This Town-- That World

When the man said, "Hitch your wagon to a star," Junior, he didn't necessarily mean the one farthest away and most unattainable. Besides, that sports model you're driving doesn't have a trailer-hitch.

MULTI-PURPOSE GIFT

Bill Crawford was over from Mallory, W. Va. this week, and he gave me a Fish-Knife. One blade will serve as a fish-scaler, hook disgorger and bottle opener. And if a-body doesn't catch any fish, he can use the other blade for throat-sitting purposes.

DAYS TO REMEMBER

Lou Fountain, who lives in the Sang Factory section, across the river from here, says the 18th of the month, any month, is a day he's beginning to dread. Says he suffered a broken leg on Feb. 18, got himself bitten by a dog on May 18 and wound up on June 18 by getting nipped by a copperhead. And he told me of all this on Friday the 13th.

A CONTRIBUTION

In response to my statement in this column last week to the effect that I had lost my Ladies' Birthday Almanac, a friend at Martin who does considerable fishing, too, ups and sends me a copy of The Bank Almanac. His salutation, "dere edditur," is reminiscent of my old friend Joe who, once upon a time, contributed his atrocities in spelling and English to this column.

Which reminds me of a recent communication from Joe who wrote to inquire if I had "heard" of the big Fallin' Out, over his way. Let me quote a few excerpts from this "communy Q" of his: "mr. edditur, hit is turrible what a roomer can do. The word got out that wee had better sta indores for a spell, cause there wuz goin a bee a big fallin out aroun hear. And that did hit. I wanted to go see the trouble and Serry sed no, yo lose yore hed when yu git med, yu stay home. I insisted an she lost her hed and hit me. bein a man of courage I riz to my feat an she hit me agin, and shore enuff I lost my hed, and tole her sum day she wood push me too fur. Thin the fur fu, Mostly mine.

Hit wuz the same storie all over the communitie. Cupples fell out and fit fer all the wuz wuth till doc jones run out yu bandages. But this feller jones is a smart man and he saved the day an my skep. To i eess, he axed me what all the fiffin wuz a bout and i tole him hit wuz bec cause us men wanted to go and watch the fallin out, what fallin out, whos fallin out he wanted to no, sumbody tole him tha heard the sumbody had red a bout hit in the papper.

Doc turned sow perle i thot maby a snak had bit him. "i sware, sed doc, i aim to leve this place, efn i dont its the nut house fer me. Fallin out--tha ain't no sech thing, wy a man uv even yore intellience offer know what the papper wuz talkin a bout wuz fall-out, and i hope ever won uv yu git a snute full uv hit."

mr. edditur, i jest want to ax yu won questhun, shood i be mad at doc an lose my hed and have a fallin out with him?

SEWER CONSTRUCTION BID SCHEDULE IS SET

CITY TO OPEN BIDS ON WORK HERE AUG. 8th

Projects Completion Asked for End of '63; Wage Ruling Is Made

Bids on Prestonsburg's huge undertaking to provide the community with sanitary sewers and a sewage disposal system will be received until August 8 and opened at the Municipal building at 10 a.m. that day.

Contracts, if awarded, will provide that work shall begin by October 1 and be completed not later than December 31, 1963.

The city advertised for bids this week. Contractors are being asked to submit bids on two projects, titled Contract IV and Contract V. The first will cover approximately 54,000 feet of sanitary sewers ranging from six through 24 inches in diameter, and about 9,250 feet of force mains, six through 10 inches in diameter. Contract V will cover a primary sewage treatment plant for a population of 6,100 and four small sewage pumping stations.

Unlike school buildings and other public construction projects in the county, this work will not be effected contrary to a statement in last week's Times by the prevailing wage scale determination to be made after last week's hearing. It was ruled at the hearing held here that the wage scale previously set for the project would prevail.

Overall cost of the work here has been estimated at \$880,000 which is being financed mainly by federal loan.

A public-facility loan of \$885,000 to Paintsville for sewerage improvements has been approved, the Public Facilities Administration announced Monday.

Total cost of the project is estimated at \$1,073,400, of which \$188,400 will be provided by a grant under the federal water pollution-control program and the balance by the loan.

The Urban Renewal Administration said Monday that \$31,000 is being made available for Hazard. (See Story No. 2, Page 8)

FLOYD FAIR SCHEDULED

Fair Board Chairman Says Annual Exhibition Slated September 3-8

The Floyd County Fair, an annual event for several years here, will be held September 3 through September 8. It was said this week by James Adams, chairman of the fair board.

Plans for the agricultural exhibition have been altered, Adams noted. The fair will have features of the old-fashioned street fair. This major change in the board plans was made necessary because of the inadequacy of the grounds in which the fair was held last year.

To continue fair planning, Adams said that a meeting of the board was held last week at the Regional Library.

SPAN MISHAP DISRUPTS PLAN

Of Pupil Transportation; Work Order Anticipated By Mattingly Bridge Firm

The tragic collapse of one bridge and the weakened condition of another in the Prestonsburg vicinity will compound the problems of school officials with the Aug. 20 opening of schools here.

State aid will be forthcoming for the reconstruction of the bridge at Knotley Hollow which collapsed, July 16, killing a man and two women. But the span crossing the Goble-Roberts Addition with U. S. 23 is not expected to be completed and ready for traffic by the school opening date.

At the same time, a work order from the Department of Highways to the Mattingly Bridge Company, low bidder on the bridge connecting the Town Branch-Bull Creek area with Prestonsburg, is expected soon, and that will mean that as repair work on that bridge is done it will be closed to traffic.

Then what to do about pupils residing in the Goble-Roberts Addition, which used the Knotley Hollow bridge to reach the school bus on U. S. 23, and those who reside on Town Branch and Bull Creek?

County Superintendent Charles Clark said Tuesday he cannot at this time definitely outline the course of action to be taken. But, he added, the situation will be met.

If pupils are to be transported to the Prestonsburg schools, vehicles hauling them will be required to go via Dwayne and Allen and then back to Prestonsburg.

Temporary classrooms could, with State Department of Education permission, be established in the Goble-Roberts Addition and on Town Branch and teachers assigned to teach grade pupils there. But that will not solve the needs of high school pupils from the two communities.

Lawrence Mattingly, of the Mattingly Bridge Co., said Tuesday that his firm will begin work on the bridge connecting Town Branch with Prestonsburg within 10 days after receipt of a work order. The bridge will be completely closed with the beginning of work, and the job will require about eight weeks for completion.

WAGE DETERMINATION THROWS PLANS AWRY

The Floyd County Board of Education was ready last week to advertise for bids on two school construction projects—in fact, had sent copies of the advertisements to the printer—when the matter of a prevailing wage scale determination interposed and postponed both jobs possibly 45 days.

Buildings on which bids were to be asked were the Middle Creek elementary and the Garth vocational schools.

Advertising for bids was called off temporarily when the Kentucky Department of Labor notified George Lee Shannon, architect, that such action could not be taken until the wage scale hearing was

held, determination made and the 30-day period for appeal is past. The Floyd hearing was held last Wednesday.

Owen L. Kerth, commissioner of the state Labor Department, announced last week that wage scale hearings must be held in every county of the state where new construction involving state funds is to be done. These hearings are necessary, it was said, under provisions of a new state law.

County Superintendent Charles Clark said this week that he and the Board of Education are anxious to get ahead with the proposed buildings and that bids will be asked as quickly as Department of Labor regulations will permit.

Revered Stanville Minister Heart Attack Victim, Sunday; Was Free Will Church Leader

Rev. Pem L. Hunt, 72, of Stanville, was claimed by a heart attack in the garden near his home, Sunday at 6 a.m. He was stricken while returning from the barn where he had milked. His wife, becoming alarmed when he did not return as expected, went to investigate. She found him lying on his face in the garden path.

Rev. Hunt, a minister of the Free Will Baptist Church for 35 years, served as pastor of the Mare Creek church for 19 years but resigned three years ago due to ill health. He was a former miner but had been engaged in farming since his retirement.

