C. & O. FILES ASKING PERMIT TO BUILD LINE

Railway Extension Of 25 Miles Would Open New Territory

Development of a vast amount of lands in Wayne and Letcher counties, with the prospect passing through this county, via Wayland, is being filed as a result of the filing by the Chesapeake & Ohio Railway Company, a few days ago, of an application for a permit from the Interstate Commerce Commission to build a 25-mile line from Wayland through the undeveloped portion of the line from

3 WAYLAND YOUTHS DIE AFTER WRECK

Auto Leaves Highway Near Pikeville, Hits Bus; Stone Boy Hurt

Three Wayland youths, one a war veteran, died of injuries sustained Friday night in an automobile wreck near Pikeville, Ky. The car, loaded with an abandoned bus, was traveling on a highway near Pikeville, in a serious condition.

The tragedy occurred on the Pikeville-Wayland road approximately three miles from Pikeville, as the automobile young Howard was driving, returning from the town of Wayland, left the highway when halfway down Pound mountain. The car rolled into an abandoned bus on the roadside, knocking the bus over the hillside and striking the youths. Copley, who was discharged from the army for military service in France, died in the wreck. The other two youths, Winches and Smith, died in the hospital at Pikeville. His neck was broken and he suffered a cerebral hemorrhage. Less than two hours later, young Howard succumbed to internal injuries. His left leg was also crushed.

The Bentley boy died 24 hours after the wreck. He suffered internal injuries and a broken leg.

The three Wayland boys had gone to work at the local coal mine at Wayland for a week-end visit with the Howard. The father of one of the victims, I. C. Howard, chief engineer at Wayland for the Elk Horn Coal Corporation, was notified of the accident and immediately proceeded to Wayland from Clintwood, Va. Whether the body of the victim will be buried at the Methodist church Sunday afternoon, it is not known.

"Welcome"—And We Mean It

NEXT Monday, Prestonsburg will witness its first Labor Day celebration. Floyd county miners, members of the Labor Day Celebration Committee of District 30, have seen to that, and THE TIMES joins many others in expressing appreciation of this recognition.

We shall, we know, fail of otherwise expressing the welcome we would give these workers to Prestonsburg; so, this is our sincere welcome to them.

For these men whose hazardous work in the mines makes Floyd a wealthy, busy part of this country, a celebration such as this plan is altogether appropriate. And it is likewise good that they find many friends here who say, "Welcome"—and mean it.

An Open Letter

TO THOSE WHO WILL SERVE ON PETIT JURIES DURING THE CIRCUIT COURT TERM BEGINNING HERE MONDAY, SEPTEMBER 2:

AS you will doubtless recall, the Commonwealth, not the defense, at the last term of the Floyd circuit court sought changes of venue for two murder trials. That's unusual procedure, but the Commonwealth declared that "such a state of lawlessness exists in Floyd county" that it could not have a fair chance in the trial of men accused of murder.

That didn't mean that the state of lawlessness referred to was such that folks were being killed off like flies, that armed thugs were roaming the highways, shooting up and holding up everybody they met, or that the processes of law and order were being intimidated by force or threat.

It meant that a relatively few citizens, some of them, would prefer to hold crime and that the petit juries of the county, on the whole, were falling so far short of doing their duty that the Commonwealth did not care to risk trial in this county at that time.

It was a blunt charge against us all; more particularly, it was a scathing indictment of the county's petit juries. It named no individual, because a large percentage of the people of the county want a law and order and some jurors at the last term of court were good jurors. The trouble was, there were a few so weak morally or mentally or so timid of spirit that duty could not be seen or, if seen, was disregarded.

So it's up to you to redeem us all in the eyes of the law and in the esteem of others.

You can do this in reasonably short order. It will require the use of your thinking faculties, fortified by moral courage and a desire to serve your county in a high order of service. It will not permit of any vacation such as jury service sometimes is regarded. Your job will be no secure.

You will not be expected to convict every man or woman accused of an offense. It is common knowledge that a grand jury indictment does not constitute guilt. But you will have to consider the forces of law and order a necessary force in your lives and in those of others. You will have to possess a desire to hold guilty those who are guilty, regardless of station in life or the power of influence behind them.

Most of all, after you have decided upon a defendant's guilt, you must have the nerve to fix his penalty as long and as hard as deserved.

