

Bridge Nearing Completion

Workmen pour concrete floor of new bridge across the Big Sandy at Lancer. Work on the bridge itself is expected to be completed by the Edwards & Webb Construction Co., sub-contractors, within the next two weeks. Approach work and construction of the "cloverleaf" to serve the Lancer-Watergap road, old US 23 and the road to Jenny Wiley State Park will be done by the prime contractor on the overall project, the Kentucky Road Oiling Company.

Lone Bid Offered on School At Eastern Over \$1 Million

Nunn Says Road Aid for County Is Now Greater

State aid for Floyd county's roads has increased over the past two years by more than \$48,000, Governor Louie B. Nunn said this week.

Nunn said this county's rural secondary program (RS) moved up from \$268,445 in fiscal year 1967 to \$295,870 the next fiscal year and to \$313,900 this fiscal year. The new 1970-'71 allotment for Floyd county was announced as \$332,735.

County Judge Henry Stumbo pointed out that the fiscal court is no longer given any control of these funds and is not permitted to designate any road for improvement. For this reason, he added, he questioned the accuracy of Highway Commissioner Goss' statement to the effect that the rural secondary program is one of two ways in which the state helps the county meet its responsibility for county roads.

The increase in county road aid funds, the governor said, has risen from \$107,206 in fiscal 1967-68 to \$128,647 the following year and \$139,368 for the current year.

Judge Stumbo commented that a contract has been signed with the state for county road aid but that no official word has since been received. The county, he said, ran out of these funds earlier this month and will be obliged to do at its own expense till July 1 any work it may undertake.

Second Detour May Be Built; Contracts Let

Contract for surfacing 36.5 miles of KY 122 from Allen via Martin and Left Beaver Creek to Virgie as a detour route while construction of the new four-lane US 23 is under way between Allen and Pikeville was officially awarded last week to Bush Contracting Company, Frankfort.

For this work and construction of 1.49 miles of new US 23 from Harmon's Branch to Blairtown the contractor will be paid \$2,498,639.

A report received here this week but not confirmed says that the KY 122 route is not the only detour being considered by the Department of Highways. It was said that the Johns Creek road from Pike county to the German bridge across Dewey Lake and to connect with the present US 23 at the mouth of Cow Creek will be improved to provide a detour for local light traffic, leaving KY 122 for heavy trucks and through traffic. If the Johns Creek route is used, surfacing of gravel-coated portions of the road and some possible widening are in prospect.

A second Pike county contract on US 23 was awarded to Bizzack Brothers Co. (See Story No. 3, Page 16)

Cost of Project Rises \$125,450 Since Early '69

The one and only bid offered on construction of the Right Beaver school at Eastern was made last Friday by Akers and Akers, Dana contractors, who asked \$1,018,780 for the work.

The bid, opened by the Floyd fiscal court as agent for the Floyd County Board of Education, was \$125,450 above the low bid submitted when the project was first advertised in early 1969.

Final awarding of a contract and actual construction depend upon more than one factor. Bonds remain to be sold. Before these are offered, a financial plan must be prepared for Hirsch and Meyer, Cincinnati fiscal agents for the board of education. And before that plan can be submitted the board must know that \$300,000 in Title I funds are yet available. (The board has verbal assurance that these funds are ready, but it awaits official confirmation.) The board also must determine the total of capital outlay funds it can put into the building. This may approximate \$100,000, County Superintendent of Schools Charles Clark said. This amount and the expected \$300,000 Title I funds would reduce the total of bonds to be sold to \$618,780.

Ability to sell the bond issue at a satisfactory rate of interest also is a matter of concern. A report received here says Martin county's board of education recently sold bonds at 7.99 per cent interest—far above any rate yet paid by the Floyd county board.

Commenting on the increase in bidding between 1969 and last Friday, Supt. Clark said, "The additional \$125,400 is a matter of concern, because that is money that could well be spent at Martin as well as at other schools in the county. It probably would have paid for the complete renovation of the high school building at Martin."

The attempt to sell bonds after the Eastern project was first advertised was foiled by court action initiated by Martin residents. Long litigation followed. Special Judge Stephenson held that the board of education has the authority to construct the new school, but he has never ruled on the question of the board being required to maintain a high school at Martin.

Said the superintendent this week: "If Judge Stephenson holds that we must maintain a high school at Martin, we will certainly abide by the court's decision."

He did not mention any plan to appeal from any decision the judge might make.

The phase of construction proposed to be done under the bid opened last Friday would involve the construction of an 18-classroom building which would include biology, social service, homemaking, chemistry and physics departments, a library, cafeteria, kitchen and offices. A gymnasium-auditorium and music facilities would be in Phase 2 of proposed construction.

The board planned the building to effect the consolidation of four high schools on Right Beaver Creek.

Second Suit Filed Following Wreck

A second damage suit was filed last week as any aftermath to the recent wreck on the Mountain Parkway, outside Prestonsburg, in which a young Salyersville couple was killed and a Prestonsburg woman was injured.

The latest court action asks a total of \$61,150. In the first administrators of the estates of the two victims, Wayne Douglas and Tamara Elrod Cooper, asked a total of \$1 million. The most recent suit is that of Thelma and John David Perry, who name as defendants Jimmy George Layne, Lloyd Crum, individually and doing business as Crum's Standard Station, the Ohio Casualty Insurance Co., B. F. Cooper as administrator of the estate of Wayne Douglas Cooper, Marion Robert Elrod as administrator of the estate of Tamara Elrod Cooper, and Hearle Borders, Magoffin county sheriff, as administrator de bonis non of the young Cooper couple. Plaintiffs allege that Layne operated an auto owned by Crum so negligently and recklessly as to cause the Cooper car, which, the suit claims, also was operated negligently and recklessly, to go out of control and strike the Perry auto driven by Thelma Perry.

Mrs. Perry asks \$50,000 damages for injuries; Mr. Perry sues for \$10,000 for medical expenses and loss of consortium, \$1000 for damages to his auto and \$150 for salvage and protection expense.

Mrs. Perry also asks garnishment against Ohio Casualty for \$10,000 and demands that the insurance firm disclose the amount of its indebtedness to defendants.

In a second damage suit Arnold Akers and Bennie Jones sued Former Circuit Clerk W. W. Cooley for \$5,000 damages each and \$1000 hospital expenses. They claim their injuries resulted from negligent operation by Cooley of his car which collided with Jones' auto.

State Files Appeals On Easement Prices

Local Appraisals In Most Cases Exceed State's

Thirteen appeals were filed in circuit court here Monday by the Department of Highways from county court judgments which, the state claims, allow exorbitant sums for rights-of-way for new US 23 between Allen and the Floyd-Pike line at Boldman. These brought the total of such appeals to 16 for that sector of the four-lane highway.

Approximate cost of the right-of-way between the two points was not available, but a hint at the total was given in the statement that slightly county court judgments allowed a few more than 40 property-owners approximately \$750,000. Ninety-three condemnation suits have been filed by the state, but less than half have reached the judgment stage.

The procedure followed on rights-of-way acquisition is, substantially, this:

If negotiations by the state to buy the right-of-way from the property-owner according to state appraisal break down, suit is filed to condemn the property. The county judge then appoints appraisers, and after their appraisal is made judgment is entered, allowing the property owner the amount they set as the value of his holdings affected by the road. The state then pays this amount to the county clerk, who holds it for the landowner. The owner of the property may claim the amount held for him at any time, but the state may then appeal to circuit court, or even to the Court (See Story No. 2, Page 15)

3 Draw Fines In Rum Cases

Three Branham's Creek men, arrested last week-end on charges of possessing intoxicating beverages, were fined \$20; plus court costs, by Magistrate Eddie Caudill—but, said Caudill, the penalty, next time, will be higher, and repeaters will find the going rough.

The three—Carter Lee Hall, Orville Tom Hall and Dickie Hall—were arrested by Deputy Sheriffs Bill Hall and Dester Hamilton and State Trooper Bevins. Magistrate Caudill said four cans of beer were confiscated from the premises of Carter Lee Hall, 240 cans from Orville Tom and 163 cans from Dickie Hall.

Others arrested within the week, charges against each and names of arresting officers follow:

Charles Calvin Freeman, reckless driving and destroying state property by State Troopers DeBoard and Brenner; James Douglas Fairchild and William Henderson Marsillette, a. w. o. l., by Sheriff Leslie; Frank Stephens, grand larceny, by Policeman Sam Hale; Herman Poe, hit-run driving, by Policeman Sam Hale and State Trooper Bevins; James Luther Bailey, no operator's license, by Trooper Bevins; Robert Williams, obtaining a fishing license under false statement, by Conservation Officers Don Mead and T. Cantrell; Oscar Hancock, Jr., drunk driving, by State Trooper E. B. Allen; James Stephens Ison, drunk driving, by Trooper Allen; Freida Spears and Prentice Dotson, each charged with fishing without license, by Conservation Officer Dalton R. Conley; Graig Kilgore, a. w. o. l., by Trooper Bevins.

Drug Cases Here May Be Dropped, Prosecutor Says

Commonwealth's Attorney Harold J. Stumbo said Tuesday that the report that indictments against six persons charged with possession of narcotics have been dismissed is unfounded but admitted that the cases may be dismissed later.

"If I understood correctly the commonwealth witness when her depositions were taken at the office of Scott Collins, there's nothing else to do but dismiss," Stumbo said. "I will wait and read these depositions carefully, however, before taking any action."

Stumbo said the statement made by the witness at Collins' office during the taking of exploratory testimony was in direct contradiction of the statements she made before the grand jury which voted the indictments. "You can see where this leaves the commonwealth when it comes time for trial," he said.

The prosecutor said that there is a possibility that one of the six indictments may stand for trial.

Fishing Derbies Set for June

Dewey Lake will be the scene of two fishing derbies next month, it was announced last week by Barry Storm, recreation director at Jenny Wiley State Park.

Derby No. 1 will begin at 10 a.m. Friday, June 12, and end at 6 p.m. the following day. The second derby will begin Friday, June 26 and continue through the following day, the same hours as in the first contest prevailing.

Fish in three categories—bass, crappie and carp—will be judged for awards, and in each the length of the fish will be the determining factor. The winner in each category will receive a gift certificate of \$15 in value.

An entrance fee will be charged for both juniors and seniors in each derby. Registration will be made at the golf pro shop, where fish will also be measured.

New System Helping Reduce Court Docket

The jury system is working out in quarterly court very well indeed, was the consensus of opinion after the court empaneled two jury panels last week and devoted the entire week to the trial of cases.

Twenty-three cases went to juries for decisions, and of these 22 resulted in convictions. Five cases were waived to the grand jury.

Besides these 28 cases eliminated from the heavy quarterly court docket, a number were dismissed. The docket is no longer laden with cases, old and new.

The lone acquittal was won by Gordon (Buster) Thornsby, who was given trial on a charge of resisting arrest.

Three liquor possession trials were held, and each of the defendants drew fines and 30-day jail terms. Clawvern Jacobs and Ashland Joseph were fined \$100 and costs in addition to their jail sentences; Bill A. Hall's fine was \$20 and costs.

