### 9 SENTENCED BY STEPHENS TO PEN TERMS

#### HORSE-THIEF DRAWS LIFE SENTENCE AS HABITUAL CRIMINAL

Last hours of the September criminal term of the Floyd circuit court saw the sentencing Saturday of nine Floyd countians to the state reformatory—two for life terms, the others for terms aggregating an even 90 years.

For stealing a horse from W. B. Hall, Dewey, last August, George Dye, long at odds with the law, was given a life term under the habitual criminal act. He had been previously convicted at least twice—in April, 1930, for breaking and entering, and in Sept., 1931, for breaking into a depot of the Chesapeake & Ohio Railway Company. The first of his earlier sentences was for one year, the second, for three years.

Trial of Bordie Amburgey for the slaying of Clyde Robinson at Wheelwright, resulted in a "hung" jury last week.

Sentenced by Judge Stephens Saturday were:

George Dye, life; Arnold Calhoun, robbery, two years; Simon Cole, willful murder, life; Bert Hicks, grand larceny, one year; Berlin Youms, shooting and wounding, two years; Clyde Taylor, manslaughter, 21 years; Caleb Newcome, manslaughter, 21 years; George Howell, grand larceny, one year.

Dye, Calhoun, Mullins, Cole, Hicks, Young, Taylor and Howell were taken to Leavenworth Monday by Sheriff Dye. The others will remain in jail. The cases of Bordie Amburgey, Dick Harrison and Lennie Hall. Appeals from sentences are pending in other cases. The October civil term of court convened Monday.

#### COURTHOUSE NEWS

In the Magdon circuit court, last week:

Wednesday—Judge Bach discharged the regular petit jury panel because he held three or four jurors were causing an unbecomingly number of "hangings" (in the jury room).

Thursday—The grand jury was active and red-hot. A grand indictment against "Salterville" Police Judge Jim Kelly, alleging that he had sold a prominent Salterville man a pint of whiskey for \$1.

#### FIVE FEET DEEPER

"Hop" Williamson, of the Columbian Fuel Corporation, declares that the Shay gas by no means happy, the way everything turned out. He had visions of 40 days of work drilling down to the shale from the Maxon in that old hole on the Clark Branch of Buffalo where a 2,600,000-1000 gas supply had been found back in 1924. A standard drilling rig was set up, full steam ahead. The drilling operation proceeded the full distance of five feet and the well came in again with 1,600,000 cubic feet of gas.

### County Board Votes Registration Day School Recess

In co-operation with the national defense program the Floyd County Board of Education in a regular meeting held Saturday in the office of Superintendent Town Hall declared a recess of school activities on Wednesday, October 16, making it possible for several of the school building to be used for military registration headquarters and, at the same time, releasing the teachers on that day for registration work.

All county schools also will be dismissed on Tuesday, November 5, for the general election, and teachers are required by the state department of education to make up both days.

The fact that practically all of both the registration and voting will be held in or near school buildings and the activity would tend to disrupt school work on these days was instrumental in the board's declaring a recess, Mr. Hill said.

Salaries of consolidated teachers for the first month and those of rural teachers for the third month were paid at the same meeting.

### FDR-Jack May, Eye-to-Eye On Signing Of Draft Bill

Congressman A. J. May, chairman of the House Military Affairs Committee, receives from the hands of President Roosevelt one of the two pens he used in signing the national military conscription bill—and also lends an ear to one of the famous Roosevelt stories. Standing behind the President, reading from left to right: Secretary of War Henry L. Stimson, Congressman May, U.S. Chief of Staff George C. Marshall and Senator Morris L. Sheppard of Texas, chairman of the Senate Military Affairs Committee.

Next Wednesday—exactly a month after this scene was enacted at the national capital—is national registration day for all male citizens between the ages of 21 and 31.

### THE FAIR

On Thursday, Friday and Saturday of next week, the occasion of the second annual Floyd County Agricultural and Industrial Fair, Prestonsburg will be host to the largest gathering ever to assemble here. It is with glad hearts and keen anticipation that we welcome you. A fair, like the festivals of old, offers an expression of the personality and distinctive quality, material and spiritual, of a people. But it extends more, and that is a common meeting ground of friendship, mutual endeavor and co-operation.