Above all, do not make the tragic mistake of evaluating a life at so many dollars per head or of tagging the price of a girl's or a woman's honor in dollars and cents.

You will have to decide who is guilty and who is innocent. And if you would make of the law anything but a travesty

of justice, you will not decide that a man is guilty only a teeny-weeny bit, if he is charged with murder and is guilty of murder, he is due a penitentiary term or the extreme penalty provided by law. If he is innocent, certainly he should not have to pay a fine or serve a jail term—he should go free. There should be no fence-straddling in this matter.

You know that; we know you do; we are merely reminding you. Best wishes—and may we assure you that we will support you as long as you do the job well.

THE FLOYD COUNTY TIMES

Put an End to Ghoulish Voting

THE macabre business of voting the dead for whatever candidate or cause a few men espouse is on its way out in Floyd county.

At least, an earnest effort is being made to purge the voting registration lists of the names of the departed. Also being removed from the lists by the Floyd County Purgation Board are the names of persons who have left the county and others who for legal reasons are no longer entitled to a ballot.

For this signal service honest citizens will, first of all, be grateful to the Legislature which enacted the law providing for purgation to start with action of the election officers at the polls. Then they will give just recognition to Election Commissioners George W. Snodgrass and Alex H. Spradlin and County Clerk Jarvis Allen for doing their duty in making the final purgation as directed by the poll officials.

It would have been easy for all concerned to skip the whole thing—if the election officers had failed to act and if members of the Board had agreed that was the thing to do.

In some precincts, indeed, election officers did fail to do their legal duty to start the registration purgation. It may be asking a great deal of the Purgation Board members, but THE TIMES hopes they notify officers who were thus derelict to come here and do the work they are enjoined by law.

The purgation work started will put an end to those crude tactics whereby a dead person's vote or that of a former resident is cast with the ruthless intention of thus offsetting the votes of legal voters.

There are a few, but not many, in Floyd county who would prefer that the dead, absent and imprisoned remain on the voting lists. Such individuals would desecrate the memory of the dead. It is poor tribute to those gone ahead, that members of the Board, THE TIMES hopes, will be used as voters in the most ghoulish sort of a manner, and buried in a crooked ballot-box grave.

Let's finish the job begun. Some mistakes will be made—but they will be honest mistakes.

**Good Sailing, Friends,
And Freedom to You**

(The Courier-Tribune)

WE DON'T know when we've read a story of the 18 Bostonians who crossed the Atlantic in an egg-shell, so to speak, looking for a haven of freedom, was after our heart. But then we saw how the voyagers were turned away from our shores—and from Miami, of all the undiscriminating places—and it made the land of the free look a little bad, to our notion.

We quite agree with the leader of the band, who said they believed they could have been good Americans. We would have let them stay, and have the best land in the land for the truth they have to tell. They're lived under the Germans and they've lived under the Russians. And a police state is a police state, whether the power issues from Berlin or Moscow; and compared to the open sea in a 38-foot calabal it paradise even. We wish the law had let them stay, if only for the story that they could tell, and of which they gave the Associated Press a toothsome crumb.

As a bit sad, we find, reflecting that our own citizens were in such a state, and not so very long ago. But we have grown fat and conventional, aging before our time, hating to be bothered, unremoved by adventure. "They can't take the sea away from us," the young skipper said in mournful pride as he hoisted sail to put out for Bismarck Bay. And do you know, he made us think of Daniel Boone, who happily for us found no immigration agents at Cumberland Gap.

Ah well! At least we can wish them good sailing and a fair breeze, and a happy discovery beyond the horizon, a land of the heart's desire.

Mr. and Mrs. F. A. Wasmick of Rochester, New York, announce the arrival of a son, Francis Adam, on August 17 at St. James Hospital there. The mother is the former Shirley Derossett.

HOW SELF-REGULATION WORKS

Kentucky brewers are determined that their products shall be sold only by reputable dealers.

To insure a high standard of operation among licensees, this Committee's field men inspect retail outlets regularly. They observe whether or not all laws and regulations are being observed, and whether malt beverages are being sold on the high plane demanded by the brewing industry.

Dealers are reminded constantly of the necessity for strict compliance with the law. The vast majority of them realize the far-reaching value of Self-Regulation, and applaud its progressive objectives. They know that their own welfare is linked inextricably with the public good.

