SEWER FUND OF \$148,500 IS ALLOTTED

But Prestonsburg Still To Need \$450,000 To Do Needed Work on System

The Kentucky Water Pollution Control Commission at its meeting in Frankfort last week allocated \$148,500 to Prestonsburg for sewerage system and sewage disposal plant construction.

That contribution, made from federal funds allotted the state of Kentucky for construction grants, will still leave Prestonsburg needing to raise approximately \$450,000 on its own.

Mayor Edward B. Leslie said this week that engineering and planning for the big undertaking needed here is being completed.

Prestonsburg's sewerage system--sometimes referred to as Prestonsburg's lack of a sewerage system--has long been under discussion, with the method of raising the community's share of the cost causing concern.

In all the Water Pollution Control Commission allocated a total of \$736,134.54 in federal funds to communities of the state.

Other allocations made: Scottsville for \$55,261.40; Lakeside Park for \$51,656.44; Liberty for \$54,540; West Point for \$27,705; Greensburg for \$74,512; Lawrenceburg for \$37,200; Campbellsville for \$54,000; Owingsville for \$39,624; Bardwell for \$25,886; Auburn for \$49,603; Radcliff for \$86,000, and the Sanitation District in McCracken county for \$33,566.70.

The total federal allotment to Kentucky for construction grants this year was \$1,078,150.00.

SPRING FOREST FIRE COURT ACTION NOTED

Two persons have been convicted and 11 have paid suppression costs in court here in recent weeks for violations of the forestry laws, it was announced this week by Forest Burchett, forest ranger.

These court actions were the result of fires in the spring season, Burchett pointed out.

Convicted recently in county court were Bridgett Martin, of Langley, fined \$10 and \$17.50 cost, and Johnny Warrens, of Martin, fined \$25 and \$22.50 cost.

Assigned to Prestonsburg to serve the two-county district of Floyd and Magoffin is Don A. Graves, who succeeds Arthur Leach, Leach was promoted to district forester over six counties to succeed Bill Music, Music, who has been located at Prestonsburg for several years, has been promoted and transferred to Dawson Springs, Talmadge W. Collier was named to the Pikeville office to serve Pike and Martin counties, and Theodore A. George was appointed to the Paintsville office to work in Johnson and Lawrence counties.

Clyde Scaif, former chief of police at Pikeville, has been named to succeed Lee Roberts, of Floyd county, as investigative officer for the division, Scaif will work in the Eastern Kentucky district.

FAIR OPENING DRAWS HUNDREDS TO EXHIBITS

It is the school exhibits that attract hundreds. Earle Martin and Herbert Prater of the system commented that exhibits this year had a tendency to concentrate around science, art and transportation.

Typical of the school displays are the papier mache maps of Bonanza; the paintings of the "Desert Chief," and "Robin Hood," of the Harold grades; the geography presentation by the Forks of Bull rural school; and the science work of the Head of Brannam's Creek school. Pupils of the Brannam's Creek school present excellent drawings of piston-type steam engine, movements of the eye, latitude and longitude and a chart showing why the moon shines.

TREE NURSERY IS DEDICATED

Wilson Wyatt Speaks At Ceremony, Saturday; Dingus Conducts Tour

The Morgan county tree nursery at Woodbend, seven miles from West Liberty, was dedicated Saturday. Established by the Kentucky Division of Forestry last year, it is now in production.

Lieut. Gov. Wilson Wyatt, one of the state's chief proponents of forestry and a sponsor of the Morgan county farm, was guest speaker. He was accompanied to Woodbend by Gene Butcher, director of the division. Bill Dingus, superintendent of the farm, was conductor of a tour of the seedling farm.

Wyatt, in his speech Saturday, advocated reforestation of Eastern Kentucky hills and outlined the advantages accruing from setting trees. The Woodstand nursery will produce 9,000,000 seedlings annually.

Attending the dedication ceremonies were Eastern Kentucky county officials and others interested in forestry.

Already the nursery has 120 500-foot beds of tree seedlings growing, and Superintendent Dingus said he hopes to have eight to nine million seedlings ready for distribution to landowners by next spring.

The nursery is producing four varieties of seedlings--White pine, Loblolly pine, short leaf pine and native black walnut.

Only the pine seedlings will be ready by spring. The black walnut (See Story No. 5, Page 4)

WPRT AUCTION NETS \$4,819

Mrs. Stephens Announces Campaign Is Successful; Combs Kicks Off Drive

As of Wednesday afternoon, \$4,819 had been raised for the Floyd County Retarded Children's Council by Radio Station WPRT's fourth annual radio auction and the kickoff dinner held at the high school cafeteria here preceding the auction.

Mrs. Dora Stephens, chairman of the radio auction, predicted the total will reach \$5,000. She added that the 1960 fund-raising effort is the most successful yet staged and expressed appreciation on behalf of the Council and the fund campaign organization for the splendid cooperation given.

The kickoff dinner held here, and at which Gov. Bert Combs was the principal speaker, raised \$1,022. The remainder of the fund was raised by the auction conducted by the radio station, with business firms and individuals donating articles to be sold, and by contributions solicited at roadblocks.

The fund-raising campaign is staged annually as a local effort which qualifies the Floyd County Council for the Retarded to share in funds raised by the Crusade for Children conducted by the Courier-Journal, Louisville Times and WHAS.

SLONE BOND IS FORFEITED

Petit Jury Discharged For Criminal Term; Civil Term Convenes Monday

Although the three-week September term of the Floyd circuit court was extended to include October 1, the petit jury was discharged Monday, and the business of holding trials was ended. The civil session of court will convene Monday.

Two convictions have resulted since last Wednesday. Fred Thacker was given a five-year pen term upon his plea of guilty to a grand larceny charge, and Cassie Howell and Green Johnson were fined \$20 each on an adultery charge.

The \$2,000 bond of James Slone was forfeited when he failed to appear for trial on a shooting and wounding charge. A new bond of \$4,000 will be required when he is found. The \$1,000 bond of Russell Lee Hall, accused of seduction, was also forfeited for the same reason, and Judge Hill directed that his new bond be set at \$2,000.

