HELP FEED THE MULTITUDE

Fifteen hundred rural schoolchildren w'll be in Prestonsburg Saturday, Oct, 14, to compete in the second annual rural school field day. These youngsters must be fed while here, away from home. There is no public fund from which to draw for this purpose; contributions of citizens and business firms must be depended upon to feed these youngsters, the p'ck of 5,000 or more who will compete for the county finals. glad to help them at least to one out foundation, Congressman Car

The little volume, with its lengthy said. man you met, being a horse-owner, was a self-styled horse doctor.

Would you know what to do when your nag has corns, the scratches, greasy heel, ring bone or bone spavyour nag has corns, the scratches, in? Or a capped hock, the sweeney, water farcey or the heaves? It's all

One remedy I recall from beyhood which I sought for and finally found in the Guide. This was the splitting of the skin of the "brisket" and inserting a piece of leather as a cure for fistula of the withers. I'm afraid the good Dr. Harlan, author of the book, was ahead of his time, for he then 75 years ago. He hadn't prac- in the jailing here Saturday of three ticed any in Eastern Kentucky, ap- men. were using that treatment.

'Dictatorship, Nepotism' Among Charges Hurled: Suit Here Is Dismissed

Asking that the State Board of Education fill a vacancy on the Floyd County Board of Education with a man who would oppose the administration of County Superintendent Palmer L. Hall, a petition filed last week by opponents of the present administration charged the Hall school regime with "dictatorship, inefficiency, nepotism and political activity."

Superintendent Hall denied some of the charges flatly and said he knew nothing about the others. He told The Times that he and Board members supporting his administration did not file any affidavits other than to certify the vacancy and the inability of the four remaining Board members to agree on filling it.

BEWARE

OF UNKNOWN NAME

America is being flooded with cheap, flashy watches. These "one shot" bargains look like a lot for the money - but it's

money down the drain, because buyers are being left holding the bag.

Before You Invest in a Watch Ask Your Jeweler These

5 QUESTIONS

- 1 Will this watch give complete satisfaction, in operation as well as in appearance?
- 2 Will the jeweler be sufficiently familiar with this particular make to repair it quickly and economically? Will he have the proper replacement parts on hand?
- 3 Is the watch a well known make? Has a member of your family or someone you know personally carried a watch of a similar name?
- 4 Are the parts of this watch standard and interchangeable, made to microscopic exactness?
- 5 Is the day-in, day-out performance of this watch universally recognized as superior?

PUT YOUR TRUST IN A KNOWN WATCH Among the nationally famous makers we feature are

Popular Fighter Proves Hadacol Great 'Builder-Upper' For Athletes

who also get tired, run-down because of deficiencies of Vitamins B1, B2, Iron and Niacin in Their Systems.

Orris Lee Story is a very popular figure in Wichita fight circles. His gameness and hard punching ability have won him fight fans throughout Kansas. And it's most interesting indeed to hear this young boxer's com-ments about the great HADA-COL everyone is talking about.

Here is Orris Lee Story's witnessed statement: "Last year I was just another run-of-the-mill flyweight fighter. My coach couldn't put his finger on just what my trouble was. My best punch was a hard right cross, but try as I mould it was falling inches short would it was falling inches short

of my opponent.
"Also the last rounds of a fight usually found me complete washed out, my arms feeling like lead. Then last October had a talk with an Arkansas fighter to whom I had dropped a decision. I told him I couldn't tag him with my right because of a painful stiffness across my shoulders that caused me to pull up short of my full reach. He said it was probably an aching due to neuritis and he recommended HADACOL. I tried it with a lot of doubt in my mind. But there is no doubt today. Today I hold a state boxing title. I exchanged that neuritis are in and its little in the state of the second of the sec

a swat thanks to HADACOL!

