This Town-- That World

IF YOU DON'T BELIEVE IT-- TRY IT!

We sit in the "Ames Corner" while Jo Richardson writes in his Glasgow Times: "You can't take one single penny with you to why hold on to every one you have like grim death? Live while living is good--be something to the community, be a name for yourself. Money, or the pursuit of wealth should not be, no, everything is life: respect of your fellowman, the happiness to be found in service, the grateful expression for a kindness rendered, the love and esteem and respect of your neighbors, the companionship of friends and associates, a character beyond reproach are a few things far more precious than all the gold ever collected throughout the centuries by individual."

VALE!
TOWN-WORLD has a feeling, somehow, that good old Third street isn't going to make the column so long in the past.

Yep, they're blacking out the Third Street Blues.

IT TAKES US BACK

The United States in its efforts to help Britain takes us back twenty years ago, writes the boys would come to our house after a day of "drifting" logs down the creek. As they lay or stem floating before the big chafers, they would make comments on this or that alleged "dry hand."

And the worst they could say about any individual was to put him in the "Dry Land" class. For the poor, timid souls who would not go down for running up and down the creek bank, making a great show of work, but afraid to venture out into the water, they fellows never came to our house for supper--"dinnah," to some of you--after such an exhibition.

All of which reminds us that Uncle Sam has been playing the role of "Dry Land drifter" all along. The logs are coming from our forest, our men are cutting and sawing down, building life-rats for the sinking democracies--but, after they get out into the water, they are the enemy of every man, jack of us.

NEW GIRL FRIEND

They're telling around the courthouse this week, about the fellow who granted a divorce from his wife, about an official he had a calendar with a pretty girl's picture on it. And his ex, they say, followed him outside in a green tank, demanding to know if the air you ain't to do with that thing?

THE TWO PLAYERS

Twin scourges--the Bubonic plague and the Teutonic plague. Rats bore the first to infect humanity. Rats--bear the second for the same purpose. The Bubonic plague, when it was known as the Black Death, was halted by the killing of all rats. B. Teutonic plague that is a red death can likewise be halted.

MAYBE

It is quite possible that Britain is developing a night defense against the Luftwaffe that Hitler fears. Else why would he return to the daylight air raids in which his forces suffered so disastrously last year? It may be that he prefers fighting an enemy that he can see by day to trying to fight in the dark an enemy that can see but cannot be seen.

SPECIAL TO THIS TIMES

MAYO RULES STUMBO MAY HOLD OFFICE

APPELLATE COURT TO BE ASKED IT'S OPINION

Dr. W. L. Stumbo is eligible to vote, to be voted for, to be nominated for a public office and to hold public office. Special Judge W. P. Mayo ruled Monday in dismissing the petition of Boone Arnett and the intervening petition of Ernest Boyd against Dr. Stumbo's eligibility on the grounds that such rights had not been restored to him following his conviction on a federal charge.

Holding that neither the plaintiff, Arnett, nor the intervening petitioner, Boyd, is entitled to the relief, or any part of the relief, sought, Judge Mayo ordered that Dr. Stumbo recover costs of the court action from the plaintiffs.

The opinion was based on the premise that restoration of citizenship was granted the defendant by Governor Keen Johnson on Feb. 5, 1940 and that this act restored to Dr. Stumbo all rights, eligibilities and privileges of citizenship.

ARSON IS SEEN AS FIRE CAUSE INVESTIGATED

BUILDING, CONTENTS, RECORDS OF TURNER ARE TOTAL LOSS

It was learned here Wednesday from an authoritative source that the fire was of incendiary origin. No clue as to the identity of the arsonist has been gained, however.

Fire discovered in the store of W. J. Turner at Drift, shortly after Saturday midnight, resulted in total loss of building and merchandise at an estimated damage of \$65,000.

Explosion Threatened Bucket Brigade

Firefighters worked under constant peril from an explosion of 1,500 gallons of gasoline in underground tanks at the roadside fronting the building of several trucks and a pile of powder stored in a small building near by. Damp earth was heaped and a hastily-organized bucket-brigade was powerless to halt the flames.

Absence of wind was credited with enabling firefighters to restrict the fire to the store.

Explosion Threatened Bucket Brigade

It was reported here that insurance on the building and stock was only a fraction of the loss. Mr. Turner had only recently added large shipments to his stock.

According to information received here the store, a frame structure on a foundation of stone caught from the rear. Cause of the fire had not been determined Tuesday.

UNCLE BILL RENEWED HIS SUFFRAGE RIGHTS EXACTLY ONE DAY AFTER HE BECAME 96

Uncle Bill renewed his suffrage rights exactly one day after he became 96. He celebrated his birth anniversary Sunday, "setting" table at his Jack's Creek home for 100 kinsmen and friends. A 400-pound hog was killed for the occasion. Ministers from Floyd, Knott, Hale and nearby for all his years, he presents, with a flowing white beard, a striking picture of the traditional patriarch. He neither drinks, chews nor smokes, and to those virtues he attributes his longevity. "I walk a good bit and, every Spring till this, have plowed some on my farm. Yes, I figure on plowing a few furrows this year--for 40 years he has occupied the home in which he now resides; it is within a mile of his

AT INDIANAPOLIS:
Among the thousands jam-packing the Indianapolis Speedway grounds on May 30, when the classic 500-mile Grand Prix has its 29th running, will be a liberal sprinkling of men wearing the blue and white uniforms of the AAA centent board. For it is this board, the internationally-recognized governing body of automobile races in the U. S. that has the responsibility of supervising racemom's star event.

