## MAN ARRESTED HERE IN \$17,000 ROBBERY

### LANCER RAID FRIDAY NIGHT ENDS SEARCH

Most of Bank Funds Taken Found; Marson Held to \$20,000 Bond

Less than a week after he had allegedly robbed a Baltimore, Md. bank of \$17,000, Jack Leslie Marson, 27, was a prisoner here and most of the loot was in the hands of officers.

Marson was taken in a raid staged around midnight last Friday on the home at Lancer of his father-in-law, Darwin Rose, by federal, state and county officers.

His bond was set at \$20,000 Monday when he was arraigned before U. S. Commissioner Kessinger, in Lexington. A preliminary hearing was set for him at Lexington, Wednesday morning.

Officers here said Marson is accused of robbing the First National Bank of Baltimore and of shooting his way out of a police trap. The trail to Lancer apparently opened up to FBI agents when they learned that he married a girl from there and that her parents still lived at Lancer.

When arrested, Marson had \$2,490.71 in his wallet. Later, his father-in-law found \$14,000 packed into a polaroid camera case which had been hidden beneath a pile of scrap iron at the rear of the Rose home.

Arrest of Marson, who is said to be a native of North Carolina, was effected without gunfire, but it had its moments of drama and threatened violence. Special FBI Agent-in-charge Cliff Carmody, two other agents and State Trooper Orbin Combs guarded the rear of the Rose residence while State Trooper Donald H. Goble and Deputy Sheriff Lonnie Herald went to the front. As Goble stepped to the living room door he saw a man dash into a rear room. He walked inside and was at the doorway between the two rooms when Marson, after apparently spying the

#### HO-HUM!

If you have an idea that, maybe, you can do the unusual more than once and still attract attention—forget it.

Take the case of those two astronauts who blasted off (I hope), Wednesday morning, for swings through space, a rendezvous with another capsule and a "walk" around the earth by one of the two.

A year or so ago, we would have flocked around our TV sets to watch the takeoff; or, if unable to watch, would have been anxiously inquiring of every person we met about the success or failure of the space shot.

Well, I got around to asking about this one, around 3 p.m. Wednesday. First, I asked in the County Judge's office. Three persons there hadn't heard. One remarked, "This is the day, isn't it?" Outside in the hallway, three others hadn't heard. In two other offices six others were as far behind as I on the news. Not till I reached the Circuit Clerk's office was any information forthcoming, and there I was told by one of the girls that she had heard a little girl say she saw them off.

Do you think the time will come when a citizen making a round-trip excursion to Mars will get no more than a few lines and an eight-page headline in the local paper?

## P'BURG MAN CARRIES CASE TO PENTAGON

A former Army officer from Prestonsburg picketed the Pentagon in Washington Monday, dressed in his uniform, that of a lieutenant colonel, in an attempt to get a hearing on his complaint that he has been deprived of his benefits as a veteran.

The demonstration was staged by James D. Stephens, who from a position outside the building displayed a sign listing questions which, he says, demand an Army answer. The demonstration ended after a Pentagon duty officer promised to look into his case.

Stephens claims long and persistent efforts to get a hearing before the Army's Physical Examination Board on his claim for a pension on the grounds of disability have never resulted in more than promises, that he has never been given a hearing.

He was commissioned a second lieutenant in 1937, entered the Army in 1941 and served in the European Invasion with the Third and Seventh armies under Generals Patton and Patch. (A photograph taken in 1945 and published in The Floyd County Times shows Stephens, then a lieutenant colonel, with a Polish general who had been freed from a German prison camp by Stephens' command.)

Yet, he says, the Army certified him to the Veterans Admin-

istration as having had no combat service.

He said he submitted his resignation in April, 1954, but still was kept on as a Reservist although he did not request it. Because he was kept in service, Stephens contends, the Army is estopped from claiming his disability existed prior to his Army services. He said he later attempted to reenlist as an enlisted man in order to round out the necessary time for a pension.

He said he was rejected for physical reasons, only to be called up as a Reserve officer for three successive years for two-week summer tours of duty.

On the third of these, while stationed at Ft. Meade, Maryland, he suffered a heart attack and was treated at Walter Reed Army Hospital. After a few weeks at Walter Reed, he said, he was told to go home to Kentucky. The Floyd countian said he first suffered chest pains in 1951. It was during that year that he underwent a gallbladder operation while on duty in Okinawa.

He said he finally learned from the Army two years later that his orders at the time were merely to return to his "proper organization," which would have been Fort Meade.