One defendant in a drunk driving case, Freeman Branham, drew top fine of the week when he was fined \$500. The jury also recommended that his driver's license be suspended.

Other convictions during the week: Verlin Shores, drunk driving and no

operator's license, \$100 fine; Billy W. Music, drinking beer on a highway, tried in absentia, fined \$25; Gary Rose, no operator's license, \$10; Jackie Delong, drunk driving, \$100; Roger Darrell Henderson and Melvin Hall, drinking beer on highway, \$10 each; Hannah Hill, no operator's license, \$10; Charles Caney Samons, drinking in public, \$10; Alvis Lee Smith, speeding, \$100; Cecil Halbert, drunk driving, \$100, plus \$10 for having no operator's license; Larry Ferguson, drinking beer on a highway, \$10; Robert Lee Yates, drinking, \$10; Arnold Lee Cole, driving while under the influence of intoxicants, \$100; Kenneth E. Hall, no operator's license, \$100; Leeman Bevins, drinking beer on a highway, \$10; Allen D. Ousley, revoked license, \$100; Paul Eugene Simpson, drinking, \$25.

Court costs were added to fines of each defendant, and those costs included pay of jurors.

Defendants who waived their cases to the grand jury:

James Shepherd, hit-run driving; William Clevenger, assault and battery; Frank Stephens, grand larceny; Milton Johnson, two liquor possession cases.

Park Sets Festival For Saturday Opener

Archer Park here, whose play areas and swimming pool already are being enjoyed, will have its "grand opening" Saturday with an all-day fish fry and a full schedule of other events culminating that evening in a horse show and, still later in the evening, a dance.

A diving and swimming exhibition will be staged at 1 p.m. by the Eastern Kentucky State University team. At 2 p.m. the Prestonsburg team of the Central Mountain League will play its second game of the season, meeting Winchester of the league's Central division.

Special events will begin at 10 a.m. with two divisions—boys and girls 12 years of age and under and boys and girls, age 13 to 18, competing in bicycle races, the softball throw, broad jump, high jump, sack race, cross-country race, the 50-yard dash, free-throw shooting and horseshoe pitching. A

swimming contest—backstroke, free style and diving—will be held at 11 a.m. Meanwhile, a tennis tournament will be under way.

After the Eastern State University exhibition and baseball game, a bait-casting contest will be staged at 2:30 p.m. Softball games will be played at various times during the day.

The park will be able to handle the wide variety of events because of its size and the number of fields which have been developed. Archer Park, finest in Kentucky to be owned by any town in the Prestonsburg population-range, has been the object of study by visiting groups representing towns and cities from one or more neighboring states.

Prizes and awards for winners of Saturday's contests are being provided by 25 business firms and institutions. Admission to the park will be free.

Prestonsburg and Allen Win Elementary Track Meet Here

Prestonsburg and Allen elementary schools outpointed 14 other schools to win the Class AA and Class A trophies in the annual Floyd County Track and Field Day held at the high school athletic field here last Saturday.

In the double-A classification, Prestonsburg amassed 122 points. Clark was runner-up with 64, Martin and Osborne tied for third place with 55 points each. Stumbo posted 53, Betsy Layne 32, Garrett 12 and Maytown 1.

Allen copped the Class A title with 63 points, and Melvin won the runner-up trophy with 39 points. Then came Auxier with 17, Lackey 17, Bonanza 13 and Wayland 10.

Five hundred four youths competed in 60 events throughout the day in age groups of 12 through 14 for both boys and girls.

Individual stars of the meet were George Bush, Martin; Toni K. Ranier, Prestonsburg, and Leo Whitt, Allen.

Bush won three first place ribbons in the 14-year-old boys' events—the 50-yard dash in a time of 6.1 seconds; the 220-yard dash in 27 seconds flat, and the shot-put with a toss of 38 feet, 2½ inches.

Two Floyd Women Graduate Nurses

HARLAN, KY., May 22—Two Floyd countians were graduated today from the Appalachian Regional Hospitals School of Professional Nursing in Harlan.

They were among 17 young men and women awarded diplomas after completing three years of study, and are now qualified to take the state examination for registered nurses.

They were: Mrs. Donna C. Thomas, wife of Jerry Thomas, and daughter of Mr. and Mrs. Mart V. Allen of Wayland.

Mrs. Thomas, a graduate of Wayland high school, was cited as an honor student during the nursing school's graduation.

Linda Jeanne Kiefer, daughter of Mr. and Mrs. Gordon Williamson, of Harold, and a graduate of Betsy Lane high school.

MOONLIGHTING

In May 1969, 5.2 per cent of all employed workers held more than one job. Forty-eight per cent of the workers with at least two jobs at that time had worked at the second job in each of the preceding 12 months and another 18 per cent had worked at the second job in at least 7 to 11 of those months.

Toni Ranier, in the 13-year-old girls' events, won the 100-yard dash in a time of 11.2 seconds, the running broad jump with a leap of 12 feet, 7 inches and also ran on the winning relay team in the 440-yard relay.

Whitt in the 12-year-old boys 50-yard dash and 100-yard dash came in first in 6 seconds and 10.8 seconds, respectively, and was second in the shotput with a toss of 29 feet, 8 inches.

Superintendent Charles Clark, one of the 950 spectators, said, "We are pleased with the progress our boys and girls have made in these activities, and this event has become the highlight of our well-rounded elementary physical education program."

IN MEMORY

I spent one day visiting cemeteries in Floyd county. In one I visited graves of two distinguished lawyers who fought many legal battles in the old courthouse that stood in the center of the square. At another I visited the grave of a dear friend, Jane Harris, the dirt still fresh on her grave, the daughter's eyes still wet with tears for a dear mother who was called away so suddenly. At another I visited the grave of Dr. W. R. (Bill) Callihan, an old-fashioned, saddlebag doctor who rode far and wide, night and day, through rain and snow, over muddy roads, over mountains and through swollen streams to visit the sick, caring little about his pay if only he could alleviate suffering.

MAYTOWN HOMEMAKERS MEET

Maytown Homemakers Club held its meeting for this month at the home of Mrs. Norma Bentley on Brush Creek, May 14. The lesson, "Outdoor Cooking," was presented by Alda Gibson, Norma Bentley, Helen Boyd and Sue Orsborne.

The meeting was called to order by Marcella Bailey, president. Joyce Rowe read the minutes, gave the financial report and had roll call. Delcie Gayheart gave the devotional, "I Stand at the Door and Knock," from The Upper Room, and Mrs. Alta Jean Gibson gave a reading, "Agreeable People." Two of the club members, Mrs. Sue Orsborne and Mrs. Helen Boyd, modeled dresses, encouraging others to sew and save. The scheduled lesson by Mr. Bob Shepherd on a native materials workshop was postponed due to Mrs. Shepherd's illness. It will be rescheduled at a later date.

May was to be the last meeting until September, but the members voted to remain active and meet each month. The next meeting will be held at Vista's Drive-In at Hueysville. The lesson will be on the treatment and uses of driftwood, information supplied by Mrs. Thelma Hicks.

It was decided that the club will send two promising 4-H youngsters to 4-H Camp at J. M. Feltner in Johnson county. Money will be raised by selling baked goods. The boy and girl to go will be chosen by drawing of names, giving all an equal chance, and names will be announced.

Attending the meeting were Mesdames Polly Martin, Alda Gibson, Sue Orsborne, Helen Boyd, Joyce Rowe, Delsie Gayheart, Marcella Bailey, Alta J. Gibson, Frances Pitts.

In loving memory of my dear parents, Virgie and Darb Shepherd Sept. 28, 1962.

Mother and Daddy, it has been almost eight years since you went away. My dearest mother and daddy, if only you were here today. I know you are at peace in the distant far, never to be hurt by man or car. Sadly missed, dearly loved.

Whose Offense the Greater?

Down in Johnson county, the other day, somebody took the law into his own hands and stopped overloaded coal trucks from running by puncturing the tires with bullets.

That was a flagrant violation of the law—an act which, obviously, was born of contempt for the law. The rifleman may be, and should be, arrested and prosecuted.

On the other hand, it should be pointed out that the owners and drivers of those trucks were in violation of the law, also. They knew their loads were in excess of the legal limit—knew this not only last week but all the weeks and months they have been hauling coal. They held the law in contempt not merely for the few moments it takes to fire a few shots at truck tires but on every trip made, over all those miles, hauling coal to a tippie.

So what? Who is to feel the weight of the law? State and county officials have already made it very clear that the coal-hauler is sacrosanct.

Then what are they going to do with the fellow who fights back with live ammunition?

Who is the greater law breaker—the men who work and haul illegal weight-loads, the men who remonstrate and, failing to get a hearing, take gun in hand—or the official who gets himself into such a spot that he can't do much with either of these others?

The Meaning of Memorial Day

By DR. RUSSELL L. HALL
Health Officer, Floyd and Martin Counties

Year after year on May 30, since 1868, Americans everywhere have paused to observe Memorial Day. Many never bother to learn why we do this.

In the beginning, this national holiday was established in honor of those who died in the Civil War. Today it is dedicated to the memory of those who fell in all our wars. On this day throughout our many states and territories work is laid aside and civilians pause to pray or to place flowers on the graves of departed friends. Veterans' groups assemble to pay tribute to comrades who died in battle—on military posts in the arctic, tropics, at home, and overseas, parades are formed, prayers are offered, and "Taps" are sounded—to honor those who made the supreme sacrifice defending our homeland and our way of life.

—Wherever American forces are—on foreign soil, on ships at sea, or in the air—they pause to observe this day with appropriate ceremony to honor the memory of those who died in war.

This, in austere essence, is what Memorial Day, a legal holiday, is all about—to honor the memory of all Americans who died in war.

With these cold facts, we who are living should look beyond the known pathways with their weathered signposts, to discover the great and real meaning of Memorial Day.

Men do not go forward to meet death in the prime of life—unless something they love more than life is in mortal danger. As the Son of God died two thousand years ago to save the world, these men we honor on Memorial Day died defending their homes, their country, their freedom, their way of life. They died to preserve this for their children and ours. They died for a cause they loved more than life itself.

This is why we pay honor to them on this Memorial Day, May 30.

Memorial Day should remind us of the blessings we have, and their cost. It should remind us of the grave responsibilities imposed on each of us as a citizen of a great free country. It is a day when we should count our blessings; a day on which we rededicate ourselves to fulfilling those responsibilities—and a day when we should reflect on the frailties of freedom, and its great strength—and how we can protect the one and maintain the other.

This is a day to recall that freedom is like a beautiful woman who when ignored or abused withers away. It is invincible because it is nurtured in the hearts of the people. As it can never be finally won, it can only be finally lost.

Freedom is like the air around us—we can't see it, seldom feel it, yet life would be impossible without it. How do we know freedom is here? We can hear it in the happy laughter of the people, in the joyous whoopees of the children at play. We can hear it in the postman's whistle; we can see it in the tilt of the chin of a free man, in the level of his eyes, in the spring of his step. We can see it there on the face of the farmer with mud on his shoes; we can feel it in the midst of the crowd, where there are no furtive glances over shoulders, and no panicky look in the eyes.

