Cigarette, cigar or pipe—which do you like? Don't answer till you read the following, a little piece that's going the rounds of the public prints with the author unknown:

"Bad men want their women to be like cigarettes—slender, trim, to be selected without much thought, set aflame, and when the flame has subsided, discarded."

"The fastidious man wants his women to be like cigars. They are more expensive, make better appearance, last longer; and after all, if the brand is good, they are seldom discarded."

"The good man wants his women something like his pipe—something he becomes attached to, knocks gently but lovingly around in a dreamy, sentimental mood, and gives the greatest of care and consideration."

"A man will give you a cigarette, offer you a cigar, but he never shares his pipe."

LONG WET SPELL

Speaking of 1942—were we? There were few dry spells that year. The rainfall last year, County Agent S. E. Taber estimates, was 49 inches, as compared with an average of only 40 inches. And the height of the growing season, the months of June, July and August, was the wettest part of the year: June had a rainfall of 12 inches, July, seven inches, and August, six. Incidentally, 70 per cent of the month of the year—only 6 of an inch of rainfall.

LAST CHANCE TO REGISTER

For Ration Book 1 Offered Till Jan. 15, Board Here Announces

If you have not registered for Ration Book 1 (the new coffee book) under the War Relocation Administration, you are now one more chance to do so. After that, only a period—maybe a week—may be allowed. You may register with the Floyd County War Office and Rationing Board till office closing hours Jan. 15. After that, you may not do so without coffee, but also the sugar that sweetens it.

The rationing board also pointed to the ruling requiring ration books to be held by men only in the case of the United States or dead to be returned at once. Infants should be registered for Ration Book 1 within one month after birth. John Stephens, clerk of the board, said: "No 10 sugar stamp, now good, is valid till midnight Jan. 31. No 28 stamp out of the market as of that day for one pound of coffee till Feb. 7, midnight."

To aid new merchants who could not file records of coffee sales in order to get coffee quotas, the OPA has ruled that coffee dealers may transfer coffee within the trade on the authority of purchase contracts issued by OPA to wholesalers and coffee companies. Coffee supplies may thus be procured by new dealers till Jan. 28.

The dealers will be required to file their quarterly inventory reports.

NOTICE TO SUBSCRIBERS

A statement of your subscription account with The Floyd County Times reaches you every week. It's on your paper, opposite your name. To save time bookkeeping and mailing expense we have changed the method of marking your expiration date. Starting this week, instead of using figures to indicate the month and day your subscription expires, we are printing only the last month and the year of expiration. For instance, John Doe's address on the paper might read: "John Doe, Feb. 42."

Although John Doe's subscription might actually expire Feb. 10, he will get the paper till the last day of February on that day, if he has not renewed, his name will be removed from our mailing list.

This is a look at the date opposite your name. All subscriptions marked Dec. 42 and Jan. 43 will be cancelled, unless renewed, on Feb. 21. No other notices will be mailed. The subscription price, as you know, is \$3 a year.

Consistent of newspaper supplies and reduced revenues make prompt cancellation of all delinquent subscription accounts a necessity.

Last Rites Held Here Dec. 27 For Mrs. Julia Mayo May, 64

Friends and relatives from a wide section of the nation joined Tuesday last week, in paying tribute to the life, which ended on the preceding Sunday, of Mrs. Julia Mayo May, 64 years old, wife of Congressman A. J. May, of Prestonsburg.

Mrs. May died at her home here Sunday afternoon, Dec. 27, at 2:30 o'clock after months of suffering. The last tribute of friends and neighbors here and of acquaintances made during her husband's 12 years as Representative of the Seventh district of Kentucky in the national Congress was paid at her funeral, two days later.

MRS. JULIA MAYO MAY

In ill health for several months, Mrs. May was returned from Washington to her home here a few weeks ago, by special train. Although little hope was entertained at any time of her recovery, her passing was an occasion of deep sorrow to all who knew her.

Daughter of the late J. D. Mayo and Mrs. Anna Porter Mayo, she was born Dec. 28, 1878, near Prestonsburg, of pioneer Eastern Kentucky stock, her family relations were most of the older families of the county.

One of Five Floyd Brothers, Reported By Navy Department as Wounded

Samuel Hicks, one of the five who has been in the navy more than four years, and who had been believed by relatives to be on the same ship with Samuel, "does not know" of his brother's status, as reported by the Navy Department.

Crack-Down On Draft Delinquents Promised; All Must Carry Cards

Selective service headquarters in Washington announced this week that "vigorous action" against draft delinquents would be started by the Justice Department February 1.

