## This Town— That World

The newspapers tell us France is soon to have Europe's biggest gas works. We wouldn't bet on that, though. The Kremlin may increase its output, any minute.

### TIMES DO CHANGE

Only this day I have again been reminded of what modern conveniences, doodads and gewgaws are doing to the direction human life might ordinarily be expected to take.

I was aware of the fact that the automobile has relegated the horse to the boneyard in these parts and to lush pastures and swank stables in others; that a man can be missing from home seven years, these days, and show up during a certain television program and get no more of a greeting than a hissed "Quiet" or "Shuddup"; that air-conditioners have everybody who ventures into the sun I-swaning this is the hottest weather in memory and the atom bomb is to blame, even when the thermometer is in the 70's.

I had, too, to the fact that door alarm clocks, rock and roll and the telephone, jangle-phones have just about jangled the nervous system to the point where the unhappy possessor thereof is ready to toss in the sponge and say they don't hardly make them any better.

I had not taken into consideration one contraption that has more women more than any other, and that is the hair dryer. This invention of an American, I am solemnly reminding you, robbed women of the privilege of comparing their hair with their neighbors'—and, moreover, it has deprived them of their inherent right to gossip about clothes-lines and across back-fences.

But there is balm in Gilead; all is not bad, and the whole shebang has gone haywire. One man tells me, though the mechanical dryer has cleaned his wife's neck-creases to the very minimum, she has heard from her neighbor a discrediting him in her eyes since her dryer was installed.

## BRIDGE REPAIR IS UNCERTAIN

### State, County Officials Inspect Collapsed Span That Served Wide Area

County Judge Henry Stumbo said this week that it is not yet plain what will be done toward restoring the services to a sizeable area of the bridge spanning Beaver Creek at Allen. The span collapsed recently beneath the weight of a loaded soft-drink truck.

District Highway Commissioner General Fugate, of Hindman, and District Engineer J. P. Noonan, of Pikeville, inspected the bridge last week with County Judge Stumbo, County Attorney Conley and Tax Commissioner Olive Akers. It was estimated that \$8,000 would be required to repair the bridge to sustain a three-ton load.

It was indicated, however, that repair will not be given serious consideration by the state. Mr. Fugate said he would recommend that the state build a new bridge, but he added that such work might not be started for months.

Meanwhile, the town of Dwaile, all the north side of Beaver Creek from Allen to the village of Cracker and the Bull Creek section have access to U. S. 23 and Ky. 80 only via Prestonsburg.

## FILE PETITION FOR TRANSFER OF BANK SUIT

### Education Board, Bank Claim Action Involves Federal Court Issue

The Floyd County Board of Education, its members individually and the Bank Josephine filed Monday a petition and bond for removal from the Floyd circuit court to the U. S. court for the Eastern district of Kentucky at Pikeville the suit filed against them recently by the First National Bank here contesting a change in the depository for Board of Education funds.

The petition asking the change, prepared by Joe Hobson, Prestonsburg attorney, claims the First National's suit is a civil action coming under the laws and the constitution of the United States, in that it involves this question:

Can the First National Bank, which is a member of the Federal Reserve System and of the Federal Deposit Insurance Corporation, pay interest, directly or indirectly, on a checking account, and can the Bank Josephine, which is not a member of a Federal Reserve System but which is insured subject to FDIC regulations, pay interest on such an account?

The First National Bank's original petition contesting the change made

## 13 TAKE PART IN SOIL BANK

### Floyd Farmers To Earn Benefits by Reduction Of 1956 Tobacco Base

Thirteen farmers of this county are participating in the "soil bank" program of the United States Department of Agriculture. They have entered the program by reducing their tobacco base for the current year.

Elder Goble, office manager of the local Agricultural Stabilization Committee, wrote the farmers, July 17, who have agreed to reduce their tobacco allotments. He offered the facilities of his office in extending information on the program.

"Since you have entered your tobacco allotment in the Acreage Reserve Program for 1956 there may be a few things that you do not understand. We will try to explain a few things here in this letter that may be of help to you," Goble wrote.

"Farmers who have already set out their tobacco must have all tobacco destroyed by July 31. This can be done by plowing, discing or mowing. No crop is to be harvested from the area and it is not to be pastured.

"Farmers who have not set their tobacco must set aside an area of land equal to their tobacco allotment that is not to be cultivated or pastured.

"There will be penalties for not complying with these regulations. A check will be made but we do not know when or by whom it will be made."

Farmers participating are John Darby, Chauncey Hager, Homer Neeley, Curtis Hackworth, Eddie Hackworth, Coett Handshoe, Joste Prater, Francis M. Lily, Jr., Henry Pratt, Clarence Tackett, John Pratt, Green Bradley, and Johner Later-ty.

## Mrs. Rosa Belle Cecil, Of Banner, Dies Tuesday; Burial Made on Prater

Mrs. Rosa Belle Cecil, 72, of Banner, died at 8:50 a.m. Tuesday at Cur Lady of the Way hospital, Martin. She was a victim of cardiac failure. She had been ill four years, seriously so three days.

A daughter of the late Andy and Emma Cecil Gunnells, she was the wife of Tandy Cecil who survives. Surviving children are James Cecil, Jr., of Emma, Billy Cecil, Lincoln Park, Mich., and Mrs. Jeanette Wallins, Huntington, Ind., Ervin Owens, of Banner. Surviving brothers and sisters are Ballard Gunnells, of Banner, Mrs. Virgie Akers and Mrs. Nora Snodgrass, both of Allen, and Mrs. Ida May Cecil, also of Banner.

Funeral rites were conducted at 1 p.m. today (Thursday), Revs. Isaac Stratton and Carl Layne officiating. Burial will be made in the family cemetery on Prater Creek under the direction of Hall Bros. Funeral Home.

## Jewelry Losses Feature 2 Robberies Last Week; Wright Offers Reward

Two robberies in this county last week involved only jewelry, it was noted, when Wright Brothers, of Martin, and Miss Barbara Wynsma and Miss L. Holmquist, of Drift, reported thefts. The Martin theft was made in the Martin Theatre building Friday evening where the jewelry firm had a display case and the other was made sometime during the week, in a home where the ladies resided.