Former Floyd Teacher High School Training Director at Muskingum

William Adams, Jr., former biology and science teacher at Wayland high school, now professor of biology at Muskingum College, New Concord, Ohio, was recently appointed director of high school teacher training in the training school of the college.

Wayland students under Mr. Adams' guidance collected one of the largest high school natural history museums in Eastern Kentucky.

Mr. Adams left the Floyd county schools in 1942 and went to the Sycamore county, Ohio schools. From there he went to the college as a professor of biology. Mr. Adams is married and has two sons, William David and Paul Douglas.

TO THE TAXPAYERS

We will have our tax books for the year 1945-1946 on Monday, Sept. 2. In order to avoid having to explain to each taxpayer why their taxes have been increased, I want to explain now.

At the recent session of the Kentucky Legislature there was a bill passed giving to the Boards of Education of the various counties in Kentucky the privilege of fixing the rates for common school purposes at any rate they deemed necessary, the maximum or largest rate that any county could fix was \$1.50 for each \$100 assessed valuation.

The Floyd County Board of Education increased the rate from its basis to \$1.50 for each \$100 of assessed valuation, or twice what you have been paying for common school purposes.

I am making this explanation in order to save our time and yours. In order to call to pay your taxes, I want the public to know the Sheriffs of the various counties have nothing to do with the assessed valuation of property or the rate fixed upon the valuation.

LOCAL OPTION ELECTION

To the Voters of Little Paint Precinct, Floyd County, Ky.:

There will be an election held at Little Paint place of voting on the 21st day of September, 1946, said day being Saturday, the polls opening at 6 o'clock a.m., and closing at 4 o'clock p.m.

Said election will be held to decide the question of whether or not spirituous, vinous and malt liquors shall be sold, bartered or loaned in said precinct.

Given under my hand as Sheriff of Floyd County, Ky., this 27th day of August, 1946.

TROY B. STURGILL, Sheriff, Floyd County, Ky.

IN THE MATTER OF LOCAL OPTION ELECTION IN LITTLE PAINT VOTING PRECINCT No. 27:

It appearing to the Court that a petition has been filed by a number of the constitutionally qualified voters of Little Paint Precinct No. 27, being more than 25 per cent of the votes cast in said precinct at the last preceding general election, with the County Court Clerk, said petition being in due form according to law, and showing the postoffice address of each voter and the date said petition was signed, Said petition was filed July 19, 1946.

Pursuant to said petition, a local option election is hereby directed to be held in said Little Paint Precinct No. 27, on September 21, 1946.

The Clerk of this Court is hereby directed to deliver to the sheriff of Floyd county a certified copy of this order within five days from this date.

The Sheriff is directed to advertise this order by publication in the Floyd County Times for two consecutive weeks, and by posting written or printed handbills at not less than five conspicuous places in said precinct. The Sheriff shall report his action in writing to this court.

The County Clerk is further directed to prepare the necessary ballots and equipment for said election as is provided by law.

This July 22, 1946.

ALEX L. DAVIDSON, County Judge

STATE OF KENTUCKY COUNTY OF FLOYD

J. JARVIS ALLEN, Clerk of the County Court for the County and State aforesaid, do hereby certify that the foregoing is a true and correct copy of the Order as appears of record in Order Book 35, page 586.

Witness my hand, this 23 day of July, 1946. JARVIS ALLEN, Clerk By Hildred Allen, D.C.

"How to save money on your electric bill"

- 1 Throw away your electric clock and buy a sun-dial. Of course, it won't wake you up for work, but think of the fun you'll have trying to figure out what time it is — on sunny days, anyway. And you'll be saving about 5¢ every month! At that rate, you'll have the sun-dial almost paid for in only 41 years!
- 2 Donate your electric washer to an orphanage and start doing your wash by hand. In one month, you'll actually have saved 8¢! At the end of a year, you'll have almost enough money to pay for a good strong wash-board, which you'll be needing by then. The exercise will do you worlds of good, and keep you out of mischief for hours and hours at a time.
- 3 Turn off your radio during "The Electric Hour" on Sunday afternoon. Of course, you'll miss a wonderful program, but you'll save a sixth of a penny every time you do it. In a year, that's nearly 9¢. And there's no music so pleasant as those coppers clicking in your pocket!

