**To the Democratic Voters Of Floyd County**

After consulting with a host of my friends in dear, old Floyd county, I became a candidate seeking the nomination for Jailer of Floyd county. Being a poor man and having a strong ambition to serve the people of Floyd county as a public officer, I ran two years ago for Circuit Court Clerk and lost by a small margin. I feel by so many of my friends requesting me to be a candidate this year if I can win in the August primary I can win in November.

So, kind friends, while you journey through dangers of life and its unseen future, I hope and pray that that kind providence may always smile upon you. None of us know when nor where we may meet assistance. But if fortune has been more kind to you than to me, please help me all you can to cast a ray of sunshine on my sad and gloomy pathway. Your aid will be thankfully received and wisely used so that I will be self-supporting and not a burden on my fellowman. So when you come out on August 2 to vote, please let your good conscience direct you how you wish to vote. Your friend in need,  
**BILL SHEPHERD for Jailer**

I now ask my relatives and many friends to support me in this race for Jailer of Floyd county. A man who is just and deserving. I am taking this opportunity to thank you for the many past favors, and I am sure you will contribute. 5-22-39-pd.

We are authorized to announce **JACK SELLARDS** of Banner, Ky. (Member of Local Union No. 8899, Wheelwright, Ky.) as a candidate for TAX COMMISSIONER subject to the action of the Democratic party at the August, 1941 primary.

How well I succeeded, you people of this county know best. If elected again, I promise you exactly the same kind of honest, efficient, sympathetic service in behalf of you taxpayers. I will not only visit your home or place of business and take your list, but I will also work conscientiously with the board of supervisors in making the assessment adjustments.

SEVERAL years ago, the Floyd fiscal court appropriated six hundred dollars to the Mammoth Cave National Park fund. That money went to a good cause, but it went far away from home.

**WITH** so many of our business and social contacts being made by telephone nowadays, more and more people are recognizing the value of a pleasing telephone personality. It wins friends—builds business—and makes life pleasanter. What's more, a friendly, courteous manner is contagious, prompting friendliness from others.

**Do You Talk Directly Into the Telephone?**  
Your voice comes clearest to the other person when you talk directly into the mouthpiece—lips about half an inch away.

**Do You Hang Up Gently?**  
Hanging up with a bang may seem like an act of discourtesy to the person with whom you've been talking. You don't mean it, of course, but it's apt to be misunderstood.

**Do You Speak Naturally?**  
Speak in a normal, conversational tone. Loud talking distorts the voice and makes it unpleasantly harsh. Whispered words are indistinct.

**Do You Answer Promptly?**  
It's the considerate thing to do and makes a good impression on the caller. Delay in answering may cause you to miss an important call, for the caller may decide no one is there and hang up.

(Views expressed in this column are those of the writer and not necessarily those of The Times)

The "Crub" is having a hard time putting his Pontiac out on pasture. He put it in three different pastures over the week-end, but it jumped the fence and got out.

And speaking of automobiles, Bill W. owns a porch Ford.

We have just found out what Buck Mann's hobby is—billy goats.

Wonder what happened to Hess? Guess Hess is quiet after a square meal.

The rain this week certainly was a relief. It saved the "Shikepoke" later patch. If it hadn't rained when it did, I guess I could have whitewashed my whole crop and sold them for aspirins.

Herb Ison says that he is not planning on spending any more "extended holidays" in Perry county.

We don't believe in puns, but Uncle Sam had better stop a lot of Defense Industries strikes or the bill will be caught with his pants down.

We hear a lot about "bottle-neck" but the biggest bottle-neck we know of would be for the safety-pin factories to shut down, for there's nothing that beats a safety-pin in an emergency.

The Japanese scientists claim that their men will live to be at least 130 years old. I'm of the opinion their life span will be considerably shortened if they try any monkey-busines with the U.S. Navy. The Japs will just stop the ax for the ax—in the neck too.

