This Town-- That World

Suggested song that You've Put Grammas in My Grumman. You're welcome--don't mention it!

VOICE OF EXPERIENCE After considerable mental wrangling, Sam Isbell this week came up with an explanation of why Papa takes Junior to the wood shed. That's so his rear will be protected from Junior's mother while papa does his duty.

A CAT'S TALE This being the month of June, the month of the great god Hyman and all that, I had an idea, the other evening, it would make a nice story to catch a tom-catt carrying a love offering to his lady-love, and so I watched our zentlemann cat do his stuff. What excited me curiously was his behavior after catching a mouse. Instead of playing with his catch he immediately left the room. For one month, I stalked him as he moved across the yard, leaped onto the upper railing of the fence and started walking. Suspecting the critter's plans for the evening, I kept watch. Now wouldn't it be something to catch him carrying a mouse to his friend? And when he left the fence and started across a neighboring garden it occurred to me that the girl friend had kittens and he was taking home the bacon as papas sometimes will, if they don't stop too long in the liquor store.

But what that cat was thinking of doing remains a mystery. After disappearing from sight, he came back, or he re-appeared, mousetail between his teeth, upon himself back onto the fence, descended and walked back across the yard and onto the porch.

And, whatever noble intentions he might have had, whatever vague instincts inspired by the season he may have moved him to behave so strangely, Tom's baser instincts got the better of him, once back on the porch. There he plopped himself down and with dispassionate greed ate the little mouse all up.

GASTRO AND RATION BOUQULE The guy who drank a pint of whisky, threw a T-bone steak for supper had a nightmare that night. He was being chased from pins to point.

ADVERTISING Somebody at the courthouse has installed a new bulletin board where the boys are using for advertising things they have to sell. B. Brown, Elton Kendrick, J. Hill and others had "taken space" on it Wednesday when somebody took remainder of the board with this reminder: "Advertisement in the FLOYD COUNTY TIMES."

NO, NO! I have been asked to write something about Frank Levine and the adhesive tape he used while gardening, about Carl Brown and how he tried to coast from the top of Bent Mountain to Williamson in order to save gas, about Russell Hagwood bringing a fish in, barchanded, after breaking his fly-rod. But I stop!

SPEND DAY IN LEXINGTON Mrs. Jo M. Davidson, Mrs. Ruth Sowards and Mrs. Claude P. Stephens accompanied Mr. and Mrs. Garland Rice, of Paintsville, to Lexington Monday for the day on business.

FLOYD LEGION POSTS NAME OFFICIALS

District Convention To Be Held Sunday At Wheelwright

Floyd county's three American Legion Posts this week announced their new officers. The annual district convention of officers having been held in anticipation of the Tenth district convention which will be held at Wheelwright Sunday, June 20. Unofficially Wednesday by THE TIMES, Wheelwright Post officials were unaware of convention plans. A former officer of the Post had accepted in behalf of the Post the convention for this year, and apparently had failed to notify his successor. The other Post officers of the fact when he moved to another town.

We are deeply distressed because of our inability to entertain our visitors as we should like to," said Leonard Becker, commander of Wheelwright Post, "but the lack of notice makes it impossible for us to be the sort of host we sincerely want to be."

District Commander Albert K. Moore, Salersville, announced that because of the misunderstanding, only the business session will be held, beginning at 1:30 p.m. Sunday.

Floyd Post No. 129, Prestonsburg, Saturday night elected George T. Roberts, Prestonsburg, to succeed W. C. Rummel, chairman of the Post. Other Floyd Post officials named are: Joe Meadows, Martin J. Leete, Jr. and Joe Hobson, vice-commanders; W. G. Africa, adjutant; P. C. Hall, finance officer; J. B. Clarke, chaplain; L. S. Moles, historian; Marvin Marshall, sergeant-at-arms; Joe P. Tackett, service officer; Marvin Marshall, child welfare officer; W. C. Rummel, public relations officer. The committee is composed of Joe Hobson, R. G. Francis, F. C. Hall, Marvin Marshall, J. R. Hurt, Arnold Cassidy. All new officers of the Post are from Prestonsburg, except Mr. Meadows, of Sloan, and Mr. Cassidy, of Lantry.

Wheelwright Post is re-elected Leonard Becker commander and also named him service officer for the year. Other officials of the Post are: C. Robinson, finance officer; Jeff Gibson, adjutant; J. C. Osborne, first vice-commander; H. (See Story No. 3, Page 8)

2 WOUNDED IN COUNTY

Weeksday Gunplay Is First in Months For Left Beaver

Left Beaver's first gunplay in months resulted Thursday night in the wounding of two men at Weeksday. Jim Edd Raines, owner of the restaurant in which the shooting took place, is in the Martin General hospital with a revolver bullet wound in his abdomen. His condition was said Thursday to be satisfactory. The bullet entered his abdomen, emerging from his side and nicked his liver, it was said at the hospital.

Johnny Skiles, a bystander, was shot in the leg. He had not been hospitalized Thursday.

Police Chief Harve Childers, of Weeksday, said the shooting was "understood" that Mrs. Raines shot the men during a tiff of general shooting in and about the restaurant. The men have not been arrested at noon Thursday.

MAY DECLINES TO COMMENT ON CALL FOR RESIGNATION Congressman A. J. May, home from Washington on a brief vacation, declined this week to comment on a resolution of the House calling for his resignation because of his support of anti-strike legislation.

Mr. May, instead, issued the following statement: "I have always supported Labor in its just demands and will continue to do so in the future. The question of wages of the miners was not in any sense levied in the consideration of the legislation commonly referred to as 'Anti-Strike'

Long Way from Home, Prestonsburg Girls In Service Meet

Special to The Times Los Angeles, Calif., June 8.—Although they are a long way from home, two young women from Prestonsburg, Ky., one a member of the Women's Reserve of the United States Marine Corps and the other a WAVES, met recently in this city.

The women are St. Cassie Jean Patrick, 20, daughter of Mrs. Jim Edward Frazer, of West Prestonsburg, and Keenan Emma Alice Collins, daughter of Mr. and Mrs. Mont Collins, Prestonsburg. When Yeaman Collins walked into the Marine Officer Procurement Office here to visit St. Patrick she said she read in THE FLOYD COUNTY TIMES about the latter's assignment to duty at this station while she was en route to San Diego, Calif., near here, to take up her new post with the WAVES.

The two were acquainted in Prestonsburg, attended the same schools and both boast of being the first women from Floyd county to enlist in their respective branches of the armed forces.

