CASH-AWARD WON BY LOCAL TRAPPER

Skillful Handling of Mink Pelt Earns Award for M. D. Ashbury in Sears 17th National Fur Show

Read How You, Too, May Win an Award as High as \$1,000.00 Cash

Proving again that "better pelt handling pays," this local trapper got an extra \$2.00 in cash...

942 Awards—\$7,590 Cash

Yes, a total of 942 cash awards for fur shippers—942 opportunities to share in \$7,590.00 in cash.

Pays You 3 Ways

First, every award is in addition to the cash Sears gets for your pelt.

is needed than moral support for the successful administration of these three officials' duties.

Are you willing to bear witness against your neighbor if you know he is violating the law and creating conditions detrimental not only to his community but also to the county as a whole?

Are you willing to put your own friends and kinsmen to suffer the just penalties exacted by the law for their misdeeds?

Will you cast your influence as good citizens, always for law-enforcement, never to gain an "out" for some violator who richly deserves punishment as much as the next, although his ties of blood are more far-reaching and more powerful?

Will you try to help in the selection of juries who will mete out plain justice and desist from the old custom of pretending to "help" the courts with the truth, helping to pick jurors who can be "dependent upon"?

Will you remember that every community's problem is every other's in the county?

It's a big order we folks have given these officials, it's a big one they have accepted. If we do our part and they fail us, we have a complaint we can register at coming elections.

Who are they who are cheating, wronging and defrauding these men and women of tomorrow? Is it any wonder that down through the years Kentucky has been known throughout the nation for her illiterate and uneducated?

Again January 14, and no bus. And first semester examination at Prestonsburg high school. And what of the grade school children who stand by the roadside in the sub-zero weather, waiting for the school bus that never runs? Why don't we put on a few more high-salaried truant officers to compel the children to go to school three, four or five miles on foot?

Caddy Congratulates Big Sandy Association Operators on Record

H. S. Homan, secretary, Big Sandy Coal Operators Association, Saturday announced receipt of a telegram from Stan Caddy, president of District 30, United Mine Workers, complimenting members of the Association for their 100 per cent record in carrying compensation to protect their employes from injuries and mine disasters.

Mr. Caddy said he "feels reasonably sure all mines in the Big Sandy field" will agree by Monday to provide insurance protection for their coal miners.

Caddy said he received a telegram from Tom Raney, Pikeville, saying that 19 of 29 truck mines in the Big Sandy field had agreed to provide such protection for their men. Reports from the other 10 are expected over the week-end, Caddy indicated.

Raney, international union board member for District 30, has been contacting operators of the mines which were not covered by workers' compensation insurance or a similar form of protection for their men.

Caddy said there are about 70 "unprotected" mines in District 30, with 29 in the Big Sandy field, and about 30 or so in the Hazard field.

Pikeville College Gymnasium Burns

Pikeville, Ky., Jan. 12—The Pikeville College gymnasium was destroyed yesterday by a fire of undetermined origin, according to President A. A. Page. The damage was described as "heavy."

Although volunteers driven were hampered by low water pressure resulting from the recent flood, they were able to contain the blaze to the single building. A nearby dormitory, however, was scorched by the flames.

TIRE RATIONING ENDS

No more certificate! Once again every one is eligible to buy, and soon you'll be able to drive in and get immediate delivery on new tires for your car.

PRODUCTION OUTLOOK AT A GLANCE

Tire manufacturers have been unable to fill the great need for new passenger car tires. In case we do not have the right size tire for your car, we should be able to get it soon. Come in for full information.

HERE'S WHY you'll want the B. F. Goodrich Silvertown OUTWEARS PREWAR TIRES!

It has been proved. More than 2,000 tests and nearly 17,000,000 miles of the toughest kind of road service showed that this new B. F. Goodrich Silvertown will Outwear Prewar natural rubber tires.

Now, better rubber. B. F. Goodrich has developed a rubber that's far better than ordinary tires. It holds the new Silvertown wear better than an ordinary tire. It has greater resistance to cracking—and actually stands bruising and damage from accidents better.

The Body 35's stronger. An entirely new tire—yet it's used, more of these cords are used in the top ply, an extra shock-absorbing breaker strip is included. The result: a body that is 35% stronger for additional resistance to bruises, extra blowout protection.