He was a son of the late Alex Hunt and Artie Stratton Hunt and was twice married. His first wife, Laura Caldwell Hunt, preceded him in death 29 years ago. To this union were born the following sons and daughters: Rev. Virgil Hunt, Lyburn, West Virginia, Oliver Hunt and Isaac Hunt, both of Earling, West Virginia, Moses Hunt and

Mrs. Susan Boyd, both of Peach Creek, West Virginia, Mrs. Verda Blackburn, of Inez, Mrs. Carrie Adkins, Bruno, West Virginia, and Mrs. Loraine Faine, Rita, West Virginia.

Following the death of his first wife he married Jenny Woods Hunt, who survives. To this union was born a son, James Loyal Hunt, also of Earling. He had no surviving brothers or sisters.

Services were conducted at the home on Mare Creek, Monday evening, with ministers of the Free Will Baptist Church in charge. Final rites were conducted at the Mare Creek schoolhouse at 10 a.m. Tuesday, the Revs. Isaac Stratton, Virgil Hunt and Abe Vanderpool officiating. Burial was made in the Hunt family cemetery on Mare Creek under the direction of Hall Brothers Funeral Home.

Hereford Urges Exhibit Of Antiques, Pictures Of Civil War Period

The Floyd County Civil War Centennial Observance committee is planning an exhibition of antiques and pictures in the windows of Prestonsburg stores during the week preceding the presentation of The Proud Heritage here August 19.

David Hereford, Floyd county chairman of the committee, who succeeded Robert S. Wellman as the group head, announced this week that several stores had already indicated approval of the idea. Anyone having antiques, pictures or any other relics of the period during or following the Civil War, are asked to contact Hereford.

"There were some outstanding exhibits in the windows of Prestonsburg stores during the Floyd County Sesquicentennial Celebration in 1950," Hereford said, "and we can repeat those exhibits. The exhibits would lend color and interest in this, the second annual observance of the war."

A meeting of the Floyd County Historical Society at the Regional Library Tuesday evening heard Hereford advance the suggestion. The historical group, which is sponsoring the historical drama at The Garfield Place, endorsed the plan.

CONCRETE SURFACING OF FLOYD ROADS SET

CONSTRUCTION BIDS SOUGHT ON TWO JOBS

Turnpike Extension Work In Two Counties Given; Bridge Here On Schedule

Bituminous concrete surfacing for two important Floyd roads is planned by the Kentucky Department of Highways, it was announced this week by Commissioner of Highways Henry Ward.

Contractors' bids are sought on the two projects—7.85 miles of the Dinwood-Manton road connecting with the David road via Caney Fork of Middle Creek and three miles of the Cow Creek-Buffalo road, beginning near the foot of the mountain at the head of Cow Creek and extending to the bridge crossing Deway Lake at German.

Bids on the two jobs will be opened August 10.

A bituminous surfacing project on the Weeksbury Hollow road was awarded by the Highway Department on July 18.

The project will begin at the end of the blacktop at Weeksbury and extend one mile to the southeast. Adams Construction Corp., Pikeville, submitted the low bid of \$17,875.25.

This highway improvement is being financed through the state's rural secondary program, which is operated with two cents of the gasoline tax.

Two grade, drain and bituminous concrete surfacing projects on the Eastern Kentucky Turnpike extension in Magoffin and Morgan counties were awarded by the Highway Department on July 19. The projects will include 7.805 miles of the turnpike between Agle and Kermi.

Breer Brothers and Young, Inc., London, Kentucky, received both contracts for a total of \$3,814,409.

This highway improvement is being financed with proceeds from a \$29 million bond issue.

With the letting of these two projects, construction contracts had been awarded on all sections of the turnpike, 19 months after the Winchester ground-breaking ceremonies were held. Commissioner Ward said all segments of the 76-mile road from Winchester to Salsersville soon will be under construction. The first 42-mile stretch from Winchester to Campton will be opened this year.

Work on the Prestonsburg extension of the turnpike from Prestonsburg up Middle Creek a distance of approximately three miles is well on schedule. Bids will be asked on the sector from the end of that contract to the Magoffin line when rights-of-way have been acquired.

Construction of the four-lane bridge across the Big Sandy here as a part of that extension is well ahead of schedule. It was said Tuesday by Lawrence Mattingly, of the Mattingly Bridge Company. (See Story No. 1, Page 8)

JAIL ESCAPEE IS RETURNED

Chaney Is Recaptured In Knott County; Two Booked for Entering

Corbett Chaney, who fled the Floyd county jail and later escaped from the Knott jail while he was being held for his return to this county, was finally back in his cell here this week.

He was recaptured in Knott county and held there till Sunday when Floyd Jailor Lawrence Hale claimed him. Originally charged with grand larceny, Chaney escaped jail here, April 9, with Darryl Stratton, Noah Adkins and Kermit Castle. He was the last of the four to be captured.

Darby Ray Barnett and William Arthur Gregory were jailed Saturday by State Detective Chester D. Potter, who booked them on a breaking and entering charge. Others jailed and charges on which they were booked:

Willie Biley, driving on wrong side of highway, arrested by State Trooper Molly; Shellie Adams, possessing a concealed deadly weapon, committed to Eastern State hospital; Merd Stone, operating a motor vehicle while under the influence of alcohol, booked by State Trooper Combs; Fred Ramsey, driving while under the influence of alcohol, booked by State Trooper Allen and Deputy Sheriff Joe W. Lewis; Billie R. Brumley, a.o.u., booked by military police.

Hazard Inspection Offered To Invalids By Fire Department

The Prestonsburg Fire Department has a free service to offer, Fire Chief Henry Gray said this week.

This is the marking of homes where invalids reside, also inspection of such homes for fire hazards upon request.

Gray said the Fire Department has purchased attractive metal plates bearing an "I" in red, and that a home marked by one of these would indicate to firemen that a person lived there who could not escape fire without help.

Either the marker or fire hazard inspection, or both, may be had without cost by calling the Fire Department, Gray said.

These Deserve Our Support

Floyd county, out of native pride, lays claim to many assets—the beauty of its hills, its natural resources, its lake and the hope that springs eternal within it of better days ahead.

But too many of us overlook an organization which typifies the finest in us. Service, devotion to duty, concern for others, unselfishness—all these mark the spirit and motivate the action of the Floyd County Emergency & Rescue Squad.

BALDRIDGE FAMILY

A letter from Isaac W. Gabbard, Ricetown, Cowsley county, Kentucky, to Mr. and Mrs. Carl N. Woods, of Richmond, Kentucky, is referred to in this column.

"I am a descendant of Samuel Isaacs, Sr. and Nancy Baldrige, who came to this county from Floyd county, Kentucky, about 1800 or a little later. Isaac H. Gabbard married their daughter, Jane Agnes Isaacs, May 20, 1827. Nancy Baldrige was born in North Carolina in 1773.

"The 1860 Census of this county gives her age as 87. She was blind in her later years. She has a tremendous number of descendants. "I am a descendant of Samuel Woods, Sr., through his son, Samuel, Jr., who married Rebecca Wilson on the head of Red Bird Creek in 1813. Samuel Woods, Sr., was a veteran of the Revolutionary War and is buried here on Indian Creek in the Gabbard cemetery. Samuel, Jr., is buried on the lower end of Cow Creek near the mouth. All of the Woods who settled in Clay county are my relatives.

"I have been searching for information on the Isaacs and the Baldrige families. Any information would be appreciated." Persons with knowledge of either of these families should write Mr. Gabbard. An interesting exchange of information could result.

PRINTER POSTOFFICE Printer postoffice, on Left Beaver Creek, this county, was named for John Printer Meade, who lived on Spurlock Creek, this county, was made, in response to an inquiry. Book Award To Feature Special Sermon, Sunday, Scheduled by Rev. Dicks

"What are the saddest words ever spoken by Jesus?"

If you can answer this question correctly you will receive a beautiful Bible picture story book at the Arnold Avenue Church of Christ, Sunday morning, July 29, when Rev. Harold C. Dicks will deliver a special sermon on the subject, "The Saddest Words Ever Spoken by Jesus."

