

Strike Here Is Regarded A Certainty Negotiations Fail, Gas Firm Workers Schedule Stoppage

With the strike voted by union employees of the Kentucky West Virginia Gas Company considered a virtual certainty at 12:01 this (Wednesday) morning, the company set into motion the machinery to effect an orderly shutdown of its operations.

Company drilling rigs halted work at 8 a.m. Tuesday to permit drilling crews to load tools and other equipment for transportation to storage areas.

All compressor stations, except the Dwale station, were shut down at midnight Tuesday. The Dwale station, it was pointed out, must be operated in order to maintain gas service to Prestonsburg, Paintsville and other communities.

The strike voted by members of the Oil, Chemical and Atomic Workers Local 3510 will affect approximately 300 employees. Charlie Kendrick, president of the local, was quoted as saying reasons behind the workers' action "have to do with company violations of the contract, such as cutting off two union men, using non-union men to fill these vacancies, and the failure of the company to effectively reconcile these violations with the union."

After the failure of a meeting Saturday at Paintsville of company representatives with the union committee and a

Owens Bid, Low On Mt. Parkway Water Project

If the low bid submitted on construction of the Parkway Water Association's system on Middle Creek is accepted, extension of water service to 65 homes and businesses along the Mountain Parkway west of the Clark school is expected by next spring.

Hershel Owens, Prestonsburg contractor, offered the low bid of \$65,334 on construction of approximately 20,000 feet of water line and "related appurtenances" along both sides of the highway. Five other bids were opened here Friday.

The new line will connect with the Prestonsburg water system at the Clark school, which is supplied water from the system here, and the water supply to the new area will be bought at a wholesale rate from Prestonsburg's municipal system.

Kenco Associates, of Ashland, one of the engineering groups for the system, will review all bids and make recommendations to the water company's board of directors this week, it was said. If the Owens bid is accepted, work will probably begin by December 1. Completion is scheduled within 120 working days.

The water project is being financed through a loan to the water association by the Farmers Home Administration, U. S. Department of Agriculture.

Price Plant Required To Watch Pollution

Island Creek Coal Company's preparation plant at Price was one of three coal operations in Southeastern Kentucky which will be required to maintain continuous monitoring of stream pollution, it was confirmed by federal Environmental Protection Agency (EPA) officials last week.

Other area companies which must maintain the special monitoring systems are the Blue Diamond Coal Company's Perry county operation and International Harvester's Harlan county mine. EPA apparently applied the special requirements after a public hearing at Prestonsburg Community College here and at Frankfort last month revealed numerous alleged violations of stream pollution laws by the three companies.

Testimony submitted to the EPA's hearing record revealed the operation at Price had been in violation of stream pollution laws 55 times over a two-year period in which 131 inspections by state authorities were conducted.

The other two companies cited by EPA have tallied similar offense records and of 100 permits to Kentucky coal operators last week allowing limited stream pollution, only the three listed companies came under the stringent

This Town . . . That World

Now it's this slow time that's killing me. If we could just have more of it, without tampering with the clock!

Always practise what you preach? Then try preaching this, the next cold you have: "A cold is not to be sneezed at."

THIS CRITIC IS DISGUSTED
This younger generation and I are not in perfect rapport, I must admit.

I am not exactly partial to long hair, mustachios, goatees and the like, and these Johnny-Come-Latelys are equally averse to no hair at all. When I resent being described as a "Square," they help matters not at all by admitting that maybe I am "round."

And now my granddaughter and I are at odds over music. A few Sundays back we turned the car radio on, and Wayne King's orchestra was playing. I listened, enthralled by "the sweetest music this side of heaven," and when they had finished with "Moonlight and Roses," "Drifting and Dreaming," or whatever, I pronounced that "great music, music fit to hear."

The granddaughter's response was emphatic. "Don't like it." I mumbled something about the ears they were putting on youngsters, these days, then began questioning her about what she did like.

"Rock and Roll?"
"No."
"Soul?"
"No."

"Then what do you like?"
And she gave answer: "Country."

Whereupon I delivered myself of a retort to which other great music critics have resorted in the presence of the unappreciative.

"Sassafras!" I said.

Interest in Election Thought Highest Here

Although most county offices are at stake in next Tuesday's election, perhaps the keenest interest in the entire election campaign centers in Prestonsburg where a two-man mayor's race and the election of eight city councilmen from a list of 17 candidates have stirred the voters.

The ballot in precincts where no city election is being held will present this lineup:

For Representative, 95th district—Carol A. Sparks, Republican, vs. W. J. (Bill) Reynolds, Democratic incumbent; for Representative, 94th district, which involves Antioch, Tickey, Toler, Mouth Mud, Branham's Creek and Head of Mud precincts in this county—Larry Neal Young, Republican, vs. Lee Roberts, Democrat; County Judge—Russell Clark, Republican, vs. Henry Stumbo, Democratic incumbent; Sheriff—Hollie Barnett, Republican, vs. Joe W. Lewis, Democrat.

Six Democrats nominated for county office are unopposed. They are: James R. Allen, for County Attorney; C. "Ollie" Robinson, County Court Clerk; Lawrence Hale, Jailor; Lovel Hall, Tax Commissioner; James J. Carter, Coroner; Paul Dean Wells, County Surveyor.

The ballot also contains two constitutional amendments for voter consideration. Amendment No. 1, if adopted, would abolish the elective office of

Woods Is Jailed 3 Times in Week On Driver Count

Getting in jail on traffic charges is getting to be a habit with 19-year-old Clifford Woods, of Cow Creek.

He was arrested Oct. 21 by Prestonsburg Policeman Darrell J. Conley, who booked him on charges of drunk driving and driving on a revoked permit, and was fined \$152. Three days later, he was again booked by the same officer and on the same charges except that it was third-offense drunk driving. This time, his fine was \$200. Three days later, Oct. 27, he was back in jail, charged with third offense on the same counts by Policeman Conley. The third case had not come to trial as of Monday afternoon.

Crit Butler was jailed last Tuesday by Detective Sam Hale on a warrant accusing him of cutting and wounding with intent to kill Randell Blackburn at Drift. Blackburn was cut near his eye, on his back and wrist, but not seriously, it was said. A warrant also was issued for the arrest of Randall Owens for allegedly having a part in the cutting of Blackburn.

Charles Ray Slone was jailed Saturday by State Police Detective Danny Stumbo and Trooper Leeman Bevins on a charge of violating the Controlled Substances Act. Slone was accused by a State Police informant of selling him a one-ounce package of marijuana for \$20, and officers later searched the trailer on the Coolwater Branch, near Betsy Layne, from which the drug reportedly was sold.

Others booked at the county jail within the week, charges against each and

Commission Sets Polling Places

In preparation for next Tuesday's election the County Election Commission met Saturday to make election officer changes, if necessary, and designate the voting places for each precinct.

Jim Hammond, chairman of the board, said no change was made in the list of poll officials and that the voting-places will be the same Tuesday as those used in the primary, with the exception of four.

The voting-place changes follow: Antioch No. 28, in the Dee Martin building; Head of Mud No. 41, in the Willie Tackett store building; Arkansas No. 43, in the new voting house at the mouth of Boyd Branch; Weeksbury, No. 38, in the building on the Andrew Adkins property, below the mouth of Caleb Fork.

Inspection of voting machines was made Tuesday morning. All election officers have been requested by County Clerk Robinson to attend the meeting Saturday morning for instructions on the conduct of the election.

Blaze Damages Home, Contents

One of Prestonsburg's older residences was extensively damaged Friday morning when fire broke out in a second story room of the home of Mrs. Sally Gatewood Clark on South Arnold Avenue.

Firemen were alerted to the blaze in the two-story, white frame house at about 9:15 a.m. and were able to restrict the fire to the second story. It was necessary for firemen to break out most of the upstairs windows and cut holes in the roof. The home was built by Mrs. Clark's grandparents in 1895.

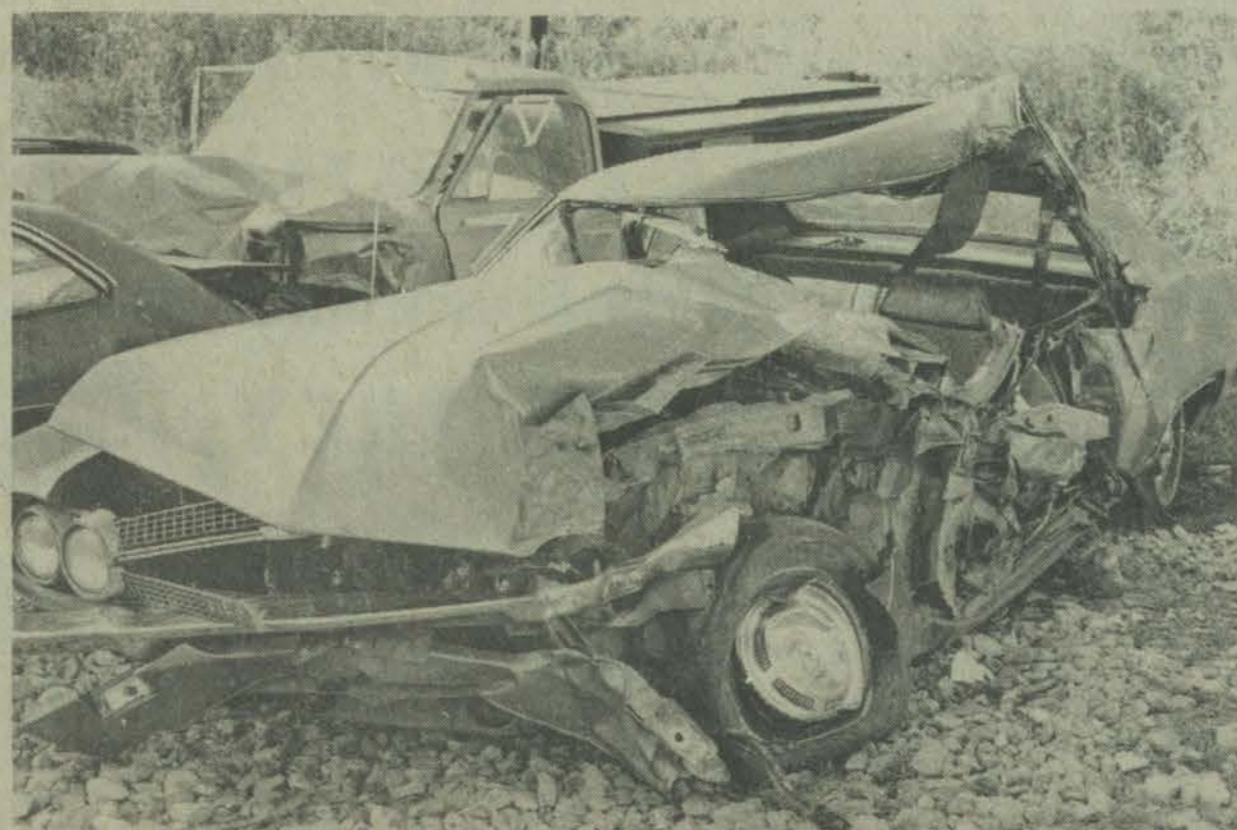

The upstairs bedroom in which the fire began was gutted and water and smoke damage to much of the rest of the second story destroyed a number of valuable antiques and family heirlooms. As of Monday no damage estimate was available.

Mrs. Clark's grandson, Dorsey Ferguson, who was asleep in an upstairs bedroom opposite the one in which the blaze originated, escaped from a window over a front porch roof.

A housekeeper, who was downstairs, was the only other person in the house and was apparently unaware of the fire until Mrs. Clark received word of it downtown and returned home.

Project's Cost May Be \$600,000, Estimate Heard

Speaking at the Democratic rally here Saturday night, Adj. Gen. Richard Frymire told of plans for the construction in the Prestonsburg vicinity of a National Guard armory which will cost between \$400,000 and \$600,000.

The armory is planned, he said, as the permanent base for a mechanized infantry unit and would require a site containing approximately seven acres for the structure itself, vehicular equipment, a helicopter pad and other paraphernalia. It would be the only permanent armory in the region except Ashland's.

Announcing the plans on behalf of Governor Ford, Frymire indicated the only "ifs" remaining are the ability of the community and local governmental units to supply a site and the public interest needed to enlist as many as 180 men in the reserve unit.

The adjutant general and Congressman Carl D. Perkins were speakers at the political rally.

State Representative W. J. Reynolds said the announcement made official plans mentioned by Governor Ford and Adj. Gen. Frymire during their recent visit here.

Frymire met with Robert V. May, Jr., president of the Prestonsburg Area Chamber of Commerce, County Judge Henry Stumbo and other officials Saturday. Mr. May was asked to make a survey of area men who have been discharged from the armed services within the last three or four years and to determine their interest in a reserve unit. The unit, if organized, would meet one week-end a month and would spend two weeks a year in summer camp.

Frymire said the proposed armory could, in addition to its prime purpose, serve as a community center. He added that its location in this vicinity could mean more than an industrial plant, in view of its value in time of disaster or other emergency.

He recalled that during the Floyd county school bus disaster the National Guard was on duty here throughout the long search for bodies of the victims.

Blue River Man Is Wreck Victim, Two Are Injured

A Blue River man was dead on arrival at Highlands Regional Medical Center Thursday as the result of a head-on collision, and earlier the same day another auto mishap resulted in injury to two Beaver Creek residents.

Thirty-two-year-old Roy Gibson was killed at about 9:30 p.m. when the car he was driving apparently swerved into the oncoming lane of traffic near the Bess Arnett curve on US 23 at Lancer. Gibson, who was travelling north toward Prestonsburg, collided with a southbound pickup truck driven by James Ray Wallen, of Allen. Wallen suffered minor injuries. The two vehicles were occupied only by their drivers.

Early Thursday morning another two-car accident on the Water Gap road near B & D Ford Sales injured the occupants of the autos. Danny Yates, of Martin, driver of the car, sustained a compound fracture of one leg and broken ribs, and Yates' passenger, Benjey Stewart, of Minnie, suffered numerous lacerations. The accident was said to have occurred when one of the cars involved attempted to pass another vehicle.

Mr. Gibson was a son of Everett Gibson and Mabel Gibson McIntosh and was born at Risner, June 8, 1941. He was a welder and former bus driver for the Floyd county school system.

His wife, Betty Jean Prater Gibson, survives. Other survivors include a daughter, Tammy Lynn Gibson, at home; two brothers, Lon Clay and John Everett Gibson, both of Prestonsburg, and two sisters, Mrs. Stella Music, and Mrs. Loretta Allen, both of Prestonsburg.

Funeral rites were conducted Sunday at 2 p.m. at the Goodloe Church with the Revs. Moses Kitchen and Oscar Prater, the officiating ministers. Burial was made in the Johnson cemetery at Blue River under the direction of Floyd Funeral Home.

Pallbearers were Gary Ousley, Rick Elkins, Ricky Hall, Danny Kerr, Gary Prater, and Joe Watson.

Perkins Backs Annual Session

Morehead, Ky.—"Alumni sessions of the Kentucky General Assembly will make the legislature more responsive to the needs of education in Kentucky," U. S. Rep. Carl D. Perkins said Friday at the 50th annual convention of the Eastern Kentucky Education Association (EKEA).

