This Town--
That World

THE TRUTH--AND
NOTHING BUT

I'm convinced, at long last, that this column is read. Last week, Bill Wheeler erroneously reported that I was at Norris Lake, fishing. This week, the boys are all wanting to know how many I caught. Just for the record since the wife was a humiliating witness, I here tell the truth, so help me: I fished approximately four hours; three strikes; two fish; one large enough to keep and not be arrested for the offense.

This was the only vacation, labeled as such, that I ever took. Other times, it was known as "just loathin'."

"MR. BOB"

Norris Park is my idea of a happy vacation-ground, but the most interesting of my experiences there was my acquaintance with "Mr. Bob," keeper of horses, some as rough-trotting as ever I did see.

This Tennessee Scotch-Irishman has a philosophy that just naturally attracts one. Mr. Bob doesn't set himself up as any saint, but he has a pure, simple religion that makes him a rare, valuable individual in a world gone crazy with blood-lust and power-lust.

Mr. Bob, when he gets "wound up," unconsciously says, now and then, words that sound like "cussin'," but as you listen you get to thinking that this man surely must be close to God. Hear him describe a scene in Genesis and declare that the Almighty surely designed it to be such--see him glance upward and assert, simply that those lofty spirits make one feel right near Him--and you begin to feel ashamed, if you are one of those to whom God is a faraway, nebulous something that is too big for your own little soul.

If you would have friends, first show yourself to be a friend. That old adage Mr. Bob is a valiant exponent. He just starts talking to you, inviting you to let the children team down, and if they want, he'll take care of them, come back around and talk with me, tonight, any time. And hear him quote Edgar Guest:

The golden rule is measured best and crimmest, catch the fragrance in his fragrance. Give to him, or he'll give you back, or wishing you had been.

"I wish I had the education, I'd like to be a writer. I'd like to set down in writing some of the things I think about," he'll tell you. "But I was so, and it was too late, before I realized that I had been good, common sense."

But Mr. Bob doesn't have to write his thoughts. They travel with his acquaintances over the continent. Folks write him from all over the country, from Mexico. A stranger drives up to the stables, halts him with, "Hello, Mr. Bob. Somebody back home had told him Mr. Bob was in town and he'd like to see you."

Mr. Bob McLemore, I'd a lot rather talk to you than ride the best horse you've got in the lot--or, for that matter, the best horse in anybody's lot.

SCHOOLS OPEN
SEPTEMBER 2

TUITION CHARGES
FOR NON-RESIDENT
STUDENTS, STATED

Floyd county's high schools and the Lackey, Allen and Weeksburg graded schools will begin their 1941-42 terms Tuesday, Sept. 2, County Superintendent Town Hall announced following a meeting of the county board of education.

Both high school and graded school in Prestonsburg will open on that date. Grade school students residing outside the district will be charged \$20 tuition for the full term--\$10 payable in advance at the beginning of each semester, Thomas H. Triplett, superintendent of city schools, announced.

The Dwale, Harold and Drift consolidated schools open Monday, next week. Although the high school at Wayland will begin its session September 2, the grades at that school will be in vacation for another month or two while the new building is being completed, it was said.

County Superintendent Hall said that new graded school and consolidated school teacher is expected to attend the teachers' meeting to be held at the new graded school here Saturday, Aug. 30. Dr. J. D. Falls, of Morehead State Teachers' College, and a representative of the State Department of Education will be speakers on the program, which is now being prepared. The high school principals' conference will be held Aug. 28 in the superintendent's office.

The new Dwale school is completed. (Please turn to Page 8)

\$267,508 FUND
TO BE SPENT
ON HIGHWAYS

5 PROJECTS LISTED
BY SUPERVISOR
FOR OPERATION

The \$267,508 allocated to Floyd county by the Works Progress Administration will be spent during the current fiscal year on the construction of highways and bridges. W. T. Toney, Floyd county WPA construction supervisor, said Tuesday in announcing five projects as ready for work.

Congressman A. J. May recently suggested to County Judge E. P. Hill, Jr., that an effort be made to have this fund, or a part of it, spent on roadwork originating from roads already completed, thus preserving gravel surface applied on farm-to-market routes in the county. The suggestion gained considerable consideration by Judge Hill, but it was held that the funds now available should be spent in sections where highways have not been built. The higher type of surface till such time as when it may be applied without depriving unimproved sections of work-projects.

