from which point he flung a pass to Anderson for Jenkins' second and last touchdown. The conversion attempt failed. Prestonsburg 33, Jenkins 13.

After receiving the kickoff, the Cats on straight running plays by Ball, Dixon, Carver and Everly took the ball over. Dixon scoring with a minute to go. The game ended with Prestonsburg again charging downfield after intercepting a Howerton pass.

**Paintsville Drops
First Grid Contest
Of Season to Fleming**

Paintsville's attack by land failed to match the might of Fleming-Neon's air offensive Friday night at Paintsville, and so the Tigers lost their first game of the season to the Letcher countians.

The winners' southpaw quarterback connected on 18 of 24 passes hurled for 235 yards and two touchdowns to teammate Williams.

Both teams scored in the second quarter and the half ended in a 6-6 deadlock. Fleming came back in the third quarter to score again, and contrived to hold Paintsville scoreless.

On the farm of J. A. Standiford in Nicholas county, six plant bed sites were treated last fall with methyl bromide with excellent results.

Mrs. Phyllis Goff, 1902 Park Ave., Indianapolis, Indiana, is now able to go about her housework in less than it takes to talk about it. That is, of course, since Mrs. Goff has been taking wonderful HADACOL. Mrs. Goff had been suffering from a deficiency of Vitamins B, B, Niacin, and Iron, which HADACOL contains.

Now full of pep and energy, Mrs. Goff is able to give this fine statement: "It's pretty bad when you are in a run-down condition when you are only 32. That includes headaches, loss of sleep all the time. Then I heard about the wonderful results other folks were getting from HADACOL. After taking a few bottles my nerves were calmed. I got a good night's sleep, and I gained five pounds. I think HADACOL is wonderful. I recommend it to all my friends."

This is another one of the statements the fine folks who have been taking HADACOL gave us. Yes, there are thousands and thousands of people all over the country who are getting blessed relief from wonderful HADACOL when they needed Vitamins B, B, Iron, and Niacin.

Let HADACOL Help You

**10,000 ARE EXPECTED HERE
FOR RURAL SCHOOL FIELD DAY**

Nine types of competitive sports with 1,200 rural grade school children as participants will feature the second annual rural school field day here Saturday at the Playground.

In all, upwards of 10,000 persons are expected either to take part in the athletic events or to witness them during the day-long program. Gordon Moore, director of the field day, predicted.

During the last week 20 sectional meets were held at central points over the county, and these eliminated around 4,000 school contestants. The sectional winners of each of these events will participate in the finals here:

Basketball, volley ball, standing broad jump, standing high jump, running broad jump, 50-yard dash, 75-yard dash, running relays and horseshoes.

An idea of the magnitude of the sports spectacle to be presented was given in the announcement that 19 boys' basketball teams, 16 girls' basketball teams and 20 volley ball teams will be in action during the day, in addition to the other events.

The games will begin at 9 a.m. Closing part of the day's activities will be broadcast over radio station WLSI, Pikeville.

The event last year, then held for the first time, drew a crowd of 8,000 participants, parents and visitors.

Prizes will be awarded to the school of two rooms or more which amasses the greatest number of points and also to the one-room school with the highest point total. Ribbons will be awarded first, second and third places in each of the events.

Music for the occasion will be supplied by the various high school bands of the county.

These schools won in the sectional meets:

District 58, Little Mud; 61, Fraziers Branch; 57, Upper Prater; 38, Johnnie Crider; 87A, Gearheart; 82A, Lower Jacks Creek; 27, Lower Little Paint; 15, Pitts Fork; 16, Fitzpatrick; 3A, Spradlin Branch; 64, Beaver; 68, Mouth of Toler; 47, Brandy Keg; 95, Stephens Branch; 108, Stone Coal; 89, Ligon; 5A, Forks of Middle Creek; 21, Bonanza; 9, Johnson; Dwaile.

It was pointed out, however, that some school athletes from other schools will take part in the finals.