The Hindman Democrat, who heads the House Committee on Education and Labor, strongly endorsed the proposed state constitutional amendment in a speech to more than 800 persons attending the EKEA's main session at Morehead State University.

Perkins, who served in the Kentucky legislature before being elected to Congress in 1948, described the present constitutional limitation of a legislative session every two years as "a deterrent to educational progress."

Perkins encouraged the educators to work for passage of the annual sessions amendment in the November election.

The Democratic party in Kentucky supports the amendment, but Ex-Governor Chandler, the AFL-CIO, the Kentucky Chamber of Commerce and Associated Industries oppose it.

Support of another amendment was sought by Dr. Lyman Ginger, state superintendent of public instruction. He urged the EKEA membership "to take the state superintendent out of partisan politics" by voting for the amendment which will make the superintendent's position appointive.

ALC Students To Raise Funds For Hospital That Gave Tot Hope

Pippa Passes, Ky.—Ruth Ann Moore, four-year-old daughter of an Alice Lloyd College teacher, has taught students here that leukemia, the dreaded children's disease, does not always kill.

Students also learned that continued research may one day eliminate the disease entirely. This Friday, ALC students will join other organizations in Knott county in fund raising for St. Jude Hospital, the famous cancer research hospital in Memphis to which Ruth Ann owes her life.

Two years ago doctors discovered that Ruth Ann had acute lymphatic leukemia, a disease that until very recently killed little children.

Ruth Ann went to St. Jude Hospital. With extensive treatment involving the use of new drugs, her symptoms disappeared. Ruth is not "cured." There is still no cure for leukemia. With continued use of drugs, doctors think she will be able to live a normal life.

After learning of Ruth Ann's experience with St. Jude Hospital, ALC students decided to express their concern for cancer research. They will set up a "road block" from 9 a.m. to 5 p.m. Friday on Ky. 899, the only road through the campus, to raise money for the hospital.

All Saints, All Souls Days Observances Scheduled

All Saints Day and All Souls Day will be observed tomorrow (Thursday), and Friday, Nov. 2, respectively, in the Floyd County Catholic Parish. Celebration of the Lord's Supper (Mass) on the Feast of All Saints is as follows: Our Lady of the Way Hospital Chapel, 7:15 a.m.; Saint Juliana Church in Martin, 6 p.m., and Saint Theodore Church, Prestonsburg, 7:30 p.m. The liturgy of All Saints, which commemorates all who have been saved through Jesus Christ, will be celebrated by Father John Barry, of Prestonsburg.

Masses on the Feast of All Souls will be at 5:30 p.m. at St. Juliana Church in Martin and at 7:30 p.m. at St. Theodore Church in Prestonsburg. Father William Poole, the pastor, will preach on the theme of "Death and Resurrection." All Souls Day is a day of prayer for deceased Christians, particularly members of one's own family.

The public is welcome to any of these services.

Our Move Now—Or We Move Out Later

The lack of concern about what is happening at Fishtrap Reservoir in Pike county, not to mention at Dewey Lake in Floyd, is dismaying. The thousands of private citizens who form what is popularly known as the general public have joined Kentucky officials, at home, in Frankfort and Washington, in a mental attitude that indicates they are convinced all is well, that all alarms sounded are merely the results of "pushing the panic button."

But, according to the U. S. Corps of Engineers' own estimates, the life of Fishtrap Reservoir has because of sedimentation and other damage from coal mining in its drainage basin been reduced to seven years. That means that the lake there may itself become a flood plain in 1980, or thereabouts.

But for Fishtrap Reservoir, observers here say, Prestonsburg would have experienced two or three years ago a flood of destructive proportions equal to, or greater than, the flood of 1957. So...

If Floyd county and Pike county are to remain casual observers of the developing peril, and if state and federal officials are to remain blinded to future calamity by present economic prosperity, get the boats ready, all along the Big Sandy from Fishtrap to Catlettsburg!

For most level land along the river will be in the future "flood plain." The flood of 1957 lies somewhere ahead, unless the people insist that those who have the authority and the power to do something take action—now.

Incidentally, when a Washington hearing was held last Thursday to establish by testimony the Fishtrap situation and the plight of other reservoirs in Eastern Kentucky, the only representation of the area known to this newspaper came from representatives of the Appalachian Research and Defense Fund.

The next move is up to all of us, or many of us will be moving out ahead of another flood. The cost of repairing the Fishtrap damage is estimated at \$1,520,000. That is a price not too high to pay, in view of what is at stake—if it is not to be a recurring expense as a result of continued neglect of official duty.

Once You Reach Allen...

Travel time between Prestonsburg and Allen over the new four-lane US 23 has been cut to six to eight minutes, but, once the motorist reaches Allen, he or she may be as long getting through perhaps the most dangerous intersection in the area.

And, it is reported, occupants of autos and trucks which have figured in 17 wrecks there, did not get through. There has been no loss of life yet, but the toll in human suffering, hospital expenses and property damage has been heavy.

Warning lights have been erected at the intersection where KY 80, from one direction, and old US 23 from the other converge with the new and heavily travelled, high-speed road. But these warning signals fail. There is a great lack of knowledge about who moves first. Traffic piles up on KY 80 while an opportunity is sought by the lead car to dart onto US 23. Traffic on old US 23 does likewise, and the vehicle at the head of that queue also watches for a chance to move onto the main highway. The result is confusion and often a wreck.

If the U.S. Bureau of Roads and the Kentucky Department of Highways would consent to the installation of "Stop" and "Go" lights for this intersection, they might put into practise the highway safety they and others preach.

The Flowers Come Late

Sets the Record Straight

Editor, The Times:

Editor, The Times:

We've lost a great man at San Juan. His name is Pablo Casals. He was forced to flee from his country because of a dictator, Franco of Spain. Pablo Casals stood for freedom and justice for all men, and he gladdened the hearts of millions. He was the greatest musician of all time. It is said flowers covered the ground around his grave, but these should have been given him long ago in his own land.

Give me my flowers now, while I can lift the latch on my neighbor's gate and spend an evening on his lawn in the cool summer breeze, or walk through pathless woods into deep hollows where pure waters plunge from the crest of mossy cliffs and flow swiftly over rocks below. Give me my flowers now, not when I am brought to the brink of an earthy vault, where dark shadows gather; where men and women, black and white, and those of a thousand generations will come to sleep beside me. While the sun continues to rise early, casting its golden beams on snow-white waves that dash against rocky shores—give me my flowers now.

Opposes Pornography

Editor, The Times:

I would request the good citizens of Floyd county to stand up for the abolishment of the display and sale of lewd and pornographic magazines in our public news stands. I think it's a public disgrace that we good, Christian people have to be confronted on every hand by filth and improper literature. We must protect our young children's minds and allow them the opportunity to grow up without the unnatural influence of lewd and pornographic material. Please join me in a concerted effort to bring back old-fashioned decency to our public news stands.

Our Yesterdays

(Items taken from The Floyd County Times, 20, 30 and 40 years ago)

Twenty Years Ago

(October 29, 1953)

Kentucky's long drought was not ended by the light rain that fell over the week-end, but the dampness was considered extensive enough by the Department of Fish and Wildlife Resources to open the woods again to hunters. . . . Monroe Watkins, 32, of Buckeye Fork of Middle Creek, became the first fatality ever to occur in the No. 2 mine of the Princess Elkhorn Coal Company, at Permele, Tuesday, when he was caught between the roof of the mine and the top of a moving coal car. . . . Dr. Robert M. Sirkle, of Prestonsburg, retired as grant master of the Grand Lodge of Kentucky Masons with the close of the annual meeting of the Grand Lodge, last week in Louisville, while John Wesley Hall, of Martin, was elected grand junior warden. . . . A U. S. Air Force, jet, low on fuel, crashed into a hillside near Blaze, Morgan county, Tuesday evening. The pilot, Maj. William D. Britton, parachuted to safety. . . . Congressman Carl D. Perkins has protested to Arthur S. Fleming, director of the Office of Defense Mobilization, against O.D.M. action in suspending a regulation that gave defense contracts to labor-surplus areas, such as Eastern Kentucky, if the area could meet low bid specifications. . . . A total Floyd county vote of 12,000 more is predicted for next Tuesday's election. . . . A warning to peddlers of fresh meats on the streets of Floyd county towns to stop their open-air trade was issued this week, by the Floyd County Health Department, with violators of the notice to be prosecuted. . . . Born: to Mr. and Mrs. Foster Tackett, of Willow Run, Michigan, a daughter, Janet Lee, Oct. 21; to Mr. and Mrs. Johnny Weddington, of Prestonsburg, a son, John Alex, October 22, at the Prestonsburg General hospital. . . . There died: James Webb, 93 years old, at home at Langley, Saturday; Jack Parker, 67, at home at Wayland, Monday; Devenis Slone, 28, of Dema, Saturday, at Circleville, Ohio; Mrs. Cynthia Wicker Chaffin, 76, Wednesday, at the home of a son, at Dema; Tilden T. Osborne, formerly of Martin, Saturday at his home in Clarksburg, Ohio; Hale Edwards, 64, of Hi Hat, last Sunday in the Beaver Valley hospital, Martin; James H. Helvey, of McCombs, former Betsy Layne resident, Tuesday at the Methodist hospital, Pikeville.

Thirty Years Ago

(October 28, 1943)

Drafting of all available single men and childless husbands before the induction of fathers was seen almost as a certainty this week after the national House of Representatives passed legislation similar to a Senate bill to that effect. . . . Work conditions in Floyd county mines were better Wednesday, even though the War Labor Board did reject a UMW bid for a \$1.50 increase in pay a day for miners. . . . His throat slashed twice Saturday night, in an altercation at Martin, Elbert Clark, miner, is in serious condition at the Beaver Valley hospital. . . . In visits to Floyd county's 31 sawmills and lumber producers, E. M. Oliver, London, Kentucky project forester with the War Production Board, urged greater production of timber products for the government. . . . Sgt. Edwin P. Reffett, of Hueysville, was recently awarded the Soldier's Medal for valor displayed during the rescue of members of his crew when the C-47 plane on which he was serving crashed-landed at seas. . . . Distribution of War Ration Book, No. 4 was under way this week at Floyd schools to the county's more than 50,000 residents. . . . Fire believed to have originated in defective wiring destroyed two buildings of the Central Elkhorn Coal Company at West Garrett, Tuesday. . . . Married: Miss Mary Catherine Woods, of Prestonsburg, and Mr. Denvil Leake, of Little Paint, October 29 at the home of the officiating minister, Rev. C. F. Conn, of Lancer. . . . Born: to Mr. and Mrs. Wade Hall, of Prestonsburg, a daughter, Rose Mary, at the Paintsville hospital last week; to Cpl. and Mrs. Wilburn May, of Drew Field, Tampa, Florida, a daughter, Jennifer Joan, October 1, at the Prestonsburg General hospital; to Mr. and Mrs. Alex Sloan, of Prestonsburg, a son, Calvin Douglas, October 7; to Mr. and Mrs. Virgil Crisp, of Dinwood, a son, October 13. . . . There died: W. F. Mandt, 72 years old, president of the Stephens Elkhorn Fuel Corporation, at Winter Park, Florida, Tuesday; Mrs. Clarinda Johnson Flanery, 55, at her home on Buck's Branch, Sunday; Millard Prafer, 56, at his home at Brainard, last Thursday; Mrs. Maggie Rice, 57 years old, of Little Paint, at the Prestonsburg General hospital, Saturday; Willie Frazier, 28 years old, of Manton, Friday; Edgar Lee Thompson, four months old, at his parent's home at Wayland, Sunday; Oma May, one year old, at her parent's home at Wayland, Sunday.

Forty Years Ago

(October 27, 1933)

Doom of Ishmael Scott, convicted murderer of Martin Stephens, Garrett merchant, was sealed last week when Governor Ruby Laffoon signed the death warrant setting November 3 as the time for Scott's execution at Eddyville prison. . . . Ex-Congressman William D. Upshaw, 1932 candidate for the Presidency on the Prohibition ticket, will appear here Tuesday morning in an address against repeal of the 18th amendment. . . . Richard Sammons, 50, of Greasy, Johnson, was found dead on the Mayo Trail at the curve near Ball Alley, Sunday night, the victim of a hit-and-run driver. . . . Carlos King, 30 years old, motorman for the Inland Steel Company, was fatally injured Friday in the mines at Wheelwright, when a "trip" of cars struck his motor at high speed and piled onto him. . . . Frank Ratliff, 23, was shot and instantly killed Sunday afternoon on the Racon Fork of Salt Lick Creek, as the result of objections Ratliff made to obscene language then being used in the presence of girls. . . . Mr. and Mrs. John W. Caudill were injured, the latter seriously, Thursday night when their auto collided with another a few miles from West Liberty. . . . Abbott Heights Country Club will hold its annual tournament party and dance, Saturday evening, November 4. . . . There died: the two-year-old son of Mr. and Mrs. Johnny Hagans, of Wilson's Creek, Monday; the infant son of Mr. and Mrs. Fair Allen, of West Prestonsburg, Sunday.

VOTE

Elect a new City Council.

Elect those candidates who are young and energetic. Elect a candidate who plans to live the remainder of his life in Prestonsburg. Elect a candidate who will help his town get enough industry to provide jobs for all its adults. Elect a councilman who will be willing to listen to all the citizens' problems and then do something about the problems.

Vote for:

Dr. Roger Jurich

Candidate for City Council of the city of Prestonsburg.

Number 7 on the ballot.

representative of the federal Mediation and Conciliation Service, hope of avoiding the strike virtually died.

The three-year labor contract does not expire till October, next year.

While Kentucky West Virginia Gas Company was facing an immediate strike situation, another major gas firm had begun negotiations toward a new labor contract in the hope of averting a possible shutdown. Columbus Gas of Kentucky (formerly known as United Fuel Gas Co.) and its employees are working on a new pact to replace the one which will expire December 1.

Although no company spokesman would comment on the threatened strike or on Kendrick's statement, it is known that workers have been reminded that all complaints listed are matters for grievance and arbitration procedures under the labor agreement and that the company will consider any work-stoppage an illegal strike.

The 60-day strike notice was given the company August 31. Later, 10 items of complaint were listed, but the main contention lies in the displacement of two skilled workers, a mechanic and a welder's helper, from the company yard here. Workers have been told the displacement resulted because there was not enough work to justify employment of the two, that there has been no reduction of the work force and that no worker has been laid off.

At Saturday's Paintsville meeting the union agreed to an orderly shutdown of company operations.

Kendrick, president of the union, said, "The union also feels the need to look into the so-called energy shortage. The company states that they are low on fuel and must cut back on gas supply. They do this with straight face while knowing, as the union members know, the storage yards are full in Pittsburg."

He added that the union is wanting to know what has caused the situation and the company's refusal "to sell our people gas."

"The strike," he said, "may very well get the questions answered."

