This Town— That World

WE THOUGHT WE KNEW

Till they decided a few days ago to let go a rocket to probe the mysteries of dawn and dusk we had the old-fashioned idea that one was caused by the sun peeking over the rim of our part of the world and the other by the same sun gently doing its miraculous daily disappearing act.

MAYBE

Maybe the preacher was sincere, we don't know. But it didn't ring true.

We refer to the Rev. Alvin Kershaw's statement on this week's "\$64,000 Question" TV show. The Ohio Episcopal minister had chosen jazz for his category, and he's doing right well at it. He has reached the \$8,000 "plateau," as they call it, and is now mulling over the idea of going for \$16,000 next week.

What struck us as just a bit hard to swallow was the minister's statement that jazz strengthens your faith, that it is ennobling with its light and shadow, sorrow and gladness, etcetera, etcetera.

Now if the Rev. Mr. Kershaw had simply said that it happened to like jazz music and had become a student of that form of so-called music, we could have gone along with him. One man's meat is another man's poison, and while our ears are not attuned to the blaring and braying of jazz that doesn't make it any less music.

But what we've heard of moaning low, way down blues, jump-and-rye and the like doesn't do a thing for our faith, not to mention the digestion. "St. Louis woman with a diamond ring" . . . that's one of the few jazz numbers we can abide, but we'll be honest and say we just happen to like it and also admit that it doesn't do a thing for our faith.

TEACHERS GET PAY INCREASE

City Education Board Sets Salaries Up \$10, Approves Surfacing Job

A \$10-per month raise for the 22 teachers in the grade school here was voted Monday night by the Prestonsburg Board of Education at its regular monthly meeting. The annual budget was adopted at the same time.

The salary boost brought city teachers' base pay to \$138 a month, which was said to be \$10 above the base salary paid in the county school system. The Board set supplemental pay rates as follows: 85c per college hour for undergraduate work, 85c cents an hour for graduate work up to 90 hours, \$3.50 a year for experience up to and including eight years.

Asphalt surfacing done by the Johnson Construction Co., Pikeville, at both the U. S. 23 and Highland avenue ends of the school grounds was accepted by the Board. The work was done at a cost of approximately \$13,500.

Permission was granted the Association to use the old high school building for basketball practice. Removal of a partition will restore the playing floor which at one time was regularly used there as a gym, and the floor will be of the same dimensions as that of the old and now-abandoned Paintsville high school gymnasium.

Floyd Doctors Vote To Back Polio Fight

GROUP PLACES TOTS' HEALTH PRIME FACTOR

Free Polio Clinics Set To Start November 14th; Separate Meetings Held

Whatever doctors of other counties and the Kentucky Medical Association may have against the federal government's part in the polio prevention program, Floyd county doctors are going ahead as before, glad to cooperate with the county health department and to volunteer their services in the immunization clinics planned for the county next month.

Opposition was expressed at the state meeting in Louisville of the Kentucky Medical Society of the government's supplying the Salk vaccine without charge for the immunization of children of whatever economic status. Members of the medical profession in many counties have protested the government's action as "the first step toward socialized medicine," and doctors in some counties have refused to have any part in the immunization program.

But 10 representative physicians, members of the Floyd County Medical Society, in two meetings within the week at the Beaver Valley hospital, Martin, have gone on record as being willing to cooperate, socialized medicine or no, declaring they were giving first consideration to the children.

This position was first stated at a joint meeting of the Floyd County Board of Health and the Floyd County Medical Society last Friday night when Dr. R. M. Sirkle, of the Beaver Valley hospital staff, declared doctors of this county should go ahead as they did in previous polio prevention clinics, work as volunteers without charge.

This view was concurred in by five other physicians present at the meeting. Dr. John G. Archer, of the Prestonsburg General hospital, commented that he had made the same suggestion at the state medical meeting in Louisville.

Further cooperation was assured at the meeting Monday night at the Martin hospital of the Floyd County Board of Education and the medical society.

At this second meeting the week of November 14 was designated for the new attack on polio through a series of clinics. Both first and second shots will be administered, with the 5-9 age group given priority. There are approximately 4,000 children in this age group, and if any vaccine is left after the clinics are held children age 1 through 9 will be immunized.

Five clinics were planned: At Martin, Nov. 14; Betsy Layne, Nov. 15; Prestonsburg, Nov. 15; Wheelwright, Nov. 17; Garrett, Nov. 18.

As in the earlier clinics held doctors will work as volunteer medical aides, and members of the various Women's Clubs of the county will perform volunteer auxiliary services.

CLUBS RAIDED BY OFFICERS

American Legion Club At Martin Yields Beer In Saturday Night Raid

Sheriffs deputies in raids Friday and Saturday nights confiscated beer in two clubs and either beer or whiskey in four privately operated places.

About four cases of beer were taken in a Friday night raid by Deputies Jim Prater, Al Patton, Wade Moore, Ed Amburgy and Frank Blackburn on the Truck Mine Operators Association at Hunter. The same officers found about two cases of beer at Virgil Moore's at Maytown, Gordon Carroll, manager, of the Truck Mine Operators' place at Hunter was cited before Magistrate John May, who issued all the search warrants for both days' raids.

In the Saturday night series of raids Deputy Sheriffs Troy Mullins, Ed Amburgy, Frank Blackburn and Al Patton took nine cases of beer from the American Legion Club at Martin. Gordon Cluck, manager of the club, executed bond, Magistrate May said. Nine half-pints of whiskey were confiscated at the Round House operated by Eugene Allen

Cleveland Woman Gives Caney College \$30,000

A bequest of \$30,000 was made to the Caney Creek Community Center at Pippa Passes under a will filed in Cleveland, O., Friday, it has been announced.

The famed Knott county school will receive the money from the estate of Mrs. Stella Minor Antisdale, who died last August at 88. She had read about the school in a magazine article six months before her death.

33rd Degree Masons Meet at Martin Cafe

Thirty-second degree Masons of five counties of this section attended the meeting last Thursday of the Eastern Kentucky Scottish Rite Club at the Sea Cafe at Martin.

The Scottish Rite membership drive was discussed. All new memberships from Floyd, Knott, Johnson, Pike and Martin counties will be referred to the club.

Next meeting of the club will be held at Martin, Jan. 12. Dr. R. M. Sirkle presided at Thursday's meeting in the absence of the president, Bill Petrey, who was ill, and R. R. Allen acted as secretary in the absence of V. A. Hayes.

Floyd Mother, Two Daughters Killed in Indiana Car Wreck

Three members of a Floyd county family recently moved to Indiana were killed Saturday afternoon near La Grange, Ind., in a two-car collision which resulted in the injury of six others.

The crash, one of the worst involving Floyd residents, claimed the lives of Mrs. Okala Ousley, 45, wife of Henry Ousley, formerly of Pyramid, now of Garrett, Ind., and her daughters, Lois Rena, 19, and Bonnie Sue, 12.

Other members of the Ousley family injured were the husband and father, Henry Ousley, 50, fractured left leg; Ronald Ousley, 17,

JUDGE ORDERS PLACE CLOSED

Six Month Ban Is Placed On Middle-Cr. Property; Hill Commends Citizens

Property owned by Mrs. Maude Fitzpatrick on the Middle Creek road in the Katy Fridge vicinity, and used by tenants to carry on bootlegging activities, were ordered closed for a period of six months Friday by Circuit Judge Edward P. Hill.

The closing order was issued on a petition for injunction filed by County Attorney Hollie Conley for Roy Green and Wade Moore, residents of the community where the property is located. The original petition filed by the two asked that the property be declared forfeit to the state and sold, and it was indicated this phase of the case may be heard later.

In fact, Judge Hill said he would have no mercy on the defendant on either count.

Directing the defendant to vacate the property involved, a small house and a small store and service station operation, Judge Hill gave Mrs. Fitzpatrick 15 days in which to comply with his order. He added that if she violated the order it will be his purpose to give the maximum punishment within his authority which is a fine of \$30 and a 30-hour jail sentence for each day in violation of the court order.

Turning to those attending the hearing, Judge Hill commended residents of the community for appearing in court and showing an active interest in outcome of the case. "It's an unusual situation in this county for citizens to show the courage and interest these people have shown," he said, adding that if the same interest were shown by other communities more good would be effected through enforcement of the law.

Judge Hill said two suits filed a year or more ago by Commonwealth's Attorney Burnis Martin seeking the forfeiture to the state of property used in the liquor traffic will be docketed for trial.

Boat-Owners Warned Lake Drop To Start On Thursday Morning

Lowering of Dewey Lake from its seasonal conservation pool of elevation 650 to 635 will begin next Thursday morning, and owners of boats were warned this week by Tom Clark, manager of Dewey Lake State Park, that the lake drop will make removal of craft a difficult process. He advised them to move their boats before that date, adding that larger craft will be particularly hard to handle after the lake level has been dropped.

Lowering of the reservoir pool will be done to permit dredging operations in Brandy Keg Cove, to bring a sufficient depth of water to the new boat dock nearing completion farther up the cove.

Biologists of the Department of Fish & Wildlife Resources this week quieted fears of fishermen that a large number of fish will escape from the lake through the dam while the water is being let down. They said the drop will be so gradual and the gates at the dam opened so slightly that the loss will be negligible.

