McDowell Tipple Blast, Harold Mine Fire Come Only Few Hours Apart

One Floyd coal tipple was blasted by a heavy charge of explosives Monday night, and another was partially destroyed by fire.

Officers expressed doubt that any current labor dispute led to the dynamiting at 10:30 Monday night of the Columbia tipple of the Turner-Ekhorn Coal Company on the Bill Hall Branch at McDowell, They said they had not been asked to investigate the fire which broke out at the Little Mud Creek mine operated by E. W. Hale, of Harold. An old gridge may have motivated the McDowell explosion, they surmised.

Completion of Polio Vaccination Is Seen By Health Department

The Floyd County Health Department will be open, Saturday of this week, and the next two Saturdays, to administer polio vaccine. This will give those who have not completed their series an opportunity to do so. The length of time since the last dose does not affect the next dose, the object being to get all three doses regardless of the time involved between doses, it was pointed out.

Her husband decided, a few mornings ago, to take matters in his own hands, so he, first of all, bought that socalled musical recording, entitled 'Pots and Pans," which really is a weird cacophony of junior bedlam. Then he set the clock and hooked it, along with the record player and "Pots and Pans," to a public address system. Next morning, the whole shebang went off with a bang and a clatter. It may be added that Friend Wife did not take time to fumble for the alarm clock. She hit the floor, wide awake, and spent the next few minutes dashing around the room, trying to learn two things: 1. what had happened; 2. how to stop whatever was happening.

BOARD TALKS NEW POLICY

Action Is Deferred To Bar Political Speaking In Schools

The question of whether or no candidates for governor are to be allowed to speak at school houses during school hours was discussed at length at the Floyd County Board of Education meeting here Saturday

Following the meeting a statement was issued expressing the thinking and decision of the board. "The board discussed at length the matter of formulating a definite policy regarding the appearance of political dignitaries on the campuses during school rours," the statement said. "Superintendent Charles Clark expressed the viewpoint that he was strongly opposed to any statement of policy which might prevent such appearances until after the May 28 primary election because there are two candidates for governor who may Floyd county is to have its first gospel singing, poetry and storywant to appear sometime before the

The American Red Cross closed its emergency field office here last Friday after having spent a total of \$364,411.90 to help Floyd county's flood disaster victims. Thus ended the work begun in

this county as soon as the March floodwaters which invaded hundreds of homes and businesses had subsided. Thirty-six Red Cross workers from New York, Virginia, Georgia, Texas and Wyoming had since that time worked alongside Floyd Red Cross Chapter members and volunteers to meet the needs of those who could not help them-

The \$364,411.90 already spent may be increased by an additional \$550, Miss Ella Noel White, executive secretary of Floyd Chapter, said this week. *********************

Now It's Our Turn

With all this spent by the Red Cross for Floyd county citizens, and the Red Cross standing by to help when the next disaster strikes, here or elsewhere, attention of Floyd Chapter this week was turned toward trying to solicit from the county's citizens and businesses enough money to meet its Floyd quota of \$6,370. As of Monday evening, only \$2,200 had been subscribed

"Floyd county will be given an opportunity to show what its gratitude amounts to," commented one volunteer worker, "The Red Cross fund drive will be conducted, house to house.' ************************

PAST PERFORMANCE BEATS PROMISES

Chandler's concern for people was twice evidenced by his "firsts" in welfare programs.

His record shows he

- initiated old age assistance law
- established the first Unemployment Compensation
- · removed mortgages from homes of the elderly
- under old age assistance won a minimum wage law for women and children
- established the Public Health Foundation
- took first needed steps for enlightened programs in prisons and hospitals
- provided free dental examinations for school children
- · carried out construction of hospitals and health projects
- · reformed Kentucky's mental health program

His record proves he

- will launch an historic program to meet the crisis existing in our prisons and parole system
- will keep open the miners' hospitals
- · will develop modern methods to answer the needs of people today

A WAY INTO THE HEART OF THE HILLS

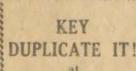

nesday afternoon, the dedication of the Mountain Parkway is in progress at Campton. It is an event which every Eastern Kentuckian, regardless of his politics or factional affiliation, should have wanted to attend.