Seventy-five men are needed on the complicated task of running the three separate scoring systems that time the cars in a split second and keep a constant check on the positions of 33 roaring speed-wagons. A large technical staff is needed to examine the cars for defects before they go into time trials or the race itself—a thorough-going check-up that includes a Mag-influx test to spot any cracks or faults that might be buried deep in the metal as a potential unseen danger.

Stewards, observers, timers, referees, medical examiners, and medical staff are among others who make up the roster of AAA representatives who have the heavy responsibility of seeing that all goes well on the great day when the best cars and top-flight drivers compete for fame and riches on the Indianapolis oval.

Because the Parent-Teacher Association and the Eastern Star school of instruction are scheduled for the same evening, the pageant scheduled for the P.-T. A. meeting Thursday will be cut short. Mrs. N. Graves Davis (Whaley), author of the production, announces. The abridgment will not, however, deprive the annual grades of their part in the pageant.

BABE, PNEUMONIA VICTIM

Pneumonia developing following whooping cough resulted in the death here Sunday morning of Delphia Elizabet, nine-months-old daughter of Mr. and Mrs. Arnold Clarke. Funeral rites were conducted Monday afternoon from the home of the little victim's grandparents, Mr. and Mrs. Chas. Oppenheimer, the Rev. W. B. Garratt officiating. Besides the bereaved parents, one sister survives. Burial was made in the Clarke cemetery, on the Auxier road, under the direction of the Arnold Funeral Home.

29 MILLION!

A record never before approached!

★When the 29,000,000th Ford rolled recently from the assembly line, an all-time record for the industry was set. 29,000,000 units built by the same management and all bearing one name—a name that has become one of the best-known trade-marks in the world!

It is significant that this achievement comes at a time when our country is making a mighty effort to re-arm swiftly. For to further that effort, to help speed it along in any possible way, we have offered the vast facilities of the Rouge Plant and every ounce of our experience. As you read this, a new \$21,000,000 Ford airplane engine plant, started only last fall, is nearly completed. A new magnesium alloy plant, one of the few in the

country, is already in production on lightweight airplane engine castings. Work is right now under way on a new \$18,000,000 plant for mass production of big bomber assemblies. Orders have been filled for military vehicles of several types, including army reconnaissance cars, staff cars and bomb service trucks.

In the midst of this activity for National Defense, building the 29 millionth Ford car is simply one part of the day's work.

The public has acclaimed the 1941 Ford car as the finest in Ford history. Ford Dealers are enjoying their greatest sales and expecting their best year since 1937.

It is good to be producing the things America needs, and to be setting records on the way!

birthplace. "I moved one time in my life," he added Monday, "moved to Knott county, but never satisfied and came home after staying there nine years."

While away from Jack's Creek he became the first man to be elected Constable in Knott county when Flood, back in the 80's. "I remember when the county officials were sworn in," he recalls. "We went into an old stable to take the oath. No. 1 never had any trouble. I

arrested Rhodes Pison and Will Cook, who were regarded as two of the worst men in that section, but I didn't take a gun with me. I knew they could kill me, no matter how well-armed I was. I've seen men after they were shot and out have seen plenty of dead men—but never saw a man actually killed. I tend to my own business. You don't see much trouble, or get into much trouble, that way."

Uncle Bill's wife, an aunt of the late Judge John W. Caudill, died 11 years ago. He is the father of 14 children, five of whom are living. His grandchildren and great-grandchildren—by actual count, he says—are 360. Asked about his

great-great-grandchildren, he said: "There's plenty of 'em—don't know how many."

We forgot to ask him if he counted only those who vote the straight Democratic ticket.

TIDBITS OF KENTUCKY FOLKLORE

TALKING LIKE NEGROES

MANY outsiders who visit the South often remark on how the whites talk like negroes; these people are actually reversing what has taken place in historic time. To begin with the negro when he was brought to America spoke one of gibberish to his master. The slave had to understand and speak so the best of his ability, the language of the master. His own way of saying things were almost if not wholly lost. Scholars tell us

that probably there are left a few imitations of African word order or construction in the language of the Gullahs, the negroes of Charleston and the sea islands. Otherwise there seems to be no remnant of African influence. It is not known whether any word in common use even in the South owes its origin to these primitive languages of the slaves. "Buckra," a word used in some places in the South to mean the "boss man," is thought to be an African word, but it is entirely unknown to most people in the South and found only in rare works of an earlier period or in books written by actual folklorists.