Flatter tread covers more ground. Called the "road level" tread, it puts more rubber on the road, prevents all the tread to shove the wear. Results: a further increase in mileage, less squaring, better distribution of weight, better traction, and safety on the turns.

Plus 3 years' EXTRA PROTECTION. In 3 years before any other manufacturer, B. F. Goodrich sold tires containing synthetic rubber to American car owners. The extra knobs built into these tires are a further step toward longer life.

Capt. Chandler Hurt Seriously in Japan

A Christmas Day near-tragedy involving a Floyd cousin in Japan was reported this week.

Dr. and Mrs. T. J. Chandler, of Betsy Layne, learned through Dr. Ralph Allen, a former resident of Harod, near Betsy Layne, that their son, Capt. Clinton Chandler, suffered a fractured skull and broken legs in a vehicle wreck, Dec. 25, while with occupation forces on the Japanese mainland.

Parents of Capt. Chandler later were notified his condition is improved.

Probst-Barke Vows Said at Kenosha, Wis.

The wedding vows of Miss Jayne Probst and 3rd Lt. Winston Layne Barke were exchanged at 3 o'clock on the afternoon of January 5, at St. George's parsonage, Kenosha, Wisconsin.

The bride wore an ivory satin gown with high neck and yoke of net and a finger veil held by a coronet of pearls. Her only jewelry was a pearl necklace, a gift of the groom. Her French bouquet was of white rosebuds, intermingled with baby-white mums. The maid-of-honor, Miss Betty Probst, sister of the bride, wore blue net over blue tulle. Her French bouquet was of yellow rosebuds with yellow mums, a band of the same flowers worn in her hair. Miss Alice Gray Burke, sister of the groom, was the only bridesmaid. Her gown was rose net over rose satin. Her bouquet, was pink rosebuds and white mums, the same flowers worn in her hair. Mrs. Henry Probst, mother of the bride, wore a black net with a black hat embellished with sequins. Her corsage was of gardenias. Mrs. Edmund R. Burke, mother of the groom, wore a black crepe satin gown with hat of fuchsia velvets and hat corsage was of pink camellias. The groom's attendants were Lt. Russell Folio of Clarkburg, W. Va., and Lt. Walter E. Brunkow, Portland, Ore. Following the double ring ceremony, an elaborate reception was held at the home of the bride's parents, Mr. and Mrs. Henry Probst. The honeymoon was spent in Milwaukee, Wisconsin, before going to Scott Field, Illinois, where Lt. Burke will be stationed.

Mr. and Mrs. E. R. Burke, parents, and Miss Alice Gray Burke, sister, of the groom, and Mrs. Frank H. Layne, his aunt, attended the nuptials.

Madison-Holcomb Vows Said at Ashland, Ky.

Miss Anna Reed Madison, daughter of Mr. and Mrs. V. H. Madison, of Scottsville, Ky., and Mr. Harold R. Holcomb, of Huntington, W. Va., son of Mr. and Mrs. H. H. Holcomb, were united in marriage at Unity Baptist Church, Ashland, Ky., on Dec. 27. The double ring ceremony was performed by the Rev. L. H. Tipton in the presence of a few close friends and relatives. The bride wore a dress-length dress of pastel pink crepe and black accessories. Her shoulder corsage was orchids. The matron of honor, Mrs. Bob Stalnaker, of Huntington, W. Va., wore a gray wool suit, with black accessories and a corsage of white camellias.

The best man, John W. Gold, of Huntington, had spent four and a half years in military service with the groom. Mrs. Holcomb is a graduate of Scottsville high school and for the last two years has been employed by the U. S. engineers in Columbus, Ohio.

Mr. Holcomb was graduated from Prestonsburg high school and attended Marshall College in Huntington, W. Va., before entering the army.

After a reception at the home of Mr. John W. Gold, the newlyweds left on a wedding trip by motor through Tennessee and North Carolina. On their return they will reside in the Kammick apartments in Pikeville, where the groom will be connected with his father in the drilling business.

Ralph Archer has returned from Scottsboro, Ala., accompanied by Mrs. Archer and daughters, Georgia and Emma. Mrs. Archer will remain here with Mr. Archer at the home of his parents, Mr. and Mrs. C. F. Archer.