Watch for more of these practical money-saving suggestions by Dr. Twitch. He really knows his subject. We hope he'll help you realize how many jobs electricity does for you and how little it costs for each.

Loot in Idaho Burglary Is Believed Contained in Intercepted Parcel

A telegram from the Pocatello Idaho police led Monday to the intercepting of a parcel of 10 items of clothing—and an electric iron—which police said Barthe Hall, formerly of Mud Creek, is suspected of having taken in a recent burglary at Pocatello.

Notified that an express shipment had been made at Pocatello by one Mack Hall to Mack Hall, Prestonsburg, Deputy Sheriff Harold Conn procured an order of delivery and the package is now at the Sheriff's office.

Meanwhile, watch is being maintained for Hall. Pocatello police said he is hitch-hiking from Idaho to this county after having been refused a ride by McKinley Hall. The suspect's name was also given as Bert or Bill Bert Hall.

SHOWER FOR MISS RIMMER
Miss Patricia Rimmer was honored Tuesday evening at the Auxier hotel. The center table was most attractive with a crystal basket bandied with red roses and clematis. Requisition by Willis Unhonored by Dewey in Birkholz Case

Requisition of Governor Simeon S. Willis of Kentucky on Governor Thomas E. Dewey of New York for the extradition to this county from Mineola, N. Y., of John Birkholz, wanted by Floyd authorities on a charge of "taking a child from divorced parent to which custody had been awarded," was refused last week by Governor Dewey.

The New York Governor's counsel held that Birkholz had committed no offense in Kentucky, since the judgment of the Floyd circuit court in granting his divorce provided that he have custody of his son, Charles R., for six weeks during the summer and the child was taken from this state to New York under that order.

Mrs. Sylvia Turner, of Wayland, mother of the child, and divorced wife of Birkholz, stated that Birkholz had refused to return the boy, now 7, as agreed, after she had been permitted custody of the child for the specified time this summer.

But the mother's efforts, after all, were not in vain. The boy was returned to this county while Deputy Sheriff Harold Conn and Jailer Everett Collins were in New York.

Last week, Deputy Sheriff Conn brought to jail here Jimmy Dove from Putney, Ga., on extradition granted by Governor Lausche of Ohio. Dove was convicted of child desertion in 1941 but his three-year term was probated. He formerly resided at Dinwood.

1946 Sparton radio-phonograph, Model 18M-46-PA

ANYONE who can distinguish a bull fiddle from a French horn, this new 1946 Sparton radio-phonograph is important news. For the clarity and brilliance of its performance with all types of music reflect the strides that radio has made. The result is fresh enjoyment of both standard and short wave broadcast, and your favorite recorded music. The record-changer, incidentally, is completely automatic—gives you nearly a solid hour of uninterrupted enjoyment. And the cabinet is a fine piece of furniture, beautifully finished in selected walnut or mahogany veneers. Come in and hear Beethoven, Mozart or your favorite modern composer on this new Sparton. We think you'll agree that this is "Radio's Richest Voice" since 1926, and that the price is little short of sensational.

Serving you NIGHT & DAY with a smile

The Southern Bell family is made up of a whole of a lot of folks. As far as we know, it's the largest group employed by any company in the nine Southeastern states.

Operators, engineers, accountants, maintenance, construction, business office and administrative personnel—there are 45,000 busy telephone people. But that's not all. The number quickly grows to an astonishingly large part

of the South's population when you picture each telephone member in his own family circle and count about four noses to the family. You see, directly or indirectly, they're all interested in giving you the kind of telephone service you want night and day.

Telephone people are your friends and neighbors—the kind of folks you like to rub elbows with. You always know them by the voice with a smile.

MISS RIMMER TO WED MR. WEBB, SEPT. 7th, AT CHURCH HERE

The wedding of Miss Patricia Elizabeth Rimmer, daughter of Mr. and Mrs. W. C. Rimmer, Prestonsburg, and Mr. Richard Spur Webb, III, Lexington, Ky., will be solemnized at the Methodist church here on Saturday Sept. 7, at 3:30 p.m. Immediately following the open church ceremony, a reception will be held in the Valley Inn to which all friends of the family are invited.

The most common inquiries received by contact representatives concern job-training aid education and insurance. However, full and satisfactory service must be given all matters regardless of their importance. Contact representatives regard every veteran who walks into their offices in search of advice and assistance as an individual who has richly earned the attention and service he asks.

