MAYOR A. C. CARTER

A MAN AND A TOWN

It is fitting that we should at this time pause for a brief review of the progress of our city within the last two years. When we recapitulate the vast number of improvements that have come to our city within so brief a period as a result of the benevolence of our Federal Government secured through the cooperation of our local authorities with federal authorities, we stand aghast. Practically every unpaved street of two years ago is now either well concreted or being concreted. In order to properly contemplate the change we would have to imagine ourselves in the position of one who has returned to Prestonsburg after an absence of some two years. We might, for the benefit of the neighboring towns, however, no great thing is

accomplished without a leader. Practically all our public spirited citizens have fallen behind the program, but in the battle front has marched a peerless, unafraid, unmatched and undaunted leader in the person of Arthur C. Carter, Mayor of our city. A short time ago we investigated through an interview with Mayor Carter, just how the miracle happened. The Mayor explained that from the district office of the WPA application blanks were forwarded to mayors of the various cities in the district for submission of projects within these cities, while to the county judges went application blanks for filling in projects within their respective counties, but outside of cities.

While many mayors were too busy with their own affairs to give much attention to these blanks, Mayor Carter proceeded to call a meeting at his garage of groups of citizens and property holders representing each unpaved street in our city. We quite remember one such meeting of less than two years ago and we remember how, as Mayor Carter outlined his program, we shook our heads, some saying as we departed: "It can't happen." "It's a lot of bologna," others saying, "It's too good to be true, sounds like a dream." But now it is TRUE. Things we hoped our grandchildren might see, have happened just like "open sesame."

Now that our dreams have become so quickly realized, Mayor Carter comes to us with the announcement that the great advancement has just begun. He reports that he has submitted not only projects for the improvement and paving of additional streets and alleys, and the construction of sidewalks, but that he is working with the board of education on a project for the construction of a new graded school building.

It is needless for us to say that we are confident that our citizens will give Mayor Carter their full cooperation and support in these new projects. Rather, our cooperation will be stronger, since we are no longer "Doubting Thomas." The miracle has happened — it will happen again.

We congratulate our Mayor on the wonderful success of these completed projects. We are proud of him.

And we have confidence and faith in his future success. Go to it, Mayor, we are all for you 100 per cent. Contributed by an admirer of Mayor Carter.

FORD

advances into 1937 with the
LOWEST PRICE IN YEARS
and new operating economy

The addition of a new 60-horsepower engine to the Ford line for 1937 brings you a new, low price and gives you a choice of two V-type 8-cylinder engines. 85 horsepower for maximum performance, 60 horsepower for maximum economy.

The 60-horsepower V-8 engine was originally developed for use in England and France, where fuel costs are high. It has been proven there for two years with brilliant success.

Now, brought to America, it creates an entirely new standard of modern motoring economy!

The "60" engine, available in five body types, is built in exactly the same body size and wheelbase — to the same advanced design — with the same comfort and convenience as the "85." And it delivers V-8 smoothness at speeds up to 70 miles an hour.

Two engine sizes — but only one car and one purpose — to give you more miles and more satisfaction for your money in 1937.

FORD FEATURES FOR 1937
APPEARANCE—Distinctive design. Headlamps in fender aprons. Modern lighthouse hood. Larger luggage space. New interior. Slanting V-type windshield.
BRAKES—Easy-Action Safety Brakes—one-sided low brake pedal pressure required. "Cable and conduit control. About 100 lbs. of steel from pedal to wheels."
BODY—All steel. Top, sides, floor and frame welded into a single steel unit. Safety Glass throughout at no extra charge.
COMFORT AND QUIET—A big, roomy car. Center-console comfort increased further by another spring-actuated increased torsion bar. New methods of mounting body and engine make a quieter car.

LETTERS TO THE EDITOR

In order to promote the cause of good education in Floyd county, and in order that the present school administration will not continue its eminently noble work on the basis of a gross error, I indicate certain inaccuracies in the preceding information published in a column called "School Notes" in the Superintendent's Office appearing in The Times-Courier, independent of this county, on October 22, 1938. I regret that it is the province of every succeeding administration to be it local.

state wide, or national, to blacken and defame the character of its predecessors, to minimize any progress they may have made; still, in the interest of justice, whenever any errata appear in information released by representatives of the present administration, for the perusal of the public, it is the duty of those who may be injured by such errata, if only for the purpose of preserving the integrity of the present administration to present to the public eye a correct factual statement of the factors in the case.