Father, Son To Lead Revival Here, Oct. 17

The Rev. Moses Kitchen and his son, the Rev. Robert Kitchen, will begin a revival Monday, Oct. 17, at the First Church of God here, it was announced this week.

Special singing will be a feature of the service each evening at 7 o'clock. The ministers extend an invitation to the public to attend the services.

JAMES QUILTS MAYOR'S RACE

Candidate Says Employer Gave Him the Alternative Of Quitting Race or Job

Withdrawal of Fredrick A. James this week from the race for Mayor of Prestonsburg left the incumbent, Mayor Harry Sandiego, without opposition.

Announcing his withdrawal as a candidate, Mr. James expressed his regret that he could not continue the campaign but said that he had been told by his superiors in the Southern Bell Telephone Company that he would have either to quit the race or quit as an employe of the company.

James said he was told by his Southern Bell superiors that it is the fixed policy of the company to discourage the entrance of its employes into political races.

"I am very grateful to the many friends who pledged me their support, and I would have liked to serve the people of Prestonsburg as Mayor, but since I have a family to support and have earned several years' seniority with the company, I just can't throw away or endanger the security of my family and myself," James said in a prepared statement.

This leaves in the city election here the administration ticket for City Council opposed in Prestonsburg by Mrs. Myrtle Allen Pate and Mrs. Mont Gibson, and in West Prestonsburg by Sam Hale.

BANK CLAIMS NO AUTHORITY FOR TRANSFER

Bank Josephine Contends Ordinance Designating It Depository Is Covenant

Prestonsburg's two banks are involved in a suit which was filed in circuit court Friday to determine which shall be the depository for the funds realized from the recent sale of bonds to finance construction of an auditorium-gymnasium in connection with the new county high school here.

The suit was filed by the Bank Josephine, and it names as defendants the City of Prestonsburg, Wesley Campbell, city treasurer, his bondsmen, Russell Hagewood and B. M. Spurlock, and the First National Bank.

The action followed transfer of the funds from the Bank Josephine to the First National. The amount sought to be returned to the plaintiff as depository is \$265,541.44, less \$198,998 which the Bank Josephine had invested in government securities at the request of the Prestonsburg Board of Education.

The funds totaling \$274,427.11 were originally deposited in the Bank Josephine—in accordance, that bank claims, with an ordinance adopted by the City Council on July 5. Of that amount \$3,000 commission was paid to the bond agent and \$11,347.50 was deposited to the City of Prestonsburg School Building fund, with \$260,121.44 being deposited to the City of Prestonsburg School Construction fund of 1955. Previous to that time, the suit points out, City Treasurer Campbell had paid into the account \$5,420 of Prestonsburg Board of Education funds, bringing the total as of Sept. 8 to \$265,541.44.

On August 1 the City Council enacted a resolution providing that the July 5 ordinance be amended to designate the First National Bank as the depository. The plaintiff claims this was done before the funds were paid into the Bank Josephine. Then on August 17, the petition continues, council voted to set aside its August 1 resolution or ordinance.

This was followed, however, on Sept. 17 by the Council enacting a resolution which was practically the same as the August 1 ordinance designating the First National as depository for the funds. Previous to that action, the suit points out, the Bank Josephine had invested, as directed, \$198,998 in government securities.

On Sept. 20 City Treasurer Campbell, together with Chalmers H. Frazier, superintendent of Prestonsburg schools, the suit alleges, issued a check on the Bank Josephine in the amount of \$265,541.44. The Bank Josephine at first refused to pay the check, because, it claims, it has made the investment of part of the funds in government bonds. It did pay the check, however, when the First National Bank issued to it its check in the amount invested in the federal securities.

DESCRIBE FAIR EXHIBITS BEST

Livestock Show Finest Seen at Post-War Fairs With Sheep Predominant

The third post-war county fair which ended last Saturday evening drew the best and finest livestock exhibits of the last three years, an official of the fair board said here this week.

Topping the list was sheep which two years ago had almost disappeared from Floyd farms but are now plentiful due to the new program being promoted by local landowners.

Creating interest was the exhibits from the 4-H pig chain. That these are no longer pigs was obvious last week when fair-goers viewed the large, fat porkers. "There was probably more interest in the pig-chain exhibits than in any other thing shown," Robert Jones, assistant county agent, said.

The spade work done by the various department chairmen came in for commendation from Jesse Elliott, fair board chairman. "The livestock exhibits were ably arranged and presented by the department superintendents and others. Great credit is due all the others, too, who headed departments and contributed their time to making the fair a success," he added.

Virgil Smith, of Allen, carried off top prize for best pen of five ewes but Ward Allen, of Huesville, received first prize for the best ram, with Smith taking second place with his Hampshire ram. Paul Dotson, of West Prestonsburg, was awarded second place on his pen of ewes, with Henry Hale, of Blue River, third. Miles Whitaker and Henry Hale took first and second prizes with the best exhibits of Suffolk sheep.

Co-operating to make the fair a success were the hundreds of teachers and pupils, with their exhibits

JUDGE VOIDS LAND CLAIM

Hill Holds Virginians Waited Too Long To File Action To Settle Title

Circuit Judge Edward P. Hill, in circuit court held last Friday, dismissed the motion of four Virginians for an order of sale of lands they claim in this county under an old Virginia land patent.

Dismissal was made on the ground of laches, a legal term applying to inexcusable delay in bringing an action.

The plaintiffs, George T. Taylor, and his sisters, Maude Taylor Montgomery, Marie A. Leitch and Julia M. Taylor, all of Richmond, Va., sought their admittance to the land case as parties defendant and to void a judgment entered in the Floyd circuit court in 1941 by which the similar claim of the Pen-Ken Oil & Gas Corporation and others against the Warfield Natural Gas Company was dismissed because claimants to Pike and Floyd lands had failed to press and establish their claim.

Alexander H. Sands, Richmond, Va., attorney for the plaintiffs, argued that the Floyd action was not that of his clients and his sisters but was the Commonwealth's, and his client were not "unknown defendants," as described in the Commonwealth action.

This argument contended that an order of sale would affect only a relatively small acreage in the Har-

Branham and Campbell Leave for Induction

Two left last Wednesday, Oct. 5, for induction into the armed services, Local Draft Board 25 has announced.

Leaving were Garris Chalmer Branham, of Cliff, and Elca Campbell, Water Gap. There will be no pre-induction call for the month of October, the Board has stated.

Denney Blasts His Opponent In Address Here Tuesday

Edwin R. Denney, Republican candidate for Governor, opened his Big Sandy campaign against A. B. "Happy" Chandler with a speech at the courthouse here Tuesday afternoon in which he scored his opponent as "untrustworthy and unreliable."

Edwin Stewart, of Langley, Republican campaign chairman in this county, introduced Verne Horn, of Paintsville, G. O. P. nominee for Superintendent of Public Instruction, who in turn introduced the other candidates. Pleaz Moble, of Manchester, Republican candidate for re-election to the post of Railroad Commissioner, regaled the crowd before the speaking started with vocal renditions of "Barbara Allen" and "I'm Just a Way-Faring Stranger," to his own guitar accompaniment.

Declaring that he is "too old to come to Prestonsburg and start falsifying," Denney tore into

Chandler, declaring the former Governor and U. S. Senator "will deceive you."

"I can't sing 'There's a Gold Mine in the Sky,'" he told a crowded circuit courtroom, "but I will devote four of the best years of my life in improving the spiritual, moral, physical and financial aspects of the lives of Kentuckians."

One charge against Chandler that was strangely missing from the bitter primary fight was voiced by the speaker when he alleged that Joe Leary, now Chandler's campaign manager, received \$213,286 for collecting back taxes while Chandler was Governor, and that Bob Hensley received \$382,980 for helping collect these taxes. He mentioned Clifford Smith in this connection but did not elaborate in the part Smith played.

Denney read excerpts from a

speech Senator Alben W. Barkley made during the primary.

In it the former vice-president accused Chandler not only of deserting his party but also of refusing to support Barkley for the vice-presidency.

His opponent, Denney said, aspires to be Governor again so he can "get his hand back in the public till of Kentucky." Again he challenged the Versailles candidate to tell "what he did to earn that \$32,800 he was paid by a whiskey firm."

He said that his opponent registered as United States Senator while his country was at war and took a job as baseball commissioner.

At that time, Denney said, Chandler was drawing three salaries—as senator, baseball commissioner, and as representative of a whiskey firm.

COUNTY MINES SCORE OFTEN

In Safety Day Contest With 4 Winners and Send Two Teams to Nationals

Floyd county mines with four first place winners won the lion's share of honors at the 19th annual Safety Day sponsored at Pikeville Saturday by the Big Sandy-Elkhorn Coal Mining Institute, and this week two of the winning teams from this county are competing in the national safety contest at Knoxville, Tenn.

In the national competition are the Turner-Elkhorn Mining Company's team from Drift, winner for the second consecutive year at Pikeville of the adult white first-aid contest, and the Price team of the Inland Steel company in the mine-rescue contest.

Other winners from this county were both the boys' and girls' first-aid teams from the Princess Elkhorn Coal Company at David. The McRoberts mine team of the Consolidation Coal Company

Movement of coal on the Great Lakes is big business. The **S.S. Ernest T. Weir**, for instance, carries 13,700 tons of coal at a time, a tonnage equal to the work of more than 1,500 miners for one day, since the average daily production of miners in the United States is now nine tons per day.

