In reply to that rumor, let me put it as plainly as I can:

I promise the people of Floyd county that, if I am elected their Sheriff, NEITHER MACK LEWIS NOR ANY OTHER PERSON WHO HAS BEEN CONVICTED OF A FELONY WILL EVER BE A DEPUTY OF MINE.

I hold for my brother the brotherly love that is natural. But our mutual regard for each other does not lessen my duty to the people of this county. I would not have Mack as my deputy, and I am sure he would not have the job if it were offered to him.

W. M. HALE, POLICE JUDGE

P. O. Box 133

W. PRESTONSBURG, KENTUCKY

April 19, 1965

#### TO WHOM IT MAY CONCERN:

It is not my purpose to become personally involved in any of the races for County offices. However, a question has been raised by friends of the County Attorney of this County which affects the caliber of the judicial administration of this City.

I have been Police Judge of the City of Prestonsburg for over three years. During this time I have served with two City Attorneys. Mr. Fred Francis served in this capacity until approximately six months ago when Mr. Clifford B. Latta was appointed to fill a vacancy created by the resignation of Mr. Francis.

Through the effective efforts of the City Police Department, bootlegging has been held to a minimum, and during the tenure of Mr. Latta as City Attorney it has only been necessary for me to call on his services in the prosecution of one liquor case.

In that instance the defendant was fined \$100.00 plus costs, the maximum penalty permitted by law, and not \$20.00 as reported by the statement in the Floyd County Times. The jail sentence was suspended due to serious illness in the family of the defendant. This action was taken by me independently of the City Attorney who had recommended that the jail sentence be

The statement made by the Committee for Mr. Sturgill relative to the handling of liquor violations by the City Court is misleading and untrue. The most serious liquor problems facing the City come from business establishments located outside the city limits on either side of town.

## We Should Be With Them in the river. The corn in the jug makes us In Their Time Of Tragedy

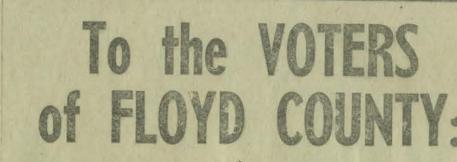

Floyd county has had its share of tragedy, and we of all people should have a kinship in the sufferings and trials of others.

This thought occurs to us as we learn of the heavy loss of human life and the destruction of property a few days ago in Indiana. Ohio and other states. Brave people there are facing stern tests as they bury their dead, care for the injured and try to pick up the torn remnants of homes and belongings.

We have, in our trials, experienced a great deal of the compassion of other sections of the state and nation. Now, it is our turn-not merely our turn to repay them because they gave, nor to help because we may again be in need, but to help those who need help and because many of us have the means to do so.

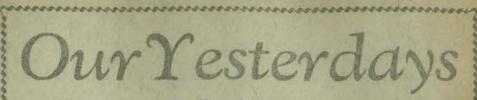

How shall we do it? Direct contributions of cash, clothing and food are fine. But to whom shall we send these? We need to know somebody who is on the scene.

The Red Cross is there. It is always there, wherever disaster has struck. The Red Cross here will help to get our gifts to the scene of these present tragedies and to wherever tragedy may in the future come.

## **COMMITTEE OF 500 ENDORSES LEWIS FOR SHERIFF**

The Committee of 500, composed of Floyd County businessmen, teachers, ministers and the general public, was organized to combat bootlegging and for more than a year we have dedicated ourselves to that task. We have sought no fanfare of publicity and we have raised the funds for our work within our own ranks. We have paid out money as rewards, to lawyers and for printing. We feel that we have accomplished a few things in our attempt to make Floyd County a better place in which to live.

We are Democrats and Republicans for no party has a monopoly on good citizenship, civic-mindedness and a devotion to law enforcement. We have no intention of engaging in the heated turmoil of Floyd County politics in the manner and to the extent that has too often disgraced our county. We do plan, however, to vote for the best interests of ourselves and our children. When we do that we are voting for you and your children.

