

Pike Group Backs Road Sans Tolls 'A Stupid Idea,' **Farley Describes Tollroad Plan**

The proposed toll road from Prestonsburg to Ashland as a part of a four-lane route to connect Eastern Kentucky with Cincinnati has met with opposition, it was learned last week.

The opposition, however, is not against the highway itself but, rather, is directed against the toll-road plan. Jack Farley, executive secretary of the Pike County Chamber of Commerce, at the recent meeting of the Big Sandy Area Development District, termed the suggestion of a tollroad between Prestonsburg and Ashland "a stupid idea," in view of the fact that construction of this part of the route as a freeway, with Appalachian Regional Commission assistance, is possible.

Farley argued that proponents of the highway should, first of all, exhaust all possibility of a freeway, with \$70-\$30 ARC aid, before considering its construction as a tollroad. He added that cooperation should be offered on the tollroad idea from Ashland on to Cincinnati.

The Big Sandy Area Development District will consider financing of the route at its next meeting and possibly make a statement of its position.

The high-speed highway linking this area with Cincinnati was first suggested by the FIVCO Area Development District which includes five counties in the Ashland area. FIVCO argues that the road would provide a means for a transportation system to reach large areas of industrial land along the Ohio River which are now inaccessible, and would also afford a more direct north-south route for traffic going through the mountains. A meeting of representatives from all areas that would be affected is scheduled at Maysville next Monday.

Three Buildings Lost in Blaze

Photo shows the Clemons Grocery Store building at Garrett as it and two other structures, the Campbell Grocery and a dwelling, were destroyed by fire at Garrett, Jan. 16. The loss was estimated at \$70,000. The Allen and Hindman fire departments confined the blaze to the three buildings, saving nearby structures. A small water heater in a tenant-house owned by John Campbell was blamed for the loss.

Nixon Budget Asks \$200,000 **On Martin Job**

Congressman Carl D. Perkins wired The Times Monday, reporting that the President in his budget submitted to the Congress asked for an additional \$200,000 for construction of the local flood protection project at Martin.

already appropriated for the current fiscal cannot be completed before June but added year (Work on the \$3 million flood control project extending from the junction of Right and Left Beaver Creeks to a point near Clark Branch, a distance of about four miles, has been delayed as the city of Martin and the Floyd fiscal court have been unable to procure necessary easements over lands of property-owners. Elsewhere

\$500,000 Outlay Expected by '75 **To Meet Demand**

The city of Prestonsburg and its Municipal Water & Gas Commission moved jointly Monday toward compliance with a Kentucky Water Pollution Control Commission directive demanding that Prestonsburg build and have in operation by December, 1975 a secondary sewage treatment plant.

In a special meeting Monday afternoon the City Council approved a contract with Bell Engineers, Lexington, for a preliminary survey of the project, subject to the approval of the Water & Gas Commission. The latter voted its approval Monday night.

The secondary sewage treatment plant will cost an estimated \$500,000.

Federal aid on such a project at this time amounts, roughly, to only 30 per cent of the cost, officials said. If the amount of such aid is not increased, cost of the improvement would mean increased sewer rates.

But there is no way to delay work. The state Water Pollution Control Commission first warned Prestonsburg in December, 1970 that such added sewage treatment would be required by December, 1975. A few days ago, it served notice that an application for a grant must be filed not later than March 1 and that work on the plant must be begun not later than next year.

Jack Wesley, representative of Bell This amount is in addition to \$806,000 Engineers, said the preliminary survey

Poverty Worker From Mud Creek **Injured** in Knott

> Don Jacobsmeyer, 27, Mud Creek poverty group worker, was one of two men who were injured last Thursday at Roaring Branch, Knott county, as an aftermath of a protest staged at the Ken-Mark Coal Company.

> Jacobsmeyer and a Lexington photographer, Gary Abrams, were treated at the Appalachian Regional Hospital, Hazard, for head wounds. Phil Primack, a reporter for The Mountain Eagle, Whitesburg, and James Branscome, president of Save Our Kentucky, a state anti-strip mining group, reportedly suffered minor hurts.

> State Police were told a group of men, possibly as many as 10, attacked Jacobsmeyer and the others who had been at the coal mine site with 20 women-members of the Appalachian Group To Save the Land and People while the women sought to stop operation of the mine.

> The attackers were not identified. The women left under State Police escort following the attack. Branscome's car was overturned, its tires slashed and windows broken. Another car, that of Helen Roach, of Clay county, was also reported as damaged.

Murder Docket Clean After Trial of Rice

testified.

saw the girl fall.

Conviction last Tuesday of John Rice, of Manton, on a manslaughter charge in the shooting death of Verline Robinson removed from the Floyd circuit court docket the last case involving a death by violence. Rice will not appeal his two-year pen term, it was said Monday.

D. C. Jones, who was given a 21-year pen term the preceding week for the fatal shooting of Guerniss Hall, near Garrett, has begun serving his sentence.

The last major case yet to be heard before adjournment of court Friday is that of Mrs. Dora Johnson, elderly Melvin woman who is accused of shooting and wounding another.

Rice claimed the shooting of Miss Robinson was accidental and that the shot was fired while he and Willie Goodman. suitor of the girl, were struggling for possession of a shotgun.

The commonwealth sought to prove that Tuttle, 31, of Stoh, Ind., was jailed the Rice fired the shot at Goodman following an altercation with him, missed Goodman and accidentally killed Miss Robinson.

The defendant testified that he and Goodman earlier in the day had discussed work they were to do and that during this time he drank three cans of beer. Later, Goodman and Miss Robinson came to his home, remaining there till late and meanwhile drinking beer. A dispute precipitated by Goodman arose when

No Driver's Tests Slated This Week

No drivers' road tests will be given this week while state troopers in charge of testing are in training classes, Circuit Clerk Frank DeRossett said Monday. Written tests will be given on Wednesday and Thursday only.

Coal Suit Dismissal Sends Case to Court

week dismissed a petition against 30 coal companies who are doing surface mining in or regulation. The citations can be for such Floyd and other Eastern Kentucky counties, but attorneys for the Appalachian Research and Defense Fund, which has its headquarters here, said the action, not unexpected, clears the way for the case to sides of a mountain, or any number of other get into the Franklin circuit court. The Commission dismissal was made, it was pointed out, because it has no authority to revoke a strip-mining permit in cases of repeated violation of state law and regulations as long as requested remedial measures are undertaken by the company. The whole controversy began when the defense fund's attorneys attempted to prosecute a suit against Vols Coals, Inc., a company that since has said it no longer will strip-mine in Kentucky. Franklin Circuit Judge Henry Meigs II said he would not hear the action until all administrative remedies were exhausted. massive petition against 30 Eastern court in the area where the alleged problem Kentucky coal companies, charging repeated) violation of state law and regulations governing surface mining. The commission said the petition did not in any case show that any company failed this.'

The State Reclamation Commission last to take the ordered remedial measures, after they were cited for violation of a law offenses as excessive blasting, improper elimination of water from the mining site, working in an area not covered by a permit, making too large a mining site around the things.

It wasn't the flu, it was spring fever that had most of us down. Some of us who were pretty wobbly in Monday's heat made suprising recoveries within hours after the temperature dropped. Rice's wife suggested it was bedtime, and Goodman struck him, Rice added. He then AIN'T IT THE TRUTH! ordered Goodman to leave and stepped into The objective case must be plumb oban adjoing room where his shotgun was

jectionable to most people as they tackle pronouns. It's a caution how they skirt the use of simple words such as "me" and "him." During the telecast of that golf tournament last week-end men who should know better assaulted the language with sad results. Dr. Gary Middlecoff was the author of the classical "between he and the flag," and, later, an announcer quoted Bobby Nicholls: "He told myself and some of the other announcers."

Commented a listener:

"You hear so much bad grammar, these days, that you don't know what is right and what ain't."

Try to keep a straight face and hear a man, as some did recently, keep talking about his wife and her mini poise.

THE VACANCY IS FILLED

J. D. Bond, wherever you are, drop the banners and muffle the drums. I have withdrawn from the race for Poke Warden.

The office can't await an election, not around here, anyway, and so it is with great regret, etcetera, etcetera, that I am returning to the ranks of Just Plain Citizen.

Until a successor is chosen, the Hon. Watt Hale, of West Prestonsburg, is Poke Warden. The choice may not be a shining example of the democratic process, but action was necessary, and it was only because of the emergency that Mr. Hale accepted the onerous duties of office on a moment's notice.

He did so when, he said, some of the ladies during this recent warm spell began staking out claims on poke patches but were unable to find the proper person with whom to file said claims.

Declaring he is fully aware of his grave responsibilities, but not one to shirk, Watt in his first official pronouncement said this week:

"Property rights must be protected, and I expect to do my part. Above all, I do not want to let this matter drift into what we had in the Roarin' Twenties when there was

New Assessment **Scheduled** Soon In Prestonsburg

Reassessment of Prestonsburg real estate is due to begin shortly, it was said this week after the City Council had awarded a contract for the work to the Robert M. Daniels Real Estate Service, Ft. Mitchell, Ky.

The reassessment work will be aimed at effecting equalization of property values for tax purposes, Mayor George P. Archer said. The low bid offered by the firm was \$9,200.

The last reassessment here was done in 1964.

It is estimated that Prestonsburg will lose \$15,000 in tax revenues as a result of the \$6,500 assessment exemption granted under the new Homestead Act to property-. owners 65 years of age, or older.

Mayor Archer said the city will shun the idea of increasing assessments which already are at the proper level in order to offset this loss. Instead, he said, the increases will be gained on new properties or on improved properties.

benefit from the Homestead Act must file Trooper Bevins; Tommy Cole, a.w.o.l. and by March 1 with the city assessor exemp- Glen Moore, resisting arrest, by Deputy tion application forms and evidence of age. Sheriffs Edd Isaacs and C. Hall.

that it could reach the point at which an application for federal assistance can be filed by March 1. The contract with Bell provided for the payment of \$7,500 for this preliminary survey. A second and final survey will follow.

Earlier, Mayor George P. Archer had protested the heavy expenditure, pointing to the heavy bonded indebtedness in construction of the primary sewage treatment system which was completed only a few years ago. He also argued that secondary sewage treatment by Prestonsburg does not seem practical, in view of the fact that raw sewage is entering the Big Sandy from dozens of sources both above and below this point. Similar objections were registered by John G. Heinze and Blaine R. Hall, members of the Water and Gas Commission.

(See Story 1, Back Page, Sec. 1)

Jail Roll Light During the Week

The weather was so inviting outside during the last week that few got inside the Floyd county jail.

Among those jailed were a juvenile who was arrested by Deputy Sheriff Howell on a shooting and wounding charge, and Freddie Collins, jailed by Deputy Sheriff Grady Skeans and State Trooper Leeman Bevins on a charge of illegal possesion of alcoholic beverages. Others booked included these:

Roger Lee Vance, reckless driving, jailed by Deputy Sheriffs Tackett and Bartley; Dannie Duff, a.w.o.l., by Deputy Sheriffs Albert Salvers and Sollie Holbrook; Ronald Reynolds, destroying private property, by State Trooper Dennie Williamson; George Prestonsburg residents who expect to W. Thornsberry, drunk driving, by State

NE HUND

The defense fund's position is that in many cases no remedial measure can undo the damage already done.

Defense fund attorney David Murrell said he expected to file an action in Franklin circuit court "just as soon as we can get it worked up.'

Murrell's colleague J. T. Begley, said, "We were not surprised. That's why we came with this petition, to get it rejected. The remedies are gone now, and we have a case to take to the Franklin circuit court." Asked about the provision in reclamation With that, the defense fund filed a law that provides for relief in the circuit occurred, Begley declined to commentother than to insist, "We think we have a case. . .we think Franklin circuit court has jurisdiction and a reponsibility to hear

proportions in this county but it's here and the worst may be yet to come.

Hospitals are packed, but the situation is not entirely due to flu. Usually, January brings a heavy caseload. But sufferers from flu or other upper respiratory tract problems are more numerous than usual. Charles Clark, superintendent of Floyd schools, said the school attendance, countywide, stood at 84 per cent Monday.

That is a loss of 9 to 10 per cent from the average for last year. At McDowell a dozen teachers were absent Monday. The situation varies from school to school, with

no regular pattern.

But absences are not so numerous that closing of any school has been contemplated, Mr. Clark said. "Even in epidemics, we keep going if our average daily attendance doesn't drop below 75 per cent," he added.

George P. Archer said, "We're at 100 to 110 per cent capacity, and the flu has put the burden on us.'

Dr. Lowell T. Martin, of Our Lady of the Way Hospital, Martin, said no beds are available and that there is a waiting list but, he added, the situation is no worse than at this time last year. "There are more than the usual number of upper respiratory problems, and we are seeing from 30 to 40 patients a day.'

"Some sort of virus is sweeping the area, and there are more cases each day," Dr. Martin added.

The type of influenza that has hit Kentucky has not been defined locally. Downstate, it has been classed as "Hongkong flu." The illness normally lasts about three days. It is marked by a fever, sore throat, coughing, sometimes by nausea. And, usually, "that achy feeling."

\$1000 Gift from Floyd Company

Eastern Kentucky Mack, Inc., of this county, has contributed \$1,000 to Pikeville College, which is now engaged in a \$450,000 development fund drive. John Smallman (center), president of Eastern Kentucky Mack, presented a check for \$1,000 to Dr. William J. Higginbotham (right), vice-president for public relations and development at the college. Smallman said Eastern Kentucky Mack is interested in being a good corporate citizen and in supporting worthy projects such as Pikeville College. The gift is the second made to the college by Eastern Kentucky Mack.

Donald Howard, Wesley Howard, Bill Harvey Howard, Tom Branham and Bob Crum went to Lexington Sunday, to give blood for Elmer Collins during his surgery at Central Baptist Hospital. Blaine Smith, who accompanied them, visited, Mrs. Smith, a patient at St. Joseph's Hospital.

The Comeback of Kraut **By NEVYLE SHACKELFORD**

IVING

G

LOR

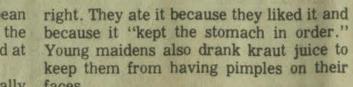

(UK College of Agriculture)

Long ago, according to an old European right. They ate it because they liked it and folktale, there was a cobbler, well past the because it "kept the stomach in order." centruy mark in age, who could be found at Young maidens also drank kraut juice to his bench every day.

On one side of his bench he habitually faces. kept a dish of fried kraut - on the other of chopped cabbage.

science and nutritionists have known for a sauerkraut was hard to come by. long time that sauerkraut does indeed have certain health-giving properties. Eating it vivial quartet of pig knuckles, sauerkraut, regularly may not cause a person to live to be a hundred, but sea captains learned that it would prevent outbreaks of scurvy among their crews during long voyages. Army captains were likewise aware of its healthful benefits. It is said that during the Civil War, after taking Chambersburg, Gen. Lee demanded that the city fathers provide him with 25 barrels of kraut. On his way to Gettysburg, he had noticed some of his men showing signs of scurvy and wanted this kraut as an antiscorbutic.

There was a time when the family cellar was not considered complete unless a full crock of kraut had been "put down" for winter use. Folks ate "rough grub" in those days and sauerkraut seemed to fit in just

Then a generation came along fussy side, a dish of raw. From time to time as he about its foods and finicky in its sensory worked, he would take a bit from one or the reactions. It objected to the robust and other of these dishes and attributed his aggressive aroma of kraut. Fastidious longevity to eating this fermented product housewives refused to cook it because it "smelled up the house" and for several This is an apocryphal tale, but medical years a good mess of spareribs and

> Even that old and time-hallowed conryebread, and beer drifted into desuetude under the barrage of prejudices, and it began to appear that kraut was on its way out. But, happily, as it is impossible to keep a good man down, so it is with a good food. Now the vigorous aroma of frying kraut wafts from many kitchens across the land. Kraut juice can be had in some soft drink emporiums, and restaurants often feature it with weiners, spareribs, and pig knuckles. As a matter of fact, a U. S. Department of Agriculture report reveals that commercial production of sauerkraut now requires more than 250,000 tons of cabbage annually.

> It is said that health faddists were mainly responsible for bringing kraut back into favor. Tagging it an equal to orange juice as a before-breakfast drink, they promoted this elixir again into prominence and along with it, of course, good old sauerkraut.

Aerosol cans of odor-dispelling sprays have helped, too. Now the housewife is more inclined to listen when her husband requests a good mess of sauerkraut and pig knuckles. Now with the press of a button, she can easily clear the air while her husband is enjoying this delectable stick-tothe-ribs dish old in gastronomic history.

House Committee Meetings Opened

The House of Representatives passed a motion opening meetings of its 14 standing committees to the press and interested citizens.

Meetings of the powerful Rules Committee and Committee on Committees were exempted from the new policy.

McBraver (D-Greenup), who recommended it as a step toward restoring public confidence in state government.

House Majority Leader Rep. John Swinford, D-Cynthiana), who seconded the motion, said several committees already are holding open-door meetings.

McBrayer added that the number of persons allowed to attend meetings would have to be controlled to ensure order and enable committees to do their work.

Before the motion passed the chairmen of the Business Organizations and Professions, Cities and State Government committees announced their groups had already voted unanimously to hold open meetings.

The Floyd County Times

Published Every Thursday by Prestonsburg Publishing Company

> NORMAN ALLEN Editor

Subscription Rates Per Year: In Floyd County, \$4 **Elsewhere in Kentucky**, \$5 **Outside Kentucky**, \$6

Entered as second class matter June 18. 1927, at the postoffice at Prestonsburg, Kentucky, under the act of March 3, 1879.

Both Counties Need This Road

The Martin County Mercury in last week's edition directed a plea to Governor Ford for the completion of two highways, one of which is KY 3, the road from Inez to Floyd county, linking that county-seat town with Prestonsburg.

Of the need for this road The Mercury editor, Mrs. Loyce Kirk, wrote:

The Commonwealth of Kentucky has seen fit to build a community college and a beautiful park in our neighboring Floyd County. The Mountain Parkway also has a terminus in Prestonsburg. However, although our young people would like to attend "their" community college and although our residents, like others, would enjoy visiting "their" state park, they have a most difficult time getting there even though the air distance is only five or six miles from our county's border.

Route 3, a relatively recently constructed road bed, affords a very good and very short road base from Inez to Prestonsburg. However, although the road is now some four years old, approximately eight miles of it has never been paved, therefore making it merely a fairweather, slow-speed road.

We join The Mercury in urging for Martin county those roads which it must have in order to share in the benefits of modern-day transportation.