You know just about everyone in the good, ole U.S.A. believes in anyone having his say, but at least 90 per cent of the people are getting sick and tired of the Wheelers, Lumberjacks, Vandenburgs, etc., and their fifth column work. Our President was elected by a landslide majority and 90 per cent of the people are committed to all-out defense and all-out aid for Great Britain and to hell with Hitler and his "Carrion Bait." The defense of our nation and our way of life demands that we all rise above self-interest. It means each faces up to his own mistakes. It

## Floyd County Soldiers In Tank Battalions Entrain for Service

Fort Knox, Ky., May 23 (Sp.)—Seven hundred and eighty-three specialists in mechanized warfare drawn from the hard-hitting First Armored Division, entrained today for four strategically located military camps and forts—among them three Floyd counties recently promoted.

The 783 men, veterans of months of intensive training with the First Division, commanded by Major General Bruce Magruder, were released from that division to form the cadre, the skeleton of non-commissioned officers and specialists for General Headquarters Tank Battalions at Fort Lewis, Wash., Camp Ord, Calif., Ft. Bliss, Texas, and Pine Camp, N. Y.

The 783 cadetmen, many of whom received promotions before leaving, are veterans of months of intensive training as tank commanders, gunners, drivers, radio operators, armorers, mechanics, and in mess, supply and clerical duties relating to armored force units.

Each represents the new type of non-commissioned officer to be found in the Armored Force Units, skilled technicians, highly trained to fight in rolling forts.

Their training included months in various armored force schools as well as strenuous maneuvers, simulating combat conditions in the field. They represent the "elite" of the U. S. Army of today, trained to take apart and operate tanks and guns, to crush thru and entrench enemy positions, to smash the morals of the enemy with fire power advantage maneuvered in steel forts and cars.

General Headquarters Tank Battalions, to which these men have been transferred, are designed, organized and equipped for attachment singly or in groups, to infantry, cavalry or armored divisions. GHQ battalions remain, regardless of where they are stationed, under the direct command of Major General Adna R. Chaffee, commander of the armored force of the U. S. Army.

Five GHQ battalions are now in being, and 10 more, including the newly activated June 1.

To Fort Lewis today went the 32nd GHQ Tank Battalion commanded by Lieut. Col. Glenn H. Bill and the 75th GHQ Tank Battalion, commanded by Lieut. Col. Severus McLaughlin, to the 79th GHQ Tank Battalion, commanded by Lieut. Col. Kenneth G. Althaus, went to Camp Wheeler and the 74th GHQ Tank Battalion, commanded by Lieut. Col. William M. Tow, to Fort Ord.

Included among the cadetmen given promotions before entraining are: Private First Class Willis Sturgill, of Wayland, to be tank commander sergeant at Ft. Lewis, Wash.; Private First Class William K. Osborne, Prestonsburg, to be radio operator at Camp Ord, Calif.; Pvt. Robert Montgomery, to be tank commander corporal at Ft. Bliss, Texas.

REGISTERS FOR COURSE Palmer Dingus, of Alpharetta, who recently graduated from high school, has registered for a three-months short metal course with the Lacombe School of Aeronautics, West Trenton, N. J.

"Every homemaker in Kenton county using enriched bread and buying canned goods by grade" has been adopted as a slogan by homemakers.

## TRAVEL BULLETIN TODAY'S ROADS

Prepared by Eastern Kentucky Automobile Club

TIPS TO MOTORISTS Red is not the only color in a traffic light that means stop. The amber light means stop, too. Too many drivers seem to think that the amber light means "Go ahead, if you think you can make it." The only trouble is that a motorist coming from the intersecting street may have the same idea—and they meet in the middle. Remember—the only color that means "All Clear" is green!

Here's a safe driving tip that may keep you out of an accident some day.

When you want to turn your car around on a busy street or heavily-traveled highway, don't turn directly into an alley or side road and then back out. Instead, back into the side road. Then you can drive forward into the traffic, with more chance to see approaching cars.

DON'T GAMBLE WITH DEATH—DRIVE SAFELY.

## KENTUCKY'S ROADS

Special Notice—Due to the National Defense Program, heaviest traffic between Louisville and Fort Knox on U.S. 31-W is from 5 o'clock a. m., and between 4 and 6 p. m. This congestion increases driving time about 45 minutes.