This is your Fair. So be in readiness and plan a day's visit with us during these three days. As Mayor of Prestonsburg, and as chairman of the Fair, we share the sentiments of all Prestonsburg in saying to you that we would be happy to see every one of Floyd county's fifty-two thousand people present.

E. P. ARNOLD, Mayor of Prestonsburg  
LEROY COMBS, Chairman of the Fair Committee

### G. W. ELLIOTT DIES AT 86

#### CEREBRAL SEIZURE FATAL TO PROMINENT MUD CREEK CITIZEN

George W. Elliott, of Beaver, Big Mud Creek, one of the county's oldest men, died of a cerebral hemorrhage at the Beaver Valley hospital, Martint, at 11:30 a. m., Friday. He was 86 years old.

He was born at Beaver December 1, 1853, the son of Robert S. and Lorraine Hamilton Elliott. He was twice married—first to Sarah Elizabeth Humphrey, to whom 11 children were born, six of which are living. After she died, he married Ida Elliott, and nine of their 10 children survive. Mr. Elliott had been a member of the Methodist Church for more than half a century and was one of Eastern Kentucky's most revered citizens.

Surviving are his widow, Mrs. Ida Elliott, and 16 children: West Elliott, Blackberry City, Va.; Will Elliott, Dayton, O.; Mrs. Sill Vance, Beaver; B. P. Elliott, Harold, Dee Elliott, Riverton, Wyoming; Luther Elliott, Wecksbury; Malcolm Elliott, Woods, Va.; Mrs. George Matthew, Beaver; Mrs. George Burchett, Prestonsburg; Mrs. Orville Stephens, Fed.; Bascom McDowell, Mrs. Harmon Snyder, Fed.; Mrs. Earl Kendrick, Pikeville; and Mrs. John Scalf, Beaver.

There are 70 grandchildren, 10 great-grandchildren and two great-great grandchildren. All of the children and most of the grandchildren attended the funeral.

Mr. Elliott is also survived by one sister, Mrs. Joe Hall, Beaver; and four brothers: W. K. Elliott, Pikeville; Wm. Elliott, Fed.; John W. Elliott, Martint; and R. C. Elliott, Orkney.

Funeral rites were conducted from the home at Beaver Sunday morning, with the Rev. Boulder, Daniel, Hughes and Elijah Hall officiating. Burial was made in the family cemetery, under the direction of the Ryan Funeral Home.

### Local Stores to Observe Religious Holiday

In observance of a Jewish holiday, Yom Kippur, the Leader and Clamier will be closed Saturday, October 12. The Leader will re-open at 5 p. m. and will remain open during the regular Saturday evening shopping hours.

Yom Kippur, the Day of Atonement, is a very solemn holiday observed by the Jewish people.

### EVENT PLANNED AS BEST HELD IN VALLEY

#### HUGE PRIZE LIST, NEW FEATURES ARE OFFERED

Next week-end, for the second consecutive year, Floyd county stops the better-skitter pace, pauses and turns its attention to its County Fair.

Farmers, business men, workers, school childrenfolk from every walk of life will throng to Prestonsburg next Thursday, Friday and Saturday, October 17-19, to make the Floyd County Fair literally a "roaring success."

It was estimated that this, the biggest fair to be held in the history of the Big Sandy valley, will attract no less than 10,000 persons.

The crowd during the three days will find headquarters in the Club Rustique and its spacious grounds, at the northern (lower) limits of Prestonsburg. The livestock exhibition, however, may be held at the Prestonsburg Stockyards, unless lumber can be procured for the building of pens at the site of the fair proper.

The 1940 Floyd County Fair will eclipse all former agricultural and industrial exhibits held here on many counts. First of all, the cash prizes offered amount to the largest total in the history of the valley—and that's no small item. Prizes offered school children alone will reach a total of over twenty thousand dollars. Booths displaying the products of business and industrial firms will be located at fair headquarters. The support of more than 50 advertising agencies with the full sponsorship of the Prestonsburg Co-operative Business Association assure the enterprise ample financial resources.