Take HADACOL Everywhere Orris Story continues, "If I leave town even for 24 hours to take part in a tournament, I pack my bottle of HADACOL along with my trunks, shoes, hand wraps and mouthpiece. I can't recommend HADACOL too strongly to athletes or anyone is talking about. Trial-size botstrongly to athletes-or anyone is talking about, Trial-size botelse suffering from neuritis tle, only \$1.25. Large family or pains or that listless, tired feeling that prevents a person from 0 1950, The LeBlane Corporation

punching until the final bell." Be Fair To Yourself

What HADACOL did and is doing for this great young boxer—it should do for you if you are weak, nervous, run-down—have neuritis pains or stomach disments but also beneficial amounts of precious Calcium, important to maintain good health. And HADACOL's wonderful Vitamins and Minerals come in special pleasant liquid

Surviving are his Ray Jenes; Walk Carver, carrying faction's candidates in a School widow, Mrs. Alpha Green Williams, Board election.

One affidavit from a school prin- of Elizabethton from the Hall administration, he day at Elizabethton. Burial was collected more than \$200 from made in the family cemetery there schoolteachers during the 1948 fall under direction of the Ryan Fucampaign for School Board mem- neral Home.

Several affidavits stated that such funds were collected to finance the FOR SEPTEMBER 28-29 campaigns of School Board members who were favorable to the Hall Johnson County Fair will be held administration.

required to seek other employ- P.ke, Letcher, Knott, Elliott, Morselling liquor; William Moore, two ment" after his failure to contrib- gan, Magoffin, Martin and Lawrence cases, selling liquor; Jim Hamilton, ute to a political campaign. He said he offered the school attendance officer 50 bushels of corn as a substitute for money, to no avail. Another affidavit stated that at

a meeting before the 1946 Board of Education race, "each principal was instructed to discuss this matter with their respective teachers and to determine the amount that could be secured from each school." Later the money was divided FRI., Sept. 8-Double Feature-"according to the precincts where a big fight was expected," the 30; Leo Justice, obstructing public affidavit stated. This meeting was justice, Sept. 30; Richard Carter, at the home of Henry Porter, and the money was divided up by Wesley Campbell, of the First National

Bank, according to the affidavit. The petition said that the appointment of another pro-Hall member to the County Board would result ing "absolute control of the school of six years, regardless of the outcome of the November, 1950, elec-

The terms of Dr. Allen and Greene expire in January.

Hall, in reply to these charges, ing in the school system. But so have Dr. J. H. Allen and James Green, Hall said.

He denied all knowledge of "assessment" of school employees ond businessmen. As for the teachertenure charges, Hall said there have been no requests for continu ing-service contracts in recent years. "I assume teachers are on tenure

if they're eligible," he said. Hall said the Board lost no money in canceling the fire-insur-Charles Laughton, Franchot Tone ance policies. And he said Allen and Greene voted with the rest of the board when the policies were canceled and reassigned.

> He also said two school principals, V. O. Turner and James Salisbury "are looking for my job." Hall called them ringleaders in bringing the charges.

Other affidavits mentioned specific instances of "pressure' being SUN., Sept. 13, 1:00 p.m. and 7:30 applied in getting campaign contributions. Hall replied that if there had been any pressure, it did not come from him.

He acknowledged that money had been raised to finance campaigns, but denied knoweldge of anyone being forced to contribute.

The only new development here WED., Sept. 13-Stupendous! in the school Board ruckus was the dismissal "without prejudice" Tuesday of the suit filed on relation of Attorney General A. E. Funk against Tyrone Power, Orson Welles, Dr. J. L. Allen, seeking to oust Allen from office on the grounds that he had received from the C. & O. and Latest Korean War News. Kentucky Widows, Orphons Of Veterans Due Benefits May Be Unaware of Fact

Louisville, Ky., Sept. 4 (Spl.)-There are undoubtedly hundreds of widows and orphans of both World War I and World War II in Kentucky who are entitled to pensions and compensation rights, but are unaware of the fact," Stanley Hud-son, acting director of the Kentucky Disabled Ex-Service Men's Board, declared today.

