**Improvements Made
At Wayland Mine,
Sayers Comments**

Naming the Wayland mine of the Elk Horn Coal Corporation, Dr. R. Sayers, director of the Federal Bureau of Mines, commended three Kentucky coal mines for improvements made since the operations underwent their original federal inspections. The other two mines are located in Van Lear Johnson county, and Capito, Bell county.

The director reported to Secretary of the Interior Harold I. Ickes that the betterments were noted during recent government re-examinations of safety conditions in the mines.

Improvements were attributed to company initiative, increased attention of workers toward safety, and adoption of recommendations offered by state and federal inspectors.

Detailed federal re-inspection reports suggest the adoption of additional safeguards at the mines to facilitate wartime production of coal.

A summary of the re-inspection report reads:

"Wayland No. 29 mine, Elk Horn Coal Corporation, Wayland, 704 employees, average daily production about 2,500 tons. Re-inspected by Max J. Caylor, improvements since the previous federal inspection of December, 1942, included: Guarding of mechanical and electrical installations, safer storage, transportation, and handling of blasting materials, increased attention to assist ventilation and other ventilating betterments, increased attention to coal-dust control, better clearance being provided along haulways, increased fire protection, general use of snug-fitting clothing by men working around moving equipment, 12 men trained in first aid in 1942.

Recommendations: Increased attention toward eliminating haulage and roof-fall accidents, improvements to the surface plant, strict enforcement of timbering method, safer use of explosives, operation of the mine as gassy, further curbs on electrical fire and shock dangers, exclusive use of permissible electric cap lamps, underground, a ban on smoking in the mine, and the use of safety hats and safety-toe shoes by all employees."

**THE WEEK
IN OPA**

Restaurant Prices Set
The nation-wide restaurant pricing order issued June 28 will become effective July 31, the OPA has announced. It will require restaurants, bars, cafes, clubs, cafeterias, soda fountains and boarding houses to post prominently the highest prices charged during the week of April 4-10, 1943, for the best food and beverage items. The list must be posted about August 16, 1944.

A list of the 40 specific items on which posting will be required in the Lexington district as well as other information regarding the pricing order, will be released by the Lexington District OPA office next week.

Shoe Inventory Ordered
Every shoe dealer in the country will be required to file a complete inventory of all rationed shoes in his stock, regardless of the number of pairs this stock consists of, as of July 31, 1944, OPA has announced.

OPA has announced that these forms will be mailed direct to all dealers and also that they may be obtained from any district office. It is necessary for each dealer to be very explicit and give all information asked for, as OPA states that future rationing regulations are to be formulated by information obtained from these sources.

Canned Meat Prices Reduced
Prices of all canned meats are reduced by approximately 10 percent of the cost of the raw meat ingredients used in the manufacture of these items, the OPA announced this week. The reduction is effective July 15.

Consumers will benefit accordingly. Retail prices are fixed on a percentage mark-up basis over net cost, consequently when the net cost is reduced, retail prices are correspondingly reduced, OPA pointed out.

Cabbage Prices Up Slightly
Retail ceiling prices for cabbage during the rest of the summer will be slightly higher than the June prices, OPA said, in announcing maximum prices for cabbage for the period from July 1 through Sept. 30.

Retail prices in the highest price stores in Kentucky will be about 6 cents per pound.

Fresh Peaches Under Price Control
Fresh peaches for table use have been brought under price control for the first time by OPA.

Producers will receive prices ranging from 52 to 112 cents per bushel, while wholesalers and retailers will receive fixed cent-per-pound mark-ups.

Retail ceiling prices will vary according to the source of the purchase and the distance transported, and should range from 14 1/2 to 16 cents per pound for the season.

Potato Prices Announced
Nation-wide prices for the entire 1944 potato crop, beginning July 1 and continuing until the end of the marketing season, have been announced by OPA.

The price in Kentucky for the period of July 15 through August 31 is 52.70 per cwt., f. o. b. the country shipper or purchaser.

Rationing of a Glance
Processed Foods
Blue Stamps A8 through Z8 in War Ration Book Four good for 10 pounds each indistinctly.

Meats and Fats
Red stamps A8 through Z8 in Book Four good for 10 pounds each indistinctly.

Sugar

Stamp 30 in Book Four good for 5 pounds of canning sugar through Feb. 28, 1945. Also, application may be made to local board for conditional allotment upon presentation of spare stamp 37.

Shoes
Airplane stamps 1 and 2 in War Ration Book Three each good indefinitely for one pair of shoes.