We don't see freedom in any definite form. Yet there is no mistaking that it's with us. We are its strength, it is our protector. We keep it strong, we keep it alive; it gives us in return the exalted life, the good life, of a free man. We are mutually dependent on each other, we, the people and freedom! This is a day to be reminded also that our country was the first to officially recognize the existence of a creator; and the first to avow that man is endowed with certain divine rights, of liberty, life, and the pursuit of happiness.

This is a day to remember that ours was the first country whose government placed all powers in the people. This is why each American voter has more power in his hands that stamps his ballot than all the dictators in the history of the world!

We are truly a nation under God, endowed with more liberties than any people on earth. We have more material comforts

than any other people in the world. Yet some of us demonstrate as little faith in all we have as did the crowd that gathered to pray for rain, and not one brought an umbrella. This is a day also to recall that the two main arenas in which freedom must be defended are: The Ballot Box, and the Battlefield . . . and to know that to the extent we neglect the first, the more imminent becomes the need for us to defend it on the second.

We need reminding that the blessings of freedom we enjoy are not ours to abuse or destroy; that we hold them in trust, with the sacred obligation to our forebears, and to those yet unborn, to protect and preserve our every freedom for posterity. We need to remember that the cost to keep freedom can be greater than the cost to win it; and to realize that freedom cannot be purchased by full down-payment. . . it can be had only on the permanent installment plan; that each installment must be honored when presented, but that the final installment must never be allowed to come due; for, if it does, freedom is lost.

We need to take a look at the toll paid to build us into the mightiest nation on earth; at the million white crosses over countrymen who gave their lives to lift us to where we are; and the five million maimed and wounded in fighting to keep us safe; at material costs so huge they stagger the imagination. We didn't get where we are by halfhearted efforts of timid men. We are here at the expense of strong-willed, dedicated Americans who saw their duty and did it, cost be damned.

We need to reflect on the difference between freedom and slavery; to recall our obligations, to rededicate ourselves to meet them; to answer for ourselves if we would walk the earth with dignity as free men, or crawl on our knees as slaves. And answer, too, "What will we leave for our children?," knowing full well that what we fail to sow today they and their children may reap . . . in slavery.

We need to chart our course, choose our goal, and assume our duties to the people of the world. As a free nation under God we must believe that a prerequisite to asking His help is first to try with all our might to do that which must be done; (that the heights of glory belong to righteous, courageous people who bled on the slopes below; that our goal is to protect those heights at all cost, against every threat.)

Finally, may we use this Memorial Day to remember that the responsibilities of free people are numerous and awesome. . .

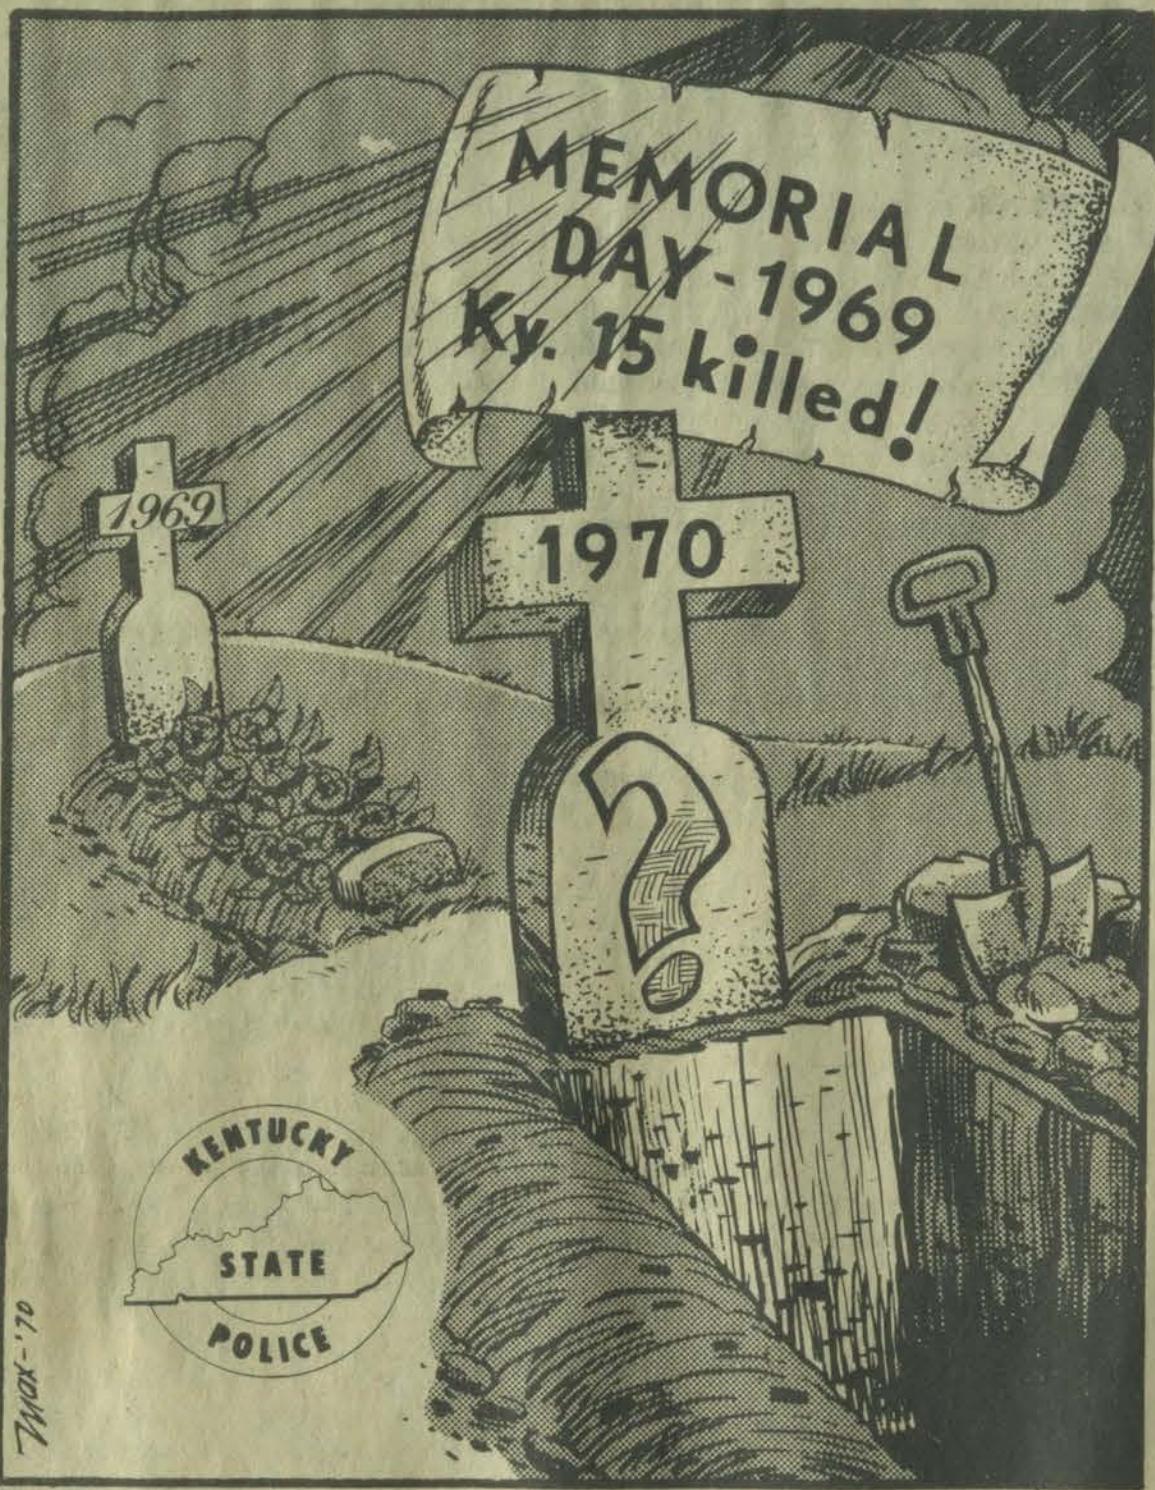

To know that only three categories of people have ever achieved, or ever will achieve, the mythical state of freedom from responsibility. These are: 1. the insane; 2. the enslave; 3. the dead. . .

To know that to avoid war, keep the peace, preserve our way of life and freedom, requires of us all common sense, courage, sacrifice, vigilance. And to know that fear is senseless, and a forerunner of defeat. For fear stems from being afraid to die. Yet, if we lived our entire lives in peace and tranquility, death waits for each of us at the end of the road.

And is this not as it should be? As this passage from the Bible (Isaiah 40:31) says, "They that wait upon the Lord shall renew their strength; they shall mount up with wings as eagles; they shall run and not be weary; they shall walk and not be faint."

HONEYBEES "DOING THEIR THING" ARE INTERESTING BENEFACTORS

By NEVYLE SHACKELFORD
Staff Writer, UK College of Agriculture

LEXINGTON, KY.—Long ago in a philippic against idleness, the famous 17th-century English hymn writer, Isaac Watts, asked the question: "How doth the little busy bee improve each shining hour?"

Well, right now she is working overtime "doing her thing" for farmers, gardeners, and the plant world in general. And a good thing too. Without bees, especially the busy honeybee, many flowers, farm crops, and orchards would fail in production, and some valuable plants might even disappear from the face of the earth. For, according to Extension Specialist in Horticulture, Robert L. Shepherd, at least 50 cultivated plants normally grown on farms and gardens require insect pollination to survive. These crops include watermelons, apples, cucumbers, alfalfa, and sweet clover.

Wild bees help out in this pollination chore, of course, but the honeybee is of most importance to the farmer. An energetic collector of nectar, it will visit hundreds of flowers a day, pollinating each one as it visits.

A great benefactor of mankind, the honeybee (*Apis mellifera*) is also a creature of tremendous interest. An aerodynamic marvel, it can airlift a payload weighing almost as much as itself, and its body is a tiny laboratory that converts flower nectar into a delicious, wholesome food.

In the case of the honeybee, it is the sterile female that does all the work for the hive and for the farmer. After a harsh apprenticeship as a housemaid, nurse, guard, and builder, she is then given foraging assignments to provide food for the burgeoning colony.

In contrast, the fertile male drone lives a life of luxury. Fed and pampered by his hard working sister, he ventures from the hive only on sunny days to laze around the

entrance and to take a practice flight or two.

As the drone acquires strength and flying skill, he may soar far above the trees, hoping to find a queen on her mating flight. If unsuccessful, he returns to the hive to eat and rest until the next fine day.

But we betide the lazy, luckless drone after the queen has mated. From then on, he is no longer a pampered pet. Nipped, abused, and starved by his former nursemaids, he is either hauled through the door of the hive and slain without mercy or forced to leave the colony where he is either snapped up by a bird or succumbs to starvation.

