P'burg Girl, One of Two In Area in All-Ky. Band

Miss Pamela Goble, Prestonsburg high school sophomore, is one of two Eastern Kentucky high school students to be named this year to the 110-piece All-State Band.

Selection of members of the band was made by the Music Department, University of Kentucky, from tape-recordings of student-performances presented by 180 high school band directors in the state. Miss Goble was

auditioned at Pikeville College for the All-State Band honor.

She will play the bass clarinet when the select group plays for the Kentucky Education Association in Louisville, April 19. The band will be directed by Dr. Moody, band director, University of Texas.

The Prestonsburg student is a daughter of Mr. and Mrs. Virgil Goble and is a pupil of Franklin Honeycutt, Prestonsburg high school band director.

LABOR DEPT. TO MOVE 114,000 FROM WELFARE

The Department of Labor plans to move 114,000 people off welfare rolls into training programs and jobs in the next 18 months, Labor Secretary Willard Wirtz has announced.

It will be done under the Work Incentive Program authorized by the 1967 amendments to the Social Security Act.

He said the program will be administered by the Labor Department's Manpower Administration through its Bureau of Work-Training Programs, the agency that now operates the Neighborhood Youth Corps and other anti-poverty and manpower development programs.

Wirtz estimated that the Labor Department would have 32,000 men, women and out-of-school youths over 16 into training or jobs by the end of the 1968 fiscal year, which falls on June 30. In the 1969 fiscal year, he said, labor could place another 82,000 in training.

Under present legislation the Labor Department will move about 757,000 welfare recipients into gainful employment by the end of fiscal year 1972 at an investment of \$941 million. "This investment will pay great dividends in the future," Wirtz said. "Not only will the cost of welfare rolls be greatly decreased, the former recipients will become productive workers and taxpayers."

"The Bureau of Work-Training Programs has already demonstrated its capacity to handle welfare recipients successfully," Wirtz said. "About 27 percent of the 1.2 million youngsters enrolled in the Neighborhood Youth Corps over the past three years have been from welfare families."

Wirtz said that a variety of federal, state and local agencies will be used by the Labor Department to deliver manpower services under the WIP program, including the Department of Health, Education and Welfare and the State Employment Service offices. Local welfare agencies will refer clients to the program. They will be oriented, interviewed, tested and counseled for a period of two to four weeks by the local manpower agency, (in many instances, the local office of the State Employment Service) who will immediately place in available jobs those ready and able to work.

The remainder will be moved into work internship or work-experience programs, such as the Neighborhood Youth Corps or New Careers, or into on-the-job or institutional training programs authorized by the Manpower Development and Training Act of 1962. During this period, clients

who need it will also receive basic and remedial education. General educational development programs will be geared to help high school dropouts earn their

It may be less grand than most station wagons. But it's also about a grand less.

If you're looking for a miniature moving van, our Squareback Sedan isn't it. Even with its back seat folded down it only holds half as much as the average station wagon.

Which means you can't lug 30 pieces of luggage. Or a full-sized double bed.

But maybe you just need a car that can carry 15 valises. Or a full-sized single bed. Then you can save a lot of money with a Squareback Sedan. It costs only \$2,408.50.*

And it not only goes for less than most conventional wagons to begin

with, it keeps on going for less.

A Squareback can get as much as 27 miles on a gallon of gas. It takes 5 pints of oil instead of 5 quarts. It never needs an ounce of anti-freeze, because it's cooled by air.

And it avoids repair bills like a well, like a Volkswagen.

So before you go out and buy some station wagon that has twice as much space as you really need, ask yourself this question:

Will all that extra grandness be worth an extra grand?

STATE MAY ASK UNIONS TO EXEMPT NEW PLANTS

Lexington, Ky. — Kentucky's new commissioner of commerce, Paul W. Grubbs, said yesterday that he may ask organized labor to delay attempts to form unions at new plants in the state.

Speaking in Lexington at a business-development conference sponsored by Kentucky Utilities Co., Grubbs listed the proposal among "new directions which have been charted for the immediate future."

"I intend to ask the cooperation of organized labor," he said, "in creating an environment for production that is conducive to profit during the next few years."

He said that "We may ask organized labor to declare a moratorium on organization of new plants locating in Kentucky for a period of three years and preferably five years."

The Commerce Department, he said, would not be taking a position "either for or against labor," nor would it be saying "that plants should not be organized."

But he added, "If our new plants can operate freely during the initial period of production shutdown, their chances of permanent success will be greatly enhanced."