The three cases against John and Earnest Reynolds--removing a boundary marker, removing a corner stone and obstructing a public road--were consolidated for their trial. Both were acquitted on the road obstruction count. The corner-stone-removing count resulted in a "hung" jury, and John Reynolds was cleared of the charge of removing the boundary marker. The jury could not agree as to Earnest Reynolds' guilt or innocence on this last charge.

These cases were dismissed: Dewey Wallen, incest, previous trial barring action in this case; Has Johnson, obtaining money under false pretense, lack of jurisdiction, alleged offense occurred in Knott county; Cassie Howell, shooting on public highway, dismissed with plea of guilty in associated case; Kendall Chaffins, shooting into a dwelling, lack of proof; Darb Shepherd, spreading false rumors.

FLOYD NATIVE SLATED FOR AIK PRESIDENCY

Townsell G. Marshall, of Ashland, and a native of Floyd county, is the choice of the nominating committee to become next president of Associated Industries of Kentucky.

The election is scheduled for 2:30 p.m., Monday, Oct. 3, before the association's annual convention.

The convention at the Brown in Louisville will feature economic and political subjects with Willard F. Rockwell, whose interests include the Rockwell Manufacturing Company plant at Russellville, speaking at the Tuesday luncheon. John J. Delker, Henderson, is to report on an analysis of the voting records of Kentucky members of the Congress. Rockwell will speak on "Foreign Competition, the Nation's No. 1 Challenge of the 1960's."

Marshall is assistant to the manager of Armo Steel Corporation's Ashland Works, having advanced through several positions since joining Armo in 1937, taking time out for wartime duty as a pilot with the Army Air Force. His military duty included a year and a half flying the Hump, the air lifeline supplying China from India over the Himalaya Mountains.

The AIK presidential nominee is a native of Floyd county, a son of the late Robert H. Marshall, and was educated at Prestonsburg high school, Caney Junior College and the University of Kentucky. He is on the executive board of the Tri-State Area Council of Boy Scouts;

TEACHER PAY SYSTEM NEW

Delivery Is Planned For Friday; Teachers Approve Ten-Check Pay

The first of the ten checks for teachers' salaries for the ensuing school term will be delivered to the principals of consolidated schools Friday, it was announced this week by Charles Clark, Floyd county superintendent of schools.

This new plan of paying the teachers was initiated after a polling of teachers indicated that 90 per cent were in favor of receiving ten checks instead of nine for the year's work. All checks will be delivered to the consolidated principals by the first of the month, Clark said, and checks for rural teachers will be mailed or the teacher may pick up her check at the office by bringing the monthly report for the school.

Teachers' salaries in Floyd county are up \$350,000 this year, it was noted. This huge increase is due to the sales tax revenue.

Rural teachers, whose certificates are in order, have already been paid their salaries for the first month, it was said.

Clark will personally deliver the consolidated school teachers' salary checks to the principals of Allen, Martin, Maytown, Bosco, Garrett, Lackey and Wayland.

The new system of paying teachers was worked out in this county after personnel of the county superintendent's office conferred with other systems in the state. It was a matter of revamping the bookkeeping.

JURY RETURNS MURDER BILLS AGAINST TWO

Fleming and Mrs. Francis Named; Jury's Report Asks Health Dept. Action

Two wilful murder indictments were voted by the Floyd circuit court grand jury during the last two days of its session last week. Last week's work brought to 69 the total of indictments made by the jury.

Named in the murder bills were Ballard Fleming, of Prestonsburg, in the slaying here last May 19, of Don Woods, and Mrs. Corby Francis, of Neon, in the fatal shooting at Sugar Loaf, near Emma, of her husband, A. B. Francis, last June 25. Bond of \$5,000 was required for each defendant.

Elderly Bud Simpson was named in a voluntary manslaughter bill in the auto death at Drift, April 30, of eight-year-old Fabian Tackett. The boy allegedly was struck while walking alongside the highway by a car driven by Simpson.

When James Slone failed to appear before the grand jury to make an indictment against Bennie Blackburn on a charge of shooting and wounding him, Slone's sworn statement, previously signed, was used. Whereabouts of Slone are sought, since he failed to answer trial on a charge of shooting and wounding Deputy Sheriff Joe Wheeler Lewis. His \$2,000 bond was forfeited, and Judge Hill directed that when he is located a new bond of twice that figure be required for his release.

The brief grand jury report, which consisted of four paragraphs, commented:

"We find that the main complaint and grounds for indictments is child desertion. This grand jury recommends that an investigation be conducted to see if a more suitable way can be found to eliminate this problem. There is widespread knowledge of bootlegging in the county, and we suggest that every lawful means be adopted to eliminate this problem."

A large number of child desertion indictments are made, officials say, so that the complaining witnesses or their children may qualify for state aid.

The grand jury report, which was signed by Joe Goble, foreman, continued:

"This grand jury is extremely aware of the odor of sewage in (See Story No. 2, Page 4)

Board Member's Home Is Destroyed by Blaze On Prater Creek, Sept. 21

The home of John G. Hall, member of the Floyd County Board of Education was destroyed by fire with practically all its contents last Wednesday morning on Prater Creek, about two miles from Banner.

The blaze was first discovered when the fire was breaking through the dining room ceiling from the attic, and is believed to have resulted from defective wiring. Only two end tables and a breakfast set were saved.

The residence, a one-story frame structure of eight rooms, had been remodeled and renovated about three years ago. An estimate of the loss was unavailable. Insurance covered only a portion of the damage, it was said.

CAN PAST VOTE DATA FORECAST '60 RESULTS?

Special to The Times New York, Sept. 20--How will Floyd county residents vote in November? Do their party preferences, as expressed at the polls in previous presidential elections, point to the way they will vote this year?

An attempt to answer such questions is made on the strength of a national study, based on thousands of interviews among the electorate. It indicates that once a voter makes his choice of a political party, he usually sticks to it for life. Only one out of five ever switches.

Those simple facts appear to be the most important, single influence in our elections, according to the University of Michigan's Survey Research Center, which has been conducting the interviews among voters for a number of years.

Its findings are that three out of four Americans have made definite political choices and consider themselves to be either Republicans or Democrats.

THE WATCHMAN SPEAKS

It isn't likely that informed Americans will have so soon forgotten that the U.S.A. was founded by patriots, many of whom fled from Roman Catholic persecution.

