NOTICE is hereby given that I, by order of the common council of the city of Prestonsburg, Floyd county, Kentucky, will at the door of the city hall of Prestonsburg, Floyd county, Kentucky, between the hours of 9:30 and 10:00 o'clock in the forenoon, on the 15th day of October, 1945, offer for sale to the highest bidder and receive bids for the right, privilege, franchise and authority to acquire, maintain, construct and operate in, above, under, across and along the streets, thoroughfares, alleys, bridges and public places (as the same now exist or may hereafter be laid out) of the city of Prestonsburg, Floyd county, Kentucky, lines, poles and equipment for the distribution of electric energy, either by means of overhead or underground conductors, with all the necessary or desirable appurtenances, for the purpose of supplying electric energy to said city and the inhabitants thereof, and persons or corporations beyond the limits thereof, for light, heat, power, and any other purpose or purposes for which electric energy is now or may hereafter be used, and for the transmission of the same within, through or across said city, subject to the following conditions, viz:

- (a) Said lines and appurtenances shall be constructed so as to interfere as little as possible with the traveling public in its use of the streets, thoroughfares, alleys, bridges and public places... (b) The right, privilege and franchise shall be in full force and effect for a period of twenty (20) years from the date of the ordinance granting such franchise... (c) The grantee of such franchise shall save the city harmless from any and all liability arising in any way from negligence in the erection, maintenance or operation of said lines and appurtenances... (d) Whenever the grantee of this franchise shall begin the erection of any lines or other appurtenances, it shall promptly and diligently prosecute the work to completion and leave the streets, thoroughfares, alleys, bridges and public places where such work is done in as good condition of repair as before such work was commenced... (e) Whenever in such franchise, either the city of Prestonsburg or the grantee of such franchise is referred to, it shall be deemed to include the respective successors, or assigns, or either, and all rights, privileges and obligations contained in such franchise shall be binding upon and inure to the benefit of the respective successors and assigns of said city or said grantee, whether so expressed or not... (f) The grantee of such franchise may make such rules and regulations governing the furnishing of said electric energy as may be fair and reasonable and consistent with the standard practice of the grantee. Said grantee may charge such rates for electric service as shall be fair and reasonable. The said grantee shall render service under said franchise of like quality, that is, adequate, efficient and reasonable, to that now being rendered to said city.

Nine from Wheelwright At District Club Meet

Wheelwright, Ky., Oct. 6 (Sp.)—Nine members of the Wheelwright Woman's Club attended the 7th annual meeting of the Seventh District of the Kentucky Federation of Women's Clubs which was held at the Jenkins Methodist Church October 6.

Delegates from Wheelwright were Mrs. F. E. Conley, Miss Margaret Motter and Mrs. T. J. Parker. Officers from the Wheelwright club to attend the meeting were Mesdames Stephen W. Clark, M. C. Hannan, Mrs. S. M. Motter and E. R. Cose.

At the conclusion of the all-day meeting, the guests were invited to the dining room of the club where they were served tea by members of the Jenkins Woman's Club. A display of hooked rugs, made by club women of the district, was exhibited and appreciated by the guests.

Next meeting of the Wheelwright Woman's Club will be held October 13 in Community Hall. Guests will be members of the Lackey-Garrett Club who will be served a covered dish supper.

Mrs. Elaine Smith entertained members of her bridge club Thursday evening, Oct. 4. Three tables were in play and numbers playing were Mesdames L. S. Becker, Stephen W. Clark, C. B. Hanger, Cose S. McInnis, J. T. Parker, E. R. Price and H. C. Zimmerman and Anna B. Smathers. Guests were Mesdames Harry Hostetter, of Myrtlewood, Pa., Buster Thomas and Misses Margaret Motter, of Frederick, Md., and Miss Sarah Clay Stephens, of Prestonsburg.