FOREST GROUP SLATES MEET

Leading Foresters Will Discuss Timber Problem With Local Businessmen

Slated to attend the **Floyd County Forestry Congress** here Oct. 21 are a few of the outstanding foresters of the state who will discuss with local industrial leaders the two problems of timber utilization and production. A similar congress will be held at Pikeville the preceding day.

Wilson Wyatt, of Louisville, was originally scheduled to participate in the afternoon panel discussion here on timber utilization, but since he is on the national program on timber problems he was unable to attend and **C. D. Dosker**, of Gamble Bros., will substitute for him. Circuit Judge **Edward P. Hill, Jr.**, will serve as master of ceremonies.

County Superintendent **V. O. Turner** will deliver the address of welcome at 10 a.m., and **Dosker** will follow with the keynote speech. Serving on the morning panel with **James Newman**, UK forester, as moderator and discussing "Problems in Timber Production" will be **Ralph Kemper**, **Kentland Coal Company** forester, **Malcolm Williamson**, of Berea Research Center, **Charles Page**, consulting forester, **Chattanooga, Tenn.**, and **Burl Spurlock**, of the First National Bank, Prestonsburg.

Moderating the afternoon panel discussion on "Problems of Timber Utilization" will be **William C. Johnstone**, agricultural representative of the **Kentucky Bankers Association**. On the afternoon panel will be **B. F. Reed**, drift coal operator and business man, **Kenneth Quigley**, Central States Forest Experiment Station, **Columbus, O.**, **Ben L. Hornbeck**, UK forester at Jackson, Ky., and **Marion (Bud) Haefle**, of Mead Corporation, Chillicothe, O. **Attorney J. B. Clark** will make the afternoon address preceding the discussion.

FORT HOODAS TEX.—Sgt. Reuben Shepherd, son of Mrs. Donna Shepherd, David, Ky., is scheduled to participate in Exercise Sage Brush, the largest joint Army-Air Force maneuver since World War II.

The two month exercise will be held in Louisiana starting in November. Some 110,000 army troops will take part, testing the latest concepts of atomic, bacteriological, chemical and electronic warfare.

Sergeant Shepherd, a rifleman in the 4th Armored Division's 510th Battalion, is regularly stationed at Fort Hood, Texas. He entered the Army in June 1952.

Your Coach **BOB WALLACE**, has been selected as representative for **THE EQUITABLE LIFE ASSURANCE SOCIETY** of the UNITED STATES in this area.

FIRST AVENUE FOR BETTER PARKING

Morality in Government Is the People's Business

One of the most important of all issues in this campaign is morality in government. There has been much discussion concerning the liquor activities of **A. B. Chandler**. It has been clearly established that Chandler received large sums of money from the special liquor interests of Kentucky, and that he used his official influence to enrich himself by virtue of his high position as U.S. Senator, and that he betrayed the trust the people of Kentucky placed in him—by his activities in the liquor business.

I would like to tell you what these checks represent to you as voters. These checks are positive proof that **A. B. Chandler** took or shared more than \$32,000 from a whiskey firm while he was a U. S. Senator from Kentucky and U. S. Baseball Commissioner. The voters of Kentucky are shocked. They are amazed that a man who was on their payroll and supposed to be representing them would receive pay in such a way from whiskey interests.

Such evidence as we have seen and read about places Chandler's moral fitness for the office of Governor into sharp focus. The fitness of an individual to hold a public office should always be measured by the record of how he discharged a public trust when it has been placed in his hands in the past. Measured by this test, Mr. Chandler does not merit the confidence of the people of Kentucky, and his nomination as Kentucky's governor should be rejected on November 8th. Investigation of Chandler's official record, both as Lieutenant Governor and Governor, has reflected a startling tendency on his part to accept fees and favors which show a lack of appreciation by him of the seriousness of putting his personal gain above the interests of the people he represented.

The most shocking evidence comes from this revelation that Chandler accepted enormous fees from whisky interests. Chandler accepted these fees—in the amount of \$32,841.40—from the **United Wholesale Liquor Company of Lexington, Kentucky**, while he was still U. S. Senator in 1945, and continued to take money from this company in 1946, 1947, and 1948 while he was Baseball Commissioner.

Furthermore, although frequently asked to do so, Chandler has refused to explain his connection with the **United Wholesale Liquor Company** while he was supposed to be representing the Christian people of our State. His only comment has been "how I make my money and what I do with it is none of your business." But I tell you it IS the business of the citizens of Kentucky to know if Chandler sold himself and his influence to whisky and other special interests.

Does not the contract show that Mr. Chandler was paid on a sliding scale based upon the gross amount of liquor sales which the company made? This means that the more liquor sold to our sons

and daughters to ruin their character, cause their deaths on our highways, and involve them in crime — yes, the more liquor poured down the throats of our good citizens, the more money Chandler made.

Known checks total some \$32,000. One wonders if there were more.

I for one cannot conceive of any sincere Christian smiling with indulgence upon a man who does not deny that he was paid for his services by the liquor industry and who further say it is nobody's business how he gets his money. It is ALWAYS the people's business how a public official receives his money.

Before you vote, look deep within your soul and ask yourself one question: "As a Christian, as a father or mother, as a citizen who believes in decency and morality in government and high places, can I afford to take a chance on turning this state over to the whisky interests?"

Against this background of contempt for the public interest displayed by Chandler, the fresh, straight-forward candor of **Ed Denney** is like a breath of clean, pure mountain air. Denney's background is that of faithful and trustworthy service to his country as a citizen, and a public official. It inspires confidence and merits our support at the final election on November 8.

BRYANT IN THE MARINES

Pfc. Earl Bryant, son of Mr. and Mrs. Hillard Bryant, of Melvin, has reported to the Marines Corps Supply Center for duty at Great Lakes, Ill., with the Electronics Supply Company as of last month. Before entering the services in 1953, he attended Wheelwright High School and was employed by Loneragan Manufacturing Co., in Albion, Mich.

McDowell Memorial Hospital Job Interviews

Interviews and testing of persons interested in jobs at the McDowell Memorial Hospital will take place Tuesday and Wednesday, October 18 and 19, in the auditorium of the McDowell High School. Applicants are requested to be on hand either day at 9 in the morning.

Vacancies exist for experienced boilermen, and for persons, male and female, in all of the following categories: Licensed practical nurses, nurse aides, attendants, housekeeper, janitors and maids, food service supervisors, cooks and kitchen helpers, central sterile supply helpers, laboratory and x-ray assistants. Experience is desirable, but not necessarily essential in all jobs. Requirements for individual jobs vary but in general applicants must be at least 18 years old, in good health, reliable, able to read and to write legibly, willing to learn and to accept close supervision.

Interviews of persons interested in work as typists, clerks, and stenographers will be announced at a later date.

Revival of a Week Here Resulted in 47 Converts; Big Crowds Hear Martinez

Results of the week's revival which ended at Irene Cole Memorial Baptist Church here Sunday night were listed this week by the pastor, the Rev. Ira McMillen, Jr., as follows:

Forty-seven professions of faith, with more than 40 indicating a desire to be baptized and unite with the local Baptist Church; three additions by letter, one by statement, five definite rededications and several hundred public commitments to spend a definite time in prayer each day.

The pastor baptized 17 last Sunday night, and that many or more are to be baptized next Sunday night.

Evangelist during the revival was the Rev. Homer Martinez, of Fort Worth, Texas. Attendance at the closing service was counted at 435 inside the church, with an estimated 100 listening outside over a public address system. During the Training Union hour approximately 150 persons jammed the doorways and stood in line on the church steps to get inside for the final revival service.

To help the new Christians and new church members become better adjusted to their new way of life and to learn of the responsibilities and privileges it affords, the pastor will conduct a class on the subject, "Your Life and Your Church," beginning Sunday night at 6:30 and each Sunday night thereafter for five weeks.

our comment on what caused the Times to be late one week. This was the week, about two years ago when our linotype operator (who no longer is with us) imbibed too freely, becoming inordinately high and sending us commensurately low, and we traced our trouble back to a cornfield.

Well, Mrs. Ralph Davis sent the item to Reader's Digest, the months passed and she forgot all about it. Last week she received a check for \$25. Which proves, I suppose, that something worthwhile can be made of just about any kind of situation.

THE VERDICT

The story is told of the beautiful gal who was on trial for killing her husband. The evidence was all against her. She obviously had done him in with the best intentions of collecting on the old boy's life insurance and marrying up with a younger man. Yet this young thing was just too pretty in the eyes of the all-male jury to send behind cold prison walls; they just couldn't bear to think of that. But they were married men, too, and there was a little matter to settle with their wives if they didn't come up with some sort of conviction.

Finally one of the dozen "good men and true" had a flash of inspiration, no less. He recalled that the victim of this young lovely's dainty automatic was a member of the Benevolent Order of Elks. So they wrote this verdict:

"We, the jury, do agree, and find defendant \$100 for killing an Elk out of season."