Gospel Singing Set

At Wayland, Saturday

Four popular gospel quartets will present a program of gospel singing at the Wayland gymnasium, Saturday evening at 7:30. The groups include the Travelers quartet and The Mountainers quartet, both of Crum, W. Va., the Marcum Family, of Ft. Gay, W. Va., and the Firm Believers quartet, of Ashland. They are being sponsored by local churches who will use proceeds to buy Christmas gifts for patients in rest homes in the area.

No admission will be charged for this program, but a free will offering will be taken.

AND SO...

This column's reference last week to the itch which was almost pandemic in the country schools of my day has suggested to a reader that this lowly "malady" got into politics, as most things do. "Back-scratchin'," our correspondent figures, evolved from the proposition one sufferer would make to another: "You scratch my back, and I'll scratch yours."

FISHIN' HOLE DISAPPEARS

Is there no justice? Just when my sons and I had located a "hot-spot" (comparatively speaking; at Dewey Lake and were catching bass, trolling, the powers that be decided to let the lake down. By this time the spot where we were taking bass is now high if not yet dry.

LESSON OF THE LEAVES

The wind and rain have beaten half the leaves from the gorgeous maple that has blessed tired eyes, these great fall days. Looking on the damage, the other day, I recalled the story (was it from McGuffey?) of the contest between the wind and the sun to see which could force the traveller to shuck his coat. The wind, of course, lost; the harder it blew, the tighter the man drew his coat about him.

Watching the leaves from the maple swirl groundward with every gust, I caught myself wishing the trees would react to the storm as the man did; that the stronger the blow, the tighter the leaves would cling.

But it requires no great intellect to understand that if those leaves, colorful as they now are, do not fall the maple will never be beautiful again. For the leaves would turn brown, and next spring would still be there, leaving no room for the green glory of new bud and leaf.

And so it is that I see, all over again, that there is a dying before rebirth. Which is more beautiful, really, than those leaves which die so beautifully.

"I dreamed death came the other night, and Heaven's gates swung wide. With kindly grace, an angel ushered me inside. And there, to my astonishment, stood folks I'd known on Earth. Some I'd judged and labeled as 'unfit' or of 'little worth.' Indignant words rose to my lips, but never were set free. For every face showed stunned surprise—no one expected me!"—Unknown.

Group To Hire Center's Staff

The Archer Senior Citizens Center at Archer Park here was scheduled Tuesday night to move a step nearer activation with the naming of two staff members, a director and a secretary.

The selections for the two posts will be made from a list of 15 or more applicants by a committee of eight composed of County Judge Henry Stumbo, representing the Floyd fiscal court, Ed Music, chairman of the Park Commission, and six senior citizens. The director's post pays \$7,200 a year; the secretary's, a reported \$4,200.

The center was funded two months ago, and the naming of personnel is the first major step toward making the project operative since that time. The project received \$21,430 in federal funds, plus \$7,144 in local money.

The first floor of an Archer Park building will be renovated for use as the center. Approximately \$5,000 of funds available to the center will be used for the purchase of a mini-bus for the transportation of senior citizens to and from the center. A telephone system also is to be installed to permit shut-ins to call or to be contacted by others at least once daily.

CARD OF THANKS

We wish to take this means to thank all who helped in any way during the illness and upon the death of our dear husband, Ernest Hopkins; the minister, Rev. Howard Coop, for his comforting words; The Chancel Choir for the beautiful music; Dr. Daniel W. Spurlock and the nursing staff of the Highland Medical Center, for their services, and the Carter funeral home for its courteous and efficient service. May God bless each one.

PAUL P. HUGHES

For

MAYOR

Tuesday, Nov. 6

LET'S CONTINUE TO GO FORWARD

In the course of any election, I am sure you feel you are bombarded with advertisements and requests for your support at the polls for many different candidates. This is certainly not unusual as I have felt this way myself before. This will be my last opportunity to present myself and my programs to you before election day on Tuesday, November 6. I request your patience in reviewing with me my goals for Prestonsburg as well as my qualifications for the office of Mayor.

My QUALIFICATIONS For Office of Mayor

I have SERVED on the City Council for SIX YEARS during which time I have WORKED HARD at LEARNING about the various programs in city government.

I have been an ACTIVE MEMBER of the Prestonsburg Area Chamber of Commerce for the past ten years. I SERVED as PRESIDENT of the CHAMBER for two years, 1971 and 1972.

I am a local BUSINESSMAN who knows the problems of local businesses and I HAVE WORKED in the past to help solve some of these problems.

I SERVED for TWO YEARS on the Big Sandy Community Action Program as a member of the Board of Directors, and LEARNED MUCH about various Federal programs and how to WORK with them.

I am PRESENTLY SERVING on the Prestonsburg-Paintsville Airport Board and I am WORKING HARD to IMPROVE this important facility.

I HAVE EXPERIENCE in WORKING with the Prestonsburg Industrial Foundation in their EFFORT to ATTRACT NEW INDUSTRY to the Prestonsburg Area.

My PROGRAMS For Continued Progress

I know that by CONTINUING with HONEST, EFFICIENT GOVERNMENT, we will need NO NEW TAXES.

I support ESTABLISHING another DOWNTOWN PARKING LOT to Improve Prestonsburg as a trade center.

I want to TAKE CITY GOVERNMENT to the PEOPLE by having one MEETING a month in DIFFERENT NEIGHBORHOODS throughout the City.

I want to CONTINUE the ENVIRONMENTAL PROGRAM that I HELPED START this past summer to CLEAN-UP our CITY.

I want to ESTABLISH a STREET DEPARTMENT that will IMPROVE the STREETS and SIDEWALKS throughout the City.

I want to IMPROVE our already EXCELLENT POLICE and FIRE DEPARTMENTS that PROTECT the PEOPLE of Prestonsburg.

I want the City to be able to continue to PROVIDE the TWICE-WEEKLY GARBAGE PICK-UP at the LOWEST RATE in our Area.

I want to IMPROVE ARCHER PARK where the CITIZENS of Prestonsburg can ENJOY the RECREATION they NEED and DESERVE.

I will CONTINUE to WORK with the PRESTONSBURG INDUSTRIAL FOUNDATION to find ways to ATTRACT NEW INDUSTRY to our City.

I have tried during the past few weeks to conduct my campaign for Mayor on the same high level that the office of Mayor deserves. I do not feel that you should be confronted with mud-slinging or any misleading of the facts. I want to be YOUR MAYOR, and I will do everything in my power to justify your confidence in me. I ask for your support on Election Day, Tuesday, November 6.

Anyone Needing Transportation to the Polls to Vote, Call 886-6471.

VOTE FOR CONTINUED PROGRESS.

Architects To Speak At Club Meeting, Nov. 1

The Prestonsburg Woman's Club will have as guest speakers at its Nov. 1 meeting at the Floyd County Library three architects, Lee Shannon, Charles Wiechers, and Randy Burchett in a program concerned with importance of visualizing indoor and outdoor space in an architectural way. Pointing up the talks will be architects' drawings and constructed table models of their designs.

All of the architects on the agenda have their roots in Prestonsburg. Mr. Shannon has his own architectural firm here. Mr. Charles Wiechers, whose mother, Mrs. Charles A. Wiechers, still resides in Prestonsburg, is with Chrisman, Miller and Wallace Associates in Lexington. Mr. Burchett, son of Mr. and Mrs. Clyde Burchett, of Prestonsburg, is a senior architectural student at Transylvania University.

Guests are welcome.

American Education Week To Be Observed

The Education Department of the Prestonsburg Junior Woman's Club held a special meeting last Thursday night at the Floyd County Library to prepare for the regular November club meeting program for which the department will be responsible.

Department members concluded to present a program depicting the varied levels of the Federation of Women's Clubs, which include the national state and local organizations.

Other items of business included preparation for the department's contribution to American Education Week, October 21-27. Nell Lawson, and Education Department member, presented faculty members at Prestonsburg elementary school tokens of appreciation for their services in the field of education to our community. The committee also discussed Sesame Street Viewing area and the Seventh District Junior Project, a scholarship to be presented to a student. The scholarship money is being donated by five Junior Women's Clubs in the Seventh district area.

Members of the Education department attending the meeting were Mrs. David P. Allen, Mrs. Danny Hamilton, Mrs. Ronald Johnson, Mrs. Roger Jurich, Mrs. Larry Lafferty, and Nell Lawson. Alice Hackworth and Mrs. C. R. Rice were unable to attend.

Change of River, Other Work At Pikeville To Cost \$17,571,912

The apparent low bidder on Phase 1 of the Pikeville Model City project was Holloway Construction Company of Wixom, Michigan with a bid of \$17,571,912.

Formal award of the contract for the project, the largest earthmoving project of its type in Kentucky's history, will be made in a few days.

The project includes the rechanneling of Levisa Fork of the Big Sandy River as well as the relocation of roadbeds for the Chesapeake and Ohio Railway and US 23 through an open cut.

Plans call for the relocation of the river, the railroad and the highway to begin at an upstream south bend of Levisa Fork. It will cut through a steep, narrow ridge of Peach Orchard Mountain to the west of Pikeville. It will then cross Poor Farm Hollow and continue through another ridge northwest of Poor Farm to a point on a downstream north bend of Levisa Fork. Engineers expect the open cut will measure about 500 feet in height and will extend about 3,700 feet in length.

In describing the advantages of the large earth-moving venture, Secretary of Transportation Elijah M. Hogge said, "This relocation and subsequent bypass will provide the city of Pikeville with

much needed land for immediate and future growth." He emphasized that "present local and through traffic congestion will be greatly reduced." He also noted that the project will "lessen the probability of flooding the city, and reduce noise and dust caused by trains and trucks.

The two-phase operation will create approximately 200 acres of usable and developable land. In phase one, the initial cutting through the mountain, the approximate 13 million cubic yards of excavated material will be used to fill the hollows of Poor Farm Hollow and Cedar Creek. This will create approximately 47 acres of developable land in the Poor Farm area and about 119 acres in the Cedar Creek area.

In phase two, the completion of US highway 23 and the rechanneling of the river, the old riverbed will be partially filled. The additional 3.5 million cubic yards of excavated material from the completion of US 23 will be used to fill parts of the old riverbed. This will produce a total of approximately 36 additional acres of usable land.

The project is a multi-agency plan which was devised through joint cooperation between Pike county, the city of Pikeville, Pikeville Chamber of Commerce, the Bureau of Highways the Appalachian Region Commission, the U.S. Department of Housing and Urban Development, the Federal Highway Administration, the Model City Agency, the U.S. Corps of Engineers, the C. & O. Railroad, and others.

Consumer Comments

By ED W. HANCOCK
(Attorney General of Kentucky)

If you are planning to purchase a home and assume the present owners' mortgage, stop, look and listen before making the investment.

An elderly lady, on a low-fixed income, was recently referred to the Consumer Protection Division after assuming a mortgage with several hidden costs. She had seen an ad in the newspaper, contacted the home owner and negotiated the deal herself. As a result, she used up most of her resources making small monthly payments on the outstanding balance.

After assuming the remaining debt, she found the house was not connected to city water or sewage, and she was forced to pay for installation. The local health department had been after the previous owner, and she was now faced with these problems.

The taxes on the home were not prorated or paid up, and she was faced with a full year's taxes, even though she lived there less than six months. This lady, like hundreds of others, thought she could take care of everything herself and would not need an attorney.

Never purchase real property without first investigating possible delinquent taxes, liens and local requirements.

If you are a Kentucky resident and have a question concerning a consumer problem, call the Consumer Protection hotline toll-free, 8:30 a.m. to 5:00 p.m., Monday through Friday, at 1-800-372-2960, or write the Attorney General, 309 Shelby Street, Room 110, Frankfort, Kentucky 40601.

Postal System Selling Money Orders to \$300

A new money order with the limit raised from \$100 to \$300 per order is now available at post offices. The new system saves both the customer and the U.S. Postal Service money. Buyers of the new money order will pay one fee, 40 cents, for money orders valued from \$50.01 to \$300. Fees for the lesser amounts will remain the same.

Under the old system, a \$300 money order would involve three 40 cents fees for a total of \$1.20. The new system provides a two-thirds reduction.

A new money order imprinter has replaced the punch machine and is designed to save time and effort at the postal window.

A three-part carbon interleaved money order form replaces the old card form. The larger customer receipt will be less easily misplaced, contains a complete record of when, where, and in what amount it was purchased, and will allow the Postal Service to provide faster claim service through machine processing.

The new money order form meets American Bankers Association standards for rapid handling and processing. Recipients of money orders will be able to cash them at 42,000 post offices and stations and 23,000 banks and branches.

Educators in In-Service Meet

Special Education instructors at in-service meeting were, from left, Bessie Draughn, Patricia Castle and Marie Reynolds.

The largest group of educators to meet in ROPES Region 11 in common instructional cause attended the in-service meeting held last Thursday at the Floyd County Library here. The session was directed toward teachers, principals and administrative personnel who work with special education units.

Dr. Robert Sterrett, director of the UK Region Special Education Materials Center, demonstrated new items available at the center for special education classes, and discussed services afforded by the center. The program also included demonstrations

by three special education teachers in the region—Patricia Castle, of Porter elementary, Johnson county; Bessie Draughn, Prestonsburg elementary, and Marie Reynolds, Spradlin Branch.

Reo Johns, director of ROPES Region 11, welcomed the group and invited all present to visit the regional office. Following the program, Charles Clark, superintendent of Floyd county schools, commended the program and cited the meeting as a step forward for special education in Region 11 and that this is made possible through regionalization.

**Strike Ends at Hospitals
Pact with Union Cancelled**

Operations of Appalachian Regional Hospitals in five communities returned to normal last Thursday after union employees ended a three-day strike which had not been authorized by their union.

The hospitals are in Harlan, Hazard, South Williamson and Whitesburg, Ky., and Beckley, W. Va.

A similar strike was continued, however, by union employees in ARH's hospital at Man, W. Va.

Meanwhile, ARH cancelled its contract with the striking employees' union, United Steelworkers of America (CIO-AFL), explaining that the union had failed to abide by the contract.

Jay G. Coberly, executive vice-president of the ARH non-profit health care system, said it had been plagued by nine illegal strikes in the last three years. He pointed out that in the strike which began on Oct. 23, the union had filed no grievance and ARH was not notified of any reason for the walkout.

(A union spokesman at Man, where the walkouts began, told a newspaper reporter that union employees were dissatisfied with the employment of a licensed practical nurse.)

"We are in the very serious business of caring for sick people," Coberly stated. "We can not care properly for our patients unless all employees are seriously dedicated to this responsibility. And the union represents about a third of our employees."

ARH's contract with the United Steelworkers covered wages, hours and working conditions and provided for a pension. It also provided benefits such as paid vacations and holidays and free Blue Cross-Blue Shield coverage for the employee and his family.

Coberly stated that ARH, while declaring the contract "null, void and of no further force and effect," had no plans for discharging any employees.

The cancelled contract applied to 957 union employees in nine of ARH's hospitals, located at Beckley and Man, W. Va., Wise, Va., and Harlan, Hazard, McDowell, Middlesboro, South Williamson and Whitesburg, all in Kentucky.

Coberly's notice of cancellation, however, stipulated that ARH would continue to abide by the terms and spirit of the contract at Middlesboro and Wise, because union employees there had not engaged in any illegal strikes since Jan. 1, 1971.