Grubbs explained later that his department is making a study that includes the possibility of legislation on the subject. So far, he said, no precedent for legislative action has been found.

In any event, he indicated the state will seek to cooperate with organized labor, which he said has offered assistance in working out problems related to new industry.

Other programs stressed by the new commissioner included: 1. Assisting local communities "in improving and reshaping our development programs."

2. Working "more closely with business firms and organizations throughout Kentucky than (the Commerce Department) ever has during its 20-year history."

During the current legislative session, Grubbs said, the commission "will work unceasingly within the official family of state government to see that legislation enacted is favorable to business growth and profits."

3. Bringing "thought and imagination" to bear on the problem of industrial sites.

Grubbs said that high costs often make it impractical to develop a site "for the sole purpose of a plant."

"It is imperative," he said, "that we begin to think in terms of 'coordinated development of the site area' to embrace . . . property which should be developed for homes and commercial enterprises."

4. "Working out methods whereby the pools of brainpower on our campuses can be brought to bear in solving our problems in development."

5. Supplementing industrial employment by stepping up "the creation of jobs in trade, services, insurance and finance . . ."

Grubbs presented these as approaches — "not glamorous, but sound"—that "can be accomplished" with little additional cost to the taxpayers."

CARD OF THANKS

The family of Johnnie Frasure wishes to thank all for their help and kindness during his illness and upon his death. Newman Supports Vehicle Inspection

Public Safety Commissioner William O. Newman said Tuesday that "the case for motor vehicle inspection in the State of Kentucky is simple. The National Safety Council tells us that 13 percent of all traffic accidents are caused by mechanical defects. Compulsory inspection would eliminate many of these accidents."

Commissioner Newman added that the Department of Safety worked in 1966 to get a good inspection bill passed, it was passed and a good inspection program has been set up, and now it is up to the legislators to decide if this law is to be given a test.

"In state having inspection laws the rate of traffic deaths has run consistently lower than in Kentucky," Newman said.

"There are many, many people and civic groups in favor of this law and it has many things in its favor, in addition to taking a correct moral position—being in favor of safety. This inspection system will pay for itself out of fees, and at least it is a start in the war on the senseless slaughter on our highways," Newman said.

'Be Prepared'
The Motto of the Boy Scouts of America.

Saluting the BOY SCOUTS of AMERICA on their 58th Anniversary

"I suppose every boy wants to help his country in some way or other. There is a way by which he can do so easily, " and that is by becoming a Boy Scout.

—Baden-Powell

Scouting has become increasingly more important to the future of our country. This is one reason why the Scout movement aims for a high standard of citizenship, character and physical fitness. In the program there is a strong emphasis on training for citizenship. Every boy must learn respect for the flag, loyalty to country, and an appreciation of our American heritage. We salute the Scouts and the great work they are doing in making better citizens.

Engagement Announced

Mr. and Mrs. Virgil Hinchman, of Tram, announce the engagement of their daughter, Patricia Kay, to Aaron R. Derossset, son of Mr. and Mrs. Homer Derossset, of Dwale.

Miss Hinchman was graduated from Betsy Layne high school and attended Pikeville College. She is employed by the Time

Finance Company in Pikeville. A graduate of Prestonsburg high school, Mr. Derossset attended Union College at Barboursville, Ky. He is presently serving in the U. S. Marine Corps, stationed at Camp Pendleton, California.

An open-church wedding is being planned for late March.

Kenwood Gets \$123,000 But Still Needs Funds

The Economic Development Administration has taken the third step toward the construction of the site planned for Kenwood Products, Inc., and this step was represented by a \$123,000 check—but Kenwood is having trouble negotiating a last step on its own to get actual construction of manufacturing facilities under way.

The 70-acre site designated for use by Kenwood has been developed. A bridge to connect new US 23 with the site has been built across the Big Sandy through use of Appalachian and state funds. But Kenwood is faced with the solution of a financial crisis before construction of the proposed wood-utilization plant itself can be started.

U. S. Senator Thruson B. Morton attempted to promote financing of the project but admittedly failed. The \$123,000 EDA check delivered last week to O. T. Dorton for the Big Sandy Industrial Foundation, Inc., brought the total of EDA grants for development of the site to \$335,000.

Pikeville's Jones Signs with Cats As Early Recruit

Lexington, Ky. — Pikeville's Stan Jones, a 6-foot-2, 185-lb. end, is one of almost 40 reasons football coach Charlie Bradshaw feels good about a recruiting season which almost ended before it began at the University of Kentucky.

