Bumper Cars Without the Carnival

A slick road and heavy traffic contributed to the bumber car effect Monday in the northbound lane of US 23 S in Prestonsburg, as five vehicles collided, one after the other. The accident began shortly after 9 a.m. on the Bert Combs bridge when a GMC Jimmy 4x4, driven by William C. Zornes of Bucyrus, Ohio, struck a pickup truck driven by Luke Woods of Prestonsburg. Woods' vehicle then hit a vehicle driven by John E. Dillon of Prestonsburg, which hit the car of Millard Moore of

McDowell. Woods' truck, after hitting the Dillon vehicle, also struck a car driven by Arnold Akers of McDowell. A passenger in the Woods vehicle, Cecil Campbell of Clover, SC, was taken to Highlands Regional Medical Center, where he was listed in stable condition on Tuesday. Akers was cited for having no proof of insurance and driving on a suspended license, according to Prestonsburg police.

### Officials Take Corrective Action Concerning Tournament Behavior

by Anne Chaney

Principals of all Floyd County high schools have been contacted by school district officials in connection with reported unruly and inappropriate behavior during the recent district and regional basketball tournaments in Prestonsburg.

According to Assistant Superintendent of Instruction Gary Frazier, letters were sent to the county's five high school principals concerning fan behavior; the majority of public out-cry has concerned actions by Prestonsburg and McDowell fans.

Frazier said signs including ob-scenities were seen by district officials, adding that students showed "extremely bad taste."

### Floyd Food Stamp Clients Will Join Training Program

Another 35,000 Kentucky food stamp recipients — including a large number in Floyd County — are being enrolled in a state program designed to help them move past barriers that have previously tied them to the welfare system.

The expansion of the Kentucky Food Stamp Employment and Training Program will direct clients into jobs, vocational training or courses for a high school equivalency diploma (GED)

Adult food stamp clients who are required to register for work and who live in counties where the services are offered must participate in the Employment and Training Program or lose their eligibility for benefits, according to Social Insurance Commissioner Mike Robinson.

Thomas Hereford III, field director for the Department of Employment Services in Prestonsburg, said his office is receiving a list of eligible applicants each day. Staff members are contacting recipients on the list and scheduling assessment appoint-

Some recipients, including those with children under 6 years of age, those who are ill or unable to work, and the aged, are not required to participate, Hereford added.

"At the time of the assessment, we determine how they can best be served," said Hereford. "They may seek immediate employment, or they may best be served by earning a GED or enrolling in adult literacy classes. Weare going to try to take food stamp recipients that are able and available and place them in a job or place them in training prior to a job - making them job-ready.

Hereford said the program's aim is to find people who can participate in unsubsidized employment. "That leads them to being able to vacate the food stamp rolls," he added.
Floyd County has 3,259 active food

stamp cases - and even more recipients, said Hereford, because more than one person may receive food stamps in some cases.

Weare assuming that we'll serve 80 percent of those, or about 2,600," See FOOD STAMPS, Page 6

### Hopkins Refutes Economic, Tourism Development Claims claims that loss of revenue will cause

The local option election April 22 is the "only effective means of protecting our families from the dangers of liquor by the drink," according to the Rev. Steve Hopkins, who is among area ministers and citizens spearheading the move to disallow alcohol sales

in Prestonsburg. "Last August, five people gave our fine city liquor by the drink," said "Other than that, I think most any Hopkins. "In effect, the on-site conlocal principal. Mr. Hager and I have of the home and puts it on the road. By their action, they have forced those

who are concerned about the safety and welfare of the citizens of Prestonsburg to seek petitions for a local option election.

Hopkins, pastor of the First Baptist Church (Irene Cole Memorial), said proponents of liquor by the drink have presented primarily economic arguments in favor of alcohol sales. However, points out the clergyman, alcoholic beverage sales produce little more than 1 percent of the city's annual budget.

"Alcohol proponents have had seven years to prove the sale of alcoholic beverages is profitable, and they have not," said Hopkins. "Not one new production job has been created since 1982, and not one new industry has come to our city because of the sale of alcoholic beverages.

"Do we really want to attract the kind of business that would make the sale of alcoholic beverages a deciding factor in coming here?" he continued.

Answering claims that a "dry" vote

would harm the area's tourist industry, Hopkins said the county's greatest tourist attraction is Jenny Wiley State Park - operated by the state, which does not allow alcoholic beverage sales at its parks.

We need to creatively use our attractions, not abuse and violate them," contends Hopkins. "Should we sacrifice the safety of those who live here for a few travelers?"

Hopkins also said that proponents'

reductions in city services are untrue. Until 1983, he said, the city had no revenue from the sale of alcoholic beverages. "How have we become dependent on the beer and liquor sales in six years?" he asked.

In addition, he noted that the income from alcohol sales provides the salary for one police officer. At the Prestonsburg City Council meeting in which liquor by the drink was approved, as a direct result of the approval, he said, two officers were employed and authorization to purchase a new cruiser given.

The bottom line is that we are losing money because of the sale of alcoholic beverages, and the other businesses and citizens of our city are paying the bill. We are ignoring those who pay 99 percent of the bill for the sake of those who pay 1 percent."

Hopkins adds that while some have called the petition drive and resulting option election "the latest effort to legislate morality," he feels all laws legislate morality.

"Laws prohibiting murder, rape, stealing, incest, etc., all legislate morality," said Hopkins. "A 'wet' vote legislates morality. We are not denying anyone the privilege of drinking in the privacy of their own home. However, when done in public, it is no longer a private matter. No one is

Two Pike County sections of US nouncements concerning an eight-will be put out to bid in the coming mile stretch of US 23 between 23 will be put out to bid in the coming three months, Gov. Wallace Wilkinson announced in Pikeville Thurs-

"On April 21, we will let the contract for the construction of a 1.5 mile section of US 23 south of Pikeville," said the governor. "Four lanes are already under construction from Ford's Branch south for about 2.5 miles. In June, we will let another contract for the completion of four lanes to the existing four-lane section at Robinson Creek.

The governor added that the April and June projects are expected to cost about \$32 million.

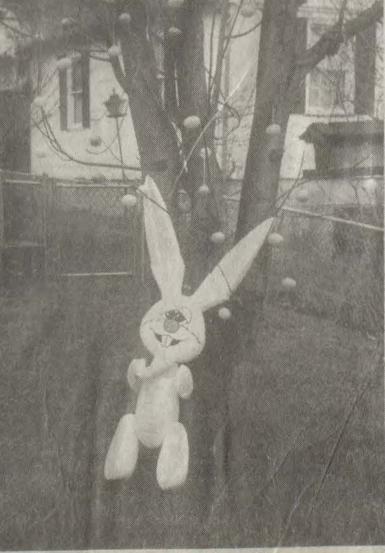

"Since I became governor," said Wilkinson, "we have announced projects that will complete 50 miles of four-lane highway from Prestonsburg

to Dorton. The governor made no new anPrestonsburg and Paintsville.

Mark McDaniel, spokesman for the Department of Transportation in Frankfort, said expenditures on the roadway between Prestonsburg and Dorton will total \$125 million. How-

ever, another \$150 million in unfunded construction will still be required to complete the four-lane from Dorton to the Virginia state line. Wilkinson said Thursday the source of that money has not been identified.

Early in his speech, Wilkinson said the "tradition in politics is to make a lot of promises while you're campaigning, then do whatever you want once you are in office. I didn't make any promises during the campaign I didn't intend to keep. One was that I would do everything I could to complete the last sections of US 23, and I'm here today to keep that promise."

#### Entry Period Open For Miss Floyd Pageant

The Prestonsburg Junior Woman's Club is again sponsoring the Miss Floyd County Scholarship Pageant, according to a club spokeswoman.

The pageant is a preliminary to the Miss America Pageant held annually in Atlantic City.

The local, state and national Miss American pageants award over \$5 million annually to winners and runners-up. The first place winner in the Miss Floyd County pageant will receive \$1,000 in scholarship money, while the second place winner will receive \$600; the third place winner will receive \$400.

This year's pageant will be held May 13 at 7 p.m. at Prestonsburg High School, continuing the Festival of FACES' theme.

Miss Kentucky Mikka Lynn Darby will be this year's mistress of ceremonies, and will also perform for the audience. Also performing will be the reigning Miss Floyd County, Kathy Horn.

Young women between the ages of 17 and 26 who are interested in competing may contact Robin Smith, 886-2597, or April Adams, 886-8922, by April 14.

### Precinct Boundaries Clarified For Voters In Option Election

by Pam Shingler Assistant Editor

When a special election involving only selected precincts occurs, such as the alcoholic beverage referendum on April 22, many voters become confused about whether they are affected.

Floyd County Clerk Carla Bolton said she has had many inquiries about the upcoming special election and tries to clarify precinct lines as clearly as possible. "It's difficult sometimes, since I can find no records of clear-cut divisions in the county's precinct lines," she said.

Acknowledging a margin of error, Bolton set forth the following boundary descriptions for the eight Prestonsburg-area precincts involved in the April election.

— Precincts 6 and 48, also known as Porter 1 and 2, include a large chunk of the northeastern section of the county. Residents in the Brandykeg Creek, Sugarloaf Branch and Jenny Wiley State Resort Park areas are in these two precincts and vote at the Veterans of Foreign Wars (VFW) building on South Lake Drive.

— Precincts 5 and 45, known as Cliff 1 and 2, are in the northwestern section. The two encompass an area extending from about the Employment Services office on North Lake Drive to East Point, along KY 1428, and as far as Adams Auto Parts on US 23 North. Also included are the Little Paint area, all of the community of Cliffand Abbott Creek. Voters in these precincts all cast their ballots at Prestonsburg High School.

### Wheelwright Council Considers Meeting Change, Bank Closing

lar meeting time, the possible closing of a branch bank and reactivation of the community library occupied members of Wheelwright City Council at their meeting Saturday.

After more than a year of meeting on the third Saturday of each month, Councilman Joe Stewart introduced an ordinance to change the meeting time to the third Thursday at 7 p.m. "We may have more citizens in attendance if we meet on Thursday evenings," said Stewart.