High prize was won by Mrs. Anna B. Smathers (second prize) by Mrs. E. R. Price; bingo by Mrs. J. T. Parker and high guest prize by Mrs. Harry Hostetter. At the conclusion of play a social game was served by the hostess. Tea was given by L. M. Garrett Becker.

SELF-REGULATION A high aim... Throughout the centuries beer and ale have been recognized as beverages of moderation. Kentucky brewers are determined that such a reputation shall be maintained by seeing to it that wholesome surroundings prevail in every retail outlet in the State. For over five years Kentucky brewers have voluntarily supported the Kentucky Committee of the United States Brewers Foundation whose field men call regularly on all licensees and outline clearly the principles of their program and all regulations governing the sale of beer and ale. When an occasional non-observance of rules is discovered, prompt and effective action is taken. Self-Regulation works. KENTUCKY COMMITTEE UNITED STATES BREWERS FOUNDATION HARRY D. Waterproof clothing—thanks to chemicals—will mean new jobs.

Molded furniture—through chemicals. More jobs for workers.

Unseaffable shoes—made possible with chemicals. Still more jobs.

Goodbye to mosquitoes—with chemicals. Still more jobs.

Making Postwar Jobs—Out of Chemicals

WHAT WILL the employment situation be — now that the victory has been won? Will there be enough jobs for returning soldiers, sailors, war workers?

No one can say, exactly. But this we do know: business management, in scores of industries, has long since laid plans for new products, new ventures, new services, that will make jobs by the thousands by creating new demands.

Take the chemical industry. Not only will it continue as one of America's basic job-makers, but from chemical research have come scores of new products that will mean thousands of new jobs in the future—products many of which were little more than dreams before the war.

Imagine your home rid of moths and mosquitoes. Specially treated clothing that will let you stroll in the rain and stay perfectly dry. Chemically treated pine furniture, hard as ebony, on which scratches and blemishes will not show.

Think of scuffproof shoes. Or shrink-proof woolsens. Of window screens that won't rot or rust. All these things—and many others—will increase the demand for chemicals — and demand for goods makes jobs.

The chemical industry is only one of many along the Chesapeake and Ohio, the Nickel Plate, and the Pere Marquette that have planned for postwar employment.

And, now that the war is over, the chemical industry and other industries throughout the country will put into operation their plans for the jobs and opportunities all of us want.

The People's Choice

Floyd County's Party-- THE DEMOCRATIC PARTY--

Presents to the People...

The voters of Floyd county are offered for their consideration at the November 6 election a ticket unexcelled--if, indeed, equalled--by any group of candidates for county and district office in the long history of the party in Floyd, the Mother county of the Big Sandy region.

These men, by experience, education, training and service to their county as citizens, are eminently qualified to give Floyd county an administration of the several offices in such manner that all the people will benefit and know that they are a part of local government.

We respectfully ask that you men and women of the county consider them from every angle, especially with a thought to the future of the county and your individual communities.

And Please Remember . . . IT'S BETTER TO BE SAFE THAN SORRY!

We submit THIS ticket--and challenge the opposition to match, even approach it--

FOR CIRCUIT JUDGE

EDWARD P. HILL

Although Judge Hill has no opposition in this final election, he graces a fine Democratic ticket and without reservation gives it his full support. His record as your County Judge for two terms and the long and honorable record of his father, Ed Hill, before him, need no comment. His record as your Circuit Judge, we assure you, will be one of which every citizen, Democrat or Republican, cannot but be proud.

FOR COMMONWEALTH'S ATTORNEY

Again the Democratic party offers a candidate of distinction who is without opposition in the coming election but who, hailing from the traditionally Democratic county of Knott, just naturally joins in the fight for the ticket's complete November victory. He is the present County Judge of Knott county, and has done an outstanding job in that office and will give the people real service as Commonwealth's Attorney.

JOHN CHRIS CORNETT Attorney.