WAKE UP KENTUCKY

One state not requiring periodic motor vehicle inspection reported through police records on accidents that 27.7 per cent of the cars involved had poor brakes. That state could easily have been Kentucky.

In the District of Columbia, with periodic inspection, poor brakes rated 2.9 per cent as compared with the 27.7 per cent in the foregoing paragraph. Massachusetts, which also has a sound inspection program, rates 3.7. In New Jersey bad brakes figured in 4.8 per cent of the accidents.

The American Association of Motor Vehicle Administrators estimate that 50 per cent of all present day motor vehicles would fail to meet the requirements of a 30-foot stop at 20 miles per hour.

The experience of New Jersey is proof that state inspection pays. A state law requiring inspection twice a year was adopted in 1938. The first inspection period showed a reduction of 30 per cent in traffic deaths as compared with the same period of time in the preceding year. At the end of the first year fatalities in traffic accidents dropped below 1,000 for the first time in 12 years.

Having state-owned and operated inspection stations are Connecticut, the District of Columbia, New Jersey, South Carolina and Washington.

Getting the work done by private stations operated by the states are Colorado, Maine, Maryland, Massachusetts, New Hampshire, New Mexico, Pennsylvania, Vermont and Virginia.

Off hand, I'd say state-operated inspection stations would be better because they should be free from politics. The Kentucky Legislature can easily determine which is the better plan when it assembles in 1948.

Washington has two-lane inspection sheets in convenient places. Cars drive in at one end, get a quick going over with the minimum loss of time, and if cars are in need of repairs, the drivers get written directions and drive on. A one-lane inspection station is supposed to take care of 20,000 cars twice a year.

Memphis was the first important municipality to install a city-owned and operated inspection system for all motor cars registered in the county. Now fifteen cities have similar systems, ranging in size from Billings, Montana, to Chicago.

Some states and cities make their inspection service self-sustaining, entirely independent of general tax funds, by charging car owners an average of sixty cents per inspection.

In Kentucky a sustained public program to support a statutory semi-annual inspection program would be necessary to get cooperation from the car-owning public.

The present inspection program in Kentucky, which the Governor's office promises to carry through to complete fulfillment, is going to need all the newspaper support possible. The Highway Patrol is operating without a special periodic inspection law. The state's police have a right under the law to inspect all cars and trucks and order the owners to have the necessary repairs made, but the public must be urged to do its part by taking motor vehicles to the Highway Patrol for inspection.

The program offers every car or truck owner an opportunity to find out free of charge if anything is wrong with his vehicle.

I would be glad if I could have my car inspected gratis every month or two.

CONTACT REPRESENTATIVE IS HARD-WORKING VETERAN

One of the hardest working veterans returned from service is the Contact Representative for the Veterans Administration, the public relations office of the Veterans Administration declared recently in a review of its activities.

No obscure, this job of the Contact Representative; his job of re-adjustment is that of helping to the re-adjustment of others.

One of these contact representatives—there are 36 of them at full-time service points, with others covering 48 itinerant points—is Eisel L. McKinley, whose office here at the Employment Service serves veterans of Floyd, Johnson, Magoffin and Martin counties. The services he and other contact representatives render include:

Assisting and advising veterans, dependents and beneficiaries of their rights and benefits established by law, providing a direct link between the Veterans Administration and the public; covering the entire veteran's program and many other related activities; serving where needed, various interested community, county and state committees and veterans and their families at specified times in fire houses, church city halls, or wherever there is a desk space in a convenient location.

Service provided by contact representatives covers a wide range of benefits. Some of the more important are insurance, vocational rehabilitation and education, loans, pensions, death benefits and compensation, medical treatment, hospital and domiciliary care, funeral and burial expenses. Some of the service is complex, involving legal matters.

Sturgill and Elliott Are U. of K. Graduates

Two students from Floyd county were among the 127 seniors and graduate students receiving degrees from the University of Kentucky at summer commencement exercises Friday.

University records list as receiving Bachelor of Arts degrees: Billy B. Sturgill, Prestonsburg, and Harrison W. Elliott, Betsy Layne.

Approximately 30,000 acres of rice and vetch mixtures have been seeded in Logan county.

To those who are awaiting delivery of their New Oldsmobiles

Series '70' Club Sedan, GM '46' Club Sedan, Oldsmobile '46' Club Sedan, optional at extra cost.