He said that on the basis of (See Story No. 2, Page 6)

## FOREST FIRE DRIVE MADE

Crackdown Is Begun On Floyd Violators, Foresters Announce

The Kentucky Division of Forestry announced this week that an all-out campaign against forest fire law violations has been launched this season.

Charles Foster, district forester, said that the drive on violators began March 1, with all Division of Forestry law enforcement officers, rangers and guards exerting a maximum effort in enforcing the laws.

Oliver Hall, forest ranger, said Monday, that he alone issued 10 citations during the week-end.

The citation is a new tool which will speed up law enforcement and will be a courtesy to violators. The violators will be cited into court at a scheduled time and place, but, if the violator fails to appear, a warrant will be issued for his arrest. This will add additional court costs for the accused, if convicted.

The laws most commonly violated are:

1. No person shall set fire or cause to have fire set on any forest land not owned, leased or controlled by him.

## TAX OFFICE NOW CLOSED

Assessment Deadline Past, Office Closed Thru Next Tuesday

The Tax Commissioner's office closed at the end of business Tuesday, the deadline for taxpayers to list property for taxation, and will remain closed through next Tuesday.

No further assessments will be received.

It was estimated Wednesday that 75% of the Floyd county assessments has been completed, but it was admitted this is a guess, since no tabulation of assessment returns has been made.

The office is being given State Department of Revenue assistance, and property of those who did not file their lists will be assessed on the basis of data at hand and, in some cases, after inspection.

Taxpayers may inspect the assessment lists during Inspection Week, the first week of May, and also may appeal to the board of supervisors which will be in session for five days during the following week.

The tax rate cannot be established until the total assessment figures are known, which will be after the board of supervisors meets.

## FIRM LEASES P'BURG SITE

Tastee-Freez To Begin Building of Restaurant Here Within 90 Days

One of 75 Tastee-Freez installations planned for Kentucky this year will be located in Prestonsburg, and construction of a building to house the business is slated to begin here within the next 90 days, it was announced here last Friday.

The Harlee Company, Chicago, parent firm of the Tastee-Freez chain of restaurants, has taken a 20-year lease on a lot owned by the Music-Colvin Motor Company, on South Lake Drive. On this site, which is the former NYA Shop location, the building will be erected and parking areas provided. The lot fronts on Lake Drive (US 23) 125 feet.

The structure planned will be mainly of glass and masonry. It will have a seating capacity of only about 20, since Tastee-Freez primarily renders curb service. Its menu headliners are hamburgers, hot dogs and ice cream products.

Prestonsburg was selected for the first Tastee-Freez location in the valley and was appraised by a company official as "one of the finest towns in Eastern Kentucky." Paintsville and Pikeville are also being considered as locations, it was said.

Almost 1200 Tastee-Freez units are in operation in the United States, and 257 are in operation overseas. The unit here will be open, the year round.

Local personnel will be trained, if available; otherwise, the company will bring its employees here.

## Strawberry Orders Top 90,000 in County, Passing Expectations

Orders for strawberry plants in this county have reached the 90,000 mark, according to Gene Bell, chairman of the Floyd County Extension Service.

According to Mr. Bell 99% of all orders thus far taken have been for the Pocahontas variety. This is the variety which has been most popular for home use and sales through processing plants.

The number of plants ordered has exceeded expectations, Mr. Bell said.

Orders for plants are being taken by James R. Spurlock at the First National Bank here. No plant order will be taken after Saturday, March 19. Delivery of plants is expected around March 28.

Route B, which would extend from a point near the Prestonsburg Community College through the residential district at the back of Prestonsburg and rejoin the present US 23 approximately a mile and a half east of the central part of Prestonsburg, and then follow the river route to Allen, would cost an estimated \$9. (See Story No. 1 Page 6)

## WARD SAYS DECISION YET TO BE MADE

Commissioner Plans Meeting Here Mar. 31; 5 Routes Considered

Although reports of their studies of routes which US 23 may follow from Prestonsburg to Allen have been completed by Spindeltop Research and Henry A. Spalding, Hazard engineer, Commissioner of Highways Henry Ward this week emphasized the point that no decision on the route has been made.

Commissioner Ward said he has tentatively planned a meeting with officials and business leaders here March 31. A final decision will be made after that meeting is held.

Five alternate routes were studied by Spindeltop and Spalding. Their studies covered distances, costs, effects on business, recreation and other phases of life in the area. The resultant reports evaluated the several proposed routes in the light of these studies.