The thief broke the display case of Wright's, taking watches, electric shavers and cigarette lighters. The loss, according to Homer Wright, manager of the Prestonsburg store of the jewelry firm, was about \$300. The loss to the Drift women was three valuable necklaces, three rings and a watch. The Drift home was entered while no one was at home.

No arrests have been made in the cases as yet, it was said at the Sheriff's office here. A reward of \$50.00 has been offered by Wright Brothers for information leading to the arrest and conviction of the thief or thieves.

## BERRY CO-OP LOSES \$2,700

### Failure of Hazard Plant Costs Strawberry Ass'n Is Report Received Here

Losses to the farmers of the East Kentucky Strawberry Growers Association due to the financial difficulties of the processing plant at Hazard will amount to approximately \$2,700, it was said here this week.

Warehouse receipts for the berries shipped from the Association's four-county area, of which Floyd is one, were sold by a Hazard bank, to satisfy an indebtedness of the processing plant. The bank had a quired title to the receipts, which are negotiable, from the processor or as additional collateral to loans. Then the receipts, representing 156,000 pounds of processed berries, were sold to the Cumberland Strawberry Growers Association, of Somerset, which, like the local cooperative here had accounts receivable from the processors.

Directors of the co-op have been investigating the matter and after a trip to Hazard and interviews with the plant owner and the bank offer little hope of recovering any of the amount due farmers in this area. The Hazard processor does have, it was said, about \$826 worth of processed berries in a Louisville warehouse that might possibly apply on the account here.

It was explained that berries shipped to Hazard were overripe and small, unsuitable for the regular fresh fruit market and that this was the only outlet for them. Harold Rice, former Floyd county agent, of Johnson county, is manager of the Association, and Russell Meade, Paintsville, is chairman of the board of directors.

Sale of the berries was handled by Rice with the Hazard processors on the basis of 16 cents per pound, but payment was delayed until the season was over. Soon after the season's close, however, the Hazard bank acquired title to the warehouse receipts, forestalling any hope, it is feared, that farmers of this Association will collect.

## Mrs. Zanie Hicks, Victim At Paintsville Hospital Of Cancer; Ill 3 Years

Mrs. Zanie Hicks, 30, of Price, died at the Paintsville hospital, at 10:15 a.m., July 21, of cancer. She had been ill three years.

Mrs. Hicks was a daughter of Dennis and Dona Tackett Little, of Wheelwright, and was married to Cecil Hicks, who survives. Two children, Estill Eugene and Lenda Gale, survive.

Surviving are the following brothers and sisters: Mrs. Gracie Patton, of Price, Mrs. Elsa Layne, of Wayland, Mrs. Lora Stone, of Dema, Mrs. Adith Morris, of Hippo, Mrs. Mamie Sturgill, Dayton, Ky., Mrs. Jeanette Wallins, Huntington, Ind., Elbert Little, Plymouth, O., Ishmael Little, Waverly, O., Malcolm Little, of Price, Bernard Little, of Hi Hat, and Crit Little, Huntington.

Funeral rites were conducted July 24, at the Pilgrim Rest Baptist church at Price, the Revs. Hawley Warren, Troy Nickles, Ellis Howard, and Dexter Osborne, officiating. Burial was made in the family cemetery at Price under the direction of Hall Bros. Funeral Home.

## 7,801 RECEIVE SALK VACCINE

### 28% of Under-20 Group In Floyd Get 1st Shots For Prevention of Polio

Of the 27,528 persons in Floyd county who are under 20 years of age, 7,801 have received at least one injection of Salk vaccine for the prevention of polio, figures released this week by Health Administrator M. V. Clark show.

These figures are in excess of those published earlier, because earlier data included only those who had received vaccine prior to May 1, this year.

The Floyd immunization program which has seen slightly better than 28 percent of those in this age group receive at least one "shot" is more effective than at least 85 other counties of the state and places Floyd in the top 35.

In addition to the 7,801 initial injections given in this county, 4,897 have received their second "shots" and 576 their third for a total of 13,274 vaccinations since the Salk vaccine became available in October, 1955.

Woodford county leads all counties of the state in protecting its children against polio with 47.6% of its 4,188 under-20 population given at least their first inoculations. Harlan county, according to figures released by the National Foundation for Infantile Paralysis, has the worst record with only 29.8 of 35,193 given first shots for a 0.8 percentage. The Foundation's data extends only to May 1, however, and State Department of Health figures, which are

## CAR OWNERS' BILL \$52,000

### National Road Program Cost To Floyd Owners Of Autos Is Estimated

(Special to The Times)

New York, July 29 — Passenger car owners in Floyd county have begun to pay their share of the \$50 billion road-building program recently set in motion.

By next July, when the fiscal year ends, they will have paid \$52,000 in increased taxes. The figure is based on an estimate by the U. S. Chamber of Commerce. It is the product of the number of cars in operation in Floyd county and the average tax rise per car.

Motorists will pay an additional \$8.80 a year, on the average, finds the Chamber of Commerce. The bulk of this will come from the added Federal tax of one cent per gallon of gas. Other levies, such as the 60 per cent increase in tire taxes, will make up the rest.

The auto owner's burden may be enlarged still further at a later time as State and local governments get into the act. They will have added costs, too, due to the highway development, which will be passed on to the motorists.

Truckers will also help pay for the new roads. In addition to the

## Farm Family Field Day Attended by Specialists; 4-H Club Work Is Shown

The Farm Family Field Day held at the farm of Paul Dotson on the Middle Creek road, Tuesday, was attended by three University of Kentucky specialists and approximately 120 farmers and their wives. The specialists were Mrs. Pearl Haak, R. C. Miller, and Richard Miller, all field agents of the University's Extension Service.

One event of the day was the tour of the farm by the men showing strawberries, hogs, sheep and a corn demonstration. The woman's section of the demonstration was devoted to home pasteurization of milk and how to prepare foods for the freezer.