A Word of Appreciation... and a Suggestion, too!

We know how anxious you are to get your new Oldsmobile. And there's nothing we'd like better to do, right now, than to say to every Oldsmobile buyer: "Your car is here. Come get it!"

But frankly, it just isn't possible to do that. There still aren't enough new Oldsmobiles to go around. Due to shortages in materials and unavoidable limitations on production, the output of new cars still is behind schedule. And our allotments are far below the figures that we originally anticipated.

We want to assure you, however, that everything possible is being done, both here and at the factory, to get your car in your hands promptly. And we'd like to take this occasion to thank you sincerely for the patient and considerate way in which you have borne with us during this period of waiting.

Meanwhile, we have an important suggestion: Don't neglect the car you drive today.

The war has taught us all the importance of careful upkeep and regular service. While you're waiting for your new Oldsmobile, therefore, be sure to take advantage of our factory-authorized Oldsmobile service program. We are offering every kind of modern automotive service—from lubrication to major overhauls. Regular servicing of your car will safeguard dependable transportation until that great day when your new Oldsmobile is here!

DOOMED

A few years ago a noted man flew to Chicago and the first word he said when he got there was, "Prohibition is doomed," and now I am happy to announce that the whiskey business is doomed. It is weighed in the balances and found wanting. Repeal of the Eighteenth amendment is a failure and has proved to be the second fall of man.

For one hundred and fifty years we had made great progress against the whiskey evil and then in the midst of a depression the reactionaries got in the saddle and by claiming that whiskey was a cure for poverty got the majority to vote for repeal and now we are living in the most shameful period in our country's history. While it used to be old grizzled mummies that ran the saloons now the whiskey is handed out by young and beautiful girls.

As far as the argument is concerned the wets have been beaten to a frazzle long ago. In fact we can say in the words of William Jennings Bryan they have not one spot of ground on which to offer battle but in the rush and run-and-go of a campaign they bring out a lot of state sayings which pass for arguments. Let us examine some of them.

First argument, PROHIBITION DON'T PROHIBIT. If it does not do anything against it? That is as good as to say that we are too powerful for you to do anything with us. We are stronger than the law. Big business one thought that and now it has been rolled down with a steam roller. The railroad companies once thought that and now they have been brought to time and your day of judgment is at hand.

While we had the Eighteenth amendment I prophesied that there would be three times as much whiskey drunk if we repealed it. I was mistaken for now there are from ten to twenty gallons used where there was one under prohibition.

Second argument, IT PAYS REVENUE TO THE GOVERNMENT. It does not pay a cent of revenue except what some man spends for whiskey and he has to spend ten dollars before the government gets one. Why not let the man pay the government the one dollar and keep the other nine since what he spends that way is worse than wasted anyway? Opium vendors and gambling joints would pay revenue to the government if we would let them and the same reason why we don't let them is a reason why we shouldn't let whiskey vendors.

Third argument, WHISKEY BRINGS PROSPERITY. Whiskey has caused more poverty than everything else put together and there is no profit in the whiskey business. Some one will wonder why men run the whiskey business if there is no profit in it. Suppose some one should ask you to go into partnership with them in the goods business and wanted to make an agreement that they should have all the profits and you should have all the losses—would you make the deal? That is exactly the kind of a trade we make with whiskey sellers. We bear their losses so they can get a profit.

If whiskey men had to pay the dollar and cent loss for all murders and trials for murder, also for dollar and cent losses for all lesser crimes; if they had to pay the dollar and cent losses for all car wrecks with loss of life and limb; in short for all losses caused by whiskey, they would be in the hole a mile deep.

Fourth argument, PEOPLE WILL GET WHISKEY ANYWAY. They will not get a drop more than there is to get and there will not be much to get in comparison with what there is now.

Fifth argument, YOU CANNOT MAKE PEOPLE GOOD BY LAW. The law is not intended to make people good from the heart, but to stop some of their evil deeds. For instance, if a man that is in the habit of getting drunk and making himself a nuisance to his neighbors and his family fails to get the whiskey because it is outlawed, he is made good by law. A whiskey seller will do all the evil he can that is lawful but he does not go out with his pistol and take men's money because that is against the law. So to that extent he is made good by law. A newspaperman will uphold the greatest enemy the human race ever had by defending the whiskey business, but he will not plagiarize—that is, use other men's writings without their consent—because the latter is against the law. So a newspaperman can be made good by law.