Sergeant Patrick, United States Marine Corps, was assigned to be a guest along with seven other women Marines, on the Ginny Simms program Tuesday night, June 22. She is an ambassador for the Marine Corps Officer Procurement in Los Angeles.

MINERS WORK FULL WEEK

Uneasy Truce Prevails Over U.S. Coal Fields; Dispute Unsettled

Floyd county's miners are observing a full six-day work week as an uneasy truce prevails over the national coal fields.

The still disputed port-to-port issue. Secretary Tamm's imposition of a 91-day fine on workers for each day they were idle.

Mr. Tamm later modified the fine on the basis of the miners' refusal to refund the miners amounts of their fines.

Meanwhile, on President Roosevelt's desk was the anti-strike bill which was given final approval by the Senate Saturday night. If he signs it immediately, further work stoppages would be outlawed. If he permits it to become law without his signature at the end of 10 days, work could be stopped without violation of the new act.

The measure would forbid strikes and seek to curb picketing activity in government-operated industries, plants or mines.

It provides fines and prison terms for any person convicted of instigating or encouraging a strike in a government-operated mine or plant, and legislators said doubts debate that it frankly was aimed at Lewis, whose United Mine Workers' latest strike in their fight for higher wages is due to expire next Saturday midnight.

William Green, president of the American Federation of Labor, appeared directly to the President to veto the measure.

Lewis himself, who was roundly assailed in Congress for permitting work stoppages in the mines, had no comment on the measure.

The War Labor Board, which would be given new powers—including that of subpoenaing—by the bill, would have to take into consideration of the port-to-port (underground travel time) pay issue.

Floyd Countian Who Was Bombardier On Famed "Shanghai Lil," Is Major At Age of 24, Veteran of 38 Raids

"Our bomber was Shanghai Lil, and what a job was she!" Major W. E. Sutton, Jr., son of Mr. and Mrs. Ed Sutton of Lanesville, did a bit of reminiscing here this week about the noted Liberator bomber that carried him and his crew on 37 or 38 separate bombing missions—"I'm not certain which figure is correct"—during 300 desolate combat hours over North Africa, the Mediterranean and Italy.

Shanghai Lil had the picture of a naked woman on her side but there was nothing naughty about her, declares Major Sutton. She behaved. You could go out in this bomber, famous for her assault exploits and make more famous in the folk-babe form by Life and other magazines, and "feel at home" under your own roof, so to speak. She would come back looking like a sieve where Axis cannon and machine gun fire had blasted her—but she always came back.

But this is not the story of a bomber named Shanghai Lil. It's the story of a Floyd county boy who rode the plane as an bombardier from the time Montgomery started the offensive at El Alamein that saved the Suez Canal, and possibly the whole Middle East to the United States all the day last February when he aid others of his crew were forced down near Smyrna, Turkey and interned.

Secretary Tamm's imposition of a 91-day fine on workers for each day they were idle.

HALL, VICTIM OF PARALYSIS

Baptist Pulpit Veteran, 70, Succumbs Tuesday At Melvin Residence

Elder Hiram Hall, 70 years old, a minister of the Regular Baptist church for 35 years, died Tuesday afternoon at his home at Melvin to paralysis. His death followed a long period of ill health.

He was born August 5, 1872, the Reverend Hall was a son of the late William and Elmer Bolen Hall, who came to this county from Knott county. He spent practically his entire life at Melvin where he was a farmer, turning his week-ends to ministerial labors.

His wife, Martha Hall died 22 years ago. Survivors are two sons and two daughters. Robert Bruce, C. W. Harold and Lawrence Hall, Mrs. Pearl Johnson and Mrs. Della Chanaan are his daughters. He also leaves three brothers and two sisters: M. T. Hall, Hall, Ky.; Albert Hall, Melvin, T. J. Hall, Tennessee; Mrs. Bessie Ann, Wheelwright; and Mrs. Diana Riddle, of West Virginia.

The funeral will be conducted from the residence Friday morning at 10 o'clock, the Rev. F. A. Hopkins officiating. Burial will be made in the Tackett cemetery at Melvin under direction of the Gull Funeral Home.

Some Floyd Contains Beat Gun on Season, Some Face Hearing

The frog season in Kentucky did not open till Tuesday, it jumped the gun, says Floyd courtiers "winked."

Of those who thus violated the law, one Right Beaver Creek man was fined \$10 and others this week by County Judge E. P. Hill and others are to face trial, L. J. Gerlach, Allen, Floyd county conservator officer, said this week.

MAJOR SUTTON town, a small town boy who made some big towns in Africa and in Italy tremble 'neath the impact of good American-built, American-dropped bombs.

It's the story of a youngster whose nerves are so steady, who will talk in such matter-of-fact tones of "flak" and Messerschmitts and bomb runs that you'd think if you hadn't read in your easy chair about such perilous matters, was all safe and easy. Some of the boys did crack up, nerves shattered, and they were not to blame, they were not brave—but not young Sutton.

"When I went aboard, I had no idea but that I'd come back," he said. "The only thing I ever changed my mind about returning home was over Budapest. Our commander was not sure about it, but I thought I'd go. I'd been in the air about 100 hours and I was getting a little bored. I'd been in the air about 100 hours and I was getting a little bored. I'd been in the air about 100 hours and I was getting a little bored."

Major Sutton said he was over an Allied airfield in the western desert. "We were down only 100 feet from the field, but when everything happened, I explained. 'We are the British were supposed to be here, but we were not. A single strafed and machine gun bullets swept our plane. Four of us were wounded. I was hit in the arm. We finally learned that the bomber had blasted us from behind with cannon, passed us, then turned its machine guns loose. Yeah, he got away—far as I learned, he got away. Our group went out unscathed, and had little trouble from lighter plane attack. He described this to the fact that the Liberator had the enemy's outposts. The Messerschmitt was the best enemy plane I saw in action and his plenty good. We didn't see much of the P-51's either."

Major Sutton went into the army as an aviation cadet, August 5, 1940, went to Africa in July, last year. (See Story No. 1, Page 8)

Three Floyd Soldiers Reported Wounded In North Africa

Within the week since publication of THE TIMES, three Floyd county soldiers have been reported by the War Department, as having been wounded in the Tunisian fighting.

Extent of their wounds and all other details were lacking. Their names and addresses of nearest relatives follow:

Pvt. James B. Daniels, son of Mrs. Elsie Daniels, Garrett, and Claude P. Frady, Jr., son of Mrs. Fannie Frady, Wayland; Pfc. Hershel Hamilton, son of Mrs. Oella Hamilton, Ivel.