32ND ANNUAL MEET HELD

Mrs. Bary Tells Group "Family Solidarity" Is Basis for World Harmony

"Yep," replied the farmer. "You need a tractor for that nice level land."
"Got a tractor?"
"Wouldn't you rather ride than walk while plowing?"
"Yep."
"Then why don't you use the tractor?"
The farmer towed this was the way he wanted to do it.

And the cracker salesman persisted with questions intended to learn, if the farmer had a tractor and he preferred riding to walking and if it was faster to use machinery and certainly more pleasant to the bull, why in the mischief he didn't turn the bull loose in the pasture and go modern.

The farmer, now weary of the questioning, drew a sleeve across his brow, knocked a Lumble-bee galleys with a stream of tobacco juice, and replied:
"Mister, this is the way I aim to do this plowin'. You want to know why, and I'll tell ye, I aim to show this bull there's somethin' more in life besides romance!"

The Lackey-Garrett Club was hostess to the convention which was held at the Wayland Methodist Church with Mrs. Carlton Wrightson, Wayland, governor of the Seventh district, presiding.

The invocation was given by Rev. Robert L. Meyers, pastor of the Wayland Methodist Church. The entire assembly joined in singing "Above the Hills of Time," followed by the salute to the flag, led by Mrs. George E. Evans, Jr. Mrs. M. M. Collins gave the welcoming address and Mrs. Pearl Combs, of Hindman, responded.

Miss Clara Shaw, of Jenkins, treasurer, Kentucky Federation of Women's Clubs, passed out financial reports to the presidents of the various clubs. She urged that all members help spread the word that there is money in the Student Loan Fund for some worthy student.

Mrs. Sam Sebran, Newport, Ky., chairman of Fine Arts, K.F.W.C., reminded those present that the artists of tomorrow are the children of today and asked parents to encourage children to paint and to be appreciative of the art of fine painting. Mrs. Sebran announced that the Seventh district was the first district to become 100 per cent in the Penny Art Fund. She presented the David Woman's Club with a blue ribbon, Whitesburg Woman's Club with a red ribbon, the Jenkins Civic Woman's Club, Hindman Woman's Club, and Pikeville Woman's Club with a white ribbon each.

Special music was furnished by the Pikeville Woman's Club chorus. Vocal selections were rendered by Mrs. E. L. Francis accompanied at the piano by Mrs. Fred Fraley.

Mrs. Wrightson read a telegram from Mrs. Joseph Page, past president, Kentucky Federation of Women's Clubs, sending greetings to the Seventh district and expressing regret that she was unable to be present.

Luncheon was served in the dining room of the Wayland hotel, after which a concert was given by the Wayland high school band under the direction of Miss Kathleen Hayes.

Honor certificates were presented to the Betsy Layne Woman's Club and the Jenkins Junior Woman's Club for being 100 per cent clubs.

For giving the most interesting and clever presentation of their year's work program, Allen-Martin Woman's Club was awarded first prize, Lackey-Garrett second prize, and Betsy Layne third prize.

Awards for the greatest delegation on a percentage basis were given, with Allen-Martin Woman's Club receiving first prize and David Woman's Club second prize.

The Betsy Layne Woman's Club received first prize for having the most attractive and complete year-book. Allen-Martin won second award and the Jenkins Junior and Prestonsburg Junior Woman's Clubs received honorable mention.

Mrs. Wrightson announced that Mrs. Rex M. Ankrom, of the Prestonsburg Junior Woman's Club, had been appointed junior representative from the Seventh district.

At the conclusion of the day's program, Mrs. Bary installed the newly-elected district officers, who were Mrs. Beecher Hardwick, of Betsy Layne, vice-governor, and Mrs. W. M. Crawford, of David, recording secretary.

The David Woman's Club extended the invitation for the 1951 district convention to be held at Prestonsburg.

At Pikeville the fiscal court of Pike county maintained a neutral attitude in the plea for more water but voted to cooperate with the Floyd fiscal court in the matter of added impoundment.

Congressman Perkins will probably petition the Corps of Engineers within the next few days to impound the additional five feet of water, county officials said.

County Judge Henry Stumbo gave the engineers' representatives a letter stating that Floyd county could not at this time assume the cost of road and bridge changes necessary for 10 feet more water but that the court would relieve the federal government of all easements granted by the county on roads if five feet were added.