A PLEDGE

To The People
Of
Floyd County

Abuse of office has become commonplace in the news, not only at the local and state level, but at the national level as well! I want to make a solemn promise to the citizens of Floyd County. If I am elected your sheriff, I will not abuse my authority to benefit my relatives or any of my close friends. My objective in Floyd County is law and order for ALL the people. What is fair for the poor is fair for the big wheel. Let's not elect a Wheel—let's elect a man who will not neglect the powers invested in him as sheriff of this county.

I will work endlessly to solve the unsolved MAJOR crimes that have disgraced our county for many years.

Please do not try to hold me responsible for what my relatives or friends have done. Judge me on my record, for it is I who am the candidate.

Also, I would like to point out that I have no supporters who kick in thousands of dollars for my campaign. I ask the church members of this county to look around them and see who the big supporters of my opponent might be. Do not let the wool be pulled over your eyes. What you might believe to be the fact is not always so.

Too, was Floyd County really dry when Joe was sheriff, or was it as wet as ever? The knowledgeable people of Floyd County know. Remember this when you cast your vote.

Stay with any man when he is right, but part with him when he is wrong.

Remember

Miss Freels Crowned PHS Homecoming Queen

Friday night, October 19, was Prestonsburg High School's annual homecoming football game and at half-time of a contest which PHS was to win over the Hazard Bulldogs, 32-14, this year's homecoming queen, Miss Phyllis Freels, was crowned. Miss Freels, members of her court and escorts are pictured above. They are, from left to right: Harry Lee Burchett, Linda Baldrige, Steve Crabtree, Sharon Ann Branham, Brad Kalos, Miss Freels (Queen), Billy Francis, Brenda Lou George, Gorman Collins, Paula Goble, Rob Herrick, and Margie Jagers.

16 Area Counties Get NYC Funds

Approval has been received for extending the Neighborhood Youth Corps Program in Floyd and 15 other counties of the Seventh District, Congressman Carl D. Perkins has announced.

"This is the out-of-school program which helps many of our young people from poorer families with a job that benefits the community," Perkins said.

He has sponsored and supported the legislation which created the program, and has worked to keep it going.

Eastern Kentucky counties in the NYC program, besides Floyd, are Breathitt, Wolfe, Pike, Martin, Johnson, Lawrence, Magoffin, Lewis, Greenup, Carter, Morgan, Elliott, Knott, Letcher, Perry.

Representative Perkins said that the program also has been continued for the cities of Jackson, Paintsville, Olive Hill, and Whitesburg.

More than 500 young people are covered by the extension, which will be funded at approximately \$300,000 through December 31.

School Boards Told Bargaining Opposition

School board members from six Eastern Kentucky school districts in their annual meeting held at Jenny Wiley State Park Oct. 24 elected Wendell Knight chairman of the Kentucky School Boards Association (KSBA) Eastern Kentucky (South) Region for 1974. As chairman of the region, he will also serve on the statewide governing board of KSBA.

Mr. Knight will succeed Johnson County Board Chairman Woodford Estep in the regional post. Prior to his election, Knight, a member of the Paintsville Board of Education, served the region as vice-chairman.

John Stumbo, chairman of the Floyd County Board of Education, was elected vice-chairman, and Oran tester, superintendent of Paintsville city schools, was elected to succeed Johnson County Superintendent Orville Hamilton as secretary.

Chairman-elect Knight presided at the meeting. Local board members and school administrators were welcomed by Charles Clark, superintendent of Floyd county schools, Dr. Clay Parks, KSBA

Vice-President, presented recommendations of the 100-member State Citizens Committee for improving Kentucky's Foundation Program for elementary and secondary education. Recommendations included:

1. Distribution of state funds to local school districts to be made on a pupil cost basis rather than current classroom unit approach.
2. Kentuckians should make an effort to support elementary and secondary education that is equal to the national average effort, based on Kentucky's ability to pay.
3. Funding for special and vocational education programs for certain groups of children.
4. Teacher salaries equal to the average of border states of Kentucky.

5. Provide for a uniform achievement testing program for Kentucky students.

In discussing the KSBA Legislative Program for 1974, KSBA Administrative Assistant David Keller emphasized the need for uniform property assessment throughout the state, and that the same assessment figure be used for rate purposes as is used for determining local school district effort.

Keller also said that the KSBA Program calls for a life insurance program, paid by the state, for non-certificated school employees, for coverage equal to that already being carried for other state employees and for certificated school employees.

KSBA Executive Director Maurice Bement told the members that the School Boards Association would oppose the public employee bargaining bill presented to the General Assembly's Interim Committee on Labor and Industry by the Kentucky Education Association (KEA) and other unions. KSBA's position, as stated in a policy declaration, is: "The Association will oppose any legislation which mandates a local board of education to enter into professional negotiations or collective bargaining agreement with any group of school board employees." Bement said.

The proposed bill, mandating bargaining procedures, would allow public employees, both state and local, to bargain collectively with their public employers to determine wages, hours, terms and conditions of employment, and enter into collective bargaining agreements which shall provide for final and binding arbitration, Bement stated.

In summary, Bement said the Association would oppose the proposed bill, because:

It would lead to the erosion of public control of government services, Costs for necessary public services would be greatly increased to the taxpayer.

The quality of services would not be improved to the citizens and children of the state, and

The public schools belong to the people and not to any group of employees.

J. T. Clifton, special legislative agent for KSBA, asked board members and school officials to be reasonable in working with legislators for the enactment of positive school legislation; the kind that will enable local school districts to offer improved education programs for all children.

He reminded members that they were elected by the same voters that elected members of the Kentucky Legislature, and he requested that they work together for the best interest of the children of the Commonwealth.

Errata

To correct errors connected with The Times' report of Red, White and Blue Day were these:

Mr. and Mrs. Tommy DeRossett, parents of the Little Miss Red, White and Blue for 1973, are residents of Dwale, not of Prestonsburg.

Dwale elementary school, not Allen's won first prize in the float contest.

The name of Marcella Bailey, founder of Red, White and Blue Day, was omitted from the report of the pageant sponsored by the Junior Woman's Club.

Fred Luigart, Head Of Coal Association, Victim at Lexington

Fred W. Luigart, Jr., 45, president of the Kentucky Coal Association, died Sunday at Good Samaritan Hospital, Lexington.

Mr. Luigart was hospitalized early Sunday after becoming ill at his residence, 1018 Fontaine Road.

A 1950 graduate of the University of Kentucky with a degree in journalism, he studied political science and international relations at UK and the Georgetown School of Foreign Service in Washington, D.C.

Following service in the U.S. Air Force from 1951-55 as an intelligence and psychological warfare officer, Mr. Luigart edited several state newspapers, including The Woodford Sun, The Mountain Eagle and The Hazard Herald, for short periods of time.

He then joined the staff of the Louisville Courier-Journal and worked as a reporter in Washington, D.C., Louisville, Lexington and Frankfort.

In 1962, Mr. Luigart was a recipient of the Kentucky Association of Soil Conservationists Award for a series of articles on forestry. In 1965, he was one of three reporters nominated for a Pulitzer Prize for articles exposing abuses in a northeast Kentucky public-school system.

Later, he was among several reporters who wrote a series of articles on surface mining resulting in The Courier-Journal's receiving a Pulitzer Prize.

Mr. Luigart was a member of the Governor's Advisory Committee on Natural Resources, Strip Mine Research Coordinating Committee of Kentucky, National Audubon Society, UK Alumni Association, Keeneland Association, Spindletop Hall and Christ the King Catholic Church.

Survivors include his wife, Mrs. Betty Elliott Luigart; a son, Craig B. Luigart, and a daughter, Miss Becky Luigart, all of Lexington, and a sister, Mrs. Charles Spears, Jr., Paris.

Services were held at 10 a.m. Tuesday at Christ the King Church.

Miss Rose Named Member Of Transylvania Choir

Marilyn Rose of Prestonsburg has been selected to be a member of the 40-voice Transylvania Choir at Transylvania University, Lexington.

The Transylvania Choir, which goes on its annual tour during the university's spring vacation, is considered by many critics as one of the finest choral ensembles of today.

Miss Rose, daughter of Mr. and Mrs. William Rose, is a senior drama and music student at Transylvania.

To the Voters of Magisterial District No. 1:

No. 1:

Last week in the Floyd County Times, Mr. Wells my opponent, said I condemned him for making a living for his family. I condemn no one for doing that because we all have to make a living.

As for his neglect to the roads in Dist. 1, the roads speak for themselves. Since the primary election and now the final election is drawing near, they have been doing the same as always—they are campaigning with the taxpayers gravel. It seems that this happens every four years. Is it honest to do this??? The gravel should be used when needed instead of at election time only.

I didn't know until recently that the office of Magistrate pays as much as it does. My understanding is that it pays \$600.00 (six hundred dollars) per month plus mileage for road inspection in District 1 plus cost of all warrants and fines. This could easily amount to more than \$1000.00 (one thousand dollars) per month which the taxpayers pay. I think for that much money we should have a full-time Magistrate.

I think a Magistrate should be someone who knows about road construction. I have worked at construction jobs and know about equipment and road building.

My opponent lives in West Prestonsburg and works in Johnson County and does not know the conditions of our roads.

"Satisfaction Or Your Dirt Back"

No. Lake Drive, Prestonsburg

TO THE VOTERS OF PRESTONSBURG

Dear Friends;

The election is but a few days away. You will soon be selecting a new Mayor of Prestonsburg to lead this city for the next four years. I hope you will give this your most serious consideration because the Mayor of Prestonsburg is not a figurehead. He must make decisions and take actions which affect all of you. He must be able to work with eight city council members to determine the programs and direction of our city government. The progress made here in the past speaks for itself. We have the finest, most progressive city in Eastern Kentucky. But we must not rest here. It will take hard work to keep us growing and moving.

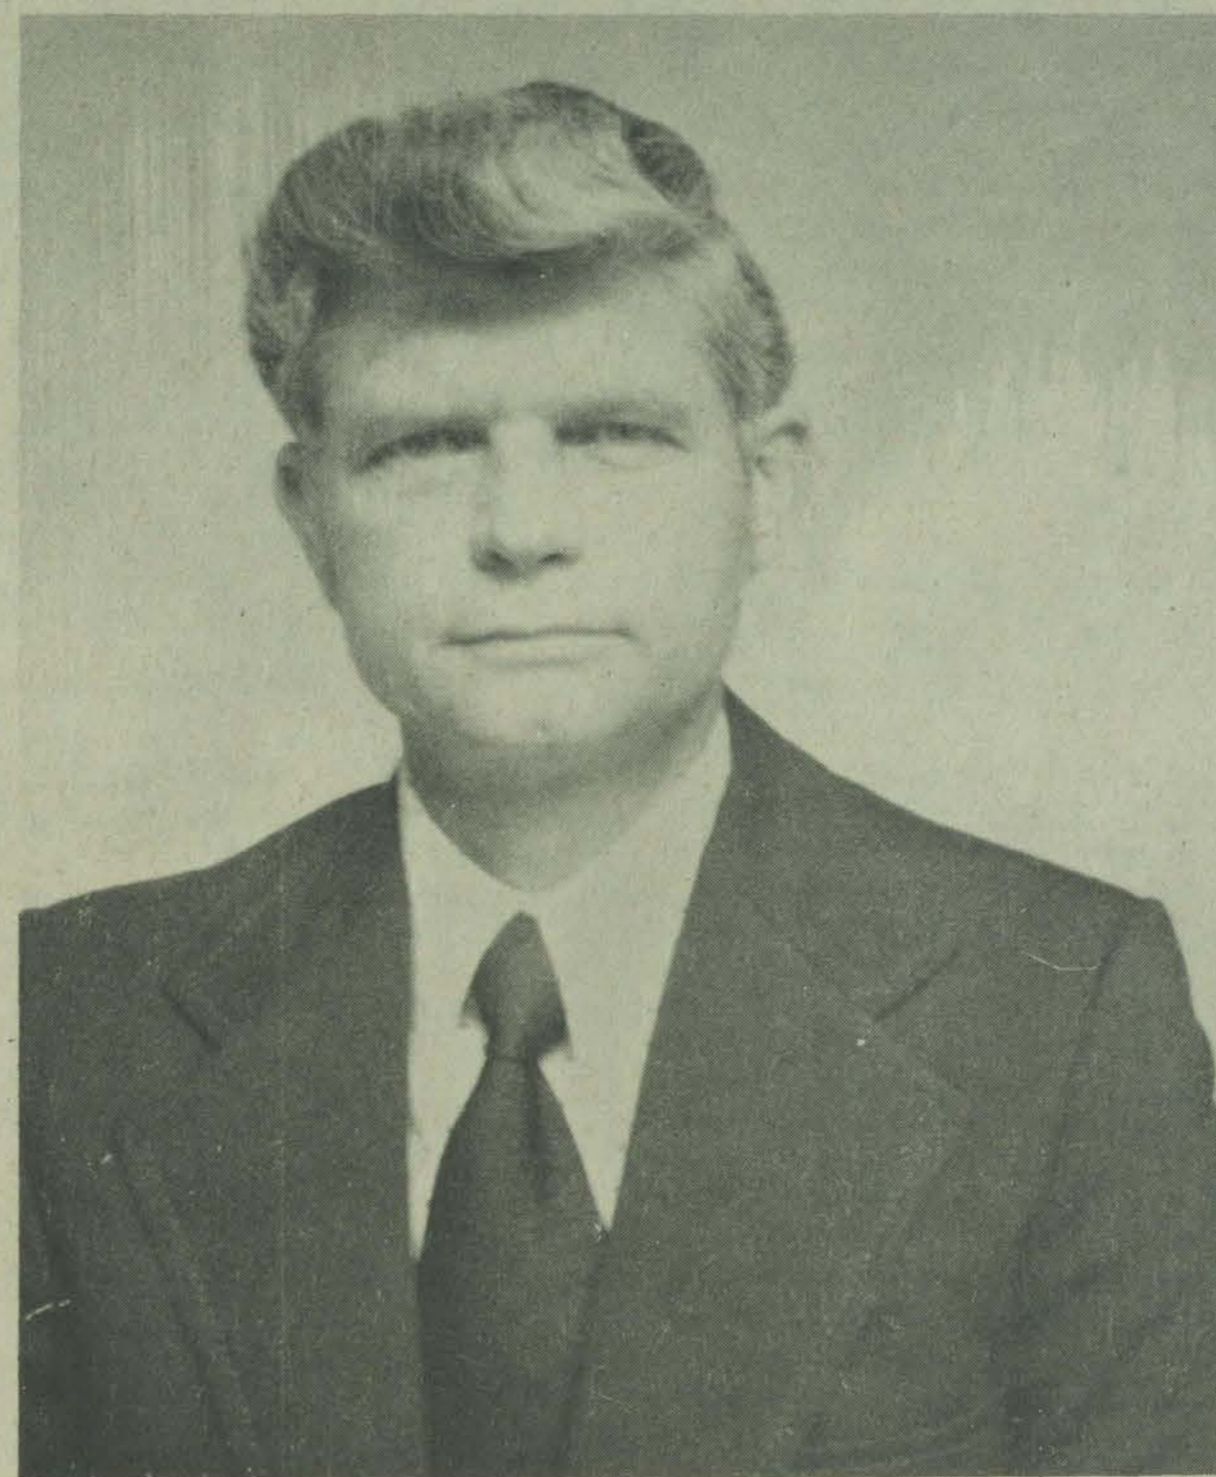

I am asking for your vote for Mayor because I believe in Prestonsburg and its future. I believe in a revitalized downtown shopping area, with increased parking space and features to draw shoppers from all over Eastern Kentucky. I am a merchant operating in our downtown, and I know we cannot afford to lose customers to neighboring cities. We cannot afford it because of the revenue they bring to the city.