TAKE PRUSSKY BACK TO NAVY

Deserter in Jail Here 3 Months After Taking 'Bride, Horse Attached'

Joe Anthony Prussky, the may deserter who was held in jail here for three months after taking a bride while it was attached to a horse, was taken this week to the Louisville navy recruiting station after spending three months in jail here.

He and two army deserters, Orlin Kidd of Bell Creek and Carmel Kidd of the Mud Creek section, were taken to Louisville by Deputy Sheriff A. C. Carter and R. T. Allen. Fields and Kidd were taken to Ft. Knox.

ASKS SHERIFF TO KEEP EYE ON CARNIVALS

Allen States Duty Of Officers; Says Gaining Practiced

Floyd County Sheriff Allen Stephens today asked the county attorney to keep a watch eye on carnivals and circuses that come into the county. He said that such activities are not permitted in this county.

The Commonwealth's Attorney Stephens appeared at the county attorney's office today to discuss the matter. He said that such activities are not permitted in this county.

In the past at this time of the year we have carnivals coming into various towns of the county, sometimes for a week or more and for a few days. It seems that without exception all operate amazin' devices. These devices are usually operated in violation of the law, as well as in violation of other laws of the state. It is your duty as Sheriff to see that no such person or persons are permitted to operate in this county.

This request is made in this instance. (See Story No. 2, Page 8)

GAS, SUGAR INFORMATION

Given by Ration Board Clerk; New 'A' Book Procedure Is Told

John Stephens, clerk of Ration Board No. 38 here, today gave information to the holders of Gas Ration Book A and to those who have filed applications for ration cards.

The information was given at a meeting held in the county building from 8:30 to 9:30 p.m. Tuesday. These forms must be completed and returned to the application of the books of your A book and your tire inspection record, Mail to Ration Board No. 38, Prestonsburg.

"The Ration Board clerks will process your applications and mail you a book and tire inspection record to you by July 21, the date of expiration of your A books."

There will be issued, some time before fall coming, coupons for remaining gasoline, and the application after deducting the amount due on stamps 15 and 14.

"It is not necessary for you to bring your A book to the Ration Board in regard to the application for gasoline stamps. They will be mailed to you by the centers in the county where they may make application."

It may not be necessary for you to call, come in or write about your rationing stamp.

TRAINING SHOP DOOM HINTED

Appropriations Grow Leaders Fight To Kill NYA; Senate To Act

With the annual House of Representatives appropriations bill, the House is fast to kill off the National Youth Administration, the end of the NYA, means almost certain, it is believed.

It is believed that the NYA will be eliminated by the House of Representatives. The Senate is expected to act on the matter.

The House of Representatives is expected to pass a bill to eliminate the NYA. The Senate is expected to act on the matter.

WIFE, SONS OF GARRETT MAN WITNESSES OF HIS DROWNING

While his two young sons were in the boat with him and his wife looked on helplessly to save the life of Ed Wood, Mrs. Wood, George's wife, and his two sons, were witnesses of his drowning.

Having been an employee of the State of Kentucky, Mr. Wood's body was recovered from the base afternoon boat by wading in the river, though unable to swim. He walked unaided into a boat, where his death while Mr. Wood and two sons watched from the opposite bank of the stream. The two boys, Jack, 13, and Ed, Jr., 9, succeeded in pulling the boat to shore.

Besides his widow, Mr. Wood is survived by three sons and one daughter: Joe, Marcell, Jack and Ed, Jr.

Revival To Begin At Holiness Church

A revival will begin at the Holiness Church here June 27, continuing till July 11, the pastor, the Rev. Roy Woodman, announced.

The Rev. G. J. Tackett, evangelist, will conduct the services each evening at 8 o'clock. Mrs. Leonard Frady, special singer.

GARRITT ATTENDING PASTOR'S SCHOOL The Rev. W. B. Garritt left Monday for Winchester, where he is attending the pastor's school which is held annually at Wesleyan College. He will return Saturday. He was accompanied by Mrs. Garritt.

OPA Officials List Questions Folks Most Frequently Ask

Louisville, Ky., June 11.—These questions asked: these most frequently asked of District OPA officials in the last few days. They are probably applicable to the problems of readers and should be of value to them:

Q. I have a summer home, where we have been accustomed to living every summer for a period of about three months. To drive from that summer home to my place of employment will require approximately 1,100 miles per month and the present from my regular place of residence I need only 700 miles per month. To what jurisdiction should I apply for my mileage requirements for the one having jurisdiction over my regular place of residence or my summer home? Can an additional mileage be granted? A. You would be under the jurisdiction of the board where you are now living, unless you actually moved to your summer home. Your board would not grant any more mileage than you are getting at present, namely, 700 per month.

Q. Is there a ceiling price on photography services? A. Yes, practically all types of skilled photography service are covered under Maximum Price Regulations and the supplier must not charge more than his March, 1942, maximum price as determined under this regulation.

Q. After using Stamps No. 15 and 16 for five pounds each, how much additional sugar can I obtain? A. If it is shown you can obtain up to 15 pounds additional sugar for each member of the family, on the basis of one pound of sugar for each quart of fruit you will consume.

Q. Can I exchange tires from the car I now have if I buy another car with worse tires? A. With permission from your local rationing board you may shift your tires but proper tire inspection records must be set up for future inspections.

Q. How can boarders living with families to whom they are not related apply for War Ration Book III? A. They should make out separate applications. If the mailman hasn't delivered sufficient applications they may obtain others from the general delivery window at the postoffice.

Q. I have two sons in the armed forces. How can I buy enough rationed food for them when they are of the armed forces on leave for 72 hours or longer should obtain a ration certificate before leaving camp. This certificate should be turned over to the person named as the provider of his meals who will have 15 days to turn it in to the board for food certificates covering sugar.

Q. I have a "B" book issued to me for driving to and from work. Can I use this book for an occasion when I may use the amount saved for pleasure driving or for vacation purposes? A. This would constitute a violation of the regulations, because the "B" book is given to you for an occasional purpose on the assumption that alternate means of transportation are not adequate.

Q. My grocer has asked me for my red and blue stamps that I did not use during their valid period. Should I give them to him? A. No. If for any reason you yourself had and prevent the spread of black market operations.

Q. For several years I have been troubled with hay fever and my doctor advised me that it would be best for me to go to a climate where I will not be afflicted with this condition. May I obtain a special ration to drive to that location? A. No. Local boards cannot grant special rations for a person to drive to more favorable climate, even though a doctor's statement may accompany the application.

Q. My summer home, where I need fuel for cooking and heating hot water, is located 75 miles from the city in which I live. Where do I apply for a ration? A. Your ration board in the city in which you live has the right, where it finds it is an undue hardship for a person to obtain a ration at the board which has jurisdiction over the community where your summer residence is located, to issue a ration.