A 4-H exhibit was set up by Donald Claypoole, assistant county agent.

## PRICE NAMED TO 2nd TERM

### Former W'Wright Man Ends Tour of Europe; Hears Truman Speech

E. R. Price, former manager of coal properties of the Inland Steel Company, Wheelwright, has been appointed by President Eisenhower to serve another three-year term beginning with the expiration of his present term this month as a member of the Federal Coal Mine Safety Board of Review. His original appointment to the tri-partite board was made shortly after his retirement and removal from this county to Frederick, Maryland.

Mr. Price returned recently from a European tour. His voyage to Europe, incidentally, was aboard the Italian luxury liner, Andrea Doria, which sank a few days ago after a collision with a Norwegian vessel.

The former Floyd county met Ex-President and Mrs. Truman at the American Club in Paris at a reception held in honor of Mr. Truman. "He gave one of his very good talks," Mr. Price said of the former president. "It seemed that all Americans look good over there, the men and the women, too."

Places touched upon during the tour included Gibraltar, Naples, the ruins of Pompeii, Cannes, Nice, Madrid where Price saw a bull-fight, Geneva, Frankfurt, the Rhur valley and the Saar area with their concentration of industry, the old towns and castles on the Rhine, Paris, London where he met with England's National Coal Board, the coal research laboratories at Isleworth, the coal fields of the West Midlands and other places of historic or industrial interest.

The federal board of which Mr. Price is a member hears appeals by coal operators from orders of the U. S. Bureau of Mines in its administration of the Coal Mine Safety Act.

### WRITES FOR HALL

Funeral rites for Lincoln Hall, 26-year-old miner, of Topmost, who was killed in a mine there July 18, were held Friday of last week at the Dry Creek Regular Baptist church, the Revs. Mark Burke, Hawley Warrens, Epple Holbrook, Ellis Hopkins and George Cook officiating. Burial followed in the Dry Creek cemetery under the direction of Hall Bros. Funeral Home.

## BELL OFFERS MORE SERVICE

### In David-Middle-cr. Area; Some Utilization of Poles Alongside Routes, Planned

Officials of the Southern Bell Telephone and Telegraph Company announced here this week an expansion program in the David and Middle Creek communities. Work on the project that will serve 79 subscribers has already started and is scheduled for completion in September.

H. D. Hayes, local manager of Southern Bell, said his company will place 33 poles, 19 circuit miles of aerial wire and 10,300 feet of rural wire to provide the service.

The telephone company now has a pole line to give service to the Princess Elkhorn Coal Company in David. To serve the David area the phone company will place wire and cables on the existing pole line and poles of the Kentucky Power Company.

To serve subscribers along the Middle Creek area the company will extend rural wire for approximately 800 feet and then place wire on poles owned by the Big Sandy Rural Electric Cooperative Corporation.

## UMWA PLANS ALLEN RALLY

### Labor Day Celebration To Be Held on Grounds Of Auto Racing Track

Further plans for the 1956 renewal of the annual Labor Day celebration by District 30, United Mine Workers of America, were made at a meeting in Pikeville Saturday of the UMWA's Labor Day committee.

Grounds of the Sandy Valley Speedway at Allen have been leased as the site of the mammoth gathering, and neighboring land for parking accommodations will be available, it was said following the meeting.

The program committee reported definite arrangements as to speakers have not been completed but, in keeping with past practice, the best available will be secured. The variety show of nationally known television and radio personalities to be featured this year have been secured through the Hetzer Theatrical Agency.

Numerous applications for concession rights to sell food and soft drinks were referred to a committee and are to be awarded to civic and charitable organizations at an early date. Future applications should be sent to Joe Davis, Box 50, Pikeville.

Four grand prizes to be awarded at the celebration include a 1956 Ford Tudor Sedan, a General Electric deep-freeze, a Browning automatic shotgun and a \$100 United States savings bond.

The program committee tentatively plans for the celebration to begin at 11:00 a.m. September 3.

Chairman E. B. Bloomer announced that this year's celebration is expected to be the largest in the history of Eastern Kentucky and one of the largest in the United States.

## Cashier's Checks Were Pretty But Worthless; Woman Is Being Sought

Spurious cashier's checks cashed in this county recently have led federal officers on the trail of an unidentified woman who reportedly realized \$200 on four checks during her stay in this county.

One of the checks for \$50 and on the non-existent City National Bank of Cleveland, Ohio, was cashed at the Goble & Lafferty Service Station here. Another, in the same amount, was said to have been cashed by Mrs. Geegee Conley, operator of the Sugar Loaf restaurant.

The checks were described as "a neat job," printed on good paper. They were cashed by a lone woman who was driving a Plymouth automobile of the late 40's vintage. The woman appeared to be in her early thirties.

## STATE STOPS HAULING FOOD

### Noonan Tells Stumbo Road Department Aid To Terminate Aug. 1

The State Highway Department again planned this week to quit hauling relief foodstuffs as an aid to counties in their distribution of food to the needy.

County Judge Henry Stumbo said he had received from J. P. Noonan, district engineer, State Highway Department, Pikeville, a letter informing him Commissioner of Highways Bert Kiser had terminated the Department's assistance in the hauling of commodities in this county as of August 1. Presumably, the same action was being taken statewide.

The same order reached Pike county, and there County Judge Ervin S. Pruitt said he hopes to take members of the fiscal court to Frankfort for a discussion of the situation with Governor Chandler. Judge Stumbo said the Floyd fiscal court may join the Pike counties. County Judges claim their counties already are overburdened by expense, and in this county Judge Stumbo said the mounting load is reaching the point where the county cannot do the road work that obviously is needed.

The Department of Highways originally planned to end its hauling of commodities on July 1, but the order was rescinded temporarily. State trucks have been used here in transporting foodstuffs from the railway station to the commodity warehouse.

## VACATION PAY SUIT IS FILED

### 18 Formerly Employed By Floyd Mine Claim \$1,424 Yet Due Them

Eighteen former employees of the May & Stewart Coal Company mine No. W-9 filed suit in circuit court here Monday to collect a total of \$1,424.88 vacation pay which the workers claim was never paid them.