Gasoline
Stamp A-12, good for 3 gallons through Sept. 21. C-2, C-3, B-4 and C-4 stamps good for 5 gallons until used. "T" coupons 532-E, marked "Third etc." good until Sept. 30. State and license number must be written on face of each coupon immediately upon receipt of book.

Inspections not compulsory unless applying for tires. Motorists must keep old inspection record. Commercial vehicle inspections due every six months or 5,000 miles, whichever is first.

Fuel Oil
Coupons for types 4 and 5 for 1943-44 series good now and through September 30, 1944, when the heating year will end. Unit value, 10 gallons. Change-making and resale September 30, 1944, when the heating year. Coupons for Period 1 of the 1944-45 series became valid June 1, 1944.

THIS 'N' THAT

By NOBLE HORBS
Things are humming pretty keen around the old home town with the mines working two shifts and the only "fly in the ointment" is the fact that too many of the boys "lay off" from work; but if any man or woman knows the answer to that problem let them speak up and I am sure the world will beat a path to the cabin housing that individual.

Was in Pikeville last Tuesday and ran across Congressman A. J. May, who gave me some sage advice about the old Bird from Left Beaver way. He seems to think that the Shike and Mellie No. 1 mine should be one of our pictures with some of our stipulations in print to some newspaper syndicate and he thinks we might get a job. If any of the boys who run the syndicate need any scarecrows we will place a small bet that the said picture would hold a place of honor on their farms.

Say, Shike, would you trade Happy Chandler, Gene Talmadge and Theodore Bilbo for Hoover, Avery and Mellon? No, I don't want to trade. However, I will swap Congressman Hoffman for Burton K. Wheeler—even! And do you remember Martin, Barton and Flahy? We will keep Martin and Barton, but will trade Flahy for Jerry Rankin from Mississippi. Bug, bug! Too hot to argue politics!

Well, the coal miners and operators are going out to get their part of the War Fund drive a little early and we think when you boys around the mines are asked to donate \$5 for that purpose, you should do it. Officially, the drive won't start until October, but inasmuch as we are now getting the \$40 back partial pay by driblets, that is, \$5 per half, that it would be a grand idea to let one of those "dribbles" dribble right into the treasury of the Kentucky War fund. If you think the soldiers are not getting the benefit of this fund, you don't have to travel farther than Ashland, Ky., to see them in action. Watch the soldiers and sailors as they stop over for a rest go to the USO.

Back from the services this week were Mervil Dixon and "Peanut" Calhoun, from the army and navy. "Peanut," who used to be a brakeman in the mines here, is a small guy in stature but not in ways. He

has seen action in three major battles in the Pacific, and has had me up "satchels" telling me how small he could get when the big guns go boom.

Well, as it turns out, Tom Hatcher is a mighty good postmaster. When I came by the other evening, after work, and started discussing the problem of domestic help with Mrs. Parker or maybe some of the boys ran into me about a union card I must have got excited and left my mail box and bathroom keys in the lock. But Tom always returns them; fact is, I've lost them so many times that it has become a stock joke in Wayland that ye old scribe can't keep those keys. Even little John L. Hicks, age 4, found them the other day and returned them.

So long till next time.

THE OLD JUDGE SAYS...

"I don't blame the fellows overseas for gettin' all het up over it, Judge. For the likes of me I can't see what's all the hurly about holdin' these local prohibition elections while they're away."

"I agree with you, Steve. Time after time... in their letters, in articles, in pulls taken to get the views of our fighting men... they have indicated in unmistakable terms that they don't want any action taken on prohibition, either local or national, until they get back."

"Too bad there isn't a law or something to be sure their washes are carried out, Judge."

"There is in one state I know of, Steve. 'Just recently it passed a law prohibiting the calling of any prohibition election until a year after the peace is declared."

"That really makes sense to me, Judge."

Never let up till they're home

Buy more war bonds

Can we...their mothers, fathers and wives...actually bring our fighting men home sooner? Yes, we truly can...by matching their measure of devotion...doing all we should and nothing we shouldn't do. And, real "fighter backers"...real Americans...we'll never let up till they're home.

They Live—If You Remember

Few things are more precious than the memory of loved ones who have gone. Grace and dignity should be the keynote of the final rites. To neglect this means years of bitter memories and regrets.

At our home you are sure of completeness in every detail and at prices well within reasonable limits.

It takes thousands of telephone calls to build a bomber

... and this country is making more bombers than ever before

More planes, more ships, more of everything for war mean more Long Distance calls.

Today with war in its critical stage, everyday is a rush day for Long Distance telephone lines.

You can help keep the lines clear for war calls by making only really urgent calls.

More calls get through quicker when everybody helps that way.