It is laid to the door of the writer that teachers' basic salaries this year are \$72 in stead of \$74. It is said that Mr. Moss Walton, State Attendance officer, picked out the supposed active files (those within school age) 454 names of those past school age, thereby losing to the county \$5,289.10. It is said further that the writer did not last year or during his tenure of office take what is called a "pre census" it thereby devolves upon the writer to indicate his lack of responsibility for the county's loss, and on the contrary his successful efforts toward insuring that the county receive its share of state funds for maintenance of schools.

The following quotation from the column referred to will assist in my refutation: "Mr. Warrick did not take what we call a 'pre census' and consequently we lost \$11.65 on each child who grew out of the five year old group into the six year group. It is reasonable to estimate that there were at least 454 of them. Wherefore, if Mr. Warrick had taken last year a pre census and had had these figures in the files, doubtless our teachers' funds would have retained the \$5,289.10 which it lost."

Certainly it is reasonable to estimate those passing from five to six years old at 454. Certainly that would have retained the lost money to the county. And just as certain it is that the time Mr. Warrick left office in July 1, 1938, there was left on file in the superintendent's office figures of a complete pre census of the county including all children between the ages of three and six years, which at the time was more than the State required. Evidently, these figures were not placed for inspection before Mr. Moss Walton, and though Mr. Warrick held himself in readiness at any time to cooperate with the present administration by sending his knowledge of the superintendent's office for two years past, he was not called upon, and hence Mr. Walton innocently deprived the county of \$5,289.10. The pre census was taken by the trustees at the various school districts in April, 1936, the forms for the pre census being prepared by Mr. Warrick and Mr. Palmer, who was at that time superintendent.

Furthermore, a separate active file of those past school age was left in the office when Mr. Warrick resigned on July 1, 1936, which perhaps was included in the 454 active files found by Mr. Walton. It is perhaps not out of place here to indicate certain things that Mr. Warrick did during his tenure as attendance officer for the county. When he entered office there was no filing system in the superintendent's office. He made one and built it up. When he entered office the census for 1934 was 13,464. When under his direction the census for 1934-35 was corrected the number stood at 15,073. The census for 1935-36 including Week-Enders was 16,065. These are figures which speak for themselves.

Sarah Ann's Cooking Class

There could hardly be a more enjoyable than this holiday season. The home is gay with holly and mistletoe. With just a little planning one can easily entertain. Perhaps you have a college boy or girl home for the holidays; invite their friends in for supper before or after the dance. Try these recipes and a merry Christmas to you all.

Cranberry Ring With Waldorf Salad

Wash 1 quart of cranberries and add 2 cups of boiling water and cook 15 minutes. Add 4 cups of sugar and stir until dissolved. Heat into individual ring molds. When ready to serve unmold and fill with Waldorf salad. Garnish with holly.

Waldorf Salad

Mix equal parts of chopped apples, minced celery and chopped walnuts. Moisten with cream dressing well seasoned.

Mistletoe Canapé

On small rounds of toast spread anchovy paste. Place a bit of parsley on each to serve as foliage for the "mistletoe." Place tiny pearl onions along the stem to represent berries and garnish the border with diced egg yolks.

French Chocolate

2 1/2 cups unswartened chocolate
3/4 cup sugar
1 1/2 cup cold water
Dash of salt
1 1/2 cup of cream whipped
6 cups hot milk

Combine chocolate and water. Cook for 4 minutes, stirring constantly. Beat with rotary egg beater until smooth. Add sugar and salt. Return to fire and cook 4 minutes longer. Cool. Fold into cream. Place one rounded tablespoon into each cup and pour hot milk over it.