This is a dream come true, a modern highway from the lowlands penetrating into the Mountains, opening up this section of the state to commercial highway traffic and tourist travel, actually linking Eastern Kentucky with other parts of Kentucky-and, doing so, making the connection not by the weakest but by the strongest possible link.

There is a scene which breaks upon the view, just east of Stanton, that, to me, expresses the spirit of this highway. This is where a long stretch of highway extends out and out till it surmounts a rise and sight of the pavement is lost where it points straight into a backdrop of darkling hills.

Whatever may be said of the Mountains and of the Mountain Parkway, pro and con, I hope somebody at the dedication says

something to this effect: "In this highway lies absolute proof that Bert Combs has dared to do what none other has even had the temerity to promise."

LOWELL HUGHES COMMENTS ON ATTEMPTED SMEAR

Lowell T. Hughes made the following comments in regard to a handbill and to a political advertisement appearing in the May 2, 1963, edition of The Floyd County Times:

"I have worked for the Department of Revenue and I am very proud of having done so. I have earned, through hard work, all of the money which I have received from the State. I preferred to work my way through college and that is exactly what I have done. I am sorry that some people think I wasn't entitled to do so and that my doing so should be held against me.

"I think it is obvious to everyone that this is just the typical Chandler routine. Mr. Chandler and the people of his philosophy that support him do have a claim to fame, they are noted for their reputation of deceit and halftruths. I do not intend to attack any of these people personally, but you know who they are. I think my comments in regard to the handbill will serve to justify and bolster these reputations.

"I would prefer that my comments not be taken as a rebuttal or denial of the handbill. I regret even having to give the handbill and advertisement the benefit of comment. However, as is so often the case when you are dealing with the kind of people who surround Mr. Chandler, it is necessary to point out facts which they have conveniently ignored.

"The handbill and advertisement contain a complete, outright lie. They say that I was in school during the whole period referred to and that the records will show just that. In fact, and it would be no problem whatsoever to establish, during twelve full months which they make reference to I was not even in school.

They talk about my being a full-time law student but conveniently neglect to point out that this only means that I spent twelve hours during the work-week attending classes. They deliberately failed to mention that worked an adjusted work schedule so that I could make up the twelve hours a week. They conveniently failed to mention that it took me three years to graduate because of my work instead of two and one-half years. They conveniently failed to mention that I also worked my way through four years of undergraduate school. They conveniently failed to mention the other thousands of students who have worked their way through college.

"All of these deliberate omissions are typical of the type of persons who have associated themselves with the handbill and advertisement. Another thing which they neglected to do was to actually challenge the fact that I did the work. There is an explanation for their failure to do this. The type of work that I was doing required that I contact people personally and to prepare reports in regard to these conferences. In addition, in most instances I obtained the persons' signature on the reports. There are copies of all of this work on file in both the Lexington office and the Frankfort office. Once again, there is no problem in establishing this fact. I think this explains why they did not actually challenge the work.

"I wonder why the handbill wasn't even signed. Of course, the advertisement had to be signed before it could appear in the newspaper. If these people are sincere in their efforts, what is this man's name doing on the advertisement? Why didn't someone who is a somebody in the Chandler organization sign the advertisement? Could it be that they were so ashamed of the ridiculousness of it that they refused to take the credit for it?

'I think enough of the facts which were ignored have now been pointed out and no further comment is justified. The assertions are so ridiculous that it makes you wonder what their purpose was. My guess is that their purpose was to draw attention away from the things which we have been reading in the newspapers: the things which evidently are true because when they are asked to comment about them they refuse to do so.

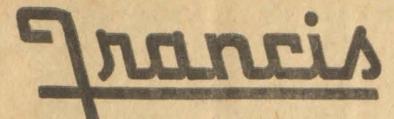

"I would like to point out that one of my real regrets is that I haven't had more time to devote to the gubernatorial campaign. The issues of a campaign have never before been so clearly defined for the people of our section of the state. We heard Mr. Chandler's promises when he was making the 1955 race, and we saw what he did fro our section after he was elected-NOTHING. Contrast that record with the Mountain Parkway, the new lodge at the lake, the new junior college, the new schools in the county and the overall advancement of our educational system. When the contrast is made it is obvious that the right-thinking people of our section of the state must support the energetic and youthful Mr. Edward T. Breathitt."