THE BELL STILL TOLLS

To those who can still hear an old school bell from the days of their youth this item may be of interest. The big, old bell that tolled the end of skylarking and sent pupils scurrying to classes under the late Professors W. M. Byington and Dan Harmon now hangs in the belfry of the Community Methodist Church here, its clear tones these days issuing an invitation rather than the summons of school days.

FIVE COUNTIES JOIN AT MEET

In Organizing Production, Marketing Body To Hand Strawberries of Section

Farmers, specialists and county agents of the University of Kentucky's extension Service organized the East Kentucky Strawberry Growers Association here Wednesday at the courthouse. The production and marketing group had been planned for over a year to serve this section's rapidly commercial strawberry production.

It was originally planned to set up an organization to serve a much larger area than the five counties actually participating but a few of the counties, chiefly on the Kentucky River, decided to effect their own organization later. Taking part in the meet here were representatives from Floyd, Pike, Magoffin, Johnson and Carter counties. Meeting with them were W. I. Farmer and L. A. Venice, field agents in marketing of the Extension Service.

The organization, which will be non-profit, will be incorporated. Twenty persons engaged in the production of the organization is to engage in "marketing, selling, preserving, harvesting, processing, manufacturing, canning, packing, grading, storing, handling, or utilizing any agricultural products." The number of directors was designated as five, the years of their term to be set by the corporation at a meet here on Nov. 3 when the by-laws and regulations are drafted. Annual meetings will be held on the first Monday in August, each year.

Directors named at the Wednesday meeting were, for Pike County, Cyl Martin and Carmel Little; Floyd county, Kermit Howard and John Lafferty; Magoffin county, Baxter Arnett and Jackson L. Arnett; Johnson county, Russell Meade and J. T. Bailey; Carter county, Howard E. Allen and Thomas Flaughler.

The directors will select the officers of the corporation at the November meet here at the courthouse.

The suit, prepared by the bank's attorney, Joe Hobson, claims that the \$265,541.44 check was not issued for construction purposes but in an attempt to transfer the funds; that the check was not signed by the architect, H. Clell Hayes, and that written authorization for payment was not signed by any person. It also contends that Campbell was without power or authority to withdraw the funds and that his acts "were in open violation of the original City Council ordinance, especially Paragraph 15.

Paragraph 15 of the ordinance, it is pointed out, provided that the ordinance shall constitute a contract between the City of Prestonsburg and the holders of any bonds and interest coupons outstanding pursuant to provisions of the ordinance, and that after the sale of any such bonds or coupons no change in the provisions of the ordinance shall be permitted while any of the bonds or coupons remain outstanding except as expressly authorized by the ordinance.

The petition claims none of the holders of the bonds consented to the transfer of funds. It adds that The First National Bank contends that the city did have power to effect the change that was made.

The plaintiff asks the court to:

1. Issue a writ of mandamus requiring Campbell to issue and deliver to the Bank Josephine his check for \$68,543.44 or for any other funds that may be on deposit in the First National Bank in the school construction account.
2. Adjudge the Sept. 19 resolution adopted by the City Council null and void.
3. Adjudge that until all the \$275,000 worth of bonds issued have been fully paid Campbell as treasurer will have no authority to transfer funds or to disburse funds from the Bank Josephine except on written authorization signed by the architect.
4. Adjudge that the funds totaling \$274,427.11 and paid to the Bank Josephine is and was the property of the Prestonsburg Board of Education, dedicated to the consideration of the auditorium-gymnasium, and that on and after the date of that deposit, Sept. 8, the city had no power or authority to designate any other bank.

Chandler "hasn't yet had a vision for Kentucky," the Republican nominee declared, "he cares nothing for the people of Kentucky; he is an opportunist."

Accusing his opponent of taking money from gamblers and favoring licensed dog tracks and state liquor stores, Denney said that he was opposed to dog tracks and state liquor stores. "The gambling syndicates have made no contributions to my campaign," Denney added.

Then he brought up the subject of Chandler's swimming pool, saying "They had to tear down a Methodist church to get the steel to go into that pool."

"Do you want to turn over Kentucky to a man like that?" Denney asked.

Denney warned that his opponent, when he comes to this area, will accuse Denney of favoring the sales tax. "I am not promising you any relief from taxes," he said, "but I am not in favor of any kind of sales tax."

Admitting that the 3 per cent sales tax was repealed during his opponent's administration as Governor, Denney countered by charging that, in lieu of the sales tax, Chandler caused 15 different taxes to be put into effect, including "a 3 percent sales tax on water."

He tore into Chandler for his uncomplimentary remarks against Bert Combs in the primary and said, "Let's reveal this man Chandler for what he is."

Suggestion

At the risk of joining the great army of experts who have the idea they could manage any government from that of hamlet to the nation's better than those in charge, we have a suggestion to offer.

Street maintenance, not to mention street-building, is a matter that is badly neglected in most smaller incorporated towns. In Prestonsburg, for instance, no street-surfacing of a permanent type has been done since the WPA quit the job upwards of 20 years ago. Most of the streets have had no repair work.

The reason, of course, is simple: There hasn't been enough money for such improvements.

It strikes us, though, that, somehow, after parking meters in towns such as this are paid for, their receipts, all or at least part, could be earmarked for one specific purpose: maintenance of existing streets.

Property-owners build the streets, in one way or another, and the streets improve their property and add something to the town as a whole, which makes it a good deal for everybody. But it's not the property-owners who tear up those streets; it's the public, total strangers even, heavy trucks, and the like. Then the maintenance of those streets should not devolve on the owners of property.

The taxpayers' investment in such improvements to a town should be protected, and the budget-makers should start thinking the matter over now.

A Good Law Can Be Harmful

We are all for the time-honored law of search and seizure, but its so-called "fine points" which often make virtually impossible the enforcement of other laws is another matter.

This is a law which served the ordinary citizen well from the days of Old England to the present day. To begin with, it was necessary at a time when the English monarchy was a more absolute government than it now is. Since that time it has protected the citizen from ruthless and unjust Gestapo tactics on the part of any police body.

But when a law is such that the omission of one word from a search warrant voids its effectiveness and permits known violators of the law to go scot-free, as reportedly has happened in this county, something is wrong.

We are told that one search warrant failed to point out that the whiskey or beer sought was "for the purpose of sale," and that defeated the whole action.

The law needs clarifying, apparently, for the benefit of the Commonwealth; the defense seemingly already knows all it needs to know.

What seems so anomalous about the whole matter is this:

If a thief takes a refrigerator, say, from your home, and officers armed with a search warrant find the missing item in his home, the search warrant is not attacked, the refrigerator goes back to its rightful owner, and in most cases the thief goes to jail. But if a man is a known bootlegger and another who has bought whiskey from him swears out a search warrant, and on the authority of that search warrant, a truck-load of whiskey is found by officers — still that search warrant is

perused, figuratively, for the dotting of an i or the crossing of a t, and the whole thing is tossed out the window for some trivial technical error.

Federal search warrants are seldom, if ever, attacked. They are prepared with little or no more attention to the technicalities than are such writs issued in Floyd courts. The fact is, the defendant doesn't go "back of" the federal search warrant and attack it on technical grounds, we are told. That may be a bit broader than it should be, but it strikes us that whatever is good enough for U. S. courts should be valid in state and county courts.

Wright Firm, Workers Contribute Over Half Of Flood Relief Fund

Floyd county more than doubled its Red Cross quota for the relief of flood victims in the New England and other Eastern states, and contributions from Wheelwright doubled the total contributed by all the rest of the county.

Miss Ella Noel White, executive secretary of Floyd Red Cross Chapter, this week reviewed the funds raised in this county and had special praise for the contributions from Wheelwright. Inland Steel employees at Wheelwright contributed a total of \$788.50 and Inland Steel itself upped the total by \$100. Other county contributions totaled \$415.

The regular Red Cross drive for funds stopped at \$5,600, far short of the amount needed to restore the blood program to this county.

Approximately 500 entries were made by 4-H club girls in the Jefferson county fair.

Chandler and Waterfield To Speak Here, October 20

Both A. B. "Happy" Chandler and Harry Lee Waterfield, Democratic candidates for Governor and Lieutenant-Governor, respectively, will be in Prestonsburg for the Democratic rally and barbecue next Thursday, it was said this week at Democratic campaign headquarters. Speakers will include U. S. Senator Alben W. Barkley, Congressman Carl D. Perkins and others. Judge Bert Combs, who was slated to speak, said here today (Thursday) that a previous engagement will prevent him from reaching Prestonsburg for the rally.

Judge Combs told The Times he plans to return to Prestonsburg and resume the practice of law but did not indicate when he will move here.

Democrats Pledge CONTINUED PROGRESS

On Schools State Parks Job Security

Following are excerpts from text of platform speech made by Hon. A. B. Chandler, at Bowling Green, Kentucky on October 1, 1955:

PLEDGES SCHOOL HELP

The very first commitment which I make on my own behalf and on the behalf of the Democratic Party is the solemn pledge to elevate and improve education in Kentucky at all levels. The future of our state depends upon the educational opportunities afforded our children. We cannot rise above the intellectual attainment of our people. Our culture, our industry, our agriculture, and our business depend upon the skill and training afforded those young people who—very soon—must assume responsibility.

