This Town-- That World

AN OFF-TOLD TALE

No man was ever more appropriately named than was the late Wiley Patton whose exploits as a practical joker still are topics of conversation around Floyd county firetrails.

One story "Uncle Wile" as he was known in his latter years, told had an O. Henryesque twist at the end that always intrigued me.

It seems that Uncle Wile was of military age during the Civil War, but not being "mad" at anybody, he wanted no part of it on other than a common, ordinary sort of duty.

Now it happened that, a few miles away, there lived a young farmer who had married a very pretty young woman, and he was inclined to suffer from the pangs of jealousy, though he had no reason to suffer such an ailment.

NO NEED FOR WORRY

If you have received only half of your canning sugar allotment which your neighbor has all of her, don't worry—you'll get yours, too.

A recent OPA regulation issued because of overloaded shipping facilities and to prevent consumers from exhausting their entire supply of sugar before the fall canning season provides for filling half of each person's allotment now, with the remainder to be filled in July for fall canning.

Floyd Infantryman at Same Air Job Over Germany, Home This Week

Two Floyd county air forces sergeants, both former engineers on bombers operating over Germany, returned here from England and both operators of top turret guns on these aerial forays, were back in Floyd county this week.

They are Sgt. Jarvis Allen, of Pyramid, who escaped via the Underground from occupied Europe after the bombing of Dresden, and Sgt. W. Lee Roberts, of Harold, who only a few days ago returned to the States from England after completing his "operational tour" of an undisclosed number of missions from England.

Both Floyd countians rode Flying Fortresses into battle and each of the bombers was named for the wife of its pilot.

Both airmen were close-mouthed when asked for their stories for the "Prison Jenny," Lawrence Roberts and a brother of Magistrate Dewey Roberts, of Harold, said his plane had suffered serious damage on several occasions but always stuck it out and brought the crew home safely.

DRAFT EVADER GETS 2 YEARS

A two-year prison sentence was imposed Tuesday morning at Catelettsville by Federal Judge Mac Swinford on Joseph A. Houston, a member of Jehovah's Witnesses, for his refusal to report to Floyd county Draft Board 44 for pre-induction examination.

Houston, who registered for the draft June 10, 1942, formerly resided at Harold. He is a native of Wheeling, W. Va., and last year the same charges against him were dismissed in federal district court at Pikeville because of a technicality.

Houston contended he was an ordained minister and a member of the church, and that he was exempt from military service.

His refusal to report to Floyd county Draft Board 44 for pre-induction examination was the basis for the conviction.

SHERIFF SAYS HIS DEPUTIES NOT GUILTY

Of 'Coffee Money' Hunt Alleged in Resolution Of United Mineworkers

To resolutions adopted recently by 14 Floyd county locals of the United Mine Workers of America, addressed to County Judge Edw. P. Hill and Sheriff Troy B. Sturgill, protesting against "pistol deputies" allegedly operating for "coffee money" and making illegal arrests in the county, Sheriff Sturgill this week replied that he does not have a deputy sheriff who will do that; or, if it has been done, I have no knowledge of it and I invite and will appreciate the information of any deputy making a false arrest. I promise you that the deputy or deputies guilty of making such arrests will be punished for it immediately.

The resolutions, mailed from the office of Tom Roney, UMWIA international representative, Pikeville, read:

"Whereas: The citizens of Floyd county are being mistreated by some of your Pistol Deputies by arresting some of our members and workers for being drunk, when they are not and throwing them in jail, depriving them of work in order to get a little Coffee Money and then let them get by who are really drunk because they have no job or money.

"We believe in the law being enforced, but we do not believe in a cut-throat gang running around for what money they can get off the working man.

"If we are asking you two men, with proper authority to have the above stopped and to use your office and influence to get this matter cleared up concerning all Local Unions of U. M. W. of A. in Floyd county, Kentucky."

Sheriff Sturgill's statement following receipt of a copy of the resolution continued:

"I have only a few deputy sheriffs in the county. No 2-man district, one in No. 4 and very few in the rest of the county. I do not have a deputy who drinks insofar as I know. If I do have a deputy who drinks I will appreciate that information, too and he will be promptly discharged.

"I am giving you information that a number of arrests have been made by men posing as deputy sheriffs and that the Sheriff's office has been informed of these arrests. I need not say that I am not responsible for the acts of such men.

"It is my purpose to honestly enforce the law and to do that with good citizens as deputies and not with a 'cut-throat gang' as mentioned in these resolutions. I am anxious to have the information of any deputy and I assure you all of my sincere interest in doing so.

"The UMWIA resolutions were presented at a secret meeting held at Martin.

Mr. Roney this week also issued a resolution stating that he had information that some of the men in this Pikeville, Ky. party and let them get by who are really drunk because they have no job or money.

THE WEEK IN OPA

Sugar for Home Canning In order to facilitate the handling of sugar for home canning, OPA has set up two periods in which consumers may apply for the 1944 allotment.

The amount consumers may obtain in the first period is limited to 10 pounds per person, by application to the local board, but the maximum amount of the home canning ration for the season remains unchanged at 25 pounds.

The Lexington District Office has set up two dates as follows: March 1 to June 30; July 1 to October 31.

In the first period, consumers may apply for up to 10 pounds of sugar per person.

