The NEW PONTIAC

Here's news about the new 1946 Pontiac for which you've been waiting. The new Pontiac has all the quality, ease of handling, comfort and stamina which made pre-war Pontiacs so popular plus many impressive improvements and refinements.

The new Pontiac is still in the low-price field and still loaded with extra value features. It continues to be the fine car with the low price. It is still available as a smooth running, powerful Six or an economical eight—and both engines are interchangeable in the same chassis.

The new Pontiac, which is now here and on display, continues to be a style pacemaker, a quality leader. Even better than pre-war models, it is the finest of the famous "Silver Streaks." You are cordially invited to come in and see the sparkling new Pontiac.

... WITH THESE IMPORTANT IMPROVEMENTS

- New, beautiful exterior styling ... Improved rear-entrance body ... New instrument panel ... Heavier chrome fenders ... New instrument trim ... Improved dash ... New wheel rims ... Longer-life engine and oil pipe ... Improved cooling.

SHE CAN NOW TELL YOU...

"We Have Turned The Corner"

She is a telephone service representative and from now on her story is more cheerful. New switchboards, cables, wire and telephones needed to provide more service are becoming available in increasing volume.

But to catch up on held orders for service and to make replacements that were necessarily postponed during the war will require very large additions to our telephone plant.

It is a tremendous construction job that will require much time to complete even after the delivery of equipment by the manufacturers. So she cannot promise just when all orders will be filled. There are places where we must build new buildings or building additions to house new switchboards.

But she can say that we are on our way to give service to all who want it—on our way to restore Bell System standards of service and raise them even higher.

IT'S WAR TO FINISH ON DEER IN BERNHEIM FOREST AWAITING KENTUCKY HUNTERS ON JANUARY 2

It's not merely a deer hunt to be staged in the Bernheim game preserve, beginning the morning of Jan. 2—it's to be a war of extermination of every deer in the area embracing Bullitt, Spencer, Hardin, Nelson and Meade counties, a Division of Game & Fish release indicated this week.

The U.S. Biological Survey estimated the area to contain about 1,000 of these animals and the number perhaps is near this figure. Some details of the hunt, as outlined by the Division of Game and Fish...

ELECTRICAL APPLIANCES WHEN?

On the basis of our observations, we cannot see more than a trickle of appliances flowing into the market within the next few weeks.

HOWEVER Brands We Will Sell SERVICE

OUR LINE ON MOST ITEMS WILL BE HOT POINT. Once production really gets rolling good, appliances will be available in ever-increasing volume, and we don't advise our customers to grab at the first thing that comes along, but rather to exercise a little patience and select a product of proven quality, even if it means a few weeks delay.

Hotpoint Electric Refrigerators
Hotpoint Automatic Water Heaters
Hotpoint Electric Home Freeze Units
Hotpoint Electric Steel Kitchens, complete
Hotpoint Electric Sinks and Dishwashers
Hotpoint Electric Washers
Hotpoint Electric Automatic Home Laundries
RCA Radios and Phonographs
Bendix Radios and Phonographs
Domestic Electric Sewing Machines

Before the war there were not more than two or three appliance dealers in Floyd county. These few dealers were able to take care of the normal service requirements of the appliances they sold. Now, it is a different story. Because of the pent-up demand, every known (and unknown) appliance will be for sale right here in our county.

THE RETURNING WAR VETERAN

If all dealers should accept advance orders for appliances, this man would have to wait longest for needed home conveniences and we feel that most people will agree with us that this must not happen, in fairness to all we will, therefore, hold in reserve a fair percentage of our first shipments for these men.

Morell Supply Company has been in business in the same location for over 45 years. We have placed orders for over \$4,000 worth of service equipment. We are placing in charge of our Service Department a World War II veteran with three years' experience repairing radios on the battlefronts.

And eight—if you could see it—is a needlessly spent dollar. A moment ago it was buying a desired commodity—now it is gone used-up, worthless.

Did you ever see a saved dollar? You can see one at any time if you have a bank account. Isn't it a glad sight? There's a bill that will live to see a better day, a time when there will

be plenty for it to buy, a time when it can be spent without helping to boost prices. In fact, that dollar—if saved with other dollars covered—will help you buy a home in the post-war world, backed up by more dollars borrowed at this institution.

Let's plan our spending, plan our saving, hang on to our War Bonds, and keep on buying our country's Bonds and to our bank balance every payday. You know a dollar is only good until it is spent.

start when the shooting was over. On cross examination Miss Hall denied having heard of any previous trouble between Jesse Anderson and Holbrook.