Meetings, which were originally on Thursdays, were changed to Saturdays to accommodate members' work schedules, according to Mayor Larry Mullins. "Now it looks like Thursdays would be better," Mullins said. "At least we can try it."

The ordinance will be read a second time at the April meeting and if approved will go into effect in May.

Responding to a rumor that the Bank Josephine will close its Bypro branch, council members agreed to send a letter to bank chief Sam Blankenship, asking him to reevaluate the decision. The letter said that some citizens are considering changing banks if the branch closes, rather than drive to the proposed new branch at

Approving the letter, the council agreed to approach other area banks, including some in Pike County, if the branch does close. The city, as well as the Wheelwright Utilities Commission, uses the Bypro branch of Bank Josephine. A citizen said the rumored closing would also be hard on retired persons in the area who would have

bility of reopening the community library, which closed in early 1986, after the building next to it burned. Councilman Dennis Holbrook asked the city clerk to contact Paul Gearheart, owner of the library building, to inquire about his plans for the building, which needs extensive renovation. "Then we can make a decision

about the library," Holbrook said. Clerk Mary Ann Johnson also agreed to contact Floyd County Judge-Executive John M. Stumbo about re-funding the half-time librarian position. Council members agreed that the budget will not allow full services, since the county funds only enough for salary, with the city hav-ing to pick up the bills for other items. "If we can get the county funding

back that we had, maybe we can find

a way to fund it," said Holbrook,
"Before the building is usable, thousands of dollars will have to be spent on upgrading," said Mayor Mullins, adding that the building will have to have new electrical and sewage systems. Members agreed to continue exploring ways to reopen the library:

The council also authorized the clerk to apply for a matching state grant to purchase equipment for the fire department. The grants of be-tween \$250 and \$400 are available to communities with populations of under 10,000. Fire department staff will be asked for input on equipment at the City Hall.

Dumping is occurring on the site of the old ballpark where the city hopes to build a new one. Council agreed that gates are needed at both ends of the road to block traffic, and members said they will check into having gates put up.

Council approved a state-mandated ordinance requiring non-primary, non-partisan elections for city officials. Although the city already conducts such elections, passing of the ordinance is required under new state statutes, Mullins explained. The ordinance received its second reading at the meeting, prior to the vote.

Clerk Johnson inquired about being permitted to join the Kentucky Municipal Clerks Association. Mullins authorized her to find out more about the organization and indicated the council would support

County Attorney David Allen Barber, who is running for reelection, spoke briefly to the council at the beginning of the meeting about his record and his campaign platform.

#### Look At Own Behavior Before **Faulting Others**

Dear Editor,

In the past two weeks, you have published three letters stating that the ians of the Prestonsburg Black-cats had unsportsmanlike conduct during the district and regional tournaments. As students at PHS and proud fans of our Blackcats, we feel we deserve a chance to speak out.

First of all, before putting other schools down, why don't they look at themselves? The only thing those letters said to us was that they are sore lusers, because no other schools have complained about our fans' behavior

We are loyal fans of the Blackcats and we deserved to win the regional championship. As we read those letters, they state that "foreign objects were thrown from the Prestonsburg side." We wonder how in the world did they end up on our side?

As for Robert May, our principal, he respects us and we have great respect for him. Also, he would not have allowed the conduct we have been accused of to go on. He is a great and strict principal

This past week someone wrote, "It takes class to show class." If they'd have had class during our friendly motorcade, why didn't they show us some respect? Men and women of all ages were using finger gestures and throwing eggs.

These are the people who will be taking care of us in our old age! Is winning more important to us than Kentucky and on American folklore our children's future?

I, for one, do not want to see them grow up to be uncaring, greedy, insatiable adults. If the ball players cannot start the game by saying good luck to each other and it it by saying "good game," with a little bit if friendly rivalry for good measure, then maybe sports should be done away with until the value system is

#### Phone Call Upsets McDowell Parent

Dear Editor,

I am writing this letter after a lot of thought. Since when is it so imporant to show how little respect people have for fellow human beings? I feel that after the happenings of the past two weeks I am embarrassed to say I am part of Floyd County

I have McDowell Elementary School children and I support our school and team all the way. I didn't go to the games, but I heard enough rom the radio announcers to know what was going on and how the situations were in the games. Ilistened to the final district game and was surprised when they switched to a colege game instead of staying with the trophies and awards. Would they have done this if Prestonsburg had

Then this week, after the final regional game, I received a phone call from someone who wanted to know whether they cried after the game. What difference does that make? None. I guess they thought they would get me mad so that I would say things about Prestonsburg, but I didn't give them the satisfaction of

lowering myself to their level. I really don't appreciate the four-letter word they hung up with: McDowell. Why do people do such things? It sure didn't change any-thing. Maybe as they said, there may be a lot of "red neck" Prestonsburg fans. I told them I didn't know, because I don't know any of them.

#### KASE Compliments Treatment Of Story

Dear Editor,

In your Feb. 15, 1989 issue of the Floyd County Times, you gave the release of our meeting Feb. 21 with our legislators front page coverage. That front page news release was also highlighted in green. That was the first time I can remember that your paper used color for news articles. That highlight was a great attention-

Our District 9 members would like to thank you for this coverage, which we feel greatly increased the turnout to our meeting.

Sen, Benny Ray Bailey, Rep. Ray Preston and Rep. Russell Bentley attended the meeting. Had it not been for the session in

Frankfort, held with the teachers, and the threat of flooding in our area, we would have had a larger number of legislative members and district members attend. With all this considered, we had a large crowd.

#### JW Theatre Fundraising In Full Force

The fundraising push is going full force at Jenny Wiley Summer Music Theatre as plans are made for the theatre's 25th anniversary season.

The theatre needs to raise about \$180,000 between now and the opening of the season in June, according to theatre manager Jim Deaton. Some of that amount is expected from state and foundation grants, he said, but the remainder must come from corporate and individual contributions.

In addition to regular operating budget needs, Deaton said that two flash floods this winter caused about \$10,000 worth of damage to equipment and materials.

The theatre is the region's "number one tourist attraction," said Deaton, adding that 25,000 persons are expected to visit the theatre this summer.

"We estimate that the theatre boosted local economies in 1988 by \$4.7 million and generates about 10 seasonal jobs in the area," he said.

Most of the community theatre's support comes from donations from individuals and businesses in thearea, he said, with the state providing a small part of the operating budget. The majority of the money raised goes for salaries for the resident cast and crew for the four musical shows.

Auditions for this summer's productions have largely concluded, he said.

"We've started offering contracts to the staff," he added, "and the company looks incredible. It's as strong or stronger than last year's."

The 25th season repertory includes "Camelot," "Funny Girl," "The Mystery of Edwin Drood" and "The Jenny Wiley Story."

Deaton said that tax-deductible gifts to the theatre can be sent to the theatre at P.O. Box 22, Prestonsburg 41653.

#### FLOYD COUNTY ATTORNEY

Leadership, Pride and Love For Floyd County

The County Attorney has a unique role to play in the providing of vital and necessary services and economic development for the people of his county and area. The County Attorney is a constitutional office-holder and is the only county official involved in every aspect of county government:

Judicial: Sole prosecutor in the District Court

Legislative: Sole legal advisor to the Fiscal Court and Magistrates

Executive: Sole legal advisor to the County Judge Executive and the administrative agencies of the county Kentucky County Attorneys Association: Along with all other Kentucky County Attorneys, assist in the development and lobbying of legislation affecting the general welfare of all the people.

As a member of the Kentucky County Attorneys Association, the County Attorney participates in developing and lobbying-for legislation affecting the general welfare of the people of the county. Through the County Attorneys Association and its activities, County Attorneys can give the necessary political muscle and aid to the counties' state legislators in developing laws for public protection and the general welfare including, but not limited to, economic development for all the people. Since no federal revenue sharing exists for state, county, and local governments; and effectively, since no coal severance tax revenue sharing exists for coal producing counties and local governments; and since municipal and county road aid funds from the state to local governments have been reduced starting in 1980, county and local governments have been left to their own limited devices to build the foundations for economic development and to provide vital services for their people.

Floyd County, the Big Sandy Valley, the Kentucky River Valley, and the Tug River Valley are in the center of a 13-state area which has two-thirds of the nation's population and three-fourths of the nation's purchasing power. With the passing of the Resource Recovery Act in 1976, we have been able to open up Eastern Kentucky to this 13-state area through the reconstruction of Ky. Rt. 80 and Ky. Rt. 3, and the construction of the Ulysses to Inez Highway, the Hazard Bypass, and the proposed and committed bypass of Prestonsburg connecting Ky. Rt. 3 to four-lane US 23, at an approximate cost of 650 million, paid for by coal severance tax. These highways, along with the development of US 23, the Mountain Parkway, and Interstates 64 and 75, are the foundations for unparalleled economic development and prosperity. We have the work force, the means to train and educate this work force, and the ability to attract environmentally clean industries that need access to the 13-state area surrounding Floyd County and Eastern Kentucky and that provide quality jobs. These industries require a central location in Floyd County and Eastern Kentucky for assembly of their products so that they can cut transportation costs to the markets in the surrounding 13-state area. The problems of Floyd County and Eastern Kentucky can be solved by OUALITY JOBS.

Armed with the concern, experience, knowledge, understanding and know-how, as your Floyd County Attorney, I will work with all local, county, state and federal officials to accomplish and realize the following objectives for all the people in Floyd County:

TRANSPORTATION, COAL, TOURISM, EDUCATION, VITAL SERVICES AND RECREATION Through "OBJECTIVE

2000".

1. Form a quasi governmental committee representing all the people of Floyd County and charged with the duty to attract

1. Form a quasi governmental committee representing all the people of Floyd County and charged with the duty to attract industry and businesses that will provide <u>OUR PEOPLE WITH OUALITY JOBS</u>.

2. Begin immediately to work with all the citizens of Floyd County and Eastern Kentucky, the elected officials, the appointed administrators and government employees to accomplish the transportation, coal, tourism, education, vital services and recreational needs of Floyd County and Eastern Kentucky.