After a study of the record of Joe Wheeler Lewis, candidate for Sheriff, and after lis-

## DR. HYDEN'S CHALLENGE **TO JUDGE STUMBO TO DEBATE**

March 31, 1965

Hon Henry Stumbo, County Judge of Floyd County Prestonsburg, Kentucky

Dear Judge Stumbo:

Traveling about Floyd county I have found, as I am sure you have, that the citizens and voters are interested in the affairs of the office of County Judge.

In my attempt, and I am sure has been yours, to keep the office rather than the man in proper perspective, I find that the voters and citizens would like to know our attitudes, our qualifications and our plans for the betterment of Floyd county. It is difficult for them to learn this from first one campaign force and then the other at different times.

For this reason I feel it would be of great advantage, for the voters of Floyd county to hear from both of us upon the same platform, or from the same source at the same time, our views and ideas.

I therefore suggest that you meet me on the radio, previously advertised, or upon public platforms, with proper notice to the public so that we may each express our opinions as to the handling of the office of County Judge.

I am sure details of this arrangement could be more effectively arranged by our representatives, who could meet and suggest the ground rules, being the nature of the debate.

If you find this satisfactory, please advise but in the meantime, I am forwarding a copy of this letter to the Floyd County Times, radio stations WDOC and WPRT. If within the next few days they appear unresponsive to this request, then I shall publish this request for debate at my own expense, in the Floyd County Times and as a paid political announcement on those stations as stated.

Sincerely,

soot, smoke, grime to spot walls, stain curtains. So much quicker, too. Meals cook automatically. Gives you more time for other activities . . . and your family!

You'll feel safe with flameless electric. No pilot lights, no fumes. Find out for yourself today why only electricity provides flameless cooking. Join the big parade to your Modern Electric Living Dealer!

REMEMBER ... ONLY ELECTRICITY PROVIDES FLAMELESS COOKING!

pest tag carpet that belonged to the family, protected, except on Sundays, by pulling down the shades to keep the sunlight from fading the various stripes of colored strands. And, at the windows, there were lace curtains, too, strikingly like the ones I knew. Lace curtains, you younger people, were curtains to you; but we, and my student's grandma, called shades curtains, too; hence the need for an additional word in lace curtains. At the door was a padded brick, with colored silk-scraps cover, and briar-stitching around each scrap. And, my student told me, there was the typical musty odor over everything, for the room was shut up six out of seven days and had had time to accumulate this front-room odor.

The longer I live, the more amazed I become that our most ordinary customs were so much alike in large areas of our country. Somehow it seems natural for language to keep some of its oddities, but why should the way a house is decorated survive over areas thousands of times. bigger that the Fidelity area or the larger area around Mammoth Cave National Park? Ages ago the pioneers left Virginia and North Carolina and came into what was then called the West. And, in every such settlement, traditional ways were kept up, long after the older generation had passed away. Some places in southern Illinois and southern Indiana are so much like our own western Kenutcky that the Ohio River seems like a mistake or, at best, a branch.

## DR. ED LESLIE **APPEALS TO VOTERS**

I want to take this means of appealing to the voters to support my brother, David Leslie, for Sheriff of Floyd county. It will be impossible for me to see all of my friends and relatives before the primary and I want you to consider this a personal appeal.

David Leslie has the record of an honorable man and has served in various public capacities. He was an outstanding and efficient Prestonsburg policeman and learned the basic precepts of law enforcement here. He is a veteran of World War II and served his country well. He knows how to treat people fairly. He was never a "black-jack" policeman and if elected Sheriff will not tolerate his deputies using their power and position in an arbitrary manner.

David will install deputy sheriffs in office who will be a credit to the office of Sheriff and whose only object will be to serve the public with fairness and efficiency.

