Sewing Machines Again Appear in Kentucky Homes

A machine that once stitched miles of seams for the 80-year-old mother of Mrs. J. M. Peltier in Laurel county, is one of thousands of sewing machines re-appearing in homes over Kentucky...

Farmers Make Fewer Moves, Survey Shows

Moving day is a yearly event for some town families and also for some croppers and tenants, but farmers in the outer Bluegrass counties of Kentucky are tending to 'stay put'...

THE WEEK IN WPB

Must Collect Ration Points While the War Food Administration has not yet issued ration cards, farmers may slaughter hogs from their own farms and deliver the meat without license...

Point Value of Pork Cut Ration point values of all cuts of pork and 100 per. pork sausage were reduced Friday for a limited period...

Citrus Fruits Cheaper Ceiling established Nov. 15 on nine varieties of clear leaf tobacco represent advances of 3.2 cents to 14 cents a pound over 1942 season average.

Admitting that OPA necessarily places many restrictions on consumers and business men, a spokesman for the Louisville District OPA office declares that no complaint is being made for fair criticism...

Cellings on Tobacco Cellings established Nov. 15 on nine varieties of clear leaf tobacco represent advances of 3.2 cents to 14 cents a pound over 1942 season average.

1. A repairman, called in by a housewife to make a minor repair on a vacuum cleaner, told the housewife he would take it into the shop and answered her objection with the statement that 'OPA regulations required him to take all repair work to the shop.'

An average of 352 quarts of fruits and vegetables was canned for every rural family in Letcher county, or a total of 88,282 quarts.

SUPPOSE we could put on a baseball carnival that included Cy Young, Ty Cobb, Babe Ruth, the Speaker, Joe Jackson, Ed Walsh, Babe Ruth, George Sisler, Rogers Hornsby and Hank Wagner. It would be something to look at especially for those who carry memories of other baseball days.

Geno Tunney was called out on a series of fights that knew such names as Jim Corbett, Ben Fitzsimmons, John L. Sullivan, Jim Jeffries, Jack Dempsey, Gene Tunney and Joe Louis. That, also, would be something to see.

Turning Back the Clock When it comes to turning back the clock in Chicago's golf course we can give you Chick Evans, an ex-caddie from the Edgewater, G. C. in Chicago, who was in the game 35 years ago—and who is still good.

We could give you Francis Ouimet, another ex-caddie who at the age of 20, turned back Harry Vardon and Ted Ray, 25 years ago at Brookline in Massachusetts. And he is still good.

It is also pointed out that losses among farmers during the boom were not confined to Grand County and 1929 alone nearly a fifth of all farms in these counties changed hands.

And don't think that Jones and Sarazen can't break 70 today. Haggen, Jones and Sarazen together have won something like 30 national and international championships.

The Modern Group No one could expect Cobb, Ruth, Spalding, Young, Ladd, Hornsby to compete with the present day crop—Ted Williams, Gene Gordon, Bobby Doerr, Joe DiMaggio, Pete Reiser, Terry Moore, and others.

So no one could expect Jones, Haggen, Sarazen and other old-timers to match scoring swings with Byron Nelson, Ben Hogan, Sammy Snead or Craig Wood. But this is one outstanding feature of golf.

They no longer have the physical or the concentrated stamina to hook up shot after shot through 72 holes. This means a twelve or a fourteen-hour grind, where there is no letting up on nerve pressure—where only those who have battled from coast to coast, week after week through many months, are well enough accustomed to go the route. But these old-timers still can play all the shots any of the modern crop can produce.

THE next time you pay your electric bill, remember: A large part of that money goes to blast the Axis. Yes, over 15c of every dollar you turn over to us, we turn over to the federal government as taxes.

FOR VICTORY BUY UNITED STATES WAR BONDS AND STAMPS There isn't any debating the fact that the modern golfers have set a faster pace than old-timers could offer. Their game is more standardized—a 270-yard drive and then a wallop for the pin.

Dean Cooper Deplores Land Price Inflation

A statement deploring inflation in land prices has been issued by Dean Thomas P. Cooper of the Kentucky Agricultural Experiment Station.