Local, State and Federal Revenue is now available-all we need is a realcoation of these funds from the "Golden Triangle" of Louisville, Lexington and Covington.

### Sprain Most Common Injury Recorded In Floyd During '87

More than 102 Floyd Countians suffered sprains on the job during 1987, making it the county's number one non-coal-related injury

According to Labor Cabinet statistics, the most common sprain involved the back - 74 were reported that year, the latest for which statistics are available. Floyd Countians also reported six sprained shoulders and ankles, two sprained knees and two sprained feet. Interestingly enough, one abdominal sprain was also reported.

The second most common on-thejob injury was a fracture, with a total of 21 for the year. Four involved feet, and three each the ankle or wrist. In addition, area employers reported two sprained legs, two sprained fingers, one tie, one arm, one shoulder, and one rib

Falling third were cuts requiring stitches, according to Mark Maraccini, Labor Cabinet spokesman. Nine of those accidents involved fingers, and five involved hands.

In the "other" category, said

Maraccini, employers reported 13 bruises, 12 cases of muscular soreness, nine scratches, six burns caused by heat, and two amputations - one involving an arm at the elbow, and the other involving a finger.

Also reported were two incidents involving torn or damaged cartilage or tendon, two herniated discs, one heart attack, one pinched nerve and one insect sting.

Overall, the county reported a total of 262 injuries in 1987.

It's been two years son, since God called you away. We will never forget that tragic day.

He took you away to His home on high, where no one will ever have to die. Jeff, when life here is over, a crown we have won. We can walk in (Jerusalem) just like John.

I can have faith, hope, and, pray. The family will all be together in heaven someday.

Sadly missed by family and friends,

#### In Memory Of My Father

William Epling: Passed away June 13, 1988

You cannot say, you must not say
That he is dead. He is just away!
With a cheery smile and a wave of the hand
He has wondered into an unknown land
And left us dreaming how very fair
It needs must be, since he lingers there;
So think of him faring on, as dear
In the love of There as the love of Here.
Think of him still as the same, and say,
He is not dead, he is just away.

Loved and missed by your daughter, Elsie and Family

#### CARD OF THANKS

### An Easter Viewpoint

by Ed Taylor, Pastor Parkway Independent Baptist Church

EASTER: THE SEASON OF RESURRECTION, VICTORY, ANDPOWER

What does Easter mean to people today? When they think of Easter, what do they think of? Is it a time to hide the eggs that the Easter Bunny brought? Is it the time of year to get weather, the flowers, and the trees? What does Easter really mean?

We observe Easter, not because of the eggs, bunnies, or new outfits; the passing from "death unto life." In

rected Lord. Much like the Christmas season, Easter also has become commercialized to the point that the real reason has been lost.

EASTER SPEAKS OF THE RES-URRECTION OF LIFE

After Christ died on the cross, two men, Nicodemus and Joseph of Armithea, came to Pilate "craving the body of Jesus," the Bible tells us. They that new outfit to wear? Is it warmer took his body and buried it in a tomb originally purchased by Joseph of Armithea. After three days, Jesus rose from the grave, which represents

resurrection and the life. EASTER SPEAKS OF VICTORY

In John Chapter 20, after receiving word that Christ was not there, Peter and John ran to the tomb only to see it was empty. But they saw more than just an empty tomb - they saw victory over the grave, and victory over death, for death and the grave could not hold Him.

EASTER SPEAKS OF POWER:

When Jesus rose from the grave He showed power over the most dreaded enemy of mankind today, death. He demonstrated His power

John Chapter 11, Jesus said, "I am the over death by His resurrection. The Apostle Paul said in I Corinthians Chapter 15, "O death where is thy sting, O grave where is thy victory. Every person born into this world has been stung with the sting of death, Hebrews 9:27, "It is appointed unto man once to die..." When Christ rose from the grave He removed the sting of death from all that would believe in Him. "Because I live, ye shall live

Easter is the time to celebrate the resurrection of Jesus. It's not bunnies, eggs, flowers, and Easter outfits -

ELECT Bob Hackworth CONSTABLE District #2

While campaigning I have found some people who wanted to know what a constable is. A constable as defined by the manual of duly elected county officials is a peace officer with broad powers of arrest, and possesses the same powers as a sheriff except they cannot collect taxes or levy

Therefore a constable can be a very important part of your District if they do the job elected for. During the twelve years that I served as constable, I served warrants, summons, made arrests on the road and off. I directed funerals, took care of ball games and other school activities. I had a car on the road every night, patrolling Dist. #2. I took calls all hours of the night and came when you needed me. If I am elected constable I will give the people of Dist. #2 the same service as in the past. Vote for four years of honest law enforcement.

### Floyd Descendants Of Founder Invited To College Celebration

Normally the centennial celebra-tion of a school in Texas would not make the news in Eastern Kentucky, but as with many things, there are

East Texas State University was founded 100 years ago by a native of Floyd County, and a host of William Leonidas Mayo's descendants in this area have been invited to the birthday bash in September in Commerce,

A proclamation from Texas Gov. G.P. Clements, designating 1989 as East Texas State University Centennial Year, was recently sent to H.D. Fitzpatrick Jr., of Prestonsburg, a descendant of the school's founder.

According to the schedule, a Centennial Convocation is slated Sept. 28 at which Mayo's relatives are to be recognized. That weekend is apparently the highlight of the anniversary celebration.

Fitzpatrick estimates that dozens of relatives of the late educator live in Floyd County and have connections with the Texas institution. His mother, the late Fannie Mayo Fitzpatrick, was

Mrs. Fitzpatrick's brothers, Porter Mayo Sr., J.D. Mayo and H. Louis

all attended the college, he said, along with members of the Seymour Mayo family and the Leslie family.

A history of Professor Mayo and ETSU, furnished by the Lexington physician, states that the college founder was born in Prestonsburg in 1861, and attended Prestonsburg Academy, apparently an early school in the town. He later went to Cedar Bluff Academy in Virginia and then Central Normal College in Indiana.

After a brief stint as head of his alma mater in Virginia and an unsuccessful venture in the lumber business here, Professor Mayo left the area. He migrated to Texas where he taught at Pecan Gap School, before opening the college in Cooper, Texas, where he was also superintendent of

When the original college building was destroyed by fire, he moved the school to Commerce to its present site in 1894. At the time of his death in 1917, a bill was in the Texas legislathe first Floyd Countian to attend the ture that would make the college a

### Social Security Overpayments Can Be Avoided, Kelly Reports

Recipients of Social Security checks should promptly report any changes that may affect their benefits to avoid overpayment and possible penalty, according to Jim Kelly, Big Sandy Area district director for Social Secu-

"The biggest cause of overpayments is not reporting or under-reporting earnings from work," Kelly explains. "Keep in mind that some payments must be withheld if your 1989 earnings exceed \$8,880 if you

are 65 through 69; or \$6,480 if you are under 65. If you earn over the annual limit, \$1 in benefits will be withheld for each \$2 of excess earnings."

Kelly said there are special rules, which may include medical considerations, that affect recipients if they work while getting disability checks. Any work done must be reported, as must any medical improvement by the recipient.

Following are additional events that must be reported to prevent an overpayment, Kelly said.

### Ford's 39-Point Game Overwhelms P'burg; During State Tournament

The Prestonsburg Blackcats made their first trip into Rupp Arena for a scheduled first round game of the Sweet 16 Boy's High School Basketball tournament, against 12th Region opponent the Madison ville Maroons, last Wednesday afternoon.

in large numbers as they followed many on the arena floor, as Travis their team's "cat tracks" to Lexington, as busses, cars, trucks and vans made their way to the land of the UK

Block Attempt

Todd Justice (34) attempts to block this shot of a Madisonville player in the first round game of the boys state high school basketball tournament. It was Madisonville 76-65 over the Blackcats.

Affects Floyd County:

### State Fish & Wildlife May Lose \$2 Million

Kentucky could lose an estimated erman and boaters," McCormick said, \$1.9 million in federal aid to fish and wildlife programs next year if Congress passes the proposed federal budget.

Virtually all of the Department of Fish and Wildlife Resources' programs would be affected by the cut, according to Don R. McCormick, commissioner of the Kentucky Department of Fish and Wildlife Re-

The proposal calls for a \$100 million cap on the federal aid in wildlife restoration and federal aid in sport fish restoration programs. Funds for both programs come from excise taxes on sport hunting and fishing equipment. These "user fees" are returned to each state for fish and wildlife research and management.

In Floyd County and the surrounding area, the proposed budget will also affect anglers and hunters.

'It will probably cut the amount of fish stocked here at Dewey Lake and also at the Paintsville Lake," Jeff Yurk, assistant district biologist, said. "The money comes from taxes Contackle. It could also affect boat ramp

building in this area, as well as upkeep of existing ramps," Yurk related.

Under the budget proposal, funds for endangered species would be completely eliminated, and federal grants would no longer be available to enhance or manage endangered

According to the U.S. Fish and Wildlife Service, \$192.9 million in fisheries receipts and \$129 million in wildlife receipts are available for apportionment in 1990. Under the current budget proposal with its \$100 million limit on each fund, a total of \$121.9 million would be withheld from state fish and wildlife agencies.

According to Jim Axon, assistant director of the Kentucky Department of Fish and Wildlife Resources in Frankfort, the proposed budget \$96 million would be taken and reallocated somewhere else.

"The proposed cap would affect fisher's programs across the board," Axon said. "All the money that fisheries getcomes from the federal fund. The proposed cap would affect all the state of Kentucky.

"These federal aid funds come directly from taxes on hunters, fish-

"and they are to be used to benefit these groups. Every outdoorsman in Kentucky has contributed to these funds, and should be gravely concerned with this proposed cutback and its subsequent impact on fish and wildlife management in Ken-

While fisheries across the state will be affected, the Department of Wildlife will also feel the blunt of the cap. According to Larry Short, district wildlife biologist, the federal cap will have a partial affect on the wildlifedepartment, but not as much as fish-

"We are funded through the Pittman Robinson Act," Short relates. The federal government then matches our fund. It's really about 75 to 25 percent matching. We give 25 percent and the federal government gives 75 percent."