The action will be directed against men "believed to be delinquent by reason of failure to keep in touch with their local boards as required." Selective service estimated their number at "less than three-tenths of one per cent of all registrants."

In connection with the campaign, selective service issued these two orders: Beginning February 1, "all men in the 18 to 45 age groups who for six months or more have been subject to registration" must carry their registration cards or risk penalties as great as five years in prison and a \$10,000 fine.

Local draft boards shall mail notices to all delinquent registrants immediately and report to U. S. district attorneys those who do not "comply with their obligations during January." The boards also are to review the records on delinquency and keep them up to date, notifying the prosecutor when each delinquent complies with his obligations.

The requirement that the 18-to-45 registrants—who include many men deferred by the recent order lowering the maximum draft age to 37 years—carry classification cards will enable them to "know that they are in communication with their local boards and have been classified as to availability for military service," the announcement said.

Registrants who do not have classification cards or have lost them should communicate with their local boards before February 1 and obtain them "so as to avoid charges of delinquency," it added.

The service said most delinquencies were believed "due to negligence or lack of understanding of selective service regulations," and reported that the record of 0.3 per cent delinquency among all registrants compared with 4.5 per cent delinquency before 1917-1918.

Headquarters reminded board members that the Justice Department was charged with enforcing the draft act and making any necessary arrests or prosecutions.

DO YOU WANT A BABY?
 New Vitamin Combination Brings Hope to Childless Homes

Nothing equals a baby to bring complete unity and happiness into the home and its husband and wife together in a stronger bond of enduring love and mutual interest. Divorce is rare in the homes of couples that have children.

Unhappy wives, childless due to relative functional weakness may now enjoy the desires and activity of Nature's most wonderful creation - a normal, fully developed, vigorous woman. A sensational new vitamin treatment specifically for women may be just the thing needed by the childless wife and quickly bring the happiness of a baby in the home. It is, of course, absolutely harmless.

If you are childless due to functional weakness and lack normal vigor - if you wish to eliminate one of the great causes of unhappy marriages, by all means try Perlex for one week. NEW YORK CITY—Pleasure cars on Times Square were scarce when the lights on the morning after the OPA's emergency order, banning the sale of gasoline to holders of "A," "B" and "C" ration cards, went into effect. Once jammed with honking motor cars, "The Crossroads of the World" was quiet with only a few scattered taxicabs, trucks and buses in sight. Reluctant to use the little gas they might have left, New York's motorists look to the subway as soon as the order went through. Seventeen states on the Eastern seaboard were affected by the ruling.

COAL OUTPUT
TOPS RECORD

1942 Work Reviewed
In the Big Sandy,
Hazard Fields

Lexington, Ky., Dec. 29.—Miners of
the Big Sandy and Hazard fields
today have broken all previous pro-
duction records of the previous 15
years, Sam Caddy, president of Dis-
trict 30, United Mine Workers of
America, said today.

The Big Sandy and Hazard fields
include approximately 140 mines and
employ about 25,000 men, he said,
with 60 to 80 per cent of total
production being used in war indus-
tries.

In a year-end review, Caddy said
production could have been increased
in 1942 if the demand had been
greater and if transportation fac-
ilities had been available to haul the
coal from the mines.

"Our boys are beating all produc-
tion records for the last 15 years,"
he said, "and we can produce even
more if we had the orders for coal
and the cars to haul it away. We
have the capacity to produce far
beyond our present output, without
using any more men."

The district president said that
"we're quite willing to work a six-day
week" if there is a demand for it.

Opportunity School
Term Begins Feb. 2

Berea College is offering from
Feb. 2 the Opportunity School,
which for 18 years has been a mid-
winter attraction for many men and
women throughout Eastern Ken-
tucky. The four-week session is
planned for adults who are not in
school but who enjoy and profit by
the opportunities presented on the
college campus. There are no en-
trance requirements, grades or cred-
its and the classes are designed to
fit any educational level. Morning
hours are devoted to informal
classes conducted by well-known
members of the faculty, while work
is done in the various industrial
departments in the afternoons.
The evenings are filled with folk
games, reading, music, and the
plays, sports or special lectures and
concerts given at the college at that
time.

The announcement that this
year's Opportunity School will be
held in February may be of interest
to rural teachers whose school terms
close at that time. Fresh materials,
handicrafts, songs, games, stories can
be gained with special attention
will be given to more technical con-
ducting problems should there be
several teachers who desire it. Mem-
bers of this group have come from
various occupations—farmers, car-
penters, ministers, housewives, com-
munity workers, older youths, fac-
tory and mothers—anyone over 18
who feels the need of new stimula-
tion and training. The program
this year will be adapted to the
more immediate needs of the present
crisis.