The court awarded contract for construction of suspension bridges at Dwayne and Spewing Camp to Elmer Fannin, Prestonsburg, low bidder among several submitted on the two projects. Fannin's bid on the Dwayne span was \$5,228.30 and on the Spewing Camp bridge, \$6,865.40, the county to furnish flooring, nails, bolts and steel for the latter job. Steel from the bridge razed at the Gyr. McGuire farm on Johns Creek will be used, it was said.

The two-year term given John Stewart for carrying a concealed deadly weapon was probated, contingent on Stewart abiding by terms of the probation order for a period of five years.

All physicians, dentists, and veterinarians below the age of 51 are subject to the draft, but Selective Service will concentrate first on men who trained at Government expense during World War II, yet saw little or no active service.

The sample of well water from property of the Martin waterworks, Martin, Ky., sent by you was received Sept. 30. A bacteriological examination of this sample shows presence of bacillus coli, indicating sewage or other fecal contamination. This water should be boiled or otherwise purified before used.

The health department director said attempts had been made at different times to determine the source of contamination of the water supply but added these efforts had achieved nothing. He emphasized the importance of boiling the water before using it. "We've just been holding our breath, fearing an outbreak of some disease," he said.

Martin's water supply comes from two drilled wells, and the contamination of the water presents a puzzle. Intersections of mains have been closely checked to ascertain if sewage lines might connect with them, but these have failed to disclose the source of pollution.

A water system which will enable the town to use water from Beaver Creek after purification by filtration and chlorination has been under construction for months but is not yet complete.

In addition to the impurities discovered in the water, the community has suffered from a water shortage which has restricted use of water to bare necessities.

Mr. Link Robinson, 519 Lindsey, is the most content and satisfied man in Newport, Ky. In fact, he says there isn't a thing in the world that can irritate or upset him now that he is on the HADACOL band wagon. If there ever was a man who thought HADACOL is the most wonderful thing in the world, it is Link Robinson, since he learned that his system lacked Vitamins B, B₁₂, Iron, and Niacin.

Here is what Mr. Robinson has to say about HADACOL, which is now supplying liberal quantities of these essential elements: "I have been a steel worker for over twenty years. When you are a steel worker, you have to do plenty of good, hard work, and you need lots of good, substantial food. But when a stomach is in as bad a shape as mine was, I couldn't eat. I had gas pains, stomach bloating and nervousness; well, I just couldn't eat the proper foods I needed. My boss told me about HADACOL and I started taking it immediately. After the second bottle I could tell a definite improvement. Now I can eat the foods I need to eat to really be on the job. In fact, I can eat anything I want to. I am not nervous anymore, either. Best of all, I haven't got those terrific gas pains and no more stomach bloating. HADACOL is the best ever. I recommend HADACOL to everyone."

HADACOL Is Different
Countless thousands are benefiting from HADACOL... even hundreds of doctors are recommending HADACOL to their patients whose systems lack Vitamins B, B₁₂, Iron, and Niacin. HADACOL is so wonderful because HADACOL helps build up the hemoglobin content of your blood (when Iron is needed) to carry these precious Vitamins and Minerals to every organ, and every part of your body—to the heart, liver, kidneys and lungs, even to the eyes, hair and nails.

Give remarkable HADACOL a chance and if you don't feel better with the first few bottles you take—you get your money back. Only \$1.25 for Trial Size; Large Family or Hospital Size, \$3.50.

Assistant Attorney General John C. Talbott sent Hodges a copy of a letter bearing the names of Charles Cain and Theodore Hardin. Asking who should investigate the matter, their letter said: "We have proof that on different occasions our county bulldozers have been used for private use. So far as we know, the county has not been reimbursed for the use of said equipment."

Talbott wrote them it was the duty of local officials to inquire into the matter and added: "If the results of that investigation appear to justify it, I am sure those officials shall take the necessary action to correct such a condition."