According to the minister these words are recorded in one of the four Gospels. The Church of Christ is sponsoring a Bible reading campaign throughout the whole year. Each member of the church is asked to read one book of the Bible each month.

Answers are not to be telephoned to the pastor but they must be brought to the church Sunday morning, July 29. If more than one turns in the correct answer the Bible in Pictures will be given to the one who turns it in first.

Burchett-Blackerby Vows Said

The marriage of Miss Elizabeth Ann Burchett, of Lexington, daughter of Mr. and Mrs. Forrest Burchett, of Prestonsburg, to Dr. Jeffries Lee Blackerby, also of Lexington, son of Dr. and Mrs. James Blackerby, of Stanford, was solemnized at 7:30 o'clock, p.m., June 30, in Calvary Baptist Church, Lexington, and Dr. George Bellamy, of West Liberty.

A reception was held at the Alpha Delta Pi sorority house, 476 Rose Street. Assisting were Mrs. James N. Blackerby, Mrs. David Henry and Misses Linda Blackerby, Margaret Campbell, Elisabeth Kirtley and Shirley Whittaker.

The couple left for a wedding trip to the Smoky Mountains. They will live at 728 Berry Lane, Lexington.

The bride wore a floor-length gown of white peau de soie fashioned with a fitted strapless bodice and overjacket of Alencon lace with a Renaissance neck-line and elbow-length sleeves. The bouffant skirt folded back into deep pleats and terminated in a chapel train. Her bouffant finger-tip veil of French illusion was held by a Swedish crown of seed pearls. She carried a bouquet of white orchids and stephanotis.

The bride's honor attendant was Mrs. Samuel W. Lykins, of Lexington. Her street-length dress of sea-foam green brocade was designed with a fitted bodice, cap sleeves and sabrina neckline. Her dome-shaped skirt had deep box pleats and a flat box bow in back. She wore a matching satin bandeau and carried a bouquet of babies-breath and carnations matching her ensemble.

Kathy Ann Burchett, cousin of the bride, was the flower girl, and Jimmy Blackerby, nephew of the bridegroom, was the ring bearer.

Serving as best man was Dr. James Nicholas Blackerby, of Ft. Lee, Va. Ushers were Dr. Lykins, Eugene Hoge and Dr. Raymond Rose, Jr., all of Lexington.

The Marines have fought in every war the United States have waged since the Revolution.

The bridegroom is a graduate of the University of Louisville School of Medicine and was a member of Phi Chi fraternity. He served his internship and residency at St. Louis Children's Hospital and in Louisville. He now is practicing pediatrics in Lexington.

Miss Olmstead, Mr. Goebel Wed

Trinity Episcopal Church, Coshocton, O., was the scene at 7:30 p.m. Saturday, July 21, of the wedding of Miss Margaret Jane Olmstead, daughter of Mr. and Mrs. Charles Wallace Olmstead, of Kensington Rd., Coshocton, O., and Mr. Ronald Gene Goebel, son of Mr. and Mrs. William O. Goebel, Sr., of Prestonsburg.

The nuptial vows were solemnized by the Rev. Ralf C. Darling, pastor of the church. A program of traditional wedding music was rendered by Mr. Walter Crawford. Given in marriage by her father, the bride wore a gown of re-embroidered Alencon lace and imported silk organza, with chapel-length train, designed in redingote effect with Alencon lace applique motif around the full, flowing skirt, basque bodice, bateau neckline and the traditional long sleeves. Her bouffant veil of illusion was topped by a beaded crown of seed pearls, and she carried a bouquet of Shasta daisies and stephanotis.

The matron of honor, Mrs. P. D. Jackson, Jr., sister of the bride, and Miss Lynne Girdler, bridesmaid, wore identical gowns of white embroidered organza, with an all-over tulip design over lake-blue taffeta and designed with scoop neck-

line and bell-dome skirts. They carried bouquets of blue and white daisies.

Mr. William O. Goebel, Jr., of Prestonsburg, served his brother as best man. Ushers were Bob Schrier, Harry Burke and James Guley.

The bride's mother wore a dress of powder-blue re-embroidered Alencon lace, with fitted waist, cap sleeves and a full silk chiffon skirt and matching accessories. Mrs. Goebel, mother of the groom, was dressed in aquamarine chiffon, with full skirt, and fitted waist with beaded trim and matching accessories.

The bride was graduated from Coshocton high school and the University of Kentucky and is presently employed by the Jefferson county school system, Louisville. Mr. Goebel, a graduate of Prestonsburg high school and the University of Kentucky, will be a junior this year at the Medical School of the University of Louisville.

Immediately following the ceremony, a reception was held at the Coshocton Town and Country Club. Mr. and Mrs. Goebel are spending a 10-day honeymoon at Sea Island, Ga., and after August 1 will be home at 1248 Cherokee Rd., Louisville.