Floyd county and Prestonsburg have more than the Good Neighbor impulse to motivate them in urging the completion of KY 3, a road which was built at great cost but which has never been in condition to serve the public. For Martin county is bursting at the seams with industry, these days, as its rich deposits of coal are being tapped. The time may not be far distant when Martin county's mine payrolls will exceed those of Floyd county. Deep mining there is employing hundreds of men, and the wages and salaries are high.

If Prestonsburg business is not content to leave neighboring Johnson county with the lone adequate highway connection with these who have money in their pockets for spending, it will join in urging the completion of this Inez-Prestonsburg road. If we all are interested in seeing youngsters from Martin county at Prestonsburg Community College, we will show our interest in the road.

Both justice and economics commend this issue to Floyd countians as well as to the people of our neighboring county. And, we hope, to Governor Ford.

OBSERVE 62nd ANNIVERSARY

Mr. and Mrs. W. W. Perkins, of Estill, observed their 62nd wedding anniversary Jan. 16 with a dinner given in their honor at the home of their daughter, Mrs. Kendall Combs, of Estill. Mr. and Mrs. Perkins shared the decorated cake with Mr. and Mrs. Combs, Mr. and Mrs. Bobby Jacobs, Mr. and Mrs. Ronnie Combs, Ronnie, Jr. and Rondah, and Miss Sharon Perkins.

Mr. and Mrs. Combs have three sons, one daughter, 11 grandchildren and 13 great-grandchildren.

pressure and had been under the doctor's care for 11 months. Says Chaffins:

He never done me a bit of good. So I asked him one day, I says, 'Doc, are you going to do me any good or are you not?' He cursed a big oath and he says, 'No, I ain't and no other doctor is a-going to.' Well, I says, 'Well, what are ye doing? Ain't you robbing me for nothing?' Well he says, 'I'm doing my best.'

"Me and him had a little argument. I came on back home. I went and got this yellow dock root and used it for about a month. Went back to him and asked him for a statement of my disability. He gave it to me but he wanted to know what had happened, who I'd doctored under. I says, 'I never went to no doctor.

Martin Is Credited With Clemson Win **Over Maryland U.**

Among the former Floyd county high school athletes who are now making major contributions to the success of college teams is Mabry Everette (Bud) Martin, of the Clemson University (S. C.) net team and a former Wayland high star.

An example of Martin's worth to his team was cited in a recent sports story in The Greenville (S. C.) News, telling of his clutch play in the defeat of the Maryland U. Terrapins who at that time were 10th rated. Writing of Martin's dive onto the floor to recover the ball which, ordinarily, would have been Maryland's, Dan Foster, the News' sports editor, said:

"...But Martin engulfed the ball-which rightfully was Maryland's-and would not settle even for a scrambled possession and a tossup. From his back, he threw it up for clean Clemson possession, and Mike-Browning took it down and scored. . . The basket, for which Martin deserves a double assist and four bandages, was very large in a big victory. As much as any other, it could be said to be the difference in Clemson's 63-61 triumph over Maryland."

Then, with the score tied and only 40 seconds left, Martin in a one-and-one situation hit both tosses to clinch the win. A junior at Clemson, the Wayland athlete is a son of Mr. and Mrs. S. M. (Mabry) Martin.

Hospital care for veterans who have regular need of an "artificial kidney" is available at 40 of the Veterans Administration's 165 hospitals, the agency announced recently.

has been out of operation but still has some gas leakage. He dug a hole, sealed it off, ran a pipe into it, and at the top of the pipe has a flame.

What he does may seem old-fashioned to some but it gets the job done in a style that has been long past or almost forgotten.

Travel Patterns Subject of Study

Highway Commissioner Charles Pryor, Jr. has announced that his department soon will begin a statewide survey of Kentuckians' travel patterns.

Pryor said the information will be used to develop a highway improvement and construction plan to best fit the needs of the state.

Some 15,000 families, selected at random from each county, will be asked to participate in the survey which will be conducted through self-administered questionnaires.

Each family will be asked to record their travel for one specified day of the week plus a limited amount of socio-economic information, such as the number of cars they own.

Pryor said citizens may expect to receive a questionnaire any time between the first of January and the last of July. The survey is being spread over this

period to account for seasonal variations in travel.

Receives Degree

Mrs. Carl (Sonny) Shepherd, daughter of Mr. and Mrs. Euel Mullins, of Elkhorn City, has received a bachelor of science degree in administrative dietetics from Eastern Kentucky University. Prior to attending EKU, she received her associate of science degree from Prestonsburg Community College.

The degree, which includes a major in nutrition and a minor in business administration, will enable her to serve a dietetic internship and to become a registered member of the American Dietctic Association.

Since Mrs. Shepherd resides in Cincinnati, where her husband is employed with the General Motors Corporation, she plans to serve an internship at either General Hospital or Good Samaritan there.

Aztec Indians May Have Brought Gold and Silver Up From Mexico

W. B. Ardery, editor of Kentucky Exlcusive News Service, has another possible explanation for the Swift Silver Mine legend in Eastern Kentucky. Here is Ardery's theory:

The legend of John Swift's lost silver mine in eastern Kentucky has been lying dormant for a good while now and, lest it finally die of untelling, we have envolved a new theory to explain Swift's acquisition of the treasure, for which many have searched but none have found.

Swift, it will be recalled, wandered around eastern Kentucky between 1760 and 1769 and is supposed to have mined silver. One thread of the legend is that a group of other explorers once saw him leading a burro loaded with high grade silver ore. There also have been stories that Swift had gold as well as silver, both of which he hid in a cave when escaping from Indians and neither of which was ever found. The tattered journal that Swift kept was copied and recopied so many times that it became only unimformative, disjointed jargon.

Whatsoever Things DONALDE

Sometimes this thing of following the Carpenter of Galilee can get to be a very difficult thing. One of the most complex difficulties comes in the understanding of theology. For the average fellow theology can sometimes get to be a very confusing and difficult to understand subject.

I guess that is one reason there are so many varieties within the vast family of that Fisher of Men. Even after seven years of higher education dealing specifically with the subject, I often find myself over my head in the subject.

One of the tragedies of the difficulty lies in the unkind remarks some who are supposedly followers of that Man have to make toward others who are trying equally as hard to follow. There has been a lot of heartache and heartbreak over this thing of theology, so difficult it becomes sometimes. Friend has berated friend, brother has belittled brother, even child has criticized parent in this area.

Personally, I don't believe any one person or any one group has claim on all the Truth. And on the other hand I believe that all those who sincerely are trying to follow this grand Galilean have some truth. The mind of the human is too small and too limited to comprehend all the Truth of the Creator. As said, sometimes I get over my head and have to go back to some basic fundamentals of which I am certain. And each time I step out into deep water theologically I return, thankful that the basic necessities are so simple even a little child can understand. Some theology is like Greek to me, and I don't read Greek. I guess I'm kinda like the Southern farm boy back just prior to World War II. Having been around the country a little, I know what other sections think of when I mention a Southern farm boy. And the story fits the pattern, although we Southerners are not quite as illiterate as some of our better versed Northern and Western friends might think. This farm boy got a questionaire to fill out and return to the Draft Board. The questionaire went somewhat into detail and had what was to the farm boy some confusing language in it. After studying it for some time and coming to the conclusion that he would not be able to fill it out completely and correctly, the farm boy took his pencil in hand and wrote across the top of the form the best answer he could think of. "Dear Uncle Sam," he wrote. "I'm not quite sure what you mean with all these here questions. But I want you to know that I'm ready when you are." And then he signed his name. Theology does get quite difficult sometimes. But I don't think the Heavenly Father is concerned that we stay crystal clear in all our theological understanding. I believe what He wants the most is to know that we are ready when He is.

Our new theory will embrace both silver and gold so with the actual content of his treasure we are not here concerned. The theory is a simple one:

Some of the Aztecs, finding Cortez' cannon and Spanish soldiery creating an unpleasant atmosphere in their native Mexico, stole some Spanish horses, loaded them with precious metal and escaped to the north.

Moving northward, they met other Indian tribes of lesser levels of civilization but getting along all right.

Word reached them, as it did most Indians, of the great hunting to be found in Kentucky. So to Kentucky they or their descendants came, still carrying their treasure.

Finally settled down a bit in eastern Kentucky they deposited their treasure in a communal pile and got on with the hunting. Swift found it and carried it off.

Instead of fearing simply marauding Indians, as history records, Swift actually was afraid of Indian pursuers from whom he had stolen, so hid the treasure in a cave and beat it.

This theory has two beauties. One is that it need not discourage any still inclined to look for Swift's cache. The Indian owners didn't find it. Swift never got back to claim it and, assumedly, it is still there somewhere in the Red River Valley area. The other beauty is that although the theory certainly can not be authenticated, neither is it subject to easy invalidation.

But here is the cherry atop the sundae: Dr. Rhea A. Taylor, eminent Kentucky History professor at the University of Kentucky, generously reviewed the foregoing and observed that "Your theory about John Swift's mine is interesting. It is probable that such action as you describe did take place. At least your idea gives a logical source of the gold and silver Swift had. As you state, your theory can not be proved, nor can it be disproved. If I were in your place, I would hang on to it and make the most of it."

be glad you did.

Frankfort, Ky. - Take heart, you hun- hounds and the hunters. Come night they'll ters who have been to the fields and have move out and feed and play. returned less than happy with your rabbit or quail harvest.

The best hunting days are still in the have long since given up the groundhog offing and you'll likely see more game in the final two weeks than in the early days of the season. This has been the case for the past several seasons, and it seems to refute the commonly held belief that to get game a hunter must be among the first in the field. For some hunters, the final two weeks of area in quest of food, thereby giving the the season are best.

The deadline, by the way, for quail and rabbits is the last day of January and if you haven't got your game by that time you'll be out of luck until next fall.

Late-season hunters do have something going for them. An analysis of the conditions will show why.

During the first days of a season the fields are overrun with hunters who believe that to get game you must be there when the bell rings. This crowded situation causes poor working conditions for the dogs. Which are probably not in good physical shape, and for the hunter himself. He can not cover his quota of ground and still display his accustomed accuracy with his shotgun since he, too, is out of condition.

The hordes of hunters who crowd into those first few days of hunting cause problems to one another, too. The rabbit hunters jump the quail and the quail hunters jump the rabbits and neither group is able to fully take advantage of the species he seeks. And once-jumped game does not offer the same target that it customarily does on the initial rise. That's two strikes against the early hunter.

A third one is the dense cover that makes hunting more difficult and the game harder to find in the early days. The dog, too, will have trouble breaking through the matted underbrush to get to the areas where the rabbit and the bird may be. Later, paths through this maze will be broken and the dog will have freer access to ferret out his game.

That's a third strike, but there are more. Another minus on the early hunting is the

--- 1 ----

Heinze also expressed the fear that after this heavy outlay of funds is made the present water system will be inadequate to meet growth needs and that again costly construction will be necessary.

In a discussion of sewer and water systems, Wesley told of countywide sewer systems now in operation in New Jersey and Texas and pointed to their practicality. He also said water plant expansion is now being done at greatly reduced costs. In Mt. Sterling, for instance, he said, water plant expansion which formerly would have cost \$200,000 is being done at a cost of about \$60,000, and it is virtually doubling the plant capacity.

Four other cities—Ashland, Paintsville, Russell and Maysville-received the state warning at the same time Prestonsburg was first told that a secondary sewage plant would be required. Federal guidelines aim at a 75 to 90 per cent reduction of biochemical oxygen entering the Ohio river. Secondary sewage treatment removes oxygen-consuming bacteria from the water.

--- 2 ----(Continued from Page One)

a little hair-pullin' going along with the poke-pickin', all because nobody with authority said to one and all, "Thus far you shall pick and no further." (End of quote. . . prolonged appaluse).

I'm not certain that this is uncontrovertible proof of our progress in technology, but a photographer has succeeded in getting a picture of a white girl in the Australian bush, holding a kangaroo by the tail, while this Loch Ness monster has evaded the camera for a hundred years.

Lenna Moore is disturbed. Says he saw something on TV about the custom of man greeting man with a kiss being ready to afflict the race, and adds it looks as if he'll have to quit his job at the parking lot. Absolutely refuses, says he, to kiss those two fellows working with him.

Strikes us Lenna is unduly worried. He'll have to catch them, first.

The 'Broad-Form' Deed **Again Under Attack**

The "broad-form" mineral deed last week was under fire in the courts for the Oth time as attorneys for the Prestonsburg-based Appalachian Research and Defense Fund filed for a Letcher county woman a suit in circuit court at Whitesourg.

All nine previous cases have been decided in favor of the coal companies. The deed in question not only conveys all minerals but also gives grantees, or their assigns, the right to use the surface "in all and any manner that may be deemed necessary and convenient" to the operator in recovering sub-surface materials, which, to date, is mainly coal.

The suit claims that on July 15, 1971, the Pioneer Coal Co., of Hazard, began operating a strip and auger mine on the property of Mrs. Katherine Haynes, 76, of Bull Creek, Letcher county, without giving her an opportunity to be heard on any objections she might have had to the operation.

The suit further charges that the coal company, operating with the approval of the state Division of Reclamation and state Reclamation Commission, damaged timber and surface of Mrs. Haynes' property through the authority of broadform deeds signed in 1916 and 1936.

The suit charges that the strip-mine control agencies, both of which are defendants in the suit, also violated the guarantees of due process by not providing Mrs. Haynes a chance to register her objections to the mining of her property.

ONE REBEL COP HAS THE GUTS TO TAKE ON "THE ORGANIZATION"

The complaint requests reversal of the broad-form deed, repeating the argument that the original signers of such deed did not contemplate or authorize the existing highly mechanized, often violent, methods of 20th Century strip-mining.

Many of the deeds were signed between 1880 and 1917 and often by illiterate mountain land-owners who sold the rights to unknown minerals on their property for as low as 50 cents per acre.

Such deeds have been upheld at least nine times in Kentucky courts, most recently in 1968 when the Kentucky Court of Appeals affirmed, 4 to 3, the right of Kentucky Oak Mining Co. to strip land, the surface of which it did not own.

In dual, complex decisions Jan. 9, the U. S. Sixth Circuit Court of Appeals in Cincinnati ruled that the Peabody Coal Co. in the Western Kentucky coal fields could not take advantage of the broad-form deed in one case but could in another.

In one case, a three-judge panel of the court ruled that the particular deed in question did not indicate that signers of the deed "intended that the mineral owner's rights to use the surface would be superior to any competing right of the surface owner."

In the other case, however, the panel said: "We think it (the deed) expresses with sufficient clarity that the parties intended that the mineral owner's rights would be superior to any competing rights of the surface owner."

The Haynes suit argues that broad-form deeds governing the property does not convey's claimed rights to destroy and render useless and valueless the surface by the mineral owner in order to extract the coal."

"The present interpretation of the broadform deed is contrary to reason, fairness and justice and is against the weight of authority in other jurisdictions," the suit states.

J. T. Begley, attorney for the Appalachian Research and Defense Fund, a group of lawyers funded by the U.S. Office of Economic Opportunity to represent poor people, said to his knowledge Mrs. Haynes' case is the first to question whether coal operators may mine a surface owner's land without first notifying him and obtaining his permission.

Begley said the state Division on

OFFICIAL NOTICE OF SPECIAL MEETING OF THE MEMBERS

A special meeting of the members of the Big Sandy Rural Electric Cooperative has been called by the Board of Directors to be held on Friday, February 4, 1972 at 6:00 p.m. Eastern Standard Time. The meeting will be held in the Auditorium of the Cooperative located at Paintsville, Kentucky. Action will be taken on the following matters:

I. The granting of authorization to the Board of Directors of the Cooperative on behalf of the Cooperative, to borrow from time to time additional sums from United States of America pursuant to the provisions of the Rural Electrification Act of 1936, as amended, from National Rural Utilities Cooperative Finance Corporation, or other lending agencies or lending corporations, and to incur indebtedness from time to time by the assumption of the indebtdness of third parties to United States of America or others, the aggregate amount of such loans, together with the aggregate amount of loans heretofore made to the Cooperative, not to exceed \$25,000,000.

II. The granting of authorization to the Board of Directors of the Cooperative, to cause the proper officers, on behalf of the Cooperative, from time to time, without further authorization of the members, to execute, seal and deliver notes, bonds or other evidence of indebtedness to evidence, secure and refund such loans and indebtedness, all upon such terms as the Board of Directors shall determine.

Reclamation now attempts to notify unknowing persons that their property is going to be stripped but there are no provisions in the state strip-mine law for such notifications.

He added that in many cases the notifications are not received until the stripping is well under way and others are not received at all.

"We're laying out the new question of due process as well as the old questions," Begley said. "If they rule against us, it will be the 10th time the people have lost. Some day they (the courts) are going to have to change their minds."

The suit asks that the Division or Reclamation and state Reclamation Commission be ordered to give adequate notice to all persons whose land is going to be stripped in order that any objections such persons may have can be heard; that the state Division of Reclamation not be allowed to permit the stripmining of a surface-owner's land under the authority of a broad-form deed without the consent of the surface owner; and that Mrs. Haynes be awarded \$500 for damages to her property.

A Beloved Neighbor Is Gone

We here in this small villiage of Banner miss a familiar face. We miss seeing the morning walks she made daily to the mail box. Taking her time, she would mosey down the gravelly road, sometimes stopping and shading her eyes to see who it was passing by. Most of the time, it was some one she knew, and, waving her hand, she smiled as they drove by.

In the coming spring we will miss seeing her with a pan and knife hunting through the meadows and fields, picking the tender greens she loved so well.

It was a joy and a privilege to sit by the open fire in winter and listen to the tales of the long ago. So vivid were her descriptions that the past seemed to unfold before your eyes, and you were transported back to the world of long ago, with its hard work but plenty of love and peace. And as the flickering fire began to die down, so did the chatter of Aunt Virgie. Then in silence we just stared into the glowing embers. But soon the chimes of the mantel clock told us it was late. so, rising to our feet, we would say we must be on our way. But Aunt Virgie already had a hot cup of coffee for you. "Sit back down," she would say, "it's not late. Drink your coffee, for land sakes!" So it would be maybe another hour before you could go.

