This is an invitation to everybody. Those who do not believe in their government ...

All others—that is to say, all good Americans—are urgently invited. They are invited to stand up and be counted. The counting will take place Saturday morning ...

It is true, we could unbribelessly go as individuals to our banks and buy these bonds. But it is feared not enough will do this ...

Don't forget the day and hour—complete sales ...

A jury of 12 Pike county men began hearing evidence Wednesday in the trial of Wesley N. Martin, Allen farmer, who is charged with murder in the slaying of Willie Martin at Allen last year.

Circuit Judge Henry Stephens, Jr. ordered veniremen summoned Tuesday from Pike, holding that it would be an onerous task to empanel a jury from this county because of the wide relationship of those on the opposite sides in the case and because of wide discussion of the slaying.

The case is not expected to reach the jury before Friday. The grand jury adjourned Saturday after returning 27 indictments and will reconvene April 22 for a three-day session. Major incidents reported since last Thursday follow:

COOK CITED FOR BRAVERY

Floyd Man's Conduct On Torpedoed Ship Evinces Praise

Word has been received that Spencer Cook, 19, seaman first class, U. S. Naval Reserve, son of Willie Cook of Crestmont, has been awarded a letter of commendation by the Chief of Naval Personnel.

The letter awarded reads: "The Chief of Naval Personnel takes pleasure in commending you for your conduct as a member of the armed guard crew of a U. S. merchant vessel when that vessel was torpedoed and sunk by an enemy submarine.

"A report of the occurrence indicates that without warning the submarine suddenly appeared out of the darkness and at close range began attacking the vessel, making the deck from bridge to stern with a continuous and terrific barrage of shell fire, causing numerous fires to break out. Although handicapped by the loss of their commanding officer and three of their shipmates, the members of the crew already at their posts remained at their posts in an attempt to resist their attack until the gun fire ceased at their posts until all hope of saving the burning ship was lost.

"Your courage throughout the attack and subsequent heroic white drift in a lifeboat, was in keeping with the best traditions of the Naval Service."

6 JOHNS CREEK BROTHERS IN ARMY

Only One of Seven Brothers Remains Outside Service

Sixth of the seven sons of Daniel Webster Blackburn, 58-year-old Buffalo Creek farmer, to enter army service, leave for France today, another is expected to enter soon, and "I'm ready myself, any time," the father said.

The Blackburn army roster follows:

Pvt. Everett Blackburn, Indiana; Gap, Pa., entered army Feb. 2, 1942.

Pfc. Allen Blackburn, inducted June 14, 1942; stationed at Benicia, California.

All Able-Bodied Men, Aged 18-38, To Be Inducted; Ky. Quotas, Less

All Able-Bodied Men, Aged 18-38, To Be Inducted; Ky. Quotas, Less

3-B CLASSIFICATION WHOLLY ELIMINATED; 3 GROUPS EXEMPTED

The oft-changed Selective Service system underwent another revamping this week as preparations were made to induct into the armed services this year every able-bodied man between the ages of 18 and 37, inclusive, except the following:

1. Men employed full-time in essential farming.

2. Men irrefragable in essential non-agricultural jobs.

3. Men whose induction would mean "extreme hardship and privation" to dependents.

The changes in classification swept away dependency deferments for childless married men, added thousands of men to the "fatherless class" created by special class for men whose induction would mean extreme hardship, and eliminated altogether the 3-B classification established a year ago for men with dependents and engaged in essential occupations.

Manpower Commissioner Paul V. Mappone, who has general charge of Selective Service, said the revision of regulations is intended to post-pone call of fathers as long as possible, but it was indicated that the job of raising the armed forces to a total of 10,000,000 men by the end of World War II is the present plan on the induction of fathers by about July 1.

Selective Service laid down for the first time in the past that the governing father as a father, as far as it is concerned, is directed that local boards shall classify in 8-A—the division for fathers maintaining a bona fide family relationship with a child or children—men with a child or children, born before Sept. 16, 1941.

