FEDERAL AGENTS FIND THEIR MAN AT POKER GAME

Escaped North Carolina Prisoner and Alleged Auto Thief, May Be Fatally Shot

Edgar Aldridge, alias Tom Ledford, 25 years old, alleged auto thief and North Carolina bad man, was critically, perhaps fatally, wounded, with a Department of Justice agent's bullet through his liver after trail rider was refused Sunday night in a saloon's home at Drift, this county, sought since February, 1935, on a charge of violation with others of the National Motor Vehicle Theft Act for the transportation of a stolen automobile from Bowling Rock, N. C. to Erwin, Tenn. Aldridge was taken by surprise while playing poker with five others at the home of Charles Buchanan, Drift, since Hoover, director of the bureau of investigation, says that Aldridge was not as he is listed the federal agent after the light in the room had been extinguished. Only one shot was fired and that from a .30 Luger automatic.

Five Others Arrested Aldridge was taken to the Gerber hospital at Martin, where he is under guard. His companions in the poker game, Bill Tackey, Charles Buchanan, Ed Stapleton, John Frazer and Bill Humber, were arrested on a charge of harboring a criminal. All were released, except Tackett and Buchanan, following an hearing Tuesday afternoon in Paintsville before U. S. Commissioner J. Melvin Holt. Tackett was held to \$300 bond, and Buchanan under \$200.

Working in the mines, the Green spent several days last week in this county on Aldridge's trail. Working with the survey and Thompson's party, which the government hunters are noted, the agent surrounded the Buchanan home and made their foray inside shortly after 9 o'clock Sunday night.

The blouse gathers at the yoke and waist in front and back, retaining fullness and a soft drapery appearance. The twin pieces in the skirt are a diamond shaped back and two horizontal buttons and pocket how smart and up to the minute your frock will be.

Barbara Bell Pattern No. 1832-B is available in sizes 32, 34, 36, 38, 40, 42 and 44, and can be procured for fifteen cents. It requires 4 1/2 yards of 35-inch material. Life and Death Clock to Impress People of Berlin

Every five minutes, the steel hammer of a great clock in Berlin tolls like strokes, indicating that nine babies are born on an average during this period in Germany.

A big double-bulbed hour glass beside the bell turns over every five minutes to remind people that seven Germans have died while the nine babies were being born.

The clock has been built to suggest, in more emphatic fashion than the usual timepiece, the eternal change between life and death—and to impress upon Germans the dangers of a falling birth-rate.—Pearson's Weekly.

Grow a garden of "GRADUATES" from a real seed breeding institute

For 80 years, Ferry-Morse Seed Co., America's greatest scientific seed growing organization, has protected gardeners against deterioration in seed quality.

Our foundation stock is developed at The Ferry-Morse Seed Breeding Institute Stations at Rochester, Mich., and Salinas, Cal. Irvin's Cobb thinks about:

Making Money is "Bit" BEVERLY HILLS, CALIF.—

Things certainly are lovely for the boys in the big stone bide-a-wee homes, it is not so?

At San Quentin here in California, chosen groups turning out counterfeit money and never having to worry about getting in jail, since they are already in—and a nice job strike on at Alcatraz. And in my own home state, the inmates just seeming to come and go at will.

But in Illinois where the chaps enjoy all the benefits of a general amnesty without the bother of paying dues. It must be grand, serving as a member of the house committee of the Joliet Under Country club, what with your own liquor made right there on the premises and shot in the arm at the rate of one a minute.

The day is at hand when "prison break" in the headlines won't mean that some of the fellows still in the hole are trying to get out but that some of the fellows on the outside are trying to get in, and who could blame them?

The Yellow Peril's Peril AT THIS moment the question before the house is whether it is more serious to have the Japanese and give offense to the soldiers or a soldier in America and give offense to the statement.

However, at the risk of being penalized for punning, this innocent bystander ventures the prediction that amongst us there won't be any more of these summary removals to the glory of the service, as it were.

Because when something happens out on a military post, to make Tom Houston, the blood-sweating, beehorn of Texas Democracy, line up with a lot of Republicans—well, I never thought I'd live to see the day. I don't believe Uncle Tom did, either. I'll be nobody is more surprised than he is.

Abolishing Estates AT LAST! accounts, the Canadian parliament had a bill before it to abolish estates. When an Indian gets prosperous he gives a party, with free food and drink for all, and whatever he has left over he bestows upon his guests and so winds up bequeathed but happy. Although not at present confined to the Indians, it's not their own idea. They borrowed it from some of the early settlers. It's an old-South custom.