THE BLUEPRINT FUTURE

No more worries, no more care. No more future need to fret. Everybody'll get his share from his country. Wanna bet?

No more forging to the front—It was something of a crumb—Dead the "regs to riches" stunt. Laws will do it all in time!

Once the old trail-blazing way Of the St and tough and free, Government will see that they find trails opened by decree.

No more "shack to palace" stuff—Out with "May the best man win"—Smoot will be all his journeys rough—Congress will protect YOU! chm!

No more strong types pressing on—No more extra-feathered nests—Bid the pushing type begone! Bar the whiskers from all chests!

No more Algers—not a one! No more blackbacks making good—Legislation will, my son, See to that, it's understood.

No more hare-and-tortoise games—(Hares will be controlled, and Tortoises will get the same—Breeds that hares are getting now.)

No more "Upward, onward!" cries—No more praise for armbank keen; Everybody lives and dies On the lower mezzanine.

No more boozing to plan, No more "upward to the sky"; Welcome to the standard man, Each one like the other guy!

No more "hitch your wagon to some far star" that brightly gleams! Be a planner who Also standardize your dreams.

Where is the spring that should be here? Where are the songbirds, gently hum—Gone are the snous of yesterday—But more keeps coming.

A half dozen men convicted of black market men operations will be given jail sentences in New York. We understand they are already figuring out ways to "cut the terms" behind the sentences and get around the whole matter.

If the black marketers go to the hospitals, the food will be of a quantity and quality to give them plenty of cause for complaint.

The height of irony would be one of these meat racketeers behind the bars lamenting, "The place ain't so bad, but the food is awful."

The trouble with many people is that when they speak of getting down to business they think more about the bed than the rock.

Importance of Salvaging Tin Cans Stressed

Tin is a precious metal in our country today. With about 10 per cent of our former supply of tin cut out of war in the Pacific, it became necessary to share tin rationing from tin cans used in every home in the country.

Before the war, Americans used about 17,000,000,000 tin containers every year. Most of these were tin cans and found their way into the rubbish heap. Now that tin cans are going to war, it is important to get the tin out of the tin cans and use it for the war effort.

The way to start tin cans on their way to war is to have them carefully removed or sold in 100 and 500 lots, take off paper labels and step on the cans firmly.

The prepared tin cans you turn into the war effort are shipped to the detinning plants, where 10 per cent of them are used to make the solution which removes the tin. The tin is in reality a steel cylinder coated with this layer of tin.

The real value of tin is in the fact that there is no satisfactory substitute for tin in its many war uses. Tin is used in the production of airplane motors, guns, hand grenades, torpedoes, in warships and submarines; tin inlets go to companies producing cans and containers for food, both for your own use and for the troops abroad and the men at sea, still other inlets go to the technical laboratories and special factories producing supplies for the army and navy medical corps and for emergency supplies used by the soldier himself in the field when wounded and waiting assistance.

No more spectacular proof of the essential service of tin in this war has appeared than the "svelte," Army and Navy Medical Corps tin hypodermic syringes. Every army and navy medical corps officer and doctor carries a supply with him. Every army and navy nurse uses them. Every medical paracolonist, every flight surgeon, carries an extra supply.

Every long range bomber is equipped with these little tin hypodermics. So, too, is every field and naval hospital. Sirettes are standard equipment in every jet, jungle kite, aeronaetic kite—used by soldiers, sailors, marines, coast guardsmen who must fight alone.

Your tin cans contribute to the making of these little angels of mercy that will help to save the lives of thousands of our fighting men. It is possible that the tin cans you save will eventually find their steel in a cannon sending shells toward the enemy on the European front, while their tin, 15,000 miles away, covers the little svelte, which gives a wounded American soldier the relief necessary to preserve his life until aid reaches him.

It is necessary for every woman to save the tin cans used in her home. Remember the procedure for preparing a tin can: thoroughly remove or fold in top, take off paper labels, step on firmly and place in a basket or box for collection.

IN THE DISTRICT COURT OF THE UNITED STATES FOR THE EASTERN DISTRICT OF KENTUCKY

Pikeville Division IN BANKRUPTCY NO. 102

In the matter of ANDREW JACKSON ALLEN, Garrett, Ky., Bankrupt.

Notice is hereby given to the creditors of the above styled bankrupt that on the 8th day of May, 1943, the said bankrupt was duly adjudicated such in the above styled court; and that the first meeting of the creditors will be held at the law office of J. B. Clark, Prestonsburg, Ky., on the 8th day of June, 1943 at 10 o'clock A. M., Eastern War Time, at which time the creditors may attend, prove their claims, appoint a trustee, examine the bankrupt, and transact such other business as may properly come before said meeting.

This June 8th, 1943. GROVER C. WILSON, Referee in Bankruptcy.

Magneto Sales & Service Hoffsted Magneto & Electric Co. 605 4th Ave. Huntington, W. Va.

THE GARDEN

By JOHN S. GARDNER Kentucky College of Agriculture and Home Economics

BORDEAUX MIXTURE Rainy days, with hot and cold winds between, make an ideal time for Bordeaux mixture.

Blight is the leafspot disease that attacks the leaves of tomatoes and those of potatoes. Sometimes it attacks the stems of these plants, too. It is quite under control, but plants that have been even part of their lives cannot be satisfactory crops.

The control is to appropriate Bordeaux mixture, which is a mixture of copper sulfate and lime. The Bordeaux mixture is made by dissolving one pound of copper sulfate in one gallon of water, and one pound of lime in one gallon of water, and mixing the two solutions together.

On the Cuproicide package, directions are given for its use, but here follows the formula by which Bordeaux is made:

In 5 quarts of water, in a some crock, or a wooden pail, dissolve a pound of blue vitriol, having it in a cloth sack so that the lower tip is immersed in the water. Thus arranged, the crystal form of vitriol will dissolve in an hour with no attention, but the powdered form can be dissolved by stirring, to be ready for instant use.

In the tank of a knapsack sprayer, put 5 quarts of water and a handful (4 ounces) of hydrated lime and stir. Then pour in a quart of dissolved vitriol, place the cover and shake the tank end-wise, 10 times, to make 2 1/2 gallons of 4-4-30 Bordeaux. It should be used immediately, and the tank should be washed out thoroughly with no delay, to keep the metal tank from being eaten. The vitriol water should be put into a stone or glass jug, ready to use when the next sprayful of Bordeaux is to be made.