Apparently, both studies favor Route A—the route extending US 23 via the Mountain Parkway from Prestonsburg to Katy Friend fork of Middle Creek, up that valley to cross the mountain to Bull Creek and on to Allen.

Also given strong consideration is improvement of the existing US 23 through Prestonsburg to Lancer, the bridging of the Big Sandy there and construction of a road to connect with Route A, near Water Gap.

This route would serve to connect Prestonsburg with Jenny Wiley State Park and the extension of KY 3 which, when completed, will extend from Callettsburg to Louisa via the old US 23 route, from Louisa to Inez, on from Inez via Daniels Creek to Dewey Dam and along the present road around Dewey Lake to Lancer. The proposed bridge across the river and the road up Bull Creek to connect with Route A also would link KY 3 and the Bull Creek route for US 23.

Spalding commented that Route A "has a construction cost of 10% less than the nearest and less than one-half of the most expensive" of the other routes studied.

Cost of the Katy Friend-Bull Creek route, a distance of 5.616 miles, was estimated by Spalding at \$5,010,307, including rights-of-way.

Route B, which would extend from a point near the Prestonsburg Community College through the residential district at the back of Prestonsburg and rejoin the present US 23 approximately a mile and a half east of the central part of Prestonsburg, and then follow the river route to Allen, would cost an estimated \$9. ## GRANTS SOUGHT TO BRING ARTS TO DEPRIVED AREAS

Frankfort, Ky.—The Kentucky Arts Commission is now taking applications for grants in aid from groups and organizations interested in making the visual and performing arts available to Kentuckians in areas where exhibits and performances are not readily accessible.

Mrs. John W. Oswald, chairman of the Commission, said the deadline for filing applications is Friday, April 8.

"Applications should be submitted to the Commission at the earliest possible date," said Mrs. Oswald, "because Kentucky is

required to file a state plan with the federal government by May 1, listing all projects under consideration."

Applications are available from the Kentucky Arts Commission, Room 304, Capitol Annex Building, in Frankfort.

The Commission's executive committee has voted to set aside \$50,000 in state funds for arts projects in the fiscal year beginning July 1. Another \$50,000 will come from the National Endowment for the Arts' matching funds program, providing the Kentucky plan is approved.

She said the Commission has no immediate plans to underwrite performances or exhibitions in areas where they are readily available on a continuing basis. She emphasized that Commission funds will not be used to make up recurring deficits for arts organizations or institutions.

HALL CITES DANGER  
FROM STRAY DOGS

Dogs — particularly, stray dogs — constitute a real public health menace, Dr. Russell L. Hall, Floyd county health officer, said this week.

Dr. Hall said that more than 30 children in this county are known to have been bitten by dogs last year. He added that the number reported is seldom, if ever, half the total bitten. Of the dogs reported as having bitten children, he said, 40% or more had no known owners and were classed as strays.

Fearing an outbreak of rabies, the Health Department has made two recommendations aimed at mitigating the danger.

1. Step up the enforcement of the law requiring that every dog must be licensed and have anti-rabies vaccine; 2. Establish a pound for stray dogs.

Health Department sanitarians assist at clinics held each year for the administering of anti-rabies serum to dogs. Dr. Hall said that these clinics are held at about 60 places in the county to make the service easily accessible to every dog-owner but that the number of dogs receiving the immunization is only about 500 a year. These are given the three-year immunization serum, which means that no more than 1,500 dogs — less than 20% of the county's total canine population — is immunized at a given time.

"It has been several years," Dr. Hall said, "since we have had a human death from rabies in Floyd county, but we can push our luck only so far. We will have more deaths from rabies unless the recommendations we have made are carried out."

## ARH HOSPITALS BIG ASSET TO APPALACHIA, COOK SAYS

The ten non-profit community hospitals operated by Appalac- hian Regional Hospitals consti- tute one of the greatest assets of Appalachia, the president of American Electric Power Com- pany told a group of financiers and corporation executives in New York last week.

The audience were officials of 21 corporations who are con- tributing to the hospitals and asking others to contribute. They serve on a 26-member national committee, headed by Cook, which is directing the national drive. They had contributed more than \$150,000 before the cam- paign formally began.

### WHEN THE BUGLE HITS A SOUR NOTE

The apparent disintegration of public morals, which is marked by an ever-increasing crime rate and a growing unconcern for public decency, has caused the President of United States to call for the most intensive efforts toward stemming the tide which has been running against the nation for many years now.

President Johnson has called for action designed to make America's streets and parks and homes—wherever people live and congregate—safe for human habitation.