FOR CIRCUIT COURT CLERK

No Circuit Court Clerk in the history of Floyd county has given better service and done all his work so obligingly as has Mr. Cooley. He has been unfailingly friendly with all people at all times, his office is in excellent shape and he will, by reason of his experience during his first term of office, be better equipped to give you even better service during the next six years.

BILL COOLEY

FOR REPRESENTATIVE, Dist. 96:

If he had never done anything but father the bill providing for treatment for sufferers of the dread disease, tuberculosis, Bill Biggers would have done an outstanding work--an achievement few Kentuckians can equal. Such legislation is the type which helps those who need help most. In other legislative work Mr. Biggers has been equally progressive--in the matter of good roads, better pay for teachers, etc--and the people owe it to themselves to return him to Frankfort.

BILL BIGGERS

FOR REPRESENTATIVE, Dist. 97:

Representative Howell occupies the highest position ever attained by a Floyd countian in the state House of Representatives. As a member of the Legislative Council, he is largely responsible for the entire legislative program of the House. A former teacher, his friendship to the teachers, the aged and the workers has been often tried and never found wanting. While in the Legislature he has steadily grown stronger with the folks back home--and that is all the commentary that is needed.

JERRY FONCE HOWELL

**FOR APPELLATE JUDGE:
P. H. VINCENT**

Experienced and qualified for this post, Judge Vincent is equally experienced in other fields of service. A World War I veteran, he is a former District Commander of the American Legion, former County Judge of Boyd county and State Representative.

FOR COUNTY JUDGE:

Few men in Floyd county know their county and its people better than Mr. Davidson, and none is more interested in their problems. He has, by virtue of his work in the banking business at Prestonsburg and with the local schools, an intimate knowledge of finances and various problems the public must meet. Moreover, he is the type of fellow common folks will be glad to meet and talk about their needs.

ALEX L. DAVIDSON

FOR COUNTY ATTORNEY:

County Attorney at present, Mr. Burchett has no opposition for re-election and that is as it should be--for he has done an outstanding work at a difficult job. His full strength is behind the Democratic ticket--which, also, is as it should be. He not only is a good public official but also a good citizen whose interest in the county extends beyond the mere duties of his office.

WOODROW BURCHETT

FOR SHERIFF:

A one-word description of Mr. Sturgill, above all others, is this: "Friendly." At election time, after the election or between elections, folks find the present Sheriff of this county always friendly--never too busy to stop for a chat or to do a kindly turn for others. His record as Sheriff is outstanding. He has not only preserved law and order and carried on the manifold other duties of his office but has done all this in such manner that no citizen could feel that Troy Sturgill wanted to do otherwise than to be a friend.

TROY B. STURGILL

FOR COUNTY COURT CLERK

This young man, whose truly great service to his country with the Eighth Air Force in Europe is known to practically every Floyd countian, is highly qualified for the office of County Clerk and his determination to give his county good service in civilian life is full assurance that he will make a splendid official. Jarvis Allen is steady, reliable and absolutely dependable and the people's appreciation of his war service will be rewarded by honest service.

JARVIS ALLEN

FOR TAX COMMISSIONER

Mr. Akers, the party's nominee for re-election, is another Democrat without opposition in the November election. He, however, is very much in the campaign, helping his ticket to pile up the greatest Democratic majority in the county's history. His record as Tax Commissioner has been outstanding. His experience will enable him to improve during the next four years on the service given in his first term of office.

CLIVE AKERS

FOR JAILER

Another veteran of World War II is Mr. Collins and he now wants to serve at home as he did in Africa where he lost a leg when his tank was hit by enemy shellfire. This young man pledges his fullest effort to make Floyd county a good jailer and to earn for himself a reputation in civilian life equally as bright as that gained as a soldier fighting for his country. Surely nobody denies that he is entitled to a chance at the hands of Floyd county voters.

EVERETTE COLLINS

**FOR CORONER
ALLEN TRIPLETT**

Mr. Triplett adds strength to the ticket because he is well-known and because, wherever he is known, he has friends. The friendship of so many was gained by friendliness on his part and many accommodations to others. He is qualified for the office and will win by a huge majority.