How would the cap affect the

department of wildlife locally? "It would limit our budget, our equipment we need, seed and fertilgress puts on fishing fuel and fishing izer," Short says. "I hope it will not affect our manpower."

All-Tournament

During the Scott County Invitational Tournament March 10-12 in Georgelown, Justin Hopkins was selected to the All-Tournament team after helping the McDowell Training League defeat Maytown with 17 points. He also scored eight points against Southeast Lexington Gold and 18 points against Harrison

The Prestonsburg faithful were out in the caravan, but there was one too Madisonville scored five unanswered Ford poured in 39 points to lead the Maroons to a 76-65 victory over the Blackcats. Ford hit seven three-pointers in the game - five in the first

Baskets by Theron Pearson and Herb Arnarson put the Maroons out in front early in the first quarter, 4-0. If there were any first-time jitters for the Blackcats, they wasn't evident, as senior Todd Justice scored on a threepoint play, and scored another basket to give Prestonsburg a 5-4 lead at the 4:21 mark. Ford's first threepointermade it 7-5. Scott Hall tied the game 7-7 on a basket inside.

Hall and Ford exchanged baskets to keep the score tied at 9-9 with 3:34 remaining. Ford hit two three-pointers to make it 15-9, a basket by Chris Slone and a three-point play by Hall pulled Prestonsburg to within one, 15-14, with 2:29 to go in the first pe-

Baskets by Pearson, Arnarson, and another three-pointer by Ford gave Madisonville a 7-0 run and a 22-14 lead. Hall scored inside for the Blackcats to cut the lead to six, 22-16. Two three-point goals by Ford and Arnarson, followed by a basket by Hall, gave the Maroons a 28-18 margin.

In the second stanza, Danny Hamilton hit two buckets and Hall connected on two from the charity line to close the lead to four, 28-24. After a Ford bucket, Justice connected on two baseline jumpers to make it 30-28 at the 3:55 mark. Pearson's basket and Arnarson's three-pointer after Prestonsburg missed two free throws put Madisonville up by seven, 35-38. Justice's basket made it 35-50. Ford then scored five points on a basket and another three-pointer, followed by a basket by Justice, and Madisonville led at the half 40-32.

The third period proved fatal for the Blackcats as Madisonville outscored them 24-14. Both teams exchanged baskets at the beginning of the quarter and, with the score 44-37 after a Thomas Nairn three-pointer,

points to claim a 12-point lead, 49-37. The Blackcats stayed within range until 2:42 to go in the third period, when Madisonville went on a 9-2 run and led at the end of the period by 18 points, 64-46.

Prestonsburg's defense picked up in the fourth quarter as they held Madisonville scoreless for the first five minutes. While the defense was evident, the scoring also picked up as the Blackcats made a 9-0 run at the

Maroons and cut the lead to nine, 64-55, on six straight free throws, a basket by Hall, and a charity toss by

Fearing an upset in the making, Madisonville called time out. After returning to the floor, Madisonville outscored the "Cardiac Cats" 8-2 to move out in front by 15, 72-57, with 1:15 to go in the game. Hamilton hit two free throws and a basket by John Wright made it 72-61. Coach Gordon Parido began to empty his bench to allow his other players to have part in this memorable event. TAXIDERMY PART II: THE CLASSIC SKIN MOUNT.

Trophy fish are not only extraordinarily difficult to catch, they are also extremely difficult to mount. Unfortunately, not all taxidermists

are good ones. Anglers who take that one-of-alifetime trophy to an unfamiliar taxidermist are all-too-often disappointed with the resulting mount. That does not have to be the case, for there are definitely good taxidermists, artists who care as much about the quality of their work as they do for the dollar. Anglers who make the effort to properly care for their trophy prior to taking it to the taxidermist, and take the time to locate a good taxidermist, will be rewarded with a beautiful, awe-inspiring

THE CLASSIC SKIN MOUNT

For many years, skin mounts were the only option available to anglers. Many taxidermists are now, however, switching to fiberglass taxidermy because it truly is a better method of creating a trophy fish for display; you can release a trophy fish and still obtain a mirror image trophy of that same fish; and unlike a skin mount, a fiberglass mount lasts

The quality of a skin mount is limited, especially over time, because the taxidermist is trying to preserve a once-living thing.

Most gamefish have an abundance of fats and acids in their body, and this creates most of the problems inherent in a skin mount. Unless the taxidermist takes great pains to remove as much of the fat and acid from the fish as possible, it will eventually bleed through the skin and ruin the mount. Removing all of it is impossible, so many of the better taxidermists have learned to seal the skin with a fungicidal sealer, which prevents any remaining oil from

seeping through the skin. Another common occurrence which hampers skin mounting is the loss of scales on a fish. The best thing you can do to keep this from happening is to handle the fish properly after it is caught. If a scale is dislodged, though, a good taxidermist can repair it. Many use an epoxy glue to reattach or repair a dislodged scale. Too, when finishing a skin mount, most good taxidermists use several coats of a clear finish which seals the fish, adds a life-like sheen, and keeps the scales intact.

Over time, the skin of the fish and the paints which are sprayed on it will begin to yellow. Sunlight will speed the process, but it is a natural occurrence which cannot be prevented. If you put a new mount beside an older one, the difference is

The only recourse to this natural aging of a skin mount is to have it repainted. Though it would appear that repainting a mount is a simple procedure, it is quite complicated. Basically, the taxidermist must strip the mount of the old finish-a slow, tedious process which must be done by hand. Although some taxidermists will simply paint over the old finish, the completed product is usually a dull, drab mount, certainly not the life-like trophy a serious angler demands. Thus, when it is time to have your mount repainted, be sure to ask your taxidermist how he or she performs the procedure.

CARING FOR THE CATCH

One of the most important things that you can do to insure the success of your mount is to take proper care of the fish as soon as it is caught.

The worst thing you can do is let the fish flop around in the boat. It will dislodge scales, tear fins, and can actually damage a fish so badly that it cannot be mounted with any degree of success. As soon as the fish is caught, many taxidermists recommend "konking" it on the head (between the eyes) with a fish billy or a club to keep it from flopping.

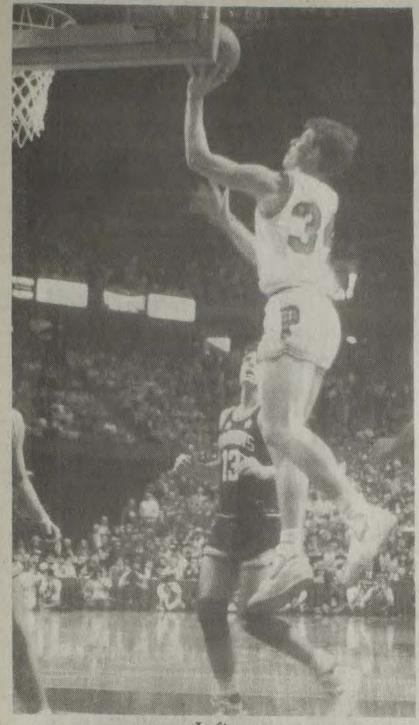

A good practice which all anglers should adopt is to carry a large terry-cloth towel and a role of duct tape in your boat at all times. As soon as you get the fish to the boat, knock him in the head. This will either stun it or kill it; either way, he won't be

flopping around! If you have a camera with you, take a few side-view photos to which it will later help the taxidermist createa mount virtually identical to your fish. Next, wet the terry-cloth towel thoroughly and wrap the fish in it, being sure to fold the fins down so that they will not become damaged. Then wrap a few strips of tape around the towel and fish to hold it in place. If you have a cooler which is large enough, lay the fish flat in the bottom of it and dump some ice on top. We the towel again thoroughly before leaving the lake, and take the fish directly to the taxidermist if he or she is within driving distance.

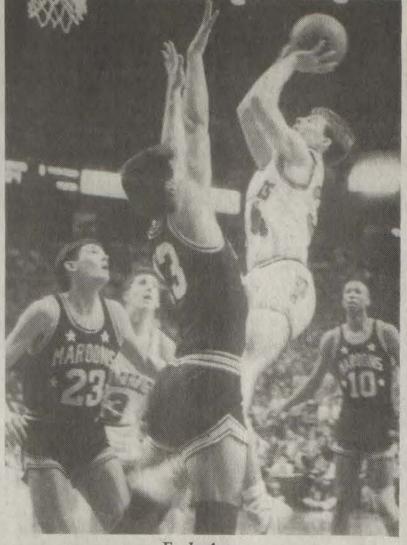

If a good taxidermist is not conveniently located, freeze the fish by placing it on a flat board in your freezer. Leave the fish in the towel in which you wrapped it, and wet it thoroughly before placing it in the freezer. This towel will hold moisture against the fish, keeping it from becoming freezer burned. It will also protect the fish and its fragile fins.

If your taxidermist is not located near your home or the lake in which you caught your trophy, you can ship it via Greyhound bus. After freezing

### Rosenberg Signs With Georgia

Bill Rosenberg, son of William and Alice Clark Rosenberg of Morehead and grandson of the late Steve and Emilou Clark of Wheelwright, will begin the spring term in April as a Georgia Bulldog.

Rosenberg recently signed to play football at the University of Georgia. He received a one year, full athletic scholarship from Georgia,

Rosenberg is a 4.0 student, hoping tomajor in physics, and will graduate early in order to participate in spring practice with the Bulldogs.

"This is the most exciting day of man Award, and Four Years of Serv-my life," Rosenberg said. "I'm exice Award. cited and nervous."

