### Joint Funeral Held for Two Wreck Victims

Joint funeral rites were held Tuesday for Vernon B. Johnson, 35, and Franklin D. Amburgy, 40, brothers-in-law who were killed late Saturday in an auto wreck near Wheelwright.

The two, both residents of Halo, were killed when the auto driven by Johnson left KY 122 and smashed into a tree. A third man, Lester Johnson, also of Halo, who was a passenger in the auto, was listed in serious condition Monday at the University of Kentucky Medical Center, Lexington.

State Police said the driver rounded a curve in the highway and lost control of the car. The car skidded sideways and its top jammed into the tree, it was reported. Both victims were dead at the scene.

Johnson, a self-employed coal truck driver, was a son of Claude and Geraldine Martin Johnson, of Halo, and was a U.S. Army veteran and a member of Local Union 5899, UMWA. Besides his parents, he is survived by his widow, Mrs. Maudie Boshears Johnson, and two sons, Vernon Brian and Matthew Brandon, all of Halo.

Amburgy, a son of Lawrence and Artie Thornsby Amburgy, of Bypro, was a truck driver employed by Kentucky Oil & Refining and was an Army (See Story No. 2, Page 4)

### Public Hearing To Precede Next Meeting, Nov. 2

For the first time since the law gave voters a right to veto tax hikes of more than four percent, the Floyd Board of Education is going to seek one.

By unanimous vote at its regular meeting last Wednesday, the board decided to advertise the public hearing required by the celebrated House Bill 44 before a tax increase can go into effect.

Moreover, since the increase being sought exceeds the four percent cap, it will have to be decided by referendum if that's what the public wants.

Escalating costs "leave us with no other recourse but to attempt to levy the highest rate we can," said Board Treasurer Ray Brackett, who explained that the law allowed the school district to choose one of three tax rates.

The high rate, if approved by voters, would add \$25.75 to the school tax on a \$25,000 home.

The cost of repairing school buses and buying more textbooks—two areas on which a citizens group and state investigators focused critical attention this summer—were mentioned by Brackett among the reasons for seeking the higher rate. High overhead and maintenance costs also make the increase necessary, he said.

Board Chairman Dr. J.D. Adams earlier cited the need to build more schools and proposals to pay teachers more as reasons for "considering other revenue sources." A recent population study suggests that school enrollment here will double in the next 17 years, he said.

Floyd school officials noted also that they have been instructed to hold three percent of local school funds in reserve, in view of a possible shortfall in state funds this year.

The lowest of the three state-approved tax rates available to the school district here this year—known as the compensating rate—is that which would yield the same tax revenue as last year, not (See Story No. 6, Page 4)

### Board Will Ask Help To Lift Pupil Scores

The Floyd school district will ask for state help to lift student test scores, the Board of Education decided last week.

At its regular meeting Wednesday, Don Burchett, state Department of Education official, explained the operation of a "school effectiveness unit," which was created last year to help local school districts that have consistently scored poorly on standardized achievement tests.

Of about 180 school districts in Kentucky, Floyd last year placed sixth from the bottom on the tests, which are administered to third, fifth, seventh and tenth graders each spring, according to state law.

If Floyd is chosen for the program—ten districts participated out of 25 applicants last year—a state team will survey the district to identify practices that may be contributing to students' poor performance. Lost instructional time, absences, and shortened school days would be among the factors scrutinized by the team, Burchett said.

Student test scores will no longer be used as a basis for ordering textbooks, board members decided, following a recommendation of Superintendent E.P. Grigsby, Jr. Instead, books will be distributed strictly by grade.

"We tried to purchase books according to (achievement test) levels, so we wouldn't be sending a youngster home with a book he couldn't read," Asst. Supt. Ron Hager said of the policy being replaced. But Grigsby said reverting to a system of ordering books by grade should correct a problem of textbook shortages which was a focus of parent protest and a state probe last spring.

After November 22, school children will be sent home if they have not had the immunizations required by state law. Health department officials have been so pressed by students in need of shots they have reserved Tuesdays for that purpose. But many parents are still reluctant to have their children immunized, said Asst. Supt. Hager.

Although six hours of daily instruction are required by law, state education officials approved a Floyd plan to set aside a maximum of 45 minutes each week for "culturally enriching" co-curricular activities, Supt. Grigsby told the board. The plan, which was adopted by the board, will provide meeting time for student organizations, it was explained.

Teachers may sometimes be required to stay after school hours for staff meetings, the board decided. A ten-year-old practice of dismissing school early on the first and third Wednesdays of each month—theoretically, so that teachers could meet—was dropped this

#### Salisbury's Petition For Parole Is Denied

The state Parole Board announced, following its meeting last week, that the petition of Roy Salisbury for parole was denied and that further consideration of the case was deferred for a period of two years. Salisbury is serving three concurrent life terms for a triple slaying in this county.

##### ADVICE TO LOWLANDERS

This is your season, the time of year that glorifies the hills almost exclusively.

Springtime, with its renewal of leaf and life and flower, is more universal. But only in the hills, where the maples, oaks, beeches, dogwoods, sourwoods and sumac abound, does autumn work its magic to the point of enchantment.

We all walk in beauty, these days, days that are so few that their loveliness never palls. We do not presume to describe all this, or any part thereof. We offer only good advice—don't miss it.

I have, on occasion, taken umbrance at our friends, the jays, as they swooped in like sky-divers on the other birds which were peacefully feeding. But when that certain cat pounced on one of these handsome bully-birds, the other morning, I wished the family musket was loaded and at hand.

##### NOT FOR SALE

I have some reservations about the claim that Chief Sealath of the Duwanich Indian tribe in the state of Washington wrote this letter with his own hand, but Indian thinking courses its lines, and the old chief did send the letter to President Franklin Pierce in 1855. It reads:

"The Great Chief in Washington sends word that he wishes to buy our land.

"How can you buy or sell the sky—the warmth of the land? The idea is strange to us. Yet we do not own the freshness of the air or the sparkle of the water. How can you buy them from us? Every (See Story No. 5, Page 4)

### City May Lose Part Of a Major Business

If the Lawrence county fiscal court succeeds in financing renovation of the giant Louisa Carpet Mill building outside Louisa, Prestonsburg may lose a substantial portion of possibly its biggest single industry.

The Brown Food Service has been negotiating for a portion of the carpet mill building—possibly 100,000 square feet of it—if the court succeeds in raising a total of \$2.3 million for roof repair, refrigeration installation and other work.

John Forrest Brown, vice-president of Brown Food Service, admitted Monday that the company has the change in its plans but emphasized the point that

nothing is final until the fiscal court ascertains if it can finance the work that is necessary. He added that limited operation would continue from the present location on Third street here.

##### Financing involved includes:

—A \$500,000 block grant for which the Lawrence court has filed application with the state Department of Commerce.

—A \$500,000 loan, which is sought from the Kentucky Development Finance Authority.

—The remainder from industrial bonds and area banks.

### Discipline at Job Corps Here Under Fire; \$793,500 Suit Filed

On the Job Corps logo an arrow points the way up a ladder. That's a ladder of education, officials at the Prestonsburg center explain, and they have figures to show that students here are on it and climbing.

But some critics have charged that, when it comes to discipline, students are climbing no ladders. And instead of an arrow to point the way, they say, students are getting mixed signals.

Charles Alexander has worked seven years in Job Corps centers, first in Breckinridge county and later in Prestonsburg. He believes in the program, which uses federal dollars to help disadvantaged youths earn their GED or learn a job skill.

Tommy Rose feels the same way about the Prestonsburg Job Corps Center, which opened here in 1981 in the sprawling factory that once housed the

U.S. Shoe Corp. on the city's southern end. A city council member at the time, he was a supporter of the proposal to locate the center here when a lot of other people were suspicious of the idea or else downright hostile.

But both men are angry and, if not disillusioned, they are at least apprehensive about the future of the center here unless it gets firmer leadership and tougher discipline.

On a more personal level, Alexander, 42, is upset because he was fired as the center's deputy director last March, on charges which, he says, were trumped up by a regional supervisor who wanted to get rid of him.

And Rose is angry because, after serving on the center's community relations council, defending the program against its critics, addressing a graduating class, and garnering various certificates of appreciation, he is suddenly persona non grata—dropped from the community council and banned from campus by Center Director Thomas E. Hummer.

Officials in the Singer Corporation, which operates the Prestonsburg Job Corps Center under contract with the federal Department of Labor, backed Hummer's March 30 decision to fire Alexander on charges of drunkenness and abusing a student.

Alexander struck back last week with a lawsuit which seeks \$793,500 in damages from Singer, the Job Corps Center, Hummer, and Jennifer Skeens, who was nurse at the center.

Rose poured out his anger in a long letter to Congressman Carl D. Perkins, long-time backer of the Job Corps program, in which he deplored a center staff member's use of obscenities in addressing students there, and accused Hummer of trying to cover up the incident.

### Announce Engagement

Mr. and Mrs. Hubert W. Ritchie, of Pikeville, announce the engagement and forthcoming marriage of their daughter, Linda Lee, to Mr. Malcom D. Layne, son of Mrs. Virginia Jean Layne, of Ivel, and the late Chester Allen Layne.

Miss Ritchie is a graduate of Millard High School, Prestonsburg Community College and the University of Kentucky with a bachelor of science degree in Accounting. Miss Ritchie is currently employed at Ritchie's Hallmark in Prestonsburg.

Mr. Layne is a graduate of Betsy Layne High School, Prestonsburg Community College and Eastern Kentucky University with a bachelor of science degree in physical education. He received his Master's degree from Morehead State University and is currently working on his Rank One Degree. Mr. Layne is employed as General Manager of Campbell Ford, Lincoln, Mercury, Honda, of Ivel.

The wedding will be solemnized at 2 o'clock in the afternoon, November 5, at the First Baptist Church of Pikeville, across from the old Pikeville High School.

The gracious custom of open church will be observed. All relatives and friends are invited to attend.

### Inez Policeman Sixth Charged

The sixth person to be charged in connection with the robbery last August of Paintsville Mayor James Trimble and family is an Inez policeman who was fired last year from the Paintsville Police force.

The accused officer is Steve Wages, 55, who was arrested shortly before Thursday midnight at his parents' home in Magoffin county. Charged with complicity to armed robbery, he was jailed at Paintsville and \$30,000 bond was asked for his release. State Detective said Wages allegedly helped two others, Roger Dale Durham, of Lexington, and Steve Ketchum, of Johnson county, plan the robbery.

Durham, Ketchum and James Allen Dixon, 24, of Johnson county, pleaded not guilty during arraignment hearings last Wednesday on charges stemming from the Trimble robbery and from a July burglary at the property of Ronnie Wells, of Johnson county.

Durham and Ketchum were also charged with wanton endangerment. All three men are scheduled for trial on the Trimble robbery charges Nov. 14 before Circuit Judge James A. Knight.

Circuit Judge W.B. Hazelrigg will preside at a Nov. 30 trial on the Wells burglary charges. Wages was dismissed from the Paintsville Police Department on April 15, 1982 for allegedly sleeping on duty.

He filed a lawsuit on May 4, 1982, in Johnson circuit court seeking reinstatement with back pay. But the civil action languished and was dismissed without prejudice on Aug. 11, said Johnson Deputy Circuit Clerk Virginia Blair.

Dixon's mother, Betty Miller, 41, and brother-in-law, Andrew Dorton, 22, were arrested Sept. 19 on charges of hindering apprehension. Police claimed that Mrs. Miller and Dorton knew Durham and Dixon's whereabouts after the two men escaped from Northpoint Training Center at Danville last July, but did not inform authorities.

Mrs. Miller and Dorton pleaded not guilty and are scheduled for trial Nov. 29 before Judge Hazelrigg.

### WHAT CAN I SAY? WHAT CAN I DO?

If you've avoided visiting the home of a terminally ill friend or relative because you don't know what to do or say when you get there, you're not alone. But here are some things you can consider.

#### DO IT NOW

Visiting them now shows them you're still a friend. Visiting at the funeral shows the widow(er) and family the same thing but also that you waited too long. Do it now, and show your care.

#### WHAT TO SAY AND DO:

Say that you've been praying for him and mean it. Say that you've brought a book that might help. Say you've arranged to take that friend to the hospital (or doctor's office) for the regular visit next Thursday, so the spouse can tend other chores. Take his wife's grocery list along with yours when you go marketing next week. Offer to fix a lunch, wash a car, drive the kids or any other special little chore as needed. But, do it now.

#### DON'T STOP THERE

After the funeral, all the above are still good examples to follow—and may aid in comforting the family.

them for 18 months at a time in a town where they have no ties and find few recreational outlets, relations with the community have been remarkably uneventful.

But Prestonsburg police officers, especially those on the night shift, say they are kept busy with calls involving Job Corps members, mostly for drunkenness and rowdy loitering around the Lancer-Goble Roberts area.

A couple of Job Corps students have been arrested on assault charges, there have been reports of center students throwing beer cans at passing cars, three juveniles from there were picked up last week with marijuana, and Officer David Caudill recently drew a shotgun to disperse a crowd in the Job Corps parking lot.

But serious charges have been rare and, except for an occasional incident like the tragic drowning of two Corps members in Dewey Lake this summer, few Floyd countians seem even aware of the Center's existence.

Both Alexander and Rose predict that will change soon unless something is done to tighten discipline and improve morale at the facility.

Alexander's suit touches only the circumstances of his firing. According to Center Director Hummer and Jennifer Skeens, who was employed at the center as a licensed practical nurse, Alexander turned up at work drunk on the night of March 23 and beat Jeff Bell, a slightly-built but allegedly troublesome student. Bell, who turned out to have had a felony charge pending in Texas, spent a night in jail and was sent home.

Alexander claims he was sober and the youth, who allegedly had been sniffing glue, was drowsy. On a physician's advice, he said, he shook the boy to prevent his falling asleep.

"I talked to him rough and loud. I was trying to make him scared, make him mad," the former deputy director said. Skeens, who was on duty at the time, misinterpreted this as abusive, and so informed Gene Baker, Singer's regional director, he said.

For reasons he doesn't understand, Baker apparently wanted to get rid of him, Alexander said.

The main thing he wants to do is clear his record—he had never had so much as a reprimand in his seven years with the Job Corps and his evaluations, including one dated March 1 this year, were invariably "outstanding" or "excellent,"—Alexander insists.

But he also is hoping the suit will focus attention on the center and perhaps lead to a management shakeup there. "If nothing else, Singer may open their eyes and send someone down to straighten the place up," he said.

"The place is really in bad shape now as far as cleanliness and discipline go. Students cuss the staff out and a staff member was assaulted last Friday. That has never happened before. The place is filthy dirty. Kids are not going to class. They're running up and down the halls," Alexander said last week.

"I busted my tail for two and a half years trying to build good community relations," he added. "Now it's going to hell in a handbasket."

Hummer declined to comment on specific charges, explaining they were being investigated by Singer authorities. But speaking generally, he said, "We feel proud of what we're doing here. This program deals with a segment of society nobody else is doing anything about. We feel the work here is absolutely, vitally important."

One thing Alexander predicts will cause trouble with the community is an "honor pass" system Hummer instituted after Alexander left. (Under the pass system) "the kids can leave the center any time they want to. It's like a taxi service. They take them into Prestonsburg, Pikeville, Paintsville, wherever, put them out of the van and leave."

"That's what happened when the two kids drowned. They took them up there (to the Dewey Dam area) and just turned them loose," the former deputy director said. "You just don't do that. I never allowed students to go to a concert or ballgame without staff supervision."

Hummer credits the pass system with a "dramatic change" for the better in student attitudes. Under the system

students with a good record of behavior and class attendance may leave the center on unsupervised outings. Because students must "prove themselves" to earn pass privileges, the system has helped education and discipline, the center director said.

"We instituted the pass system because this is a school, not a detention center," he explained.

But Alexander says students there had many supervised outings while he was in charge of residential living—including weekend trips, movies, concerts and shopping excursions. "They get to do a lot more things than my own kids do," said Alexander, the father of three teenagers.

With the county's going wet last summer, unsupervised outings make it easy for students to buy alcohol and marijuana, with the result that drunkenness and marijuana use is now a significant problem on campus, the former deputy director charged.

Substance abuse is no greater a problem at the center than it is among that age group generally, Hummer said. And no one has charged that the so-called "hard" drugs circulate widely there.

Rose, a Prestonsburg druggist until he began a new career recently as an auto salesman, says he holds no particular brief for Alexander and that last month's letter to Congressman Perkins is unrelated to Alexander's firing or subsequent lawsuit.

But conditions have deteriorated rapidly at the Job Corps Center since Alexander was replaced by Tom Ward as manager of the campus dormitory, he claims. An August 18 assembly in which Ward "spewed forth a torrent of vulgarity" in front of students and other staff members was just the straw that broke the camel's back as far as Rose is concerned.

"I had been aware that in the past few months community relations were getting much worse and the cleanliness of the center and discipline of students were going downhill," Rose wrote to Perkins. "What happened (at the student assembly) pointed out to me a primary reason why."

Rose told Perkins the program "has gone from a community showplace...to the point that I would be embarrassed to take a visitor onto the center."

Since staff members are meant to be role models for students, Ward's alleged use of obscenities was a serious matter, but one which Hummer tried to "cover up" and "play down," Rose charged.

Higher salaries might attract better qualified staff and cut down a high turnover rate, Rose and Alexander argue. At least until recently, resident advisers and dormitory attendants—positions described by Alexander as "vital to the program"—have paid only minimum wage or a little above it. A counselor with a college degree began at \$9600 a year, an instructor at \$10,000, Alexander said.

"It's the lowest pay scale of any Job Corps center in the U.S.," he said, adding, "You get what you pay for."

Hummer said pay scales have recently been upgraded and that they are comparable to wages paid for similar work in this area.

But, more than better staff, the center needs new leadership, the dissidents contend. "Someone should take a long, in-depth look at the direction in which management is taking this center," Rose wrote.

"We will continue to run it as best we know how," was Hummer's reply.

## 20 Years of College at Home

As the University of Kentucky Community College System celebrates its 20th anniversary Prestonsburg Community College, one of the 13 in the system, looks back with justifiable pride on years of solid achievement. And the administrative and teaching staffs of the college and its students should be joined by the rest of us in celebrating.

It is easy, these days, to recognize the negative at the expense of positive achievement. It must be remembered that, although there are many things wrong with Floyd county and Eastern Kentucky, there also are many things that are good and right. Prestonsburg Community College is one of the latter.

In these days of soaring costs of education, costs that harass parents and in many cases deny bright minds the development that they deserve, this and other community colleges offer quality education at low cost. Here, the student may do his or her first two years of college at home, then transfer for the final two years to a four-year institution. (And it should be added that those who do those first years of work at PCC and other community colleges rank high at other state universities and colleges when they do transfer.) Others may complete work for an associate degree in a technical field and go to work in this area. Still others, young and old, may benefit from continuing education programs and cultural activities in the areas of music, crafts, theatre and art that add to the quality of life.

Twenty years ago, when the community colleges first opened their doors, they had, all told, an enrollment of only 2876 across the state. Today, they have more than 22,000 students—as many as there are on UK's main campus in Lexington.

The partnership between the University of Kentucky and the community colleges has worked well. It has worked so well, says UK President Singletary, because of the cooperative spirit that has existed from the outset.

Happily, the community colleges in this relationship have found the best of two worlds. They have local autonomy—advisory boards composed of local area leaders—and the flexibility to develop programs to meet the needs peculiar to their own areas, at the same time enjoying the services and resources of UK, the state's major university.