**FOR MAGISTRATE, Dist. 1:
GLENN BURCHETT**

One of the best Magistrates Floyd county ever had, Mr. Burchett emerged from the recent primary the party's nominee for a second term. The people of his district appreciate his sound business sense, his willingness to help in any matter that is right and his ability to say "No" when asked to do the wrong thing.

TROY B. STURGILL

**FOR MAGISTRATE, Dist. 2:
JOHN MAY**

As is the case in most Magistrate races in this county, Mr. May had a number of opponents in the August primary but his friendliness and the spirit of sportsmanship he showed in this race left his opponents feeling he was their friend. Young, energetic, a success in his own business, he is the type of man needed to represent the thousands of people in this magistratal district.

Space does not permit comment on each Democratic candidate for Constable, but we unhesitatingly commend each of these men to you as officers who will be sensible at all times and afford the greatest protection with the least possible offense to the people:

Autumn Song Festival To Be Held Sunday

The 15th annual Autumn Song Festival will be held in Pikeville Sunday, beginning at 10 a.m., and continuing until 4 p.m., with adjournment from 11:30 to 12:30 for lunch. John M. Yost, festival chairman, announced.

The purpose of the festival is to foster good vocal music among the mountain folks and especially to encourage the appreciation of good music in the Cumberland mountain area.

The meeting will be held in the Pikeville high school auditorium, and efficient amplification equipment will be afforded.

Yes, he does ride cheap!

RIDING THE RODS or running a business, it's easy enough when you don't have to pay the freight. You simply get a free ride at somebody else's expense.

Maybe you run a store or service station or dress shop. Would you like to have a next-door competitor who has little or no rent, or taxes, or interest to pay, and who is kept in business partly by your tax money?

Yes this is what happens with government and municipal electric power systems. They are not required to pay federal taxes; often get money from the public treasury at little or no interest; make up losses out of your pocket as a taxpayer.

Meanwhile, on the average, America's business-managed electric companies turn back to the people as taxes about 25c out of every dollar received. And these companies—owned and operated by millions of folks like you—meet all other obligations without benefit of special privileges.

Today, these tax-paying, self-supporting companies supply over 80% of the tremendous amount of electric power produced in America... enough to meet the gigantic demands of war and still take care of civilian needs.

Better yet—at a time when most things cost more—business-managed companies still deliver electricity at low pre-war prices. This record is your assurance that cheap, plentiful, dependable electric power will be yours in the post-war era.

SOFT CORN INTO HARD CASH Corn that gets "cooked" by frost before it matures is still turnable feed, especially for cattle. Here are several ways to turn soft corn into hard cash, listed in the order of their value to the feeder: (a) Milling or corn silage. (b) Feed ears with stalks, chopped or shredded. (c) Turn cattle and hogs into standing corn. (d) Leave in field and pick ears as needed rather than risk spoilage in storage. Three main precautions in feeding soft corn are: (a) Change to a more ration gradually. (b) Feed a protein supplement. (c) Feed before freezing weather, if possible. We'll be glad to tell you where to get detailed information on soft corn feeding. Write Swift & Company, Department 125, Chicago 9, Illinois.

Up from the Meadows Rich with Corn

ONCE again the folks who feed the nation are harvesting one of the great crops of our history, and the record-breaking harvest of these war years has been produced by fewer people maintaining top production on more and more acres. The progress that has been made in agriculture in recent years is almost unbelievable—corn yields of well over 100 bushels an acre, a rarity a few years ago, are now common; the production of ton-liters of hogs in less than 6 months after farrowing is no great problem now; hogs that lay more than 200 eggs a year are not hard to find; and there are dairy cows with records of well over 30,000 pounds of milk and 1,000 pounds of butterfat annually. All of these advances in the production of food have played an important part in the building of America to its present greatness and to victory in the war. Back in the days of George Washington, one farm family was able to produce enough food for itself and one other family. Today each farm family in America can produce its own food and enough for 19 other families. This tells the story of the American harvest. And it is a story unique in world history. We at Swift & Company salute our farmer and rancher friends for their great achievements and we are proud to have had a part in the preparation and distribution of the fruits of the harvest to Americans everywhere.