It is well that not only the face of America be made beautiful but that something be done to the inside of the cup. That will require a lot of doing, more than official proclamations and scattered individual protests. The people of the land will have to do much toward changing their thinking. Some of the old terms will have to return to the public lexicon: Mother will have to take the place of the Ma Barkers; love must have a place among us, without a nest; even CARE cannot take the place of caring.

Even the federal government may have to revise its thinking to the end that it will no longer sanction certain types of crime, simply because those who commit them pay federal taxes.

ITEM 1. It is a crime in Floyd and many other counties of the United States to sell intoxicating beverages. The offense is commonly known as bootlegging. But if the bootlegger gets a federal permit and purveys liquor on which U. S. taxes are paid, he is without reproach in the eyes of federal law, county and state laws notwithstanding.

ITEM 2. Gambling is an offense in most places in this country. But if the gambling house buys a stamp from the proper federal agency, it is as legal in the eyes of the highest court of the land as the oldest bank in these United States.

These may be minor instances of federal dereliction. But, since the top official in the department is talking about crime, it does not seem amiss to suggest that cooperation rather than opposition be given local authorities in their fight on what some of us yet are so naive as to consider crime.

Sometimes the bugler sounds the "Charge!" and it comes out a sour note.

This was the scene in the city parking lot opposite the courthouse on a recent morning at the height of the rush by taxpayers to hand in their assessments to the Tax Commissioner. Standing room was at a premium inside the courthouse, and at one time earlier in the morning the parking lot was filled to capacity.

### THE BIBLE... RICHEST SOURCE OF BOOK TITLES

By the Rev. Robert B. Pattison

(In The Bible Society Record)

"The Bible alone would suffice to show the whole extent of the beauty and power of our language," Thomas Macaulay once stated.

His estimate finds its full proof in the constant usage of Biblical phrases as book titles, by writers of fiction, poetry and drama. The Bible is regarded by the literary world as the richest of all reservoirs of English. There is a picturesqueness, a poetic quality, a dramatic sense, an artistic rhythm that distinguishes it from all other literature. Authors, poets and playwrights have acknowledged this consciously or subconsciously, and a list of such of their works as employ Biblical phrases for titular purposes bears emphatic witness to the fact. Their debt—and ours—to the Bible's English translators is great indeed.

Shakespeare depended heavily upon the Bible as a source book. So did Milton, Bunyan, Ruskin, Addison, Cowper, Browning, Tennyson, Whittier and too many others to list here.

It is not surprising that modern authors of non-religious books continue to rely upon it, particularly for titles. Although the Bible is a book of religion—a spiritual treatise—these writers apparently look upon it as The Book of Life as well.

Some years ago, while preparing a talk entitled The Bible as Literature, the writer compiled a brief list of books with titles taken from the Bible—about 70 titles. Later the list was extended to some 200 titles and appeared during the

summer of 1938 in the Methodist publication, Religion in Life.

The American Bible Society became interested and offered the use of their library. Since the day of my first talk, the modest list has grown to some 2,600 titles. As my prime object on this particular project was to illustrate only one aspect of the Bible—its worth as pure literature—all religious books were excluded. Such titles would have swelled the listing immensely. There is no way of knowing what the list would be if it included all of the Bible-derived book titles of all kinds. It must be remembered also that this listing includes only English-language books published in the United States.

Which of the 66 books of the Bible, it will be asked, is the most frequent source? Psalms leads with 315. Genesis is the second richest source, with 240. Isaiah supplied 138, and is third on the list. As an entity, The Lord's Prayer must be rated most popular with writers. Phrases from it are responsible for 47 recorded titles. Also prominent on the list are titles taken from the imaginatively written books of Proverbs and Ecclesiastes. The Four Gospels have yielded 600 titles to date.

However, the words of Jesus, as a classification, are far and away the most often seen on book covers, the Sermon on the Mount alone (Mt. 5, 6 and 7) providing 160 titles. Jesus had the power of clothing his statements in beauty, of speaking great truths in simple, moving

Martin Tackett, 21, of Mud Creek, was killed by a pistol shot Sunday afternoon at Harold. Joan May, two years old, of Brandy Keg, drowned late Saturday afternoon in Johns Creek, near the home of her grandfather, Walker Spears. A revolver bullet wound in his head sustained last Christmas Day at Wayland resulted Monday night in the death at the Paintsville General hospital of Guy Hall, 16-year-old McDowell youth. James Morell, Sr., and his son, James Morell, Jr., last week sold to B. F. and A. B. Combs, of Prestonsburg, their business property on First avenue here. Cause of the triple slaying was a dispute with a neighbor over a property line. Two Floyd county children, Nancy Sue Short, 6 years old, and her sister, Norma, 3, were burned to death Tuesday night when their grandparents' home on the head of Stone Coal Creek was destroyed by fire. Inez won the regional tournament here last Saturday night, defeating Cumberland 40-23. 296,222 and would be 10.26 miles in length.