Claiming the vacation pay under terms of the United Mine Workers' contract with coal operators, the 18 men ask for a general order of attachment against certain equipment of the mine. They allege in the petition, which was prepared by Atty. Claude P. Stephens, that the company is insolvent. The amount allegedly due each man was computed at the rate of \$11.66 per month worked.

Defendants in the action are John May, Roger Stewart, Claude May and Jones Tallent. Plaintiffs are David Howell, Jr., J. W. Pritchard, Charlie A. Akers, G. H. Mullins, Raymond Goble, Gardis Bradley, Joe Bradley, Clarence Huff, Gorman Bradley, Charlie Patton, Morris Thornberry, Freddie Collins, Elbert Howell, Corbett Howell, James P. Stone, Tandy Hicks, Curtis Woods, Sherill Morris.

## Eight Floyd Inductees To Leave Here, Aug. 17

Draft Board No. 25 announced this week that eight will be leaving for final physicals and possible induction on August 7.

Those leaving are Howard Cline, Cordell, Ky.; Carroll Gene Hall, Hi Hat, transferred to Board 23, Lexington; Garland Tackett, Melvin; Jimmy Hayes Johnson, Bypro; Esquire Stone, Jr., Wayland; and three volunteers, Dock Harris, Lancer, G. B. Newman, Hi Hat, and Ronald Gene Stone, Manton.

## STEEL STRIKE ENDS, MINERS BACK AT WORK

### Inland Steel Resumes Work at Wheelwright, Helping Small Mines

All Floyd county coal mining operations affected by the nation's steel strike went back to work this week with virtual agreement on a steel contract last Saturday.

Biggest operation hit by the steel strike in the county was the Inland Steel Company's "captive" mines at Wheelwright and its huge Price coal preparation plant. A thousand or more employees of Inland Steel returned to work Monday morning.

Resumption of work at Wheelwright also reopened several truck mines which sell their coal to Inland Steel there and which had been forced to quit work with the idling of Inland Steel mines and its preparation plant.

Generally, mining men are optimistic about the future of the industry. Foreign coal shipments continue to be heavy, and the outlook for this market is considered good, some even considering it permanent.

Settlement of the steel strike came barely in time to avert a general slackening of business in this area. Effects of the idling of miners were becoming more and more apparent when signing of the new contract brought the hoped-for relief.

Newest of the nation's work-stoppages is now seen with the wage-squabble in the aluminum industry, but effect of a strike there would not have the direct effect on coal that a steel strike has.

Under the new steel contract employees will receive a 46-cent raise over a period of five years. Higher automobiles and homes are predicted next year as a result of the raise.

## HITS TROUBLE ON DOGS HERE

### Cooperation Lacking, Cook Says; 7 Bitten Get Anti-Rabies Shots

While Roy Cook, county dog warden, was having his troubles with the dog situation in Prestonsburg, seven residents of this town were taking anti rabies treatments this week after having been bitten by a dog.

Cook said he was surprised when he failed to get expected cooperation from some citizens whom he had considered among Prestonsburg's best. Their dogs have not been licensed and are being permitted to run at large, he said.

"I'm playing no favorites, and I've got a job to do, unpleasant as it is," Cook said. "So we must tackle Prestonsburg and do the very best we can." He added that this would serve as a warning to all who own stray, unlicensed dogs.

A five-month-old puppy last week bit five children in the family here of Ernest "Cat-Tail" Campbell, owner of the dog, then ranged into the Trimble Branch section of town to bite a child of Eddie George and one of the family of Elmo Collins. These are the seven now receiving daily shots at the health department. The dog was shot in the head, and so laboratory tests for rabies could not be made.

M. V. Clark, administrator of the health department, said Wednesday that the seven now receiving treatment make a total of 36 persons known by him to have received anti-rabies serum since the first of 1956. At a minimum cost of \$6 for the "shots", this has meant an expense to Floyd families of \$216, plus the physical discomfort of those under treatment, the anxiety of the patients and members of their families and the danger of rabies.

Mr. Clark added that during that period heads of 14 animals have been sent to the state la-

## Martin and Justice View Proposed New Road Site

J. Q. Justice, district engineer assistant, of Pikeville, conferred with Magistrate Ellis Martin, at Minnie, last Friday on reconnaissance of survey for new road, this road beginning at East McDowell, on Frasure's Creek up the Bill Hall Branch, and down the Hamilton Branch of Mud Creek, approximately four miles.

### 'Street Baseball' Tilt Ends Here in 1-1 Tie

Jack Hill and Bobby Blackburn matched two-hitters in "street baseball" here Tuesday, July 17, rain ending the game with the score knotted at 1-1. Most of the players were boys who belong to neither Little League nor Pony League teams.

Bobby Blackburn and Russell Music had the only safe blows for the Joe Hills while the Graham Street team's safeties were delivered by Dan Goble and Jack Hill, Goble's two-bagger being the only extra base knock. Each team had three errors.

### Administrator's Notice

The undersigned has been appointed administrator of the estate of the late Grover C. Martin, of Drift. All persons having claims against the late Grover C. Martin are asked to present them at once to the said administrator.

### Rev. Deane Assumes Church Pastorship

The Reverend Guy M. Deane, Jr., assumes the pastorate of the First Baptist Church, of Martin, August 5. Rev. Deane is a graduate of the Owensboro Senior high school, of Owensboro, Kentucky, attended Georgetown College, Evansville College and was graduated from the New Orleans Baptist Theological Seminary, of New Orleans.

Rev. Deane comes to the Martin church from the Buck Creek Baptist Church, Livia, Kentucky, the oldest missionary Baptist church in Daviess or McLean counties. He served this church for three years.

Rev. Deane and Mrs. Deane are moving to Martin July 31.

You are cordially invited to be in these special first Sunday Services August 5.