This is not to say that the community colleges have no problems, or that UK has met their every need. But the results speak for themselves, and any move in Frankfort or elsewhere to disturb the program that is working and working well deserves no support.

Back to the positive:

It will cost you \$8, but if you want to show your appreciation for Prestonsburg Community College and the system of which it is a part in stand-up-and-be-counted fashion, be among those at the luncheon Saturday noon, Oct. 29, at the Carriage House, Paintsville, to celebrate this 20th anniversary.

Tri-State population centers, its availability on "reasonable" rental terms and the spaciousness of the facility attracted the Prestonsburg firm. The carpet mill building, of 225,000 square feet in floor space, is a prefabricated steel structure built 14 years ago at a cost of \$1,490,000. It is located on a 28-acre site, with a sanitary lagoon and 100-car parking area. The building has been unoccupied since 1979 when the carpet company filed for bankruptcy. Brown Food Service, Inc., which was founded here in 1941 by George D. Brown as the Brown Produce Company, employees 65 in its Prestonsburg operation. Beginning with a single truck and dealing mainly in chickens, eggs and roots, it now occupies a 30,000-square-foot building, and its delivery trucks range Eastern Kentucky counties, and neighboring portions of Virginia, West Virginia and Ohio, supplying schools, hospitals and other enterprises with almost every food that is marketed. Owners of the business—George C., Lloyd and John F. Brown—are sons of the founder. David Salisbury, the Floyd native who is director of the FIVCO Area Development District, is assisting the Lawrence court in its moves for financing. He said the block grant to the fiscal court would be repaid through rentals and could be reloaned for further industrial development.

part of the Earth is sacred to my people. Every shiny pine needle, every sandy shore, every mist in the dark woods, every clearing and humming insect is holy in the memory and experience of my people.

"We know that the white man does not understand our ways, one portion of the land is the same to him as the next, for he is a stranger who comes in the night and takes away from the land whatever he needs. The earth is not his brother but his enemy, and when he has conquered it he moves on. He leaves his father's graves, and his children's birthplace is forgotten.

"There is no quiet place in the white man's cities. No place to hear the leaves of spring or the rustle of insect wings. But perhaps I am savage and do not understand—the clatter only seems to insult the ears. And what is there to life if a man cannot hear the lovely cry of the whippoorwill or the arguments of the frog around the pond at night.

"The whites too shall pass—perhaps sooner than other tribes. Continue to contaminate your bed and you will one night suffocate in your own waste. When the buffalo are all slaughtered, the wild horses are all tamed, the secret corners of the forest heavy with the scent of many men, and the view of the ripe hills is blotted by the talking wires. Where is the thicket? Gone. And what is to say goodbye to the swift and the hunt, the end of the living and beginning of survival."

counting taxes on new property. The compensating rate this year is 18.3 cents per \$100 valuation on real property and 22.2 cents on personal property, and would yield \$873,708, assuming it were all collected.

The next highest rate, representing a four percent increase, is 19 cents on real and 22 cents on personal property. It would yield \$891,050. It would require a public hearing but would not be subject to voter recall.

The high rate—26.8 cents on both real and personal property—would bring in \$1,170,889, if it were all collected. That represents \$67 on a house valued at \$25,000, compared with \$47.50 at the "four percent" rate and \$45.75 at the compensating rate.

Since HB 44 was enacted, the Floyd school board has set the compensating rate every year except 1981, when a four percent increase was levied.

Last year's school tax was 16.9 cents, or \$41.25 on a \$25,000 home. It generated \$660,587—about 85 percent of the theoretical yield—and represented about five percent of the school district's total income. Statewide, local funds make up nearly 22 percent of the average school district budget.

A hearing on the proposed tax increase has been set for 6 p.m., Wednesday, November 2, one hour before the next regularly-scheduled board meeting.

### The Founder of Red, White, Blue Day Writes

I always walk around 2 1/2 miles each day. This is like a job for me, enjoy every step of the way, I have time to think about our daily problems and, most of all, our happinesses. You have time also to enjoy laughter.

Let me share a bit of happiness (this is what we all need to do more of). You know we all talk about how people don't visit or get together like they used to do. Well, just recently a group of ladies hurriedly planned a picnic, with Mrs. Garnet Moore, her sister, Madge Cox, and sister-in-law, Mrs. Juanita Cox doing all the food preparation for the outing. We all ended up in Knott county—had the best and most enjoyable time ever. We plan to have another one soon but we told the cooks we want to help with the food. Happiness and laughter were plentiful, so was food. We all loved our cooks.

We need more of this way of life. You sure forget your problems for awhile, anyway.

I surely don't want to forget to mention on Oct. 15, wear your Red, White and Blue and, most of all, a comfortable pair of walking shoes and come to Martin for one of America's most beautiful days—our own Red, White and Blue Day. Everyone is talking about it. So start calling everyone to start hunting for a Red, White and Blue outfit and hunt out an old pair of shoes. You don't have to spend a lot of money, unless you want to.

Speaking of money I've got to tell this. You know how people traded at stores and have a charge account. Well, we were on our way to a local grocery store and my little five-year-old grandson informed me of something he wanted. I talked with him about what it was and he said, "Grandma, they'll write it down on paper." (Charging it). I love my little grandchildren so much—they are so sweet—they helped work yesterday (Sat.). We dug our potatoes. It's good to teach 'em to work.

So, people, make the best out of whatever life has to offer. We all can't be writers, teachers, lawyers, doctors, presidents, or cooks so be happy that you're doing what you are doing and overlook a person who is trying sometimes to hurt you. Hurt can be very hurtful so when you are down and out, start walking. It is a good medicine—walk and be happy, walk and think how they may help me. It's a very healthy attitude to have.

I attended the Red, White and Blue Beauty Pageant held at Allen Central High School last night (Sat.). My heart overflowed as I drove in to the parking lot. The cars made you think of a tournament crowd, so many. It was a beautiful pageant. The little girls and their escorts were so precious—they were all winners, even tho' all didn't win.

Floyd county should be proud to be a part of this wonderful show. The ladies of Martin did a fantastic job, I only hope all schools will get in there and take part in some way—it's not so much in winning or losing, just be thankful we live in a free country where we're not afraid to walk, pray and enjoy life's sweetest memories. Be good to one another and don't forget Saturday, Oct. 15, Martin, Ky. Come and enjoy Red, White, and Blue Day—your freedom! It's going to be a big one.

### School Buses and Roads

I notice where the state is telling Floyd county what to do, nowadays, and they are saying, Improve the school buses.

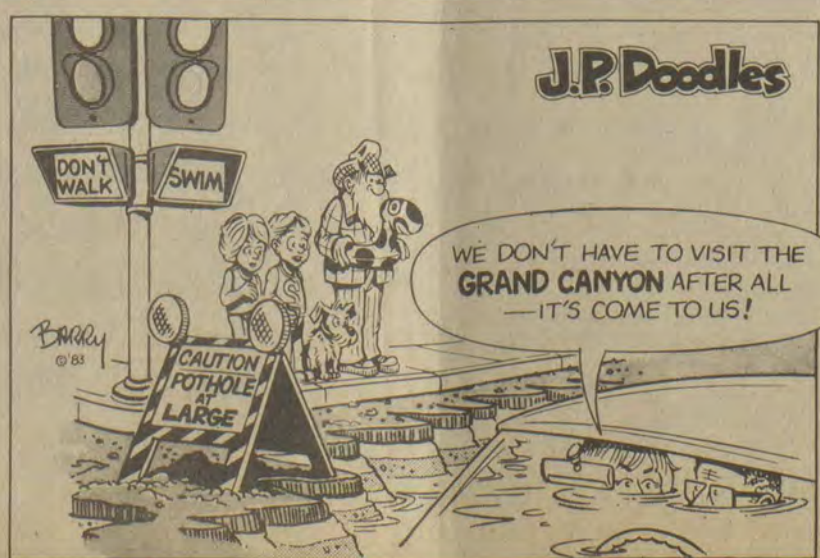

It's a wonder we have a school bus that will run after travelling up the rocky dirt road to the new Betsy Layne school. Wish the state boys in charge would come here and drive just once up that rocky dirt road. Then they would agree something should be done. One thing is, blacktop the road.

There are other roads in this condition. The Mare Creek road is one—almost impossible to get over when winter comes. I wonder how the Mare Creek people are going to get out on that road.

Yes, a school bus travels over it. Then they will wonder why our school buses are a wreck.

I notice they had blacktopped the road to Dewey Dam—a road that is a lot less needed than the roads to our Floyd county schools.

RECOGNIZING PROBLEMS Q. How can a person recognize gum or bone problems of the mouth? Are there signs that can help? A. Gingivitis (gum disease), or periodontal disease of the tooth-supporting bone, can be recognized by these early telltale signs: pink toothbrush (consistent bleeding of gums), bad breath, puffy gums, or gums that are swollen or reddish in color. Later signs of these problems include: receding gums, itching or tender gums, loose teeth, gum abscesses (gums puffy with enlarged soreness), shifting teeth, and spaces between teeth that were never there before. Gum disease develops slowly. It usually does not cause pain unless an abscess develops, and can move from the gingivitis stage to periodontal disease with no awareness on the part of the patient. This process is not inevitable, though; with early diagnosis and treatment, its primary cause, bacterial plaque, can be removed, and the gingivitis state reversed.

## FLOYD COUNTY HEALTH NEWS

By JANE BOND  
Health Educator

Cervical cancer kills approximately 11,000 women each year, yet this type cancer is one of the most curable of all cancers if it is detected and treatment begun in the early stages. There is a simple test to check for cervical cancer. This is the Pap test. It is a painless test, and it takes only a few moments of a woman's time, yet it could save her life. Every woman should have regular Pap tests to be screened for cervical cancer. Those women age 45 and over are especially urged to be screened for cervical cancer every year since this is the high risk age for the disease.

The Floyd County Health Department is having Pap clinics, Friday, October 14, and Wednesday, October 19, from 8:30 until 11:30 and from 1 until 2. These clinics are free services of the health department and are open to women of all ages.

There will be a glaucoma screening clinic at the Health Department on Monday, October 17. This clinic is a free service and is open to all ages, but those persons aged 40 and above are urged to take advantage of this service since this is the high risk age for the disease.

A nurse from the health department will be in Harold, Monday, October 17 at Ward's Health Food Store from 10:00 until 2:00. She will offer T.B. skin tests, urinalyses, anemia screening, blood pressures, and immunizations.

## HONORED ON BIRTHDAY

Rev. Kiser Mullins, of Toledo, Ohio, was honored on his 70th birthday, Oct. 2, at the home of Freddie Mullins, of Hippo.

Those present were his wife Becky, Margaret Mullins, Mr. and Mrs. Freddie Mullins, Greg and Gretey, all of Hippo; Mr. and Mrs. Eugene Stumbo, of Drift; Mr. and Mrs. Aster Hicks, Taunda and Dawn, of Hippo; Mr. and Mrs. Curtis Prater and Ryan, Jamie, of Hippo; Mr. and Mrs. Ted Allen, Christina and Jessica, of Pyramid; Terry Whitten, of Prestonsburg, and William Bamer, of Garrett.

Each year, almost 50 percent of all North American ducklings are born in and around potholes, says the National Wildlife Federation; not those potholes you might see on a typical highway, but around the millions of scattered depressions left in the wake of melted glaciers in the Dakota, Minnesota and central Canada.

## BIRTH ANNOUNCEMENT

## LOG HOME FOR SALE

Beautiful log home of hand-hewn yellow poplar, located in a head-of-hollow setting offering privacy and solitude while only 10 minutes from Prestonsburg or Paintsville. On 20 acres, more or less (it's more), this 2,800 sq. ft. house is hand-crafted throughout with many unique features. House has three bedrooms, one-and-a-half baths, large living room and dining room, screened-in porch at rear, full-length front porch, city water, fine t.v. cable service, well, central heat and air-conditioning. (Large wood stove and hand-cut stone fireplace provide adequate heat during much of the winter months.) Large, rough lumber outbuilding. Land offers plenty of timber for the woodcutter and more than enough garden space.

The house and setting are a rare combination in one of the cleanest and most scenic areas of Floyd county. (House was subject of a recent feature story which appeared on both Huntington and Lexington television.)

For appointment to see call 886-8834. (Keep trying—someone's bound to answer sooner or later.) Please, no curiosity calls.

### Three-Year Airport Transportation Plans Announced By State

The state Transportation Cabinet has released three-year plans for developing airports and public transportation programs in Kentucky.

The plans list the priority projects for improving the state's airports and public transportation systems.

"We're doing long-term planning for the state's transportation programs," said Tim Helson, commissioner of vehicle regulation.

"The plans set logical goals and the steps for achieving them," Helson said.

The three-year airport development plan includes 43 projects for 25 airports across the state. The projects are funded with equal shares of state and local dollars.

The 43 projects carry a price tag of \$3.6 million and include extending runways at Hartford, Leitchfield and Columbia and adding safety features at Hopkinsville, Murray, Princeton and Russellville.

The projects were selected because they enhanced the airports' safety, security, capacity or potential for attracting new industry.

The main purpose of the three-year public transportation plan is to increase revenue from local bus service.

The projects are funded with 80 percent federal funds, 10 percent state funds and 10 percent local match. The state's costs are estimated at \$2.2 million.

Copies of the plans and details of the projects can be obtained by contacting the Mass Transportation Division, Kentucky Transportation Cabinet, Seventh Floor, State Office Building, Frankfort, Ky. 40622, telephone (502) 564-7433.

### Public Hearing Set On Broad Form Deed

A public hearing will be held at 1 p.m., October 18, in the Capitol Annex, Frankfort, before the joint civil judiciary committee on the Broadform Deed legislation which pre-filed for consideration in the 1984 General Assembly. The public is invited to attend.

## Cole-Boyd Vows Exchanged

Miss Katrina Lynn Cole, daughter of Mr. and Mrs. Paul G. Cole, of Beattyville, Kentucky, and Mr. Stephen Craig Boyd, son of Mr. and Mrs. Marvin Boyd, of Banner, were united in marriage on Saturday, August 6, at the Big Hill Avenue Christian Church in Richmond, Kentucky. The Reverend Henry Mann, Jr., performed the afternoon, double-ring ceremony.

The bride, escorted in marriage and given by her father, wore an Alfonso original floor-length gown with a cathedral train, made of white satin and accented with Venetian lace. The gown had an off-the-shoulder neckline with mutton sleeves and a dropped waist. The bride also wore a crowning cathedral veil accented with Venetian lace. She carried a bouquet of white roses and pink carnations.

The maid of honor was Belva Brandenburg, of Beattyville. The bridesmaids were Karen Mays, of Beattyville, and Elizabeth Stokes, of Ferncreek, Kentucky. The maid of honor and attendants all wore identical floor-length pink satin gowns accented with Venetian lace and designed by Alfonso. The gowns had a scooped lace neckline with off-the-shoulder capped sleeves and dropped waist. The maid of honor and attendants carried bouquets of white roses.

Mr. Toney Boyd, of Pippa Passes, served as best man. The ushers were Michael Stamper and Emmett Smith, both of Beattyville.

Miss Elizabeth Cundiff and Miss Karen Cundiff, both of Beattyville, served as the flower girls.

Mrs. Leone Cole, mother of the bride, wore a floor-length rose dress and had a corsage of white roses. Mrs. Julia Boyd, mother of the groom, wore a beige and rose dress and had a corsage of white roses.

Miss Carla Griffith of Ashland, Kentucky, presided at the bride's guest book. Mrs. Joann Combs, the pianist from Beattyville, and Mr. David Harris, the soloist from Richmond, provided the music for the ceremony. The songs included: "I Believe In You and Me", "Always and Forever", "Up Where We Belong", "You and I", "Faithfully", "Through the Eyes of Love", "Sunrise, Sunset", and "Evergreen".

The reception was held in the Communion Hall of the Big Hill Avenue Christian Church. Mrs. Nancy Smith and Mrs. Judy Cundiff assisted with the serving of refreshments.

The bride is a graduate of Lee County High School and is presently attending Eastern Kentucky University.

The groom is a graduate of Betsy Layne High School, Prestonsburg Community College, and Eastern Kentucky University. He is employed by McDowell Appalachian Regional Hospital.

After a wedding trip the couple will reside in Richmond, Kentucky.

### Inez Bank Honored For Support Of KET

The Inez Deposit Bank, of Inez, won first prize in the Philip Morris/KBA Community Service Contest for its support of KET.

"This award is an honor to us in particular because we recognize the community benefits of KET, not only in the community of Inez and Martin county, but the community of Kentucky," said bank President Robert M. Duncan. "We are thankful that Philip Morris has such an award to recognize Kentucky banks and we hope that other Kentucky banks will see the benefit of KET and support KET with us."

Bank President Duncan recruited 20 banks to join KET's Fund for Excellence, which is a program of major annual giving of more than \$500.

The bank donated an original Paul Sawyer watercolor, "Homeward Bound," and printed 2,000 limited edition prints to be sold. All proceeds from the sale of the prints go to KET.

The Inez Deposit Bank also is a Patron in the KET Fund for Excellence with a total annual contribution of \$5,000.

### New York Neighborhood Is Revisited On KET

Almost everyone remembers a quaint, quiet place of their youth, a place where things were placid and memories reside. Unfortunately, time necessitates change and that is the theme of "Brighton Beach," airing Tuesday, November 1 at 10 p.m.

Brighton Beach is one of Brooklyn's more historical and colorful neighborhoods with the venerable tourist attraction, Coney Island, nearby. Stock 1930s vintage footage features the area as it was; including the then new Coney Island attractions and amusement rides, a senior citizen beauty contest, and the Polar Bear Club making its renowned annual dive into the frigid winter waters of the Atlantic.

Also featured are the residents of the neighborhood 43 years later. They are an eclectic mixture of ethnic backgrounds with one common denominator. All have experienced the racism, poverty and survival which has forged Brighton Beach.

"Brighton Beach" is a production of River Productions/South Carolina ETV.

# ELMER FERGUSON CANDIDATE FOR COUNTY COURT CLERK

Senior citizens of Floyd county needed someone to represent them. I felt that I was qualified to do the job.

I am Mayor of Wheelwright, Ky. I have held this office off and on for almost 20 years. I have never been defeated.

I am an Alumni of Alice Lloyd College.

I was president of the Floyd County P.T.A. Council for 10 years before retiring.

I was president of the Wheelwright P.T.A. for 8 years before retiring.

I am a member of the Big Sandy ADD Board.

I served as Republican chairman for Floyd Co. for 8 years before retiring.

I have been a candidate for state representative.

I have served as chairman of Floyd Co. for gover-

nors, U.S. Senators, and sheriff candidates.

I have worked in coal preparation for Inland Steel Co., Island Creek Coal Co. and National Mines for a period of 44 years, 30 of which years were in supervision.

I have a lovely wife, Edna, who has 3 lovely daughters.

I have 3 lovely daughters by my previous marriage.

I have six fine sons-in-law, and I have a bunch of grandchildren, which I am very proud of.

I want to ask the voters of Floyd county to compare the qualifications of each candidate for their experience in public life, and to see which could serve the public in their best interest, then vote for the candidate that you feel could do the best job.

(Pol. Adv. Paid for by the Candidate) 11-pd.

## 50th Anniversary Honorees

Mr. and Mrs. Everett E. Hall, of Wheelwright, will be honored by their children and grandchildren Saturday, Oct. 22, on their 50th wedding anniversary. A reception in their honor will be held from 1 to 4 p.m. at the Masonic Lodge hall at Wheelwright, and all relatives and friends are invited to attend.