Formidable Opposition To Be Offered P'burg By Wayland Quintet

Despite a 47-43 defeat at Wheelwright Saturday night in an overtime period, this Wayland basketball team that's scheduled for an appearance here next Tuesday evening is the "genuine article," the season's records show.

The Wildcats lost their first game of the season at Betsy Layne by one point, then dropped their next game to McBowell, at home, by the same margin.

That was on Oct. 27. Since that time, Wayland went undefeated till last Saturday, meanwhile defeating Hindman, Viojo, Garrett, Painisville and other teams of the county and section. After licking Painisville, 50 to 42, at Painisville last Wednesday, the Right Beaver Creek boys edged out Viojo, one of the most powerful of Eastern Kentucky fives, Friday night at Wayland, 33-34.

Mrs. J. F. Ribble left Thursday for Washington, D.C., for a visit with Mr. Ribble, who is employed there.

Nazis Called 82nd 'Devils With Baggy Pants'

Floyd Countians Listed on Roster of Famed Outfit

United States army records list it simply as the 82nd Airborne Division, but the Nazis knew its members as 'devils with baggy pants' who dropped from the clouds with disastrous results to the enemy, onto the battlefields of Sicily, Italy, Normandy and the Low Countries. When the division landed recently at a New York pier, as a preliminary to a triumphant parade up Fifth avenue Saturday, Kentuckians shared the nation's pride in the rough-and-ready outfit which, more than 200 officers and enlisted men, flew call 'Kentucky' home. The division's roster of Kentuckians includes: Virgil Patton, Alphoretta; James G. Dorton, Ashland; John L. Thompson, Benton; Arvel Adams, Berea; Thomas Crump, Bonville; Cleon H. H. Carroll, Boyle; Green; David P. Stoltz, Buchel; Thomas C. Swing, Cadesburg; William W. H. Chapel, Isaac L. Copas, Coe; Arthur Blake, Dewitt; Frank W. Black, East Bernstadt; Ernest W. Federal Inspector Commends Floyd Mine

A federal coal mine inspector has commended the 38 workers and officials of the Harrison Branch Coal Company's relatively new 100-ton-a-day Canfield No. 2 mine, opened in July, 1945, near Betsy Layne, for adopting several recognized safety practices, the Bureau of Mines announced recently in a safety report based on an original government inspection of the mine a few weeks ago. Although Inspector Russell Shaw enumerated the number of prize-worthy features of the mine, he also suggested additional safeguards to increase protection for life and property. Among the commendable features were adequate ventilation and effective use of line brattices, daily pre-shift examination of the mine for gas and other hazards, adequate clearance along haulage ways, use of incombustible stemming with explosives, employment of shop-dress to blast coal when all other men are out of the mine, wearing of protective hats by all employees, well-insulated and holding machinery and surface haulage tracks, and promotion of a safety group with specific operating functions of employees. To supplement these practices and conditions, Inspector Shaw advised that stricter enforcement of systematic timbering rules, approved rock testing, exclusive use of permissible explosives in a permissible manner, replacement of open-flame lamps with permissible electric lamps, a ban on smoking underground, incombustible stoppings in couring air, adoption of a dust-dust control program, wider use of safety-toe footwear, and certain safeguards for electrical installations. Keep your Wat Donds now—they'll help keep you later.

'Christianity in Education,' Topic of Minister's Address

'Christianity in Education' was the subject of the Rev. W. B. Garriott, pastor of the Methodist Church here, in his address as guest-speaker at the meeting of the Prestonsburg Woman's Club. The meeting was held at the home of Mrs. W. A. Rose, with Mrs. A. C. Hartree presiding. At the business session the club adopted for the December project the sending of food to war sufferers overseas. Guests were Mrs. Harry Ranier, Mrs. W. B. Callihan, Jr., and Miss Reva Kinser. Fourteen members were present. The hostesses, Miss Margaret Elizabeth May and Mrs. A. B. Combs served a delectable course. From Our Schools Come New Leaders

Agriculture looks forward with confidence to tomorrow because its youth is being trained properly today. Our United States public school system has taught scientific agriculture to millions of boys and girls in the vocational agriculture courses of nearly 10,000 rural high schools. Here students learn the improvement and proper use of the soil which is our basic wealth; how to produce ton liters of pork in less than six months; the care and repair of farm machinery; and many other vital things. Such studies create an interest in research and this is important—for scientific research is vital in agriculture and other industries. Science has been back of the development of modern farm machinery; of cows that produce 15,000 pounds of milk; hybrid corn; breeds of beef cattle, hogs and sheep capable of converting feed into meat and fiber economically and speedily. Research in the science of agriculture is a major national resource which has contributed largely to the high standard of American living.