He cited, for example: Widows of World War I veterans whose income is \$1,000 a year, or less, are enitled to a pens on of \$42 per month from the federal government. Widows of World War I veterans with dependent children whose income does not exceed \$2,500 per year, are also eligible for a widows' pension. In order for persons to receive this pension, proper application and

proof must be presented. World War II widows are eligible for death compensation only when the deceased ve eran had a serviceconnected disability of at least 10 per cent which existed at the t'me of the veteran's death.

This reminder, he stated, is a means of acquainting all veterans' dependents with the fact that pension and compensation rights are available under certain specified conditions for non-service-connected deaths as well as for service-connected deaths.

Hudson stated that specified questions and inquiries should be directed to the Kentucky Disabled Ex-Service Men's Board, 1403 W. Broad-Way, Lou'sville, Ky.

Thinking of the Long Pull?

Better Buy Buick!

If that car of yours has put its best days behind it, there's no time like right now to think about starting out afresh with a taut, new, up-to-the-minute motorcar with all its mileage still in it.

And there's no better place in the world to start than with the beauty pictured here, for a variety of reasons.

For one thing, this Buick SPECIAL is a quick-stepping Fireball valve-in-head straighteight that's priced lower than some sixes.

For another, it's built with typical Buick ruggedness through and

Tune In HENRY J. TAYLOR, ABC Network, every Monday evening.

through - a husky that can take a lot of years without crying

hen, too-this high-styled beauty is proving to be one of the most economical Buicks ever built-easy on gas, easy on upkeep, easy on you in its soft, floating, light-handling comfort.

It even comes with Dynaflow Drive* if you like - and Dynaflow means that you will never have to service or replace a friction clutch, and that rear-end or transmission servicing-even engine upkeep-are cut to a minimum.

*Standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models.

Of course, you can't see all of this in the brief span of a trial

But you can experience the good solid feel of Buick strength beneath you. You can satisfy yourself on the lightness of the controls, the utter smoothness of Dynaflow, the quick surge of Buick's Fireball power.

All such things will tell you that this is a car you'll be glad to live with for a long time to come and you need only to ask your Buick dealer for a demonstration to see precisely what we mean.

Why not call on him soon to talk about signing up?

GARRETT

METHODIST CHURCH

Brother Reuther Turner brought an inspiring message to us on prayer service. Our group was small but much interest was shown. We hope t will be possible to have Brother Turner with us often.

Keep in mind our Sunday Schoo picnic which will be coming soon Save a few chickens to fry and make plans to attend.

The M.Y F. held its sub-district meeting at Garrett Monday, August 21. An excellent program was presented followed by games which everyone enjoyed very much. There were about 85 in attendance and all eemed to enjoy the fellowship. Refreshments were served after the social hour. All youth are urged to attend these meetings which are so worthwhile. It might be well if the parents would bring their sons and aughters to the church activities It's certain there would be much less crime in our county if all young people attended the church of their choice. A very small percentage of prison inmates were church attendants in their youth, it has been stated. Solomon said, "Train up a child in the way he should go and when he is old he will depart not from it." Much responsibility rests with the parents.

The many friends of Rev. and Mrs. C. F. Allen are grieved at the sudden passing of Mrs. Allen. To know her was to love her. We extend our deepest sympathy to Brother Allen in his hour of sorrow

WHY PLUMBING REGULATIONS?

your CRANE CO. Plumbing and Heating Dealer.

ELMER W. RICE

Why Control Plumbing?

Plumbing came into being through the struggle of mankind to store, treat, and distribute safe running water for drinking, bathing, cooking, laundering and cleaning, and later for refrigerating, heating, cooling, manufacturing power. An equally important use from the start was to remove human waste matter, thereby preventing unpleasantness and

Elmer W. Rice, local plumbing and heating contractor, Allen, Ky., writes some interesting comments on plumbing, "The reason for plumbing is water." Plumbing provided safe water for human consumption at convenient locations, with no lapse in continuous service. Plumbing provides the means for the removal of human excrement, sewage and wastes, which are 90 per cent water. Without water, there is no life.