Tuesday afternoon, 11-year-old Vaughan Holbrook told of seeing Jesse Anderson running up the hill from the scene of the shooting.

Raymond Anderson, 18, was the only defense witness to testify. He as driver of the wagon explained his failure to reach the top of the hill in the time intervening between his passing of the Holbrook home and the shooting by saying the road was in bad condition and that his team had to rest, often after a pull of only 25 or 30 feet.

He said his brother overtook him and Hall after they had passed the Holbrook home and that soon thereafter Holbrook came following them at a half-run.

"Johnny said something I couldn't understand and Jesse asked him what he meant. I'll show you what I mean," he quoted Holbrook as saying. "I'll kill all three of you—"

Both Holbrook and Jesse Anderson thrust their hands under their coats, he added, Anderson drawing a revolver and firing. He denied having seen the weapon before or since and on cross-examination admitted he did not see a weapon of any kind in Holbrook's possession.

Commonwealth witnesses claimed Holbrook was unarmed.

Commenting on the case before rendering his decision on the motion for bond, Judge Hill said, "I've always felt I have been too strict on the question of bond in these felony cases, but taking the life of a human being is a serious thing. According to the proof, Holbrook was unarmed, with no means of protecting himself. But this is one of those cases where there were not many witnesses. This may be one of the worst cases in the country. . . but here I do not have proof showing that the killing was without provocation."

ACCURATE as clockwork
CLEAN as a whistle

THERE'S a nationwide swing as shown by surveys to make the kitchens of America "All Electric."

As soon as equipment is available, millions of women will buy electric ranges—and for sound reasons of health, economy and convenience. The electric range is a precision device; it cooks by clockwork with measured accuracy. By simply turning a switch to a positive position you do away with gaswaste—you can always duplicate successful results.

And clean—it simply pours heat into the cooking utensil—there is no flame to blacken pots and pans—to soil your walls and draperies.

And with all, it's inexpensive. With our low rates, it costs only a few cents a day to cook electrically.

To the Voters of Ward 2, Prestonsburg:

I wish to thank each and every one of you who voted for me for member of the City Council of this city, and to those who did not vote for me. I assure you there is no hard feeling on my part. Now, the main issue was, so far as I am concerned, to clean up the town. I have found that I clean one block from my home and find a game of poker almost every night in the week and just about one block and a half from the city hall. I can step one-half block from Conley's Cafe that they made their tables in the table. I can name you different places in this town where I can buy beer any hour day or night, even election days or Sundays. I can name you places in this town where I can buy bootleg whiskey any day in the week or by the hour of the day or night. I can show you places in this town where men and women get drunk and beat together, and get into a fight. And these places are so full of the germs of venereal diseases that I can see recent persons to stick their heads in. I can say it and back it by the Kentucky statutes that they don't have a legal, qualified policeman in this town that will anyway meet the qualifications of a policeman. The law plainly tells us that they must live in the state 12 months and in that city, and the law forbids the policeman of any city from talking any part in the election of any candidate for office. Now, what is a good American? A man that will stand up for his rights and abide by the law. So be not deceived. God is not asleep for whenever a man swears that he shall be also reap. So I can live happy among them but I don't partake of their evil ways. So I thank you again. (Sigs) JAMES DEWEY CONLEY

It's Big-It's Beautiful-It's BUICK

THIS, we reasoned, is no time to offer folks a car that stops with artful face-lifting. That in some cases exceed those of aircraft engine production. And we eagle-eyed every one of this Buick's 12,000 parts to see if it could be bettered in any way, big or little. The result is that through every stunning inch of this bright new honey runs solid, dependable Buick character, honest and uncompromised. It's in swift clean lines. In seats that are three-persons wide. In stout, time-defying frames and underpinning. Above all — in the lift and life of a Fireball straight-eight that's even livelier than in 1942. The cars your Buick dealer will have are big. They're beautiful. They're Buicks. In fact — the best Buicks yet!

SELF-REGULATION Proved in action... Experience, according to the old saying, is the best teacher. It obviates trial-and-error methods and points out the most practical means of successful accomplishment. The Self-Regulation program, sponsored by Kentucky brewers, has proved increasingly successful throughout its experience of over five years. Its favorable influence is felt by licensed retailers of beer in every community in the State. Its purpose is—and always has been—to see that all dispensers of malt beverages recognize their social responsibilities and abide strictly by the letter of the law. It has raised the standards of beer retailing in Kentucky to an all-time high. It's a program that works.