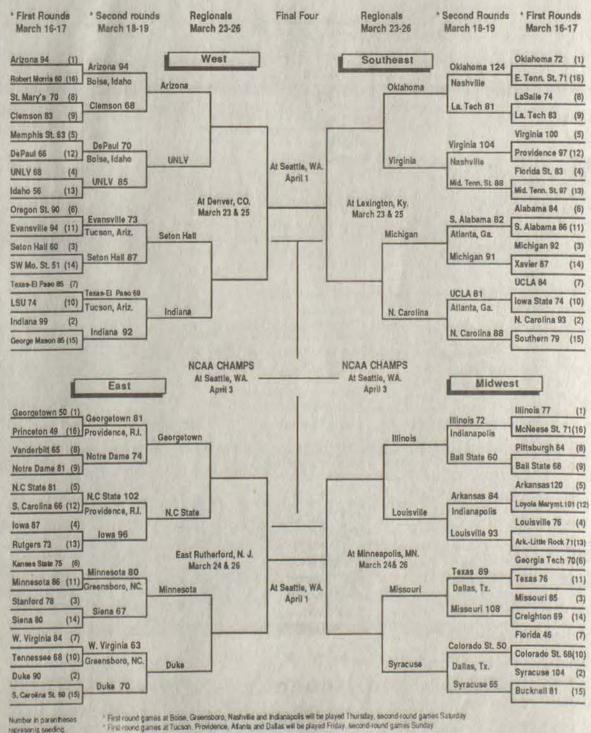

Rosenberg was an outstanding high school player at Rowan County Senior High. Rosenberg received many awards during his career at RCSHS, including First Team 1988 All Eastern Kentucky Conference Team, Ashland Daily Independent All Area, Associated Press All State Honorable mention, Courier Journal's All-State Second team, Academic Achievement Award, Outstanding Defensive Line-

Many top colleges and universities were interested in Rosenberg, including the University of Kentucky.

Rosenberg narrowed his choice down to Georgia based on the football tradition at there, the school's educational reputation and his respect for head coach Ray Goff.

According to the Georgia coaching staff, Rosenberg will be placed on the Bulldogs defensive line.

Is the Floyd Co. Clerk's Office paying approximately \$700 a month rent (tax payers money) for this trailer located in front of the court house?

And is this trailer rented for your husband's, Joe Bolton's use? How much of the taxpayer's money has been paid to your husband's company, Kentuckiana Election Service, since 1985?

How many contracts have been open to public bid by the County Clerk's office since 1985?

Is it true that your husband's company, Kentuckiana Election Service, was awarded a contract, worth approximately \$70,000.00, by you, Carla Bolton, without that service being open to public bid?

#### **Hunter Safety Measures Adopted**

A plan to require mandatory hunter training by 1991 was adopted by the state Fish and Wildlife Resources Commission at its quarterly meeting March 5-6.

The commission also tightened the requirements for hunter orange and for juveniles being accompanied

by adults when deer gun hunting. Beginning in 1991, anyone born on or after Jan. 1, 1975, will be required to take a state-approved hunter training course before purchasing a hunting license. Anyone born prior to lan. 1, 1975 (that is, anyone 16 years old or older before 1991) will not be required to take the

The Kentucky Department of Fish and Wildlife Resources currently offers a voluntary 10-hour hunter education course, according to Marion Mattingly, acting director of the department's Division of Conservation Education. Currently, 39 states have mandatory hunter training laws, Mattingly says.

Mattingly says that delaying until 1991 will give the department time to add extra instructors and make other preparations to assure that the course will be offered in all parts of Kentucky.

"The commission made it clear that not one youngster should be denied the opportunity to hunt because a hunter training course was not offered in his area," Mattingly

Effective this fall, anyone hunting during a deer firearm season will be required to wear a minimum of 500 square inches of solid hunterorange color on the head, back and chest. An orange cap and orange vest will satisfy this requirement.

#### NEW SEASON BEGINS Ahhh, spring! A time when flowers, trees and even the grass begins to come back to life. The chirping of the birds, not forgetting the warmer temperatures. The kids can be let out of the house as Mom prepares for annual spring cleaning, and Dad puts

a new coat of paint on the old house. Why, some people even get a spring vacation. The crack of the bat against a baseball signals that it is time to put the basketballs away and put the uniforms in mothballs baseball season is here.

Major League baseball's spring training has been going on now for two months, and opening day, April 4, is just around the corner. While it is still a bit early for Little Leagues, Babe Ruth, and softball leagues, still, league planning must begin.

Wehereat the Floyd County Times are also making plans for baseball coverage on all levels. We want to give the best coverage that we possibly can for all leagues. We want to include all teams in our special tabloid that we will publish this summer on recreation in Floyd County.

However, we need your help. We need schedules of all of the different leagues — Little League, Babe Ruth, Pee-Wee, and softball (men and women). We want you to furnish us with any information you can concerning upcoming meetings, or the minutes of meetings you hold - any information we can pass on to our

#### AMERICAN LEGION BASEBALLNOTE

The Floyd County American Legion Baseball team will begin its third year of play this coming baseball season. The team is for 16- to 18-yearold boys who are too old to play Babe Ruth baseball.

The Floyd County team will be coach by Estill Collins, Eugene Blackthroughout Kentucky and West Virginia, playing other American Legion teams. They also will play a 40-game schedule, and will conclude the season with an American Legion tourna-

"We usually will start our season after the high schools are through," Collins said, "We will attend all the high school games we can, and see the players and pick those that we can use. We do not pick just on ability

to play the game of baseball - attitudes go a long way. We want kids that want to play. They may not have the best ability."

The team is currently looking for a bus to travel in this summer. "We want all of us to travel together this 'ear," Collins stated. "We have spotted a bus, but we want to make sure it passes all the safety requirements, burn, and Jim Sparks. They will travel and we need donations to help pay

> The team is made up of players from Floyd County only. The coaching staff expects the team to be strong this year and very competitive.

> "We will have strong pitching this year," Collins says, "and weare going to be a good hitting team; that will be another of our strong points."

> Assistant Superintendent Gary Frazieris the team's sponsor. He stays behind the scenes.

rivers and lakes, having more miles due to its variety of lakes and fish, of running water than any other state There are deep, clear lakes with coldwater species like muskie, trout, walleye and small mouth bass. There are also largemouth bass, catfish, sunfish and bluegill typical of the

lower Mississippi River delta states. Cave Run Lake, at the northern edge of the Daniel Boone National Forest, is one of the best muskie lakes in the country. Another forest lake, Laurel River Lake, is known for rainbow trout. Small mouth bass are most plentiful at Lake Cumberland and Dale Hollow Lake.

The western lakes, particularly Lake Barkley and Lake Malone, are top producers of largemouth bass. Kentucky Lake is known as the place to be each spring for famous crappie runs. Oldtimers say the crappie run

coincides with the dogwood bloom. Crappiethon U.S.A., hosted by Lake Cumberland, Dale Hollow Lake, Lake Barkley and Kentucky Lake, is scheduled for March 11 through May 9. This is a 60-day tag tournament that offers thousands of dollars in prizes to spring crappie fishermen. The one-day buddy tournament will be held April 8.

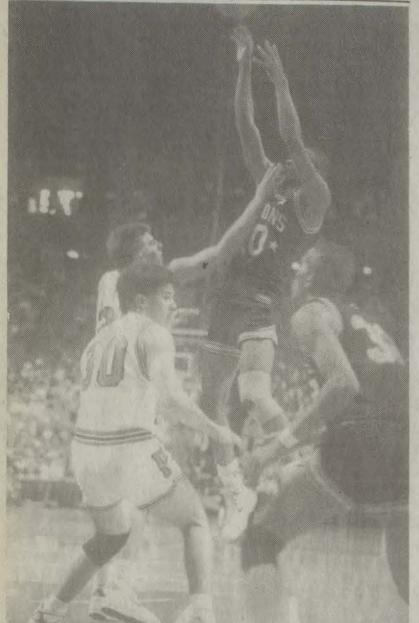

Lake Cumberland State Resort Park will host Spring Fishing Unlimited from March 31 through April 2. Trophies will be awarded in five classes and there will be evening seminars on fishing tactics.

One of the most interesting fishing events in Kentucky is night fishing for rainbow trout at Paintsville Lake State Park. According to the manager, Bob Dixon, "Anglers are out there in their boats in the dark with their lights flashing-it's totally

People fish until the wee hours of the morning," he added. Night fishing begins in late May, when the hot days drive the trout deep into the lake, and lasts until late August.

No matter what your fishing interest is, Kentucky's variety of lakes and rivers can satisfy you. There is no closed season on a fishing in Kentucky. With a few exceptions, all fishermen between the ages of 16 and 65 are required to have a license

#### April 7 Is Declared Arbor Day In State

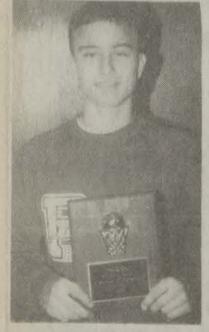

April 7 has been proclaimed Arbor Day in Kentucky by Gov Wallace G. Wilkinson, according to officials with the local Division of Forestry.

The proclamation urges Kentuckians to participate in the observance of Arbor Day by planting trees to beautify the state and to focus attention on forests as a natural re-

The observance of Arbor Day in Kentucky dates back to 1896 when the General Assembly first established Arbor Day in the state. National Arbor Day is the last Friday in April; however, due to the great chmate differences that affect ideal planting times, most states determine their own particular Arbor Day date, local officials said.

The state Division of Forestry will provide packets of the state tree, the Kentucky Coffeetree, to organizations to planton public grounds. The seedlings are about I foot tall and should grow rapidly if planted in full sunlight and in good soil.

For more information, or to obtain an Arbor Day packet, contact the Kentucky Division of Forestry at 503 South Lake Drive, Prestonsburg, or call 886-8562

#### Pop-A-Shot Runner-Up

John Clark, 14-year-oldson of Mr. and Mrs. Wimpy Clark of Prestonsburg won second place in the Pop-A-Shot tournament held during the state tournament last week. Clark competed against 35 other participants in the 14-and-over agegroup. Clark had scores of 76,72, 69 for a total of 217 and finished in a tie for first place. They had to have a shoot-off to determine the winner. Clark finished with a total of 237 points and his opponent had 238.

artteacher Caralita O'Quinn's classes are also judged and used liberally throughout the magazine. All submitted work is coded so that the student judges cannot identify the creator and the work is judged only on its own merit.