It was estimated that Straightening and widening of the present U. S. 23 through Prestonsburg to Lancer will involve the expenditure of \$256,333 and that a two-lane road from Lancer to connect with Route A, on Bull Creek, including the bridge across the Big Sandy, would cost \$1,733,538.

Also studied was a route which would leave the Mountain Parkway extension at a point near the end of the four-lane bridge here, skirt the mountainside to Town Branch and follow that valley to Bull Creek and on to Allen. This 2.55-mile stretch would cost an estimated \$3,036,258.

Projecting highway needs for the Prestonsburg vicinity, Spalding said that by 1975—nine years hence—traffic will require a four-lane, divided north-south facility.

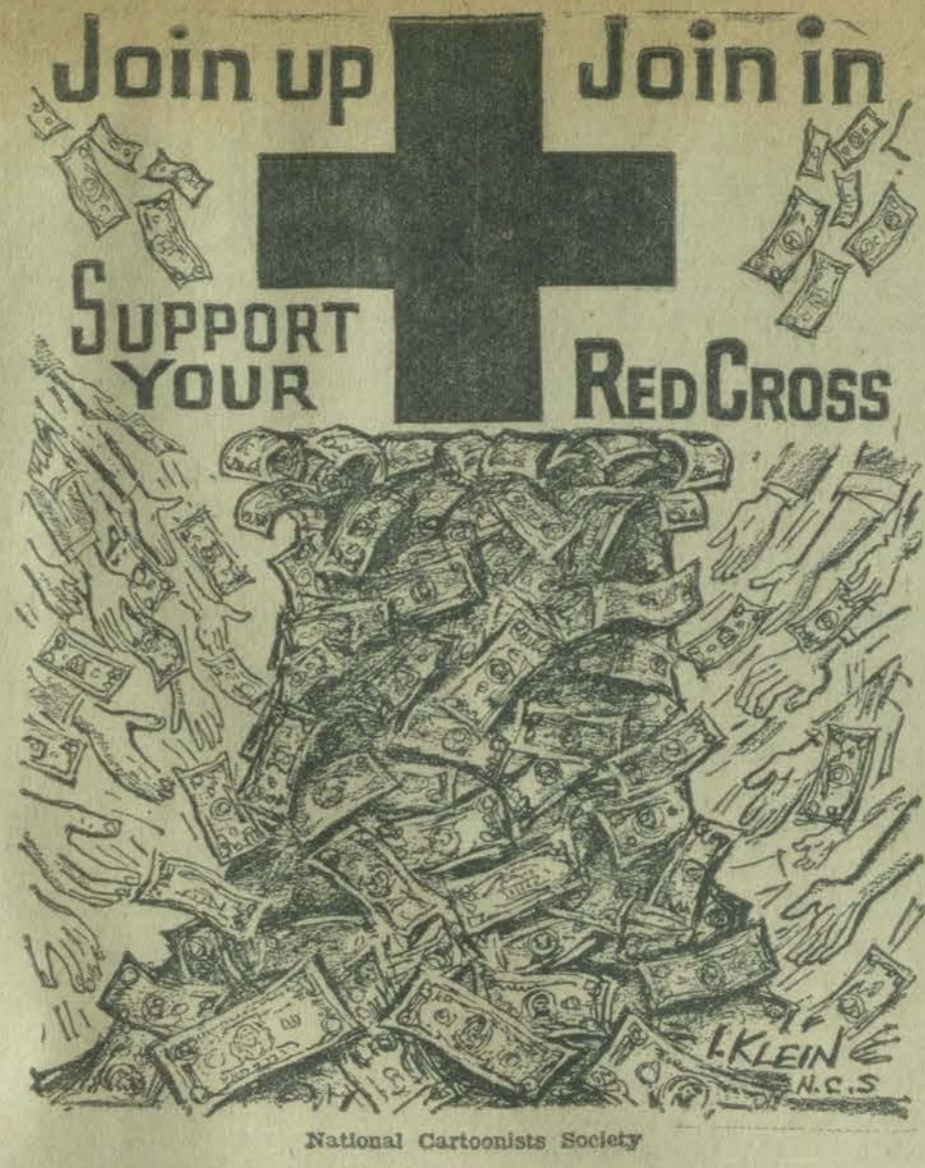

An interesting question was asked and answered by Spalding:

"Where are the areas of the greatest growth likely to be in the central part of Eastern Kentucky?"