The Church of Rome demands of her members absolute allegiance. A Roman Catholic must admit that he is subject to a foreign power, which claims to be a sovereign state.

Our constitution clearly forbids a president being subject to a foreign power. Now is the time for Americans to awake to the danger of Roman Catholic Domination. (The Christian Beacon, Sept. 8th, 1960.)

Both of our political parties have capable men to fill the office of the presidency who affiliates himself with one of our Protestant churches, none of which are bound to a foreign state, any of which are acceptable to real Americans.

The writer is Independent Democrat; religiously, I am a free CHRISTIAN, and I'm not campaigning against Kennedy, nor for Nixon. I'm running for heaven and want to have freedom to take along as many as will go with me, and let all others make the choice for himself.

Fellow Americans, there is only one way to keep our two-party system, and that is by rebelling against such tactics that is used in trusting on either party a man affiliated with a foreign power who must render absolute allegiance to it.

This is unfair to the voters and loyal members of the party, putting them on the "spot." This is lack of foresight on the part of the leaders, and leaves their members no other alternative but to go against their party's man, in order in the long run to preserve and save that party. The voters themselves becoming the true patriots of their party.

Fellow Americans: Let us teach the leaders of both parties, now, we will not swallow this kind of "stuff," and warn them to never be guilty of such tactics again.

An Announcement by HENRY FORD II
Of Importance to Every Buyer of a 1961 Automobile

The Warranty on All 1961 Ford Motor Company Cars Is Being Extended to 12,000 Miles Or One Full Year

The 1961 line of all Ford Motor Company passenger cars will bring to the American market the finest automobiles ever produced by this company.

Every Ford, Falcon, Thunderbird, Mercury, Comet and Lincoln-Continental has been styled, designed, engineered and manufactured with three primary goals in mind: (1) Finest QUALITY; (2) Greatest DURABILITY; (3) MOST RELIABLE operation.

So confident are we of the success of our efforts to achieve these goals that the written warranty on all 1961 Ford Motor Company cars is being extended to 12,000 miles or one full year, whichever comes first.

NO OTHER AMERICAN AUTOMOBILE CARRIES A WARRANTY LIKE THIS. The previous Ford warranty, traditional in the industry, was for 4,000 miles or three months.

We urge every prospective purchaser of a 1961 car to visit his Ford Motor Company dealer and learn all about the dealer's new 12,000-mile or one-full-year warranty.

Henry Ford II
President

TO MR. ANON
It isn't often that we print anonymous letters, but since this one refers to a recent editorial of ours we do that just now:
"Your editorial of September 8, which slaps at Senator Morton for displaying loyalty to President Eisenhower rather than to the people of Eastern Kentucky is not in order and, I believe, politically motivated. I think we now have the two best representatives in the Senate that Kentucky has had for many years. You jump to criticize Morton but may I ask how many times did our supposedly great Senator, Alben Barkley, put the Democratic party first before considering the people of Eastern Kentucky. I suspect that your biggest gripe against Morton is that he is a Republican."
"YES, I AM A REPUBLICAN."
(Two facts we would like for the writer to consider: (1) We were too kind in that editorial to Senator Cooper, a Republican, to suit some Democrats; (2) either Cooper or Morton is wrong about this matter of loyalty to the President rather than to the people of Eastern Kentucky. (Signed) NORMAN ALLEN.)

A THOUGHT FOR THE DAY: A standard of life is more important even than this high standard of living of which we are so proud.

SHORT, SAD STORY
Because my fishing partner has been sick I went 13 days—yes, I counted 'em—without wetting a line. I went fishing on the 13th day. I should have waited till the 14th.

THIS COULD BE SERIOUS
There has been considerable talk about the United States switching to the metric system of weights and measures. That bothered us not at all until the National Geographic Society pointed out what the change would do to some of our time-honored expressions. For instance:
A miss is as good as 1,693 meters.
I wouldn't touch that with a 3,049-meter pole.
All Texans wear 37,853-liter hats. God's little '4047 of a hectare. It's all wool and .9144 of a meter wide.
And, says the Society: "Your wife or girl friend isn't going to like it when you refer to her fascinating measurements as 92-61-92! She probably will hold fast to the old measurements and doubtless you couldn't budge her 2.54 centimeters."

This column recently referred to that ripsorter which hit Florida as Hurricane Edna. Pretty soon we were informed that Edna died last year, and that her 1960 successor was named Ethel. Who told us? A gal named Ethel, of course.

Kentucky's constitution limits the House and Senate to one doorkeeper each. This was written in 1891 when the House and Senate chambers had one door only. The chambers now have six doors each but five of them go unguarded.

Youngsters in and around Prestonsburg will be in for a special treat on Saturday when the gates of the Floyd county fair swing open for them until 5 p.m., at which time all of the rides on the midway will be offered to the school children at reduced prices.

Children's Days long have been a feature at the Floyd county fair. Many of the fair officials, family people themselves, insisted that one day during the fair be set aside for junior and his gang so that they might thoroughly enjoy themselves and have the time of their lives.

Special rides for the real small fry can be found in Kiddieland, also on the midway. Designed for the exclusive patronage of the tiny folk, these rides also will be reduced in price during Children's Day on Saturday.

The Floyd County Fair Association is going all out to make this year's Children's Day the greatest ever.

As an attraction for the youngsters, the fair board has again agreed to give away two beautiful bicycles, one for a girl and one for a boy during Saturday's matinee.

LEADERS YET WINNING, CATS LOSE TO JENKINS

Eastern Kentucky's three leading high school football teams continued their winning ways in an impressive manner, while Jenkins moved into the limelight with a 6-0 win over favored Prestonsburg.

Hazard, a full game in front of Pikeville and Fleming-Neon in the Mountain Conference race, posted Whitesburg 40-0 to remain unscathed on and undefeated.

Charlie Deaton's Pikeville Panthers bested Wheelwright, 33-18, for their fourth successive triumph in a trek toward an undefeated season, and the Paintsville Tigers added their fourth consecutive win in downing Mt. Sterling Dubois, 35-6.

Either Paintsville or Pikeville may fall from the unbeaten list when they clash in the Pike county seat, October 14.