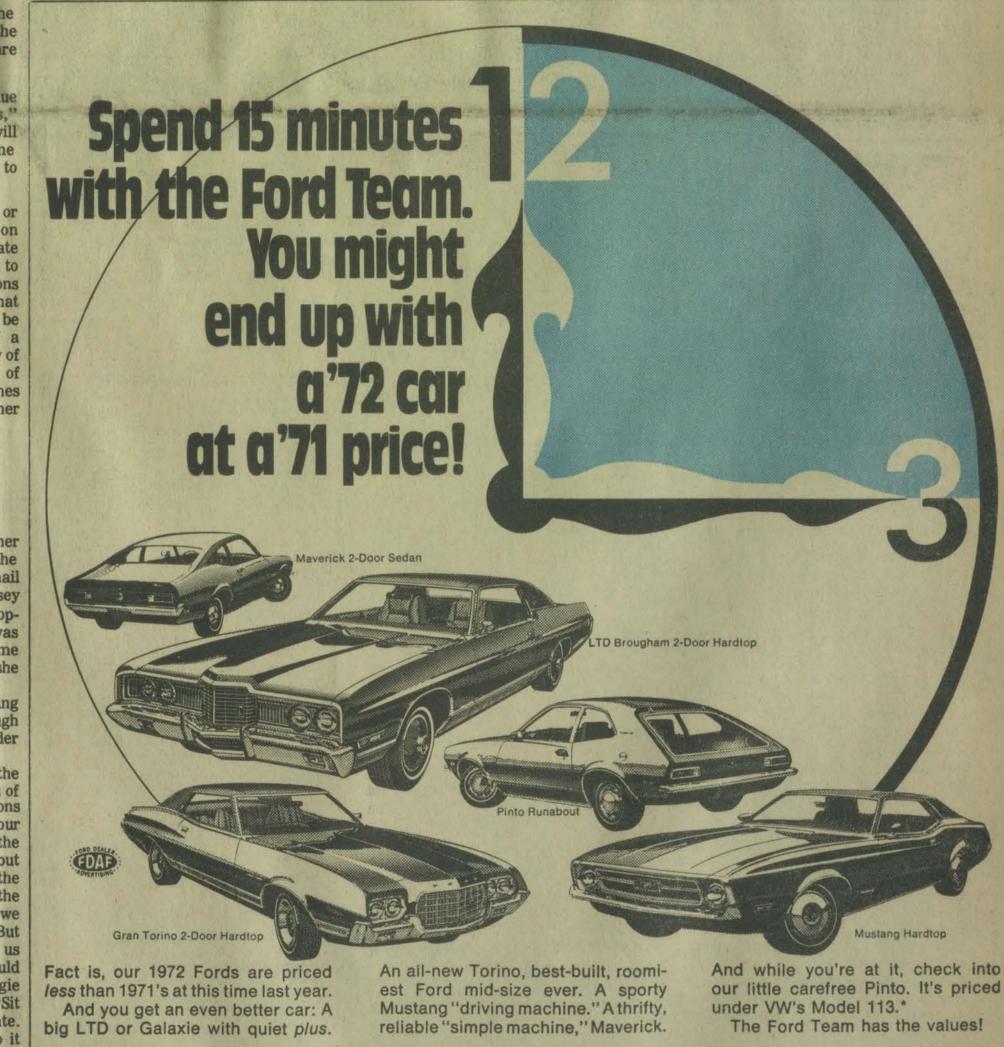

As long as Aunt Virgie was in good health

license to operate a place of entertainment, Inmon's Restaurant, at Garrett, Ky.

Bradis Goble, Secretary

she visited her sons and their families during the summer months. She was always glad, though, to return to her birthplace, Floyd County. Here in the family cemetery was where she wanted to be buried where husband, father, mother, brother and sisters had been at rest, these many years.

Aunt Virgie's faithful religion sustained her throughout the years. She was ready when her name was called to take that walk thru the Valley of the Shadow. She is sadly missed by all who knew her. But the sister she lived with will miss her most. The absence of her voice, the footsteps through the house. It will take time for the grieved sister to adjust and to realize that the presence of sister Virgie will be no more in this world-only an echo of her voice will be heard at times of our dear neighbor and sister.

Ordinance No. 1-72 ZONING ORDINANCE

THE CITY OF PRESTONSBURG, KENTUCKY

ARTICLE I

PREAMBLE

1.1 ENACTING CLAUSE

The City Council of the City of Prestonsburg, Kentucky, as authorized by the Kentucky Revised Statutes, Section 100.201 does ordain as follows:

1.2 TITLE

This ordinance is entitled "Zoning Ordinance for the City of Prestonsburg, Kentucky", and may be referred to as the "Zoning Ordinance", The zoning map referred to herein is entitled "Zoning Map, Prestonsburg, Kentucky". The Zoning Map is hereby made a part of the Zoning Ordinance, and certified copies of this ordinance are on file with the Prestonsburg Planning and Zoning Commission and with the Prestonsburg City Clerk.

1.3 PURPOSE

The purpose of the Zoning Ordinance is to promote the general welfare by establishing and regulating zoning districts throughout Prestonsburg for the specific purposes detailed in the Kentucky Revised Statutes, Section 100,201. In establishing the zoning districts, this ordinance seeks to promote the general welfare, by designating sufficient space for all necessary uses of the land in logical patterns, by protecting the permitted uses in each district from the undesirable effects of conflicting uses, and seek to ensure the stable value of all permitted development. This ordinance further seeks the general welfare by protecting the efficiency and encouraging the improvement of traffic circulation and access to the land in all districts in order that daily travel and commerce may increase in safety and may be carried forth with a minimum of delay for the benefit of all activities and persons in Prestonsburg.

ARTICLE II

GENERAL REGULATIONS

2.1 DEFINITIONS

The words which are defined are those which have special or limited meaning as used in this Zoning Ordinance. Words whose meanings are self-evident as used in this Zoning Ordinance are not defined here.

- 1. Accessory Structure or Use: Any structure or use, other than the principal structure or use, directly incident to or required for the employment of the permitted use of any premises, also as specifically designated under the zoning district regulations of this Zoning Ordinance.
- 2. Alley: A public passage or way affording a secondary means of vehicular access to abutting property and not intended for general traffic circulation.
- 3. Advertising Sign: Any work, lettering, parts of letters, figures, numbers, phrases, sentences, designs, pictures, emblems, devices (including loud speakers), trade names, or trademarks by which anything is made known, such as are used to designate an individual, a firm or association, a corporation, a profession, a business, a service, a commodity, or a product, which are visible from any public street or rightof-way and designed to attract attention. The term "sign"

- d. Any activity in which the selling of any merchandise is the primary function is not a home occupation.
- e. Home occupations shall occupy no more than fifty (50) percent of the total floor area of a dwelling.
- 15. Industry: The processing of products or raw materials. The two categories of industry are defined according to the following performance standards:
- Heavy Industry: Those industries whose processing operations result in the outdoor storage or processing of materials or products, the emission of any atmospheric pollution, visible light flashes or glare, odors, or noise or vibration which may be heard or felt off the premises, or those industries which constitute a fire or explosion hazard.

Light Industry. Those industries whose processing operations result in none of the above conditions.

- 16. Junkyard: Property used for the outdoor storage, display, or keeping of inoperative machinery, whether or not it is capable of operation, of the accumulation of trash, waste material, or vegetation, in a manner which is unsightly, offensive, or not in harmony with surrounding property.
- 17. Local Information Sign: A sign indicating directions to a local commercial, industrial, or other type establishment.
- 18. Lot: A parcel of land under one ownership devoted to a common use or occupied by a single principal building plus accessory structures

Corner Lot: A lot which abuts on two intersecting streets at their intersection

Double-Frontage Lot: Any lot other than a corner lot which abuts on two streets,

Lot Line: The boundary dividing a lot from a right-of-way, adjoining lot, or other adjoining tract of land. Front, rear, and side lot lines are self-explanatory.

Lot of Record: A lot which is recorded in the office of the county clerk.

- 19. Mobile Homes: Any vehicle or similar portable structure used or so constructed as to permit its being used as a conveyance upon streets and as a dwelling for one or more persons or as a permanent place of business.
- 20. Mobile Home Park: A tract of land prepared and approved according to the procedures in the Zoning Ordinance to accommodate ten or more mobile homes.
- 21. Mobile Home Space: A parcel of land delineated within a mobile home park upon which may be located one mobile home. The word space, when used in Section 2.51 shall be held to mean "mobile home space".
- 22. Nonconforming Structure or Use: A structure or use on any premises which does not conform with all applicable provisions of the Zoning Ordinance but which existed before being designated as nonconforming by the adoption or amendment of the Zoning Ordinance.
- 23. Non-Retail Commercial: Commercial sales and services to customers who intend resale of the products or merchandise sold or handled. For example, non-retail conmercial includes wholesaling, warehousing, trucking terminals, and similar commercial enterprises.
- 24. Outdoor: Refers to that which is not within a building.
- 25. Planned-Development Project: A complex of structures and uses planned as an integral unit of development rather than as single structures on single lots which includes townhouses.
- 26.

2.2 APPLICATION OF REGULATIONS

All existing and future structures and uses of premises within the City of Prestonsburg shall conform with all applicable provisions of the Zoning Ordinance. Each zoning district is established to permit only those uses specifically listed as permitted, except as provided under the non-conforming provisions, and is intended for the protection of those areas.

- 2.3 GENERAL DEVELOPMENT REGULATIONS
 - 2.31 COORDINATION WITH SUBDIVISIONS REGULATIONS
 - In all cases where the land is divided for the purpose of eventual development of lots of any kind - residential, commercia, or in-
 - dustrial the provisions of Subdivision Regulations, when adopted for Prestonsburg and amendments thereto, shall apply in addition to
 - the provisions of the Zoning Ordinance.

It is desirable that access points to the arterial streets serving all zoning districts shall be located no more frequently than 400 to 1,200° apart. Topography, traffic volumes, and land use shall determine the exact locations. Access points shall also meet Federal and State standards where applicable.

2.32 PLANNED-DEVELOPMENT PROJECT REGULATIONS

A planned-development project may be allowed in those zoning districts where it is designated as a permitted use under the zoning district regulations. A planned-development project may be under single or divided ownership. All planned-development projects shall be subject to the following regulations:

- A. Procedure: When a planned-development project is proposed, the procedure for subdivision approval as will be set forth in the Prestonsburg Subdivision Regulations shall be followed in its entirety even though the ownership of land may not be divided. In the meantime, a preliminary plan and final plan both approved by the Planning Commission may establish a schedule of reasonable fees to be charged for plan review. The project shall be developed according to the approved final plan. Zoning permits and certificates of occupancy shall be required for each building according to Sections 5.2 and 5.3 of this Zoning Ordinance.
- B. Uses and Densities: The uses of premises and development densities in a planned-development project shall conform with the permitted uses and densities of the zoning district in which it is located when it is permitted.
- YELE C. Standards. In any planned-development project, although it is permissible to depart from literal conformance with the individual lot dimension and area regulations, there shall be no diminution of total equivalent lot area, parking area, and loadingunloading area requirements that would be necessary for the equivalent amount of individual lot development with one exception: the planning commission may allow reductions in these requirements if the developer can satisfactorily prove that largescale development may permit such reductions without destroying the intent of these regulations. THE END
 - Do Special Conditions: The Planning Commission shall attach special conditions based on all of the following standards in addition to imposing the standards for total area, parking area, and loading and unloading area defined in Paragraph C above. The Planning Commission may also attach any other reasonable special conditions.
 - 1. Wherever there is an abrupt change in uses i.e., residential to commercial - it is desirable that a buffer area of open space, a wall, a fence, or protective planting be placed between them which will protect each use from the undesirable effects of the other.
 - 2. Parking and other public areas used at night shall be adequately lighted, and private areas shall be adequately protected from such lighting and any other lighting om public areas. Public streets may also require protection from excessive glare of lighted areas.

- shall not include the flag, pennant, or insignia of any nation, state, city or other political unit, or of any political, educational, charitable, philanthropic, civic, professional, religious or like campaign, drive, movement or event.
- 4. Alteration: Any change or addition to the supporting members or foundation of a structure.
- 5. Building: Any structure constructed or used for residence, business, industry, or other public or private purposes, and similar structures which fully encloses space for occupancy by persons or their activities.

Principal Building: A building, including covered porches, carports and attached garages, in which is conducted the principal use of the lot on which it is situated. In any residential district, any dwelling shall be deemed to be the principal building on the lot on which the same is situated.

- 6. Commercial Floor Area: Floor area of a building which is devoted to the storage and display of merchandise, the performance of consumer services or the circulation and accommodation of customers.
- 7. Conditional Use: A use which is essential to or which would promote the public health, safety, or welfare in one or more zones, but which would impair the integrity and character of the zone in which it is located or in adjoining zones unless restrictions on location, size, extent and character of performance are imposed in addition to those imposed in the Zoning Ordinance
- 8. Conditional Use Permit: Legal authorization to undertake a conditional use, issued by the administrative official pursuant to authorization by the Board of Adjustment consisting of two parts.
 - a. A statement of the factual determination by the Board of Adjustment which justifies the issuance of the permit.
 - b. A statement of the special conditions which must be met in order for the use to be permitted.
- 9. Consumer Services Sale of any service to individual customers for their own personal benefit, enjoyment, or convenience, and for fulfillment of their own personal needs.

For example consumer services include the provision of the personal services such as beautician and barbering services, the provision of lodging entertainment, specialized instruction financial service automobile storage, transportation, laundry and dry cleaning services, and all other similar services

- 10. Dimensional Variance. Departure from the terms of the zoning regulations pertaining to height or width of structures and size of yards and open spaces where such departure will not be contrary to the public interest, and where owing to conditions peculiar to the property because of its size, shape, or topography and not as a result of the action of the applicant, the literal enforcement of its zoning ordinance would result in unnecessary and undue hardship.
- 11. Dwelling A dwelling is a building providing shelter, sanitation, and the amenities for permanent habitation. It does not include mobile homes temporary lodging, or sleeping rooms. Dwelling Unit: One room, or rooms, connected together (including apartments) constituting a separate, independent housekeeping establishment for owner occupancy, or rental or lease on a weekly, monthly or longer basis, and physically separated from any other rooms or dwelling units which may be in the same structure, and containing independent cooking and sleeping facilities
- 12. Enforcement Officer Any administrative official designated by the City Council who shall be charged with and provided with the authority to enforce the ordinances, regulations, codes and orders of the planning commission and the City

- Premises: A lot or other tract of land under one ownership and all the structures on it. Attended (And Jaco
- 27. Processing: Manufacturing, reduction, extraction, packaging, repairing, cleaning, and any other similar original or restorative treatment applied to raw materials, products or personal property. Processing does not refer to the fabrication of structures.
- 28. Public-Service Building: Any building necessary for the operation and maintenance of a utility.
- 29. Retail Sales: Sale of any product or merchandise to customers for their own personal consumption or use, and not for resale.
- racking an of raining with range in the 30. Road: A traffic carrying way. As used in the Zoning Ordinance, a road may be privately owned.
- 31. Sign, Advertising: Any device designed to inform or attract the attention of persons not on the premises on which the sign is located, provided, however, that the following shall not be included in the application of the regulations herein:
 - a. Signs not exceeding one square foot in area and bearing only property numbers, post box numbers, names of occupants of premises, or other identification of premises not having conmercial connotations;
 - b. Flags and insignia of any government except when displayed in connection with conmercial promotion;
 - c. Legal notices, identification, informational, or directional signs erected or required by government bodies;
 - d. Integral decorative or architectural features of buildings except letters, trademarks, roving parts, or moving lights;
 - e. Signs directing and guiding traffic and parking on private property, but bearing no advertising matter and four (4) square feet or less in area.

Signs, Number and Surface Area: For the purpose of determining number of signs, a sign shall be considered to be a single display surface or display device containing elements organized, related, and composed to form a unit. Where matter is displayed in a random matter without organized relationship of elements, or where there is reasonable doubt about the relationship of elements, each element shall be considered to be a single sign.

The surface area of a sign shall be computed as including the entire area with a regular geometric form or combinations of regular geometric forms comprising all of the display area of the sign and including all of the elements of the matter displayed. Frames and structural members not hearing advertising matter shall not be included in computation of surface area.

Sign, On-Site: A sign relating in its subject matter to the premises on which it is located, or to products, accomodations, services, or activities on the premises. On-site signs do not include signs erected by the outdoor advertising industry in the conduct of the outdoor advertising business.

Sign, Off-Site: A sign other than an on-site sign.

- 32. Sleeping Room: A single room rented for dwelling purposes but without the amenities for separate and independent housekeeping.
- 33. Street: Any highway or other public traffic-carrying way. An arterial street is any numbered federal, state, or county highway unless otherwise designated by the planning commission.
- 34. Structure: Any combination of materials fabricated to fulfill a function in a fixed location on the land: includes buildings.
- 35. Trailer: Any vehicle or similar portable structure used or so constructed as to permit its being used as a conveyance to transport cargo other than persons upon the streets and highways. The term "trailer" does not mean "mobile home" as defined and used in this ordinance.

2.33 CONDITIONAL USE REGULATIONS

Conditional uses may be permitted in districts as designated under the zoning district regulations but only when specifically approved by the Board of Adjustment.

- A. All Districts: The following conditional uses only may be approved in all zoning districts:
 - 1. Service facilities of non-local public utility and private transmissions, lines, and pipes. best seen and
- 2. Service facilities of radio, TV, and telephone transmission structures.
 - 3. Service facilities of large utility structures and public service buildings.
 - 4. Service facilities of expansion of railroads and appurtenances.
 - 5. Government buildings and uses.
 - 6. Churches and libraries.
- B. Specific Districts: Other conditional uses may be approved only in those zoning districts where they are designated as special uses under the zoning district regulations.
- C. Procedure: In applying for a conditional use permit, the applicant shall submit a plan to the Enforcement Office and follow all procedures set forth in Paragraph 5.23, procedure for zoning permit application. The Enforcement Officer shall refer the application to the Board of Adjustment. The Planning Commission may establish a schedule of reasonable fees to be charged for special use zoning permits. The applicant shall meet with the Board of Adjustment which may attach reasonable special condition to an approval of a special use to insure that there shall be no departure from the provisions and intent of this Zoning Ordinance. These special conditions may be similar to the conditions that may be required for planned development projects. Effect of the special use on surrounding uses and all officially adopted plans shall be considered in determining whether a special use shall be approved or disapproved. The Board of Adjustment may approve the application and may issue a zoning permit in full conformance with Section 5.2. The conditional use, if approved, shall conform with all attached conditions.
- D. Other Regulations: Payment of a fee to cover reasonable expenses shall be required of the applicant before the issuance of the conditional use permit. Other regulations for conditional use permits are as follows:
- 1. The Board may attach necessary conditions such as time limitations, requirements that one or more things be done before the request can be initiated, or conditions of a continuing nature. Any such conditions shall be recorded in the Board's minutes and in the conditional use permit along with reference to the specific section on the zoning ordinance listing the conditional use under consideration. The Board shall have the power to revoke conditional use permits or variances for non-compliance with the condition (s) thereof. Furthermore, the Board will have the right of action to compel offending structures or uses removed at the cost of the violator and may have judgment against the violator for such cost.
- 2. Granting a conditional use permit does not exempt the applicant from complying with all the requirements for this ordinance and other ordinances and regulations of the pertinent legislative body.
- 3. A conditional use permit shall be exercised within one (1) year

Council.