Bookkeepers say that worker bees normally make about a fifth of the cells in a hive large enough for drones. Used as storage bins in winter, these cells are emptied and cleaned in spring. The queen gradually fills them with unfertilized drone eggs and the life-death cycle starts all over again.

Another strange thing about bee life is that the difference between a queen bee and an ordinary bee is largely a matter of diet. For the first two or three days, all newly hatched larvae are fed royal jelly—a sour-sweet nutrient administered by nurse bees. After three days on this diet, commoners are switched to a honey and pollen formula. The queen, however, dines on the royal fare for the rest of her life.

A concerted effort is being made to encourage more beekeeping in Kentucky, and indeed, the state could use more bees. It needs them for more honey and a greater crop production. Bees are wonderful creatures because as another fine poet, George Herbert, wrote:

"Bees work for man, and yet they never bruise—Their Master's flower, but leave it having done,—As fair as ever and as fit to use;—So both the flower doth stay and honey run."

Nature Trails

By Rufus M. Reed

I was born and grew up in the Kentucky hills, and I am proud of my heritage; I have loved these hills from my youth, and, like the psalmist of old, "I lift up mine eyes unto the hills, from whence cometh my help."

I have in my long life written five books of poetry, mainly about the hills; one of these is entitled, "Echoes from the Hills."

The echoes I used to hear coming down from the hills were those of joy and peace; they filled my heart with a nameless yearning to know more about the beauties and mysteries of the hills. I used to listen to the violin solos of the wind in the ridgetop oaks, and to the Aeolian harps of the breezes as they played sublime music in the old pines. I used to listen in rapture to the flutelike voice of the woodthrush as it dropped its song down, fine and silvery, from the heights; I used to think that the Kentucky hills were the temples of the Almighty. He filled them with rugged grandeur and He lifted them high above the valleys, so that in autumn they become great outdoors studios where nature displays her wonderful color show. God always seemed more real to me on the crest of the hills, where silence is deep and profound, and I could always feel closer to Him on some high Kentucky hill.

But of late I hear strange echoes coming down from my native hills. I am beginning to see ghastly scenes of destruction—a destruction that defies words to describe in all its horrible aspects.

Today, instead of the song of the wind in the oaks, I hear the thunderous roar of mighty bulldozers that gnaw and tear at the very heart of these hills, destroying them, root and branch. Today, instead of the soft murmur of a mountain brook, I hear the thud—crash-thud of hugh rocks that tear violently down the steep hills, knocking over the trees, skinning their trunks, mashing down the saplings into splinters and landing at length in the valley, to lie like huge dinosaur bones bleaching in the sun. Today, instead of hearing the chatter of squirrels, the yapping of the fox, the

distant baying of hounds, I hear the loud crash of mighty oaks that are uprooted and pushed over on the slopes, to lie and rot on the landscape.

Today, instead of stopping for a drink from a clear, mountain brook, I look at its muddy waters and step back with a shudder. I see no minnows, no life in the brook, as all life in it has been killed from pollution of the stripmined areas above. Today, instead of seeing a peaceful hill slope covered with wild flowers and green trees, I see hill slopes strewn with large rocks, covered with mud, silt and tree-laps, all gradually working their way down toward the valleys below. Today I see no peace, no joy, in these hills; instead, I see people with heavy hearts, filled with anxiety, fear and revulsion against the danger and impending destruction of the hills. Today I see men and women trembling in their boots at the bleak prospect of having their humble homes covered ten feet deep on some dark night when one of the flash floods hits in the valleys and carries down millions of tons of loose earth, debris, rocks, tree-laps and mud and covers all the land, turning it into a desert waste.

Today our hills are being crucified upon the cross of human greed. Their beauty and grandeur are being swiftly destroyed by men who never knew beauty or cared less about it. Today I see our hills being destroyed by ruthless, greedy men who do not realize that beauty cannot be bought or sold but can be destroyed beyond all hope of repair.

Our hills were created and upheaved millions of years ago and in their bowels they have seams of valuable coal. God and Nature worked hand in hand for millions of years to create these hills and the coal in them. Over the coal seams there were placed thick layers of sandstone or shale and a cover of earth. It was intended that man should mine this coal by driving entries into the coal seams, leaving the hills intact. Deep mining preserves the environment, provides jobs for needy men.

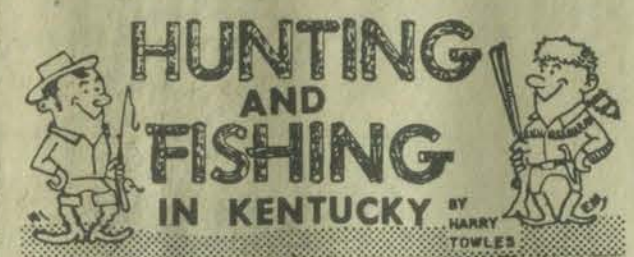

Whatsoever Things

By DONALD E. WILDMON

I went to the movies the other day. First time in about a year that I had been. I'm not about to spend my hard earned two dollars to see fifth and trash presented as though it was the ideal. But there was a Walt Disney production playing, so I took the children and enjoyed the movie.

As I entered the theater, it was dark and I could hardly see. I moved slowly down the aisle, found a row where a seat was empty—I thought! But after sitting in someone else's lap for a split second, I fumbled on down the row till there was an empty seat. Talk about being dark, it was dark in that movie-house!

But, you know, something happened to the darkness in that theater. After I had been in the darkness a short period, I began to get accustomed to it. Why, I could even make out which seats were empty! It wasn't long before that theater wasn't too dark at all. I could find my way around without a bit of trouble.

FRANKFORT, KY.—If there's one aspect of Kentucky fishing that is unexcelled anywhere in the realm of fresh water fishing it's the variety.

It seems that Mother Nature or something or somebody has provided the Commonwealth with various species of fish that fit together snugly enough to furnish continuous fishing, almost throughout the year.

For instance! Right now the croppie and white bass spawning runs are tailing off. Of course, it is in these runs that those fish are caught with reckless abandon by practically all fishermen.

The two runs, in most of the major lakes, and actually in streams and smaller bodies of water, initiate the outstanding fishing season in Kentucky which continues into next winter.

Almost week by week there'll be different types of fishing, often for the same species, but with methods as varied as are the fishes themselves.

Hard on the heels of the croppie and white bass runs, comes the spawning season for the bluegill, during which these small but agile panfish are caught in great numbers from farm ponds, lakes and streams and on equipment ranging from the cane pole and line and hook and sinker, to the elite flyrod rigs.

The habits of the bluegill dictate that they spawn in shallow waters and that they guard their fanned-out nests even after the young have hatched from their protected eggs. Violently these fish hit worms and minnows and small artificial lures when presented in an area around their nests.

The nests are more or less a community affair and there are hordes of bluegill around this small domain to protect the eggs and chaperone the small fish—from other inhabitants of the water that would devour the young and the eggs.

A turtle will be attacked; so will a large catfish or a black bass or about anything else that sidles around the bluegill nest. Perhaps, it is because of this protective instinct rather than hunger that causes the bluegill to hit a fly or a worm on a hook when it is placed around the nest.

Whatever their reason this nesting time is the best period in which to catch the bluegill and they literally can be caught by the hundreds from around one of these beds.

Something like this has happened in our society. The darkness seems so dark at first, but if you sit in it long enough, you get the impression that it is getting brighter. Time was when sin was called sin, when you could tell the good from the bad, but for many, that time is slowly disappearing now. We have sat in the darkness until we have become inured to it, even get the false impression that new light is breaking.

An alcoholic isn't a drunkard now. He has a new name, and the darkness has given him a new position. An alcoholic now is a sick man, not a sinful one. His alcoholism has no moral overtones about it. We used to call it sin, but now it is a disease. A disease which we manufacture, bottle, advertise, sell from an open counter, regulate (?) by the state, and collect taxes to build a better society on! Getting use to the darkness, aren't we?

Adultery now has a new name—free love! And it has several advocates, both in and out of the Church. It isn't sin anymore, it is situational ethics. And a movie star can have a baby out of wedlock one week and gain the admiration of millions on national television the next week! Getting use to the darkness, aren't we?

Murder will get you a hung jury, three years in the pen at the most. And if you can provide the money to get the right lawyer, you still go scott-free. We are a little more civilized than our forefathers. We believe in being lenient. The darkness is looking brighter now.

Strange, isn't it, that you can't get accustomed to the darkness, all at once. You have to sit in it awhile. And then it doesn't look dark anymore. Slowly, little by little, we "get use" to it.

But the Light of the world is still in the world, and men who love good and hate evil are still attracted to Him. And, strange as it may seem, men who love evil still hate the Light. For, you see, when the Light comes they have no place to hide.

The information for this section is provided weekly by the staff of Mountain Mental Health Services. If you have questions contact your local Mental Health Office: phone 886-3893 or John E. Mason, Community Coordinator, Mountain Mental Health Services, 413 South Lake Drive, Prestonsburg, Kentucky.

For the next few weeks, we shall deal with a problem that recently involves much of our time and energy. This problem is one of drug misuse and drug abuse. The source of our questions and answers is from a 1970 publication of the U. S. Government Printing Office entitled: "A Federal Source Book: Answers to the Most Frequently Asked Questions About Drugs."

QUESTION: What is a drug?

ANSWER: A drug is a substance that has an effect upon the body or mind. However, we will deal only with those drugs that have a potential for abuse because of their mind-altering capacity.

QUESTION: What is drug dependence?

ANSWER: Drug dependence is a state of psychological or physical dependence, or both, which results from chronic, periodic, or continuous use. Many kinds of drug dependence exist; they all have specific problems associated with them.

Not everyone who uses a mind-altering chemical becomes dependent upon it. Alcohol is one common example of this point. The majority of persons who drink do not harm themselves or those around them. However, more than five (5) million Americans are dependent upon alcohol.

QUESTION: What is habituation?

ANSWER: Habituation is the psychological desire to repeat the use of a drug intermittently or continuously because of emotional reasons. Escape from tension, dulling of reality, euphoria (being "high") are some of the reasons why drugs come to be used habitually.

QUESTION: What is addiction?

ANSWER: Addiction is physical dependence upon a drug. Its scientific definition includes the development of tolerance and withdrawal. As a person develops tolerance he requires larger and larger amounts of the drug to produce the same effect. When use of the addicting drug is stopped abruptly, the period of withdrawal is characterized by such distressing symptoms as vomiting and convulsions. A compulsion to repeat the use of the addicting drug is understandable because the drug temporarily solves one's problems and keeps the withdrawal symptoms away.

Drugs other than narcotics can become addicting. Some people have acquired an addiction to sedatives and certain tranquilizers. Stimulants in very large doses are addicting.

Whether the person is physically addicted or abuses drugs for psychological reasons, he is dependent upon drugs. Drug dependence of any kind is a serious problem for the individual and society.

QUESTION: Are all drugs harmful?