Scientists have discovered growth rings in dinosaur teeth that probably resulted from seasonal temperature changes.

The state which grows the most apples per year is Washington with an annual production of about 25 million bushels.

## Mrs. Grabowski Named President of KSHP

The Kentucky Society of Hospital Pharmacists held its annual Fall Seminar, September 30-October 2, at Cumberland Falls State Park, Corbin. During the banquet Saturday evening, Mrs. Bonnie S. **Miller To Speak To Reading Council**

Winnie Miller, educational consultant for Ginn and Company, will speak to members of the Jenny Wiley Reading Council, Thursday, October 13, at 6:30 p.m. in the Floyd County Regional Library. All interested persons are urged to attend.

Miss Miller, with masters' degrees in both reading and testing, has taught in the elementary field for over 30 years. She has served as a reading resource teacher in Jefferson county and as college teacher in Spalding College, Louisville. Her topic will be "Increasing Vocabulary in the Classroom". A question and answer period will follow. The topic will give teachers ideas in how to raise scores on the CTBS, as well as further implementation of the Ginn series, the basals adopted by and used in both Floyd and Johnson county schools.

The Jenny Wiley Reading Council, an affiliate of the International Reading Association, has been organized since April, 1971. Among its purposes are: To encourage the study of reading problems at all educational levels; to stimulate and promote research in developmental, creative, corrective, and remedial reading, and to assist in sponsoring conferences and meetings planned to implement the purposes of the council and the national association.

### To Be Wed

Mr. and Mrs. Walker R. Hall, of Beaver, Ky., announce the engagement and forthcoming marriage of their daughter, Connie Lynn, to Kevin Todd, son of Mr. and Mrs. Charles Goodman, of Banner, Ky.

Miss Hall is a 1983 graduate of Betsy Layne High School, and Mr. Goodman is a 1981 graduate of Betsy Layne High School. The couple plans to own and operate their own supermarket in Pike county.

The wedding will be solemnized at 2:30 p.m., October 21, at the Calvary Southern Baptist Church at Betsy Layne.

The gracious custom of open church will be observed. All relatives and friends are invited to attend. A reception will follow at the church.

### Trial Slated Nov. 28 For Hall in Shooting Of Pregnant Woman

The trial of C.B. Hall, 23, of Kite, charged with the wounding of a 22-year-old widow last June near the Floyd-Knott line outside Lackey, has been set for Nov. 28 in the Knott circuit court.

Hall is accused of shooting Mrs. Rosetta Hall with a blast from a shotgun at the home of her brother, Bee Baldrige, of Lackey. Mrs. Hall was pregnant at the time, and authorities say the shot killed her seven-month-old fetus.

The shooting took place June 7. The woman's husband, Curt Hall, was shot to death Dec. 10, 1982.

The death of the woman's unborn child will not develop into a court case unless a suit for civil damages is filed. Kentucky courts have not allowed murder charges in such cases because the state's criminal statutes do not consider a fetus a human being.

### Train Students, Warn Public, About Fires

Thirty-five students from the Prestonsburg Job Corps Center received forest fire suppression training, October 5. Richard Green, Wendell Mounts, and John McGuire, of the Kentucky Division of Forestry, gave the students a basic course in forest fire behavior, suppression, and fireline safety.

Use of the Job Corps students for forest fire suppression is a part of a cooperative agreement between the Prestonsburg Job Corps Center and the Kentucky Division of Forestry, initiated in the spring of 1983.

Fall forest fire hazard season began October 1 and goes through December 15. During this time, no outdoor burning is permitted within 150 feet of the forest, except between the hours of 4:30 p.m. and midnight. The Forestry Division urges everyone to be very cautious when doing any burning at anytime, due to the extremely dry conditions we have been experiencing.

## Victim's Wife Tells Probers DeRossett Died by Own Shot

Investigation of the gunshot death last Wednesday night of Earl David DeRossett, 31, of the Spurlock Fork of Middle Creek, continues, Coroner Roger Nelson said Tuesday, but the victim's widow has told authorities that her husband shot himself.

The shooting took place in a bedroom of the home of Marvin Crider, Jr., on the Auxier road, near here. A report of the findings from an autopsy performed by Dr. George Buckley, of Pikeville, is awaited, the coroner said.

The victim was a son of Sam DeRossett, of Lima, O., and Ann Tussey DeRossett, of Spurlock. He was a painting contractor and an Army veteran.

In addition to his parents, he is survived by his wife, Betty Jane Rowland DeRossett; one son, James David DeRossett, of Spurlock, and one daughter, Melissa Ann DeRossett, of Abbott Creek; three brothers, Sam DeRossett, of Indianapolis, Ind., John B. and Fred H. DeRossett, both of Newark, N.J.; three sisters, Mrs. Deloris Jean Campbell, of Lima, O., Mrs. Bessy Mae Swartz, of Minator Springs, Colo., and Sandra Sue Bradley, of Prestonsburg.

Funeral services were conducted at 1 p.m. Sunday at the Floyd Funeral Home by the Revs. Dan Heintzelman and L.P. Tussey. Burial was made in the Haywood cemetery on Spurlock Fork of Middle Creek under direction of the Floyd Funeral Home.

The four-pound chicken carcasses are shot into engines, windshields and landing gear from a 20-foot cannon to re-enact birds smashing into jets, which can cause serious accidents.

## Open Letter

From: Lee Ester Osborne  
Dear Friends and Neighbors:  
I want to thank all of you that have helped me and been so nice to me through the past years.

This month, October 10, will mark 3 years since the death of my dearly beloved husband, Roy Osborne. I still miss him so much. The love that I had for him the 44 years we were married is still there and will never die.

As most widows know, the grief, sorrow and loneliness are at times overbearing. Sometimes, when Roy's memory is so sharp and clear, I can't keep from crying. It's so easy to feel as if there is no reason to go on with life, but Life Does Go On!

Roy and I were blessed with 4 wonderful children. One, Ronnie, died while he was a child.

My oldest son, Danny, and his wife, live in Hampton, Va. Even though he suffers from a heart condition, I can always count on him. He would come to me at any time—he's just a phone call away.

My only daughter, Madlene Wineberg, lives in Waldorf, Md. She is more like a mother to me than a daughter! Her love and understanding are boundless. Lew Wineberg, my son-in-law, is so thoughtful. I'll never forget his help and sympathy when Roy died.

My youngest son, Anthony, lives in Covington, Ky. Tony is a wonder! He makes special trips home each summer and spends his time working around the homeplace—cutting brush, weeds and doing all the work that Roy used to do.

A few people that have gone out of their way and are Very Special are: My niece, Audrey Hall—our relationship is more like sisters than aunt and niece. Audrey's advice and friendship is a constant source of hope and inspiration to me.

My sister-in-law, Dinah Hall, Roy's only living sister, has been a wonderful friend.

My neighbors, Keith and Katie Newsome, are so helpful. During the winter months when it's hard for me to get in and out of the hollow, they are always there with their 4 wheel drive truck to pick up food supplies and other necessities. It makes me feel safe to know they are close by.

I'm very fortunate to have good neighbors in the hollow. We all get along well. I cannot possibly name all the people that have been friendly and good to me. You know who you are and I know who you are. Thank You!

In closing, I want you to know that I love you all and sincerely appreciate your kindnesses.

God bless you all, LEE ESTER OSBORNE, Buckingham, Ky.

## Result of Meeting: 11 Members Added

A few weeks ago, Mrs. Elizabeth Ramey, president, and Mrs. Mabel Donahoe, a member of the Membership committee, of the KFWC/GFWC Prestonsburg Woman's Club, (shown right to left in photograph) joined other committee members, Mesdames Phyllis Herrick, Betty Jarvis, Barbara Dawson, Lucille Nunnery, Lynn Leslie, and Sally Goebel, at the home of Mrs. Goebel, at a tea, with members and prospective members as guests.

The results of this social function were realized, when during the regular meeting of the Prestonsburg Woman's Club at the Emma Wells May Cultural Center last Thursday evening 11 new members were welcomed into the club. They are Mesdames Betty Stephens, Donna Culpepper, Sheila Lee, Kathryn Poe, Sharon Sparr, Curly Hill, Carolyn Polk, Sue Wells, Terry Buchanan, and Shyla Meece, and Miss Susie Poe.

Mrs. Joyce Allen, secretary, announced that the Seventh district meeting will be held at Salyersville, October 22, beginning at 10 a.m. The president urged all members to attend, and added that reservations should be made by October 15.

Mrs. Dorothy Harris, treasurer, presented the proposed budget for the year. Mrs. Carolyn Traum announced that state dues had been raised, and suggested that the club dues be raised next year, to take care of this increase. It was announced that ceramics classes for club members would soon begin at the club's Arts and Crafts House at Archer Park.

The decision was made to meet at the office of Miss Betty Rowland here, the following Monday night, to work on the Birthday Calendar for the ensuing year. Mrs. Garnett Fairchild reported that the children's tea, sponsored by the club, and held at May Lodge during the recent Kentucky Highlands Folk Festival, was successful.

Mrs. Fairchild, program leader, presented H.C. (Huck) Francis, Prestonsburg businessman, who spoke to the group on "Community Improvement." Mr. Francis said that among the hopes for improvement here are: the additions of new sidewalks, storefronts and street signs, and the possibility of eliminating the parking of cars on Court street. He stressed the importance of maintaining the clean-up program, and told the club that the annual Christmas decoration program would soon get under way. He added that civic organizations, such as the Prestonsburg Woman's Club, which were once considered luxuries, are now thought to be necessities for the progress of Prestonsburg.

Refreshments of stack-cake and spiced tea were served. The hostesses were Mesdames Helen Ankrom, Ruth Hall, Florence Music, Maxine Bierman, Pauline Burchett, Lucille Nunnery, and Orella McGuire.

Those in attendance, other than the new members and the hostesses, were: the speaker, Mr. Francis, and members, Elizabeth Ramey, Betty Rowland, Joyce Allen, Dorothy Harris, Dacia Woods, Carolyn Traum, Sally K. Goebel, Dorothy Stover, Fannie Runnels, Honey May, Lucy Regan, Dolly Pettrey, Boots Adams, Christine Spradlin, Dorothy Burke, Mabel Donahoe, Garnett Fairchild, Mabel H. Brown, Elizabeth Renick, Rebecca Rasnick, Eileen Burchett, and Lois George.

The next meeting will be Thursday evening, November 3, at the same location. The speaker will be Tom Whitaker, who teaches Art at Prestonsburg Community College.

The training was conducted under the one-station unit training (OSUT) program, which combines basic combat training and advanced individual training into one 13-week period.

## Jury Votes Akers \$39,680 Damages In Trespass Case

Triple Elkhorn Mining Company trespasses on the Finance Hollow property of Everett Akers as well as on a tract owned by Akers' cable television firm, Big Sandy Telecasting, a Floyd circuit court jury decided last Wednesday.

The jury awarded Akers \$39,680 in damages as a result of the encroachment.

The trespass occurred between 1974 and 1978, when Triple Elkhorn, then a subsidiary of the Texas-based Zapata Corporation, was mining coal on a ridge between Prater Creek and Beaver Creek, near Allen.

In a 1979 suit, on which the jury deadlocked, the mining firm agreed to pay Mr. and Mrs. Akers \$75,000 for damage to their home and TV tower which they claimed was caused by blasting.

In the present trial, which lasted two days, expert testimony focussed on the width of a coal haul road which Akers said traversed his two tracts and on the income Akers might have accrued had Triple Elkhorn leased the tracts from him.

One property appraiser estimated the rental value of the tracts as between \$200 and \$300 a month, but others reckoned the monthly rental value as \$1400 or \$1600.

In his instructions, Special Judge Reed S. Anderson, who usually presides at the Pike Circuit Court, set a \$75,200 limit—the highest appraisal—on the amount the jury might award the plaintiff.

(Harold Baldrige, the Prestonsburg surveyor whose plat Triple Elkhorn attorney Cliff Latta sought to discredit during cross-examination last Tuesday, later defended the accuracy of his work. What Latta questioned in court was a hand-drawn section, remote from the area in dispute, which was included solely to help orient a person reading the plat, and which did not purport to be accurate, the surveyor explained. The area disputed in Akers' lawsuit was properly and accurately surveyed, Baldrige noted.)

Under new rules announced by the U.S. Department of Labor to guide administration and development of the new Job Training Partnership Act, veterans and other specified groups are eligible for job training programs at the state and local level.

## Growing Child

### Discipline And Punishment During Child's "Terrible Twos"

During the second year of life, children are beginning to develop some independence, and this can be a trial for parents, according to Growing Child, the monthly child development newsletter.

Many children this age have strong wills, and know several ways to manipulate parents. Some of these are being very negative, refusing to eat or sit on the toilet, go to sleep or cooperate generally.

But punishing a child this age is a tricky situation. A two-and-a-half-year-old will probably be angry with you over the punishment, and the anger he feels may frighten him. Instead of physical punishment, some parents use words—"I won't love you anymore," "You'll be the death of me," "You make me sick." These can be equally destructive.

The child grasps the parent's anger from the intonation and voice if not from the actual words. He doesn't know that anger is temporary and that angry feelings are normal for him as well as for his parents. He learns to imitate aggression, which often takes the form of tantrums. Thus parent and child feed the flames of each other's passions, precipitating a vicious cycle.

If there's another way of obtaining a child's cooperation, why not use it? We know that a child intuitively wants to be good and please his parents. By reflecting his thoughts back to him, he can save face: "I know you're angry, and I know how you feel. You don't want to put away the toys. You want to play. Come, let's put them away together."

Remember, not every cause must be resolved or every moral drawn. It's important to make allowances for individual differences and feelings. It is not too soon to set clear-cut, definite and reasonable limits. But avoid unnecessary confrontations which result from too many "no's," "don't touch," and "stop."

#### KET Wins PBS Development Award

KET was one of six public television networks nationwide to win a Special Development Achievement Award from the Public Broadcasting Service at the PBS Development Conference in Phoenix, Ariz., September 10-14.

PBS awarded KET a certificate of achievement for the KET Fund for Excellence program for its "unique approach" to fund raising.

According to the application for the award, "In March, 1981, KET launched the KET Fund for Excellence as an alternative to traditional program underwriting. Its goal is to generate support for KET's entire public television schedule through truly statewide participation, engendering a widespread sense of ownership and identification, while providing a steady and growing source of acquisition and production funds with no perception of program influence."

#### Johnson-Burchett Vows Said

Miss Donna Faye Johnson and Mr. Robert Burchett exchanged wedding vows, September 15, at the L.P. Tussey United Baptist Church in Prestonsburg. The Rev. William J. Shepherd performed the double-ring ceremony, and music was provided by pianist Linda Wells.

The bride is the daughter of Jimmie and Donna Mae Johnson, of Fredville, Ky., and the groom is the son of Stanley Ray and Madelyn Sue Burchett, of Allen, Ky.

Susan Johnson, sister of the bride, was maid of honor and Tim Clark was best man. Following the ceremony, a reception was held at the church.

#### NOTICE OF INTENTION TO MINE

Pursuant to Applicaton Number 836-0075

In accordance with the provisions of KRS 350.055, notice is hereby given that: Minnie Development Corp., 1111 Riverside Drive, Prestonsburg, Ky. 41653, has filed an application for a permit for a surface coal mining and reclamation operation of approximately 2 acres located 1.7 miles south of Drift in Floyd county. The proposed operation is approximately 1/8 miles north from State Route 1086 junction with State Route 122 and located 1/8 miles north of Sizemore Branch, latitude 37° 28' 30", longitude 82° 45' 24". The proposed operation is located on the Wayland USGS 7 1/2 minute quadrangle map. The surface of the area is owned by Harold Stumbo.

A brief description of the kind of mining activity proposed is: contour mining.

The application has been filed at the Bureau of Surface Mining Reclamation and Enforcement for public inspection at Prestonsburg Regional Office, 431 South Lake Drive, Prestonsburg, Kentucky 41653.

Written comments, objections, and/or requests for a permit conference must be filed with the Director of the Division of Permits, Bureau of Surface Mining Reclamation and Enforcement, Capital Plaza Tower, Frankfort, Kentucky 40601. Within 30 days of the final week-ly advertisement. The written comment, objection, or request for a conference must reference the above permit application number.

This is the final advertisement of this application; all comments, objections, or requests for a permit conference must be received within thirty (30) days of today's date.

## "Granny" Cotton Goes Shopping

This past Thursday was Granny Cotton's birthday—according to her, "my 108th, they tell me." For the popular Riverview Manor resident, who has appeared on national television and has been the subject of numerous feature stories, her birthday wish was to come to town and buy a new pair of shoes. So, following a birthday party at Riverview, that's what she did. Granny Cotton, whose memory covers a staggering period of history, is pictured here being assisted by Ruby Young, of the Francis Shoe Store.

## To Wed, October 15

Mr. and Mrs. Kenneth "Buzz" Allen, of Allen, announce the engagement and forthcoming marriage of their daughter, Jennifer, to Mr. Paul Foley, son of Mr. and Mrs. W.T. Foley, of Cow Creek. The wedding will be solemnized Saturday, October 15, at 6 p.m. at the Martin Church of Christ, Martin, Ky. The gracious custom of open church will be observed.

A reception will be held at the home of the bride, immediately after the ceremony.

### Huddleston Votes No On War Powers Act

Senator Walter (Dee) Huddleston voted against the resolution on war powers related to the situation in Lebanon.

Following is a statement from the Senator regarding his vote:

"I voted against the resolution that would keep the United States Marines in Lebanon for another eighteen months. Eighteen months is simply too long. I supported an amendment to reduce that time period to six months, but when that amendment failed, I could not support the resolution.

"The situation in Lebanon is tenuous at best. Our marines are in a hostile situation and are exposed to great danger. We ought to review that situation within six months and make a determination then whether or not there is any useful purpose in keeping our Marines in Lebanon for a longer period."

Did you know that of a total of twenty-six amendments to our Constitution, three are directly concerned with insuring the right of citizens to vote? This is evidence that the Constitution is a working basis for government—not just a static document. The Daughters of the American Revolution urge you to celebrate Constitution Week, September 17th through 23rd, by resolving to be a citizen who votes responsibly. Read your Constitution.

### NOTICE

Notice is hereby given that on the 11th day of October, 1983, "Petition for Fire Protection District" has been filed with the County Court Clerk, said proposed "Fire Protection District" to include the following communities: Betsy Layne, Harold, Stanville, Ivel, Honaker and portions of Dana, specifically excepting those areas within the Coal Run Fire Protection area and the Mud Creek Fire Department limit.

Said petition containing a specific metes and bounds description of the proposed "Fire Protection District" is available for examination at the Floyd County Clerk's Office between the hours of 8:30 a.m. and 12:00 p.m. and 1:15 p.m. and 4:00 p.m.

The purpose of said proposed "Fire Protection District" is to provide protection for the property and citizens of the area described, which area lies outside of any municipality wherein a fire department is maintained.

Any resident of the area enclosed by the proposed "Fire Protection District" may file written objections to establishing said "Fire Protection District" within thirty (30) days of the filing of said petition. Within ten (10) days of the filing of such objections, the Floyd County Fiscal Court shall set a hearing for said objections.