Preparations were being made this week to receive a flood of exhibits—the entire forested includes livestock, culinary products, handwork, antiques, farm products of all kinds, and similar attractions.

New departments this year are a day show, exhibits of art, hobbies, amateur photography and pot flowers. All school buses will be made available on Saturday, last day of the fair, to transport pupils to Prestonsburg.

Full program of the Fair, together with the advertisements of those helping to make the Fair possible, are in Section 2, this week's FLOYD COUNTY TIMES.

There will be no confusion this year about the dispensing of Fair prizes. They will be handed to winners this year at the Information Desk.

Bingo will be a feature attraction, afternoons and nights of the Fair and the day of the fair.

### CITY'S NO. 1 LAUGHMAKER ON WAY TO JUNK YARD

#### LOWER INSURANCE RATES ARE SEEN, RESULT OF EQUIPMENT PURCHASE AND OTHER IMPROVEMENTS

Prestonsburg's old fire truck, the town's most ancient piece of machinery and its No. 1 slap-stick comedy character, is on its way to where the woodbine twineeth not.

The City Council Monday evening contracted for the purchase of a new fire truck, fully equipped.

Bids were received by the Council. And the purchase was made at a total cost of \$4,970. Chassis of the truck was purchased from the Howard Motor Company, Prestonsburg; the body, the pumper, the siren, 800 feet of new hose, ladders, portable fire extinguishers, axes, et cetera—these, from the Roanoke Tool and Welding Company.

The new equipment is due for delivery within 60 days, after which other steps necessary to "elevating" Prestonsburg in the eyes of the Kentucky Actuarial Bureau will be taken. These steps include installation of five new standard fireplugs and the training of a volunteer fire department.

The new equipment, new plugs and a firebugler organization available, the town will be placed in the 8th class—which, it is said, will mean a reduction in fire insurance rates of as much as 25 per cent on business property and from 40 to 45 per cent on residential property.

When the rate reduction becomes effective, the ordinance placing a tax on fire insurance will go into effect. While this will increase cost of fire insurance premiums above what the same premiums would cost in other towns of the same class where no such tax is in effect, reductions in basic rate will mean a saving to policyholders here, it was said.

Included in the fire equipment order is a \$350 siren to be located at the city hall. The siren will be wired so as to be sounded by the push of a button at either the telephone exchange or at the city hall.

City Treasurer James Morell, Jr., resigned his office, and Ralph Archer was named as his successor. Archer's election came after a hot-sensational fight during which he and M. D. Powers each polled the votes of four councilmen. Mayor E. P. Arnold breaking the tie. In nominating Mr. Powers, Councilman Leroy Combs stated that the five members elected on his ticket ran for office on a platform of pledging themselves not to vote for their kindfolk for municipal positions.

The claim on the life of Oliver Frazer, McDowell, for \$6,000, was paid September 29, 1940, by H. F. Patton, General Agent for the Commonwealth Life Insurance Company, of Louisville, Ky.

This claim, together with two claims of citizens of Prestonsburg who died recently, one for \$5,000 and the other for \$4,000, recently paid, which, when added to general checks some pretty large ones, which endowed and were paid to living policy holders just recently, places the Commonwealth Life Insurance Company and the H. F. Patton, Agency, of Prestonsburg, Ky., very much in evidence as the source of much financial aid to our citizens and families.

# HUGHES' OPENING

## OLDEST OFFERS THE NEWEST

**H. E. HUGHES & CO.  
OFFERING NEW  
EQUIPMENT**

Floyd county's oldest drugstore this week presents for the service of its patrons the very latest in fountain equipment. Installation has just been completed of a modern, streamlined counter and back-bar.

Alterations have been made to the interior of the store, allowing for wider aisles and additional display space for new lines of merchandise. The walls have been decorated in sky-blue color into which the two-tone light blue of the back-bar blends beautifully.