The Minimum Foundation Law, a product of Democratic leadership, will be made effective promptly and will be fully implemented. Vocational schools, trade schools, the colleges and the university must be financed adequately, and big plans must be made for their future, for a big job lies ahead of them. Agricultural education—so important to our welfare—must be encouraged and supported through the expansion of Future Farmer and Future Homemaker programs and through the development of F. F. A. and 4-H Club leadership.

A minimum foundation program, when made effective, should halt the exodus of qualified teachers from Kentucky. This is of first importance to our school system, but of equal importance is the implementation of the present teachers' retirement fund to make it fully operative.

SPEAKS FOR TEACHERS

Teachers who have devoted the best years of their lives to instructing in the public schools of Kentucky should not be mistreated. It must be remembered always that the minimum foundation program is indeed a minimum program. It is the least we can do for the schools. When the minimum foundation program has been achieved, our attention must never be diverted from constant and progressive improvement nor must we fail to afford equitable treatment to those school systems which are not benefited by the minimum foundation program. Eighty dollars per pupil in average daily attendance must be the floor that supports our common school system.

TELLS STAND ON PARKS

Much has been said and written about our program for expansion of our system of State-owned parks.

From time to time, I have tried to set the record straight by public statements which, by accident or design, have been contorted. I believe I can command language on this occasion which is not susceptible of misunderstanding to state our plan for the parks.

First, let me say that the present Division of Parks was created by the Reorganization Act of 1936, under my Administration. This was the beginning of the present park system of Kentucky and one does not destroy or impair that which he has created.

From that beginning the State park system has grown to its present dimensions. Its growth and development have been accomplished by capital outlay from the surplus in the State treasury. That surplus is gone. Future expansion of the State parks can be accomplished by issuance of revenue bonds which will be retired from the income of the added facilities.

This is a perfectly feasible and wise method of expansion. Several methods have been suggested to me which would accomplish retirement of these bonds. No feasible method will escape our attention or be denied consideration. I will act on the best advice I can get and according to the best intelligence I possess in selecting a method which will accomplish the greatest expansion in the shortest length of time—which will provide the greatest good for the greatest number of people.

WON'T BE LEASED

Let this be made crystal clear: The park facilities, under no circumstances, will be leased, rented, bargained or traded to any political favorite, nor will any consideration enter into the operation of the State parks save and except the considerations of efficiency, development and expansion. This statement, I think, is not susceptible of contortion, or misunderstanding.

STATE EMPLOYEES

I want now to speak to a large group of Kentuckians who — more than any other group—has been made the object of confusion and misquotation. I want to speak for the benefit of and directly to the State employees — those men and women who— for the most part — devote themselves conscientiously to their employment.

As early as April 5, 1955 when I was a candidate in the primary, I released a prepared statement in which I said: "Capable and competent employees of the State who conduct themselves properly will be retained and new employees will be selected in accordance with the standards now set forth in the Civil Service and Merit systems which are a part of our laws."

Further, I said: "A sound and effective retirement plan for State employees who have devoted many years to the State's service will be a part of my program." I criticized the practice of State employment for political purposes only. I now restate what I said in April. I cannot say it more clearly now than I said it then. I shall not deviate from this stated policy.

No one is authorized to and no one has, to my knowledge, subjected any State employee to any coercion or pressure in order to obtain a political contribution. I hold the view that a State employee is like any other Kentuckian—free and unencumbered. He has the right to live and move and act precisely in the same manner as any other citizen. Any act or statement which does not accord with these views is contrary to my policy and will be contrary to my practice.

PICKED UP IN PASSING

By James Taylor Adams

THE HAUNTED HOUSE

The old Wampler house on Backbone Ridge was a landmark even when I was just a boy. Yes, it was haunted. That's what everybody said. Anyway no family would live there for any length of time.

"I've heard Pap and Mother tell about George and his wife," said my sister. "His wife died there in the big house on the Ridge and, after that, for some reason or other, George built a new house down on Guesses River and lived there the rest of his life."

"Mother said that she went to the old Wampler place to pick blackberries, one day, after George had abandoned the house. Some other women were with her. She was telling them about the house having a reputation of being haunted, and they wanted to go in and look around. They did. Mother said that, no sooner had they got in the house, than they heard a noise upstairs plimblank like somebody a-spinning on a big wheel. That's the kind you have to stand up by and walk backwards and forwards, pulling out the thread as you spin. The other sort—the ones you sit down and spin on — are Little Wheels."

"Mother said that they didn't go upstairs; but, another day, later on, she and another woman went back and that time they did go upstairs, after listening to the humming noise a while, and there stood the dead woman's old spinning-wheel, just as she had left it, thirty or forty years before that time. Mother said that some yarn was still on the spindle, just as if she'd been spinning the day before."

I have interviewed many old people who claim to have heard the spinningwheel going at all times of the day, or night, and one was willing to swear that she had seen tracks in the dust where the spinner had walked to and fro to guide the thread on the wheel. Another told me that she would swear that she had heard somebody walking on the floor up there, while the old wheel went, "boo, boo, boo."

ices. The Floyd County Board of Education met in special session to help plan the schedule of clinics and to arrange school bus transportation for children, M. V. Clark, health department administrator, said.

All vaccine used in the November clinics is furnished by the federal government. The vaccine previously used was supplied by the National Foundation for Infantile Paralysis. The Foundation, Mr. Clark said, has asked that its vaccine still unused here be used in the administering of second-round polio shots by November 1.

Dr. Sirkle is preparing a letter in which the Floyd Medical Society will endorse the polio prevention program, and a copy will go to every parent along with a parental request form which must be signed by parent or guardian before his or her child or ward is eligible to receive the vaccine.

Mr. Clark said County Schools Superintendent Turner, Schools Supervisor Wayne Ratliff and physicians attending the meeting Monday showed an encouraging enthusiasm for the work to be done. Doctors predicted that 70% of the 5-to-9-year-old children of the county will take advantage of the Salk vaccine immunization during the clinics.

HEALTH NOTES

By Floyd County Health Department

NO ROMANCE

Tuberculosis is a convenient disease for the novelist or playwright. It's been used by some of the greatest and some of the worst.

There's the romantic tragedy: the beautiful heroine who dies coughing delicately. Or there's the young genius who dies just as his masterpiece is recognized. Or the "no one must know" type, or our hero struggles to support his younger brothers, telling no one that he's ill; or the social butterfly refuses to be an invalid and plays out her life in hectic gaiety.

There's rarely any mention, of course, of the fact that these charming people are spreading an infectious disease. That wouldn't fit the romantic picture.

It is true that pulmonary tuberculosis—tuberculosis of the lungs—has no obvious symptoms in its early stage. The disease can be present without either the victim or those near to him being aware of it. It can be months, even years, before the well-known symptoms are evident. And even these: constant tiredness, loss of appetite, fever, night sweats, shortness of breath, and cough may be overlooked or attributed to some other cause.

However, symptoms aren't the measure of the danger of TB. It's what happens inside the body that's important. The old name for TB of the lungs—consumption—describes it well. The tissue of the lung is being eaten away, the ability of the lung to function weakened. People can be cured, that is, the wasting process can be stopped. But destroyed tissue can't be replaced.

The longer the disease has been allowed to go untreated, usually the greater the permanent damage. The person who has lost much lung tissue is a cripple, even though his disability can't be seen. His activity is limited both by his loss of lung function and by the fact that he must always guard against another outbreak of the disease, a recurrence that might be fatal. A crippled lung is not romantic to the individual who must live with it.

For most young people fall brings the beginning of an important year—the school year. It will be a time for making resolutions—to study hard, to do all the homework assigned, to get good grades... and to have a good time.

"But if these resolutions are to be kept, parents will have to help," says Catherine Wiechers, nurse of the Floyd County Health Department, "for only a healthy child can do well in school."

To be healthy, a child must eat well. A good breakfast is a "must" for a profitable day. No matter how peppy a child may seem when he sets off for school, he'll be listless and inattentive before mid-morning if he hasn't had enough food, and the right kind, for his breakfast.

A good breakfast, says Mrs. Wiechers, provides about one-third of the food needed for the day. It should include fruit, fruit juice or tomato juice; cereal or an egg, or both; bread and butter or margarine; milk, or cocoa made with milk.

A hot school lunch is ideal, but note every school has such a program. However, a lunch brought from home can be both nutritious and appetizing. Most children like changes from day to day, and egg, meat or cheese all make good fillings for sandwiches; fruit is ideal for dessert. A thermos bottle for soup is good for cool days. Milk in a thermos, if none is available in school, will help to complete the "brought" lunch.

Good food will keep the body strong to resist sickness, keep the mind alert for lessons, and so help make possible a happy and successful year.

Proclamation

Whereas we live in a time in which the enemies of freedom have challenged the ideals of our free society, and

Whereas for nearly a century the men and women of the oil industry have championed those principles of competition initiative, and individual liberty on which our nation is founded, and

Whereas through the practice of these principles the oil industry has come to symbolize the attainment of a standard of living previously unknown, and

Whereas the week of October 9 to 15, inclusive, has been designated Oil Progress Week, when the citizens of this community engaged in the oil business will report to their neighbors on their achievements to date and their plans for the future,

Now, therefore, I, Harry Sandige, Mayor, of Prestonsburg, Kentucky, do hereby proclaim the week of October 9 to 15, inclusive, to be

OIL PROGRESS WEEK

and do direct the attention of our citizens to the many and varied contributions of the oil industry to modern living, as well as to those freedoms which are the special heritage of this nation, and without which neither the oil industry nor the progress it typifies could exist.