Reply to False Statement

It has been stated by Mr. Chandler that during his terms as Governor that he raised the salaries of the teachers of Kentucky by \$1,500 per year. We are saying here and now that this statement is simply NOT THE TRUTH. HE DID NOT RAISE TEACHERS SALARIES \$1,500 in any one year or in any combination of years while serving as Governor of Kentucky.

We challenge any one to show where any teacher of Floyd County ever received a \$1,500 raise during the Chandler Administrations. YES, WE CHALLENGE THEM TO SHOW WHERE A TEACHER EVER RE-CEIVED EVEN HALF THAT MUCH RAISE.

During the administration of Governor COMBS THE SALARIES OF TEACHERS WERE INCREASED BY \$1,100.00 WHICH WAS MUCH MORE THAN THEY WERE EVER RAISED IN THE HISTORY OF KENTUCKY. THIS IS THE TRUTH.

We are also proud to say that supplies and teaching materials were proportionally increased during this administration.

Education is on the move in Kentucky and the question boils down to this - ARE WE INTERESTED ENOUGH IN THE WELFARE OF OUR CHILDREN TO PAY A FEW PENNIES A DAY TO INSURE THEIR EDU-CATIONAL FUTURE?

NED BREATHITT does not want to destroy the educational systems of our state, but is interested in carrying on the PROGRESS that has been made in the last three years. A VOTE FOR BREATHITT IS A VOTE FOR OUR CHILDREN'S FUTURE!

State Detective Potter said the youths first broke into the concession stand of a drive-in theatre, near Pikeville, and that they later admitted taking \$18.85 in cash there. Working downriver, they next burg'arized Jones' Store at Banner, taking clothing. At Allen they broke into the Williamson Glass Company, operated by R. C. Dyer, and stole some tools. These, De tective Potter said, were apparently used to force entrance to the nearby Hall Concrete Block Products Co. from which cash was taken. Their last reported break was at the home on the Auxier road of Russell Dixon,

CIRCUIT JUDGE

The high office of Circuit Judge demands the candidate to seek justice for those who must be in court, offer himself as one whose personal morality is above criticism, who would give firm decisions and would lend dignity and respect to the business of the court.

My opponent, who has promised to retire, raises issues which should have been already solved by him as your judge. If they still exist he can solve

Let us examine the issues, all mentioned by my opponent, one by one and see whether he is sincere, or whether he is raising a smoke screen to call your attention away from his failure to use the power of his office to enforce the laws in Floyd

1. My opponent, Edward P. Hill, says that a liquor monopoly exists in Floyd county. He has been County Judge for eight years and Circuit Judge for eighteen years, a total of twenty-six years. A power of his office allows him to call special grand juries, to force speedy trials, to make his rulings firm and without favor, and to sentence those found guilty without political protection or favoritism. I have pledged you SPECIAL GRAND JURIES, but no special consideration to those who violate the

2. Most of you know that six years ago he promised to retire and promised he would not seek reelection. This is the same old story - give me one more term. He tells you that the law has changed. Under the old law he could have retired and drawn \$4,700.00 per year. Now he can retire and draw \$6,156.00. This is more than \$500.00 per month. As a young man I am more interested in service than in retirement. I am more concerned with truth, personal morality and dignity in our Floyd County Courts than in a big retirement pension and personal favoritism in our courts.

In desperation my opponent hopes to win sympathy by his retirement plea. It is the same plea he made six years ago when he promised to never

3. My opponent has publicized his failure to notarize his declaration papers properly. This issue was raised by my opponent, not me - another smoke screen. I shall not take advantage of my opponent's failure to follow the law. I want the people to vote and elect their Circuit Judge - and to choose the candidate also who will make a sober, discreet, law-abiding judge.