"The relevant growth area in central Eastern Kentucky is the Pikeville to Paintsville axis, with Prestonsburg as the focal point."

### Proclamation Notes Accidental Poisoning Of Half-Million Tots

Five hundred thousand children accidentally swallow poison each year, Dr. George P. Archer, mayor of Prestonsburg, said in a proclamation issued in observance of National Poison Prevention Week, March 20-26.

Both Prestonsburg drugstores planned window displays emphasizing importance of the week and pointing to the fact that common household products may produce serious illness if improperly used.

"I encourage all of our residents, particularly those with responsibility for the care of children," the mayor's proclamation said, "to make a concerted effort toward materially reducing, if not eliminating, this type of accident as an obligation to ourselves, our children and our community."

A National survey of house hunters' habits shows that most people visit from six to seven sites before making a selection, and then go back to their chosen home three times before closing the deal.

"Face the Music," a new teenage dramatic film spectacular by Gospel Films, Inc., will be shown Friday, March 25 at 7 p.m. at the First Baptist Church, Allen.

Sponsored by the church young people, "Face the Music" tells the story of Sid Fox, trumpeter and leader of a night club combo, whose pathway to stardom is lined with failure. Geared to modern American teen-agers, it lays bare the materialistic phoniness that is characteristic of so many people today — but it doesn't stop there. In language that teen-agers understand, "Face the Music" presents definite answers to the most important questions they face. It positively presents a personal faith in the Lord Jesus Christ as the only way to lasting happiness and peace with God.

# McDOWELL HIGH WINS PLACE IN STATE NET TOURNAMENT

McDowell high school's Daredevils had a spot in the state basketball tournament at Freedom Hall, Louisville, this week for the first time in the history of the school.

For that initial appearance the Floyd countians drew a tough assignment in the first round, Thursday morning. They have the Ashland Tomcats as the opposition.

McDowell, runnerup to Garrett in the 58th district tournament, won the regional and one of the 16 places in the state tournament by defeating Johns Creek here last Saturday night, 75-64.

The victory rewarded a school which has twice reached the regional finals, only to lose. It also was a happy payoff for fans whose spirit is as fine as any in the region. Last Sunday, a motorcade of a hundred or more cars, filled with jubilant supporters of the team, visited Prestonsburg and other towns in the county.

The Hall brothers, Rickey and Donnie, led the team to the regional championship, scoring 41 of the team's points, and getting strong help from Woody Carter who added 18 more.

The final game was little in doubt and was in marked contrast to the two semi-final contests which saw McDowell edge Meade Memorial, 61-60, and Johns Creek squeeze past Virgie, 76 to 75. In the title contest the Floyd team was off to a 15-11 lead in the first quarter and at halftime was ahead, 37-31. In the last eight minutes of the game the winners hit their stride, scoring 22 points while holding Johns Creek to 15.

Officers at the back of the house, suddenly appeared in the opening, revolver in hand and pointed at the officer.

Goble snatched at the weapon, contrived to hold it away from him and he and other officers finally disarmed Marson. Meanwhile, Mrs. Marson had gained control of Goble's revolver, and Deputy Sheriff Herald said he suddenly found himself threatened by her. An FBI agent seized her and disarmed her.

The household was a scene of wild disorder during the struggles for the weapons, with the crying of women and children contributing to the uproar. Mr. Rose, who had retired, did not rise till comparative quiet had settled on the place, Herald said.

Marson made no statement at the time of his arrest or while he was in jail here. His wife contended he was at home at the time of the robbery but later became silent, also, officers said. No charge has been placed against her.

It was said that the Marsons arrived at the Rose home, five days prior to his arrest and a day after the date of the robbery. Officers indicated they were convinced that Mr. and Mrs. Rose were unaware of their son-in-law's connection with any crime.

Rose and Deputy Sheriff Herald searched the home and surroundings for the remainder of the bank loot, the day following Marson's arrest. Finding nothing, Herald returned to his home on Cow Creek. When he arrived there he was told that Rose had telephoned to tell him that he had found the missing money.

A large sum still had the unbroken First National Bank wrapper around it.

The Marsons have three children. He was employed in a Baltimore plant. Officers said they had learned that the couple had sold their household belongings before leaving Baltimore for Kentucky.