## West Liberty Team Wins Kentucky Semi-Pro Title

West Liberty won the state semi-pro championship last week by defeating Prestonsburg, 6-0. Strong hurler for the new state champs pitched two-hit ball.

West Liberty will compete in the national semi-pro tournament at Wichita, Kansas.

Curt Reed Burchett, the most consistent winner for the Prestonsburg team throughout the regular season, was pummeled for ten hits and six runs. Prestonsburg had gained the finals in a slugging contest which found Louisa at the short end of a 16-10 score. Bill Hubbard, first baseman, found the hitting range by smacking out four hits in six times at bat. The winner of the Louisa game was Julian Campbell.

The Prestonsburg team was ill-fated in the drawing for the tournament, it was said. They were forced to play all the tournament games on successive days, giving practically no rest to their pitchers. West Liberty, more fortunate, was scheduled for games a day apart.

From the local team three placed on the tournament's all-star team. Don Sullivan, left-field, Glen Dixon, second base, and Adrian Blackburn, utility, were the players voted most outstanding at their positions.

### GRID CLINIC

The annual Eastern Kentucky football clinic for officials and coaches will be held in the Pikeville gymnasium, August 23, at 8 p.m. All officials who expect to referee football games during the '56 season must be in attendance before they can qualify.

### ALL-STAR GAME

The Martin Pony League All-Stars will meet the Prestonsburg Pony League All-Stars in a baseball tilt on the Prestonsburg athletic field at 5:30 p.m., Friday, August 3.

### NEEDS GAME

Elkhorn City high school would like to schedule any Eastern Kentucky football school, either at home or away, on Friday, September 14. Fleming high is seeking an opponent for September 8.

### CAMPBELL, COACH IN ALL-STAR TILT

Eastern Kentucky will be well-represented in the coaching ranks of the annual high school all-star basketball and football games in Lexington Saturday, August 11.

One of the tutors for the East football squad is Pikeville's Clayton Powers, who has resigned to take a similar position in Union City, Tennessee. Guiding the East basketball squad will be Wayland's "Copper-John" Campbell and Morton Combs, of state champion Carr Creek.

### SQUIRREL SEASON

The first half of the split squirrel season in Kentucky will open August 15 and run through October 15. The second half is November 19 to December 16, inclusive. The bag limit per day is six and the possession limit after the first day is 12. Quail and rabbit season does not officially open until November 19, the bag limit on quail is 10 and on rabbits 8.

Hanna Coal Co., a division of Pittsburgh Consolidation Coal Co., was the leading producer of bituminous coal through surface mining in Ohio in 1955, when its tonnage was in excess of 3.9 million.

Under the program planned by the Department of Conservation, the youths work five hours a day in the nursery and spend the remainder of their time in recreational, educational and woodlore activities. The camp has a combined semi-military and Boy Scout atmosphere.

At the first note of reveille—6 a.m.—the boys "fall out" for their tents for 30 minutes of calisthenics. Breakfast at 7 o'clock is followed by 45 minutes of school work.

The boys are divided into two work groups. While one is working at the tree nursery, the other is working in the camp area. There's a swimming period in the afternoon. After the night meal, Vernon Hatton, University of Kentucky basketball star, directs a physical education program. The day's activities end with a vesper service from 8 to 9 o'clock.

### UTILITIES USE COAL

Latest available statistics reveal that electric utility companies have used 10 million tons or more coal each month since October, 1954, a stretch of 18 months. Total consumption for the period was more than 218 million tons.

### DOCKS OR COAL-LOADING

On the 109 miles of the Ohio River between Pittsburgh and Powhatan Point, O., there are today five docks for loading coal and 26 docks for unloading coal barges.

### Gentry Smith Promoted In Postal Accounting

Gentry Smith, son of Mrs. E. A. Smith, 54 First Ave., Prestonsburg, has been promoted to assistant regional accounting officer for the Post Office Department in Memphis, Tenn. This region serves the states of Tennessee, Alabama and Mississippi, and is composed of some 2,250 post offices with over 20,000 employees.

Mr. Smith taught commercial subjects in Prestonsburg high school during the school year 1941-42. He is a graduate of Cumberland Junior College, Williamsburg, Ky., holding an A. B. degree from Morehead State Teachers' College, and a B. S. degree from the Bowling Green Business University, Bowling Green, Ky.

Total bituminous coal production from all types of captive mines in 1955 was 86,543,965 tons, of which more than two-thirds—or 65,282,053 tons—came from mines owned by steel companies.

### Eastern State To Confer Degrees Aug. 2 on 278

Richmond, Ky., July 25 (Spl.)—The largest summer class ever to be graduated from Eastern Kentucky State College will hear H. Roe Bartle, nationally known mayor of Kansas City, Mo., deliver the commencement address at the August 2 exercises, to be held in the amphitheatre on the campus.

Mayor Bartle, a former Kentuckian who practiced law in Lebanon, Kentucky, before moving West, was an outstanding record as a public speaker, civic leader, educator, philanthropist, lawyer, and humanitarian. His career was the subject recently of a feature article which appeared in a national magazine.

Degrees will be conferred on 278 candidates by Dr. W. P. O'Donnell, president of Eastern. This class, together with the 278 graduated in June, make a total of 556 degrees awarded this year by the college. Last year's total, the previous high, was 419. The class will be presented for graduation by Dean W. J. Moore.

Sixty students will receive the master-of-arts degree; 201 the bachelor-of-science; and 17 the bachelor-of-arts degree. Of the candidates for degrees, 268 are native Kentuckians, while only ten are from outside the Commonwealth.

Candidates for degrees from Floyd county are:

Master of Arts — Enoch Combs, Garrett.  
Bachelor of Science—Archie Beverly, Wayland; Robert Eugene Bitter, Martin.  
Bachelor of Arts — Rodney Salisbury, Martin.

### State Honor Camp Officially Dedicated

Frankfort, Aug. 2—Thirty teenage boys, wards of the state, are operating a tree nursery within a stone's throw of scenic Kentucky Dam Village and Park.