SENATE BILL NO. 296, 1958 GENERAL ASSEMBLY

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

Section 1. The Constitution of the Commonwealth of Kentucky is hereby proposed to be amended by the ratification of a new section to read as follows:

The General Assembly shall by law provide for the issuance and sale of bonds of the Commonwealth, notwithstanding the limitation of indebtedness in Section 49 or any other section of the Constitution of Kentucky, which shall be in addition to all other bonds of the Commonwealth heretofore authorized. The proceeds of such additional bonds, or so many thereof as may be necessary for the purpose, shall be used and appropriated SOLELY for the purpose of paying a cash bonus not to exceed \$500 for service outside the continental limits of the United States, and \$300 for service in the continental United States to the veterans, their widows or heirs, or next of kin, of the Spanish-American War, World War I, World War II, and the Korean Conflict, who were residents of the Commonwealth at the time of their ENTRY into the service and at least six months prior thereto. The General Assembly at the same session authorizing the issuance of the bonds shall levy a tax upon all retail sales at such a rate as will pay the interest upon and retire the bonds in not less than 30 years, PROVIDED that retail sales of FOOD and FOOD PRODUCTS, MEDICINES and CLOTHING may be EXEMPTED from such

The Sales-Tax is supposed to be used SOLELY to pay the Veterans Bonus. IS IT?

PROVIDED

The Amendment plainly states, retail sales of FOOD, MEDICINE and CLOTHING may be EXEMPTED from such tax. ARE THEY?

YOU voted ALL VETERANS, Residents of Kentucky AT THE TIME OF ENTRY into service would receive \$300 for Stateside and \$500 for Overseas service. FEW got the full amount. Veterans residing outside Kentucky AFTER DISCHARGE had to MARCH ON FRANKFORT to get their Bonus, RIGHTFULLY THEIRS as stated in the Amendment. NO WHERE does it require a Veteran to be a resident AFTER DIS-CHARGE.

the three-day convention. The convention begins at the Harlan high school auditorium at 6:45 Friday evening. C. W. Blalock, circuit minister, will welcome an expected 500 delegates from three states, Tennessee, Virginia and Kentucky.

FRANK DeROSSETT

FOR

CIRCUIT COURT CLERK

TO THE CITIZENS OF FLOYD COUNTY:

YOU HAVE WITHIN YOUR GRASP THE OPPORTUNITY TO MOVE FLOYD COUNTY UP THE LADDER OF PROGRESS. -

Several years ago when the automobile first came to Big Sandy, you were considered a qualified driver if you could point a car in the right direction on a long crooked country road - But that day is far behind us.

Gradually our roads got better, our cars faster and more numerous with the tragic results of death on every curve. Nine out of every ten Floyd County families have experienced the bitter grief of a highway accident. Insurance rates sky-rocketed - They have doubled and tripled to pay for our folly.

In this age of space and speed - with our eyes on the moon and planets more distant - Floyd County has stood still. Our schools lack the equipment to train our young people to drive on super-highways with their turnpikes and clover leaves. It is never impressed on them, that an auto in inexperienced hands, is truly a deadly weapon.

I promise you without any if's, and's or but's, to remedy this situation.

I AM THE ONLY CANDIDATE FOR CIRCUIT COURT CLERK that has agreed to sponsor this Driver-Training program in every Floyd County High School. Other counties have such a program-Floyd County desperately needs it!

Consequences

VOTERS of FLOYD COL

This campaign for the office of Commonwealth Attorney will be completed in the next three weeks.

Mud-slinging has never been used by my opponent or myself, and I sincerely hope that the campaign will be completed without any mud-slinging.

The voters should compare the record of my opponent, Jarvis Allen, when he was your former County Court Clerk, and my record as Trial Commissioner under County Judge Henry Stumbo.

After this Review of the Record, the voters should cast their votes for the man who will render Friendly, Honest and Capable Service.

I say to the voters again and again that I pledge and promise to render friendly public service to the citizens of this county.

It is my belief that a Public Official should be a Public Servant and not a Public Boss.

In regard to crime, I pledge that I will "Seed the Truth," for Truth will prosecute the guilty, and also protect the innocent. Your support will be appreciated not only during this Campaign but in the future.

THIS IS THE TRUTH

Highway Improvements In Floyd County By the COMBS Administration

Vote for Breathitt---Continue To Build Roads!

In its first three calendar years through December 31, 1962, the Combs Administration spent a total of \$8,301,301.72 in Floyd County to build and maintain roads.

Floyd County's allocation for rural secondary roads and rural highways for the 1962-63 fiscal year is \$284,630.60. Distribution of rural secondary road funds (2/7 of the 7-cent gasoline tax) is now determined by the Rural Secondary Formula, which was adopted by the Combs Administration in 1961 and then enacted into law by the 1962 General Assembly. This impartial formula guarantees every county a fair share of such funds. Floyd County's 1962-63 allotment under this formula is \$219,775.56. In addition, the State will spend \$64,855.04 this year in Floyd County under the rural highways program.