### NOTICE OF INTENTION TO MINE

Pursuant to Application Number 836-0061

In accordance with the provisions of 405 KAR 8:010E, Section 8, notice is hereby given that Homer Short Company, Inc., P.O. Box 174, Hager Hill, Kentucky 41222 has filed an application for a permit for surface coal mining and reclamation operation of approximately 114 acres and overlying 35 acres of auger operations located 1.0 mile northwest of Ivel in Floyd County.

The proposed operation is approximately 2.0 miles southeast of State Route 1426's junction with U.S. HWY. 23/460 and located 1/4 mile west of Davison Branch. The Latitude is 37°-36'-22". The longitude is 82°-42'-10". The surface area is owned by S.P. Davidson Heirs, Marshall Davidson, Harkins Heirs, and Don Trimble.

The proposed operation is located on the Harold U.S.G.S. 7 1/2 Minute quadrangle map. The operation will use the area and the auger method of mining.

The application has been filed for public inspection at the Department for Surface Mining Reclamation and Enforcement's Prestonsburg Regional Office, South Lake Drive, Prestonsburg, Kentucky 41653. Written comments, objections, or requests for a permit conference must be filed with the Director of the Division of Permit, 6th Floor, Capital Plaza Tower, Frankfort, Kentucky 40601.

## ★ KENTUCKY AFIELD ★

### SNIFE HUNTING?

A lot of kids (and maybe even some grownups) fall for the old "snipe hunting" trick and are literally left holding the bag in the middle of the woods on a dark night.

So when folks hear about a snipe hunting season, they are understandably just a little suspicious. But the snipe is an actual game bird, just like a duck or quail, with its own season and bag limit.

The snipe is one of a handful of migratory game birds that receive little attention from Kentucky hunters. Others in this group include woodcocks, gallinules, and rails. Regulations for these species are set each year within federal guidelines in much the same way duck, goose and dove seasons are set.

The woodcock is perhaps the best known and most sought-after in this group. In Kentucky, the woodcock season opens Oct. 1 and will run through Dec. 4, 1983, with a daily limit of five birds and a possession limit of 10.

The same season dates (Oct. 1-Dec. 4) apply to snipe, but the limits on this bird are eight and 16. Snipe and woodcocks are both members of the shorebird family, although woodcocks are often found in upland woods, probing the soft forest floor with their long, slender beaks for earthworms.

Snipe are likely to be found near wet meadows, grassy marshes or bogs. Both woodcock and snipe have the disconcerting habit of waiting until the hunter practically steps on them, then exploding away in a swift, zigzag flight that presents a challenge to even the expert wingshooter.

Rails and gallinules may be hunted from Nov. 12 through Jan. 20. The gallinule limits are 15 and 30, while both the daily and possession limits on rails is 25.

Both these birds are members of the rail family, which also includes the coot, a species familiar to most waterfowl hunters.

Rails and gallinules are both marsh birds, and while gallinules can often be found in or near open water, the sora and Virginia rails (the two legal game species) tend to stay far back in the marsh or swamp and are hence seldom seen.

The Virginia rail has a long, skinny bill, while the sora rail and the gallinule have short, chicken-like beaks. Gallinules look something like coots but are smaller, have reddish bills and white lines along their sides.

Because Kentucky doesn't have extensive wetlands, it has only limited populations of the water-loving birds. Few people hunt specifically for rail, gallinules or snipe. But there is a small band of

Pursuant to Application Number 436-0088

In accordance with the provisions of KRS 350.055, notice is hereby given that: Branham & Baker Coal Co., Inc., 328 North Lake Drive, Prestonsburg, Ky., has filed an application for a permit for a surface coal mining and reclamation operation of approximately 72.74 acres located 1 mile southwest of West Prestonsburg in Floyd County. The proposed operation is approximately 1 mile east from State Route 114's junction U.S. 23 and located 1/8 miles west of Middle Creek. Latitude 37° 39' 44", longitude 82° 48' 49".

The proposed operation is located on the Prestonsburg USGS 7 1/2 minute quadrangle map. The surface of the area is owned by Edith Stumbo, Nola Stumbo, Ethel Stumbo, Bill Stumbo, Randolph Burchett, Clyde Clark, Della Green, Sally Stevens.

A brief description of the kind of mining activity proposed is: contour strip and auger.

The application has been filed at the Bureau of Surface Mining Reclamation and Enforcement for public inspection at the Prestonsburg Regional Office, 431 South Lake Drive, Prestonsburg, Kentucky 41653.

Written comments, objections, and/or requests for a permit conference must be filed with the Director of the Division of Permits, Bureau of Surface Mining Reclamation and Enforcement, Capital Plaza Tower, Frankfort, Kentucky 40601. Within 30 days of the final weekly advertisement. The written comment, objection, or request for a conference must reference the above permit application number.

dedicated woodcock hunters in the state. Most of these birds are taken incidentally by hunters after other species. Many bird dogs will point woodcock in addition to quail, and duck or goose hunters, particularly those in the wetland areas of Western Kentucky, will occasionally encounter a snipe, rail or gallinule.

With limited habitat and short migrating seasons, it's not likely that hunting for these species will ever become major sports in Kentucky. But the next time someone invites you to go snipe hunting, don't automatically dismiss him as a practical joker—he just might have an actual trip for a legitimate game bird in mind.

### IRS Offers Outreach Program For Taxpayers

The Internal Revenue Service wants to bring taxpayer assistance to you. In an effort to inform Kentuckians about federal tax law requirements and tax return preparation, the IRS will send a staff person to talk to your group of employees, business operators, union chapters, farm groups, social or civic clubs, or any other group of taxpayers interested in the correct preparation of their tax returns. This assistance is part of the new IRS Outreach Program designed to make taxpayer service more available in the community.

If your group would like to have an IRS person discuss federal tax requirements or guide you in the preparation of tax returns, a mutually acceptable time and site for the meeting can be worked out. In addition to regular working hours arrangements can be made for group meetings in the evenings and on weekends.

A variety of tax topics could be considered, such as preparation of Schedule F for farmers, preparation of the Forms 1040A and 1040EZ, preparation of Form 2016 on employee business expense, the marriage deduction, on Schedule W, itemized deductions on Schedule A and many other tax items.

The Outreach Program is primarily aimed at the tax filing season, January 1 through April 15; however, we would also consider group requests for tax assistance at other times of the year.

Those groups interested in arranging for Outreach assistance should call the IRS Outreach Coordinator for Kentucky toll free at 1-800-424-1040. You may also write c/o P.O. Box 1216, Louisville, Kentucky, 40201.

Private pension plan assets grew at an annual rate of 13 percent between 1975-1978, reaching a total of about \$433 billion, according to a study released by the Office of Pension and Welfare Benefit Programs of the U.S. Labor Department.

**In Memory of Ernest Belvard Burchett Oct. 13, 1978**

It's been five long years. Since you went away. Our pain feels as if it was yesterday.

We still miss your smiling face. And there is no other who Can take your place.

I have always heard it said. That When God gathers flowers for his bouquet, He picks the most beautiful and most precious flowers from the garden, for his own. Now we understand why you went home.

Because you were the best you were different from all the rest.

There was always a smile for a stranger, who passed by; You always had time to stop and say "Hi."

We love and miss you And will never forget you.

And when the trumpet sounds And all shall rise, we will see you again with tears in our eyes.

Written by Son and Daughter-in-Law, JOHN AND JOANN BURCHETT

**In Memory of Anna May Sturgill**

Two sad and lonely years have passed Since the day you went away. Our lives are oh, so lonely. For we miss you more each day. Some may think we have forgotten you And sometimes may see us smile, But they will never know the heart aches That we live with all the while. Our home is so lonely here without you. Things can never be the same. If we could only hear your voice once more, It would ease the hurt and pain. If the world was ours to give, We would give it all and more Just to see the face we loved so much Come smiling through the door. Oh, you suffered much in silence. And of death you lost the fear When your sweet voice gently whispered, "Are all the children here?"

Yes, you knew they all were with you Holding on to Daddy's hand Showing just how much they loved you As you viewed that heavenly land. Now we wander by the graveside And sometimes we seem to hear As you whisper to us I'm at rest, so have no fear. We will always have your memories Depp within our hearts will keep Until we meet you in that city Where no one will ever weep. When our burdens get so heavy Only prayer helps stand the test But we know that Jesus loved you more And you're safe with him at rest. Here the circle has been broken It was so sad for us to part But God has you in his keeping And we have you in our hearts. We are sure you're very happy In that glorious land so fair And you're waiting for your loved ones Where we'll meet with no more cares. Our home seems so empty since you left us, And here sits your vacant chair, But within our hearts you're present, And God will wipe away all tears.

Sadly missed by your son, Marvin Sturgill and Mrs. Joe Capparuccini.

**Why Not Give Blood?**

By PAT PHILLIPS

Would you be upset if someone in your family needed blood for a transfusion and it was not available? Would you understand if it happened to you? It very well could to someone in an emergency or in a national disaster. A dependable supply is made possible when enough willing donors take time (and trouble) to give. Blood transfusions are made possible because some very thoughtful people donated before, not after, it was needed.

The Prestonsburg Job Corps Center students will sponsor a special Halloween Blood Drive at the Prestonsburg Donor Center in the Municipal Building, Thursday, October 27, from 12 noon to 8 p.m., and on Saturday, October 29, from 9 a.m. to 5 p.m. They will be in costume and will be promoting blood donations in the spirit of the holiday.

If area residents want to assure blood availability for their families, for themselves and/or friends, they should be willing to support the blood center which supplies their area.

Every day many people in our area undergo surgery to save their lives. The surgeries being performed could be as immediate as that needed to repair damage from an automobile accident or planned as in the case of surgery for cancer or an open-heart surgery.

You can help. What are you waiting for? Do you think accidents or disease don't happen to you? That's why accidents and disease happen so often. You are not prepared. Why not give blood?—Before it's needed!

**A MESSAGE TO THE CITIZENS OF FLOYD COUNTY**

I am asking you to elect me to the office of County Judge-Executive on November 8th. I can and will change things for the betterment in Floyd County. When I look at our children and grandchildren, I think of what Floyd County may be like in the future if we continue to practice politics as usual. (How much more can we stand in Floyd County?) It's time now for the voters to ask themselves "Have we had enough?"

Our children and grandchildren must depend upon the voters of this county this Nov. 8th to make Floyd County a better place for them to grow up, live and raise their families. They must be given the opportunity for a good education and to be able to get into the college of their choice. They should have jobs—good roads—a clean county—a safe county—This all takes leadership from the office of the County Judge-Executive.

Will 31 years of experience in County Finances assure us of this, or will 21 years experience in road building make them any better? (that's what my opponent tells you he has—Where has he gotten our County?)

For a change, wouldn't you like to pick up a newspaper or turn on the radio and hear something good in Floyd County? It could be a new factory locating in the county or a new coal mining firm opening to hire our people. It could read Floyd County students scored highest on the test scores—or our solid waste system is being used by all households and businesses and Floyd County is the cleanest county around. I would like to see the headlines say Floyd County has become a very prosperous county—its budget is balanced and the people that have been here and told us what to do have gone back to Frankfort. NO it would not be a dream but a reality. We can see this if we put aside partisan politics and vote for Floyd County, not only now but in years to come.

*The Cadillac Commitment*

We believe that when you buy or lease a Cadillac, you deserve to be treated like a Cadillac owner. And when you take your car in for service, you have the right to expect the type of consideration traditionally reserved for Cadillac owners. We intend to keep that tradition alive.

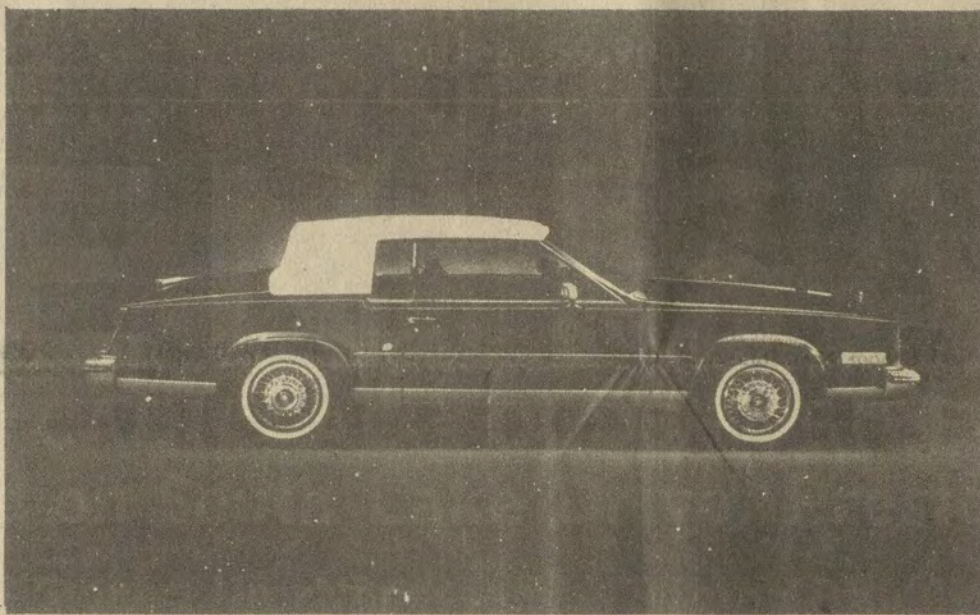

Cadillac. Through the years, it has represented excellence for generations of Americans.

And today this heritage of excellence is reflected in each of the 1983 Cadillacs.

In a commitment to quality you can see. In comfort you can feel. In that superb Cadillac ride. In engineering that traditionally leads the way.

In luxury without extravagance... in real value... and in the good feeling that comes with knowing you're surrounded by the substance of a Cadillac.

All this and... Best of all... it's a Cadillac.

### Victorian Saga On KET Slated

"The Pallisers," a 22-part series depicting the story of a political dynasty which moves through high society in the heyday of Queen Victoria's reign, endorses on KET beginning November 5 and airs consecutive Saturdays at 10 p.m.

"The Pallisers" is based on six Anthony Trollope novels. In succeeding generations, the men and women of this dramatic family taste wealth, passion, power and success. One of them becomes Prime Minister. Susan Hampshire, three-time Emmy award winner, plays Lady Glencora Palliser, beautiful, rich and headstrong. Philip Latham plays Plantagenet Palliser, earnest, honorable and reserved, a duke's heir and a politician regarded as a "coming man."

The lavish series took four years to produce. Although the emphasis is on human relationships, the series weaves a tapestry of fashion, customs and manners, presenting a rich documentary of one of the most fascinating periods of British history.

"The Pallisers" was produced for BBC-TV by Marin Lisemore.

# Digging Up New Clues To an American Mystery

Smithsonian News Service Photo from a copy in the North Carolina Collection, University of North Carolina

Four hundred years ago, on July 13, 1584, a party of English adventurers arrived at what is now the Outer Banks of North Carolina. By 1587, two colonies had been established. Though neither was permanent, they were the spiritual beginnings of the English America that became the United States, predating both Jamestown, Va. (1607) and Plymouth, Mass. (1620). The map above, drawn by the explorer-artist John White, shows the arrival of the English in the region.

By DAVID M. MAXFIELD  
Smithsonian News Service

ROANOKE ISLAND, N.C.— Somewhere here, perhaps near water's edge underneath an umbrella of pines and old oaks laced with strands of Spanish moss, were the first homesteads that Britain backed in America during the Age of Discovery.

There is no doubt that English adventurers planted small colonial settlements on this sandy island between 1584 and 1587, settlements that substantially predate those at Jamestown, Va., (1607) and Plymouth, Mass., (1620). But precisely where the colonists built their homes—and precisely what ill fate befell the last of those souls, among them the first child of English ancestry born in America—continues to intrigue historians and archaeologists.

John Ehrenhard, a National Park Service archaeologist whose enthusiasm for finding the exact site percolates through his carefully measured words, allows that 400 years have blurred to faint traces the evidence needed to pinpoint

the colonial dwellings. Yet Ehrenhard and his field team, aided by a battery of advanced technology, are confident they have found the right spot, the one beneath the oaks and pines. "I really think it is here," he says. "I think this is where the settlement is." In part, this is a story about how the team has reached that conclusion, but it also tells how one generation, whether digging up the earth or searching through historic documents, passes along valuable research data to the inquisitive of the future.

The story behind Ehrenhard's work begins 400 years ago—on July 13, 1584—when a party of English explorers claimed for Queen Elizabeth I what is now eastern North Carolina. A year later, a party of 108 men sponsored by Sir Walter Raleigh, who had inherited a claim to explore and colonize in the New World, arrived on North Carolina's Outer Banks—now a summer playground for thousands of Americans.

But in 1584 there was nothing but hardship, and, after 10 months, the men disbanded and returned to England. Raleigh, however, though he never came to Carolina himself, was determined to found a settlement in America, and in 1587 he sent a venturesome second party of 115—the ill-fated "lost colony." These folks had grave problems from the very beginning: They arrived too late to plant crops for that year's harvest, supplies were very limited and the friendly natives turned hostile.

To relieve the supply situation at least, the colony's governor, John White, returned to England, only to learn that his ship could not leave port again: All English vessels were urgently needed for war with Spain.

Finally, after England's 1588 victory over the mighty Spanish Armada, White sailed for Roanoke Island, arriving in 1590. He found little trace of the colony—only some remains of the fort established on the island's northern edge, a few pieces of armor and the word "Croatan," a neighboring island, carved on the trunk of a tree. No trace of a signal, prearranged to indicate distress, was found.

"None of the many theories concerning the fate of the colonists can be either proved or disproved," historian John Neville, executive director of America's

Four Hundredth Anniversary Committee, says, adding, "Though neither of the colonies was permanent, they were the spiritual beginnings of the English America which became the United States."

In his attempt at least to find the site, and maybe some information about how the first colonists lived, Ehrenhard, like

Digging Up New Clues

(Continued from Preceding Page) archaeologists passing this way before him, owes a lot to one Richard Hakluyt, an erudite 16th-century English chaplain, who realized that outside of shipping circles little was known about the New World discoveries.

Hakluyt set to work in the 1580s, compiling a historical record that he also thought of as a travel guide for future transatlantic explorers and settlers. These invaluable documents, accompanied by drawings of natural and native life—the first to give Europeans a look at North American resources—are filled with intrigue, idealism, drama, a bit of backbiting and lots of practical information.

The documents also are quite frank, particularly as the explorer-scientist Thomas Harriot examines why the soldiers and gentlemen of the 1585 colony were in so much haste to leave; he concludes that they were not settlers at all but fortune hunters. "After gold and silver were not so soon found," Harriot reveals, "(they) had little or no care of any other thing but to pamper their bellies..."

In another report, John White describes the second colony's arrival in 1587 at the site where the first group had encamped. This information is a valuable guide for Ehrenhard's team: "When we came thither, we found the forte rased down, but all the houses standing unhurt..." White writes, noting that he gave orders "to make other newe Cottages, for such as shoulde neede."

Though these documents are priceless, as far as they go, they leave unanswered the question of exact location. The search for the site is based on the premise, Ehrenhard points out, that the fort established by the first settlers on the northern side of the island, and mentioned in the accounts, is the one located and fully reconstructed by archaeologists in the 1940s. Hard by that site, a few yards directly west, is a small but so far lucrative "activity area," possibly the settlement.

Ehrenhard's team didn't just stumble upon this spot. In 1982, working from the fort information and location, the team conducted remote sensing tests with a proton magnetometer, a device that electronically sniffs for buried iron, masonry and other cultural fragments, and a soil resistivity meter. By charting the flow of electricity through the soil, the meter indicated changes in the resistance of sub-surface materials: charred wood, for example, recorded less resistance than drier soil around it. The information was then fed into a computer, which printed out topographic maps that, when ready by the team, indicated features worth excavating.