In Witness Whereof I have hereunto set my hand and caused the seal of Prestonsburg, to be affixed.

(Signed) HARRY SANDIGE

Field Station Chief To Head Radio Panel

A panel discussion headed by D. J. Schlessmann, chief of the Cumberland Field Station, M. V. Clark, administrator of the Floyd County Health Department, and Mrs. Jane Clark, public health nurse, will be conducted at the usual time of the Good Will Hour, 9:45 a.m. Saturday morning, on WPRT.

The plan will be to discuss the program and activities of the Cumberland Field Station in respect to the diarrhea field studies conducted in Floyd county.

The object of the Cumberland Field Study is the development of methods for the confirmation of the causes of diarrhea prevalence. The discussion will be centered around the study in this section of the state, what has been done, what can be hoped for, and what they hope to achieve in the future.

WAYLAND

The American Home department of the Lackey-Garrett-Wayland Woman's Club met last Wednesday at the Club House with the chairman, Mrs. W. T. Hatcher, in charge of the evening. A quilt top for Miss Alice Harris, of Prestonsburg, was started.

At noon a covered dish lunch, which was prepared by the members, was served. Mrs. N. D. Howard, Club president, held a business session at 1:30 p.m. Delegates were elected for the district convention to be held October 22 at Campton. Delegates are Mrs. Crit Wells and Mrs. Earl Castle, with Mrs. Ellen Hornsby and Mrs. W. T. Hatcher as alternates.

Members enjoying the day were Mesdames R. H. Messer, Ellen Hornsby, Troy Webb, Delbert Sloan, Milton Trusty, W. T. Hatcher, Earl Castle, George Evans, Thomas Hatcher, Fred Hall, Clarence Turner, Harry Sherman, Crit Wells, I. B. Price and three guests, Miss Billie Jean Blackburn, Miss Maude Elen Hatcher and Mrs. Flora Prater, Batavia, Ohio.

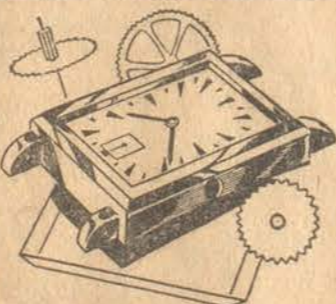

Mrs. Prater, a charter member of the club 30 years ago, enjoyed the visit with some of the members who started the club at Lackey as "The Mother's Club" and also being able to see the Club House that they dreamed of having.

LABOR EXCESS AREA TRAGEDY

Says Senator in Speech Citing Natural Wealth Of The Big Sandy Basin

Senator Earle C. Clements told a meeting of the Ohio Valley Improvement Association in Cincinnati recently that it was a "tragic anomaly" that high unemployment should exist in the Ohio River basin area.

"In this area of enormous natural wealth it is a tragic anomaly that it is now and for several years has been a labor surplus region," Clements said.

Kentucky's senior Senator and deputy majority leader of the U. S. Senate urged that organizations and individuals band together to push the development of the Ohio River tributaries.

"Improvement of the navigational facilities on the Kentucky and Big Sandy, together with construction of upstream reservoirs, would provide low-cost transportation and a reliable water supply for industrial processes," Clements declared, adding that such a program would render "accessible rich mineral deposits and timber lands."

"That would mean commercial and industrial expansion and economic prosperity for the entire Ohio River valley," Clements said.

Characterizing the tributaries of the Ohio River as the "industrial frontier of the valley" Clements underlined the economic value of the two Kentucky waterways—the Big Sandy and the Kentucky rivers. Itemizing the natural wealth of the Kentucky counties comprising the Big Sandy and Kentucky River basins, Clements said that they were possessed of "some of the nation's major coal fields" in addition to commercial deposits of high calcium limestone, oil and gas, clays, rock asphalt, sand, and gravel.

In regard to the coal reserves of the region Clements pointed out that experts had estimated that there were coal reserves reached by the two waterways in excess of 8½ billion short tons of commercially recoverable coal.

Clements also said that the commercial forest land of the area exceeded 3½ million acres and that oil and gas production in the area affected by the Kentucky and the Big Sandy were productive of one million barrels of oil in 1953.

GOP Leader Dummit Tells Educational Leadership For Governor Campaign

An Educational Advisory committee to help provide educational leadership for the campaign for the new school program has been announced by Eldon S. Dummit, state Republican campaign chairman.

The 47-member committee was selected by Verne P. Horne, Republican nominee for superintendent of public instruction, who has already contacted and advised with the members of the committee.

Ottis Spurlock, principal of the Floyd county high school, was named the committee chairman. Other committee members from Eastern Kentucky counties are:

M. C. Napier, secretary, Perry County Board of Education; Elliott Justice, elementary supervisor, Pike county; Wayne Radliff, supervisor, Floyd county schools; John York, superintendent, Pikeville city schools; Dr. Elmer E. Gabbard, president Buckhorn College.

Lawrence Stewart, superintendent, Ashland city schools; Fred Maynard, principal, Greenup city schools; Fred Cox, principal, Virgie high school, Pike county; C. V. Snapp, superintendent, Jenkins city schools.

ALLEN CLUB IN REGULAR MEET

The Allen-Martin Woman's Club held its regular monthly business meeting Monday evening, October 3, at 7:30 at the home of Mrs. Maurice Mitchell in Allen. The club was called to order by Mrs. John Sherman.

Mrs. Sherman read a letter of invitation from Lackey-Garrett-Wayland Woman's Club inviting Allen-Martin Club to a dinner at Wayland Saturday evening, October 15, at the Club House.

The plans for attending the Seventh district meeting in Hazel Green, October 22, was discussed. Mrs. William Martin and Mrs. John Sherman are to prepare the report for the convention. Several members are making plans for attending the convention.

Mrs. Sherman gave a report concerning the school at Martin for exceptional children. Mrs. Begley had attended the telethon program in Louisville. She was overwhelmed at the interest shown regarding the children. The club voted to send a \$10 donation to the Crusade for Children. Other benefits are in the making for financial help for the school.

The remainder of the evening was spent working on the yearbooks.

A salad course was served to Mesdames Belford Reitz, William Martin, George Laven, Russell Laven, John Sherman, Miss Nell Music, Mrs. Mitchell and guest Mrs. Wayne Radliff.

The next meeting will be held with Miss Nell Music on October 17.

EASTERN TOO YOUNG TO RETIRE AND TOO OLD TO QUIT

Most State Poultry Gets No Inspection

Frankfort, Ky., Oct. 10 — Health authorities estimated that 85 percent of poultry processed in Kentucky receives no thorough inspection, a report of the Legislative Research Commission disclosed today.

"Only careful inspection of meat at slaughtering plants can protect public health," the report, made in conformity with a resolution of the 1954 General Assembly that a poultry inspection presents a striking contrast, with little provision being made for inspection of poultry carcasses or plant facilities. Health authorities estimate that 85 percent of poultry processed in the State is not thoroughly inspected."

The report added that "it may be desirable ultimately to establish compulsory State meat inspection" and warned against a program poorly conceived or operated.

"Remedial legislation should be sound and practical," according to the study. "One approach is through model ordinances suitable for voluntary local adoption. An official meat stamp under a State program should mean that the product has passed most rigid expert examination. Records should be kept so as to be of maximum benefit to sanitary officials in locating origin of diseased animals."

The reason for so much poultry being processed without examination, the commission report suggested, was that when legislation was first passed dealing with the subject most chickens were killed at home.

RATES REVISED

Frankfort, Ky., Oct. 10 — Commissioner of Insurance S. H. Goebel approved a revision in automobile material damage rates in Kentucky which will effect a saving of \$2,000,000—or approximately 12 percent—in direct coverage rates such as comprehensive, fire, theft, collision and other named perils.

with new Thunderbird Styling... with new Lifeguard Design

A glance tells you that the '56 Ford has the long, low lines... the dazzling beauty of the Thunderbird.

But wait till you touch the gas pedal! Ford goes like the Thunderbird, too. With the new 202-h.p. Thunderbird Y-8 engine, available in Fordomatic Fairlane and Station Wagon models, you'll pass with new confidence, smile at hills.

And there's even bigger news—Lifeguard Design! With the cooperation of universities, medical associations and safety experts, Ford found that most accident injuries were caused by the driver being thrown against the steering post, occupants being thrown forward against hard surfaces, or from the car. So, Ford developed a new steering wheel with a deep-center structure to help protect you from the post... double-grip door locks to give added protection from doors opening under shock... optional cushioning for instrument panel and sun visors, to help lessen injury from impact... optional seat belts that help keep occupants in seats.

Regional Scout Meet Names Drift Coal Man As Others Are Honored

Nine volunteer Scout leaders from Lonesome Pine Council attended a regional meeting in Louisville last Thursday and Friday.

B. F. Reed, of Drift, a past president of the Council and chairman of the Council Finance committee, was elected regional vice-chairman. Mr. Reed is a holder of the Silver Antelope Award, the highest award given for service on a Regional basis. As a member of the Silver Antelope Committee, he presented a similar award to Floyd Fairman, of Lexington, vice-president of the Kentucky Utilities Company. Fairman's record as state campaign chairman for Kentucky in 1954 was cited as one of his services to the Boy Scout movement. He is a lay leader in the Presbyterian Church.