Folders and further information
can be obtained from the office of
the secretary, Bertha College, or
from Miss Mary P. Dupuy, director.

Newspaper Men Staff:
Down at the White House one of
the staffers showed the President a
mid-westerner's editorial attack.

"I want to show you how few some
people can get," said the White
House staffer.

"Oh," replied FDR brushing it
aside, "those editorials aren't worth
the paper they're written on."

H. R. Knickerbocker's bride re-
turned by boat the other day from
London. Two passengers were
frightful bores, she was telling John
Gunter, so she conceded that before
getting on the ship a fortune teller
had told her, "You'll never live to see
your 30th birthday."

"Ha!" said one of the bores.
"That's a good one."

"What's good about it?" groaned
Mrs. Knickerbocker. "My 30th birth-
day is two days hence!"

The trick worked, all right, for the
bores stayed away for two days, but
so did everyone! Including all the
submarines.

Several Broadway characters were
joking discussed when in walked a
columnist.

"I wonder," someone wondered,
"what his hobby is?"

"Collecting," retorted another,
"dirty hobby."

One of the New York gazettes sent
a photographer down to China to-
day morning. The assignment:
Get picture of a Chinese reading
most Chinese built-in radios. The
papers about the Allied victories, etc.

The news photographer had no
difficulty finding a willing Oriental—
who refused, however, to be photog-
raphed. "Take a picture from back,
please," he said.

"Why?" asked the lens-lad. "Eash-
!"

"Nup," was the reply. "But this
isn't a Chinese newspaper. It's a
sign saying 'Get Your Clothes at
Barney's!'"

Kingling's "Washington Is Like
Fiat" is still among the best-sellers.
It's most engrossing chapter,
we think, concerns the FBI. . . . The
throughout of the bureau is almost
incredible. In the Mattson kidnap-
ing case, 24,000 possible suspects
were eliminated by the FBI. . . .

Only one perfect crime
was ever reported to the FBI. Not
a word was said about the man
and woman who did the killing are
influential members of their commu-
nity and would inevitably demand
huge damages if their identity were
hinted at. . . . The bureau knew
when the murder was committed
and the wife and husband were
hinted at. . . . The bureau knew
when the murder was committed
and the wife and husband were
hinted at. . . .

It's always interesting to trace
the origin of words. Maj. Paul Raborg
reveals in "Might and Might"
(Whitlessy) how the war tank got
its name. The British built the first
tanks during the last war in com-
plete secrecy. Even the workmen
who built them didn't know for what
purpose they were being made. They
were told the machines were to be
used in Egypt for transporting large
containers of water, and every rec-
ord in connection with the tank
factory was made under the heading
"water-carrier." Eventually the
men in the factories adopted the
word "tank" for brevity. The name
stuck and is now used by practically
all countries.

F. Oeschner's arresting "This Is
the Enemy" has this rity:
Goebbels' Romeing is so brazen,
Germans whisper that if he ever
wanted to hide, he could never be
found—if he slept in his own bed!

It's been Eddie Davis' (the cab
driver-author) ambition to write a
play for Bob Hope. He got that way
one night 8 years ago when he shot
zags at Hope while driving the
comedian home in his cab. Hope,
he says, gave the author a shove to
ban with a push. Last year Davis
collaborated with E. A. Ellington on
a movie script designed for Hope. He
said it ought to be Paramount pro-
duced, it will with Hope. Crosby
and Lamour, in fact, it's called
"Road to Morocco." The up is
Eddie's, too. But he had sold it
already, and the screen credits list
Frank Butler and Don Hartman as
authors. So until Hope reads it,
he won't know that "Road to
Morocco" is Eddie Davis' way of
"showing him!"

Notes of a New Yorker:
Washington's Louise Atwill, who is
the ex-wife of Gen. MacArthur, was
being driven home from a party the
other night by a Senator. . . . "Have
you ever been sorry," he asked,
"that you are no longer a great
General's wife?"

"No, Senator," she said, "I
nearly always regretted it."

"But," he butted, "you would
not be making history."

"Who made history with Napo-
leon?" asked the Senator. "Marie
Antoinette or Josephine?"

The big news on the Home Front
is still the expanded rationing pro-
gram set up by the Office of Price
Administration. It is a part of the
democratic process of assuring that
our food is fairly apportioned and
that a sufficient supply is kept
available.