The Master Plumber's ability to furnish safe running water has made modern civilization possible. Without it, our American homes could not be run, our cities could

Why Plumbing Codes?

To protect the public from unsanitary plumbing, the use of cheap and defective material, and improper installation, sanitary regulations are provided to control the location, construction, installation, inspection and safe maintenance of plumbing. The reason for the public control of plumbing is PROTECTION OF PER-SONS AGAINST INJURY TO HEALTH. The health factor of safety is the minimum requirement and should never be lowered for reasons of economy.

Why Regulations?

"Power," or "Community Power," is that power inherent in government which protects the people against harmful acts of individuals, insofar as, matters of health, safety, morals, and the like, are concerned. Persons are protected from the things from which they, as individuals, cannot protect themselves. Thus, we find the safety of a public system of water supply, the efficiency of a public system of sewerage, the safe disposal and treatment of sewage and the installation, location, inspection and sanitary maintenance of plumbing all come under the police power of the state.

Scientific plumbing holds a check on epidemics while unsanitary olumbing may be the cause of conveying and spreading disease which could wipe out great populations.

Why Have Inspectors?

Plumbing inspectors necessarily sisting. follows the adoption of plumbing regulations. The plumbing inspecthe people to protect their health against harm. The plumbing inspector is required to have the mere than 200 sections of the detailed plumbing code. His first duty is to correct improper installations. He must condemn, and order removed, faulty construction,

Why Control Plumbers?

The control of plumbing by a public's benefit. In order to receive a certificate of competency a master or journeyman plumber must skill. This means that, like the inspector, he must have knowledge of the 200 or more sections of the plumbing code. Prevention of unsan tary plumbing, which usually results in a nuisance and may injure human health, is always more economical than condemnation and removal of bad plumbing.

The countres of the state of Kentucky with first, second and third class cities have and are governed by the State Plumbing Code. Our smaller counties have no code for plumbing.

The only answer is that the citizens of these areas do not fully realize the dangers.

What is the result of no plumbing regulations? Plumbing is being installed every day that has practically no resemblance to a safe job. Sometimes the workman does not know any better, and neither does the owner. Sometimes the workman's only interest is to finish just any kind of a job, collect his money, and be gone. The final result is that the owner does not know what has happened until he begins to smell foul odors or until the water he drinks begins to taste bad. Then it is too late to prevent illnesses or even death in his family. PREVENTION OF DISEASE IS ALWAYS BETTER THAN TRYING TO CURE IT. Who wants to allow some handyman to make blundering connections to cur domestic drinking water supply from septic tanks, sewers that carry germs, from funeral homes and stables? Only by proper plumbing regulations can these hazards be prevented.

This information is passed on to you with the compliments of your CRANE COMPANY plumbing and heating dealer,

MELVIN, KY.

It's pretty hard these days to tell our farmers' daughters from their city sisters. They enjoy much the same advantages—and for that a good deal of the credit goes to low-cost electricity. We serve 37,927 rural families so we're in a good position to observe.

LATELY?

Of course the electric hair dryer, the radio, and the frilly boudoir lamp this farmer's daughter is using in our picture are only symbols of the better living our rural lines have brought to once-isolated areas. The whole farm family is better off because of such labor-savers and profit-makers as the electric hay dryer . . . the electric pump . . . the electric conveyor, brooder and milker. Yes, and the electric range, lights, and water heater that city people have long taken for granted.

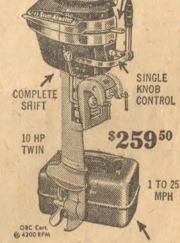

We show farm people how to use this equipment, too. We help them plan installations to meet their needs. Our rural representatives even concern themselves with better stock-breeding methods, with recreational activities of rural youngsters, with lots of other projects where electricity isn't directly involved at all.

It's hardly a coincidence that wherever electricity goes, better living soon follows. Today we're building still more rural lines so that soon everyone who wants electricity will have it in abun-