M. C. Napier notched his second win of the campaign with a 32-20 conquest of Elkhorn City. Senior halfback Jerry Brewer scored four touchdowns for Ed Orick's Navajoes.

John Morgan's Jenkins Cavaliers fought a heavier Prestonsburg eleven to a scoreless halftime deadlock, then midway the third period, aggressive junior end Larry Pack plunked off a Black Cat pitchout and scampered 70 yards to paydirt in insuring the Letcher countians of their second victory of the season.

The Cavaliers threatened twice more in the final period, but penalties killed the marches short of the goal line. The Black Cats were unable to muster a prolonged drive.

Mike Minix, the state's leading scorer with 102 points, got able assistance from quarterback Mike Lyons, James Carroll and Johnny Porter in their fourth win. Line-men John Daniels, Bill Herald, Basil Mullins and Robert Jones turned in their most impressive performances of the season.

Minix raced for touchdowns of 1, 55 and 75 yards, and Lyons moved in twice, from 8 and 26 yards out, and Johnny Porter kicked 5-for-5 in the conversion department.

Senior halfback Darwin Turpin again stole the show in pacing the Hazard Bull Dogs over Whitesburg. The agile speedster chalked up three six-pointers to up his season's total to 67. Also in the scoring department were Donnie Bryant and Junior Davidson with a touchdown each, and Gerald Burklow converted on four of six extra point attempts.

Junior tackle Lloyd Caudill lived up to his all-state billing as he continuously ripped the Yellow Jacket line to shreds.

Wheelwright rallied for three touchdowns in the final half, but couldn't catch up with the Pikeville Panthers who won out 33-18.

Rampaging Panther halfback Bill Baird scored three touchdowns and passed for another and plunged for three extra points in raising his overall total to 53 points.

Ends Bobby Venters and John Hayes each caught a touchdown pass. Sonny Phillips, Larry Hobbs and David Keeton crossed the double markers for the Trojans.

Letter Writing Week Celebration Scheduled

The 23rd annual letter writing week will be celebrated during the week of October 2 to 3, postmasters of the county announce.

Postmasters note that there has been a revival of personal letter writing during the last few years. During letter writing week postmasters suggest that individuals write at least two letters—one to a friend or relative from whom you have not heard in a long time, and the second as a reply to a friend or relative who recently wrote to you.

PIKEVILLE HERE FRIDAY

The undefeated Pikeville Panthers will be making their final appearance under Coach Charlie Deaton Friday night at 8 p.m., when they play the Black Cats on the local gridiron.

Deaton, who coached at M. C. Napier before moving to Pikeville two seasons ago, will officially resign after the Prestonsburg game to enter the sporting goods business with John Bill Trivette in Pikeville.

Coach Ray Brackett will send his improving Wheelwright Trojans to Hazard for an engagement with Napier's Navajoes (2-3), Friday night in a conference tilt.

Pikeville's Panthers have rolled over Louisville, 25-6; Belfry, 7-6; Catlettsburg, 14-6, and Wheelwright, 33-18, in their four wins, which also ties them with Fleming at 2-0 in the Eastern Kentucky Mountain Conference race.

Prestonsburg, failing to live up to pre-season expectations, has won two and lost two, all against conference foes.

Both undefeated Paintsville and Pikeville have one thing in common and that is an end named Johnny Hayes. Paintsville's Hayes is a 6-4, 175-pound senior, and Pikeville's Hayes is a 6-2 junior weighing 165 pounds. Both are starters for their respective teams and have entered the scoring column at least twice.

The first scheduled games of the Prestonsburg Little League football program will be announced in next week's paper. Coaches for all four

teams have been secured and the finance committee is now in the process of buying uniforms for those youngsters whose parents are unable to afford them. Coaches of the respective teams are: Giants, Harry Burke, Jerry Hall, and Paul Eranham; Browns, Johnny Ellis, Adrian Blackburn, Edgille Branham; Colts, Dr. Herbert Salisbury, Clifford Wright, Freddy Cottrell; Cardinals, Harold Stumbo, Jack Hodge and one more to be named soon. All teams are working out in shorts now, and two games will be played on Monday nights at 6 and 8 p.m., at the local athletic field.

Only four Eastern Kentucky high school football teams have won more games than they have lost... Speculation is that Gene Davis, assistant coach at Pikeville College, will replace Charlie Deaton as Pikeville high school football coach. Deaton steps out with a 12-2 record, prior to Friday's Pikeville- (Continued on Page 5)

We're terribly disappointed. We went down to Memphis to win, not just to play a good game. We played tough, aggressive football, showing the gang tackling so sadly lacking the week before against Georgia Tech.

But it wasn't enough. Our own mistakes and a couple of ruinous penalties did us in—with great help from a very good Ole Miss team.

We were trying to get six to eight men in on every tackle, and we did

on a number of occasions. But aggressiveness exacts a toll in penalties. It's going to happen when you play rough, though of course it's well worth the price.

We paid the price late in the first quarter when we were charged with unnecessary roughness on a punt. Their salty had fumbled. I thought the boy charged with the foul was going for the loose ball—and I am even more sure after seeing the films. But the official saw it otherwise and Ole Miss had the ball on its 47 instead of its 32.

That gave them their first good opportunity to open up their attack. They did, going 53 yards to score. We had stopped them back of their 25 before and might well have done so again without the penalty.

But they had the position and made the most of it. Position of the ball is crucial. Seldom can a team sustain a drive of 80 yards to score, but given the ball around midfield, you're supposed to move it.

Around the 50 you are out of danger's territory and can open your offense, full throttle. Also you need only a first down or two to be in four-down position—and you don't have so far to go.

In trying to drive nearly the length of the field, your chances of making a killing mistake are great. That's a fumble, penalty, or pass interception. Tennessee's style

HERE! '61 CHEVY TRUCKS

WITH WORK-PROVED INDEPENDENT FRONT SUSPENSION!

WORTH MORE BECAUSE THEY WORK MORE!

Chevy's '61 fleet swings in with a ready-made reputation as the trucks that are worth more because they work more...the latest editions of the haulers that scrapped the I-beam axle and proved the important advantages of independent front suspension!