IDEAS AND INFORMATION
By HAROLD E. RICE
Floyd County Agent

Christopher Columbus

...sold a seemingly impossible idea to a queen, braved 4000 miles of unknown seas, weathered storms and hardships, overcame the doubts of his crew, and finally discovered America. All we have to do is look down at the ground we're standing on and there it is. It's a great land where freedom reigns, and on October 12 we pay tribute to the man who made it possible for us to be here.

First of all, what kind of place do they have to live in? Most of the houses familiar to this agent are damp, drafty, poorly lighted houses, or are practically sealed up. To keep a house dry requires lots of litter. The litter doesn't have to be changed more than once a year, but add more as needed. Drafts can be stopped by sealing all cracks. Light can be provided by an opening all along one side of the house the width of a window. Don't seal this opening; leave one square foot of screened front for each 100 square feet of floor space. In a 20x20-foot laying house this would mean an opening 2 1/2 feet wide and 16 feet long. Additional light can be supplied by windows. Plastic materials that admit some light should never be used to seal up the front. Always keep in mind that drafts and poor ventilation can always be depended upon to cause trouble in your laying house. More information on remodeling poultry houses can be obtained by writing to your county agent or calling at his office, located in the Prestonsburg postoffice.

Wanted—by Almost Half the People!

According to a recent widespread survey—almost half the motor car owners in the United States would choose a Cadillac, if they had their unrestricted choice.

This is, of course, a tremendous tribute to Cadillac, and to those who have designed it so well and built it so soundly for so long a time. But we think it is, equally, a tribute to the American people themselves.

Only a small percentage of American motorists have ever driven a Cadillac—or even enjoyed a ride in one.

But that has not hindered the public from sensing the soundness of the Cadillac ideal—or from giving its wholehearted approval to the Cadillac crusade for quality. Where the effort is worthy—the American people approve.

We regret exceedingly that not every one who wants a Cadillac can own one. But we believe, sincerely, that many have needlessly denied themselves the pleasure.

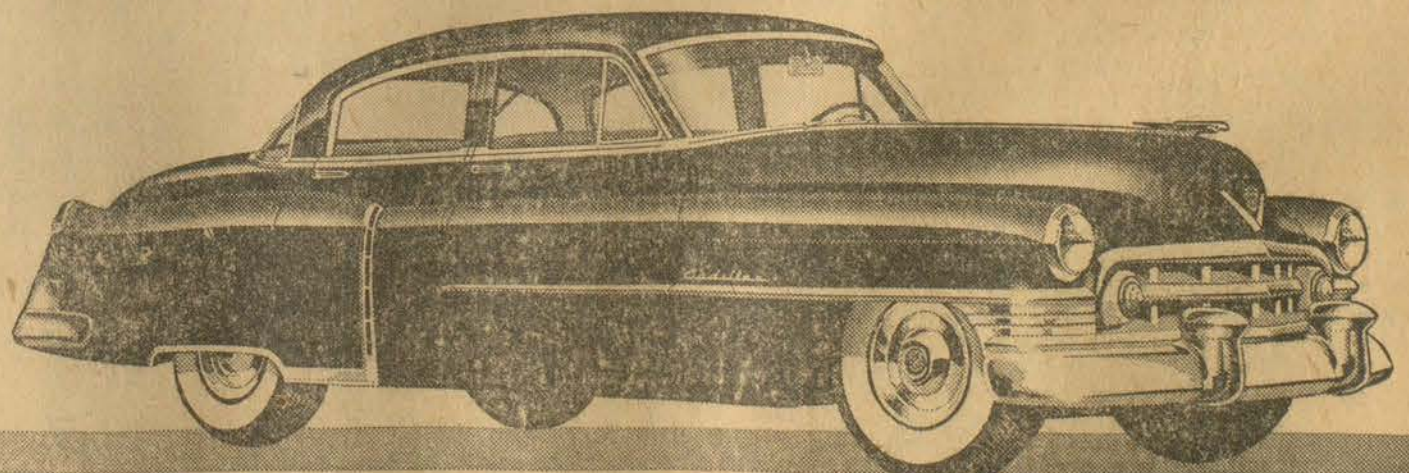

Cadillac cars are far more practical and economical to own than most people realize.