If leaf-staining insects are present, one teaspoon of lead or calcium should be added a rounded tablespoon to the gallon of Bordeaux. If for the Mexican beetle, manganese arsenate should replace the other two just mentioned, as they sometimes burn tender foliage.

Balbo eye surpassed other small grains in growth in Allen county this spring, providing necessary feed for livestock.

NOTICE

Notice is hereby given that the estate of J. B. Clark, deceased, is being administered by the executor, J. B. Clark, Jr., of the County of Boone, State of Kentucky.

"ATHLETE'S FOOT" I Learned This

The athlete's foot is a common ailment that is caused by a fungus that grows in the warm, moist environment of the shoe. It is characterized by itching, burning, and blisters between the toes.

Cuproicide Yellow. Unfortunately, however, it is not so universally obtainable as the copper sulfate and lime.

On the Cuproicide package, directions are given for its use, but here follows the formula by which Bordeaux is made:

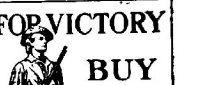

In 5 quarts of water, in a some crock, or a wooden pail, dissolve a pound of blue vitriol, having it in a cloth sack so that the lower tip is immersed in the water. Thus arranged, the crystal form of vitriol will dissolve in an hour with no attention, but the powdered form can be dissolved by stirring, to be ready for instant use.

In the tank of a knapsack sprayer, put 5 quarts of water and a handful (4 ounces) of hydrated lime and stir. Then pour in a quart of dissolved vitriol, place the cover and shake the tank end-wise, 10 times, to make 2 1/2 gallons of 4-4-30 Bordeaux. It should be used immediately, and the tank should be washed out thoroughly with no delay, to keep the metal tank from being eaten. The vitriol water should be put into a stone or glass jug, ready to use when the next sprayful of Bordeaux is to be made.

If leaf-staining insects are present, one teaspoon of lead or calcium should be added a rounded tablespoon to the gallon of Bordeaux. If for the Mexican beetle, manganese arsenate should replace the other two just mentioned, as they sometimes burn tender foliage.

Balbo eye surpassed other small grains in growth in Allen county this spring, providing necessary feed for livestock.

IF THE GOVERNOR WANTS A FAIR PRIMARY

THE heart of the situation exposed by the federal indictments for election fraud in Harlan County is that the same county election commission that served as the primary election board at the election of March, 1932, and in the utterly fantastic Senatorial and Congressional election of last November, which is the basis of the present indictments, will serve again in the August primary unless something is done. The three commissioners are themselves among these under indictment.

One of them, the sheriff, who serves as clerk, has said he will not step aside. But surely a way can be found to take the other two appointees of the State Board of Election Commissioners out of the picture. The law requires a primary to be held in the county where the election is to be held. The law does not require that the election be held in the county where the election is to be held.

So if Governor Johnson and his candidate Lyster Denton, want a fair primary, the first thing for them to do is to find a way of getting rid of those two election commissioners, and putting in their places men capable of public confidence inside and outside Harlan County. And if the board wants to be fair to the voters, it should want to be fair to the voters in the county where the election is to be held. It should want to be fair to the voters in the county where the election is to be held.

Hector C. Smith is the boss of the Democratic wing of the Harlan County Camera. He is not under indictment, but the shenanigans obviously were under his eye. He is an advisory highway engineer, but the shenanigans obviously were under his eye. He is an advisory highway engineer, but the shenanigans obviously were under his eye.

The extension of assorted favors to the octopus in the form of liquor licenses and the like should be halted forthwith. Especially, that anomalous "courtesy card," granting the powers of highway patronage, to one of the indicted men, should be revoked along with any others like it which may be outstanding in Harlan County or elsewhere.

Finally, Mr. Donaldson—and the other candidates should make a thorough study of the election laws. Obviously, something is wrong with the laws under which the returns from Harlan County are made. At very best, a matter of cynical amendment to the whole state. Perhaps the present laws rely too much on the assumption that politicians of opposing parties can be depended upon to watch each other. This assumption has already proved the downright alliance in Harlan County. In any case, the laws need study and the people need constructive suggestions on the subject from the present candidates.

Honaker Man, Buddies Down Messerschmitt At Tunisian Field

Pat. Fred Clark of Harlan, this county, is reported to have been killed in a plane crash at Tunisian field. The other two members of Clark's party were also killed. The plane was flying over the Tunisian field when it crashed. The plane was flying over the Tunisian field when it crashed.

AMBA TO DIE

Reverend Ambrose, a prominent member of the church, is reported to have died. The cause of death is not yet known. The church is holding a service for him. The church is holding a service for him.

Maybe it will be said that these are counsels of perfection. Maybe old Senator Ingalls of Kansas will be quoted: "Purity in politics is an indecent dream." Maybe we will be reminded that such are the occasionally sordid realities of effective political organization. As seen by the governors, that Senator Ingalls himself will frame with a Hague of Jersey City or a Kelly of Chicago. Maybe we will be asked, what good will be served by simply handing over the Harlan County machine, which appears intractable and which is after all a powerful vote-getter, rather, a vice-controller, to some opponent who won't be fussy about accepting it and whose interest in government is presumably more selfish than Governor Johnson's or Mr. Donaldson's?

The answers are simple and practical. Whatever can be done at Frankfort to insure that the primary in Harlan County will involve the machine and by that much, give voice to the good people of the county. Good people abound there, people who resent election thievery as bitterly as anyone could. Their misfortune is that the one force which could most effectively challenge the long political domination of the coal operators is in the "operator's" camp. The leaders of the miners' union sympathize with the operators in these matters. The combination of union and operator bosses is a hard thing to beat. Nevertheless, it can be beaten, and the people of the county who vote their votes, will be the best to beat it if given half a chance.

There is this further consideration: The Harlan machine is, as we have already said, essentially bipartisan. It was as tender to Representative Robison last fall as it was to Senator Chandler. Fundamentally, of course, it is anti-New Deal. The operators despise Mr. Roosevelt, but no less so does the national leader of the miners, John L. Lewis. What the Harlan machine, if it is left undisturbed, if it continues to be nourished from Frankfort will do to the Democratic party in 1934, is something that will make the machine's past performance in elections seem anguic and serene. —The Courier-Journal.

FEDERAL SCHOOL AID MOVES UP A STEP

The federal school aid appropriation bill, at least, has budgeted from its hitherto dormant position. A subcommittee approves it for favorable consideration by the Senate Labor Committee. Fundamentally, of course, it is anti-New Deal. The operators despise Mr. Roosevelt, but no less so does the national leader of the miners, John L. Lewis.