The effect of this new rule is under general review as reason for deferment a child conceived at a time when there were reasonable grounds for the father to believe it might be inducted.

The special hardship class was denoted 3-D and boards were instructed to classify in men whose induction would cause "extreme hardship and privation" to a wife, child or parents bona fide family relationship. In this class, for instance, might be placed the childless husband of an invalid wife, or a single man with a care for a widow or invalid mother.

Hereby said that some states, on the basis of present figures, would have to start inducting men within three months ahead of others. But he added that the gap was steadily being diminished by quota allotment and that he will now begin to wisp out. Permission to draft fathers will be given simultaneously in all states, he continued, but each local board is authorized to set its own schedule. He indicated this class only when they have to do so to meet quotas.

In this connection, official figures disclosed that there are not enough children men aged 18 to 37, inclusive, to meet quotas for three months, since quotas now run above 390,000 a month.

THE 2nd WAR LOAN DRIVE IS ON!

America...you've got to get tougher!

AMERICA — Let's be frank about it . . . so far, many of us back home have been fighting this war from an easy chair. Many of us have bought War Bonds out of extra cash, out of money we didn't miss too much. We haven't been really tough with ourselves. But this war is a hard, down-to-reality war. And many of our boys are dying in it.

We've got to buy MORE
 So your government asks you to buy Bonds and more Bonds — to get really tough with yourself. We're asking you to give up the frills and "extras" for the rest of this war.

We know how human it is not to make sacrifices until the crisis drives us to it. In England they felt the same way until the bombs started falling. Now they can't do enough!

Bombs are such persuasive things. But just as persuasive ought to be the spirit of our brothers, sons, husbands — who are ready to give all. Think now . . . what are your dollars, compared to their lives?

If you could see
 Look at it this way — suppose you had a magic carpet that could take you to Africa and New Guinea. Suppose you could hear the groan of American boys wounded, and American boys dying . . . Say now, how many Bonds would you buy?

That kind of war
THEY . . . are dying. And they will keep on dying until we drown the enemy in an overwhelming torrent of bombs, bullets, guns, tanks, planes, ships, and shells.

That's why we're asking you, in this one month of April alone, to lend Uncle Sam 13 billions of dollars — by buying War Bonds. 13 billions of extra dollars — over and above any buying that you'd be doing anyway!

A lot of money
 Of course, 13 billion dollars is a lot of money. It'll take sweat and tears to raise it. It'll mean going *without* now. But also—it will mean savings now—to buy later. It'll mean giving up *everything* you can't square with your conscience, so that we, us, our children,

can have a better, more decent place to live in when this war is won.

The drive is on
 So during this month of April, if someone calls on you to ask you to buy War Bonds in this 2ND WAR LOAN DRIVE, will you buy to the limit—and then buy more?

Better yet, will you go to your Bank, Postoffice, or wherever you're used to buying your Bonds — and buy NOW? Will you lend extra money this month? Money that can hasten the day of Victory? Money that can help to save American lives—perhaps your son's or your brother's or your husband's—by helping to shorten this war?

Money buys money
 Remember, what you're really buying with your money is still *more* money. For after all, these Bonds are *money!* Money plus! Every dollar you put into War Bonds will bring you a dollar plus interest. So the more Bonds you buy the better for you. Americans Get Tough— with yourselves — for your country.

GET RE-CAPS No Certificate Necessary

A rationing certificate no longer is required to have passenger car and light truck tires re-capped with re-claimed rubber.

The action, approved by Rubber Director William M. Jeffers, is designed to reduce the demand for replacement tires. Re-capping requires about half as much reclaimed rubber as a new "war tire."

Balance Your Meals Against Your Budget with LOW-COST MENUS & RECIPES

Thinking that we could be of some help to housewives in the vast problem that confronts them under rationing, we are now publishing periodically a folder entitled "Health for Victory." This folder contains low-cost menus and recipes for breakfast, lunch, and evening meals and for lunch boxes as well.