How true that song of the great singing morning is where it says:
The drunkard was there and the gambler,
And the man that sold them the drink;
With the people that gave him the license
Together in hell they did sink.

If people with that sin on their soul do not sink into hell I would be for repealing hell.

Whiskey is the arch-enemy of the human race. It has shed tears enough to deluge the world. It has shed blood enough to paint the world red. It has slain men enough that were their bones piled together it would make a tower of Babel reaching to the sky. It is the serpent in Eden. Let us slay this serpent before it slays us.

S. D. OSBORN

With Few Exceptions, Labor Supply Adequate

In the Prestonsburg area, which comprises Floyd, Johnson, Martin, Magoffin and Morgan counties, the total employment in 14 mining establishments increased from 8,616 on May 15 to 8,938 on June 15, the U. S. Employment Service here announced last week. During the same period, veteran employment increased from 570 to 596, which indicates that at least six veterans were hired as replacements in addition to those who were hired to increase production from 148 to 146 during the period.

With the exception of experienced coal loaders, first-class bricklayers, carpenters and electricians, the labor supply in this area is equal to or exceeds the demand.

The labor demand: Coal Mining: At the end of June, 466 men were still needed by five local mining establishments. The construction industry is still in need of labor, due to shortage of building materials. The Birmingham coal strike which began on April 1 practically paralyzed industrial activities in Eastern Kentucky since coal mining is the principal activity throughout the area, the USBS report continued. Take a Taxi Executive's word for it!

New Silvertowns "Meet Taxi Requirements"

"Rain or shine, year in and out, 24 hours of the day, taxis serve the public," says Mr. Thomas A. Ballantine, President of Yellow Cab, Louisville, Ky. "Safety, dependability, and economy are the watchwords of successful taxi operation. B.F. Goodrich Silvertowns meet these requirements."

For Safety, Economy, and Mileage choose the tire that OUTWEARS PREWAR TIRES

One of the taxi fleets that tested the new B.F. Goodrich Silvertown before it was offered for public sale was Yellow Cab, Louisville, Ky. In addition, it was tested on police cars and the B.F. Goodrich test fleet over millions of miles in all kinds of weather under severest conditions, and even at high speeds.

All these tests supported Mr. Ballantine's findings that: "... their wider, flatter tread gives our cabs better traction and surer, safer stopping. The stronger cord body means fewer interruptions and service stoppages. And in actual mileage, tests on our fleet prove they OUTWEAR PREWAR TIRES. Because Silvertown tires cover more ground, our cabs can, too, without interruption."

We know you'll want these tires for your car. So to be on the safe side, see us today.

THE PASSING OF AN ERA

WHEN my generation said farewell to the customs that they had known as children, it was no mere outgrowth of what we alone had known. Every person knows something, but with us it was really a part of a whole change. I almost said a "cosmic" change. The circumstances under which we had grown up in our earliest days the only natural ones. They had lasted unchanged for many generations. They had been followed by their connection with the Old World and with pioneer life.

Then, almost within a dozen years, came the modernizing of this staid world that we had known. Before we were hardly conscious of it, the things that we had known and loved became passing institutions. Unlike many other changes, this one came with a bound and in every part of the country. It was once possible to tell whether a person hailed from one or another neighborhood, up or down the creek. So rapidly have we become standardized that such lines of demarcation have long since passed away.

HUTSINPILLER DRUG PRESTONSBURG

A New Industry

Can be created for Floyd county. Wanted for large Drug Manufacturer the following:

We especially need May Apple, Black Cohosh or better known as Rattleweed, Bitter Root, also known as North and South Root, Wild Ginger, Angelica, Burdock Root and all other medicinal plants growing in this section.

All told, there are over 100 plants growing in Floyd county that will bring you money.

We especially need May Apple, Black Cohosh and Lobelia Herb and will pay above the list price balance of this month. Also have orders for 4,000 pounds Willow Bark dried. This item does not have to be cleaned or have the rough part taken off, just cut in about three-foot lengths and tie in bundles. Dry Ginseng is now up to \$11 per pound and Yellow Root \$6.50 and the average price for all items is the best in years. So, as the crops are laid by, you have opportunity to make good money in your spare time.