The appropriation provides an annual emergency fund of \$200,000,000 during the war to be appropriated among the states on a school attendance basis, and another \$100,000,000 annually to equalize educational opportunity, distributed on a basis of school enrollment and wealth. Kentucky would receive about \$9,000,000 from both funds and \$4,700,000 annually after the war.

The sole condition is that each state shall maintain its own provisions at the level of the last school year, and the only objection offered is that repeated a few days ago by the Lexington Leader. The Leader professes to fear, "would be extended over the schools" to "determine standards, select books, prescribe courses of study, exercise control over types of buildings and equipment, fix salaries and determine job conditions." This has been the history of all federal aid projects.

The Leader astonishes us. Is this what has taken place at the University of Kentucky during these many years it has been receiving quite a bit of federal money right in the city where the Leader is published? Is that what the Leader is afraid of? Is that what the Leader is afraid of? Is that what the Leader is afraid of?

We have 96 Senators in Washington, all representing states, two from Kentucky, and 435 Congressmen representing districts within states, nine from Kentucky. Many of the states will receive little or nothing from the annual appropriation, and all contain hundreds of local school districts. The federal government is to give \$10,000,000 more to Kentucky and the state puts up nearly \$10,000,000 to the proposed \$4,700,000 federal grant. If a conceivable motive existed for members of Congress to invest a federal agency with authority over the school systems of 46 states, they wouldn't do it.

The idea is a fantastic absurdity, but the school crisis in Kentucky is stark reality which should engage the active, earnest efforts of our Senators to promote the early passage of this bill. —The Courier-Journal.

Floyd Farm Committee To Meet Here Friday; To Aid Labor Search

Floyd County's Farm Labor Advisory Committee will meet at the county courthouse here Friday to discuss the recruiting and placing of farm labor from this county. County Agent S. L. Isbell announced the meeting.

R. H. Lockett, district farm labor supervisor and Lawrence Bradford, both of Lexington, will meet with the county committee. Members of the committee, which is composed of farmers from all parts of the county, will be asked to assist in other sections of the state or nation and to help place farm labor. The committee is expected to be organized soon through work of the county agent.

Breakridge, Meffice, Trimble and Washington counties report large increases in the planting of hybrid corn this year. To avoid missing an issue of THE TIMES renew your subscription now.

Lemora

Leona straightened the objects on her desk with great care. She had just finished her work for the day and was about to leave the room. She was looking at the desk and saw a small object that she had not noticed before.

"What is that?" she murmured. She picked it up and looked at it. It was a small, round object with a hole in the center. She had never seen anything like it before.

"Dear Mr. Morgenbaur," — "Get that?" — "Yes, madam." — "I am here—thirteen years old and anxious to be of all possible service to the country at this time, about \$1.37 a weekly income of from \$1.37 to \$2.12 by helping to clean up the snow."

"I am here—thirteen years old and anxious to be of all possible service to the country at this time, about \$1.37 a weekly income of from \$1.37 to \$2.12 by helping to clean up the snow." — "I am here—thirteen years old and anxious to be of all possible service to the country at this time, about \$1.37 a weekly income of from \$1.37 to \$2.12 by helping to clean up the snow."

Willard H. Clatworthy Commissioned Ensign

Willard H. Clatworthy, son of Mr. and Mrs. John Charles Clatworthy of Lacey, last week was commissioned an ensign in the U. S. Naval Reserve and will report June 28 for temporary active duty at Fort Schuyler, New York City.

Frady Found Dead In Wayland Mine, Heart Victim

Found dead Monday night inside the Wayland mine of the Elk Horn Coal Corporation, of which he was top inspector, Hugh Frady, 51 years old, was declared by a coroner's jury to have died of a heart attack.

Heavy Crop Damage Caused in County By Recent Rains

Heavy crop damage resulted over widely scattered sections of the county last week when small streams were sent rampaging by downpours. Wayland and vicinity particularly suffered from flash floods. Steels and Mill Creeks were heaviest hit.

What You Buy With WAR BONDS

One of the most essential articles of equipment for our soldiers is his canteen. In equatorial countries and in other warm climates they are especially important to the welfare of our fighting men.

The canteen, now being largely manufactured of plastics, costs about 43 cents. The canvas cover is about 1 cent. Buy 100 of all your purchases of War Bonds, or People's Bonds, will buy many of these for our men in the Solomon Islands or in Africa where they are badly needed. Buy War Bonds every payday. At least ten percent of your money goes to the United States Savings plan. U. S. Treasury Department.

AN AMERICAN CITIZEN

TOM RANEY WANTS MARY'S RESIGNATION Tom Ranev, of Pikeville, as all you voters remember, was very strongly opposing May in the election that gave him the right to represent the people in Washington.

MEN WANTED

IMMEDIATELY FOR LARGE LOUISVILLE MANUFACTURING COMPANY Transportation furnished. Rooms available. Good pay, with time-and-a-half for all over 40 hours.

Company representative will interview and hire at the U.S. Employment Service, June 21-22, Paintsville, Ky

Apply in person. Persons now employed in the mines will not be considered.

Stricken Saturday night by a heart attack at the home of his daughter, Mrs. T. J. Bentley, of Allen, William Lee Miller, 76 years old, died the following day.

He was a son of the late Abe and Mrs. Katherine Hale Miller and was a native of this county. For 29 years a member of the Free Will Baptist Church, he was a highly respected citizen of the Allen community where he had resided for years.

Survivors are his widow, Mrs. Margaret Sartin Miller, three sons and four daughters: William Miller, Switzer, W. Va.; Mrs. J. J. Bentley, the Revs. Isaac Stratton and A. L. Allen officiating. Burial, under direction of the Ryan Funeral Home, was made in the Birmingham cemetery on the Auxier road. Graves county was crops include: 50,000 bushels of corn, 800,000 bushels of sweet potatoes, 1,000,000 bushels of sweet corn, 25,000 bushels of beans, 30,000 bushels of soybeans.

LETTERS TO THE EDITOR

REPLIES TO "HOT SHOTS"

What about Wayland Hot-Shots by R.H. in the issue of June 10, 1934? We take it for granted that a person knows whereof he speaks when he writes an article to the paper.

If this writer is stating a fact in his article when he says that "mining is the only industry in Floyd county," then we wonder what about the 4,000 farmers, the gas and oil business and the other people who think they are in industry.

Again, if he has purchased more bonds than the richest man in this county, then he makes a revelation that the miners had plenty of money and that does not harmonize with the recent statement of John L. Lewis, that the miners are poorly paid and poorly fed.

The representatives of Lewis said last week of Mr. May, "You have shown you are the modern Judas of this county and the people are wondering about this accusation and who they think he is Judas to—Lewis or his county."