By following the suggestions in the folder, your family will be assured of receiving economical as well as nutritious, healthful meals. Interesting and exciting new recipes are also included, along with other suggestions for wartime economy.

Our suggested wartime menus can be followed in other cooking methods to advantage... however, the many thousands of our customers who now cook electrically are assured that Electric Cookery retains a high percentage of valuable minerals and vitamins.

We are endeavoring to supply all of our customers with this folder, but if you fail to receive your copy, it is available at our customer's desk.

The figures showed there are no more than 1,752,000 draft-age children men left in Classes 3A and 3B, from which they will be re-classified under the revision announced today.

If the usual rejection rate of 43 to 55 per cent holds true for this group, less than 1,000,000 of them could be inducted, and an uncertain number are certain to be deferred for farming, irreplacability of hardship.

1-C. Member of land or naval forces of the United States.

2-A. Man necessary in his essential civilian activity.

2-B. Man necessary in the war production program.

2-C. Man deferred by reason of his agricultural occupation or endeavor.

be appreciated," County Agent Lebel said.

Practically every good troop in the county was represented at Tuesday evening's meeting; all are taking part in the survey.

"The time has come," J. J. Rice, executive secretary of the Kentucky Salvage Committee, said, "when our steel mills again are clamoring for scrap metal. Inventories in the hands of dealers declined in January and February. Dealers report that scrap flowing into their yards has decreased from 90 to 75 per cent. Unless we continue the collection with determination we again are in danger of seeing steel mills closed. If this happens, we will have a recurrence of the 1942 situation that lost us the production of 5,000,000 tons of tanks, airplanes, ships and guns."

It is planned to obtain an itemized report on each farm during the April survey. The report will contain such information as location and nature of the scrap whether the farmer wishes to sell or donate it, and whether any of it needs to be cut before it can be hauled away.

If Kentucky is to meet its 1943 quota of 285,000 tons for the first six months, Rice said, the drive for farm scrap will have to be conducted with unusual diligence.

Weeksburg, Ky., April 13 (Sp.)—Mr. and Mrs. M. J. Hall were pleasantly surprised last week when their son, Lt. Edgile V. Hall, U. S. N., arrived home on a short leave. Lt. Hall flew from San Francisco, Calif., thereby saving three days more for his leave at home.

In the past several months he has been in the Coral Sea and in the Solomon Islands, and was in several engagements, including the Battle of Guadalcanal Nov. 13-15 in which 23 Japanese ships were sunk and many others damaged.

Lt. Hall, who wore four medals for his service, spent a few days visiting relatives and friends and then proceeded to the East coast where he will join a new ship.

SERIOUSLY SPEAKING

Two wounded soldiers win Purple Heart. That's fine, we like to see them get 'em. And there's many who are deserving do not get medals simply because many deeds of Americanism, performed the wide world over, cannot be cited every time.

"It's great to know you're helping!"

"Sure, I know I'm too young to carry a gun and be a Ranger like brother Bill, but I'm helping all the same in every way I know how. THE OLD JUDGE SAYS...

"Looks like a pretty expensive cigar you've got there, Judge." "Yes, it's a real good one, Bill. Won't you get down at the cigar store yesterday. He got pretty positive in a discussion we had and I had to take him up on it. Bet me three good cigars to my one that the three states that still have prohibition have less crime than the other states. Well, all I had to do was step across

the street to my office where I had some recent F. B. I. figures in my desk drawer. Why, on the average, those three states have a worse crime record than the whole rest of the country. And there's a good reason for it, Bill. There's no such thing as a dry community. It's only a question of whether liquor is sold legally or illegally. And when it's sold illegally it means boot-leggers, gangsters and more crime."

WET OR DRY?