It is worked out as a balance of
our own domestic needs, the needs
of our allies, who must have the
very best, and the needs of our
Allies who are helping us in the
fight to keep Axis oppression from
our frontiers. The OPA was created
by the Department of Agricul-
ture to undertake the rationing
of virtually all commercially pro-
cessed vegetables and fruits—canned
and frozen vegetables, fruits, juices,
dried fruits, and all soups. It is expected that this food-
rationing program will begin in Feb-
ruary when the mechanics of the
system will be ready to roll. The
reasons for announcing the program
this far in advance may be found in
the magnitude of the job to be done
before rationing can begin. War
Ration Book 2 must be distributed
to our families and 500,000 OPA
volunteers must be recruited and
trained to handle registration. Food
wholesalers and retailers must be
instructed in the plan and trade
meetings must be held from coast to
coast.

The consuming public itself must
be adequately informed on the use
of War Ration Book 2 so that it will
know how to use it when the
program starts.

Who registers for Book 2, it will
be required to make a declaration of
all commercially processed fruits
and vegetables in the individual's
household, and stamps will be re-
quired accordingly before the card
is issued. The national acceptance
of the program has been highly
gratifying, for in only a few instanc-
es have there been any unpar-
tisan rashes of hoarders who
buy extra stocks of canned goods.

This far-reaching step may be
taken by consumers as a sign that
the OPA and the Department of
Agriculture will keep the food situa-
tion under firm control and that
adequate diets will be assured to
everyone.

An entirely new program for the
war-time control of retail food
prices is simplifying OPA regu-
lations applying to food stores,
while at the same time paving the
way for specific dollars and cents
price controls. This important
feature of the program will be
effective in only a few days. The
foods will now set off effect next
month.

The forthcoming program—work
of many months—is a major fea-
ture of the simplification of retail
pricing that Administrator Leon
Henderson described as "well
along."

A simplified type of regulation
setting fixed mark-ups for differ-
ent types of stores and actual dol-
lar and cent prices in many cases
will provide retail food dealers with
ceilings for all meats and for all
important lines of groceries. This
simplified program will replace more
than a dozen individual price regu-
lations that have contained a var-
iety of pricing methods. Few, if
any, food items will remain under
the general maximum price regula-
tion.

The dollars and cents part of the
program will begin with meat and
snaps, and will be extended as rap-
idly as possible to other groups of
food store items. Actual selling
prices will be officially established
and published by OPA, community
by community, in key population

THE HOME FRONT

More than 50,000,000 pounds of
American seeds to replant Allied
farmland—some of it recently freed
from Axis domination—have been
purchased by the Food Distribution
Administration since the beginning
of the lend-lease program, the De-
partment of Agriculture reports.

Most of the 50,000,000 pounds al-
ready have been delivered for ship-
ment.

Ladies take care of that old umbrel-
la! Shortages of steel, fabric, and
manufacturing facilities have
placed the manufacture of umbrellas
under definite restrictions as to
style, size, weight, and number of
ribs. The life of a "pe" umbrella can
be prolonged by a few simple pre-
cautions such as brushing to see it
clear of dust before taking it out in
a rain; shaking it before opening it
to prevent jamming of the ribs;
making sure a wet umbrella is laid
before closing it; and taking care
not to bend the ribs. Silk umbrellas
should be given a good wetting
down occasionally. Oiled silk or
white cotton umbrellas can be
scrubbed clean with mild soap and
water, while the colored cottons are
best cleaned by brushing with a
soft brush.

When the fabric becomes too worn
to be of any use, any woman can
re-cover an umbrella from a yard
of 39-inch plain cloth by using the
old covering as a pattern.

Installation of a million ceramic
fireplace grates this winter will save
30,000 tons of cast iron.

Privately-financed conversion of
houses and buildings to create ad-
ditional accommodations for war
workers and their families will be
granted the same high ratings given
publicly-financed conversion
projects.

The United States Public Health
Service is launching a national sur-
vey of graduate, registered nurses
the first week of January.

Employers and soldiers themselves
must initiate action to obtain hon-
orable discharges from the army of
over-38 soldiers to return to essen-
tial jobs in war industries.

Present pepper supplies now stored
in this country are ample to
cover our requirements for the next
two years, and rumors of a price in-
crease in this commodity are utterly
without foundation.

Responsibility for determining
when a two-mile walk to school
prevents "extreme danger" or "ser-
ious physical hardship" to pupils
rests with the local authorities, and
not the ODDT.

Top priority of AA-1 has been
given to delivery of critical mate-
rials necessary to manufacture farm
machinery.