You'll find new models in the '61 fleet—lower priced, long-wheelbase 4-wheel drive trucks—and thoughtful refinements throughout the line. But the big news for '61 is nailed-down proof (based on actual owner reports) that Chevrolet's torsion-spring design is the best thing that's happened to trucks in decades!

With Chevy's independent front suspension and Sturdi-Bilt design, you cruise over trails where other trucks creep. You feel the difference in less wheel lift and vibration. You can see why drivers are happier, why loads are better protected and why the truck itself will stand up to thousands of miles of more work. That goes for any size Chevy, too—pickups, tilt cabs, tandems, all of them.

Check the latest specs with your Chevrolet dealer: capacity, power teams, options, the works. Then, by all means, drive a '61. Once around your Chevrolet dealer's block and you'll never be satisfied with a front axle truck again!

Whip this Fleetside over a rutted road and find out what torsion springs are all about!

WHERE
THE ENDS
OF THE
EARTH
MEET

We see only wires! But at this very moment a woman in San Francisco may be speaking to her husband in Tokyo . . . a boy at Princeton may be inviting a girl in Albuquerque to a football game . . . and Mrs. Green of R. D. No. 1 may be placing her order with Mr. Brown of the Crossroads Store.

Here — where sixty wires cling to the cross-arms of a weathered pole — the ends of the earth meet!

It's like that in our local churches on Communion Sunday. Whether fifty or five hundred receive the Holy Sacrament . . . the ends of the earth meet. For the Lord's Supper is not a rite of one church or one denomination. It is the common sacramental feast of millions of Christians all over the world.

Are you availing yourself of this blessed privilege, and are you attending your church regularly? As you receive this Sacrament in your church, your life is linked to the lives of Christians everywhere. And you and they are united in a common communion with God!

**THE CHURCH FOR ALL . . .
ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

RED AND GOLD FEATURES MOUNTAIN AREA IN FALL

From the rolling plains of western and central Kentucky to the lush Blue Grass and on to the Mountains of Eastern Kentucky, the panoramic fall colors of red and gold soon will unveil themselves before the highway traveler. Kentucky, with its varied scenic beauty and excellent state parks, is the perfect spot for that long-awaited fall vacation.

The state boasts five state parks which remain open the year 'round and offer the finest in lodging and recreational facilities. Four of the parks feature gracious southern dining rooms, where the true hospitality of Kentucky is displayed in their excellent cuisine.

Cumberland Falls State Park, near Corbin, features the magnificent falls of the cascading Cumberland River. The Falls, often called the "Niagara of the South," features one of the two "moonbows" in the world, which is visible below the falls on bright, moonlight nights. For the nature lover the park offers riding and hiking trails which wind their way through the splendor of the Cumberland Mountains.

Lake Cumberland State Park, near Jamestown, is situated on the shore of one of the top fishing mecca's in the nation. The massive 105-mile-long lake abounds in black bass, crappie, bream, walleye and trout. Numerous private docks, as well as the state dock, line the shores of the lake. Both boats and motors are available at the docks. The fall colors blushing, profusely high above the sheer palisades which border the lake shore, present an enchanting spectacle for the sportsman. Accommodations include lodge, cottages and dining room.

Jennie Wiley State Park, near Prestonsburg, is located in the heart of 12,000 acres of scenic forest land in Eastern Kentucky. The park is centered around the shores of Dewey Lake. The beautiful 860-acre lake abounds in both game and rough fish, with the wily black bass topping the menu. Complete boat dock and fishing facilities are available. Modern duplex housekeeping cottages offer the vacationer both comfort and convenience.

Kentucky Lake, in western Kentucky, which ranks among the five largest man-made lakes in the world, features two of the most mid-America—Kentucky Dam Villages and popular state parks in large at Gilbertsville and Kentucky Lake Park near Hardin. These parks have been designed to provide year 'round recreation and fun for the entire family.

This sportsman's paradise, long renowned for its excellent fishing, offers boating, tennis, children's playground and a beautiful 18-hole golf course at Kentucky Dam Village to the fall vacationer. An added incentive to put Kentucky Lake on your fall vacation agenda is the second annual Kentucky Lake Fishing Derby which opened September 1, and will continue through Nov. 15. The gala event offers \$5,000 in cash prizes to the lucky anglers who net the largest black bass, white bass, crappie, sauger, bluegill, catfish and carp. Top prize in the tourist class is the \$1,000 award for the largest black bass, large or smallmouth.

Quinton-Miller Vows Said at Ypsilanti

Announcement was made this week of the marriage of Miss Martha Quinton, of Ypsilanti, Mich., and Mr. Wilson Miller, son of Mr. and Mrs. Ted Miller, of Prestonsburg.

The double-ring ceremony was solemnized by the Rev. Dewey Fraley, of Ypsilanti, formerly of this county. The groom's brother, Jack Miller, served as best man. The bride was given in marriage by her uncle, and her sister, Miss Mary Quinton, was maid of honor.

Following the ceremony a reception was held at the bride's home. The table was covered with a lace cloth, centered by a three-tiered cake. Mr. and Mrs. Miller left, immediately after the reception, to spend their honeymoon in Kentucky. They will reside at 406 East Michigan Ave., Ypsilanti.

CONVENTION

I would take more than 25 years to bring Kentucky's constitution up to date by amendments, since no amendment may relate to more than one subject. That is the reason a limited constitutional convention is needed.

Floyd Singers Invited To Parts in 'Messiah'

Pikeville, Ky., Sept. 29 — Floyd county singers are invited to join the Pikeville group which is preparing a second concert of Christmas music from Handel's "Messiah."

The first rehearsal of this fall's project, held Sunday at Pikeville's First Presbyterian Church, drew some 40 church-choir members and other singers, it was reported. The concert will be conducted by last year's leader, William M. Hunter, First Presbyterian choir director, and rehearsals will be held at 2:30 p.m. each Sunday at the same place.

The program, under the auspices of the Pikeville Ministerial Association, will be given December 11, at an hour and a place to be selected.