Compiled by MRS. EDGAR R. MAY

George Washington denounced drink as the "source of all evil and the ruin of half the working men in the country." In 1871 General John J. Pershing said: "Banish the entire liquor industry from the U.S.; close every saloon, every brewery; suppress drinking by severe punishment to the drinker, and if necessary death to the seller or maker, or both, as traitors, and the nation will suddenly find itself smothered at the efficiency and started at the increase in its labor supply. I SHALL NOT GO SLOW ON PROHIBITION. FOR I KNOW WHAT IS THE GREATEST FOE TO MY MEN—GREATER EVEN THAN THE BULL-LETS OF THE ENEMY." We need extra labor in the industry today!

"My experience through life has convinced me that abstinence from spirituous liquor is the best safeguard for morals and health."—Gen. Robert E. Lee. "The U. S. Supreme Court has declared in several decisions that saloons cause more crime, more misery and more pauperism than any other source."—Crowley V. Christensen, Supreme Court Reporter 13. "THERE ISN'T A TROT IN THE HOGSHEAD OF BEER. There isn't an idea in a whole brewery."—Theodore Roosevelt.

The four great scourges of mankind have been drink, war, pestilence and famine, and DRINK has been MORE DESTRUCTIVE than war, pestilence and famine combined."—Gladstone.

"You had better use for my brain that of FRODOB with alcohol. I put alcohol in the human brain is like putting sand in the bearings of an engine."—Thomas A. Edison. "If you expect to stay in the game, leave alcohol alone. It gets you sooner or later."—Walter Johnson of National Baseball Fame.

"Beverages alcohol," says the doctor who knows, "gives you a red nose, a broken eye, a white liver, a yellow STREAK, a green brain, a dark brown breath and a blue outlook." Dr. Arthur Hunter, Actuary of N. Y. Life Ins. Co., figures that every drink costs the moderate drinker 25 minutes of his life, in addition to his money.

"YOU CAN GET ALONG WITH A WOODEN LEG but you can't get along with a wooden HEAD! Today that your brain may be clear, you must keep your body fit. That cannot be done if you drink liquor."—Chas. Mohr, M.D.

"ALCOHOL IS A MAJOR CAUSE OF INSANITY."—Dr. Thomas Parn, Surgeon, Gen. U. S. Public Health Service.

After such indications against liquor as the above, the wets, who seemingly refer to the drys as "Prohibition Fanatics," should take a back seat. "You'd do well to remember that it is not the fifth, the sixth or the ninety-sixth glass that may get along with a wooden HEAD! Today that your brain may be clear, you must keep your body fit. That cannot be done if you drink liquor."—Chas. Mohr, M.D.

"FOR EVERY MAN LIQUOR EMPLOYMENT PUTS FOUR OUT OF EMPLOYMENT!"

Beauty Denied Child In Life Is Hers After Death

Chicago, April 8—The beauty that touched the gentle and childish heart of a poor little girl and drew attention that she was denied to her in life came to her in death yesterday.

Nine-year-old Marie Tremblay, eldest of six fat-free children, was the victim of a simple tragedy burned to death when children with whom she was playing tossed lighted matches on her dress. Her flimsy cotton dress caught fire and she suffered fatal burns.

Mrs. Elva Tremblay, her devoted mother, had no funds to bury her fragile daughter—even with the simple honors Marie had always drawn baby blues and other creatures. It appeared that her casket parlor was to be the county morgue and her burial place a pauper's field.

But the city's more fortunate were quick to pay homage to the little girl who was to leave a poverty-stricken home for a pauper's grave. There were offers of expensive family burial lots in private cemeteries; several volunteered to meet all funeral expenses, and contributions of various amounts were pledged. A factory worker collected \$85 from his co-workers, policemen at the west North avenue station volunteered to underwrite funeral expenses. There were contributions from scores of others. Marie was buried in her first and last party dress, the gift of her teachers at the Pickard school. And on her little white lamb's wool coffin was a wreath of white carnations and gladioli—from her schoolmates.