- 13. Flood Plain: Those areas subject to frequent periodic flooding delineated on the Soil Survey as alluvial soils by the Soil Conservation Service United States Department of Agriculture.
- 14. Home Occupations. Professional offices, studios, and personal services maintained or conducted within a dwelling. Neither the selling of any merchandise nor processing of any product shall qualify as a home occupation. Home occupations include only those which neet the following performance standards:
 - a. Home occupations shall be incidental to the principal residential use
 - b. Home occupations shall result in no exterior evidence, excepting a permitted sign that the dwelling is used for a nonresidential use
 - c. Home occupations shall not generate any atmospheric pollution, light flashes, giare, odors, noise, vibration, or truck or other heavy traffic

- 36. Use: Use broadly refers to the activities which take place on any land or premises and also refers to the structures located thereon and designed for those activities.
- 37. Variance: A departure from the strict conformance with the dimension and area regulations which must first receive the approval of the Board of Adjustment.
- 38. Yard: The open space surrounding the principal building on any lot, unoccupied and unobstructed by any portion of that building from the ground to the sky except where specifically permitted by these Zoning Ordinances. Yards are further defined as follows:

Front Yard: That portion of the yard extending the full width of the lot and measured between the front lot line and a principal building, which line shall be designated as the front yard line.

Rear Yard: That portion of the yard extending the full width of the lot measured between the rear lot line and a parallel line tangent to the nearest part of the principal building,

Side Yard: That portion of the yard extending from the front yard to the rear yard and measured between the side lot lines and parallel lines tangent to the nearest parts of the principal buildings.

from the date of issuance within the meaning of KRS 100.237.

4. The Enforcement Office shall review all conditional use permits except for those for which all conditions have been permanently satisfied, at least once annually and shall have the power to inspect the land or structure where the conditional use is located in order to ascertain that the landowner is complying with all the conditions which are listed on the conditional use permit. If the landowner is not complying with all conditions listed on the permit, the Enforcement Officer shall report the fact in writing to the Chairman of the Board of Adjustment. The report shall state specifically the manner in which the landowner is not complying with the conditions on the conditional use permit and a copy of the report shall be furnished to the landowner at the same time that it is furnished to the Chairman of the Board of Adjustment. Upon hearing the report as required by KRS 100.236, if the Board finds the facts alleged to be true and that the landowner has taken no steps to comply with them between the dates of the report and the date of the hearing, the Board may authorize the Enforcement Officer to revoke the conditional use permit and to take the necessary legal action to cause the termination of the activity. at an

2,4 GENERAL REGULATIONS FOR STRUCTURES AND USES

2.41 NONCONFORMING STRUCTURES

Nonconforming structures may remain subject to the following regulations:

- A. Alterations: A nonconforming structure shall not be enlarged, replaced, or structurally altered except in conformance with the Zoning Ordinance. Any structure, however, may be restored to a safe condition if declared unsafe by the Enforcement Officer or other official with jurisdiction, except as provided in B.
- B. Restoration: A nonconforming structure for which restoration to a safe condition would cost more than 50 percent of its replacement value shall not be restored except in conformance with the Zoning Ordinance.
- C. Construction approved prior to adoption or amendment of the Zoning Ordinance, proposed structures for which zoning permits have been issued prior to their designation as nonconforming by the adoption or amendment of the Zoning Ordinance may be completed and used as originally intended provided they are completed and in use one year after the date on which the zoning permit was issued.

2.42 NONCONFORMING USES

Nonconforming uses may be continued subject to the following regulations:

- The Board of Adjustment shall not allow the enlargement A. or extension of the nonconforming use beyond the scope and area of its operation after the adoption of this ordinance (area shall mean the lot upon which the nonconforming use is being operated) nor shall the Board permit a change from one nonconforming use to another unless the new nonconforming use is the same or a more restrictive classification.
- Discontinuance: Whanever a nonconforming use of any premises has been discontinued for a period of six months, no nonconforming use may be re-established on these premises.
- 2.43 APPROVED WATER SUPPLY AND SEWAGE DISPOSAL FOR BUILDINGS

It shall be unlawful to construct any building or occupy any mobile home without water supply and sewage disposal facilities approved by the County Health Officer and the city of Prestonsburg. All building and mobile homes shall be connected to the city sewer and water system.

2.44 REGULATION OF PRINCIPAL BUILDINGS

Unless a plan has been approved for a planned development project, only one principal building and permitted accessory structures may be erected on any lot of record or any conforming lot. Temporary structures are permitted during construction only.

2.5 COORDINATION WITH KENTUCKY REVISED STATUTES ON SPECIFIC USES

2.51 MOBILE HOME PARKS

- A. Mobile home parks may be permitted only in those zoning districts where they are designated as a permitted use under the zoning district regulations. All mobile home parks shall conform with all provisions of the Kentucky Revised Statutes 219,120 through 219,250, and shall conform with all applicable provisions of the Zoning Ordinance and all attached special conditions.
- B. It shall be deemed unlawful for any person to construct, alter, or extend any mobile home park within the corporate

2.61 OBSTRUCTIONS TO VISION AT STREET INTERSECTIONS

Within the area defined by the intersection of any two right-of-way lines of streets or railroads and a straight line intersecting those two right-of-way lines at points thirty feet from their intersection, no obstructions to vision between a height of two and one half feet and twelve feet above the imaginary plane defined by those three points of intersection are permitted.

2.62 FRONT-YARD REGULATIONS FOR CORNER AND DOUBLE-FRONTAGE LOTS

Corner lots and double-frontage lots shall, on both of the adjacent streets, meet the front-yard regulations of the district in which they are located. Corner lots and double-frontage lots recorded before the adoption date of this revised Zoning Ordinance for the City of Prestonsburg are allowed to comply with regulations found in the prior Zoning Ordinance adopted June 13, 1966. All future corner and double-frontage lots shall comply with the first paragraph of this section of the revised Zoning Ordinance.

2.63 APPLICATION OF YARDS TO ONE BUILDING ONLY

No part of a yard required for any building may be included as fulfilling the yard requirements for an adjacent building.

2.64 USE OF YARDS FOR ACCESSORY BUILDINGS

No accessory buildings are permitted in front yards. They are permitted in rear or side yards according to the dimension and area regulations.

2.65 SCREENING REQUIREMENTS

The Planning Commission may require proper screening whenever two different zones adjoin wherever a change in classification is requested.

2.66 FENCES

A building permit must be obtained from the Enforcement Officer before erection of any fence. Decision as to whether any fence should be erected is made by the Enforcement Officer, with appeal to the Board of Adjustment as provided in Section 5.4 hereof.

2.7 GENERAL REGULATIONS FOR VEHICLES

2.71 OFF-STREET PARKING SPACE REGULATIONS FOR AUTOMOBILES

A. Existing Parking Space: Existing off-street parking provided for any building or use at the time of adoption of the Zoning Ordinance shall not thereafter be reduced unless it exceeds the requirements of this ordinance. Any existing building or use not provided with conforming parking space shall be provided with off-street parking space in conformance with this ordinance at the time of any structural alteration of the building or expansion of the use.

Parking for commercial purposes must be provided in commercial zones.

B. Required Off-Street Parking Space: When any building is built or any use of land is initiated, they shall be provided with sufficient off-street parking space on the premises so that no automobile parking on any street will result from the normal activity. If the off-street parking capacity is exceeded and street parking is generated more than six times during a sixmonth period, this shall be considered as resulting from normal activity, and additional off-street parking shall be provided. The Board of Adjustment shall interpret the amount of parking space required for any building or use, assisted by the following standards whenever the Enforcement Officer is unable to apply the following standards literally or when he determines a parking space deficiency according to the standard above. In either case he shall apply to the Board for an original interpretation.

- 15. Mortuaries or funeral homes: one (1) space for each fifty (50) square feet of floor space in the slumber rooms, parlors, or individual funeral service rooms.
- 16. Warehouses and storage buildings: Sufficient parking space to accommodate employees and the loading and unloading of materials.
- 17. Additional parking standards: The Board of Adjustment may raise the standards listed above when necessary to conform with paragraph B and shall use similar criteria of floor area, employment, or capacity to interpret standards for buildings and uses not specifically listed above.

2.72 OFF-STREET LOADING AND UNLOADING SPACE REGULATIONS FOR TRUCKS

All buildings and uses which generate regular trucking traffic shall be provided with sufficient off-street loading and unloading space on the premises so that they will generate no loading or unloading activity on their required parking spaces or on any street. The Board of Adjustment shall interpret the amount of loading and unloading space required for any building or use whenever the Enforcement Officer is unable to apply this standard literally and applies to the Board for an original interpretation.

2.73 ADDITIONAL PARKING, LOADING AND UNLOADING REGULATIONS:

- A. Arrangement of off-street parking space: Off-street parking space required for any building or use may be located within walking distance of five hundred feet from the premises it serves but detached therefrom or may be consolidated into a large parking area serving other buildings and uses, either of which arrangements must be approved by the Board of Adjustment. The Enforcement Officer shall apply to the Board for an original interpretation when zoning permits are requested in such cases. The Board may not authorize the total amount of parking space required for all buildings and uses to be diminished except as follows: If a consolidated parking area serves buildings or uses which do not generate automobile parking at the same times i.e., churches and stores - total parking space may be diminished to the maximum required by those buildings and uses which do generate the parking of automobiles at the same time.
- B. Proof of Availability: The Board of Adjustment may require a plat, deed and any other proof necessary to show that required parking space, if located off the premises it serves, is controlled by and available to the applicant for a zoning permit.
- C. Surfacing of Parking, Loading and Unloading Space: Parking, loading and unloading spaces and the access thereto shall be surfaced in a manner adequate to eliminate dust and mud.
- 2,74 PARKING AND STORAGE OF CERTAIN VEHICLES

Automobiles, vehicles, trailers of any type without current license plates shall not be parked or stored on any property in a Residential District, R-1, R-2, R-3, other than in completely enclosed buildings.

2.8 EXCEPTIONS

2.81 USE EXCEPTIONS

Several types of structures and uses are permitted in all districts even though they are not listed as permitted uses under the zoning district regulations. These structures and uses are listed as follows:

- A. No zoning permit or certificate of occupancy required for:

limits of Prestonsburg without the application and receipt of permits from both the local health authority and the local Enforcement Officer. When application is made for both the health certificate and the building permit, the applicant must show at least the following:

- 1. Name and address of applicant
- 2. Name and legal description of the mobile home park.
- 3. The complete engineering plans and specifications of the proposed park showing but not limited to the following:
 - a. The area and dimensions of the tract of land;
 - b. The number, location, and size of all mobile home lots; with each lot being numbered;
 - c. The location and width of roadways and walkways;
 - d. The plans and specifications of all buildings, if any are proposed, constructed or to be constructed within the mobile home park; and
 - e. The location and details of lighting and electrical systems.
 - f. Contour lines to indicate slope and drainage
 - g. Location of all utilities; and easements;
 - h. Public areas such as visitors' parking, recreational areas, etc., if such areas are proposed.
 - i. Large scale plan of one typical mobile home lot showing mobile home location, automobile parking space, etc.
 - j. Location of planting for landscaping purposes or as required for protective buffer purposes as a special condition.
- C. All applications to the local health authority and the Enforcement Officer shall be accompanied by the deposit of a fee of \$50.00 (fifty dollars).
- D. If the local health authority and Enforcement Officer deem the proposed plans and specifications to be in agreement with all statutes and ordinances of the Commonwealth of Kentucky and the City of Prestonsburg, the permit shall be issued.
- E. Standards: All mobile home parks shall conform with the following standards for development:
 - 1. All mobile home parks shall include lots for at least twenty-five (25) mobile homes. Mobile homes are not permitted on individual lots outside of approved mobile home parks in any district.
 - 2. Each mobile home shall be placed on a lot of at least 2,500 square feet, and in the case of mobile homes exceeding seventy (70) feet in length and mobile homes that are designed as dwellings for more than one family they shall be placed on a lot of at least 3,000 square feet.
 - 3. Each mobile home shall be connected with the public sewer.
 - 4. No mobile home shall be located closer than thirty (30) feet to another mobile home.
 - 5. No mobile home shall be located within thirty (30) feet of another mobile home, except that a minimum end-to-end clearance of not less than ten (10) feet shall be permitted, and in an instance where the sides opposite the entrance of two (2) mobile homes may be reduced to not less than twenty (20) feet. No mobile home, accessory building,

- C. Parking Space: For the purpose of this ordinance, an offstreet parking space shall consist of a space adequate for parking an automobile with room for opening doors on both sides, together with properly related access to a public street or alley and maneuvering room. Required off-street parking areas for three or more automobiles shall have individual spaces marked, and shall be so designed, maintained, and regulated that no parking or maneuvering incidental to parking shall be on any public street, walk, or alley, and so that any automobile may be parked and unparked without moving another. For purposes of rough computation, an offstreet parking space and necessary access and maneuvering room may be estimated at 300 square feet, but off-street parking requirements will be considered to be met only when actual spaces meeting the requirements above are provided and maintained, improved in a manner appropriate to the circumstances of the case, and in accordance with all ordinances and regulations of the city. All parking spaces shall be shown on a plat drawn to scale and submitted to the Planning Commission for review.
- D. Off-Street Parking Standards: The following standards comprise the minimum off-street parking requirements for the several common types of building and uses listed:
 - 1. Dwelling: one parking space per dwelling unit.
 - 2. Mobile home park: two automobile parking areas shall be provided on every mobile home space, plus one parking area for every four spaces in the park. (See Section 2.51 E7)
 - 3. Indoor retail businesses: one parking space for each 100 square feet of commercial floor area plus one space for every truck operated by the business, in a Central Business District. For such businesses in a Neighborhood or General Business District, there shall be provided four spaces for the first 1,000 square feet of total floor area, plus one additional space for each 150 square feet of such floor area. For such businesses in a Highway Business District, C-4, there shall be provided three (3) square feet of parking space for every one (1) square foot of ground floor area, shown on a plat presented to the Planning Commission.
 - 4. Tourist homes, motels, or hotels: one (1) parking space for each sleeping room or suite including that of the owner or manager of residence on the premises.
 - 5. Industrial plants: one parking space for every two employees at maximum employment on a single shift plus one space for every truck operated by the plant.
 - 6. Places for public assembly, institutions, and recreational facilities: unless otherwise stated in this section, one parking space for every five persons, based on maximum capacity.
 - 7. Hospitals: one (1) space for each four (4) patient beds, exclusive of bassinets, plus one (1) space for each staff or visiting doctor, plus (1) space for each three (3) employees including nurses, plus adequate area for the parking of emergency vehicles.
 - 8. Medical or dental clinics or offices: five (5) spaces per doctor plus one (1) space for each two

- 1. Local public utility distributing and collecting structures such as pipes and transmission lines, transformers, meters, etc. Large utility structures such as substations are permitted only as special uses.
- 2. Public streets and all official appurtenances necessary for traffic direction and safety. All street and traffic control signs shall conform to the code established and adopted by the Kentucky Department of Highways.
- 3. Private drives, private parking areas, and the parking of vehicles incidental to the principal use on the same premises.
- 4. Real-estate signs not larger than ten square feet located on the premises or subdivision being advertised for sale or for rent.
- 5. Signs not over four square feet in area identifying permitted home occupations or the renting of sleeping rooms on the same premises.
- 6. Horticulture and landscaping of any premises: fences and other normal accessory uses.
- B. Zoning permit only required; no certificate of occupancy:
 - 1. Local information signs. All local information signs shall meet the following standards:
 - a. Twenty square feet in area is the maximum size permitted for local information signs, and no linear dimension shall be greater than ten feet.
 - b. Six feet from the ground to the top of the sign is the maximum height permitted for local information signs.
 - c. Local information signs must be located within three miles along any street from the establishment to which they are indicating directions.
 - d. Local information signs must be located off the right-of-way and at least one hundred feet from all intersecting street rights-of-way.

2.82 HEIGHT EXCEPTION

Height regulations apply to building and portions of buildings occupied regularly by human beings. They do not apply to structure or portions of buildings such as radio towers, ornamental spires, water towers, silos, and flag poles which are not occupied regularly by human beings except for maintenance unless otherwise stipulated in the Zoning Ordinance. No structure shall exceed 75' without approval of the Board of Adjustment. The Board of Adjustment shall interpret whether or not height regulations apply upon application by the Enforcement Officer in doubtful cases. Federal Aviation Agency or State aviation height regulations in the vicinity of an airport shall take precedence over all other height regulations.

ARTICLE III

ESTABLISHMENT OF ZONING DISTRICTS

3.1 ESTABLISHIENT AND DESIGNATION

The City of Prestonsburg is divided into zoning districts as shown on the Zoning Map, and these districts are designated as follows:

- RESIDENTIAL DISTRICTS
- R-1: Low Density
- R-2: Medium Density
- COMMERCIAL DISTRICTS

R-3: High Density

C-1: Neighborhood Business

or structure, including patios and carports shall be within five (5) feet of any individual space boundary.

- 6. A road with a hard surface pavement at least twenty (20) feet wide shall provide direct access to each mobile home lot. The area occupied by the road shall not fulfill part of the area requirements for any lot. All roads shall be designed to enable mobile homes entering the park to reverse direction without having to back more than one mobile home length.
- 7. A paved automobile parking area of not less than twenty (20) feet by twenty (20) feet provided on every mobile home lot.
- 8. All mobile home parks shall conform with the State Board of Health Regulations or the City of Prestonsburg, whichever is more restrictive, which prescribe standards for water supply, sewage disposal, and other facilities. Each mobile home park shall be adequately drained so that no mobile home lot shall be subject to the collection of storm water.

(2) employees.

- 9. Sanatoriums, convalescent or nursing homes: one (1) space for each six (6) patient beds plus one (1) space for each staff or visiting doctor plus one (1) space for each two (2) employees including nurses.
- 10. Community center, theater, auditorium, church sanctuary, one (1) parking space for each four (4) seats, based on maximum seating capacity.
- 11. Convention hall, lodge, club, library, museum, place of amusement or recreation: one (1) parking space for each fifty (50) square feet of floor area used for assembly or recreation in the building.
- 12. Office building: one (1) parking space for each threehundred (300) square feet of gross floor area in the building, exclusive of the area used for storage, utilities and building services.
- 13. Stadium or sports arenas: one (1) space for each four (4) seats.