We are authorized to announce

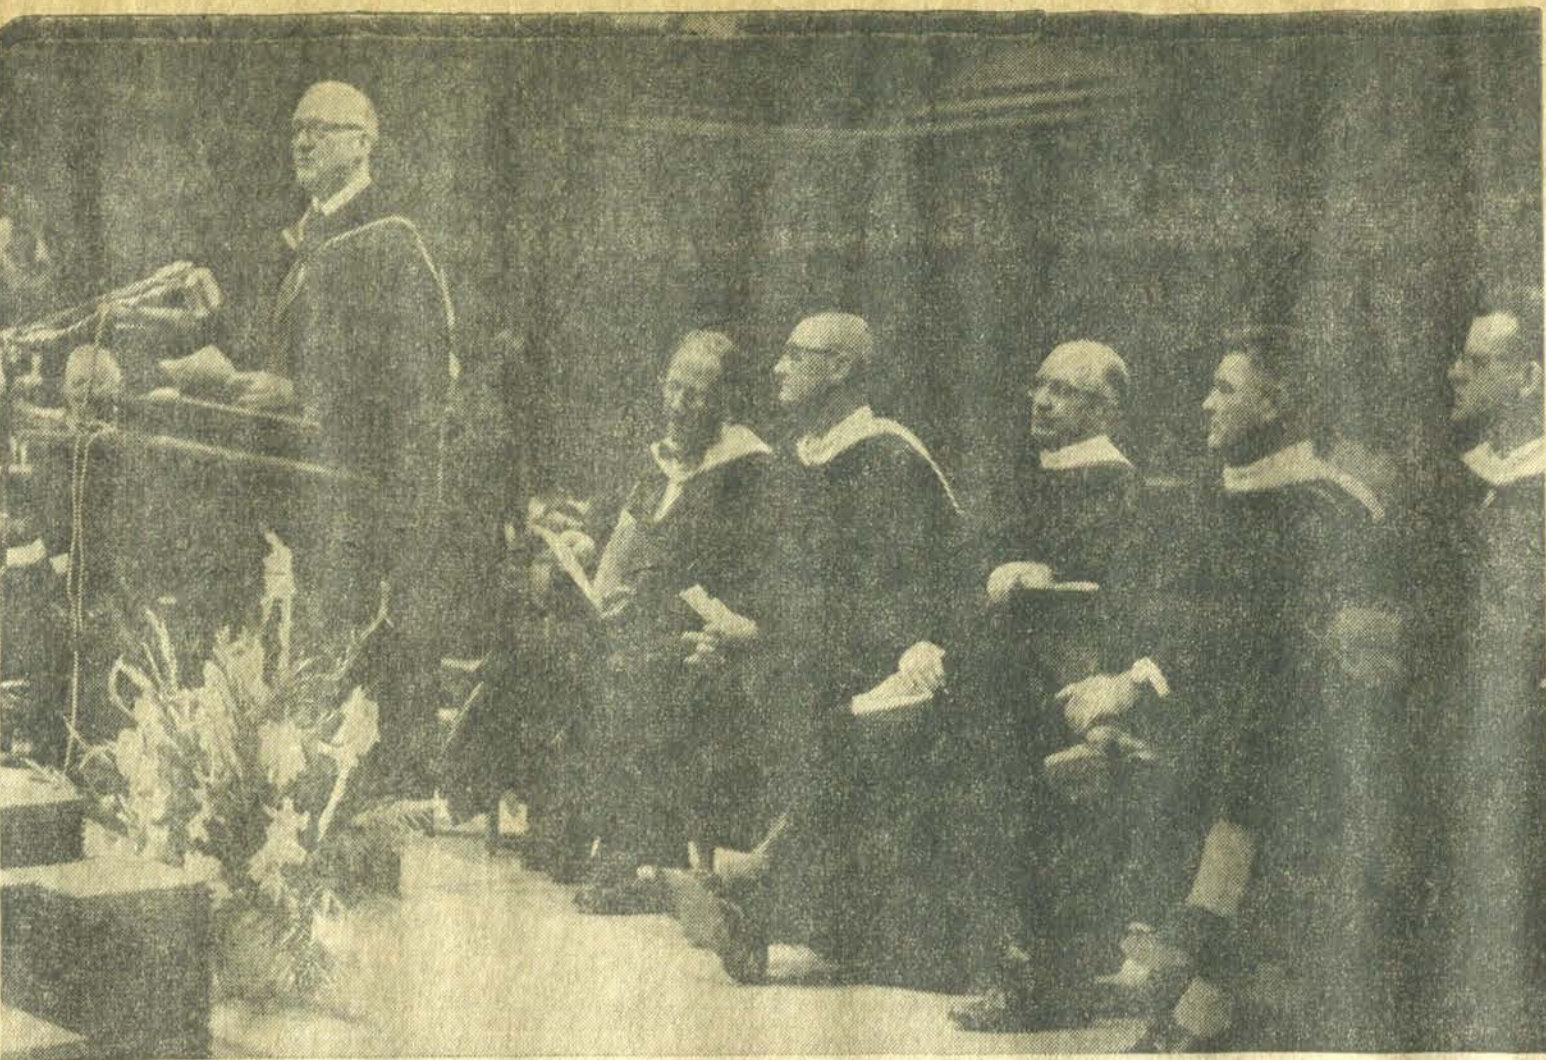

BILL WELLS

of West Prestonsburg, as a candidate for

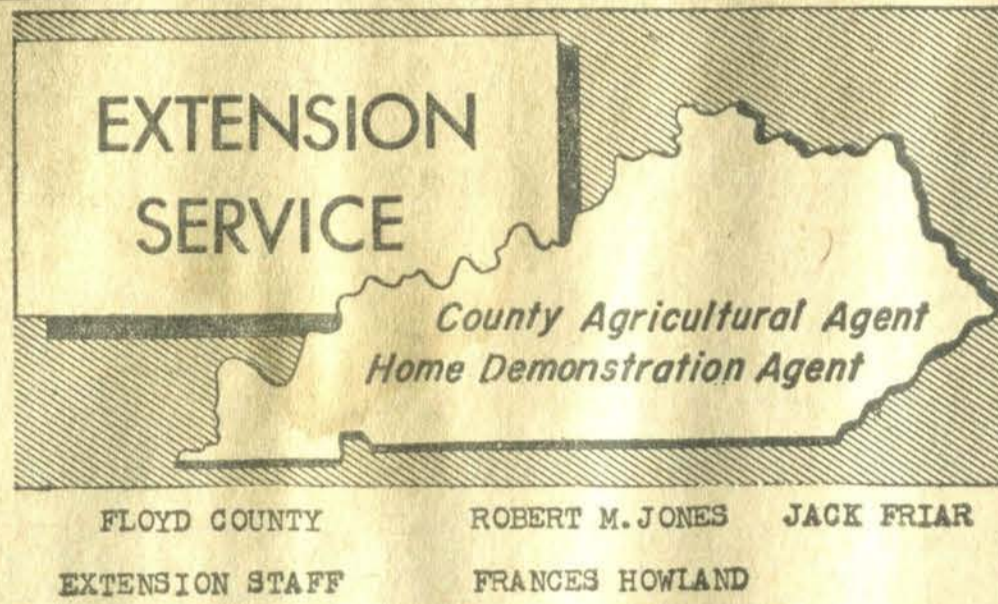

District No. 1

FLOYD COUNTY BOARD OF EDUCATION

at the November, 1962, election.

AT MOREHEAD COMMENCEMENT—B. F. Reed, Drift (third from right) participated in the Morehead State College commencement exercises as a member of the Board of Regents. Senator John Sherman Cooper was the speaker. Shown here are: Senator Cooper, Morehead President Adron Doran, Bruce Walters, Pikeville, Mr. Reed, Charles Gilley, Winchester, and Dr. Palmer Hall, director of Graduate Studies at Morehead, who is a former superintendent of Floyd county schools.

Melanie Ann Conley, Maytown 4-H Club members, has been selected as a delegate to represent Kentucky at the Leadership Training Camp at Camp Minnoway, Stony Lake, Michigan, July 30 to August 5.

"The camp is sponsored by the American Youth Foundation and is recognized as one of the most outstanding youth leadership training camps in America," a club leader says.

"The camp is a non-denominational leadership training camp in which the christian principals of living, to the limit of capacity, physically, mentally, socially and spiritually are stressed," it was added.

Miss Conley was selected as a delegate on the basis of her outstanding 4-H Club record. She has been a member of the Maytown 4-H Club for eight years and her achievements include: Floyd county project champion in 15 projects and district project eight times; state recreation champion in 1961 and attended national 4-H congress in Chicago; participated in five county style shows and represented Poly county in the 1961 state style revue; Floyd county speech champion from 1958 to 1961; awarded the Junior Star Camper Award, bronze and silver camping medal and Citizenship Award at camp, twice selected by the camp staff to return as a junior leader for the junior camp; Floyd county 1960 winner of the Danforth Foundation Award for leadership.

She is the daughter of Mr. and Mrs. Hollie Conley, of Eastern, and will be a sophomore at Berea College this fall.

July is traditionally picnic month and nothing else but the delicate flavor of chicken satisfies the need. It can be prepared in numerous ways and for many occasions.

Ever try enhancing chicken with herbs and spices? They can lend special treats to the taste buds. Below are listed some suggested uses for changing the flavor of the chicken you serve this summer—herbs or spices may be mixed with the flour breading for fried chicken or they can go into the pot or pan for stewed and baked chicken.

1. To make fried chicken, you have a choice of several liquids to use as a dip for the coating. Milk, buttermilk, are excellent. Or you can just use water, rinsing the bird and patting it lightly with paper towels before dredging in crumbs or flour.

2. Try dipping the chicken in orange juice and adding grated orange rind to the flour before frying.

3. For the coating, you may use flour, packaged fine dry bread crumbs, or any cereal, crushed, that doesn't have sugar added.

4. Homemade bread crumbs provide a very good crisp coating. Use bread one day old. Grate the bread and spread the crumbs on a shallow pan overnight to dry before using.

5. Oven-baked chicken coated with corn flake crumbs is also delicious. Dip the pieces in evaporated milk, then in seasoned crumbs. Arrange the coated pieces on a baking sheet lined with aluminum foil. Bake in a moderate oven 350 degrees.

Record Requirements Enacted by Lawmakers; Purpose of Act Told

House Bill 73, which was passed by the last session of the Legislature, provides that no County Court Clerk may admit to record any legal document, or certificate of conveyance of an interest in property unless there is printed or typewritten on the instrument a certificate showing the name and address of the person who drafted the instrument.

This law was effective July 1 and instruments lodged for record after that date must have such a certificate before they can be admitted to record.

Primary purpose of this bill was to help the court to control the illegal practice of law by persons who are not members of the Kentucky State Bar Association. Apparently the aim of the bill is to help the court in identifying notaries and others who draft deeds and wills or prepare bills of sale and who are not attorneys, a practice which is quite prevalent in this county.