Squirrel Season Opens On August 1

August 1 may be just another day to "large numbers of people but to the squirrel hunter it is a definite meaning, that of being able to begin the hunting of squirrels on that date and the continuation of such sport until September 15 — reopening on November 24 and ending on December 31.

J. M. Perkins, director of the Division of Game and Fish, calls attention to the bag limit of six squirrels daily which is now in effect and which law will be strictly enforced by conservation officers.

Prestonsburg Woman Named Kentucky Colonel

Mrs. Edith Fitzpatrick James, wife of Petty Officer Tom James, of the Sea Bees and well-known Prestonsburg singer, was recently named as the first woman to be named Kentucky Colonel.

Mrs. James' appointment was made in recognition of her work in the field of music. Her most recent achievement was the discovery of the Plain-Song in its original form in this section and her presentation of this early music form to other sections of the country. Her husband is on duty in Hawaii.

THE GARDEN

By JOHN S. GARDNER Kentucky College of Agriculture and Home Economics.

HOT WEATHER HINTS Although the hot dry weather now prevailing may have passed by this reaches print, there will be other such spells to make these hints still applicable.

The first is about cultivation. Its principal object is to kill weeds. The earlier this is done, the less is their competition with the garden crops for plant food and moisture, and the less the soil about the vegetable roots need be disturbed in their removal.

The best way to stop weeds is to shave them off. Ideal for the purpose is a sharp, shiny hand hoe used with a sliding motion, letting it go no deeper than a half inch.

increase it. A 63-foot row should run 15 yards. A 63-foot row should run 15 yards. A 63-foot row should run 15 yards.

Tomatoes—Best to use new 100 plants with four to six leaves. Marigolds or Ringers, but there is a good chance that Bank O' Day or Beauty Best of Eastland might make part of a crop when in place.

Beets—The weathered and crop-topped early crop is not satisfactory to store, but sowings made of Groody's Egyptian or Detroit made up to July 20 should result in tip-top beets for next winter.

Cabbage—A hazardous crop, late because of worms and hot, dry weather, and because some gardens are infested with yellow or "wit" rot.

Beans—The weathered and crop-topped early crop is not satisfactory to store, but sowings made of Groody's Egyptian or Detroit made up to July 20 should result in tip-top beets for next winter.

With a hand hoe (better a furrowing hoe) lay off furrows 6 inches deep, and toward evening, fill with water. When it has sunk, fill them again.

Today's temperature and the calendar notwithstanding, killing frost has not much more than 23 days away, in the meantime must be made next winter's vegetables.

Bears—The bush sorts, Stringless Greepseed, Bountiful, Plentiful, Refuse and perhaps Red Valentine, take 20-30 days. Kentucky Wonder, Missouri Wonder and Lazy Wife, pole sorts, 90-100. A 100-foot row should can easily 15 quarts.

HE PLAYS THE FIELD OF SPORTS

... round the clock and round the calendar, Ruby Reports in timely sequence to thrill Sport Page enthusiasts

EARL RUBY... Sports Editor of The Courier-Journal, plays to a full gallery of sporting males. It's a great life, Earl agrees, though a bit strenuous at times.

Editor of America's most complete Sports Section outside the three major metropolitan centers, Ruby says it's people who make sports interesting...

A native son, Earl began doing spot reporting in 1921, after school hours at Du Pont Manual High, continuing through years at University of Louisville and Jefferson School of Law.

Well-trained GHOST wants work! THE local Society of Spooks and Spectres blames us for unemployment among its members. 'They say a ghost has got to have long dark halls to work in and flickering candles to blow out. How can any self-respecting wealth rattle chains or utter mournful moans in a brightly lighted room with the radio playing swing music?' Seriously, today's children have little chance to learn the fear of the dark that once oppressed their elders. They don't know how shivery flannels can be. They never blushed blindly for a match or felt tremulous relief as the lampwick caught flame and slowly drove back the shadows.

Advertisement for Joe Marsh's fire department. 'From where I sit... by Joe Marsh. We're Proud of Our Fire Department. Your outfit looked mighty fine in the parade,' I told Ed Carey, our fire chief. 'Everything polished within an inch of its life, and the men pert and snappy!' 'That's how it should be,' said Ed. 'We have Thursday turnout inspections... and surprise inspections in between!' 'That sort of supervision is well repaid in the efficiency of our town's fire department. Reminds me of our Kentucky brewers. They watch all the time, not because they're looking for things to be wrong but... well, just an ounce of prevention! The brewers' self-regulation program is just a form of vigilance that protects everybody. Like the fire department's inspections, it keeps things the way they ought to be. From where I sit, most people approve of the way the brewers run things these days.'