Jones, who plans to enter the College of Engineering, was a first team All-Area and honorable mention All-State player who was among the first of 30 Kentucky boys to sign Wildcat letters-of-intent after recruiting began Dec. 16. In addition, seven out-of-state stars were also signed.

As a result, the University has only two more scholarships available and there are several candidates for the honor.

"I feel real good about our recruiting, especially the number signed from our home state," Bradshaw said. "Normally, we keep five or six coaches almost constantly on the road between now and May. Our early success will permit these coaches to stay at home and give us more time to be together and discuss our football."

Bradshaw is particularly pleased with the large number of Kentucky boys signed. "We didn't lose a single boy to out-of-state institutions," he said. "It certainly indicates the football program is very definitely on the upgrade in the state."

The Wildcat coach said the persons responsible for upgrading football are the high school coaches. "They're doing an excellent job teaching our young people," he said.

LT. BRADDOCK HEADS TEAM WHOSE QUIZ OF DEFECTOR LED TO VIETNAM VICTORIES

Lt. William R. Braddock, of the U. S. military intelligence attached to the 4th Infantry Division in the central highlands region of Vietnam, recently figured as an important cog in the machinery of war.

He and his staff of four Vietnamese interpreters interrogated the Viet-Cong defec-

tor who told them of a major enemy buildup near the Cambodian border, southwest of the city of Dak To. And the information given the lieutenant, a former Floyd countian, and his men led to the biggest battle of the war and the fall to U.S. troops of Hills 889 and 1338.

Braddock, who is a son of Mr. and Mrs. W. F. Braddock, of Martin, attended Military Intelligence School at Ft. Holabird, Md., prior to joining U. S. forces in Vietnam.

Minimum Payment Of Social Security Now \$55 Per Month

The 1968 Amendments to the Social Security Act provided a 13 percent increase in benefit payments effective with the check payable in March, 1968. In some cases the per cent of increase will be slightly more. The guaranteed minimum benefit, which was formerly \$44 monthly, has been increased to \$55 monthly. The Special Age 72 payment, which was formerly \$35 monthly, has been increased to \$40 monthly.

The Retirement Test provisions were changed. The \$1500 limit on earnings has been increased to \$1680 beginning with 1968. Beneficiaries who like to spread out these earnings over the entire year will find that they can average earnings of \$140 monthly in 1968 without losing any part of their benefit payment due to earnings whereas in 1967 this average was \$125 monthly.

Some disability beneficiaries receive only part of their Social Security benefits as they also receive Workmen's Compensation. The total of both could not exceed 80% of their average current earnings in the years just before they become disabled. Formerly, this 80% figure took into account only those earnings which were subject to the Social Security tax (earnings over the "maximum payable" in a year were not included). Under the amendments, this 80% figure does include earnings over the maximum in recent years. For individuals, this will mean an increase in the amount of Social Security benefits which they are receiving.

Adopted children of disability beneficiaries can now qualify for benefits even if the adoption becomes final more than two years after the first month for which the worker receives disability payments. Certain requirements must be met including the requirement that the adoption be supervised by a child-placement agency.

The National Tobacco Research Laboratory at the University of Kentucky operates on a budget of \$1.5 million a year, under the direction of Dr. G. W. Stokes.

Will you pay more and get less in your next clothes dryer?

You will... unless it's electric. Flameless dryers cost less to buy than flame-type dryers... as much as \$40 less. And that's just the beginning. Since they're flameless, you can install them anywhere with one electrical connection. There's no dirt, no by-products of combustion, no fumes. With fewer moving parts, less can go wrong. Right? Get modern clothes drying... gentler drying for today's miracle fabrics... for an average operating cost of \$1 a month. Big value? It's America's favorite dryer, preferred by women two to one over flame-type drying. HOW MUCH ALIKE is Your Faith And Catholicism?

To help establish inter-faith understanding the Knights of Columbus are offering, free of charge, this concise 36 page booklet which clearly sets forth the basic teachings of the Catholic Church. It explains, for instance:

WHY Christ Himself instituted the seven sacraments; Baptism, Confirmation, Holy Eucharist, Penance (or Confession), Matrimony, Holy Orders and Anointing of the sick.

WHY Catholics believe that perfect union with the Creator can be achieved only through the practice of sacrifice (the Mass). The booklet also describes how Christ originated the Mass and why it plays such a vital role in the Catholic faith.

WHY the basic structure of the Church has remained unchanged since the time of the Apostles... and why Catholics believe that the authority of their priests and bishops must be recognized.

Regardless of your religious convictions, you will find that this booklet will give you a fresh insight into Christianity and how it began. There's no obligation or cost and no one will call on you.