The fund will provide work for 350 men during the fiscal year. Projects listed for immediate work under the new allocation follow: Road from mouth of Buffalo to

Floyd Woman Has Five Sons
In Naval, Army Service

Top row, left to right—Benjamin Franklin Hicks, James K. Hicks, Preston D. Hicks; Leonard Hicks. Bottom—Samuel Hicks, Curtis Hicks, Hattie Hicks.

With five of her six sons enlisted in the nation's armed forces, and the sixth an instructor in a national defense course, Mrs. Julia Hicks Bailey, 56, of Hippo, is nominated for the title of Floyd County's National Defense Mother.

Widow of B. F. Hicks, and wife of R. M. Bailey, she has three sons in the U. S. Navy, two sons in the army. All volunteered their services.

The sixth son, Curtis Hicks, Brush Creek garage owner, is married, and so he has confined his activities in the national defense to training young men in defense work at the Maxton high school.

The five brothers who are in the service, their addresses and detachments, and duration of service behind them are:

Leonard Hicks, 16th Air Base Squadron, Albrook Field, Canal Zone, four years and seven months;

Stuart Sgt. James Hicks, 3rd Co. 4th Training Battalion, E. M. P. Benning, Ga., four years, seven months; Samuel Hicks, U.S.S. New Mexico, 7th Division, Pearl Harbor, Hawaii, three years and seven months; Benjamin Franklin Hicks, U.S.S. Thornton, Pearl Harbor, Hawaii, three years and nine months; Preston D. Hicks, U.S.S. Thornton, Pearl Harbor, Hawaii, three years, one month.

Her condition was said to be improved Tuesday.

Only a few cases of the malady have been recorded in the medical history of Kentucky, its occurrence having been largely confined to the far western states where the respiratory mortality rate has been recorded as high as three out of four sufferers. In Kentucky, however, the death rate is from 25 to 35 per cent of those stricken. Dr. Allen said.

The disease develops, usually from three to 10 days after the bite of a tick has been incurred. Symptoms include a severe headache, pains in the joints and muscles, with a temperature ranging from 100 to 102 for the first two or three days of illness, then an increase of temperature to 105 and even higher. The spotted fever patient is marked by red spots on the arms and legs and, sometimes, on the body.

839 CHILDREN
EXAMINED

DURING THREE WEEKS
OF DENTAL CLINIC
CONDUCTED HERE

Eight hundred and thirty-nine children from 25 schools of Floyd county were examined at the clinic conducted here during the three weeks ending Friday by the dental bureau, State Board of Health.

Work of the clinic, which was planned only as a demonstration of results to be achieved through a health agency of its type, created considerable interest among school authorities, and it was said that a full-time service may be instituted in this county.

Of the 839 examined, 323 were treated, 1,189 corrections being made. One child required 18 corrections, including 15 fillings.

Transportation to the clinic was provided in school buses. The clinic was sponsored by the Floyd county health department, and the Prestonsburg Co-Operative Business Association contributed \$100 to defray expenses of the work. W. B. Boyd, manager of the Broadway Theater, gave each child attending the clinic free admission to his theater.

Martin Woman, 1st Stricken
In Floyd by Spotted Fever

Illness of Miss Alfair Flanery, 43 years old, at Martin marks the first appearance in Floyd county of the dread Rocky Mountain spotted fever.

Miss Flanery's case was described by her attending physician, Dr. Claude Allen, as "almost classical." She was bitten by a tick at the home of her parents, Mr. and Mrs. Bill Flanery, of Buck's Branch, near Martin. She has been ill for more than two weeks at the home of her sister, Mrs. Henry Salisbury, Martin.

Her condition was said to be improved Tuesday.

Mrs. Vaughan Moore, 19,
Tuberculosis Victim

Mrs. Icie Moore, wife of Vaughan Moore, died Friday at her home in Wayland after an illness of months of tuberculosis. Mrs. Moore, 19 years old, had been a patient at Hospital St. Joseph, of Morehead, and had planned to return here in October for further treatment.

She was a daughter of Melvin and Reagle Hicks Johnson, of McDowell, both of whom survive. She also leaves her husband and one daughter, Joannette. Funeral rites were conducted Sunday at the graveside in the Moore cemetery, Wayland, the Rev. Hawk Moore officiating.

Burial was made under direction of the Ryan Funeral Home.

McDowell Mineworker
Instantly Killed
By Electrocuton

James E. Fannin, 31-year-old moor brakeman, was instantly killed Friday when his head came in contact with an electric wire inside the mines of the Edgemont Fuel Company, McDowell, as he was attempting to put a wrecked mine car onto the track.