Illustration of a man and a woman in a field, with text about agricultural research and the editor's column.

MEAT BUYING CUSTOMS

Bostonians like beef from light steers, St. Louisans prefer beef from light ones. It is of interest to livestock producers and meat packers that taste, money-to-spend, seasons, beliefs and habits all affect meat buying customs in different parts of the United States. Our new 16 mm. moving picture sound film, animated and in color, 'MEAT BUYING CUSTOMS,' explains these differences. Interesting for lodge, grange, school or church societies, and farm and livestock meetings. You pay only transportation one way Write to Department 128, Swift & Company, Union Stock Yards, Chicago 9, Illinois.

THE EDITOR'S COLUMN

Several times in this space, I have invited producers of agricultural products to come and see us. As a result of this, we have brought to you a number of visitors. Conversations with these visitors have been very interesting and helpful to me and have brought to me a number of ideas. Some recent conversations indicated that quite a number of producers think there are less than a hundred meat packers in the United States, in fact some thought there were as few as ten. This idea seems to come from the fact that many of them ship their livestock to only one market and are familiar only with the number of meat packing plants at that market. I am sure that it will interest all of you to know that there are more than 3,500 meat packers in the United States. In addition, there are upwards of 22,500 other commercial slaughterers. The only way these 66,000 companies and people can make money in their business is to sell meat. And to sell meat they must buy livestock. So all over the country—from Portland, Oregon, to Portland, Maine, from the Rio Grande to the Canadian border—these competing livestock buyers are bidding against each other for the essential material of their businesses—the cattle, calves, hogs, and sheep produced by American farmers and ranchers. The buyers who get that livestock are the ones who bid the highest prices in their particular areas. F. M. Simpson, Agricultural Research Department

CONGRESS AMENDS G.I. BILL
The Congress, on December 19, 1945, passed certain amendments to the G. I. Bill of Rights which will go far toward meeting the many objections raised against the operation of some provisions of the original act. The bill was signed by President Truman on Dec. 23, 1945. Although no corrected copy of the measure as it passed is available, the following summarizes the important changes in the Education and Training phase of the bill come from an authentic source.
The Act extends the time from two to four years after either the date of the veteran's discharge or the termination of the war, whichever is the latter, to initiate a course; and extends the time within which education or training may be afforded from seven to nine years after the termination of the war.
The new Act eliminates the requirement in the law that veterans show that education was interrupted by service, and because of such change, it strikes out the 28-year age limitation on presentation of interest in education.
There is stricken from the present law the provision for a refresher or retaining course, and in effect the new Act provides that the veteran will be afforded approved education or training for a period of one year plus the time he was in active service, not to exceed a total of four years.
Provision is made for instruction in correspondence courses, without subsistence allowances, subject to conditions as to extended education or training for a period of one year plus the time he was in active service, not to exceed a total of four years.
The monthly subsistence allowances are increased from \$50 to \$85 in the cases of veterans without dependents, and from \$75 to \$90 in the cases of veterans with dependents.
Army Good Conduct Medal
While in service, many veterans were authorized the army's Good Conduct Medal, and received only the ribbon. The Disabled Ex-Service Men's Board, in accordance with the Adjutant General's office, Washington, D. C., has prepared applications to be used by veterans who desire to receive the medal. These applications are available without charge and may be had upon request.
After the application is completed, we request that they be mailed to our office in order that they may be forwarded to the proper office in the War Department.
We are advised that these are the only medals available at the present time. These ribbons are available only, as medals to accompany them are not yet available.

