### Something To Set the Teeth Into

T is granted that post-war planning on IT is granted that post-war planning on a national scale is necessary. The na-tion as a whole must have some aim for the coming pencetime. But what of those communities which have no local programs of their own, thoses slackwater corners of America which are satisfied only with plans from Washington, con-tent merely to read about it in the news-papers and dream of big things while the boys returning home have noth-ing to set their teeth into for a new start in life? Five thousand, nerhans six thousand

in life? Five thousand, perhaps six thousand, Floyd county boys one day will return to peacetime pursuits. What of these, if our only industries are to be the coal and gas fields which already are fully manned by workers even in a time of peak pro-duction?

A few business and professional men A few business and professional men in Floyd county are giving serious thought to the crisis that wide-scale un-employment of these returning veterans, not to mention the civilians whom some of them will displace, would create. These hope to do something about it— what, they are not certain. If Floyd county can through the efforts of this local group gain the location with-in its borders of a coal processing plant, definitely one of the big things of the fu-ture, much will have been achieved. Buy War Bonds!

All of us can thank the neighbor-All of us can thank the neighbor-hood business man for doing a whale of a wartime job. Short of help and with many empty shelves, he has striven to give each family its fair share. He has labored late out often source paties meand and and often over ration records and charges in regulations. He has been co-operative and uncomplain-ing. Remembering those away from the homes of the families he serves, he keeps on buying War Bonds-for keeps.

IN MEMORY In loving memory of our loving son, James McGlothen, who gave his life for his country January 27, 1945. nis 1 1945

Desrest Jim, our boy, has gone, Died to save his country for each and every one. His one wish was that he would soon help win this awful war And return to Mom and Dad and

home. He loved his Mom so very much, also his grey-haired Dad, The two best friends he ever had. One by one our boys have given their lives To make a world fit for their Moms, Dads and Wives.

"Don't worry, dearest Mom, and, Dad, the same for you. Because when this toil of earth Because when this toll of carts is o'er, I will be looking for the both of you.' Oh, how we miss you, Son, but we know God's will must be done.

We will pray for peace and comfort

We will pruy top paces and controls, so and the source will come with us on earth To you we will come you once sat is always there but never again Will you be there to mingle with our chain and your buothers miss you you. Brother, So much they can not say. But with God's help they plan to meet you

But with cost meet you Some day not so far, far away. We know you died a brave and noble

death, To show your God you had The courage and strength to do your best.

We miss you, oh, yes, we miss you, A braver boy we never knew. May God help other Mothers and Fathers Fathers Who have brave boys like you. God will heal these wounded hearts In many years to come. But He can never bring back to us Our brave and noble son.

And now we've lost our President, The greatest man that ever was

known, And God, oh. God, our precious God, What will become of other sons? Sadly missed by mom, dad, broth-rs and sisters and a host of friends.

# These men can tell you why the 7<sup>™</sup> WAR LOAN is the BIGGEST yet !

Y<sup>OU</sup> ARE being asked to lend more money than ever before—in the 7th War Loan,

These men can tell you why.

They can tell you of giant ships ready to slide down the ways this year.

They can tell you of a whole new air force in the building-huge new bombers and fast new jet-propelled planes coming off the lines by thousands.

They could show you why it is cheaper and quicker to give our Pacific Forces entirely new equipment sometimes-instead

of shipping tanks and guns from Europe They can, in short show you 101 ways in which your dollars are needed more than ever to bring America's might to its full strength-so that we may crush our foe the faster, make an end of killing, and bring our men back home.

Will you tell these men "I can't afford to buy my share"?

THE CENERALS and admirals can show us why our money is needed—more money than before.

But other men can show us something, too

They're the men with twisted, crippled limbs with clever iron hooks instead of hands. The blind men ... the men with