Dr. G. A. Culbertson, proprietor of H. E. Hughes & Company, made a close study for several months of various plans submitted by manufacturers of new equipment before he decided on the liquid carbonic fountain. In considering the enlargement of the interior of the store, the comfort and convenience of the customer came first.

Improvements to be displayed are a far cry from that old frame building on Court street in which the late H. E. Hughes founded this, one of the county's oldest business firms. The present location of the drugstore was not occupied till 1922.

H. E. Hughes, founder of the business, died in 1937. Dr. G. A. Culbertson—Ansel, to most of us—acquired control of the firm two years ago.

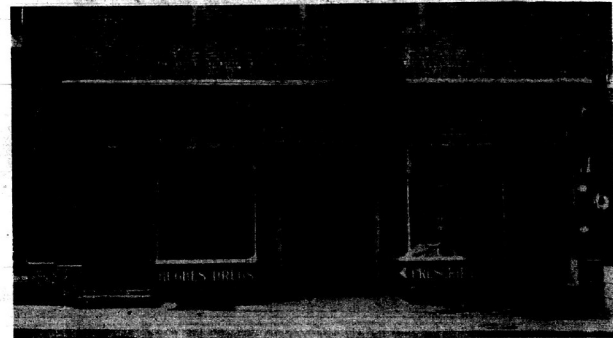

Oldest in point of continuous operation, the drugstore is vibrantly young in its growth as Floyd county and Prestonsburg grow. For proof—take a look-see.

### MODERNIZATION NOW COMPLETE

#### INSTALLATION OF NEW FOUNTAIN, BACK BAR THE FINAL TOUCH

The Hughes Drug Store is the first in the Big Sandy to install what is considered the very latest in a streamlined, modern, up-to-the-minute fountain and back-bar. It will take its place as one of the most progressive stores at a time when modernization is the keynote of sound business.

Beauty and practicability combined describe the new liquid carbonic fountain. The counter is low with a 20" width top of black mica and is 15 feet in length. The very latest in stools, low and with a comfortable back rest, are fashioned flush to the floor. They have a cushioned seat in red leather and a cushioned shoulder rest in leather of a fawn shade. The frames are of modernistic design of chromium plate.

The fountain is in the back-bar, following the principle of the latest cocktail bars. The fixtures are of chromium in a back-ground of two-tone blue with indirect lighting.

Dr. and Mrs. G. A. Culbertson, proprietors of the Hughes Drug Store, have planned the alterations and addition of the new equipment to their store for the past 12 months. During this time they made a careful study of the plan with a view to the appearance of the interior of the store and at the same time the shopping convenience to the customer and their comfort was foremost in their minds.

New departments have been added . . . electrical appliances, gifts for the baby and men's jewelry . . . display stands for merchandise, truly a modern drug store in keeping with the times.

Everyone is urged to attend the opening days, Friday and Saturday, and help celebrate the event—a progressive store in a progressive city.

So we hitched our wagon to a FIREBALL

THE FIREBALL DOES IT!

Modern gasoline have high octane ratings to permit higher compression ratios without "ping." Note how this piston, which can be used only in valve-in-head engines, rolls the fuel charge into the shape of a flattened ball that centers around the new, smaller, racing-car type spark plug. Tired of its very best, this more highly compressed fuel lets go with such full force, "ping-free" wallop that any gasoline of 75 octane rating (now available at standard fuel prices) may be used in the 115-hp. engine. Any fuel of 80 octane rating serves in the 125- and 145-hp. engines.

—and gave these smarter, roomier cars even more sensational PERFORMANCE than before

This formidable example of precision machinery you see above is the new 1941 Buick FIREBALL engine.

It takes its name from what happens inside it.

Like all engines that hold major speed records on land, sea and in the air—like the famed General Motors new Allison aviation engine—it is valve-in-head type.

It represents 39 years of the development concentrated on valve-in-head design—and it stands today as the one engine in the land that really capitalizes on the new and better modern fuels.

The pistons in this Buick FIREBALL Eight are found in no other automobile engine.