A son of Leon and Virgie Preston Fannin, he was a native of Martin county. Besides his parents, he is survived by his widow, Mrs. Florence Fannin, and three children, Irvin, Virgil and Bernice.

The funeral was conducted at the graveside in the McDowell cemetery Sunday, the Rev. Aaron Pack Tom Mosely and M. C. Wright officiating. Burial was under the direction of the Ryan Funeral Home.

5 Cripples Hospitalized
After Clinic Held

Five Floyd county children were hospitalized immediately after the conclusion of the crippled children's clinic conducted here Thursday by Dr. M. D. Garred, orthopedic surgeon, and George W. Bell, pediatrician, of the Kentucky Crippled Children's Commission. In all, 11 crippled from Floyd, Johnson, Maysville and Martin counties were examined.

The clinic was sponsored by the county health department. Lunch for children here, and the clinic was served by the Prestonsburg Woman's Club.

TO THE PEOPLE
OF FLOYD COUNTY:

You have nominated me for Tax Commissioner by a nice majority, and I am grateful for your support and will work hard to make you a creditable Assessor. I have never dealt with any nicer men than my opponents. They were clean and good sports during the whole campaign. Yours for a better Floyd county government.

CLIVE AERKS

Floyd Native Killed
In West Virginia

Dismissing an old sub-station at Jeffers, W. Va., Francis Harmon, 33, native of Little Point Creek, Saturday touched a wire that had been believed "dead" since the station was abandoned five years ago. He was killed instantly.

Surviving are his widow, Mrs. Godtha Stallings Harmon, one daughter, Jewell's mother, Mrs. Lucy Harmon, of Prestonsburg, three brothers and three sisters: Clifford, of West Virginia, Howard and John, of Prestonsburg, Mrs. Grace Conley, Carrie and Rebecca Harmon, Prestonsburg.

Burial was made in the Boone County Park cemetery, Madison, W. Va.

HEART DISEASE CLAIMS
Emma Wason, 76,
Mother of 11

An illness of two months of heart disease resulted in the death Tuesday at her home at Emma of Mrs. Rosa McSweeney, 76 years old.

Mrs. McSweeney was a member of the Baptist Church and was one of her community's best women. She is survived by 11 children. Her husband, Wayne, died two years ago.

Funeral rites were conducted Wednesday from the home, the Revs. Sherman May, B. W. Craft and A. J. Wright officiating. Burial was made in the family cemetery under the direction of the Arnold Funeral Home.

TIGHT RACES
MARK GOP
PRIMARY

THREE NOMINATIONS
WON BY SCANT
MAJORITIES

Even if the action was not so fast as that flashed by their Democratic brethren, Floyd county's Republican candidates supplied the primary election thrills in the matter of driving finishes, none of three major G. O. P. winners emerging with leads of more than 15 votes.

Closest of the Republican races was Ralph Allen's victory over Ted Akers for County Clerk by 10 votes. Taylor Bevel defeated Sherwood Dyal Salisbury for the Republican nomination for County Judge by 30 votes, and Harry R. Burke defeated Edward L. Allen for the Republican nomination for County Attorney by 63 votes.

Democratic vote tabulation on Page 2, this issue; Republican tabulation on Page 6.

On the Democratic side of the house, the County Attorney's race was tightest, with Woodrow Burdett finishing up 241 votes ahead of one-time County Attorney J. P. Barker. The coroner's race between Rev. M. C. Wright and G. D. Ryan was next in the matter of being close. Wright winning by a 75-vote margin.

County Clerk A. B. Meade for the third time won the Democratic nomination for County Clerk, defeating Edward B. Leslie by 433 votes. D. W. L. Sumble won a three-cornered race for the Sheriff's nomination, defeating Ex-Superintendent John Stephens 323 votes and Ex-Sheriff Taylor Stumbo by 609. The Representative's race among the Democrats likewise was a three-way affair, with Jerry Foxworth scoring ahead of J. M. Turner by 545 votes and in the lead of Morton "Shikepoke" McGrohen by 698. Guy Horn ran well ahead of the largest field in the "derby" to defeat Roy Turner by a 675-vote margin.