## FOURTH OF THE ELIGIBLE UNSIGNED FOR MEDICARE

With two weeks still to go until the March 31 deadline for enrollment in the voluntary medical insurance part of Medicare, about 75 percent of the nation's older people have already signed up.

The medical insurance will cover 80 percent of doctor bills and a variety of other health services over and above the first \$50 of expenses in a year, supplementing the basic hospital insurance provided persons 65 and over under the Medicare law.

According to figures released this week by Thomas L. Reed, Social Security district manager at Pikeville, 215,000 persons, about 67 percent of the 321,000 65 and over in Kentucky, had enrolled in the voluntary medical insurance as of February 15. Only about 22 percent had decided against enrolling and many of these are changing their minds, he said.

Still to be heard from were about 84,000 Kentucky residents, Read said. The percentage of Kentucky residents who have elected to enroll is slightly below the national average—71 percent on February 15 and 75 percent as of March 1.

The enrollment period for persons who reached 65 before the beginning of this year closes on March 31, Read said. Those who fail to enroll by then will have to wait two years for another chance and pay higher premiums. The premium for those who enroll now is \$3 a month, one-half the cost of the protection. The other half is met out of federal revenues.

Persons 65 and over, whether or not they have ever worked under social security, are eligible for Medicare protection, Read emphasized. Also, both hospital insurance and medical insurance benefits are payable whether or

not they are retired, or continue to work.

Older people in this area who are on the social security or railroad retirement benefits rolls and most working people 65 and over were sent medical insurance enrollment cards in the mail, Read said. Anyone who has lost or misplaced his or her card can get another card from the Social Security district office at Pikeville.

Persons 65 and over who have not received enrollment cards should call, visit, or write the district office for information about enrolling for the doctor bill insurance and also about establishing their eligibility for hospital insurance.

The Pikeville Social Security Office is open, Monday thru Friday, from 9 a.m. to 7 p.m., and on Saturday from 9 a.m. to 4 p.m.

### Resolution of Respect

WHEREAS, KIMBER J. BOWLES died Monday, March 7, 1966, a member of the Kiwanis Club of Prestonsburg, Kentucky, and the Club desires to express the extent of its loss by virtue of his passing.

NOW, THEREFORE, be it resolved by the Kiwanis Club of Prestonsburg, Kentucky:

The loss of Kimber J. "Shorty" Bowles, is deeply felt by this Club and the individual members thereof. Though small in stature, he was great in heart and spirit. His enthusiasm for the work of the Club and its objectives, was unexcelled, and his vigor was an encouragement and challenge to his fellow members. Though advanced in years, he possessed the vitality and optimism of youth, for whom he labored tirelessly. He took great comfort from the simple things of this life, yet his wisdom and sincerity were manifest. He loved nature, people, and his warm countenance was an inspiration to all who knew him. His loyalty and devotion to this Club was second only to his love for God and family. His passing has created a void—it will not soon be filled.

This resolution shall be made a permanent part of the minutes of the Kiwanis Club of Prestonsburg, Kentucky.

Dated this 10th day of March, 1966.

We wish to express our gratitude and thanks to all our friends and neighbors and the Hall Brothers Funeral Home for all the kindness and help extended to us in our time of grief upon the death of our husband and father, Coet Handshoe.

HAZEL HANDSHOE  
AND FAMILY

According to the Kentucky Department of Public Safety, more accidents take place on the road we travel frequently than on the one we seldom use. Familiarity leads to a lack of concentration and can cause a serious accident.

One of the problems of modern living is traffic congestion. You can help keep traffic moving by being courteous and considerate, and keeping both your temper and your vehicle under control, suggests the Kentucky Department of Public Safety.

The Kentucky Department of Public Safety warns that even when traveling at low speeds, we can be seriously hurt if we collide with another vehicle. Seat belts can make the difference between life and death, so wear them EVERY time you drive!

## ASSEMBLY IN LAST WEEK OF ITS CURRENT SESSION

Frankfort, Ky.—The teachers' pay-rise and natural resources bills—hailed by Governor Edward T. Breathitt as ultra-important—were among those which broke through the legislative logjam and became law as the 1966 General Assembly labored toward final adjournment March 18.

A number of other measures were nearing final action—such as the bill to require annual mechanical inspection of automobiles; the one to reappoint the state's seven congressional districts as equal as possible in population; and the one aimed at giving Kentucky a new Constitution.

In signing the teachers' pay-rise bill, Breathitt called it the most important school law passed in the last 12 years, since establishment of the minimum foundation program.