It costs less to buy the lower-priced Cadillacs than it costs to buy certain models of numerous other makes of cars.

Furthermore, a single tankful of gasoline will usually suffice for a whole day's drive.

And, of course, when it comes to *endurance*, a Cadillac stands alone—for its life-span has never been fully measured.

Yes, for a wide group of people, a Cadillac car is a sensible, practical buy. We hope sincerely that it is for you.

SLIDIN' DOWN THE CHUTE

What fun these youngsters have on the numerous contrivances designed for their exercise and amusement! The children of past generations would have been delighted with such elaborate provisions for their enjoyment.

Physical training has become an important part of our modern educational system. Regular periods are assigned to it in most schools, and instructors are employed to supervise the children's play.

We are thus spending billions of dollars each year to develop the minds and bodies of our children. But what are we doing for their spiritual development? The body without the soul is dead, and education without spiritual growth is a hollow mockery.

The Church has the stupendous task of supplying this vital need in human life. Its function is to show people the way of God and teach them to think and feel and act in accordance with His will. Body, mind and spirit—but the most important of these is the spirit.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

CLEMENTS' RECORD SPEAKS!

As Sheriff, County Clerk, County Judge, State Senator, Congressman and Governor, Earle C. Clements has achieved a political record... a record of faithful public service... unexcelled in the Commonwealth of Kentucky. AND NEVER ONCE HAS HE BEEN REPUDIATED ON THAT RECORD. That record stands today in the unblemished faith of the people of the Commonwealth of Kentucky. Because Earle Clements never has failed the people who have elected him to any office of trust. For almost thirty years, Earle Clements has given devoted, conscientious, capable public service to Kentucky.

VICTORY IS A HABIT WITH EARLE CLEMENTS

During his public service, Governor Clements has succeeded at all levels of government—Local, State and National. His broad experiences fit him for broader service. These are grave times in our Nation. The next few years may determine the very existence of our form of government. We need Earle Clements' business-like, competent, conscientious ability in the National Administration.

Earle Clements' outstanding record of service qualifies him unquestionably for the United States Senate. He has served the farmer, veteran, businessman, laboring man... all people... devotedly. He has put the government of Kentucky on a sound business basis. His record is public. And the public record of Earle Clements... farmer, veteran, businessman, public servant speaks louder than any man.

SHERIFF'S SALE

FLOYD QUARTERLY COURT
Keen's Grocery Plaintiff
Vs.—ORDER OF SALE
Raymond Mynhier Defendant

By virtue of a judgment and order of sale directed to me which issued from the office of the Floyd County Court in favor of Keen's Grocery, I, or one of my deputies will, on Monday, October 23, 1950, at the hour of 1 p.m., at the courthouse door in Prestonsburg, Floyd county, Ky., expose to public sale to the highest and best bidder the following described property to satisfy plaintiff's debt, interest and cost.

ONE WASHING MACHINE, ELECTRIC IRONER, AND A RADIO.

Levied upon as the property of Raymond Mynhier.

Terms of Sale: Property is to be sold on a credit of three months, the purchaser or purchasers shall be required to execute bond for the deferred purchase price with approved surety, said bond to have the force and effect of a judgment. As security the Sheriff shall retain a lien against the property herein sold.

The purchaser may pay the amount of his bid in cash, or if funds are executed may anticipate the payment of such payment at any time by paying the principal amount thereof together with interest at the rate of 6 per cent per annum from the date of sale to date of payment. If the plaintiff is the purchaser of said sale for the amount of his debt, interest and cost, no bond shall be required other than for the cost of this action, of October, 1950.

MASTER COMMISSIONER'S SALE
FLOYD CIRCUIT COURT
W. W. Burchett and G. C. Burchett Plaintiffs
Vs.—NOTICE OF SALE
Holton Hamilton and Luca Hamilton Defendants

By virtue of a judgment and order of sale of the Floyd Circuit Court, rendered and entered at the September term, 1950, in the above-styled cause I shall proceed to offer for sale at the courthouse door in Prestonsburg, Ky., to the highest and best bidder, at public auction, on the 23rd day of October, 1950, at 10 o'clock, a.m., same being the first day of the regular term of the Floyd County Court, upon a credit of six and 12 months, the following described property, to-wit:

Lying and being in the town of Emma, Floyd county, Ky., beginning at a post in the line of the county road; thence south course to a stake in the line of Lee Leslie; thence across to Ballard Childers' line west course; thence with Childers' line back to the line of the county road; thence with the same to the beginning. Roadway excepted out for traveling ingress, egress, regress for house and lots above.