Haviest lead piled up by any Democratic candidate was that of County Judge E. P. Hill, Jr., seeking re-nomination for the office he now holds. He led his nearest opponent, Doug Hays, by 2,328 ballots. Next by way of wide margins of victory was that of Clive Akers who

To the Voters
of Floyd County:

I thank each and every person who was instrumental in securing my nomination. I deeply appreciate the confidence you did for me and I tenderly hope and trust that I can repay you. I want you to continue the good fight and November will bring the same results. We will continue the same until the end and give to Floyd county an administration of its fiscal affairs like unto that of the past eight years. Don't forget D. Short is dead, yet he shall live again through me. The mock and lowly shall continue to be served.

Those who were against me, I am sure, will now be with me and to them I want to say that I hold no feeling of bitterness. When elected County Attorney I will serve all the people with equal and exact justice. Give me your vote, support and influence and you shall never have cause for regret.

TRAVEL BULLETIN TODAY'S ROADS

Prepared by Eastern Kentucky Automobile Club

How will the defense program affect motor vehicle ownership and operation? Greater Automobile Use Found Necessary by Defense Workers—The rearmament program has increased materially the number of men driving to work by automobile and in many cases has increased the distance they have to travel, a survey of automobile usage in the United States just completed by the Automobile Manufacturers Association reveals. The study shows clearly the adverse effect the proposed 10 per cent increase in the federal tax on motor fuel would have both on wage earners and farmers. It is based on extensive highway surveys carried out jointly by state highway departments and the U. S. Public Roads Administration and on additional data compiled under auspices of the association.

In almost all cities local transportation has become primarily automotive. It was found, and in cities up to the 500,000 population class as many as 70 per cent or more of the people entering the business sections of the city on a typical day do so by private automobile.

It was discovered that 2,100 American towns and cities ranging in population from 250 up to the 25,000-50,000 class, have dispersed widely, being the same land conveyed by J. N. Harris, Special Commissioner, to Mouse Martin, bearing date of September 29, 1912, and recorded in deed book 35, page 630, Floyd County Court records.

Prestonsburg Bench Cools Off As Subs Join in Victory

Prestonsburg used 17 men Sunday in romping to an easy 10-2 victory here over Allen.

With the Allen boys committing eight errors, the Blue-landers were never under tension after the big six-run third inning, and every man on the squad was given a chance to show his wares. Lathrop, who has been devoting more time to politics during recent weeks than to baseball, hurled the first five innings for Prestonsburg, against seven hits and Allen's only runs. Patton finished, holding the visitors to one lone bingle.

Hatcher Mentioned As gubernatorial Candidate

(Continued Enquirer)

ASHLAND, Aug. 13.—Frosting of the Ashland-Coal Grove bridge here today may have been the beginning of a campaign by Democrats to nominate George C. Hatcher, Secretary of State, for Governor two years hence.

Many of Hatcher's friends from Ashland and Eastern Kentucky mentioned him frequently as the probable Democratic choice for Governor in 1943. They point to his record as Assistant Clerk of the Court of Appeals and as Secretary of State and to his familiarity with business conditions as fitting him for the Governorship.

It is a bit early, Hatcher's friends concede, to say who will get the nomination, but they let it be known that they would work for him and are confident that he could be nominated and would be a certain winner.

Hatcher, whose home is in Ashland, is a member of one of Eastern Kentucky's most prominent families and his friends feel that he could easily win the Eastern half of the state and hold his own in the Northern, Western and Southern parts. His cousin was the late James Hatcher, state Railroad Commissioner, and a power in Democratic politics in Eastern Kentucky for half a century.

Hatcher, a staunch Democrat, is said to be in line favor with the state administration and since he has not been involved in any party wrangles, his friends say he would, if nominated, cement all factions.

TRAVEL BULLETIN TODAY'S ROADS

Prepared by Eastern Kentucky Automobile Club

How will the defense program affect motor vehicle ownership and operation? Greater Automobile Use Found Necessary by Defense Workers—The rearmament program has increased materially the number of men driving to work by automobile and in many cases has increased the distance they have to travel, a survey of automobile usage in the United States just completed by the Automobile Manufacturers Association reveals. The study shows clearly the adverse effect the proposed 10 per cent increase in the federal tax on motor fuel would have both on wage earners and farmers. It is based on extensive highway surveys carried out jointly by state highway departments and the U. S. Public Roads Administration and on additional data compiled under auspices of the association.

In almost all cities local transportation has become primarily automotive. It was found, and in cities up to the 500,000 population class as many as 70 per cent or more of the people entering the business sections of the city on a typical day do so by private automobile.