Questions are constantly arising about land prices, and whether they are responding to inflation, Dean Cooper said. Land is in strong demand, he said, but steadily and prices have risen considerably in the past two years, he added.

Of the two principal classes of buyers listed by Dean Cooper are farmers who purchase adjoining land, and the city and town persons who buy land as a place to invest surplus funds.

Next inspections due: A book vehicles by March 31, 1944; B's by Feb. 28, 1944; C's by Nov. 30; commercial vehicles every 6 months or every 8,000 miles, whichever is first.

Our Job Is to Save Dollars Buy War Bonds Every Pay Day

When Pearl Harbor burst upon us our great expense of territory was protected by a one ocean navy of about 250 first line ships with an addition of an approximate number building.

Now we are in a dice ocean war and we are in not only to pay for the building of enough ships of the line but also for hundreds of Liberty ships and auxiliary craft. The amount of money you invested in War Bonds when we had a one ocean navy was all right then, it isn't enough now. Buy more and more War Bonds.

1500 "PORTS" FOR TOKYO AND BERLIN! THE next time you pay your electric bill, remember: A large part of that money goes to blast the Axis.

And that's not all! Over 8c per dollar in addition goes to local and state governments—for your schools, roads, police and fire protection.

Altogether, from every dollar you pay us, we pass along at least 24c as taxes. And we do it willingly—in the face of higher costs and lower prices. Since no other electric power is federally taxed, we are often asked: "How can you manage?" Well, by business management—which means: efficiency—economy—careful planning!

est to be what you would want us to be. We will try our utmost to represent our state and county in every part of the world to the best of our abilities and sincerely hope that you will be as proud of us as we are of you.

My country didn't send our mothers and fathers to worry over us because worry is forever associated with gray hair and sickness, and we want our mothers to be as young, well and to grow old gracefully. Our danger isn't that bad as you think, and most of us will return in a very short time. We would just love to know that our friends and families are taking everything in 2000 spirit and making the best of times as they are free from worry, and looking at all obstacles from their sturdy feet. People who live in peace and joy are the best of times as they are free from worry, and looking at all obstacles from their sturdy feet.

I don't guess I'll get to write you much in the future, and it looks like I'll be around here at present. I'm sending this letter by another Floyd county boy who is here with me. I hope that he will live long enough to carry it through. We are both getting transferred today to different ships and it's pretty hard to say goodbye because we had hopes of getting on the same ship. I don't think there's much for me to worry about, though because I'm going on a good ship. Please try not to worry about me and tell everyone I said hello. We will try to visit you just as soon as we can and then come home and get a big spree. I haven't much time now with all my things to pack, but will write again first chance.

Been hearing a lot about the Civil Air Patrol lately. A lot of fellows—and girls too—helping out in the war here at home, flying the army's errands. Many of 'em fly their own planes and they're not their own expenses. What the hell, it's only a hobby, it's only a hobby, it's only a hobby, it's only a hobby...

REED BRANCH

Last week's correspondence: Mr. Joe Prater and daughter-in-law, Virginia Prater, are expecting their son and husband, Luke Prater, home this week from the navy. He is stationed at Brooklyn, N. Y.

WE IN AMERICA have a lot to be thankful for this year. This is the one great nation that has not been laid waste by war. Our boys are fighting in the jungles of the South Seas and in the villages of Italy that our own Main Streets may not become battle fields. By their sacrifices they have held the warfront thousands of miles beyond our shoreline. They deserve our deepest gratitude—a gratitude we should express in work rather than in words. Let's back up these fighting men in a very practical way. Today there is a great shortage of pulpwood. Pulpwood has a thousand-and-one war uses—from explosives to shipping containers. And since this is a pulpwood-cutting community, we have been asked to cut an extra cord of pulpwood in honor of every local boy in service. This is a small thing to ask of us—all in comparison with what our boys are doing. One extra cord for every boy who went to war from the pulpwood areas will be enough to meet the present shortage. So let's resolve to meet our quota—and make sure that no boy dies because we failed. NEWSPAPER PULPWOOD COMMITTEE

PRIVATE PUKRY IN LOVE AND WAR

Dear Me— There is not much to write about and anyhow even if there was the long sarge would not give us time enough to write about it. I am well and feel stronger than ever which puzzles me on account of it. I did half as much work when I was in civilian life I would be a fizical wreck long ago. I guess I was just a deep on doing what's asked of him in the army knowing it won't do him no good to kick and he knows he won't do so sympathy if he comes down.