IGNORANCE IS TO BLAME
A young naval officer writes to the Atlantic Monthly: "Ignorance is to blame for the whole bloody mess. The only thing I can see to do is to get it off on the ground floor. Think I could qualify as a teacher in the public schools? This is not a good diagnosis of the cause and cure of World War II as it is likely to be written. In his concern about ignorance and its cure, never before has the public been shown as much interest in education. Much of this interest stems from the lesson of World War II to the teaching of lies. Back of the would-be conquerors of the world were false teachers who beamed their lessons on greed, cruelty, and the worthlessness of human life.
It was in recognition of this fact that education was clearly regarded as one of the objectives of the United Nations at the San Francisco Conference. Then followed the development of the Constitution of UNESCO (United Nations Educational, Scientific, and Cultural Organization) at London during November.
The implication of all this is very clear. Now, in every land, in every language, the teachers have a key job in the most important business—the business of keeping the peace.
The knowledge of skills, the understandings gained by our young people in the next few years will determine whether this country can or will solve the difficult problems of the peace.
Yes, teachers do have a key job but it is not revealed by the salaries many of them are paid in this country. In 1942—latest figures available—the average annual earnings of full-time employees in private industry were \$2,022 while the earnings for public school teachers, principals, and supervisors averaged \$1,559. In 1944-45, 23 per cent of the nation's teachers were paid less than \$1,300. Three per cent were paid less than \$900.
This country can afford to pay teachers decent salaries. Until more of our teachers are better paid we will not get the kind of teaching service the importance of education demands.

NOTICE
In accordance with Section 135.045 the tax roll will be open for inspection from Jan. 15 to Feb. 1, 1946 in the Tax Commissioner's office.
It is the duty of each taxpayer to examine his list and if he has not satisfied he may appeal to the Board of Supervisors which convenes Feb. 4, 1946.
Thank you for your past co-operation.

NOTICE
H. S. Bailey has filed application with the Floyd county court for permit to operate a roadhouse at the old Turner Camp, on Route 25, approximately six miles south of Prestonsburg where either soft drinks or beer or both may be sold. 1-17-3t

NOTICE
Laying stocks in Woodford county are said to be from 10 to 15 per cent larger than last year.

They are all calling James Halbert, the Imperial Ice cream man, the "Granny Man." Yeah, he came in the other night and went into the back room to sleep. On entering he let the old cat get in the room with him. When he woke next morning the old cat and four kittens were in bed with him.
Virgil I. and Harry L. spent the week-end in Prestonsburg or almost there. They called M.D. King, the wrecker but they really needed the check-up.
I'm still trying to find out what kind of laying mash R. C. Barnett is using. We have a report that he equipped two hens for a turkey and is feeding it laying mash and is expecting some chicks. The turkey is hitch to it—the turkey is a gobbler.
We also have a report that Roe Buck has a badge as big as a saucer and his artillery is mounted on wheels.
Who, oh, boy! they tell me that if the Gardner hasn't got what you want he'll substitute to get results. We have a report that he sold a fellow a concrete pump for a church dasher. I'm just wondering if it answered the purpose.

After the recent flood we just realized why Dr. Collins built his meat house on top of his three-story building. A penthouse—or a meat house—is high and dry.
It will just be a waste of time to look and aim the Big Sandy if the highway department doesn't do a little work on the roads, especially near Leas River road. They will (the highways) almost float a barge right now.
If the state mine inspectors are to remain as they are, the Legislature may as well abolish the department. After all, under the present system, it is money wasted. According to the last report on the Straight Creek mine (scene of the recent explosion that cost 24 lives) just about everything was wrong, but nothing was done to remedy the situation and I thought the law required an inspection every three months. Yet the last report available, according to the Kentucky Department of Mines and Minerals, was Jan. 28, 1945—just 11 months old and, according to the engineers, the mine was using a "booster fan" which was always under the impression, was strictly against the law, was always under the impression that using a "booster fan" was just inviting an explosion. Yet what did our state inspectors do about the situation? Nothing—absolutely. I have just finished reading press release on the speech of recommendations to the Legislature and his ideas won't help the Department of Mines one particle. It will just be the same old story. The greatest aid the Kentucky Department of Mines and Minerals can receive is to take it out of politics and quit gambling on lives of miners for a few votes under the impression that it will command the respect of qualified men. Now all the latest men might be qualified inspectors—I don't know. But it seems strange that the last seven would come from Muddy Branch and vicinity.