BUSY DAYS FOR PAGE, GIRLS

This would be a scene outside the WLW studios any morning these days, with chartered buses unloading their passengers who have made the trip to Cincinnati to visit the Cresley Square studios and pay a visit to Ruth Lyons' 'Morning Matinee' program. The guests arrive from all over Ohio, Indiana, Kentucky and West Virginia. More than 7,000 Westsiders a month are currently signing the register.

BRYANT SATISFIED WITH CATS IN EARLY GRID SESSIONS

Paul 'Bear' Bryant, University of Kentucky's football coach, expressed satisfaction with progress made following a recent session of contact work. "It has been the best drill we have had since I have been at Kentucky," Bryant added.

Though the practice session was only the third of the camp, Bryant, who has been in charge of the team's training since his return to Kentucky, expressed satisfaction with the progress. "I have been in charge of the team's training since his return to Kentucky," Bryant added.

Attention, VOTERS!

We believe that the best interest of all the voters of Floyd County would have been to have held the coming Local Option election on a Saturday. It is a known fact that a very small percentage of miners in Floyd county operate on Saturday, so there would have been a negligible amount of tonnage lost if we had been successful in having this date set on a Saturday.

Although the petition called for Monday, Sept. 30, it is our belief that very few of the petitioners knew that the election would be set on the first working day of the week or they would have asked for a Saturday date. We believe that the majority of people in Floyd county are fair-minded and want every legal voter to have an equal chance to cast their ballot as they see fit. It is not our intention or desire to deprive any voter, regardless of how they vote, of their greatest privilege, the right to express themselves at the polls.

But . .

It seems that the dry Campaign Committee, knowing that Monday was a working day, and regardless of the lack of valuable fuel to the nation as well as dollars and cents to the pockets of the miners and his family, still insisted, because they felt that it would gain their cause a few more votes, that this election be held on Monday, September 30th.

Miners!

The laws of Kentucky entitle you to four hours time at FULL pay to go to the polls and cast your vote, and, no matter which way you vote, notify your employer that you are going to exercise your rights and vote. Don't be disfranchised by a few dry politicians and hired temperance workers brought in from Louisville and outside the State who are trying to gain their ends by depriving you of your greatest privilege—The Right of Personal Freedom. This is still America, the land that our boys and our boys shed their blood for, that we all should be free and equal.

FLOYD COUNTY TAXPAYER'S LEAGUE

To The Voters of Floyd County:

Each and every voter should know and study the facts before casting his vote on . . .

September 30th

The issue in this election is not going to be wet or dry. THE QUESTION IS IF YOU WANT ALCOHOLIC BEVERAGES CONTROLLED LEGALLY, IN CENTERS WHERE YOU HAVE POLICE PROTECTION, OR PUT BACK INTO THE HANDS OF PEOPLE WHO HAVE NO RESPECT FOR LAW AND ORDER, AND FROM WHOM NO REVENUE IS DERIVED.

The Figures

The drys say the drunken arrests are more in wet than in dry counties. Here are the figures from Scott County:

A period from 1941 to 1943, inclusive, county wet, total arrests for drunkenness full 3 years 653

In 1944, 1945 and 5 months in 1946, 2 years and 5 months, county dry, total arrests for drunkenness 808

An increase of 155 arrests for drunkenness, although Scott County was dry.

These figures were taken from Scott County Court records in May of 1946.

How Counties Stay "Dry"

You have been told that counties, once voted dry, never come back. Here are the facts in answer to this:

WHEN THESE COUNTIES THEY MENTION VOTED DRY THREE YEARS AGO, THERE WAS NO BOOTLEG ORGANIZATION FIGHTING FOR THE DRY CAUSE. After three years of bootlegging and unlawful sale of Alcoholic Beverages, this bootleg element has built an organization many times the strength of the Good Citizens who wish to keep Alcoholic Beverages controlled by law and order. Taxpayers of Floyd county, don't let this happen to you.

There is no "so called" dry county in the State of Kentucky where Alcoholic Beverages cannot be purchased if you have the price. The only requirement is to hide from the public, give over your money and obtain your whiskey, regardless of age, sex or color. It is our purpose to keep the whiskey traffic in the open, under the supervision of law-abiding citizens and under police protection.

Floyd County Taxpayer's League