14. Bowling alleys: five (5) parking spaces for each alley.

C-2: General Business C-3: Central Business C-4: Highway Business

INDUSTRIAL DISTRICTS I-1: Light Industry I-2: Heavy Industry

3.2 INTERPRETATION OF ZONING-DISTRICT BOUNDARIES

The following rules shall be used to interpret the exact location of the zoning-district boundaries shown on the Zoning Map:

- A. Where a zoning district boundary follows a street or railroad, the center line of the street or railroad right-of-way is the boundary of the district.
- B. Where a zoning district boundary approximately follows a lot or property line, that line is the boundary of the district.
- C. Where a . district boundary follows a stream or the shc body of water, that stream or shore oundary of the district. line is

- D. Where a zoning district boundary does not clearly follow any of the features mentioned above, its exact location on the ground shall be determined by measurement according to the map scale.
- E. Unassigned and new areas coming under the zoning regulating autority shall be temporarily zoned R-1. The Planning Commission shall study the annexed or unassigned area and make recommendations within thirty (30) days to City Council for permanent classification.

ARTICLE IV

ZONING DISTRICT REGULATIONS

4.1 RESIDENTIAL DISTRICTS

The following regulations shall apply in residential districts in accordance with the specifications given in the Summary of Zoning District Dimensions:

- 4.11 USES PERMITTED
 - A. Single-family dwellings in R-1, R-2, or R-3 districts.
 - B. Double-family dwellings in R-1, R-2, or R-3 districts.
 - C. Multiple-family dwellings in R-2 or R-3 districts.

4.12 ACCESSORY STRUCTURES AND USES PERMITTED

- A. Private pools, fenced or covered so as to prevent unauthorized or accidental use by children.
- B. Garage or other building not used as a dwelling and accessory to the principal use.
- C. Renting of no more than three sleeping rooms in any one building.
- D. Home occupations: Permitted home occupations may be identified on the premises according to Section 2 1-14. No displays or changes in facade shall indicate from the exterior that the building is being utilized partly for a nonresidential purpose.
- 4.13 CONDITIONAL USES
 - A. Public or private facilities such as schools, churches, cemeteries, libraries, parks, doctors' offices, recreational facilities, hospitals, institutions, etc.
 - B. Mobile home parks in conformance with Section 2.51 except that no mobile home parks may be located in an R-1 district.
 - C. Planned-development project for residential use only. The procedure under Section 2.32 shall be followed.
- 4.14 DIMENSIONS AND AREA REGULATIONS FOR LOTS AND STRUCTURES

The regulations on the dimensions and area for lots and structures are set forth in the Schedule of Dimension and Area Regulations on page 35. The applicable regulations shall be observed in all residential areas.

4.2 COMMERCIAL DISTRICT

- D. Outdoor advertising signs, billboards, etc. Flashing or changing lights which might be confused with traffic control are not permitted.
- E. Planned development projects for commercial use only. The procedure under 2.32 shall be followed.
- 4.242 CONDITIONAL USES
 - A. Nonprofit public or private facilities such as schools, churches, cometeries, libraries, parks, recreational facilities, hospitals, institutions, etc.
 - B. Any use which will not impede in the flow of traffic on U.S. 23 may be brought before the Planning Commission for acceptance as a conditional use.
- 4.234 CONDITIONS

Prohibited Uses: All uses not heretofore permitted are hereby prohibited in this district. In doubtful cases, the Board of Adjustments will make a determination.

4.25 ACCESSORY STRUCTURES AND USES PERMITTED

- A. Dwelling units for the owner or guardian of the commercial property occupying the same building as the principal commercial use. In no case should there be more than one dwelling unit per building.
- B. Garage or other building not used as a dwelling and accessory to the principal use.
- C. Wholesale of merchandise or services which is clearly incident and subordinate to the principal retail use on the premises.
- D. This section shall apply to all provisions of Section
 4.2 up to this section.
- 4.26 SPECIAL REGULATIONS
 - A. There shall be no outdoor storage of merchandise and no outdoor processing in any commercial district unless authorized as a conditional use. All above ground structures accessory to any outdoor use shall be located at least twenty-five (25) feet from front lot lines.
 - B. All uses in commercial districts shall exhibit performance standards equal to or better than those which define light industry.
 - C. This section shall apply to all provisions of Section 4.2 up to this section.
- 4.27 DIMENSION AND AREA REGULATIONS

The regulations of the dimensions and area for lots and structures are set forth in the Schedule of Dimensions and Area Regulations on page 35. The applicable regulations shall be observed in all commercial districts except that residential uses in the C-1 zone shall be required to conform with the R-2 residential area and density requirements.

4.3 INDUSTRIAL DISTRICT

The following regulations shall apply in industrial districts as indicated:

- 4.31 I-1 LIGHT INDUSTRY PERMITTED USES
 - A. Non-retail commercial
 - B. The manufacture, fabrication or processing of any commodity or product that can meet the requirements of the definition

- 4.47 Unless specifically specified above, any individual, whether he be person or firm, that erects or by any other method, constructs a sign or advertising device shall apply for and obtain a building permit that shows that the sign or device is in conformance with this ordinance.
- 4.48 No sign, design, or device which resembles or can be reasonably be confused with a traffic or directional sign erected by the proper state or local officials for the public information or safety is allowed.
- 4.49 No sign, design, or device that constitutes a nuisance either because of its content or operation shall be allowed.
- 4.5 REGULATIONS OF SIGNS OR ADVERTISING DEVICES BY ZONES
 - 4.51 C-1 NEIGHBORHOOD COMMERCIAL DISTRICT
 - A. No billboards are to be erected, or by any other means, attached to any premise in this zone.
 - B. Only one (1) sign or device indicating the name and/or type of business conducted will be permitted.
 - C. These signs shall not exceed twenty (20) square feet unless they are detached from the building and not less than ten (10) feet from the nearest right-of-way line and written approval is granted signifying it as a special use. Such approval will be granted only upon the determination that the sign will not be a detriment to the surrounding area.
 - D. No sign which causes light and glare problems for neighboring residential properties shall be permitted.
 - 4.52 C-2 GENERAL BUSINESS DISTRICT
 - A. Any sign permitted and/or not expressly prohibited in 4.51 is allowed in this zone.
 - B. Signs not larger than thirty (30) square feet and not more than one (1) per commercial establishment are permitted.
 - 4.53 C-3 CENTRAL BUSINESS DISTRICT
 - The provisions in Section 4.52 shall apply for this zone.
 - 4.54 C-4 HIGHWAY BUSINESS DISTRICT
 - A. All signs permitted in Section 4.53.
 - B. A written release from the restrictions of Section 4.53 may be obtained provided the following requirements are met:
 - That no sign project more than seven

 (7) feet from building to which it is
 attached.
 - 2. That the detached sign shall be at least twentyfive (25) feet from the nearest right-of-way and at least ten (10) feet from the side lot lines, and,
 - 3. That the sign not exceed a total of one hundred (100) square feet.

The following regulations shall apply in commercial districts as indicated;

4.21 C-1 HEICHBORIDOD COMMERCIAL DISTRICT

This district is to be used for rotail trade and personal service enterprises which will meet the regular needs of the occupants of surrounding residential areas.

- 4.211 PERMITTED USES
 - A. Retail Sales of convenience goods, grocery stores, drug stores, barber shops, dry cleaning establishments, etc.
 - B. Consumer Services: Processing is performed as a consumer service for retail customers served on the premises.
 - C. Office Buildings and Apartments.
 - D. Construction shall conform to the full intent of a neighborhood commercial establishment and be limited to 2,500 square feet.
 - E. Planned-development project for conmercial and apartment use only. The procedure under Section 2.32 shall be followed.
 - F. Residential uses shall be required to conform with the R-2 residential density and area requirements.

4.212 CONDITIONAL USES

- A. Public facilities such as libraries, churches, parks, recreational facilities, hospitals, institutions, ctc.
- B. Buildings exceeding 2,500 square fect.

4.22 C-2 GINERAL BUSINESS DISTRICT

This district is to be used for all uses enumerated in 4.221.

4.221 PERMITTED USES

- A. Places of amusement and assembly, offices, hotels, motels, used car lots, garages, and other motor vehicle services of a similar or like nature.
- B. Any retail business or retail service as defined in 2.129.
- C. Any manufacturing or processing establishment that does not create dust, smoke, noise, or odor outside the lot on which it is located and employing not more than ten (10) persons, including the owner or operator.
- D. Any accessory use or building customarily incidental to the above permitted uses.

4,222 USES EXPRESSLY PROHIBITED

- A. Any business which is primarily of a wholesale storage or warehousing nature.
- 5. Animal hospital, coal or lumber yard, dairy, bottling works, dry cleaning plant, electric welding, gasoline, oil, or alcohol storage above the level of the ground and exceeding 500 gallons, ice plant, live animal storage, laundry or bakery employing more than five (5) persons, and any other similar or like use determined by the Board of Adjustment to be detrimental to the retail shopping nature of this district.

4.23 C-3 CENTRAL BUSINESS DISTRICT

This district is to be used for all uses permitted in C-1 and C-2

- of light industry in 2.115.
- C. The retail sale of any product or article manufactured, fabricated or processed in accordance with 4.31-B.
- D. The retail sale of construction materials including but not limited to lumber, rock, gravel, and articles of a similar or a like nature.
- E. Freighting or trucking yard or terminal.
- F. Research laboratories.
- 4.311 CONDITIONAL USE DECEMBER ON CO DE CARA CARA LAS ERULAS

Any other use, which can be shown to the Board of Adjustment, that will meet the requirements of the definition of light industry, as found in Section 2.115, but not included or prohibited in this section, may be located in this district with the approval of the Board of Adjustment.

- 4.32 I-2 HEAVY INDUSTRY PERMITTED USES
 - A. Any use permitted in the I-l district.
 - B. Any use which meets the requirements of the definition of heavy industry in Section 2.115 of this document.
- 4.33 ACCESSORY STRUCTURES AND USES PERMITTED
 - A. Signs identifying the industrial activity on the same premises.
 - B. Dwelling unit for caretaker or watchman employed by the industrial firm.
 - C. Garages and other buildings and uses accessory to the principle use.
 - D. Planned-development project for industrial use only. The procedure under Section 2.32 shall be followed.

4.34 CONDITIONAL USES

- A. Sanitary landfill for refuse disposal in conformance with the standards set forth in the Kentucky Department of Health Manual SE-M-4, Recommendations for the Disposal of Refuse by the Sanitary Landfill Method. Approval of the sanitary landfill by the State Board of Health must also be obtained before it may be permitted as a special use.
- B. Extraction, storing, and processing of minerals or raw materials. The Planning Commission may attach special conditions necessary to protect neighboring premises from the undesirable effects of such operation. The Planning Commission shall require a written agreement from the owners of the operation that, upon termination, the land shall be reclaimed as nearly to its original state as is practical.
- C. The Planning Commission may require agreement that topsoil shall be replaced, vegetative cover replaced, and other conditions conformed with. This agreement shall be filed permanently with the applications for a conditional use.
- 4.35 DILENSION AND AREA REGULATIONS

The regulations on the dimensions and area for lots and structures are set forth in the Schedule of Dimension and Area Regulations on Page 35. The applicable regulations shall be observed in all industrial districts.

- 4.4 SIGNS AND OUTDOOR ADVERTISING
 - 4.41 The provisions of this section are made applicable to all zone districts in Sections 4.2 and 4.3 unless otherwise specified.
 - 4.42 Any outdoor cormercial advertising or promotional signs (as defined in Section 2.13) which is capable of free standing (bill-

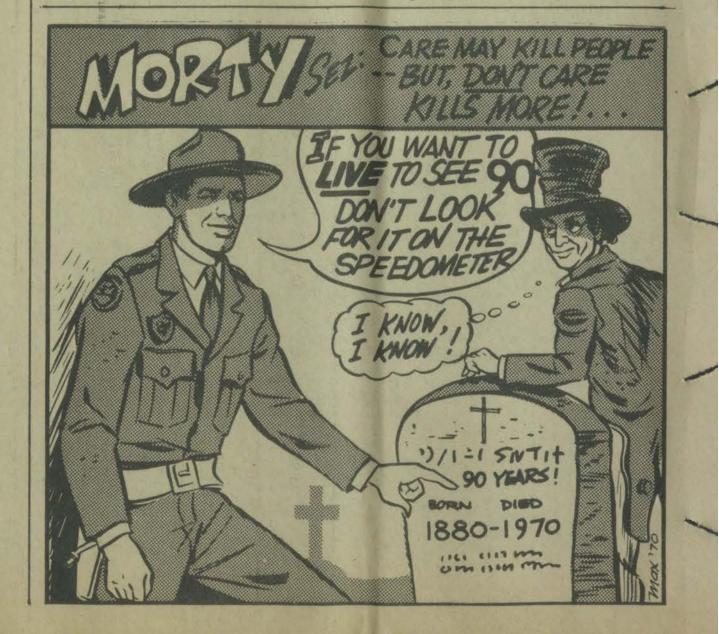

- C. This written release will only be granted when determination that the sign would not deter any of the surrounding areas.
- D. Billboards may be included in this zone.
- 4.55 I-1 LIGHT INDUSTRIAL DISTRICT
 - A. Signs permitted in zone C-4
 - B. The provisions of Section 4.54-B are applicable to this zone provided that all yard requirements and setback regulations for this zone are met.
- 4.56 I-2 HEAVY INDUSTRIAL DISTRICT
 - All provisions of Section 4.55 apply to this zone.
- 4.6 FLOOD PLAIN DISTRICT

The specific intent of this district is to impose certain restrictions made necessary for the flood plain area in order to ensure the health, safety and welfare of the residents of the community:

- 1. To control the erection of buildings in areas unfit for human usage by reason of danger from flooding, unsanitary conditions and other hazards.
- 2. To minimize the danger to public health by protecting the water supply and promoting safe and sanitary drainage.
- 3. To permit only those uses in the flood plain compatible to the preservation of natural conditions which are conducive to the maintenance of constant rates of water flow throughout the year by; withholding rapid water runoff contributing to down-stream flooding and providing area for groundwater absorption for maintenance of the subsurface water supply.

4.61 PERMITTED USES

- A. All agricultural uses which would not endanger the life or permanent structures involved in carrying out this form of employment such as grazing, farming, livestock and poultry raising, etc.
- B. Dams, power plants, water measurement and control facilities and utility transmission lines.
- C. Parking Areas
- D. Open recreation uses such as parks, playgrounds, sports fields, boat landings and fishing areas.
- E. Wildlife preservations.
- 4.62 USES EXPRESSLY PROHIBITED
 - A. Residential uses.
 - B. Any on-site sewage disposal system.
 - C. Dumps, sanitary land fills and junkyards.
 - (Continued on Following Page)→

districts and for the uses enumerated in 4.231.

4.231 PERMITTED USES

Any use permitted in the C-2 district or not expressly prohibited in 4.232 is permitted in this district.

4,232 USES EXPRESSLY PROHIBITED

As provided by Section 4.222 of this document.

4.24 C-4 HIGHWAY BUSINESS DISTRICT

This district is designed to limit the ingress and egress onto U.S. 23 in order to insure a continual traffic flow on the highway.

4.241 PERMITTED USES

A. Motel, office buildings, and professional services.

B. Restaurants and cafes.

C. Motor vehicle service stations and other automobile related establishments. board) shall be permitted only in zones I-1, I-2, and C-4 and shall be considered a business use.

4.43 All signs and other advertising devices (with the exclusion of billboards) are permitted in zones C-1, C-2, C-3, C-4, I-1, and I-2, provided, however, that they meet all the requirements and regulations that apply to that zone and that they also shall only advertise or make known a use or uses that are conducted on the premise that the sign is located.

4.44 Unless expressly stated hereafter, no advertising device shall be placed, fixed, secured, or by any other method, attached to any structure or any parcel of land in a residential zone.

4.45 Only one (1) sign may be erected or, by any other method, attached to a building in a zone in which it is permitted, which advertises the primary service, commodity, function or nature, of the business or industry that it advertises. This sign or display shall not exceed twelve (12) square feet and shall not be closer than ten (10) feet to the street right-of-way.

4.46 In any residential zone, a sign which advertises a business or profession, which meets the requirements for a home occupation shall not exceed two (2) square feet in area and shall be located no closer than five (5) feet to the street rightof-way and shall not obstruct the view of traffic or operators of a motor vehicle. *plus one of fifty

SCHEDULE OF DIMENSION AND AREA REGULATIONS (CONTINUED)

- 1. The following additional requirements are imposed in the case of the following transition zones:
 - A. In retail and commercial districts parking areas which adjoin a residential zone must be shielded by walls, shrubs, or trees along the boundary line.
 - B. In industrial districts adjoining a residential zone, a 100 foot wide strip along the boundary line cannot be used for actual manufacture but must be reserved for less objectionable uses, for example, an administrative building or parking lot.
 - C. In non-residential lots which are back to back with residential, 30 feet deep rear yards are prescribed, though a single story rising not more than 23 feet above curb level may extend to the rear lot line.

SPECIAL ZONING DISTRICTS

FARM DISTRICTS

May be of the exclusive type or the cumulative type. Agriculture is the primary use. Other uses are secondary and accessory. Also permitted can be certain public and semi-public uses. Cumulative-type farm zoning districts can often serve as transition zones from agriculture to residential uses, including subdivisions. The transition may be facilitated by lowering lot size requirements. Usual minimum tract requirements for farm districts range from 10 to 80 acres.

FORESTRY DISTRICTS

Generally located in the Northwestern U. S. developed from large acreage which is marginal for farming but valuable for forestry. Zoning is of the exclusive type. Such zones add to the recreational attraction of the area.

RECREATIONAL DISTRICTS

Primary use is for variety of recreational activities. This type of district can be used to protect and preserve mountainous, riverbank, lakeshore, or other areas that have natural or potential recreational features. Permitted uses can be agriculture, forestry, institutional uses, and limited commercial recreational uses.

WATERSHED DISTRICTS

Watershed districts reserve mountainous and hilly land for water production, forestry, wildlife, and recreation. Their purpose is to protect water sources and to avoid loss from improper use of land that has high water tables and is subject to periodic flooding. Forestry, agriculture, and grazing are deemed desirable principal uses. The types of recreation that need large acreages are suitable secondary uses.

OPEN-SPACE DISTRICTS

Open-space districts are used to reserve rural areas on the urban fringe for future generations, to provide permanent open space. Usually crop and tree farming may be allowed along with grazing and recreational activities.