THE EDITOR'S COLUMN

When the war began, Swift & Company adopted the following wartime policy: "We will co-operate to the fullest extent with the U. S. Government to help win the war. We will do everything possible to safeguard the high quality of our products. Despite wartime difficulties, we will make every effort to distribute available civilian supplies to insure a fair share for all customers everywhere." Under the present conditions, meat packers and cooperating agencies demonstrate that even needs can be met. Protein supplements are added during the winter months. The result of one of these trials is interesting—400-pound steer calves were turned into a red area that was not grazed during the summer. They were fed a supplement of 4 pounds of cottonseed meal per head daily. From November to May these calves made an average gain of 120 pounds. In May they were turned into another red pasture, and they made an additional average gain of 140 pounds by November on roots alone. In another North Carolina 60-day feeding trial, 90-pound pigs, self-fed shelled corn and a supplement of equal parts of meal, peanut oil meal and soybean oil meal, plus ground limestone and salt, made an average daily gain of 1.77 pounds and gained 100 pounds for each 415 pounds of feed consumed.

"IDLE" LAND IN NORTH CAROLINA PRODUCES BEEF

The best cattle population in North Carolina has nearly doubled in recent years. And even so-called "idle" land is being put to profitable use, particularly in the Coastal Plain. Pasture feeding trials conducted by the Agricultural Experiment Station and cooperating agencies demonstrate that even needs can be met. Protein supplements are added during the winter months. The result of one of these trials is interesting—400-pound steer calves were turned into a red area that was not grazed during the summer. They were fed a supplement of 4 pounds of cottonseed meal per head daily. From November to May these calves made an average gain of 120 pounds. EGGS IN HASH NEST

Combine 6 cups ground cooked beef or lamb, 3 cups mashed potatoes, 4 tablespoons minced onion, 1 1/2 cups top milk. Melt 8 tablespoons fat in skillet and cook hash until heated through. Season to taste. Shape hash in patties and place on greased shallow baking pan. Make a hollow in the center of each patty. Slip an egg into the hollow and season with salt and pepper. Bake in a moderately slow oven (325° F.) for 20 minutes.

Here's Work For the Future We want every Kentuckian to know our future plans. For Kentucky and the Telephone Company have been working closely together for many years. "What's coming up?" Quite a lot—the greatest expansion program in the history of the telephone in Kentucky as soon as materials are available. It means spending millions of dollars to provide telephones for all who have been waiting for them. This is one of our first jobs! A greatly expanded telephone program for our future friends is also in process. Expansion of long distance service is being accelerated too. It will include the installation of special cables to handle more calls with speed and convenience for you, and to provide more facilities for that exciting, instant air-connection. A mass of construction is to be done and a new service to motor vehicles is also in the offing. What does it all add up to? For one thing, it means more opportunity for the returning veteran, for all Kentuckians. It means an adequate telephone system for Kentucky and that is essential to the state's growth. Each gives impetus to the other, as our friendly relationship has in the past. More work for the future. That's what it means, when you accept it, and Kentuckians have a knack of getting at the heart of things. They like to see the marshalling of Men, Money and Materials; that American combination which put Kentucky out in front, and keeps it there. Yes, there's prosperity in work. And prosperity means happiness for Kentuckians. As for the 3,326 men and women of the Telephone Company in Kentucky, we face the future with confidence! J. M. TRADES COUNCIL ENDORSES BIG SANDY CANALIZATION

BUILDING AND CONSTRUCTION TRADES COUNCIL OF HUNTINGTON AND VICINITY Affiliated with the American Federation of Labor HUNTINGTON, WEST VIRGINIA