Watson said that the work of 42 different students was featured in last year's Freedom, which was 94 pages. Kim Cline edited the 1988 edition, with calligraphy done by Tommy Gearhart and cover illustration by Ricky Crider.

But she has seen progress. The first edition in 1987, she said, was done with the help of Linda Wilson's graphics students at Garth Vocational hool and "no money at all."

The school "invested a little money" in the second edition, and this year teachers Watson and O'Quinn received mini-grants of \$250 each for work on the publication. "The \$500 still isn't enough to do what we want to do," said Watson, so students are exploring fund raising projects.

Watson said she began the maga-zine almost three years ago so the public could see what Allen Central students are capable of doing. "As a teacher I saw all the good things the students were producing," said the English teacher, "but I was the only one who ever saw them." Freedom, a name selected through student com-

petition, became the medium for others, besides the teacher, to see just how creative the students can be.

Watson also uses the printed magazine in her classes to illustrate different types of writing and to show students that they can do work that is publishable.

Kathlyne Keen, a Wayland senior interested in art, sees Freedom as a laboratory in teamwork. "It teaches you to make decisions as a group,"

Her sentiments are echoed by Linda Oliver, a senior from Garrett who hopes to be a journalist one day. "Working together like this teaches us to get along with one another."

Watson, who describes her role as "like having a second job," hopes that the creative experiences the students are having with the magazine will lead one day to an expanded curricu-lum at the school. "I have a lot of enthusiasm for this project," the popular teacher said. "I hope we can eventually incorporate other subjects, such as creative writing and broadcasting, into the curriculum."
Watson pointed out that grades

are not always indicative of a student's creativity. "These are not always A students whose writings are published," she said. "Sometimes it amazes people that you don't have to be a 'brain' to create."

Other students on the current The publication is presently run editorial staff of Freedom are Trena Crum, Davina Chaffins, Lisa Jane Hicks, Donna Yates, Ann Castle and Jennifer Gunnels.

Buoyed by the success of last year's edition, the students now putting together the 1989 magazine are shooting for a "superior" rating in the next NCTE competition.

### **ACHS Students Study Future** Problems, Offer Solutions During Gov.'s Cup Competition

Solving the problems of the future ems an awesome task, but partici- Members are Wallen, Lisa Hicks, seems an awesome task, but participants of the Governor's Cup Future Problem Solving competition might be better equipped to handle such problems.

the members of the Allen Central High School future problem solving team were led to district victory by Stephanie Wallen, captain, who has participated in the regional competition for three consecutive years. This year the team made an excellent show-

William Wohlford and Kelly Hairston, along with alternates Chris Ousley and Faith Frasure.

The regional competition was won by Pikeville, whose team recently placed second in the state.

Originally known as creative expression, the competition is more abstract than other facets of the Governor's Cup competition, according to Don Daniels, ACHS principal.

The students not only identify possible problems of hypothetical situations, but also identify a primary underlying problem. Next, students use value judgments to select a main solution from a variety of solutions they have discussed.

This year, a new feature was added to the competition: the main solution had to be presented orally in the form of a skit, using props. The skits involved the alternates, as well as team

### **ACHS Future Homemakers** Hear Presentation On AIDS

attended the February meeting of Allen Central High School's Future Homemakers of America meeting recently.

The students gathered in the high school's foyer to hear guest speaker Naewana Nickles of Our Lady of the Way Hospital give a presentation on Acquired Immune Deficiency Syndrome (AIDS).

Nickles gave statistical informa-tion regarding AIDS at the national, state and local levels. She discussed the implications of the disease's spread in this area and warned that AIDS is not something to be ignored.

She also discussed how the disease is transmitted, how it works in the body and its physiological and other effects. She told the students how the spread of AIDS can be reduced, and also discussed myths associated with the disease.

A question-and-answer session followed Nickles' presentation. She concluded her program by distributing booklets on AIDS provided by the Floyd County Health Department.

"The setting was very informal," said Nickles after the presentation.

#### HOROSCOPE

#### March 26 through April 1

ARIES (March 21 - April 19)

This is your week to shine in the art of communication. Be grateful of other efforts, even if they don't really help the problem. Watch finances closely.

TAURUS (April 20 - May 20)

Sometimes it's OK to demand the best, but be careful on the home front. Loved ones will take great offense at your bullying attitude.

GEMINI (May 21 - June 20)

Geminis may find romance this week or recharge an ongoing affair. World-related problems will ease soon. Keep the home fires burning with a night on the town.

#### CANCER (June 21 - July 22)

Take your time with even the easiest tasks. An otherwise occuppied mind could cause problems at work if everything isn't completed on time. Be generous to loved ones.

LEO (July 23 - August 22)

Focus on relationships. Don't be discouraged by what seem to be major catastrophies. Look around and get a little perspective. Life is not so bad.

VIRGO (August 23 - September 22)

Be prepared for delays; not everyone is as meticulous as you. Taking time to help someone can be very rewarding later on. Don't take advantage of a relative.

LIBRA (September 23 - October 22)

Domesticity is the word for you. Whether it's simply cleaning house or planning a family, now is the time. Look into profit-making ventures.

SCORPIO (October 23 - November 21)

Arguments with co-workers could end in disaster this week. Keeping a cool head at work and home is difficult, but extremely necessary.

SAGITTARIUS (November 22 - December 21)

Get those job responsibilities out of the way, so you can have some fun. Taking care of business in a timely fashion will allow you to do so.

CAPRICORN (December 22 - January 19)

Jealousy could sour what was once a wonderful relationship if you are not very careful this week. A new friendship will enlighten you immensely.

AQUARIUS (January 20 - February 18)

This may be the time for switching jobs. You lose momentum when you are stuck in a rut. The time for meeting new people

PISCES (February 19 - March 20)

Sit back and listen to your instincts. Keeping your opinions to yourself could prove helpful at the week's end. Be kind to the elderly, even if you don't feel like it.

#### Oscar presentation expected to shine

Oscarcast moved to Wednesday

By Linda Sparkman

The first telecast originated from the Hollywood Pantages Theater on March 19, 1953. Bob Hope was the Master of Ceremonies, and a young actor named Ronald Reagan was the radio announcer. That show received a whopping 42.1 rating and a 76 share, crushing all existing TV rating records to date.

And thus began television's 36-year long love affair with Oscar. Wednesday, March 29, The 61st Annual Academy Awards Presentation will air on ABC, marking the first time since 1976 that the Oscar Awards have been telecast on an evening other than Monday.

But there have been other "firsts" in the Oscarcasts. Matter of fact, Oscar seems to have had it all: firsts, emotions, even criticism.

For instance, when Maximillian Schell was named Best Actor in 1961 for Judgment at Nuremburg, it was the first time an actor had won an Oscar repeating a role he did on television.

Emotions? Who can forget the time that James Stewart tearfully accepted a special Oscar for Gary Cooper, who died of cancer a month later? How about the standing ovation that Charles Chaplin received upon his return to the U.S. at the 1972 Awards?

As for criticism, the length of the Oscarcast is contantly being attacked. But what about the time in 1959 when Jerry Lewis found that he had 20 minutes to kill and brought everyone onstage to sing and vamp for the remaining scheduled time?

This year promises its share of excitement. Said producer Allan Carr, "The opening is going to be, hopefully, one of the most exciting things that we've seen on television in a long

Jodie Foster is an **Academy Award nominee** for Best Actress (The Accused), Wednesday on ARC

time." The set will be a recreation of the Coconut Grove, where the awards were held before they were telecast.

Of course, one of the exciting things each year is the announcement of the winners. This year there is no one show that threatens to eclipse the rest of the nominees, as there often has been in the past, but several strong films and performances vying for top honors.

Nominees in the Best Picture category are The Accidental Tourist, Dangerous Liaisons, Mississippi Burning, Rain Man and Working Girl. Best Actor nominees Gene Hackman (Mississippi Burning), Tom Hanks (Big), Dustin Hoffman (Rain Man), Edward James Olmos (Stand and Deliver) and Max von (Pelle Sydow Conqueror).

Competing for Actress are Glenn Close (Dangerous Liaisons), Jodie Foster (The Accused), Melanie Griffith (Working Girl), Meryl Streep (A Cry in the Dark) and Sigourney Weaver (Gorillas in the Mist)

## Money: Making It, Investing It, Or Distributing It In A Will

by Trisha Morris PCC Librarian

Money may be the "root of all evil," but it sure isn't much fun without it. The following books from the Prestonsburg Community College Library address money — how people make it, legally and illegally; how to investit to make more, and how to be sure that once you've made it, it will be safely deposited in a bank or distributed through your will.

Entrepreneurs, by Joseph and Suzy Fucini. Entrepreneurs profiles 225 fascinating individuals whose names are found on today's popular products. Vividly illustrated with period photographs, portraits and landmark advertisements, these business succoss stories are entertaining, infor-mative and often inspiring. The stories range from Thomas Welch, a Methodist minister and ardent prohibitionist who invented his grape drink as an alternative to wine, to Will Kellogg, who invented corn-flakes when a baking experiment

The stories of these business pioneers - ingenious, driven, creative or sometimes just plain lucky—are a celebration of the individual effort in an era dominated by big business. These products were not devised in an anonymous boardroom, but were born of the visions and determination of individual men and women,

brought vividly to life in this book.

Understanding Wall Street, by Jeffrey Little. Understanding Wall Street is an introductory guide for begin-ning investors, and a dependable reference on the intricacies of the stock market. Written by a former vice president of a major investment firm, it provides a practical education by combining investment fundamentals along with many sophisticated tech-

Complete with a dictionary of standard, basic terms so that "bulls" and "bears" take off their fur coats, "yield to maturity" makes sense, "risk" becomes something more than a game, and "puts" and "call" lose theirmystery

This is a book for the small investor, explaining in plain, easy-to-read language the makings and science of a very complicated business.