Some have construed the new law to mean that if a person other than an attorney puts his certificate upon such an instrument, the court may, on motion, summon him to show cause why he should not be held in contempt for engaging in the practice of law without a license.

Prisoners Call Shots In Jailers-Guards Game

Baltimore, Md., July 10—Two inmates of the Maryland Penitentiary umpired a softball game Monday night between officers of the Baltimore City Jail and guards of the penitentiary.

The jail officers won, 9 to 6, prompting Jail Warden Hiram Schoonfield to say: "Good case of rehabilitation. And they officiated very well."

The only comment from the penitentiary officers was: "We was robbed."

Citizen Frees 3 Small Boys From Sewer

Ajo, Ariz.—O. A. Stokes glanced down at a storm grating on one of Ajo's main streets to see three sets of eyes staring up at him.

Recovering from the shock, he called for a crane to remove the grating and let the three sons of Mr. and Mrs. Quentin Wells out of their temporary jail.

The boys, all under 8, had entered the system via a large opening on the outskirts of town.

Steel for the bridge crossing the river in the vicinity of Hager Hill will be set within a week, he said, and after that the pouring of the concrete floor will be done. That would leave only the repair job on the bridge spanning the Big Sandy here at Town Branch, and this job is expected to be finished within eight weeks after a work order is issued.

Boating Families Rise In Number, Article Says; Dangers of Sport Noted

With 37 million Americans now in families with boats and these increasing in number by 300,000 a year, individual and community safety measures are imperative if water-borne catastrophes are to be avoided.

So warns Alfred Balk in an August Reader's Digest article, "Danger Rides in Small Boats."

"Half of all boating deaths," he writes, "are due to incompetence or simple carelessness. In one state on one holiday, ten deaths resulted from such things as standing up in a boat, towing a water-skier without a companion in the boat as observer, starting an outboard with the gears engaged, cramming ten persons into an 11-foot boat, and a collision at night with no one at the wheel!"

The most common reasons for tragedy are overcrowding, lack of life preservers, and changing positions needlessly.

So far only New Jersey requires an operator's license but the 1958 federal boating law, the Bonner Act, calls for the numbering of all boats over 10 horsepower, nationwide reporting of accidents and personal liability for negligent operation. In 24 states if you're reckless you're liable even for damages resulting from your craft's wake.

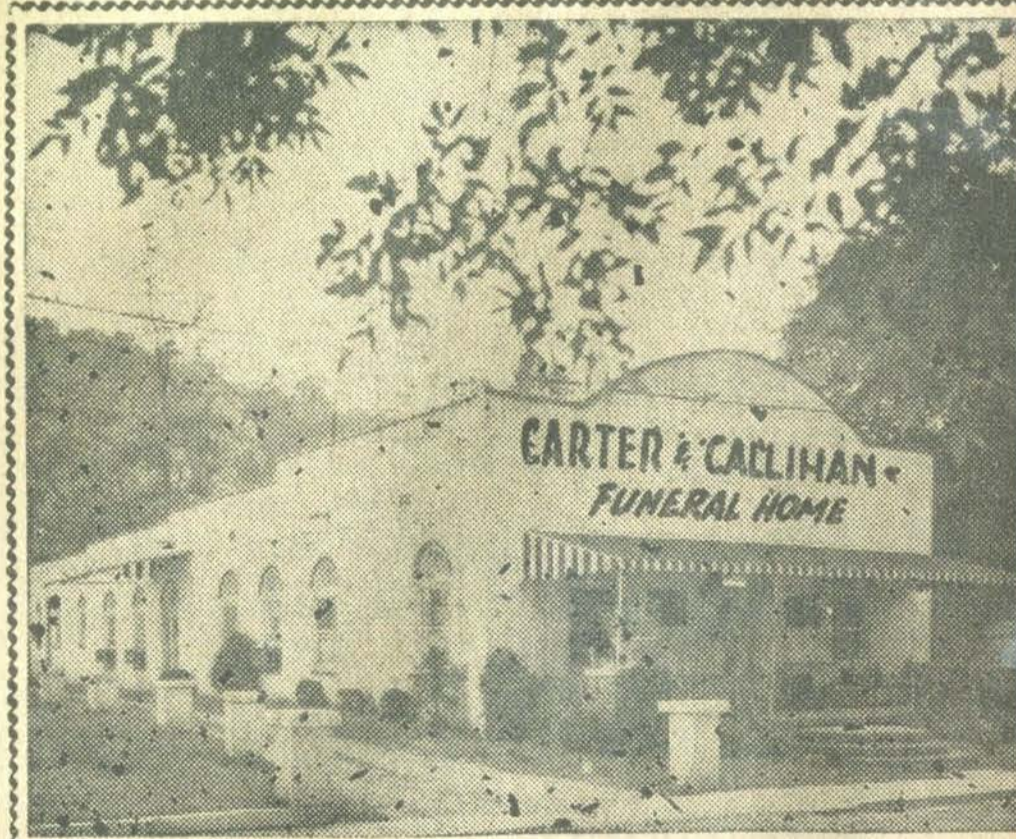

In Wisconsin, warden-pilots use loudspeakers to warn boaters below of danger and remind them of safety procedures. Volunteer groups from Maricopa County, Ariz., to Hamilton, Mass., maintain water patrols. The Oakland County, Mich., patrol has 40 new motor boats. The article is condensed from Suburbia Today.

Flood-Damaged Floyd-Co. Farms Receiving Restoration Assist

Junius Moore, soil conservationist aide, of Flat Gap, Johnson county, recently assigned to this county to assist in the emergency program of restoring flood-damaged farm lands, inspects a Mare Creek farm. The stream, originally running to the right, was diverted by the March flood to the left and is cutting away a bottom.

Restoration of damages to Floyd county farms as a result of the floods of February and March is in full swing in this county, Floyd was one of the several counties of Eastern Kentucky declared a disaster county by the President and the Secretary of Agriculture.

The federal government, acting to repair farm damage, allocated \$15,000 to this county as a special appropriation under an emergency conservation program. The work is done by construction firms and individuals whom the government calls vendors. They have to make special application through the local Agriculture Stabilization Conservation committee to be declared vendors for the work.

Tentative approval of the flood repair damage must be made through the ASC office and then here.

ORDINANCE

No. 12-62

An Ordinance of the City of Prestonsburg, Kentucky, Anticipating the City's Proposed Issuance of Certain "Water, Sewer and Natural Gas System Revenue Bonds," Providing for the Creation of a "Construction Fund" Wherein There Shall Be Deposited from Time to Time Moneys Received from All Sources for the Construction of the Project Intended to be financed Through the Issuance of Such Bonds; Designating a Depository; Selecting and Designating Financial Institutions to Serve as the City's Paying Agents in Connection with Such Bonds; Making Provision for Security and Investment of Said Construction Fund; and Prescribing Conditions Relating To Disbursements from the Construction Fund.

WHEREAS, the City of Prestonsburg, Kentucky, has heretofore submitted to the Housing and Home Finance Agency of the United States Government (HHFA) a certain loan application, identified by HHFA as its Project No. FFL-KY-309 Contract No. E-032-851, wherein the City has proposed to combine and consolidate its municipally-owned water system, sewer system and natural gas system into a single combined and consolidated water, sewer and natural gas system; authorize and offer to public sale its "Water, Sewer and Natural Gas System Revenue Bonds," payable solely from the aggregate revenues of such combined and consolidated system subject to the acknowledged priority of all previously-issued and outstanding bonds or other obligations of said City to which water revenue, or water and sewer revenues, have previously been pledged; and apply the proceeds of such bonds, supplemented by a grant of Federal funds through the United States Department of Health, Education and Welfare to the construction and installation of certain improvements and extensions of facilities constituting parts of such combined and consolidated system; and

WHEREAS, under date of June 5, 1962, HHFA tendered to the City a certain "Offer" in response to the City's aforesaid application, wherein and whereby HHFA proposed to agree that if the City's proposed Bonds are prepared in accordance with specified terms, conditions and details, HHFA will appear at the advertised public sale thereof and submit an assured bid upon terms which are fully set forth in said "Offer"; and by Resolution duly adopted by the City Council and approved by the Mayor on June 21, 1962, the City has accepted said "Offer" thereby creating a contract between HHFA and the City, which may sometimes hereinafter be referred to as the "Loan Agreement"; and