Cupped in new contours to complement the dome of the cylinders, they roll the intruding fuel charge into a flattened and turbulent ball, packed fat with potential power.

Concentrated about the racing-car type spark plugs, that explosive ball is fired from its very heart.

So great is its extra thrust that the same-size engine which last year developed 107 horsepower now pours out a super-efficient 115—and

delivers more miles per gallon throughout the whole performance range on regular-priced gasoline!

This is the Buick FIREBALL principle, latest development of Buick's exclusive Dynaflex design.

There's still more to the story in the wonders worked by Compound Carburetion.

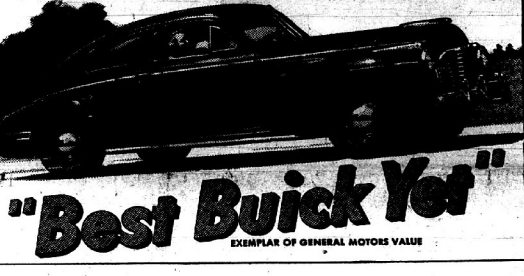

A standard part of Buick SUPER, CENTURY, ROADMASTER and LIMITED engines, this fuel-supply system lets you travel at fifty on the same meager fuel ration you ordinarily expend to get thirty, and delivers up to 10% or 15% more miles per gallon of gasoline.

You can have it in your Buick SPECIAL for a small extra charge—and step up your 115-horsepower engine to a walloping 125.

But in big engine or bigger, you get plus-power from less gas—even the 165-hp. 1941 engines giving more miles per gallon than last year's 107-hp. engines at speeds above 40!

\*According to the Encyclopaedia Britannica, a super motor which travels with a series of pistons like the thick-waisted of a great freighter is called a "FIREBALL."

and their cases are not set for trial. All other murder indictments were disposed of at the March term and no murder case are scheduled for grand jury action.

A total of 41 felony cases, 116 misdemeanor cases and seven civil suits are docketed for trial during the term.

Unlike previous procedure, the civil docket for the October term is set for the first week of the term, and the criminal docket is set for the second week, opening on October 14. Judge Prichard set the docket in this manner in order to permit Commonwealth's Attorney Thomas Burchett to work with the grand jury during the opening week.

NATIVE STONE CHURCH IS DEDICATED

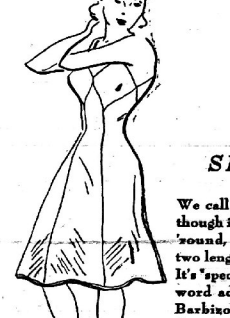

Louis—Lawrence county's first native stone church building, the new Bells Chapel Free Will Baptist Church at the forks of George's Creek, was dedicated Sunday with all-day exercises in which Rev. Dave Alton, the pastor, and seven other ministers participated.

Construction of the church was accomplished through free labor donated by members of the congregation and a group of the community and the receipt of approximately \$800 in cash gifts. Work was completed in September 1937 and was completed only a out of killings committed in 1937, are few weeks ago. It seems that "Poppum" Lawrence  
let his foot slip when he was explain-  
ing about the straw vote poll being  
against his man. He said the poll  
was taken before VW made any  
speeches, etc., but look at the latest  
poll after several speeches—it shows  
42 states to 6 or 499 electoral votes.

I don't believe that anyone wants a  
war, but remember what happened to  
France on appeasement. We won't  
oppose the Japs—if they get any-  
thing they will have to fight for it.  
Everyone knows that they only signed  
up with Italy and Germany to  
fight the U.S. Regardless of big  
business, we have interests in the  
East that must be protected and any-  
one should be willing to fight for  
our way of life. I think but a little  
of anyone that wants to make con-  
cessions to the Japs—I just don't be-  
lieve the Silt Eyes will fight—they  
want to bluff—and I say to hell with  
them. If they don't like the way we  
are doing, what are they going to do  
about it? It's certainly none of their  
business what we send Great Britain  
and we all know that Britain is fight-  
ing our battle, too.

What about that Italian consul who  
is taking a hand in the Presidential  
election up in New York? Haven't we  
a law to deport consuls taking a hand  
in our internal affairs?