US 22—Louis-Paintsville road, Lawrence county, closed for construction. Detour marked over additional distance, 5.8 miles. Detour is for local traffic north of Johnson county line, as US 22 is closed in Johnson county. Very dusty in dry weather.

Paintsville-Louis road, Johnson county, closed for construction. Through traffic to and from Paintsville, Detour just south of Louisville on KY 22 to Martha, WPA KY 172 to junction of KY 40, thence KY 40 to Paintsville. Total distance 48.5 miles, which is an additional 13 miles. Very dusty in dry weather.

US 25-E—Widening roadway between Pineville and Barboursville. Road being built under construction.

US 60—Between Frankfort and Shelbyville, grading and drain construction. Road closed. Passing detour via KY 37 to Deford and KY 43 to Shelbyville. Adds 14 miles. Trucks detour via KY 35, 44 and 43. Adds 26.5 miles.

US 27 and KY 10—Newport-Alexandria road, three miles construction. Road being built under traffic. Caution advised.

## WPA Area Supervisor Says 10,186 Meals Served in Schools

A total of 10,186 meals have been served within the past few months by WPA lunchroom units in four Floyd county schools. Sue Wade, area supervisor, wrote County Judge E. P. Hill recently.

Wayland operated 33 days, served 2,568 meals and the greatest number served in any one day was 89.

Boyle operated 29 days, served 2,778 meals, the largest number being 121.

Harold operated 47 days, served 2,422 meals and the largest number was 62.

Garrett operated 35 days, served 2,410 meals and the largest number was 89.

All these units, except Wayland, are continuing with a garden, and Martin is sponsoring a garden for a lunchroom next fall. "The number of meals served does not give the complete story of the good done by serving a well-balanced lunch to school children," Miss Wade's letter to Judge Hill states. "I am sure that by getting the food raised, canned and stored for next year our lunch program will be much more successful. Without your co-operation and the help of the Mothers' League I doubt seriously if any of the lunchrooms could have operated at all because although all of the committees and school officials were anxious to have lunchrooms none of them could have raised the funds to buy equipment to get the units started."

## CARD OF THANKS

I wish to express my deep gratitude to all those who offered aid and comfort upon the death of my beloved husband, Forrest D. Short. These kindly words and deeds were a great solace in my bereavement and I shall not forget them. MRS. GOLDIA SHORT

R. L. Hays, Green County, has laid off a strip-propping demonstration, altering oats for corn for 1941.

The Boyle county Farm Bureau has bought a portable sheep dipping tank.

## THE GARDEN

DRY LAND FARMING

BY JOHN S. GARDNER

Kentucky College of Agriculture

There is no telling, but it does seem to appear that our customers by dry season may have started.

If this is so, it behooves gardeners to change their technique to suit.

In the early spring, when there may be more rain than the vegetables can comfortably use, there is some virtue in sowing seed on ridges.

Under such conditions, too, deep stirring of the soil is indicated, even perhaps at the expense of a bit of soil ventilation through the soil.

In most Anyhow, there is at that time opportunity for recovery. However, when rain moisture becomes scarce, methods must be adopted, stirring the soil only shallowly, never reaching the roots, or better, merely wrapping the surface to cut off what weeds may sprout, penetrating the soil no deeper than one-half inch. A hand hoe, its blade almost flat with the soil surface, is a good tool to use, but a garden plow, fitted with the scufflehoe attachment is better and much faster. The soil surface should be kept level; no ridges and no hills.

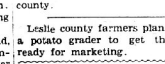

How much and how often to cultivate is decided by the weeds and by the "crust" that follows beating showers. There is decided virtue in keeping the garden surface pulverized.

A 300 percent increase in alfalfa acreage was noted in Spencer county.

Leslie county farmers plan to buy a potato grader to get the crop ready for marketing.

## Chessie Chats

Here's still another reason why the railroads are so important to everyone—more than 50% of all outstanding railroad bonds were held by Life Insurance Companies, Savings Banks, and other financial institutions!