Besides providing pay raises ranging from \$450 to \$1,100 for teachers over the next two years, depending on education and experience, the bill authorizes local school districts to use one of three new taxes to raise money for other school needs, such as buildings.

The natural resources bills I am signing into law," the governor said, "along with the new statutes regulating strip mining, represent the most significant advancements ever achieved on behalf of water, air and mineral resources in Kentucky—and perhaps in any other state."

Action was being awaited in the Senate on the auto-inspection bill which passed the House March 1, Action by the House was being awaited on the Constitution Revision measure which passed the Senate February 28 by a vote of 32 to 0. The redistricting bill was in the House after passing the Senate by a full-membership vote of 38 to 0.

Received in the Senate was a bill, passed in the House by a vote of 50 to 40, which would repeal the 10-cent-a-gallon whiskey production tax at the rate of two cents a year over a period of five years.

The Senate passed and sent to

the House a bill to create a commission to plan and construct an office building in Frankfort for the exclusive use of the legislature. The commission would consist of two senators appointed by the senate president, two representatives named by the speaker of the house, and three members appointed by the governor.

A bill to update Kentucky's 1910 garnishment law was passed by the House and sent to the Senate. It would exempt from garnishment 75 percent of wages and up to \$1,500 of personal property, including a car used in getting to work. The present law exempts \$16.87 a week and mentions "two work beasts" but not an automobile.

The Senate passed and sent to the House the bill which would increase the salaries of governor, other elected officials and 30 appointed commissioners and department heads, if the governor saw fit to raise the latter. The salary of the next governor—after Breathitt—would be increased from \$18,000 to \$30,000 a year. Neither would the raises affect any other elected official during his present term.

The Senate and House both gave final passage to a number of bills and sent them to the governor. He may approve or veto a bill or let it become a law without his signature.

The Senate passed and sent to the governor House Bill 164, which would require institutions having the care of infants aged 28 days or less to administer the "PKU" test which detects the potential of mental retardation in a child.

This bill was introduced by Reps. H. Foster Pettit, D-Lexington, and Kenneth F. Harper, R-South Ft. Mitchell.

Among other bills passed and sent to the governor, and their sponsors, were: HB 250—Rep. Mitchel B. Denham, D-Maysville—To raise employee contributions to the county employees retirement system, with corresponding increases in benefits; and HB 251—Reps. Denham and John M. Smothers.

## If the first part of your vehicle identification number is here, you might be a winner.

Here's how it works. Look at the first symbols (the prefix) on your vehicle identification slip. Then look at the symbols listed above. If you find yours on the list, you've taken the first step toward being a winner. Now go see your Buick dealer. He has a list of 72 winners posted in his showroom. If you see your entire vehicle identification number on the poster—the symbols plus the rest of the numbers—\$2332 cash is yours. (If your prefix isn't listed in this ad, don't give up. Your numbers may have been posted during the past few weeks. And every week there are 72 new winners posted on the showroom wall. So watch for next week's list of new symbols in this newspaper.) No slogan to

invent, no puzzles to solve. In fact, you don't even have to own a Buick to have a winning number. While you're in the showroom, get a good look at the Buick Special. The \$2332.00\* happens to be its price. \*Manufacturer's suggested retail price for Special V-6, 2-Dr. coupe. Price includes Federal Excise Tax and suggested dealer delivery and handling charges.

Contest Rules. Residents of Kansas, Missouri and Nebraska may, if they prefer, send in a postcard to R. L. Polk and Co., P.O. Box 1947, Detroit, Michigan 48231 and receive the weekly list of winning numbers by mail for comparison with their own vehicle identification number. An official entry form will be included. Sweepstakes limited to persons over 21 living in the continental U.S. Not valid in Florida or states where prohibited by law.

### Former Johnson-Co. Sheriff Sued By Paintsville Board

(In The Paintsville Herald)  
The Paintsville Board of Education has filed suit in circuit court against former sheriff Ray Preston and the Aetna Casualty & Surety Company, asking for a declaratory judgment to recover what was termed "amounts in excess" of reasonable cost in tax collections.  
Basis for the suit is the collection cost withheld by Preston, said by the school board as plaintiff to be 3.39 percent.  
The board maintains that the "reasonable cost" did not exceed one percent.  
The total amount involved is \$506,525.07 collected, of which \$489,322.50 was remitted and \$17,202.57 withheld as a commission.  
The suit maintains that a controversy exists between the plaintiff and defendant on "reasonable cost," with the former sheriff contending that the amount withheld was reason-