Taking off like Lindbergh—Levi, the

Need for More Trees On Kentucky Farms Is Seen

Practically every farm in Kentucky needs more trees, and a great many need shade plants for foundation and screen plantings, advises N. B. Elliott, landscape specialist for the Kentucky College of Agriculture.

In making three plantings, keep in mind that there are three sizes. When the space is small, approximately 20 by 20, use small trees such as dogwood and redbud.

Fortunately, in nearly every section of Kentucky farmers can find good trees in the woods and nearby streams. These are ideas for tree planting.

(1) Trees should be dug with a good root-system. The larger kinds are 16 to 20 inches long on either side of the trunk.

(2) Dig the hole plenty large to accommodate the root spread naturally, and deep enough to permit setting the trees two inches deeper than it was growing before moved.

(3) As soon as the tree is dug, prune the top by removing 10 to 12 inches from the end of each branch, but never cut the main central stem.

Incidentally, Elliott adds, many people do not recognize kinds of trees after the leaves fall. Therefore, they should go into the woods or by the streams now, and mark specimens to be moved after the frost has dropped the leaves and the wood has matured.

In regard to natural shrubs, Elliott says Kentucky has a splendid list. He names sumac, elderberry, wild currant, wild hydrangea, wahoo, and buck-bush. These can be moved in the fall and planted in groups, making good appearance and at times serving as screens against unsightly views.

Grass, Cattle May Beat Corn Farming

After seeing grass-and-cattle farming at Herbert Hawkins' place, Pike county farmers thought they might do better if more land now in corn could be limed, phosphated and sowed to permanent pasture.

Alfalfa did well in Pike county this year and many farmers will sow patches this fall. Others are sowing rye grass and vetch. Dr. O. W. Thompson sowed a mixture of 15 pounds of vetch and 10 pounds of rye grass to the acre at the last corn cultivation.

No Manure Brings Potash Depletion

An experiment at the Kentucky Agricultural Experiment Station at Lexington shows how fertile land may be rapidly depleted in potash if manure and crop residues are not saved and returned to the soil.

After playing a prominent part in the publication of "Hi-Times," Prestonsburg high school organ, young Mr. Dickson this year continues his journalistic work in college as business manager of The Eastern Progress.

Z. S. (Dickie) Dickerson, Jr., is doing right well at Eastern State Normal, Richmond. The Eastern Progress, school publication, is authority for that.

"A SHOPPING I DO GO"

By GAY

Each Week GAY Goes Shopping— Watch Her Column

Jack Frost has already made a short visit and will soon move in for a long stay. The chilly mornings and evenings came one to think of colorful leaves winging their way to the ground as a prelude to Nature's Fall Opening.

"A Campus Favorite" could well describe the smart oxfords for girls being featured this week by A. W. Cox Department Store. "Casual and Comfortable"—that's the reason the young lady from Miami to California is wearing these sporty oxfords with the long service sport soles.

Oh!—flattering eye-curve—the new Fall Dresses at Bertha Wills Dress Shop are just that! They will help you face the new season with a smile and a complacent feeling about being well dressed.

You will not get all the fun out of life you might—until you visit the I. Richmond Company and have them fit you in a BARBIZON slip. I can't remind you too often that BARBIZON slips are straight-cut—they stay down over the knees.

Heaters, then more heaters. The Valley Wholesale Furniture Company has a full window display of them—big ones, little ones, medium size, designed and in color to blend with the antique and odd pieces of furniture as well as the very new.

Don't miss the marvelous styles and values in sport oxfords at A. W. Cox Department Store. If you love fine footwear, they are shoes that will carry you into fall with distinction—they're new styles—new materials—new details—see them!

You might take a look at pages four and five—you'll find so many things happening at Hughes Drug Store this week you will just have to come and take a look for yourself. They are shoes that will carry you into fall with distinction—they're new styles—new materials—new details—see them!

Francis Cash Store is telling the men about suits, topsuits and hats. They have them, too—something to fit any size and at prices to suit your pocket book.