This, the state's first Youth Conservation Training Center, was opened officially recently and dedicated, with the heads of participating state agencies taking part in the program. Master of ceremonies was State Rep. Fred H. Morgan, Paducah.

At the first note of reveille—6 a.m.—the boys "fall out" for their tents for 30 minutes of calisthenics. Breakfast at 7 o'clock is followed by 45 minutes of school work.

The boys are divided into two work groups. While one is working at the tree nursery, the other is working in the camp area. There's a swimming period in the afternoon. by the Board, designating the Bank Josephine as depository for its funds, beginning July 1, pointed out that the First National as depository for the Board during the year ending July 1 had paid interest in that amount for at least \$1200. It contends it was not given a chance to submit a competitive bid for the chance to be the Board's depository, although it had prepared one and had proposed to pay the Board not less than \$2,000 interest during the year, July 1, 1956 to July 1, 1957.

This suit claims that the Bank Josephine was not required to obligate itself to pay any interest, although Kentucky statute provides that a depository before entering upon its duties must agree with the Board as to the rate of interest it will pay on average daily balances.

gas levy, they will be paying more for equipment, including tires, as well as a new tax on trucks weighing over 26,000 pounds.

The car owners of Floyd county had been spending a total of \$5,320,000 a year, prior to the increases, in maintenance and operation charges, on the basis of a study made by the American Automobile Association. Of this sum, \$1,544,000 went to the local gas stations.

There is, however, a much brighter side to the picture. The huge road program will ultimately give the driver some relief from traffic jams around cities and on highways. Farm-to-market roads boost business. Driving time will be reduced considerably. There will be less of the exasperating stop-start operating costs.

In dollars and cents this should mean a saving of one cent a mile, according to the Bureau of Public Roads. With drivers averaging 9,400 miles a year, this would be a cut of \$94 per car.

Seated, left to right, are Henry D. Fitzpatrick, Sr., of Prestonsburg, Robert R. Martin, State Superintendent of Public Instruction, and former Governor Flem D. Sampson. Standing, left to right, are Cecil Sanders, of Lancaster, former Governor Keen Johnson, and W. F. O'Donnell, president of the school. This is Fitzpatrick's fifth term on the regency board. He is vice-chairman of the board of directors of The Bank Josephine.

**Lieut. Crawford Completes  
Basic Army Signal Course**

Fort Monmouth, N. J. — 2/Lt. John W. Crawford, of David, Ky., son of Mr. and Mrs. William Crawford, completed the Signal Corps Officers Basic Course, at the Signal School here, on July 26. He was sent to the Signal School to receive basic training in the duties and responsibilities of Company Grade Signal Officers, prior to joining a field unit.

The 24-year-old officer was graduated from the University of Kentucky last year. His wife, Mary Sue Crawford, resides at Mallory, W. Va.

The first three weeks of the ten week course were devoted to field training, during which officers participated in such sub-courses as Battle indoctrination, Bayonet Training, Hand-to-Hand, Methods of Instruction, Military Leadership and Physical Conditioning.

**VETERANS TRAINING PROGRAM  
WORLD'S LARGEST, IS ENDED**

The largest veteran's training program the world has ever known ended Wednesday for all but a small handful of World War II veterans.

It is the 12-year-old World War II GI Bill—a law that has given more than 7,800,000 World War II veterans a chance to catch up with the years taken out of their lives by military service, Veterans Administration said.

The day also marked the virtual end of another program—Public Law 16 vocational rehabilitation training for disabled veterans of World War II. Under this program, VA figures show that more than 610,000 disabled veterans have been given a much needed "lift" toward self-reliant living.

The veteran-trainee, however, will not vanish entirely from the American scene, VA said.

The Korean GI Bill, entering its fourth year, is just now getting into full swing. This fall, VA expects nearly three-quarters of a million Korea veterans to be enrolled in schools and training establishments under that law.

VA added that Public Law 394, vocational rehabilitation training for disabled Korea veterans, also has a good many years to run.

A small handful of World War II veterans will be allowed to continue their studies in the months ahead, VA said. These are veterans who enlisted in 1945 and 1946 under the Voluntary Recruitment Act, as well as disabled veterans who haven't been able to finish Public Law 16 training because of certain hardship conditions.

The original GI bill, known on the statute book as Public Law 248, 78th Congress, was enacted on June 22, 1944, while the war was raging at its bitterest in Europe and the Pacific. There wasn't much GI Bill training in those early days, for there weren't many veterans.

But once the war ended, and servicemen started coming home at the rate of 1,000,000 a month, GI enrollments mushroomed beyond expectations.

By the end of 1945, when demobilization was beginning to hit its stride, 185,000 veterans were taking GI training. A year later, the number had leaped to 2,200,000. At the end of 1947, it rose to more than 2,500,000, a record level.

Enrollments then started to decline, gradually at first and, after 1951, much more rapidly. The number of World War II GI Bill trainees dipped below 1,000,000 in 1952, and dropped under 100,000 in 1955.

This week, on the last day of the program, the number stood at only a few thousand.

When the GI Bill program was at its peak, educators estimated that two-thirds of all male students on the college campus were GI Bill veterans. Colleges had to make special provisions for veterans who, on the average, were several years older than their non-veteran classmates. Entire housing developments were built for veterans with families; and, according to VA, two-thirds of all veteran-trainees were family men.

Intensive streamlined courses were established for these young men in such a hurry to get started in delayed lifetime careers. Many schools still offer these courses for adults, for the GI Bill had set off a new interest in adult education that is stronger today than ever before, in our history, VA said.

Colleges and universities everywhere rushed ahead with large scale building projects to accommodate the post-war flood of veteran-students. It's well they did, educators say; for today, expanded college facilities are barely able to hold the record-breaking 2,700,000 young men and women seeking a higher education.

Economists claim the GI Bill fore-

stalled a wave of unemployment in America shortly after the war, by removing from the labor market hundreds of thousands of veterans who probably wouldn't have been able to find work.

The reason, they state, is that wartime production had ceased, but production for peace hadn't yet taken up the slack. And more than 2,000,000 veterans, instead of looking for jobs in that hectic time of reconversion, were in school and training establishments, preparing for better futures.