Using small trowels, but as often as not their cupped hands, the team combed the research area for clues. Patience was their watchword. "Just collecting the samples is difficult," Ehrenhard says. "The lumps in the soil that may turn out to be remains of nailheads," he adds, "have a tendency to break into dust."

But there have been rewards, evidence on which the archaeologists are basing their assumptions and constructing interpretations. The area has yielded ceramic shards, pieces of crude plaster, nail traces and charred fragments confirmed to be house-post remains. Radiometric dating of the fragments place them in the colonial period. Additionally, 15-20 post stains have been found along a straight line, indicating a man-made structure. "We won't know exactly what the structure is," Ehrenhard says, "but I feel confident that it is a rectangular building."

"Though the evidence is weak," he continues, "you can rule out a number of possibilities. There are no markings in the site, suggesting that no one was living in it and that no one was cooking there. It could have been a storage shed, rather than a principal building, and its relationship to a large charcoal pit indicates that it might possibly have been a blacksmith's shed."

These discoveries had escaped earlier archaeologists, who, unequipped with the scientific tools needed to unearth such ephemeral evidence, paradoxically were limited to hunting for bigger game—skeletons, utensils and the like. But in Roanoke Island's acidic soil, bones and other large samples of organic matter would have decomposed long ago. Furthermore, if the poorly equipped colonists left the island, as is generally assumed, it is unlikely that they would have left metal and other man-made items behind.

In constructing history from the ground up, archaeologists are not only trying to solve intriguing mysteries, they also are trying to draw a picture of long-ago everyday life often ignored by historical documents. For example, old wells located on property once belonging to middle-class families of Alexandria, Va., often are filled with layers of dishes and other objects, helpful for understanding earlier times.

Among that debris, whole vessels have been unearthed, some of which will go on display in 1984 in a new Smithsonian exhibition, "After the Revolution: Everyday Life in America," organized by Faith Ruffins of the National Museum of American History. Yet "the retrieval of objects that can be exhibited is very rare," she says.

In far greater abundance are the fragments that will never be displayed, objects that, nevertheless, are of tremendous value to archaeologists. On Roanoke Island, however, even this material is scarce. "We're looking at the traces of a culture," Ehrenhard says, then adds softly, "but what we've found is pretty nice to have."

Susan Weddington Akers and Elva L. Akers, of Banner, were married Oct. 5, 1911. Mrs. Akers was born February 15, 1893 and Mr. Akers was born Sept. 10, 1888. At this time, the U.S. numbered 39 states and Grover Cleveland was in his first term as president. The two have seen a vast amount of growth and development in the U.S.

## Festival Event Attracts Runners

More than 80 runners from five states gathered Saturday morning at Jenny Wiley State Park for the Prestonsburg Kiwanis Club's 10K Run and 2-Mile Fun Run. It was the second year of the event, which is held as a part of the annual Jenny Wiley Festival activities.

The 2-Mile Fun Run, which, like the 10K run, followed the scenic route around Dewey Lake and was carried out under cloudless skies and beautiful autumn weather, attracted a large number of participants. With a variety of age classes and divisions, the results of the Fun Run were as follows with name, age, time and address listed:

**MEN'S OVERALL**—Stan Chapman, 34, Morehead, 10:51; Rick Stamper, 21, Isom, Ky., 11:28; Ben Tackett, 45, Morehead, 11:38.

**WOMEN'S OVERALL**—Susan Gross, 24, Jackson, 15:40; Theresa Rosenberg, 37, Raleigh, N.C., 15:59; Connie Kress, 35, Lexington, Ky.,

16:59.  
**AGE GROUP AWARDS**—(14 and under) Danny Hodson, 13, Prestonsburg, 14:52, and Michelle Moore, 12, Van Lear, 17:47; (20-24) Teressa Vickers, 23, Paintsville, 19:08; (25-29) Edwin Emmanuel, 29, Paintsville, 14:17, and Margie Allen, 29, Martin, 22:34; (30-34) Roderick Kress, 33, Lexington, 12:37; (35-39) Mike Hughes, 36, Paintsville, 15:37, and Jean Rosenberg, 39, Prestonsburg, 22:47; (40-44) Gary Bentley, 43, Prestonsburg, 15:56, and Clare Day, 40, Prestonsburg, 22:47; (50-59) John Rosenberg, 52, 22:43.

In the 10K Run results were as follows:

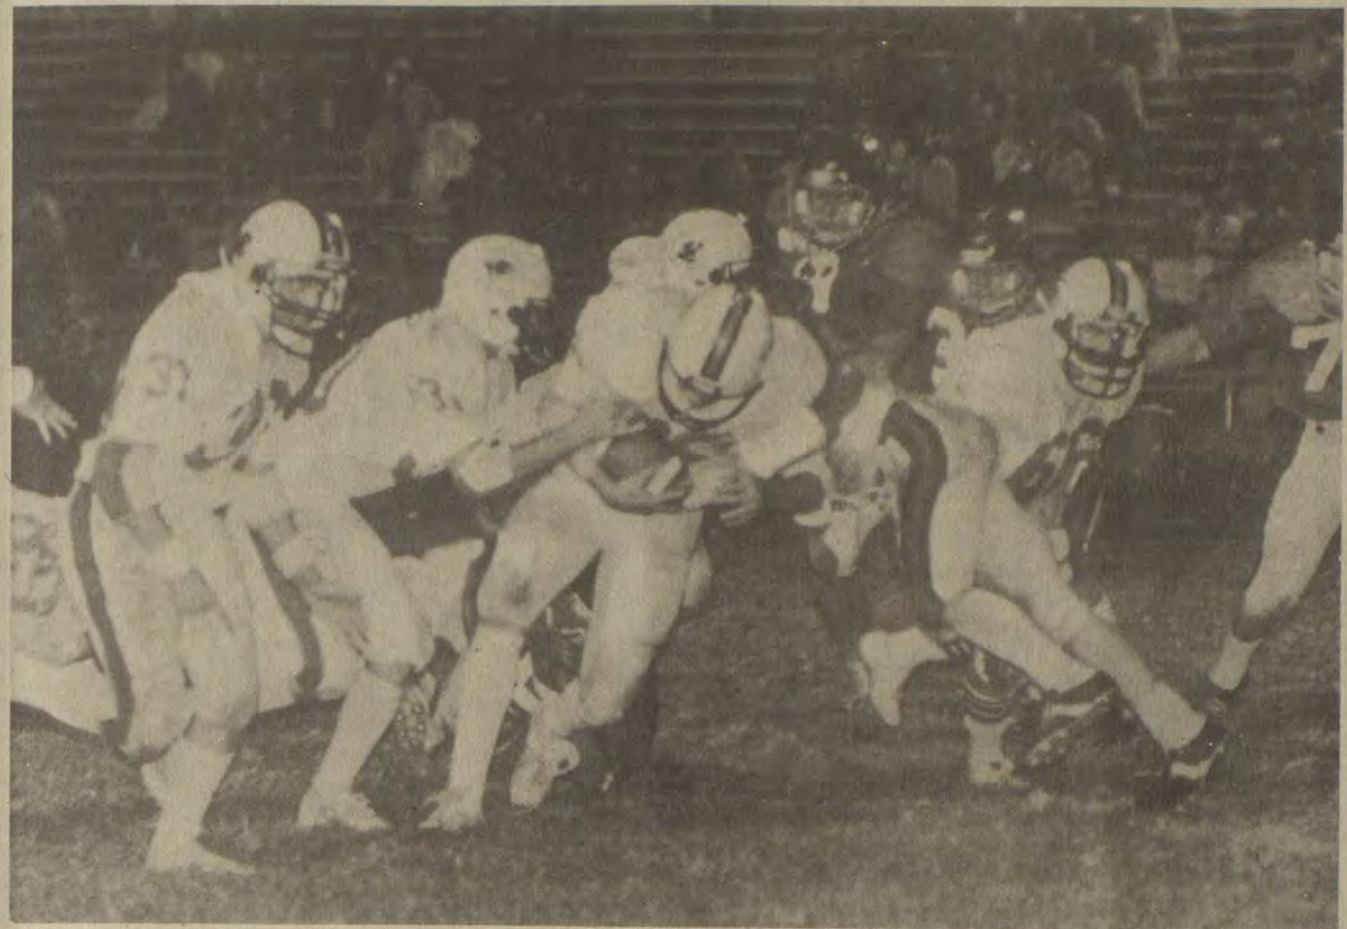

**MEN'S OVERALL**—Phillip Lucas, 31, Beattyville, Ky., 32:26; Tim Back, 22, Morehead, 32:42; Gary Cumlish, 27, Hindman, 32:59.

**WOMEN'S OVERALL**—Rhonda Lutes, 12, Beattyville, 44:42; Darlene Cornett, 22, Pippa Passes, 45:12; Libby

Tim King, 16, of Gaines, Mich., was a member of the Babe Ruth State Champions of Michigan, this season. Playing for the S.S.R.A. All Stars, Tim played second base and batted .500 in the state tournament. His team finished in third place in the Ohio Valley Regional Tournament at Noblesville, Indiana where several scouts showed interest in his outstanding play as defensive second baseman.

A junior at Swartz Creek High School in Gaines, King is the son of Linda Isaac King, formerly of Wheelwright, and John King, formerly of Kite. His maternal grandparents are Lee and Cary Isaac, of Bypro, and his paternal grandfather is Lonnie King, of Kite.

## Among Campus Leaders

The 1984 edition of Who's Who Among Students in American Universities and Colleges will carry the names of 15 students from Pikeville College who have been selected as being among the country's most outstanding campus leaders.

Campus nominating committees and editors of the annual directory have included the names of these students, based on their academic achievement, service to the community, leadership in extracurricular activities and future potential.

Floyd county students at the college who were named are Carolyn Click, of Garrett, Benny May, Prestonsburg, and Don Robin Spears, Harold.

## 'Cats Claim District Title

By LAURA COOLEY

The Prestonsburg Blackcats racked up their seventh straight win of the season by downing the Lawrence County Bulldogs, Friday, for the sub-district title, 34-6.

Scoring began in the first quarter when Todd Nairn picked up a TD on a quarterback sneak. The extra point was added by John Goble.

The Bulldogs narrowed the PHS lead with a six-point score but the 'Cats' James Little collected Prestonsburg's second touchdown of the game on a four-yard sprint. With an extra point added by John Goble, the score stood at 14-6 at the half even though Lawrence County threatened for a time but were held by the PHS defense on the one-yard line.

After the half, the Blackcats came out strong with Nairn picking up his second touchdown of the game on a 13-yard run followed by an extra point by Goble. The 'Cats added yet another score on a perfect 23-yard pass to Brad Hughes.

With the PHS defense defying all offensive efforts by the Bulldogs, the final touchdown of the game came

when Blackcat fullback John DeRossett sprinted two yards into the endzone. The TD was topped off with the extra point by Goble.

DeRossett led in rushing with 82 yards in 12 carries. James Little ran 11 times for 60 yards; Chris Hooker, seven carries for 41 yards, and Todd Nairn, five carries for 29 yards.

In the air, Brad Hughes caught five passes for 106 yards and Gordie Ratliff collected 21 yards on his single reception.

Total yardage for Prestonsburg was 339 as compared with Lawrence County's 191.

Leading tackler for Prestonsburg was Phillip Lewis with one tackle and 12 assists; Randall Hager, 12 assists; Bryan Pace, 11 assists; Gordie Ratliff, two tackles and nine assists; James Little, nine assists; Sean Dotson, one tackle, seven assists; Mike Blackburn, seven assists; Pete Greene, one tackle, six assists; Mike Gunter, one tackle, four assists, and Randall Slone, four assists.

The Blackcats will travel to Hindman Friday where they will face the Knott County Patriots.

## W'wright Loses To Virgie Eagles

Despite a strong first half in which Wheelwright's offense racked up points with an impressive passing attack, the Trojans finally yielded to the Virgie Eagles, 44-20, Friday at Virgie's homecoming game.

Virgie's outstanding running back Gerald Osborne and teammate Greg Hall turned in fine rushing stats for the night and it was these two who drove the ball downfield setting up the first touchdown of the game, a short run by the Virgie quarterback.

With 5:41 remaining in the first quarter Wheelwright quarterback Jack Hall connected on a nine-yard pass to David Hall for the Trojan's first score and the extra point attempt proved successful as well when Hall passed to Tim Cole, giving the Trojans an 8-6 lead.

Virgie answered Wheelwright's challenge when Bobby Branham scored from six yards out, late in the first quarter. The conversion proved successful, making the score, 14-6, Virgie.

The second quarter saw a Trojan drive which took 15 plays to collect the TD. The key play of the series was a pass covering 46 yards which was followed by a 15-yard run across the goal line by quarterback Hall. With a failed conversion attempt, the score stood at 14-14.

The Virgie running team of Osborne and Hall went to work again driving the ball downfield with Osborne collecting the score from four yards out. Eagle quarterback Burke added the conversion and Virgie jumped out in front again, 22-14.

The young Wheelwright team countered again, however, when David Hall ran for a long gain from the Trojans' 28 to the Virgie 32-yard line. Jack Hall connected with Boyd to the four-yard line before Scott Johnson plunged across for the score. The chance to tie was missed when the conversion attempt failed leaving a neck-in-neck halftime score of 22-20.

The second half saw the downfall of the Trojans as Virgie's Osborne scored in the third quarter and again in the fourth quarter. Greg Hall added the Eagles' final score.

## Bobcats Conquer Mullins, 14-8

Betsy Layne's John Lackey rushed for 219 yards Friday night to help spoil Mullins' hopes for a homecoming victory. The Bobcats won the contest, 14-8.

The game, an important district meeting for the Bobcats, saw a scoreless first half although Betsy Layne twice drove deep into Mullins territory.

It was not until late into the third quarter that points were recorded when Lackey scored on a one-yard plunge. The conversion failed and the score stood at 6-0.

A 55-yard punt return by Norman Hunter added six more points to the Bobcats' score, and, with the two-point conversion by Lackey, Betsy Layne found themselves with a comfortable 14-0 lead.

With 1:24 remaining in the game, Mullins scored on a one-yard quarterback sneak plus the two-point conversion, but, it was too little, too late, as Betsy Layne won the contest, 14-8.

## Purple Flash Wins Class A Grid Title

The Martin Elementary Purple Flash won the Class A Football Championship recently by downing the Prestonsburg Blackcats, 12-6.

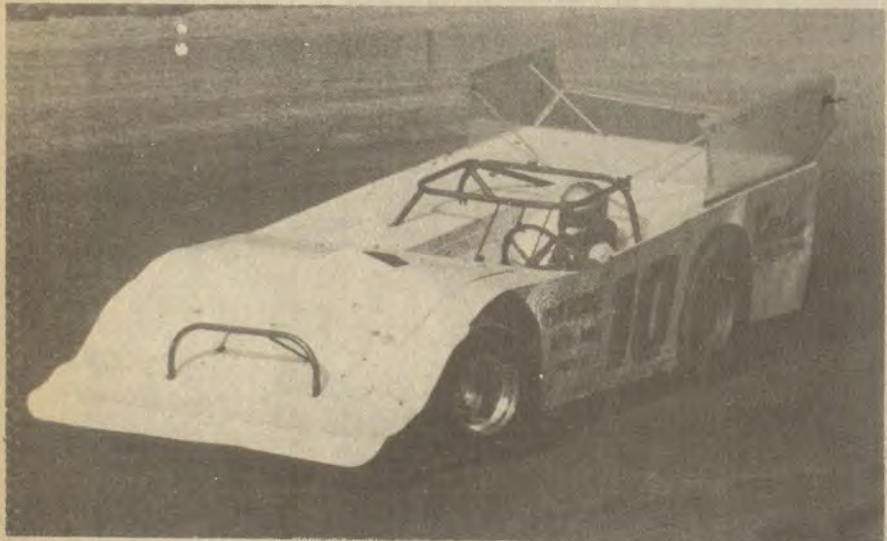

After a slow start by both teams that saw a 0-0 tie at halftime, Prestonsburg scored first in the middle of the third quarter. The 'Cats' two-point conversion failed. Then, Martin came back strong marching 70 yards to knot the score at 6-6. Robbie Click ran off tackle 15 yards for the TD.

Prestonsburg came back on the ensuing kick-off and marched to Martin's 30-yard line, but the Purple Flash defenders held on fourth and a foot. Martin then proceeded to march downfield and scored on a 20-yard run on a reverse by Jeff Hughes.

With 1:44 left in the game, Prestonsburg took possession of the ball but Martin held on four downs and successfully ran out the clock for the victory.

Martin's defensive unit, including Nathan Shelton, Steve Blevins, Robbie Click, Kyle Newman, Anthony Rederick, Jeff Hughes, Marty Gibson and Kevin Blevins were cited for their outstanding play.

## Tops Off Victorious Season

(Photo by Ken Peters)

The No. 10 car of Paul David Harris circles the track during Sunday's race at Highlands Raceway Park.

With the auto racing season drawing to a close, Paul D. Harris, of Prestonsburg, and his Martin racing team took top honors Sunday afternoon at Highlands Raceway Park near Paintsville.

Co-owners Tony Halbert and Terry Hays watched as Harris turned in top qualifying times and finished No. 1 in the 20-lap feature for Super Modified Class. The Harris lead began on lap one and continued until he passed all other cars including Hindman veteran Walter Combs, who won the five-lap Dash for Cash. Harris also won the eight-lap heat race in which Combs and the No. 32 Dutch Miller Chevrolet of Huntington wrecked in turn No. 4 forcing Combs to drop out of the race.

In the two-day event held during Johnson county's Apple Festival, the Highland 50, Ray Godsey, of Indianapolis, Ind., won with Harris second. In street stock action, Floyd racer Brad Martin came in first to claim the \$600 prize. Paul Davis, of Pilgrim, won the Modified Class.

## Honored at State Fair

The McDowell High School majorettes with their sponsor, Ernestine Shelton, attended the State Fair in Louisville in August. They placed third in the state in their competition and were awarded a trophy and the honor of having a 11 x 14 picture of themselves hung in Freedom Hall for one year. The majorettes are, sitting, from left to right, Kitty Moore and Belinda Stumbo. Kneeling, from left, are Patt Howell, Lisa Martin, and Tammy Clark. Standing are Sherri Tackett and Chris Thornsberry.

## Forest Fire Season Opens

A season opened Oct. 1 which all outdoorsmen should be particularly aware of this year. It's not a hunting season, but the fall forest fire hazard season, when special regulations governing burning go into effect and when anyone who ventures into woodlands or brushlands should be especially careful about fires.

Unless we get a lot of rain soon, the danger of forest fires will be very great this year, according to Townley Bergmann, of the Kentucky Division of Forestry. Autumn is always a critical time because of leaf fall and with the forest floor already dry, conditions are right for major fires.

The forest fire problem in Kentucky is more extensive and more serious even during normal or wet years, than many realize. Last spring, for example, there were 1,380 fires which burned over 26,700 acres of woodlands—in spite of the abnormally high rainfall at that time.

In the fall of 1982 there were only 518 fires affecting 9,667 acres, according to Division of Forestry figures. But in 1980, another dry year, 2,293 fall forest fires burned over 341,000 acres.

The 1982 general assembly substantially increased the penalties for deliberately setting woods or brush fires on the lands of another. This crime is now a felony punishable by fines of from \$1,000 to \$10,000 and imprisonment of up to five years.

