CONVENIENCE SPEED COMFORT ECONOMY SAFETY

Wherever business or pleasure calls you—north, south, east or west—C. & O. provides the best way to get there. You can make the trip in shorter time, in perfect safety, and with maximum comfort. And C. & O. service is economical too. The Imperial Salon Cars, for example, afford all the comforts of a well-kept home, yet you pay nothing beyond the price of your regular railroad fare. That is why seasoned travelers say, "Always travel by C. & O."

Rev. James Bork, of Prestonsburg, conducted church here at the Methodist Church Sunday night and Sunday.

Fainting Spells One of Acrobats' Great Perils
It is not unknown for acrobats to faint in mid-air. One famous acrobat has said that during a somersault in mid-air from a trapeze his brain is numbed, and for a second or two he is practically unconscious. This he attributes to the speed with which the evolution is performed, and the sudden shock it gives to the brain. One night a woman performer was preparing to do a sensational flying act from one trapeze to another when, suddenly, at the moment she should have jumped, she was seen to sway dizzily. The next second the horrified crowd saw her tumble head first from the trapeze. Fortunately, the rope was twisted around her ankle so that she hung head downward. She was able to climb to a dead faint. Quick as a flash another trapezist swung himself out, and, in a flying leap, grasped the girl, pulled her back to safety, fastened a rope round her waist, and lowered her—still in a faint—to the stage.