Every cloud has a silver lining—the flood did do Martin a little good. It washed the streets clean—the first time they have been washed since the last flood. The water down main street in Martin was swift and the next day the streets were as clean as a pin.
Jack Blackbird ran a ferry service in the town of Martin while it was under water—in his little green boat. Did anyone notice where he made the most trips?—Yeah, he ran a chicken rescue boat, too.
While the water was the highest Joby Prater's dog dived off his front porch into the water and went under the floor. The water was high to under the floor and he had to chop up the new flooring to rescue his dog.
We miners extend our thanks to Senator Doug Hays for the bill he has introduced in the Legislature to make compensation insurance compulsory. More power to you, Doug!

I'm just wondering if Tom Lewis lost his plumb-bob in the recent flood.

after 4 years of War
BACK AGAIN
with the 5 Star Economy Plan
ELEC

THIS is important news to our customers and to us. After four years of War when electrical appliances could not be manufactured, we announce with special pleasure the return of our popular FIVE STAR ECONOMY PURCHASE PLAN. This Purchase Plan was started in 1935 and immediately received customer acceptance.
The Plan includes liberal trade-in allowances, allowances to new home builders, or home modernizers, low monthly payments made possible through our exceptionally low finance charges, and, of course, our low cooking and water heating rates. All of which make it possible for thousands of our customers to purchase electric ranges and water heaters.
To the many thousands of homemakers who have been waiting to cook and to heat water the modern way, this news that we have reinstated our Five Star Economy Purchase Plan will be definitely good news.
Electric Ranges and Water Heaters are rolling off the production lines. Electrical Dealers and this Company have received display models. While we cannot begin to meet the pent-up demand for these two popular home appliances at this time, if you're as long now. We urge you to place your orders right now with either your Electrical Dealer or with this Company to assure an early delivery.

Glo Mine Employee Found Dead in Bed

William Joyce, 64-year-old Glo mine coal company employe, was found dead in bed at his home at 610 Thursday morning, last week, believed to have been a heart attack victim.

Mr. Joyce had resided at Glo for several years and had many friends in that section of the county. He is survived by his widow and several children.

Funeral rites were conducted Sunday at Glo, the Rev. Lawrence Price officiating, and burial there was made under direction of the Arnold Funeral Home.

Dr. G. D. Callihan visited his sister, Mrs. Myrd C. May, last week in Huntington.

DAVIE (who says he knows all about pruning trees because he likes pruning trees) appears to be about to collect on his accident insurance policy. Poor Davie! But he's lucky at that. Some people are still without the protection of accident and health insurance and would be totally out of luck in Davie's place. Talk with us to-day about accident and health insurance.

Wife of Merchant Dies at Wright, Victim of Cancer

Mrs. Cora Hall, 46 years old, wife of Lee Hall, Jr., prominent Wheelwright merchant, died at her home Friday, a victim of cancer after a long illness.

A daughter of Mr. and Mrs. Willie Hall, she had resided at Wheelwright during development of the community, where she was regarded as one of the town's best women. She was a devout member of the Regular Baptist Church.

Surviving, besides her husband, are one son, Everett Hall, Wheelwright, a daughter, Mrs. Bert Jones, Plummers Landing, Ky., and a foster son, Ernest, of Wheelwright. She also is survived by five sisters and the following brothers, Press, Lee and Dave Hall, of Bybro.

Funeral rites were conducted Sunday from the regular Baptist Church, Wheelwright, the Revs. Jerry Hall, Ernest Collins and Randall Noble officiating. Burial in the Branchman cemetery at Wheelwright, was directed by the Ryan Funeral Home.

THE OLD JUDGE SAYS... HARRY: "I don't know what they'll weigh up, Judge, but my cattle and poultry sure have been gettin' fatter since I started to use distillers' dried grains in their ration." OLD JUDGE: "You're about the tenth one who has told me that, Harry. How do you account for it?" HARRY: "The by-product recovered from grains used by distillers is very high in vitamin and protein content. It's the best feed supplement we can get to balance the rations etc. See W.M. DINGUS, 23 First avenue, City. 11-29-46." OLD JUDGE: "Then I guess nobody can tell you grain is wasted in distilling." HARRY: "Not me, Judge... I know."