Sail Ho! Imagine a locomotive engineer, telescope in hand, inspecting the "quarter-deck" of his engine! Perhaps early railroad experimenters had something like that in mind because historians tell us cars equipped with sails for motive power were tried out on two early railroads.

Every year, C. and O. carries about 2,000,000 tons of building material—everything from fragile glass and tile to steel girders and stone! A perfect example of versatile railroad service doing a constantly dependable job for shippers!

Coal from this country's first coal mine, located near Richmond, Va., was transported via the canal system of the James River Co. before 1800. This was the original predecessor company of the Chesapeake and Ohio Lines—today the country's largest originating carrier of bituminous coals!

Chessie has a grand idea for packing more fun into your travel. It's The Chessie TRAVEL PACKAGE! A compact book of tickets and coupons to exchange for transportation, meals, special sight-seeing and entertainment on your entire trip—hotel and other reservations are planned in advance. ## CAN 47 STATES BE WRONG AND ONLY KENTUCKY RIGHT?

WHEN the fond mother exclaimed: "They're all out of step but Jim!" she didn't realize that her lug-footed boy was spoiling the whole parade.

And, so, maybe the 3,000,000 people of Kentucky don't realize that our State's absurdly rigid regulation of the motor truck industry is "gunning up" the parade of national defense. The Kentucky laws limit the gross weight of any freight hauling truck to 18,000 pounds—truck and load combined. This restriction makes our State a serious bottle neck in transportation of vital war materials, both for the defense industries which are springing up throughout the State and to military cantonments such as Fort Knox.

No other State has a load limit of less than 30,000 pounds gross weight, and the 127,000,000 people of this country who live outside of Kentucky enjoy better service and more business, higher tax revenue from the trucking industry and—best, but not least—a saving on everything they buy, they wear, they use.

The situation is particularly serious in Kentucky, too, because 77% of the communions in our State have no other method of rapid freight transportation—they are served only by the trucking industry. And Kentucky farmers are the most seriously affected, since 75% of Kentucky's farm products go to market in trucks.

Learn the facts; discuss them with your representatives in the Legislature; and with candidates in the coming Primary.

### Ligon Drops Fifth Straight Contest

Ligon, Ky., May 27 (Spl.)—The Ligon baseball club suffered its fifth straight setback at the hands of the Van Lear club Sunday at the Clear Creek park.

The Ligon club was going along smoothly with a comfortable lead of 3-5 in the top of the fifth inning. Van Lear loaded the bases with two hits and a walk after two men were out. Burkett then hit a long fly to left field which was dropped by Ligon's left fielder William Stewart. Two runs scored on the error. In the same inning on three consecutive hits by Van Lear and another error by Ligon's right fielder, Osborne, Van Lear scored four more runs which was all that was needed to win.

POLITICAL ANNOUNCEMENTS

FOR COUNTY JUDGE

We are authorized to announce EDW. P. HILL as a candidate for COUNTY JUDGE subject to the action of the Democratic party at the August, 1941 primary.

January 4, 1941 I have this day become a candidate for the office of County Judge of Floyd County on the Republican ticket. If elected, I will build a poor home for the poor people, old men and women who are thrown out on the mercy of the people and not able to maintain a home, and for the little children that are kicked about from pillar to post without a chance in life. Think of the crippled and blind that are mistreated. I pledge my support to extend roads to the isolated and forgotten districts of the county. For results, vote for me.

DIAL SALISBURY, For County Judge.

To the Democrats of Floyd County: I hereby announce my candidacy for the Democratic nomination for County Judge. I have grown old in the service of the party. I have never held public office, though I have been through political races. These losses hurt but never for one minute did they hurt my Democracy. Everybody who knows me will swear to that. Elect me and I will make you a County Judge serving all the people. If you do not elect me, I will still be here. Have serving our party as every good Democrat should.

My baby boy is now in college at Bowling Green, Ky. I have had a hard time all along and have recently made up my mind to become a candidate for Jailer of Floyd County. There is hardly anybody in Floyd county who do not know me and who I am, and they all know that I always set good tables in boarding houses and that is the way I have made my living.