I see where you declared war on the Balkan states Bulgaria, Romania and Hungary. When it first come over the radio that we declared war on three states extra I set of jared me on account of we was already fighting so many states that I am always one or two states behind. But when I found out it was only Bulgaria, Rumania and Hungary I felt easier. I got no friends in none of them and the only Hungarian I knew played in a orchestra which was pretty bad. Everybody is in the war and I guess there is not much difference I see.

Well, none do not worry about me as from all I hear it is softer being here in the army than being a plain civilian. The situation here is some is very heartbreaking to me. New York and a lot of other cities is so dark nights it is more someone going out after dark than it would be stay home.

Gas is going to be harder than ever to get, the government is talking about taking tires away from everybody, all the benches have been closed at night and there is talk of forbidding bus travel except on business, so it is just a long wait when anybody talks about keeping out of the army so he can do as he pleases.

Goah, none, I see you and pop take more orders right now in a day than I get in the army in a week. All people who have not got on me is that they don't have to peel potatoes. The radio keeps talking about abolishing troubles and I still hope nothing has happened to your ceiling yet, although you did not answer my last letter about it.

I hope you are all fixed on priorities also whatever they are. Everybody seems to be laughing when somebody says I need not worry about having them as I had them when I was a boy.

John Bennett is in my outfit and he is always good for a laugh. He says he just ran across the most cookoo jeep in the army. He says he saw him with a homemade trap catchup flies. At first he thought he was a nut but when he seen him do it four days in a row he demanded an explanation and the pilot was catching them to feed a pet frog which he keeps in his tent as a mascot.

It takes all kinds of men to make a army but this is the first time I know it also took a fly trap and frog. Well this will have to be all I get pretty homesick at times of the course, none, and I wish I could get back to see you and pop often but on the other hand I don't guess I could stand life back in a city with so many restrictions and so many strictly giving orders about one thing and another.

Your loving son, Oscar.

"Ptain Deplores Rising Discontent"—Headline. And how the rising discontent must deplore 'Ptain!

WE CAN'T BELIEVE IT According to reports I'm hearing, The motor car is disappearing. Belcher's Garage 'I'm in the dark. Just try so find a place to park!" —Merritt Chilcote.

IS IT JUST IN FUN? With all the bulletins, warnings, radio talks, etc. being made to save tires and gas by slow driving one has only to stand on almost any open road in America to see that thousands of drivers are brazenly ignoring the whole matter. This driver should be put well near the top of Fifth Columnists, and what's more, the police are so inept in their brazen attitude about him.

The Boys Are Being Gyped

On the whole, I'm not the sort who craves publicity. But, now in my forties, I do wish I could haul out some newspaper clippings to prove there was a day "way back when" I could run and throw and field. But our neighborhood correspondent to the "Times" newspaper seems to have overlooked me and my gang and so now, when one of my youngsters lugs the field on me, I can only put something about it. I could call back fifteen years or so...

The 1943 crop of youngsters, some of these days, are going to find it increasingly hard to run last, to throw hard and catch while other schools have coaches; they shouldn't have to go out and scrape up enough use reasons for transportation to a neighboring town. They deserve encouragement.

Many of these boys, if the war goes on, will soon leave for the glens school of the Survival of the Fittest. They should have this one last, good, clean "fling" while yet in school.

LEST WE FORGET... Floyd county has a population of more than 50,000 persons. Of Floyd county has been asked a mere \$12,800 as its contribution to the Kentucky War Fund—\$12,800 which will be spent for the aid and comfort of hapless American fighting men.