I believe also that we should have the cleanest city possible. City manpower should be used to its best ability to keep the streets and sidewalks clean at all times.

I believe that we should have an open government, with open city council meetings and published annual reports. I would urge all citizens to take part in meetings, and I would urge the city council to hold public Town Hall type meetings so that all citizens could participate.

My platform for Prestonsburg's continued growth is outlined in full below. I hope you will read it, think about it and discuss it with your neighbors. I believe I have a sound program and I promise to work hard and to the best of my ability to see that it is carried out. I will appreciate your vote and support.

William O. Goebel, Jr.

A Platform For A Better Prestonsburg

TAXES

With our property tax and occupational withholding tax presently bringing in about \$250,000 a year; with fines, fees and federal and state funds combining with that to give us a total revenue of nearly \$500,000 per year, I OPPOSE ANY NEW TAX. In addition, I would propose studies to be made to determine if any relief can be given to our citizens on the property tax.

RECREATION

Archer Park will continue to receive its share of city revenue so that it will continue to be the finest city park in the country. I will totally support, and move quickly to bring into being, the Senior Citizens program there. I will move immediately to provide the mini-park for the Dixie Heights housing area, for which we have already received a \$7,500 federal grant. And I will work to provide more such parks in other housing areas.

FIRE DEPARTMENT

We have one of the finest fire departments in our state, and we have seven fully qualified men operating the station on Highland Avenue. The No. 2 Station, in Mayo Addition, has never been staffed. I would see that it is staffed and kept open at all times so firemen could reach fires at Goble-Roberts and Lancer at least five minutes faster than they now do from downtown.

STREETS

I would work for the streets and sidewalks to be maintained for the benefit of all the people—in the outlying sections of town as well as downtown.

SANITATION

I will move to implement the planned expansion of our City Waste Treatment Plant. I will work with county officials to get a sanitary land fill site to serve the City of Prestonsburg as quickly as possible. Open dumping is illegal and should be banned. A sanitary land fill would rid us of this problem and get rid of the many unsightly, unsanitary and dangerous dumps near the city.

POLICE DEPARTMENT

Our Prestonsburg Police Force is also rated highly. I would encourage more policemen to take the available training from the police school at Eastern State University. I would work with the State Law Enforcement Council to see that our police programs are constantly strengthened and up-graded. And, I would recommend a foot patrol for the downtown business section, in addition to the cruiser force, to stop the break-ins from occurring.

DOWNTOWN

I propose to seek additional parking space in Prestonsburg in a manner that would provide the most room at the least cost. I propose to build a mini-park area with benches, shrubs and restroom facilities in the present municipal parking lot, where shoppers—particularly older people—would have a place to rest and relax. I believe we should have street sweepers—in addition to the motorized street cleaner—to keep the downtown area free of trash, litter and leaves. I would encourage all merchants to join in a year-round clean-up and beautification program for our downtown center.

INDUSTRY

I will work with the Chamber of Commerce, the Prestonsburg Industrial Foundation and other such groups to acquire more industry for Prestonsburg so that people will not have to leave here to find jobs and to make it possible for those who are away to return here and live and work at home. I will work with State officials to obtain a road to the industrial site at Cliff. I will move immediately to take whatever action is needed to put an industry into the KAI Building which has stood vacant for three years.

CITY GOVERNMENT

I would urge open and fully-advertised City Council meetings with full public participation. I would publish annually, a report of the city's finances. I do not believe that city employees should lose their jobs because of politics, and I would recommend that they be placed under a civil service system. I believe we should have a new city hall, but not at a cost of half a million dollars. A careful study of our needs should be made before we proceed with any new structures.

Candidate For
SHERIFF
Of Floyd County

I understand that it has been suggested that I am and have been in the past involved in illegal activities in Floyd County. Let me set the record straight. I have never and do not intend to be involved in illicit activities here or anywhere else. I have never in my life been arrested. I can stand on my record. I have nothing to hide. But I doubt if Joe Wheeler will have fun explaining some of his past activities. Can Joe explain to the people of Floyd County what really happened to a certain man? Is this man still picking lead out of his ears?

Jesse James' Gang left Kentucky in 1868. We no longer need a lawman like Pat Garrett. But we do need a good Sheriff. Elect me and I will enforce the law 1973 style.

Kentucky Afield

By Hope Carleton
Dept. of Fish and Wildlife

Gun deer hunters will have five days again this year in which to harvest whitetail, fallow or European red deer in Kentucky.

The gun season runs from Nov. 3-7, and is open to 118 of Kentucky's counties with only Jackson and Owsley closed to deer hunting. Only bucks with at least one forked antler may be taken during gun season.

According to Harold Barber, chief forest game biologist for the Department of Fish and Wildlife Resources, there has been a slight increase in the size of Kentucky's deer herd this year.

Barber also pointed out that about one out of six gun hunters is successful in bagging a deer. This figure is well above the average hunter success ratio for the Southeastern United States.

Barber, an ardent hunter himself, says that the successful hunter is most often the one who knows the habits of his quarry and who has scouted the area he plans to hunt to locate travel lanes, scrapes, or other deer signs which indicate where he should take a stand on opening day. The successful hunter is also a good marksman and has checked his rifle to make sure that it is sighted in properly.

Legal weapons for the statewide hunt are shotguns (ten-gauge maximum and 20-gauge minimum) with slugs only, center-fire rifles 240-caliber or larger (except any army issue M-1 .30-caliber carbine or .256-caliber rifle), and semi-automatic rifles (trigger must be pulled each time the rifle fires).

Deer may not be taken with the following: buckshot or any type of shot shells; fully automatic rifles (holding down the trigger will fire all remaining shells in the rifle); full-jacketed (military type) ammunition; tracer bullet ammunition; revolvers, pistols or any type of handgun; muzzle-loading shotguns, or any army issue M-1.30-caliber carbine or .256-caliber rifle.

It is also illegal to take deer with the use of boats or at any time or place the deer is swimming or in water where the deer's body is submerged except for the neck and head. Dogs, or any other domestic animals may not be used, and deer may not be taken before dawn or after dark.

Gun hunters should remember that they are required to wear some visible article of hunter orange clothing. Red and yellow, which were permitted in past years, are no longer acceptable.

Hunters, who are required, to buy a hunting license, must also purchase a deer permit in order to hunt deer and hunters under 18 must be accompanied by an adult. The permit contains a locking metal tag which must be attached to the deer immediately after it is taken and must remain attached until the deer is processed.

Gun hunters must leave the head attached to any deer they take until the carcass is removed from the field and processed. If the hide is removed, a deer tag hide (a portion of this year's deer permit) must be attached to the raw hides. Properly tagged hides may be transported and possessed, but cannot be bought or sold.

For a complete run down of Kentucky's deer hunting regulations, write the Department of Fish and Wildlife Resources, Capital Plaza, Frankfort, Kentucky 40601.

Drift Woman's Club Meets, October 15th

The Drift Woman's Club met at the clubhouse, October 15. Mrs. McKinley Little, Health and Welfare chairman, presented Jim Klein, regional coordinator of Alcohol and Drug Abuse, Mountain Comprehensive Care Center. Mr. Klein explained the services available. A questionnaire given to the members presented these facts:

The most abused drug is alcohol; alcoholism is a disease; drug education is teaching not to use or get involved; approximately 70 percent of the U.S. population drink alcoholic beverages; alcohol plays a major role in 52 percent of all highway fatalities; 76 percent of all arrests in Floyd county in 1972 were alcohol-related.

The Arthritis drive chairman, reported that the club had collected \$150.59. Nancy Cooley, hostess, served refreshments to Mrs. Bill Ward, Mrs. Bill Hoffman, Mrs. McKinley Little, Mrs. Isabel Reed, Mrs. Sophia Cahill, Mrs. Ward Reed, Mrs. Lloyd Stumbo, Mrs. Glenn Ward and Miss Ruby Akers.

By RUFUS M. REED

THE "TWICE-BORN MAMMALS."

About 98 percent of all the mammals of Australia are marsupials—animals which carry their young in a pouch. Marsupials are among the world's most primitive animals and are called "holdovers" from the age when Nature was experimenting with warm-blooded animals that suckled their young.

The unborn young of marsupials are never attached to the womb by a placenta; they are born prematurely and have to live in the marsupial pouch (incubator) and nurse the mother for many weeks before the real birth takes place. So these animals are often called "twice-born mammals."

The opossum is the only marsupial of North America. There is still a lower order of marsupials called the Monotremes. These lay eggs that must be incubated until the young hatch. This primitive order consists of such oddballs as the duckbill platypus and the spiny anteater; the platypus inhabits the streams of Australia and is called a "paradox" by naturalists, a puzzle to study. The platypus has a bill like a duck, lays eggs and has webbed feet. These animals eat shellfish, which they dig out of the muddy stream bottom. The male platypus has hollow spurs on the hind legs, and these contain poison glands. The platypus has one distinction: It is the only poisonous mammal known.

The koala, called the Australian teddy bear, is considered the most fascinating of the marsupials. The faces of these cute "teddy bears" seem over-size, with large, conspicuous ears; this lends the animals a comical appearance. The single baby rides the mother piggyback as she climbs about the eucalyptus trees to feed on the leaves—the sole diet of these animals. The name, Koala, means "never drink," as these animals never drink water. Apparently they get the moisture they need from eucalyptus leaves.

Of all the marsupials, the kangaroo is the most widely known and admired; it is the largest of the marsupials and is called the "jumping jack," it can leap fully 25 feet, even with the baby in the pouch and can go on its huge hind legs at a speed of 30 miles an hour. Kangaroos are highly popular at the zoos; they have the innocent looking face of a sheep and like sheep are strict vegetarians. The natives of the region sometimes slay the

kangaroos for food; the flesh is said to be good eating with a muttonlike flavor.

Of all the marsupials, the opossum is perhaps the most prolific. The females sometimes bears 14 young at one litter; some of these must perish, as there are not enough mammary glands to accommodate all. It is a wise plan of nature to make the opossum a highly prolific animal. Multiplied thousands of the young are slaughtered on the highways every year. It is a wonder these animals survive at all; some think they are doomed to extinction due to wholesale slaughter on the highways. The opossum is too sluggish of movement to escape the wheels of a speeding car; so many of them venture onto the highways in search of garbage for food. In the spring, on any ordinary drive of, say 50 miles, one may often see five or six young 'possums killed. The crows are waxing fat on 'possum meat but the supply of 'possum is getting leaner each year.

Australia is called "the cradle of the marsupials." This great island continent has been separated from all the other countries for millions of years. Otherwise, the larger and more aggressive mammals would have long ago crowded out the marsupials and taken over the land for themselves.

Nearly 771,000 women were enrolled in work and training programs administered by the U. S. Department of Labor's Manpower Administration in the 1972 fiscal year. Women represented about 40 percent of total enrollment in the programs, which reached a record high of almost two million.

To All The People of Prestonsburg

My name is Corbin Joseph. As most of you know, I have served the public for the last twenty-four years; twelve as the operator of a truck for the City Sanitation Department and twelve as your elected Constable. I know a young man who is hard working, sincere, and dedicated. I know that he will fully utilize all of these qualities when elected as a member of your City Council. He is my nephew, Paul Joseph. However, I am not urging that you vote for him because he is my nephew; I am asking you to vote for him because I know that he will work hard for you, all the people, and base his decisions on what is best for the whole community, not for just a small portion of it.

VOTE FOR

PAUL JOSEPH

ON THE INDEPENDENT TICKET, Number 8 on Your Ballot.

CITIZENS OF PRESTONSBURG

I wish to take this opportunity to give you a brief sketch of who I am and what I stand for.

My name is Paul Joseph; I am married to Neadean Brown Joseph and am the father of two boys, Paul Michael, age 12, and Jeffrey Bryan, age 9. I am the owner and operator of P and B Ambulance Service of Prestonsburg and Martin. My wife manages the Factory Outlet Shoe Store in Prestonsburg.

When elected as a new member of your City Council, I will support the following programs:

1. A program to provide in this local paper a public notice to all citizens of the date, time and place of all City Council meetings;
2. A program to provide quarterly publication in this paper of an itemized statement showing how and for what your city government has used your tax money;
3. A program to improve all streets and sidewalks and to build sidewalks where they are needed;
4. A program to place more red lights at our busy intersections;
5. A program to erect "caution" signs on side streets where children may be playing; this will help protect your children as well as mine;
6. A program to provide for recreation in our low-rent housing areas;
7. A program to provide for the solicitation of good, stable industry which can assure our city that it will remain here after it begins operation.

I STAND FOR THE PEOPLE, ALL OF THEM.

VOTE for me, on the Independent ticket, number 8 on your ballot.

There Are Fish in Dewey Lake

Gordon Moore and five-year-old son, Alan Kyle, prove that Dewey Lake still has a few bass. Last Monday they caught two 4-pound largemouth bass and two 14-inchers, along with the 9, 10-inch crappie. Bass were caught on Green Big O bait at mouth of Souders Creek.

Wage and price regulation goes far back into history, according to an article in the U. S. Department of Labor's "Monthly Labor Review," which adds that the Roman emperor Diocletian in the fourth century A.D. not only prescribed ceilings on prices and wages but also froze workers to their jobs.

Sportsmen, Corps Differ on Route

The president of the League of Kentucky Sportsmen last week accused the U. S. Army Corps of Engineers of inflating the cost of an alternate route to the Zilpo Recreation Area in its Cave Run Environmental Impact Statement. The impact statement for the Eastern Kentucky reservoir indicates it would cost \$900,000 more to build the alternate route, suggested by the League, than to construct the highway proposed by the Corps. "The League cannot accept your changes of cost on the League of Kentucky Sportsmen's proposed access road to the Zilpo recreation site," League President Reid Love said in a letter to Col. Charles J. Fiala, the Corps' Louisville district engineer. "In your original draft, you stated a figure of \$2,055,000 and now a few months later it becomes \$2,870,000 while no other figures change." Love also released figures prepared by a Kentucky contractor "in the business of constructing roads" which disputed the Corps' statement. According to the contractor's estimate, the alternate route favored by the League would cost a minimum of \$1,765,000 and a maximum of 2,265,000. The 40,000-member League has long battled to prevent the Corps' road, which will cost \$1,900,000, according to the impact statement, because it bisects the Pioneer Weapons Hunting Area in Bath and Menifee counties and threatens to eliminate the wild turkey population in the 7,000-acre preserve.