Said property will be sold to satisfy a judgment in the above styled action in the sum of \$800 with interest from August 30, 1949, until paid, and the cost of this action.

For the purchase price the purchaser must execute bond with approved surety or sureties, bearing legal interest from the day of sale until paid and having the force and effect of a judgment with a lien retained upon said property as a further security. Bidders will be prepared to comply promptly with these terms.

Given under my hand this 2nd day of October, 1950

**Pike Junior College
To Celebrate 61st
Birthday Oct. 12**

The sixty-first birthday of Pikeville Junior College will be celebrated there next week, according to an announcement by Dr. A. A. Page, the school's president.

The annual Founders Day observance on Thursday, October 12, will open at the college's daily chapel exercises with an address by a Rev. Green minister, and close with a reception given in honor of alumni and former students by the faculty of the school.

In between, guests will be entertained at lunch by the college alumni association, and open house will be observed all over the school's two Pikeville campuses.

The speaker, Dr. Robert C. Patterson, pastor of the Presbyterian church, Bowling Green, Ky., will address students, alumni and visitors in Wickham Chapel at 11 a.m. Dr. Patterson's church was formed some time ago by the merger of Northern and Southern Presbyterian churches in Bowling Green, according to Dr. Page.

The evening program in Wickham Chapel, which will start at 7:30, will also include group singing under the leadership of Miss Mary I. Spillman. The faculty's informal reception for alumni and friends will follow in the main hall of the Administration Building.

**Jack Sizemore Killed
By Road-Gang Guard**

Crafton, W. Va., Oct. 2—A prisoner was shot and killed in an attempted escape from a State Prison road gang here shortly before noon today, coroner Ona C. Jeffry reported.

Jeffry identified the victim as Jack Sizemore, 24, Pikeville, serving a term for forgery.

The coroner said Sizemore started to run away from the gang while at work in a stone quarry on the outskirts of Crafton.

Guard Melvin F. Rampf, Spencer, called to Sizemore to halt and then fired two rifle shots when he continued running, Jeffry said.

Sizemore continued running after the shots and disappeared into the brush along a nearby road. He was found dead in the brush a short time later, Jeffry said one of the shots had struck Sizemore in the back. Jeffry said there would be no inquest and no charge against Rampf.

In Farming Councils**

Floyd county and Prestonsburg school superintendents, Palmer L. Hall and Chalmer Frazier have been invited to aid in forming Councils for Education to cooperate with the Kentucky Council for Education in Floyd county and Prestonsburg.

Besides naming the temporary chairman for the state's 233 school districts, KCE president, Walter E. Girdler, Jr., asked the superintendents to attend a conference at Lexington, Oct. 28.

Girdler explained that local groups were being formed throughout the state under guidance of the newly formed KCE to carry out broad improvements in Kentucky schools. He said plans called for concentrating on forming local councils during November.

The first issue of the New York Weekly Journal, Nov. 15, 1733, contained a notice on liberty of the press.

Who Runs America?

RUNNING AMERICA is the joint job of 150,000,000 people. It's the biggest job in the world today —keeping it running for liberty and for freedom. And the whole world's watching to see whether Americans can do it!

IN MUCH OF THE WORLD today, the people have resigned from running their own countries. Others have been quick to step in—first with promises of "security"—and then with whips and guns—to run things their way. The evidence is on every front page in the world, every day.

FREEDOM COMES UNDER ATTACK. The reality of war has made every American think hard about the things he's willing to work and fight for—and freedom leads the list.

But that freedom has been attacked here recently—just as it has been attacked in other parts of the world. One of the most serious threats to individual freedom has been the threat of Government-dominated Compulsory Health Insurance, falsely presented as a new guarantee of health "security" for everybody.