Gov. Wetherby was also presented the Silver Antelope Award at the annual banquet, Thursday evening. Speaker at the meeting was Dr. Arthur A. Schuck, chief Scout executive.

Among those attending from the Lonesome Pine Council, in addition to Mr. Reed, were A. H. Mandt, Council president, and Mrs. Mandt, Chalmers Frazier, Prestonsburg; Judge Ervin S. Pruitt, Walter Walters, C. W. Davis, J. H. Mosgrove and Scout Executive John Dean, all of Pikeville.

More than 800 entries were made in the women's department of the Webster county fair.

Floyd Men Among Those Getting Safety Awards At Gas Company Event

Thirty-three employees of the Columbian Fuel Corporation, including several Floyd countians, were presented safety awards at a recent luncheon at Pikeville. The awards were presented by the Bituminous Casualty Corporation for the low accident rate established by Columbian employees during a four-year period, June 1, 1951 to June 1 this year.

J. Carl Crum, superintendent of Columbian, received a plaque for his company. Columbian Fuel, a subsidiary of Columbian Carbon, covers all of Kentucky and employs up to 80 persons.

W. A. Frederick, safety engineer for Bituminous, presented the awards. He praised Crum for his safety record. Crum attributed his low accident rate to emphasis on safety and first aid classes conducted periodically for the men of his working force.

Employees receiving the four-year awards were: J. Carl Crum, Howard D. Somerville, John Hagans, Landon Anderson, Dover Francis, Roy Brown, Greenville D. West, Ollie Derossett, Benton West, Grover Justice, Glen D. Allen, Sylvester Sexton, John D. Lester, Joe W. Burchett, Walter P. Coal Mining Institute Offers Attendance Prizes At Its Annual Safety Day

The Big Sandy-Elkhorn Coal Mining Institute announces that more than 50 valuable attendance prizes will be given away immediately following the First-Aid Contest which will be held in the Pikeville College gymnasium Saturday, at 7 p.m.

Other events in connection with the Safety Day Program will be a mine rescue contest in the City Park beginning at 8:30 a.m., and a bicycle parade under the direction of the Pikeville Lions Club at 3 p.m. Over 150 applications have been distributed to boys and girls from 5 through 17 years of age.

These attractions are expected to draw one of the largest Safety Day crowds ever held in Pikeville. There is no admission charge to these events the Institute announces, and the public is urged to attend.

Cats Hold Pikeville To One-Point Victory

Arch-rivals, Prestonsburg and Pikeville's football teams, battled in mud and rain last Friday night in the Pike county seat with the Panthers barely eking out a 13-12 victory before a drenched crowd of some 1,500 brave fans.

Trailing 12-7 in the third period, the heavily-favored and experienced Pikeville eleven broke tail Prestonsburg holds an overall 20-yard touchdown.

The one-point win was the fourth in the past six years in the heated rivalry. Pikeville won 20-13 in 1951, 7-6 in 1952, while the Black Cats triumphed 7-6 in 1950. Coach Clayton Powers' record now stands at a 3-3 mark with the Black Cats, but Prestonsburg holds an overall 20-10-2 edge in all their games over the years.

Prestonsburg, in its best performance to date, took a 6-0 lead in the first five minutes as the over-zealous Panthers were the victim of two 15-yard roughing penalties.

James Coleman stopped the first Prestonsburg threat by intercepting a Lowell Hughes pass on his own 20, but three plays later, Black Cat center Wayne Dixon pounced on a Pikeville fumble on the 20. After a penalty moved the oval to the five, and halfbacks Crager and P. Hughes failed to gain, L. Hughes sneaked across for the marker, but failed on the point after.

Pikeville came roaring back in the

second period to move to pay dirt as quarterback Larry Phillips climaxed the 70-yard, 14-play drive, with a 2-yard plunge. A faked extra point kick by Phillips was good for a 7-6 halftime Pikeville lead.

L. Hughes took the second half kickoff on his own 40 and raced to the Panther 45 from where he later-erated to 210-pound tackle Bill Rorer, who jaunted to the 35 before being hauled down by Everett Justice and Bill Scott.

Pikeville's line held for the next three plays and on the fourth down and 10, L. Hughes uncorked an elusive 35-yard run through the entire Pikeville defense to score, with a key block coming from guard Dickie Leslie. Hughes' end sweep for the point after was quelled, however.

Four minutes later, Pikeville staged its pay-off march with Coleman unreeling his 40-yard jaunt.

The fourth period was an exchange of penalties and fumbles as each team threatened once.

Tomorrow night, (Friday) Prestonsburg invades Louisa with a 2-2-1 slate. Louisa has won one, tied one and lost three, one a 38-0 decision to Pikeville.

Women's Group Invite Added Entries of Floats In Annual Bowl Parade

Invitations are given to any club or organization interested in entering a float in the Big Sandy Football Bowl parade, November 11, at Paintsville. The Junior Women's League of Paintsville, sponsors of the Bowl activities, hopes to make this year's parade larger and more elaborate, and they hope that all ten organizations entering floats last year will participate and that more local groups enter this year.

Three prizes will be awarded to the floats, based on originality. The theme does not necessarily have to pertain to football but rather may portray a club's motto or objective. Prizes will be \$25, \$15 and \$10.

Invitations have been issued to 18 high school bands, and it is believed that more will accept this year as well as last year's seven since the band festival is being made a regular part of the day's activities. It will be held Friday morning at the field and three trophies will be awarded for (1) marching formations, (2) majorettes, and (3) music presentation.

Any group wishing to enter a float should contact Mrs. Loretta Preston, Phone 125, Paintsville, by October 21.

PLAYER-OF-THE-WEEK

Quarterback Lowell Hughes and Guard Dickie Leslie (co-captains of the Black Cat football team) were named Players-of-the-Week in Prestonsburg's one-point loss to Pikeville last week. The weekly selections are sponsored by H. C. Francis, Jr., of the Francis Stores in Prestonsburg.

SOUTH CAROLINA CAGE RECRUITS

The 1955-56 University of South Carolina basketball team should hold a considerable amount of interest from Eastern Kentucky cage fans during the season. Seven former Pikeville College and East Kentucky athletes are on the 15-man squad. They are: Grady Wallace and Benny Fannin, Betsy Layne; Sol Richardson and Sam Smith, Carr Creek; Woodrow Preston, Russell Porter and Bobby McCoy, Pikeville.

Another addition to the Columbia school was Walter Hambrick, former Pikeville College mentor, who piloted Pikeville to 27 wins in 32 games last season and to three Kentucky Junior College and one Southeastern Junior College championship in four years. Hambrick is assistant to head basketball coach, Frank Johnson.

IT'S TRUE

Most fishermen have four versions of a fishing expedition: (1) What they actually caught, (2) What they wished they'd caught, if it hadn't got away, (3) What they tell their wives, (4) What they are quoted as catching the next day.

FINALE

AFTER you have heard two eyewitness accounts of the same fish, you begin to wonder about history.

Cob, Hull Roughage Tested for Heifers

The University of Kentucky Experiment Station reports that feeding trials indicate that corncobs and cottonseed hulls make satisfactory roughages for dairy heifers when supplemented with Purdue cattle supplement A or some other high-protein supplement. In part the report says:

"When the intake of roughages was limited, heifers fed corncobs as a sole roughage gained 92 of a pound daily; heifers receiving cottonseed hulls gained .80 of a pound daily and heifers fed a clover-timothy hay and 17 per cent protein concentrate gained .78 pound daily.

"In a second trial, when the heifers were fed all the cottonseed hulls they would eat, the average gain was .80 of a pound daily, which compares favorably with heifers fed either clover-timothy hay or corn cobs.

"Corncobs were not as palatable as either of the two other roughages but were consumed in adequate amounts for the heifers to make satisfactory rates of gain. Cottonseed hulls seem to be very palatable. Studies are being continued to determine why cottonseed hulls are not equal to hay or corn cobs on a pound-for-pound basis."

Many county agents reported that tobacco was high in quality, good size and ripe when cut.

Morehead College Plans Homecoming Festivities Scheduled Oct. 15

Morehead, Ky., Oct. 10 (Spl.)—Morehead State College alumni will return to their campus October 15 for the annual Homecoming Day festivities. Activities planned for the returning graduates include a parade, the football game with Middle Tennessee, a barbecue and the traditional Homecoming dance.

The parade through the town of Morehead will be led by the college marching band and will include floats entered by campus organizations and classes. It is scheduled to begin at 10 a.m. (CST).

A highlight of the day will be the 2 p.m. football game at Jayne Memorial Stadium. Half-time ceremonies will include performance by the marching band and presentation of the Homecoming Queen and her court of 10 campus beauties.

Alumni and students will wind up the day at the Homecoming dance, to be held from 9 to 12 in the college gymnasium. Decorations are being handled by the Mystic Club, campus organization, and music will be by the 12-piece band of Clyde Trask, Cincinnati.

Featured at the dance will be the crowning of the Homecoming Queen, who is selected by popular vote of the student body. The queen and her attendants will be escorted for the crowning ceremony by 11 members of the football team.