Maytown '62 Class Studied by 'Talent'

The Maytown High School class of '62 is currently being studied as part of Project TALENT, a nationwide survey supported by the United States Department of Health, Education and Welfare. The primary purpose of Project TALENT is to help improve the educational process and career guidance programs by learning from the experiences, both good and bad, of 1960 high school students. The class of '62 was first surveyed by Project TALENT in the spring of 1960 during the sophomore year. This follow-up survey, being conducted 13 years later, is designed to learn what has happened to them during the years in which they have matured from teenagers to young adults. In September a follow-up questionnaire was mailed to the last known address of each member of the Class of '62 who participated in Project TALENT in 1960. Additional reminder forms will be mailed over the next several months. For the results of the study to accurately reflect the experiences of the class of '62 it is necessary that as many persons as possible respond to the questionnaire. Any person in the class of '62 from this high school who has not received a follow-up questionnaire is urged to write the Project at P. O. Box 1113, Palo Alto, Ca. 94302 and give his current address so that a questionnaire can be sent.

Of 415,000 women 45 years of age and over reported as unemployed in 1972, about 18 percent had been looking for work for six months or more; many others had probably given up, according to the U. S. Department of Labor.

Discoverer of Mound To Address Society

Lansing Brisbin, Jr., the amateur archeologist who recently discovered the Serpent Mound near Catlettsburg, will be the principal speaker at the meeting of the Big Sandy Valley Historical Society Saturday, Nov. 10, at Hinkle's Restaurant, Louisa, Ky. According to Brisbin, the mound near Catlettsburg is thought to be about 2,000 years older than the Circleville, Ohio mound, which would place its construction about 1,000 B.C. This new discovery is composed of millions of rocks which perhaps were quarried at the foot of the hill and then carried to the mound site. Brisbin noted that the serpent coils some 850 feet across the hillsops. Uncoiled, it is about 950 feet long.

The speaker's topic will be entitled "The Catlettsburg Serpent Mound."

Henry P. Scalf, of Stanville, president of the historical society, said the society's board of directors will meet at 11 a.m., while other members conduct small informal group meetings. Luncheon will be at noon, and Brisbin's address is scheduled at 1 p.m.

Labor Department Approves \$216,252 for Eastern Ky. CEP

The Eastern Kentucky Concentrated Employment Program (CEP) has been funded to operate through July 12, next year. The U. S. Department of Labor's Assistant Regional Director for Manpower William U. Norwood, Atlanta, said federal funds in the amount of \$216,252 have been allocated to serve 100 individuals having long histories of unemployment in Floyd, Bell, Breathitt, Carter, Clay, Elliott, Harlan, Jackson, Johnson, Knott, Knox, Lawrence, Leslie, Letcher, Magoffin, Martin, Menifee, Morgan, Owsley, Perry, Pike, and Wolfe counties.

CEP seeks to bring together in one unified effort the various manpower programs administered by the U. S. Department of Labor to help the hard-core disadvantaged in the heaviest areas of unemployment prepare for, find, and hold permanent jobs, Norwood said.

Operating through a single local sponsor, CEP seeks out the hard-core unemployed in ghettos and other areas of concentrated unemployment. The program makes available to such persons manpower and related supportive services, including orientation, basic education, counseling, physical examinations, medical treatment, day care for their children, work experience, job training, job development, and job placement.

The Kentucky Employment Service determines the need for workers in the occupations in which training is to be provided; and offers other supportive services. The State Department of Education's Vocational Division will provide academic services during the period of vocational training.

Election Instruction Dates Are Announced

Instructions on how to operate a voting machine will be held at the courthouse at 6 p.m., Wednesday and Thursday, County Clerk C. "Ollie" Robinson announced Monday. These instructions are for anyone who wishes to attend. Instructions will be given on how to vote in the city and county races; how to sign the new computer roster list of voters; and on Saturday Morning at 9 a.m. instructions will be given to all election officers. All officers must attend.

Day Care Pupils To Receive Free Lunch Benefits

The Mountain Comprehensive Care Center announced this week a free meal policy for school children attending day care training schools and day schools operating under the National Food Lunch and School Breakfast Programs.

Mountain Comprehensive Care Center officials have adopted this policy of free lunches to insure the meeting of adequate institutional needs.

Parents will be asked to fill in application forms that are sent to them, along with other informational materials regarding the School Lunch Program. The parents of each child will have copies of these applications made available at each local Mountain Comprehensive Care Center Office. The information provided on the applications will be confidential and will be used only for the purpose of determining eligibility for this Free Lunch Program. Applications may be submitted any time during the school year.

In certain cases foster children are also eligible for free lunch benefits while attending a Mountain Comprehensive Care Center school. If a family has such children living with them and wishes to apply for these meals, they should contact their local Mountain Comprehensive Care Center office.

In the operation of this child feeding program, no child will be discriminated against because of race, sex, color, or national origin.

Under the provision of the policy Mountain Comprehensive Care Center will review applications and determine eligibility for those students being served within their program.

If a parent is dissatisfied with the ruling of the Office, he may make a request either orally or in writing to Homer Wright, Supervisor of Accounts Payable, whose address is Mountain Comprehensive Care Center, 18 South Lake Drive, Prestonsburg, Kentucky 41653, for a hearing to appeal a decision.

Hearing procedures are outlined in the policy.

Hicks Named Senator In Student Government

Charles Hicks, of West Prestonsburg, has been chosen to serve as Senator in the Cumberland College Student Government Association for the 1973-'74 school year. A freshman majoring in music, he is the son of Mrs. Eulas Hicks, of West Prestonsburg.

Cumberland College is a Baptist-related institution located in Williamsburg, Kentucky.

A Personal Appeal

We join in asking our friends, relatives and all the people of Prestonsburg to vote at next Tuesday's election for our son,

William O. Goebel, Jr.

for

Mayor of Prestonsburg.

We know he will work with the people to make Prestonsburg a better place — with NO new taxes — and that he can get done things that have been neglected.

William O. Goebel, Sr.

Sally K. Goebel

VOTE FOR EXPERIENCE

EXPERIENCE MEANS— Your city funds will be handled wisely—with NO NEW TAXES—to continue the progress Prestonsburg has seen in the past decade. Will you turn a city budget of \$300,000.00 a year over to eight new and inexperienced hands?

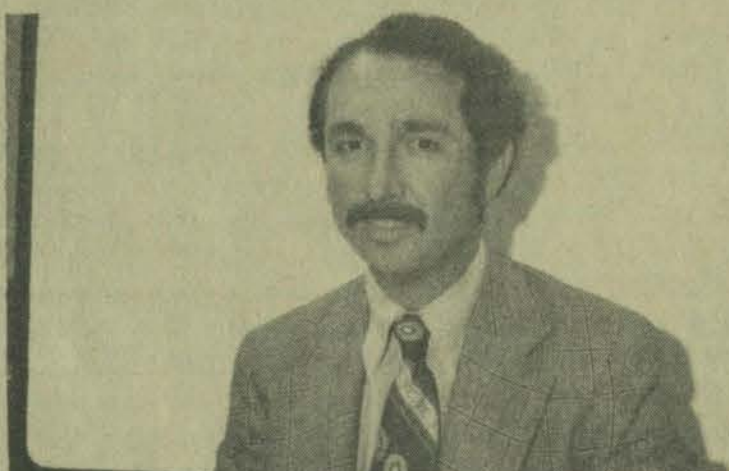

EXPERIENCE MEANS— Six men with a total 76 years of service on your City Council, who can move to act quickly when the need arises. For example, two weeks ago Prestonsburg suddenly became eligible to get \$11,500 in Federal funds—if it could move quickly enough to meet a three-day deadline. We moved quickly and Prestonsburg got the money. Would you have an entire Council unfamiliar with the many complicated Federal programs which now exist to help cities?

EXPERIENCE MEANS— Knowing this city and its needs . . . knowing which roads are county projects and which are city . . . the Indian Hills Road is a county road and re-surfacing of it was begun by the county this week . . . the West Prestonsburg Underpass is a city project and was advertised for bids for re-surfacing in late summer, but the bids were rejected by the state because they were too high . . . red lights are authorized by the State Department of Highways and the present City Councilmen know the people in that department and are working with them constantly to improve Prestonsburg's traffic flow. Would you elect people who would spend city money on county projects? Or too much money on city projects? Or be unable to work with State officials in behalf of our city?

EXPERIENCE MEANS— Six men who are ready and able to work with a new mayor—whoever is elected—to carry out his programs for Prestonsburg's continued growth and progress. This year we will have a new Mayor for the first time in 12 years. Would you elect with him a Council completely unfamiliar with the workings of our city government?

FLOYD FEDERAL SAVINGS & LOAN ASSOCIATION, Prestonsburg, Kentucky, Pif.

VS: NOTICE OF SALE

GEORGE L. SHANNON and **VIVIAN C. SHANNON**, his wife; **UNITED STATES OF AMERICA**, Internal Revenue Service; Commonwealth of Kentucky Department of Revenue; The Bank Josephine, Prestonsburg, Kentucky, Defts.

By virtue of a judgment and order of sale of the Floyd Circuit Court rendered at the October 5 term, 1973, in the above-styled cause I shall proceed to offer for sale at the Courthouse door in Prestonsburg, Kentucky, to the highest and best bidder, at public auction, on the 2nd day of November, 1973, at 10 o'clock a.m., same being a day of the regular term of the Floyd Circuit Court, for cash or upon a credit of six months the following described property, to-wit:

Lots 76A, 77, 78, 79, 80, 81, 82, 83 and 84 of the Arnold and Spradlin Addition to the City of Prestonsburg, Floyd County, Kentucky, as shown on Map No. 84 recorded April 1, 1946 in the Floyd County Court Clerk's Office and based on survey of Prestonsburg Engineering Company on March 28, 1946 and being the same property conveyed George L. Shannon and Vivian C. Shannon by deed of June 30, 1961 from Tom and Edith F. James, as recorded in Deed Book 188, page 57 in the said office. A second tract, being lots 5 and 6 in the Weddington Addition to the City of Prestonsburg, Floyd County, Kentucky, fronting 50 feet on second avenue and running back by parallel lines 100 feet to an alley and being the same land conveyed George L. Shannon and Vivian C. Shannon by deed of August 11, 1965 from Ada Harlowe, et al. as recorded in Deed Book 188, page 409 in the records of the said office.

The amounts of money to be raised by this sale shall be in the principal sums of \$35,100.36 and in the sum of \$7,384.33 and in the principal sum of \$35,465.71 and in the principal sum of \$2,503.06, all of the aforesaid principal sums bearing interest thereon at the rate of 6 percent per annum from October 5, 1973, date of judgment herein until satisfied. There is further to be raised an additional sum amounting to \$25,116.34, plus interest on a principal balance of \$19,433.55 at 6 percent per annum or \$3.19 per day from September 30, 1973 until paid, plus penalty accruing on the amount of \$9,212.51 at the rate of ½ percent per month or \$46.06 per month from October 1, 1973 until date of payment, until a maximum penalty of 25 percent is reached. The additional sum of \$5,992.41 plus interest on the principal balance of \$5,156.89 at 6 percent per annum or \$.85 per day from October 1, 1973 until paid. The further sum of penalty accruing on this amount of \$3,899.27 at ½ percent per month or \$19.50 per month from October 1, 1973 until date of payment, until a maximum penalty of 25 percent is reached. There shall also be included in the amount of money to be raised by this sale the costs of this action, including costs of advertising of this sale and the fees and commissions for conducting this sale.

For the purchase price the purchaser must execute bond with approved surety or sureties, bearing legal interest from the day of sale until paid and having the force and effect of a judgment with a lien retained upon said property as a further security. Bidders will be prepared to comply with these terms.

Given under my hand, this 15 day of October, 1973.

Tribute to Marion Setser

His passing at the age of 92 years marks the end of an era beginning over three generations ago, when the timbermen came into the Big Sandy Valley. 'Tis sad to believe that in a few, short years none will be left to tell the story of how the loggers came with saw and ax to lay low one of the greatest hardwood forests in the world.

Timber companies bought from early landowners these giants of the forest for a song, sometimes setting their own price. But getting the logs to market was quite another matter, and this is where our oldtime friend came into the picture.

Born of pioneer stock, strong and hardy, he delighted in floating the big rafts to Catlettsburg and returning home via steamboat or later on the train.

I remember as a small boy, while standing on the banks of the river near Lost Creek shoal, Lawrence county, the oar of a large raft splashed the water loudly as the logs plowed through the treacherous waters. At first I was alarmed, then came the loud, clear voice of Marion Setser: "How is your grand-paw?" It was always here that he would tie up for the night, for it was here he could expect ham and red gravy with homemade biscuits and other vittles.

But the best part of the story comes last—how, in later years, Marion accepted Christ as his personal savior and became a Christian. Somehow I am made to believe there is a special place in the Great Beyond for men like Marion.

An old friend,

Environmentally Speaking

One of the most substantial problems facing a water pollution control agency is the determination of the degree of treatment required for a given waste discharge.

The minimum objective in Kentucky is secondary waste treatment which will remove 85 per cent of the pollutant material in municipal waste. In some cases where stream flows are low, this degree of treatment is not sufficient to protect the receiving stream and meet all of the water quality standards.

The method of determining the waste load which a stream can accept after secondary treatment is an involved process. To assist the State of Kentucky in waste load allocation studies, the federal government has increased the program grant to the Division of Water by \$78,500. The studies will be accomplished through a contract with the University of Kentucky. Qualified individuals will serve as special consultants to the project.

The Division of Water will gain experience and develop an "in-house" capability to make further waste load allocation studies on completion of five studies to be done under the contract.

Additional waste treatment can be very costly, both the initial cost and operating cost. To spend the limited funds available for waste treatment in the most effective manner, scientific determination of waste load is necessary.

These studies will be conducted at every municipal site where the stream flow, in relation to the waste flow, is not sufficient to protect the receiving stream for all of the water quality standards. After the waste load allocation study is made, it will then be possible to study the alternates on a cost effective basis and apply the most effective control to achieve maximum results.

OBSERVE 25TH ANNIVERSARY

Mr. and Mrs. Clifford Hicks, of David, observed their 25th wedding anniversary, October 23. They were taken to dinner by their children, Mr. and Mrs. Rodney Hicks, of David, Mr. and Mrs. Keith Hicks and Amy, of Hueysville, Mr. and Mrs. Barry Click and Meri Lynn, of David. Later, they were presented a cake and gifts of silver.

Through my campaign I have tried to see as many people as I could, but have found it impossible to see all the voters in Floyd county. To those I will not be able to see I humbly beg your vote and support for Sheriff of Floyd County.

If elected Sheriff I will do my best to make Floyd County a better place to live in. I will work with any official or police officer as long as they are on the square.

I promise:

1. Some one will be kept in the office 24 hours each day.
2. Two deputies will work at night.
3. Ball games and social programs will be protected.
4. Churches will be protected, if necessary.
5. Deputies will be in uniform and in marked cars while road patrolling.
6. Funerals will have escorts.
7. Bootlegging and breaking and enterings will be worked to the fullest extent.
8. I will be fair and impartial to both Democrats and Republicans.

SPECTACULAR SPECTERS OF HISTORIC MANSION

By PAULA ALEXANDER

Frankfort is the site of many beautiful old homes which date back to the days of the town's early settlement, but none are more famous than Liberty Hall, located at the corner of Wilkinson and West Main streets.