Home Ec Girls Win Blue Ribbons

Three girls from Extension District 5, which includes Floyd county, were among those winning blue ribbons on the 4-H Club home economics demonstrations during the 1960 Kentucky State Fair. They are, left to right, Pamela Combs, 17, of Langley, who gave a cornmeal muffin demonstration; Ann Jacobs, 16, of Mason county, who is cutting the apple pie she made in her general demonstration; and Anne Bean, 16, of Maysville, who gave a demonstra-

tion on making sweet breads. All three girls had been chosen earlier as sub-district winners in their division of demonstrations, making them eligible to take part in state competition. Sub-district winners in 4-H demonstrations and public speaking from the other five Extension districts competed on other days during the fair; state champions were chosen from blue ribbon winners and announced on the last day of the fair.

AMENDMENTS LIMITED

Only Kentucky, Puerto Rico and two other states limit the number of amendments to the constitution that can be voted on at one election.

Tennessee held a limited constitutional convention in 1959. A limited constitutional convention for Kentucky will be voted on in November.

COLLIER'S CORNER

(Continued from Page One)

of play is predicated on this theory. They like to keep the other team deep and let errors help stop the drive.

Last Saturday night Ole Miss was able to drive a long way with the football only one time—and that was in the dying minutes when our best chances to win had slipped by. We couldn't drive from deep in our own territory, but they couldn't either.

The big difference in the ball game was their powerful line. They could move the ball on the ground and we couldn't. That let them kick us back deep and, more important, gave them much greater defensive strength to the outside.

They had two men on both our flankers, damaging our outside attack, both passing and running. We simply weren't strong enough to go up the middle and force them to pull their defense in.

In the face of this, two of our fine sophomores—quarterback Jerry Woolum and end Tom Hutchinson—led the drive to our touchdown and in another drive that barely missed going all the way.

Backed on our own 14-yard line, Hutchinson did a fine job of getting even and caught an 8-yard pass. Then he made a great catch for a 27-yard gain.

That put us in good position and we didn't let the opportunity go by. We felt we could pass under these conditions, and we did. In a tremendous drive, we went 86 yards to score.

But we were trying to throw the ball from the first, in good position or not. Pass calls were made three of the first four times we had the ball. Only on the first series did we stick to the ground. We called pass plays from our own 26, 24, and 23 yard lines.

Of the six times we had the ball in the first half, pass plays were called four times—and the farthest upfield we had it was the 28, with the exception of the last half minute.

A lot of people seem to think Ole Miss played conservative football when they punted three times inside our 35 yard line. But this isn't true. They used the kick as an offensive weapon, shoving us into a hole.

Mississippi has made offensive use of the punt for years, kicking on third down from deep in their own territory and on fourth down on the other side of the 50.