Also on the intermission program will be the presentation, by Alumni Association president Fola Hayes, of plaques for the best-decorated parade float and the best-decorated dormitory. An award for the best-decorated downtown window display on the Homecoming theme will be presented by Steve Hamilton, president of the Student Council.

PLEGED AT U.K.

NOW BOTH ARE Detergent GASOLINES

A proved hit in Ashland Ethyl! Now the same detergent in Ashland Flying Octanes at no additional cost. Yes, Ashland Ethyl with ICA and Ashland Flying Octanes are now both detergent gasolines. Both drive out engine dirt—while you drive—to restore engine power.

Whichever Ashland gasoline you buy, Flying Octanes or Ethyl, you can be sure of detergent action that makes engines run like new again, stops gasoline waste, gives you better performance, quicker starts, faster getaway.

drive out engine dirt!

NON-DETERGENT REGULAR GASOLINES

Here is proved power loss measured on the Dynamometer, with engine developing maximum power while operating at a constant speed. Harmful engine dirt from non-detergent regular gasolines builds up as you drive, cuts down engine power mile by mile.

ASHLAND DETERGENT FLYING OCTANES

Just see the improved power gain measured on the same Dynamometer, the nationally accepted scientific measurement for engine power. Thanks to detergent Flying Octanes, harmful engine dirt is driven out while you drive. Result: increased power, smoother performance, a better engine.

PREMIUM USERS PREFER ICA® POWER TONIC

High compression engines demand a premium gasoline. Smart drivers insist on Ashland Ethyl with ICA Power Tonic every time. It's not only detergent, but it's compounded with ICA Power Tonic to stop spark plug fouling, pre-ignition and knock.

CARD OF THANKS

We, the children and grandchildren of Mrs. Cordelia M. Bond, who recently departed this life at Prestonsburg, Kentucky, wish to express here our appreciation for the valued tokens of sympathy and kindness which the many neighbors, friends and relatives gave through their so helpful personal assistances upon the occasion of the passing of our beloved mother and grandmother. We are grateful for the expressive music provided by the Irene Cole Memorial Baptist Church choir under the leadership of Franklin Moore, for the unforgettably beautiful song by Mrs. Ira McMillen, Jr., and for the comforting words so well spoken by the Rev. Ira McMillen and the Rev. A. C. Harlowe. We extend our thanks to Milton and Mildred Ryan and their associates for their services in carrying out the funeral arrangements. To all of you who did so much and so well in our time of sorrow we acknowledge our lasting gratitude.

FOREST AREA PACT SIGNED

U.S., State To Develop Half-Million-Acre Area In Cumberland Forest

Frankfort, Ky., Oct. 3 — Charles L. Tebbe, of Philadelphia, Regional Forester for the eastern region of the United States Forest Service, arrived in Frankfort last week to sign a cooperative agreement with Commissioner Earl Wallace of the Department of Fish and Wildlife Resources. Under this agreement one-half million acres in the Cumberland National Forest will be jointly developed by the State and Federal governments as a public hunting and fishing area. Mr. Tebbe was accompanied by Forest Supervisor, Robert Collins, of Winchester; Everett Doman, of Washington, D. C., Assistant Chief of the Forest Service Division of Wildlife Management, and T. C. Fearnow, Chief of the Eastern Region, Wildlife Management Section.

Mr. Tebbe, who heads up administrative work for the Forest Service in 14 northeastern states from Maine to Kentucky, spoke with enthusiasm of progress already made in restoring wildlife populations in the Cumberland Forest Area of Eastern Kentucky. Particular credit in this matter is due District Wildlife Biologist Fred Hardy and Ranger Hal Bush, of Somerset, for their joint efforts in behalf of wildlife restoration and protection. Mr. Tebbe said. He pointed out that the Beaver Creek Area established as a pilot plant operation in 1945, has brought back deer, wild turkey and other game, thus demonstrating to both the state and the Forest Service the benefits attainable under joint action programs.

The Forest Service is engaged in multiple use management, Mr. Tebbe said. Timber, water, wildlife and recreation are related segments of land management and it is our job to coordinate these uses to provide maximum public benefits. Active assistance by the Department of Wildlife Resources in Kentucky has been important in making possible advancements in the field of wildlife management.

Mr. Tebbe arrived in Kentucky earlier this week to meet with a group of forestry officials considering plans for marketing increased amounts of low grade hardwood timber available in National Forest areas of the state. Through accelerated harvesting of this material the forest hopes to improve employment opportunities for local people and at the same time carry out thinning and weeding operations in extensive areas of second growth hardwood to provide high quality growing stock for future markets.

State Per Capita Tax Increase Is Highest, Research Group Says

According to information released recently regarding per capita taxes paid in the 48 states, Kentucky has the dubious honor of having the highest percentage increase in the per capita tax of any state.

The Kentucky Tax Research Association pointed out this week that figures just released by a nationwide tax-reporting service showed the per capita taxes in Kentucky increased 17.4% in the last year. The second largest increase was in New Jersey.

Close neighbor, Indiana, had the highest per capita decrease, 11.2%. The increase in Kentucky was almost four times the national average of 4.5%.

The Association warned that people of Kentucky should begin concerning themselves with governmental spending and assure themselves they are getting the full value of all dollars spent by all levels of government.

The Association pointed out that the time to be concerned about tax legislation is before the laws are enacted, not after they are passed.

Mercer county farmers learned how to identify 12 to 15 tobacco diseases and the controls for them.

DRIFT

CLUB HOLDS BUSINESS MEET
Business meeting of the Drift Woman's Club was held Oct. 2 at the Turner-Ekhorn office, the president, Mrs. Lloyd Stumbo, presiding. A discussion of handicapped persons was conducted by Dorothy L. Leigh, and the club voted its approval of the work with the handicapped. Mrs. Clarence Turner, a member of the club, is another volunteer worker for the school for retarded children at Martin.

Miss Ruby Akers gave an interesting talk on the recent flower show sponsored by the Maytown's Woman's Club. Named as delegates to the Woman's Club convention at Campton were Mrs. Fred Cochrane and Miss Ruby Akers, with Mrs. Lloyd Stumbo and Mrs. Girdle Moore as alternates. The Drift Club homes to be a "100% Club" at the convention Oct. 22. Plans for the convention were discussed in a meeting of committee members at the home of Miss Betty Turner, Oct. 5.

Vitamin tablets were bought for the children of the Drift school for the school year. The club also contributed money for the purchase of material to be used in Girl Scout handicraft work. Christmas cards will be sold at Chadie's Beauty Shop here.

A lunch room for the Drift school was discussed by Mrs. B. F. Reed.

Refreshments were served by the hostess, Mrs. Fred Cochrane, to Mesdames Oliver Elam, Delver Hall, Claude Martin, Girdle Moore, Joe C. Moore, B. F. Reed, W. L. Reed, G. W. Showers, Foster Stumbo, Lloyd Stumbo, Misses Ruby Akers and Betty Turner.

The next meeting of the club will be held Oct. 17 at the Turner-Ekhorn office, with the "mother club," the Martin Woman's Club, as guests. The program will be on Legislation, led by Mrs. H. D. Hewlett. Hostesses will be Miss Claudia Watson and Mrs. Jack Dingus.

WSAZ Radio, Television To Assist Firefighters

Representatives of the Tri-State Forestry Divisions have met to reorganize the WSAZ radio and television forest fire danger reporting service.

Foresters from Ohio, West Virginia, and Kentucky met recently with WSAZ News Editor John Hurd to discuss the visual presentation of their reports which are combined with WSAZ-TV weathercasts during the two seasons of forest fire danger.

The reporting service was inaugurated by WSAZ at the beginning of the Tri-State regional fire season in the spring of 1954. The foresters in cooperation with the news department of WSAZ, have established a uniform reporting system based on the Keetch fire danger meter in order to provide a more complete picture of forest fire danger during the statutory fire seasons of spring and autumn. The reporting system is designed to make the public aware that forest fire danger is not merely a local problem.

McDOWELL

ORGANIZE FHA CHAPTER

The McDowell Home Economic girls met September 28, and organized an F. H. A. chapter. The following officers were elected for 1955-56: President, Sue Maggard; first vice-president, Joan Faulkner; second vice-presidents, Emma Lee Pack and Scarlett Conn; secretary, Evangeline Vanderpool; treasurer, Geraldine Cooper; historian, Maudie Mae Caudill; parliamentarian, Shelby J. Breeding; reporter, Sarah Anderson; recreation leader, Billie Parker; songleaders, Danise Turner and Alene Bailey.

October 8, the Ashland District of F. H. A. held a leadership training conference at Salyersville, and the McDowell chapter officers attended this meeting and were accompanied by Miss Ruby Akers, adviser, and Mrs. Girdle Moore, Chapter mother.

***Select Your Contractor In Floyd County**

The construction of a home or business establishment is usually done after long and careful planning. Into the investment, whether it is a business or home, go your dreams and savings. If it is a good investment what could be wiser than the selection of a building contractor from among the several who reside in Floyd county?

His interest in the job will be equal to yours, for after all he must rely upon the satisfactory performance of the work to insure future contracts with you and others in the area. Then, too, he will employ local labor and buy materials from local suppliers. Thus the contract price of your job is spent at home and bolsters the economy of your own county.