It was discovered that 2,100 American towns and cities ranging in population from 250 up to the 25,000-50,000 class, have dispersed widely, being the same land conveyed by J. N. Harris, Special Commissioner, to Mouse Martin, bearing date of September 29, 1912, and recorded in deed book 35, page 630, Floyd County Court records.

Or a sufficiency thereof to produce the sum of \$16,677.40, with 5 per cent interest thereon from September 29, 1934, and the further sum of \$413.62, with 6 per cent interest thereon from July 1, 1936, and the further sum of \$17,625.20 paid as of June 19, 1941, and a further credit of \$891.93 paid as of July 1, 1941.

For the purchase price the purchaser must execute bond in the undersigned special commissioner, with approved surety, bearing legal interest from the date of said contract, having the force and effect of a judgment.

Bidder must be prepared to comply promptly with the terms of the sale.

Prestonsburg Bench Cools Off As Subs Join in Victory

Prestonsburg used 17 men Sunday in romping to an easy 10-2 victory here over Allen.

With the Allen boys committing eight errors, the Blue-landers were never under tension after the big six-run third inning, and every man on the squad was given a chance to show his wares. Lathrop, who has been devoting more time to politics during recent weeks than to baseball, hurled the first five innings for Prestonsburg, against seven hits and Allen's only runs. Patton finished, holding the visitors to one lone bingle.

FREE NATIONS SHALL RULE THE FREE NATIONS shall rule the world when final adjustments are made after the close of this world war.

This is no time for cowards and weaklings. Brave hearts alone can free banking from the shackles and miseries of warring peoples.

Hitler, Stalin, Mussolini and the rest of the tyrants must end their careers in deserved disgrace. The glorious work for freedom can and will be done thoroughly and well.

There are only two governments powerful enough to achieve world freedom, the United States and the British Empire.

Without a change in ideas the first reckoning will have to be made with Japan whose navy is a standing menace to the United States.

hundred millions of people is the worst of impudence and cannot be tolerated. The markets of the Orient are necessary to American defense.

The United States may be waiting for more thorough preparation but the wait should not be too long. Hitler has millions of prisoners of war at work building boats and other instruments of war.

A thorough preparation in planes, tanks, guns, ammunition and other equipment, and a forward march without delay will save the people of the United States and other free nations from the far greater bloodshed and Hitler slavery.

REGISTRATION AND PURGATION (In The Courier-Journal)

CONGRATULATIONS to S. S. Pinney, Nat Young and Dr. W. B. Robinson, valuable members of the Montgomery county board of registration and purgation.

Working but twenty-one days the board removed approximately 1,900 names from the registration books of Montgomery county.

County Judge Earl Sent deserves congratulations for a willingness to have the work done before the recent primary. In many other counties, local officials recognized the need for thoroughly going over the registration books.

In Franklin county, for instance, the election lists are cluttered up with at least 2,000 illegal voters. The total Democratic vote in the primary fell far short of the total Democratic registration.

When the Montgomery county board started its work it called before it a number of well informed citizens, who, working out the registration lists section they knew, furnished the board with a tentative list of doubtful names.

Those temporarily absent were not stricken, of course. Reasonable doubts were resolved in favor of the registrant. Many clerical errors that had been on the books as far back as 1935 were found, and are corrected.

On primary day the board sat in session at the courthouse all day, with Judge Sent, to hear complaints by any voter whose name had been stricken but who claimed the board had made an error.

As a result of its fine work Montgomery county can boast that it has as good a registration machinery as there is in Kentucky. The cost is not excessive. The work set a fine example to other rural counties, where registration books are a mess.

Clear Creek Subdues Drift Sunday, 6 to 3 Score

The pitching combine of L. Stumbo and B. Moore Sunday held Drift to six hits, and stretched Clear Creek's winning streak to two games—a feat, hitherto unaccomplished by Clear Creek this year.

Clear Creek took possession of the game in the first, when they batted around, scored five runs and were never headed.

Clear Creek's five runs in the first were scored on a walk, three errors, a hit batman, a stolen base, a single and a double. Another run came in in the sixth, and the final in the eighth.

Drift scored a run in the first, one in the fourth, and one in the seventh.

Edgar Johnson was the leading hitter of the game, getting three hits, with B. Moore getting two.