Mr. R. H. admits that he is getting \$675 per day and that is not pauper pay. If the miners are buying more bonds than any one else—what about the report that as much as 80 per cent of these bonds are being cashed almost as soon as they will permit?

There are plenty of men in Floyd county who are not making more than two or three dollars per day and they are having to pay the same price of 12c a pound for potatoes and 14c for cabbage.

There are many people who are not receiving more than \$675 per year. What about the people who are receiving fifty dollars per month for the use of their homes? How would you like to exchange places with the man at the front?

What about the wife and family of the soldier who is in the service who is receiving \$40 per month and who is fighting for the protection of R.H. and his family while he is receiving \$200 per month? How would you like to exchange places with the man at the front?

This is no time to be stirring up confusion among people or letting the Nation down for we have a war to win or lose. If we lose, Mr. R.H. will not be receiving \$675 per day and especially so if Hitler gets in charge.

Tom Ranev Wants Mary's Resignation

Tom Ranev, of Pikeville, as all you voters remember, was very strongly opposing May in the election that gave him the right to represent the people in Washington. Mr. Ranev fought to the last, trying to have May defeated. News men in Washington is a step to help Japan win this war, or does he realize that?

Why Things were Lots Better When I Received a Dollar a Day

Why things were lots better when I received a dollar a day. I have seen a miner yet that is starving. Even so, while the miners work they should not work for John Lewis but for our boys who are fighting "Hell in High Water." Why do you strike? This is a question of appeal, higher wages would only vanish and you would not see for what they were going, so why not be content? The other day, a mother who lives close to me received a letter from her son across the water. In this letter he asked about the coal strike. He said that there wasn't a boy there but what did not call John L. Lewis the lowest names that could be thought of. The other day, a mother who lives close to me received a letter from her son across the water. In this letter he asked about the coal strike. He said that there wasn't a boy there but what did not call John L. Lewis the lowest names that could be thought of.

Miss Martin, Ensign Conley Wed Here, May 26

Announcement is made of the marriage of Miss Miriam Martin, of Eastern, to Ensign Hollie Conley, of Garrett. The ceremony was performed on May 26 at the Methodist Church in Prestonsburg, the pastor, the Rev. W. B. Garrison, officiating. Misses Virginia Osborne and Lula Martin were the only attendants.

The bride, attractive daughter of Mr. and Mrs. W. S. Martin, Eastern, is a graduate of Berea College and for the past year has been employed as secretary to County Home Economics teacher at McDowell. Ensign Conley is a son of Mr. and Mrs. Willis Conley, Garrett. He is a graduate of the University of Kentucky and is now in the navy, stationed at Jacksonville, Fla., where he and his bride are residing.

Clay-Stafford Nuptials Announced This Week

Announcement was made this week of the marriage of Miss Thelma Virginia Clay, formerly of West Prestonsburg, to Staff Sgt. Darryl J. Stafford, of Ft. Riley, Kansas. The ceremony was performed June 2, by the Rev. Drury H. Fisher, of the Presbyterian Church at Manhattan, Kansas. The young couple is residing in Manhattan, Kansas, until Sgt. Stafford is transferred.

THE SEVENTH ANNUAL ALL-DAY Memorial Meeting AND Basket Dinner WILL BE HELD Sunday, June 20 W. PRESTONSBURG

- 1. DINNER ON THE GROUNDS. 2. COLD DRINKING WATER. 3. SPECIAL MUSIC AND SINGING. 4. PREACHING THROUGHOUT THE DAY. 5. LOUD SPEAKER INSTALLED.

This is an annual event, attended by hundreds. Ministers from far and near will participate. Get out into the open air for this day, if for no other—meet your friends and rejoice in the Lord. Old-fashioned singing and preaching. You are urged to attend. In case of rain, the meeting will be held from the church. W. Prestonsburg Assembly of God G. R. FANNIN, Pastor

The Midnight Express

Walt Disney's "Victory Through Airpower" film, taken from Secretary of War's office, is being shown in theaters in Washington. It reveals what every man can do in a plane that flies as fast as the lightning bolt. It is the first of a series of films that will show the first Ford planes, working on what they hope will be the fastest air yet. A tiny hundred hp. job as simple to manipulate as the Model T. Mr. Whiskers just collared a woman agent here whose powers were right out of a spy film. Posing as a Navy nurse with all the proper apparel, etc. Worked the midtown bar, talking to servicemen, and had even married three of them.

Bob Burns, the ex-farmer, has done a series of recordings for the Dept. of Agriculture, to encourage the growing of peanuts. They are christened "Bobby's Own." The cigar rationing for troops at Guadalcanal. Two cigars weekly. In April the ration was four. Although he's been in the Army a year, Carol Bruce sends her manager 15 per cent of her wages.

The sets for the film, "Attack by Night," will be replica of actual New York town with all OWI support. Hollywood's veteran cameramen, now in the Army Signal Corps, are taking six-week refresher courses. They must know how to hold a camera "correctly." And to develop negatives! Miss McCracken adopted children according to court buzz. The Mills Brothers start a trek back to the Big Time with a tribute spot in "Beats with Beauty." Gen. Lewther, who does the "Superman" program, was the first page boy hired by NBC.

The Navy reminds girls that a WAVE or SPAR may request their assignments, but they must do their work. The duties are varied: Aeronautics, for instance, or radio communications, stockpiling, parachute rigging, and so on. Elton Finner, a singing cowboy, recorded "There's a Star Spangled Banner Waiting in the Wings." Made him a high bracket man. To date, 900,000 records.

The Wireless: R. Harkness, the Washington reporter for WEAF, was puzzled by the radio call from Russia, advertising the aid from their allies. Harkness revealed that Pravda, the Soviet newspaper, published a full report recently. The Hays office ruled that Pravda in films shouldn't have American accents. He should listen to the Quisling showman, whose accents are American as hot dogs. You'll find your dial a long time before you catch anything more Hip-Hip-Hurray than Paul Robeson putting the big baritone to "Ballad for Americans." The crossfire act banged over by Gandy and Hope would have been good for a dozen straight weeks at the Palace on Broadway.

The Magazines: The war has landed right in Vogue's lap. That may tell the sophisticated readers, mostly ex-coastals, one of the grimmest truths—that it's hard to read on a bus. Gad, sir, is this America? New Republic's Marjorie Farber says Saroyan's flicker, "The Human Comedy," a chocolatey sea made out of words. Newsweek serials will all the Congressional ballbustle about bureaucracy and states it is all a buildup for the elections. The startling rise of juvenile delinquency is the problem thrust out by Ella Wheeler in the current Colliers. The field, made wide, shows the public opinion of the war. The author reports, in more playgrounds, dancing activities and other healthy forms of recreation to keep them occupied. Remember Mrs. Roosevelt wanted to do that, and was howled down by some "enraged" Congressmen?