Other violations of the fire code are misdemeanors with minimum fines of \$100 and maximums of \$500. Special regulations are in effect during both the spring (March 1-May 15) and fall (Oct. 1-Dec. 15) fire hazard seasons.

During these periods it is illegal to set any fire within 150 feet of a woodland or brushland except between 4:30 p.m. and midnight. Late afternoon or evening hours are safest for controlled burning, fire prevention officials say, because the wind generally lays about dark and because escaping sparks are easier to spot.

Since most hunting seasons fall within this autumn fire hazard season, hunters should be particularly careful whenever they are in the woods during dry conditions. They should also remember that it is illegal to use fire or smoke in any form to drive game or to destroy or molest the den or nest of any wild animal.

Forest fires not only endanger lives and property, burn valuable timber and leave ugly scars on the landscape, they also destroy wildlife habitat and can have harmful effects on fish populations by increasing erosion and steam siltation. We all owe it to the outdoors that we love and enjoy to be illegal with fire.

### 1983 "Run for the Lettuce"

Brandon Tosti, Chris Hicks, and Carl Edward Bingham (shown left to right) show off their trophies and turtles following Saturday's Terrapin Trot.

(Article submitted by "Run for the Lettuce" staff writer.)

Prestonsburg: Well, folks, the first annual running of The Great Terrapin Trot has crawled on by for this year, and Chris Hicks, 5, of Prestonsburg trotted off to a first place prize of \$50 and a beautiful trophy with "D.C.—The Fastest Tarpin in Floyd County" engraved thereon. Carl Edward Bingham, of Auxier, with his pal, appropriately named "Running Water," scooted in second to receive \$35 and a trophy, and Brandon Tosti, of Paintsville with "Bandit," took third place of \$15 and a trophy.

Saturday was a super-fine day for the creepy varmints who arrived en masse in baskets, paper "pokes" and cardboard boxes of assorted sizes. The loudspeaker blared the "Chariots of Fire" theme while the contestants registered their squirmy and not-so-squirmy entries. After paying their fees, getting numbers (with a rabbit saying "Nice try!") the hopefuls practiced their critters until the first heat was set to start at 1 p.m.

In the first heat of 12 entries, Carl Edward Bingham qualified first with "Running Water" (No. 42), Beau Spurlock with "Petunia Boobeak" (No. 3), and Brandon Tosti with "Bandit" (No. 2). Other contestants in the first heat had more problems with their entries such as "going back where they came from," "mixed-up directional finders," "taking a nap," and cases of the plain "can't-help-its." They were (not necessarily in this order): Larry Joe Wells with "Sadie Thompson," Aaron Bingham, "Herbie," Jeffery Bingham, "Broken Arrow," Karen Bingham, "White Squaw," Ed Bierman, "Talking Horse," McGee Lemaster, "Tony," Johnny and Jane Spurlock, "Gollywog," Jon Paul Herin, "Homer," and Eleanor Fields with "Speedy Gonzales."

In the second heat Ruby Wells won with "James," Sloane-Dixon-Onkst with "Lightning," and Jason King with "Larry." The slowpokers in this heat were: Vivian Branham, "Lazy B. Roadrunner," Jason Davis, "Fantasy Finder," Matthew Mosier, "Yurtle," Jack Latta, "M. J.," John Ryan Sparr, "Wally," Jordan Sparr, "Fred," Tommy King, "Curley," David King, "Moe," and Stacey Goble, "Poo."

The third heat consisted of winners Vickie Poe with "Sadie," Shirley Ann Wise with "Willis" (who, by the way, looked like Amos McCoy and had only three legs!), and Jeremy and Allison Cross, with "Jack-Be-Nimble." The

lazy ones were: Rebecca Goble, "Cissy," Geneva Scaif, "Arnold," Anna Fester, "George," Gordon Bradley, "Sam," Tanya Bradley, "Tanya," Angela Bradley, "Angel," Martie Lafferty, "Napoleon," and Teresa Warrix, "Water Gap."

The fourth heat belonged to Amy Bastin with "Ed," Fred Compton with "Herman," and Chris Hicks with the awesome "D. C." Trailing along were Trent and Thomas Nairn with their two slowpokes; Tracie Prater, "E.T.," Gay Herrin, "Teddy," the kid's "Tiny Tim," Maurya Buchanan, "Sammie," Gary Shortridge, "Patches," Jonia Hale, "Spike," and Kelli Stanley, "Henry."

The fifth and last qualifying heat was won by James Joseph with "Venus," Stephanie Tuttle with "Terry" (Tuttle's Turtle), and Anna Gannon with "Staffie." The late-bloomers were: Charlotte Wells, "Boss Hoss," Lisa Goebel, "Pee-Wee" (literally!), Scottie Goebel, "Roscoe," Jason Vanderpool, "Speedy," Hershel Joseph, "C. D.," Gale Collins, "Spunky," Janna Fannin, "Andy Christopher Robbins," Jilley Brown, "Turtle," and Susan Patton, "Entry, Too."

The main event, pooling all the winners of the qualifying heats, was won, of course, by Chris Hicks with "D. C.," followed by Bingham's "Running Water" and Tosti's "Bandit." The also-rans were Spurlock's "Petunia Boobeak," Wells' "James," Onkst's "Lightning," King's "Larry," Poe's "Sadie," Wise's "Willis," Crosses' "Jack-Be-Nimble," Bastin's "Ed," Compton's "Herman," Joseph's "Venus," Tuttle's "Terry," and Gannon's "Staffie."

All in all, amidst the confusion, the crowd, and the not-being-able-to-see-very-well, the trots went over quite successfully, the only casualty being WPR's announcer, Paul Vincent, who was hoarse from screaming over the mob with no mike.

Officials are already plotting future improvements for the 1984 trot and throughout the throng, were heard promises of "catchin' the fastest tarpin ever" and having it ready for next year.

The turtle race, which was approved by the Kentucky Wildlife Division in Frankfort, saved many terrapins from certain death on the highway and offered loads of fun to those who watched or participated. The turtles not finding "foster homes" are always returned to the woods.)

### Kentucky Fishing Report

Frankfort, Ky., Oct. 10—Most of Kentucky's major impoundments continue to fall slowly and most are around 70°.

Beyond that it is difficult to generalize as the fishing differs markedly from lake to lake. The lake-by-lake rundown: KENTUCKY: No report available from main lake; in tailwaters catfish slow.

BARKLEY: Crappie fair and improving fishing minnows 12 feet deep around submerged cover and drop-offs; black bass fair casting plastic worms off points around rocky cover; clear, stable, 3½ feet below summer pool, 68°.

ROUGH RIVER: Black bass slow casting plastic worms off rocky points; crappie slow 12-20 feet deep using minnows; clear, stable, two feet below summer pool, 70°.

BARREN: Crappie fair to good 12-20 feet deep around submerged cover; black bass fair casting crankbaits or spinner baits off points; clear, falling slowly, two feet below summer pool, 72°.

NOLIN: Crappie fair fishing minnows 12-20 feet deep around submerged cover; black bass slow casting crankbaits; clear, falling slowly, three feet below summer pool, 70°.

HERRINGTON: Black bass slow casting plastic worms off points; crappie slow with minnows and jigs six to eight feet deep around stick-ups; bluegill slow with crickets; clear, falling slowly, 13 feet below summer pool, 72°.

CUMBERLAND: Crappie good drift-fishing creek channels near heads of creeks and around stick-ups four to ten feet deep; black bass fair still fishing small craws off points and creek mouths early and late in day or by working plastic worms at night in stump beds and off points; bluegill fair drifting meal worms and crickets along bluff banks; walleye and rockfish fair jigging spoons 30-40 feet deep over ridge tops; trout good below dam on corn, cheese, salmon eggs; clear, stable, 40 feet below timberline, 72°.

LAUREL: Black bass good casting spinner baits; crappie fair on minnows 10-12 feet deep around stick-ups; trout slow; clear, stable, eight feet below power pool, 70°.

DEWEY: Crappie slow over submerged cover, about six feet deep; clear, stable, one foot below summer pool, 70°.

GRAYSON: Black bass fair on spinner baits or plastic worms along shore; crappie fair with minnows around

submerged cover about six feet deep; clear, falling, four feet below summer pool, 66°.

DALE HOLLOW: Black bass fair casting medium runners or plastic worms off deep banks; crappie fair fishing minnows six to eight feet deep around submerged cover; bluegill fair off deep banks; clear, falling.

CAVE RUN: Musky good casting crankbaits in timbered coves and also in open water of much of the rest of the lake; black bass slow; clear, falling slowly, 2½ feet below summer pool, 70°.

BUCKHORN: Black bass fair on surface lures in weed beds; bluegill fair fishing worms and crickets along banks; musky occasional trolling river channel or casting buzz baits around weed beds; clear, falling slowly, nine feet below summer pool, 70°.

FISHTRAP: Crappie slow; clear, falling at 12 feet below summer pool, 68°.

**Computer Foul Up Causes Frustration**

The word to those who visit the county clerk's office to have a vehicle licensed is patience. Staff members say it is downright frustrating both to the public and to them to have to wait and wait and wait while computers are being programmed to handle a new system begun in September. They can't go back to the old forms, and apparently, bugs in the computer system implemented in Frankfort make it impossible to go forward with the new.

And anyway, even if this gets itself worked out to everyone's satisfaction, another new method of doing things is scheduled to go into effect January 1. Happy New Year!

## KWNA To Hold Fall Convention, Oct. 13-14

The Kentucky Weekly Newspaper Association will hold its fall convention at Morehead State University on Thursday and Friday, Oct. 13 and 14. Registration will begin at 1 p.m. in the Button Drill Room.

Highlighting the sessions on Thursday will be a roundtable discussion on "Opportunities and Challenges in Community Newspapering," and nuts and bolts review of basic news writing principles.

David T. Thompson, executive director of the Kentucky Press Association in Frankfort, will deliver the keynote address at a banquet on Oct. 14 in the MSU Adron Doran University Center Eagle Room.

Additional information and reservations can be obtained from Dr. Richard Dandaneau at MSU, UPO 734, Morehead, Ky. 40351.

The telephone number is (606) 783-2696.

## Langan To Address Jehovah's Witnesses

Burnis Jones, local elder of the Beaver Congregation of Jehovah's Witnesses, announced today that Leroy J. Langan, circuit supervisor, is visiting the congregation October 11 to 16.

Langan has served in the ministry of Jehovah's Witnesses for more than 30 years and as a traveling supervisor since 1970.

During his visit to the Beaver Congregation, Langan, along with his wife, will participate in the house-to-house visitation program. He will also speak to the congregation on several occasions.

A special invitation is extended to the public for the address, "Why Christians Must Be Different", Sunday morning at 10 a.m. at the local Kingdom Hall. No collection will be taken.

## Oct. 16—World Food Day

By the Rev. Timothy Jessen  
People across the United States and in 150 other countries will observe the third annual World Food Day, Oct. 16.

Begun in 1981 to mark the anniversary of the founding of the United Nations Food and Agriculture Organization, World Food Day seeks to generate increased awareness of the problem of hunger and to build support for efforts to end hunger.

In the United States, people in churches and community groups will take part in World Food Day through educational programs and activities.

In Prestonsburg, churches are being asked for a special offering to support a new "food pantry" soon to be opened, as well as for foodstuffs to stock the pantry. Under the joint sponsorship of the council of Local Church Women and the Floyd County Ministerial Association, the pantry will be located at Archer Park, and staffed by volunteers from the churches. It is fitting that the kickoff of this effort will take place on a day when all around the world people will be focusing on the issue of hunger.

In 1983, hunger is still a critical life and death issue for too many people in the world. While natural disasters and political crises can cause widespread hunger, the major problem is chronic undernutrition. The U.N. Food and Agriculture Organization estimates that more than 450 million people suffer from severe and chronic undernutrition. But the root causes of world hunger are complex and solving the problem is not

easy. Efforts to fight hunger, however, must consider both ways to address long-term structural solutions to hunger as well as meeting immediate needs of hungry people.

It is to this latter end that the "Food Pantry" will be directed. It will seek to meet the immediate needs of people—both local and transients—who come to the churches and other agencies in need of food.

Participating in World Food Day provides an opportunity to focus on hunger in our community and to build support for resources that help to fight it. The community's support is encouraged in this local effort and in all the other ways we can work together for a better world, where each person has enough to eat and enjoy a full life.

## Miss Gorrell Inducted Into Honor Society

Susan Gorrell, Floyd county student, is among some 400 Eastern Kentucky University students who have been inducted into Gamma Beta Phi, an honor society and service organization recognizing excellence in education and improving education through service projects.

The first American student to work his way through college was Zechariah Bridgen, 14, who graduated from Harvard in 1657. He earned "money by ringing the bell and wayting."

Job Service offices across the country are responsible for giving priority to veterans in counseling, aptitude testing, job development, referral and placement activities, according to the annual report of the U.S. Labor Department.

**COURT OF APPEALS RULES MEN MUST SERVE TERMS**

Frankfort, Ky., Oct. 14—Four men given sentences ranging from five to seventeen years on murder charges must serve their sentences while a fifth, given a 10-year sentence on a criminal attack charge, was granted a new trial by the Court of Appeals today.

W. D. Flywood, a constable for Carter county who, it is charged, shot into a speeding automobile, killing Martha Yarhaus, must serve a seventeen-year sentence given him by the Carter Circuit Court. Evidence given at his trial indicated Haywood was under the influence of liquor when he fired the shot.

Elmer Tipton, a 17-year old lad must serve 10 years as the result of killing Hod Moss, in a drunken brawl in which Tipton, it is charged, struck Moss over the head with a broken bottle. The case was appealed from the Estill circuit court.

Garfield Spradlin and Walter Csborn, constable and deputy constable of Lawrence county, must serve five years each, as a result of the killing of Bert Preston. The officers with two other men were indicted in the slaying of Bert Preston which resulted from a shooting scrape when they went to arrest Preston. Testimony showed the officers opened the firing.

Dewey Victor, given a 10-year sen-

**TOM BURCHETT BURNED WHEN GAS TAKES FIRE**

Tom Burchett, electrician at Colonial Coal Company's mines here, was seriously burned Thursday, October 13, when gas from a carbide tank upon which he was working caught from a lamp on his cap, burning him about the stomach, chest and head.

The accident occurred when, preparing to make a weld, he tapped the screw cap to the tank and escaping gas caught from the lamp.

For the first time since this year's spread of infantile paralysis, public health reports have shown a decrease in the number of cases.

During the week ending October 15 there were 579 new cases reported, a decrease of 71 over the previous week. Pennsylvania, with 33 cases compared with 29 the week before, was one of the two states showing increases.

**WHY NOT A CHANGE?**

*I Have Never Held An Office*

**George T. Roberts**

For Circuit Court

**CLERK**

Of Floyd County

**WHY YOU SHOULD VOTE FOR ME FOR CLERK OF THE FLOYD CIRCUIT COURT:** ¶ When the tocsin of war was sounded, and Kentucky and Floyd county boys were called, I was one of them. I went, ready and willing to go across at the tap of the drum and the sound of martial music. Your boys went along—some never came back—some tattered and torn and maimed for life. ¶ Before I went, I had a good position and was getting a nice start in life. This was wiped out. I have never fully recovered from the financial loss. ¶ I feel that there is a bond of sympathy between your boys and myself, and the mothers and sisters of the boys that went through those trying days of the war and anxiety. They needed us then—I need you now—"Lest we forget." ¶ What little money I have earned, has been earned through honest methods and industry, and I have always tried to see the other fellow's side and help those who needed help. When elected to this office, I will never turn from those who need help or those who have helped me. Live and Let Live shall always be my motto. I have accumulated no money more than a living. ¶ If my past life has been such as to have gained friends, rest assured that when elected to this office, it will be conducted in a business way accompanied by friendship and courtesy, and not for the sake of the emoluments of the office, but to lighten your burdens where I can do so. ¶ I will appreciate your support.

Political Adv. Very respectfully, **GEORGE T. ROBERTS**

**RETURN FROM TRIP**  
 Mr. and Mrs. Joe H. Arnett returned recently from a 10-day trip during which time they visited in Reston, Va., with members of their family Glenn Philip Arnett, and his wife Sharon and Matthew and Leslie Arnett. While they were there they were visited by one of their granddaughters and her husband, Cathi and Jimmy Golman, of Reston, who brought with them Mr. and Mrs. Joe Arnett's month-old great-granddaughter, Kimberly Ann, for them to see for the first time. Another interesting feature of their trip was a visit to their son's work-area in a historic building on the west side of the White House. Their son escorted them on a tour of the west wing of the White House. After leaving Reston, the Arnetts traveled to Livingston, N.J. for a visit with friends, the Rev. and Mrs. Ronald Bayles. (Mrs. Bayles is the former Rachel Young, of Prestonsburg.) One day of their visit was spent visiting historical sites in Morristown, N.J., including Morriston National Park, and the Ford residence, which had been commandeered by General Washington as his headquarters during the winter of 1779-80.

**Community College System Marks 20 Years**

The University of Kentucky Community College System is celebrating its 20th anniversary this year. Prestonsburg Community College has been a part of the system since 1964 and will be commemorating its 20th anniversary with a luncheon at the Carriage House Motor Hotel on Saturday, October 29 at 12 noon. The cost of the luncheon is \$8 a person and anyone desiring a reservation should call (606) 886-3863 by Friday, October 21.

"We think that being a part of the University of Kentucky is very important," said Dr. Henry Campbell, PCC director. "We have the autonomy to develop programs to meet our local needs, but at the same time we have the offices, services, and resources of the University of Kentucky to help us."

"The partnership has worked well," Dr. Campbell said.

Prestonsburg's two-year college grew from a 1962 meeting of a group of citizens who formed the Big Sandy College Development Corporation. That group—composed of Burl Spurlock, W.J. Reynolds, Jr., H.D. Fitzpatrick Jr., Glen C. Spradlin and Frank E. Harmon—raised \$100,000 towards the purchase of 40 acres owned by Graham Porter and Charles Elliott.

In June 1964, Dr. Campbell, then president of Crowder College in Neosho, Mo., was named director of Prestonsburg Community College. Campbell, Walter Reed and Robert J. Wallace were employed prior to the completion of PCC's campus and had offices in what is now the Fountain Korner Drug Store.

One of Campbell's first acts as director was to hire Judy Smiley as secretary to the director and Walter Frasure as counselor.

Since its beginning, PCC has grown from an original enrollment of 322 students to 910 students in 1982.

"Our enrollment has exceeded by far every study by the Council on Higher Education concerning the projected growth in our service area," Campbell said. "The growth of our community services and continuing education programs has gradually become one of the largest such programs in the UK Community College System."

The 2,000 people served annually by PCC's Community Education Office participate in activities ranging from refresher courses for the professionals to how-to classes for the hobbyist or novice. Courses are taught in business and commerce, mechanical and other engineering technologies, the "helping" profession—family health and childbirth education, physical fitness, arts and crafts—and the humanities, dance and drama, music and college preparatory workshops.

PCC administrators and faculty meet regularly to respond to the needs of the college's service area. One outgrowth of these meetings was the formation of PCC's guild system which combines the talents of the faculty and staff at PCC with those in the community in such areas as art, pottery, photography, science fiction, writing and the computer.

PCC also hosts a summer camp for young children 6-13 years of age. A day program of social, cultural, educational and recreational activities is scheduled.