ANSWER: Every drug is harmful when taken to excess. Some drugs can also be harmful if taken in dangerous combinations or by hypersensitive people in minute or ordinary amounts.

The fact that certain drugs can produce beneficial results has produced the false notion that pills will solve problems. Society must develop a new respect for all drugs. Drugs that affect the mind can have subtle or obvious side effects. These can be immediate or may become evident only after long, continuous use.

D. A. R. HOUSEGUESTS

**Petitions Support
School Principal
In Johnson Co.**

PAINTSVILLE, KY.—Members of the Parent-Teacher Association of W. R. Castle Memorial School are circulating petitions to retain school principal Jim Conley who has not been rehired for the post next year by the Johnson County Board of Education.

Mr. Conley, principal of the country school six miles north of here, was not rehired due to a school bus schedule problem, poor staff relations and tardiness in making out a monthly report, according to Howard Stambaugh, president of the PTA.

Mr. Stambaugh said the petitions will be presented to Wendell Butler, superintendent of public instruction, and Rep. Carl Perkins, D-7th District.

Mr. Conley said he felt the reason for his not being rehired was his stand in supporting the Kentucky Education Association's actions in a recent state-wide teacher walkout.

The PTA also plans to take action in behalf of mathematics teacher Phillip Handshoe, of Hager Hill, who has also not been rehired.

**240 Are Enrolled
At Pikeville College**

PIKEVILLE, KY.—Pikeville College lists 240 students enrolled in its first 1970 summer term, according to John Waddell, registrar.

The college for the first time in its history is presenting a summer study program of three five-week terms.

Three summer terms are possible because of an early commencement resulting from accelerated fall and winter study schedules. Six hours credit may be earned in each session.

The second term starts June 10, and the third July 15.

Registration is scheduled at the college gymnasium on the opening day of each of the remaining terms.

Seniors who participated in the spring commencement may register from 9 a.m. to 9:30 a.m. All others may register from 9:30 a.m. to 11:30 a.m.

**FCEA Executive Committee
Endorses New High School at Eastern**

As educators, directors and officers entrusted with the obligation and duty of executing the affairs of Floyd County Education Association we feel we would be remiss in our duty if we did not endorse and encourage the educational endeavor of constructing the new Right Beaver High School.

We feel that the significance of education in a democracy is so great that we should promote, as an object of primary importance, institutions for the general diffusion of knowledge.

The secondary school of today is not what it was, even ten years ago. New trends have been initiated in curriculum, instruction, instructional materials, facilities, guidance, extracurricular activities, school organization and staff. Flexible buildings and equipment are needed to accommodate better teaching-learning procedures.

If Education is to be elevated to the highest level in Floyd County our educational facilities will require a vigorous overhauling. In the ensuing years if we are to utilize wisely the new technology of education it will take a total education endeavor and modern school plants like the one proposed for Right Beaver.

It is our belief that a graduate of Wayland, Garrett, Maytown, Martin, or any Floyd County High School graduate, should never deem it necessary to apologize for his educational background. Upon graduation he should be educationally equipped to compete with graduates from any of the 50 states. In sum, we are responsible for providing good and appropriate education both academic and vocational, for all young people with a democratic environment which the American people believe serves the principles they cherish. It is with this conviction that we endorse, without reservation, the new proposed high school at Eastern.

We believe the new high school is opportune and timely.

Kirk To Head Big Cast

Film star Tommy Kirk returns this summer to star in the Jenny Wiley Summer Music Theatre productions of HELLO DOLLY, LITTLE MARY SUNSHINE, and A FUNNY THING HAPPENED ON THE WAY TO THE FORUM, June 25-August 1. Kirk is shown above with Dorothy McGuire in a scene from Walt Disney's SWISS FAMILY ROBINSON. His other films include OLD YELLER, BON VOYAGE, BABES IN TOYLAND, THE SHAGGY DOG, and THE HARDY BOYS. All performances of the Jenny Wiley Summer

Music Theatre are Thursdays, Fridays, and Saturdays at the Amphitheatre at Jenny Wiley State Park.

This year's company is the largest in Amphitheatre history, according to Managing Director, C. Mitchell Douglas. Seventy-five percent of those who attended local audition were accepted as full company members. Other company members are coming from Connecticut, North and South Carolina, Pennsylvania, West Virginia, Ohio, Iowa, Indiana, Illinois, Tennessee, and California as well as Kentucky. Selection was made from the more than 600 applicants for this year's program.

Season tickets for the productions, which run Thursday, Friday, and Saturday nights, are available now by mail. Orders should be mailed to Box 186, Prestonsburg, Kentucky 41653.

Granted Renewal Of Scholarships

Highway Commissioner Eugene Goss last Friday announced the renewal of Highway Department engineering scholarships to James Newman, of Grethel, and S. Dean Perry, of Cliff.

Perry, son of Mr. and Mrs. Thomas G. Perry, is a 1968 graduate of Prestonsburg high school, and is now a sophomore at the University of Kentucky studying civil engineering.

Newman, a freshman civil engineering student at the University of Kentucky, is the son of Mr. and Mrs. Thurman Newman. He was graduated from Betsy Layne high school in 1969.

Renewal of their scholarships followed establishing by both students of satisfactory scholastic records at UK.

Awarded Service Pin

John (Jack) H. Keenon, of Prestonsburg, has been awarded a 30-year service pin by Kentucky West Virginia Gas Company. He began work with the company as an engineer on May 13, 1940, and is now superintendent of compressor stations.

A member of the Masonic Lodge and past master of Zebulon Lodge No. 273, Mr. Keenon is a past high priest of Prestonsburg Chapter No. 182, Royal Arch Masons. He is a member of the Kentucky Oil and Gas Association and St. James Episcopal Church.

He and his wife Alma spend their spare time fishing and raising flowers. They have two sons, John H. Keenon, Jr. and Rodney W. Keenon.

Calvary College Sets Commencement For Friday Evening

Calvary College at Letcher, Ky., will hold its first commencement, Friday May 29, at 8 p.m. This brings to a close the first four years of the school.

The following are in the graduating class: Michael Ray Campbell, Hazard; Linda Carol Combs, Jackhorn; Grethel W. Fields, Letcher; Hargus Hall, Jackhorn; Elwyn Lee Layman, Huntington, W. Va.; Mary Grace McIntyre, Letcher; Charles H. Minks, Scuddy; William Michael Padgett, Knoxville, Tenn.; Marvin A. Wegner, Meta.

Baccalaureate services were conducted on Sunday afternoon, May 24, with Dr. Gillis Partin, president of Calvary College, bringing the address. On Thursday night at the home of Calvary College Board Chairman Cordell Martin, of Hindman, a reception in honor of graduating seniors was co-hosted by Mrs. Cordell Martin and Mrs. Gillis Partin.

The Commencement speaker will be Congressman Carl Perkins. Commencement exercises will be held in the Bender Chapel on campus.

Essay Contest in 4 Schools Sponsored by Woman's Clubs

Two Floyd county Woman's Clubs are sponsoring an essay contest, the subject of which pertains to the proposed consolidation of schools on Right Beaver Creek.

The clubs, those of Maytown and Lackey-Garrett-Wayland, will award a cash prize of \$25 for the best essay submitted from each of four high schools—those of Martin, Maytown, Garrett and Wayland and an additional \$25 for the essay adjudged best among these four school winners.

Title of the essays may be "Consolidation—How It Will Benefit Me" or "Consolidation—How It Would Have Benefitted Me." Essays may not be less than 500 words in length; no maximum limit set.

Deadline for essays to be submitted is

Davis, Floyd Native, Honored by Jaycees

A former Floyd county man has received from the Junior Chamber International and the West Virginia Junior Chamber of Commerce the highest honor within their power to bestow.

Richard W. Davis, Charleston, W. Va., formerly of Betsy Layne, was selected for the senate of the Junior Chamber International and was honored for his outstanding contributions to the Jaycee movement on the local, state, national and international levels. He is a past president of the Charleston Junior Chamber, past national director of the U. S. Junior Chamber of Commerce and twice executive vice-president of West Virginia Jaycees.

His parents, Mr. and Mrs. E. P. Davis, reside at Betsy Layne. Mr. Davis is married to the former Ann Robertson, of Charleston, and they have three children.

If you receive a letter from Social Security setting an appointment for you to complete your black lung application, be sure to keep the appointment. It may be months before another appointment can be made.

Box Lunches To Be Sold At State Parks

FRANKFORT, KY.—An old-fashioned box lunch can now be ordered at all 13 state parks.

The moderately priced, packaged lunch was recently added to dining room menus in response to requests from those using boating, camping and picnic facilities, says W. James Host, commissioner of Parks.

Two lunch menus are available: fried chicken with baked beans, cole slaw and rolls; or, baked ham on rye with pimento cheese, potato chips and cake.

CARD OF THANKS

We, the family of Mr. and Mrs. William Newsom, would like to express our thanks to everyone who helped in any way upon the passing of our precious son. We give our deepest thanks to the Regular Baptist and Freewill Baptist ministers for helping to comfort the home, and a special thanks to the Hall Brothers Funeral Home for its kind and efficient service.

Cpl. Scaif Awarded Medal for Heroism

The secretary of the Navy has presented the Navy Commendation Medal to Cpl. Franklin Scaif, U. S. Marine Corps, for meritorious service while serving as a fire team leader in the Third Marine Div., in connection with combat operations against the enemy in Vietnam from Sept. 15, 1968 to July 15, 1969.

Cpl. Scaif performed his duties, the citation points out, in an exemplary and highly professional manner, participating in several major combat operations, including operations Scotland II, Purple Martin and Herkimer Mountain with composure and courage under fire.

On April 11, 1969, his unit was operating in the northern sector of I Corps Tactical zone when the Marines came under heavy fire from a large and well-concealed North Vietnamese army force. "Reacting instantly," the citation points out, "Cpl. Scaif skillfully deployed his gun team into a tactically advantageous position and commenced directing their accurate fire at the enemy. Undaunted by the hostile rounds impacting near him, he resolutely maintained his exposed position and, inflicting numerous casualties upon the enemy, forced the North Vietnamese unit to withdraw. Constantly concerned with the combat readiness of his team, he ably trained his men, quickly molding them into a capable, dependable, and highly effective fighting force. As a result of his diligent and resourceful efforts, the rational effectiveness of his unit was greatly enhanced."

Cpl. Scaif was promoted to the rank of Sergeant March 1, 1970. He is the son of Mr. and Mrs. Roland Scaif, of Prestonsburg, and attended Prestonsburg schools.

NURSING SCHOOL GRADUATE

Miss Betty Martin, daughter of Mr. and Mrs. William Martin, of Printer, will be graduated from the Good Samaritan Hospital School of Nursing, in Lexington, Ky., on May 29.

I was warned electric heat would cost me more.

"We've lived with it for 3 years and it's costing less than the heat we had before."