WHEREAS, it is provided in the Loan Agreement that prior to the sale and delivery of the City's proposed Bonds, the City may borrow money from any source in anticipation of the eventual receipt of bond proceeds, and the same may be expended upon the Project from time to time, and thereafter repaid, with interest, to the lender; and it appears to the Mayor and City Council that it is desirable at this time to provide for the establishment of a "Construction Fund" conforming to HHFA requirements; to designate a depository thereof; to provide for the depositing therein of funds received from all sources for the account of the aforesaid Project; to provide how disbursements may be made from such Construction Fund; and to designate by name financial institutions to serve as the City's paying agents in connection with said Bonds, in order that Bond Counsel may be guided and instructed in the preparation of the bond documents.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF PRESTONSBURG, KENTUCKY, DOES HEREBY ORDAIN, AS FOLLOWS:

SECTION 1. For the purposes described in the preamble of this Ordinance there is hereby created and established a special and separate fund or account of the City of Prestonsburg, Kentucky, and the same is hereby designated the "Water, Sewer and Natural Gas System Construction Fund of 1962." There shall be deposited in said fund by the City Treasurer from time to time all moneys received from any and all sources which are obtained for the purposes of the aforesaid Project (except amounts received from the purchaser or purchasers of said Bonds as representing accrued interest to delivery) including but not limited to moneys borrowed from any source, advances which may be received from HHFA prior to the sale and delivery of the Bonds, and grants received from Federal sources through the United States Department of Health, Education and Welfare. A true and accurate separate accounting shall be made of all deposits in and disbursements from said Construction Fund, and at no time shall there be any commingling with other moneys of the City of Prestonsburg, Kentucky.

SECTION 2. The Bank Josephine, a banking corporation having trust powers, organized and existing under the laws of the Commonwealth of Kentucky and having its principal office in Prestonsburg, Kentucky, is hereby designated as the

depository of said Construction Fund and is hereby requested and directed to create an account upon its books and records in the name of the City of Prestonsburg, Kentucky, identified as set forth in SECTION 1 hereof.

SECTION 3. The Bank Josephine is hereby designated as the City's Paying Agent in the Commonwealth of Kentucky, for the payment of the aforesaid Bonds, and the interest coupons to be attached thereto; and the principal office of Manufacturers Hanover Trust Company in the Borough of Manhattan, City of New York, State of New York, is hereby designated as an Alternate Paying Agent where the holder of any Bond or coupon may, at his election, present said Bonds and coupons for payment.

SECTION 4. Moneys from time to time on deposit in said Construction Fund shall be secured by a valid pledge to the City of Prestonsburg, Kentucky, and to the City Treasurer thereof, of direct obligations of, or obligations the principal of and interest on which are guaranteed by, the United States of America, having at all times a market value, (exclusive of accrued interest), at least equal to balance maintained on deposit therein. If at any time there should be on deposit in said Construction Fund moneys in excess of the estimated disbursements on account of the Project for the next 90 days, the City reserves the right to direct that the depository bank invest such excess funds in direct obligations of, or obligations the principal of and interest on which are guaranteed by, the United States Government, which shall mature not later than 18 months after the date of such investment and which shall be subject to redemption at any time by the holder thereof. Earnings received from any such investments shall be deposited by the City in the Construction Fund. Any moneys remaining in the Construction Fund after all costs of the Project have been paid and all loans and advances reimbursed, shall be promptly used to the extent possible for the redemption of Bonds of the issue referred to herein; and any residue shall be deposited in the account hereafter to be established in the Bond-authorizing Ordinance for the payment of the principal of and interest on such Bonds.

SECTION 5. Disbursements from said Construction Fund shall be made by checks signed by the City Treasurer and countersigned by the Mayor but only if accompanied and supported by one or more vouchers signed by or on behalf of the Engineer or firm of Engineers having supervision of construction of said Project, affirming that the payee of the check is entitled to payment of the amount thereof for labor, materials or services earned and due under the terms of an authorized contract relating to said Project; except that interest upon loans or advances, at the authorized rate or rates, may be made without supporting vouchers, and except that payment for such items as the printing of the Bonds, advertisements of the public sale, contractual fees for professional services and other expenses necessary in the issuance of the Bonds, and of which said Engineer or firm of Engineers may have no personal knowledge, need not be supported by such vouchers.

SECTION 6. Bond Counsel retained by the City for the preparation of the bond transcript documents to conform to HHFA specifications, practices, procedures and requirements shall be furnished a certified copy of this Ordinance and shall be guided thereby; and said Bond Counsel are instructed to provide in the Bond-authorizing Ordinance a reference to the fact that the aforesaid Construction Fund has already been created in anticipation of the issuance of the Bonds, and shall constitute the "Construction Account" referred to in Section 9 of the printed "Terms and Conditions" attached to and constituting a part of the aforesaid HHFA Offer.

SECTION 7. This Ordinance shall be in full force and effect from and after its adoption, approval by the Mayor and publication as provided in KRS 86.090(4) and KRS Chapter 424.

Adopted by the City Council of the City of Prestonsburg, Kentucky, at a regular meeting held on July 19, 1962, on the same occasion signed in open session by the Mayor as evidence of his approval, attested under seal by the City Clerk, ordered to be published, and declared to be in full force and effect from and after publication.

King-Alexander Vows Said

Mr. and Mrs. Lawson King, of Van Lear, Kentucky, are announcing the marriage of their daughter, Garnett, to Mr. Kendall Alexander, son of Mr. and Mrs. Willard Alexander, of Prestonsburg, on June 30, at 10 o'clock in the morning, at the Mayo Memorial Church in Paintsville. The Rev. George Perry performed the double-ring ceremony before an altar banked with palms and white gladioli in tall standards.

The bride, given in marriage by her father, wore a gown of chantilly lace over satin with long train. The fitted bodice was attached to a very full skirt. Tiny covered lace buttons closed the bodice from a low neckline to the waist. Long sleeves came to a point over the hands. Her veil of illusion was caught from a tiara of seed pearls and rhinestones. She carried a bouquet of stephanotis centered with a white orchid tied with a cascade of narrow ribbon streamers.

Telephone Talk

By GUY HISLE
Your Telephone Manager

WHILE YOU READ THIS, TELSTAR, a 3 1/2-inch, 170-pound metallic sphere, is circling the earth receiving and transmitting signals for television, telephone and data communications. Telstar was built by Bell Laboratories' scientists and launched by the National Aeronautics Space Administration at Bell System expense. As it orbits the earth, Telstar receives voice, data and television signals from ground stations on earth, amplifies them as much as ten billion times and sends them to receiving stations back on earth.

Telstar is a major experimental step toward a world-wide satellite communications system capable of transmitting hundreds of overseas telephone calls, bringing live TV shows and on-the-spot news across oceans and continents. Project Telstar is another way your telephone company works to bring you the best communications facilities available anywhere in the world.

REFRIGERATED BATS! Constantly striving to improve communications equipment, Bell Telephone Laboratory scientists are using bats to learn more about intricacies of the human ear. Painless experiments are performed on bats during normal hibernation. Between experiments, the little creatures are kept in refrigerators in a state of suspension necessary to these experiments. From refrigerated bats may come better communications service for all of us!

PEOPLE KEEP AMERICAN BUSINESS HUMMING by investing in companies that make our economy the strongest in the world. AT&T investors include farmers, businessmen, clerks, mechanics, clergymen, merchants, teachers, housewives, doctors, lawyers, retired people, and more than 300,000 Bell System employees. Some interesting AT&T shareowner facts: women shareowners outnumber men two to one; about 28% of shareowners have held their stock for 10 years or more; 1,409,000 people own less than 100 shares; every 3 months checks are mailed to more than two million shareowners in the U.S. and in 120 foreign countries.