Judge A. T. Patrick To Be Honored At Re-Union

Judge Ashland T. Patrick of Prestonsburg, will be honored by the Patrick family at its annual reunion to be held at Salsberyville, Sunday, Sept. 14, at 10 a. m. An oil painting of him, presented by his friends, is to be unveiled at this time. He is to be honored in his advanced age because of distinguished public service in Eastern Kentucky.

Judge Menifee Patrick of Salsberyville will present the portrait with an appropriate address, and by Judge Joseph D. Harkins, of Prestonsburg, and other distinguished citizens from over the state.

A feature of the reunion will be a basket dinner, and plans are being made for entertaining at least 500 persons expected to be in Salsberyville at that time. The reunion committee is inviting the citizens of Salsberyville to join in the festivities. Reports to the reunion committee indicate that visitors will come from a number of states, as far west as Kansas and Oklahoma.

President of the organization is Dr. Wellington Patrick, of Lexington. Forrest H. Patrick, of Ashland, is secretary, and Judge Mace Patrick, of Salsberyville, is chairman of the committee on arrangements.

A FULL-TIME JOB

Being a citizen in a democracy is a full-time job. In other forms of government, the citizenry make up the background, appearing only in mob scenes to cheer on the rulers of the nation.

or do you just show up at election time to cast your vote without due consideration of the full qualifications, record and principles of all candidates?

Are you a part time citizen? Do you obey the laws you have had a hand in making—or is it your only thought, "When you break what seems like an inconsequential little law that if you can get away with it, it's all right?"

Are you a part time citizen? Do you voice interest in all issues or only in those problems which directly concern you—and then object when other groups do the same and infringe on our prerogatives?

Are you a part time citizen? Do you lend an ear to all subversive elements who tell you how much better conditions are or would be for you were there a different form of government?

Are you a part time citizen? Do you stand up for democracy or do you condemn its mistakes without consideration for the good it has to offer? Do you stress only its shortcomings and never its long range program which slowly but surely, and in spite of stumblings, discriminations and detours is making this country of ours the best in which to live?

Now as never before the United States needs the full time allegiance of all its people. Don't be a part-time citizen.—Big Sandy News.

U.D.C. Chapter Here To Unveil Marker To Vets' Memory

Unveiling of the monument erected on the courthouse grounds here to the memory of Greenville Davidson and other Floyd county veterans...

The marker will be presented, on behalf of the Chapter, by Mayor E. P. Arnold of Prestonsburg, and will be accepted on behalf of Floyd county by County Judge E. P. Hill, Jr. Mary Davidson Riddle and James Andrew May, descendants of Confederate veterans, will unveil the marker.

Left Middle Creek Highway Bids Are Sought

Bids were asked this week by the State Highway Commission on the grading, draining and surfacing of 3.4 miles of the Left Fork of Middle Creek road from Goodie post-office toward the Magoffin county line at the head of Lick Fork, near the Princess Eckhart Coal Company mine site.

The bids will not be opened till September 5, and another winter "in the mud" is seen for that section. The WPA, using state machinery, this week was surfacing the last half-mile of the main Middle Creek highway, but W. A. Toney, construction supervisor, and that the state had indicated it will build the distance of approximately half a mile below the Floyd county end of the route.

Magoffin county's "missing link" of the Prestonsburg-Salysville route (the Middle Creek highway) remains unimproved.

Summer Dessert Prescription!
A prescription for a delightful climax for dinner on a hot mid-summer night—Take one spoonful of angel food cake and add in squares. Mold with lemon custard and chill. Serve for dessert when weather is warm.
Here is a prescription that can be followed with real pleasure—for the delicate quivery texture and the fresh tang of the lemon in this molded cake and custard dessert foster an illusion of coolness no matter what the thermometer may read.
The preparation of this dessert is simple, too, so simple in fact—that you can easily fit it into any crowded summer schedule. If you wish, the sponge cake may be purchased from a baked goods counter. The lemon custard, however, which gives the dessert its superlative flavor, can be quickly made in your own kitchen.
Particularly is this true, if you own a modern electric range. As you know, time-worn customs have necessitated a double boiler when making custards. However, when cooking with the low, evenly distributed heat of a modern electric range, only a medium weight, ordinary saucepan is needed. The low, constant, controlled heat of the electric range, with its smooth energy consistency without a trace of curdling. PETITE CAKE MOLD
(Serves 8)
4 egg yolks (well-beaten)
1 cup sugar
1/2 cup lemon juice
1 teaspoon grated lemon rind
2 teaspoons unflavored gelatin
2 tablespoons cold water
1 egg white (beaten stiff)
1 small unflavored cake or (angel food), sponge or plain cake