"Some people tried to tell us electric heat was expensive." Mr. and Mrs. Paul Pennington of Hazard, Kentucky, "wouldn't have much trouble convincing them it's cheaper by just showing them the records we have on heating for the last 3 years. And it's cleaner, so you don't have the cleaning bills you have with other heat. Our ceilings and walls are as clean as they were when the house was new. People who think it's expensive sure change their minds when they find out what it really costs." Compare the cost of electric heat for your home. 'Bubble' May Make Swimming Possible at Parks, Year-Round

The swimming pool at General Butler State Park, Carrollton, Ky., now will be open the year around, because of a bubble enclosure displayed last week.

W. James Host, commissioner of parks, officiated at a brief dedication ceremony for the pool enclosure.

"This bubble has been installed as an experiment to help us determine the feasibility of erecting similar enclosures elsewhere in the Parks system," he said.

We will proceed with plans to provide year around swimming at several other lodges, if this proves successful, Host said. Host made plans to go to Ann Arbor, Mich., next week to meet with representatives of the Bureau of Outdoor Recreation to obtain federal matching funds to help provide such facilities.

"If we can accomplish this, it will be a big step forward in our program to provide more interesting activities in our parks during off-season," he said.

The bubble enclosure at Butler cost about \$22,000, Host said. But a special agreement between the manufacturer and the Department of Parks had been made under which the department will not pay for the enclosure until positive results can be seen in terms of increased room occupancy and dining room business at the Butler Lodge.

Included in the bubble installation is lighting, a blower for the air-supported structure, heating for air and water and an emergency generating system which will keep the structure inflated in the event of a power failure.

Host said the cost per installation will be

Fight Games Mark Sunday's Opening Of Baseball Loop

Two one-run squeakers and two two-run contests marked opening day in the Central Mountain Baseball League.

In the Mountain Division Hazard edged Drift, 3-2, with all the runs being scored in the first three innings. Prestonsburg nipped Jackson 6-5, scoring the winning run in the bottom of the ninth.

In the Central Division, Frankfort squeaked by Nicholasville, 7-5, on the strength of 3 run-homer by Bill Crumbo. Winchester rallied for two runs in the seventh and a three in the eighth to overcome Maysville, 9-7. Maysville scored six of their runs in the fourth inning. Wah Jones led Greentree of Lexington to a 10-0 victory over the Lexington Contractors, Jones allowed only two hits.

Action resumes Saturday, with the two divisions meeting, head-on: Winchester visits Prestonsburg; Greentree visits Drift; Lexington Contractor vs. Paintsville; Maysville vs. Hazard; Frankfort vs. Jackson. Sunday, Maysville plays at Nicholasville, Winchester at Lexington, Greentree at Frankfort, Drift at Jackson, and Paintsville at Hazard.

Viola May Stewart, Prominent Civic Worker, Succumbs in Langley

Mrs. Viola May Stewart, well-known Langley woman, died at her home there, last Thursday. She was 72 years old.

Born July 7, 1897, she was a daughter of the late Felix and Susan Stephens May, and was the widow of William A. Stewart, who died in October, 1940. A merchant for 50 years, she had also been postmaster at Langley for the past 20 years. Active in the Republican party and in civic work, Mrs. Stewart was a former Republican chairwoman for Floyd county, and was named Floyd County Mother of the Year. A member of the Maytown Methodist church for 57 years, she was a member of the Daughters of America, the Maytown Woman's Club, and the Maytown P. T. A.

Survivors include three sons, William Carl Stewart, of Miami, Fla., Ogden Stewart, of Long Beach, Calif., and Edwin V. Stewart, of Langley; three daughters, Mrs. Jones Tallent and Mrs. Frank Stewart, both of Langley, Mrs. James A. Dixon, Jr., of Miami; two brothers, Willard May, of Orange City, Fla., Claude May, of Langley; three sisters, Mrs. Earl Moore and Mrs. Wayne Ratliff, both of Prestonsburg, and Mrs. Earl Webb, of Langley. Nineteen grandchildren and 22 great-grandchildren also survive.

Funeral services were conducted Sunday morning at the Maytown Methodist church, the Rev. Leonard Summer officiating. Burial was made in the Stewart family cemetery under direction of Hall Brothers Funeral Home.

Rev. and Mrs. Arthur Conaway are spending this week at the Cathedral Domain retreat in Lee county near Beatyville.

\$1,839.00*

What's the catch? There isn't any. \$1,839* is the suggested retail price at the port of entry for the VW sedan.

The price includes the Federal excise tax and import duty.

It also includes the built-in heater/defroster, windshield washer, electric windshield wipers, outside rearview mirror, padded dash, front seat headrests, and seat belts front and back.

Not to mention the new electric rear-window defogger and the new ignition/steering lock. (When the key is removed, the steering wheel is locked in place.)

It's the price of the real thing, not a stripped-down economy model.

What else do you have to pay?

The charge for transporting the car from the port of entry. The dealer delivery charge. And local sales tax.

There is one option that makes a lot of sense. The automatic stick shift. (It eliminates the clutch pedal.)

Well, that's it. Unless, of course, you count the cost of gas and oil it takes you to get here in your present car.

Vance Volkswagen, Inc.

and TOGETHERNESS

IF YOU'RE INTERESTED in making money, inquire about our land investment program. We have land of every description -- from waterfront to hilltop -- and it's priced so low that anyone with a regular income can afford a building site -- or several of them. Land is your safest guard against inflation and market fluctuations -- and in a spanking new development like the RETREAT, prices zoom from near zero to fabulous in a very short time. Decide on how much money you need to make -- then select the land which will make it for you!

DIRECTIONS:

U. S. Route 23 to one mile South of Louisa. West on Kentucky Route 32 5.8 miles to Evergreen Community Center, turn right on gravel road. Eight miles to the RETREAT. Keep to the left at intersections on Gravel Road. Don't hurry! Enjoy the countryside!

THE RETREAT is a private club where every member of your family can participate in the activity he likes best. There'll be something for every age and every taste in recreation and entertainment. And you'll never be crowded! The RETREAT is a 'buildin' -- some facilities are finished and some are not yet begun --

We'll be proud to show you what we're doing and delighted to tell you about the many exciting facilities which will be built in the immediate future. Bring your family and see for yourself! Bring a picnic and stay all day, or better yet, bring your tent and stay all night.

Melvin Howard, Sr., Dies At Dema Home

Melvin Howard, Sr., 76, died last Wednesday at his home at Dema. Born April 11, 1894, at Garrett, he was a son of the late Bryson and Nancy Baldrige Howard. A retired miner, he was a member of the United Mine Workers of America. Survivors include his widow, Mrs. Nancy Johnson Howard; four sons, Carl Howard, of Garrett, Morrow Howard, of Kenton, O., Eugene Howard, of Detroit, Mich., Melvin Howard, Jr., of Fostoria, O.; two daughters, Mrs. Janice Shaffner and Mrs. Nadine Shaffner, both of Marion, O.; 18 grandchildren and 14 great-grandchildren. Funeral services were conducted Friday morning at the Stone Coal Regular Baptist church at Garrett, ministers of that church officiating. Burial was made in the Howard cemetery on Rock Fork near Garrett under direction of Merion Funeral Chapel.

In memory of our Dad, James Harmon, Water Gap, Ky. We still can't believe he's gone one year, May 17, 1969:

Sis called in January,
Said Dad is sick, come home;
But God left you with us for awhile
Before he took you home.
In March we came back again,
You looked so bad, we knew
That God's death angel was around
And gently calling you.
In May we said goodbye for now,
But promised that we'd meet.
Beyond Jordan's mystery tide
And walk on golden streets.

HIS WIFE, MARY JANE HARMON AND CHILDREN, EARL H. HARMON, MAURINE SCUTCHFIELD, DORIS STAFFORD, NANCY SNIPES.

EXPLANATION

Milford Bryant, who was listed in last week's Times as charged with fishing without a license, is not the Milford Bryant of Martin, Ky.

The gracious custom of open church wedding will be observed June 6, 7 p.m. at the Calvary Baptist Church of Betsy Layne.

ORDINANCE

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF PRESTONSBURG, KENTUCKY, CLOSING AN ALLEY IN THE CITY OF PRESTONSBURG, KENTUCKY, AND AUTHORIZING THE CITY ATTORNEY OR A SPECIAL ATTORNEY DESIGNATED BY THE CITY COUNCIL TO INSTITUTE THE NECESSARY LEGAL PROCEEDINGS TO AFFECT THIS PURPOSE.

WHEREAS, there is existing in the City of Prestonsburg, Kentucky, an alley 10 feet in width which extends 84 feet from South Lake Drive (U. S. Highway 23), to Third Street, between and through lands owned by Nell Howard and Ashland Oil, Inc.

WHEREAS, said alley as above described is not now in use and has not been used by the general public for many years, and the closing thereof will not damage the general public or any of the adjoining or abutting property owners, and WHEREAS, it is the desire of the City Council to permanently close and abandon whatever rights or title it may have in said alley, subject only to the right of the City of Prestonsburg to ingress and egress on said alley for the purpose of laying, removing, altering or maintaining the City utilities.

SECTION I. That the alley situated in the City of Prestonsburg, as herein described is hereby permanently closed and all right or title to same is abandoned, and subject only to the right of the City of Prestonsburg to any ingress and egress on said alley for the purpose of laying, removing, altering or maintaining City utilities.

SECTION II. That the City Attorney or a special attorney designated by the City Council is, hereby authorized to take whatever legal action appears necessary to carry out the purpose and intent of this Ordinance, including the filing of a suit in Floyd Circuit Court, the cost of which, including attorney fees is to be borne solely by the adjoining property owners affected hereby.

SECTION III. This Ordinance shall become effective as of the date of its enactment, execution and publication as required by law.

of Appeals, and if it wins the property-owner would be required to refund the difference between the amount received and the adjudged value, plus interest.

Litigation is expected to continue for two years or longer. But the state has right of entry on land from the time it deposits the amount of the appraisal allowed the landowner.

The difference between state appraisers and those locally appointed is often great. For instance:

One piece of property valued by state appraisers at about \$29,000 was valued by the court-appointed appraisers at \$119,000. The values for another property ranged from \$28,000 by the state to \$75,000 by county appraisers.

The 93 condemnation suits filed on property between Boldman and Allen do not include some tracts in Allen itself.

Negotiations began this week for acquisition of right-of-way on Bull Creek, it was reported.

Three of the 16 appeals have been filed by landowners. Appellants in these cases are O. E. Syanley, Hobert Hayes and Mousie Dingus. In the other 13, all filed Monday, the Department of Highways appears as appellants, naming as principal defendants Sparrell Stratton, Erman Ratliff, Chester Layne, James H. Hall, Joe Ratliff, Clayton Stratton, Rosemary Meade, Henry Adkins, Lila M. Caldwell, Willard Ratliff, two cases, and Walter Hall, two cases.

Mr. and Mrs. George T. Roberts, Mr. and Mrs. E. D. Roberts visited Mr. and Mrs. Robert A. Collins and Judy in Morehead, Sunday.