"PCC has continually provided educational opportunities for high school graduates, adults, senior citizens and children since 1964," said Robert R. Allen, associate director at PCC. "Students of all ages continue to seek out PCC for a variety of reasons—career training, career retraining, enrichment and general upgrading of their standard of living."

Robert V. May, chairman of PCC's Advisory Board, served on the Governor's commission that recommended the creation of the UK Community College System and has served on PCC's Advisory Board since 1964.

"It has been a great satisfaction to me to see thousands of young people offered the opportunity for higher education who could not have been provided that opportunity any way except by a community college," May said.

Serving five counties in the Appalachian foothills—Floyd, Magoffin, Martin, Johnson and Pike—PCC boasts a faculty with an international flavor, including teachers from India, Ethiopia, Czechoslovakia and Latvia.

"One of the goals of this institution has been to import teachers from a variety of institutions from outside the state," said Campbell. "Our diversified faculty plus a limited number of out-of-state and foreign students contributes to a healthy and comprehensive college environment."

Since 1964, PCC's faculty has grown from nine to 31.

The college offers a full range of classes in its two-year transfer program (leading to the four-year baccalaureate degree). PCC also offers two-year technical programs in engineering, ac-

counting, business and office education and nursing.

"Our students range in age from 5 to 92," Campbell said.

In addition to their classes, PCC students are active in a number of student organizations and activities. PCC's intramural program offers students recreational competition in softball, basketball, tennis, table tennis and volleyball.

A major intramural event each year is PCC's Mountain Dew Festival. Now in its 20th year, the festival has varied in size and number of events. In 1982 more than 300 student participated.

Brenda C. Music, PCC admissions and financial aid officer, said, "PCC provides an open door to a better way of life for its students. The concern of the faculty and the diversity of the programs which meet community needs have provided job opportunities and advancement for many who could not leave home. The success of an area rests in the education of its people—we provide the educational opportunities for tomorrow's successes."

**Anthropology's Past, Present Examined**

The late Dr. Margaret Mead, one of the world's most noted anthropologists, studied the remote tribes of New Guinea. From these studies, she produced two of her better-known books. NOVA takes you back to New Guinea, and talks with the natives about their fondness for her, yet their resentment of her books and work, in "Anthropology on Trial," airing Tuesday, November 1, at 8 p.m. on KET.

Walking in Mead's footsteps, NOVA listens to village elders that say she was sometimes misinformed or biased, that she did not consult them enough. Younger New Guineans feel exploited, arguing that anthropologists build their careers from the information a village gives them, but they give nothing in return to the villagers.

In "Anthropology On Trial," NOVA examines how anthropologists today are becoming more and more conscious of their cultural prejudices and the part their work can play in the colonization of the Third World. NOVA also looks at Canadian and British anthropologists to show the struggles, set-backs and keys to a successful anthropological study. NOVA is produced by WGBH, Boston.

The Dakotas were named for the Sioux Indians who once roamed the territory. The Sioux called themselves Dakota, meaning allies or friends.

**New Series Considers Higher Education Concerns**

Issues facing higher education today are the subject of a new series, "University Journal," premiering Monday, October 31 at 7:30 p.m.

The half-hour monthly program features Western Kentucky University President Donald W. Zacharias as host of a roundtable on concerns of critical interest to the educational community. Joining Dr. Zacharias for the premiere program will be Dr. Leon E. Boothe, president of Northern Kentucky University, and Dr. Kala M. Stroup, president of Murray State University. The topic they will discuss is "Leadership in Higher Education."

"University Journal" is a production of Western Kentucky University Television.

**\*SPECIAL-OF-THE-WEEK—Owner transferred. Bruny-built ranch home on Abbott Creek with oversize lot and special decorating. Entry foyer, long living-dining room with sliders to patio and above-ground pool, equipped kitchen with GE appliances, an abundance of cabinets and counter space and an eat-in area. Family room paneled, with woodburning fireplace, three bedrooms, two full baths, and an attached two-car garage. Storage building to stay. Lovely area of well-kept homes. Old 7/8% bond money assumable loan available.**

**We again have Kentucky Housing money available for new homes in Jenkins. Old-time interest rates for a few lucky buyers. Call for details.**

**New brick home nearing completion in a lovely area just outside Prestonsburg. Front porch, living room with picture window and fireplace wall, dining room, eat-in kitchen with GE appliances, sliders to patio, master bedroom suite, two other bedrooms, two ceramic tile baths, utility area and two-car garage. Central heat and air, fully insulated for energy efficiency. The fireplace has blowers and the roof is pitched steep with pull-down stairway for extra overhead storage. City water, cable TV. Value priced.**

**The Irma—Assumable loan with the lowest closing costs in town! Energy efficient brick ranch with attached garage, all freshly painted, on a good level lot. Foyer, living room, large kitchen-dining-family room with abundance of cabinets and counter space and range and dishwasher to stay. Master bedroom suite plus two other bedrooms, two utility rooms, all drapes to stay. Great neighborhood for children in a quiet residential area but off the busy main road. See if this won't fit your budget.**

**60-acre Johnson county farm with mineral rights. Very livable two-story home with five bedrooms, living room and large kitchen-family room. Detached garage, barn which needs some repair and a garden area. If you long for the country, but like living on a good road, this may be it.**

**Modified A-frame with wrap-around deck; lots of windows and light. 2 beautiful stone fireplaces, one is two-story height. Foyer, living-dining-kitchen (great room) area, three bedrooms, plus lower level rec room and unfinished basement (utility, storage, workshop area). Central heat and air. Good buy with Floyd County Bond money financing available. Adjoining lot could be added.**

**One of the largest and most beautifully built and decorated homes it has been our pleasure to offer this year. Built of white stone (brick) from North Carolina, with privacy (10 acres), yet within three miles of Prestonsburg. Approximately 3200-sq. ft. of living space, plus oversize garage of 750-sq. ft. and 100' patio in rear give great spread-out room for family or parties. Space for pool if desired. Old bond 8 7/8% partial assumable mortgage available. Shown by appointment.**

**On Daniels Creek we have a modular on 260 front feet, wedge shaped to the top of the hill. Extra insulation and double-pane windows and a fireplace in the family room make this three-bedroom, two-bath home with beamed cathedral ceiling in living and dining room a real energy saver. Special General Electric kitchen with side-by-side refrigerator, self-clean range, pot scrubber dishwasher, compactor and disposal, is open to paneled family room. Central heat and air, deck area, utility building to stay.**

**Close to Prestonsburg we have a 14 x 70 Windsor mobile on a very private lot with garden area and plenty of parking. Living room with skylights, wood-burning stove, dining room with built-in buffet, equipped kitchen with appliances; also, washer-dryer to stay. Two bedrooms and an extra unfinished add-on, carport and a storage building make this a very good buy at \$20,000.**

**Buffalo Creek acreage—approximately one acre of bottom land is included in this twelve-acre tract near Pike Co. line. Located on blacktop road and priced to sell.**

**Gentleman's Farm—A private steel bridge is the entry to one of the finest homes in the county. A large stone and brick ranch is complemented by a fully equipped and fenced in-ground swimming pool, a large private flagstone patio and a 30' x 30' barn for your horses and/or cattle. The professionally decorated home has three bedrooms, three baths, rec room with fireplace, designer kitchen, living room, dining room, laundry room and an extra large two-car garage. The grounds have been tastefully landscaped and have a concrete driveway and large parking area. Country living with city conveniences.**

**Abbott Creek location for this brick ranch with nice level yard for these hot summer days. Entry foyer, living room with bay window, kitchen-family room with fireplace and slider doors to back yard. Three bedrooms, pull down stairway for attic storage. City water with outside faucets connected to private well, priced to finance under FLOYD COUNTY BOND MONEY and seller will pay \$3,000.00 toward closing costs.**

**Charming three-bedroom, two-story home with front porch, two baths, kitchen with appliances and a fireplace in the living room. Remodeled, with new carpeting and wallpaper, washer and dryer and window air-conditioner to stay. Outside storage building with utilities. Prestonsburg city water and gas. Located just below Sugarloaf on a tree-shaded lot.**

**20 acres on Conley Fork of Spurlock. Two-bedroom house with partial basement, Masonite siding, metal roof and drilled well, all surrounded by woods. Good starter home.**

**Commercial Prestonsburg lot containing approximately one level acre at intersection of Porter and University Drive. Adjoining Highland Plaza Shopping Center. Excellent location in a growing and busy area.**

**Two lots on May's Branch in Village Estates. City utilities; our contractor, your plans.**

**Three bedroom home at an affordable price in Auxier. Fenced yard with concrete block utility building and outside storage shed. Newer remodeled kitchen, good carpeting, gas heat, city water and space for a garden. Under \$25,000.**

**High, dry building ground within walking distance to hospital. Could be two home sites or professional or business office. 192' front x 150' deep. City water available.**

**Two story home in Martin on big creekbank lot—room for garden. Living room with fireplace, dining room, den, eat-in kitchen, utility room, three bedrooms, 2 1/2 baths. Partial basement. Forced air furnace, concrete block double garage, downtown location. Great family home.**

**Rarely available—wooded, secluded lots with acreage; also lots without acreage. May Branch, Prestonsburg location.**

"Fungi: The Rotten World Around Us" airs on the PBS "Nature" series.

### 'Fungi: The Rotten World Around Us'

The beauty of the endlessly varied fungi — ink caps, parasols, stinkhorns and earthstars, among others — often hides the beast within: a beast which is destructive yet very necessary to our existence. "Fungi: The Rotten World Around Us" aptly delves into this kingdom of decay on the acclaimed "Nature" series, to be broadcast Sunday, Oct. 16 on PBS. (Please check local listings for time.)

The spectacular cinematography featured is the result of a special process developed to document fungi's mysteries of decay. Prior to modern science and technology, fungi was one of the least understood families in the natural kingdom.

In this hour-long presentation, a link between mushrooms and soil is surprisingly revealed, and numerous and varied methods of spore distribution are clearly documented. Through the use of both light and electron microscopes, combined with special time-lapse cameras, this once bewildering world of fungi stands as yet another intricate piece in our ever-growing knowledge of the world around us. Never before has the life cycle of fungi been so specifically revealed.

**THE BIG CHILL**, from Columbia Pictures. Directed by Lawrence Kasdan, screenplay by Lawrence Kasdan and Barbara Benedek. Starring Kevin Kline, Glenn Close, William Hurt. Rated 'R' ★ ★ ★ ★

By J.T. YURKO

Lawrence Kasdan has written or co-written some of the most successful pictures of all time — "The Empire Strikes Back," "Raiders of the Lost Ark" and "Return of the Jedi." Those are his "big" films, but some of his "little" films are just as enjoyable, notably "Continental Divide" and "Body Heat."

Going from "Body Heat" to "The Big Chill" is not as far a trip as a thermometer might indicate. Although "Body Heat" had a terrific plot, the characters were remarkably well defined, and the story really hinged on their personal traits and flaws.

"The Big Chill" rests entirely on its characters as the film's premise. Seven people have come together at a friend's funeral — a friend they knew in the '60s who has committed suicide. The reunion is both tragic and comic, as lost dreams face present realities, past ideals are set against current attitudes, and romances from their youth are compared to today's marriages, affairs and divorces.

Kasdan is a child of that

time, and the college referred to in the film is his own alma mater. It's not surprising that Kasdan would be able to write well what he has experienced, but conveying past memories, feelings and friends through a script, and then shaping that into a popular movie is an enormous task.

That Kasdan has succeeded so well is a tribute to everyone else involved as well. As an ensemble piece much in the spirit of "Diner," "The Big Chill" takes a remarkably perceptive script that says as much, if not more, about the '80s than it does the '60s.

"The Big Chill" combines warmth, humor and friendship without the ponderous traumas of a reunion film such as "That Championship Season." The soundtrack (put together by Kasdan's wife) is terrific.

Kasdan learned from George Lucas how to pack a lot of information into each shot and frame, and so "The Big Chill" is the kind of film that can and probably should be seen again. It is one of the best films of the year.

Assuming that international politics don't foul up the competition, cable viewers will get a preview of how the U.S. women's volleyball team will fare in the 1984 Olympics when it meets the Cuban, Soviet and Japanese teams in matches that ESPN will televise Oct. 16, 19 and 21. These three teams will be among the strongest that the U.S. women will face in Los Angeles.

USA airs the West Virginia-Penn State football game on Saturday, Oct. 22. West Virginia has looked pretty good so far this year. Penn State has not looked so good. Nonetheless, they're not about to roll over and play dead.

For those of you who are heavy metal rock fans, MTV presents an interview with Ozzy Osbourne this week. The show will also include Ozzy performing such classics as "Paranoid" and "Flying High." He is so off the wall that the interview is bound to be entertaining.

Movies this week on Spotlight: "The Godfather" (Oct. 19) — The movie is in many ways more a meditation on an American business success story than on organized crime as such. As in "Apocalypse Now," director Francis Ford Coppola looks at the destruction of a great man, both physically and morally, and asks

Marlon Brando in "The Godfather"

"what went wrong?" Marlon Brando is outstanding as Don Corleone, the mob boss. The supporting cast includes James Caan, Al Pacino and Robert Duvall.

"The Godfather II" (Oct. 19) — In some ways this film is not as intense as its predecessor, but it is more consistent. Coppola seems to have a clearer idea at what he is getting at. The scenes shot on New York's Lower East Side are particularly memorable. Robert DeNiro is completely convincing as the young Don.

"Poltergeist" (Oct. 20) — Steven Spielberg's suburban horror flick. The film seems to be set in the next subdivision over from where "E.T." took place. It is just as funny as it is scary — and it is plenty scary.

## Pharmacy Footnotes

By HAROLD COOLEY

Unlike many other drugs that are referred to in terms of milligrams, dosages of penicillin and some other antibiotics are referred to in terms of "units." A unit of penicillin is that amount of the antibiotic which it takes to kill a specified number of germs. The amount is determined by taking a sample of each batch of penicillin produced to see how effective it is in eliminating a number of different types of germs. Years of experience tell scientists that one milligram of pure penicillin G equals 1,007 international units. This knowledge enables us to translate "unit" measures to pure measures in milligrams of sodium penicillin G.

When you're taking an antibiotic such as penicillin, remember to always follow the directions on the label and to take the medication until it is finished. In this way you can insure the maximum results of the medication. Here at COOLEY APOTHECARY you'll find a full-service prescription center and convalescent items such as canes, walkers, crutches and more. Located at No. 2 Town Center Bldg., where we're open Mon.-Fri., 9-5:30; Sat., 9-4. 886-8106.

**HANDY HINT:**

Penicillin G was the first penicillin type to be discovered.

## DOE Extends Funds For Coal Fuel Study

The U.S. Department of Energy has extended its contracts with two universities for up to \$9 million in "magnetohydrodynamics" (MHD) research to be carried out in fiscal year 1984, beginning October 1.

This experimental fossil energy technology, to be studied at the University of Tennessee Space Institute (UTSI), Tullahoma, TN, and Mississippi State University (MSU), Mississippi State, MS, could be one option for burning coal cleanly and efficiently in the nation's electric generating plants in the 21st century.

The contract extension with UTSI provides, in 1984, up to approximately \$6,975,000 in research and development funds for the Energy Department's Coal-Fired Flow Facility, located adjacent to the UTSI campus. The Government's arrangement with UTSI also provides for optional extensions of the contract for 1985 and 1986. Should the Energy Department exercise its option to continue the contract, up to \$21.5 million could be provided to UTSI over the three-year period.

The total funding will depend on future decisions by the Energy Department and the Congress regarding the scope of the federal MHD program. The Energy Department has proposed to orient the MHD program to address several fundamental scientific aspects of the MHD concept that are crucial to the success of the technology. Congress, however, has continued to appropriate funds for demonstration of the MHD system at large scale facilities, including the Coal-Fired Flow Facility.

The contract extension with MSU calls for approximately \$2,000,000 to continue research and development activities at the university's MHD Energy Center in FY 1984.

The MHD process extracts electricity directly from the hot gases of coal combustion. Heat from burning coal produces a stream of electrically conductive gases, called "plasma," which flow through a long nozzle-like channel encased by powerful electromagnets.

The gases moving through the channel at roughly the speed of sound create an electrical current which can be drawn off by electrodes imbedded in the channel walls.

Because the system operates at much hotter temperatures than conventional coal-fired power plants, enough heat energy remains in the exhaust to be used in a conventional steam generator to produce additional electricity. This combination of an MHD system linked to a conventional power plant is projected to boost the efficiency of electrical generation by up to one-and-one-half times what it is today.

An added potential advantage of the MHD system is its inherent capability to clean sulfur from coal during the power-producing process. A potassium carbonate "seed" injected into the stream of hot combustion gases to render the gases electrically conductive also chemically combines with the sulfur in the gases. The reaction and subsequent cooling of the combustion gases produces solid particles which must be efficiently collected to avoid air pollution. The cost of this sulfur pollution control technique is expected to be offset by elimination of expensive leaning systems that must be added to power plants today to scrub sulfur from combustion gases.

The Coal-Fired Flow Facility is operated for the Energy Department by the University of Tennessee Space Institute. During the past five years, UTSI has focused its principal efforts on developing ways to recover and use the heat and potassium seed exiting the MHD power generating system. UTSI also has completed a test program that showed the potential for the MHD/steam power plant to remove nitrogen oxide and sulfur oxide emissions in amounts greater than required by the stringent New Source Performance Standards.

During the new contract period, UTSI will complete the installation and testing of the additional components necessary to simulate an MHD/steam plant, including a baghouse and electrostatic precipitator for particulate control. The system will then be tested under continuous operating conditions, simulating the entire range of power plant operations. In addition, research will continue on seed regeneration, the process by which the recovered potassium seed is converted back into potassium carbonate for reuse.

The MHD Energy Center at Mississippi State University has conducted MHD research for the Department for the past seven years. Since March 1980, the center has concentrated on development of instrumentation and control systems for Energy Department MHD research facilities.

In the upcoming year, refinements will continue on other innovative instrumentation systems, such as advanced diagnostic instrumentation for making measurements in the MHD channel itself. The Center will also continue its support of MHD engineering development test facilities, such as the Coal-Fired Flow Facility and a second test unit in Montana.

### New Photography Class

A new class for photographers will start Wednesday, Oct. 19 at 7 p.m., at Prestonsburg Community College. It is a class in beginning darkroom techniques and should interest every amateur photographer who wants to take the next step. This class, taught by David Gardner, will include techniques such as burning and dodging, cropping, matting, framing, chemical and paper selection. Call Continuing Education at 886-3863, ext. 215 to register.

## Living Endowment Established

Palmer L. Hall

Floyd County native Palmer L. Hall has been honored by his family and friends with the creation of a scholarship fund in his name at Alice Lloyd College in Pippa Passes.

He was presented with the Palmer L. Hall Living Endowment at the 6th annual family reunion of the James Emory "Polk" Hall family of Floyd county held recently at Flemingsburg. Dr. Hall, who now lives in Morehead, was one of 13 children of J.E. Hall.

More than \$3,500 was contributed by family and friends to establish the living endowment which is designed "to aid a deserving person or persons from Floyd county or a direct descendant of James Emory Hall in obtaining an education."

"I was completely surprised," he said. "It is a very wonderful kind of recognition, and I think it is more than I deserve, but it's the type of thing I like—helping educate others."

The certificate acknowledging the endowment fund was presented by his nephew, Harold Newman, of Hi Hat, a teacher at Wheelwright High School. In presenting it, he said, "When I finished up my undergraduate degree at the University of Kentucky, Uncle Palmer said, 'Why don't you come on over to Morehead, and I will help you get an assistantship to go to grad school to get your master's degree.'"