October 5, 1945 Mr. Randolph Bias, Chairman Publicity Committee, Big Sandy Valley Association, Ashland, Ky. Dear Sir: We, the members of the Huntington Building & Construction Trades Council composed of delegates of nineteen Local Unions of the American Federation of Labor, have read with more than usual interest your letter in the Herald-Dispatch of Sunday, September 30th on the proposed development of the Big Sandy waterway. We realize that this great Nation has been built up in a comparatively short time from a total wilderness, by improving the land, developing our natural resources, developing and improving methods and means of transportation and inventive genius. The American Federation of Labor has always stood for advancement and improvement industrially, educationally and commercially. The Huntington Building & Construction Trades Council have gone on record as supporting your suggestion and will be glad to lend any assistance possible in helping to secure for Southern West Virginia and Eastern Kentucky the development of this waterway. We are notifying the Huntington Chapter of the Huntington and the City Council of our stand in the matter in opposition to theirs. You may feel at liberty to use this in any paper within the scope of the proposed project. Yours for improvement and advancement. Huntington Building & Construction Trades Council A. F. of L. Harry F. Ensley, Rec. Sec'y

Your gift brought them the stars themselves

LAST year, on every fighting front throughout the world, U.S.O. entertainers were busy bringing the U.S.A. closer to our fighting men. Dozens of stars, in addition to those pictured above—as well as 1500 other U.S.O. entertainers—have given more than 300,000 performances, bringing fun and relaxation to 2,000,000 of our fighting men every week. Commenting on this record, generals and admirals have been lavish with their praise. But today, they point out, with millions of men doing occupation duty in Europe—men who cannot be brought home for some time—the need for morale-building activities has become tremendously greater. That's why the Army asked the U.S.O. to quadruple its efforts, following V.E. day. And that's why your support of the U.S.O. is today more urgently needed than ever before. When you give to the U.S.O., and other agencies of the National War Fund, through your local community campaign, you also help support many other services to our fighting men and allies. You help provide books and sports equipment for Americans held prisoners of war—medicines and surgical materials for our allies—help for men of our Merchant Marine. And over and above all these things, your gift to your Community War Fund will support many human services right here in your own city. So, when you give this once, for all these great causes, give your best! Give generously to Your Community War Fund Representing the NATIONAL WAR FUND

How Huntington Backs Its So-Called Trade Area

Huntington business men boast that their city is THE HEADQUARTERS CITY for the Logan and Big Sandy Districts and the Chesapeake & Ohio Railway.

Here is the way they are backing up their so-called Trade Area in the Big Sandy Valley, through their Chamber of Commerce. Resolutions of Huntington Chamber of Commerce:

WHEREAS, the United States District and Division Engineers have recommended to the Board of Engineers for Rivers and Harbors the canalization of the Big Sandy River, including its Tug and Levisa Forks at an initial cost of \$65,000,000, and an annual maintenance cost in excess of \$600,000, all of which would be paid from the public funds derived from the taxpayers, including the Chesapeake & Ohio and Norfolk & Western Railway Companies, with which the waterway thus created at public expense would directly compete, to be used as a free waterway for the handling of coal and other commodities which are now being adequately handled by the Railway Companies; above mentioned; and

WHEREAS, this canal will yield nothing to the local, state or federal governments by way of taxation, and would divert business from the existing railroads now serving the territory proposed to be served by this canal and would result in the use of public funds to establish direct competition with these railroads which have for more than three-quarters of a century contributed a large part in the development of Southern West Virginia and its business;

WHEREAS, in view of the staggering debt of the United States, the expenditure of the sum of money required to be expended to provide this canal and would result, particularly when the cost of the annual maintenance of this canal will greatly exceed any revenue which could possibly accrue to the United States;

AND WHEREAS, the operation of the canal in direct competition with the Chesapeake & Ohio Railway Company