MY DAD

Oh, how far back does it seem
The dreams of yesterday,
The hours of pleasure and days
We spent,
Before Dad was called away.
The days have become weeks,
And weeks never end as time goes
Crawling by;
And its as if we changed into
A different world,
One in which we cannot die.
Oh, how happy we were then,
Unaware of future plans;
The love we shared for one another
No one can understand.
My Dad was good in every way;
He loved, he lived and managed;
He went many places
And did many things
Until his heart was damaged.
We were all so very proud of him
In ways I cannot count,
Because, to us, he was such an idol
Upon his great, tall mount.
He left many footsteps for us
To follow
In hopes we would choose
The right path,
To live our lives the good,
Honest way,
And accomplish lots more than he hath.
I'm sure Dad knew, our love for him
Because it was felt
In the presence of air.
Maybe by little things
Or special occasions.
In any case, he knew it was there.
My Dad was such a loving man,
With honesty, courage and pride,
And he believed in them
Very strongly,
And practiced them until he died.
You see, there was love in our home
That lasted throughout the years,
It kept us all going,
Even in bad times,
And helped to dry us all the tears.
Winfrey Sisco is this man
To whom we are dedicated so,
Not just because he's our Dad
But because, his heart was gold.
I just wanted the world to know
The kind of man he's always been,
And I know there is waiting
A reward,
When at last this world
Will end.

there, some in the very spot where our fisherman friend had been casting, half an hour earlier. There was no wind but there were patches of ripply water, small islands of movement on a lake that was otherwise glassy-still. Then came the sound I had been waiting for—the tra-loom of a bullfrog, back there in the gloom of an overhanging bank. As this fellow got into high gear with his deep, resonant voice, a younger frog apparently decided another voice was needed, and he chimed in, giving it all he had, but he didn't have much. Sounded as if his voice was changing. He put a good deal of spirit into the concert, and seemed to sound off just as his elder was taking aboard a bellyful of fresh air, yet he didn't belong in this company. I wished he would plain shut up. And just then as this youngster raised his voice again a third frog, apparently the patriarch of the tribe, gave with a bellow that was deeper, more resounding even than that of the first basso. And the youngster who failed to impress suddenly ended his efforts and called it a night.

When I set out alone for camp, I dreaded only the prospect of not being able to take along a book for a bit of reading. But all that was quickly forgotten.

It occurred to me, once, that I would have nobody to talk to. But I did.

MRS. ALLEN

While research during the University of Kentucky Research Foundation's early years was primarily in the physical sciences, it now extends into education, the humanities and the social services as well. The Foundation presently administers funds for nearly 1,000 different projects, distributed among almost all the departments and divisions of the University.

**Teacher Retiring
After 40 Years**

Mrs. Dortha Wurm Allen, well-known Martin high school teacher, will retire this spring at the age of 65. Mrs. Allen has taught a total of 40 years, 24 of which have been at Martin.

Mrs. Allen is a native of Westerville, Ohio. After graduation from Otterbein College in 1927 with majors in education, natural science and social studies, Mrs. Allen came to Floyd county and began her teaching career at Maytown in 1929. A desire for adventure was the chief motivation behind Mrs. Allen's decision to come to Eastern Kentucky. But she was also influenced by the Clayborne Bailey family, who were then living in Ohio. Mrs. Allen has taught at Martin, Maytown and Hellier.

In 1930, she married Joseph Reuben Allen, now deceased. They had one daughter, Lois Brenda Allen, who will receive her Ph. D. in public health from the University of Michigan.

Asked to recall several highlights of her career, Mrs. Allen spoke of the 1963 trip to Europe which was a graduation trip for her daughter who had received her MA. Two years later, she chaperoned nine girls on a Teen Tour of Europe.

Mrs. Allen has been a member of the Martin Methodist Church since her arrival in Kentucky, and has always been active in church and community affairs. In 1952 she served as reader for the Mountain Passion Pageant, enacted on Pageant Hill in Martin. She has also directed an outdoor Christmas pageant, using Martin students in both 1967 and 1968. She was elected to the Floyd County Hall of Fame.

On her 65th birthday she was honored by her French I class with a bookshaped birthday cake, provided by Mrs. Audrey Gunnels, and she also received gifts and flowers from the class.

As an example of her students devotion and concern to Mrs. Allen, she recalls the night in January, 1969 when the Martin grade school was destroyed by fire. Her French class, seeing that her home was in danger, came to move her furniture out. Debbie Dingus, one of the class, said, 'Mrs. Allen, your French students, present, past, and future, have come to move you out.' And they did. All the furniture was out by 6 a.m. and back in place again by 8 a.m.

Mrs. Allen attributes her successes to "love of people" and her "deep and abiding faith in God." When asked about her future, Mrs. Allen replied that she has no definite plans. Her plans will depend upon her daughter's.

The University of Kentucky is a small city in itself. It has its own post office, bookstore, radio station, newspaper, printing plant, cafeterias, theatre, libraries, police force and hospital. There are over 100 major buildings on the Lexington campus alone. The University community, including students, full-time faculty and staff members, numbers about 22,000.

New Baseball League Begins Season Play

The brand-new Central Mountain Baseball League began its schedule last Sunday, with one of Floyd county's two member-teams at home and the other away.

All teams in the Central division began their schedules Sunday, but in the Eastern division only two games were played. Jackson was hosted by Prestonsburg, and Drift played at Hazard in the Eastern half of the league. In the Central Frankfort was at Nicholasville, Maysville was at Winchester, Lexington at Greentree. Paintsville, in the East, was idle.

A post-season playoff series will be held between the two divisional winners for the league championship, Scotty Baesler, league president, announced last week.

The new league is the result of a merger of the Mountain League and the Central League.

The Prestonsburg team has these games: May 24, Jackson, at Archer Park; May 30, Winchester, at Archer Park; June 7, Nicholasville (doubleheader), at

Nicholasville; June 13, Paintsville, at Archer Park; June 14, Drift, at Drift; June 20, Jackson, at Jackson; June 21, Paintsville, at Paintsville; June 28, Greentree (doubleheader), at Lexington; July 19, Lexington (doubleheader) at Archer Park; July 25, Hazard, at Hazard; July 26, Hazard, at Archer Park; July 21, Frankfort, at Archer Park; August 2, Maysville (doubleheader), at Archer Park; August 9, Frankfort, at Frankfort; August 15, Drift, at Archer Park; August 16, Winchester, at Winchester.

Garrett Marine, Sixth Brother To Serve in Armed Forces, Wins The Navy Commendation Medal

Marine Cpl. Danny Francis, sixth of the sons of Mr. and Mrs. Bill Francis, Sr., of Garrett, to serve in the armed forces since World War II, has been awarded the Navy Commendation Medal with Combat "V" for heroism in action.

The medal was awarded for meritorious service while serving with Co. M, Third Bn. 26th Marines, First Marine Division in Vietnam from Dec. 20, 1968 to Oct. 5, 1969. The citation reads, in part:

"Serving as a 60mm mortar squad leader, he participated in six major combat operations, including Operations Bold Mariner, Taylor Common and Oklahoma Hills, and repeatedly distinguished himself by his courage and composure under fire. Typical of his actions was the occasion on the night of 4 March, 1969 when Company M was attacked while occupying a defensive position. . . .

Several men were wounded at the outset of the attack, and the continuous enemy fire made it extremely hazardous to reach them. With complete disregard for his own safety, Cpl. Francis moved across the fire-swept terrain in an attempt to help the wounded Marines. Arriving at the casualties' position, he immediately commenced administering first aid to the wounded, and after insuring that they had all received attention, he began to carry them to the landing zone. When the medical evacuation helicopters arrived, Cpl.

Francis once again braved the heavy volume of enemy fire as he carried wounded comrades to the aircraft. His heroic and selfless actions were directly responsible for a speedy and organized evacuation."

Cpl. Francis is a graduate of Garrett high school. Four of his brothers served in World War II, and another in the Korean Conflict.

CAPITAL DIGEST

Edited by Thornton Connell

FRANKFORT, KY.—Gov. Louie B. Nunn described his order sending Kentucky State Police and National Guardsmen to the University of Kentucky campus in Lexington to put down student disorders as a "mission of protection."

The disorders started May 5 with demonstrations against U. S. involvement in Cambodia, and the fatal shooting of students at Ohio's Kent State University. They culminated in the burning of the old ROTC building.

The governor on May 6 imposed at 7 p.m. to 6:30 a.m. UK campus curfew.

His order said in part: "The Kentucky State Police and an adequate number of National Guardsmen with mounted bayonets and live ammunition are being moved onto the campus to protect the students and university property."

"These officers are under orders to use such force as is necessary to perform their mission of protection. Anyone attempting to defy them does so at his own peril. Please comply for your own safety and the safety of all others."

The key to his action, the governor said, lay in the phrase "mission of protection." It was for the protection of all, he said, for students, for their families who sacrificed to send them to college, and for innocent bystanders.

SAYS BUILDING PLAN NEEDED

Gov. Louie B. Nunn doesn't want to take any action detrimental to higher education in Kentucky, but he does want to do away with what he calls a fragmented approach to state construction of state college and university buildings.

The governor told the State Property and Building Commission that Kentucky needs a coordinated plan to solve the problem. He said some colleges and universities have building plans that are necessary, but they also have some that may be desirable but less urgent.

STATE POLICE PROBES UP

Crime in Kentucky continues to rise, according to Public Safety Commissioner William O. Newman, with State Police detectives opening 632 criminal investigations during the first two months of 1970, a four per cent increase over last year.

Arrests for the two months were up also, from an average of 189 to 233 per month. Burglary continues to head the list of serious crimes, but a recent rash of cattle thefts is demanding more of investigators' time. Narcotics violations also seem to be on the increase, with marijuana leading the way.

Allegations of document fraud, mainly forged checks, brought 15 suspect writings to the document examiner.

TWO FRIDAYS, STATE HOLIDAYS

Because Memorial Day, May 30, and Independence Day, July 4, fall on Saturdays this year, Gov. Louie B. Nunn has designated the preceding Fridays, May 29 and July 3 as paid state employe holidays.

OPINIONS SOUGHT

State Labor Commissioner John W. Young has scheduled a public hearing for May 12 in the State Office Building to get public reaction before preparing regulations to implement the new 1970 child labor law which becomes effective June 18.

The new law amends Kentucky's restrictive child labor law. It will allow children under 18 to obtain jobs under limits to be formulated by the labor commissioner with the advice of a committee consisting of representatives from agencies dealing with education, welfare and youth.

GROUP ELECTS OFFICERS

New officers elected by the Kentucky Mountain Laurel Festival Assn. at its Governor's luncheon at the executive mansion included:

President, Homer Parker, Louisville; vice-president, Lon Rogers, Pikeville; secretary, Mrs. Harry Gaunt, Lexington; secretary-emeritus, Mrs. J. Kidwell Grannis, Flemingsburg.

The May 28-31 festival at Pineville will be climaxed May 30 with the crowning of a festival queen to be selected from 24 entrants representing state colleges and universities. A festival princess from 17 area high schools also will be chosen.