"There were so many of us in the family that Uncle Palmer helped," Adrian Hall, another nephew, of Minnie, told the more than 150 relatives. "It's great that a family can get together and honor one who so richly deserves it. I can truthfully say that if it had not been for Palmer, I would not be where I am today."

Dr. Hall, born May 3, 1910, in McDowell, attended elementary school at Frasure Creek and graduated from Caney High School in 1928. He taught school one year in McDowell before graduating from high school, then attended Caney Junior College (now Alice Lloyd College) where he received a two-year diploma.

After teaching one more year, he attended Tusculum College in Greeneville, Tennessee, where he graduated in 1931 with a bachelor's degree in social sciences and pre-law. He returned to McDowell where he taught in the consolidated grades and served as principal in the mid-1930's. He also served an interim term as Superintendent of Floyd County Schools from February until September, 1936.

He then attended law school at the University of Kentucky and returned to Floyd county to serve as supervisor of Floyd county schools for seven months, before returning to law school for two more years. He was admitted to the Kentucky Bar Association in 1939.

He was assistant supervisor and supervisor of schools until 1943 when he joined the U.S. Army.

He was assigned to the 42nd Infantry of the U.S. Army, known as the Rainbow Division. He landed in Europe December 8, 1944, went into action Christmas Eve, and was captured by the German Army, January 18, 1945. He was liberated from prisoner of war camp, April 15, 1945, and honorably discharged from the Army that October.

He served as superintendent of Floyd county schools from 1946 until 1952 when he returned to college to earn a master's degree and a doctorate in education.

In 1955, he was named dean of the College at West Virginia Institute of Technology in Montgomery, West Virginia. He came to Morehead State University in 1957 as director of graduate studies. In addition to administrative duties, he taught in the College of Education, and retired in 1975 as assistant graduate dean.

He married the former Oval Bingham, of Prestonsburg, in 1940, and they had one child, Pamela Hall Lapish, of Lexington. He has three grandchildren.

Since retiring, Hall said "he has traveled to Israel twice and spent a lot of time keeping in touch with his family." He has been instrumental in arranging for and contacting family members for the annual Hall reunion.

Of the 13 children of J.E. "Polk" Hall, nine are living, and eight attended the reunion. Maxie Hall of Tucson, Arizona, was unable to attend. Attending were Milford Hall, Maudie Hall, Butler Hall, Myrtle Hall, Draxie Hall Hopson, Velma Hall Crum, Palmer Hall, and Sylvia Hall Newman.

Relatives from eight states attended and all families were represented.

## Floyd Idle Rate for July Highest in Big Sandy Area

Kentucky's unemployment figures for July—up .2 percent from June—were reflected in the county-by-county tabulations for that month in which 58 counties reported an increase while 57 counties reported a lower jobless rate. The state jobless rate for July was 11.4 percent, compared to 11.2 percent in June. The comparable national rate for July was 9.4 percent. The number of counties reporting single-digit unemployment—rates of below 10.0 percent—fell from 45 in June to 42 in July.

State labor market analyst Ed Blackwell attributed the overall increase to "normal seasonal changes in the state's employment picture. About 20,600 people who are school employees were dropped from payrolls during July," he said. This figure does not include teachers, he explained, but other personnel who are not employed during the summer months. "Agricultural employment also dropped in July," he said.

The jobless rate in manufacturing industries rose from 9.7 percent in June to 10.5 percent in July, Blackwell said, but dropped in the bituminous coal mining industry, from 24.8 percent in June to 24.3 percent in July, and in construction, from 21.5 percent in June to 18.4 percent in July.

For the fifth consecutive month Letcher County reported the state's highest unemployment rate, 34.7 percent, up from a revised July rate of 33.7 percent. Woodford County's 4.6 percent unemployment rate was the lowest for the fifth month in a row, but it was higher than the revised June rate of 3.8 percent.

In the Lexington metropolitan area, which is made up of Fayette, Clark, Bourbon, Jessamine, Scott and Woodford counties, the number of unemployed decreased from 9,781 in June to 9,699 in July, but the drop in employment was greater, from 167,907 to 161,599 during the same period, which resulted in an increase in the unemployment rate from 5.5 percent in June to 5.7 percent in July.

The unemployment rate in the Big Sandy district decreased from 19.1 percent in June to 18.8 percent in July. All five counties in the district reported a double-digit unemployment rate, with Martin county registering the lowest, 10.7 percent, and Floyd county the highest, 21.2 percent.

The monthly sample of unemployment insurance benefits recipients showed 63.4 percent had worked in mining, 10.1 percent in construction and 9.4 percent in services.

In the Bluegrass district, the unemployment rate inched upward from 6.9 percent in June to 7.1 percent in July. Woodford County reported the district's and state's lowest rate, 4.6 percent. Lincoln County had the district's highest rate, 15.3 percent. Four of the district's 17 counties had an unemployment rate above 10.0 percent.

The monthly sample of the district's unemployment insurance benefits recipients showed 43.0 percent had worked in manufacturing, 17.0 percent in services, 16.0 percent in trade and 11.5 percent in construction.

County-by-county rates are as follows: The county-by-county figures for the Big Sandy region:

Floyd, labor force 18,549; 14,632 employed; 21.1% idle.

Johnson, labor force 9,516; 8,011 employed; 15.8% idle.

Magoffin, labor force, 6,628; 5,392 employed; 18.6% idle.

Martin, labor force, 9,141; 8,121 employed; 11.2% unemployed.

Pike, labor force, 38,231; 30,235 employed; 20.6% unemployed.

Toads in your garden should always be a welcome sight, says National Wildlife's Ranger Rick magazine. One toad eats up to 10,000 insects in one summer.

## Born August 18

Marty and Lisa Mitchell announce the birth of their first child, a daughter, Chastity Lynn, on August 18 at Pikeville. She is the granddaughter of Luther and Dorsie Hamilton and Mr. and Mrs. Daniel Mitchell, all of Beaver, and the great-granddaughter, of Crit and Dasy Mitchell, of Beaver, and Mrs. May Howell and the late Ocie Howell, of Grethel.

## 10% Acreage Reduction In Feed Grain Program

Secretary of Agriculture John R. Block has announced a 10 percent acreage reduction for "acreage conservation reserve purposes" for the 1984 feed grain program. Program signup period will be Jan. 16-Feb. 24.

Regular Commodity Credit Corporation price support loan and purchase rates, per bushel, for corn will be \$2.55.

To be eligible for price support benefits, a producer must agree to limit corn, acreage planted for harvest to not more than 90 percent of the farm's feed grain base and devote to an acreage conservation reserve an acreage of eligible cropland equal to 11.11 percent of the 1984 planted acreage.

The 1984 acreage base will be the average of the acreage planted and considered planted to feed grains in 1982 and 1983.

Land designated for acreage conservation reserve use must have been devoted to row crops or small grains in two of the last three years. The land must be protected from wind and water erosion throughout the year.

Offsetting and cross compliance will not apply to the 1984 program.

No advance deficiency payments. Haying will not be permitted on the conservation use acreage; the acreage may be grazed, however, except during the six principal growing months.

## Upholstery Class Slated

A new addition to sewing classes will start October 19 at Prestonsburg Community College. This is a class for homemakers who wish to learn to upholster a chair or hassock. It is designed for beginners and will be taught by Helen Buchett. The eight week class will enable the student to complete her project in time for the holidays. Call Continuing Education at 886-3863, ext. 215 to register.

## Pepsi-Cola Bottler Earns Quality Award

Pepsi-Cola Bottling Company of Pikeville has earned Pepsi-Cola Company's prestigious Caleb Bradham Award for outstanding quality performance, Vice-President of Technical Services Tom Williams announced recently.

The Caleb Bradham Award, named for the man who invented the Pepsi-Cola formula, is presented for both exceptional quality in Pepsi-Cola Company products and efficient operation of Pepsi-Cola bottling facilities.

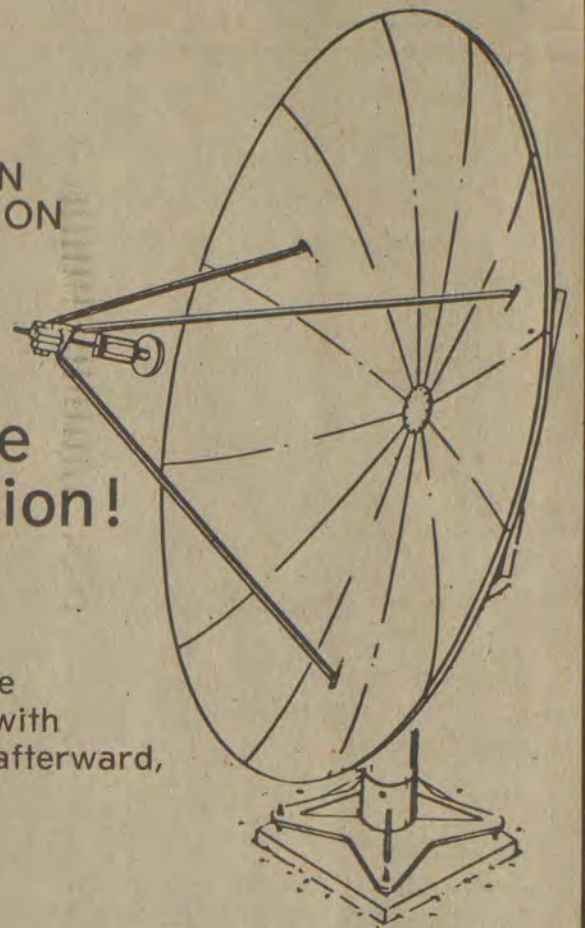

"This very prestigious award is evidence of the quality services that the Pepsi-Cola Bottling Company of Pikeville provides to this community," said Ken Janowitz, Pepsi-Cola Company Director of Quality Assurance. "We are proud of their efforts and their practices. Pepsi-Cola Bottling Company of Pikeville is an example of the entire Pepsi-Cola system."

**Enrollment at Record High**

For the fifth consecutive year enrollment at Alice Lloyd College has increased significantly. Fall enrollment reached 548, up from last year's 483.

Dr. Jerry C. Davis, president of the college, attributes the upward trend to several factors: recommitment of the college to its traditional operating philosophy, increased physical facilities, four-year curriculum, quality of its programs, and success of its graduates.

The most significant gain in enrollment occurred in 1980 when the College expanded from a junior college to a four-year institution. Enrollment went from 231 students in 1979 to 395 students in 1980. Many thought that trend would

level off, but it has not. For two consecutive years, Alice Lloyd has led all private colleges of Kentucky in percent of increase in enrollment.

Mrs. Alice Lloyd, founder of the Pippa Passes school, established a policy many years ago that no mountain youth with academic ability and good character would be denied the opportunity to pursue a college education. Of the college's 548 students, 114 receive Memorial Scholarships. The Memorial Scholarship is the most prestigious grant the college offers and it ensures that costs for tuition, room, and board will be underwritten. Recipients of these scholarships are selected on the basis of academic achievement, citizenship, leadership, and dedication to service in the Appalachian Region.

"We had a waiting list for our dormitories this year," Dr. Davis points out. "A consensus is developing that our size should be limited to approximately 500 students. In the near future, steps will be taken to limit our growth and further raise our academic standards."

Of the Alice Lloyd total enrollment of 548, boarding students (those housed on campus) number 393, while 155 commute.

**Teen Drug Abuse Topic on KET**

Young people face tremendous peer pressure in a fast-moving world where they are confronted with alcohol and drugs as a glamorous part of life. "The Quiet Place" presents a look at the tragedy that can arise as a result of those pressures. The program will air on Thursday, November 3, at 8 p.m. on KET.

The story takes place in the summer before Sheila's senior year in high school. She faces the death of her boyfriend, Danny, who died from a lethal dose of drugs and alcohol. Danny's friends, who furnished the drugs, threaten and intimidate Sheila in an effort to conceal the truth from the police. In a tension-filled confrontation, Sheila stands up to them with the truth. She is then left alone to deal with the loneliness and insecurity that teenagers often face in a drug-oriented world.

Eddie Kennedy, director of the theater and television curriculum at Berea Community School System, wrote the play, which was filmed on location in Berea. The actors are from Berea and Lexington.

"The Quiet Place" is a KET production.

**Parents' Names Unscrambled**

The parents of Belinda Louise Bentley, entrant in the Miss Jenny Wiley Pageant, were listed incorrectly in last week's edition of The Times. They are Valerie Chaffin, of Prestonsburg, and Tony Bentley, of David.

Is Semi-Finalist

Tammi Arnett, a 16-year-old senior at Boone County High School, in Florence, has been named a semifinalist in the National Merit Scholarship Program. This places her in a group that represents the top half of one percent of the nation's high school graduating class.

Miss Arnett qualified on the basis of her outstanding performance on the 1982 PSAT/NMSAT. She has carried a 4.0 grade point average throughout high school and is ranked in the top five of a graduating class of 316. She hopes to major in premedicine at Transylvania University.

Miss Arnett is the daughter of Mrs. Peggy Graham, of Union, and Dr. Charles Arnett, of Prestonsburg. Her grandparents are Frank and Audrey Arnett, of the Abbott road, and Melvin and Mary Wells, of Prestonsburg.

MSU Observes Annual Homecoming This Week

An eight-day observance of Homecoming '83, featuring six new events, is scheduled Oct. 9-16 at Morehead State University.

"We are pleased to announce that this year's Homecoming Week has been expanded to eight days and 15 separate activities," said Merl F. Allen, president of the MSU Alumni Association.

The celebration began Sunday, Oct. 9, with a new event, a "kickoff carnival," in the center of the campus from 5 p.m. to 8 p.m.

The Homecoming Forum, also new this year, was held Monday, and Tuesday, Oct. 11, was "Blue-Gold Day" with members of the University community encouraged to wear MSU's school colors. Today (Wednesday), Oct. 12, will be "Faculty-Staff Alumni Day."

"Quarterflash" will perform in concert on Thursday, Oct. 13, at 8 p.m. in the Academic-Athletic Center. Sponsored by the MSU Student Association, the concert will carry an admission charge of \$8 for non-students.

Another new event starts the schedule on Friday, Oct. 14, when active members of the Alumni Association attend an invitation-only reception at the Morehead Holiday Inn, starting at 5 p.m.

The traditional Candlelight Awards Dinner, offered this year in buffet style, will begin at 6:30 p.m. with awards presentations slated at 8 p.m. in the cafeteria of the Adron Doran University Center.

The Homecoming Dance will be staged in the Crager Room of the University Center, starting at 9 p.m. The 1983 Homecoming Queen will be crowned at 10 p.m.

Saturday, Oct. 15, will be the busiest day with registration of alumni and guests starting at 8 a.m. at the Alumni Center. A continental breakfast for former athletic letterwinners runs from 9 a.m. to 10 a.m. in the ADUC Cafeteria. Underway at noon at ADUC will be reunions of the classes of 1933, 1943 and 1953. Lunch will be included.

Pre-game ceremonies at the MSU-Akron football game start at 1:30 p.m. at Jayne Stadium and the kickoff is set for 2 p.m.

The Rowan County Senior High School Marching Band will be featured in the post-game band show at the stadium. Saturday's final event will be the Post-Game Dance at the Carl D. Perkins Community Center. Scheduled from 9 p.m. to 2 p.m., the dance is co-sponsored by the Alumni Association and the Quarterback Club.

The final activity of Homecoming '83 will be another new event, the Homecoming Golf Scramble. Set for 1 p.m. on Sunday, Oct. 16, at the MSU course, the outing is co-sponsored by the Alumni Association and the Morehead Golf Club. The entry fee will be \$10.

Tickets for the dinner and dances may be purchased at the Alumni Center or at the door for each event. Football tickets may be obtained from the Division of Athletics or at the gate.

Rowan County, Site For Steel Fabricating

Rowan county will be the site for a new steel fabricating operation, state Economic Development Commissioner W. Dale Smith announced last week.

Rowan County Steel, Inc. will lease a 7,500-square-foot building at Farmers, Ky. The firm will employ 10 workers, most of them local, said Boyd Reed, president and general manager.

The project is an expansion of Grant County Steel Inc. of Marion, Ind. That company has been in business three years and has seen sales leap from \$700,000 in the first year to \$1.7 million in the third. The success of the Indiana operation led the company to seek a second location in a nearby state.

The company hopes to start operation Nov. 1, Reed said.

56th Anniversary

Mr. and Mrs. Andrew Sexton celebrated their 56th wedding anniversary, October 1, with their family at Drift. Mr. and Mrs. Sexton are the parents of six children, Christine Stumbo, of Drift; Pauline Rice, of Richmond, Ind.; Lucille May and Judy May, both of Prestonsburg; Donald Lee Sexton, of Lexington, and Edgar Ray Sexton, deceased. They have 10 grandchildren and 12 great-grandchildren. Both Mr. Sexton and Mrs. Sexton have been very ill, but are recovering nicely.

Tenth Annual Festival To Feature Traditional Music of Appalachians

At Berea College, where the Appalachian heritage is constantly celebrated, the changing leaves signal that it is time to observe what has become a custom in the area—the Celebration of Traditional Music. The tenth annual festival will be held Oct. 27-30 on the college campus. Sponsored by the Berea College Appalachian Center, the celebration will feature old-time traditional music, including ballad and hymn singing, string music and square dancing, plus instrumental workshops and a presentation on hymn lining. The Foddrell Brothers and Lynn Foddrell will open the festival at 3 p.m. Thursday, Oct. 27, with a free performance at Phelps-Stokes Chapel. The Foddrells are well known for their strong renditions of blues, spirituals and old-time gospel music.

Friday and Saturday concerts, each scheduled to begin at 7:30 p.m. at Phelps-Stokes, will feature such folk and country artists as Wade, Julia and Randall Mainer, Lily May Ledford and Betty Smith. There is an admission charge for the evening performances.

Others performing in the concerts will be Edna Ritchie Baker, Etta Baker, Sheila Rice Barnhill, Lotus Dickey and Dillon Bustin, Rich Kirby and Tom Bledsoe, Ronnie Matthews and Tim Sisco, Delle Norton, The Rocky Topper Band and The Luke Smathers Band.

A native of North Carolina, Wade Mainer began performing at colleges and universities throughout the United States in 1972. The Mainers play banjo and guitar and sing traditional gospel songs of the Appalachian region. Mainer is a radio performer of the late 1930's and was a participant in the New York production of "The Chisholm Trail" with Woody Guthrie, Burl Ives and the Coon Creek Girls.

Lily May Ledford, formerly the folk artist in residence at Berea College, was one of radio's original "Coon Creek Girls." She and the all-girl string band performed on stations WKCY and WLW in Cincinnati, gave a command performance for the king and queen of England at the White House and later became regulars on John Lair's Renfro Valley "Barn Dance."

Betty Smith, a frequent performer at colleges, universities and festivals throughout the United States, accompanies her singing of Appalachian, English and Scottish ballads and folk songs on the guitar, dulcimer and autoharp.

Instrumental workshops will be conducted all day Saturday at the Alumni Building along with demonstrations of lining hymnody by the Mt. Olivet Old Regular Baptist Singers from Letcher county. The presentation on hymn lining conducted by William Tallmadge, professor of music at Berea College, is scheduled for 3 p.m. Saturday.

There will be folk dancing Friday and Saturday at 10 p.m. in the Alumni Building.

Betty Smith will bring the festival to a close with a program of traditional religious music at 9 a.m. Sunday in the Alumni Building.