Money in the Bank, by Robert Ab-bound. Every payday, Americans flock to banks and savings and loans to deposit their paychecks, secure in the knowledge that when they want it, their money will be there. However, recent news coverage of bank failures, risky loans to developing countries, and the uncertain state of the savings and loan industry raises a profound question: How safe are the institutions that accept these depos-

Money in the Bankcuts through the confusing economic headlines with a clear view of what can be done to completely overhaul current US practices and offers a common senprint for reform that is easily understood by bankers and laymen alike.

Sylvia Porter's Money Book, by Sylvia Porter. A personal economic reference that belongs on the shelf beside the dictionary and the cookbook — it is that universally important. It will tell you everything you ever wanted to know about money how to earn it, spend it, save it, invest it, borrow it, and use it to better your

Porter, the nation's foremost financial advice columnist, reveals vital information not usually evident to the average consumer: how to get the best deals in credit, how to argue with a computer (and win), how to use savings and checking accounts to your best advantage, how to be your own investment counselor - in effect, how to earn more money with the money you've learned to save.

This book has something for everyone, and is made particularly useful by a complete index and lots of charts. My favorite section is "Your Rights and How To Get Them."

Finally, the problem of protecting your estate against the inroads of taxation and of insuring that it is passed on to those whom you would want to have it is simplified in part three.

The three parts, together, should make living in a consumer world easier and less worrisome both in the present and the future.

How to Build a Second Income in Your Spare Time, by Tyler Hicks. Living in an age of inflated money where every necessity and luxury costs more than it did last year - the only way to live well is to continually make more money. This book suggests that the only way to keep up withor surpass that cost of living race is with a second income, and that this "spare time fortune" is available to anyone with the desire and courage to follow its step-by-step procedure. With titles such as "Secrets that make low-capital investments pay off" and "Combine hobbies with your second income fortune," the book offers understandable enticement to anyone who needs more money at the end of each month.

be sure to read the small print. The Dean Witter Guide to Personal Investing, by Robert Gardiner. Most of us drift from paycheck to paycheck and worry about the kids' education, emergencies and old age, vaguely knowing that someday there isn't going to be enough money. This book tells us it doesn't have to be that way. It goes as far as to say that "Anyone who can earn a decent living and knows how to use a calculator can do a whole lot better than just get by." The plan Gardiner sets out is not magical, it doesn't require great luck or skill — what it does require are planning and discipline, understand-ing that there is no "get rich quick" scheme that works.

The Witter Guide is a practical book that will help your financial future if you follow its advice and have pa-

Counterfeiting in America, by Lynn Glaser. This book won't tell you how to do it - but it will tell you how it's been done and who did it. Billed as the second oldest profession, the author assures us that, "as soon as human beings became sufficiently social to have any sort of commercial intercourse, there was a shyster somewhere trying to pass off an infe-rior article as one of full value."

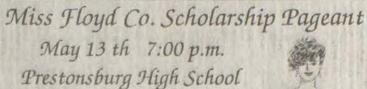

Mainly a historical discourse, the book takes counterfeiting from 700 BC and the invention of coined money to 1959 when the Secret Service apprehended a counterfeiting ring pro-

Money and Man, by Elgin Groseclose. Now that we have discovered how to make it, invest it, and safely pass it along in our estate, let's find out what this thing we call money is, and what it has done for man. This book tells us that "money has a useful and essential service to perform in the economic life of mankind." It has made possible the division of labor, a

strong, well-ordered system of government, and international trade. By providing a store of value, it gave us eisure and the possibility of saving for a comfortable old age, travel, edu-

## Recognizing Heart Attack Symptoms Can Save Lives

As Highlands Regional Medical Center in Prestonsburg prepares for the opening of its new cardiac catheterization lab, the informational focus is on all aspects relating to heart

The most serious threat to the heart is a heart attack - a sudden, disabling and sometimes fatal shutdown of the heart caused by blockage of the blood vessels that feed the heart

Should a heart attack strike you or someone near, fast and decisive action could be a life saver. Highlands would like to better acquaint area residents on how to recognize a heart attack, should one occur. The following information was taken, in part, from the American Heart Association's fact sheet on heart at-

The Voices of Appalachia, the offi-cial choir of Alice Lloyd College, began its annual spring tour recently; the tour will include several stops throughout Ohio.

Alumni and friends of the college are planning a special reception for the choir following its last concert of the season. The final stop of the tour will include a performance at the Blue Ball Presbyterian Church in Franklin,

Floyd County students singing with the Voices of Appalachia are Yvette Depoy of Allen, Cheryl Hall of McDowell, Michelle Roth of Prestonsburg, Emily DeRossett of Allen and Connie Kinzel of McDow-

As an annual event, the choirsang an abbreviated concert for the members of the Caney Baptist Church of Pippa Passes earlier this month. The music presentation took the place of

the regular worship service. Richard Kennedy, choir director, told the congregation, "I always feel good about this performance, because with the successful completion of this traditional concert, I know the choir was ready for the spring tour."

The Voices of Appalachia special-ize in hymns and ballads of the Southern Appalachian highlands. The choir sings with and without accompani-

The need for intense concentration and the noise created by the machines "geton your nerves," Blackburn said, "but it also gets in your blood." The matchstick creations demand the same type of attention and, to an extent, fill that void in the former printer's life.

The slightly built, quiet man started working with matchsticks "about four or five years ago." His first creations were relatively simple jewel boxes which he gave to family and friends. He later advanced to doll-house sized chairs and other miniatures before attempting to build

His latest house is based on a piece of wood covered with green carpet to resemble a yard setting. In front of the house, which has a tiny roofed porch, are picnic tables and an oldfashioned well, all fashioned from matchsticks.

## Naming Newborns: Ashley And Joshua Top The '88 List

Ashley and Joshua are again the thy, Dustin, Charles, Nicholas and reigning names for babies born in Ryan.

Just as in 1987, the pair topped the list of 1988 names, gleaned from 45,750 births recorded so far by the Kentucky Department for Health Services, according to Janet Williams Hoover, spokeswoman.

Ashley and Joshua are not the only repeats - 17 of the top 20 names for both boys and girls were the same in 1988 and 1987. However, there are many, many unique names — 1,382 babies last year received a name that no one else was given that year.

The top 20 girls' names are, in order, Ashley, Jessica, Amanda, Brittany, Sarah, Kayla, Tiffany, Heather, Samantha, Amber, Megan, Jennifer, sung in the style the particular singer Whitney, Elizabeth, Emily, Lauren, Rachel, Stephanie, Courtney and

n, Courtney and Mary placed Rebecca, Laura and Kimberly from last year's list. Parental creativbetter than some of that I'll just throw ity showed in the spelling of girls' names — the top 20 names have 116 different spellings, as compared to 40 different spellings for the top boys'

The most popular boys' names are, in order, Joshua, Christopher, Justin, Michael, James, Matthew, William, Brandon, Andrew, David, Joseph,

New to the boys' list are Dustin, Charles and Nicholas, replacing Eric, Anthony and Jeremy from the 1987

A review of the complete list of first names shows that graduating seniors in 2006 will have names that are unique, unusual, hard to pronounce, and that reflect music, nature, places, famous people and weather conditions.

Although only a few months old, some babies are already "gems": Diamond, Jewel, Jade, Ruby, Opal, Amethyst, Garnet, Pearl, Sapphire and Turquoise.

Some parents must be world travelers. The list includes Jordan, Rome, Sierra, Eden, Geneva, China, Kansas, America, Berlin, Montreal and Ne-

Bible names also appear on the list: Rebekah, Isaac, Levi, Elijah, Isaiah, Eli, Esther, Gabriel, Israel and Jonah. Babies were named Angel, Faith, Joy, Grace, Heaven, Angelic, Heavenle and Miracle.

Nature names made a showing with Rose, Lily, Daisy, Iris, Violet, Jasmine, Rosemary, Ginger, Sage, Brooke, Raven, Sky, Ivy, Buck and Colt. Windy, Sunny, Sunshine, Misty and Stormy also made the list.

Popular music figures were re-

membered with Dylan, Donovan, Waylon, Elvis, Aretha, Fabian, Julio and Lionel. History buffs might have named these babies: Julius, Lincoln, Kennedy, Antoinette, Columbus, Boone and Nefertari.

Several names were given to nearly an equal number of both boys and girls. They include Taylor, Jessie, Dominique, Kirby, Trinity, Cayce, Jackie, Devon, Adrian, Aubrey, Dusty, Blakely, Robbie, Channing, Griffin and Cori.

Many 1988 names will cause double-takes throughout the years. Some of them are Arzie, Bodeeca, Cassiopeia, Chrisderburg, Galadriel, Jatagious, Kojo, Navarian, Pavielle, Rhoden, Shaleshelle, Timoline, Waltino, Xylina and Zyhedia.

Some names seem likely to shape the child's development. For example, children were named Vanity, Chipper, Loyal, Lyric, Novel, Serenity, Speed, Star, Tempest, Tenacious, Camera, Charisma, Cherish, Charity, Adonnis, Kontessa and Baron.

Despite where they grow up, some children seem bound to become linked in some way. Consider: August and September, Romeo and Juliet, Samson and Delilah, Scarlett and Rhett, Cheyenneand Cherokee, Krystal and Blake, Maverick and Rebel, Precious and Special, Barbie and Ken, and Fred and Barney.

A lot of time and patience goes into Bobby Blackburn's creations. Using he comes up with the "vision" he's simple matchsticks, the Prestonsburg man fashioned this pioneer-type looking for, he'll doubtless begin house over several months.

#### Easter — The Resurrection

What significance, what hope, what joy in the message, "He is not here, for he has risen," just as he said he would.

This was the divine announcement to man kind; the fulfillment of the longpromised victory over death.