Tracing the genesis of traditional things is interesting. I thought the famous motto of the Northwest Mounted Police had originated within the force until once when I tackled some native. Explaining tobacco as a leading post in upper Ontario. As soon as I recovered consciousness I knew where came the slogan, "Always Gets His Mean!" That was what the natives have dizzy spells in humid weather.

Speaking of burrowing or rather of digging, we could make a profitable deal from our staid, old-fashioned, simple Canada a great gross of parlor boards and overly sentimental governors and judges who not technically before common sense and common justice for about half a dozen of their trial courts and one or two square-jawed prison.

"Holdout Time" IT IS the gladsome season when last year's men answer they'll answer you on uniforms again unless they get better contracts; while the managers just as loudly declare the boys will accept what's offered or say out of the game forevermore. Through anxious weeks each group proclaims that, from the position this taken, it will never, never abate one jot or tittle.

But when the first robin starts north and the last training squad starts south, something always happens. One side decides to abate quite a few of the job. And the other side says, "Oh, oh, oh, after all, what's a little more or less between friends?"

So this spring's hold-outs become the fall's pennant-winners, or otherwise as the case may be, and frequent by is. And behind the scenes, everything in either championship team will be just as peaceful as a cage full of panthers and this time next year.

Which is the Leisure Class? WHEN Mr. J. Pierpont Morgan said any American family that kept a maid belonged to the leisure class, he touched a responsive chord, for the notion of the household, only he got the proposition mixed and applied to our little home-nest.

"Was a maid we had for a short spell who really qualified. As my wife didn't give satisfaction. Anyhow, one evening she took umbrae and some good-looking boys and one thing and another and allowed to steal away. But looking back, I can't recall anybody else who could be so securely and so cheaply both at hand and on the way.

We are wondering now what class we belong to on the present material night out. Probably Mr. Morgan isn't worried in that regard. He could risk the second man to stick around. We haven't a second man, though—honest, even worked up to the first one yet.

Pretending Costs Money A Japanese Widow The Five Babes Are Well

Even imitative war is costly. England's battleships, submarines and air force are being sent to the Mediterranean, intended to intimidate Italy and keep down discontent in Egypt, represent no real war.

England occasionally discharges light "depth bombs" in the Mediterranean, "bringing Italian submarines popping like corks to the surface." Yet the government tells Arthur Brisbane the house of commons, particularly where their emperor is concerned.

The twenty-four-year-old widow of a Japanese officer who committed suicide after the recent rebellion sends a letter of apology to "our great majesty," the Japanese emperor, saying: "I believe the spirit of my husband, whose body lies in a coffin below me, also accuses those who have sold."

A most serious people, the Japanese, particularly where their emperor is concerned. Doctor Dabon, medical man from Canada, who undertakes a trip to Japan and give offense to the soldiers or a soldier in America and give offense to the statement.

Three hundred and seventy-five thousand visitors, nearly all from the United States, came to look through the gates at the quinquennial last year. 200,000 are expected this year. The baby girls are a wonderful advertisement for Canada. May that we see them will buy farms and stay.

A democratic young person is Edward the Eighth, who under the name of emperor of India. Broadcasting to 300,000,000 that live under the British flag and occupy one-quarter of the earth's surface, he does not refer to them as "my subjects" or "my people," as his predecessors did, but calls them "follow me."

And Edward VIII does not refer to himself as "we," which is customary with other rulers. His father spoke of "my empire" and "my dear people" and called himself "we."

President Roosevelt submits to congress a plan to increase heavily income taxes of corporations suspected of holding many billions of profits not distributed. The taxes might run to over 33 per cent.

"You never can tell what Wall Street will think," President Roosevelt's action program sends stocks up. Perhaps Wall Street has "undistributed reserves." Great industries will not be "forbidden" reasonable cash returns, presumably. Such a rule would make expansion and increased employment impossible.

A joint resolution in the house and senate suggests a congressional medal of honor for the late Gen. William Mitchell, head of the American air force in the big war. Few congressmen would vote against a fellow countryman who fought so well for his country, and the medal would please his widow and children.

If congress wants to honor the memory of General Mitchell as he would wish, it will build more airplanes and send the world in aviation instead of trailing.

Uncle Sam paying rent to Panama for the canal, offering the usual \$250,000 rent installment, was told: "No, we do not take 60-cent dollars." "Washington admits that while it may be interesting experiments with its own money, and tell its own citizens "gold is too good for you," it has no right to make the outside world suffer. Panama will get an amount of money equal to \$20,000 of our dollars before we will get the gold-bugs and into the "flation boat" era.