ELECTRIC HEAT

CHILLER KILLER

Electric heat is for families who know the best sometimes costs the less!
 It's best because electric heat gives total-comfort and total-convenience. It's safe because it's flameless. That makes it extra clean, too.
 Yet electric heat is so economical. Costs less to install than those old-fashion systems which only half heat your home.
 Call or visit us for full details about low-cost electric heat. No obligation, of course.

Conversation Piece...

Sometimes, we wonder what we would do for something to talk about if the weather did not come to the rescue. It gives rise to the most inane remarks—"Nice day," or "Cold, isn't it?"—when any but the senseless already know the truth about the situation.
 And now we add our own inanity to the discussion:
 Kentucky is blessed because its weather is always changing, never monotonous.
 You knew that already—sure. But did you know that changing climatic conditions—heat, cold, wind and rain, snow and ice—demand homes that are well-constructed and able to stand up under the extremes of weather, in all seasons?
 For those time-tested materials, strong, attractive, made especially to meet the needs of the people of this section, see us first.

Community Chorus Starts Rehearsals

The Big Sandy Community Chorus, under the direction of Gus Kalos, chairman of the Department of Fine Arts, Prestonsburg Community College, held its first rehearsal January 22.

The choir, which in the past has performed works by Bach, Mendelssohn and Haydn, will be rehearsing Brahms' German Requiem for a spring presentation. This work is interesting in that most of the solo work is done in conjunction with the chorus, which may make new vocal demands on the group. Anticipating this, Mr. Kalos has launched a membership drive to recruit as many new voices as can be rounded up. The Requiem requires volume which a mixed chorus of 50 may not be able to provide.

Kalos announced that participation in the choir can earn a student at least one hour of college credit. Rehearsals are held on Mondays, in the music room at the college.

SCHOLASTIC RECOGNITION OF TOP STATE STUDENTS TO INCLUDE CASH AWARDS

A Scholastic Recognition Program, designed to honor the outstanding students from each of Kentucky's 11 educational districts and from two sections of Southern Indiana, has been established by The Courier-Journal and the Louisville Times, and WHAS, Inc. High school principals in Kentucky and Southern Indiana have until February 15 to nominate one of their graduating seniors for an award.

Establishment of the program is a broadening of scholastic recognition started nine years ago when recipients of National Merit Scholarships in the Louisville Metropolitan area were first honored by the newspapers. In recent years both National Merit scholars and winners of National Achievement Scholarships have been recognized. The new program, in replacing these recognitions, will make it possible for students from throughout Kentucky and Southern Indiana to be eligible for recognition.

The 13 top students each will receive a \$250 cash award and medallion and will be honored along with their parents and principals at a luncheon in Louisville.

Students will be chosen for the awards based on their

Floyd Student at UK College of Pharmacy Attains Dean's List

Two University of Kentucky students from Eastern Kentucky counties—one, from Floyd—have been named to the Dean's List in the College of Pharmacy for the fall semester.

To be honored by the UK dean, pharmacy students must make a 3.0 academic standing or better, based on a 4.0 grading system.

James D. Cooper, Wheelwright, and William C. Collins, Hallie, were among 42 students named to the pharmacy list.

The Floyd countian is a third-year student, Collins is a fifth-year student in the professional college.

Four University of Kentucky students from counties of this section have been named to the Dean's List in the College of Education.

The students include: Breathitt county: Treva Louise Howell and Anna Lois Morris, both of Jackson, and both seniors who made perfect 4.0 standings for the semester.

Letcher county: Yvonne Fugate, a UK senior from Carcassone.

Perry county: Roger Dale Collins, Route 1, Hazard, a senior.

Kentucky's 15th governor, Charles A. Wickliffe, was U. S. Postmaster General under President Tyler. Wickliffe, who became governor in 1838, was Kentucky-born. He served in the Kentucky General Assembly and the U. S. Congress.

A three-man selection board for the program has been named. The members are A. J. Beeler, Curriculum Director of the Louisville public schools; Jesse Stuart, Kentucky writer and author of many books; and Richard C. O'Connor, New Albany, Indiana, attorney and civic leader.

Nominations are being received until February 15 by the newspapers' Public Service Department.

ABC BOARD MEMBER NAMED

Frankfort, Ky.—Gov. Louie B. Nunn has named Louisville businessman Shirley W. Palmer-Ball as commissioner of the Alcoholic Beverage Control Board. Palmer-Ball, 37, attended Centre College and spent two years in the Army before joining the family business, the Palmer Asbestos and Rubber Corp., of Louisville and Chicago.
