We feel that we are duty-bound to render a service which the daily newspapers have failed to provide. In their report on fish-ing and lake conditions this week THIS WEEK the dailies did not mention Dewey Lake. Other lakes, they said, ranged from clar to dingey. When The Mistakes Are Forgotten

The biographical sketch which was a part of the news-story telling of the death at Frankfort last week of Ex-Governor Flem D. Sampson emphasizes two facts:

1. The good that men do lives after them.

2. They usually fail to receive credit for that good until they are dead.

Kentucky governors, from Isaac Shelby to Ned Breathitt, have been prime targets for critics. The late Ex-Governor Ed Morrow gave a pungent description of the governorship which isn't quotable in the original but which meant that it serves Kentuckians as merely an office for the whole state. to take pot-shots at with vulgar abandon.

Now, at this late date, it is recalled that Governor Sampson strenuously advocated free textbooks. Because he, in arguing for this cause, recalled that as a boy he had to trap wild animals and sell their fur to buy his own schoolbooks, he was referred to as "Flim-Flam Flem, the Skunk-Hunter." It also is now recalled that Sampson was the first governor to foresee the great potential in the promotion of industry, tourism, parks and the like. "Kentucky for Progress"-remember how we laughed?

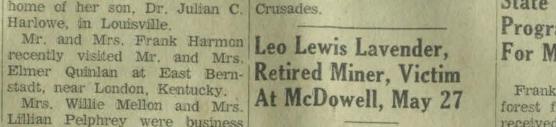

Governor Breathitt and living ex-governors cantake little comfort in the fact that, one late day. their good points will be emphasized and the mistakes will be conveniently overlooked.

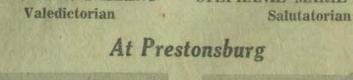

No Criticism For The Fun Of It

We like the response some Division of Forestry personnel have made to criticism resulting from timbering operations in the upper Dewey Lake. area.

Try admitting, as some of these have, that you have made a mistake and that you need to be reminded of your responsibilities, from time to time, and you will not be able to escape the conclusion that these men are being painfully honest about the matter.

The Times does not believe in criticism for criticism's sake, and it does not pose as an authority **IN MEMORIAM** on the matter of forest control and attendant problems. But we are convinced there has been too much slashing instead of methodical timbering and too little regard for the landscape and the future of the lake area, up there in the upper Johns The years have passed away, Creek section. HOME IN KENTUCKY

To thousands of Kentuckians-mostly, Eastern Kentuckianswho are obliged to live in another state because jobs and the means of earning a living are there, Home still is Kentucky.

Many additional thousands who may come now or in the future to Eastern Kentucky for the first time may want to call it Home, too. For here they find a scenic beauty few, if any, places in the land can approach; an escape from the endless, meaningless hurry and bustle of the city; a people who are the friendliest in the world.

A last-minute series of "bonus" questions awarded to the University of Colorado sent the University of Kentucky quiz bowl team down to a narrow 235-220 defeat in a New York television appearance Sunday.

The setback sent the UK team home and allowed the Colorado quartet to retire as a five-time winner.

The Kentucky team, after fallng behind in the first half of the General Electric program, rallied to go ahead with about a minute to go. At that point, the Colorado team correctly answered a question, earning the right to bonus points which lead to the U. C. victory.

All was not lost, however, as Kentucky did earn a \$1,000 scholarship. The all-male team accomplished its major gcal in New York -- "to make a good showing." Representing Kentucky on the program were Robert Howell, Charles G. Nichols, Fred G. Christensen, and David L Mathews.