LANDMARKS OR PRESERVATION DISTRICTS

Such districts are used to protect buildings and places that are of historical or cultural importance. Such districts help to safeguard our heritage and serve cultural educational, and recreational ends. The regulations pertain to buildings and structures of some significant architectural period. The concern is with exterior features only, mainly design, arrangement, texture, materials, and color. No changes can be made without approval from a review board.

- in writing of the date on which the use of any new or altered structure or the new use of any premises will be ready to commence. The County Health Officer's certificate must accompany applications according to paragraph 2.43 of the Zoning Ordinance.
- B. Permanent file. The Enforcement Officer shall keep a permanent file of all applications and all certificates issued.
- C. Issuance. If the newly erected or altered structure and the new use of premises conform with all applicable provisions of the Zoning Ordinance and all other applicable ordinances, regulations, and codes, the Enforcement Officer shall issue a certificate of occupancy authorizing the use thereof. If the structure or use fails to conform, the Enforcement Officer shall refuse to issue a certificate of occupancy and shall deliver written notice to the applicant stating the reasons for the refusal. The Enforcement Officer shall inspect a new structure or the premises for which a new use is proposed and shall issue or refuse a certificate of occupancy within five days after the date on which the new use is ready to commence.
- D. Validity. The issuance of a certificate of occupancy by the Enforcement Officer shall not waive any provision of the Zoning Ordinance.

5.4 BOARD OF ADJUSTMENT

5.41 APPOINTMENT AND ORGANIZATION

A Board of Adjustment (hereinafter known as the Board) shall be appointed and organized in conformance with the Kentucky Revised Statutes, Section 100.217.

5.42 POWERS AND DUTIES

The Board shall have the following powers and duties:

- A. Bylaws. The Board shall adopt bylaws in compliance with KRS Chapter 100 for its own government.
- B. Administrative review. The Board shall hear and decide upon appeals from decisions of the Enforcement Officer. The Board shall decide on questions involving literal interpretations of the Zoning Ordinance, shall interpret the exact location of district boundaries according to Section 3.2, shall interpret the amount of off-street parking, loading and unloading space required according to Section 2.71 through 2.73, and shall make only those other interpretations and decisions specifically delegated to it by the provisions of the Zoning Ordinance.
- C. Conditional uses. The Board shall have the authority to approve or disapprove applications for conditional uses in conformance with Section 2.33 of the Zoning Ordinance.
- D. Variances. The Board may vary the strict application of only the dimension and area regulations provided that unique conditions prevent strict conformance and would thus deprive the owner of the reasonable use of his premises. The Board shall not grant a variance unless all of the following general conditions are met:
- 1. Physical conditions are unique to the lot or structure in question and do not apply to neighboring lots or structures in the same district.

ARTICLE V

ADMINISTRATION

5.1 ENFORCEMENT OFFICER

The City Council shall designate and appoint an Enforcement Officer or Officers who shall be charged with and provided with the authority to enforce the ordinances, regulations, and orders of the Planning Commission and City Council and to issue zoning permits and certificates of occupancy. The Enforcement Officer(s), in the performance of his (their) duties and functions, may enter upon any land and make examinations and surveys that do not occasion damage or injury to private property and present his findings to the Planning Commission.

5.2 ZONING PERMITS

5.21 REQUIRED PRIOR TO CONSTRUCTION OR ALTERATION

It shall be unlawful to commence construction or alteration of any structure until the Enforcement Officer has issued a zoning permit authorizing such work except as specified in Sections 2.81 and 5.22 of the Zoning Ordinance. The City Council may establish a schedule of reasonable fees to be charged for the issuance of zoning permits.

5.22 EXCEPTIONS

No zoning permit or certificate of occupancy shall be required in the following cases:

- A. Recurring maintenance work regardless of cost.
- B. Installation of required improvements according to an approved preliminary subdivision plat or planned-development plat.
- C. Those structures and uses exempted by Section 2.81.

5.23 PROCEDURE

- A. Application. In applying to the Enforcement Officer for a zoning permit, the applicant shall submit a plan along with the application, drawn to scale, showing the dimensions of the lot to be built upon, the outside dimensions of all structures to be constructed or altered and all existing structures, the use of all structures, yard depths, and any other information necessary for determining conformance with the Zoning Ordinance. The County Health Officer's certificate approving proposed water and sewerage facilities must accompany applications according to paragraph 2.43 of the Zoning Ordinance.
- B. Permanent file. The Enforcement Officer shall keep a permanent file of all applications with accompanying plans and all permits issued.
- C. Issuance. If the proposed construction or alteration conforms with all applicable provisions of the Zoning Ordinance and all other applicable ordinances, regulations and codes, the Enforcement Officer shall issue a zoning permit authorizing such construction or alteration. If the proposed construction or alteration fails to conform, the Enforcement Officer shall refuse to issue a zoning permit and shall deliver written notice to the applicant stating the reason for the refusal. The Enforcement Officer shall act upon applications for zoning permits within one week from the date of their submission.
- D. Validity. The issuance of a zoning permit by the Enforcement Officer shall not waive any provision of the Zoning Ordinance.
- E. Duration. A zoning permit shall become void six months from the date of issuance unless substantial progress has been made by that date on the construction or alteration authorized therein. A zoning permit may be renewed without fee upon review by the Enforcement Officer before it becomes void.

- 2. Strict application of the dimension and area regulations would deprive the owner of the reasonable use of his lot or structure equivalent to the use of neighboring lots and structures in the same district.
- 3. The unique conditions are not the result of actions taken after the adoption of the Zoning Ordinance.
- 4. The granting of the variance will be in harmony with the intent of the Zoning Ordinance and will not be detrimental to any neighboring premises.
- E. Special Variances. The Board may grant a variance when the following special condition is present in lieu of the four general conditions listed above:
 - If an undeveloped lot of record existing before October 1, 1968, is too small to allow conformance with the dimension and area regulations and if the owner has owned no adjoining land since October 1, 1968, the Board may grant a variance to allow the owner the reasonable use of his premises. When adjoining undersized lots of record are under the same ownership, they shall not be used or sold separately except in conformance with the dimension and area regulations of the Zoning Ordinance.

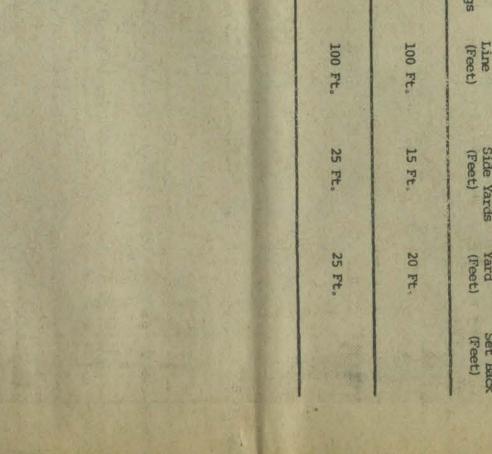

5.43 PROCEDURE

An application to the Board for an original interpretation or decision or an appeal from a decision of the Enforcement Officer shall be made in writing on forms prescribed by the Board. An appeal must be filed within sixty days after the Enforcement Officer has refused a zoning permit or certificate of occupancy, or the right to appeal shall be waived. The Enforcement Officer shall transmit to the Board the complete record of the decision appealed. The Board shall hold a public hearing at which all pertinent evidence concerning the interpretation, decision, or appeal shall be examined, and the Board shall make its decision within two weeks after the hearing. The following rules shall govern all decisions made by the Board:

- Limits of authority: The Board shall act only within the strict limits of its authority as defined in the Zoning Ordinance. The Board has no authority to vary the use regulations or other regulations not specifically delegated to it. The Board shall not hold hearings on applications or appeals seeking decisions that the Board is not authorized to make.
- B. Special conditions: The Board may attach special conditions to any decision it is authorized to make to ensure that the intent of the Zoning Ordinance will be carried out.
- C. Majority vote required: The concurring vote of a majority of the entire membership of the Board shall be necessary in making any decision.
- D. Additional powers: In exercising the above powers, the Board shall have all the powers of the Enforcement Officer in addition to its other powers and duties.

5.5 CLARIFICATION OF ADMINISTRATIVE JURISDICTIONS

The following is a recapitulation of the agencies with jurisdiction and the extent of their jurisdictions concerning ad-

5.3 CERTIFICATES OF OCCUPANCY

5.31 REQUIRED PRIOR TO OCCUPANCY, CHANGE OF USE, AND UNDER-OTHER CONDITIONS.

It shall be unlawful to use any newly erected or altered structure or to change the use of any premises even though no structure was erected or altered until the Enforcement Officer has issued a certificate of occupancy authorizing such use except as specified in

Sections 2.81 and 5.22 of the Zoning Ordinance. The Planning Commission may authorize the Enforcement Officer to require that nonconforming uses or any existing uses shall maintain valid certificates of occupancy identifying them as nonconforming or permitted uses as applicable. The City Council may establish a schedule of reasonable fees to be charged for the issuance of certificates of occupancy.

5.32 PROCEDURE

(Continued)

A. Application. In applying to the Enforcement Officer for a certificate of occupancy, the applicant shall notify the Enforcement Officer ministration of the Zoning Ordinance.

 The Enforcement Officer has initial authority for the literal enforcement of the Zoning Ordinance. He has no discretionary authority to allow any departure from the literal conformance with the Zoning Ordinance.

- B. The Board of Zoning Adjustment has jurisdiction over conditional use permits and authority to hear appeals from decisions by the Enforcement Officer and to make literal interpretations of the pertinent provisions to correct any possible misinterpretation by the Enforcement Officer. The Board also has the authority to make only those initial discretionary interpretations and decisions and allow only those departures from literal conformance which are specifically delegated to it. The Board has authroity to allow special uses.
- C. The Circuit Court has jurisdiction to determine all questions and issues properly brought before it on appeal from decisions of the Board of Adjustment or the Planning Commission according to the Kentucky Revised Statutes Chapter 100.347.

D. The Planning Commission, in addition to its other primary responsibilities concerning adoption and amendment of the Zoning Ordinance and subdivision plat review and approval, has the authority and responsibility for approval or disapproval of planned-development projects. This responsibility like subdivision plat review - involves guiding the initial conversion of open or agriculatural land to developed land, including the proper arrangement of streets in relation to other existing or planned streets, provision of adequate open space, and the avoidance of congestion, etc., and is consequently equivalent to the Planning Commission's primary responsbility for subdivision plat review and approval.

5.6 VIOLATIONS

5.61 REMEDIES

The Enforcement Officer shall issue notice to violators of all violations of the Zoning Ordinance and shall order that such violations cease. In case of possible violation where the Enforcement Officer cannot determine if there is a literal violation, he shall apply to the Board of Adjustment for an interpretation. If necessary, the City Attorney and any property owner or occupant who would be damaged by a violation may institute appropriate action in court to eliminate the threat of existence of any violation of the Zoning Ordinance in accordance with Kentucky Revised Statutes.

5.62 PERALITIES

Fines and other penalities may be imposed upon violators according to the provisions of Kentucky Revised Statutes, Paragraph 100.991.

ARTICLE VI

AMENDMENTS

6.1 APPLICATIONS FOR AMENDMENTS

6.11 BY WHOM MADE

Any person, firm, corporation or political subdivision may apply for an amendment to this ordinance.

6.12 TO WHAT MADE

The applicant petitions the Planning Commission through the City Clerk to amend the ordinance.

6.2 PROCEDURE

To make any amendment to this zoning ordinance, either to the text or to the map, the following procedure shall be followed. If any given use is not permitted in a given zoning district by the provisions of this ordinance, it may not be permitted by any agency unless the zoning ordinance is amended according to the amendment procedure.

6.21 FILING THE APPLICATIONS

All applications for amendments to this ordinance shall be filed in writing with the municipality.

6.22 CONTENTS OF APPLICATIONS

Without in any way limiting the right of file additional material, no application for amendment to this ordinance will be considered unless it contains:

A. At least the applicant's name, address, and interest in the application, and the name, address, and interest of every person, firm, corporation or political sub-

7.2 VALIDITY

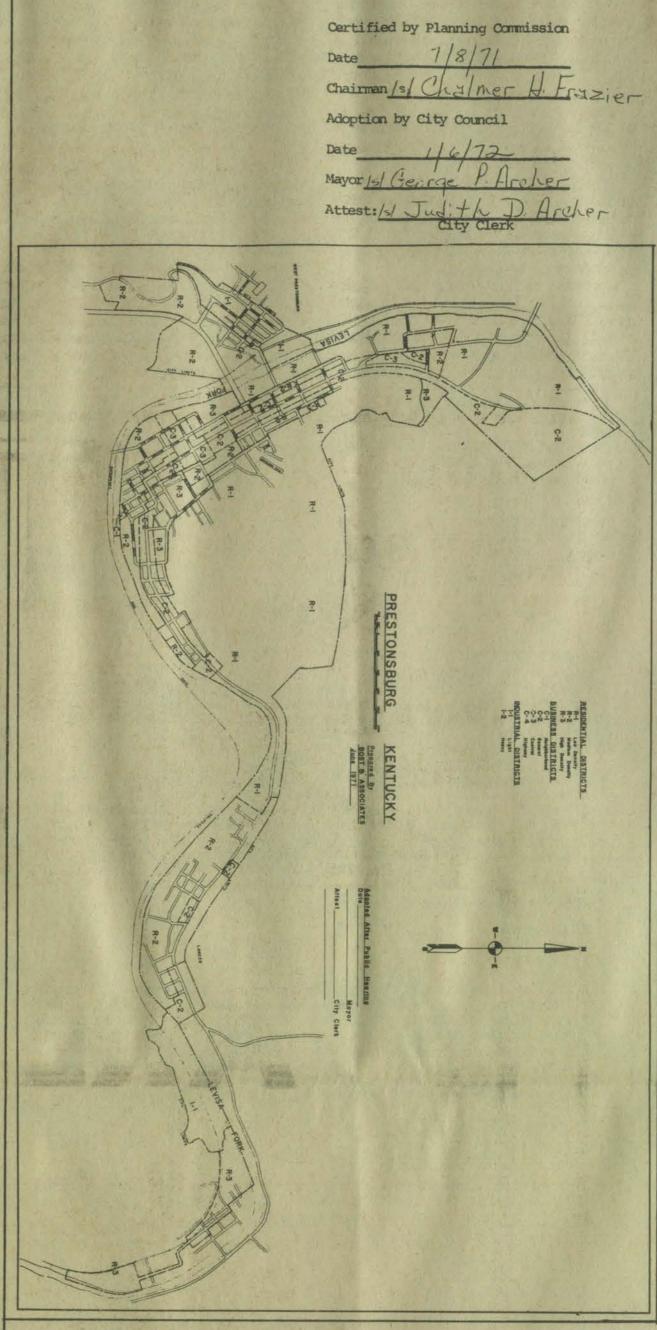

If any provision of this ordinance is held invalid or unconstitutional by any court of competent jurisdiction, such a decision shall not affect the validity of any other provision of this ordinance.

7.3 REPEALER

Any previously adopted ordinance entitled Zoning Ordinance for the city of Prestonsburg, Kentucky, together with all amendments thereto, is hereby repealed and declared to be of no effect.

7.4 EFFECTIVE DATE

This ordinance shall take effect and be in force immediately after its adoption.

Former Floyd Pastor Honored

(Roy Benton, the subject of the following story, was for about eight years pastor of the First Church of God on Little Paint Creek, this county. - Ed.)

By HELEN PRICE STACY WEST LIBERTY, Ky. - He was a coal miner in the 1920's and 1930's and walked to his work in the mines. The five-mile hike to the mines and a 10-hour work day still did not sap the energy of Roy Benton, because after reaching home and washing off coal dust he was ready for another five-mile walk to church where he helped with the singing.

He still is a strong man, heavy built, and could make "John Henry was a steel drivin' man" ring, but since 1940 the Caney resident has been singing praises to his Lord. That was the year he became pastor of First Church of God at Caney - he's still pastor of the "block" church that stands "in the bottom" below Ky. 191.

Youngest of 13 children of the late John and Rebecca Lykins Benton, the Rev. Roy Benton had the surprise of his life during recent holidays when he and his family arrived at the church to attend a program. The building was dark, as if the lights had been turned off for a candlelight service and when the minister sat down a color slide flashed on a screen with the words, "This Is Your Life Roy Benton!"

His son, Edwin Benton, later said, "I never saw Dad so moved. For a minute I thought we had done the wrong thing with such a surprise because I half expected he would have a heart attack. Dad couldn't believe that the entire 'program' was about him and his life."

In order to compensate for the days reaching back to the 1870's - when there were no color slides, old family photos were employed, and to add still more sentiment to the evening, some of those who did narration for the long-planned program now are dead. These included Benton's brother, the Rev. Tony Benton, Mrs. Bertha Spencer, J. F. Benton, Rex Lacy, Cleve Benton, Amanda Maddox and Paris M. Benton.

There have been ministers in each generation of his ancestry, according to Benton, beginning with his great-great armor unconquered and free." grandparents. His great grandfather Thomas Benton and great grandmother Isabelle Rice Benton came from North introduced a bill that would permit courts Carolina in 1853 to make a home in Morgan to order employers to withhold childcounty. His wife, the former Frances support payments from an employe's Lewis, is daughter of the late Callie and paycheck and send the money to a court-Marion Lewis whose background includes early pioneers in Eastern Kentucky.

Section Two, Page Six

daughters, Mrs. Geneva Barker of Stacy Fork, Mrs. Alene Taulbee of Cincinnati and Mrs. Naomi Eagle of Caney; 19 grandchildren and six great grandchildren.

The Rev. Benton also is pastor of First Church of God at Mariba in Menifee county and has preached in counties throughout the state and in other states. Despite his lack of high school or college, the minister speaks flawless English and preaches from a philosophy that delves deep into the wellspring of life.

"In these years," he said, "we have learned that people are wonderful. The long road hasn't been easy but it has been interesting. Our philosophy has always been that "Truth builds the soul a treasure house with desirable immunities." Part of the time money has been almost a stranger, but along the journey motivation, determination and realization have made harmony in our soul.

"If we could turn back the clock and live life over, we'd do it again. We are fully convinced that real life is waiting at the end of the journey. There we shall lay down the

Sen. Michael Moloney, D-Lexington, appointed officer.

DIICC

- division represented by the applicant in the application.
- B. The description of the proposed amendment.
- A plat showing the land area which would be affected by the proposed amendment, the present zoning classification of the area and of all abutting properties, all public and private rights-of-way and easements bounding and intersecting the designated area and abutting properties.
- D. The error in the ordinance that would be corrected by the proposed amendment or changed or changing conditions in the applicable area or in the municipality generally that make the proposed amendment reasonably necessary to the promotion of the public health, safety, or general welfare.