Mix beaten egg yolks with 1/2 cup of sugar, lemon juice and rind and place in success on electric surface unit. Cook over a low heat, stirring frequently, until the mixture is thick enough to coat a spoon. Add the hot water and cover. Beat egg whites until stiff—then add them gradually until remainder of sugar while still beating, constant. Fold this egg white mixture into the custard and remove from heat. Pour into mold or small angel food cake pan lightly with salad oil. Cut cake into small squares, arrange in mold, and cover with the custard. Chill in refrigerator until firm—at least 2 hours. Unmold and serve with whipped cream, if desired. Garnish with cherries or fresh fruit of any desired variety.

TIDBITS OF KENTUCKY FOLKLORE
JUST LIKE US
WHEN I used to live in the Fidelity neighborhood, I thought that we were peculiar people, unlike any one else in the world. By degrees, I fear, we had come to regard ourselves as the Hecks of the neighborhood. We feared that when the people up or down the creek were not quite like us, that we were not quite like them. We were seat and far away from were practically hopeless. Since I left Fidelity, however, I have been startled to find that we were indistinguishable from other people for all their better homes and better chances; or, if you want to swap ends of the comparison, even the best of the other people were strikingly like us of little old remote Fidelity.

When I was eighteen, I went away from Fidelity forever. My first trip took me some 65 miles away from a straight line to a county farther west in Kentucky. There I attended a private academy for a time and taught my first school in the following fall. To my surprise I found that the people of the small county where the academy was located and especially the people of the farming neighborhood where I taught so much like those back home that I given family could be exchanged with one at Fidelity without causing any noticeable difference. I suppose now, after more than a third of a century, that I expected to find people who differed widely from those I had known; one old body that I knew used to pray publicly for her son in different places, when he was actually in Louisville. Whatever I may learn in my life, that first rude shock to my feeling that Fidelity was different will be my greatest mental acquisition.

Since that first time away from home I have lived among strangers and visited many many more, only to find Fidelity forever bobbing up. The people who came to consult my other, the country doctor, represented every type of the genus homo that I have found elsewhere. The names may differ, the clothes certainly differ, and there are some minor differences in language, but underneath these non-essential personalities seem to be the same.

In recent years I have wondered still more at the epitome of human life that we saw daily in our isolated section. For instance, our negroes talked like those in the writings of Joel Chandler Harris and DuBois Heyward and Julia Peterkin. With the exception of a few words that are peculiar to the Sea Island part of the South our negro language could be transferred bodily to the writings of these same authors. Loggins, bratling societies, banter, proverbs, spirituals, church, cryptic philosophy that white folks probably have never understood, hoodoo, conjure, what the is distinctive of negro life did we not know? Slavery had not been important at Fidelity, since only a small portion of the landowners had slaves, but our small section, I repeat, was a coarces.

Not only was this true about negroes, but it was equally true of other people, striking personalities in history or in books. We could have been expected to be most like the South, but how could good Yankees get into our remote nook among the hills? It seemed fairly hard for the mail carrier to get to us twice a week, but distance meant nothing to persistent personalities that somehow came to be a part of people's daily lives. Some one has said that one can stand on Canal Street in New Orleans for half a day and see every known kind of person. That is what we can stand on Canal Street in New York. It is equally true that one could stand on Canal Street in the country store in Fidelity (or People) and see go by in procession all that kind of people that have ever been or will be. What is what makes a cross section of any area a true picture of the whole human race.

Nearly 1 1/2 million officers and men of the armed forces were transported by the Railroads during the first six months of 1941! This required 2,861 special trains and also many special routings—without the slightest interference with other traffic! Yes, the Railroads are meeting the extra demands of National Defense and taking them in their stride!

Who operates the world's greatest laundry? No, it's not the Chinese—it's the Pullman Co! Their laundries wash an average of more than one-half million pieces of linen for each workday!

Imagine a stack of Railroad Time tables over 150 miles high! The American Railroads distribute enough time tables to build such a structure—about 80,000,000—every year!

Ever wonder why coal from Ohio along the Chesapeake and Ohio has that extra heating power? It's because coals from this region have a low ash and moisture content and just the right combination of hydrogen and carbon!