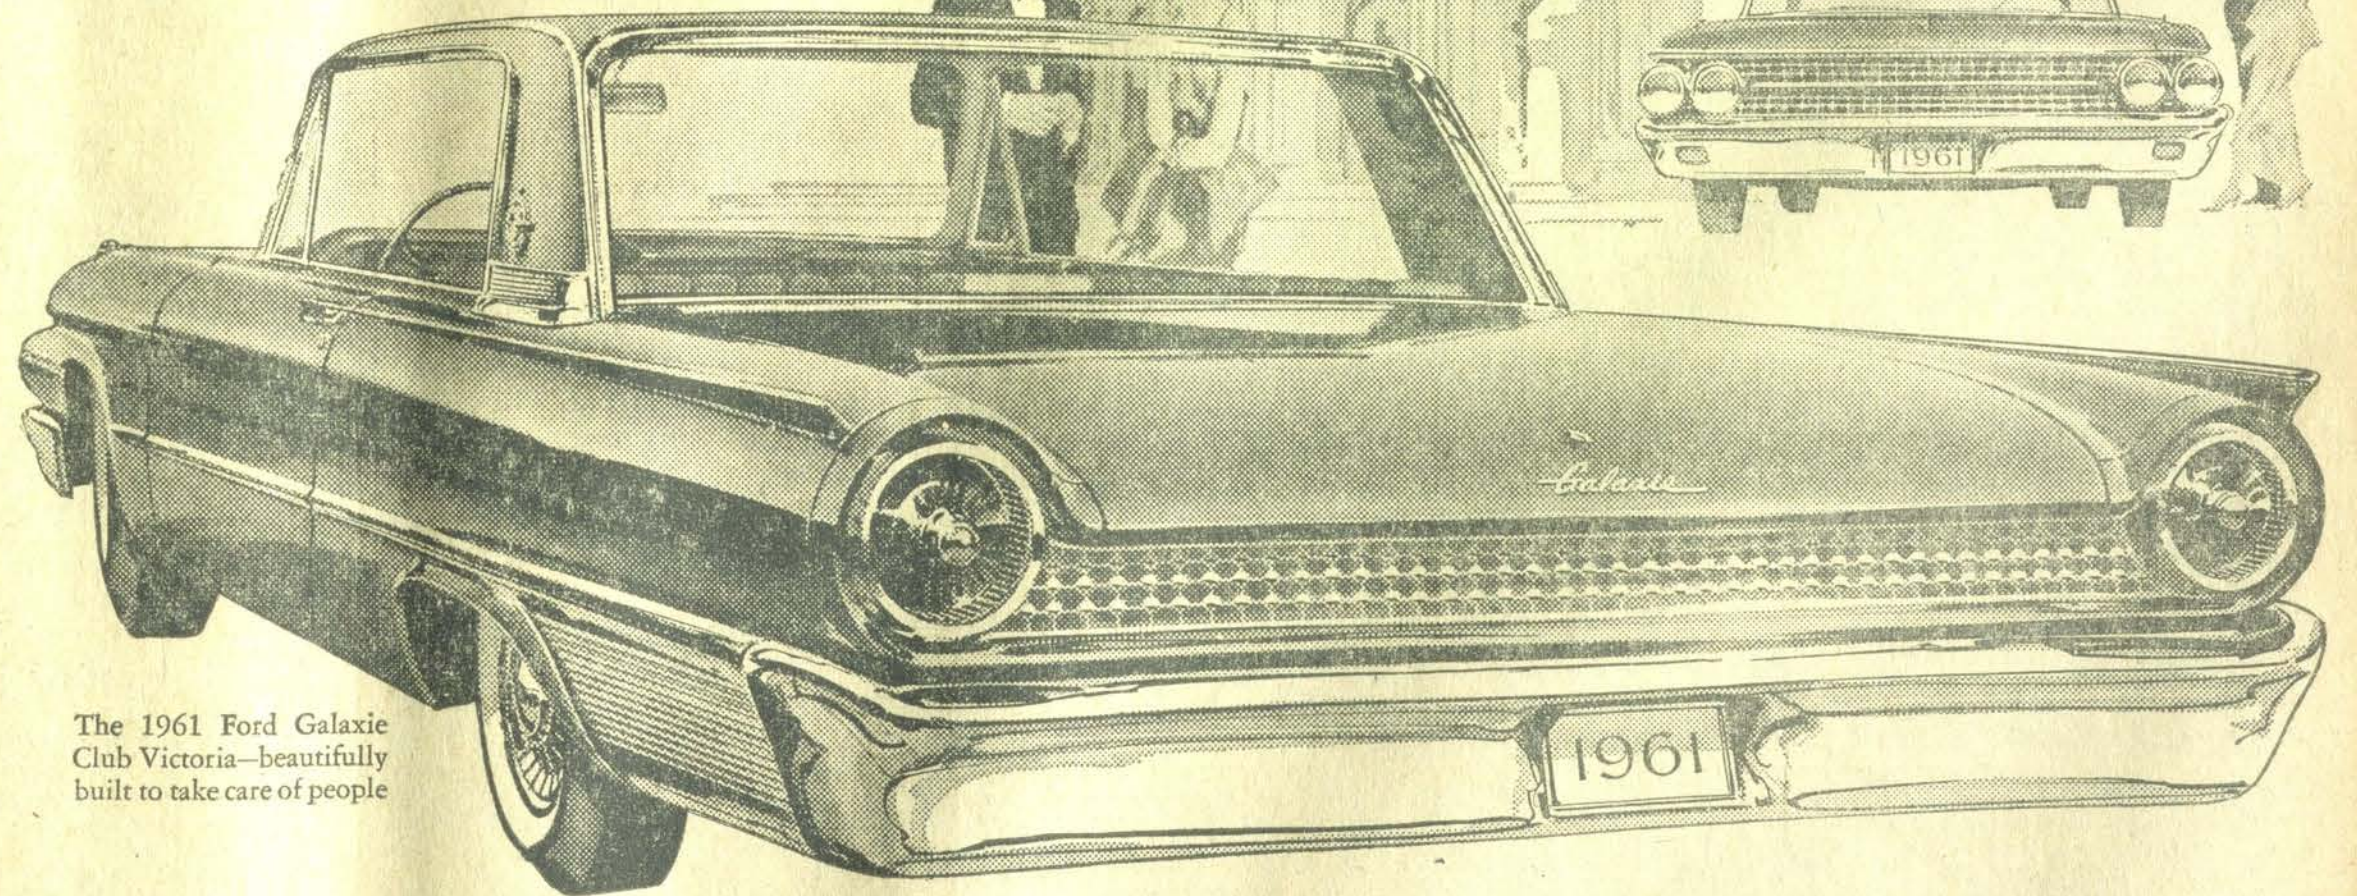

As for the decision to kill the clock near the end of the first half, I am still convinced it was the wise thing to do. We were behind only 7-0 and had the ball on our 44 with 33 seconds to play.

Their defensive gun was fully loaded for a pass. There was little chance for success. Also, Ole Miss had some defensive weaknesses that we wanted to exploit in the second half. I thought—and still think—that discretion was the better part of valor in this case, and that the thing to do was wait for our opportunities later.

All in all, I thought our boys played a pretty good game. I was proud of their eagerness and effort—although this led to trouble, even at the end of the game.

In their final touchdown, the films show, two of our boys had the runner contained short of the goal when another Kentuckian, anxious to help out, hit the ball carrier from behind and helped force him over the goal.

Announcing the 1961 Ford...
Beautifully proportioned to the
CLASSIC FORD LOOK

The 1961 Ford Galaxie Club Victoria—beautifully built to take care of people

BEAUTIFULLY BUILT TO TAKE CARE OF ITSELF

The 1961 Ford introduces a whole new concept of what a car can do for you... and for itself!

It lubricates itself. New nylon bearings and a newly developed lubricant keep the '61 Ford freshly greased for 30,000 miles. It cleans its own oil. The 1961 Ford's Full-Flow oil filter lets you go 4,000 miles between oil changes.

It adjusts its own brakes. A "mechanical brain" keeps brakes adjusted for the life of the lining.

Rust? Ford's body is specially processed to resist corrosion, even to galvanizing body panels beneath doors.

Ford takes care of itself on the turnpike, too, with a new 390-cu. in. Thunderbird Special V-8 that has all the punch you'll ever need. The 352 Thunderbird Special V-8 and 292 Thunderbird V-8 thrive on regular gas. And, for top economy, you can choose the '61 Mileage Maker Six.

This is the 1961 Ford... beautifully proportioned to the Classic Ford Look... beautifully built to take care of itself.

HERE'S HOW THE '61 FORD TAKES CARE OF ITSELF

LUBRICATES ITSELF. You'll normally go 30,000 miles without a chassis lubrication.

CLEANS ITS OWN OIL. You'll go 4,000 miles between oil changes with Ford's Full-Flow oil filter.

ADJUSTS ITS OWN BRAKES. New Truck Size brakes adjust themselves automatically.

GUARDS ITS OWN MUFFLER. Ford

mufflers are double-wrapped and aluminized—normally will last three times as long as ordinary mufflers.

PROTECTS ITS OWN BODY. All vital underbody parts are specially processed to resist rust and corrosion, even to galvanizing body panels beneath doors.

TAKES CARE OF ITS OWN FINISH. New Diamond Lustre Finish never needs wax.

SURPLUS COMMISSIONERS
When Kentucky's present constitution was revised in 1891, railroad commissioners were established to regulate the rails, but today the federal government performs this function. Thus three railroad commissioners drew \$12,000 yearly for doing virtually nothing. A limited constitutional convention would seek a solution to this waste of taxpayers' money.