Sometimes government ownership gets things done. Germany's postal service was the first long-distance television-telephone in the world, between Berlin and Leipzig—the charge for the Berlin call is \$1.40. When you call up a "strong" blurb, it illuminates your face, which is seen by the person at the other end of the line, as if the world were a big telephone when telephones were installed in the big Paris exposition, not so long ago.

Four years ago the Lindbergh child was kidnaped. Bruno Hauptmann, convicted of the kidnaping and murder, caught spending the market's gold certificates that Lindbergh paid for his vain effort to get back his child, is still alive.

It is said that he will have another preview. Our system of justice is not hasty.

The post office shows that efficiency in government is not impossible. No other citizens would want a better post office than the first one you collect and delivering the letter.

All Around the House

For luncheon try serving frankfurters in this way: Wrap a slice of bacon around each frankfurter and fasten with a toothpick. Place under broiler until bacon is crisp.

When the lining of your hat becomes soiled take out each with soap and water and iron. Steam hat, if felt, to renew the color, and sew in clean lining.

A very fine sandpaper rubbed over scuffed, set-table or stink rubber will make tube as smooth as when new.

Gloves used to keep furniture parts together cracks and dries out in heated rooms. If a good grade of fish glue is used furniture should stay glued for a long time.

Onion soup is delicious when grated parmesan cheese is sprinkled on top of it.

When a hot-water bottle leaks it may be repaired with adhesive tape to hold hot salt instead of water.

If tea stains are on cotton or linen and only a few days old, wash them in a solution made of one-half to one teaspoon of borax to one cup of water. Rinse in boiling water.

Fill the coffee pot with cold water to which a tablespoon of baking soda has been added and boil for one-half hour each week. This will remove the brown stain on inside of pot.

Try rolling doughnuts after trying in cinnamon and sugar. You may like the flavor.

If fruit juice from play runs out into the oven, throw salt on it. There will then be no odor and where burned crisp the juice may be easily removed.

WOMEN SHOOT FUGITIVE AT DRIFT

Continued from page one Hoover's Statement

J. Edgar Hoover's version of the arrest follows:

"Special agents learned that Aldridge was residing at Drift, Ky. After his exact location was ascertained, several special agents went to the home of Charles Buchanan about 9:15 p. m. on the night of March 8, where they were met at the front door by Mrs. Buchanan, whom they made known their identity.

"The special agents were advised that the men of the house were in the back room. The special agents opened the door to the back room and found Aldridge and four others playing poker. The special agents immediately identified themselves and ordered them to surrender, whereupon one of the men kicked out the light, and as he did so, Aldridge made a rush for the special agents.

"A special agent fired one shot striking Aldridge in the stomach and wounding his arm. Aldridge and the other four men—Charles Buchanan, Ed Stapleton, John Fraley and Bill Hubbert—were taken into custody. Sid Tackett, with whom the fugitive Aldridge had been living recently, was also taken into custody when he arrived at the Buchanan home shortly after Aldridge and the others were apprehended."

Eyewitness Tells of Shooting Bill Hubbert, one of the five arrested as suspects in harboring Aldridge, told The Times that he was the man who turned off the electric light in the back room. "The government men, two of them, first entered the room where Mrs. Buchanan was sleeping. We were in another room sitting on the floor, playing poker, using scrip. When I heard Mrs. Buchanan scream, I thought it was Roland Brinham with whom John Fraley had had a fight Saturday afternoon; so I switched off the light. I had no more than done this when the light bulb on grid fixed at Ledford's (Aldridge). Ledford hadn't got up off the floor."

An ambulance was summoned and the wounded man taken to the hospital at Martin where Aldridge was placed under heavy guard. His companions were taken by truck to Whitesville Sunday night, then brought to the county jail here Monday morning.

Twelve men took part in the raid, it was said. Name of the agent who fired the shot into Aldridge was not available. He was described by one of the men in the poker game as "a tall, slim man." No official statement, other than that released from Washington by Hoover, was available to The Times. Aldridge was held incommunicado at the hospital at Martin.