THE FEMININE SIDE OF BOWLING NEWS
By IMA BOWLER

One of the most important things about your leagues is being overlooked, gals, and I've received news from Columbus about this and thought it well that it be mentioned. The league executive board is made up of league officers, and your team captains. This is the body that governs all things which come up in the league that are not in the rule book. The thing is, since all groups are different, neither the City Association nor the WIBC can dictate rules for every possible situation; so the league executive board is in charge of seeing that those things not covered are taken care of. For example:

When a team decides it has a valid reason for a postponement, the postponement can be granted only by the League Executive Board. We here all know each other, and it is easy to call the opposing captain and ask for a postponement, but it isn't legal. All postponements are granted by the executive board, and we are all neglecting this. The executive board is the only part of the league which can grant a postponement. If the postponement is an emergency, then you can ask for one, and let the board decide later if it is valid. There should never be a time when you have to have a postponement that you can't get one, if necessary. But you must go to the executive board.

If, for example, two of your team members are going on vacation, you can find out when they will be gone, whom you bowl, and then ask the executive board to grant you a pre-bowled game, so you will not leave this over. You shouldn't wait until the days the gals leave and then say you have no members present. This is easy to let slip up on us, but since we sign up for the entire season, you are obligated for these games, and you may as well protect yourselves by doing it the right way. Use your executive boards. Call your president, and ask her to arrange a postponement or a pre-bowled game through this board.

Lake Lanes is continuing their free bowling lessons every morning of the week, with a free baby-sitter, and they will be glad to have you come and join them. Organization of fall leagues is getting under way, and they will be glad to discuss entering your team. Contact them right away.

Mr. Daniels says, from Crown Lanes, that in the Tuesday morning spare time league the ladies are having more fun than ever—free snacks between games, Top Value Stamps for games bowled and awards for everything from gutter balls to high games. Why not join in the fun every Tuesday morning at 10? The Caramelle League on Friday for ladies is picking up in scoring tempo, several averages climbing into the 150's and the 3-game series just short of the 500 mark. Phyllis Hammonds had 189-477 series; Ova Cola had 185-467 series.

In the fall leagues beginning September 3, there will be both scratch and handicap leagues. So why not join early in the league of your choice?

Our Historic Heritage

A Pictorial Review of East Kentucky

(No. 200 in a Series)

THE GRAVE OF LOUIS MAYO

Louis Mayo, of Virginia, was a beloved teacher of the Big Sandy valley prior to the Civil War and gave the area a cultural impetus that persisted as a result of his influence for decades. He came to the valley in 1837, taught for a short time at Pikeville, went to Johnson county, then Floyd county, married Maria Jones. For a quarter of a century his influence was paramount in educational matters.

He and his wife lie buried at Van Lear, in a cemetery beside U. S. Highway 23. He died January 31, 1865, and his wife survived until July 22, 1869.

The First National Bank presents these pictures in recognition of our historic heritage.

Food Stamp Violations Charged To Two Grocers; Detroit Retailer Fined

Two Welch, W. Va., men charged with violation of regulations in the McDowell county pilot food stamp program have been fined a total of \$500 in federal court.

Both men—Frank Serreno, operator of Happy's Market in Welch, and Adolph Bary, former operator of Mack's Market—were charged with the sale of unauthorized items to patrons receiving food coupons. In addition, Serreno was accused of purchasing a \$10 book of coupons for \$7.

Federal Judge John A. Field, Jr., of Charleston, W. Va., imposed a fine of \$300 on Serreno and \$200 on Bary. Both men pleaded guilty to each count in the information filed by the U. S. Department of Agriculture against them.

A Detroit food retailer recently was fined \$500 for violations in the food stamp program. The grocer pleaded guilty to conspiracy to defraud the government by purchasing food coupons for cash at less than face value from food coupon recipients.

Rules of the food stamp program prohibit stamps to be exchanged for cash or any item except designated eligible foods. Coupons can not be used to purchase soaps, detergents, toilet paper, alcoholic beverages, tobacco, or other non-food items.

Any individual who misuses food coupons, whether participant, retailer, wholesaler, or other, is in violation of program regulations and subject to penalty.

Hall, Dwale Native, Retires From Ford Motor Co. Service;

Bert T. Hall, a native of Dwale, gets a medical retirement this month from the Ford Motor Company's Lima, Ohio, engine plant.

As a young man, Mr. Hall was employed by the Elkhorn Coal Corporation's engineering department at Wayland. In 1925, when U. S. Highway 23 was under construction, he decided to seek employment other than mining engineering. One morning, he and the late Oliver Porter, of Dwale, Kentucky, put their "glad rags" in a suitcase and walked up the railroad tracks to await freight train No. 79, on its way down the river to the Russell yards.

After finding an empty boxcar, they took a free ride to Ashland. There they took a passenger train to Detroit. They found temporary employment in Detroit. After a few weeks, Porter returned to his native Dwale.

Hall remained in Detroit. In 1928 he found steady employment as a machine operator with the Ford Motor Company of Dearborn, Michigan, which was starting production on the first gear-shift Ford, known as the "Model A." In 1932, when the first Ford V-8's, with the then-huge 85 horsepower motor were being produced, Mr. Hall was promoted to the classification of machine setter. This classification was regarded as an assistant foreman, who was in charge of the operations should the foreman be absent for any reason.

In 1937 Hall was promoted to the classification of production foreman, in charge of making mechanical parts for Ford engines. He held this position until 1945, when the Ford Motor Company took a government contract making component parts for the Pratt & Whitney airplane engines. He was promoted into the Aircraft Division's engineering department as a tool trouble man.

In 1952, the Pratt & Whitney contract, including all the machinery and employees, was moved to the Aircraft Engine Division of the Ford Motor Company, Chicago. Left behind were Hall and six other employees. Mr. Hall was promoted to the classification of process engineer in making defusers for the jet engines known as P-1, P-2, P-17 and P-21's.

In 1954, he was stricken with stomach ulcers and was confined to the Detroit Osteopathic hospital where 75% of his stomach was removed. In a few weeks he was back on the job.

When the jet engine contract was finished, Mr. Hall was transferred to Romulus, Michigan, where Ford took a government contract to process another jet engine known as the J-65. This job ended in 1957. At that time, a new engine plant was put into operation at Lima, Ohio. The Lima plant was the first completely automatic built by Ford.

Hall was transferred to the Lima engine plant, with the classification of tool engineer. In 1959, however, he was stricken with a recurrence of stomach ulcers. He returned to the Detroit Osteopathic hospital, underwent further surgery and was fitted with a substitute stomach.

But he was back in the saddle in a few weeks, watching the engines coming off the complete assembly line. Then came the day when all the employees of the Lima Ford plant viewed the one millionth complete motor produced in this up-to-date plant. The motor was put on display in the lobby of the main office building. The staff was very proud to view it.

Still under his doctor's care, Hall made several trips to Detroit for check-ups by his trusted physician, Dr. Biggs. In 1961, when he had reached sixty years young, Dr. Biggs advised him to take a disability retirement from the Ford Motor Company. After 34 years of work it was now time for play.

Taking Dr. Biggs' advice, Hall applied for disability retirement and also took a leave of absence from September 30, 1961, to April 1, 1962. He was granted medical retirement with the same pension benefits as that of a natural retirement at age 65.

During the 32 years he lived in Detroit, Hall raised three children, all of whom are married and who live in the suburbs of Detroit.

Hall, who has acquired eight rental properties in Lima, recently purchased a house trailer. He plans to return to his home state of Kentucky and settle in the Blue Grass section near Lexington as soon as he can dispose of his real estate.

He and his wife Madge plan to do quite a bit of traveling in the next two years. He is the brother of Charlie Hall, of Ivel, Able Hall, of Ashland, Laura Humble, of Dwale, Georgia Dameron, of Ivel, and Fannie Harvey, of Wayne, Michigan.