I appeal to my friends, relatives and to all the voters to weigh the qualifications of my brother. He will make you a good Sheriff, EASTERN

#### A RECORD OF SERVICE TO THE DEMOCRATIC PARTY:

I have served as President of the Young Democrats of Kentucky; President of the Floyd County Young Democrats; National Committeeman from Kentucky; member of the Democratic State Central Executive Committee; Co-ordinator for John F. Kennedy in 1960; Speaker's Bureau for Breathitt for Governor in 1963; Committee for Kentucky for Johnson-Humphrey in 1964.

Because of this background in party affairs I have been able to help Floyd county get its fair share of all federal and state programs. My work for our Democratic Party qualifies me to act in close cooperation with state and federal officials. I know we have accomplished much in the last four years and much more can be done. I believe the people know I can help and be of greater service because I know the people in Frankfort and Washington. I have proved I can get things done for Floyd county.

#### RECORD OF PLANNED PROGRAMS OF PROGRESS:

As your County Attorney we have accomplished the following programs:

- 1. New Courthouse.
- 2. Clearing and snagging Right Beaver Creek.
- 3. Food Stamp Program.
- 4. Unemployed Parents Program.
- 5. Community College.
- 6. Anti-poverty Program, Advance Planning Money, \$23,900.00.
- One of the first counties to qualify and the staff has been hired ready to move ahead.
- 7. Extensive Rural Road Program.

Every home in Floyd county has benefitted by these programs. It is just the beginning. If we continue to cooperate with all officials we can get more. During the last four years Floyd county has a record of getting the most first-We must continue on this road of planned progress.

#### RECORD OF LAW AND ORDER:

I am against organized crime and bootlegging. During my term as County Attorney the forces of organized crime have failed in their attempt to take over in Floyd county. My firm stand on the prosecution of bootlegging and all crimes has kept the crime organization from taking over. I will continue this fight! -I will continue to cooperate with the Governor's office, State Police, ABC Agents, your Sheriff and all interested law enforcement agencies to curb organized crime and especially bootlegging. Let me say again I appreciate the help and cooperation of the ministers, churches, P.-T.A. groups and citizens in helping in this fight. I ask you to stay with me in this fight for law and order.

#### A RECORD OF KNOWING THE PEOPLE AND THEIR PROBLEMS:

It is necessary for a man to know the people he serves and understand their problems. The people must know their County Attorney. Does he know them? Is he a man who can understand and give friendly, efficient service to ALL the people? I have had experience in the County Attorney's office. I have worked hard and given leadership and service to ALL our people. I believe the people know me. Ask yourself, Do you know the other candidate for office? How will he do? Should we change?

I was born and raised in Floyd county. I attended the schools of Floyd county. I grew up and played ball with your children. I know the people and have a great desire to render great public service to all our people.

## People who buy other big expensive-looking cars get one thing you won't (big expensive-looking payments)

It looks like a big car. And is—by almost any standard you want to apply.

Width? Nobody builds a car as much as one inch

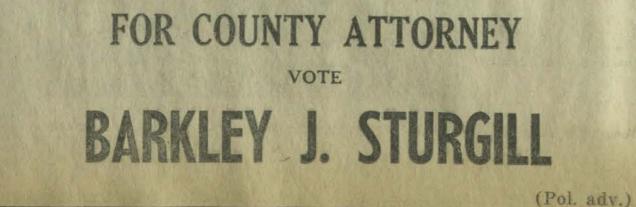

ride? Chevrolet engineers took the Jet-smooth one and smoothed it out even more this year. Also made it more stable by widening the wheel stance. Custom features? wider. Length? It grew three inches this year. Roominess? You can personalize your Chevrolet all you want because there are nearly 200 custom features to choose from. Price? That's where Chevrolets fall way short of the other big expensive-looking cars. But we wouldn't have it any other way. Would you?

One last question: How soon can you make a good

spring buy on a Chevrolet? One last answer: Just as

soon as you can get down to your Chevrolet dealer's.

I ask your vote and support for County Attorney, so we can look forward to four more years of continued progress and service.

Every closed model's got three inches more shoulder room, front and rear, and more leg and foot room up front too. Luxury? Nice little touches like the look of mellow walnut across the Impala's instrument panel. And big touches.