WHAT A HIGH SCHOOL SENIOR SHOULD KNOW ABOUT TUBERCULOSIS

By RUSSELL PATTON, Madison High School More than one out of all city dwellers have at some time infected by tuberculosis, although the disease may have remained quiescent. This fact shows the terrific frequency of the disease; but also brings the comforting thought that the human body with its wonderful faculty for adjusting itself to new conditions, frequently succeeds in overcoming it. In 1900, 200 out of every 100,000 people in the United States died of the disease, but in less than three decades, the rate was cut to 80 out of the same number. This is due not only to the growing immunity of city population, but to better living conditions, control of milk supply, and more knowledge of the disease and the methods of treating it.

Tuberculosis was well known to doctors of the ancient Greeks, but the cause of it was not understood until 1882, when Robert Koch, a German country doctor and brilliant scientist, discovered the bacterium which is responsible for the disease. When the bacteria enter the blood stream, which they usually do by the mouth or nose, they may stop in any of the organs or in the bones and there set up a center of infection. Bacteria usually pass harmlessly through the blood until they settle in the filter they have to pass, which is the lungs. There, tuberculosis of the lung, the commonest form of the disease, may develop.

Around the colony of bacteria the body forms a protective covering of cells, known as the tubercle. The cells decay, leaving inflammation and lesions in the lungs, which in turn enclose the bacteria. The bacteria, which are the most numerous form of the disease, may develop.

New Record "Thrills" President

President Roosevelt receives 1941 Infantile Paralysis Campaign report showing net proceeds far above all former totals. The report was presented to the President at the White House by Keith Morgan, National Chairman of the Committee for the Celebration of the President's Birthday, and Basil O'Connor, President of the National Foundation for Infantile Paralysis. The total of \$2,104,460.53 exceeded the former high record of 1940 by 49.5% or \$697,214.79. The campaign closed January 30th last, President Roosevelt's 69th birthday and nearly 14,000 celebrations were held throughout the land. With the President, left to right, are: Keith Morgan, National Chairman of the Committee for the Celebration of the President's Birthday; George E. Allen, Vice-President of the National Foundation for Infantile Paralysis; James Forrestal, Vice-President of the National Foundation for Infantile Paralysis, and Basil O'Connor.

Walters Promoted To Sergeant Rank

Special to The Times. Port Chester, Mich. - Robert L. Walters, 23 of Prestonsburg, Ky. has been promoted to the rank of sergeant in Company K of the Tenth Infantry Regiment here.

Sergeant Walters belongs to a regiment whose history has made it one of the most famous regiments of the U.S. army. Organized before the Civil War the Tenth Infantry helped fight more than 13 major battles of the army since its first Indian battle in the West. Sergeant Walters' regiment accompanied its parent unit, the motorized 5th Division to Tennessee for a six-weeks maneuvers period with the Second Army Corps. Back at Port Chester, the Tenth Infantry will soon leave with the 5th Division for the South to participate in another period of field maneuvers with the Second Army Corps.

HOUSEHOLD FURNITURE IS 100 PCT. DURABLE MERCHANDISE

According to a recent order issued by President Roosevelt, the Federal Government is expected to clamp the lid down tight on installment buying of durable goods within the next few days.

The Morell Supply Company and the Valley Wholesale Furniture Company are desirous of co-operating with their customers within the limits of what the government will order as to future furniture contract buying.

The same courteous service, the same policy of giving the public quality merchandise at the lowest possible prices, the same low down payments, the same low monthly terms, to all our customers at all times.

The Presidential order states it is necessary to reduce installment buying in order that more essential materials may go into defense industries.

U. S. Marine Corps To Accept Quota Of 75 Per Month

The U. S. Marine Corps has recently established a Recruiting District of Kentucky with headquarters at 1412 Heyburn Bldg., Louisville, and is accepting 75 volunteers per month from Kentucky for enlistment.

The Marines offer a wide variety of service on land and sea and in the air, at half a hundred stations, from the Eastern seaboard and Caribbean Islands to the Far Pacific and China.

Volunteers are enlisted at Louisville and transferred the same date to the Marine Training Base at Parris Island, South Carolina. After an initial training period of six weeks, a 10-day furlough is granted all Marines before their assignment to duty.

Requirements for acceptance are that a man be between the ages of 17 and 30, unmarried, of good character, must possess the equivalent of at least a grammar school education, and be physically fit. Interested young men of Prestonburg and Floyd county are invited to write the U. S. Marine Corps, 1412 Heyburn Building, Louisville, for full information about how they may serve with the Marines for the duration of the present national emergency.