It happened in front of the New York Sun where some Newspaper Guild pickets were parading and distributing leaflets. A police car drove up, and a tough-looking Sarge got out. The pickets expected him to break up the line and seize the leaflets, as had happened so many times before. But he merely brushed by and went into the Sun's offices. When he came out puzzled pickets asked: "Aren't you gonna do anything?" "No," he said. "They told them I was blocking the sidewalk. I said they I managed to get into the building. They wanted to know about the leaflets, and I reminded them about the Freedom of the Press."

Jimmy Cagney, according to a letter he wrote to the Norwegian Embassy, revealed that he is part Norwegian. It will be published in a book by one of the Norwegian diplomats. Ever since Cagney married, he has given his wife something green for St. Patrick's day. This year the gift, as green as was a stack of gov't war bonds, was a newspaper, which have debunked wild rumors of clothing rationing, haven't been read apparently. Storey complain of "clothing runs" every weekday.

Washington Merry-Go-Round

DREW PEARSON

Washington, D. C. SOPHOMORE CONGRESSMEN: The President's detailed message with Congress and the House of Representatives on the 15th day after the House of Representatives passed the 1943 Budget. The House of Representatives passed the 1943 Budget on the 15th day after the House of Representatives passed the 1943 Budget. The House of Representatives passed the 1943 Budget on the 15th day after the House of Representatives passed the 1943 Budget.

Object of the luncheon, arranged by Rep. Oren Hatch of Arkansas, is to enable the members to be "censured" each other for not being invited to the White House for a party when they were freshmen. Among others, Rep. Sam Rayburn and Eugene Worley of Texas took great delight in joshing Rayburn: "Sam, why can't you get an invitation to the White House?" However, the luncheon took a serious turn when scabby Rep. Edward Hebert of Louisiana lambasted the White House for not consulting and criticizing his colleagues for submitting to White House dictation. He said that only 25 of the 45 Democratic freshmen of the last session survived the November elections. The Louisiana member said: "If a lot of us had paid more attention to our constituents instead of to White House advisers, there would not be so few Democrats today. In the last year of Huey Long's tenure, he controlled both houses of the Louisiana legislature completely. He got up one bill after another. He didn't try to ram through any bills without letting each man know what was going on and making him feel like he had a stake in the program. We in congress haven't been treated like that."

Robert said he felt no enmity against the House leadership, especially to Rayburn. "If we always been very loyal of you, but I've never been able to vote for you on a national ticket. I hope I will be able to cast my ballot for you next year, either in person or running like in the Democratic ticket."

This brought loud cheers from the luncheoners and blisses from Rayburn, who responded with a frankly lecture against those present not to let recessed animosities influence their actions in congress.

AMERICAN BOMBERS

Despite the criticism they may hear of American planes, U. S. airmen who have added the current bombing of Europe say they are just one American bomber is worth five of the British. American planes are heavily armed and heavily armored. Able to protect themselves, they operate in the daylight, with precision bombing, whereas the British planes, flying at night, must lay down a pattern of bombs over a whole area, hoping that the principal target will be hit.

British planes can carry a heavier load of bombs, but the fewer bombs carried by the American planes are more effective. They get straight to the target.

Further, American planes have suffered fewer losses proportionately than the British, both operational and combat losses. In fact the American contribution is so important that the Allies' own bombing of Germany must await the availability of more U. S. planes. About 10,000 U. S. bombers are now concentrated in American bases in England now, and that the current round-the-clock bombings are the big show. Neither is correct. There was a concentration of U. S. planes in England last summer and the fall, made visible through the publicity of the effect of sending the Nazis scurrying all over western Europe to mend their defenses. Then the U. S. air strength was pulled out of England for the mission it had been intended for—the invasion of North Africa.

U. S. air strength in England is now being built up again, and when the time comes the two air forces combined will send the show announced to knock Germany out of the war.

MEXICO BARS MIGRATION

No one is advertising it, but Mexico has elapsed a temporary ban on the recruitment of its soldiers for farm jobs in the United States. This was expected to be one of our big sources of farm labor in the Southwest. However, no Mexican soldiers have been imported in more than a month despite feverish efforts by the Farm Security administration to bring in approximately 50,000.

Mexico is not keen about the recruiting program, and some time ago notified the state department that it was reserving the right to specify the sections of Mexico where labor could be recruited. Reason given was that Mexico couldn't afford to have labor drained from industrial sections. Meanwhile the Farm Security administration has submitted orders for 6,000 Mexicans, but is still waiting for an okay to begin recruiting. Note: So far we have imported 300 Mexican farm workers under 90 day work contracts.

SHIKE'S POKES WAR'S GRIP ON HOUSEHOLD GOODS TO BE TIGHTENED

The news expressed herein are those of the writer and not necessarily those of this newspaper—Editor

It seems to me that every time the OPA sets a price on anything they raise the price on us consumers about 15 per cent. We were buying bacon at 40c a pound and they set the price and it jumped to 47c. Now, even if they roll it back 10 per cent, we'll still be paying 42c. Now, even if they roll it back 40 per cent, in this section since 1941, we bought cabbage for 4c and potatoes for 3c in the latter part of '41, now they're 16c and 8c.

A letter is at hand from Capt. Stan Hays, son of Doug, somewhere overseas, saying he's OK, and then he writes about the home front. He says we should retire those 2nd Smeethers who "think they're generals." He says the army's fighting is planned "way ahead" and then he says we should get a little more help from the home front. He says we should get a little more help from the home front.

While it appears that the civilian will continue to have his basic needs fulfilled, there will be increased limitations on variety, if not on quantity. War Production Board officials, according to the OWI, have estimated that 1943 simplifications will save thousands of carloads of transportation space, millions of square feet of factory warehouse space and add to the country's strategic raw materials by reducing inventory requirements 25 per cent and will increase the total production capacity of the nation's machines by 10 to 20 per cent.

Simplifications already enacted in this war, the OWI said, had cut from "the cranks to the crabs." The new-bears had now shown a change in which the new steel was limited to the new steel which had been used in the war. The OWI said that the new steel was limited to the new steel which had been used in the war. The OWI said that the new steel was limited to the new steel which had been used in the war.

The OWI explained the purpose of simplification is to conserve war essential materials, manpower and machines, said.