It was built in 1796 by John Brown, one of Kentucky's first U.S. Senators. But it is better known as the home of at least three ghosts.

The most widely known is the "Gray Lady," who is believed to be an aunt of Mrs. Brown. The Browns were quite despondent over the untimely death of their eight-year-old daughter. Realizing this, Mrs. Varick came from New York in 1817 to comfort them.

The 65-year-old woman traveled over 800 miles to Frankfort—a trip that required horseback riding most of the way. It must have been an exhausting journey because Mrs. Varick died of a heart-attack three days after arriving.

She was first buried in the garden but later was removed to the Frankfort Cemetery.

For over 150 years there have been sightings of the "Gray Lady," although they are usually second-hand. Mrs. Robert Coleman, curator of Liberty Hall, opines that many people are reluctant to admit a "sighting" for fear of ridicule.

Those who have sighted the "Gray Lady" claim that she is a lovely woman dressed in a long, gray, silk gown. She is often seen at some household task or gazing out of the windows, according to Mrs. Coleman.

A fire partially destroyed the interior of Liberty Hall on Oct. 26, 1966, and resulted in a published report of eerie "goings on." An employee of the Frankfort State Journal, Bob Watson, and a fireman, Les Barber, remained in the old home for three nights to guard the stately place from vandals.

They reported such bizarre occurrences as doors closing behind them and candles being snuffed out by sudden drafts of cool air.

Watson later recounted the episode for his newspaper and admitted, "I don't know the answers, and none of us are scaredy-cats, but there's something weird going on in that house."

The bedroom in which Mrs. Varick died contains three small gold bracelets resting on a small table—jewelry that obviously belonged to a child. Mrs. Coleman claims that although she is well aware of the contents of the mansion, she had never noticed the items until one morning a few years ago.

Curious, she took them to a jeweler who informed her they were of solid gold and dated back to about 1800.

There is a theory that the "Gray Lady" is never seen outside the house because she was not able to comfort the family when they needed her and only added to their grief by her death.

That is not the case of the spirit of a Spanish opera singer who visited the Brown home in 1805 after giving a concert at the nearby "Love" house. A reception was held in her honor.

During the course of the hot, humid evening she wandered out in the garden alone and was never found.

Mrs. Coleman said that a visitor at Liberty Hall a few years ago asked her to describe the "Gray Lady." She did so and he shook his head. The man told her that he had been driving across a nearby bridge that towers above the garden.

He has seen a woman running through the garden with a terrified look on her face. He stopped to offer assistance but couldn't locate her.

That was the first report that Mrs. Coleman received of the opera singer's ghost. Later she heard other reports. Those who have seen the spirit describe her as wearing a pastel ball gown with her black hair worn "up."

Many people think the singer was captured by hostile Indians as she walked in the garden.

Little is known of a third spirit—a soldier of the War of 1812—except that he was the sweetheart of a visitor of the Brown family. Those who have seen him say that he comes to the windows, looks searchingly into the house, and then turns and walks away.

In order to keep Liberty Hall's "guests" pacified, Mrs. Coleman asserts that although she has never encountered them herself she has an open mind.

WE NEED ANNUAL SESSIONS

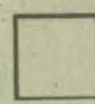

CONSTITUTIONAL AMENDMENT #2

Shall Sections 32, 36 and 42 of the Constitution be amended so as to: (1) Provide that no person shall be a Representative or Senator who has not resided in the district from which he may be chosen for two years next preceding his election; (2) Provide that the General Assembly shall convene each year on the first Tuesday after the first Monday in January, except in the year following a gubernatorial election, it shall convene on the first Tuesday after the first Monday in March; (3) Provide that no session of the General Assembly shall continue beyond forty-five legislative days, which need not be consecutive; nor shall a session extend longer than four months after convening, provided, however, upon approval of the two-thirds of the members of the House and of the Senate, a session of the General Assembly may be extended for a total period of not longer than six months after convening; (4) Provide that Committees of the General Assembly may meet on any day which is not a Sunday or a legal holiday from the time a session is convened.

FLOYD CO. 84-4

YES

NO

FACT: In our 50 states, 40 now have annual sessions of their State Legislatures. The Kentucky Legislature meets for only 60 days every two years.

FACT: The Executive Branch—which is the Governor—presently enacts twice as many laws as does the Legislature. He can do this simply because the Legislature does not meet often enough to pass needed laws at the time they are needed. Your State Senators and Representatives are the fellows you talk to at home. They know what you want and they are supposed to be passing laws. Not the Governor.

FACT: More than 1,000 bills are introduced in each regular session of the Legislature. More time than 60 days is needed to give thought to those bills. Those that are passed become our laws for at least two years. In addition to the bills there is Kentucky's two year budget to adopt in each session, which now amounts to over TWO BILLION DOLLARS. Legislators are human—they need time to study that kind of budget if they are to be sure your tax money is spent wisely.

Constitutional Amendment No. 2, which will allow annual sessions of the Legislature, is printed above as it will appear on the ballot on election day. It looks just about as complicated as some of the 1,000 or more bills which legislators are faced with in every 60-day session, but we urge you to study it carefully and vote YES. More simply, the key elements are these: (1) To be a candidate for the Legislature you must have lived in that district at least two years; (2) In the year after the election of a Governor, the Legislature will meet in March rather than January so the new Governor will have more time between his mid-December inauguration and the convening of the Legislature to draw up his budget and make his plans for any new programs; (3) The Legislature will meet for 45 days rather than the present 60, but it may recess for a week or so to let members catch up on the thinking at home or give study to complicated proposals—something the present legislature cannot do. However, it cannot spread a session out over more than four months without special approval, and can never extend itself for more than six months; (4) Committees may meet whether a session is going on or not, except on Sundays and holidays, so committee members can meet throughout the year to give more time to discussion of issues and bills.

COST MORE? Yes, slightly. This has been one of the biggest arguments against annual sessions. But Kentucky only spends \$1.30 per person per year right now on the Legislative branch of government. The average state spends \$2.00 per person. Some opponents of annual sessions say it will cost twice as much because it will meet twice as often. Not true. In the last 21 years there have been 13 special sessions—more than one for each year the Legislature didn't meet in regular session. Annual sessions could eliminate special sessions.

SAVE MORE? Yes, definitely. We would have lost all of our Federal revenue sharing money this year because Kentucky had the ONLY State Legislature in the country which did not meet in 1973, but we were saved by a special act of Congress. In Floyd County alone we get over \$300,000 a year in revenue sharing money. That is just one example. Congress meets annually and passes laws and acts each year providing funds or programs to the states, and Kentucky should be able to take advantage of them. And, Legislators with more time to study a Two Billion Dollar Budget are sure to find hidden expenditures which are costing the taxpayer needlessly.

Constitutional Amendment No. 2 is endorsed by Congressman Carl D. Perkins, and U. S. Senators Walter "Dee" Huddleston (Democrat) and Marlow Cook (Republican) are the State Co-Chairmen for its passage. In addition, the undersigned, who are all past or present members of the Legislature representing Floyd County, urge you to

Kentucky Afield
By Hope Carleton
Dept. of Fish and Wildlife

Every season in Kentucky seems to have something special to offer enthusiastic hunters and fishermen.

Spring brings on the white bass and crappie runs, followed by bluegill on the nest. Wild turkey hunters have their heyday too, while jump fishermen ply their skills as summer comes rolling in.

Squirrel and dove hunting arrive as fall approaches and then it's also time for casting the bank for black bass or hunting deer as the leaves change their colors.

Some sportsmen hunt quail, rabbit or grouse in the fall and winter. There are those who know that during November and December the big rainbow trout are on the prowl and that this is the time to break another state record. (The existing record rainbow trout is listed at 14 pounds, six ounces. It was caught by Jim Mattingly, of Somerset.)

Below the dam in the tailwaters of Lake Cumberland, many large rainbows have been stocked for more than 20 years. In the last four years, over a quarter-million trout have been placed in these cold, swift waters by the Department of Fish and Wildlife Resources in cooperation with the U.S. Bureau of Sport Fisheries and Wildlife.

Even though this program is on a "put-and-take" basis, all of the stocked trout are not harvested. In fact, five pounders are not uncommon, and every year ardent trout anglers swear to the fact that trout larger than the current record have been hooked and lost.

Fred York, veteran conservation officer with the Department of Fish and Wildlife, says that November and December are the two prime months for the big rainbow. The water flow during this time is generally slow and, with the coming of winter, these monster trout seem to go on a heavy feeding foray.

While some anglers choose to fish on

the bottom with whole kernel corn, garlic cheese, nightcrawlers or even marshmallows, others cast flashing spoons and spinners. At peak times, almost any method will take a limit.

Trout fishing below Cumberland Dam is good downstream to well below Burkesville—more than thirty miles of cold-flowing, trout-producing waters.

Launching areas are located below the dam and at Burkesville. A 14-foot john boat with a ten horsepower or larger motor will suit the needs of a float trip quite well.

The possession limit on rainbow trout is eight, and a trout stamp is required in addition to a valid fishing license.

The Commonwealth has many other trout-producing lakes, streams and tailwaters. For a detailed stocking schedule, as well as a complete rundown on trout fishing areas, contact the Department of Fish and Wildlife Resources, Division of Public Relations, Capital Plaza Tower, Frankfort, Kentucky 40601.

Morgan County's annual sorghum festival attracted thousands of people from throughout the state to celebrate the changing seasons and the year's sorghum production. Arts, crafts, good food, and music highlighted the event, held in West Liberty Oct. 12-14. Selling a jug of sorghum to Shirleen Jackson is Marie Stumbo, West Liberty, as Mr. and Mrs. Barry Jackson, Nicholasville, watch the transaction. Lucille Walter, West Liberty, serves up some old-fashioned chili to Neil Hunley, also of West Liberty.

More Than 200 File For Added Payments Under New Program

More than 200 persons in the Prestonsburg area have applied for supplemental security income payments, the federal program starting in January that will establish a nationally uniform floor for people with little or no income who are 65 or over, or blind or disabled.

Social Security offices are taking applications now from people who aren't getting state or local public assistance payments but who think they may be eligible for supplemental security income, according to Fred T. Reffett, social security district manager here.

"People who aren't getting state or local assistance payments should apply now for supplemental security income so their applications can be processed before the program begins in January," Reffett said.

They do not need to apply for supplemental security income payments if they get state or local assistance payments because they're 65 or over, or blind, or disabled, according to Reffett. "Eligible people getting state or local payments for December will continue to get payments in January when the federal program starts," he said.

The amount of the monthly check people will get will depend on how much other income they might have. "People with no other income at all will have a basic cash income of at least \$130 a month for one person and \$915 for a couple," Reffett said. "People with other income may get reduced supplemental security income checks."

Federal supplemental security income payments will be made by the Social Security Administration, but the program will be financed by Federal general tax revenues - not by social security contributions.

The Prestonsburg, Kentucky, social security office is at North Lake Drive. The phone number is 886-8525.

The Social Security Administration is an agency of the U.S. Department of Health, Education, and Welfare.

WE'RE GETTING THINGS DONE IN PRESTONSBURG

During the past decade, the people of Prestonsburg have seen experience and action combine to bring more progress to our city than at any time in its history.

- Two new downtown parking lots with room for 232 cars.
- A new sewage treatment plant with plans now approved for expansion.
- A new water treatment plant with plans to increase the capacity from 1 million to 5 million gallons per day.
- A flood gate to prevent flooding of the downtown area.
- Twice-a-week garbage pickup which is citywide and from door to door.
- An up-to-date police force trained and educated in police work.
- A street sweeping vehicle covering all of the downtown area and most of our residential areas, daily.
- Thirty-two-acre Archer Park, a city-operated recreation area with three swimming pools, six tennis courts, skating rink, horse ring, fairgrounds, camping area, softball and baseball fields.
- New street lighting for the entire city.
- Four separate low-rent housing projects totaling 235 units.
- A new library with 50,000 books.
- A two-year community college with a present enrollment of 528.
- The new 150-bed Highlands Regional Medical Center.

These are just a few of the major advances which have come to Prestonsburg. Many other projects are now in the works, including improved garbage service, a mini park for the low rent housing areas, improved streets and highways, a new municipal building, and enlarging the capacity of our sewage treatment plant and our water purification plant.

You can be sure that progress for Prestonsburg will continue. Re-elect the men to your City Council who have brought you this progress in the past . . .

Frankfort Cemetery... A Walk Through History

By PAULA ALEXANDER
Frankfort, Ky.—A walk through Frankfort cemetery, nestled atop a quiet hill overlooking the Kentucky River, is a journey into the pages of Kentucky history.

The cemetery is the final resting place for famous pioneers, dignitaries, politicians and soldiers, as well as near

greats and unknowns who worked, fought and died as Kentuckians.

Daniel Boone's grave is the cemetery's most widely visited site. The pioneer who yearned for "elbow room" was first buried in Missouri but later was moved with his wife, Rebecca, to Frankfort in 1845-25 years after his death.

During the ceremony for the Boones'

reinterment, their flower-strewn hearse was drawn by four white horses. After the coffins were lowered into the grave, hundreds of people passed by, each throwing a handful of dirt on top.

The original Boone monument was soon destroyed by relic hunters, so the 1906 Legislature allocated \$2,000 for a new one. Its base is composed of stone from Boonesboro.

Four panels, exact reproductions of the original ones, are on the monument and each has a different scene. One portrays Rebecca Boone milking a cow while another depicts Boone fighting with an Indian. Boone is sitting at the door of his cabin with a recently killed deer on the west side and talking with a young boy on the north panel.

Another prominent Kentuckian buried in the Frankfort Cemetery is Col. Richard M. Johnson (1781-1850), a Kentucky legislator, both representative and senator in Congress, as well as Martin Van Buren's vice-president from 1837-1841. A carving on his monument depicts Johnson about to kill the renowned Indian leader Tecumseh.

Towering over a section of the cemetery known as the State Mound is a 65-foot tall structure dedicated to Kentuckians killed in major battles. The Statue of Victory perches on top of the marble monument.

Kentucky's unknown soldier is buried in the State Mound. According to legend, he was a young boy from Shelby county who died in the Mexican War at the Battle of Buena Vista. His regimental application was reportedly refused because of his youth but was later accepted after his mother persuaded the captain to enlist him.

Prior to a charge on Mexican lancers, the boy was ordered to remain behind the lines. He refused, saying that it would be cowardly if he did not participate. He was pierced by a lance.

The rear of the graveyard is filled with older stones black with age and nearly illegible. Here one can find Kentucky's heroes of the American Revolution, including four early governors—John Adair, Christopher Greenup, Charles Scott and George Madison.

Other Kentucky governors buried in Frankfort cemetery are James T. Morehead, John J. Crittenden, Luke P. Blackburn, Robert P. Letcher, Charles S. Morehead, William O. Bradley, S. B. Buckner and William Goebel.

Goebel was the only Kentucky governor assassinated. A portion of his stone reads "I forgave them, they do not understand."

Sculptor Joel T. Hart's tombstone also bears an appropriate epitaph: "Seek him not here but in the stone where he lives in his own art's immortality."