Under the past administration, only \$131,967.43 was spent in Floyd County for rural secondary roads and rural highways in fiscal year 1957-58. The record shown below was copied from Highway Department files. The "real" truth is far different to what was printed last week by the Chandler forces regarding Floyd County highway construction under Combs.

Dogwood Tree Planting Promoted By Immigrant

Adolf extolled his "heroes of spring" from Palestine, Texas, to Greenfield Hill, Connecticut, where dogwoods were first planted ornamentally as early as 1795. One of his early gifts, made jointly with another nurseryman, went to every school in Montgomery county, Pennsylvania. He once gave Nicholson, while the writer was managing editor of the Country Gentleman, 26,-000 packets of dogwood seed for free distribution.

The happiest year for Muller was in 1941 when the Men's Garden Club of America gave him their annual Johnny Appleseed award and he was chairman of the committee that planned the dedication of Valley Forge's dogwoods to George Washington and his army Two years later, after a fatal heart attack, he was buried beside the chapel at Valley Forge near a grove of dogwoods.

WHY WE ARE FOR **BILL REYNOLDS**

We, the friends of Bill Reynolds, want to take this means of stating why we are supporting him for Representative of the 95th Legislative District. Mr. Reynolds has for many years devoted himself to various civic causes in Floyd county without any compensation whatever except the satisfaction of serving his people. It was he who sparked the drive to raise \$100,000 to buy the Community College site here and under his leadership as president of the Floyd County Parent-Teacher Association Council the new Garth Vocational School is now being

His leadership as head of the P.-T.A. Council has resulted not only in the construction of the Garth Vocational School but the group has brought about many accomplishments, among them the renovation of classrooms at various schools. He feels that the children of our area are as entitled to educational opportunities equal to those of Lexington and Louisville.

Mr. Reynolds served as chairman of the Fi nance Committee of the Big Sandy College Development Association and by working with 3,000 other participants, raised the necessary amount to insure the purchase of the college site and the construction of the institution will soon be started. The hundreds of boys and girls who will attend Prestonsburg Community College and Garth Vocational School will have a greater opportunity due to the dedicated efforts of Bill Reynolds.

We urge you to join with us in supporting him not only because of his civic accomplishments in the interests of our people but because he will continue to dedicate himself to the job of making a better and greater Floyd county. Not only that but he is sober, honest, a man of dedicated purpose and with high ideals of integrity. He has nothing whatever to say against his opponents and will not indulge in mudslinging. He expects to win upon his

Again we urge you, in the interest of our children and all our people, to vote for Bill Reynolds for Representative.

BE SAFE-NOT SORRY

LAW ENFORCEMENT is at the lowest ebb in the memory of men now living in Floyd county. By all means, let's keep Judge Hill until we can get some help.

Judge Hill is well known for his firm and experienced handling of CHILD DESERTION CASES.

If you were involved in litigation, either civil or criminal, you would not have to worry about Judge Hill being influenced by the Chandler or Breathitt political organization.

On May 28th we nominate a Circuit Judge for six years. It is better to be safe than sorry.

L. T. is Lowell Hughes, of Prestonsburg, Floyd county, son of J. T. Hughes, owner and operator of Hughes Motor Co., Cadillac dealer in Prestonsburg, a friend and supporter of the Combs Administration, and is the son-in-law of A. M. Howard, of Howard Wholesale, Allen, Kentucky.

The records at the University of Kentucky will show that Lowell was a full-time law student during all the period set out and the Department of Revenue had him listed on their payroll as Field Representative.

How many of you students have had to work part-time and borrow from your relatives and home-town banks to go to college???

Maybe you could have qualified for a job like this had you lived in the Governor's hometown and your father was a Cadillac Dealer and worth over One Hundred Thousand Dollars. The Administration's Candidate says he approves all the Combs payrolls — the only thing he needs is keep the Sales Tax on Food, Clothing and Medicine so that they can continue the payroll padding. This is not an isolated case, just one of the many hundreds, in the state of Kentucky.

Hughes' expense account will be published in next week's issue.