Manhattan Shrimp

1 pint shrimp
4 tablespoons fat
1/2 teaspoon salt
Cayenne
1 teaspoon lemon juice
1 cup milk
Yolks of 2 eggs
Clean the shrimp and cook in half the fat for 2 minutes. Add the seasoning and lemon juice. Cook 2 minutes; remove shrimp and make a white sauce of the remaining fat, flour and milk. When thick end, add the yolks of the eggs slightly beaten, stirring in quickly and cooking two minutes. Add the shrimp.

Pineapple Merringues

Allow one slice of canned pineapple for each serving. Place a pitted prune (cooked) or a stewed apricot in the center hole of each slice. Allow 1 egg white and 1 table spoon confectioners' sugar for 2 slices of pineapple. Beat the egg whites until frothy, and add sugar gradually and continue beating until mixture holds shape. Add a few drops of vanilla then pile meringues on slices of pineapple and bake in an oven 300 degrees until delicately browned.

Egg Nog

6 eggs
6 rounded tablespoons of sugar
6 tablespoons brandy
Beat egg yolks well, add

sugar gradually and continue beating. Fold in stiffly beaten egg whites. Add flavoring. If desired 1/2 pint of cream whipped may be added. The secret of good egg nog is in the beating. Serve in tall glasses with pound cake or fruit cake.

Wasail Bowl

Simmer 6 cloves 3 pieces of dried ginger root and a blade of mace in a quart of sweet cider until the cider is well flavored with the spices. Strain and pour over 4 well-beaten eggs, simmer in a double boiler until slightly thickened then add sugar to taste and the pulp of 4 large baked apples pressed through a sieve. Serve hot or cold as desired.

Charlotte Russe

7 egg whites
1 pint cream whipped
1 cup sugar
1 1/2 tablespoons gelatin
1 1/2 cup milk
1 box of lady fingers
Beat egg whites stiff and add to the whipped cream which has been sweetened with 1 cup sugar. Dissolve gelatin in milk place in pan of hot water until melted. Add slowly to above mixture. Flavor with almond and vanilla. Line mold with lady fingers, pour in half of mixture, then a layer of lady fingers and add rest of mixture. Chill for several hours. This dessert may be made any color by tusing vegetable coloring.

GARRETT SCHOOL

The Garrett gym was crowded Saturday night when Maytown Wildcats came to play the Garrett Black Devils. There were more spectators at this game than at the Martin Garrett game. The first game was between the second teams from Maytown and Garrett. The Little Black Devils won over the Wildcats, 13-8. Following this game came the clash between the first teams. The Black Devils defeated the Wildcats, 33-18. This made the tenth straight game for the Black Devils. Scores from Hazard was the referee.

The third game was between Maytown Independents and the Garrett Independents. Maytown won this game by the close score of 17 to 14.

"you can't beat a Supercharged engine"
Says TWA "OVERWEATHER" PILOT

The Supercharger gives you much more power through better combustion, uses much less gasoline than any other form of engine. It is the same principle that enabled lighter, more powerful airplane engines using less fuel, to smash every known record in the air. Just as it made possible the present high standard of airplane performance, so the Supercharger makes possible outstanding performance and economy for Graham cars.

—D. W. Tomlinson.

Tomlinson conducts virtually all research flying for Transcontinental & Western Air as pilot of the company's "Overweather" experimental laboratory plane. With the aid of the Supercharger, "Overweather" flying is contemplated by TWA to carry its passengers and freight high above the reach of storms at 35,000 ft. altitudes where the air is always smooth. Tomlinson holds the record of 11 hours 3 minutes across the United States, made in a TWA transport plane, and has established coast-to-coast and American air records.

The new Graham Supercharger for 1937... farther and faster on a gallon of gasoline than any car in America!—is the greatest automotive development of modern times... Drive a new Graham Supercharger today... The amazing beauty of new Graham cars, their luxurious, roomy comforts, the thrilling power of the most efficient automobile engine in the world, their low cost, set a value standard unequalled by any car, anywhere.

Tree Farm Society
A unique association in the South is the Live Oak society, whose membership consists of about 100 giant oak trees, says a writer in Collier's Weekly. To be a member a tree must be very old, have a legal representative, adhere to the constitution and bylaws and pay annual dues of 25 acorns. The secretary is a gentleman in Lafayette, Louisiana, and the president is a large tree on a farm near New Orleans.