With the program at an end, VA looked back over the record of 12 years of GI training.

Of the more than 7,800,000 veterans throughout the nation who received training, 2,200,000 attended college; 3,500,000 went to schools below the college level; 1,400,000 took on-the-job training, and 700,000 enrolled in institutional on-farm training.

In Kentucky, 114,000 veterans, over 46% of Kentucky's World War II veteran population, trained under the GI Bill. 24,000 enrolled in Kentucky's colleges and universities; 38,500 attended schools below the college level; 24,000 took on-the-job training and 27,500 took farm training.

Out of every 100 trained veterans, 33 aimed for highly-skilled trade and industrial jobs; 10 engaged in scientific studies, including engineering and medicine; another 10 went into management and business administration; still another 10 learned the latest techniques of scientific farming; 6 studied the humanities, and most of these had plans to specialize later on; 5 took sales and clerical courses; 3 prepared to be teachers, and the rest trained for a wide variety of other occupations.

Many of these veterans today hold jobs in fields where there are critical shortages of manpower, VA said.

GI Bill training has helped raise both the income and educational levels of veterans, VA pointed out. One recent survey disclosed that the median income of veterans has gone up 51 percent over the past six years, compared with a 19 percent rise for non-veteran males in the same age group. Another survey showed that veterans' educational level is better than four years of high school, while the level of non-veteran males, same age group, is but two years of high school.

The GI Bill training program has cost \$14.5 billion—an investment that already is paying dividends to America in terms of veterans' achievements, VA said. Only five cents out of every dollar has been spent for administration of the program.

The cost of GI Bill training in Kentucky is estimated at \$236,300,000.

**TEAGUE URGES  
VACCINATION**

**Of All Pregnant Women  
Against Polio; Supplies  
Of Vaccine Are Ample**

"The importance of vaccinating pregnant women against polio must be emphasized," Dr. Russell E. Teague, Commissioner, Kentucky State Department of Health, said last week. "Kentucky's first polio death of the year, that of a young expectant mother, reminds us that too many mothers, thinking first of their children, neglect to protect themselves.

Dr. Teague was referring to a Lexington mother who, with her unborn child, died of polio July 2. Although her 18-month-old daughter had been vaccinated, the mother had not taken vaccine. Pregnant women are more susceptible to polio than other women in their age group.

"Enough vaccine is available in the state to protect all pregnant women, as well as persons under 20 years of age—the other most susceptible group," Dr. Teague said. "Expectant mothers should begin the series of injections early in their pregnancy, as three doses give the most effective protection against polio, in the majority of cases," he added.

To meet the recommended dosage the first injection of polio vaccine should be followed by a second in from two to six weeks, and the booster dose to build up long-lasting protection should be given after seven months or more. Medical authorities have given assurance that it is safe to take vaccine during the summer, if the usual precautions about postponing injections during illness are observed.

Expectant mothers are being urged to consult their physicians and to follow the plan adopted by the medical profession in their localities for administration of the vaccine.

**Former Johns-cr. Man  
Indicted in Magoffin**

The Magoffin county grand jury has returned a reckless-driving indictment against Bobby Morrison, 20, Peru, Ind., formerly of Johns Creek, this county who was involved in a highway accident July 9 that injured 19 persons.

County Attorney Arnett Mann said that Morrison was indicted by the current grand jury and that the case might come up at the September term of court.

State police said Morrison was driving an automobile that collided with a station wagon carrying 16 wards of the Dora Lee Children's Home at Wonnee, Magoffin county. State Trooper Jack Roberts said after the accident that Morrison was charged with reckless driving and driving without a license.

Mr. and Mrs. Darwin Hunt attended a performance recently of the smash-hit drama, WILDERNESS ROAD, at Berea. This award-winning play by Paul Green is receiving national recognition as an exciting and beautiful presentation about blood-torn Kentucky during the Civil War. Sixty-three thousand persons saw it during its first season in 1955 and it will play nightly, except Sundays, through Sept. 1 this summer.

**Cavalry Enlistments For German Occupation**  
The United States Army is accepting enlistments in the 11th Armored Cavalry Regiment, which is scheduled to go to Germany in the fall, M/Sgt. Glenn R. Walke, local Army recruiter, announced recently.  
The 11th will join the 7th Army in Germany under the Army's unit rotation plan.  
Sergeant Walke explained that men enlisting under this plan will take their basic training at Camp Chaffee, Arkansas, and will join the 11th after the completion of their basic training. The 11th presently is training at Fort Knox, Kentucky.  
Unit Rotation, Sgt. Walke, said, is an Army plan devised basically to replace an overseas unit with a freshly trained and strengthened unit.  
Individuals who desire further information about enlistment in the 11th Armored Cavalry Regiment should contact Sergeant Walke at the Army Recruiting Office located at the Postoffice building, Prestonsburg.

## Nearby County Agents Inspect Aromatic Fields In Floyd and Johnson

County agents from seven counties visited Floyd and Johnson counties Monday of last week to inspect the fields of aromatic tobacco growing in pilot fields as an experiment to test the quality as an experiment to test the quality of that variety on local soils. They were accompanied by Dr. W. D. Valleau and Ira Massie, of the State Extension Service, and County Agent O. E. After the inspection of the Floyd fields the agents met here to discuss the growing of aromatic or Turkish tobaccos in Eastern Kentucky. These tobaccos, upon which the government places no restrictions, are "seasoning" or "leavening" tobacco for the American cigarette. Most of the agents were non-committal, preferring to wait the testing of the quality of the tobacco being grown in Johnson and Floyd counties.  
Six of the county agents, the name of one being unavailable, inspecting the fields here were John T. Cochran, Adair county; Kelsey Dreskill, Lincoln county; Pritchard King, of Magoffin; Carl Sinclair, of Morgan; J. Lester Miller, from Madison county, and Hays Pigman, of Wolfe county.

