Twenty Years Ago (December 5, 1946)

In Washington Wednesday, Federal Judge T. Alan Goldsborough levied a fine of \$3,500,000 upon the United Mine Workers of America, and one of \$10,000 upon the union's leader, John L. Lewis, after their conviction on a contemptof-court charge growing out of the 14-day-old soft coal work stoppage ... The Court of Appeals, Friday, upheld Circuit Judge E. P. Hill in his dismissal on demurrer of a petition contesting the Dry victory in Little Paint precinct September 23. The court also ruled that Judge Hill's refusal to suspend prohibition in the precinct until outcome of the contest action is finally determined was correct. As a consequence, sale of alcoholic beverages in Little Paint precinct will become illegal December 28... Construction of the new Irene Cole Memorial Baptist Church, began here two weeks ago and to be completed by next spring, will entail an expenditure of \$40,000, it was estimated this week ... First games of the new Veterans of Foreign Wars eight-team basketball league were played Tuesday night ... Christmas Season Also Accident Time, State Drivers Told

Frankfort, Ky. - The Christmas season is a joyous period for everyone but it is a potential traffic accident generator because of the rush to complete shopping chores, drinking at parties, early hours of darkness and often inclement weather, says Charles B. Jones, director, Division of Accident Control. Department of Public Safety, ir a warning to motorists.

Drivers were asked to use extra caution during the holiday period.

"They must use good sense in driving to stores on last minute shopping errands," he said. They should keep their vehicles in tip-top shape for operation in winter storms often hit this area about this time."

"If the streets and highways are slippery, a void sudden moves." the state director warned.

"When you suddenly come upon an icy patch of pavement he sure your front wheels are rotating if you are trying to turn. he said. "Hard braking will lock them. Then the tires act like sled runners and you slide straight ahead. You feel helpless sitting with your wheels cramped right or left while you slide straight into a ditch-or into the path of another car. 'Pump' your brakes and slow down, then coast over the ice.

"Care and common sense will go a long way toward assuring a safe and Merry Christmas for you and your loved ones," Jones concluded.

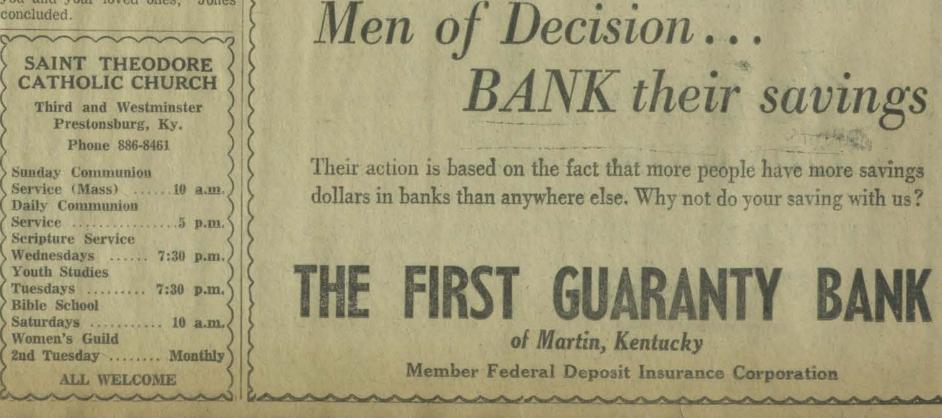

For he-man cleaning jobs, you need the power of a modern automatic washer - plus the controlled tumble-dry action of an electric dryer. A flameless dryer protects clothes from whipping wind, rain, dust and sunlight fade. And with an automatic electric dryer there are no flames, no fumes, no "yellowing" by-products of combustion

blown through your clothes. Gain washday freedom from work and worry with an electric dryer that costs less, dries best.

\$15 SAVINGS! Ask your Electric Appliance Dealer about his special wiring circuit certificate that saves \$15 on installation of a new electric dryer.

OPEN LETTER TO STRIKING EMPLOYEES OF THE GAS COMPANY

At the Gas Company, it has always been possible to be both a good Union member and a good employee-and it always will be.

If your conscience tells you that the strike should go on, you should support it. But what if you believe that the Union leaders are acting arrogantly and irresponsibly, and are bringing shame and disgrace to you and the Union? If **THIS** is what you believe -as do many of your neighbors and fellow Union members-then you have good reason to return to work.

The law is clear. It specifically guarantees your **RIGHT TO COME TO WORK.** One of the reasons the law was written this way was to protect you from being forced to follow irresponsible Union leaders.

Your Union leaders have called those who have returned to work "weak sisters," and have threatened them with blacklisting and Union fines. Such statements and actions are

UNITED

irresponsible and unjust, because it takes courage to stand up for what you believe in-whether this requires that you strike or return to work. Everyone respects a person who acts in accordance with his conscience.

The weaklings and cowards are those who have been sabotaging the Company and risking the safety of innocent and defenseless men, women and children. These are the kind of people who would threaten you with blacklist and fine to keep you from using your right to return to work. You do not have to FEAR UNION THREATS OF BLACKLISTING AND FINES. Blacklisting is illegal, and you do not have to pay Union fines to work at the Gas Company, or any other company.