6.23 REVIEW BY PLANNING COMMISSION

- A. Upon receipt of an application for an amendment, properly and completely made as herein set forth, the Planning Commission, which, after examination of the application, may require, if considered necessary, that the applicant furnish additional information of a pertinent and reasonable nature.
- B. The Planning Cormission shall hold at least one public hearing on the proposed amendment. At least fifteen (15) days before the hearing one notice shall be published in a paper of general circulation in the city, stating the time, place and juryouse of the hearing.
- C. Following the public hearing, and after due consideration of the proposed amendment, the Planning Commission shall forward written notice of its findings and recommendations concerning the application to the City Council along with the application. Such findings and recommendations must be submitted to the Council within ninety (90) days after receipt of the application by the Commission.

6.24 ACTION BY CITY COUNCIL

- A. The City council shall hold at least one public hearing as required by KRS 100.530 before amendment of this ordinance. At least fifteen (15) days but not more than thirty (30) days before the hearing, two notices shall be published in the paper of general circulation in the city, stating the time, place, and purpose of the hearing.
- B. Within ninety (90) days after receipt of the Planning Commission's recommendations and findings concerning the application along with the application, the City Council shall act on such application following the required public hearing. If disapproved by the Planning Commission, the amendment may be adopted only by a majority vote of the entire membership of the Council.
- 6.3 FEES

The Planning Cormussion may establish a schedule of reasonable fees to be paid by the applicant for a zoning amendment.

6.4 PLANNED-DEVELOPMENT-DISTRICT AMENDMENT

If a planned-development project is proposed which includes a use not permitted in the district containing the proposed location, the amendment procedure may be initiated after conditional approval of the preliminary plat. A map amendment may be made to designate the proposed location as a planned-development district. Thereafter the planned-development-project procedure shall be followed, and the map amendment, if approved, shall be valid only for that specific project as approved by the Planning Commission in conformance with Section 2.32 of this ordinance.

Pikeville, Ky. - B. P. Bogardus, of Pikeville, a registered professional engineer with longtime ties with the coalmining, electrical and construction fields, has joined the staff of Pikeville College. Bogardus, a member of the Kentucky Society of Professional Engineers and also a registered land surveyor in Kentucky, will instruct in drafting and map reading as related to the mining industry.

Bogardus, a native of Warsaw, Gallatin county, is a graduate of the University of Kentucky, where he received a bachelor of science degree in mechanical engineering. He was district engineer for the Pikeville district of the Kentucky Power Company for 19 years.

"We meant to have just the family at the program," the Rev. Benton's son said, "but word got around and that night people showed up from many counties in Kentucky and from Ohio, Indiana and Illinois."

The honoree himself said it was the "most wonderful surprise, and I can't imagine how they worked up all that background without my learning what they were up to."

He started work in the mines at Cannel City when he was 15, but had managed to get in an eighth grade education "which was considered pretty good back then."

After he started singing in revivals and church services, he began teaching singing and on weekends walked several miles to various communities to conduct singing schools — all without pay. He estimates that to date he has preached "more than 5,000 texts and baptized 888 converts trust the Lord will let us live long enough to finish the round number of one thousand." In addition to his son Edwin, a Morgan county teacher, the Bentons have three

The standard deduction is up this year. But maybe you should itemize.

Your best buddy Lenny might have told you to itemize your deductions because it would save you more tax dollars.

Your neighbor possibly suggested taking the standard deduction because you'd pay less taxes that way.

And Frank down at the office . . . he helps everybody with their return . . . what did Frank recommend?

If there's some way to save you money on your income tax, H & R Block will know how to do it.

Itemized and standard deductions are nothing new. We've been preparing returns for years using both. We'll figure out your situation both ways and then prepare your return using the method that's best for you.

You see, for only a few dollars more than

things about your income tax that you never knew existed. Things that we know, because income tax returns are our only business.

H & R Block's fees start at \$5 and the average cost was under \$12.50 for over 7 million families we served last year.

Furthermore, if your return is audited we will accompany you, at no extra cost, to the Internal Revenue Service and explain how your return was prepared, even though we will not act as your legal representative.

It means that H & R Block also offers you year 'round tax service for just one low fee, with no extra charge for audits and estimates.

Yes, it's true. The standard deduction is

6.5 CURRENCY OF ZONTHE MAI

The Planning Commission Chairman shall insure that amended zoningdistrict boundaries are accurately placed on the certified copies of the zoning map and shall initial and date all such additions to the map.

6.6 CURRENCY OF ZONING ORDINANCE

The Planning Commission Chairman shall insure that all zoning amendments are noted on all filed and/or official copies of the zoning ordinance.

ARTICLE VII

LEGAL STATUS

7.1 CONFLICT WITH OTHER INSTRUMENTS

In case of conflict between this ordinance or any part thereof and the whole or part of any existing or future ordinance of the city of Prestonsburg or the whole or part of any existing or future private covenants or deeds, the most restrictive in each case shall apply.

Bogardus founded Coal-Labs, Inc., of which he is president, in 1957. The laboratory's main function is to sample and analyze coal for the mining industry in Eastern Kentucky and nearby West Virginia and Virginia. The laboratory, directly or indirectly, serves thousands of mines in this area. He was president of Bogardus and Barb, Inc., of Pikeville, General contractors, from 1962 to 1971.

Mr. and Mrs. Bogardus reside at 600 Coleman Street, Pikeville. They have four children, David Bogardus and Paul Bogardus, both of Pikeville; Mrs. Jane Vanover, of Lexington, and Joseph Bogardus, of Lawrence, Kansas.

it costs to do it yourself (with advice maybe from some other amateur), you can have your tax return prepared with complete confidentiality by a specially trained member of the H & R Block team. There are thousands of them in over 6,000 conveniently located offices.

Each member of H & R Block is warm, friendly and anxious to help you. A visit to H & R Block usually takes just a short time. Once in our office, you sit down over a free cup of coffee and possibly learn

Bill Would Benefit Governor-Elect

The Senate's State Government Committee unanimously approved a bill that would make it easier for a governor-elect to prepare to take office.

Introduced by Sen. Wilson Palmer, D-Cynthiana, it would "promote orderly transitions in the office of the governor' during the month-long period between the November election and December inauguration.

The bill would provide the governor-elect with office space and supplies until his inauguration and require the outgoing governor to provide his successor with documents and information upon request. It would authorize the governor-elect to examine the outgoing governor's budget report as it is being processed and to make revisions.

The state budget director would be required to make available to the governorelect all information upon which the budget report is based.

The bill now goes to the full Senate for passage.

room in a lodge or cottage at Carter Caves, Natural Bridge, Greenbo or Jenny Wiley one of the parks in the state's eastern territory.

You are awakened, not by early morning sounds of cars starting and stopping, engines being revved, tires screeching around corners, but by stillness. The quiet might be so novel that you will lose your bearings for a moment and think something is wrong. Where is the noise of the world? Has the earth suddenly stopped moving.? You might be correct, because for you one world has stopped and another begun, if

only for a day. Your new world is one of slowness, stretching out in bed and stillness. The silence is so marked you can almost hear it with ears and mind boggled too long with

hurry, run, rush, push. This you must explore. You pull aside curtains and the sight through the windowwall is like a dash of cold water to sleepy eyes. You see dark trunks of trees, textured with winter bark, limbs extending gracefully to the sky. You marvel at the beauty of trees in winter.

You jump when a cardinal, scarlet and pink, perches on your balcony rail for a second, then, startled by your presence, flies to the safety of a limb etched against a moss-covered boulder. Chickadees and a cedar waxwing pick for food.

After a leisurely breakfast in the lodge dining room, you talk with a park recreation director about hiking trails. This staff member knows his region like a wellread book. He tells you that organized nature hikes are scheduled throughout the day.

If you are warming up to the quietude of a winter day in a park he might even recommend a book you can buy and take along so you can identify winter plants, winter birds and even winter wildlife.

You strike out along a pine-needle trail, softly carpeted with leaves of several autumns and you don't know who is more startled when a rabbit jumps from a clump of fern and you jump an inch or so.

You see a patch of brightness along the edge of a steep bank. From the book you learn that it is bittersweet entangled in scraggly foliage. Something green turns out to be mullein stumps, and mottled colorings are large strips of bark that a sycamore tree has shed.

You pinch off a sassafras twig and chew it, remembering that when you were a child you were told Indians called the plant green stick and all at once you smell the fragrance of sassafras tea brewing on the stove. Perhaps you are walking through a woodland that covers a steep slope. You breathe in the clean pinewoods atmosphere and learn from your book or - from the park naturalist if on a scheduled tour that dark crescents of red are staghorn sumac and each shaped horn is composed of hundreds of minute berries.

By HELEN PRICE STACY enjoyment of it."

another visit to a world of winter quiet. This time you will bring the family. You have studied the books and remembered what the naturalist said, and will not be a stranger.

EID'S PHARM

By Rufus M. Reed

Our Beautiful Azaleas and Mountain Laurel

These are highly popular members of the Heath Family, which includes many of our most beautiful and useful trees and shrubs. To this family belong The Great Laurel, West Virginia's state flower, and the lovely sourwood tree, also the huckleberry and blueberry shrubs and mountain teaberry.

There are two leading groups of the deciduous and shed their leaves, and the Rhododendrons, which are evergreen.

people call "pink honeysuckles." These are popular flowers and many persons gather them for their sweet perfume and for vases in the living room. The word, "azalea," means dry, arid; so the pink azaleas, or a lover of soils enriched with oak leaf mold, pinxter flowers, are usually found growing and no lime. Its leaves are long, ovateon dry, open hillsides well exposed to Lanceolate, evergreen and acute at both sunlight. They thrive best in soils that are ends. Sometimes they are tinged with strongly acid. The pink azaleas can be yellow underneath. transplanted in soil that is free of lime, in open, sunny places. The flower buds first appear in deep pink or red, but as they open out, the inside of the bloom turns white, but the reddish tint is retained on the outside. The corolla is trumpet-shaped and flares at the end; the stamens are long-exserted. slender, curved and protrude far from the corolla; they remind one of the long eyelashes of some beautiful mountain maid. Botanists call the pink ones, Azalea Nudielora, as the blooms appear well ahead of the leaves. The blooming period is from late April to about May 25.

The Flame Azaleas, also called "orange honeysuckles," come into bloom some two or three weeks later than the pink ones. Most wild flower enthusiasts say the flame azaleas are the finest and most gorgeous of all the shrubs of Appalachia. The flowers come out in various colors of flaming red. orange, deep yellow and light yellow, and sometimes the colors are mixed in hybrids, which will often have both yellow and orange petals in the same blossom. This makes a flower that is tops anywhere.

The Flame Azaleas often grow lower down on the hillsides than the pink ones do. as they are often found along creek bottoms and at the foot of slopes. The blossoms literally cover the branches and make the blooms showy and conspicuous in the woods. Sometimes, these azaleas grow 12

The Mountain Laurel. Most country people call this beautiful shrub "mountain ivy," or "calico bush." It should not be confused with the great laurel, West Virginia's state flower. The mountain laurel is somewhat smaller and has smaller blossoms; however, it is none the less beautiful. When the mountain laurel comes Heath Family: the Azaleas, which are into full bloom in some regions of Appalachia, a festival is held to celebrate their beauty; a "mountain laurel queen" is Our first azaleas to bloom are the ones chosen to reign at the festival.

> The mountain laurel grows mostly on high, rocky spurs and arid slopes of the mountains and often forms dense clumps under the scarlet oaks and pitch pines. It is

The flowers are formed in dense clusters at the top of the branches and are shaped like a small, shallow bowl. The blooms have an ingenious method for obtaining pollination of the flowers. The anthers are elastic like rubber bands and are held down under tension in pouches of the blossom. When a bee lights to sip the nectar, the anthers are relased from their "prisons" by the bee's weight; they spring up quickly and dust the bee's leges with pollen, which the insect carries to the next flower.

Mountain laurel is named "Kalmia" in honor of Pehr Kalm, who collected the first specimens for Linnaeus, the great naturalist.

We are an old, experienced warehouse with over 50 years' jobbing experience and will offer financial assistance to the right party. Write Mr. E. G. Leadingham, 333 Cardinal, Frankfort, Ky. 40601. All replies will be kept confidential and you will be contacted by phone for an appointment.

feet high or more and when in full bloom may be seen at a great distance. Dr. Earl L. Core calls this azalea "one of the most beautiful flowering shrubs of West Virginia."

The flame azaleas can be transplanted in dry, open places, and when given azalea food they will produce a mass of gorgeous blossoms. The shrubs are inclined to much branching which helps to display the gorgeous blossoms to their full beauty.

CARD OF THANKS

The family of Martha Robinson thanks the many friends and neighbors for their kind deeds in their behalf during their hours of bereavement. We give a special thanks for the many prayers that were asked for her and to the personnel of the McDowell Hospital who were kind and patient to her for the past few years and to Hershell Huff, Rev. Johnny Huffman, Rev. Lee Edward Caudill and Rev. John Noe for their kind and prayerful words. Also a special thanks to John C. Hall and Birchell and to the staff of Hall Brothers Funeral Home for their most efficient service and kindness. She was a beloved wife, mother, grandmother, and great-grandmother.

ADVERTISEMENT FOR BIDS

Sealed proposals will be received by the Floyd County Board of Education, Prestonsburg, Kentucky, until 1 p.m., Eastern Standard Time, February 12, 1972, for the construction of a kitchen addition to Prater Creek Elementary School at Dana, Floyd County, Kentucky.

Immediately following the scheduled closing time for reception of bids, all proposals which have been submitted in accordance with the Contract Documents will be publicly opened and read.

Plans, specifications and contract documents may be examined at the following places:

1. Floyd County Board of Education, Prestonsburg, Kentucky.

2. Office of George L. Shannon, Architect and Engineer, Fitzpatrick Building, Prestonsburg, Kentucky.

Plans and specifications may be obtained from George L. Shannon, Architect and Engineer, South Lake Drive, Prestonsburg, Kentucky, in accordance with the following deposit and charge schedule.

General Contractors, Mechanical and **Electrical Sub-Contractors:**

A deposit check of twenty-five (\$25.00) dollars for each set of plans and specifications. This check is refundable upon the return of plans and specifications within ten (10) days after bids are opened. Miscellaneous Sub-Contractors, Material Suppliers, and Manufacturers Dealers:

A deposit check in the amount of fifteen (\$15.00) dollars. This check is refundable upon return of plans and specifications, and a second check in the amount of ten (\$10.00) dollars and this service charge will not be refunded. All bids must be accompanied by a bid bond or certified check, payable to the Floyd County Board of Education, in an amount equal to 5 per cent of the bid. No bidder may withdraw his bid for a period of forty-five (45) days from the date set for opening of the bids. Bids received after the scheduled opening time will be returned unopened to the bidder. The Floyd County Board of Education reserves the right to reject any and-or all bids, or to waive any informalities.

Students from 11 States Visit ALC, Tour E. Kentucky

Pippa Passes, Ky. — The traffic up and in Whitesburg have arranged the activities down Caney Creek has been heavy the last 10 days, but Alice Lloyd College here is not about to install red lights and crosswalks. Capt. Allen was specially selected for the Although residents can still traverse the 14-week professional officer course in one blacktopped road easily enough, number of strange faces last week. On He is assigned to Malmstrom AFB, campus were visiting college students from several tours in Eastern Kentucky.

> A cross-cultural educational experience brought four Ohio Dominican College students to the Alice Lloyd College campus. Visiting Appalachian people and places were Susan Brennan, Elaine Hickey, Jane Faldetta and Francis McGee. Rev. Matthew Rzeczkowski, O. P., led the group on Lloyd College, its programs, and purposes its tour.

At Alice Lloyd, the group questioned faculty, students and staff about the problems and pluses of life in the area and how the college participates in educational and social development.

Theological schools, headed by Dr. Newton Fowler, arrived on the Alice Lloyd College campus Friday to spend approximately a week learning what Appalachian churches and religious groups believe and what they are doing in the communities. The four team members are from the Lexington Theological Seminary, although the conference includes St. Meintad Seminary, Indiana, Augusburg Seminary, Minnesota, Presbyterian Seminary and Southern Baptist Seminary in Louisville. Using ALC as a base, the team will be visiting area churches, speaking with ministers, and observing social action.

They will also be involved in religious oriented programs on campus. Thus far, the group's studies in religion and sociology have taken them to North Carolina, Knoxville, and Focis at Big Stone Gap. After their stay at Alice Lloyd, they plan to go on to Cora at Jackson, Ky.

Don Anderson, sociology professor from Mars Hill College in North Carolina, and 12 of his students were on campus from Monday to Friday. Teaching a course in Social Change in Appalachia, Mr. Anderson feels that his students should observe and study Appalachia first-hand. He became familiar with ALC through the EPDA conference held here last summer and realized that the location and facilities of the college would be excellent for such a study. George Newfield and Doug Grant from the Mennonite Church Council (MCC)

of the group. They plan to study the different aspects of welfare rights, strip mining, and political systems in Appalachia, centering primarily in Harlan and Perry counties.

Students from St. Benedict College and St. John's University in Minnesota and Dominican College, Detroit, Mich., visited orientation to Appalachia. They are working this month at the St. Vincent Mission located at David, near Prestonsburg.

The group indicated that they desired to learn about Appalachia and its people. They felt that a knowledge about Alice would be useful to them.

From Oberlin College in Ohio, seven students have come to ALC on an exchange program together with three Wilmington College students. They are taking courses to familiarize them with Appalachia during Members of the Team-A Conference of the one-month January term while 10 ALC students are on the Oberlin campus.

When asked why they chose to study at ALC, the Ohio exchange students said they enjoyed the change of pace, liked meeting new people and were interested in Appalachia.

Although a few are finding the schedule of classes, field trips and other events of the one-month program a little hectic, they say that they are learning a great deal. Hiking and exploring trips around the mountains, as well as Appalachian music which some of them are learning in the nationally acclaimed Voices of Appalachia, have also been enjoyable experiences for the visitors.

> **KIDNEY DANGER SIGNALS** Getting up nights, burning, frequent or scanty flow, leg pains, BACK-ACHE may warn of functional kidney disorders—"Danger Ahead." Senior Counselor

Carl Douglas Hall, a graduate of Martin high school and Morehead State University, has been appointed senior rehabilitation counselor with the Kentucky Bureau of Rehabilitation Services here. Mr. Hall will serve both Floyd and Knott counties.