If you, Mr. Man, are a pipe smoker you'll not hesitate to accept the offer of KINGSBURY Drug this week—after you are to be the judge. Think of it! If you try one of the KEN "Soft Bit" pipes for five days and don't like it, all you have to do is return it—no questions asked.

One never likes to lose an old friend—but that is just what is happening. Anderson's Department Store is selling out of the bare walls. It is impossible to tell you about any one item as they have marked their entire stock at such ridiculously low prices it will be your loss if you do not stop in and see what they have.

Are you wearing yourself this searching for something chic and just the style and material in a new fall dress? The Leader calls your attention to DORIS DICKSON junior, who is shoes that will carry you into fall with distinction—they're new styles—new materials—new details—see them!

Flowers for all occasions can truthfully be said of the Lee's Flower Shop, and Mrs. Lee is keeping up with the times on new ideas for decorations of all kinds. She recently attended a Flower School at Nashville. You might keep in mind, too the Lee's Flower Shop is Floyd county's only flower shop.

Paul Francis is telling the world in a big way that he sells Sherwin Williams Paints. This week a brand new neon sign to that effect went up. The fall months are here and soon it will be "ole man" winter—just the time to do your inside painting.

TIDBITS OF KENTUCKY FOLKLORE

THE DONATION PARTY

Preachers in other times preached pretty largely for joy, I suppose, for what they made of this world's goods would hardly hold soul and body together. Their churches, if they were Methodist circuit riders, were often far apart and practically inaccessible in winter weather.

We parishioners, with our farms and gardens and chickens, sometimes felt sorry for the poor preacher, who went here and there like Halley's Comet and had no chance to acquire anything except the bare necessities of clothes and furniture. Some community leader started collecting material things, for even preachers had to eat. From their abundance people gave canned goods, preserves, dried fruits, and other things, even quilts, brooms, and sometimes clothes. Those preachers who could not draw on a home supply spent a few cents and bought some household articles at the village store. By degrees a big pile of things was ready. Several couples would load up their buggies or a wagon or two and go across country to where the preacher lived. In addition to the staple articles they carried

freshly-prepared foods in abundance, enough for a big meal for the well-wishers and the family and some to spare. The preacher and his family met the bearers of good things and blessed them genuinely, adding a wholesome religious service as a part of the celebration. Then, after a day with their preacher, the parishioners came away, feeling virtuous for their services to worthy people.

I fear the happenings of this character are now rare, not because they would not be welcome, but because we are a much more matter-of-fact people than we used to be. We have lost many of the principles of good neighborliness, even though we may be a little more prompt with our cash contributions to the church and its agencies. I wonder sometimes whether we are as close to our public servants of all sorts as we used to be or whether we just regard all of them as hired servants who do no need our neighborliness. Certainly there was in the old donation party a heart-warming sentiment to me, as I know from memory of the one I attended when I was teaching at a small village, farther west than the best of my present-day knowledge that one was the last time I ever heard of the traditional celebration. I do hope that there have been many since that time, more than 30 years ago.

Floyd Students Enter Wesleyan

Beginning September 12 with a freshman orientation period, Kentucky Wesleyan College, Winchester, opened its doors for the 75th year. All freshmen and students entering the college for the first time were entertained, together with the faculty and staff, at an opening dinner on Thursday evening, September 12, in the dining hall of the college.

Enrolled as students at the college for the year are Miss Elizabeth Webb, daughter of Mr. and Mrs. O. J. Webb, Lackey, and Dennis Halbert, son of J. W. Halbert, of Martin.

LAWRENCE COUNTY JAIL IS LEASED TO LEGION

Louis—Lawrence county's ancient jail and jailer's residence on the south-east corner of the public square here were leased to the Louis Woman's Club and the W. O. Johnson Post, American Legion, by the fiscal court at a special session here Tuesday during which it also set Sunday, October 6 as the date for dedication of the WPA-constructed jail and jailer's residence at the rear of the courthouse.