THE PEOPLE WEIGH THE FACTS. In the American manner, the people studied the case for Socialized Medicine—and the case against it.

They found that Government domination of the people's medical affairs under Compulsory Health Insurance means lower standards of medical care, higher payroll taxes, loss of incentive, damage to research, penalties for the provident, rewards for the improvident.

They found that no country on earth can surpass America's leadership in medical care and progress. They found that able doctors, teachers, nurses and scientists—working in laboratories where Science, not Politics, is master—are blazing dramatic new trails to health for Americans—and for the world.

THE "GRASS ROOTS" SIGNALS CONGRESS. In every community in the Nation, people stood up to be counted on this important issue. Thousands of local women's clubs, civic groups, farm, business, religious, taxpayer, medical, educational and patriotic organizations spoke out—giving the great United States Congress its unmistakable Grass Roots signal from home!

And ever watchful, ever sensitive to an alert people, The Congress saw that signal, and heard the people speak out, loud and plain. That's democracy in action. That's the American way!

Today among the 10,000 great organizations on militant public record against "Compulsory Health Insurance" are:

- General Federation of Women's Clubs
- American Farm Bureau Federation
- National Grange
- Veterans of Foreign Wars
- National Conference of Catholic Charities
- American Protestant Hospital Association
- American Legion
- National Association of Small Business Men
- United States Chamber of Commerce
- National Association of Retail Grocers
- National Retail Dry Goods Association
- American Bar Association

● Doctors of this Nation are grateful that the people refused to be wooed by the fantastic promises of this un-American excursion into State Socialism. ● Doctors of America are dedicated to serve their fellow citizens at home and their comrades in uniform, wherever service to this Nation may take them. ● And the thing they stand ready to fight for—to sacrifice for—to die for—is not the alien way of life of Socialism, but the prideful security of a free and self-reliant people!

THE VOLUNTARY WAY IS THE AMERICAN WAY!

● Throughout the Nation, free men and women, working and planning together, are finding the American answer to every question of medical service, care and cost. Hundreds of Voluntary Health Insurance Plans are in healthy competition—sponsored by doctors, insurance companies, hospitals, fraternal organizations—by industry, agriculture and labor. ● Today in America—70 million people are protected by Voluntary Health Insurance! ● Throughout the Nation, families are insuring themselves against the major costs of illness—at reasonable, budget-basis prices. Voluntary Health Insurance takes the economic shock out of illness. Protect your family now. ● For information, ask your doctor—or your insurance man.

An American's greatest heritage is the right to learn the facts—and to speak his mind. Maintained with honor and used with sincerity—that right will guarantee forever that

David Clubwomen Plan TB Unit Visit

The David Woman's Club met at the home of Mrs. Clarke Todd Friday evening, with Mrs. Todd presenting the program on health. Mrs. John Glover, Mrs. Ezra Clark and Mrs. Todd were hostesses for the evening and used a Halloween note in their table decorations.

Plans were made and discussed for the district convention held the following day in Wayland. Mrs. Harry Fiedler, club president, and Mrs. Charlie Schindler gave a skit prepared by Mrs. Fiedler for the convention. Ten members of the club attended the convention winning for the club second prize for attendance.

The club discussed a plan to bring a tuberculosis mobile unit to the community. A report will be made on the plan for the next meeting.

Announcement was made of the blue ribbon award to be made at the convention to the fine arts department for the club's full participation in the fine arts program. Mrs. Russell Harman is chairman.

HARMONY--TOWN HALL STYLE

Palmer Hall speaks of needing harmony on the Board of Education. Harmony, in its true meaning, is an excellent thing in any organization. But let us analyze the Palmer Hall idea of harmony. We should say the Town Hall idea of harmony, because Town Hall runs the show. Harmony to the "Hall Boys," as Lem says, means meek acceptance of a vicious political machine. A machine that exists at the expense of our boys and girls.

How can any teacher have the heart to do a good job when she knows that her job depends not upon merit, but upon her political influence? We know that you teachers are not being given a chance to do a good teaching job. We know that you are being "asked" to sign certain affidavits in regard to the appointment of a board member. Yes, we know of these unethical maneuvers, but we also know that on Nov. 7 the people are going to repudiate the "Hall Boys."