During his service at the Ford Motor Company, he was acquainted with "the little man with long legs"—the founder of the Ford Motor Company, the late Henry Ford I. He also knew Mr. Ford's son, Edsel, who was at one time president of Ford. Mr. Hall also sat in the Masonic Lodge in Detroit and saw Edsel Ford's two sons, Benson and William, take their third Masonic degree.

Hall is a member of the Masonic Lodge No. 112 at Wayne, Michigan. He is a 32nd degree Mason in the Lodge of Perfection in the Valley of Detroit. He is also a member of the Shrine of the Moslem Temple of Detroit. He has been active in the Masonic Lodge since 1937.

On July 7, the Ford Motor Company sponsored a banquet in honor of Mr. and Mrs. Hall at Lima's most fashionable night club, the Milano. Mr. Hall was presented a watch and other gifts as a token of his many years of service.

SATELLITE EXPERIMENTS BEGUN BY SOUTHERN BELL

Experiments began last week with the Bell System's Telstar active communications satellite. Telstar is capable of relaying television and high speed data as well as telephone messages and wire photos.

The satellite was launched earlier last week from Cape Canaveral.

Telstar is a unique experiment in that it is the first time that a private company has built a satellite and paid for cost of launching with its own funds. It also marks the first international attempt to transmit communications by using an active repeater satellite.

The satellite, a 170-pound metallic sphere with a 3 1/4 inch diameter, carries electronic equipment to receive, amplify and transmit radio microwave signals for television, telephone and data communications.

In outer space, it acts as a relay station, receiving signals from one ground station, boosting them, and transmitting them on to other ground stations at distant points.

The National Aeronautics and Space Administration launched the satellite with a Delta rocket, and the Bell System has reimbursed NASA an estimated \$3 million for all services, including rocket costs.

Telstar's first job will be to test the longevity and reliability of an orbiting microwave relay station for the transmission of broadband radio signals.

In all, Telstar will measure and report on 115 items—including radiation—as it swings around the earth at an average speed of 16,000 miles per hour at altitudes up to 3500 miles. Experiments scheduled will test the ground stations and complex equipment working with the satellite.

In first tests, a huge horn antenna at Andover, Maine, was scheduled to send signals to Telstar. The satellite was to receive the signals, amplify them and transmit them on another

frequency to receivers at Andover and Holmdel, N. J.

The first experiments are testing transmission of voice, data and pictures from Andover to the satellite, back to Andover and to the ground station at Holmdel. After the series of initial domestic experiments, the first live United States-to-Europe television broadcast will be attempted. This probably will be beamed overseas about a week after Telstar is launched. This will be followed by a Europe-to-U. S. telecast.

The American TV origination will be a combined effort of the television networks.

Reports for Duty

Navy Ensign Roy L. Bingham, son of Mr. and Mrs. Fred Bingham, of Fern Creek, Kentucky, and grandson of Mrs. Rebecca Bingham, of Lancer, left for Norfolk, Virginia, June 22, to report aboard the U.S.S. Papago as the diving and salvage officer.

Bingham received his commission February 8 from Officers' Candidate School, Newport, Rhode Island. February 18, he reported to the U. S. Naval Deep Sea Diving School, Washington, D. C., for a 16-week course and training in diving duty. He graduated from the school as a ship salvage officer, qualified in scuba and deep sea diving.

Diving is not a new experience to Bingham, since he has been diving for more than ten years. As an ichthyologist, he has made many dives in the Ohio River, Dale Hollow Lake, the Gulf of Mexico, and along the eastern seaboard. He was secretary of the Kentuckiana Scuba Divers of Louisville in 1961. As a member of this organization and in affiliation with the Coast Guard station at Louisville, he has performed many local diving services.

Marine Corporal Charles D. Merritt, of Greenville, South Carolina, knocked out seven Jap tanks with seven bazooka rockets on Saipan, for which he received the Navy Cross.

RESIDUAL OIL CURBS URGED

State Coal Production Skidding Heavily, Said

Special to The Times

Washington, D. C., July 13—Rep. Carl D. Perkins said today that unless the Administration takes some action to tighten import controls on foreign residual fuel oil "I believe it will become the responsibility of the Congress of the United States to take action itself."

"There is no question but that excessive imports of residual oil, dumped along the Eastern Seaboard at low prices, is adversely affecting the coal industry and substantially contributing to unemployment in coal areas," Rep. Perkins said.

Perkins noted that coal production in Kentucky has dropped 20 million tons a year in the last 15 years.

"If 20 million more tons of coal were produced in Kentucky each year, it would have a mine mouth value of \$84.4 million, and it would require 8,160 miners to produce that tonnage if they continued to work an average of 175 days a year as they have for the last several years," Rep. Perkins said.

"Considering that there are presently only about 27,000 men employed in Kentucky coal mines, it is not difficult to understand what the addition of some 8,000 miners would mean, both to the men involved and their families, and to their communities and the state and federal governments."

"One easy measure of the impact that would be created by adding some 8,000 miners to the payrolls is the amount of federal and state income taxes they would pay. Taking the averages for the last several years, 8,000 miners would contribute approximately \$1.4 million in state income taxes and \$5.7 million in federal taxes. Added to the \$3.5 million that the coal companies would pay on 20 million tons of production, the total contribution to the state and federal governments would be approximately \$15 million."

"As impressive as that figure may be, it by no means tells the whole story. The major effect of adding 8,000 miners to the payrolls would be felt in the numerous communities where they live and work."

Using figures developed by the United States Chamber of Commerce, the Congressman said the result would be: \$28.2 million more in retail sales each year; \$21.9 additional bank deposits; 8,667 additional passenger car registrations; 5,994 additional workers employed in such fields as retail trade, personal services, entertainment and recreation services, and others.

Martin Kiwanis Speaker Notes Med Revolution; Mental Illnesses Drop

Nearly 5,000,000 lives have been saved in America during the past 30 years as a result of a medical revolution which has increased the life span by 10 years, Steve M. Feher, local representative of Smith Kline & French Laboratories, Philadelphia pharmaceutical firm, said last Tuesday evening in an address at a meeting of the Martin Kiwanis Club.

Citing the role of the pharmaceutical industry in these achievements, Mr. Feher pointed to the antibiotics, steroids, polio vaccine, oral antidiabetics and tranquilizers as signs of medical progress during the past 20 years.

"The beginning of a dramatic new era in the treatment of mental illness" began with the introduction of tranquilizers such as "Thorazine," Feher said.

Before the tranquilizers, half the hospital beds in America were occupied by mental patients. In 1956, for the first time in history, the number of hospitalized mental patients was reduced.

Now-A Polaroid Electric Eye Camera for Less Than \$90⁰⁰!

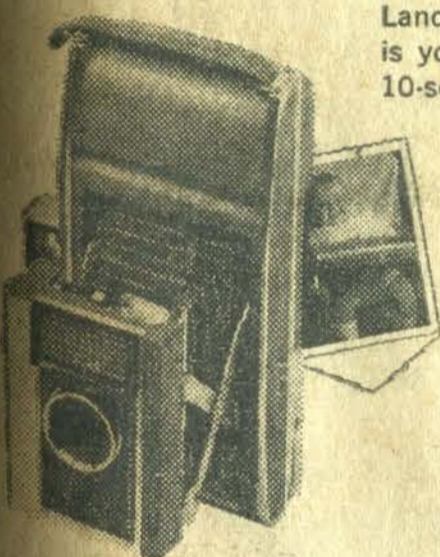

The Polaroid J66 costs less than the first Land Camera model introduced more than 12 years ago!

It takes the same large pictures—but with what a difference. It's fully automatic. There are no settings you have to make. An electric eye chooses the exposure. You don't even have to focus. You don't need an expensive light meter. The flash gun is built in too. And your picture is ready in just 10 seconds.

There are 12 years of improvements, refinements and brand new ideas in this camera. And yet it actually costs less than the first Land Camera on the market.

If you've always wanted a Polaroid Land Camera—and who hasn't?—this is your chance. Come in for a free 10-second demonstration today.

- No focusing
- Electric eye operation
- 10-second pictures
- Costs less than the first Land Camera