The tombstone of James Francis Leonard, the "first sound reader," depicts a telegraph instrument with a hand operating it. Carved on his stone is: "Called home by the Grand Chief Operator to work the eternal circuit above."

The developer of bibb lettuce, George Bibb, is also interred in the cemetery. When he wasn't in his small greenhouse Bibb served as chief justice of Kentucky's Court of Appeals.

Anecdotes surrounding the personal histories of those buried in the cemetery are endless. It is a landmark for which Kentucky is justifiably proud.

ARH To Use \$30,000 Gift At Its Harlan Center

The United States Steel Foundation has pledged a grant of \$30,000 to Appalachian Regional Hospitals, Inc., it was announced last week.

Fontaine Banks, Jr., executive vice-president for operations of ARH, said the gift will be received later this year and applied toward the expansion of the ARH regional health center at Harlan.

On May 6, 1965, Joe Wheeler made this promise to the people of Floyd County in the Floyd County Times, and I quote:

"I promise the people of Floyd County that if I am elected their sheriff neither Mack Lewis (Joe's brother) nor any other person who has been convicted of a felony will ever be a deputy of mine."

Joe Wheeler has stated that I have been slinging mud. Friends, slinging mud and stating the facts are two different things. A former elected official should recognize the difference. The good citizens of Floyd County recognize the difference.

I want to make it plain to the people of Floyd County that it had never occurred to me that Silas Derossett had ever committed a felony. This was not the intention of my inquiry. My interest was and still is in the fact that Joe Wheeler went back on his word to the citizens of Floyd County. Joe never asked me to help recommend his deputies. I have lived in Floyd County all of my life, and this is the first time I ever knew that Joe chose his deputies by a petition. What about you, friends. Did Joe ever ask you your opinion as to who he should choose as his deputies? But the fact still remains that Joe is not leveling with the people of Floyd County. You could not prove by me that Silas Derossett ever was convicted of a felony, but I do know of others. For instance, one of Joe's deputies killed his father-in-law. Is that a felony, Joe? I have always considered the Derossett Family my friends, and the ones I know are outstanding citizens.

Joe Wheeler says, "Don't let Billy The Kid run at large any longer. Who is he referring to? Could it be the good people of Floyd County?"

I have never been in the least concerned about Joe Wheeler's police and conviction record, but now that he has mentioned it, it makes me wonder why? By the way, James "Red" Slone should not have to explain anything. You are the man running for high public office, Joe.

If you are guilty of the least, you are guilty of the whole.

Volunteer Fire Department At Maytown Now a Reality

Langley, Ky.—In 1969 Postmaster Edward F. Robinson, of Langley, decided that the community needed fire protection. After two years of letter writing and making telephone calls he succeeded in getting Maytown business man Jim Hall interested.

Tuesday, October 23 it became more of a reality when they acquired a surplus 2½-ton Army truck at no cost to the department. This was done with the help of Petty Thompson of Prestonsburg, Floyd County Civil Defense director, and Jim Hampton, of Paintsville, Area 4 Civil Defense director. The truck was picked up at Avon Army Depot near Lexington and driven back to Maytown by Danny Hicks, Jim Hall and Donahue Halbert. A tank for the truck was donated by the Ashland Oil Company. Present plans are to have the fire truck in operation by Thanksgiving.

A regular meeting date for the volunteer fire department has been set for the first Tuesday of each month at the Maytown school. Since the first Tuesday in November is election day, however, the regular meeting will be postponed

until Wednesday, November 7. Men and women, young and old, are urged to attend the meetings and take part in the organization.

The boundary of service has been set to include Eastern to the top of Goose Creek hill, to the mouth of Stephens Branch on Highway 80, to the head of Turkey Creek, Henry's Branch, Johns Branch and Wilson Creek. But if the need arises the truck will go beyond these areas.

Officers have been elected with Jim Hall as chief and Linda June Turner as secretary-treasurer. Mrs. Mildred Halbert is in charge of fund-raising and thus far, mostly by herself, has raised more than \$800. It is hoped when the department becomes operational that people living in the areas served will voluntarily contribute \$1 each month, or whatever they feel they can afford. Any who wish to make a contribution should see Mrs. Halbert, Edward F. Robinson or Jim Hall or mail it to the Maytown Voluntary Fire Department, Langley, Ky. 41645. All contributions are tax deductible, if deductions are itemized.

Black Lung Pay Set for Raise

Black lung payments to coal miners and their families will increase, beginning with checks mailed in early November, according to Fred Reffett, social security manager here.

Black lung benefits are pegged to the pay of federal government employees, who received a 4.77 percent raise in October.

The monthly payment in November to a coal miner disabled by black lung, or to his survivor, will be \$177.60—up from \$169.80, Reffett said. The maximum black lung benefit payable when there are three or more dependents will be \$355.20 a month, increased from \$339.50. A miner or survivor with one dependent will get \$266.40 a month beginning in November—and with two dependents, \$310.80 monthly.

Payment of most black lung benefits under the Federal Coal Mine Health and Safety Act, is administered by the Social Security Administration. The U. S. Department of Labor, however, began on July 1 to administer new claims filed by miners.

Top State Officials To Tour 7th District

Carrying out their promise to help elect Democrats on every level, Democrats from all parts of the state will be traveling in the 7th Congressional District, November 1 and 2. Lt. Gov. Julian Carroll will head a group scheduled to be at May Lodge at 7 p.m., Thursday.

Governor Ford is scheduled to visit Maysville, Vanceburg, Greenup, South Shore, Flatwoods, and Carter Caves State Park, Thursday. The Governor and other Democrats will continue into Ashland, Louisa and Morehead, November 2.

In the southern section of the 7th District other Democratic dignitaries will be visiting Campton, West Liberty, Salsersville, Paintsville as well as Jenny Wiley State Park. This bus, carrying Lt. Gov. Julian Carroll and Sen. Bill Sullivan, of Henderson, will continue into Pikeville and Whitesburg, November 2.

IMPORTANT COMPREHENSIVE HEALTH MEETINGS

Comprehensive Health Care, Inc., Is Now Organizing Countywide

You can help protect your health investment by being involved in meetings designed to further your participation in crucial health policy decisions in Floyd County. COMPREHENSIVE HEALTH CARE, INC., is now forming its Board of Directors. Help make that Board responsive to the realistic health needs of Floyd County.

Because your involvement is needed so badly, more than 60 percent of the total Board of Director membership will be potential consumers of care under the O.E.O. poverty guidelines. Two (2) representatives will be elected from each of the eight geographic areas of Floyd County, (see map). Area nomination meetings will be held November 12, 13, 14, and 15, 1973 at 7:30 p.m. in each of the areas. On November 27, 1973 between the hours of 7:30 p.m. and 9:30 p.m., area elections will be held. Only bonafide area residents meeting O.E.O. poverty guidelines can vote. All area nomination and election meetings are open to the general public, but are not open to the general public as far as eligibility is concerned as a voter or a nominee.

The following times and dates will be observed for the area nomination and election meetings:

Sister Angelo Award Winner

Recipient of Our Lady of the Way Hospital's 1973 Sister Angelo Award, Sister Jane Frances Kaelin (left) is being presented with a dozen red roses and an engraved silver dish by Sister Mary Angelo in whose honor the award is given and who worked at Our Lady of the Way since its beginning in 1947. The award, presented October 23, also includes a \$50 Savings Bond and the recording of the recipient's name on a plaque in the hospital's main lobby.

Glaucoma Clinic Slated By Health Department

The Floyd County Health Department will conduct a glaucoma clinic, Friday of this week. The clinic, which is a free service, will be held from 10 a.m. to noon and from 1 to 2 p.m.

Glaucoma most frequently occurs in persons over 35 years of age and is likely to run in families. Undiagnosed and untreated, it can lead to total blindness. Pointing out that one out of every seven blind person in the United States lost his or her sight because of glaucoma, public health nurses urge all over the age of 35 to take advantage of this service.

City Records Win Award for 3rd Time

For the third consecutive year the city of Prestonsburg has received from the Kentucky Municipal Finance Officers' Association its Certificate of Merit for conforming with the association's standards of financial reporting.

The award was made after last month's review of the financial reporting done by Jeannette McCauley, city treasurer.

To The Voters of Magisterial Dist. No. 1

In last week's Floyd County Times my opponent condemned me for earning a livelihood for my family. However, he failed to show any proof of my having neglected any road or my duties as Magistrate in Dist. No. 1.

We have purchased more than \$300,000 in new equipment to further our Rural Program.

My opponent states he has three children to support. Does he expect the office of Magistrate to do this, if he were elected?

My terms of office have been free from any scandal, and will continue to be.

Simply because I work 40 hours per week at another job to support my family should have little, if any, bearing on this office. Floyd county has never had a Magistrate who did not work at another occupation.

Just because I want to stay honest and not abuse this office, I will continue to work and not try to abuse the office by any dishonest act to make it pay more than the legal amount set forth by law.

SUPPORT AN HONEST CANDIDATE.

Rediscover The Beauty of Autumn

By HELEN PRICE STACY

If the family has but one sight-seeing trip left before Thanksgiving, take a drive along the Mountain Parkway while autumn lingers on hillsides and mountain peaks.

To start this slow-paced path into autumn, begin in the Bluegrass, and what better beginning than with words from Lexington poet-artist Miriam Woolfolk.

Weed seed, burnished bronze,
Fiery sun, a burning orange orb,
Vapor trail, copper toned,
Split the rose-metallic patch of sky!
Gold embroidered thunderhead lines
The rain-washed meadows and the trees.

Look quickly! Over the fields!
Sunset's molten copper splashed the land!

Morgan county poet Katherine McClure Amyx writes about autumn leaves pinned to rocks as if describing a scene at Natural Bridge State Resort Park, just off the Mountain Parkway in Powell County.

She describes the fall of the year as a season that tries to regain what is lost by repeating summer days in one great swoosh of calico trees.

The well-known poet James Still, poet-in-residence at Morehead State University, travels through Magoffin county to reach his beloved log house in the Knott county hills. He sees with an open eye the secret path that leads to a pawpaw thicket, and leaving for a time the white-lined highways views creekbed roads that quilt hill land, and stony waters of Troublesome Creek—landmarks of the heart.

The toll road ends but the autumn gold ribbon leads on to Floyd county where hills become needle-sharp torches of red, yellow and bronze flames and the modern gleam of a new highway follows

Indian summer on into Pike county.

Rufus M. Reed, the voice of mountain poets, writes about the wildflowers of autumn. He describes asters of late fall as flashing "miles of smiles." He tells of watching the ox-eye daisy float its sails over hills and pastures, of time required for nature to ripen things. "To build a life takes more than just a day," he writes, adding that "We'll reap if we endure."

He, like Mrs. Amyx, welcomes autumn as a time to gain "a peace that stills the mind—a peace that makes me whole." She describes autumn as soothing as a Psalm, though it is given the commonplace name of fall.

These truly are the days of calico trees, denim skies and fields of homespun and burlap. Along the length of Mountain Parkway, nature has woven a mountain coverlet of many colors.

Gov. Wednell Ford delivered an address recently on the national economic crisis at the Southern Governors Conference which he attended last week in Point Clerk, Ala.

Citizens of Prestonsburg!

Last week you were informed in this newspaper by certain members of the Prestonsburg City Council that they stood for progress. In support of this assertion they listed a right impressive number of accomplishments which they contend were made possible by the wise use of your tax money.

It is, of course, easy to list good deeds and place emphasis on these; when this is done it conveys the false impression that since good deeds were done, no bad ones have occurred and no governmental neglects happened. But is this so?

For instance, does the accompanying picture showing the conditions of the entrance to the underpass leading to West Prestonsburg indicate that progress and a wise use of tax money has been made? Does the picture showing the conditions of the street leading past the Indian Hills Subdivision at Mays Branch show that a wise use of your tax money has been made? What does the picture of old Highland Avenue indicate to you? Does the general condition of the area in and around Highland Avenue indicate that progress has been made for the benefit of all?

If I am elected as a new member of the Prestonsburg City Council, I promise to faithfully support programs which will benefit ALL of our fine people. I will work to see that situations depicted in these pictures will be corrected. I will especially work to see that the poor people of this fine city are treated on an equal basis with the very rich. Only then can it be proudly said that our city has a government of the people, by the people and for the people.

Vote for a new City Councilman, Paul Joseph, on the Independent Ticket. My name is number eight on the ballot.

Paul E. Joseph

McDowell Dare Devils Start 13th Season Under Grigsby

McDowell, Ky.—Last season Pete Grigsby, Jr. led the McDowell Daredevils to the titles of champions of the conference, the 58th district and the 15th region. The team returns this year with plenty of ammunition after losing only four players from last seasons roster.

The seniors on the team this year are Glenn Heinisch, guard; John Pack, guard; James Tackett, center; Johnny Martin, forward center; Ricky Henson, guard; Donald Osborne, guard; and Lewis Knott; forward center.

Ricky Roberts and Phil Paige, both juniors, and David Grigsby, a sophomore, also return to the squad.

Members of last year's junior varsity team and three new students, Larry Daugherty, Mike Newsome, and Dan Martin are bidding for the remaining positions.

The Daredevils open their season with a home game November 2 against Feds Creek. They finish the first month of play with the Jenny Wiley Invitational and the pre-season tournament, both to be held at Prestonsburg.

December and January show the Devils a trip to Grant County for the Grant County Inv., and then to Paintsville for the Paintsville Inv.

February is the big month for Pete Grigsby and the Daredevils. They open the month with Louisville Male at Betsy Layne. On the 9th they travel to Louisville for a return game with the Shawnee

Indians. They then return to face Pikeville.

In and around the community of McDowell the excitement is increasing as November 2 nears and the Daredevils attempt to renew their title as 15th regional champs.

Coach Grigsby will be trying for his 13th consecutive 20-game season at the Left Beaver school. In 12 seasons the Daredevils have won three Regional Championships and 315 games as opposed to only 113 losses. This is an average of almost 26 wins per season, one of the best records in the state.

Do We Need A Change?

Supporters of Clark for Judge Think So.

THIS IS WHY:

1. Our roads should be maintained all the time, rather than at election time. White gravel is all over the place right now.
2. We think, with a good fiscal court, our school system can be supported 100 percent with a good judge.
3. We think the whole county could have the same as Prestonsburg if we had a good judge for all Floyd county.
4. We believe the judge should continuously ask the people their needs and stress forward to achieve their needs, rather than asking the people once every four years for their vote and nothing else. How many times has your present judge asked you for something other than an easement (for nothing) or a vote?
5. We believe in a change because we are changing. This county will have in 1974 a newly elected sheriff, and we are going to elect a new County Judge to go along with the 3 or 4 new magistrates.
6. We believe the landfill sites should have already been purchased and in use.
7. We believe the Revenue Sharing should be used by ideas of the people.
8. We believe the strip-mining fees should be used for the betterment of the people.
9. We need new schools at McDowell and Betsy Layne and some other schools, and the judge can help get this.
10. It has been said around the courthouse that, if a candidate can carry District 4, he could win over our present dictatorial judge.

Well, if you want to win your vote and have a great county and a great County Judge —