## Plans To Examine Social Workers Told

Frankfort, Aug. 2 — Harry C. Martin, Merit System supervisor, today announced plans for conducting state-wide social worker examination to fill present and future vacancies within the Department of Economic Security.  
Martin said examination will be given at the Employment Service office in Ashland, Bowling Green, Covington, Danville, Hazard, Madisonville, Mayfield, Maysville, Morehead, Pikeville, and Somerset, as well as Room 344, New Capitol Annex building, Frankfort, 8:30 a.m., local time, Saturday, August 4. Admission slips to the examination are not required and applications may be secured at the examination center the day of the examination, Martin said.  
Entrance level social worker position calls for high school graduation and two years college. Each year of successful full time paid employment within the past 10 years, involving intimate contact with the public may be substituted for one year of the required college training.  
Additional information, may be obtained from the Merit System Supervisor, Room 344, New Capitol Annex building, Frankfort, or the nearest Employment Service office.

more accurate, are not available for Harlan and most other counties of the state.

The Department of Health's report is based on the use of federally purchased vaccine by private physicians and local health departments throughout the state. It does not include an estimated 6 per cent more Kentucky children who received at least one injection in the program financed in the spring of 1955 by the National Foundation for Infantile Paralysis.

In Woodford, 2,412—or 57.6 per cent—of the estimated 4,190 children under age 20 have received at least one injection under the federal program. In addition, 2,025—or 48.4 per cent—have had second injections, and 760—or 18.1 per cent—have had booster doses. Anderson County has the next highest record with 55.3 per cent, 49.2 per cent, and 12.7 of its children having had at least one, at least two, and three injections, respectively.

In four other counties—Carlisle, Franklin, Mercer, and Oldham—over 50 per cent of the population under 20 have received at least one injection of federally purchased vaccine. Counties in which over 40 per cent of the persons in this most susceptible age group have received at least one injection of federally purchased vaccine are Breckinridge, Daviess, Fayette, Jefferson, Mason, Meade, Shelby, Spencer, and Washington. A total of 20 counties in the state reported that more than 30 per cent of their children in this age group had received two injections.

The report reveals that very few Kentuckians in this age group have had third injections—about 1 per cent in most counties. National Foundation for Infantile Paralysis findings indicate that three injections give most effective protection against paralytic polio.

Although the number of persons who have been protected with vaccine is rising, 21 counties reported that less than 10 per cent of their population under 20 had received vaccine under the present program, and four of these reported less than 5 per cent. Commissioner of Health, Russell E. Teague, M. D., said that the immediate importance of vaccination would be emphasized in those counties. "Our records show the highest incidence of poliomyelitis in Kentucky in previous years has occurred in August and early September. There is still time for persons vaccinated right away to build up some protection against paralytic polio before the peak season."

Parents of children under 20, and also expectant mothers, are being urged to consult their family physicians and follow the procedure which has been adopted locally by the medical profession for the administration of the vaccine.

laboratory for tests and of these nine were declared positive and the others negative.

Of four cats tested, two were found to have had rabies; all five fox heads submitted were positive; only one of four dog heads were reported positive, and the head of the one cow tested was positive.

## TRY CLIPPING A TV OR RADIO PROGRAM

Dorothy Kilgallen, the columnist and television star, recently had something pleasant to say about newspapers as reading matter.

"You can read on a train crossing the desert or on a plane at 17,000 feet above the Atlantic—no static, no fading, no blips," says Miss Kilgallen. "You can read in a bathtub or while hanging out on a pole in a crowded bus. You can read as much or as little as you want, as fast or as slowly as you want."

"And if you read something you like, you can tear it out and save it to read again some day. I enjoy radio and television, and I am gainfully employed by both, but I must admit they have their drawbacks. Did you ever try to clip a television program and paste it in your scrapbook?"

Which is why they're going to have to come up with something else if they're ever to replace as an advertising medium plain words and pictures printed in black ink on white paper.

## EYES THAT SEE NOT

It's nothing to boast about, but there was a time when, reading about a machine popularly known as an atom smasher and put to use by a California university, I thought the whole thing was downright crazy. I hadn't seen an atom and nobody else had seen one, and I could not see why an institution of learning wanted to meddle around with a theoretical something. I had an idea those fool scientists should stick to something they could see through their microscopes, something like a cell or a germ, for instance, and not go plunging off into the wild, blue yonder chasing something nobody had seen.

Then, all of a sudden, came Hiroshima, and it wasn't long till everybody not only knew there was an atom but also had a pretty good idea what could be done with it.

Which reminds me of those who refuse to believe in God because He isn't visible to their poor, weak eyes—even though His handiwork is as visible and as real as the atomic destruction of Hiroshima.

## Jaycee Institute Plans Program at Louisville

Approximately 300 Jaycees from six states will convene in Louisville, August 4-5 for the mid-west institute of the United States Junior Chamber of Commerce.

The sessions are part of a national briefing program of the United States Jaycees.

The Jaycees will hear addresses by Dr. Frank Rose, president of Transylvania College, Lexington, Ky., Thruston Morton, retiring Assistant Secretary of State and candidate for the United States Senate from Kentucky, and Dr. Frank Dickey, newly appointed president of the University of Kentucky.

Wendell H. Ford, of Owensboro, Ky., recently elected president of the United States Jaycees, will address the assembly. Other national Jaycee dignitaries are also on the agenda.

Jaycees from Kentucky, Tennessee, Michigan, Illinois, Indiana and Ohio will be represented at the Institute.

## Twenty Ligon Witnesses Leave for 4-Day Meet

Twenty of Jehovah's Witnesses from Ligon left Wednesday for their four-day district convention in Winston-Salem, N. C. R. L. Matthews, presiding minister of the group, announced. The convention, scheduled for August 2-5 at Memorial Coliseum, will have as its principal speaker N. H. Knorr, president of the Watchtower Bible & Tract Society, sponsors of the conference.

The Winston-Salem convention is one of 34 district conventions being held in the United States and Canada from the July 19 to August 20. The expected attendance for the Winston-Salem convention is more than 6,000, with delegates coming from more than 15 states.