Town and Palmer have run good teachers out of the county. They have moved teachers from decent positions to unwanted jobs because they dared to express criticism of their administration. Town and Palmer have not learned that in these United States of America a citizen can be allowed to have his own opinion and still do a good job. Jesus was criticized yet he did not try to purge the ones who criticized him.

There is no reason for the Board to meet in order to pay the teachers. Palmer Hall has paid the teachers' salaries before without a regular Board meeting, but the last time he saw a chance to play politics at the teachers' expense. We have always resented the teachers' checks being held up. When the month is up there is no reason why the teachers should not receive their checks immediately. Inefficiency on the part of the Superintendent is the only reason. HARMONY to the "Hall Boys" means condoning inefficiency.

The statement was made by Palmer Hall and Town Hall that we refused to sign the application to obtain emergency certificates. This is a misleading statement. He failed to state that when you sign an application for an emergency permit you swear that every effort has been made to obtain qualified teachers. All we asked of Mr. Hall was to make an affidavit stating this fact, and then we would be glad to sign.

If you would measure up to the Town Hall style of HARMONY, you would sign without question. He speaks of the county being disgraced. We do not agree with this statement. The school system has received some unfavorable publicity because the truth has been told. The truth about the infamous board meeting—the truth about the assessment of teachers—the truth about the high cost of insurance of the Floyd county schools.

We will leave it up to the people of Floyd county as to who is disgraced—the people or the Hall administration.

HARMONY to the administration would mean forgetting these manipulations. They are asking the people to vote for men who are SAFE—SOLID for the TOWN HALL STYLE OF HARMONY.

We don't believe you will.

Town Hall, in a speech at the Floyd county courthouse last Saturday, stated that we, Dr. Allen and James Greene, were elected, four years ago, "for" the "Hall Boys." He referred to us as Judases because we refused to be the Hall Boys' errand-boys, willing to go all the way without question, without quail of conscience or murmur of protest.

That isn't our idea of the matter. We are under the impression, somehow, that we were elected to serve the school children of Floyd county, not the Hall Boys or any other one or two individuals.

ELECTRIC COOKING IS cleaner, safer

No other cooking method is as Clean & Safe as Electric Light!

You'll like an electric range for the same reasons you picked electric lighting for your home: you just know it's cleanest, safest, most MODERN!

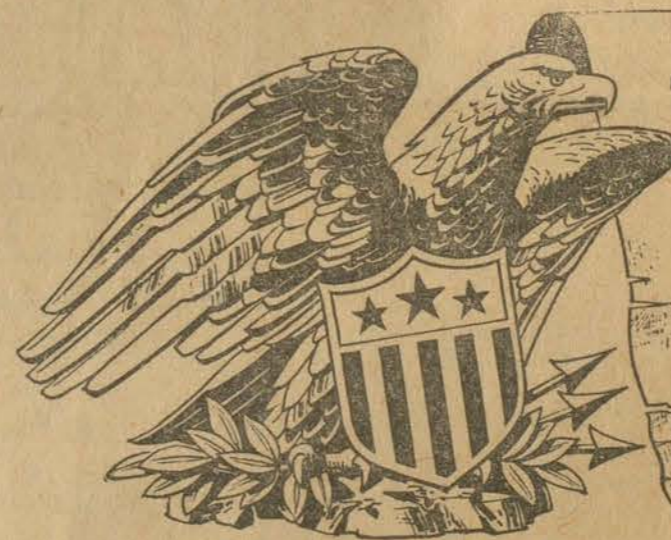

Electric ranges cook without flame or soot. Kitchen air stays cool and fresh because an electric range—and only an electric range—makes heat without gobbling up oxygen from the room.

Millions have switched to electric cooking just as millions turned from old-fashioned lighting years ago. Unexcelled safety and cleanliness are two big reasons—any woman who cooks electrically can tell you many more. So can your appliance dealer. See the new electric ranges at his show room now.

Low cost, too!