In slave times, there was undoubtedly a wide difference between the speech of the negro house servant and the field hand. The boy or girl who grew up around the big house consciously or unconsciously acquired some of the vocabulary and some of the intonation and pronunciation of the quality folk. "Farm hands" say and spoke to few of the whites other than the overseer. The few educated negroes must have sprang largely from the house servant class as a matter of course, and it is unlikely that the field hand would have a chance to show any unusual ability that would attract the master's attention.

Negro speech as it exists today, then, is largely the speech of the earlier whites, modified, of course, by segregation and isolation, particularly since slave days. Education and a newer vocabulary have gradually permeated much of the race, so that some of the talk about negro language would lose its point if one did not see the negro actually talking. The negro voice is decidedly richer and of a timbre different from the average white voice; this, to the trained ear, constitutes real negro language, though the words used are those of our own regular vocabulary. In the very nature of things the primitive language of the Poor White, which

is also primitive, has had little effect on the negro, since economically they have been thrown together. Slavery thrived in the fertile agricultural areas, the poor white has grown up in areas lacking in fertility, areas that could not afford the luxury of slavery. Besides, the negro took his cue from the aristocratic Southern and probably gave currency to the term "poor white trash," showing his disdain for white people not belonging to the quality.

Of course, there have been some few special negro pronunciation that have attracted attention and are usually believed to be of the negro's own coinage, but scholars can trace practically everything in Uncle Remus and similar writings to usages of white immigrants from England, Scotland and Ireland. It can be said that the negro has given a distinctive stamp to certain words and ideas, though they, like most of his music, have come from his former owners.

Food For Defense Plan Means More Money For Farmer

The government's plan to have more food produced for defense should mean higher prices for some Kentucky products, in the opinion of members of the Department of Markets and Rural Finance at the University of Kentucky College of Agriculture.

For instance, the price of eggs is to be based on 29 cents a dozen for fresh eggs at Chicago. This should mean about 18 1/2 cents a dozen in Kentucky, it is said, and compares to a little more than 16 cents last year, 15 cents in 1939 and a little under 18 cents in 1938.

The government is to support a butter price based on 31 cents a pound in Chicago for 92 score butter. This should result in a price of about 27 cents for butterfat in Kentucky, and compares to 25 cents last year, 20 cents in 1939 and 22 cents in 1938.

The Chicago basic hog price is to be nine cents a pound. On account of variations in weights, grades and season, it is not possible to give figures for Kentucky, but prices should be materially higher than prevailed last year, it is declared.

The price which farmers are to be paid for chickens is to be based on 15 cents in Chicago. This should mean 12 1/2 to 13 cents here, which is a little higher than prevailed in the past three years.

NEWSBOYS BUY DEFENSE BOND
Louisiana (From the Big Sandy News) — Clifford and Chesley Wright, 14-year-old twin sons of Mr. and Mrs. Homer Wright, who operate daily newspaper routes in Louisiana, were among the first to buy the new Defense Savings Bonds at the Louisiana postoffice. The two

youths, who had saved the money since January 1 from profits on their paper routes, purchased a \$25 bond Tuesday. The twins are students in the eighth grade here, and get up each morning at 5:45 to deliver their paper routes before school.

BERRY DIES IN CHICAGO
E. C. Berry, 67, former postmaster and merchant at Blaine, died Friday of last week at his home in Chicago following a sudden heart attack.

MURDER CONFESSION, A HOAX
Dwight O. Thorne, 29, who walked into Louisa Wednesday of last week and told Lawrence county officials that he was the one who planted the bomb which killed the son and daughter of Dr. E. H. Raborn in Scranton, Pa., last November, told Pennsylvania officials who came here Saturday to question him, that he concocted the confession out of whole cloth but didn't know why he did it.
Thorne, however, is being held in jail at the request of the Penn-

sylvania officers until they can check on certain statements he told them.

COURTHOUSE LOW BIDS REJECTED
Paintsville, Ky. (From the The Paintsville Herald)—At the meeting of the Johnson county fiscal court Thursday sealed bids for the sale of a portion of the public square around the courthouse were asked for, but no local bids were received. Much interest was shown before the auction but the interest cooled. The highest bid received was from an outside individual who submitted a bid of \$15,000 for the property. This bid was rejected by the court and other arrangements will be made to dispose of the property at a higher figure.

LIGHT GAS WELL DRILLED
A gas flow estimated to be more than 15,000 feet was announced in the well being drilled on the L. G. Meade farm on Jennies Creek. The gas flow was tapped in the Maxon sand at a depth of 650 feet. This is not considered a paying well but if more gas is found in the lower strata gas from the two stratas can be run together.

The well on the Meade farm is being drilled by C. C. (Cap) Haines for the Columbia Fuel Corporation which owns considerable acreage in that section.
The well being drilled on the Charley Conley farm on Rock-houses is expected to be drilled to paying sand this week. The Conley well is on an adjoining farm to the Horne well drilled in the early spring, a good producer which is now going into the line.
Good progress is being made on the Zil Hatfill well which is being

drilled on left, Barnetts Creek. A number of new wells are expected to be started immediately in the Rockhouse and Jennies Creek sections.