Let us not be motivated by desires to dress up so fine in our new dresses and Easter bonnets, for in the hearts and minds of everyone, "He is risen" should be the first and greatest thing. Every heart should swell with joy and gratitude. The divine promise was put into action on this day we celebrate as Easter.

so, with the coming of Easter and the opening buds of springtime, our hearts are made good in the assurance that life is everlasting. Although our bodies fall prey to death, they shall awaken to a joyous morning of springtime and

#### My True Friend

by Myrtle Berry, Martin Who gives me courage

When my heart is filled with pain? Also love and understanding, And makes me want to live again? Who pulls me up when I am down And plants my feet on firmer ground? When I am weak, who makes me strong? Gives me faith and courage to go on? You, Lord! You are my friend. Who comes to me in the dark of night? Takes away all my worries And makes everything seem all right? Stays close beside me until the break of day. For as long as I need Him, I know He'll stay. Who's always close when I get down, Picks me up, even from the ground? Who gives me hope, when all seems gone, Gives me strength, tells me I can go on? Who fills my heart with love for all, Helps me to stand, straight and tall, Always near to catch me when I fall? You, Lord - You are my friend.

#### Coming of Spring

by Myrtle Berry, Martin

As the soft morning breeze Shakes the leaves on the trees That grow across the road from my home,

I just close my eyes and rest for a while Forgetting I am here - all alone. watch so many birds flying from tree to tree -

Making so many different sounds, So quiet and peaceful in the early morning hours. Every one of my neighbors still in bed,

So I seem to be the only one around. The birds are so busy Carrying feathers and twigs for their nest, You wonder sometimes how they could know

But they go right on, for several days Then lay their eggs. And the female sits on the eggs for a rest. They know just what they have to do,

To keep the eggs safe and warm Until the baby birds peep through, They guard them from all harm. Soon they try their wings and are on their own And they fly away and leave their home. If you've never sat on your front porch in the spring

And watched, at early dawn, So much you've missed, So many wonderful things That happen right by your home. As the soft spring breeze blows through the trees, Stirring the buds that are coming through,

The sun peeping up over the hill so bright Making you know that spring is here, Oh! What a beautiful sight. When spring comes here in my Kentucky hills

I think of the night gone by When I listened to the lonely song of the whippoorwill. But when the night has passed And daylight is here,

We just look around at the beauty outside And feel that God is near.

#### **Looking Back**

by Myrtle Berry, Martin

The house that was my home stood empty, But is gone today, The yard full of weeds Where we used to play. It all looks so lonely and still;

The shadows creeping in, As the sun goes down behind the hill. I can close my eyes and change the scene, And see everything as it was back then; The yard full of children playing around, Not a blade of grass anywhere, Just plain old ground.

I can see my Mom, so sweet and dear, Come out on the back porch, so we could hear: "Dinner is ready and on the table;

Come on in here." We would run a race to get to the door, She wouldn't have to call anymore -Each of us knew our place At the long table made by our Dad. I never realized at the time

All the happiness we had. So now, let us all enjoy the little things That come to us each day, We can't bring the times back That have gone away. We can search the world, But happiness like we had then Cannot be found;

So we must look inside ourselves,

And find we will always carry it around.

## **CITIZENS:**

It is critical that we have a new administration to care for our Floyd County Jail.

My plans as jailer will be to revive our jail, so we may have a better Floyd County Jailing System.

institution for inmates to pay their debts to society.

1) BRUTALITY-The Floyd County Jail can do without this & will if I am elected. 2) MAKE JAIL HUMANE-By holding staff as well as residents legally responsible for their actions.

3) MAKE THE JAIL SAFE-By cracking down on interpersonal violence such as inmates hurting one another or themselves.

4) MAKE JAIL SENTENCE TOUGH YET FAIR-BY SEGREGATING ALL VIO-LENT AND DANGEROUS inmates from non-violent inmates while providing all inmates the opportunity to earn "GOOD TIME" and work their way into less restrictive environments.

5) TREAT INMATES AS INDIVIDUALS WITH INDIVIDUAL PROBLEMS-By offering therapeutic programs & choice of religious confrontation.

6) PROVIDE ALL MEDICAL ATTENTION NEEDED-We must consider inmates as human individuals as we are by giving any & all medical attention that is needed

7) PROVIDE TROUBLED INMATES WITH PROFESSIONAL & CONFIDEN-TIAL COUNSELING-By counselors employed by agencies outside the jailing

8) ENCOURAGE FAMILIES TO STAY TOGETHER-By facilitating private inmates and personal contact visits.

9) STOP USING THE JAIL AS A DUMPING GROUNDS FOR VICTIMLESS CRIMES- Such as gambling or probable drug use by inmates that may be brought to them by relatives or neighboring friends.

10) PLACE A RENEWED EMPHASIS ON REFORMING THE FLOYD COUNTY IAIL- By providing the resources necessary to have a truly effective rehabilitative

If elected by the citizens support, I will apply, through the state government as well as the Floyd County Fiscal Court, to establish a security camera system throughout the jail and jailhouse surroundings, to help prevent any further jail escapes and to monitor any & all crimes that may be committed.

#### Need Adoptive Family

These three children, ages four to seven, need an adoptive family, according to Kathy Bohr, spokeswoman for the Prestonsburg Department of Social Services. Dean, 7, is a likable child who seeks affection and approval from adults; he is in the second grade in a resource room because he is developmentally delayed. John, 5, is of average intelligence, although he is slightly delayed in speech and fine motor skills; Joequan, 4, needs special help to further develop fine motor skills and improve speech. Both he and John appear to be normal mentally healthy youngsters, said Bohr. For more information, call 886-8192.

#### DO NOT CRUSH

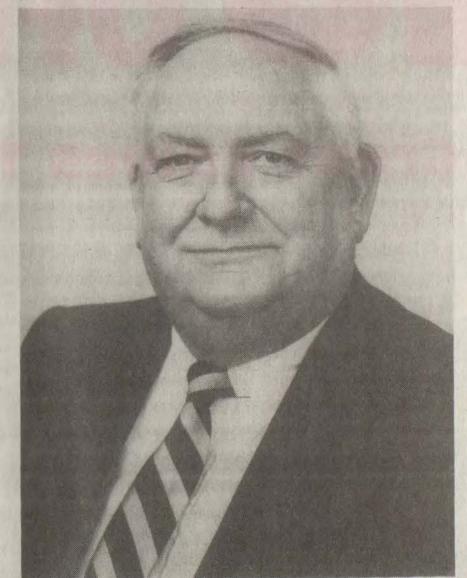

Children under the age of five years will, in almost all cases, experience difficulty in swallowing medication in tablet form. For this reason, children in this age group usually receive their prescriptive medicines, and over-the-counter remedies, in liquid form. There are some medications, however, that are available only in tablet or capsule form. These tablets may be crushed between two pieces of wax paper with a teaspoon to reduce them to powder form. However, certain tablets, such as entericcoated ones, should not be crushed. Tablets in the form have a shiny outer coating which is intended to keep the tablet from disintegrating in the stomach. Also, those tablets with sustain-release action should not be crushed since this would circumvent their gradual release action.

COOLEY APOTHECARY meets the highest level of professionalism in our business and would be honored to become your pharmacy. If you have any questions about how to take a particular medication or about drug interactions don't hesitate to ask. We are located at #2 Town Center Bldg., 886-8106. Master Charge and Visa honored plus we welcome all third party payments. Open: Mon.-Fri. 9-5:30, Sat. 9-3. We wish you a very happy Easter!

HINT: By the same token, chewable tablets should not be swallowed whole.

According to Encyclopedia Brittan-ica, some customs associated with Easter are superstitions that the sun rising on Easter morning dances in the heavens. This belief goes back to the heathen festival of Spring, when onlookers danced in honor of the sun.

The Easter kiss was a joyful Easter rite. The Easter greeting, Christ is risen," and answered by

"He is risen indeed," was common everywhere in Russia until the revolution of 1917.

A Teutonic superstition: New fires were started by friction of wood, flint and steel. It was considered "unlucky" not to wear a new garment on Easter Sunday. Many thought Easter tide was the time for casting off the old and putting on the new. The liturgical color for Easter was white, representing joy, light and purity.

In the United States, Louisiana and Virginia were among the first states to observe Easter. It was during the Civil Warthatthe Protestant churches

started to hold special services to mark Easter day

The EB definition for Resurrection is "a rising from the dead." One of the clearest references to the resurrection is found in the Old Testament, Isa. 26:19. The Book of Daniel reveals it is to be a resurrection of both the just and the unjust (Dan. 12:02). A chief characteristic of the Pharisees by the New Testament times was their belief in a resurrection (Acts 23:08). Martha probably expressed the popular belief of her time when she said that she knew Lazarus would rise again (John 11:24).

"If in this life only we have hope in Christ, we are all men most miserable," (1 Cor. 15:19).

#### **Higher Mortgage Rates** Will Pull Back Home Sales, NAR Predicts

Higher mortgage interestrates will stifle housing activity throughout 1989, dampening what could have been an extraordinary year for residential real estate, according to the latest monthly "Outlook for the Economy and Real Estate" from the National Association of Realtors.

The March report, issued by NAR's forecasting and policy analysis division, notes that the housing sector is caughtina "tug-of-war," with strong housing demographics pulling the market forward, and interest rate increases pulling it back.

Last year, the volume of buyers in their peak income-earning years withstood interest rate increases, and existing single-family home sales reached a nine-year high. However, the March outlook predicts the higher rates will have a more substantial impact this year, as interest rates for fixed-rate mortgages hover between 11 and 11.5 percent.

Credit tightening by the Federal Reserve Board, which has driven up mortgage interest rates gradually since last fall, is not expected to continue past this spring, according to NAR analysts. Although the Fed's anti-inflationary policy has the effect of restricting home sales, housing activity, particularly in the existinghome market, is expected to remain at a healthy level, the outlook says.

"Our view of the economy is that the Fed will have realized that it was successful (in slowing economic growth) by May this year, and will begin to pull back, thus easing interest rates," notes NAR chief economist John A. Tuccillo.

The following predictions for 1989 are included in the March report:

- Sales of existing single-family homes are expected to total 3.58 million units, declining 0.4 percent from

- Sales of new single-family homes are expected to total 645,000 units, dropping 4.7 percent from 1988. - Housing starts are expected to

drop 2.5 percent from 1988. The national median existinghome price is expected to reach \$94,000, rising 5.2 percent from 1988. The national median price for new homes is expected to reach \$118,300, increasing 5.2 percent from 1988.