Both buildings are connected, the jailer's residence being a two-story, six-room brick structure, and the jail being a 1921-1906, two-story stone structure. The stone jail was leased to the Woman's Club without cost, and the brick jailer's residence was leased

to the Legion on the terms that the post pay rent for a building in which to operate the county's WPA sewing center. Both buildings are to revert to the county should the leases discontinuing using them for club and Legion work.

Unfavorable pastures and growing weather delayed marketing. Kentucky lambs this season, and brought them in competition with western and corn-belt lambs. This accounts largely for the big drop in prices in mid-summer.

DRAFT NEWS

We have it from a reliable source (at least that's how the big writers would get it) that Kentucky's quota for the forthcoming draft numbered only about 500 men at the time of the bill's passage in Congress. And our informant further pointed out that, due to the large number of boys who have volunteered for the army since then, there probably would not—for some time, at least—have to be a single Kentuckian drafted for army training.

That will be good news to many Floyd countians, continues this accredited source, and the people should know that their present Congressman is the puppy of that very clause which eliminates forced enlistment from those states which now have their quota already in military service.

COUGHTA BE A LAW

Really last week we were admiring our good fortune of not having jokes printed about ourselves. But right in those states which now have their quotas already in military service.

CAREFUL, SAMUEL!

It seems that Uncle Samuel's poker-playing diplomats have been trying to run more bluffs than they had "cards" to back 'em up with. There is a difference between 10,000 planes and 10,000 blueprints!

BETTER (?) CONDITION

According to O. P. -er Bill Blackburn, our government would have been in much better condition to cope with this "crisis" if they hadn't spent the last eight or 10 years buying themselves back in office.

LITTLE BEGINNERS

Really always a day or two after school opens, many funny incidents, cute sayings, etc., of the "little beginners" are much discussed by the class. The best one we've heard this year concerns County Agent Sam Isbell's son, Morris.

It seems that, due to the large number of first graders this year, the class is divided into two sections—with Kitty Sandige and Freda Bunting as teachers. And when Morris went home from school the first day his father asked who his teacher was. "Well, Dad," replied Morris, "I don't know whether it will be Kitty-Cat or Bunny Rabbit."

"PRETTY POORLY"

"Rage!" Marshall said the army might draft him, but if they intended to get any work out of his "frame" they would have to do a lot of overhauling.

GOOD NEIGHBOR

Roland Hunt has taught school 23 out of the last 24 years in his own neighborhood of Lower Buffalo—and is still the most respected and well-thought-of man in the community. Consequently, this column rates him as one of Floyd county's finest citizens.

OTOGRAPHS

Jim Bob Hurt, Emery Clark and Bob May had something to show for the first two World Series games at Cincinnati besides mere rain checks. Each had the pleasure of meeting

POF & STUFF

Say, that "Bill Henry" was really cuttin' loose last week! . . . To Ed Burke: No, I didn't mean you destroyed all those people "only their fish traps." We'd like to see Uncle Sam in the role of "treading lightly, yet carrying a big stick"—but he's doing neither. . . . They say: John Creek has only two county bridges (both in Floyd)—yet it is more than 100 miles long! . . . Did you hear about that big "heavy weight" bout which took place last Friday in the upper limits of Martin? . . . Both participants were "professionals," too—but of different trades. . . . From George Ryan's description of the scrap, it reminds us of Martin's baseball games: One side won which the other attended!

Maytown 4-H Club News

By BETTY M. SMITH  
The second meeting of the Maytown 4-H Club was held October 1 in the school auditorium.  
County Agent S. L. Isbell was present and showed some pictures taken at the club camp last summer.

They were greatly enjoyed by the club members. During discussion of the county fair, Mr. Isbell made a few suggestions concerning it. He told us about the prizes and hinted about how the other schools are working for the fair. The Maytown Club is going to try hard to win the first prize at the fair this year. The money, as was last year at the fair, was used to buy a beautiful electric clock for the school auditorium.

Fifty-nine farm men and women made entries in gardening at the Kenton county fair.  
Carlisle county farmers have used 3,000 tons of limestone and 200 tons of superphosphate during the past eight months.