At the June 2, 1959, board meeting (Order No. 3) where all certified teachers were recommended for employment for the year 1959-60, Howard and Hall voted "NO".

and AGAIN:

At the July 5, 1960, meeting of the board of education (Order No. 5) employment of all certified teachers for 1960-61 was moved. Voting against, were John G. Hall and Ray Howard.

They talked of "liberation" as if the teachers were in bondage, and when they voted, they sought to liquidate them by refusing employment. Perhaps by "Liberation" they mean Starvation.

It takes up to five years to get a legal matter decided by the Kentucky Court of Appeals. Justice delayed is justice denied, lawyers say. A limited constitutional convention would seek a solution to this problem.

Pikeville's Bill Baird is tabbed by many coaches and officials as the hardest running back in the area, and Paintsville's Mike Minix as the most elusive and the speediest . . . Wheelwright's scoring has been well divided this season as Sonny Phillips has tallied 43 points, fullback Perry Taylor 25, (although handicapped by a knee injury) Jess Little 20, and Larry Hobbs 18. TO THE TAXPAYERS, FATHERS, MOTHERS AND CHILDREN OF ED. DIVISION 3

I take this method of asking you to support me for member of the Board of Education of Floyd county. I am running for this office, because I am interested in your children having better schools, to relieve you of the great tax burden that you are having to bear at present and not to create more jobs for people that are unnecessary.

I will not play politics on the taxpayers' money. I have two children of my own to educate, and I realize that we must give them the best that is possible. I know that the future of our county, state and nation depends on our children. Now is the time to prepare them for this course. Bring them up in the way we should have them to go and when they get old they will not depart from it. Now is the time for parents to do something for their children. All of us owe them the best that can be had. We will be depending on them tomorrow. I know that the people of this county pay enough tax to provide the best Educational System and the children are entitled to same.

If I am elected your board member I will be striving and working to that end. I will not wait until an election year before I begin trying to do something for them. I will be found working for your children at all times, and not trying to play politics by creating jobs. If I am elected your board member I want you to feel free at any time to discuss any school problem you have with me. I want to assure you that if I am elected I will vote to curtail a lot of unnecessary jobs that you are having to pay for at present. If I am elected there will not be any pressure brought to bear on any teacher to vote a certain way or for a certain party. All teachers who are qualified will have a position where it will be in the best interest of the children. They will not be transferred on account of the way they vote. Every one has a right to vote the way they choose.

I hold no ill will against any of my opponents, they have a right to run if they so choose.

P.S. I saw in the paper where a dream was coming true in regard to the school building on Big Mud Creek. Seems to me that some one has been dreaming for several years. I doubt very seriously if this would have been in the paper if it had not been an election year. If I am elected your board member I will not be dreaming, I will be working for the interest of you and your children.

If you are interested in your children then vote for me.

Yours for a better school system,

EMMITT CONN

PRINCESS COALS' INVESTMENT IN EDUCATION PAYS

OLD AND NEW SCHOLARSHIP STUDENTS GET TOGETHER. Front row, from left, Donald Wills, Deanna Garrett, Karl Jean Bays, Linda Preston Scott, Judith Bussey, Judith Dixon, Bobby Camicia. Second row, Troy Burchett, Charles Mills, Raymond Wells, Tommy Cole, Roger Blair, Rodney Bussey.

Princess Coals' fifteen-year investment in higher education for its employees' children is returning big dividends to the local community. Clyde H. Storey, Scholarship chairman, declared at the recent annual scholarship dinner held at David. Prime examples of such dividends were:

Donald Capelli, who is employed in the Princess Elkhorn Division's industrial engineering department after receiving his B.S. degree in mining engineering at the University of Kentucky.

Tobey Bussey, who received a B. S. degree in Education from Pikeville College and plans to teach at Paintsville high school this fall.

John Cook, who has accepted a position as assistant to the manager of the Lexington Medical Clinic in Lexington, after graduation from Berea College with a B.S. degree in Commerce.

Joe M. Butcher, who went on to earn his Master's degree from the University of Tennessee after graduation from Pikeville College, and who has now returned to Pikeville College as athletic director.

These, it was pointed out, are but a few of the outstanding students who have taken advantage of the company's educational assistance program and who are now returning to contribute their abilities to their local community.

Honored guests at the scholarship dinner were this year's scholarship recipients along with their families. Included were:

Miss Karl Jean Bays, daughter of Mr. and Mrs. Sammie Bays, Jr., of East Point; four-year scholarship to study teaching at Pikeville College.

Miss Judith Sharon Bussey, daughter of Mr. and Mrs. Dawson Bussey, of Prestonsburg; four-year scholarship to study nursing at Berea College.

Robert Myers Camicia, son of Mr. and Mrs. James E. Camicia, of Prestonsburg; four-year scholarship to study engineering at the University of Dayton.

Tommy Lee Cole, son of Mr. and Mrs. Thomas Cole, of David; four-year scholarship to study engineering at the University of Kentucky.

John Robert McIntosh, son of Mr. and Mrs. Dave McIntosh, of Weeksbury; open scholarship (not restricted to company employees) for four years to study engineering at the University of Kentucky.

All award winners are sons and daughters of employees of the Princess Elkhorn Division of Princess Coals, Inc., with the exception of John Robert McIntosh who was the winner of the open scholarship award not restricted to company employees. The male restricted scholarship recipients will receive supplementary benefits in the form of on-the-job training through summer employment.

This brings to 71 the number of grants made to outstanding graduating seniors in Floyd and Johnson county high schools since the inauguration of the company's scholarship program 15 years ago.

Parents of students who attended were: Mrs. Virgil Blair, Mr. and Mrs. Harry Burchett, Mr. and Mrs. James R. Camicia, Mrs. Tom Cole, Mrs. Carl Dixon, Mrs. Amron Garrett, Mr. and Mrs. Luther Mills, Mr. and Mrs. E. Jay Preston, Mr. and Mrs. Ernest Wells, Mrs. Clayton Wills.

Speakers at the dinner included David L. Francis, president of Princess Coals, Inc.; William Crawford, vice-president, Courtland Dahlin and Raymond Bradbury, officials of the Princess Elkhorn Division of Princess Coals.

Others present were Mrs. C. T. T. Dahlin, Mrs. R. A. Bradbury, Mrs. C. H. Storey, and Mrs. Ora Howard, hostess.