WHEELWRIGHT WOMAN'S CLUB INSTALLS NEW OFFICERS

The Wheelwright Woman's Club held its installation of officers for the year 1970-71 at a dinner May 12 at May Lodge. Mrs. Bill Hoffman, seventh district governor, presided.

Officers installed were Mrs. Alma Souleyrette, president; Mrs. Fred Salisbury, vice president; Mrs. H. M. Wilkinson, Jr., secretary, and Mrs. Billy Mullins, treasurer.

Mrs. Hoffman spoke to the club briefly about future state and district meetings and contests. The club presented Mrs. Hoffman a cut-glass fruit compote in appreciation of her valuable and enthusiastic support of District 7 clubs.

The club also presented a Past President's pin to Mrs. Sue Hutchison, 1969-1970 president.

Reports on the Kentucky Federation of Women's Clubs state convention at Lexington were given by the attending members, Mrs. Fred Salisbury and Mrs. Sue Hutchison. Mrs. Salisbury presented a citation from the General Federation of Women's Clubs awarded for the Wheelwright club's third consecutive year of 100 per cent subscription to the G. F. W. C. magazine and a citation from the Kentucky Federation of Women's Clubs, honoring the club's perfect scorecard. Mrs. Hutchison presented a citation sent by the General Federation of Women's Clubs for the club's participation and reporting in a

community improvement project. Members present were Mrs. Alma Souleyrette, Mrs. Fred Salisbury, Mrs. H. M. Wilkinson, Jr., Mrs. Billy Mullins, Mrs. Forest Newsome, Mrs. Sue Hutchison, Mrs. Otis Mullins and Mrs. Mary Ellen Wilson. Guests of the club were Mrs. Hoffman and Mrs. Lloyd Nettles, of Printer.

GOING AWAY PARTY

A going-away party was given for Miss Ann Logan Holbrook at the home of Miss Kathy Harris, Saturday, May 16. Miss Holbrook received many nice gifts. Those attending were Miss Rose Sammons, Teresa Pelphery, Debbie Davidson, Deanna Horn, Dodie Webb, Donna Burnett, Lori Gardner, Sherry Music, Jennifer Jones, Brenda Music, Cheri Sword, and Jonell Tackett. Miss Holbrook and family will be leaving the 28th of this month for Killeen, Texas, where her father is now stationed in the army.

Bid proposals for all projects will be available until 12:00 NOON EASTERN DAYLIGHT TIME on the day preceding the bid opening at the Division of Contract Procurement at a cost of \$2 each. Bid proposals are issued only to prequalified contractors. Remittance payable to the State Treasurer of Kentucky must accompany request for proposals.

NOTICE
The Kentucky Department of Highways, in order to assist those people displaced by highway construction, desires to obtain listings of available housing and building lots which are for sale, rent or lease in Pike and Floyd counties.

Information concerning property listed with the Department will be made available, free of charge, to those people displaced by highway construction and at no cost to the property owner offering the property.

Any property owner having property for sale, rent, or lease, is requested to send a brief description of the property, giving the lot size, type (brick, frame, block), number of rooms, type of heat, if gas and water are available, location and whether or not the house has a bathroom. If the house is for rent, state monthly rent; if house is for sale, the sale price. Be sure to indicate the name and address of the owner and telephone number, if any.

All properties listed must be safe, decent, and sanitary, and available for sale or rent without regard to race, creed, color, or national origin.

All replies should be sent to David Watson, District Relocation Assistance Agent, Department of Highways, P.O. Box 2468, Pikeville, Kentucky.

Black Lung Benefit Applicants To Get Office Appointments

The Social Security Office is arranging appointments for those people who filed protective applications for black lung benefits, it was announced last week by Daryl E. Ratliff, manager of the Pikeville Social Security office. It is very important for applicants to keep their appointments, he added.

Those who sent in a statement prior to May 15 should not re-contact Social Security. "We cannot talk to them before an appointment is made, because of the large volume of black lung applicants," Ratliff said.

It is now necessary for those who have never filed to file a regular application for black lung. The protective statements cannot be used after May 15, 1970. The application can be taken only in Pikeville. In order to expedite their claims, applicants should call first to find out what information to bring with them. The telephone number is 432-2177.

Science May Convert Junk to Useful Items

By JIM WARREN

FRANKFORT, KY.—American industrial technology has produced an economy and standard of living unmatched in history. It also has produced one of today's most depressing problems: junk.

The discarded products of auto technology, rusting and decaying, smother the land and threaten our health. And the avalanche of waste is growing.

At present, Kentucky depends on incinerators and landfills to dispose of solid waste, says Frank Groschelle, administrator of the Kentucky Program Development Office (KPDO).

"There are problems," he says, "but I feel confident that improved means of dealing with the problems will be forthcoming in the near future."

Those improved methods could come out of Spindletop Research, near Lexington, where research is well under way.

In the next 30 years the U. S. will produce 10 million tons of junk, and it becomes obvious that to keep mankind from drowning in his own refuse, something must be done, and soon.

One promising solution is to turn the junk into usable products. Several colleges, supported by Federal grants, are experimenting with that idea.

Louisiana State University scientists, for example, have found a microorganism that converts cellulose waste into pure protein.

About 250 pounds of "bagasse," the residue of sugar cane from which the juice has been removed, yields 50 pounds of protein for food.

Researchers also hope to convert newsprint, wood chips, corn stalks, and other cellulose waste into nutritious protein.

A scientist at the University of Illinois is studying a process that could convert food, paper, and other organic waste into natural gas for heating, cooking, and lighting.

Since the United States is not alone in the waste problem, scientists around the world are seeking ways of refining junk.

In Japan where space always has been a problem, a machine compresses trash and

garbage into dry, odorless blocks which, according to the machine's inventor, can be used in construction.

Several European cities convert trash into energy through smokeless incinerators that power electric generating plants. Three tons of refuse provide as much heat as a ton of coal.

Other incinerators reduce glass and metal scrap to leave like cinders useful in making cement blocks, fiberboard, and shingles.

Some groups are developing products that self-destruct.

American and Swedish research teams are experimenting with containers that disintegrate in sunlight and turn into mulch after they are discarded. A Clemson University scientist is testing bottles that melt away a few days after being broken.

Before the end of the century, scientists expect to harness the power of the hydrogen bomb in thermonuclear power plants. The exhaust from such plants could be used to vaporize waste matter, returning it to its original elements for re-use.

Thus the technology which created the pollution problem is turning its efforts to removing the menace to the welfare of mankind.

Breckinridge Wins Suit To Halt Fund-Seeking

Attorney General John B. Breckinridge last Friday won a court injunction forbidding use of state employees and facilities for the solicitation of political contributions from state employees or from persons or firms doing business with the state.

He and Governor Nunn agreed on a permanent injunction in Franklin circuit court. Cost of the suit was levied against Breckinridge.

Breckinridge, who had sought the injunction in a suit filed in October, called the agreed judgment "another step in the direction of... professionalizing the public service."

"With the entry of this judgment, violators can speedily be brought before the judge of the Franklin Circuit Court to show cause why they should not be held in contempt," Breckinridge said.

Nunn, whose office controls the vast majority of state employes covered by the injunction, issued no statement.

The agreed judgment entered by Circuit Judge Henry Meigs permanently enjoins Nunn and his department heads from:

"Directly or indirectly using or permitting or authorizing the use of the property, facilities, services, offices and telephones of, or paid for by, the Commonwealth of Kentucky for the purpose of soliciting, coercing, encouraging, demanding and-or receiving political contributions for the promotion or aid of any candidate or political party or political cause from persons, firms and corporations engaged or seeking to engage in the sale of services, supplies, commodities, materials, equipment and other things of value to the Commonwealth of Kentucky, and from persons, firms and corporations holding or seeking various licenses and-or permits..."

"Obtaining or attempting to obtain money or services by assessment or coercion from state employes... to promote or aid the candidacy of any person or any political party or any political cause."

In addition, all merit-system employes, who comprise about 80 per cent of the state work force, were permanently enjoined from "directly or indirectly, paying or promising to pay any assessment for political purposes, or from soliciting or taking any part in soliciting for any political assessment or services."

Most, if not all, the acts listed are also violations of the state's criminal laws. However, there have been few, if any, criminal charges filed for political soliciting even though it has been a political fact of life in Frankfort for years.

In fact, the refusal of a Franklin county grand jury last fall to investigate reports of solicitations was cited by Breckinridge as a reason for imposing a civil injunction.

Breckinridge's suit followed disclosure last October that three Finance Department aides, John Moesser, Claude Razor and Clayton Martin, had solicited Republican campaign funds by phone during regular working hours.

The Courier-Journal learned that a number of businessmen and contractors doing business with the state were asked to send contributions to the GOP at Post Office Box 478, Frankfort. At the time, the box was assigned to the state director of purchases, N. B. McCubbin.

Two Department of Natural Resources officials said McCubbin's superior, Deputy Finance Commissioner Lawrence E. Forgy Jr., had arranged use of an office in their department by Moesser and Razor. A Natural Resources Department aide, Robert Stopher, also took part. Forgy denied knowledge of the arrangement.

Forgy's superior, Finance Commissioner Albert Christen, never would say whether he had authorized the plan, but Christen later arranged for the GOP State Central Committee to pay two weeks' rent

for use of the office. Christen also required Moesser to return his paycheck for the period. Razor was recorded as using vacation time.

Stopher later resigned to take a private-industry job after declining to refund his pay for the solicitation period.

The telephone calls were charged to the Republican state committee.

In addition to the solicitation of businessmen, there were reports last fall of the usual pre-election collections of political contributions from state employes.

As part of the agreed judgment, Breckinridge gained a clause requiring the Nunn administration to "post a copy of this judgment in a conspicuous place in every division, bureau and department of state government for a period of 60 days commencing 10 days after the entry of this judgment."

ADVERTISEMENT FOR BIDS

Sealed proposals will be received by the Floyd County Board of Education, Prestonsburg, Kentucky, until 1:00 p.m. Eastern Daylight Time, June 6, 1970, for the remodeling of a science classroom at the McDowell High School, McDowell, Kentucky.

Immediately following the scheduled closing time for reception of bids, all proposals which have been submitted in accordance with the Contract Documents will be publicly opened and read.

Plans and Specifications and Contract Documents may be examined at the following places:

(1) Office of George Lee Shannon, Architect and Engineer Fitzpatrick Building, Prestonsburg, Kentucky.

(2) Floyd County Board of Education Prestonsburg, Kentucky.

Plans and Specifications may be obtained from George L. Shannon, Architect and Engineer, Fitzpatrick Building, Prestonsburg, Kentucky, upon deposit of \$1.00 for each set. The deposit will be returned upon receipt of Plans and Contract Documents, in good condition, within ten days after bids are opened.

Bids must be accompanied by a bid bond or certified check, payable to the Floyd County Board of Education, in the amount of the bid.

No bidder may withdraw his bid for a period of 45 days from the date set for opening bids. Bids received after the scheduled opening time will be returned unopened to the bidder. The Owner reserves the right to reject any and all bids, or to let the contract as a whole, or for any part and to waive any informalities.