In the second period, all consumers who need additional rations may obtain an additional amount not to exceed, with the amount granted in the first period, a total of 20 pounds per person.

Consumers who do not apply during the second period must include a statement showing the disposition of the sugar issued in the first period.

Detached Stamps Should Not Be Accepted Pointing out that too many War Ration Books containing food stamps are being lost, which would indicate that merchants are not as particular as they should be about accepting stamps attached to the Lexington District OPA Office this week urged merchants not to accept stamps that have been detached from war ration books.

High Praise Expresed For Balbo Rye Pasture

Ten dollars worth of pasture for each \$1 invested in Balbo rye seed is the claim of Charles Goodard, Owsley county farmer. Last fall he bought \$40 worth of seed for eight acres. He would have had to buy over \$400 worth of feed if he had not had the rye pasture. His County Agent H. H. Williams said he has fed his only three and a half months.

Bronco Bolton attributes Owsley county's small herd of Williams to the fact that he has not got more pasture off an acre of balbo rye than off three acres of common rye. Carl Stepp also of Owsley said he got more pasture off four acres of balbo rye than off 100 acres of common rye.

SHARE THE RIDE TODAY ... and You Give Uncle Sam a Lift

Where would we be today if our forefathers had gone their separate ways at their own convenience? When this nation was in its infancy, neighbor gave neighbor a helping hand. That spirit expanded 13 struggling colonies into a vast, united nation. Today our country is calling upon every one of us to enlist in a great awakening of that early American creed of helping ourselves by helping our neighbors. Sharing our automobiles is as easy as it is helpful. Whenever we go, there's somebody going our way. When we give him a lift, we give Uncle Sam a lift on the way to Victory.

It is in those moments of well-earned relaxation that a beverage of moderation proves a welcome companion. Budweiser matches your mood for a friendly chat or your mood for repose. It is consideration of tomorrow's obligations.

THE OLD JUDGE SAYS... Glad you dropped in, Judge. I was just trying to explain to Mary what you told us down at lodge last night... about all the grain used to distill war-alcohol not really being used up. She didn't realize it, either. "It's true, Mary. Wherever the government has permitted distillers to purchase the equipment necessary to reprocess the grain, at least 50% of the feed value (25% by weight) of the whole grain is being recovered and returned to farms like yours in the form of premium-quality livestock feed. Only the starch is removed during distilling... the part recovered is a highly-priced concentrate containing valuable proteins, fats and carbohydrates. The distilling industry has taken a leading part in the development of new cattle and poultry feed products from reprocessed grain... products rich in vitamins B1 and B2... so essential to satisfactory growth and production. And the recovery of grain will apply also to the making of whiskey when production is resumed."

time to get out of the county before he exposed me, that would be enough. Well, when he started to discuss the case I stepped him quick.
 "Doc, I say, I've got a confession to make and I want to beg you not to be too hard on me. I never meant any harm and I ain't harmed anybody. Just give."
 "What is it, Dr. Patton?" he says. "What in the world is wrong?"
 "Then I told him, 'Doc,' I says, 'I ain't no doctor, 'im doctor' from the army and I just told these people I was a doctor."
 "I was on my feet, ready to start running," when that doctor did the strangest thing. He rolled backwards off that log and I thought he'd lose his breath laughing.
 "When finally gets control of himself and I ask what's so funny, he says, 'Well, brother, I ain't any more of a doctor than you are. I stole a rebel cap from the army and saddle bags in Big Stone Gap and went in business here, just like you did!'"

Red Cross Issues Appeal for Women To Fold Dressings
 Not only the Red Cross surgical dressings used for the armed forces, but empty chairs don't make surgical dressings. It takes loving, tender hands of women who care, to fold the dressings that are used to soak up the blood and cover the wounds of our boys in the fighting line. And millions of them are needed for the invasion days. Fighters will be falling, wounded, bleeding, waiting for the healing touch of a sterile dressing folded by tender hands.
 "They must be ready," says the number of Floyd county women doing this work is pitifully small.

CARD OF THANKS
 We gratefully acknowledge our debt to all those who offered assistance and consolation upon the death of our dear mother and grandmother, Mrs. Josie B. Harris; to those who sent the beautiful floral offerings, also to the ministers who took charge; the Burke's school children for their assistance; the Arnold Funeral Home for its efficient services and the Spauldine Bros. Letter Confirms Death Of Douglas Vaughan In Transport Loss

Belief that his grandson, Pfc. Douglas Vaughan, who was first reported missing in the Mediterranean after the sinking of an American troop transport, died of wounds was expressed here this week by W. J. Vaughan after he had been officially named by the Adjutant General's office that Pfc. Vaughan "died on 27 Nov. 1943 as a result of the sinking of a troop transport at sea by enemy action" which had taken place on the preceding day.
 Of Pfc. Vaughan, Cpl. C. Mountain, at the time of the sinking in the medical corps with the Prestonsburg soldier, recently wrote from India:
 "Douglas was a very close buddy to me and the whole outfit missed him very much. After the alert and the raid he was on deck watching the battle. We were hit by a glider bomb from a German bomber. Douglas helped work with the rest of us on the wounded boys. We left together over the side. The sea was pretty rough and he probably (two words deleted by censor), for none of us ever heard of or saw him since."