A confederate of Aldridge is reported to have fled from Drift shortly before the G-men made their raid. Aldridge had been working in the mines at Drift for about three weeks. He made his first visit there six or seven months ago, it was

stated. He also is said to have rented a house in Lawrence county where he had planned to join his wife and baby. He had never seen the baby, since Mrs. Aldridge returned to North Carolina a few months ago. May Ask Grand Jury Probe An attorney for the five men arrested as suspects in the harboring of a criminal said Tuesday that a grand jury investigation of the shooting may be sought.

At the hospital Aldridge is said to have confessed that he killed three men in a prison break. His record shows that he escaped from the North Carolina state penitentiary at Raleigh March 22, 1934 while serving a term of from four to six years for assault to kill and conspiracy to kill. The Department of Justice identification order listed Aldridge's occupation as a bookkeeper.

Residents of Drift expressed surprise when they learned that Aldridge was a criminal. They described him as a quiet, unassuming young man whose only vice was an occasional drink.

MAYTOWN WINNER OF DISTRICT MEET Continued from page one games. Betsy Layne's two tournament victories were both won by only a one-point margin over Lacey and Garrett. The latter team reached the semi-finals by virtue of a hard-fought, closely contested game Friday afternoon when the Garrett boys defeated Prestonsburg, 14 to 12. Then, Friday night, Wheelwright provided the big upset of the meet by defeating Martin, 24 to 27. In the semi-final Saturday afternoon this same Wheelwright team was no easy nut for Maytown, to which, though the Right Beaver boys did score a 19 to 13 victory. In the final Maytown claimed the title on 10 points that not until the last half was under way did Betsy Layne score. The conditions of unpaired handicaps, the Martin team was scheduled at every session. By a 6-0 vote prevailed throughout, and the tournament was highly successful, producing not only a high grade of basketball but also work- ing out well financially. At the conclusion of the tournament gold-billed basketballs were presented to the following players: Betsy Layne; Lacey; Garrett; Maytown; Patton; Maytown; Johnson; Martin; H. C. Layne; Betsy Layne; Hunley; Betsy Layne; Johnson; Wheelwright; Cain; Garrett. The handsome championship trophy was awarded to Maytown, the runner-up trophy to Betsy Layne. Prestonsburg received the trophy for team sportsmanship, and Harmon, of Audley, received the award for best individual sportsmanship. Patton, Maytown center, won the award for being the most valuable man to his team. Tournament officials were Earl Walker, Whitesville, and Frank Campbell, Haldeman. Scores of games follow:

Controlled FIRE YOU think of a fireman as a man who leads a hectic life, running around to extinguish fires that are out of control. I am a fireman of a very different sort. My job is to keep the fires in the power plant absolutely under control so that you will get good electric service. Single-handed I look after a bank of huge boilers whose combined capacity is equivalent to the power of 35,000 horses. They produce 700,000 pounds of steam every hour. That steam, at high pressure, is hinged against the blades of a turbine which changes the power in the steam into electricity. The work done in the turbine, the steam is condensed into water and flows back into my boilers. Only a small part of all the electricity in the country comes from water power. Most of it is made from steam. A steam power plant uses an enormous amount of water and must be located on an ample water supply. The average family uses about 50 kilowatt-hours of electricity a month. To make that much current takes about 25 tons of condensing water. Multiply the number of families we serve by 25 tons and you will have some idea of the amount of water that is needed in a steam power plant each month to produce electricity for domestic customers alone. To condense the steam from "Controlled Fire" requires a lot of water. Condensing water used in the generation of electricity to serve our customers would otherwise be a water supply sufficient for five times the population we serve. FLOYD COUNTY TO RECEIVE \$22,869

STATE MONEY TO BE EXPENDED FOR IMPROVEMENT OF ROADS IN COUNTY

Special to The Times

Frankfort, Ky., March 6—Floyd county will receive \$22,869.96 annually which will be spent for improvement of county roads under supervision of the state highway department.

This money will be spent in the county under provision of the recently enacted law which provides substantial aid in county road improvement by the highway department. This action was sponsored by Governor Chandler in accord with his pledge to provide state assistance to the counties for road improvement.

The money is to be spent by the highway department in accordance with previously agreed to and accepted plans prepared jointly by the fiscal courts of the several counties and the highway commission. It is further specified the money shall be expended by or under the direction of the highway commission and no part of the money shall in any event be turned over to the fiscal court of any county.

Effect of the law is to give considerable aid to the counties in financing the roads which are the responsibility of the fiscal court. Road machinery and equipment of the highway commission will be used in all its engineering facilities, to improve the roads which the fiscal court regard as most in need of improvement. This aid is supplemental and in no way interferes with the fiscal court's road program as now administered.