Breathitt County Grocer Disgualified

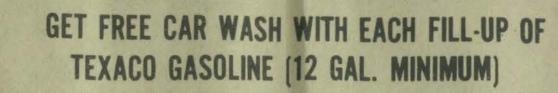

ATLANTA, Ga. - Harvey Grocery, of Hardshell, Ky., has been disqualified from the federal food stamp program for one year for violations, the U.S. Department of Agriculture's Food and Nutrition Service reports.

Owned by Elies Harvey, the grocery store was charged with redeeming USDA food coupons accepted in violation of food stamp regulations. The one-year disqualification started December 30, 1971. The owner may apply for reinstatement of the store in the food stamp program to take effect at or after the end of the disqualification period. But until the store is reinstated, the grocery may not accept food coupons.

The Hungarian partridge has, in a few short years, become highly Americanized. He is a very resourceful, hardy and exciting game bird, an aristocrat without peer, choosy about where he resides, associating well with agriculture, and changing habitat so long as he finds grass, grain and plenty of his beloved wide-open spaces. - SPORTS AFIELD

A bill to revamp the Council on Public Higher Education was introduced in the Senate by Democrats William Logan, Madisonville, Gibson Downing, Lexington, Wilson Palmer, Cynthiana, and Thomas Harris, Worthville. It would strengthen the council's authority, increase its funds and provide for changing its membership. The bill is supported by Goy. Ford.

Rep. Walter S. Reichert, R-Louisville, introduced a bill to protect endangered species threatened with extinction because their hides or feathers are valuable in the manufacture of hats, coats and shoes. It would prohibit importation, transportation or sale in Kentucky of such species.

Reseating Chairs Topic Of Class at Archer Park

Reseating chairs will be the subject of a series of meetings at the Woman's Club Arts and Crafts Building at Archer Park beginning Tuesday, February 1, at 7:30 p.m.

Mrs. George Chidester. who conducted a similar course last year, will again act as instructor and will show how to replace seats according to style of chair.

Cane, reed, fiber, rush and splints are common types of seating materials and most of them may be woven in various patterns.

The meetings will continue weekly on Tuesday as long as necessary for instruction and assistance.

Anyone interested may attend. The fee is 50c for club members and \$1.00 for nonmembers. Each person is expected to pay for his or her own materials.

By NEVYLE SHACKELFORD (UK College of Agriculture)

Lexington, Ky.-Limestone-that product of ancient seas-is almost as plentiful as dirt in many parts of the state.

WEEKSBURY SERGEANT WINNER **OF BRONZE STAR IN VIETNAM**

SAIGON, VIETNAM - Staff Sgt. Earl Little, son of Mr. and Mrs. Ballard Little, Weeksbury, Ky., received the Bronze Star medal during recent ceremonies near Saigon.

He was presented the medal for distinguishing himself through meritorious service in connection with military operations against hostile forces in Vietnam. The medal, adopted in 1944, recognizes outstanding achievement. Sgt. Little received the award while assigned as a special service specialist with U.S. Army Headquarters area command in Vietnam. Presenting the award and congratulating him was Brigadier General Willard Scott. Little entered the Army in 1962 and arrived in Vietnam last January. He is a 1961 graduate of Wheelwright high school.

TAXES

Kentucky towns may increase general tax rates to offset revenue lost under the new Homestead Amendment, according to an opinion released by the attorney general's office. According to the opinion higher rates may be levied as property is dropped from tax rolls under the amendment.

Strikes at Mining **On Steep Slopes**

PELPHREY'S NOW HAS

THE NEW

DIET PEPSI

Two bills aimed at stricter control of strip mining have been introduced in the Kentucky Senate.

Sen. Lacey Smith (D-Louisville), filed a bill that would ban all stripping on slopes of more than 20 degrees. Passage of the bill would mean virtual elimination of strip mining in the steep mountains of Eastern Kentucky.

Present state regulations permit stripping on slopes as great as 27 degrees and auger mining on slopes up to 33 degrees. The proposed 20-degree slope limit would apply to both stripping and augering.

Sen. Michael Moloney (D-Lexington), introduced a bill that would ban stripping where it "may lower the water quality by chemical or sediment pollution of streams or lakes, or interfere with the aesthetic values or public use of a state, national or interstate park."

It places the burden of proof on the operator who must validate his case prior to the issuance of a permit.

Tast Will and Testament

Taulbee McGuire

I, Taulbee McGuire, of Dwale, County of Floyd and State of Kentucky. being more than 21 years of age, and of sound mind and memory, do make, publish and declare this to be my Last Will and Testament, hereby revoking all Wills and Codicils thereto by me heretofore made.

ITEM I: I order and direct that my Executor hereinafter named pay all my just debts and funeral expenses out of my estate as soon as practicable after the time of my death.

ITEM II: All the property, real and personal of every kind and description. wheresoever situate, which I own or have the right to dispose of at the time of my death, I give, bequeath and devise to the Independent Order of Odd Fellows for the use and benefit of the said organization's Orphans' Home, located in Lexington, Kentucky.

ITEM III: I make, nominate and appoint Harris S. Howard, of Prestonsburg, Kentucky, to be the Executor of this my Last Will and Testament.

WITNESS this my Last Will and Testament made at Prestonsburg, Kentucky, this June 10, 1971.

TAULBEE McGUIRE

We, the undersigned, Harris S. Howard and Regeina Ranier, both of Prestonsburg, Kentucky, do certify that the foregoing Will and Testament of Taulbee McGuire was acknowledged and executed before us by Taulbee McGuire in our presence, and we do further certify that each of the undersigned witnessed the execution of said Will in the presence of Taulbee McGuire and while in the presence of each other.

HARRIS S. HOWARD - Residing at Prestonsburg, Ky.

REGEINA RANIER, Residing at Prestonsburg, Ky.

The Floyd County Times

Mrs. Dennis Lumpkins and Chris, of Norfolk, Va., are spending an extended visit with her parents, Mr. and Mrs. Chester Porter, of Allen, while her husband is on sea duty with the U.S. Navy.

Mr. and Mrs. Dennis Lyons, of Paintsville, announce the birth of their first child, a daughter, Angela Lea, on Jan. 19 at the Methodist hospital, Pikeville. Mrs. Lyons is the former Sharon Sturgill, daughter of Bill Sturgill and the late Carma Manuel Sturgill.

Mr. and Mrs. Ernest Robinson and children, of Piqua, Ohio were here last week-end to attend the funeral of his mother, Mrs. Martha Robinson.

Coast Guard Sets New Requirements

The U.S. Coast Guard has announced the first regulation to be implemented as a result of the Federal Boat Safety Act of 1971.

The act was designed to reduce, considerably, the number of recreational boating accidents, improve boating safety, and create a more enjoyable atmosphere for boaters. The first step toward these ends was the creation of a committee to set new Coast Guard standards and regulations involving the operation and manufacture of boats and associated equipment.

The new regulation will require the carrying of Coast Guard approved personal floatation devices on all recreational craft. Under previous authority of the Motorboat Act of 1940, only boats propelled by machinery were required to carry these devices.

These new regulations apply to canoes, rowboats, sailboats, etc. Exceptions for surfboards and water-toys are expected. These regulations should be effective no later than April 1.

Information concerning boating safety may be procured from BMC Russell Wren, USCG Boating Safety Detachment, 3623 Oakridge Highway, Knoxville, Tennessee.

Mundane, unimpressive, and comparatively inexpensive, it possesses more magic than a necromancer's wand.

Through its use in processed form, miraculous things have, and can be, accomplished. In the form of enduring gravel, it is a powerful adjunct to road construction and, over the years, has meant the difference between hundreds of outlying communities remaining stuck in the mud and rolling on to progress.

Through its qualities of legerdemain, it has brought better homes, better farms, better schools, and, in general, a better way of life to all that it has touched.

Among the chief beneficiaries of this legacy from prehistoric times are the farmers of the state. As a result of leaching and crop removal of the basic elements such as calcium, magnesium, and potassium, most soils of Kentucky are acid. This is where the almost transcendental influences of limestone become vitally important.

According to soil scientists and agronomists, agricultural limestone neutralizes soil acidity and supplies the needed calcium and magnesium. In addition, it speeds the decay of organic matter and releases nutrient elements through increased microbial activity. It increases fixation of nitrogen by soil and legume nodule organisms and lowers the concentration of toxic substances such as soluble iron, manganese, and aluminum in the soil and all these processes are necessary for higher crop yields.

The soil scientists warn, however, that despite all its wonderful qualities as a soil conditioner and crop benefactor, excessive use of limestone should be avoided. It can be best applied only after soil tests to determine what they call the "pH factor" which is a measure of the acidity of the soil. With this factor being known, limestone can then be applied in the right amount for the best results.

Limestone has been given credit, not only for making Kentuckians more progressive, but also for making their daughters the prettiest, their horses the swiftest, and their bourbon and tobaccor the smoothest. "It's all right there in the phosphate limestone," says one writer, "that turns its

Kentucky's vast limestone deposits represent one of its most valuable natural resources. To a major degree, these deposits have been responsible for its excellent road system; its superb, worldfamous race horses; its fine crops; and,

The reality of man's forgetfulness is proved by the fact that some names of Floyd county boys who died in World War I are not available now from the War Department, which should be the best source of this information.

> The names of those who died in World War II already are becoming more difficult to learn.

A few years longer, and the names of many will be lost to all except a few of their relatives.

Indeed, we will have forgotten, unless the names of these honored dead are preserved in permanent form.

The Floyd County War Memorial at Archer Park, Prestonsburg, will list in bronze (guaranteed to last 200 years) the names of these we would not forget.

Help make this War Memorial plaque possible. Send your tax-deductible contributions today to: **Floyd County War Memorial Fund** c/o Archer Park Prestonsburg, Ky. (This space given by The Floyd County Times as a public service.)

Leo Carter Injured In Lexington Crash

Leo Carter, of Lexington, formerly of Prestonsburg, is in serious condition at Good Samaritan Hospital, Lexington, as a result of injuries incurred Friday when the State Highway Department vehicle in which he was riding was struck by a car. Mr. Carter underwent surgery Friday and remains in intensive care. It was reported here that his pelvis was broken in six places and that he also suffered fractured ribs and possible internal injuries.

FIRST CHILD BORN

Mr. and Mrs. Johnny Edward Webb, o Prestonsburg, announce the birth of their first child, a son, on Friday, December 10, at the Cabell-Huntington hospital, Huntington, W. Va. He has been named Johnny Edward, Jr. Mrs. Webb is the former Dinah Sparks, daughter of Mrs. Jettie Sparks Shreve, of Prestonsburg, and the late Ken Sparks.

Allen, Pyramid; Emma Jane Allen, participation and leadership in academic Langley; George Preston Archer, Pres- and extracurricular activities, plus their society.

Candidates will be voted on by all members of the Prestonsburg Community College faculty, with the results to be made public in March.

Tidbits of Kentucky Folklore

SLATES

Medical men tell us that there are more disease germs and more diseases now than formerly. We can believe this after remembering the old slate, which used to be a reputable and useful part of every "scholar's" outfit. Not to have a slate was to be in the same style as one now is when he has a monogram painted on his car door or when he has an authentic coat of arms for the family (bought from some company in Washington for a dollar) engraved on all his stationery. The single slate gave distinction (cum laude); the double slate gave more than double distinction (magna cum laude). When sponges wore out or got lost, coat sleeves; hankerchiefs, or just plain grubby hands did quite as well as a sponge in erasing. I never heard of germs in those days; I do not suppose there were

No more useful thing than a slate ever existed. What would arithmetic have been without one? Just think of John Jones's Estate figured out on a tablet! I do remember that one boy in our school worked out this problem on a shingle, a fair substitute in this instance. Every time I hear of a man's dying and leaving his estate to his three sons and two daughters (or was it the other way?), I am reminded of John Jones, whoever he was. He must have been a close friend of Ray himself to have evolved such a complicated will. (I refer, of course, to Third-Part- Arithmetic Ray). Recent additions and editions of this old standby text are called Practical or some such belittling title. And dear old John Jones is now Gordon Apgar. I attribute this degeneracy to the passing of the slate. "All work and no play," my teachers used to quote, and you know the rest. Thus it was with the slate. It had many another use besides its invaluable assistance in arithmetic, and writing lessons, and spelling. First, there were notes, easily erased if the teacher got too inquisitive. Art such as the old slate often held is never seen now on land or sea. "Teacher" often figured in these art exhibitions, rarely to her own credit. Slates were, also, a powerful means of defense, particularly when some larger boy failed to observe that age-old maxim: "Jump on somebody your size." Along about the time that teachers' institutes began discussing germs and diseases, it became fashionable to lay all sorts of crimes at the door of the slate. This occurred also about the time that young ladies quit boasting about their being sixteen or eighteen inches in the waist. So loud was the outcry that slates ceased to be in a single decade, and today they are as unknown as side-saddles or ox-wagons. I wonder what in the modern school takes the place of the squeaking slate pencil, of the pictures drawn on the slate, of the notes we used to write, of the pictures drawn on the slate, of the notes we used to write, and especially of John Jones's Estate. Some cynic has said that if George Washington were to return to earth, he would recognize alone of the institutions of his time the old school house. In shoe-box form and impossible location, yes; but poor George would sadly miss the old slate and its pregerm uses.

Task Force Study For Kindergarten Talked by Ginger

Frankfort, Ky .- State Superintendent of Public Instruction Lyman Ginger is planning to ask the General Assembly to fund a task force study which will determine how to initiate a statewide kindergarten program.

Ginger outlined this and other proposals he plans to submit to the 1972 legislature in a taped interview for Kentucky radio stations.

By the second half of the biennium, Ginger said, he hopes to establish 100 "pilot" kindergarten units throughout the state and then move full swing into the kindergarten program in the following biennium.

He said he also hopes to receive funds to expand the state's vocational education and special education programs. He said these two programs will be "stepped up considerably" in the coming year.

In another area, Ginger said he believes local school boards should "cooperate more with the community and let them enter into the planning."

He mentioned libraries and recreational facilities as programs the school systems could share with the citizens of their community when school is not in session.

Remap Proposals Differ As To Sixth District

Three congressional reapportionment bills have been introduced in the House of Representatives, differing primarily on how to handle the Sixth district.

The first bill, introduced by House Majority Leader John Swinford, and supported by Governor Ford, would shift the Sixth district northward to include part of Campbell, Kenton and Pendleton counties now in the Fourth. In addition, Madison and Garrard counties would be moved from the Sixth to the Fifth.

Another version, introduced by Rep. Arthur L. Schmidt (R-Cold Spring), would try to achieve mathematical equality by shifting parts of Jefferson county into the Sixth district and moving Boyle, Garrard and parts of Madison counties from the Sixth to the Fifth.

A third bill, sponsored by Rep. Dwight Wells (D-Richmond), would seek to retain the Blue Grass character of the Sixth district. Wells' bill would shift only Garrard from the Sixth to the Fifth and Bracken, Mason and Robertson from the Sixth to the Seventh. Instead of shifting the Sixth district northward, Wells' proposal would extend the Seventh District into Northern Kentucky.

Bill Would Create Agency And Board To Curb Pollution

Adkins Succumbs **En Route Here** After Shooting

Charles Lee Adkins, 44, of Bloomington, became Magoffin county's first slaying victim in 13 months when he died Sunday, en route to the Prestonsburg General Hospital, of wounds said to have been inflicted by his wife, Suedell.

Mrs. Adkins is being held in the Magoffin county jail without bond, pending arraignment Wednesday. Adkins was shot twice in the abdomen with bullets from a .380 automatic pistol. The shooting took place at the grocery store operated by the couple.

Three years ago, Mrs. Adkins was accused of shooting her husband after he had reportedly sold the family cow to settle a gambling debt.

Survivors, in addition to his wife, include his parents, Maggard and Phoebe Reed Adkins, of Middletown, O.; three sons and three daughters, five brothers and four sisters.

The body of Adkins was returned from the hospital here to the Caudill Funeral Home at Salyersville.

OBSERVES BIRTHDAY

Wayland.-William Edward Gibson observed his 36th birthday, Dec. 27. He is the grandson of Mrs. Margaret Gibson.

Rep. Joe Clarke (D-Danville) has introduced a bill that would bring most of the state's environmental activities under the control of one agency.

Currently, environmental matters are the responsibility of four separate state departments and commissions. Some significant environmental activities were excluded from the proposed agency, including those related to strip mining. Clarke said a "super agency" covering all environmental matters would be too cumbersome.

"We excluded strip mining because there is more involved in strip mining than just environmental considerations," he said. "The present Division of Strip Mining and Reclamation is in charge of regulating that industry, not just solving its environmental aspects.'

If enacted, the bill would abolish the current air and water pollution control commissions, transfering their authority to the new department.

It also would create an Environmental Protection Board composed of five members appointed by the governor, four by the lieutenant governor and four by the the Speaker of the House. No member would have a major interest in any firm regulated by the board.

ON BEREA DEAN'S LIST

Paula Meade Fields, a junior nursing major at Berea College, has been named to the Dean's List for the fall semester with a 4.0 standing. She is the daughter of Mr. and Mrs. Thomas Meade, of Hi Hat, and a 1968 graduate of Wheelwright high school.

House Upholds Howell Election

The Kentucky House last week upheld the election of Jeff Howell, of Jackson, formerly of this county, as state representative from the 89th district.

The issue of Howell's election as representative for Breathitt, Estill, Lee and Owsley counties was raised by the defeated Republican candidate, Warren Eugene Spicer, of Beattyville. He asked that the seat be declared vacant because of alleged irregularities in several precincts in Breathitt county, Howell's home county. Rep. Lloyd Clapp. (D-Wingo), chairman of a subcommittee chosen by lot to hear Spicer's claim, told the House that the panel decided there could have been some election irregularities in at least five precincts. But even if the total vote in those precincts was thrown out, Clapp said, Howell still would have won by a few hundred votes. The subcommittee's recommendations to disallow Spicer's claim and to continue to seat Howell as the representative from the district was approved by voice vote, without dissent.

How long since you were in school?

For those of us who are old enough to have children in school, it's a little difficult to realize how demanding and complex a teacher's job has become.

Things have changed since we were under the teacher's eye. Subjects are tougher, wider ranging. Today's student is getting into the ideas behind the facts at an age when we merely were learning facts.

Now the classroom is a place for education through thought instead of education by rote. And the teachers who meet the challenge day after difficult day are rather special people.

Dedicated? The word probably embarrasses them. Even so, it is dedication to duty that's most common to all the men and women who become — and remain — modern teachers.

How else can you describe whatever it is that makes a good teacher keep working, keep studying ahead, after the last bell of the day, the last bell of the semester, has rung?

This they do. And it's enough to know, with or without fancy words that pinpoint their motives. Enough to earn our respect, our appreciation and all the help we can give them.
